PROXY STATEMENT**

ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON JUNE 16, 2011

This proxy statement is furnished in connection with the solicitation by the Board of Directors of Athersys, Inc., a Delaware corporation (the "Company"), of proxies to be used at the annual meeting of stockholders of the Company to be held on Thursday, June 16, 2011 (the "Annual Meeting"). This proxy statement and the related proxy card are being mailed to stockholders commencing on or about May 3, 2011.

If the enclosed proxy card is executed and returned, the stock represented by it will be voted as directed on all matters properly coming before the Annual Meeting for a vote. Returning your completed proxy will not prevent you from voting in person at the Annual Meeting should you be present and desire to do so. In addition, you may revoke the proxy at any time prior to its exercise either by giving written notice to the Company or by submission of a later-dated proxy.

Stockholders of record of the Company at the close of business on Friday, April 22, 2011, will be entitled to vote at the Annual Meeting. On that date, 23,502,581 shares of common stock, par value \$0.001 per share, of the Company ("Common Stock") were outstanding and entitled to vote. Each share of Common Stock is entitled to one vote. At the Annual Meeting, inspectors of election shall determine the presence of a quorum and shall tabulate the results of the vote of the stockholders. The holders of a majority of the total number of outstanding shares of Common Stock entitled to vote must be present in person or by proxy to constitute the necessary quorum for any business to be transacted at the Annual Meeting. Properly executed proxies marked "abstain," as well as proxies held in street name by brokers that are not voted on all proposals to come before the Annual Meeting, referred to as broker non-votes, will be considered "present" for purposes of determining whether a quorum has been achieved at the Annual Meeting.

The nominees for Director receiving the greatest number of votes cast at the Annual Meeting in person or by proxy shall be elected. Consequently, any shares of Common Stock present in person or by proxy at the Annual Meeting, but not voted for any reason, have no impact in the election of Directors, except to the extent that the failure to vote for an individual may result in another individual receiving a larger number of votes. Stockholders have no right to cumulative voting as to any matter, including the election of Directors.

Table of Contents

The affirmative vote of the holders of a majority of the shares cast, in person or by proxy, is necessary for approval of the Athersys, Inc. Amended and Restated 2007 Long-Term Incentive Plan and the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm. An abstention or broker non-vote will have no effect on any of these proposals as the abstention or broker non-vote will not be counted in determining the number of votes cast.

The stock represented by all valid proxies received will be voted in the manner specified on the proxies. Where specific choices are not indicated on a valid proxy, the stock represented by such proxies received will be voted: (i) for the nominees for Director named in this proxy statement; (ii) for the ratification of the appointment of Ernst & Young LLP, our independent auditors for the fiscal year ending December 31, 2011; (iii) for the approval of the Athersys, Inc. Amended and Restated 2007 Long-Term Incentive Plan (Amended and Restated Effective June 16, 2011); and (iv) in accordance with the best judgment of the persons named in the enclosed proxy, or their substitutes, for any other matters that properly come before the Annual Meeting.

**PROPOSAL ONE
ELECTION OF DIRECTORS**

The Board of Directors currently consists of seven Directors, including Gil Van Bokkelen, Lee E. Babiss, John J. Harrington, Ismail Kola, George M. Milne, Jr., Lorin J. Randall and Jack L. Wyszomierski, and their current term of office will expire at the Annual Meeting. Newly created directorships resulting from an increase in the authorized number of Directors or any vacancies on the Board of Directors resulting from death, resignation, disqualification, removal or other cause may be filled by a majority vote of the remaining Directors then in office.

At the Annual Meeting, seven Directors are to be elected to hold office for a term of one year and until their successors are elected and qualified. The Board of Directors recommends that its nominees for Director be elected at the Annual Meeting. The nominees are Gil Van Bokkelen, Lee E. Babiss, John J. Harrington, Ismail Kola, George M. Babiss and Kola were appointed to the Board of Directors in August 2010 and December 2010, respectively, based on recommendations from an independent search firm. THE BOARD OF DIRECTORS AND ITS COMMITTEES

Director Independence

The Board of Directors reviews the independence of each Director at least annually. During these reviews, the Board of Directors will consider transactions and relationships between each Director (and his or her immediate family and affiliates) and our company and our management to determine whether any such transactions or relationships are inconsistent with a determination that the Director was independent. The Board of Directors conducted its annual review of Director independence to determine if any transactions or relationships exist that would disqualify any of the individuals who serve as a Director under the rules of the NASDAQ Stock Market or require disclosure under SEC rules. Based upon the foregoing review, the Board of Directors determined the following individuals are independent under the rules of the NASDAQ Stock Market: Lee E. Babiss, Ismail Kola, George M. Milne, Jr., Lorin J. Randall and Jack L. Wyszomierski. In making this determination with respect to Mr. Babiss, the Board determined that the provision of certain contract research services to the Company by PPD, Inc., of which Mr. Babiss serves as an executive officer, did not create a material relationship or impair the independence of Mr. Babiss because Mr. Babiss receives no material direct or indirect benefit from such transactions, which were undertaken in the ordinary course of business. Also, the Board of Directors determined the following individuals, who each retired from the Board during 2010, were independent under the rules of the NASDAQ Stock Market: Jordan S. Davis, Floyd D. Loop, William C. Mulligan and Michael B. Sheffery. Currently, we have two members of management who also serve on the Board of Directors: Dr. Van Bokkelen, who is also our Chairman and Chief Executive Officer, and Dr. Harrington, who is our Executive Vice President and Chief Scientific Officer. Neither Dr. Van Bokkelen nor Dr. Harrington is considered independent under the independence rules of the NASDAQ Stock Market.

Board Meetings

The Board of Directors held seven meetings during fiscal year 2010. All of the Directors attended at least 75% of the total meetings held by the Board of Directors and by all committees on which he served during fiscal year 2010.

Attendance at Annual Meeting

Although the Company does not have a policy with respect to attendance by the Directors at the Annual Meeting of Stockholders, Directors are encouraged to attend. The Company held an annual meeting of stockholders last year, which was attended by six of the seven Directors.

Committees

The Board of Directors has three standing committees: the Audit Committee, the Compensation Committee and the Nominations and Corporate Governance Committee. The Board of Directors adopted a written charter for each of the committees of the Board of Directors. These charters, as well as our Code of Business Conduct and Ethics, are posted and available under the Investor page on our website at www.athersys.com. Stockholders may request copies of these corporate governance documents, free of charge, by writing to Athersys, Inc., 3201 Carnegie Avenue, Cleveland, Ohio 44115, Attention: Corporate Secretary.

Table of Contents

The Audit Committee is responsible for overseeing the accounting and financial reporting processes of the Company and the audits of the financial statements of the Company. The Audit Committee is also directly responsible for the appointment, compensation, retention and oversight of the work of the Company's independent auditors, including the resolution of disagreements between management and the auditors regarding financial reporting. Additionally, the Audit Committee approves all related-party transactions that are required to be disclosed pursuant to Item 404 of Regulation S-K. The current members of the Audit Committee are Lorin J. Randall, Jack L. Wyszomierski, George M. Milne, Jr. and Ismail Kola. The Board of Directors has determined that each of Mr. Randall and Mr. Wyszomierski is an audit committee financial expert, as defined in Item 407(d)(5)(ii) of Regulation S-K, and an independent director, as defined in the NASDAQ listing standards. The Audit Committee held five meetings during fiscal year 2010.

The Compensation Committee is responsible for, among other things, annually reviewing and recommending to the Board of Directors the salaries and other compensation, including stock incentives, of our executive officers, including our Chief Executive Officer, reviewing and recommending to the Board of Directors the compensation of our non-employee Directors, engaging and determining the fees of compensation consultants, if any, and overseeing regulatory compliance with respect to compensation matters. The Compensation Committee reviews and recommends corporate goals and objectives relevant to the compensation of the executive officers and evaluates the performance of the executive officers in light of those corporate goals and objectives. The Compensation Committee also considers the duties and responsibilities of the executive officers and recommends to the Board of Directors the compensation levels for those executive officers based on those evaluations and any other factors as it deems appropriate. In recommending incentive compensation, the Compensation Committee also considers the Company's performance and relative stockholder return, the value of similar awards to executive officers of comparable companies, and the awards given to the Company's executive officers in past years. The current members of the Compensation Committee are Lorin J. Randall, Jack L. Wyszomierski, George M. Milne, Jr. and Lee E. Babiss. The Compensation Committee held four meetings during fiscal year 2010.

The Nominations and Corporate Governance Committee is responsible for, among other things, evaluating and recommending to the Board of Directors qualified nominees for election as Directors and qualified Directors for committee membership, as well as developing and recommending to the Board corporate governance principles applicable to the Company. The current members of the Nominations and Corporate Governance Committee are Lee E. Babiss, Lorin J. Randall, George M. Milne, Jr. and Jack L. Wyszomierski. The Nominations and Corporate Governance Committee held two meetings during fiscal year 2010.

Table of Contents

The Nominations and Corporate Governance Committee shall identify individuals qualified to become members of the Board of Directors and recommend candidates to the Board to fill new or vacant positions. Except as may be required by rules promulgated by NASDAQ or the SEC, there are currently no specific, minimum qualifications that must be met by each candidate for the Board of Directors, nor are there specific qualities or skills that are necessary for one or more of the members of the Board of Directors to possess. In recommending candidates, the Nominations and Corporate Governance Committee considers such factors as it deems appropriate, consistent with criteria approved by the Board of Directors. These factors may include judgment, skill, diversity, integrity, experience with businesses and other organizations of comparable size, experience in corporate governance, experience in business and human resource management, the interplay of the candidate's experience with the experience of other members of the Board of Directors, and the extent to which the candidate would be a desirable addition to the Board of Directors and any committees of the Board. When considering diversity, the Nominations and Corporate Governance Committee considers the breadth and diversity of experience brought by the various nominees for Director in functional areas including pharmaceutical, capital markets, biotechnology, clinical and financial. The Nominations and Corporate Governance Committee recommends candidates to the Board of Directors based on these factors and also considers possible conflicts of interest when making its recommendations to the Board.

The Nominations and Corporate Governance Committee also presently uses an independent search firm in identifying candidates. The Nominations and Corporate Governance Committee routinely identifies potential Director candidates for us.

The Nominations and Corporate Governance Committee will give appropriate consideration to qualified persons recommended by stockholders for nomination as our Directors, provided that the stockholder delivers written notice to the Secretary of the Company, which contains the following information:

- the name and address of the stockholder and each Director nominee;
- a representation that the stockholder is entitled to vote and intends to appear in person or by proxy at the meeting;
- a description of any and all arrangements or understandings between the stockholder and each nominee; such other information regarding the nominee that would have been required to be included by the SEC in a proxy statement had the nominee been named in a proxy statement;
- a brief description of the nominee's qualifications to be a Director; and
- the written consent of the nominee to serve as a Director if so elected.

The Nominations and Corporate Governance Committee evaluates these candidates proposed by stockholders using the same criteria as for other candidates not nominated by stockholders.

Table of Contents

Board Leadership Structure

We operate in a complex, dynamic industry. Therefore, the Board of Directors believes that our Chief Executive Officer is the most appropriate person to serve as our Chairman because he possesses in-depth knowledge of the issues, opportunities and challenges facing our business. Because of this knowledge and insight, he is in the best position to effectively identify strategic opportunities and priorities and to lead the discussion for the execution of the Company's strategies and achievement of its objectives. As Chairman, our Chief Executive Officer is able to:

- focus the Board of Directors on the most significant strategic goals and risks of our businesses;
- utilize the individual qualifications, skills and experience of the other members of the Board of Directors in order to maximize their contributions to the Board of Directors;
- ensure that each other member of the Board of Directors has sufficient knowledge and understanding of our businesses to enable him to make informed judgments; and
- facilitate the flow of information between the Board of Directors and management of the Company.

The Board of Directors believes that the combined role of Chairman and Chief Executive Officer promotes strategic development and execution of our business strategies, which is essential to effective governance. The Board has chosen not to appoint a lead director, but instead uses executive sessions of the independent Directors, as necessary. In addition, the committees of the Board are comprised solely of independent Directors. We believe that shared leadership responsibility among the independent Directors, as opposed to a single lead director, results in increased engagement of the Board of Directors as a whole, and that having a strong, independent group of Directors fully engaged is important for good governance.

