Notes to Unaudited Consolidated Financial Statements

Alleghany Corporation and Subsidiaries

1. Principles of Financial Statement Presentation

This report should be read in conjunction with the Annual Report on Form 10-K for the year ended December 31, 2006 (the 2006 10-K), and the Quarterly Report on Form 10-Q for the quarter ended March 31, 2007, of Alleghany Corporation (Alleghany).

The information in this report is unaudited, but reflects all adjustments which, in the opinion of management, are necessary to a fair statement of results of the interim periods covered thereby. All adjustments are of a normal and recurring nature except as described herein.

The accompanying consolidated financial statements include the results of Alleghany and its wholly-owned and majority-owned subsidiaries, and have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). All significant inter-company balances and transactions have been eliminated in consolidation.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those reported results to the extent that those estimates and assumptions prove to be inaccurate.

Certain prior year amounts have been reclassified to conform to the 2007 presentation.

In addition, in the 2007 second quarter, the Company determined that it had incorrectly classified operating payments made from its investing accounts as an investing cash flow activity in its consolidated statements of cash flows. These operating payment amounts should have been classified as outflows from operating activities. As a result, for the six month period ended June 30, 2006, cash outflows in the amount of \$28.9 million were reclassified from cash flows used in investing activities to cash flows used in operating activities. Similar corrections will also be made in future reports to cash flows for the three-month period ended March 31, 2007, the nine month period ended September 30, 2006 and the years ended December 31, 2006 and 2005 in the amounts of \$11.6 million, \$34.4 million, \$0.3 million and \$26.9 million. These corrections are not material to the Company's consolidated financial statements.

2. Earnings Per Share of Common Stock

The following is a reconciliation of the income and share data used in the basic and diluted earnings per share computations for the three and six months ended June 30, 2007 and 2006 (in thousands, except share amounts):

Table of Contents

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Net earnings	\$ 62,940	\$ 73,200	\$ 169,358	\$ 132,406
Preferred dividends	4,305	331	8,611	331
Income available to common stockholders for basic earnings per share	58,635	72,869	160,747	132,075
Preferred dividends	4,305	331	8,611	331
Effect of other dilutive securities	71	79	139	178
Income available to common stockholders for diluted earnings per share	\$ 63,011	\$ 73,279	\$ 169,497	\$ 132,584
Weighted average shares outstanding applicable to basic earnings per share	8,149,968	8,106,464	8,137,066	8,156,938
Preferred stock	787,928	88,819	787,928	44,655
Effect of other dilutive securities	24,338	20,730	19,929	20,730
Adjusted weighted average shares outstanding applicable to diluted earnings per share	8,962,234	8,216,013	8,944,923	8,222,323

Contingently issuable shares of 848,080 and 136,425 were potentially available during 2007 and 2006, respectively, but were not included in the computations of diluted earnings per share because the impact was anti-dilutive to the earnings per share calculation.

Earnings per share by quarter may not equal the amount for the full year due to rounding.

3. Commitments and Contingencies**(a) Leases**

Alleghany leases certain facilities, furniture and equipment under long-term lease agreements.

(b) Litigation

Alleghany's subsidiaries are parties to pending litigation and claims in connection with the ordinary course of their businesses. Each such subsidiary makes provisions for estimated losses to be incurred in such litigation and claims, including legal costs. In the opinion of management, such provisions are adequate.

(c) Asbestos and Environmental Exposure

The reserves for unpaid losses and loss adjustment expenses of Alleghany Insurance Holdings LLC (AIHL) include \$23.5 million and \$23.4 million of gross and net reserves at June 30, 2007, respectively, and \$23.8 and \$23.7 million of gross and net reserves at December 31, 2006, respectively, for various liability coverages related to asbestos and environmental impairment claims that arose from reinsurance assumed by a subsidiary of Capitol Transamerica Corporation (CATA) between 1969 and 1976. This subsidiary exited this business in 1976. Although Alleghany is unable at this time to determine whether additional reserves, which could have a material impact upon its results of operations, may be necessary in the future, Alleghany believes that CATA's asbestos and environmental reserves are adequate at June 30, 2007. Additional information concerning CATA's asbestos and environmental exposure can be found in Note 13 to the Consolidated Financial Statements contained in the 2006 10-K.

Table of Contents

(d) Indemnification Obligations

On July 14, 2005, Alleghany completed the sale of its world-wide industrial minerals business, World Minerals, Inc. ("World Minerals"), to Imerys USA, Inc. (the "Purchaser"), a wholly-owned subsidiary of Imerys, S.A., pursuant to a Stock Purchase Agreement, dated as of May 19, 2005, by and among the Purchaser, Imerys, S.A. and Alleghany (the "Stock Purchase Agreement"). Pursuant to the Stock Purchase Agreement, Alleghany undertook certain indemnification obligations, including a general indemnification for breaches of representations and warranties set forth in the Stock Purchase Agreement (the "Contract Indemnification") and a special indemnification (the "Products Liability Indemnification") related to products liability claims arising from events that occurred during pre-closing periods, including the period of Alleghany ownership (the "Alleghany Period").

The representations and warranties to which the Contract Indemnification applies survive for a two-year period (with the exception of certain representations and warranties such as those related to environmental, real estate and tax matters, which survive for periods longer than two years) and generally, except for tax and certain other matters, apply only to aggregate losses in excess of \$2.5 million, up to a maximum of approximately \$123.0 million. The Stock Purchase Agreement provides that Alleghany has no responsibility for products liability claims arising in respect of events occurring after the closing, and that any products liability claims involving both pre-closing and post-closing periods will be apportioned on an equitable basis. Additional information concerning the Contract Indemnification and Products Liability Indemnification can be found in Note 13 to the Consolidated Financial Statements contained in the 2006 10-K.

Based on Alleghany's experience to date and other analyses, Alleghany established a \$600,000 reserve in connection with the Products Liability Indemnification for the Alleghany Period. The reserve was \$475,000 at June 30, 2007.

(e) Equity Holdings Concentration

At June 30, 2007, Alleghany had a concentration of market risk in its available-for-sale equity securities portfolio of common stock of Burlington Northern Santa Fe Corporation ("Burlington Northern"), a railroad holding company, amounting to \$425.7 million. During the first quarter of 2007, Alleghany sold approximately 809,000 shares of Burlington Northern common stock for approximately \$65.7 million of proceeds, resulting in an after-tax gain of approximately \$36.3 million.

