PROXY STATEMENT

FOR THE ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD ON TUESDAY, MAY 1, 2001

SOLICITATION OF PROXIES

This Proxy Statement and the accompanying Proxy are being distributed to shareholders of Champion Enterprises, Inc. (the "Company" or "Champion") in connection with the solicitation of Proxies to be used at the 2001 Annual Meeting of Shareholders. The Annual Meeting will be held at The Waldorf-Astoria, 301 Park Avenue, New York, New York 10022 on Tuesday, May 1, 2001 at 10:00 a.m. The Company's Board of Directors solicits the enclosed Proxy. This Proxy Statement and the enclosed Proxy were mailed to shareholders beginning on April 4, 2001. The Company's 2000 Annual Report to Shareholders and Annual Report on Form 10-K are also enclosed with this Proxy Statement.

The Company will pay the entire cost of soliciting Proxies. The Company will arrange with brokerage houses, nominees, custodians and other fiduciaries to send Proxy soliciting materials to beneficial owners of the Company's Common Stock at the Company's expense. In addition to solicitation by mail, officers and other employees may solicit Proxies personally, by telephone or by fax.

VOTING BY TELEPHONE OR ELECTRONICALLY

Shareholders may deliver a Proxy by telephone or electronically through the Internet by following the instructions printed on the Proxy Card.

REVOKING A PROXY

Any person giving a Proxy has the power to revoke it at any time before it is voted. There are three ways to revoke your Proxy. You may deliver a written notice of revocation, which is dated after the date of the Proxy, to the Secretary of the Company at or before the Annual Meeting. You may deliver a later-dated Proxy to the Secretary of the Company at or before the Annual Meeting. You may attend the Annual Meeting in person and vote your shares by ballot.

Edgar Filing: CHAMPION ENTERPRISES INC - Form DEF 14A

RECORD DATE

The record date for determining shareholders entitled to vote at the Annual Meeting is March 9, 2001. Each of the 47,544,011 shares of Common Stock of the Company issued and outstanding on that date is entitled to one vote on any matter voted on at the Annual Meeting. Abstention votes and votes withheld by brokers on non-routine proposals in the absence of instructions from beneficial owners ("broker non-votes") will be counted as present at the Annual Meeting to determine whether a quorum exists.

1. ELECTION OF DIRECTORS

Seven Directors will be elected at the Annual Meeting, each to hold office until the next Annual Meeting of Shareholders, or until a successor is appointed and qualified. Unless Proxy votes have been withheld, each Proxy received will be voted to elect Robert W. Anestis, Selwyn Isakow, Brian D. Jellison, Ellen R. Levine, George R. Mrkonic, Carl L. Valdiserri and Walter R. Young, as Directors. If any nominee is unable or declines to serve, Proxies will be voted for the balance of the nominees and for such additional person as designated by the Board to replace such nominee. However, the Board does not anticipate that this will occur.

Persons receiving a plurality of the votes cast at the Annual Meeting in person or by Proxy will be elected as Directors. "Plurality" means that the nominees who receive the largest number of votes cast are elected as Directors. Shares not voted (whether by abstention, broker non-votes or otherwise) have no effect on the election.

Information about the nominees for election as Directors appears below. All of the nominees are currently Directors of the Company and were elected at the 2000 Annual Meeting of Shareholders.

COMPENSATION OF DIRECTORS

Directors who are employees of the Company receive no compensation for serving as a Director other than their compensation for services as an employee and are reimbursed for expenses to attend Board and Committee meetings. Nonemployee Directors are compensated pursuant to the 2000 Stock Compensation Plan for Nonemployee Directors (the "Directors' Plan"), which was approved by shareholders on May 2, 2000. The Directors' Plan provides stock-based compensation to nonemployee Directors at three stages of service of the Director as described below. Nonemployee Directors do not receive any cash compensation for their services but are reimbursed for expenses to attend Board and Committee meetings.

