

HELIX ENERGY SOLUTIONS GROUP INC

Form 424B3

May 30, 2006

Table of Contents

**Filed Pursuant to Rule 424(B)(3)
File No. 333-132922**

May 26, 2006

Dear Remington Oil and Gas Corporation Stockholder:

The board of directors of Remington Oil and Gas Corporation (Remington) has unanimously approved a merger agreement with Helix Energy Solutions Group, Inc. (formerly known as Cal Dive International, Inc.) (Helix). If Remington stockholders approve and adopt the merger agreement and the merger is subsequently completed, Remington will merge into a subsidiary of Helix and stockholders of Remington will receive (i) 0.436 of a share of Helix common stock and (ii) \$27.00 in cash for each share of Remington common stock owned. The implied value of the stock consideration will fluctuate as the market price of Helix common stock fluctuates. You should obtain current stock price quotations for Remington common stock and Helix common stock. Remington common stock is quoted on the New York Stock Exchange under the symbol REM. Helix common stock is quoted on the Nasdaq National Market System under the symbol HELX. Based on the closing price of Helix s common stock on the Nasdaq on May 24, 2006, the value of the aggregate consideration to be received by Remington stockholders would be approximately \$41.42 per share. Upon completion of the merger, we estimate that Remington s former stockholders will own approximately 14% of the common stock of Helix.

You will be asked to vote on the merger proposal at a special meeting of Remington stockholders to be held on June 29, 2006, at 9:00 a.m., Central Daylight Time, at the Hilton Dallas Park Cities, 5954 Luther Lane, Dallas, Texas 75225. Only holders of record of Remington common stock at the close of business on May 26, 2006, the record date for the special meeting, are entitled to vote at the special meeting.

After careful consideration, Remington s board of directors has unanimously determined that the merger is advisable and in the best interests of Remington and its stockholders and unanimously recommends that Remington stockholders vote FOR approval and adoption of the merger agreement.

Your vote is very important. Because approval and adoption of the merger agreement requires the affirmative vote of the holders of a majority of the outstanding shares of Remington common stock entitled to vote at the special meeting, a failure to vote will have the same effect as a vote against approval and adoption of the merger agreement.

Whether or not you plan to attend the special meeting, please complete, sign, date and return the enclosed proxy card or voting instruction card in the enclosed envelope as soon as possible so that your shares are represented at the meeting. This action will not limit your right to vote in person if you wish to attend the special meeting and vote in person.

This document is a prospectus related to the issuance of shares of Helix common stock in connection with the merger and a proxy statement for Remington to use in soliciting proxies for its special meeting of stockholders. Attached to this letter is an important document containing answers to frequently asked questions and a summary description of the merger, followed by more detailed information about Remington, Helix, the proposed merger and the merger agreement. We urge you to read this document carefully and in its entirety. **In particular, you should consider the matters discussed under Risk Factors beginning on page 14 of this proxy statement/prospectus.**

Remington s board of directors very much appreciates and looks forward to your support.

Sincerely,

James A. Watt
*Chairman of the Board and
Chief Executive Officer*

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities to be issued in connection with the merger or passed upon the adequacy or accuracy of this proxy statement/prospectus. Any representation to the contrary is a criminal offense.

This proxy statement/prospectus is dated May 26, 2006 and is first being mailed to stockholders of Remington on or about June 1, 2006.

Table of Contents

REFERENCES TO ADDITIONAL INFORMATION

As used in this proxy statement/prospectus, Helix refers to Helix Energy Solutions Group, Inc., formerly known as Cal Dive International, Inc., and its consolidated subsidiaries and Remington refers to Remington Oil and Gas Corporation and its consolidated subsidiaries, in each case, except where the context otherwise requires or as otherwise indicated. This proxy statement/prospectus incorporates important business and financial information about Remington from documents that Remington has filed with the Securities and Exchange Commission but that have not been included in or delivered with this proxy statement/prospectus. For a listing of documents incorporated by reference into this proxy statement/prospectus, please see the section entitled Where You Can Find More Information beginning on page 204 of this proxy statement/prospectus.

Remington will provide you with copies of this information relating to Remington, without charge, if you request it in writing or by telephone from:

REMINGTON OIL AND GAS CORPORATION
8201 Preston Road, Suite 600
Dallas, Texas 75225-6211
(214) 210-2650

In order for you to receive timely delivery of the documents in advance of the Remington special meeting, Remington should receive your request no later than June 15, 2006.

Helix has supplied all information contained in this proxy statement/prospectus relating to Helix, and Remington has supplied all information contained in or incorporated by reference in this proxy statement/prospectus relating to Remington. Helix and Remington have both contributed to information relating to the merger.

Remington Oil and Gas Corporation

**NOTICE OF SPECIAL MEETING OF STOCKHOLDERS
TO BE HELD JUNE 29, 2006**

TO THE STOCKHOLDERS OF REMINGTON OIL AND GAS CORPORATION:

You are cordially invited to attend the special meeting of stockholders of Remington Oil and Gas Corporation, a Delaware corporation (Remington), to be held on June 29, 2006, at 9:00 a.m., Central Daylight Time, at the Hilton Dallas Park Cities, 5954 Luther Lane, Dallas, Texas 75225. As described in this proxy statement/prospectus, the special meeting will be held for the following purposes:

1. to consider and vote upon a proposal to approve and adopt the Agreement and Plan of Merger dated as of January 22, 2006, by and among Helix Energy Solutions Group, Inc. (formerly known as Cal Dive International, Inc.) and Remington Oil and Gas Corporation, as amended by Amendment No. 1 to Agreement and Plan of Merger dated January 24, 2006, by and among Helix Energy Solutions Group, Inc., Cal Dive Merger Delaware Inc., a wholly owned subsidiary of Helix Energy Solutions Group, Inc., and Remington Oil and Gas Corporation;
2. to consider and vote upon a proposal to adjourn or postpone the special meeting, if necessary, to solicit additional proxies in favor of the approval and adoption of the merger agreement; and
3. to consider and transact any other business as may properly be brought before the special meeting or any adjournments or postponements thereof.

THE BOARD OF DIRECTORS OF REMINGTON HAS CAREFULLY CONSIDERED THE TERMS OF THE MERGER AGREEMENT AND THE MERGER AND BELIEVES THAT THE MERGER IS ADVISABLE AND FAIR TO, AND IN THE BEST INTERESTS OF REMINGTON AND ITS STOCKHOLDERS. THE BOARD OF DIRECTORS HAS UNANIMOUSLY APPROVED THE MERGER AGREEMENT AND THE MERGER AND UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS VOTE FOR APPROVAL OF THE MERGER AGREEMENT.

