Table of Contents

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements, effective September 1, 2008. FAS 157 established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At May 31, 2009, the inputs used in valuing the Fund's investments, which are carried at value, were as follows:

	Valuation Inputs	Investments in Securities
Level 1	Quoted Prices	\$ 841,139,471
Level 2	Other Significant Observable Inputs	484,340,521
Level 3	Significant Unobservable Inputs	
Total		\$ 1,325,479,992

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

	Investments in Securities
Balance as of August 31, 2008	\$ 0*
Realized gains (losses)	0
Change in net unrealized appreciation (depreciation)*	0
Net purchases (sales)	(0)
Net transfer to (from) Level 3	
Balance as of May 31, 2009	\$

* All Level 3 assets held at August 31, 2008 were valued at \$0.

For information on the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to the Fund's most recent financial statements included in its semiannual or annual report to shareholders.
