17. SEGMENT INFORMATION

The Company has three reportable segments: gas, chemical and logistics. The gas segment distributes LPG to retail, commercial and industrial consumers mainly in the South, Southeast and Northeast areas of Brazil. The chemical segment produces primarily ethylene oxide, ethylene glycols, ethanolamines and glycol ethers. The logistics segment operates storage and transportation, mainly in the Southeast and Northeast areas of the country. Reportable segments are strategic business units that offer different products and services. Intersegment sales are transacted at prices approximating those that the selling entity is able to obtain on external sales.

The principal financial information about each of the Company's reportable segments is as follows:

	2003				2002	
	Ultragaz	Oxiteno	Ultracargo	Other	Consolidated	Consolidated
Net sales, net of related-party transactions	2,622,253	1,237,793	140,177	86	4,000,309	2,994,506
Operating income before financial income (expenses) and equity in subsidiaries and affiliated companies	113,179	206,935	24,707	6,762	351,583	365,538
EBITDA	208,237	243,172	40,023	7,021	498,453	487,341

18. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic-operating and economic-financial aspects. Strategic-operating risks (such as demand behavior, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic-financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

Customer default - These risks are managed by specific policies for accepting customers and credit analysis and are mitigated by diversification of sales. Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio held R\$ 3,522 (2002 - R\$ 6,833) and Ultragaz Participações S.A. held R\$ 17,367 (2002 - R\$ 8,251) of allowances for potential losses on receivables as of December 31, 2003. The increase in the accrual of Companhia Ultragaz S.A. is composed substantially of accruals already existing in Shell's LPG business, acquired on August 8, 2003.

Interest rates - The Company and its subsidiaries adopt conservative

policies to obtain and invest funds and to minimize the cost of capital. The temporary cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to interbank deposit (CDI) rates, as described in Note 4. A portion of the financial assets is destined for foreign currency hedges, as mentioned below. Funds obtained originate from BNDES financing and from abroad, as mentioned in Note 13.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Exchange rate - The subsidiaries of the Company use foreign currency swap (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, with the objective of reducing the effects of exchange rates variation in their results. Such swaps have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency, to which they are linked. The following summary shows the assets and liabilities in foreign currency, translated into Brazilian reais at December 31, 2003:

	<u>Book value</u>
Assets:	
Investments in foreign currency and swaps	395,361
Foreign cash and cash equivalents	77,589
Receivables from foreign customers, net of advances on export contracts	27,979
	<u>500,929</u>
Total	500,929
Liabilities:	
Foreign currency financing	438,685
Import payables	9,988
	<u>448,673</u>
Total	448,673
Net asset position	<u>52,256</u>

Given the characteristics of the financial instruments described, the management of the Company and its subsidiaries believe that market values approximate book values of these financial instruments. The exchange rate variation related to cash and banks, temporary cash investments and investments of foreign subsidiaries abroad was recorded as financial expense in the statement of income for the year 2003, in the amount of R\$ 24,251 (2002 - financial income of R\$ 44,087). Other financial instruments recorded in the financial statements as of December 31, 2003 were determined in conformity with the accounting criteria and practices described in the respective notes.

19. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Civil, tax and labor lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed a class action against the subsidiary in 1990, demanding compliance with the adjustments established in collective labor agreements, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective labor dispute for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the decision of the

Federal Supreme Court (STF) in the collective dispute as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve for a potential loss is not necessary as of December 31, 2003.

The subsidiary Companhia Ultragas S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, state of São Paulo. Such lawsuits involve (i) individual suits filed by victims of the explosion claiming damages from Ultragas for the loss of economic benefit and for pain and suffering; (ii) reimbursement of expenses of the management of the shopping mall and its insurance company; (iii) class action seeking indemnification for material damages and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragas' on-site LPG storage facilities did not contribute to the explosion. It has obtained a favorable judgment in all lawsuits which have been judged to date. Further, Ultragas also believes that its insurance coverage is sufficient to cover the aggregate amount of all claims filed.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without changes introduced by Law No. 9,718/98 in its original version. The questioning refers to the levy of these taxes on gains other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$ 30,498 (2002 - R\$ 24,119).