The Board's Role in Risk Oversight

The Board of Directors oversees the risk management of the Company. The full Board of Directors, as supplemented by the appropriate board committee in the case of risks that are overseen by a particular committee, reviews information provided by management in order for the Board of Directors to oversee its risk identification, risk management and risk mitigation strategies. Our board committees assist the full Board of Directors' oversight of our material risks by focusing on risks related to the particular area of concentration of the relevant committee. For example, our Compensation Committee oversees risks related to our executive compensation plans and arrangements, our Audit Committee oversees the financial reporting and control risks, and our Nominations and Corporate Governance Committee oversees risks associated with the independence of the Board of Directors and potential conflicts of interest. Each committee reports on these discussions of the applicable relevant risks to the full Board of Directors during the committee reports portion of each Board of Directors meeting, as appropriate. The full Board of Directors incorporates the insight provided by these reports into its overall risk management analysis. We believe that our Board leadership structure complements our risk management structure because it allows our independent directors, through independent committees, to exercise effective oversight of the actions of management in identifying risks and implementing effective risk management policies and controls.

Certain Relationships and Related Person Transactions

We give careful attention to related person transactions because they may present the potential for conflicts of interest.

We refer to related person transactions as those transactions, arrangements, or relationships in which:

we were, are or are to be a participant;

the amount involved exceeds \$120,000; and

any of our Directors, Director nominees, executive officers or greater-than five percent stockholders (or any of their immediate family members) had or will have a direct or indirect material interest.

To identify related person transactions in advance, we rely on information supplied by our executive officers, Directors and certain significant stockholders. We maintain a comprehensive written policy for the review, approval or ratification of related person transactions, and our Audit Committee reviews all related person transactions identified by us. The Audit Committee approves or ratifies only those related person transactions that are determined by it to be, under all of the circumstances, in the best interest of our company and its stockholders. No related person transactions occurred in fiscal 2010 that required a review by the Audit Committee.

PROPOSAL TWO

RATIFICATION OF THE APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee of the Board of Directors has appointed Ernst & Young LLP (Ernst & Young) as the independent auditors of the Company to examine the financial statements of the Company and its subsidiaries for the fiscal year ending December 31, 2011. During fiscal year 2010, Ernst & Young examined the financial statements of the Company and its subsidiaries, including those set forth in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010. The Board of Directors recommends ratification of the appointment of Ernst & Young. Although stockholder approval of this appointment is not required by law or binding on the Audit Committee, the Board believes that stockholders should be given the opportunity to express their views. If the stockholders do not ratify the appointment of Ernst & Young as Athersys independent auditors, the Audit Committee will consider this vote in determining whether or not to continue the engagement of Ernst & Young.

It is expected that representatives of Ernst & Young will attend the Annual Meeting, with the opportunity to make a statement if they so desire, and will be available to answer appropriate questions.

The Board of Directors unanimously recommends that stockholders vote FOR the ratification of this appointment.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors is composed of four Directors who are independent and operates under a written Audit Committee charter adopted and approved by the Board of Directors. The Audit Committee annually selects Athersys' independent auditors. The written charter of the Audit Committee is posted and available under the Investor page on our website at www.athersys.com.

Management is responsible for the Company's internal controls and financial reporting process. Ernst & Young, the Company's independent auditor, is responsible for performing an independent audit of Athersys' consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee's responsibility is to provide oversight to these processes.

In fulfilling its oversight responsibility, the Audit Committee relies on the accuracy of financial and other information, opinions, reports, and statements provided to the Audit Committee. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Nor does the Audit Committee's oversight assure that the audit of Athersys' financial statements has been carried out in accordance with generally accepted auditing standards or the audited financial statements are presented in accordance with generally accepted accounting principles.

The Audit Committee has reviewed and discussed with the Company's management and Ernst & Young the audited financial statements of the Company for the year ended December 31, 2010. The Audit Committee has also discussed with Ernst & Young the matters required to be discussed by Statement on Auditing Standards No. 114, "The Auditor's Communication With Those Charged With Governance," as amended, as adopted by the Public Company Oversight Board in Rule 3200T.

The Audit Committee has also received and reviewed the written disclosures and the letter from Ernst & Young required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young's communications with the Audit Committee concerning independence, and has discussed with Ernst & Young such independent auditors' independence. The Audit Committee has also considered whether Ernst & Young's provision of services to the Company beyond those rendered in connection with their audit and review of the Company's financial statements is compatible with maintaining their independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010 for filing with the Securities and Exchange Commission.

PROPOSAL THREE
APPROVAL OF THE ATHERSYS, INC. AMENDED AND RESTATED 2007
LONG-TERM INCENTIVE PLAN (AMENDED AND RESTATED EFFECTIVE
June 16, 2011)

In April 2011, our Board of Directors approved, subject to stockholder approval, an amendment and restatement of the Athersys, Inc. 2007 Long-Term Incentive Plan (the *Current Plan*) in the form of the Athersys, Inc. Amended and Restated 2007 Long-Term Incentive Plan (the *Amended Plan*).

Stockholder approval of the Amended Plan is intended to constitute approval for purposes of the approval requirements of Section 162(m) of the Internal Revenue Code of 1986, as amended (the *Code*), so that awards under the Amended Plan may continue to satisfy the requirements for performance-based compensation, thereby avoiding the potential loss of tax deductions, under Section 162(m) of the Code.

Our principal reason for amending and restating the Current Plan is to increase the number of shares of common stock, par value \$0.001 per share, available for issuance. The Amended Plan will increase the maximum number of shares available for awards from 3,035,000 shares of common stock to 4,035,000 shares of common stock. The Amended Plan includes various other changes. The key changes are described in the *Summary of Key Changes* below, which is followed by a summary description of the entire Amended Plan. The actual text of the Amended Plan is attached to this proxy statement as Appendix A. The following description of the Amended Plan is only a summary of its material terms and provisions and is qualified by reference to the actual text as set forth in Appendix A. If the Amended Plan is not approved by our stockholders, the Current Plan will remain in effect under its current terms and conditions.

The Board of Directors believes the Amended Plan will continue to advance the long-term success of our company by encouraging stock ownership among key employees and members of our Board of Directors who are not employees. In addition, the Board of Directors believes that a fundamental objective of a long-term incentive compensation program is the alignment of management and stockholder interests. The Amended Plan allows for several forms of awards based on the value of our common stock and for the use of performance-based vesting targets that measure operational and financial performance improvements relevant to stockholder value.

Summary of Key Changes

Available Shares of Common Stock. The aggregate number of shares of common stock available under the Amended Plan will be increased from 3,035,000 shares, which were available under the Current Plan, to 4,035,000 shares.

Full Value Award Limits. The Amended Plan limits the number of shares that may be issued with respect to restricted stock, restricted stock units, performance shares, performance units and other stock-based awards to 4,035,000 shares.

Table of Contents

Prohibitions on Liberal Share Counting. The Amended Plan prohibits liberal share counting by requiring the following:

- no shares tendered in payment of an option's exercise price may be added back into the aggregate share limit;
- no shares withheld in satisfaction of tax withholding obligations may be added back into the aggregate share limit;
- the number of shares of common stock covered by a stock appreciation right, to the extent that it is exercised and settled in common stock, and whether or not shares are actually issued to a participant upon exercise of the stock appreciation right, will be considered issued or transferred; and
- in the event that we repurchase shares of common stock with option exercise proceeds, those shares will not be added to the aggregate plan limit.

Dividends and Dividend Equivalents. The Amended Plan no longer provides for the ability to pay dividends or dividend equivalents with respect to shares subject to stock options or stock appreciation rights. In addition, the Amended Plan specifies that dividends or dividend equivalents issued with respect to shares of common stock subject to performance-based awards will be deferred until and paid contingent upon the achievement of the applicable performance goals.

Prohibition on Repricing. We strengthened the prohibition on the repricing of stock options and stock appreciation rights without stockholder approval or in connection with certain corporate transactions, such as stock splits, other recapitalizations or a change in control event. As is consistent with our past practices, the Amended Plan prohibits us from:

- amending an outstanding award to reduce its exercise price or base price; or
- cancelling outstanding options or stock appreciation rights in exchange for options or stock appreciation rights with lower exercise or base prices, other awards or cash.

Change in Control Definition. The definition of "Change in Control" is revised under the Amended Plan to be more consistent with prevailing market thresholds for triggering a "Change in Control" when a person or group of persons purchases a significant percentage of our voting shares. Under the Amended Plan, a "Change in Control" will occur when a person or group of persons purchases 35% or more of our voting shares. The threshold under the Current Plan is 50%.

Management Objectives. The Amended Plan includes an updated set of management objectives, which will be used as the basis for performance-based awards granted under the Amended Plan. The criteria applicable to any awards granted under the Amended Plan that are intended to qualify as "qualified performance-based compensation" under Section 162(m) of the Code will be based on one or more of the management objectives set forth in the Amended Plan. See "Summary of the Amended Plan Management Objectives" for a complete list of the management objectives applicable to awards that may be granted under the Amended Plan.

Table of Contents

Awards to Non-Employee Directors. The Amended Plan permits us to grant awards to non-employee directors upon the terms and conditions established by our Board of Directors and set forth in the underlying award agreements. Awards granted to non-employee directors will not be subject to the minimum vesting requirements generally applicable to stock awards granted to other participants.

Summary of the Amended Plan

Purpose. The purpose of the Amended Plan is to attract and retain officers, other employees, directors, consultants and other independent contractors of ours and our subsidiaries and to provide to such persons incentives and rewards for performance.

Eligibility and Participation. Directors, officers, other employees and consultants of ours or any of our subsidiaries may be selected to participate in the Amended Plan, as determined by the administrator. As of April 25, 2011, there were five non-employee directors, approximately four consultants and approximately 45 employees, of which five were executive officers, eligible to participate in the Amended Plan.

Effective Date and Termination. The Plan will be effective as of June 16, 2011. No grant will be made under the Amended Plan more than 10 years after the effective date, but all grants made on or prior to such date will continue in effect thereafter subject to the terms of the applicable award agreement and of the Amended Plan.

Administration. The Amended Plan will be administered by the Board of Directors with respect to awards granted to our executive officers and non-employee directors, and by the Compensation Committee, with respect to awards granted to all other employees and consultants, which, in both cases, we refer to as the administrator. To the extent the Compensation Committee is the administrator, the Compensation Committee may from time to time delegate all or any part of its authority under the Amended Plan to any subcommittee. The interpretation and construction by the administrator of any provision of the Amended Plan or of any agreement, notification or document evidencing the grant of awards granted pursuant to the Plan and any determination by the administrator pursuant to any provision of the Amended Plan or of any such agreement, notification or document will be final and conclusive.

The administrator may delegate to one or more of its members or to one or more officers of the Company, or to one or more agents or advisors, such administrative duties or powers as it may deem advisable. In addition, the administrator or any person to whom duties or powers have been delegated, may employ one or more persons to render advice with respect to any responsibility the administrator or such person may have under the Amended Plan. The administrator may authorize one or more officers of the Company to do one or both of the following on the same basis as the administrator or the subcommittee:

- designate employees to be recipients of awards under the Amended Plan; and
- determine the size of any such awards.

Table of Contents

The administrator may not delegate such responsibilities to any such officer for awards granted to an employee who is an officer, director, or more than 10% beneficial owner of any class of our equity securities that is registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended (the Exchange Act), as determined by the administrator in accordance with Section 16 of the Exchange Act. The resolution providing for such authorization will set forth the total number of shares of common stock such officer(s) may grant. The delegated officer(s) will report periodically to the administrator regarding the nature and scope of the awards granted pursuant to the authority delegated.

Shares Reserved for Awards under the Amended Plan. Subject to adjustments upon certain corporate transactions or events, the number of shares of common stock that may be issued or transferred with respect to awards granted or sold pursuant to the Amended Plan may not exceed in the aggregate 4,035,000 shares of common stock (which includes 3,035,000 shares approved for the Current Plan and 1,000,000 shares subject to approval for the Amended Plan), plus any shares of common stock relating to awards that expire or are forfeited or cancelled under the Amended Plan. Such shares may be shares of original issuance or treasury shares or a combination of the foregoing.