At June 30, 2007, Alleghany also had a concentration of market risk in its available-for-sale equity securities portfolio with respect to the common stock of certain energy sector companies amounting to \$325.8 million.

4. Segment of Business

Information related to Alleghany's reportable segment is shown in the table below. Property and casualty insurance and surety operations are conducted by AIHL through its insurance operating units RSUI Group, Inc. ("RSUI"), CATA, and Darwin Professional Underwriters, Inc. ("Darwin"). In addition, AIHL Re LLC ("AIHL Re"), established in June 2006, is a wholly-owned subsidiary of AIHL that is available to provide reinsurance to Alleghany group companies and affiliates.

Alleghany's reportable segment is reported in a manner consistent with the way management evaluates the businesses. As such, insurance underwriting activities are evaluated separately from investment activities. Net realized capital gains are not considered relevant in evaluating

Table of Contents

investment performance on an annual basis. Segment accounting policies are the same as those described in Note 1 to the Consolidated Financial Statements contained in the 2006 10-K.

The primary components of corporate activities are Alleghany Properties Holdings LLC (Alleghany Properties), AIHL's investment in Homesite Group Incorporated (Homesite), corporate investment and other activities at the parent level, including strategic equity investments. Such strategic equity investments are available to support the internal growth of subsidiaries and for acquisitions of, and substantial investments in, operating companies.

underwriting
activities,
whereas the
remainder
constitutes other
expenses.

5. Income Taxes

Net earnings for the first six months of 2006 include a tax benefit of \$10.8 million resulting from the release in the first quarter of 2006 of a valuation allowance Alleghany held with respect to a portion of its deferred tax assets relating to unused foreign tax credits. The unused foreign tax credits arose from Alleghany's ownership of World Minerals prior to its sale in July 2005. Primarily as a result of the release, Alleghany's effective tax rate on earnings before taxes and minority interest was 24.0 percent for the first six months of 2006, compared with 30.1 percent for the first six months of 2007.

Alleghany's 2004 income tax return is currently under examination by the Internal Revenue Service. Alleghany's 2003 and 2005 income tax returns remain open to examination.

6. Reinsurance

As discussed in the 2006 10-K, RSUI reinsures its property lines of business through a program consisting of surplus share treaties, facultative placements, per risk and catastrophe excess of loss treaties. RSUI's catastrophe reinsurance program (which covers catastrophe risks including, among others, windstorms and earthquakes) and per risk reinsurance program run on an annual basis from May 1 to the following April 30 and thus expired on April 30, 2007. RSUI has placed all of its catastrophe reinsurance program for the 2007-2008 period. Under the new program, RSUI's catastrophe reinsurance program covers \$400.0 million of losses, before co-participation by RSUI, in excess of a \$100.0 million net retention after application of the surplus share treaties, facultative reinsurance and per risk covers, compared with coverage for \$675.0 million of losses, before co-participation by RSUI, in excess of a \$75.0 million net retention under the expired program. In addition, RSUI's property per risk reinsurance program for the 2007-2008 period provides RSUI with reinsurance for \$90.0 million of losses in excess of \$10.0 million net retention per risk after application of the surplus share treaties and facultative reinsurance, which is substantially similar to the expired program.

As discussed in the 2006 10-K, RSUI reinsures its other lines of business through quota share treaties. RSUI's Professional Liability quota share reinsurance treaty, which expired on April 1, 2007, provided reinsurance for policies with limits up to \$10.0 million, with RSUI ceding 25 percent of the premiums and losses for policies with limits up to \$1.0 million, and 50 percent of the premiums and losses on policies with limits greater than \$1.0 million up to \$10.0 million. This treaty was not renewed by RSUI, as management decided to retain all of this business. RSUI's quota share treaty for umbrella/excess renewed on June 1, 2007 and provides reinsurance for policies with limits up to \$30.0 million, with RSUI ceding 35 percent of the premium and loss for policies with limits up to \$15.0 million and ceding 67.5 percent of the premium and loss for policies with limits in excess of \$15.0 million up to \$30.0 million. RSUI's directors and officers (D&O) liability line treaty renewed on July 1, 2007 and provides reinsurance for policies with limits up to \$20.0 million, with RSUI ceding 35 percent of the premium and loss for all

policies

Table of Contents

with limits up to \$10.0 million and ceding 60 percent of the premium and loss for policies with limits in excess of \$10.0 million up to \$20.0 million.

AIHL Re was formed in June 2006 as a captive reinsurance subsidiary of AIHL to provide catastrophe reinsurance coverage for RSUI. AIHL Re and RSUI entered into a reinsurance agreement, effective July 1, 2006, whereby AIHL Re, in exchange for market-based premiums, took that portion of RSUI's catastrophe reinsurance program not covered by third party reinsurers. This reinsurance coverage expired on April 30, 2007, and AIHL Re is not participating in RSUI's catastrophe reinsurance program for the 2007-2008 period. AIHL Re and Homesite entered into a reinsurance agreement, effective April 1, 2007, whereby AIHL Re, in exchange for an annual premium that is estimated will not be in excess of \$2.0 million, provides \$20.0 million of excess-of-loss reinsurance coverage to Homesite under its catastrophe reinsurance program. Homesite's catastrophe exposure is concentrated in the Northeast region of the United States.

As discussed in the 2006 10-K, Darwin reinsures all of its lines of business through a program consisting of a variety of excess of loss treaties. In April 2007, Darwin completed the renewal of its main reinsurance program. For Darwin's medical lines of business, the new program provides coverage for \$10.0 million of losses, before a 15 percent co-participation by Darwin, in excess of a \$1.0 million net retention, with premiums no longer varying depending on profitability as under the expired program. For Darwin's non-medical lines of business, the new program provides coverage in three layers. The first layer provides coverage for \$3.0 million of losses, before a 25 percent co-participation by Darwin, in excess of a \$2.0 million net retention. The second layer provides coverage for up to \$10.0 million of losses, before a 17.5 percent co-participation by Darwin, in excess of \$5.0 million of losses for non-publicly traded D&O liability (other than Side-A only liability) and primary insurance agents errors and omissions (E&O) liability and for \$5.0 million of losses for other non-medical lines, before a 17.5 percent co-participation by Darwin, in excess of \$5.0 million of losses. The third layer provides coverage for \$5.0 million of losses for Darwin's Side-A only D&O liability, before a 10 percent co-participation by Darwin, in excess of \$15.0 million of losses, and for \$10.0 million of losses for Managed Care E&O liability, before a 10 percent co-participation by Darwin, in excess of \$10.0 million of losses. As with its medical reinsurance program, premiums no longer vary depending on profitability as under the expired program, but ceding commissions may vary.

