INTERDIGITAL COMMUNICATIONS CORPORATION

PROXY STATEMENT  
FOR THE ANNUAL MEETING OF SHAREHOLDERS  
TO BE HELD JUNE 4, 2001

The Board of Directors of InterDigital Communications Corporation, a Pennsylvania corporation (the "Company"), is furnishing you this proxy statement to solicit proxies on its behalf to be voted at the Annual Meeting of Shareholders (the "Meeting"). The Meeting will be held at the Hilton Valley Forge, King of Prussia, Pennsylvania on June 4, 2001. The proxies may also be voted at any adjournments or postponements of the Meeting. This Proxy Statement and the accompanying proxy will be first sent or given to shareholders on approximately May 4, 2001. The principal executive offices of the Company are located at 781 Third Avenue, King of Prussia, Pennsylvania 19406-1409.

Only holders of record of shares of Common Stock at the close of business on April 27, 2001 are entitled to vote at the Meeting or any adjournments or postponements of the Meeting. On that date there were 53,292,613 shares of the Company's Common Stock outstanding and entitled to vote. Each share of Common Stock entitles the holder to one vote, and votes may not be cumulated in the election of directors. Holders of the Company's \$2.50 Cumulative Convertible Preferred Stock are not entitled to vote at the Meeting. Under Pennsylvania law and the By-Laws of the Company, the presence of a quorum is required for each matter to be acted upon at the Meeting. The presence, in person or by proxy, of holders of the Common Stock entitled to cast at least a majority of the votes which all holders of the Common Stock are entitled to cast will constitute a quorum for purposes of the Meeting. Directors are elected by a plurality vote and approval of all other matters presented at the Meeting requires the affirmative vote of a majority of the votes cast by shareholders present, in person or by proxy, at the Meeting. Votes withheld and abstentions will be counted in determining the presence of a quorum, but will not be voted and will have no effect on matters to be voted upon at the Meeting. Broker non-votes will not be counted as votes cast on a proposal and will have no effect on matters to be voted upon.

A form of proxy is enclosed for use at the Meeting. Proxies will be voted in accordance with shareholders' instructions. If no instructions are indicated on the proxy, all shares represented by valid proxies received pursuant to the solicitation (and not revoked before they are voted) will be voted FOR the election of the nominees named below as directors, and FOR the

## Edgar Filing: INTERDIGITAL COMMUNICATIONS CORP - Form DEF 14A

ratification of the appointment of Arthur Andersen LLP as independent public accountants to examine the financial statements of the Company for the year

1

ending December 31, 2001, and by the proxies in their discretion on any other matters to come before the Meeting. A proxy may be revoked at any time before it is voted at the Meeting by delivering another later dated proxy, by sending written revocation to the Secretary of the Company or by attending the Meeting and voting in person. To be eligible to vote in person at the Meeting, a shareholder must be the registered owner of the shares or, if the shares are held in the name of a broker or bank, bring a legal proxy obtained from such broker or bank.

The cost of solicitation of proxies by the Board of Directors of the Company (the "Board") will be borne by the Company. Proxies may be solicited by mail, electronic mail, personal interview, telephone or telegraph and, in addition, directors, officers and regular employees of the Company may solicit proxies by such methods without additional remuneration. In addition, the Company has retained W.F. Doring & Co. to aid in the solicitation of proxies for which a fee of approximately \$7,000, plus expenses, will be paid. Banks, brokerage houses and other institutions, nominees or fiduciaries will be requested to forward the proxy materials to beneficial owners in order to solicit authorizations for the execution of proxies. The Company will, upon request, reimburse such banks, brokerage houses and other institutions, nominees and fiduciaries for their expenses in forwarding such proxy materials to the beneficial owners of the Company's Common Stock.