OPTION GRANT UPON FIRST ELECTION TO BOARD. At the time a nonemployee Director is first elected to the Board at an Annual Meeting, the Director receives a nonqualified option to purchase 24,000 shares of Company Common Stock provided that the Director personally purchases in the open market at least 6,000 shares of Common Stock within 60 days after the date of the Annual Meeting. If the Director purchases less than 6,000 shares of Common Stock, the number of shares subject to the option is automatically reduced by a number equal to four times the difference between 6,000 and the number of shares actually purchased by the Director during the 60-day period. The Director must purchase at least 3,000 shares of Company Common Stock during the 60-day period to qualify for a stock option grant upon first election to the Board.

The option vests immediately but becomes exercisable at the rate of 25% of the total shares subject to the option on each of the next four Annual Meeting dates. The option remains exercisable for a period of 10 years from the grant date at an exercise price equal to the fair market value of the Common Stock on the grant date. Shares received upon exercise of the option may not be transferred for six months after the exercise date, except upon death, termination of service as a Director, or change in control of the Company.

ANNUAL STOCK RETAINER. Each person elected or reelected as a nonemployee Director receives an annual retainer consisting of 4,800 shares of Company Common Stock or 5,200 shares if such Director also serves as Chairperson of a Board Committee. In lieu of receiving the stock retainer at the time of an Annual Meeting, a Director may elect to (i) defer his or her retainer until retirement, death or other termination of service from the Board, or (ii) receive an option to purchase four shares of Company Common Stock for each share that would otherwise have been received as part of the stock retainer. The option vests immediately and is exercisable for a period of 10 years from the grant date at an exercise price equal to the fair market value of the Common Stock on the grant date.

Any new nonemployee Director who is appointed by the Board prior to an Annual Meeting to fill a vacancy on the Board receives a pro-rated number of shares of Common Stock as a retainer for services during such interim term. In lieu of receiving the pro-rated stock retainer, a Director may elect the deferral or option alternatives available to full-term Directors as discussed above.

DISCRETIONARY 10-YEAR ANNIVERSARY OPTION GRANT. At the Annual Meeting marking the anniversary of 10 consecutive years of service as a nonemployee Director, the Board has discretionary authority, based upon the recommendation of the Compensation and Human Resources Committee, to grant to such a Director a nonqualified option to purchase 24,000 shares of Company Common Stock provided that the Director personally owns at least 6,000 shares of Company Common Stock on the date 60 days after such Annual

Edgar Filing: CHAMPION ENTERPRISES INC - Form DEF 14A

Meeting. If the Director owns less than 6,000 shares of Company Common Stock on the date 60 days after such Annual Meeting, the number of shares subject to the option is automatically reduced by a number equal to four times the difference between 6,000 and the number of shares actually owned by the Director on such date. The Director must own at least 3,000 shares of Company Common Stock on the date 60 days after such Annual Meeting to qualify for a 10-year anniversary stock option grant.

The option vests immediately but becomes exercisable at the rate of 25% of the total shares subject to the option on each of the next four Annual Meeting dates. The option remains exercisable for a period of 10 years from the grant date at an exercise price equal to the fair market value of the Common Stock on the grant date. Shares received upon exercise of the option may not be transferred for six months after the exercise date, except upon death, termination of service as a Director, or change in control of the Company.

SPECIAL YEAR 2000 SHARE PURCHASE AND OPTION GRANT. On November 4, 2000, the Board amended the Directors' Plan to provide nonemployee Directors with a one-time incentive to purchase additional shares of Company Common Stock. During the period ending on December 28, 2000, nonemployee Directors were given the right to purchase between 2,000 and 25,000 shares of Common Stock at fair market value. Upon exercise of the purchase right, the Director received a stock option grant equal to four times the number of shares purchased. The options were granted at the fair market value of the Common Stock on the grant date, vest at a rate of 25% of the total shares subject to the option on each subsequent grant date anniversary, and remain exercisable for seven years from the grant date. Purchase rights for 110,000 shares of Common Stock were exercised pursuant to this amendment, which resulted in stock option grants for 440,000 shares of Common Stock.

MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS

The Company's Board meets regularly, at least once each quarter, and during 2000 held 11 meetings. The standing committees established by the Board are described below. The Board does not have a nominating committee.