7. Debt and Notes Receivable

As of December 31, 2006, Alleghany Funding Corporation (Alleghany Funding) had outstanding notes payable of \$80.0 million, which were secured by a \$91.5 million installment note receivable. At the time of the debt issuance, Alleghany Funding also entered into a related interest rate swap agreement with a notional amount of \$86.2 million for the purpose of matching interest expense with interest income. This swap was pay variable, receive variable, whereby Alleghany Funding paid a variable rate equal to the one-month commercial paper rate plus 0.0625 percent and received a variable rate equal to the three-month LIBOR rate plus 0.375 percent.

The notes payable, installment note receivable and swap matured on January 22, 2007, without gain or loss.

8. Recent Accounting Pronouncements

In March 2006, FASB Statement No. 155, *Accounting for Certain Hybrid Instruments*, an amendment to FASB Statement No. 133 and 140 was issued. This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, and establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. Alleghany has adopted the provisions of this Statement as of January 1, 2007, and the implementation did not have any material impact on its results of operations and financial condition.

In July 2006, FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, was issued. This Interpretation clarifies the accounting for income taxes recognized in an entity's financial statements in accordance with FASB Statement 109, *Accounting for Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This Interpretation is effective for fiscal years beginning after December 15, 2006. Alleghany has adopted the provisions of this Interpretation as of January 1, 2007. The implementation did not have any impact on Alleghany's results of operations and financial condition, and Alleghany did not have any unrecognized tax benefits as of January 1, 2007 or June 30, 2007.

The Securities and Exchange Commission released Staff Accounting Bulletin No. 108 (*SAB 108*), in September 2006. SAB 108 provides guidance on how the effects of the carryover or reversal of prior year financial statement misstatements should be considered in quantifying a current period misstatement. In addition, upon adoption, SAB 108 permits an entity to adjust for the cumulative effect of immaterial errors relating to prior years in the carrying amount of assets and liabilities as of the beginning of the current fiscal year, with an offsetting adjustment to the opening balance of retained earnings. SAB 108 also requires the adjustment of any prior quarterly financial statements within the fiscal year of adoption for the effects of such errors on the quarters when the information is next presented. Alleghany has adopted the provisions of SAB 108 as of January 1, 2007, and the implementation did not have any material impact on its results of operations and financial condition.

In September 2006, FASB Statement No. 157, *Fair Value Measurements*, was issued. This Statement provides guidance for using fair value to measure assets and liabilities. The Statement does not expand the use of fair value in any new circumstances. The Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Alleghany does not believe that this Statement will have a material impact on its results of operations and financial condition.

At the September 2006 meeting, the Emerging Issues Task Force reached a consensus with respect to Issue No. 06-4, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements*. The Issue addresses split-dollar life insurance, which is defined as an arrangement in which the employer and an employee share the cash surrender value and/or death benefits of the insurance policy. Additional information regarding this Issue can be found in Note 1.p. to the Consolidated Financial Statements contained in the 2006 10-K. Alleghany will adopt this Issue in the first quarter of

Table of Contents

2008, and does not anticipate that it will have any material impact on its results of operations and financial condition. In February 2007, FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115, was issued. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value, at specified election dates, with unrealized gains and losses reported in earnings at each subsequent reporting date. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FASB Statement No. 157, Fair Value Measurements. Alleghany does not anticipate that this Statement will have any material impact on its results of operations and financial condition.

9. Other Information

On April 27, 2007, AIHL entered into a definitive agreement to acquire Employers Direct Corporation (EDC). The transaction closed on July 18, 2007 for a purchase price of approximately \$192.5 million.

EDC, which was founded in 2002, is an insurance holding company based in Agoura Hills, California that, through its wholly-owned insurance subsidiary Employers Direct Insurance Company, writes workers' compensation insurance on a direct basis in the State of California. For the year ended 2006, EDC has net premiums earned of approximately \$139.5 million and net income of approximately \$46.6 million. At December 31, 2006, EDC had total stockholders equity of approximately \$131.7 million.

Unless the context otherwise requires, references to AIHL include the operations of RSUI, CATA, Darwin and AIHL Re. Alleghany Properties refers to our subsidiary Alleghany Properties Holdings LLC and its subsidiaries.

Cautionary Statement Regarding Forward-Looking Information

Management's Discussion and Analysis of Financial Condition and Results of Operations and Quantitative and Qualitative Disclosures About Market Risk contain disclosures which are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as may, will, expect, project, estimate, anticipate, plan, believe, potential, should, continue or the negative versions of those words or other comparable words. These forward-looking statements are based upon our current plans or expectations and are subject to a number of uncertainties and risks that could significantly affect current plans, anticipated actions and our future financial condition and results. These statements are not guarantees of future performance, and we have no specific intention to update these statements. The uncertainties and risks include, but are not limited to, risks relating to our insurance operating units such as significant weather-related or other natural or human-made catastrophes and disasters;

the cyclical nature of the property and casualty industry;

the long-tail and potentially volatile nature of certain casualty lines of business written by our insurance operating units;

the cost and availability of reinsurance;

exposure to terrorist acts;

the willingness and ability of our insurance operating units' reinsurers to pay reinsurance recoverables owed to our insurance operating units;

changes in the ratings assigned to our insurance operating units;

claims development and the process of estimating reserves;

legal and regulatory changes;

the uncertain nature of damage theories and loss amounts;

increases in the levels of risk retention by our insurance operating units; and

adverse loss development for events insured by our insurance operating units in either the current year or in prior years.

