

PETROBRAS - PETROLEO BRASILEIRO SA
Form 6-K
September 07, 2010

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

Form 6-K

**REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13a-16 OR 15d-16 UNDER THE
SECURITIES EXCHANGE ACT OF 1934**

For the month of September 2010

Commission File Number 1-15106

PETRÓLEO BRASILEIRO S.A. PETROBRAS
(Exact name of registrant as specified in its charter)

**BRAZILIAN PETROLEUM CORPORATION
PETROBRAS**
(Translation of registrant's name into English)

**Avenida República do Chile, 65
20035-900 Rio de Janeiro RJ,
Brazil
(55-21) 3224-4477**

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.
Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T
Rule 101(b)(1): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.
Yes No

If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):
82-_____.

This report on Form 6-K is incorporated by reference in the Registration Statement on Form of F-3 of Petróleo Brasileiro S.A. - Petrobras (No. 333-163665).

We are attaching the document identified below as an exhibit to this report on Form 6-K in connection with our global offering of shares, including shares in the form of ADSs:

Assignment Agreement dated as of September [___], 2010, among Petróleo Brasileiro S.A. - Petrobras, the Brazilian federal government, and the National Petroleum, Natural Gas and Biofuels Agency-ANP.

We have filed with the Securities and Exchange Commission under Rule 424(b)(2) a preliminary prospectus supplement, dated as of September 3, 2010.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

PETROLEO BRASILEIRO S.A.

sign, pursuant to Law nº 12.276 from 2010, the present Contract of Transfer of Rights Agreement for Research and Mining of Crude Oil, Natural Gas and other Fluid Hydrocarbons (hereinafter referred to as Contract), according to the following clauses and conditions:

CHAPTER I BASIC PROVISIONS

FIRST CLAUSE: DEFINITIONS

Definitions in the Contract

1.1. For the purpose of this Contract, the definitions in this paragraph 1.1 will be used and, in the matters that they do not conflict, those contained in Law nº 9.478, of 1997, and in Decree nº 2.705, from August 3, 1998, every time the following words and expressions are used, whether in the singular form or the plural one:

Agreement of Production Individualization means the instrument to be signed between the Assignee and the

Interested Party so that the production of the Oilfield that goes beyond the Contracted Area can be unified, according to the terms in the Sixteenth Clause.

Affiliated means any company that, directly or indirectly, is controlled by the Assignee.

Area of Development means any portion of the Contracted Area in which the activities determined in the Development Plan will be performed.

Contract Area means the Blocks, described and delimited in Attachment I Contract Area, in which the Assignee will be able to perform the Research and Mining activities of Oil, Natural Gas and other Fluid Hydrocarbons, which performance is assigned for consideration, pursuant to the terms in this Contract.

Pre-salt Area means the region in the subsoil formed by a vertical prism of undetermined depth, with a polygonal surface defined by geographical coordinates of its vertexes established by Attachment VIII Pre-salt Area.

Evaluation means the set of Operations that have the purpose of verifying the marketability of a Discovery or

and-mail: abps@abpstraducoes.with.br

set of discoveries of Oil, Natural Gas or other Fluid Hydrocarbons in each Block of the Contract Area.

Crude Oil Equivalent Barrel or Barrel means the volume equivalent to 0,158987 cubic meters of crude oil, condensate and gas natural in the reference conditions of 20°C in temperature and 0,101325 MPa of pressure, with the conversion of natural gas volumes into crude oil calculated in a relation of 1 m³ of crude oil to 1,000 m³ of gas, excluding the volumes of CO₂.

Definitive Blocks means the Blocks as identified in Attachment I Contract Area.

Contingent Block means the Block identified in Attachment I of the Contract.

Assignor means the Federal Government, according to the preamble of this Contract.

Transfer of Rights Agreement means the juristic act through which the Assignor transmits, upon payment of a consideration, to the Assignee the activities of research and mining of Crude Oil, Natural Gas and other Fluid Hydrocarbons pursuant to the terms provided for in Law n° 12.276, of 2010.

by the Assignee and approved by ANP, with the term limited in paragraph 10.2. The Exploration Phase of each Block ends with the Declaration of Marketability of the Discovery or the full return of the Block.

Production Phase means the period initiated on the date the respective Declaration of Marketability is delivered up to the end of the Validity Term of the Contract.

Brazilian Supplier means any producer or supplier for the goods produced or of the services rendered in Brazil, through companies constituted under Brazilian laws or companies that use goods produced in the country under special customs rules and fiscal incentives applicable to the Crude Oil and Natural Gas industry.

Associated Gas means the Natural Gas produced in the Oilfield where it is found dissolved in contact with underlying Crude saturated by Natural Gas.

Non Associated Gas means the Natural Gas produced in the dry Gas Oilfield or in the Gas Oilfield and condensed.

and the prevention of operational accidents; (c) preservation of the environment and the respect to the populations, what determines the adoption of technologies and procedures associated with prevention and mitigation of environmental damages, as well as the control and environmental monitoring of the exploration and production operations of Crude Oil, Natural Gas and other Fluid Hydrocarbons.

Development Stage Module means the set of installations and infra-structure for the Production of determined Field, conceived to extract Crude Oil, Natural Gas and other Fluid Hydrocarbons from one or more Oil wells in this Field in an independent way.

Operations means all and any Exploration, Evaluation, Development, Production, Deactivation and abandonment, done in sequence, together or separately, by the Assignee for the purposes of this Contract.

Operator means PETROBRAS, the party responsible for conducting and performing, directly or indirectly, all of the Exploration, Evaluation, Development,

Production, Deactivation and Desertion activities of the Exploration and Production facilities.

Annual Budget means a detailing of the expenses and investments to be made by the Assignee in the performance of the respective Annual Work Program, during the calendar year, within the terms in the Twentieth Clause.

Party means the Federal Government or PETROBRAS.

Parties means the Federal Government and PETROBRAS.

Evaluation Plan of the Discovery means the document prepared by the Assignee containing the work program and the respective needed investments for the Evaluation of a Discovery or set of Discoveries of Crude Oil, Natural Gas or Fluid Hydrocarbons in the area subject matter of the Transfer of Rights Agreement, pursuant to the terms provided for in paragraph 10.9.1.

Development Plan means the document prepared by the Assignee containing the work program and respective needed investments for the Development of a Discovery or set of Discoveries of Crude Oil, Natural

Gas or other Fluid Hydrocarbons in the Contracted Area, pursuant to the Thirteenth Clause.

Validity Term means the term determined in the Fifth Clause.

Annual Production Program means the document prepared by the Assignee containing the forecasts for the Production of Crude Oil, Natural Gas, water, fluids and residues derived from the production process of each Field and the set of activities foreseen for the process, treatment, flow and transportation of the production.

Annual Work Program means the document prepared by the Assignee containing the set of activities to be carried out by the Assignee during the calendar year.

Deactivation of the Installations Program means the document prepared by the Assignee containing, in detail, the proposal to plug and desert wells, the deactivation and removal of the plants, equipment and other assets and all other considerations relevant to the Field.

Mandatory Exploration Program means the set of operations that must be mandatorily complied with by the Assignee, during the Exploration Phase, according to the provision in Attachment IV **Mandatory Exploration Program**.