### ELECTION OF DIRECTORS (Proposal 1)

The Board presently consists of six members, divided into three classes each having a term of three years. The Board has nominated two current directors for election at the Meeting for a term expiring at the year 2004 Annual Meeting of Shareholders and until their successors are elected and qualified. Unless authority to vote for the nominees is withheld in the proxy, the persons named in the accompanying proxy intend to vote the shares represented by the proxy FOR the election as director of the nominees named below. We have no reason to believe that the named nominees will be unavailable to serve if elected. However, if either of the nominees is unavailable to serve for any reason, the proxies may be voted for another person nominated as a substitute by the Board. Four incumbent directors will continue to serve as directors following the Meeting as set forth below, with two directors having a term expiring at the year 2002 Annual Meeting of Shareholders and two directors having a term expiring at the year 2003 Annual Meeting of Shareholders.

The Company's Nomination and Search Committee consists of Mr. Campagna, Chairman, Mr. Clontz, and Mr. Roath. The Nomination and Search Committee acted once by unanimous written consent in 2000. Its functions include reviewing and making recommendations to the full Board concerning nominees for directors. The Board met 11 times during 2000. During 2000, each of the above incumbent directors attended at least 75% of the meetings of the Board and the committees on which they serve.

### Compensation of Directors

Each member of the Board who is not an officer or employee of the Company (an "Outside Director") is entitled, upon his election at the Annual Meeting of Shareholders, to receive an annual grant of non-qualified stock options to purchase shares of Common Stock under the Company's 2000 Stock Award and Incentive Plan. These options are granted automatically in an amount equal to 10,000 multiplied by the number of years remaining in the Director's term in office at an exercise price equal to the fair market value of the Common Stock on the date of grant. The options vest annually on the date of each year's Annual Meeting of Shareholders at the rate of 10,000 shares per year commencing on the date of the Annual Meeting following the Annual Meeting of Shareholders at which the options were granted. Prorated option grants are made to persons who served for a partial year. The Board has recently increased the amount of the annual automatic grant from 10,000 to 16,000 shares per year.

Outside Directors are also entitled to an annual monetary director fee of \$15,000 for a full calendar year of service. A pro rata portion of the \$15,000 fee is paid for service of less than a full year. Payment of fees may be made, at the election of each Director, on January 15 of each year, quarterly or deferred. The Company also reimburses Outside Directors for certain expenses incurred in attending Board and committee meetings and travel on behalf of the Company.

In connection with his service and extra commitment of time as Chairman of the Board during 2000, Mr. Campagna was awarded 40,000 restricted stock units under the Company's 1999 Restricted Stock Plan (RSUs) in 2000 and 100,000 RSUs in 2001. In connection with his service on the Board during 2000, Mr. Roath was awarded 10,000 options to purchase Common Stock in 2000 under the Company's 1997 Stock Option Plan for Outside Directors and 20,000 RSUs in 2001. During 2000 each of the Outside Directors was awarded RSUs in exchange for the relinquishment of a tax gross-up feature associated with previously granted restricted stock. The number of such RSUs were as follows: Mr. Campagna, 40,000; Mr. Colson, 12,000; Mr. Clontz, 12,000; and Mr. Roath, 12,000. The RSUs do not carry voting rights and, if unvested, they are forfeitable by the grantee upon his departure from service with the Company. As part of a program to increase ownership of Common Stock by Board members, the following Outside Directors were granted four (4) fully-vested options to purchase shares of Common Stock for each share of stock such directors purchased on the open market from December 21, 2000 to January 10, 2001 as follows: Mr. Campagna, 20,000 options; Mr. Colson, 52,800 options; Mr. Clontz, 48,000 options; and Mr. Roath, 76,190 options. The aggregate purchase price of shares eligible for the option match was capped at \$100,000 for Outside Directors. In addition, Mr. Colson was granted 20,000 options under the Company's 2000 Stock Award and Incentive Plan and 5,000 shares of stock under the Company's 1999 Restricted Stock Plan. The

## Edgar Filing: INTERDIGITAL COMMUNICATIONS CORP - Form DEF 14A

exercise price of all these options was the fair market value of the Common Stock on the date of grant.