AUDIT AND FINANCIAL RESOURCES COMMITTEE. The primary function of the Audit and Financial Resources Committee is to assist the Board in fulfilling its oversight responsibilities by reviewing the financial information provided to shareholders, the corporate accounting and financial reporting practices, the systems of internal controls that management and the Board have established, and the audit process. The Committee also recommends to the Board the selection of an independent auditor and reviews the scope of the audit and related fees for audit services. The Committee met eight times during 2000 and reviewed earnings related press releases and significant Securities and Exchange Commission ("SEC") filings. A copy of the Committee Charter is attached to this Proxy Statement as Appendix A. The members of the Committee are Selwyn Isakow (Committee Chairman), Brian D. Jellison and George R. Mrkonic.

COMPENSATION AND HUMAN RESOURCES COMMITTEE. The primary function of the Compensation and Human Resources Committee is to consider and make recommendations to the Board concerning the compensation programs, benefits and awards for all executive officers, including the Chief Executive Officer. The Committee develops and monitors the Company's executive compensation policies and oversees administration of the Company's stock option plans and programs. The Committee met nine times during 2000. The

members of the Committee are Robert W. Anestis (Committee Chairman), Ellen R.

Edgar Filing: CHAMPION ENTERPRISES INC - Form DEF 14A

Levine and Carl L. Valdiserri.

CORPORATE GOVERNANCE GUIDELINES. The Board has adopted corporate governance guidelines which are reviewed annually. Since 1995 the Board has performed annual evaluations on the Board as a whole, as well as personal evaluations on the performance of each individual Board member. In addition, since 1996 the Company's two standing committees (Audit and Financial Resources and Compensation and Human Resources) have operated under written charters delineating each committee's duties and responsibilities.

2. PROPOSAL TO RE-APPROVE THE PERFORMANCE GOALS UNDER THE COMPANY'S 1995 STOCK OPTION AND INCENTIVE PLAN

The Company is requesting that the shareholders re-approve the performance goals for certain awards under the Company's 1995 Stock Option and Incentive Plan (the "1995 Plan"). THE SHAREHOLDERS ARE NOT BEING ASKED TO RE-APPROVE THE 1995 PLAN. SHAREHOLDERS ARE ONLY BEING ASKED TO RE-APPROVE THE PERFORMANCE GOALS IN ORDER TO PRESERVE, TO THE EXTENT POSSIBLE, THE COMPANY'S TAX DEDUCTION FOR CERTAIN AWARDS MADE UNDER THE 1995 PLAN IN ACCORDANCE WITH SECTION 162(m) OF THE INTERNAL REVENUE CODE.

Shareholders initially approved the performance goals in 1995 and 1996 when the 1995 Plan was approved in its entirety. As required under current tax law, the performance goals are being submitted again to the shareholders for re-approval at the 2001 Annual Meeting to meet the requirement of the Section 162(m) regulations that these goals be submitted for shareholder approval at least every five years.

SECTION 162(M)

Section 162(m) allows an employer a tax deduction for certain compensation in excess of \$1 million paid to "covered employees" (generally, the top five named executive officers in the Summary Compensation Table) of a publicly held corporation if the compensation is qualified performance-based. The Section 162(m) regulations generally require that shareholders re-approve the material terms of the performance goals every five years. It is now approximately five years since initial shareholder approval of the performance goals under the 1995 Plan. The only changes to the original performance goals are a clarification of the meaning of the earnings goal and the addition of cash flow and inventory levels as performance goals. If approved, and unless the material terms of the performance goals are subsequently changed, the performance goals will meet the shareholder approval requirements of Section 162(m) until 2006.

THE 1995 PLAN

The 1995 Plan is an incentive compensation plan that provides for stock option grants, stock appreciation rights, annual incentive awards, restricted stock awards and performance share awards to such eligible key employees of the Company and its subsidiaries as the Board's Compensation and Human Resources Committee may select. All annual incentive awards under the 1995 Plan are intended to be tax deductible. Stock option grants, stock appreciation rights, restricted stock awards and performance share awards under the 1995 Plan are designated by the Committee as either Section 162(m) awards or

7

12

non-Section 162(m) awards. The Committee is authorized to administer and interpret the 1995 Plan and to adopt such rules and regulations as it determines are appropriate.