The main fiscal discussions of the Company and subsidiaries refer to the taxation of PIS and COFINS (as detailed in the preceding paragraph) and the taxation of income earned abroad (as stated in Note 9.a)). The potential losses on these discussions are accrued in noncurrent assets as other taxes and deferred income and social contribution taxes, respectively.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel consider the risks to be low or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

Although there is no assurance that the Company will prevail in all cases, management does not believe that the ultimate resolution of tax, civil and labor contingencies not provided for will have a material effect on the Company's financial position or results of operations.

Escrow deposits and provisions are summarized below:

	2003		2002	
	Escrow deposits	Provision	Escrow deposits	Provision
Social contribution tax on net income	31	2,917	-	2,917
Labor claims	7,433	914	4,493	1,536
PIS and COFINS on other gains	58	30,498	105	24,119
Other	2,382	6,570	2,394	-
	<u>9,904</u>	<u>40,899</u>	<u>6,992</u>	<u>28,572</u>

b) Contracts

The subsidiary Terminal Químico de Aratu S.A - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with its harbor facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement using the harbor rates in effect at the date established for payment. As of December 31, 2003, such rates were R\$ 3.67 and R\$ 3.44 per ton for Aratu and Suape, respectively. The Company has been in compliance with the minimum cargo movement since the inception of the contracts.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum annual ethylene consumption level. The minimum purchase commitment and the actual demand for the years ended December 31, 2003 and 2002, expressed in tons of ethylene, are summarized below. If the minimum purchase commitment is not met, the subsidiary is liable for a fine of 40% of the current ethylene price for the quantity not purchased.

	Minimum purchase commitment	Actual demand	
		2003	2002
In tons	137,900	188,850	164,534

c) Insurance coverage for subsidiaries

Subsidiaries maintain insurance policies in amounts considered sufficient to cover potential losses from damage to assets, as well as for civil responsibility for involuntary, material and/or physical damages caused to third parties arising from their industrial and commercial operations, considering the nature of their activities and the advice of their insurance consultants.

20. STOCK PLAN (CONSOLIDATED)

At the Extraordinary Stockholders Meeting held on November 26, 2003, a benefit plan was approved for the management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by subsidiaries in which the beneficiaries are recorded; (ii) the transfer of the beneficial ownership of the shares after ten years from the initial concession provided that the professional relationship between the beneficiary and the Company and subsidiaries is not interrupted. The total value granted to executives in 2003, including taxes, was R\$ 4,960. This value will be amortized over

30

a period of ten years. The amortized amount in 2003 was R\$ 42, which was recorded as operating expense.

21. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. Adoption of this plan, managed by Ultraprev - Associação de Previdência Complementar, was approved at the Board of Directors Meeting on February 15, 2001. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name at Ultraprev, or (ii) a fixed monthly amount which will extinguish the fund accumulated in the participant's name during a period of between 5 and 25 years. As such, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt for the participants that retire under this plan. In 2003, the Company and its subsidiaries contributed R\$ 3,355 to Ultraprev, which was charged to income for the year. The total number of employee participants as of December 31, 2003 was 5,115, with no participants retired to date.

Additionally, Ultraprev has 2 active participants and 34 former employees receiving defined benefits according to the policies of a previous plan. Considering that the fair market value for the plan's assets significantly exceeds the present actuarial value of the accumulated benefit obligations, the sponsoring entities have not been contributing to the plan for these 36 participants. On the other hand, the sponsoring entities do not believe that it would be possible to recover any amounts from the plan, based on legislation applicable to closed private pension entities. As a result, no asset or liability relating to these participants has been recorded in the financial statements of the sponsoring companies.

22. SUBSEQUENT EVENT

In January 2004, the subsidiary LPG International Inc. issued Eurobonds in the amount of US\$ 60 million, maturing in June 2005 and having an interest rate of 3.5% per year. Funds from issuance were used to repay loans, as stated in Note 13.