Except as described in the following paragraph, shares of common stock covered by an award granted under the Amended Plan will not be counted as used unless and until they are actually issued and delivered to a participant and, therefore, the total number of shares available under the Amended Plan as of a given date will not be reduced by any shares relating to prior awards that have expired or have been forfeited or cancelled. Upon payment in cash of the benefit provided by any award granted under the Amended Plan, any shares of common stock that were covered by that award will be available for issue or transfer hereunder.

If shares of common stock are tendered or otherwise used in payment of the exercise price of a stock option, the total number of shares covered by the stock option being exercised will count against the aggregate plan limit described above. Likewise, shares of common stock withheld by us to satisfy the tax withholding obligation will count against the aggregate plan limit described above. In addition, the number of shares of common stock covered by a stock appreciation right (a SAR), to the extent that it is exercised and settled in shares of common stock, and whether or not shares are actually issued to the participant upon exercise of the SAR, will be considered issued or transferred pursuant to the Amended Plan. In the event that the Company repurchases shares with stock option proceeds, those shares will not be added to the aggregate plan limit described above. If, under the Amended Plan, a participant has elected to give up the right to receive compensation in exchange for shares of common stock based on fair market value, such shares of common stock will not count against the aggregate plan limit.

Life of Plan Share Limits. Subject to adjustments upon certain corporate transactions or events:

- the aggregate number of shares of common stock actually issued or transferred by us upon the exercise of incentive stock options (ISOs) will not exceed 4,035,000 shares of common stock;
- the number of shares issued as restricted stock, restricted stock units, performance shares and performance units and other stock-based awards (after taking into account any forfeitures and cancellations) will not during the life of the Amended Plan in the aggregate exceed 4,035,000 shares of common stock; and

Table of Contents

awards will not be granted to non-employee directors or as other-stock based awards to the extent they would involve the issuance of more than 4,035,000 shares in the aggregate.

Individual Participant Limits. Subject to adjustments upon certain corporate transactions or events:

no participant will be granted stock options or SARs, in the aggregate, for more than 750,000 shares of common stock during any calendar year;

no participant will be granted awards of restricted stock or restricted stock units, performance shares or other stock-based award that, in each case, are intended to qualify as qualified performance-based compensation under Section 162(m) of the Code, in the aggregate, for more than 750,000 shares of common stock during any calendar year.

in no event will any participant in any calendar year receive an award of performance units intended to qualify as qualified performance-based compensation under Section 162(m) of the Code having an aggregate maximum value as of their respective dates of grant in excess of \$3,000,000.

Management Objectives. The Compensation Committee may establish management objectives for purposes of awards granted under the Amended Plan. Management objectives may be described in terms of company-wide objectives or objectives that are related to the performance of the individual participant or of the subsidiary, division, department, region or function within the company or subsidiary in which the participant is employed. The management objectives may be made relative to the performance of other companies or subsidiaries, divisions, departments, regions or functions within such other companies, and may be made relative to an index or one or more of the performance criteria themselves. The administrator may grant awards subject to management objectives that are or are not intended to qualify as qualified performance-based compensation under Section 162(m) of the Code. The management objectives applicable to any award intended to qualify as qualified performance-based compensation under Section 162(m) of the Code to a covered employee (as such term is used in Section 162(m) of the Code) will be based on one or more, or a combination, of the following criteria:

Strategic Initiative Key Deliverable Metrics consisting of one or more of the following: product development; strategic partnering; research and development; vitality index; market penetration; geographic business expansion goals; cost targets; customer satisfaction; employee satisfaction; management of employment practices and employee benefits; supervision of litigation and information technology; goals relating to acquisitions or divestitures of subsidiaries, affiliates and joint ventures; achievement of drug development milestones; regulatory achievements including approval of a compound; progress of internal research or clinical programs; progress of partnered programs; completing phases of a clinical study (including the treatment phase); announcing or presenting preliminary or final data from clinical studies (in each case whether on particular timelines or generally); timely completion of clinical trials; submission of INDs and NDAs and other regulatory achievements; financing, investor relation, analysts and communication; manufacturing achievements (including obtaining particular yields from manufacturing runs and other measurable objectives related to process development activities); strategic partnerships or transactions (including in-licensing and out-licensing of intellectual property); co-development, co-marketing, profit sharing, joint venture or other similar arrangements; and financing and other capital raising transactions (including sales of the Company's equity or debt securities);

If the Compensation Committee determines that a change in the business, operations, corporate structure or our capital structure, or the manner in which we conduct our business, or other events or circumstances render the management objectives unsuitable, the Compensation Committee may in its discretion modify such management objectives or the related minimum acceptable level of achievement, in whole or in part, as the Compensation Committee deems appropriate and equitable, except in the case of any award intended to qualify as qualified performance-based compensation under Section 162(m) of the Code (other than in connection with a change in control) where such action would result in the loss of the otherwise available exemption of the award under Section 162(m) of the Code. In such case, the Compensation Committee will not make any modification of the management objectives or minimum acceptable level of achievement with respect to a covered employee.

Stock Options. The administrator may, from time to time and upon such terms and conditions as it may determine, authorize the granting to participants of options to purchase shares of common stock. Stock options granted under the Amended Plan may be ISOs that are intended to qualify under particular provisions of the Code or options that are not intended so to qualify. ISOs may only be granted to participants who meet the definition of employees under Section 3401(c) of the Code. No stock option will be exercisable more than 10 years from the date of grant.

Each grant of stock options will be evidenced by an award agreement. Each award agreement will be subject to the Amended Plan and will contain such terms and provisions, consistent with the Amended Plan, as the administrator may approve. Each award agreement will specify:

- the number of shares of common stock to which it pertains;
- an exercise price per share, which may not be less than the fair market value per share on the date of grant;
- the period or periods of continuous service by the participant with the Company or any Subsidiary that is necessary before the stock options or installments thereof will become exercisable; and
- whether the exercise price will be payable:
 - in cash or by check;

by the actual or constructive transfer to us of shares of common stock owned by the participant having a value at the time of exercise equal to the total exercise price;

by a combination of such methods of payment; or

by such other methods as may be approved by the administrator, such as in the form of shares of restricted stock or other shares of common stock that are forfeitable or subject to restrictions on transfer.

Table of Contents

To the extent permitted by law, any grant may provide for deferred payment of the exercise price from the proceeds of sale through a bank or broker on a date satisfactory to us of some or all of the shares to which such exercise relates. Any grant may provide for payment of the exercise price, at the election of the participant, in installments, with or without interest, upon terms determined by the administrator.

A grant of stock options may provide for the earlier exercise of such stock options in the event of the retirement, death or disability of a participant or a change in control. In addition, any grant of stock options may specify management objectives that must be achieved as a condition to the exercise of such rights.

The market price of our common shares as reported on NASDAQ on April 25, 2011 was \$2.89 per share.

Stock Appreciation Rights. The administrator may also authorize the granting of tandem SARs and free-standing SARs. A tandem SAR will be a right of the participant, exercisable by surrender of the related stock option, to receive an amount determined by the administrator, which will be expressed as a percentage of the spread (not exceeding 100 percent) at the time of exercise. Tandem SARs may be granted at any time prior to the exercise or termination of the related stock options. A tandem SAR awarded in relation to an ISO must be granted concurrently with such ISO. A free-standing SAR will be a right of the participant to receive an amount determined by the administrator, which will be expressed as a percentage of the spread (not exceeding 100 percent) at the time of exercise.

Each grant of SARs will be evidenced by an award agreement, which award agreement will describe such SARs, identify the related stock options (if applicable), and contain such other terms and provisions, consistent with the Amended Plan, as the administrator may approve.

Each grant of SARs may specify:

- that the amount payable on exercise of an SAR may be paid in cash, in shares of common stock or in any combination thereof and may either grant to the participant or retain in the administrator the right to elect among those alternatives;

- that the amount payable on exercise of an SAR may not exceed a maximum specified by the administrator at the date of grant;

- waiting periods before exercise and permissible exercise dates or periods;

- that such SAR may be exercised only in the event of, or earlier in the event of, the retirement, death or disability of a participant or a change in control; and

- management objectives that must be achieved as a condition of the exercise of such SARs.

Table of Contents

Any grant of tandem SARs will provide that such tandem SARs may be exercised only at a time when the related stock option is also exercisable and at a time when the spread is positive, and by surrender of the related stock option for cancellation.

Each grant of a free-standing SAR will specify an exercise price, which may not be less than the fair market value per share on the date of grant. No free-standing SAR granted under the Amended Plan may be exercised more than 10 years from the date of grant.

Restricted Stock. The administrator may authorize the grant or sale of restricted stock to participants. Each such grant or sale will constitute an immediate transfer of the ownership of shares of common stock to the participant in consideration of the performance of services, entitling such participant to voting, dividend and other ownership rights, but subject to the substantial risk of forfeiture and restrictions on transfer. A grant of restricted stock may be made without additional consideration or in consideration of a payment by the participant that is less than the fair market value per share at the date of grant. Each grant or sale of restricted stock will be evidenced by an award agreement and will contain such terms and provisions, consistent with the Amended Plan, as the administrator may approve.

Restricted stock that vests upon the passage of time will be subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code for a period to be determined by the administrator at the date of grant. Restricted stock may also vest upon the achievement of management objectives. If restricted stock vests based on the passage of time rather than the achievement of management objectives, the period of time will be no shorter than three years, except that the restrictions may be removed ratably on at least an annual basis during the three-year period.

During or after the period for which such substantial risk of forfeiture is to continue, the transferability of the restricted stock will be prohibited or restricted in the manner and to the extent prescribed by the administrator at the date of grant (which restrictions may include, without limitation, rights of repurchase or first refusal in us or provisions subjecting the restricted stock to a continuing substantial risk of forfeiture in the hands of any transferee). Any grant of restricted stock may specify management objectives that, if achieved, will result in termination or early termination of the restrictions applicable to such restricted stock. Restrictions relating to restricted stock that vests upon the achievement of management objectives may not terminate sooner than one year from the date of grant. Each grant may specify in respect of such management objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of shares of restricted stock on which restrictions will terminate if performance is at or above the minimum level, but falls short of maximum achievement of the specified management objectives. The grant of restricted stock will specify that, before the termination or early termination of restrictions applicable to such restricted stock, the Compensation Committee must determine that the management objectives have been satisfied.

Notwithstanding anything to the contrary contained in the Amended Plan, any grant or sale of restricted stock may provide for the earlier lapse of the substantial risk of forfeiture in the event of the retirement, death or disability of a participant or a change in control.

Table of Contents

Any such grant or sale of restricted stock may require that any or all dividends or other distributions paid thereon during the period of such restrictions be automatically deferred and reinvested in additional shares of restricted stock, which may be subject to the same restrictions as the underlying award. However, dividends or other distributions on restricted stock with restrictions that lapse as a result of the achievement of management objectives will be deferred until and paid contingent upon the achievement of the applicable management objectives.

Restricted Stock Units. The administrator may also authorize the granting or sale of restricted stock units to participants. Grants of restricted stock units may be made without additional consideration or in consideration of a payment by the participant that is less than the fair market value per share at the date of grant. The grant or sale of restricted stock units will be evidenced by an award agreement and will contain such terms and provisions, consistent with the Amended Plan, as the administrator may approve. Each grant or sale will constitute the agreement by the Company to deliver shares of common stock or cash to the participant in the future in consideration of the performance of services, but subject to the fulfillment of such conditions (which may include the achievement of management objectives) during the restriction period as the administrator may specify. If a grant of restricted stock units specifies that the restriction period will terminate upon the achievement of management objectives, then such restriction period may not terminate sooner than one year from the date of grant. Each grant may specify in respect of such management objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of restricted stock units on which restrictions will terminate if performance is at or above the minimum level, but falls short of maximum achievement of the specified management objectives. The grant of such restricted stock units will specify that, before the termination or early termination of restrictions applicable to such restricted stock units, the Compensation Committee must determine that the management objectives have been satisfied.

If the restriction period lapses only by the passage of time rather than the achievement of management objectives, each such grant or sale will be subject to a restriction period of not less than one year.

Notwithstanding anything to the contrary contained in the Amended Plan, any grant or sale of restricted stock units may provide for the earlier lapse or other modification of the restriction period in the event of the retirement, death or disability of a participant or a change in control.