Additional risks and uncertainties include general economic and political conditions, including the effects of a prolonged U.S. or global economic downturn or recession; changes in costs; variations in political, economic or other factors; risks relating to conducting operations in

Table of Contents

a competitive environment; effects of acquisition and disposition activities, inflation rates or recessionary or expansive trends; changes in market prices of our significant equity investments; extended labor disruptions, civil unrest or other external factors over which we have no control; and changes in our plans, strategies, objectives, expectations or intentions, which may happen at any time at our discretion. As a consequence, current plans, anticipated actions and future financial condition and results may differ from those expressed in any forward-looking statements made by us or on our behalf.

Business Overview

We are engaged, through AIHL and its subsidiaries RSUI, CATA and Darwin, in the property and casualty and surety insurance business. In addition, AIHL Re, a captive reinsurance subsidiary of AIHL, is available to provide reinsurance to Alleghany group operating units and affiliates. We also own and manage properties in the Sacramento, California region through our subsidiary Alleghany Properties and conduct corporate investment and other activities at the parent level, including the holding of strategic equity investments. These strategic equity investments are available to support the internal growth of subsidiaries and for acquisitions of, and substantial investments in, operating companies. On December 29, 2006, we acquired approximately 32.9 percent of the outstanding shares of common stock of Homesite Group Incorporated, or Homesite, a national, full-service, mono-line provider of homeowners insurance, for \$120.0 million in cash, and this investment is reflected in our financial statements in other invested assets. On July 18, 2007, AIHL acquired Employers Direct Corporation, or EDC, for a purchase price of approximately \$192.5 million. EDC is an insurance holding company based in Agoura Hills, California that, through its wholly-owned insurance subsidiary, Employers Direct Insurance Company, writes workers compensation insurance on a direct basis in the State of California.

The following discussion and analysis presents a review of our results for the three and six months ended June 30, 2007 and 2006. You should read this review in conjunction with the consolidated financial statements and other data presented in this Form 10-Q as well as Management's Discussion and Analysis of Financial Condition and Results of Operation and Risk Factors contained in our Report on Form 10-K for the year ended December 31, 2006, or the 2006 10-K, and our Report on Form 10-Q for the quarter ended March 31, 2007. Our results for the first six months of 2007 are not indicative of operating results in future periods.

Critical Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, or GAAP, requires us to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period covered by the financial statements. Critical accounting estimates are defined as those estimates that are important to the presentation of our financial condition and results of operations and require us to exercise significant judgment.

We review our critical accounting estimates and assumptions quarterly. These reviews include evaluating the adequacy of reserves for unpaid losses and loss adjustment expenses and the reinsurance allowance for doubtful accounts, analyzing the recoverability of deferred tax assets, assessing goodwill for impairment and evaluating the investment portfolio for other-than-

Table of Contents

temporary declines in estimated fair value. Actual results may differ from the estimates used in preparing the consolidated financial statements.

Readers are encouraged to review our 2006 10-K for a more complete description of our critical accounting estimates.

Consolidated Results of Operations

The following table summarizes our consolidated revenues, costs and expenses and earnings for the three and six months ended June 30, 2007 and 2006.

*

Corporate
activities consist
of Alleghany
Properties,
Homesite and
corporate
activities at the
parent level.

Our earnings before income taxes and minority interest in the first six months of 2007 increased from the corresponding 2006 period, reflecting increases in net premiums earned and net investment income, as well as substantially higher net realized capital gains. The increase in net premiums earned primarily reflects growth at CATA and Darwin, and the inclusion in the 2007 period of premiums earned by AIHL Re, partially offset by increased commission, brokerage and other underwriting expenses related to such growth. The increase in net investment income primarily reflects strong underwriting cash flow, the reinvestment of net proceeds from our public offering of mandatory convertible preferred stock in June 2006, and receipt of net proceeds from the initial public offering of Darwin common stock in May 2006. The substantial increase in net realized capital gains reflects the sale by parent of 809,000 shares of common stock of Burlington Northern Santa Fe Corporation, or Burlington Northern, for a

Table of Contents

net realized capital gain of \$55.9 million. Partially offsetting these increases was a decrease in other income, reflecting gains on sales of real property by Alleghany Properties of \$10.8 million, compared with gains of \$24.3 million in the corresponding 2006 period. Our earnings before income taxes and minority interest in the second quarter of 2007 decreased from the corresponding 2006 period, reflecting an increase in loss and loss adjustment expenses and commissions, brokerage and other underwriting expenses and a decrease in other income.

The effective tax rate on net earnings before income taxes and minority interest was 30.1 percent for the first six months of 2007, compared with 24.0 percent for the corresponding 2006 period. The effective tax rate in the first six months of 2006 includes a tax benefit of \$10.8 million resulting from the first quarter of 2006 release of a valuation allowance we held with respect to a portion of our deferred tax assets related to unused foreign tax credits. The unused foreign tax credits arose from our ownership of World Minerals, Inc. prior to its sale in July 2005. Net earnings for the first six months of 2006 include this \$10.8 million tax benefit.

<p>(1) Represent components of total revenues.</p> <p>(2) Underwriting expenses represent commission and brokerage expenses and that portion of salaries, administration and other operating expenses directly attributable to underwriting activities, whereas the remainder constitutes other expenses.</p> <p>(3) Represents net premiums earned less loss and loss adjustment expenses and underwriting expenses, all as determined in accordance with GAAP, and does not include net investment income and other income or net realized capital gains. Underwriting profit does not replace net income determined in</p>				

accordance with GAAP as a measure of profitability; rather, we believe that underwriting profit, which does not include net investment income and other income or net realized capital gains, enhances the understanding of AIHL s insurance operating units operating results by highlighting net income attributable to their underwriting performance. With the addition of net investment income and other income and net realized capital gains, reported pre-tax net income (a GAAP measure) may show a profit despite an underlying underwriting loss. Where underwriting losses persist over extended periods, an insurance company s ability to continue as an ongoing concern may be at risk.

Therefore, we view underwriting profit as an important measure in the overall evaluation of performance.

(4) Loss and loss adjustment expenses divided by net premiums earned, all as determined in accordance with GAAP.

(5) Underwriting expenses divided by net premiums earned, all as determined in accordance with GAAP.

