Item 2.02 Results of Operations and Financial Condition.

PolyOne Corporation (NYSE: POL), a premier global provider of specialized polymer materials, services and solutions, announced a new global organization structure on February 4, 2010. As a result of these changes which were effective on January 1, 2010, PolyOne will now report its results of operations in five segments:

1. Global Color, Additives & Inks
2. Global Specialty Engineered Materials
3. Performance Products and Solutions
4. PolyOne Distribution
5. SunBelt Joint Venture

With the exception of our SunBelt Joint Venture, each reportable segment has a president who reports to Stephen D. Newlin, our chairman, president and chief executive officer. For segment purposes, Mr. Newlin is the chief operating decision maker.

Additionally and in support of the new global organization, PolyOne will harmonize its global inventory accounting policy such that all businesses will now report on a first-in-first-out (FIFO) basis. Certain U.S. businesses previously used the last-in-first-out (LIFO) methodology. This is a change in accounting principle elected by PolyOne during the first quarter of 2010. The change in accounting principle is required to be reported through retrospective application of historical results in future quarterly and annual reports filed with the SEC to conform to current period presentation. For informational purposes, included in Exhibit 99.1 to this Current Report on Form 8-K are historical unaudited consolidated statements of operations and business segment operations adjusted to reflect the new segment reporting structure and apply the new accounting method retrospectively.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Exhibit

Number Description

99.1 Consolidated Statements of Operations and Business Segment Operations, as Adjusted.