Final Report on the Mandatory Exploration Program means a document prepared by the Assignee describing the set of Operations done during the Exploration Phase, as well as its results and the Evaluations of eventual Discoveries.

Revision means the renegotiation by the Parties of certain items of this Contract, based on new reports made by independent accrediting entities, pursuant to the terms of the Eighth Clause.

Royalties mean the financial compensation due to the States, to the Federal District and to the Cities, as well as to the organs of direct administration of the Federal Government, because of the production of Crude Oil, Natural Gas and other Fluid Hydrocarbons under the regime of the Transfer of Rights Agreement, pursuant to the terms in art. 20, paragraph 1, of the Federal

Constitution, and according to the Twenty-seventh Clause.

Long Duration Test means test in the wells done during the Exploration Phase, with the exclusive purpose of obtaining data and information for knowledge of the reservoirs, with total time superior flow at 72 (seventy-two) hours.

Value to be recovered means the amount equal to the multiplication of the non-recoverable amount after reallocation by the value of the Barrel in Block for which the reallocation has been performed, as provided for in paragraph 13.26.

Value of the Contract means, before the revision, the Initial Value of the Contract and, after the Revision, the Revised Value of the Contract.

Initial Value of the Contract means the value to be paid by the Assignee due to the execution of the Contract to Assignor negotiated by the Parties considering the inputs of the technical evaluation reports provided for in Section 3 of Law No. 12.276, of 2010.

Revised Value of the Contract means the value that resulted from the revision, pursuant to the Eighth Clause.

Maximum Volume means the quantity of the Barrel Equivalent of Crude Oil that the Assignee is authorized to produce within the terms of this Contract.

CHAPTER II TRANSFER OF RIGHTS AGREEMENT

SECOND CLAUSE: SUBJECT MATTER

2.1 This contract has as subject matter the Transfer of Rights Agreement to the Assignee, of the performance of activities of Research and Mining of Crude Oil, Natural Gas and other Fluid Hydrocarbons located in the Pre-salt Area.

2.2. The performance of activities referred to in paragraph 2.1 is limited to the production of 5 (five) billion of Barrel Equivalent of Crude Oil (Maximum Volume), pursuant to the terms in paragraph 2 of art. 1, of Law nº 12.276, from 2010.

2.3. As return for the Transfer of Rights Agreement provided in paragraph 2.1, the Assignee undertakes to

make the payment of the Value of the Contract to the Assignor, in the form and term established in the Fourth Clause of this Contract.

THIRD CLAUSE: AREA OF THE CONTRACT

Contract Area

3.1. The Assignee is, within the terms of this Contract, authorized to perform the activities of Research and Mining of Crude Oil, Natural Gas and other Fluid Hydrocarbons in the Blocks detailed and delimited in Attachment I Contract Area.

FOURTH CLAUSE: VALUE AND FORM OF PAYMENT

Value

4.1. The Initial Value of the Contract, pursuant to the terms of section 3, of Law nº 12.276, of 2010, considering the input of the technical evaluation reports referred to in Section 3 of Law No. 12.276, of 2010, is R\$ 74,807,616,407.00 (Seventy-four billion, eight hundred and seven million, six hundred and sixteen thousand, four hundred and seven Brazilian Reais).

Form of Payment

Translation nºJ11791/10 CL/IS

Rio of the Janeiro Centro

Tel: 2213-2986 and Fax: 2518-3817

and-mail: abps@abpstraducoes.with.br

4.2. Assignee shall pay the Initial Value of the Contract to Assignor up to September 30, 2010, by any of the following manners, which may be used either individually or jointly:

(a) in federal public security bonds, under the form of Treasury Bills due on September 7th, 2014, March 7th, 2015, September 7th, 2015 and September 7th, 2016;

(b) in Reais.

4.3. The payment conditions in public security bonds from the federal government shall be established in an Act of the Ministry of Finance.

FIFTH CLAUSE: VALIDITY AND DURATION

Beginning

5.1. This Contract will be in force on the date of its signing (Signing Date).

Validity Term

5.2. The Validity Term of this Contract is of 40 (forty) years counted from the Signing Date.

5.3. The Validity Term of this Contract can be extended by Assignor for 5 (five) years at the most, upon request from the Assignee.

Lenora Pereira Hupsel of the Oliveira

and-mail: abps@abpstraducoes.with.br

5.3.1. The extension of the Validity Term can only occur in the following events:

(a) Force Majeure or Acts of God;

(b) Delay to get the environmental license, provided that such delay can be exclusively imputed on the relevant environmental body;

(c) stoppage of the activities by ANP's order, in accordance with what is provided for in paragraph 11.2.1; or

(d) change of the geological conditions provided for the respective Block or area.

5.3.2. The application for extension of term based on the events provided for in paragraph 5.3.1. (a), (b) and (d) shall be conditioned to ANP's previous manifestation with regard to Assignee's compliance with the plans and programs and adjustment of the technical reasons that ground it.

5.3.3. The extension of the Validity Term will be done According to the following terms:

- (a) it will only have effect for the activities to be done in the Block in which ANP has identified the occurrence of one of the hypotheses described in paragraph 5.3.1, according to the Assignee's request; and
- (b) must consider the period of time proportional to the fact and effects that generated the request for extension, according to an analysis from ANP, observing the limit established in paragraph 5.3.

SIXTH CLAUSE: COSTS AND RISKS ASSOCIATED TO THE EXECUTION OF CONTRACT

Of the Assignee

6.1. The Assignee will always and exclusively be Responsible for all the investments, costs and risks related to the performance of the operations and its consequences, and will be its responsibility, as the sole and exclusive counterpart the original property of the Crude Oil, Natural Gas and other Fluid Hydrocarbons that are effectively produced and appropriated by it in the Endpoints of Production, within the limits and terms established in the Contract, subject to the Royalties in the Twenty-seventh Clause.

and-mail: abps@abpstraducoes.with.br

6.2. The Assignee will bear all the losses that it might incur, including those resulting from Acts of God, especially in relation to accidents or events of nature that might affect the production of Crude Oil, Natural Gas and other Fluid Hydrocarbons in the Contract Area.

6.3. The Assignee will not have the right to any payment, compensation, restitution, reimbursement, or indemnification in case the Maximum Volume produced is insufficient for the return of any costs or direct or indirect expense incurred as consequence of the Operations.

6.4. The Assignee will be solely responsible for its own actions and those of its employees and subcontractors, as well as for those made as reparation to all and any damages caused to the environment and to third parties resulting from the Operations and its performance, whether guilty or not.

6.4.1. The Assignee undertakes to indemnify the Assignor and ANP for all and any judicial or extrajudicial suit, appeal, demand or challenge, arbitration, audit, inspection, investigation or

controversy of any kind, as well as for any indemnification, compensations, punishments, fines or penalties of any nature, related or deriving from such damages and losses.

Data Collection on Non-exclusive Bases

6.5. ANP, at its own choice, can authorize a third party to perform in the Contracted Area, geology, geochemistry, geophysics services and any other jobs of the same nature applied to crude oil prospection, with the purpose of collecting technical data for commercialization in non-exclusive bases, pursuant to the terms in art. 8, item III, of Law n° 9.478, from 1997.

6.5.1. The Assignee will not be responsible in relation to the services mentioned in paragraph 6.5 and its performance, which in no way can affect the Operations.