(6) The sum of the loss ratio and expense ratio, all as determined in accordance with GAAP, representing the percentage of each premium dollar an insurance company has to spend on losses (including loss adjustment expenses) and underwriting expenses.

Discussion of individual AIHL operating unit results follows, and AIHL investment results are discussed below under Investments.

Table of Contents

RSUI

The decrease in gross premiums written in the second quarter and first six months of 2007 from the corresponding 2006 periods primarily reflects continuing and increasing pricing competition in RSUI's general liability, umbrella and property lines of business. RSUI's net premiums earned in the second quarter and first six months of 2007 increased from the corresponding 2006 periods as a result of casualty premiums written during 2006 being earned in the first six months of 2007. The increase in casualty premiums earned primarily reflects the growth of RSUI's binding authority line of business which writes small, specialized coverages pursuant to underwriting authority arrangements with managing general agents.

The increase in loss and loss adjustment expenses in the second quarter and first six months of 2007 from the corresponding 2006 periods primarily reflects a net reserve adjustment of \$17.8 million in the second quarter of 2007. The net reserve adjustment reflects an increase in estimated losses and LAE related to Hurricane Katrina in the amount of \$30.9 million after reinsurance (\$40.0 million before reinsurance), partially offset by an aggregate \$13.1 million decrease in reserves for the professional liability and D&O liability lines of business. The increase in Hurricane Katrina reserves reflects the results of a review, completed during the 2007 second quarter, of Katrina loss and LAE reserves in light of the current uncertain legal environment. RSUI reviews its reserves quarterly. In the second quarter of 2007, settlements of pending claims were larger than expected which contributed to RSUI's decision to increase reserves for its remaining pending Hurricane Katrina claims. Future legal developments, to the extent adverse to the insurance industry, may result in additional adverse development in RSUI's Hurricane Katrina loss and LAE reserves. The total gross losses paid by RSUI through June 30, 2007 relating to Hurricane Katrina amount to approximately \$837.0 million, representing 77.5 percent of RSUI's estimated gross losses of \$1.08 billion from that event. Of the estimated \$243.0 million of Hurricane Katrina gross losses left to be paid, approximately \$75.0 million, or 30.9 percent, is covered by reinsurance. The decrease in reserves for professional liability and D&O liability reflects favorable loss emergence in the 2003 and 2004 accident years following a recently completed reserve study.

The increase in underwriting expenses in the second quarter and first six months of 2007 from the corresponding 2006 periods reflects higher salary and benefit expenses and lower ceding commissions earned by RSUI on its property surplus share reinsurance arrangements, which caused net commission expenses incurred to increase. RSUI's underwriting profit for the second quarter and first six months of 2007 decreased from the corresponding 2006 periods, primarily reflecting the net reserve adjustment of \$17.8 million in the second quarter of 2007 and higher underwriting expenses, partially offset by an increase in net premiums earned and lower property losses incurred. Rates at RSUI in the first six months of 2007 as compared with the first six months of 2006 reflect overall industry trends of downward pricing as a result of increased competition, with decreased rates in all of RSUI's lines of business, particularly with respect to the general liability and umbrella lines of business.

As discussed in the 2006 10-K, RSUI reinsures its property lines of business through a program consisting of surplus share treaties, facultative placements, per risk and catastrophe excess of loss treaties. RSUI's catastrophe reinsurance program (which covers catastrophe risks including, among others, windstorms and earthquakes) and per risk reinsurance program run on an annual basis from May 1 to the following April 30 and thus expired on April 30, 2007. RSUI has placed all of its catastrophe reinsurance program for the 2007-2008 period. Under the new program, RSUI's catastrophe reinsurance program covers \$400.0 million of losses, before co-

Table of Contents

participation by RSUI, in excess of a \$100.0 million net retention after application of the surplus share treaties, facultative reinsurance and per risk covers, compared with coverage for \$675.0 million of losses, before co-participation by RSUI, in excess of a \$75.0 million net retention under the expired program. In addition, RSUI's property per risk reinsurance program for the 2007-2008 period provides RSUI with reinsurance for \$90.0 million of losses in excess of \$10.0 million net retention per risk after application of the surplus share treaties and facultative reinsurance, which is substantially similar to the expired program.

RSUI reinsures its other lines of business through quota share treaties. RSUI's Professional Liability quota share reinsurance treaty, which expired on April 1, 2007, provided reinsurance for policies with limits up to \$10.0 million, with RSUI ceding 25 percent of the premiums and losses for policies with limits up to \$1.0 million, and 50 percent of the premiums and losses on policies with limits greater than \$1.0 million up to \$10.0 million. This treaty was not renewed by RSUI, as management decided to retain all of this business. RSUI's quota share treaty for umbrella/excess renewed on June 1, 2007 and provides reinsurance for policies with limits up to \$30.0 million, with RSUI ceding 35 percent of the premium and loss for policies with limits up to \$15.0 million and ceding 67.5 percent of the premium and loss for policies with limits in excess of \$15.0 million up to \$30.0 million. RSUI's D&O liability line treaty renewed on July 1, 2007 and provides reinsurance for policies with limits up to \$20.0 million, with RSUI ceding 35 percent of the premium and loss for all policies with limits up to \$10.0 million and ceding 60 percent of the premium and loss for policies with limits in excess of \$10.0 million up to \$20.0 million.

AIHL Re

AIHL Re was formed in June 2006 as a captive reinsurance subsidiary of AIHL to provide catastrophe reinsurance coverage for RSUI. AIHL Re and RSUI entered into a reinsurance agreement, effective July 1, 2006, whereby AIHL Re, in exchange for market-based premiums, took that portion of RSUI's catastrophe reinsurance program not covered by third party reinsurers. This reinsurance coverage expired on April 30, 2007 and AIHL Re is not participating in RSUI's catastrophe reinsurance program for the 2007-2008 period. The cumulative premiums ceded from RSUI to AIHL Re under this agreement for the coverage period was \$59.1 million, which reflects a \$1.1 million premium adjustment recorded during the second quarter of 2007. AIHL Re's underwriting profit in the first six months of 2007 reflects the absence of catastrophe losses during the period. In connection with the expiration of the reinsurance agreement, the trust funds established to secure AIHL Re's obligations to make payments to RSUI under such reinsurance agreement were dissolved and the \$208.0 million in such funds was disbursed to AIHL.