The Board of Directors of Remington has fixed the close of business on May 26, 2006 as the record date for the determination of stockholders entitled to notice of, and to vote at, the Remington special meeting or any reconvened meeting following an adjournment or postponement thereof. Only stockholders of record at the close of business on such record date are entitled to notice of and to vote at such meeting. A complete list of such stockholders will be available for examination at the Remington special meeting and at Remington s offices at 8201 Preston Road, Suite 600, Dallas, Texas 75225-6211, during ordinary business hours, after June 15, 2006, for the examination by any such stockholder for any purpose germane to the special meeting.

It is important that your stock be represented at the special meeting regardless of the number of shares you hold. Please promptly mark, date, sign and return the enclosed proxy in the accompanying envelope, whether or not you intend to be present at the special meeting. In some cases, you may be able to instruct your bank or brokerage firm how to exercise your proxy by telephone or the Internet. See Information About the Special Meeting and Voting beginning on page 29. Your proxy is revocable at any time prior to its use at the special meeting.

Please do not send your Remington common stock certificates with the enclosed proxy. If the merger is completed, the exchange agent will send you instructions regarding the surrender of your stock certificates.

By order of the Board of Directors,
Frank T. Smith, Jr.
Corporate Secretary
May 26, 2006

ANNEXES

Annex A	Agreement and Plan of Merger dated as of January 22, 2006, by and among Helix Energy Solutions Group, Inc. (formerly known as Cal Dive International, Inc.) and Remington Oil and Gas Corporation, as amended by Amendment No. 1 to Agreement and Plan of Merger dated January 24, 2006, by and among Helix Energy Solutions Group, Inc., Cal Dive Merger Delaware Inc., a wholly owned subsidiary of Helix Energy Solutions Group, Inc., and Remington Oil and Gas Corporation
Annex B	Opinion of Jefferies & Company, Inc., dated January 22, 2006
Annex C	Appraisal and Dissenters Rights under the Delaware General Corporation Law

No person is authorized to give any information or to make any representation with respect to the matters described in this proxy statement/prospectus other than those contained herein or in the documents incorporated by reference herein and, if given or made, such information or representation must not be relied upon as having been authorized by Helix or Remington. This proxy statement/prospectus does not constitute an offer to sell or a solicitation of an offer to buy the securities offered by this proxy statement/prospectus or a solicitation of a proxy in any jurisdiction where, or to any person whom, it is unlawful to make such an offer or solicitation. Neither the delivery hereof nor any distribution of securities made hereunder shall, under any circumstances, create an implication that there has been no change in the affairs of Helix or Remington since the date hereof or that the information contained or incorporated by reference in this proxy statement/prospectus is correct as of any time subsequent to the date hereof.

Table of Contents

QUESTIONS AND ANSWERS ABOUT THE MERGER AND THE SPECIAL MEETING

The following questions and answers briefly address some commonly asked questions about the special meeting and the merger. They may not include all the information that is important to you. We urge you to read carefully this entire proxy statement/prospectus, including the annexes and the other documents we refer to in this proxy statement/prospectus.

Frequently Used Terms

We have generally avoided the use of technical defined terms in this proxy statement/prospectus but a few frequently used terms may be helpful for you to have in mind at the outset. We refer to:

Helix Energy Solutions Group, Inc., a Minnesota corporation formerly known as Cal Dive International, Inc., as Helix ;

Remington Oil and Gas Corporation, a Delaware corporation, as Remington ;

Cal Dive Merger Delaware, Inc., a newly formed Delaware corporation and a wholly owned subsidiary of Helix, as Merger Sub ;

the merger of Remington into Merger Sub and the conversion of shares of Remington common stock into the right to receive cash and shares of Helix common stock as the merger ;

the agreement and plan of merger, as amended, among Helix, Merger Sub and Remington as the merger agreement ;

the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, as the HSR Act or the Hart-Scott-Rodino Act ; and

the General Corporation Law of the State of Delaware as the DGCL.

About the Merger

Q1: What am I voting on?

A1: Helix is proposing to acquire Remington. You are being asked to vote to approve and adopt the merger agreement. In the merger, Remington will merge into Merger Sub. Merger Sub would be the surviving entity in the merger and would remain a wholly owned subsidiary of Helix, and Remington would no longer be a separate company.

Remington is also seeking your approval of a proposal to adjourn or postpone the special meeting, if necessary, to solicit additional proxies in favor of approval and adoption of the merger agreement and any other matters that may come before the special meeting.

Q2: What will I receive in exchange for my Remington shares?

A2:

Upon completion of the merger, you will receive a combination of 0.436 of a share of Helix common stock and \$27.00 in cash, without interest, for each share of Remington common stock that you own. We refer to the aggregate amount of the stock consideration and cash consideration to be received by Remington stockholders pursuant to the merger as the merger consideration.

Q3: Do I have the option to receive all cash consideration or all stock consideration for my Remington shares?

A3: No. All Remington stockholders will receive the fixed combination of the cash consideration and the stock consideration for each share of Remington common stock that they own.

Q4: What are the tax consequences of the merger to me?

A4: The merger is intended to constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, so that you generally will recognize gain (but not loss) in an amount not to exceed any cash received as part of the merger consideration for United States federal income tax purposes as a result of the merger. The merger is conditioned on the receipt of legal opinions that (i) for U.S. federal income tax purposes, the merger will constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, (ii) each of Helix and Remington will be a party to the

Table of Contents

reorganization within the meaning of Section 368(b) of the Internal Revenue Code and (iii) no gain or loss will be recognized by Helix, Remington or Merger Sub as a result of the merger.

For a more complete discussion of the United States federal income tax consequences of the merger, see Material United States Federal Income Tax Consequences beginning on page 52 of this proxy statement/prospectus.

Tax matters are very complicated and the consequences of the merger to any particular Remington stockholder will depend on that stockholder's particular facts and circumstances. You are urged to consult your own tax advisor to determine your own tax consequences from the merger.

Q5: What is the required vote to approve and adopt the merger agreement?

A5: Holders representing a majority of the outstanding shares of Remington common stock entitled to vote at the special meeting must vote to approve and adopt the merger agreement to complete the merger. No vote of Helix stockholders is required in connection with the merger.

Q6: What happens if I do not vote?

A6: Because the required vote of Remington stockholders is based upon the number of outstanding shares of Remington common stock entitled to vote rather than upon the number of shares actually voted, abstentions from voting and broker non-votes will have the same effect as a vote AGAINST approval and adoption of the merger agreement. If you return a properly signed proxy card but do not indicate how you want to vote, your proxy will be counted as a vote FOR approval and adoption of the merger agreement and FOR approval of any proposal to adjourn or postpone the special meeting to solicit additional proxies in favor of approval and adoption of the merger agreement.

Q7: How does the Remington board of directors recommend I vote?

A7: The board of directors of Remington unanimously recommends that Remington's stockholders vote FOR approval and adoption of the merger agreement. The Remington board of directors believes the merger is advisable and in the best interests of Remington and its stockholders.

Q8: Do I have dissenters' or appraisal rights with respect to the merger?