SEVENTH CLAUSE: RETURN OF BLOCKS

7.1. Every and any return of Blocks contained in the Contracted Area will be done by the Assignee in a definitive nature and will not generate a burden or obligation of any nature for the Assignor or for ANP, and the Assignee undertakes to rigorously comply with

all the provisions in the Twenty-fifth Clause and in the applicable rules.

7.1.1. The Assignee will not have any rights in relation to the returned Block and cannot prevent that the Assignor, from the date of the return, from disposing of it at its sole discretion.

7.1.2. The termination of this Contract, because of any reason or motive, will obligate the Assignee immediately return to the Assignor the whole Contracted Area still in its power.

7.1.3. The return of the Blocks contained in the Area of the Contract does not exonerate the Assignee of the compliance with all pending duties and does not exempt it from liabilities, irregularities or infringements that, albeit having been detected after the return, were originated during the Validity Term.

Liability and Guarantees over the Deactivation and Desertion

7.2. The Assignee will present, whenever requested by ANP, a guarantee for deactivation and desertion, in the

form of an insurance, a letter of credit, provision fund or other forms accepted by ANP.

7.2.1. The value of this guarantee for Deactivation and desertion of a Field will be revised every time revisions of the Development Plan for that Field are approved and which alter the cost of desertion and Deactivation.

CHAPTER III CONTRACT REVISION

EIGHTH CLAUSE: PROCEDURE FOR CONTRACT REVISION

Revision

8.1. The Revision will be done by Parties within the terms of this chapter.

8.1.1. The conclusion of the Revision may have as result the renegotiation of the following items of the Contract:

- (a) Value of the Contract;
- (b) Maximum Volume;
- (c) Validity Term; and
- (d) Minimum percentages of Local Content, as provided for in Annex VI Local Content.

Beginning

and-mail: abps@abpstraducoes.with.br

8.2. The Assignee shall notify Assignor and ANP 10 (ten) months before the date scheduled for the Declaration of Marketability referring to any Block of the Contract Area so that the preparations required for the Revision start. The Parties shall start the Revision procedures immediately after the Marketability Declaration in each Field.

8.2.1. The conclusion of the Revision, based on the amounts and volumes revised pursuant to the terms of paragraph 8.2, shall be made after the date of the last Marketability Declaration.

8.2.2. The payments and returns referred to in paragraphs 8.8.(a) and 8.9 shall only be made after the completion of the Revision, subject to what is provided for in paragraph 8.10.

8.3. The Revision of each Block is conditioned to the complete compliance by the Assignee, of the activities established in the Mandatory Exploration Program and to the approval of ANP of the Final Report of the Mandatory Exploration Program of the respective Block.

8.15 If the return referred to in paragraph 8.14 occurs, Assignee's obligation to perform the activities of the Mandatory Exploration Program in the Contingent Block is cancelled.

Conclusion of the Revision

8.16. The Revision of this Contract, after the approval mentioned in paragraph 8.7, will be done through an addendum to the contract, which shall be valid after its execution by the Parties' representative, which will be publicly disclosed by the Assignor.

CHAPTER IV PHASES OF THE CONTRACT

NINTH CLAUSE: OF THE PHASES

9.1. The performance of the activities subject matter of this Contract will be divided in two phases:

- (a) Exploration Phase, which includes the activities of the Evaluation of eventual Discovery of Crude Oil, Natural Gas and other Fluid Hydrocarbons, to determine its Marketability; and
- (b) Production Phase, which includes Development activities.

Tel: 2213-2986 and Fax: 2518-3817

and-mail: abps@abpstraducoes.with.br

9.2. The Exploration and Evaluation activities may also be Performed with:

(a) pioneer wells or extensions of Discoveries made in adjacent areas that are explored under concession or any other way of Exploration and Production of Crude Oil, Natural Gas and other Fluid Hydrocarbons.

(b) 3D seismic collections exclusively contracted by the Assignee or originated from the non-exclusive seismic collections authorized by ANP.

TENTH CLAUSE: EXPLORATION PHASE

Beginning

10.1. The Exploration Phase begins on the Date of Signing and ends with the Declaration of Marketability of the respective Oilfield discovered in each Block contained in the Contracted Area.

Term

10.2. The Exploration Phase will have maximum duration of 4 (four) years for the performance of the activities in the Mandatory Exploration Program and eventual additional jobs to be done within the terms of paragraph 10.3.1, extendable for 2 (two) years.

Mandatory Exploration Program

10.3. During the Exploration Phase, the Assignee will completely perform the activities in the Mandatory Exploration Program, according to the established in Attachment IV Mandatory Exploration Program.

10.3.1. The Assignee may perform the additional tasks besides the ones in the Mandatory Exploration Program, requesting the approval of ANP for the additional tasks program before the beginning of its performance.

10.4. For the purpose of the compliance with the Mandatory Exploration Program, the only data to be considered as acceptable will be the ones which collection have been made according to the requirements and technical standards established by ANP.

10.5. For acquiring exclusive data, the Assignee can contract specialized companies, provided the compliance with the requirements in the norms edited by ANP.

10.6. All the wells listed in the Mandatory Exploration Program must achieve the minimum geological objective defined in Attachment IV Mandatory Exploration

Program and will only be considered for the purposes of compliance with the Mandatory Exploration Program after a verification done by ANP of compliance with all the requirements defined in the technical standards established by it.

10.6.1. If the Assignee interrupts the drilling of a well and deserts it before attaining the minimum geological objective, the well will not be considered as compliance with the requirements in the Mandatory Exploration Program, unless ANP, at its sole discretion, decides in this sense.

10.7. All data relative to the Exploration Phase must be delivered by the Assignee to ANP in accordance with the terms and conditions established in the regulatory rules issued by ANP.

10.7.1. ANP, within a 150 (one hundred and fifty) day term, will analyze the data presented by the Assignee based on the conclusions of the quality control report and will return them to the Assignee if these are not comply with the requirements defined in the technical standards established by ANP. In case of return, the data

must be presented again by the Assignee with the rectifications and within the term determined by ANP.

Notification of Discovery

10.8. Any Discovery, in the Contracted Area, of Crude Oil, Natural Gas, other Fluid Hydrocarbons, minerals and, in general, any natural resources, will be notified to ANP by the Assignee, exclusively and in writing, within the maximum term of 72 (seventy-two) hours.

10.8.1. The notification will be attached with all the pertinent data and information available.

Evaluation of a New Reservoir

10.9. The Assignee may, at its sole discretion, evaluate a new Reservoir of Crude Oil, Natural Gas or Fluid Hydrocarbon at any moment. The Evaluation will be done completely and necessarily during the Exploration Phase.

10.9.1. If the Assignee decides to evaluate the Discovery, it will notify ANP and deliver to it the respective Evaluation Plan of Discovery before the beginning of the proposed activities.

10.9.2 The Assignee is authorized to begin the performance of the Evaluation Plan of the Discovery immediately after the approval given by ANP.

Approval and Modifications to the Final Report on the Mandatory Exploration Program

10.10. ANP will have 150 (one hundred and fifty) days, Starting from the receipt of the Final Report on the Mandatory Exploration Program, to approve it or request of the Assignee justified modifications.

10.10.1. If ANP requests modifications to the Final Report on the Mandatory Exploration Program, the Assignee must present them within a maximum of 60 (sixty) days from the referred to request.