AIHL Re and Homesite entered into a reinsurance agreement, effective April 1, 2007, whereby AIHL Re, in exchange for annual premium that is estimated will not be in excess of \$2.0 million, provides \$20.0 million of excess-of-loss reinsurance coverage to Homesite under its catastrophe reinsurance program. Homesite's catastrophe exposure is concentrated in the Northeast region of the United States. To secure AIHL Re's obligations to make payments to Homesite under the April 1, 2007 agreement, a deposit of \$20.0 million will be made into a trust fund being established for the benefit of Homesite.

Table of Contents

CATA

CATA's net premiums earned in the second quarter and first six months of 2007 increased from the corresponding 2006 periods, reflecting growth in gross and net premiums written in CATA's property and casualty (including in excess and surplus markets) lines of business. The modest increase in loss and loss adjustment expenses in the second quarter and first six months of 2007 from the corresponding 2006 periods reflects growth in net premiums earned, partially offset by reductions of reserves for prior accident years. Underwriting expenses for the second quarter and first six months of 2007 increased from the corresponding 2006 periods, primarily reflecting higher commissions and other acquisition-related expenses as a consequence of increased premium volumes.

CATA's underwriting profit for the second quarter and first six months of 2007 increased from the corresponding 2006 periods, primarily reflecting favorable loss emergence principally in its commercial surety and liability lines of business (resulting in a release in the 2007 first half of \$9.4 million of prior year reserves, compared with a release of \$6.3 million of prior year reserves in the first half of 2006), and an increase in net premiums earned in its property and casualty lines of business, partially offset by higher than expected property loss frequency and severity in the first half of 2007.

CATA experienced increased competition and decreased rates in its property and casualty and commercial surety lines of business during the first six months of 2007, compared with the corresponding 2006 period.

Darwin

The increase in gross premiums written at Darwin in the second quarter and first six months of 2007 from the corresponding 2006 periods reflects growth in Darwin's E&O and medical malpractice lines of business. The increase in net premiums earned in the second quarter and first six months of 2007 from the corresponding 2006 periods primarily reflects the increase in gross premiums written, an increase in retentions under Darwin's reinsurance programs, and a reduction of ceded premiums (connected to a loss reserve release for prior accident years).

The increase in loss and loss adjustment expenses and underwriting expenses in the second quarter and first six months of 2007 compared with the corresponding 2006 periods primarily reflects an increase in premium volume, partially offset by a reduction of reserves for prior accident years.

Darwin's underwriting profit for the first six months of 2007 increased from the corresponding 2006 period, primarily reflecting an increase in net premiums earned and a release of prior year loss reserves and associated adjustment to ceded reinsurance premiums totaling \$8.0 million, compared with \$0.8 million in the comparable 2006 period, partially offset by increases in loss and loss adjustment expenses and underwriting expenses related to the growth of Darwin's business. The \$8.0 million reserve adjustment consisted of \$3.8 million of loss reserve releases for the 2003 through 2006 accident years, reflecting a change in reserving methodology to give greater weight to historical claims experience, and a corresponding \$4.2 million reduction in ceded premiums.

Darwin experienced increased competition and decreased rates across all of its lines of business during the first six months of 2007, compared with the corresponding 2006 period.

Table of Contents

As discussed in the 2006 10-K, Darwin reinsures all of its lines of business through a program consisting of a variety of excess of loss treaties. In April 2007, Darwin completed the renewal of its main reinsurance program. For Darwin's medical lines of business, the new program provides coverage for \$10.0 million of losses, before a 15 percent co-participation by Darwin, in excess of a \$1.0 million net retention, with premiums no longer varying depending on profitability as under the expired program. For Darwin's non-medical lines of business, the new program provides coverage in three layers. The first layer provides coverage for \$3.0 million of losses, before a 25 percent co-participation by Darwin, in excess of a \$2.0 million net retention. The second layer provides coverage for up to \$10.0 million of losses, before a 17.5 percent co-participation by Darwin, in excess of \$5.0 million of losses for non-publicly traded D&O liability (other than Side-A only liability) and primary insurance agents E&O liability and for \$5.0 million of losses for other non-medical lines, before a 17.5 percent co-participation by Darwin, in excess of \$5.0 million of losses. The third layer provides coverage for \$5.0 million of losses for Darwin's Side-A only D&O liability, before a 10 percent co-participation by Darwin, in excess of \$15.0 million of losses, and for \$10.0 million of losses for Managed Care E&O, before a 10 percent co-participation by Darwin, in excess of \$10.0 million of losses. As with its medical reinsurance program, premiums no longer vary depending on profitability as under the expired program, but ceding commissions may vary.

Reserve Review Process

AIHL's insurance operating units periodically analyze liabilities for unpaid losses and loss adjustment expenses, or LAE, established in prior years and adjust their expected ultimate cost, where necessary, to reflect positive or negative development in loss experience and new information, including, for certain catastrophic events, revised industry estimates of the magnitude of a catastrophe. Adjustments to previously recorded liabilities for unpaid losses and LAE, both positive and negative, are reflected in our financial results in the periods in which these adjustments are made and are referred to as prior year reserve development. The following table presents the reserves established in connection with the losses and LAE of AIHL's insurance operating units on a gross and net basis by line of business. These reserve amounts represent the accumulation of estimates of ultimate losses (including for claims incurred but not yet reported) and LAE.

<i>(in millions)</i>	<i>Property</i>	<i>Casualty</i>	<i>CMP*</i>	<i>Surety</i>	<i>All Other</i>	<i>Total</i>
<i>At June 30, 2007</i>						
Gross loss and LAE reserves	\$ 458.1	\$ 1,702.5	\$ 84.9	\$ 18.8	\$ 86.5	\$ 2,350.8
Reinsurance recoverables on unpaid losses	(206.0)	(668.4)	(0.8)	(0.2)	(51.1)	(926.5)
Net loss and LAE reserves	\$ 252.1	\$ 1,034.1	\$ 84.1	\$ 18.6	\$ 35.4	\$ 1,424.3
<i>At December 31, 2006</i>

Table of Contents

Changes in Loss and LAE Reserves between June 30, 2007 and December 31, 2006

Gross Reserves. The increase in gross loss and LAE reserves at June 30, 2007 from December 31, 2006 primarily reflects increases in casualty gross loss and LAE reserves at RSUI and Darwin, partially offset by a reduction in RSUI's property gross loss and LAE reserves. The increase in casualty (which includes, among other lines, excess and umbrella, D&O liability, professional liability, general liability, medical malpractice liability and workers compensation) gross loss and LAE reserves primarily reflects anticipated loss reserves on current accident year gross premiums earned and limited gross paid loss activity for the current and prior casualty accident years. The decrease in property gross loss and LAE reserves is mainly due to gross loss payments on 2004 and 2005 hurricane related losses, principally Hurricane Katrina.