A8: Yes. Under Delaware law, you have the right to dissent from the merger and, in lieu of receiving the merger consideration, obtain payment in cash of the fair value of your shares of Remington common stock as determined by the Delaware Chancery Court. To exercise appraisal rights, you must strictly follow the procedures prescribed by Section 262 of the DGCL. See The Merger Appraisal and Dissenters' Rights beginning on page 46 of this proxy statement/prospectus. In addition, the full text of the applicable provisions of Delaware law is included as Annex C to this proxy statement/prospectus.

Q9: Will the rights of a Remington stockholder change as a result of the merger?

A9: Yes. Through the date of the merger, the rights of Helix shareholders will continue to be governed by Helix's articles of incorporation and bylaws, and the rights of Remington stockholders will continue to be governed by Remington's certificate of incorporation and bylaws. Upon completion of the merger, Remington stockholders will become Helix shareholders and their rights will then be governed by Helix's articles of incorporation and bylaws. Please read carefully the summary of the material differences between the rights of Helix shareholders

and Remington stockholders under Comparison of Stockholders Rights beginning on page 192 of this proxy statement/prospectus.

Q10: What will happen to shares of Helix common stock in the merger?

A10: Each outstanding share of Helix common stock will remain outstanding as a share of Helix common stock.

Q11: Will Remington stockholders be able to trade the Helix common stock that they receive in the merger?

A11: The shares of Helix common stock issued in connection with the merger will be freely tradable, unless you are an affiliate of Remington, and will be quoted on the Nasdaq National Market System under the symbol HELX. Generally, persons who are deemed to be affiliates (generally directors, officers

Table of Contents

and 10% or greater stockholders) of Remington must comply with Rule 145 under the Securities Act of 1933 if they wish to sell or otherwise transfer any of the shares of Helix common stock they receive in the merger. You will be notified if you are an affiliate of Remington.

Q12: Are there risks associated with the merger that I should consider in deciding how to vote?

A12: Yes. There are risks associated with all business combinations, including the merger of our two companies. In particular, the implied value of the stock consideration will fluctuate as the market price of Helix common stock fluctuates. Accordingly, the value of the Helix common stock that Remington stockholders will receive in return for their Remington common stock may be less than or more than the value of the Helix common stock as of the date of the merger agreement or the date of this proxy statement/prospectus. There are a number of other risks that are discussed in this document and in other documents incorporated by reference in this document. **Please read with particular care the more detailed description of the risks associated with the merger discussed under Risk Factors beginning on page 14 of this proxy statement/prospectus.**

Q13: When do you expect the merger to be completed?

A13: We are working on completing the merger as quickly as possible. To complete the merger, we must obtain the approval of the Remington stockholders and satisfy or waive all other closing conditions under the merger agreement, which we currently expect should occur in the second quarter of 2006. However, we cannot assure you when or if the merger will occur. See The Merger Agreement Conditions Precedent beginning on page 65 of this proxy statement/prospectus. If the merger occurs, we will promptly make a public announcement of this fact.

Q14: What will happen to my Remington shares after completion of the merger?

A14: Upon completion of the merger, your shares of Remington common stock will be canceled and will represent only the right to receive your portion of the merger consideration (or the fair value of your Remington common stock if you seek appraisal rights) and any declared but unpaid dividends that you may be owed. In addition, trading in shares of Remington common stock on the NYSE will cease and price quotations for shares of Remington common stock will no longer be available.

About the Special Meeting

Q15: When and where is the Remington special stockholder meeting?

A15: The Remington special stockholder meeting will take place on June 29, 2006, at 9:00 a.m., Central Daylight Time, and will be held at the Hilton Dallas Park Cities, 5954 Luther Lane, Dallas, Texas 75225.

Q16: What will happen at the special meeting?

A16: At the Remington special meeting, Remington stockholders will vote on a proposal to adopt the merger agreement and on a proposal to approve adjournments or postponements of the special meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the special meeting to approve the merger proposal. We cannot complete the merger unless, among other things, Remington's stockholders vote to adopt the merger agreement.

Q17: Who is entitled to vote at the special meeting?

A17: Only holders of record of Remington common stock at the close of business on May 26, 2006, which is the date Remington's board of directors has fixed as the record date for the special meeting, are entitled to receive notice of and vote at the special meeting.

Q18: What is a quorum?

A18: A quorum is the number of shares that must be present to hold the meeting. The quorum requirement for the Remington special meeting is the holders of a majority of the issued and outstanding shares of Remington common stock as of the record date, present in person or represented by proxy and entitled to vote at the special meeting. A proxy submitted by a stockholder may indicate that all or a portion of the shares represented by the proxy are not being voted with respect to a particular matter. Proxies that are marked "abstain" or for which votes have otherwise been withheld and proxies relating to "street

Table of Contents

name shares that are returned to the relevant company but not voted will be treated as shares present for purposes of determining the presence of a quorum on all matters.

Q19: How many shares can vote?

A19: On the record date, Remington had outstanding 28,870,296 shares of common stock, which constitute Remington's only outstanding voting securities. Each Remington stockholder is entitled to one vote on each proposal for each share of Remington common stock held as of the record date.

Q20: What vote is required?

A20: The affirmative vote of the holders of a majority of the outstanding shares of Remington common stock entitled to vote at the Remington special meeting is required to adopt the merger agreement. The approval of a proposal to adjourn or postpone the special meeting, if necessary, to permit further solicitation of proxies, if there are not sufficient votes at the time of the special meeting to approve the other proposal(s), requires the vote of a majority of shares present in person or by proxy at the special meeting and actually voted at that special meeting.

If a quorum is not present at the Remington special meeting, the holders of a majority of the shares entitled to vote who are present in person or by proxy at the meeting may adjourn the meeting.

Even if the votes set forth above are obtained at the special meeting, we cannot assure you that the merger will be completed, because the completion of the merger is subject to the satisfaction or waiver of other conditions discussed in this proxy statement/prospectus.

Q21: What do I need to do now?

A21: After carefully reading and considering the information contained and referred to in this proxy statement/prospectus, including its annexes, please authorize your shares of Remington common stock to be voted by returning your completed, dated and signed proxy card in the enclosed return envelope, or vote by telephone or Internet, as soon as possible. To be sure that your vote is counted, please submit your proxy as instructed on your proxy card even if you plan to attend the special meeting in person. DO NOT enclose or return your stock certificate(s) with your proxy card. If you hold shares registered in the name of a broker, bank or other nominee, that broker, bank or other nominee has enclosed or will provide a voting instruction card for use in directing your broker, bank or other nominee how to vote those shares.

Q22: May I vote in person?

A22: Yes. You may attend the special meeting of Remington's stockholders and vote your shares in person rather than by signing and returning your proxy card. If you wish to vote in person and your shares are held by a broker, bank or other nominee, you need to obtain a proxy from the broker, bank or nominee authorizing you to vote your shares held in the broker's, bank's or nominee's name.