During the restriction period, the participant will have no right to transfer any rights under his or her award and will have no rights of ownership in the shares of common stock deliverable upon payment of the restricted stock units and will have no right to vote them, but the administrator may at the date of grant, authorize the payment of dividend equivalents on such restricted stock units on either a current or deferred or contingent basis, either in cash or in additional shares of common stock. However, dividends or other distributions on shares of common stock underlying restricted stock units with restrictions that lapse as a result of the achievement of management objectives will be deferred until and paid contingent upon the achievement of the applicable management objectives.

Table of Contents

Each grant or sale of restricted stock units will specify the time and manner of payment of the restricted stock units that have been earned. Any grant or sale may specify that the amount payable with respect thereto may be paid by the Company in cash, in shares of common stock or in any combination of the two and may either grant to the participant or retain in the administrator the right to elect among those alternatives.

Performance Shares and Performance Units. The administrator may also authorize the granting of performance shares and performance units that will become payable to a participant upon achievement of specified management objectives during the applicable performance period. Each grant of performance shares or performance units will be evidenced by an award agreement and will contain such other terms and provisions, consistent with the Amended Plan, as the administrator may approve. The award agreement will specify the number of performance shares or performance units to which it pertains, which number may be subject to adjustment to reflect changes in compensation or other factors.

The performance period with respect to each performance share or performance unit will be such period of time (not less than one year) commencing on the date of grant as will be determined by the administrator at the time of grant, which may be subject to earlier lapse or other modification in the event of the retirement, death or disability of a participant or a change in control.

Any grant of performance shares or performance units will specify management objectives that, if achieved, will result in payment or early payment of the award, and each grant may specify in respect of such specified management objectives a level or levels of achievement and will set forth a formula for determining the number of performance shares or performance units that will be earned if performance is at or above the minimum level or levels, but falls short of maximum achievement of the specified management objectives. The grant of performance shares or performance units will specify that, before the performance shares or performance units will be earned and paid, the Compensation Committee must determine that the management objectives have been satisfied.

The award agreement will specify the time and manner of payment of performance shares or performance units that have been earned. Any grant may specify that the amount payable with respect thereto may be paid in cash, in shares of common stock or in any combination thereof and may either grant to the participant or retain in the administrator the right to elect among those alternatives.

Any grant of performance shares may specify that the amount payable may not exceed a maximum specified by the administrator at the date of grant. Any grant of performance units may specify that the amount payable or the number of shares of common stock issued with respect thereto may not exceed maximums specified by the administrator at the date of grant.

The administrator may, at the date of grant of performance shares, provide for the payment of dividend equivalents to the holder thereof either in cash or in additional shares of common stock, subject in all cases to deferral and payment on a contingent basis based on the participant's earning of the performance shares with respect to which such dividend equivalents are paid.

Table of Contents

Awards to Non-Employee Directors. The administrator may authorize the granting to non-employee directors of stock options, SARs or other awards and may also authorize the grant or sale of shares of common stock, restricted stock or restricted stock units to non-employee directors. Each grant of an award to a non-employee director will be upon such terms and conditions as approved by the administrator, will not be required to be subject to any minimum vesting period, and will be evidenced by an award agreement in such form as will be approved by the administrator. Each grant will specify in the case of a stock option, an exercise price per share, and in the case of a free-standing SAR, a exercise price per share, which will not be less than the fair market value per share on the date of grant. Each stock option and free-standing SAR granted under the Amended Plan to a non-employee director will expire not more than 10 years from the date of grant. If a non-employee director subsequently becomes an employee of ours or one of our subsidiaries while remaining a member of the Board of Directors, any award held under the Amended Plan by such individual at the time of such commencement of employment will not be affected. Non-employee directors, may be awarded, or may be permitted to elect to receive all or any portion of their annual retainer, meeting fees or other fees in shares of common stock, restricted stock, restricted stock units or other awards under the Amended Plan in lieu of cash.

Other Awards. The administrator may grant to any participant other awards that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, shares of common stock or factors that may influence the value of such shares, including, without limitation, convertible or exchangeable debt securities, other rights convertible or exchangeable into shares of common stock, purchase rights for shares of common stock, awards with value and payment contingent upon our performance or the performance of specified subsidiaries, affiliates or other business units or any other factors designated by the administrator. Awards may be valued by reference to the book value of shares of common stock or the value of securities of, or the performance of specified subsidiaries or affiliates or other business units of ours. The administrator will determine the terms and conditions of such awards. shares of common stock delivered pursuant to an award in the nature of a purchase right will be purchased for such consideration, paid for at such time, by such methods, and in such forms, including, without limitation, cash, shares of common stock, other awards, notes or other property, as the administrator will determine. Cash awards, as an element of or supplement to any other award granted under the Amended Plan, may also be granted under the Amended Plan. The administrator may grant shares of common stock as a bonus, or may grant other awards in lieu of our obligations or the obligations of one of our subsidiaries to pay cash or deliver other property under the Amended Plan or under other plans or compensatory arrangements, subject to such terms determined by the administrator.

Adjustments. The Compensation Committee will make or provide for such adjustments in the numbers of shares of common stock authorized under the Amended Plan, the individual share limits, and the number and type of shares covered by outstanding awards granted under the Amended Plan, and their respective exercise prices, as the Compensation Committee may determine is equitably required to prevent dilution or enlargement of the rights of participants or participants that otherwise would result from:

- any stock dividend, extraordinary dividend, stock split, combination of shares, recapitalization or other change in our capital structure;
- any change in control, merger, consolidation, spin-off, split-off, spin-out, split-up, reorganization, partial or complete liquidation or other distribution of assets, issuance of rights or warrants to purchase securities; or
- any other corporate transaction or event having an effect similar to any of the foregoing.

Moreover, in the event of any such transaction or event, the Compensation Committee, in its discretion, may provide in substitution for any or all outstanding awards under the Amended Plan such alternative consideration (including cash), if any, as it may determine to be equitable in the circumstances and may require in connection therewith the surrender of all awards so replaced. In the event that we issue warrants or other rights to acquire shares of common stock on a pro rata basis to all stockholders, the Compensation Committee will make such adjustments in the number of shares of common stock authorized under the Amended Plan and in the limits contained herein as it may deem to be equitable, including, without limitation, proportionately increasing the number of authorized shares of common stock or any such limit.

Transferability. Except as otherwise determined by the administrator, no stock option, SAR or other derivative security granted under the Amended Plan will be transferable by the participant except by will or the laws of descent and distribution. Except as otherwise determined by the administrator, stock options and SARs will be exercisable during the participant's lifetime only by him or her or, in the event of the participant's legal incapacity to do so, by his or her guardian or legal representative acting on behalf of the participant in a fiduciary capacity under state law and/or court supervision.

The administrator may specify at the date of grant that part or all of the shares of common stock that are delivered or purchased by a participant in connection with an award will be subject to further restrictions on transfer.

Table of Contents

Amendments. The Board of Directors may amend the Amended Plan in whole or in part. However, if an amendment to the Amended Plan:

- would materially increase the benefits accruing to participants under the Amended Plan;
- would materially increase the number of securities which may be issued under the Amended Plan;
- would materially modify the requirements for participation in the Amended Plan; or
- must otherwise be approved by the stockholders of the Company in order to comply with applicable law or the rules of the principal national securities exchange upon which the shares of common stock are traded or quoted,

then such amendment will be subject to stockholder approval and will not be effective unless and until such approval has been obtained.

If permitted by Section 409A of the Code and Section 162(m) of the Code, in case of termination of employment by reason of death, disability or normal or early retirement, or in the case of unforeseeable emergency or other special circumstances, of a participant who holds an award that has not fully vested, the administrator may, in its sole discretion, accelerate the time at which the award vests or may waive any other limitation or requirement under the award.

The administrator may amend the terms of any award theretofore granted under the Amended Plan prospectively or retroactively, except in the case of an award intended to qualify as qualified performance-based compensation under Section 162(m) of the Code (other than in connection with the participant's death or disability, or a change in control) where such action would result in the loss of the otherwise available exemption of the award under Section 162(m) of the Code. In such case, the Board of Directors will not make any modification of the management objectives or the level or levels of achievement with respect to such an award intended to qualify as qualified performance-based compensation under Section 162(m) of the Code. Except in connection with a corporate transaction or event described above, no amendment will impair the rights of any participant without his or her consent. The Board of Directors may, in its discretion, terminate the Amended Plan at any time. Termination of the Amended Plan will not affect the rights of participants or their successors under any awards outstanding hereunder and not exercised in full on the date of termination.

Prohibition on Repricing. Except in connection with a corporate transaction or event described above, the terms of outstanding awards may not be amended to reduce the exercise price of outstanding stock options or SARs, or cancel outstanding stock options or SARs in exchange for cash, other awards or stock options or SARs with an exercise price that is less than the exercise price of the original stock options or original SARs without stockholder approval. This is intended to prohibit the repricing of underwater stock options and SARs and will not be construed to prohibit the adjustments provided for in the Amended Plan with respect to certain corporate transactions or events. This provision may not be amended without approval by our stockholders.

Federal Income Tax Consequences

The following is a brief summary of some of the federal income tax consequences of certain transactions under the Plan based on federal income tax laws in effect on January 1, 2011. This summary is not intended to be complete and does not describe state or local tax consequences.

Tax Consequences to Participants

Non-qualified Stock Options. In general, (1) no income will be recognized by an optionee at the time a non-qualified stock option is granted; (2) at the time of exercise of a non-qualified stock option, ordinary income will be recognized by the optionee in an amount equal to the difference between the option price paid for the shares and the fair market value of the shares, if unrestricted, on the date of exercise; and (3) at the time of sale of shares acquired pursuant to the exercise of a non-qualified stock option, appreciation (or depreciation) in value of the shares after the date of exercise will be treated as either short-term or long-term capital gain (or loss) depending on how long the shares have been held.

Incentive Stock Options. No income generally will be recognized by an optionee upon the grant or exercise of an ISO. The exercise of an ISO, however, may result in alternative minimum tax liability. If common shares are issued to the optionee pursuant to the exercise of an ISO, and if no disqualifying disposition of such shares is made by such optionee within two years after the date of grant or within one year after the transfer of such shares to the optionee, then upon sale of such shares, any amount realized in excess of the option price will be taxed to the optionee as a long-term capital gain and any loss sustained will be a long-term capital loss.

If common shares acquired upon the exercise of an ISO are disposed of prior to the expiration of either holding period described above, the optionee generally will recognize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of such shares at the time of exercise (or, if less, the amount realized on the disposition of such shares if a sale or exchange) over the option price paid for such shares. Any further gain (or loss) realized by the participant generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

SARs. No income will be recognized by a participant in connection with the grant of a tandem SAR or a free-standing SAR. When the SAR is exercised, the participant normally will be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of cash received and the fair market value of any unrestricted common shares received on the exercise.

Restricted Stock. The recipient of restricted stock generally will be subject to tax at ordinary income rates on the fair market value of the restricted stock (reduced by any amount paid by the participant for such restricted stock) at such time as the shares are no longer subject to forfeiture or restrictions on transfer for purposes of Section 83 of the Internal Revenue Code ("Restrictions"). However, a recipient who so elects under Section 83(b) of the Internal Revenue Code within 30 days of the date of transfer of the shares will have taxable ordinary income on the date of transfer of the shares equal to the excess of the fair market value of such shares (determined without regard to the Restrictions) over the purchase price, if any, of such restricted stock. If a Section 83(b) election has not been made, any dividends received with respect to restricted stock that is subject to the Restrictions generally will be treated as compensation that is taxable as ordinary income to the participant.

Table of Contents

RSUs. No income generally will be recognized upon the award of RSUs. The recipient of a RSU award generally will be subject to tax at ordinary income rates on the fair market value of unrestricted common shares on the date that such shares are transferred to the participant under the award (reduced by any amount paid by the participant for such RSUs), and the capital gains/loss holding period for such shares will also commence on such date.

Performance Shares and Performance Units. No income generally will be recognized upon the grant of performance shares or performance units. Upon payment in respect of the earn-out of performance shares or performance units, the recipient generally will be required to include as taxable ordinary income in the year of receipt an amount equal to the amount of cash received and the fair market value of any unrestricted common shares received.