10.10.2. Any alterations to the Final Report of the Mandatory Exploration Program suggested by the Assignee will be subjected to previous approval from ANP, within the term provided in paragraph 10.10.

10.11. The Final Report on the Mandatory Exploration Program must have the compliance of the minimum percentage established by the Local Content according to the Twenty-fourth clause.

Non compliance with the Mandatory Exploration Program

10.12. If there is a delay of up to 24 (twenty-four) months in the compliance of the activities in the Mandatory Exploration Program, in any Block in the Contracted Area, a fine will be applied to the Assignee corresponding to the value of the activities non-performed, proportionally to the number of days in delay.

10.13. In case of a delay superior to 24 (twenty-four) Months in the performance of any portion of the Mandatory Exploration Program in any Block in the Contracted Area, the fine provided in item 10.12 will be substituted by the a fine corresponding to 2 (two) times the value of the activities listed in the Mandatory Exploration Program for the respective Block.

10.14. The Exploration Phase will be extended for the necessary term for the performance of the activities in delay, and the Assignee must present the Final Report on the Mandatory Exploration Program after the conclusion of the delayed activities.

Exploration Program and of the responsibilities indicated in the Twenty-fifth Clause.

TWENTY-FIRST CLAUSE: DISCOVERY AND OTHER NATURAL RESOURCES

New Discoveries after the Revision

11.1. Any Discovery of Crude Oil, Natural Gas and other Fluid Hydrocarbons, in the Contracted Area, that occurs after the Revision provided in the Eighth Clause that justifies investments in Exploration and Production, according to ANP, can be explored and produced by Assignee.

11.1.1. Any volumes of Crude Oil, Natural Gas and other Fluid Hydrocarbons produced from the Discovery to which paragraph 11.1 refers will have the same forecasted value for the Block in which it is located and will be counted at Maximum Volume, according to what is established in Attachment II Volumes and Values from the Transfer of Rights Agreement.

Other Natural Resources

11.2. In case of Discovery of the natural resources other than Crude Oil, Natural Gas and other Fluid

Hydrocarbons, the Assignee will be obligated to comply with the instructions and permit the performance of the steps determined by ANP or other competent authorities, and should abstain from any measures that might be risky to, or in some way harm, the natural resources discovered.

11.2.1. The Assignee will not be obligated to suspend its activities, except in cases in which, at ANP's discretion, they might jeopardize the natural resources discovered.

11.2.2. Any suspension of the activities, exclusively due to the Discovery of other natural resources, will have its duration calculated and recognized by the Assignor for the effect of compliance with the terms defined in this Contract, solely for those areas where there is the suspension of activities.

11.3. The Assignee must give adequate treatment to the contaminants and to the natural resources resulting from the activities of the Production of the Crude Oil, Natural Gas and other Fluid Hydrocarbons, avoiding its disposal in the environment, and such treatment must be provided in the Development Plan.

TWELFTH CLAUSE: DECLARATION OF MARKETABILITY

Assignee's Option

12.1. The Assignee, through a notification to ANP, can, at its own discretion, make the Declaration of Marketability of the Discovery, after having complied with the Mandatory Exploration Program.

Return of the Area of the Discovery

12.2. If the Assignee decides not to make the Declaration of Marketability of an evaluated discovery, the Block in question will be completely returned to the Assignor.

Continuation of the Exploration or Evaluation

12.3. The fact that the Assignee makes one or more Declarations of Marketability within the same Block does not implicate in the reduction or modification of the obligations provided in Attachment IV - Mandatory Exploration Program, which will continue in force in the related terms and conditions defined in this Contract.

THIRTEENTH CLAUSE: PRODUCTION PHASE

Beginning

Translation nºJ11791/10 - CL/IS

ABPS Traduções

Lenora Pereira Hupsel of the Oliveira

and-mail: abps@abpstraducoes.with.br

13.1 The Production Phase of each Field will begin on the date the Declaration of Marketability is delivered by the Assignee to ANP, and shall be extended until the Validity Term of the Contract.

Development Plan

13.2 After the delivery of the Declaration of Marketability, the Assignee must deliver to ANP, within a term of 180 (one hundred and eighty) days, the respective Development Plan, prepared with the observance of the rationalization of production and the control of reserve declines, which will indicate the respective Development Area.

13.3 The Assignee will be allowed to retain the Development Areas approved by ANP.

13.3.1 Whilst the Development Plan is not approved by ANP, the Assignee will continue to retain the areas contained in the referred to Plan and will return all the areas which are not included in it.

13.4 The Development Plan must have the compliance with the minimum percentage established in the Local Content according to the Twenty-fourth Clause.

Tel: 2213-2986 and Fax: 2518-3817

and-mail: abps@abpstraducoes.with.br

Development Area

13.5 The Development Area will be circumscribed by a line drawn so as to encompass, besides the strip that creates the technical safety circle of 1 (one) km at most, the totality of the Oilfield or Oilfields to be produced, with determination based on the data and information collected during the performance of the activities in the Exploration Phase, and according to the Best Practices in the Crude Oil Industry.

13.6 From the Development Area, the Assignee will only retain the area of the Field that results from the end of the Development and will immediately return the remaining portions to Assignor.

13.6.1 The area of each Field will be circumscribed by a sole closed polygonal line.

Approval and Execution of the Development Plan

13.7 ANP will have 180 (one hundred and eighty) days, counted from the receipt of the Development Plan to approve or request to the Assignee any modifications that it deems necessary.

13.7.1 If ANP does not pronounce itself within this term,

the Development Plan will be considered approved.

13.8 The request for modifications in the Development Plan made by ANP to Assignee will interrupt the term provided in paragraph 13.7.

13.8.1 The Assignee must present again the Development Plan with the modifications requested by ANP within a term of 60 (sixty) days, counted from the receipt of the notification.

13.9 The Assignee will conduct all the Operations in relation to the Development Area in question, according to the Development Plan.

Revisions and Alterations

13.10 In case there are changes in the technical or economic conditions used during the elaboration of the Development Plan, the Assignee can request modifications to ANP, accompanied by the exposition of the reasons for this.

13.10.1 ANP may require that the Assignee make the alterations to the Development Plan, if it understands that the referred to plan has not complied with neither

the Brazilian legislation nor the Best Practices in the Crude Oil Industry.

Beginning of Production

13.11 The Assignee will keep ANP informed about the date of start of production for each Field, at least 60 (sixty) days in advance.

13.11.1 The Assignee must notify ANP of the effective start of Production, within 24 (twenty-four) hours.

Annual Production Program

13.12 Up to the 31st of October of each calendar year the Assignee will give ANP the Annual Production Program for each Field, for the subsequent year, according to the each field's Development Plan.

13.13 The Annual Production Program must have the pertinent explanations, every time the total annual Production indicated in it presents a variation bigger or equal to 10% (ten percent) of the total annual forecasted in the Development Plan for the respective Field.

13.14 The Annual Production Program relative to the Calendar year in which the Production was initiated will

be delivered to ANP with at least 60 (sixty) days in advance of the forecasted Initial Date of Production.

13.15 If ANP approves the continuity of Production without interruptions after the Long Duration Test, the Annual Production Program must be delivered within 5 (five) working days before the forecasted end of the referred to test.