Q23: If my shares are held in street name, will my broker, bank or other nominee vote my shares for me?

A23: Yes, but your broker, bank or other nominee may vote your shares of Remington common stock only if you instruct your broker, bank or other nominee how to vote. If you do not provide your broker, bank or other nominee with instructions on how to vote your street name shares, your broker, bank or other nominee will not be permitted to vote them on the merger agreement. You should follow the directions your broker, bank or

other nominee provides to ensure your shares are voted at the special meeting. Please check the voting form used by your broker, bank or other nominee to see if it offers telephone or Internet voting.

Q24: May I change my vote?

A24: Yes. You may change your vote at any time before your proxy is voted at the special meeting. If your shares of Remington common stock are registered in your own name, you can do this in one of three ways.

First, you can deliver to Remington, prior to the special meeting, a written notice stating that you want to revoke your proxy. The notice should be sent to the attention of Mr. Frank T. Smith, Jr.,

Table of Contents

Corporate Secretary, Remington Oil and Gas Corporation, 8201 Preston Road, Suite 600, Dallas, Texas 75225-6211, to arrive by the close of business on June 28, 2006.

Second, prior to the special meeting, you can complete and deliver a new proxy card. The proxy card should be sent to the addressee indicated on the pre-addressed envelope enclosed with your initial proxy card to arrive by the close of business on June 28, 2006. The latest dated and signed proxy actually received by this addressee before the special meeting will be counted, and any earlier proxies will be considered revoked.

If you vote your proxy electronically through the Internet or by telephone, you can change your vote by submitting a different vote through the Internet or by telephone, in which case your later-submitted proxy will be recorded and your earlier proxy revoked.

Third, you can attend the Remington special meeting and vote in person. Any earlier proxy will thereby be revoked automatically. Simply attending the special meeting, however, will not revoke your proxy, as you must vote at the special meeting to revoke a prior proxy.

If you have instructed a broker to vote your shares, you must follow directions you receive from your broker to change or revoke your vote.

If you are a street-name stockholder and you vote by proxy, you may later revoke your proxy instructions by informing the holder of record in accordance with that entity's procedures.

Q25: How will the proxies vote on any other business brought up at the special meetings?

A25: By submitting your proxy, you authorize the persons named on the proxy card to use their judgment to determine how to vote on any other matter properly brought before the special meeting. The proxies will vote your shares in accordance with your instructions. If you sign, date and return your proxy without giving specific voting instructions, the proxies will vote your shares FOR the proposals. If you do not return your proxy, or if your shares are held in street name and you do not instruct your bank, broker or nominee on how to vote, your shares will not be voted at the special meeting.

The board of directors of Remington does not intend to bring any other business before the meeting, and it is not aware that anyone else intends to do so. If any other business properly comes before the meeting, it is the intention of the persons named on the proxy cards to vote as proxies in accordance with their best judgment.

Q26: What is a broker non-vote?

A26: A broker non-vote occurs when a bank, broker or other nominee submits a proxy that indicates that the broker does not vote for some or all of the proposals, because the broker has not received instructions from the beneficial owners on how to vote on these proposals and does not have discretionary authority to vote in the absence of instructions.

Q27: Will broker non-votes or abstentions affect the results?

A27: If you are a Remington stockholder, broker non-votes and abstentions will have the same effect as a vote against the proposal to adopt the merger agreement, but will have no effect on the outcome of the proposal relating to adjournments or postponements of the special meeting, if necessary, to permit further solicitation of proxies. If your shares are held in street name, we urge you to instruct your bank, broker or nominee on how to vote your shares for those proposals on which you are entitled to vote.

Q28: What happens if I choose not to submit a proxy or to vote?

A28: If a Remington stockholder does not submit a proxy or vote at the Remington special meeting, it will have the same effect as a vote against the proposal to adopt the merger agreement, but will have no effect on the outcome of the proposal relating to adjournments or postponements of the special meeting, if necessary, to permit further solicitation of proxies.

Q:29 Why is it important for me to vote?

A29: We cannot complete the merger without holders of a majority of the outstanding shares of Remington common stock entitled to vote voting in favor of the approval and adoption of the merger agreement.

Table of Contents

Q30: What happens if I sell my shares of Remington common stock before the special meeting?

A30: The record date for the special meeting is May 26, 2006, which is earlier than the date of the special meeting. If you hold your shares of Remington common stock on the record date you will retain your right to vote at the special meeting. If you transfer your shares of Remington common stock after the record date but prior to the date on which the merger is completed, you will lose the right to receive the merger consideration for shares of Remington common stock. The right to receive the merger consideration will pass to the person who owns your shares of Remington common stock when the merger is completed.

General

Q31: Should I send in my Remington stock certificates now?

A31: No. PLEASE DO NOT SEND ANY STOCK CERTIFICATES WITH YOUR PROXY CARD. After the merger is completed, you will receive written instructions informing you how to send in your stock certificates to receive the merger consideration.

Q32: What does it mean if I get more than one proxy card?

A32: Your shares are probably registered in more than one account. You should vote each proxy card you receive.

Q33: Where can I find more information about the special meeting, the merger, Remington or Helix?

A33: You can find more information about Remington or Helix in each of the companies' respective filings with the Securities and Exchange Commission and, with respect to Helix, with the Nasdaq National Market, and, with respect to Remington, the New York Stock Exchange. If you have any questions about the special meeting, the merger or how to submit your proxy, or if you need additional copies of this proxy statement/prospectus or the enclosed proxy card or voting instructions, you should contact Remington at the address or phone number below. If your broker holds your shares, you can also call your broker for additional information.

(214) 210-2650

Table of Contents

SUMMARY

*This summary highlights selected information from this proxy statement/prospectus, including material terms of the merger, and may not contain all of the information that is important to you. To understand the merger fully and for a more complete description of the legal terms of the merger, you should carefully read this entire document, including its Annexes, and the documents to which we refer you. See *Where You Can Find More Information* beginning on page 204 of this proxy statement/prospectus.*

The Companies (page 69 for Helix and page 123 for Remington)

Helix Energy Solutions Group, Inc.

400 N. Sam Houston Parkway E., Suite 400
Houston, Texas 77060
(281) 618-0400

Helix Energy Solutions Group, Inc. (formerly known as Cal Dive International, Inc.), headquartered in Houston, Texas, is an energy services company which provides innovative solutions to the oil and gas industry worldwide for marginal field development, alternative development plans, field life extension and abandonment, with service lines including diving services, shelf and deepwater construction, robotics, well operations, well engineering and subsurface consulting services, platform ownership and oil and gas production.

Remington Oil and Gas Corporation

8201 Preston Road, Suite 600
Dallas, Texas 75225-6211
(214) 210-2650

Remington Oil and Gas Corporation is an independent oil and gas exploration and production company headquartered in Dallas, Texas, with operations concentrating in the United States onshore and offshore regions of the Gulf Coast.