Net Reserves. The increase in net loss and LAE reserves at June 30, 2007 from December 31, 2006 primarily reflects increases in casualty net loss and LAE reserves at RSUI and Darwin. The increase in net loss and LAE reserves for the casualty lines of business primarily reflects anticipated loss reserves on current accident year gross premiums earned and limited gross paid loss activity for the current and prior casualty accident years. Slightly higher gross loss and LAE property reserves are due to an increase in estimated losses, net of reinsurance recoverables on unpaid losses, related to Hurricane Katrina, partially offset by gross loss payments on 2004 and 2005 hurricane related losses, principally Hurricane Katrina.

Reinsurance Recoverables

At June 30, 2007, AIHL had total reinsurance recoverables of \$1,002.1 million, consisting of \$926.5 million of ceded outstanding losses and LAE and \$75.6 million of recoverables on paid losses. Approximately 90.6 percent of AIHL's reinsurance recoverables balance at June 30, 2007 was due from reinsurers having an A.M. Best financial strength rating of A (Excellent) or higher.

Corporate Activities Results from Operations

Corporate activities recorded pre-tax earnings of \$0.1 million on revenues of \$10.1 million for the 2007 second quarter, compared with pre-tax earnings of \$13.8 million on revenues of \$26.9 million in the corresponding period of 2006, and pre-tax earnings of \$62.9 million on revenues of \$82.7 million for first six months of 2007, compared with pre-tax earnings of \$11.5 million on revenues of \$34.9 million in the corresponding period of 2006. The results for the first six months of 2007 primarily reflect net realized capital gains at the parent level of \$55.9 million resulting from the sale of approximately 809,000 shares of Burlington Northern common stock during the first quarter of 2007. In addition, the results for the first six months of 2007 also benefited from a sale by Alleghany Properties of real property during the 2007 first quarter which generated a net pre-tax gain of \$7.2 million. Corporate activities' results for the second quarter and first six months of 2006 reflect a sale by Alleghany Properties in the 2006 second quarter of real property resulting in a net pre-tax gain of \$23.1 million.

For the second quarter and first six months of 2007, net investment income includes \$3.3 million and \$6.2 million of Alleghany's equity in earnings of Homesite, net of purchase accounting adjustments.

Table of Contents

Investments

On a consolidated basis, Alleghany's invested asset portfolio was approximately \$4.4 billion as of June 30, 2007, an increase of 8.3 percent from approximately \$4.1 billion at December 31, 2006. At June 30, 2007, the average duration of Alleghany's debt securities portfolio was 4.19 years, compared with 4.21 years at December 31, 2006.

The invested asset portfolio generated net investment income of \$89.3 million for the first six months of 2007, of which \$73.3 million was generated by AIHL and \$16.0 million was generated by corporate activities. These amounts were \$61.6 million, \$53.5 million, and \$8.1 million, respectively, for the comparable 2006 period. The increase in AIHL's net investment income in the first six months of 2007 was due principally to strong underwriting cash flow and the reinvestment of proceeds from Darwin's initial public offering of common stock during the 2006 second quarter, as well as slightly higher average investment yields during the first six months of 2007. The increase in net investment income for corporate activities in the first six months of 2007 is due principally to the reinvestment of proceeds from our mandatory convertible preferred stock offering (after capitalization of AIHL Re), which occurred during the 2006 second quarter.

The sales within our invested asset portfolio generated net realized capital gains of \$55.8 million for the first six months of 2007, reflecting net realized capital gains of \$55.9 million generated by corporate activities and a net realized capital loss of \$0.1 million generated by AIHL. These amounts were \$17.9 million, \$2.4 million, and \$15.5 million, respectively, for the comparable 2006 period. As noted above, the net realized capital gains for corporate activities in the first six months of 2007 were due principally to the sale of Burlington Northern common stock in the first quarter of 2007. As of June 30, 2007, we held approximately 5.0 million shares of Burlington Northern common stock with an aggregate market value at that date of approximately \$425.7 million. The aggregate cost of such shares is approximately \$60.4 million, or \$12.07 per share. In the first six months of 2007, AIHL recorded \$6.6 million of net unrealized capital losses related to its mortgage- and asset-backed bond portfolio that were deemed to be other than temporary during the first quarter of 2007, which was offset by \$6.5 million of net realized capital gains on the sale of securities by AIHL. The net realized capital gains generated by AIHL in the first six months of 2006 were due principally to the sale of a large common stock holding in the energy sector in May 2006.

Financial Condition

Stockholders' equity increased to \$2,601.0 million as of June 30, 2007, compared with \$2,423.2 million as of December 31, 2006, representing an increase of 7.3 percent, due to net earnings in the first six months of 2007.

As of December 31, 2006, Alleghany Funding Corporation, or Alleghany Funding, had outstanding notes payable of \$80.0 million, which were secured by a \$91.5 million installment note receivable. At the time of the debt issuance, Alleghany Funding also entered into a related interest rate swap agreement with a notional amount of \$86.2 million for the purpose of matching interest expense with interest income. This swap was pay variable, receive variable, whereby Alleghany Funding paid a variable rate equal to the one-month commercial paper rate plus 0.0625 percent and received a variable rate equal to the three-month LIBOR rate plus 0.375 percent. The notes payable, installment note receivable and swap matured on January 22, 2007, without gain or loss.

We and our subsidiaries have adequate internally generated funds and unused credit facilities to provide for the currently foreseeable needs of our and their businesses, respectively.