MATERIAL TERMS OF PERFORMANCE GOALS UNDER THE 1995 PLAN

Edgar Filing: CHAMPION ENTERPRISES INC - Form DEF 14A

ELIGIBLE EMPLOYEES. Stock option grants, stock appreciation rights, annual incentive awards, restricted stock awards and performance share awards under the 1995 Plan are limited to those executive officers of the Company ("Eligible Employees") who are selected by the Committee to participate.

PERFORMANCE GOALS. Within 90 days of the start of each performance period, the Committee (i) identifies the Eligible Employees, (ii) determines the performance period related to the award, (iii) determines the size of the award, and (iv) determines the target level of performance by the Company and/or its subsidiaries that must be achieved in order for the award to be paid. The performance period for annual incentive awards is from one to three fiscal years. The performance period for stock option grants, stock appreciation rights, restricted stock awards and performance share awards is a three to five fiscal year period.

The performance goals for all awards consist of any or all of the following:

- earnings (as measured by net income, net income per share, operating income, operating income per share, operating income before interest, EBIT, EBITDA, including by segment or division);
- sales growth;
- cash flow;
- inventory levels; or
- market capitalization.

The target levels for annual incentive awards consist of a threshold level and, in certain instances, first, second and third target levels. The Committee must certify the attainment of the applicable performance target before a Section 162(m) award is paid under the 1995 Plan.

MAXIMUM PAYMENTS. Annual incentive awards are paid in cash or in shares of Company Common Stock, as determined by the Committee. An annual incentive award may be deferred at the Eligible Employee's election, as discussed below under Deferred Compensation in the Report on Executive Compensation from the Compensation and Human Resources Committee. Annual incentive awards are made in an amount equal to a designated percentage of each Eligible Employee's base salary or a designated percentage of Company earnings. The maximum annual incentive award that may be earned by any Eligible Employee is five times such Employee's base salary but in no event more than \$2 million. The Committee may reduce by any amount the annual incentive award otherwise payable to an Eligible Employee under the 1995 Plan.

The maximum Section 162(m) restricted stock or performance share award that may be received by an Eligible Employee in any fiscal year of the Company is 50,000 shares of Company Common Stock.

VOTING REQUIREMENTS

This proposal to re-approve the performance goals under the 1995 Plan requires the affirmative vote of a majority of the votes cast as to this proposal at the Annual Meeting. Abstentions and broker non-votes will have no effect on the outcome of the vote.

REPORT ON EXECUTIVE COMPENSATION FROM THE COMPENSATION AND HUMAN RESOURCES COMMITTEE

Compensation policies for executive officers and senior operating management are developed and monitored by the Board's Compensation and Human Resources Committee. The Committee recommends to the Board the nature and amount of compensation for all executive officers. This Committee currently consists of three independent Directors who are neither officers nor employees of the Company.

COMPENSATION POLICIES

The Company's executive compensation policies are designed to encourage and reward executive efforts which create shareholder value through achievement of corporate objectives and performance goals and, as a result, to align the interests of executives with those of shareholders. More specifically, the Company's compensation policies can be summarized as:

- (a) annual base salaries should be targeted to be competitive, but slightly below the mean of other companies of comparable size;
- (b) annual incentive-based (at-risk) compensation should provide opportunity for significant additional compensation based on improved Company performance; and
- (c) long-term incentive-based (at-risk) compensation should further link executive performance to shareholder interests, encourage Company stock ownership and provide an incentive to create long-term shareholder value.

The Committee from time to time uses an independent consultant to assist in its review of compensation policies and to make recommendations. The consultant provides advice to the Committee and the Board based upon its expertise, experience and knowledge of compensation arrangements for senior executive officers from many general manufacturing companies with sales in a range comparable to those of the Company. The Committee also considers the executive compensation levels for a group of comparable manufactured housing companies consisting of Clayton Homes, Inc., Fleetwood Enterprises, Inc., and Oakwood Homes Corporation, as well as broader categories of housing companies and general companies of comparable size.

Each component of compensation (annual base salaries, annual performance incentives and long-term performance incentives) is described more fully below.

ANNUAL BASE SALARIES

Executive salaries are based on level of job responsibility, individual performance and compensation data for comparable companies obtained from consultant surveys and market surveys. The objective is to target base salaries to be competitive, but slightly below the mean of comparable companies.

