Bowne 401(k) Savings Plan

New York, New York

We have audited the accompanying statement of net assets available for benefits of Bowne 401(k) Savings Plan (the Plan) as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009, and the changes in net assets available for benefits for the year then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of expressing an opinion on the basic 2009 financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2009 financial statements taken as a whole.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Investment and Administrative Committee of the
Bowne 401(k) Savings Plan:

We have audited the accompanying statement of net assets available for benefits of the Bowne 401(k) Savings Plan (the Plan) as of December 31, 2008. The financial statement is the responsibility of the Plan s management. Our responsibility is to express an opinion on the financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 in conformity with U.S. generally accepted accounting principles.

**BOWNE 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008**

(1) Description of the Plan

The following brief description of the Bowne 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan s provisions.

(a) General

The Plan is a defined contribution plan established November 1, 1961 covering all eligible employees of Bowne & Co., Inc. (the Company) and its subsidiaries located in the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Eligibility

The Plan covers all full-time or part-time employees who work at least 25 hours per week including full-time employees of the participating companies that are covered by collective bargaining agreements, subject to certain provisions. If an employee is classified as a temporary full-time or part-time employee, they are eligible to participate in the Plan after completing 1,000 or more hours in the first 12 months of employment or in any calendar year after their date of hire. Employees are eligible to participate as of the first day of employment.

(c) Contributions

Participants are able to direct the Company to deposit contributions withheld through automatic payroll deductions, subject to certain limitations of up to 50% of annual eligible compensation on a pre-tax basis and up to 15% of annual eligible compensation on an after-tax basis (up to 10% on an after-tax basis for highly compensated employees). For the year ended December 31, 2009, the maximum pre-tax contribution a participant was permitted to make to the Plan was \$16,500 (annually adjusted as provided by the Plan and the Internal Revenue Code (the Code)). Certain eligible participants, age 50 and older, were eligible to contribute an additional \$5,500.

Effective January 1, 2009, the Company suspended employer contributions to the Plan to mitigate the effect of the recent economic crisis. Annual discretionary profit-sharing contributions are determined by the Board of Directors of each participating company s business segment, based on company performance, and cannot exceed the maximum amounts allowable under the Code. There were no discretionary contributions for the year ended December 31, 2009. Prior to January 1, 2009, the Company matched 100% of the first 3% of the participant s compensation plus 50% of the next 2% of compensation after one year of eligible service.

A participant not covered by a collective bargaining agreement may make a rollover contribution to the Plan of amounts which he or she has received from another qualified plan.

The Plan provides for automatic escalating enrollment for all employees hired on or after January 1, 2006. Automatic enrollment begins at a pre-tax contribution rate of 3% of eligible compensation, as defined in the Plan. Effective as of the first pay period of each subsequent Plan year, the contribution percentage is increased by 1% each year up to a maximum percentage of 8%. Employees may elect to opt out of the automatic enrollment, or they may opt out of or change the percentage of the automatic escalating contribution option at any time.

The Plan also accepts Roth contributions made by participants. A Roth contribution is a contribution that is designated irrevocably by the participant and is made in lieu of all or a portion of the pre-tax contribution the participant is otherwise eligible to make under the Plan. The Roth contributions are subject to the same limitations and matching provisions as the traditional participant contributions. A participant s Roth contribution is allocated to a separate account maintained for such contributions.

Table of Contents

(d) Vesting

Participants are fully vested at all times in their contribution account, rollover account, and any investment earnings related to those accounts, if applicable. The Plan provides cliff vesting in which participants become fully vested in the Company's discretionary profit-sharing contributions made on or after January 1, 2008 after three years of credited service. Participants become fully vested in the Company's discretionary profit-sharing contributions made prior to January 1, 2008 after five years of credited service for any discretionary profit-sharing contributions made prior to January 1, 2008. Additionally, regardless of years of credited service, participants automatically become vested in company profit-sharing contributions upon the occurrence of the following events: reaching normal retirement age, Plan termination, death, or permanent and total disability.

Participants are 100% vested for employer matching contributions if they were employed by the Company as of December 31, 2002. All employees hired after January 1, 2003 must complete one year of service to be eligible for the match and are 100% vested in the matching contributions.

Effective January 1, 2008, employees were no longer subject to the one-year service requirement to be eligible for the Company's matching contributions. However, any participant employed by the Company on or after January 1, 2008 shall be 100% vested in, and have a nonforfeitable right to his or her matching account upon the completion of two years of credited service, as defined by the Plan.

Effective June 17, 2009, the Plan was amended to fully vest participants of the Plan whose employment was involuntarily terminated during the period from January 1, 2008 through December 31, 2009.

(e) Participants' Accounts

Separate accounts are maintained for each participant and are credited with the participant's elective contributions, Company contributions, and Plan earnings on both employer and employee contributions to the various investment funds. Participants can elect to have their accounts invested in various investment funds, each with a different investment objective and strategy. Changes requested by participants are implemented as soon as administratively practicable if in accordance with the Plan document.

Participants may change the investment direction of their contributions and transfer amounts from one fund to another daily.

Prior to January 1, 2009, participants covered by collective bargaining agreements were only able to invest in the Company's common stock fund.

(f) Participant Distributions

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive the value of the participant's vested interest in his or her account in a lump-sum amount.

Amounts transferred to the Plan from the Bowne Employee Stock Purchase Plan (ESPP), which was merged into the Plan in 2003, on behalf of participants not covered by a collective bargaining agreement are able to be withdrawn in whole or in part, subject to certain Plan provisions.

Pre-tax contributions to the Plan on behalf of participants covered by collective bargaining agreements are eligible to be withdrawn prior to termination of employment subject to certain Plan provisions.