Tax Consequences to Athersys or a Subsidiary

To the extent that a participant recognizes ordinary income in the circumstances described above, we or one of our subsidiaries for which the participant performs services will be entitled to a corresponding deduction provided that, among other things, the income meets the test of reasonableness, is an ordinary and necessary business expense, is not an excess parachute payment within the meaning of Section 280G of the Code and is not disallowed by the \$1 million limitation on certain executive compensation under Section 162(m) of the Code.

Registration with the SEC

We intend to file a Registration Statement on Form S-8 relating to the issuance of common shares under the Plan with the Securities and Exchange Commission pursuant to the Securities Act of 1933, as amended as soon as practicable after approval of the Amended Plan by our stockholders.

New Plan Benefits

It is not possible to determine specific amounts and types of awards that may be awarded in the future under the Amended Plan because the grant and actual pay-out of awards under such plan are discretionary.

The Board of Directors unanimously recommends that stockholders vote FOR the approval of the Athersys, Inc. Amended and Restated 2007 Long-term Incentive Plan (Amended and Restated Effective June 16, 2011).

EXECUTIVE COMPENSATION
Compensation Discussion and Analysis

This section discusses the principles underlying our executive compensation policies and decisions and the most important factors relevant to an analysis of these policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our named executive officers, which include Dr. Gil Van Bokkelen, our Chief Executive Officer, Laura Campbell, our Vice President of Finance, William (B.J.) Lehmann, Jr., our President and Chief Operating Officer, Dr. John Harrington, our Executive Vice President and Chief Scientific Officer, and Dr. Robert Deans, our Executive Vice President of Regenerative Medicine, and places in perspective the data presented in the compensation tables and narratives that follow.

Executive Summary

We are a biopharmaceutical company engaged in the discovery and development of therapeutic product candidates designed to extend and enhance the quality of human life. Through the application of our proprietary technologies, we have established a pipeline of therapeutic product development programs in multiple disease areas. As further discussed in this section, our compensation and benefit programs help us attract, retain and motivate individuals who will maximize our business results by working to meet or exceed established company or individual objectives. In addition, we reward our executive officers for meeting certain developmental milestones, such as completing advancements in product candidate development, strategic partnerships or other financial transactions that add to the capital resources of the Company or create value for stockholders.

The following are the highlights of our 2010 compensation and benefit programs:

- increased the base salaries of our named executive officers; and
- made grants of cash bonuses to our named executive officers.

The following discussion and analysis of our compensation and benefit programs for 2010 should be read together with the compensation tables and related disclosures that follow this section. This discussion includes forward-looking statements based on our current plans, considerations, expectations and determinations about our compensation program. Actual compensation decisions that we may make for 2011 and beyond may differ materially from our recent past.

Compensation Objectives and Philosophy

Our compensation programs are designed to:

- Recruit, retain, and motivate executives and employees that can help us achieve our core business goals;
- Provide incentives to promote and reward superior performance throughout the organization;

Table of Contents

Facilitate stock ownership and retention by our executives and other employees; and
Promote alignment between executives and other employees and the long-term interests of stockholders.

The Compensation Committee seeks to achieve these objectives by:

Establishing a compensation program that is market competitive and internally fair;
Linking performance with certain elements of compensation through the use of equity grants, cash performance bonuses or other means of compensation, the value of which is substantially tied to the achievement of our company goals; and
When appropriate, given the nature of our business, rewarding our executive officers for both company and individual achievements with discretionary bonuses.

Components of Compensation

Our executive compensation program includes the following elements:

Base salary;
Cash bonuses;
Long-term equity incentive plan awards; and
Retirement and health insurance benefits.

Our Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid-out compensation, between cash and non-cash compensation or among different forms of non-cash compensation. We consider competitive practices, relative management level and operating responsibilities of each executive officer when determining the compensation elements to reward his or her ability to impact short-term and long-term results.

Role of the Chief Executive Officer

Historically, our Chief Executive Officer has taken the lead in providing our Board of Directors with advice regarding executive compensation. During 2010, the Compensation Committee considered recommendations from our Chief Executive Officer regarding the compensation for and performance of our executive officers in relation to company-specific strategic goals that were established by the Compensation Committee and approved by the Board of Directors related to potential bonus payments and salary adjustments. The Compensation Committee considered the recommendations made by our Chief Executive Officer because of his knowledge of the business and the performance of the other executive officers. The Compensation Committee is not bound by the input it receives from our Chief Executive Officer. Instead, the Compensation Committee exercises independent discretion when making executive compensation decisions. We describe and discuss the particular compensation decisions made by the Compensation Committee regarding the 2010 compensation of our named executive officers below under Elements of Executive Compensation.

Table of Contents

Elements of Executive Compensation

Base Salary. We pay base salaries to attract executive officers and provide a basic level of financial security. We establish base salaries for our executives based on the scope of their responsibilities, taking into account competitive market compensation paid by other companies for similar positions. Base salaries are generally reviewed annually, with adjustments based on the individual's responsibilities, performance and experience during the year. This review generally occurs each year following an annual review of individual performance.

In 2010, the Compensation Committee and the Board of Directors approved that each of the named executive officers be entitled to receive a 2.0% increase in such officer's salary for 2010 as compared to 2009 based primarily on Company performance for the year ending December 31, 2009.

In 2011, the Compensation Committee and the Board of Directors approved that each of the named executive officers be entitled to receive a 3.52% increase in such officer's salary for 2011 as compared to 2010 based primarily on Company performance for the year ending December 31, 2010.

Cash Bonuses. We utilize annual incentive bonuses to reward officers and other employees for achieving financial and operational goals and for achieving individual annual performance objectives. These objectives vary depending on the individual executive and employee, but relate generally to strategic factors, including establishment and maintenance of key strategic relationships, advancement of our product candidates, identification and advancement of additional programs or product candidates, and to financial factors, including raising capital and improving our results of operations.

In 2005, in connection with a restructuring of the Company's internal programs, the Board established an incentive program designed to retain and motivate our executives. The program provided for payments to the executives upon the occurrence of certain business transactions and time-limited financing milestones. The program continues to provide the named executive officers financial protection in the event of certain merger or acquisition or asset sale transactions. In the event of a defined transaction, we would be obligated to make a payment to the named executive officers representing five percent of the consideration received from the transaction, and in the event of a stock-based transaction, the executives would receive fifty percent of any payments due to them in stock. There were no payments under this program in 2010.

In addition, given the nature of our business, when appropriate, we reward our executive officers with discretionary bonuses. Discretionary bonuses were paid to our named executive officers in 2010, as described in the following paragraph.

Table of Contents

The Compensation Committee recommended and the Board of Directors approved a cash bonus incentive program for the year ended December 31, 2010 for our named executive officers. Under the 2010 incentive program, each named executive officer could, at the discretion of the Compensation Committee and the Board of Directors, receive a bonus at a target level of 25% of such officer's 2010 salary based 80% on the achievement of specified corporate goals and 20% on the assessment of such officer's individual performance, based on input from the Chief Executive Officer (with respect to the named executive officers other than the Chief Executive Officer whose bonus potential was based 100% on achievement of specified corporate goals). The corporate goals included the achievement of progress on MultiStem clinical development, execution against the established budget and operating plan, and achievement of one or more strategic partnerships. However, any bonus ultimately paid under the 2010 incentive program was to be at the discretion of the Board of Directors based on the recommendation of the Compensation Committee, after good faith consideration of executive officer performance, overall company performance, market conditions and cash availability. There was no formally adopted plan document for the 2010 incentive program, although the Compensation Committee recommended and the Board of Directors approved the specific corporate goals and target bonus levels. The Compensation Committee and the Board of Directors agreed that each of our named executive officers would be entitled to 54% of their respective target bonus under the 2010 incentive program as a result of the achievement of operational and strategic objectives in 2010, specifically the achievement of patient enrollment goals for the Company's clinical trials in heart attack and bone marrow transplant support, and obtaining authorization from the Food and Drug Administration to proceed with a clinical trial in inflammatory bowel disease in 2010. The achievement of these clinical goals combined with operating according to the approved budget and individual performance resulted in the payment of bonuses equal to 13.5% of such officers' 2010 base salaries. Such cash bonus payments paid to our executive officers in 2011 were as follows: Dr. Van Bokkelen \$52,750; Dr. Harrington \$45,214; Mr. Lehmann \$45,214; Dr. Deans \$35,418; and Ms. Campbell \$29,389.

For the year ending December 31, 2011, the Compensation Committee recommended and the Board of Directors approved a cash bonus incentive plan for our named executive officers. The 2011 plan provides that each participant is eligible to earn a target bonus of a specified percentage of the named executive officer's salary during the award term, weighted on the achievement of specified corporate goals, with the remainder based on individual/functional performance. The corporate goals include advancing the Company's clinical programs for MultiStem, executing against the established operating plan and capital acquisition objectives, and advancement of strategic partnership and program activities.

Long-Term Incentive Program. We believe that we can encourage superior long-term performance by our executive officers and employees through encouraging them to own, and assisting them with the acquisition of, our Common Stock. Our equity compensation plans provide our employees, including named executive officers, with incentives to help align their interests with the interests of our stockholders. We believe that the use of Common Stock and stock-based awards offers the best approach to achieving our objective of fostering a culture of ownership, which we believe will, in turn, motivate our named executive officers to create and enhance stockholder value. We have not adopted stock ownership guidelines, but our equity compensation plans provide a principal method for our executive officers to acquire equity in our company.

Table of Contents

Our equity compensation plans authorize us to grant, among other types of awards, options, restricted stock and restricted stock units to our employees, Directors and consultants. To date, we have not granted any restricted stock or restricted stock units under our equity compensation plans. We anticipate that to implement our long-term incentive goals, we may grant restricted stock or restricted stock units in the future. Historically, we have elected to use stock options as our primary long-term equity incentive vehicle. We expect to continue to use stock options as a long-term incentive vehicle because we believe:

Stock options align the interests of our executives with those of our stockholders, support a pay-for-performance culture, foster an employee stock ownership culture and focus the management team on increasing value for our stockholders;

The value of stock options is based on our performance, because all the value received by the recipient of a stock option is based on the growth of our stock price;

Stock options help to provide a balance to the overall executive compensation program because, while base salary and our discretionary annual bonus program focus on short-term performance, vesting stock options reward increases in stockholder value over the longer term; and

The vesting period of stock options encourages executive retention and efforts to preserve stockholder value.

In the past, in determining the number of stock options to be granted to executives, we took into account the individual's position, scope of responsibility, ability to affect results and stockholder value, the individual's historic and recent performance and the value of stock options in relation to other elements of the individual executive's total compensation. Currently, awards of stock options are granted from time to time under the guidance and approval of the Compensation Committee and the Board of Directors. The Compensation Committee and the Board of Directors periodically review and approve stock option awards to executive officers based upon a review of competitive compensation data, an assessment of individual performance, a review of each executive's existing long-term incentives, retention considerations and a subjective determination of the individual's potential to positively impact future stockholder value. No stock option grants awards were conferred to our named executive officers in 2010.

Retirement and Health Insurance Benefits. Consistent with our compensation philosophy, we maintain benefits for our executive officers, including medical, dental, vision, life and disability insurance coverage and the ability to contribute to a 401(k) retirement plan. The executive officers and employees have the ability to participate in these benefits at the same levels. We provide such retirement and health insurance benefits to our employees to retain qualified personnel. In addition, Dr. Van Bokkelen, Dr. Harrington, Mr. Lehmann, Dr. Deans and Ms. Campbell also receive Company-paid life insurance benefits in the amounts of \$2 million for Dr. Van Bokkelen, Dr. Harrington and Mr. Lehmann, and \$1 million for Dr. Deans and Ms. Campbell. These additional life insurance policies are provided to these officers due to their extensive travel requirements and contributions to the Company. We have no current plans to change the level of these benefits provided to our named executive officers.

Table of Contents

Severance Arrangements

See the disclosure under Potential Payments Upon Termination or Change of Control for more information about severance arrangements with our named executive officers. We provide such severance arrangements to attract and retain qualified personnel.

Employment Agreements and Arrangements

We believe that entering into employment agreements with each of our named executive officers was necessary for us to attract and retain talented and experienced individuals for our senior level positions. In this way, the employment agreements help us meet the initial objective of our compensation program. Each agreement contains terms and arrangements that we agreed to through arms-length negotiation with our named executive officers. We view these employment agreements as reflecting the minimum level of compensation that our named executive officers require to remain employed with us, and thus the bedrock of our compensation program for our named executive officers. For more details of our employment agreements and arrangements, see the disclosure under 2010 Summary Compensation Table.