Recent Accounting Pronouncements

In March 2006, FASB Statement No. 155, *Accounting for Certain Hybrid Instruments*, an amendment to FASB Statement No. 133 and 140 was issued. This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation, and establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. We have adopted the provisions of this Statement as of January 1, 2007, and the implementation did not have any material impact on our results of operations and financial condition.

In July 2006, FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, was issued. This Interpretation clarifies the accounting for income taxes recognized in an entity's financial statements in accordance with FASB Statement 109, *Accounting for Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This Interpretation is effective for fiscal years beginning after December 15, 2006. The implementation did not have any impact on our results of operations and financial condition, and we did not have any unrecognized tax benefits as of January 1, 2007 or June 30, 2007.

The Securities and Exchange Commission released Staff Accounting Bulletin No. 108 (SAB 108), in September 2006. SAB 108 provides guidance on how the effects of the carryover or reversal of prior year financial statement misstatements should be considered in quantifying a current period misstatement. In addition, upon adoption, SAB 108 permits an entity to adjust for the cumulative effect of immaterial errors relating to prior years in the carrying amount of assets and liabilities as of the beginning of the current fiscal year, with an offsetting adjustment to the opening balance of retained earnings. SAB 108 also requires the adjustment of any prior quarterly financial statements within the fiscal year of adoption for the effects of such errors on the quarters when the information is next presented. We have adopted the provisions of SAB 108 as of January 1, 2007, and the implementation did not have any material impact on our results of operations and financial condition.

In September 2006, FASB Statement No. 157, *Fair Value Measurements*, was issued. This Statement provides guidance for using fair value to measure assets and liabilities. The Statement does not expand the use of fair value in any new circumstances. The Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We do not believe that this Statement will have a material impact on our results of operations and financial condition.

At the September 2006 meeting, the Emerging Issues Task Force reached a consensus with respect to Issue No. 06-4, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements*. The Issue addresses split-dollar life insurance, which is defined as an arrangement in which the employer and an employee share the cash surrender value and/or death benefits of the insurance policy. Additional

Table of Contents

information regarding this Issue can be found in Note 1.p. to the Consolidated Financial Statements contained in the 2006 10-K. We will adopt this Issue in the first quarter of 2008, and do not anticipate that it will have any material impact on our results of operations and financial condition.

In February 2007, FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115, was issued. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value, at specified election dates, with unrealized gains and losses reported in earnings at each subsequent reporting date. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FASB Statement No. 157, Fair Value Measurements. We do not anticipate that this Statement will have any material impact on our results of operations and financial condition.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market risk is the risk of loss from adverse changes in market prices and rates, such as interest rates, foreign currency exchange rates and commodity prices. The primary market risk related to our non-trading financial instruments is the risk of loss associated with adverse changes in interest rates. We currently do not use derivatives to manage market and interest rate risks.

The table below presents a sensitivity analysis of our consolidated debt securities as of June 30, 2007. Sensitivity analysis is defined as the measurement of potential change in future earnings, fair values or cash flows of market sensitive instruments resulting from one or more selected hypothetical changes in interest rates over a selected time. In this sensitivity analysis model, we use fair values to measure its potential change, and a +/- 300 basis point range of change in interest rates to measure the hypothetical change in fair value of the financial instruments included in the analysis. The change in fair value is determined by calculating hypothetical June 30, 2007 ending prices based on yields adjusted to reflect a +/- 300 basis point range of change in interest rates, comparing these hypothetical ending prices to actual ending prices, and multiplying the difference by the par outstanding.

At June 30, 2007 (in millions)

Interest rate shifts	-300	-200	-100	0	100	200	300
Debt securities, fair value	\$ 3,051.6	\$ 2,931.6	\$ 2,816.4	\$ 2,702.4	\$ 2,588.9	\$ 2,477.8	\$ 2,371.1
Estimated change in fair value	\$ 349.2	\$ 229.2	\$ 114.0		\$ (113.5)	\$ (224.6)	\$ (331.3)

This sensitivity analysis provides only a limited, point-in-time view of the market risk of the financial instruments discussed above. The actual impact of changes in equity prices and market interest rates on the financial instruments may differ significantly from those shown in the sensitivity analysis. The sensitivity analysis is further limited because it does not consider any actions we could take in response to actual and/or anticipated changes in interest rates.

Our 2006 10-K provides a more detailed discussion of the market risks affecting our operations.

Table of Contents**ITEM 4. CONTROLS AND PROCEDURES.**

We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer, or CEO, and our Chief Financial Officer, or CFO, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report on Form 10-Q pursuant to Rule 13a-15 promulgated under the Securities Exchange Act of 1934. Based on that evaluation, our management, including the CEO and CFO, concluded that our disclosure controls and procedures are effective in timely alerting them to information required to be included in our periodic reports required to be filed with the U.S. Securities and Exchange Commission. Additionally, as of the end of the period covered by this report on Form 10-Q, there have been no changes in internal control over financial reporting that have occurred during the period covered by this report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1A. RISK FACTORS.**

There are no material changes from the risk factors set forth in Part I, Item 1A, Risk Factors, of our 2006 10-K. Please refer to that section for disclosures regarding the risks and uncertainties related to our businesses.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**(c) Issuer Purchases of Equity Securities.**

The following table summarizes our common stock repurchases for the quarter ended June 30, 2007.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
April 1, 2007 through April 30, 2007	(1)551	\$ 378.22		
May 1, 2007 through May 31, 2007				
June 1, 2007 through June 30, 2007				
Total	(1)551	\$ 378.22

Table of Contents**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.**

Our 2007 Annual Meeting of Stockholders was held on April 27, 2007. At the Annual Meeting, three directors were elected to serve for three-year terms on our Board of Directors, by the following votes:

	FOR	WITHHELD
Allan P. Kirby, Jr.	7,063,277	53,200
Thomas S. Johnson	7,081,103	35,374
James F. Will	6,926,508	189,969

Our 2007 Long-Term Incentive Plan was approved by a vote of 5,756,538 shares in favor and 359,944 shares opposed. A total of 485,124 shares abstained from voting.

The selection of KPMG LLP, independent registered public accounting firm, as our auditors for the year 2007 was ratified by a vote of 7,040,598 shares in favor and 64,634 shares opposed. A total of 11,247 shares abstained from voting.

ITEM 6. EXHIBITS.