### Compliance with Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Securities Exchange Act of 1934 (the "Exchange Act") requires the Company's directors and executive officers, and persons who own more than ten percent of a registered class of the Company's equity securities, to file with the Securities and Exchange Commission, initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. Executive officers, directors and greater than ten percent shareholders (collectively, "Reporting Persons") are additionally required to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on review of the copies of such reports furnished to the Company and written representations of Reporting Persons that no other reports were required with respect to fiscal 2000, the Reporting Persons complied with Section 16(a) filing requirements, with the exception of one late report filed by Mark Gercenstein.

### Executive Compensation

#### Compensation Committee Report on Executive Compensation

##### General

The Company's Compensation and Stock Option Committee (the "Committee") has overall responsibility for the establishment, modification and implementation of executive compensation and benefit programs of the Company. The Committee's primary responsibilities include: adopting compensation plans, setting annual salary, bonus and other direct or indirect benefits of executive officers and other members of management, and administering Company stock option, restricted stock and bonus plans including the grant of awards under such plans to all eligible employees.

##### Compensation Philosophy

One of the most important duties of the Committee is to determine the compensation of the Company's executive officers with the goal of ensuring that shareholder value serves as a primary driver and motivator of executives. Accordingly, the Committee's philosophy is to ensure that the Company's executive compensation is shareholder focused, appropriate and competitive.

In determining the amount and composition of executive compensation for the Named Officers, as defined below, and the Company's Chief Executive Officer, and in compliance with its independent oversight responsibilities, the Committee is guided by the following objectives: to assist the Company to attract and retain qualified executives in a highly competitive industry; to reward executives consistent with the Company's performance; to recognize individual performance and responsibility; to strengthen the mutuality of interest between executives

7

and the Company's shareholders; and to drive long-term performance. The principal elements of executive compensation are: base salaries, annual incentive compensation and long-term stock-based compensation. Executive benefits and perquisites have not historically been a significant component of the Company's executive compensation, although as part of its overall strategy the Committee is focused on providing competitive benefits to meet the health, welfare and retirement needs of all employees.

The Company had two Chief Executive Officers during 2000. When Mr. Goldberg was promoted to Chief Executive Officer, the Committee determined that offering him a compensation package substantially similar to that given his predecessor best served the general compensation objectives outlined above - retention, recognition of performance, strengthening the mutuality of interest of the Chief Executive Officer with shareholders and driving long-term performance.

#### Base Salary

The Company's policy is to set base salaries for each executive officer and the Chief Executive Officer in the upper middle range of scales for equivalent jobs with other similarly situated industrial employers. Annual base salaries are reviewed from time to time with the assistance of outside compensation consultants and available marketplace competitive data.

#### Annual Performance-Based Compensation

The Committee has instituted a bonus plan which provides for the payment of annual incentives to employees, including the Named Officers and the Chief Executive Officer, based on two factors: the Company's results measured against its pre-set business goals and individual performance ratings. Each executive officer was assigned a target percentage of salary (targets at 57% of salary in the case of the Chief Executive Officer and 40% of salary in the case of the other Named Officers.) Under the plan up to 30% of the executive's bonus may be paid in shares of Common Stock which is not transferable for a period of two years. Achievement of all goals results in payment of the target bonus. If actual results vary from the goals set, the bonus paid will be adjusted up or down based on a pre-set formula to reflect the variation from goals. The adoption of this plan was part of an overall strategy to create an environment of collective effort towards common goals, to give employees a stake in the performance of the Company and to appropriately reward employees when Company performance meets its desired objectives.