The Merger (page 33)

General

On January 22, 2006, the companies agreed to the merger between Remington and Merger Sub under the terms of the merger agreement described in this proxy statement/prospectus and attached as Annex A. The merger agreement is the legal document that governs the merger, and we urge you to read that agreement.

At the effective time of the merger, Remington will merge with and into Merger Sub. Merger Sub will be the surviving company and remain a wholly owned subsidiary of Helix. The separate corporate existence of Remington will cease at the effective time of the merger.

Exchange of Remington Shares (page 56)

At the effective time of the merger, each outstanding share of Remington common stock (other than any shares owned directly or indirectly by Remington or Helix and those shares held by dissenting stockholders) will be converted into the right to receive a combination of 0.436 of a share of Helix common stock and \$27.00 in cash, without interest. We refer to the aggregate amount of the stock consideration and cash consideration to be received by Remington

stockholders pursuant to the merger as the merger consideration.

Fractional Shares (page 55)

No fractional shares of Helix common stock will be issued in the merger. Instead, you will be entitled to receive cash, without interest, in an amount equal to the fraction of a share of Helix common stock you might otherwise have been entitled to receive multiplied by the market value of a Helix share. The market value of a share of Helix common stock will be determined using the average of the closing sales price per share of Helix common stock on the Nasdaq National Market for the 20 trading days ending on the third trading day before the date the merger closes.

Table of Contents

Treatment of Remington Stock Options and Restricted Stock (page 56)

All Remington stock options have vested. At the effective time of the merger, the Remington stock options will be canceled and converted to a right to receive the cash consideration and the stock consideration for each deemed outstanding Remington option share. The number of deemed outstanding Remington option shares attributable to each Remington stock option will be equal to the net number of shares of Remington common stock (rounded to the nearest thousandth of a share) that would have been issued upon a cashless exercise of that Remington stock option immediately before the effective time of the merger. That net number of shares will be computed by deducting from the shares of Remington common stock that would be issued to the option holder a number of deemed surrendered shares of Remington common stock which is equal to the fair value of (i) the exercise price of a Remington stock option to be paid by the option holder and (ii) all amounts required to be withheld and paid by Remington for federal taxes and other payroll withholding obligations as a result of such exercise (using an assumed tax rate of 35%). The fair value of each deemed surrendered share of Remington common stock, for purposes of determining the net number of shares, will be equal to \$27.00 plus (A) 0.436 multiplied by (B) the market value of a share of Helix common stock (to be determined using the average of the closing sales price per share of Helix common stock on the Nasdaq National Market for the 20 trading days ending on the third trading day before the date the merger closes).

All shares of Remington restricted stock that have been issued but have not vested prior to the effective time of the merger will become fully vested at the effective time of the merger.

Material United States Federal Income Tax Consequences of the Merger to Remington Stockholders (page 52)

The merger is intended to constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, so that you generally will recognize gain (but not loss) in an amount not to exceed any cash received as part of the merger consideration for United States federal income tax purposes as a result of the merger. The merger is conditioned on the receipt of legal opinions that (i) the merger will constitute a reorganization for United States federal income tax purposes, (ii) each of Helix and Remington will be a party to the reorganization within the meaning of Section 368(b) of the Internal Revenue Code and (iii) no gain or loss will be recognized by Helix, Remington or Merger Sub as a result of the merger.

For a more complete discussion of the United States federal income tax consequences of the merger, see **Material United States Federal Income Tax Consequences** beginning on page 52.

Tax matters can be complicated and the tax consequences of the merger to Remington stockholders will depend on each stockholder's particular tax situation. You should consult your tax advisors to understand fully the tax consequences of the merger to you.

Remington Board of Directors Recommendation to Stockholders (page 38)

The Remington board of directors has unanimously determined that the merger is advisable and in your best interests and unanimously recommends that you vote FOR the approval and adoption of the merger agreement and any adjournment or postponement of the special meeting

Opinion of Remington's Financial Advisor (page 39)

In connection with the proposed merger, Remington's financial advisor, Jefferies & Company, Inc., delivered to Remington's board of directors a written opinion, dated January 22, 2006, as to the fairness, from a financial point of view, to the holders of Remington common stock of the merger consideration. The full text of Jefferies' written opinion, is attached to this proxy statement/prospectus as Annex B. We encourage you to read that opinion carefully

in its entirety for a description of the procedures followed, assumptions made, matters considered and limitations on the review undertaken by Jefferies in rendering its opinion. **Jefferies opinion was provided to Remington's board of directors in connection with its evaluation of the merger and does not constitute a recommendation to any stockholder as to how he or she should vote on the merger or any matter relevant to the merger agreement.**

Table of Contents**Helix's Reasons for the Merger (page 38)**

Helix believes the acquisition of Remington is the next logical step in the evolution of Helix's unique production contracting based business model and that the merger joins two well managed companies, providing strategic and financial benefits to shareholders.

These anticipated benefits depend on several factors, including the ability to obtain the necessary approvals for the merger and on other uncertainties. See "Risk Factors" beginning on page 14.

Ownership of Helix Following the Merger

Remington stockholders will receive a total of approximately 13.1 million shares of Helix common stock in the merger. The shares of Helix to be received by Remington stockholders in the merger will represent approximately 14% of the outstanding Helix common stock after the merger. This information is based on the number of Helix and Remington shares outstanding on May 26, 2006.

Board of Directors of Helix Following the Merger (page 57)

Helix has agreed that, as of the effective time of the merger, Helix will cause James A. Watt, Chairman of the Board and Chief Executive Officer of Remington, to be appointed to the Helix board of directors.

Market Prices and Share Information

Helix common stock is quoted on the Nasdaq National Market under the symbol HELX. Remington common stock is quoted on the NYSE under the symbol REM. The following table shows the closing sale prices of Helix and Remington common stock as reported on the Nasdaq National Market and the NYSE, respectively, on January 20, 2006, the last business day preceding the announcement by Helix and Remington of the execution of the merger agreement, and on May 24, 2006, the last practicable day before the distribution of this proxy statement/prospectus. This table also shows the merger consideration equivalent proposed for each share of Remington common stock, which we calculated by multiplying the closing price of Helix common stock on those dates by the exchange ratio of 0.436 and adding the cash consideration of \$27.00.

	Closing Price per Share	
	January 20, 2006	May 24, 2006
Helix common stock	\$ 44.33	\$ 33.08
Remington common stock	\$ 37.96	\$ 41.24
Remington Merger Consideration Equivalent	\$ 46.33	\$ 41.42

Because the 0.436 exchange ratio is fixed and will not be adjusted as a result of changes in the market price of Helix common stock, the merger consideration equivalent will fluctuate with the market price of Helix common stock. The merger agreement does not include a price-based termination right or provisions that would limit the impact of increases or decreases in the market price of Helix common stock. You should obtain current market quotations for the shares of both companies from a newspaper, the Internet or your broker prior to voting on the merger agreement.