(g) Hardship Withdrawals

Participants may withdraw their employee pretax contributions (but not the earnings on the pretax contributions), vested portion of discretionary profit-sharing contributions, and rollover contributions, if applicable, to satisfy immediate and heavy financial needs. In accordance with Internal Revenue Service (IRS) regulations, participants must first exhaust all other assets available before obtaining a hardship withdrawal. All hardship withdrawals must be approved by the Plan administrator. After a hardship withdrawal, a participant may not make a contribution to the Plan for six months.

Table of Contents**(h) Forfeitures**

The nonvested portion of a participant's account will be forfeited upon the participant's separation from service before age 65 for reasons other than death or disability. In 2009 and 2008, forfeited amounts were used to reduce employer contributions made during such Plan year or succeeding Plan years and to pay the expenses of the Plan. During 2009, forfeitures used primarily to reduce the employer contribution receivable as of December 31, 2008 totaled \$130,306. At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$10,963 and \$93,822, respectively.

(i) Loans

The Plan provides two types of loans to participants not covered by collective bargaining agreements: general loans and home purchase loans. Participants not covered by collective bargaining agreements are limited to one outstanding loan of each type at any time. Participants not covered by collective bargaining agreements may borrow the lesser of 50% of their vested account balance or \$50,000, with an annual interest rate of prime plus 1% on the outstanding balance. General loans are subject to a maximum repayment term of five years. Home purchase loans may extend the repayment term to 15 years. Loan repayment is through payroll deductions. At December 31, 2009 and 2008, there were 635 and 697 individual loans outstanding, bearing an interest rate ranging from 4.0% to 10.5%, with maturities through 2024.

Amounts transferred to the Plan from the ESPP and Roth contributions are not available to be taken as a loan; however, these amounts are included in determining the maximum amount available for a loan under the Plan.

(2) Summary of Significant Accounting Policies**(a) Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual amounts could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan:

Mutual funds and common stock: The fair values of mutual fund and common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Participant loans: The fair values of participant loans have been estimated to approximate amortized cost, primarily due to the restrictions on their transferability (level 3 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflect potential future values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(d) Payment of Benefits

Benefit payments are recorded when paid.

Table of Contents

(e) Concentration of Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments, with the exception of the Bowne & Co., Inc. Stock Fund, which principally invests in the securities of a single issuer. At December 31, 2009 and 2008, approximately 4% and 3%, respectively, of the Plan's net assets were invested in the common stock of the Company. The underlying value of the common stock of the Company is dependent upon likelihood of the merger closing, as discussed in more detail in Note (10), as well as the performance of the Company and the market's evaluation of such performance.

(3) Administrative Expenses

The investment and administrative expenses of the Plan have been paid from the assets of the Plan to the extent not paid by the Company.

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan by action of its board of directors, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(5) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 12, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving its last determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Company believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

* Individual investments that represent 5% or more of the Plan's net assets.

Net appreciation in fair value of investments for the year ended December 31, 2009 was comprised as follows:

Registered Investment Companies	\$ 29,052,554
Bowne & Co., Inc. Stock Fund	4,702,224
Total net appreciation in fair value of investments	\$ 33,754,778

(7) Fair Value Measurement of Investments

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This standard establishes a fair value hierarchy, which requires an entity to

maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2 Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Significant unobservable inputs supported by little or no market activity and that reflect the reporting entity's own assumptions about the exit price, including assumptions that market participants would use in pricing the asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Table of Contents

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis as of December 31, 2009 and 2008, respectively:

(8) Nonparticipant-Directed Investments

Effective January 1, 2009, participants covered by collective bargaining agreements are able to invest in the Plan's various investment funds. Prior to January 1, 2009, the participants covered by collective bargaining agreements were required to keep investments in the Company's common stock fund. (9) Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds investments in various mutual funds managed by the Vanguard Group. Vanguard Fiduciary Trust Company is a wholly-owned subsidiary of Vanguard Group, Inc. Vanguard Fiduciary Trust Company is

Table of Contents

the trustee, as defined by the Plan, therefore, these investments, investment transactions, and the Plan's payments of trustee fees qualify as party-in-interest transactions. The Plan also holds the Bowne & Co., Inc. Stock Fund. The Bowne & Co., Inc. Stock Fund held 1,218,626 shares of Bowne & Co., Inc. common stock at December 31, 2009. The Plan recognized dividend income of \$348,880 from the investment in Bowne & Co., Inc., which is a related party investment, during 2009. Participant loans held by the Plan also are considered party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

(10) Merger Agreement with R.R. Donnelley

On February 23, 2010, the Company entered into an Agreement and Plan of Merger (the Merger Agreement) with R.R. Donnelley & Sons Company, a Delaware corporation (R.R. Donnelley), and Snoopy Acquisition, Inc., a Delaware corporation and a wholly owned subsidiary of R.R. Donnelley (Merger Sub). The Merger Agreement was approved by the Boards of Directors of the parties to the Merger Agreement. The merger was also approved by the Company's shareholders in May 2010.

Pursuant to the terms of the Merger Agreement, Merger Sub will merge with and into the Company, with the Company surviving the merger (the Merger) as a wholly-owned subsidiary of R.R. Donnelley. In the Merger, each outstanding share of common stock of the Company, other than those held by the Company or its subsidiaries, or owned by R.R. Donnelley or Merger Sub and those with respect to which dissenters rights are properly exercised, will be cancelled and converted into the right to receive cash in the amount of \$11.50 per share.

Consummation of the merger is subject to various customary conditions, including the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, other applicable regulatory approvals and the absence of certain legal impediments to the consummation of the Merger.