General Tax Deductibility of Executive Compensation

We structure our compensation program to comply with Internal Revenue Code Section 162(m). Under Section 162(m) of the Internal Revenue Code, there is a limitation on tax deductions of any publicly-held corporation for individual compensation to certain executives of such corporation exceeding \$1.0 million in any taxable year, unless the compensation is performance-based. The Compensation Committee manages our incentive programs to qualify for the performance-based exemption; however, it also reserves the right to provide compensation that does not meet the exemption criteria if, in its sole discretion, it determines that doing so advances our business objectives.

Equity Compensation Plans

In June 2007, we adopted two equity compensation plans, which authorize the Board of Directors, or a committee thereof, to provide equity-based compensation in the form of stock options, restricted stock, restricted stock units and other stock-based awards, which are used to attract and retain qualified employees, Directors and consultants. Equity awards are granted from time to time under the guidance and approval of the Compensation Committee. Total awards under these plans are limited to 4,500,000 shares of Common Stock, of which 3,035,000 shares are available under our Long-Term Incentive Plan and 1,465,000 shares are available under our Equity Incentive Plan. In April 2011, the Board of Directors approved, subject to stockholder approval, the Athersys, Inc. Amended and Restated 2007 Long-Term Incentive Plan, which was amended to, among other things, increase the number of shares available for grant by 1,000,000 shares. See Proposal Three in this proxy statement for more information regarding this plan.

401(k) Plan

We have a tax-qualified employee savings and retirement plan, also known as a 401(k) plan, that covers all of our employees. Under our 401(k) plan, eligible employees may elect to reduce their current compensation by up to the statutorily prescribed annual limit, which was \$16,500 in both 2010 and 2009, and have the amount of the reduction contributed to the 401(k) plan. The trustees of the 401(k) plan, at the direction of each participant, invest the assets of the 401(k) plan in designated investment options. We may make matching or profit-sharing contributions to the 401(k) plan in amounts to be determined by our Board of Directors. We did not make any matching or profit-sharing contributions to the 401(k) plan during fiscal 2010, 2009 or 2008. The 401(k) plan is intended to qualify under Section 401 of the Internal Revenue Code, so that contributions to the 401(k) plan and income earned on the 401(k) plan contributions are not taxable until withdrawn, and so that any contributions we make will be deductible when made.

Table of Contents

Potential Payments Upon Termination or Change in Control

Under their employment agreements, the named executive officers may be entitled to certain potential payments upon termination. In the event that an executive officer is terminated without cause or terminates employment for good reason, as defined in the agreements, we would be obligated to pay full base salary and other benefits for a defined period, subject to mitigation related to other employment. For Dr. Gil Van Bokkelen and Dr. John Harrington, the defined payment period is 18 months and, for all other executive officers, the period is six months. We would also be obligated to continue the participation of Dr. Gil Van Bokkelen and Dr. John Harrington in all other medical, life and employee welfare benefit programs for a period of eighteen months at our expense, to the extent available and possible under the programs.

The agreements define cause to mean willful and continuous neglect of such executive officer's duties or responsibilities or willful misconduct by the executive officer that is materially and manifestly injurious to Athersys.

Good reason includes, among other things, demotion, salary reduction, relocation, failure to provide an executive officer with adequate and appropriate facilities and termination by the executive officer within 90 days of a change in control. A change in control occurs when (1) a person or group of persons purchases 50% or more of our consolidated assets or a majority of our voting shares, or (2) if, following a public offering, the directors of Athersys immediately following the offering no longer constitute a majority of the Board of Directors. Upon a change in control, or if the named executive officer should die or become permanently disabled, all unvested stock options become immediately vested and exercisable. As of December 31, 2010, none of the named executive officers held unvested stock options. In the event that an executive officer is terminated for cause or as a result of death, we would be obligated to pay full base salary and other benefits, including any unpaid expense reimbursements, through the date of termination, and would have no further obligations to the executive officer. In the event that an executive officer is unable to perform duties as a result of a disability, we would be obligated to pay full base salary and other benefits until employment is terminated and for a period of twelve months from the date of such termination.

Additionally, in 2005, in connection with the restructuring of the Company's internal programs, the Board established an incentive program intended to promote retention and motivation of our executives. The program provides the named executive officers financial protection in the event of certain merger or acquisition or asset sale transactions, obligating us to make a payment to the named executive officers representing five percent of the consideration received from the transaction.

Table of Contents

The table below reflects the amount of compensation payable to each named executive officer in the event of termination of such executive's employment, pursuant to such executive's employment agreement. The amounts shown assume that such termination was effective as of December 31, 2010 and thus includes amounts earned through such time and are estimates of the amounts that would be paid out to executives upon their termination.

In 2010, three of our non-employee Directors each received such an initial stock option award.

Effective April 1, 2011, the Board of Directors approved a revised initial grant for new directors equal to 30,000 shares of Common Stock, which options vest at a rate of 50% in the first year (on a quarterly basis) and 25% in each of the two years (on a quarterly basis) thereafter.

Additionally, the non-employee Directors receive, at each anniversary of service, an option award to purchase 15,000 shares of Common Stock at fair market value on the date of grant. In 2010, four of our non-employee Directors each received such an anniversary stock option award. Effective April 1, 2011, the Board of Directors approved a change to the vesting schedule for anniversary stock option awards such that new awards will vest quarterly over a one-year period. Also, effective April 1, 2011, all new initial and anniversary stock option awards granted to non-employee Directors will have a term of ten years and upon the termination of the Director's service, the Director will have 18 months in which to exercise the vested portion of his options prior to forfeiture.

These shares, however, are not considered outstanding when computing the percentage ownership of each other person.

Table of Contents

(c) Any grant of Tandem Appreciation Rights will provide that such Tandem Appreciation Rights may be exercised only at a time when the related Option Right is also exercisable and at a time when the Spread is positive, and by surrender of the related Option Right for cancellation. Successive grants of Tandem Appreciation Rights may be made to the same Participant regardless of whether any Tandem Appreciation Rights previously granted to the Participant remain unexercised.

(d) Regarding Free-Standing Appreciation Rights only:

- (i) Each grant will specify in respect of each Free-Standing Appreciation Right a Base Price, which may not be less than the Market Value per Share on the Date of Grant;

- (iii) No Free-Standing Appreciation Right granted under this Plan may be exercised more than 10 years from the Date of Grant.

6. Restricted Stock. The Administrator may also authorize the grant or sale of Restricted Stock to Participants. Each such grant or sale will be subject to all of the requirements contained in the following provisions:

(a) Each such grant or sale will constitute an immediate transfer of the ownership of Common Shares to the Participant in consideration of the performance of services, entitling such Participant to voting, dividend and other ownership rights, but subject to the substantial risk of forfeiture and restrictions on transfer hereinafter referred to.

(b) Each such grant or sale may be made without additional consideration or in consideration of a payment by such Participant that is less than the Market Value per Share at the Date of Grant.

(c) Each such grant or sale will provide that the Restricted Stock covered by such grant or sale that vests upon the passage of time will be subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code for a period to be determined by the Administrator at the Date of Grant, or may provide that the Restricted Stock will vest upon the achievement of Management Objectives (as provided in Section 6(e) below); provided, however, that if Restricted Stock vests based on the passage of time rather than the achievement of Management Objectives, the period of time will be no shorter than three years, except that the restrictions may be removed ratably on at least an annual basis during the three year period.

(d) Each such grant or sale will provide that during or after the period for which such substantial risk of forfeiture is to continue, the transferability of the Restricted Stock will be prohibited or restricted in the manner and to the extent prescribed by the Administrator at the Date of Grant (which restrictions may include, without limitation, rights of repurchase or first refusal in the Company or provisions subjecting the Restricted Stock to a continuing substantial risk of forfeiture in the hands of any transferee).

Table of Contents

(e) Any grant of Restricted Stock may specify Management Objectives that, if achieved, will result in termination or early termination of the restrictions applicable to such Restricted Stock; provided, however, that notwithstanding subparagraph (c) above, restrictions relating to Restricted Stock that vests upon the achievement of Management Objectives may not terminate sooner than one year from the Date of Grant. Each grant may specify in respect of such Management Objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of shares of Restricted Stock on which restrictions will terminate if performance is at or above the minimum level, but falls short of maximum achievement of the specified Management Objectives. The grant of Restricted Stock will specify that, before the termination or early termination of restrictions applicable to such Restricted Stock, the Compensation Committee must determine that the Management Objectives have been satisfied; provided, however, that notwithstanding Section 6(c) above, the substantial risk of forfeiture relating to Restricted Stock that vests upon the achievement of Management Objectives may not terminate sooner than one year from the Date of Grant.

(f) Notwithstanding anything to the contrary contained in this Plan, any grant or sale of Restricted Stock may provide for the earlier lapse of the substantial risk of forfeiture in the event of the retirement, death or disability of a Participant or a Change in Control.

(g) Any such grant or sale of Restricted Stock may require that any or all dividends or other distributions paid thereon during the period of such restrictions be automatically deferred and reinvested in additional shares of Restricted Stock, which may be subject to the same restrictions as the underlying award; provided, however, that dividends or other distributions on Restricted Stock with restrictions that lapse as a result of the achievement of Management Objectives shall be deferred until and paid contingent upon the achievement of the applicable Management Objectives.

(h) Each grant or sale of Restricted Stock will be evidenced by an Evidence of Award and will contain such terms and provisions, consistent with this Plan, as the Administrator may approve. Unless otherwise directed by the Administrator, (i) all certificates representing shares of Restricted Stock will be held in custody by the Company until all restrictions thereon will have lapsed, together with a stock power or powers executed by the Participant in whose name such certificates are registered, endorsed in blank and covering such Shares, or (ii) all shares of Restricted Stock will be held at the Company's transfer agent in book entry form with appropriate restrictions relating to the transfer of such shares of Restricted Stock.

Table of Contents

- (a) Each such grant or sale will constitute the agreement by the Company to deliver Common Shares or cash to the Participant in the future in consideration of the performance of services, but subject to the fulfillment of such conditions (which may include the achievement of Management Objectives) during the Restriction Period as the Administrator may specify. If a grant of Restricted Stock Units specifies that the Restriction Period will terminate upon the achievement of Management Objectives, then, notwithstanding anything to the contrary contained in subparagraph (c) below, such Restriction Period may not terminate sooner than one year from the Date of Grant. Each grant may specify in respect of such Management Objectives a minimum acceptable level of achievement and may set forth a formula for determining the number of Restricted Stock Units on which restrictions will terminate if performance is at or above the minimum level, but falls short of maximum achievement of the specified Management Objectives. The grant of such Restricted Stock Units will specify that, before the termination or early termination of restrictions applicable to such Restricted Stock Units, the Compensation Committee must determine that the Management Objectives have been satisfied.
 - (b) Each such grant or sale may be made without additional consideration or in consideration of a payment by such Participant that is less than the Market Value per Share at the Date of Grant.
 - (c) If the Restriction Period lapses only by the passage of time rather than the achievement of Management Objectives as provided in subparagraph (a) above, each such grant or sale will be subject to a Restriction Period of not less than one year.
 - (d) Notwithstanding anything to the contrary contained in this Plan, any grant or sale of Restricted Stock Units may provide for the earlier lapse or other modification of the Restriction Period in the event of the retirement, death or disability of a Participant or a Change in Control.
 - (e) During the Restriction Period, the Participant will have no right to transfer any rights under his or her award and will have no rights of ownership in the Common Shares deliverable upon payment of the Restricted Stock Units and will have no right to vote them, but the Administrator may at the Date of Grant, authorize the payment of dividend equivalents on such Restricted Stock Units on either a current or deferred or contingent basis, either in cash or in additional Common Shares; provided, however, that dividends or other distributions on Common Shares underlying Restricted Stock Units with restrictions that lapse as a result of the achievement of Management Objectives shall be deferred until and paid contingent upon the achievement of the applicable Management Objectives.
 - (f) Each grant or sale of Restricted Stock Units will specify the time and manner of payment of the Restricted Stock Units that have been earned. Any grant or sale may specify that the amount payable with respect thereto may be paid by the Company in cash, in Common Shares or in any combination thereof and may either grant to the Participant or retain in the Administrator the right to elect among those alternatives.
 - (g) Each grant or sale of Restricted Stock Units will be evidenced by an Evidence of Award and will contain such terms and provisions, consistent with this Plan, as the Administrator may approve.

