CHINA WIRELESS COMMUNICATIONS, INC.
Fka i-TRACK, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2002
(Unaudited)

NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and Item 310(b) of Regulation S-B. They do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB/A

normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information refer to the audited financial statements of the Company as of December 31, 2001, including notes thereto, included in the Company's annual report, as amended, on Form 10-KSB/A.

NOTE 2: EARNINGS PER SHARE

The Company calculates net income (loss) per share as required by SFAS No. 128, "Earnings per Share." Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted average number of common shares and dilutive common stock equivalents outstanding. During the periods presented, common stock equivalents were not considered, as their effect would be anti-dilutive.

NOTE 3: GOING CONCERN

The Company has been a development stage company since its inception on March 8, 1999. The Company is dependent upon AVL Information Systems, Ltd. and its subsidiary to provide all of its products sold and to supply management services. Because of the uncertainty of AVL Information Systems, Ltd. to continue as a going concern to supply these products and services, there is substantial doubt about the Company's ability to continue as a going concern. Management is investigating the acquisition of the U.S. subsidiary, AVL Information Systems, Inc. from AVL Information Systems, Ltd.

The accompanying financial statements do not include an adjustment that might result from the outcome of this uncertainty.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Unless the context otherwise requires, the terms "we", "our" and "us" refers to i-Track, Inc.

CAUTION

Certain statements in this amended Quarterly Report on Form 10-QSB, our audited financial statements for the fiscal year ended December 31, 2001 as filed in our amended annual report on Form 10-KSB/A, as well as statements made by us in periodic press releases, oral statements made by our officials to analysts and shareholders in the course of presentations about ourselves, constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results, performance or achievements of us to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements. Such factors include, among other things, (1) general economic and business conditions; (2) interest rate changes; (3) the relative stability of the debt and equity markets; (4) competition; (5) the availability

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB/A

and cost of our products; (6) demographic changes; (7) government regulations particularly those related to automatic vehicle location industry; (8) required accounting changes; (9) equipment failures, power outages, or other events that may interrupt Internet communications; (10) disputes or claims regarding our proprietary rights to our software and intellectual property; and (11) other factors over which we have little or no control.

OVERVIEW

We were incorporated in the state of Nevada on March 8, 1999 by AVL Information Systems Ltd. and its principal officer and directors. AVL Information Systems Ltd. is a Canadian public company that owns and licenses certain technology and automatic vehicle location systems. Effective September 30, 2001, we entered into an exclusive worldwide distribution agreement with AVL Information Systems Ltd. Under the agreement, we are licensed to market and distribute all of the products manufactured by AVL Information Systems Ltd.

We are in the development stage and have generated minimal revenues. We have a deficit accumulated during the development stage of \$1,405,480 as of June 30, 2002. We have suffered losses from operations and require additional financing. Moreover, we are dependent upon AVL Information Systems Ltd. and its subsidiary to provide all of our products and management services. Because of the uncertainty of AVL Information Systems Ltd. to continue as a going concern to supply these products and services, there is substantial doubt about our ability to continue as a going concern. While we are investigating the acquisition of the U.S. subsidiary of AVL Information Systems in partial satisfaction of the debt, we cannot assure you that this acquisition will occur or that it will eliminate this doubt about our ability to continue.

9

RESULTS FROM OPERATIONS

We generated our first revenues during the last quarter of fiscal 2001. For the three and six months ended June 30, 2002, we generated revenues of \$70,860 and \$216,300, respectively. Cost of goods sold, as a percentage of revenues, was 78.8% and 83.8% for these periods, respectively. General and administrative expenses increased from \$27,862 during the first six months of 2001 to \$55,578 in 2002, an increase of 99.4%. In addition, we incurred management fees of \$15,000 in 2002 that were not incurred in 2001. As a result, we incurred an operating loss of \$35,578 for the six months ended June 30, 2002, as compared to \$27,862 for the six months ended June 30, 2001. The operating loss for the three months ended June 30, 2002 was \$14,446, as compared to \$4,055 for the three months ended June 30, 2001.

LIQUIDITY AND FINANCIAL CONDITION

For the six months ended June 30, 2002, the statement of cash flows reflects net cash used in operating activities of \$19,570, and net cash provided by financing activities of \$18,599. For the six months ended June 30, 2001, operating

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB/A

activities provided cash of \$17,213 and financing activities, primarily the sale of stock described below, provided cash of \$233,380.

On November 6, 2000, we filed a registration statement on Form SB-1 with the SEC (file number 333-49388) for the offer and sale of 2,500,000 units, at a price \$0.10 per unit, with each unit consisting of one share of common stock and one warrant to purchase one share of common stock. Our registration statement was declared effective on April 10, 2001. We completed the offering on April 30, 2001, selling 2,500,000 Units for gross proceeds in the amount of \$250,000. The total amount of offering expenses were \$28,005, with net proceeds of \$221,995.

In August and September, 2001, we advanced a total of \$209,000 to our affiliate, AVL Information Systems Ltd., toward the purchase of 600 Chaperone tracking units and marketing materials. This advance depleted most of our cash, leaving \$30,052 at September 30, 2001.

In October 2001, warrants for the purchase of 2,146,900 shares of our common stock were exercised for \$1,073,450. These funds have also been advanced to AVL Information Systems Ltd. toward the purchase of tracking units. An additional 346,900 warrants were exercised in November 2001.

We adjusted our financial statements as of and for the year ended December 31, 2001 to reflect the notes receivable from AVL Information Systems as being uncollectible, due to the deterioration of AVL's financial condition.

At June 30, 2002, we had cash of \$1,701 and a working capital deficiency of \$36,685. This compares to cash of \$2,672, and a working capital deficiency of \$1,107 at December 31, 2001.

We loaned funds to AVL Information Systems and its subsidiary to enable those entities to get the Chaperone units to market more quickly. Through December 31, 2001, we had orders for approximately 5,000 units of the Chaperone unit, and through June 30, 2002, we had orders for approximately 8,500 units. While we had revenues of \$216,300 for the six months ended June 30,

10

2002, sales at this level are not sufficient to cover our operating expenses or to engage in the type of marketing campaign that we need to pursue. Accordingly, we will have to pursue funding from external sources through a line of credit arrangement and/or the sale of debt and/or equity securities. We cannot assure you that we will be successful in these pursuits.

PLAN OF OPERATION

At this time, we intend to establish relationships with a number of other companies to accelerate the implementation of the distribution agreement and the sale of the Spryte and Chaperone Systems(TM). We believe that our status as a U.S. publicly traded company will assist us in establishing strategic alliances because of our perceived level of credibility and access to capital in the U.S. markets. We intend to establish relationships with existing companies engaged in

Edgar Filing: CHINA WIRELESS COMMUNICATIONS INC - Form 10QSB/A

the automatic vehicle location industry, wireless carriers, manufacturers, distributors, and Internet companies. We intend to create relationships and to retain consultants and contractors with established connections in the telecommunication and application service provider industries. We foresee that the compensation would be commission based. Depending upon the market acceptance of the Spryte and Chaperone Systems(TM), we may hire employees in the foreseeable future.

We believe that establishing a network of alliances, while not a small task, can be accomplished in a shorter period of time and at less cost than building a comparable direct sales infrastructure. It is our priority to establish a channel partner network in the U.S. and Canada, and recruit international channel partners as opportunities present themselves.

We expect to generate revenues by selling the Spryte and Chaperone Systems(TM) at cost plus margin. We believe the amount of margin will vary depending on the time, expense, and size of sale.

We do not expect to purchase any significant equipment during the next twelve months, nor do we expect to hire a significant number of employees during that time period.