Interests of Certain Remington Officers and Directors in the Merger (page 49)

When you consider the Remington board's recommendation that Remington stockholders vote in favor of the merger agreement and any adjournment or postponement of the special meeting, you should be aware that some Remington officers and directors may have interests in the merger that may be different from, or in addition to, the interests of other Remington stockholders generally. The Remington board of directors was aware of these interests and considered them, among other matters, in unanimously approving and adopting the merger agreement and unanimously recommending that Remington stockholders vote to approve and adopt the merger agreement. At the close of business on the record date for the Remington special meeting, directors and executive officers of Remington and their affiliates were entitled to vote approximately 3.76% of the shares of Remington common stock outstanding on that date.

Table of Contents

Conditions to Completion of the Merger (page 65)

Completion of the merger depends on a number of conditions being satisfied or waived. These conditions include the following:

adoption of the merger agreement by the holders of at least a majority of the outstanding Remington shares entitled to vote at the Remington special meeting;

receipt of consents, approvals, permits and authorizations of governmental authorities or other persons, including expiration or early termination of the waiting period under the Hart-Scott-Rodino Act, required to consummate the transactions contemplated by the merger agreement except where the failure to obtain them would not have a material adverse effect (as defined in the merger agreement) on Helix or materially adversely affect the consummation of the merger;

continued effectiveness of the registration statement of which this proxy statement/prospectus is a part, the absence of a stop order by the Securities and Exchange Commission suspending the effectiveness of the registration statement and the absence of any continuing action, suit, proceeding or investigation by the SEC to suspend such effectiveness;

receipt of all necessary approvals under state securities laws relating to the issuance or trading of the Helix common stock to be issued in the merger;

absence of any temporary restraining order, preliminary or permanent injunction or other order issued by a court of competent jurisdiction or other legal restraint or prohibition preventing the consummation of the merger, so long as the parties have used their reasonable efforts to have any applicable decree, ruling, injunction or order vacated;

approval for listing of the Helix shares to be issued in the merger on its stock exchange, upon official notice of issuance;

absence of Remington stockholders exercising their appraisal and dissenters rights with respect to greater than 8% of the outstanding shares of Remington common stock immediately prior to the effective time of the merger;

accuracy as of the closing of the merger of the representations and warranties made by each of Remington, Helix and Merger Sub to the extent specified in the merger agreement;

Remington's, Helix's and Merger Sub's performance in all material respects of their respective covenants and agreements under the merger agreement;

absence of a material adverse change in either Remington's or Helix's condition (financial or otherwise), operations, business, properties or prospects that have or would be reasonably likely to have a material adverse effect (as defined in the merger agreement) on Remington or Helix, respectively;

receipt of opinions by Helix and Remington from their respective tax counsel that the merger will constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code; and

delivery by Helix to the exchange agent of an irrevocable letter of instruction, in a form reasonably satisfactory to Remington, authorizing and directing the transfer to Remington stockholders of the merger consideration.

Regulatory Approvals (page 45)

The merger is subject to antitrust laws. Under the Hart-Scott-Rodino Act, the parties cannot complete the merger until they have notified and furnished information to the Federal Trade Commission and the Antitrust Division of the United States Department of Justice and specified waiting periods expire or are terminated. On March 14, 2006, the Federal Trade Commission granted Helix and Remington's request for early termination of the waiting period under the HSR Act.

Termination of the Merger Agreement (page 66)

Before the effective time of the merger, the merger agreement may be terminated:

by mutual written consent of Helix and Remington;

Table of Contents

by either Helix or Remington, if:

adoption of the merger agreement and approval of the merger by the Remington stockholders is not obtained;

the parties fail to consummate the merger on or before August 31, 2006, unless the failure is the result of a breach of the merger agreement by the party seeking the termination; or

any governmental authority has issued a final and nonappealable order, decree or ruling or has taken any other final and nonappealable action that restrains, enjoins or prohibits the merger, unless the party seeking the termination has not used all reasonable efforts to remove such injunction, order or decree;

by Helix, if:

Remington materially breaches any of its representations or warranties set forth in the merger agreement or Remington fails to materially perform any of its covenants or agreements under the merger agreement, and, in either case, Remington has not cured the breach or failure within 10 days of receiving notice from Helix of such breach or failure;

Remington's board of directors (1) fails to recommend, or withdraws or modifies in any manner adverse to Helix, the approval or recommendation of the merger agreement, (2) recommends to the Remington stockholders, enters into, or publicly announces its intention to enter into, an agreement or an agreement in principle with respect to a superior proposal, (3) refuses to affirm its approval or recommendation of the merger agreement within 10 business days of any written request from Helix, (4) exempts any person or entity other than Helix from the provisions of the DGCL related to business combinations with interested stockholders or (5) publicly announces its intention to do any of the foregoing;

Remington breaches in any material respect its covenant not to solicit, initiate or knowingly encourage any inquiries, offers or proposals that constitute, or are reasonably likely to lead to, an alternate acquisition proposal or engaged in certain prohibited activities with respect thereto, or publicly announces its intention to do so; or

a competing tender or exchange offer constituting an acquisition proposal has commenced and Remington has not sent Remington stockholders a statement that Remington's board of directors recommends rejection of the acquisition proposal, or Remington publicly announces its intention not to do so;

by Remington, if:

prior to approval by Remington's stockholders of the merger agreement, the Remington board of directors approves a superior proposal; provided, that:

Remington complies with its obligations under the no-solicitation provisions of the merger agreement,

the board of directors of Remington authorizes Remington to enter into a binding agreement with respect to the superior proposal and Remington notifies Helix of the superior proposal,

within three business days of that notice, Remington offers to negotiate with Helix in order to make adjustments to the terms and conditions of the merger agreement so that Remington can proceed with the merger with Helix, and

Remington's board of directors determines in good faith after those negotiations with Helix, upon consulting with Remington's independent financial advisor and outside counsel, that the superior proposal continues to be a superior proposal; see The Merger Agreement Covenants and Agreements Acquisition Proposals beginning on page 61; or

Helix materially breaches any of its representations or warranties set forth in the merger agreement or Helix fails to materially perform any of its covenants or agreements under the merger agreement, and, in either case, Helix has not cured the breach or failure within 10 days of receiving notice from Remington of such breach or failure.

Table of Contents

If the merger agreement is validly terminated, the agreement will become void without any liability on the part of any party unless that party is in breach. However, certain provisions of the merger agreement, including, among others, those provisions relating to expenses and termination fees, will continue in effect notwithstanding termination of the merger agreement.