Each such grant will be subject to all of the requirements contained in the following provisions:

- (a) Each grant will specify the number of Performance Shares or Performance Units to which it pertains, which number may be subject to adjustment to reflect changes in compensation or other factors; provided, however, that no such adjustment will be made in the case of a Qualified Performance-Based Award (other than in connection with the death or disability of the Participant or a Change in Control) where such action would result in the loss of the otherwise available exemption of the award under Section 162(m) of the Code.
- (b) The Performance Period with respect to each Performance Share or Performance Unit will be such period of time (not less than one year) commencing on the Date of Grant as will be determined by the Administrator at the time of grant, which may be subject to earlier lapse or other modification in the event of the retirement, death or disability of a Participant or a Change in Control.
- (c) Any grant of Performance Shares or Performance Units will specify Management Objectives which, if achieved, will result in payment or early payment of the award, and each grant may specify in respect of such specified Management Objectives a level or levels of achievement and will set forth a formula for determining the number of Performance Shares or Performance Units that will be earned if performance is at or above the minimum level or levels, but falls short of maximum achievement of the specified Management Objectives. The grant of Performance Shares or Performance Units will specify that, before the Performance Shares or Performance Units will be earned and paid, the Compensation Committee must determine that the Management Objectives have been satisfied.
- (d) Each grant will specify the time and manner of payment of Performance Shares or Performance Units that have been earned. Any grant may specify that the amount payable with respect thereto may be paid by the Company in cash, in Common Shares or in any combination thereof and may either grant to the Participant or retain in the Administrator the right to elect among those alternatives.
- (e) Any grant of Performance Shares may specify that the amount payable with respect thereto may not exceed a maximum specified by the Administrator at the Date of Grant. Any grant of Performance Units may specify that the amount payable or the number of Common Shares issued with respect thereto may not exceed maximums specified by the Administrator at the Date of Grant.
- (f) The Administrator may, at the Date of Grant of Performance Shares, provide for the payment of dividend equivalents to the holder thereof either in cash or in additional Common Shares, subject in all cases to deferral and payment on a contingent basis based on the Participant's earning of the Performance Shares with respect to which such dividend equivalents are paid.

(g) Each grant of Performance Shares or Performance Units will be evidenced by an Evidence of Award and will contain such other terms and provisions, consistent with this Plan, as the Administrator may approve.

9. Awards to Non-Employee Directors. The Administrator may, from time to time and upon such terms and conditions as it may determine, authorize the granting to Non-Employee Directors of Option Rights, Appreciation Rights or other awards contemplated by Section 10 of this Plan and may also authorize the grant or sale of Common Shares, Restricted Stock or Restricted Stock Units to Non-Employee Directors. Each grant of an award to a Non-Employee Director will be upon such terms and conditions as approved by the Administrator, will not be required to be subject to any minimum vesting period, and will be evidenced by an Evidence of Award in such form as will be approved by the Administrator. Each grant will specify in the case of an Option Right, an Option Price per share, and in the case of a Free-Standing Appreciation Right, a Base Price per share, which will not be less than the Market Value per Share on the Date of Grant. Each Option Right and Free-Standing Appreciation Right granted under this Plan to a Non-Employee Director will expire not more than 10 years from the Date of Grant and will be subject to earlier termination as hereinafter provided. If a Non-Employee Director subsequently becomes an employee of the Company or a Subsidiary while remaining a member of the Board, any award held under this Plan by such individual at the time of such commencement of employment will not be affected thereby. Non-Employee Directors, pursuant to this Section 9, may be awarded, or may be permitted to elect to receive, pursuant to procedures established by the Administrator, all or any portion of their annual retainer, meeting fees or other fees in Common Shares, Restricted Stock, Restricted Stock Units or other awards under this Plan in lieu of cash.

10. Other Awards.

(a) The Administrator may, subject to limitations under applicable law, grant to any Participant such other awards that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, Common Shares or factors that may influence the value of such shares, including, without limitation, convertible or exchangeable debt securities, other rights convertible or exchangeable into Common Shares, purchase rights for Common Shares, awards with value and payment contingent upon performance of the Company or specified Subsidiaries, affiliates or other business units thereof or any other factors designated by the Administrator, and awards valued by reference to the book value of Common Shares or the value of securities of, or the performance of specified Subsidiaries or affiliates or other business units of the Company. The Administrator shall determine the terms and conditions of such awards. Common Shares delivered pursuant to an award in the nature of a purchase right granted under this Section 10 shall be purchased for such consideration, paid for at such time, by such methods, and in such forms, including, without limitation, cash, Common Shares, other awards, notes or other property, as the Administrator shall determine.

(b) Cash awards, as an element of or supplement to any other award granted under this Plan, may also be granted pursuant to this Section 10 of this Plan.

(c) The Administrator may grant Common Shares as a bonus, or may grant other awards in lieu of obligations of the Company or a Subsidiary to pay cash or deliver other property under this Plan or under other plans or compensatory arrangements, subject to such terms as shall be determined by the Administrator.

11. Administration of the Plan.

(a) This Plan will be administered by the Administrator. To the extent the Compensation Committee is the Administrator, the Compensation Committee may from time to time delegate all or any part of its authority under this Plan to any subcommittee thereof. To the extent of any such delegation, references in this Plan to the Administrator will be deemed to be references to such subcommittee. A majority of the Administrator (or subcommittee) will constitute a quorum, and the action of the members of the Administrator (or subcommittee) present at any meeting at which a quorum is present, or acts unanimously approved in writing, will be the acts of the Administrator (or subcommittee).

(b) The interpretation and construction by the Administrator of any provision of this Plan or of any agreement, notification or document evidencing the grant of Option Rights, Appreciation Rights, Restricted Stock, Restricted Stock Units, Performance Shares, Performance Units or other awards pursuant to Section 10 of this Plan and any determination by the Administrator pursuant to any provision of this Plan or of any such agreement, notification or document will be final and conclusive. No member of the Administrator will be liable for any such action or determination made in good faith.

Table of Contents

(c) The Administrator or, to the extent of any delegation as provided in Section 11(a), the subcommittee, may delegate to one or more of its members or to one or more officers of the Company, or to one or more agents or advisors, such administrative duties or powers as it may deem advisable, and the Administrator, the subcommittee, or any person to whom duties or powers have been delegated as aforesaid, may employ one or more persons to render advice with respect to any responsibility the Administrator, the subcommittee or such person may have under this Plan. The Administrator or the subcommittee may, by resolution, authorize one or more officers of the Company to do one or both of the following on the same basis as the Administrator or the subcommittee: (i) designate employees to be recipients of awards under this Plan; and (ii) determine the size of any such awards; provided, however, that (A) the Administrator or the subcommittee shall not delegate such responsibilities to any such officer for awards granted to an employee who is an officer, Director, or more than 10% beneficial owner of any class of the Company's equity securities that is registered pursuant to Section 12 of the Exchange Act, as determined by the Administrator in accordance with Section 16 of the Exchange Act; (B) the resolution providing for such authorization sets forth the total number of Common Shares such officer(s) may grant; and (C) the officer(s) shall report periodically to the Administrator or the subcommittee, as the case may be, regarding the nature and scope of the awards granted pursuant to the authority delegated.

12. Adjustments. The Compensation Committee shall make or provide for such adjustments in the numbers of Common Shares authorized under this Plan, subject to limits contained in Section 3 of this Plan, and covered by outstanding Option Rights, Appreciation Rights, Restricted Stock Units, Performance Shares and Performance Units granted hereunder and, if applicable, in the number of Common Shares covered by other awards granted pursuant to Section 10 hereof, in the Option Price and Base Price, and in the kind of shares covered thereby, as the Compensation Committee, in its sole discretion may determine is equitably required to prevent dilution or enlargement of the rights of Participants or Optionees that otherwise would result from (a) any stock dividend, extraordinary dividend, stock split, combination of shares, recapitalization or other change in the capital structure of the Company, or (b) any Change in Control, merger, consolidation, spin-off, split-off, spin-out, split-up, reorganization, partial or complete liquidation or other distribution of assets, issuance of rights or warrants to purchase securities, or (c) any other corporate transaction or event having an effect similar to any of the foregoing. Moreover, in the event of any such transaction or event, the Compensation Committee, in its discretion, may provide in substitution for any or all outstanding awards under this Plan such alternative consideration (including cash), if any, as it may determine to be equitable in the circumstances and may require in connection therewith the surrender of all awards so replaced. The Compensation Committee shall also make or provide for such adjustments in the numbers of shares specified in Section 3 of this Plan as the Compensation Committee in its sole discretion, exercised in good faith, may determine is appropriate to reflect any transaction or event described in this Section 12; provided, however, that any such adjustment to the number specified in Section 3(b) will be made only if and to the extent that (i) such adjustment would not cause any option intended to qualify as an Incentive Stock Option to fail so to qualify and (ii) such adjustment would not result in negative tax consequences under Section 409A of the Code. Without limiting the generality of the foregoing, in the event that the Company issues warrants or other rights to acquire Common Shares on a pro rata basis to all stockholders, the Compensation Committee shall make such adjustments in the number of Common Shares authorized under this Plan and in the limits contained herein as it may deem to be equitable, including, without limitation, proportionately increasing the number of authorized Common Shares or any such limit.

13. Change in Control. For purposes of this Plan, except as may be otherwise prescribed by the Administrator in an Evidence of Award made under this Plan, a Change in Control shall be deemed to have occurred upon the occurrence of any of the following events:

(a) any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) (a Person) is or becomes the beneficial owner (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of 35% or more of the combined voting power of the then-outstanding Voting Stock of the Company; provided, however, that:

- (i) for purposes of this Section 13(a), the following acquisitions shall not constitute a Change in Control: (A) any acquisition of Voting Stock of the Company directly from the Company that is approved by a majority of the Incumbent Directors, (B) any acquisition of Voting Stock of the Company by the Company or any Subsidiary, (C) any acquisition of Voting Stock of the Company by the trustee or other fiduciary holding securities under any employee benefit plan (or related trust) sponsored or maintained by the Company or any Subsidiary, and (D) any acquisition of Voting Stock of the Company by any Person pursuant to a Business Transaction that complies with clauses (i), (ii) and (iii) of Section 13(c) below;
- (ii) a Change in Control will not be deemed to have occurred if a Person is or becomes the beneficial owner of 35% or more of the Voting Stock of the Company as a result of a reduction in the number of shares of Voting Stock of the Company outstanding pursuant to a transaction or series of transactions that is approved by a majority of the Incumbent Directors unless and until such Person thereafter becomes the beneficial owner of any additional shares of Voting Stock of the Company representing 1% or more of the then-outstanding Voting Stock of the Company, other than as a result of a stock dividend, stock split or similar transaction effected by the Company in which all holders of Voting Stock are treated equally; and
- (iii) if at least a majority of the Incumbent Directors determine in good faith that a Person has acquired beneficial ownership of 35% or more of the Voting Stock of the Company inadvertently, and such Person divests as promptly as practicable but no later than the date, if any, set by the Incumbent Board a sufficient number of shares so that such Person beneficially owns less than 35% of the Voting Stock of the Company, then no Change in Control shall have occurred as a result of such Person's acquisition; or

(b) a majority of the Board ceases to be comprised of Incumbent Directors; or

Table of Contents

(c) the consummation of a reorganization, merger or consolidation, or sale or other disposition of all or substantially all of the assets of the Company or the acquisition of the stock or assets of another corporation, or other transaction (each, a Business Transaction), unless, in each case, immediately following such Business Transaction (i) the Voting Stock of the Company outstanding immediately prior to such Business Transaction continues to represent (either by remaining outstanding or by being converted into Voting Stock of the surviving entity or any parent thereof), more than 60% of the combined voting power of the then outstanding shares of Voting Stock of the entity resulting from such Business Transaction (including, without limitation, an entity which as a result of such transaction owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries), (ii) no Person (other than the Company, such entity resulting from such Business Transaction or any employee benefit plan (or related trust) sponsored or maintained by the Company, any Subsidiary or such entity resulting from such Business Transaction) beneficially owns, directly or indirectly, 50% or more of the combined voting power of the then outstanding shares of Voting Stock of the entity resulting from such Business Transaction, and (iii) at least a majority of the members of the Board of Directors of the entity resulting from such Business Transaction were Incumbent Directors at the time of the execution of the initial agreement or of the action of the Board providing for such Business Transaction; or

(d) approval by the stockholders of the Company of a complete liquidation or dissolution of the Company, except pursuant to a Business Transaction that complies with clauses (i), (ii) and (iii) of Section 13(c) above.