ANNUAL PERFORMANCE INCENTIVES

Annual performance incentives are provided primarily through cash bonuses, or at an executive's election in deferred compensation or deferred stock, as

discussed below. Prior

10

15

to each fiscal year, the Committee reviews and establishes performance levels for executive officers. Bonus determinations for executive officers are based upon achieving pre-determined performance goals, which are reviewed each year and adjusted as appropriate. During the second half of 2000, executive officers were eligible for formula-based bonuses upon meeting certain cash flow, debt reduction, retail income or inventory targets.

LONG-TERM PERFORMANCE INCENTIVES

Generally, long-term performance incentives are stock options granted to executive officers at exercise prices that are equal to the fair market value of Company Common Stock on the grant date. In some circumstances, a portion of the options granted may be at an exercise price below fair market value. The value of stock options is dependent on Company Common Stock value. Stock options reward executive officers to the extent that shareholders have also benefited. The number of shares included in these awards is determined by the Committee primarily based upon formulas provided by an independent consultant. The formulas are derived from a nationwide database and present executive officer stock option award levels that are consistent with general industry practices. The formulas are based upon the expected future value of the option stock over a seven-year period at several assumed rates of stock price appreciation.

During 2000 five of the persons named in the Summary Compensation Table voluntarily forfeited stock options for a total of 2.3 million shares of Company Common Stock with an average exercise price of \$20.00 per share. See the Summary Compensation Table for additional information regarding forfeitures for 1998 and 1999 grants.

POLICY ON DEDUCTIBILITY OF COMPENSATION

Section 162(m) of the Internal Revenue Code limits to \$1 million the corporate tax deduction for compensation paid to certain executive officers unless the compensation is based on nondiscretionary, pre-established performance goals. The Committee believes that both annual incentive bonuses based on performance goals and stock options granted as long-term performance incentives meet the requirements for fully deductible compensation under Section 162(m). Although the formula-based annual incentive bonuses during the second half of 2000 do not meet the requirements for performance-based compensation under Section 162(m), the Committee believes that all such bonuses will be fully deductible because the \$1 million deduction limit was not exceeded for any executive officer.

DEFERRED COMPENSATION

Executive officers and certain other management employees may elect to defer receipt of all or a portion of their salaries or their bonuses under the Company's Deferred Compensation Plan (the "Deferred Plan"). Amounts deferred are 100% vested and, at the employees' direction, are invested in various managed funds. Deferred amounts are payable upon the earlier of termination of employment, retirement, death, disability or a change in control of the Company.

Also, through participation in the Company's Corporate Officer Stock Purchase Plan (the "Stock Plan"), each of the Company's executive officers may elect to defer receipt of bonus compensation up to the lesser of 50% or \$500,000. Amounts deferred are invested in shares of Company Common Stock at a 30% discount to the closing price on the New

York Stock Exchange on the purchase date. Shares so purchased are held by a grantor trust established by the Company. Voting rights as to these shares are exercised by the Company.

Upon the earlier of termination of employment, retirement, death, disability or a change in control, pursuant to the Stock Plan the deferring executive officer receives the vested portion of his or her account balance in shares of stock in a lump sum or in annual installments depending on a previously made election. Vesting of stock is based upon length of service following deferral as follows: 0% for less than one year; 25% for one year; 50% for two years; and 100% for three years.

CHIEF EXECUTIVE OFFICER COMPENSATION

The Committee believes that the compensation of Walter R. Young, the Company's Chairman of the Board, President and Chief Executive Officer, should be heavily influenced by Company performance. The long-term incentive component of his compensation is based on achieving specified performance targets. The current CEO compensation program was recommended by the Committee and approved by the Board in August 1995 and updated in October 1998 as an incentive for Mr. Young to remain with the Company through October 15, 2003. The program was developed with the assistance of an independent consultant.

Mr. Young's annual base salary for 2000 was \$450,000, which increased to \$500,000 per year commencing January 1, 2001. Based on meeting certain cash flow targets during 2000, Mr. Young earned a formula-based bonus of \$225,000 for the 2000 fiscal year. This bonus amount consisted of \$112,500 paid in cash and \$112,500 deferred under the Company's Stock Plan. As a result, 29,221 shares of Company Common Stock were issued and are held pursuant to the Stock Plan.