## Edgar Filing: INTERDIGITAL COMMUNICATIONS CORP - Form DEF 14A

To promote these ends, the corporate business goals were set at aggressive levels in 2000 to incent and compensate superior performance. The Company's

8

actual performance in 2000 with respect to meeting certain of the pre-set business goals resulted in each of the executive officers and the Chief Executive Officer, Mr. Goldberg, receiving less than the full amount of their respective target bonuses. In keeping with the Committee's philosophy to give executives more of a stake in the performance of the Company, while adding an equity retention feature, the full 30% of each executive's awards were made in the form of Common Stock. These shares are restricted as to transferability, generally for a two-year period, but are not forfeitable (except in the event that employment is terminated during such two-year period due to intentional wrong doing). The shares have full voting power and the right to receive dividends. The Committee also provided additional cash compensation in the form of a tax gross-up to cover each executives' tax liability associated with the stock payout.

The amount of Mr. Gercenstein's bonus was negotiated in connection with his termination of employment and did not include a grant of restricted stock.

During 2000, the Committee engaged Pearl Meyer & Partners, Inc. to selectively provide recommendations for modifying the Company's performance-based compensation program to ensure the Company could attract, motivate and retain appropriate personnel to key positions in the Company while ensuring that the compensation method would drive shareholder value.

### Equity Incentives

Stock options, restricted stock, restricted stock units and shares of Common Stock having restrictions on transferability have been utilized as long-term incentives. These instruments function both as effective retention mechanisms over the medium-term and as methods of focusing executives on shareholder value in that the value of such forms of equity compensation is either derived from increases in the Company's stock value or is at-risk based on the value of the Company's stock.

Restricted stock and restricted stock units issued by the Company generally vest three years from the original grant date and are forfeited if the recipient leaves the Company during that period. In 2000, the executive officers and the Chief Executive Officer were granted RSUs in a number equal to the number of shares of restricted stock previously granted to them in exchange for the relinquishment of a tax gross-up feature associated with such shares.

As discussed above, the Committee used Common Stock as a component of executive bonus compensation for 2000. The use of stock, which is restricted from transfer for two years, serves to further align executive interests with those of the shareholders and encourage retention. The Committee may elect, from time to

9

time, to grant restricted stock, restricted stock units or Common Stock to executives under the 2000 Stock Award and Incentive Plan and the 1999 Restricted

## Edgar Filing: INTERDIGITAL COMMUNICATIONS CORP - Form DEF 14A

Stock Plan.

In 2000, the Committee also adopted a program of annually evaluating and, if appropriate, granting stock options on a company-wide basis to further align the financial interests of all employees with the financial interest of the shareholders. Options are granted at 100% of the fair market value at the date of grant. The options granted to the Named Executives in 2000 vested in two equal installments, one at the close of 2000 and the second to vest in June of 2001. Both persons who served as Chief Executive Officer in 2000 received an option grant upon his appointment to the position.

As part of its philosophy that increased ownership of equity in the Company facilitates greater alignment of executive interests with shareholder interests, the Committee, in consultation with outside compensation advisors, instituted a special short-term program to incentivize executives to purchase the Company's Common Stock on the open market. For a period of approximately three (3) weeks, executives (including the Chief Executive Officer) were granted four fully vested options for each share of Common Stock they purchased. The 4-for-1 matching grant was capped at the point that the aggregate purchase price of shares bought by an executive reached the executive's then current salary.

Perquisites

Selective perquisites were given to the Chief Executive Officer in 2000. Mr. Gercenstein was paid allowances for temporary housing expenses and for a car. Mr. Goldberg, as Chief Executive Officer, has the same car allowance.

In implementing compensation policies, plans, and programs, the Committee will consider the effects of Section 162(m) of the Internal Revenue Code. Section 162(m) generally disallows a public company's tax deduction for compensation to its Chief Executive Officer and four other most highly compensated executive officers in excess of \$1 million in any tax year. Under Section 162(m), compensation that qualifies as "performance-based compensation" is excluded from the \$1 million deductibility cap, and therefore remains fully deductible even though such compensation may (together with other compensation) exceed \$1 million in a given year. The Committee intends to seek to preserve the tax deductibility of compensation to executive officers, to the extent that this objective does not impair the operation and effectiveness of the Company's compensation policies and programs. To this end, the 2000 Stock Award and Incentive Plan is being submitted to shareholders in order that annual incentive awards, stock options and certain other awards under the plan can qualify as "performance-based compensation" that will remain fully deductible by the Company. The Committee retains the flexibility, however, to enter into arrangements that may result in non-deductible compensation to executive officers.