14. Non U.S. Participants. In order to facilitate the making of any grant or combination of grants under this Plan, the Administrator may provide for such special terms for awards to Participants who are foreign nationals or who are employed by the Company or any Subsidiary outside of the United States of America or who provide services to the Company under an agreement with a foreign nation or agency, as the Administrator may consider necessary or appropriate to accommodate differences in local law, tax policy or custom. Moreover, the Administrator may approve such supplements to or amendments, restatements or alternative versions of this Plan (including, without limitation, sub-plans) as it may consider necessary or appropriate for such purposes, without thereby affecting the terms of this Plan as in effect for any other purpose, and the Secretary or other appropriate officer of the Company may certify any such document as having been approved and adopted in the same manner as this Plan. No such special terms, supplements, amendments or restatements, however, will include any provisions that are inconsistent with the terms of this Plan as then in effect unless this Plan could have been amended to eliminate such inconsistency without further approval by the stockholders of the Company.

15. Transferability.

(a) Except as otherwise determined by the Administrator, no Option Right, Appreciation Right or other derivative security granted under this Plan shall be transferable by the Participant except by will or the laws of descent and distribution. Except as otherwise determined by the Administrator, Option Rights and Appreciation Rights will be exercisable during the Participant's lifetime only by him or her or, in the event of the Participant's legal incapacity to do so, by his or her guardian or legal representative acting on behalf of the Participant in a fiduciary capacity under state law and/or court supervision.

(b) The Administrator may specify at the Date of Grant that part or all of the Common Shares that are (i) to be issued or transferred by the Company upon the exercise of Option Rights or Appreciation Rights, upon the termination of the Restriction Period applicable to Restricted Stock Units or upon payment under any grant of Performance Shares or Performance Units or (ii) no longer subject to the substantial risk of forfeiture and restrictions on transfer referred to in Section 6 of this Plan, will be subject to further restrictions on transfer.

16. Withholding Taxes. To the extent that the Company is required to withhold federal, state, local or foreign taxes in connection with any payment made or benefit realized by a Participant or other person under this Plan, and the amounts available to the Company for such withholding are insufficient, it will be a condition to the receipt of such payment or the realization of such benefit that the Participant or such other person make arrangements satisfactory to the Company for payment of the balance of such taxes required to be withheld, which arrangements (in the discretion of the Administrator) may include relinquishment of a portion of such benefit. If a Participant's benefit is to be received in the form of Common Shares, and such Participant fails to make arrangements for the payment of tax, the Company shall withhold such Common Shares having a value equal to the amount required to be withheld.

Notwithstanding the foregoing, when a Participant is required to pay the Company an amount required to be withheld under applicable income and employment tax laws, the Participant may elect to satisfy the obligation, in whole or in part, by electing to have withheld, from the shares required to be delivered to the Participant, Common Shares having a value equal to the amount required to be withheld (except in the case of Restricted Stock where an election under Section 83(b) of the Code has been made), or by delivering to the Company other Common Shares held by such Participant. The shares used for tax withholding will be valued at an amount equal to the Market Value per Share of such Common Shares on the date the benefit is to be included in Participant's income. In no event shall the Market Value per Share of the Common Shares to be withheld and/or delivered pursuant to this Section 16 to satisfy applicable withholding taxes in connection with the benefit exceed the minimum amount of taxes required to be withheld. Participants shall also make such arrangements as the Company may require for the payment of any withholding tax obligation that may arise in connection with the disposition of Common Shares acquired upon the exercise of Option Rights.

17. Compliance with Section 409A of the Code.

(a) To the extent applicable, it is intended that this Plan and any grants made hereunder comply with the provisions of Section 409A of the Code, so that the income inclusion provisions of Section 409A(a)(1) of the Code do not apply to the Participants. This Plan and any grants made hereunder shall be administered in a manner consistent with this intent. Any reference in this Plan to Section 409A of the Code will also include any regulations or any other formal guidance promulgated with respect to such Section by the U.S. Department of the Treasury or the Internal Revenue Service.

(b) Neither a Participant nor any of a Participant's creditors or beneficiaries shall have the right to subject any deferred compensation (within the meaning of Section 409A of the Code) payable under this Plan and grants hereunder to any anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, attachment or garnishment. Except as permitted under Section 409A of the Code, any deferred compensation (within the meaning of Section 409A of the Code) payable to a Participant or for a Participant's benefit under this Plan and grants hereunder may not be reduced by, or offset against, any amount owing by a Participant to the Company or any of its affiliates.

Table of Contents

(c) If, at the time of a Participant's separation from service (within the meaning of Section 409A of the Code), (i) the Participant shall be a specified employee (within the meaning of Section 409A of the Code and using the identification methodology selected by the Company from time to time) and (ii) the Company shall make a good faith determination that an amount payable hereunder constitutes deferred compensation (within the meaning of Section 409A of the Code) the payment of which is required to be delayed pursuant to the six-month delay rule set forth in Section 409A of the Code in order to avoid taxes or penalties under Section 409A of the Code, then the Company shall not pay such amount on the otherwise scheduled payment date but shall instead pay it, without interest, on the tenth business day of the seventh month after such separation from service.

(d) Notwithstanding any provision of this Plan and grants hereunder to the contrary, in light of the uncertainty with respect to the proper application of Section 409A of the Code, the Company reserves the right to make amendments to this Plan and grants hereunder as the Company deems necessary or desirable to avoid the imposition of taxes or penalties under Section 409A of the Code. In any case, a Participant shall be solely responsible and liable for the satisfaction of all taxes and penalties that may be imposed on a Participant or for a Participant's account in connection with this Plan and grants hereunder (including any taxes and penalties under Section 409A of the Code), and neither the Company nor any of its affiliates shall have any obligation to indemnify or otherwise hold a Participant harmless from any or all of such taxes or penalties.

18. Amendments.

(a) The Board may at any time and from time to time amend this Plan in whole or in part; provided, however, that if an amendment to this Plan (i) would materially increase the benefits accruing to participants under this Plan, (ii) would materially increase the number of securities which may be issued under this Plan, (iii) would materially modify the requirements for participation in this Plan or (iv) must otherwise be approved by the stockholders of the Company in order to comply with applicable law or the rules of the NASDAQ Stock Market or, if the Common Shares are not traded on the NASDAQ Stock Market, the principal national securities exchange upon which the Common Shares are traded or quoted, then, such amendment will be subject to stockholder approval and will not be effective unless and until such approval has been obtained.

(b) Except in connection with a corporate transaction or event described in Section 12 of this Plan, the terms of outstanding awards may not be amended to reduce the Option Price of outstanding Option Rights or the Base Price of outstanding Appreciation Rights, or cancel outstanding Option Rights or Appreciation Rights in exchange for cash, other awards or Option Rights or Appreciation Rights with an Option Price or Base Price, as applicable, that is less than the Option Price of the original Option Rights or Base Price of the original Appreciation Rights, as applicable, without stockholder approval. This Section 18(b) is intended to prohibit the repricing of "underwater" Option Rights and Appreciation Rights and will not be construed to prohibit the adjustments provided for in Section 12 of this Plan. Notwithstanding any provision of this Plan to the contrary, this Section 18(b) may not be amended without approval by the Company's stockholders.

Table of Contents

(c) If permitted by Section 409A of the Code and Section 162(m), but subject to the paragraph that follows, in case of termination of employment by reason of death, disability or normal or early retirement, or in the case of unforeseeable emergency or other special circumstances, of a Participant who holds an Option Right or Appreciation Right not immediately exercisable in full, or any shares of Restricted Stock as to which the substantial risk of forfeiture or the prohibition or restriction on transfer has not lapsed, or any Restricted Stock Units as to which the Restriction Period has not been completed, or any Performance Shares or Performance Units which have not been fully earned, or any other awards made pursuant to Section 10 subject to any vesting schedule or transfer restriction, or who holds Common Shares subject to any transfer restriction imposed pursuant to Section 15(b) of this Plan, the Administrator may, in its sole discretion, accelerate the time at which such Option Right, Appreciation Right or other award may be exercised or the time at which such substantial risk of forfeiture or prohibition or restriction on transfer will lapse or the time when such Restriction Period will end or the time at which such Performance Shares or Performance Units will be deemed to have been fully earned or the time when such transfer restriction will terminate or may waive any other limitation or requirement under any such award.

Subject to Section 18(b) hereof, the Administrator may amend the terms of any award theretofore granted under this Plan prospectively or retroactively, except in the case of a Qualified Performance-Based Award (other than in connection with the Participant's death or disability, or a Change in Control) where such action would result in the loss of the otherwise available exemption of the award under Section 162(m) of the Code. In such case, the Board will not make any modification of the Management Objectives or the level or levels of achievement with respect to such Qualified Performance-Based Award. Subject to Section 12 above, no such amendment shall impair the rights of any Participant without his or her consent. The Board may, in its discretion, terminate this Plan at any time. Termination of this Plan will not affect the rights of Participants or their successors under any awards outstanding hereunder and not exercised in full on the date of termination.

19. Governing Law. The Plan and all grants and awards and actions taken thereunder shall be governed by and construed in accordance with the internal substantive laws of the State of Delaware.

20. Effective Date/Termination. This Plan will be effective as of the Effective Date. No grant will be made under this Plan more than 10 years after the Effective Date, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of this Plan.

21. Miscellaneous Provisions.

(a) The Company will not be required to issue any fractional Common Shares pursuant to this Plan. The Administrator may provide for the elimination of fractions or for the settlement of fractions in cash.

Table of Contents

- (b) This Plan will not confer upon any Participant any right with respect to continuance of employment or other service with the Company or any Subsidiary, nor will it interfere in any way with any right the Company or any Subsidiary would otherwise have to terminate such Participant's employment or other service at any time.
- (c) To the extent that any provision of this Plan would prevent any Option Right that was intended to qualify as an Incentive Stock Option from qualifying as such, that provision will be null and void with respect to such Option Right. Such provision, however, will remain in effect for other Option Rights and there will be no further effect on any provision of this Plan.
- (d) Any Evidence of Award may provide, in the event that the Participant engages in any activity that is detrimental to the Company (as such activity may be defined in any Evidence of Award): (i) for the forfeiture of any award granted under this Plan, (ii) that the Participant return to the Company any Common Shares that the Participant has not disposed of that were offered pursuant to this Plan, and/or (iii) that the Participant pay to the Company in cash the difference between any amount actually paid by a Participant for any Common Shares received under this Plan that the Participant has disposed of and the Market Value per Share of the Common Shares on the date the Participant acquired the Common Shares under this Plan.
- (e) No award under this Plan may be exercised by the holder thereof if such exercise, and the receipt of cash or stock thereunder, would be, in the opinion of counsel selected by the Board or Compensation Committee, contrary to law or the regulations of any duly constituted authority having jurisdiction over this Plan.
- (f) Absence on leave approved by a duly constituted officer of the Company or any of its Subsidiaries shall not be considered interruption or termination of service of any employee for any purposes of this Plan or awards granted hereunder.
- (g) No Participant shall have any rights as a stockholder with respect to any shares subject to awards granted to him or her under this Plan prior to the date as of which he or she is actually recorded as the holder of such shares upon the stock records of the Company.
- (h) The Administrator may condition the grant of any award or combination of awards authorized under this Plan on the surrender or deferral by the Participant of his or her right to receive a cash bonus or other compensation otherwise payable by the Company or a Subsidiary to the Participant.
- (i) Participants shall provide the Company with a written election form setting forth the name and contact information of the person who will have beneficial ownership rights upon the death of the Participant.
- (j) If any provision of this Plan is or becomes invalid, illegal or unenforceable in any jurisdiction, or would disqualify this Plan or any award under any law deemed applicable by the Board or Compensation Committee, such provision shall be construed or deemed amended or limited in scope to conform to applicable laws or, in the discretion of the Administrator, it shall be stricken and the remainder of this Plan shall remain in full force and effect.
