Form of Letter Sent to CNA Producers

[CNA Letterhead]

November 9, 2010

Dear Producer,

As we enter the final months of 2010, I would like to let you know how CNA is doing, and where we are going in 2011.

In the third quarter, our Property & Casualty Operations delivered a combined ratio of 97.9. Net written premiums declined 1%, compared with a decline of 8% in the third quarter of 2009.

We completed a major loss portfolio transfer transaction with National Indemnity Company, a subsidiary of Berkshire Hathaway. We recognized a \$365 million loss in the third quarter from the transaction. As we announced last quarter, this transaction enhances CNA's financial stability and substantially eliminates our exposure to legacy asbestos and environmental pollution liability.

Our capital position continued to improve, as reflected in a 19% increase in our book value per common share to \$42.76 since the end of 2009.

In addition to our third quarter earnings, CNA Financial Corporation (NYSE: CNA) announced that it has proposed to acquire all of the outstanding shares of common stock of CNA Surety Corporation (NYSE: SUR) that are not currently owned by subsidiaries of CNA for \$22.00 per share in cash. The proposed transaction is consistent with CNA's strategic objective to grow our Specialty franchise.

I am also pleased to say that we continued to build on our investments at the point of sale to become more responsive to you and your clients. New positions, new people and new branch locations continue to translate into increased submissions and new business in our Specialty segment. In our Commercial segment, we are seeing increased new business and improved retention in Small Business. We are also seeing a shift in Middle Market new business to more desirable segments. We appreciate your support in this challenging marketplace. During the third quarter, the average payout under our new ACA contract for eligible producers was XX%. We look forward to continuing to share our successes with you.

Looking to 2011, we expect the market to remain very competitive, but we also see promising areas in our 11 core industries, such as manufacturing and technology. I trust you are hearing more about these areas from your CNA underwriters. In addition, we will continue to focus on becoming a more producer-friendly company. In this regard, I encourage you to work with your local branch leaders to learn more about our target growth areas, enhanced services and financial incentives for growing with CNA. Overall, I think you will experience a more responsive CNA with more ways to grow with you than at any time in recent memory.

(over)

In closing, we remain confident you will continue to see evidence of our expanded point-of-sale capabilities. As you review your nine-month results with CNA, we hope you will consider how your agency and CNA can achieve mutual success for the rest of the year and into 2011.

Sincerely,

/s/ Thomas F. Motamed