13.16 Upon the presentation of the Annual Production Program, the Assignee will then be obligated to comply with it.

Modification by ANP

13.17 ANP will have a term of 30 (thirty) days, counted from the receipt of the Annual Production Program, to request from the Assignee any modifications that it deems necessary.

13.17.1 If ANP requests modifications, the Assignee will have 30 (thirty) days counting from the date of the referred to request, to present the Annual Production Program again with the modifications requested.

13.18 If ANP has not approved the Annual Production Program up to the beginning of the respective period,

14.8 If there are wells or infra-structure for production in the Contracted Area before the signing of this Contract that the Assignee may, at any time, come to make use or dispose of for any purpose, Assignee will take over the responsibilities provided in Clauses Twenty-second and Twenty-fifth.

14.9 The Assignee will provide the necessary resources for the deactivation and desertion of the Field in the Development Plan which will be periodically reviewed during the Production Phase.

14.9.1 The costs of the operations of deactivation and desertion of a Field will be calculated so as to cover the activities of definitive desertion of the wells, deactivation and removal of the lines and installations and rehabilitation of the areas.

14.10 In case the production continues in one field of the Contracted Area under another regime of Production, the Assignee's responsibility in relation to the deactivation and the desertion will be proportional to the volume produced by it, under the egide of this Contract, in relation to the total volume of Crude Oil,

Natural Gas and other Fluid Hydrocarbons produced in the respective field under any production regime.

FIFTEENTH CLAUSE: MEASURING, DELIVERY AND AVAILABILITY OF PRODUCTION

Measurement

15.1 Starting from the date the Production is initiated in each field, the volume and the quality of the Crude Oil, Natural Gas and other Fluid Hydrocarbons produced will be periodically and regularly measured at the Point of Production Measuring, on the account and risk of the Assignee, using the measuring methods, equipment and instruments provided in the Development Plan.

Monthly Bulletins

15.2 Up to the 15th (fifteenth) day of every month and from the month following the date in which the production started in every field, the Assignee will furnish ANP with a monthly bulletin on the Production of the Field.

Consumption in the Operations

15.3 The Assignee can use, as fuel, for the performance

and-mail: abps@abpstraducoes.with.br

Of the Operations, Crude Oil, Natural Gas and other Field Hydrocarbons produced in the Contract Area, as long as approved by ANP.

15.3.1 The Assignee will inform ANP about the Quantities of Crude Oil, Natural Gas and other Fluid Hydrocarbons used as fuel by means of detailed and specific notifications undertaking, from the date of the start of Production of each Field, to include such information in the monthly production bulletins provided in paragraph 15.2, and it is also understood that all these quantities will be considered for the effect of the payment of the Royalties and for calculating the Maximum Volume.

Testing Findings

15.4 The results, gross data and interpretations of any test in the formation or production made by the Assignee during the performance of the Operations in this Contract, including volumes of Crude Oil, Natural Gas, other Fluid Hydrocarbons and water produced, will be immediately informed to ANP after their conclusion, or of the agreement, with the periodicity

established in the approved Evaluation Plans of the Discovery, when these tests are Long Duration Tests.

15.4.1 The volumes of Crude Oil, Natural Gas and other Fluid Hydrocarbons obtained during these tests will be property of the Assignee and considered for the effect of Royalties payment and for calculating Maximum Volume. Associated Natural Gas

15.5 The volumes of the associated gas produced under this Contract can be used by the Assignee pursuant to the terms in paragraph 15.3, with its burn in flares subject to the previous written approval from ANP.

Losses and Fires

15.6 Any loss and burns of crude oil or natural gas that occur during the Operations, the Assignee will include in the Maximum Volume, provided in paragraph 2.2.

15.6.1 In the calculation for the payment of the Royalties by the Assignee will be included the volumes relative to losses and burns of crude oil and natural gas that occurred during the Operations.

SEVENTEENTH CLAUSE: INDIVIDUALIZATION OF THE PRODUCTION

Procedure

16.1 The procedure for individualization of Production of Crude Oil, Natural Gas and other Fluid Hydrocarbons must be established when it is identified that an Oilfield extends beyond the Contracted Area.

16.2 The Assignee must immediately notify ANP after the identification of the Oilfield mentioned in paragraph 16.1, and can only perform the activities of Research and Mining after signing the Production Individualization Agreement with the Licensee or contracted under another Exploration and Production regime of Crude Oil, Natural Gas and other Fluid Hydrocarbons in the area into which the Oilfield extends.

16.2.1 When an Oilfield extends itself into an area not Granted or not contracted under another Exploration and Production regime, the Federal Government will indicate a representative to negotiate and sign the

and-mail: abps@abpstraducoes.with.br

Production Individualization Agreement with the Assignee.

16.3 ANP will establish a term for the signing of the Production Individualization Agreement between the Assignee and the Interested Party.

16.4 The Assignee and the Interested Party will sign the Production Individualization Agreement, in observance of the directives from CNPE, as well as of the norms and procedures established by ANP.

16.5 The Production Individualization Agreement must establish:

- (a) the operator of the individualized oilfield;
- (b) the participation of each one of the Parties in the individualized Oilfield and the hypothesis and criteria for revision;
- (c) a development plan for the area subject matter of the individualization of production;
- (d) the rules of the local content; and
- (e) the mechanisms for the solution of controversy.

and-mail: abps@abpstraducoes.with.br

16.6 ANP will accompany the negotiations between the Assignee and the Interested Party for the signing of the Production Individualization Agreement.

16.7 The Assignee and the Interested Party must submit for the approval of ANP the proposal for the Production Individualization Agreement, that will have 60 (sixty) days to present its manifestation, starting from the receipt of the proposal.

16.8 ANP can request the modifications that it deems applicable to the proposal of Production Individualization Agreement.

16.8.1 The Assignee and the Interested Party will have 60 (sixty) days, from the date of the referred to request, to discuss it and present a new proposal to ANP.

16.9 After the term established by ANP has ended without having the Assignee and the Interested Party signed the Production Individualization Agreement, ANP will determine, in up to 120 (one hundred and twenty) days and based on the technical report, the form of appropriation of the rights and obligations over the individualized Oilfield, and will notify the Assignee and

the Interested Party so as they can sign a Production Individualization Agreement.

16.10 The refusal by the Assignee to sign the Production Individualization Agreement will imply the return to the Assignor of the area subject to individualization of production.

16.11 The Development and Production of the Oilfield will be suspended while the approval is not given to the of Production Individualization Agreement between the Assignee and the Interested Party, except in authorized cases and under the conditions defined by ANP.

CHAPTER V PERFORMANCE OF OPERATIONS

CLAUSE SEVENTEEN: PERFORMANCE BY THE ASSIGNEE

Due diligence in the conduction of operations

17.1 The Assignee undertakes to employ in the conduction of the operations, whenever deemed appropriate and economically acceptable, including the ones that may increase the economic income and the production of the reservoirs.

Licenses, Authorizations and Permits

Translation nºJ11791/10 CL/IS

deriving from the referred infringement, including the judicial ones.

Free Access to the Agreement Area

17.5 During the term of this Agreement, the Assignee shall be granted free access to the Agreement Area and the installations thereof.

Well Drilling and Abandonment

17.6 The Assignee shall give previous notice to ANP, in writing, relative the commencement of drilling of any well in the Agreement Area, forward it to ANP at this same time, a work schedule containing detailed information on the drilling operations planned, as well as all equipment and material to be used.