Fees and Expenses (page 67)

Remington must pay to Helix the sum of (i) Helix's documented out of pocket fees and expenses incurred or paid by or on behalf of Helix in connection with the merger or the consummation of any of the transactions contemplated by the merger agreement, including all HSR Act filing fees, fees and expenses of counsel, commercial banks, investment banking firms, accountants, experts, environmental consultants, and other consultants to Helix, up to a maximum amount not to exceed \$2 million, and (ii) \$45 million, in the following circumstances:

if Remington terminates the merger agreement because, prior to approval by Remington's stockholders of the merger agreement, the Remington board of directors approves a superior proposal; provided, that:

Remington complies with its obligations under the no-solicitation provisions of the merger agreement,

the board of directors of Remington authorizes Remington to enter into a binding agreement with respect to the superior proposal and Remington notifies Helix of the superior proposal,

within three business days of that notice, Remington offers to negotiate with Helix in order to make adjustments to the terms and conditions of the merger agreement so that Remington can proceed with the merger with Helix, and

Remington's board of directors determines in good faith after those negotiations with Helix, upon consulting with Remington's independent financial advisor and outside counsel, that the superior proposal continues to be a superior proposal; and

if Helix terminates the merger agreement because:

Remington's board of directors (1) fails to recommend, or withdraws or modifies in any manner adverse to Helix, the approval or recommendation of the merger agreement, (2) recommends to the Remington stockholders, enters into, or publicly announces its intention to enter into, an agreement or an agreement in principle with respect to a superior proposal, (3) refuses to affirm its approval or recommendation of the merger agreement within 10 business days of any written request from Helix, (4) exempts any person or entity other than Helix from the provisions of the DGCL related to business combinations with interested stockholders or (5) publicly announces its intention to do any of the foregoing;

Remington breaches in any material respect its covenant not to solicit, initiate or knowingly encourage any inquiries, offers or proposals that constitute, or are reasonably likely to lead to, an alternate acquisition proposal or engaged in certain prohibited activities with respect thereto, or publicly announces its intention to do so; or

a competing tender or exchange offer constituting an acquisition proposal has commenced and Remington has not sent Remington stockholders a statement disclosing that Remington's board of directors recommends rejection of the acquisition proposal, or Remington publicly announces its intention not to do so.

In general, each of Helix, Merger Sub and Remington will bear its own expenses in connection with the merger agreement and the related transactions except that Helix will pay the fee for filing with the SEC the registration statement of which this proxy statement/prospectus is a part and for complying with any applicable state securities laws and Remington will pay the costs and expenses associated with the mailing of this proxy statement/prospectus to the Remington stockholders and soliciting the votes of the Remington stockholders.

Table of Contents

No Solicitation by Remington (page 61)

The merger agreement restricts the ability of Remington to solicit or engage in discussions or negotiations with a third party regarding a proposal to merge with or acquire a significant interest in Remington. However, if Remington receives an acquisition proposal from a third party that is more favorable to Remington stockholders than the terms of the merger agreement and Remington complies with specified procedures contained in the merger agreement, Remington may furnish nonpublic information to that third party and engage in negotiations regarding an acquisition proposal with that third party, subject to specified conditions.

Accounting Treatment (page 45)

The combination of the two companies will be accounted for as an acquisition of Remington by Helix using the purchase method of accounting.

Certain Differences in the Rights of Stockholders (page 56)

As a result of the merger, the holders of Remington shares will become holders of Helix shares. Remington is a Delaware corporation governed by the Delaware General Corporation Law and the rights of Remington stockholders are currently governed by the certificate of incorporation and bylaws of Remington. Helix is a Minnesota corporation governed by the Minnesota Business Corporation Act and the rights of Helix shareholders are governed by the articles of incorporation and bylaws of Helix.

See page 192 for summaries of material differences between the rights of Remington stockholders and Helix stockholders arising because of differences in the corporate law governing the two companies and in the articles/certificate of incorporation and bylaws of the two companies.

Table of Contents

RISK FACTORS

*In addition to the other information included and incorporated by reference into this proxy statement/prospectus, including the matters addressed under the caption **Cautionary Statement Regarding Forward-Looking Statements** beginning on page 23, you should carefully read and consider the following risk factors in evaluating the proposals to be voted on at the special meeting of Remington stockholders and in determining whether to vote for approval and adoption of the merger agreement. Please also refer to the additional risk factors identified in the periodic reports and other documents incorporated by reference into this proxy statement/prospectus and see **Where You Can Find More Information** beginning on page 204.*

Risks Relating to the Merger

The exchange ratio will not be adjusted in the event the value of Helix common stock declines before the merger is completed. As a result, the value of the shares of Helix common stock at the time that Remington stockholders receive them could be less than the value of those shares today.

In the merger, Remington stockholders will be entitled to receive a combination of 0.436 of a share of Helix common stock and \$27.00 in cash for each share of Remington common stock owned. Helix and Remington will not adjust the exchange ratio for the portion of the merger consideration to be paid in Helix common stock as a result of any change in the market price of shares of Helix common stock between the date of this proxy statement/prospectus and the date that you receive shares of Helix common stock in exchange for your shares of Remington common stock. The market price of Helix common stock will likely be different, and may be lower, on the date you receive your shares of Helix common stock than the market price of shares of Helix common stock as of the date of this proxy statement/prospectus. During the 12-month period ended on May 24, 2006, the most recent practical date prior to the mailing of this proxy statement/prospectus, Helix common stock traded in a range from a low of \$21.99 to a high of \$45.61 and ended that period at \$33.08. See **Comparative Historical and Pro Forma Per Share Information** beginning on page 27 for more detailed share price information. Differences in Helix's stock price may be the result of changes in the business, operations or prospects of Helix, market reactions to the proposed merger, commodity prices, general market and economic conditions or other factors. If the market price of Helix common stock declines after you vote, you may receive less value than you expected when you voted. Neither Helix nor Remington is permitted to terminate the merger agreement or resolicit the vote of Remington stockholders because of changes in the market prices of their respective common stock.

The merger is subject to certain conditions to closing that, if not satisfied or waived, will result in the merger not being completed.

The merger is subject to customary conditions to closing, as set forth in the merger agreement. The conditions to the merger include, among others, the receipt of required approvals from Remington's stockholders. If any of the conditions to the merger are not satisfied or, if waiver is permissible, not waived, the merger will not be completed. In addition, under circumstances specified in the merger agreement, Helix or Remington may terminate the merger agreement. As a result, we cannot assure you that we will complete the merger. See **The Merger Agreement - Conditions Precedent** beginning on page 65 for a discussion of the conditions to the completion of the merger.

Certain directors and executive officers of Remington have interests and arrangements that are different from, or in addition to, those of Remington's stockholders and that may influence or have influenced their decision to support or approve the merger.