As a long-term incentive, in 1995 Mr. Young received options to purchase 1.5 million shares of Common Stock and an award of 100,000 performance shares of Common Stock (the "1995 Incentive Program"). In accordance with the terms of this award, one-half of the options vested on August 31, 1998 and the remaining one-half of the options vested on August 31, 2000. The exercise price for these options is \$8.50 per share, which was the fair market value of the Common Stock on August 31, 1995 (after adjustment for the Company's May 1996 stock split). These options expire eight years after the grant date or three years after vesting, whichever occurs first. The performance shares awarded to Mr. Young became transferable in February 2000 upon certification by the Committee that the performance goals and other conditions to transfer such shares had been met in accordance with the terms of the 1995 Incentive Program.

In 1998 as an incentive award, Mr. Young received options to purchase 750,000 shares of Common Stock at an exercise price of \$20.75 per share and an award of 50,000 performance shares of Common Stock (the "1998 Incentive Program"). In May 2000 Mr. Young voluntarily forfeited the 1998 options. The performance share award is conditioned upon Mr. Young remaining employed through October 15, 2003 and keeping on deposit with the Company 15,000 shares of Common Stock that he owns. Mr. Young is not permitted to transfer the deposited shares until the performance share award vests or expires or his employment is terminated, although he retains full ownership and voting rights for the deposited shares. The performance shares vest only if the Company's compound annual growth rate in diluted earnings per share from continuing operations during the four fiscal years from 1999 through 2002 exceed specified, pre-established target levels.

The primary function of the Audit and Financial Resources Committee shall be to assist the Board in fulfilling its oversight responsibilities by reviewing the financial information provided to shareholders, the corporate accounting and financial reporting practices, the audit process and the systems of internal financial controls which management and the Board of Directors have established. In addition, the Audit and Financial Resources Committee shall review other financial matters as delegated by the Board of Directors.

While the Audit Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with generally accepted accounting principles. This is the responsibility of management and the independent auditor.

The Audit Committee shall have authority to inquire into any financial matters including those set forth in this charter, with the right and power (at

the expense of the Corporation) to employ such persons and organizations to assist it in carrying out its duties as it shall reasonably deem to be necessary.

The independent auditor shall be ultimately accountable to the Committee and the Board of Directors.
2. Review and recommend to the Board of Directors for approval the independent auditor's compensation and terms of its engagement.
3. Consider the independence of auditors including evaluating whether non-audit services performed by the independent auditor impairs the independence of the independent auditor. The independent auditor shall submit to the Committee on a periodic basis a formal written statement delineating all relationships between the independent auditor and the Company. The Committee shall actively engage in a dialogue with the independent auditor with respect to any disclosed relationships or services that may impact the objectivity and independence of the independent auditor. The Committee shall pre-approve non-audit services provided by the independent auditor over a \$250,000 per assignment threshold amount.
4. Consider, in consultation with the independent auditor, the scope and plan of forthcoming audits and the independent auditor's responsibility under generally accepted auditing standards.
5. Review reports of the independent auditor and the internal auditor regarding:
 - (a) the adequacy of the Corporation's internal accounting controls including electronic data processing procedures and controls and related security programs; and

 - (ii) management's formulation of any particularly sensitive accounting estimate and the auditor's conclusion as to their reasonableness;
 - (iii) significant audit adjustments;

 - (v) serious difficulties the auditor encountered in dealing with management in performing the audit.
 - (vi) policies and reports with respect to officer's expense accounts.

- 9. Review the process for communicating the code of conduct to company personal and for monitoring compliance therewith.
- 10. Periodically obtain updates from management and company legal counsel on the status of any pending litigation which could have significant impact on the Corporation's financial situation or seriously affect its reputation as well as other compliance matters.
- 11. Review the internal audit function of the Corporation including the independence of its reporting obligations, the qualifications of the staff, and the proposed audit plan for the coming year and the coordination of such plans with the independent auditors. Prior to each Audit and Finance Committee meeting, receive and review a summary of findings from completed internal audits and provide sufficient opportunity for the internal auditors to meet with members of the Committee without members of management present.