17.7 The Assignee may interrupt the drilling of a well and abandon it prior to the reaching of the geologic target planned.

Additional Works Programs

17.8 The Assignee may propose, at any moment, the execution of additional works in the Agreement Area, besides the ones included in any plans or programs previously approved by the terms of this Agreement.

The respective program, specifying the additional proposed works and the necessary investments, shall be submitted to ANP.

Data Acquisition outside the Agreement Area

17.9 After previous request in writing by the Assignee, followed by detailed technical report, ANP may authorize the Assignee to acquire geological, geochemical or geophysical data outside the limits of the Agreement Area, or the performance of studies of same nature.

17.10 The data acquired or performed by the Assignee, referred to in paragraph 17.9, shall be classified as public immediately after its acquisition.

17.11 The data or studies acquired or performed by the Assignee, referred to in paragraph 17.9, must comply with the criteria established by the regulatory standards edited by ANP, relative to deadlines, form and quality, and shall be stored in the Production and Exploration Database (BDEP) of ANP.

CLAUSE EIGHTEEN: DISPOSAL OF OIL, NATURAL GAS AND OTHER FLUID HYDROCARBONS

18.1 It shall be ensured to the Assignee the free disposition of the volumes of Crude Oil, Natural Gas and other Fluid Hydrocarbons produced by it in the terms of this Agreement.

18.1.1. If in the event of national emergency that may jeopardize the supply of Crude Oil, Natural Gas or other Fluid Hydrocarbons in the national territory, declared by the President of the Republic or by the National Congress, it is necessary to limit the export of Crude Oil, Natural Gas or other Fluid Hydrocarbons, ANP may, by means of 30 (thirty) days notice in writing, determine that the Assignee assist the internal market needs or the composition of the strategic stock of the nation, with Crude Oil, Natural Gas or other Fluid Hydrocarbons produced by it and received in the terms of this Agreement. The participation of the Assignee shall be performed, each month, in the proportion of its participation in the national production of Crude Oil,

Natural Gas and other Fluid Hydrocarbons in the previous month.

CLAUSE NINETEEN: OPERATION CONTROL AND ASSISTANCE TO THE ASSIGNEE

Follow-up, Inspection and Control by ANP

19.1 ANP, directly or through covenants with states or Federal Districts bodies, shall perform permanent follow-up and inspections in the Operations performed in the Agreement Area.

19.2 The action or omission of the follow-up and inspection referred to in paragraph 19.1, under any way whatsoever shall exclude or reduce the Assignee responsibility for the full and faithful compliance of its obligations.

19.3 ANP shall be granted free access to the Agreement Area and to the Operations in progress, equipments and installations, as well as all files, studies and technical data available, for the purpose of following-up and inspection of Operations, as well as for the inspection of installations and equipments.

and-mail: abps@abpstraducoes.with.br

19.3.1 During the performance of the inspection and follow-up activities, ANP shall make all possible efforts not to impair the normal execution of the Operations.

19.3.2 The Assignee shall provide transportation, food, lodging and other suitable services to ANP's representatives, in the premises to be inspected, in the same conditions provided to its own personnel.

Assistance to the Assignee

19.4 The Assignor and ANP, whenever requested, and within the strict limit of the law relative to its competence and attributions, may assist the Assignee in the obtainment of the licenses, authorizations, permits and rights referred to in paragraph 17.2.

Responsibility discharge of the Assignor and ANP

19.5 In no event whatsoever, the Assignor and ANP shall take responsibility for the execution or not of the activity to which its assistance may have been requested as provided in paragraph 19.4, such responsibility that shall fully continue with the Assignee.

CLAUSE TWENTY: PLANS AND ANNUAL BUDGETS

Submission to ANP

20.1 Up to 31 (thirty one) of October of each year, the Assignee shall submit to ANP the Annual Work Plan and its respective Annual Budget, that shall be in strict compliance with the work and investment plans and programs requested and approved according to the terms of this Agreement.

20.2 The first Annual Work Plan and its respective Annual Budget shall cover the remaining year in progress and shall be submitted by the assignee within the maximum period of 60 (sixty) days as of the date of execution of this Agreement.

Reviews and Amendments of the Annual Plans and Budgets

20.3 The Assignee may alter, after previous notice to ANP, the Annual Work Plan and respective Annual Budget in progress, with the purpose of adapting it to the eventual admission in a subsequent stage or with the purpose of incorporating alterations or operations foreseen in plans, programs and respective modifications adopted in the terms of this Agreement.

20.4 The submission of Annual Work Plan and its respective Annual Budgets, as well as the reviews and alterations of the same, shall not impair, invalidate, or diminish the obligations took over by the Assignee in the terms of this Agreement.

CLAUSE TWENTY ONE: DATA AND INFORMATION

Supplied by the Assignee to ANP

21.1 The Assignee shall keep ANP constantly informed on the progress and results of the operations performed in the Agreement Area.

21.1.1 The Assignee shall send to ANP copies of maps, sections and profiles, acquired data, studies and geological, geochemical and geophysical information, including interpretation, well data and testing, as well as other documents defined in the specific regulation, containing information on the progress of the works, obtained as result of the operations.

21.2 The quality of the copies and other reproductions of data and information supplied by the Assignee to ANP shall be fully faithful and a standard equivalent to

the original copies, including color, size, legibility, intelligibility, compatibility and any other relevant characteristics.

21.3 ANP shall manage the confidential data supplied by the Assignee pursuant to applicable law.

Overseas Processing and Analysis

21.4 After previous and express authorization from ANP, the Assignee may send overseas the samples of rocks and fluids, or other geological, geochemical and geophysical data, exclusively for the analysis and data processing.

21.4.1 The Assignee must keep file of the information, data or equivalent relative to the sample in the national territory, as well as to ensure that the samples sent overseas return to the Country, whenever technically feasible, after the completion of the analysis or data processing.

21.4.2 The Assignee must deliver to ANP the results obtained with the processing or analysis performed, immediately after receiving it in order to record it in Exploration and Production Database (BDEP) of ANP.

completion of the volume production indicated in Appendix II Volumes and Values of Transfer of Rights Agreement.

22.6 The possession and property of assets that become reverted shall be assigned to the Federal Government and to the ANP administration at the termination of this Agreement for any portion of the Agreement Area.

22.7 For the fulfillment of the obligations established in this Clause, the Assignee undertakes to adopt and execute all legal, operational and administrative measures deemed necessary, observed the provisions of Clauses Seven and Twenty Five.

22.7.1 In case of sharing of assets for the operations of two or more fields in the Agreement Area, the Assignee may retain such assets until the completion of all operations.

22.8 In case the Assignor decides to exercise its right to reversal, as provided in paragraph 22.5.1, the Assignee shall not be entitled to any indemnification for the investments performed in the acquisition and implementation of the reverted assets.

Removal of Assets

22.9 All assets that are not reverted, including the unserviceable assets, shall be removed or discarded appropriately by the Assignee, according to the dispositions of this Agreement and applicable legislation.

CLAUSE TWENTY THIRD: PERSONNEL, SERVICES AND SUBCONTRACTS

Personnel

23.1 The Assignee shall recruit and hire all necessary workforce for the execution of the operations, being for all effects, the sole and exclusive hirer.