- (4) Amounts listed under "All Other Compensation" for 2000 represent the dollar value of insurance premiums with respect to term life insurance (Mr. Goldberg \$719; Mr. Lemmo \$313; Mr. Tilden \$443; Mr. Merritt \$278; Mr. Fagan \$278) and 401(k) matching (Mr. Goldberg \$2,400; Mr. Lemmo \$2,625; Mr. Tilden \$2,523; Mr. Merritt \$2,253; Mr. Fagan \$2,399; Mr. Gerckenstein \$875); except that the amount listed for Mr. Gerckenstein also represents a salary continuation payment of \$39,774, a vacation pay-out of \$22,270 and a \$100,000 signing bonus.
- (5) Mr. Goldberg served as Interim President of the Company from September 1999 until November 2000 when he was named Chief Executive Officer. He became President in January 2001.
- (6) Mr. Fagan joined the Company as Chief Financial Officer in November 1998.
- (7) Mr. Gerckenstein joined the Company as Chief Executive Officer in April 2000; he left the Company in November 2000. Upon his departure all 25,000 unvested RSUs granted to him terminated and 125,000 unvested stock options terminated.

Each of the current Named Officers has entered into an employment agreement with the Company (the "Employment Agreements") that provides severance pay benefits, among other things, in certain events of termination of employment. The Employment Agreements (except in the case of the Chief Executive Officer) generally provide that the Company may enforce up to a one year covenant not to compete by paying severance of up to one year's salary and one year's continuation of medical and dental benefits during which time the individual is subject to non-compete provisions. Such agreements also provide a one-year covenant-not-to-compete without payment of severance following termination by the Company for "cause", as defined in the Employment Agreements. In addition, in the event of a termination within one year after a change of control, which is defined as the acquisition, including by merger or consolidation, or by the issuance by the Company of its securities, by one or more persons in one transaction or a series of related transactions, of more than fifty percent of the voting power represented by the outstanding stock of the Company or a sale of substantially all the assets of the Company, the

employee would generally receive two years salary, all of his target bonus

(except in the case of the Chief Executive Officer) and the immediate vesting of all stock options and restricted stock. The Agreements also provide that if any amount payable to the officers is subject to a federal excise tax imposed on "excess parachute payments", the officer shall be entitled to a cash payment sufficient to indemnify him for such tax.

Under the terms of his Employment Agreement, Mr. Goldberg's service as director of the company is conditioned upon his retention as Chief Executive Officer. Mr. Goldberg's agreement also provides for a one-year covenant-not-to-compete regardless of the reason for termination and independent of any obligation the Company may have to pay severance.

In connection with his departure from the Company in November 2000, Mr. Gercenstein executed a separation and confidentiality agreement. The agreement provides, in part, for salary continuation (\$350,000 per annum) for eighteen months, a bonus payment which was paid in December 2000 and the continuation of medical and dental benefits which ceased when he became eligible to participate in a new employer's plan. Under the terms of Mr. Gercenstein's Employment Agreement, Mr. Gercenstein is subject to a one-year covenant-not-to-compete regardless of the reason for termination and independent of any obligation the Company may have to pay severance.

The Employment Agreements (originally executed between October 1996 and November 1998) provide for the payment of annual salaries to said Executive Officers which may be increased from time to time. Current salaries paid pursuant to the Employment Agreements are: Mr. Goldberg, \$350,000; Mr. Lemmo, \$233,730; Mr. Merritt, \$200,340; Mr. Fagan, \$200,340; and Mr. Tilden, \$211,470.