23.2 The Assignee shall promote, without onus to ANP, the removal or replacement of any of its technicians or team members that, at any time, is requested by ANP, in face of improper conduct, technical deficiency or poor health conditions.

Services

23.3 The Assignee shall execute directly, hire, or any other form obtain all necessary services for the fulfillment of this Agreement.

23.4 In case the Assignee hires one affiliated company for the provision of assets and services, the prices, deadlines, quality and other terms agreed must be competitive and according to the current market.

CLAUSE TWENTY FOUR: BRAZILIAN SUPPLIERS OF ASSETS AND SERVICES AND LOCAL CONTENT

Commitment of the Assignee with Local Content

24.1 The Assignee, in its directed acquisitions to serve the subject matter of this Agreement, and with the purpose of ensuring the Brazilian suppliers the same wide and fair conditions of other companies invited to submit proposals of sales of assets or provision of services, obliges itself to:

- a) include Brazilian suppliers among the companies invited to submit proposals;
- b) make it available in Portuguese or English language the same specifications to all companies invited to submit proposals, willing to accept equivalent specifications, since within the standards of best practices of the Oil Industry, in such a way that the

participation of Brazilian suppliers is not restricted, inhibited or hindered, sending all non-technical documents and mail in the Portuguese language to all Brazilian companies invited;

c) ensure to all invited companies the same deadline and suitable to the Assignee needs, either for the submission of proposal of provision as well as for the production of assets or provision of services, according to the best practices of the Oil industry and in such way that does not exclude potential Brazilians suppliers;

d) demand the same technical competence from the Brazilian suppliers as for the ones demanded from the foreign suppliers;

e) observe that the acquisition of assets and services supplied by affiliated companies is equally subjected to the other items of this Clause, except for the cases of services that, according to the best practices of the oil industry, are regularly performed by the affiliated;

f) keep itself informed about the Brazilian suppliers able to offer proposals, seeking, whenever necessary, updated information about this universe of suppliers

Agreement or in regulatory acts from ANP, the Agency may, based on Law 9.478, of 1997, and Law 9.847, of October 26, 1999, apply administrative and pecuniary sanctions applicable according to the Brazilian legislation in force and the provisions provided for in this Agreement, being ensured the right to the due process of law and what is provided for in Section 13 of Law No. 9.847 of 1999.

Termination

31.2 Excepting to the cases provided in paragraph 31.4, this Agreement may be terminated if the Assignee fails to meet the deadline fixed by ANP for the performance of the pending obligation which is considered relevant for the continuity of the activities in each block of the Agreement Area, at the sole discretion of ANP. The referred deadline may not be lower than 90 (ninety) days, except for the cases of extreme urgency.

31.3 The termination of this Agreement may also be declared in case the Assignee is declared insolvent.

Option for Penalties

this Agreement, any additional volume of Oil, Natural Gas and other Fluid Hydrocarbon in the Agreement Area.

32.1.2 The Assignor shall give full release of credits and rights provided in this Agreement, based on previous manifestation from ANP, which shall result in the lapsing of this Agreement.

Termination by End of Term

32.2 It is considered lapse, as a matter of law, this Agreement by end of term.

32.2.1 After the end of term, the Assignee shall be forbidden to produce, under the auspices of this Agreement, any additional volume of Oil, Natural Gas and others Fluid Hydrocarbon in the Agreement Area.

32.2.2 In case the produced volume is lower than the Maximum Volume after de end of term, the Assignee shall not be entitled to any indemnification or reimbursement by the non-produced volumes.

Termination Consequences

32.3 In case this Agreement is terminated, the Assignee shall respond for losses and damages resulting from its

default and termination, being responsible for all indemnification and applicable compensation, also observed the obligations related to the return of Blocks and Fields of Agreement Area.

CLAUSE THIRTY THREE: ACT OF GOD AND FORCE MAJEURE

Full or Partial Release

33.1 The Parties shall only stop being liable to the compliance of the obligations acknowledged in this Agreement in the event of act of God or force majeure.

33.2 The release of the obligations of the Assignee shall be relative to the obligations of the Agreement which the performance becomes impossible to fulfill in face of act of God and force majeure, acknowledged by ANP, in the terms of paragraphs 33.4 to 33.6.

33.3 Under any circumstances the situation described in paragraph 33.2 shall exempt the Assignee from the payment of Royalties.

33.4 In the occurrence of circumstances that may be considered act of God or force majeure, the Party affected shall notify the other Party, in writing,

describing such circumstances, its causes and consequences. It shall also notify, immediately, the cessation of state of act of God and force majeure.

33.4.1. It is considered situations of act of God the ones relative to delay in the obtaining of environmental license, provided that such delay may be exclusively ascribed to the relevant environmental body.

33.5 After notification by the Assignee of the occurrence of event that may constitute act of God or force majeure, ANP shall decide whether to acknowledge or not the release of responsibility.

33.6 ANP's decision that acknowledges the occurrence of act of God or force majeure shall indicate the portion of the Agreement to which performance the Assignee is being released.

Losses

33.7 The Assignee shall undertake individual and exclusively all losses of volumes of hydrocarbon resulting from the situation of act of God or force majeure that shall be taken into consideration for the calculation of the maximum volume.

Notes:

1. The maximum period for the execution of the Exploration Mandatory Program is of 4 years. In case the Assignee understands it is necessary some additional activity, it may be requested an extension of up to 2 years to execute it;
2. For the purposes of compliance with the Mandatory Exploration Program, all wells indicated in this Appendix must reach the litho-stratigraphic unit Piçarras of Barremiana age, crossing, thus the main Pre-salt reservoirs of Santos Basin.
3. The activities are defined for each Block individually and may not be assigned;
4. The Assignee must submit to ANP a 3D seismic coverage with depth migration (PSDM) of block integrity listed. The seismic shall be acquired in order to assess the stratigraphic units of the Pre-salt Layer.
5. The TLDs and wells classified as contingent shall be mandatorily executed after verified the discovery of hydrocarbon.

6. The failure to execute any TLD or contingent well shall be previously approved by ANP upon technical justification provided by Assignee.

7. For purposes of what is provided for in items 10.12 and 10.13, the ANP shall establish the reference values for each of the activities that integrate this Annex, considering the most recent information received from the Assignee by the Agency for the respective Block or, if such information does not exist, the Agency shall consider the information received from the Assignee referring to a similar Block,

APPENDIX V

GUIDELINES FOR AGREEMENT REVIEW

The review referred to in Clause Eight shall observe the guidelines and assumptions listed in this Appendix V. In case of necessity of definition of assumptions or variables not established in this Appendix, the Parties shall use, in this definition, the principles and assumptions used in the certifications included in the technical assessment reports referred to in Section 3 of Law No. 12.276 of 2010.

Translation nºJ11791/10 CL/IS

and-mail: abps@abpstraducoes.with.br

Methodology

The Agreement Reviewed Value shall be the sum of all net values presented from the annual cash flow discounted of deterministic projects for each Block of the Agreement Area, taking into consideration the technical and economical assumptions listed below.

Economical Assumptions

1. Base-date: for discount on the cash flow, shall be adopted the same date used in the certifications included in the technical assessment reports referred to in Section 3 of Law No. 12.276 of 2010.
2. Real discount Rate: 8.83% per year
3. Products prices:
 - a. Oil:
 - i. The reference price shall be equal to the average of closing quotes in the month before the date of reference for revision of the Crude Light West Texas Intermediate WTI oil, in US\$/barrel, disclosed by the NYMEX stock exchange under code CL, for the future contract of 18th maturity, less the difference in relation to Brent Oil.

Tel: 2213-2986 and Fax: 2518-3817

and-mail: abps@abpstraducoes.with.br

ii. The difference in relation to the Brent oil (WTI price less Brent oil price) shall be calculated using the annual average monthly projections that have been recently published by the consultancy firm Pira Energy Group for the year following the Revision, or if it is not available, a similar forecast published by an international reputable entity with regard to technical skills in the oil and natural gas industry.

i. For each block of the Agreement Area, the difference of the oil price of the Block in relation to the Brent oil shall be calculated according to the characterization of fluids more recently available by the date of the Review, using for the calculation of the differential relative to the Reference Price the methodology indicated in the ANP Directive 206/2000.

i. The values of fractions of products derived from Brent oil, in US\$/barrel, to be used in the calculation of the differential referred to in item (iii) above shall be the average of the values published by ANP, for each fraction, during the twelve months prior to the Review month.

and-mail: abps@abpstraducoes.with.br

b. Natural Gas:

i. Reference Price of Natural Gas (PRGN)

The Reference Price of the Natural Gas in US\$ / MMBtu shall be comprised of the Price in the Reference Market (PMR) less the portions referring to the Transportation Fees (TTr), Processing Fee (TP), Transference Fee (TT) and Trading Expenses (DC), pursuant to the following formula:

$PRGN = PMR - (TTr + TP + TT + DC)$

ii. Price in the Reference Market (PMR):

- The Price in the Reference Market, in US\$/MMBtu, consists of the average price of sale of the national natural gas within the 12 months preceding the revision month, weighed per volume, employed by Petrobras for the firm supply to the non-thermoelectric market, in the States of Rio and São Paulo, under the contractual reference conditions.

iii. Transportation Fees (TTr):

The Transportation Fees, in US\$/MMBtu, are the contractual fees of the gas pipelines for transporting the

and-mail: abps@abpstraducoes.with.br

gas between the Treatment Units and the Delivery Areas, as defined below:

TTr = \sum TTr(n)

Where:

TTr(n) Transportation Fee of gas pipeline No.

iv. Processing Fee (TP):

The Processing Fee, in US\$/MMBtu, is determined based on the treatment cost of the Pre-salt gas, in the Cabiúnas Terminal, considering, in calculation, the income derived from the trading of liquid fuels produced in the treatment process.

v. Transfer Fee (TT):

The Transfer Fee, in US\$/MMBtu, is determined based on the cost for flowing the natural gas of the pre-salt from the Production Units up to Cabiúnas Terminal.

vi. Trading Expenses (DC):

The Trading Expenses, in US\$/MMBtu, correspond to the costs incurred in the marketing of gas, which includes, among others, the preparation and management of the natural gas trading agreements, the logistics control of supply and turnover.

vi. The costs provided for under items iv and v shall be calculated based on information audited with Assignee for similar outflowing projects of gas in the pre-salt. The costs provided for in item vi shall be calculated based on information audited with Assignee referring to the trading of the natural gas.

4. Taxation: it shall be considered the Brazilian taxation load for the fields in the regime of Transfer of Rights Agreement valid at the time of the Revision.

5. Costs:

a. For the operations performed between the Date of Execution and the Date of Review it shall be considered the cost effectively incurred by the Assignee, in US\$, in segregated manner for each Block in the Agreement Area, provided they have been audited and are consistent with the common market practices.

b. The investment costs, the operational costs and all other future expenses shall be estimated according to the Best Practices of the Oil Industry, taking into consideration the operational environment, and valued

based on the market prices in force for each asset or service by the Date of the Review.

c. Charter and lease: whenever applicable, according to the best practices of the oil industry, shall be considered for the production assets, including, but not limited, to the production unities and subsea equipment. They shall be estimated based on the daily charter rates referring to recent contracts for the Stationary Production Units, of equivalent market values (CAPEX). There shall be added to these payments the amount corresponding to the taxation assessed over the remittances.

d. The costs of investment, operation and all other expenses shall be quoted in American dollars (US\$).

6. The exchange rate to be used in the conversions of US Dollars into Reais shall be the average exchange rate PTAX for purchase valid thirty (30) days before the payment.

Technical Assumptions

1. The reservoirs to be assessed shall be, at first, the ones considered in the initial assessment and that have been considered by the Technical Assessment Reports

referred to in section 3 of Law 12.276 of 2010. If any other discovery in the prism of oil relative to the Blocks of Agreement Area occurs, the respective volumes may also be considered.

1. There shall be used Typical Modules or the possible solutions specific for each area, which, after the Marketability Statement, shall comprise the respective Development Plans.

a. It is understood by Typical Module the set that includes oil rig type FPSO Floating, Production, Storage and Offloading, production and accessory plants (separation, treating, generation, compression, reinjection, etc.), rigid and flexible lines, manifolds and wells, conceived to drain, in each Block of the Agreement Area, the volume forecasted for each Typical Module.

a. For the conception of each Typical Module, it shall be considered only technologies of dependable application for primary and secondary recovery of hydrocarbons.

Note 5: It shall only be required the compliance of minimum CL in the TLD for the cases where the test is reviewed in the exploration stage.

Production Development Stage modules with first oil up to 2016

Sub System	Item	Minimum item of Local Content (%)	Local Content Minimum Modules of the Development Stage (%)
Drilling, Evaluation and Completion	Rig Chartering	29	55
	Logistic Support (Maritime/ Air/ Base)	50	
	Christmas Tree	70	
	Drilling + Completion (note 1)	49	
	Ancillary Systems (note 2)	52	
Production Collection System	Flowing Pipes	100	
	Basic Engineering	50	
	Detailing Engineering	95	
	Management, Construction and Assembly	80	
	Flexible Injection /Production Lines (Flowlines, Risers)	56	
	Hard Injection /Production Lines	50	
	Manifolds	70	
	Subsea Control System	0	
	Umbilical	55	
	UEP	Hull	70
Basic Engineering		65	
Detailing Engineering		65	
Management, Construction and Assembly		65	
Installation and Integration of Modules		65

	Equipment	Minimum Local Content(%)
Bits		5
Well Head		60
Production String		50
Well Equipment		50
Casing		50

- (2) In the composition of the auxiliary systems, the following sub items must be considered:

	Equipment	Minimum Local Content(%)
Field Instrumentation		40
Automation System		60
Tax Measurement System		60
Telecommunication System		40
Electric System		60

- (3) In the composition of Local Content measured for the equipment of the Stationary Production Unit (UEP), the following sub items must be considered:

	Equipment	Minimum Local Content(%)
Boiler	Ovens	80
	Tanks	90
	Pressure Vessels	85
Field Instruments		40
Static Mechanic	Filters	85
	Cathodic Protection	90
	Burners	80
	Valves (up to 24)	90
Rotative Mechanic	Pumps	70
	Rotative Mechanic Alternative Compressors	70
	Rotative Mechanic Thread Compressors	70
	Rotative Mechanic Diesel Engines (up to 600 hp)	80
	Rotative Mechanic Steam Turbines	80