When considering the recommendation of Remington's board of directors with respect to the merger, holders of Remington common stock should be aware that certain of Remington's directors and executive officers have interests in the merger that are different from, or in addition to, their interests as Remington stockholders and the interests of Remington stockholders generally. These interests include, among other things, the following:

the appointment of one of Remington's current directors to Helix's board of directors;

Table of Contents

two officers of Remington will enter into mutually agreeable employment agreements with Helix upon effectiveness of the merger;

under the terms of the change in control severance agreements entered into between Remington and certain of its officers, if an officer's employment with Remington (or its successor) is terminated during the severance period (as defined in the officer's change in control severance agreement), that officer is entitled to severance benefits, including excise tax gross-up payments;

as of the effective time of the merger, acceleration of vesting of Remington stock options and restricted stock for directors and officers;

indemnification of directors and officers of Remington against certain liabilities arising both before and, in some cases, after the merger; and

liability insurance for certain directors and officers of Remington.

As a result, these directors and executive officers may be more likely to support and to vote to approve the merger than if they did not have these interests. Holders of Remington common stock should consider whether these interests may have influenced these directors and officers to support or recommend approval of the merger. As of the close of business on the record date for the Remington special meeting, these directors and executive officers were entitled to vote approximately 3.76% of the shares of Remington common stock outstanding on that date. These and additional interests of certain directors and executive officers of Remington are more fully described in the sections entitled "Interests of Remington Directors and Executive Officers in the Merger" beginning on page 49 of this proxy statement/prospectus.

We may face difficulties in achieving the expected benefits of the merger.

Helix and Remington currently operate as separate companies. Management has no experience running the combined business, and we may not be able to realize the operating efficiencies, synergies, cost savings or other benefits expected from the merger. In addition, the costs we incur in implementing synergies, including our ability to amend, renegotiate or terminate prior contractual commitments of Helix and Remington, may be greater than expected. We also may suffer a loss of employees, customers or suppliers, a loss of revenues, or an increase in operating or other costs or other difficulties relating to the merger.

Our actual financial position and results of operations may differ significantly and adversely from the pro forma amounts included in this proxy statement/prospectus.

The unaudited pro forma operating data contained in this proxy statement/prospectus is not necessarily indicative of the results that actually would have been achieved had the proposed merger and Helix's other currently contemplated financing transactions related to the merger been consummated on January 1, 2005, or that may be achieved in the future. We can provide no assurances as to how the operations and assets of both companies would have been run if they had been combined, or how they will be run in the future, which, together with other factors, could have a significant effect on the results of operations and financial position of the combined company.

Remington will be subject to business uncertainties and contractual restrictions while the merger is pending.

Uncertainty about the effect of the merger on employees, suppliers, partners, regulators and customers may have an adverse effect on Remington and potentially on Helix. These uncertainties may impair Remington's ability to attract,

retain and motivate key personnel until the merger is consummated, and could cause suppliers, customers and others that deal with Remington to defer purchases or other decisions concerning Remington, or to seek to change existing business relationships with Remington. Employee retention may be particularly challenging during the pendency of the merger, as employees may experience uncertainty about their future roles with Helix. If key employees depart because of issues relating to the uncertainty and difficulty of integration or a desire not to remain with Helix, Helix's business following the merger could be harmed. In addition, the merger agreement restricts Remington from making certain acquisitions and taking other specified actions until the merger occurs. These restrictions may prevent Remington from pursuing attractive business opportunities that may arise prior to the completion of the

Table of Contents

merger. See *The Merger Agreement – Covenants and Agreements* beginning on page 58 for a description of the restrictive covenants applicable to Remington.

The merger agreement limits Remington’s ability to pursue alternatives to the merger.

The merger agreement contains provisions that could adversely impact competing proposals to acquire Remington. These provisions include the prohibition on Remington generally from soliciting any acquisition proposal or offer for a competing transaction and the requirement that Remington pay to Helix the sum of (i) Helix’s documented out of pocket fees and expenses incurred or paid by or on behalf of Helix in connection with the merger or the consummation of any of the transactions contemplated by the merger agreement, including all HSR Act filing fees, fees and expenses of counsel, commercial banks, investment banking firms, accountants, experts, environmental consultants, and other consultants to Helix, up to a maximum amount not to exceed \$2 million, and (ii) \$45 million, if the merger agreement is terminated in specified circumstances in connection with an alternative transaction. In addition, even if the board of directors of Remington determines that a competing proposal to acquire Remington is superior, Remington may not exercise its right to terminate the merger agreement unless it notifies Helix of its intention to do so and gives Helix at least three business days to propose revisions to the terms of the merger agreement or to make another proposal in response to the competing proposal. See *The Merger Agreement – Covenants and Agreements* beginning on page 58 and *The Merger Agreement – Termination* beginning on page 66.

Helix required Remington to agree to these provisions as a condition to Helix’s willingness to enter into the merger agreement. These provisions, however, might discourage a third party that might have an interest in acquiring all or a significant part of Remington from considering or proposing that acquisition, even if that party were prepared to pay consideration with a higher value than the current proposed merger consideration. Furthermore, the termination fee may result in a potential competing acquiror proposing to pay a lower per share price to acquire Remington than it might otherwise have proposed to pay.

Failure to complete the merger could negatively impact the stock price and the future business and financial results of Remington.

Although Remington has agreed that its board of directors will, subject to fiduciary exceptions, recommend that its stockholders approve and adopt the merger agreement, there is no assurance that the merger agreement and the merger will be approved, and there is no assurance that the other conditions to the completion of the merger will be satisfied. If the merger is not completed, Remington will be subject to several risks, including the following:

Remington may be required to pay Helix the sum of (i) Helix’s documented out of pocket fees and expenses incurred or paid by or on behalf of Helix in connection with the merger or the consummation of any of the transactions contemplated by the merger agreement, including all HSR Act filing fees, fees and expenses of counsel, commercial banks, investment banking firms, accountants, experts, environmental consultants, and other consultants to Helix, up to a maximum amount not to exceed \$2 million, and (ii) \$45 million, if the merger agreement is terminated under certain circumstances and Remington enters into or completes an alternative transaction;

The current market price of Remington common stock may reflect a market assumption that the merger will occur, and a failure to complete the merger could result in a negative perception by the stock market of Remington generally and a resulting decline in the market price of Remington common stock;

Certain costs relating to the merger (such as legal, accounting and financial advisory fees) are payable by Remington whether or not the merger is completed;

There may be substantial disruption to the business of Remington and a distraction of its management and employees from day-to-day operations, because matters related to the merger (including integration planning) may require substantial commitments of time and resources, which could otherwise have been devoted to other opportunities that could have been beneficial to Remington;

Remington's business could be adversely affected if it is unable to retain key employees or attract qualified replacements; and

Table of Contents

Remington would continue to face the risks that it currently faces as an independent company, as further described in the documents that Remington has filed with the SEC that are incorporated by reference into this proxy statement/prospectus.

In addition, Remington would not realize any of the expected benefits of having completed the merger. If the merger is not completed, these risks may materialize and materially adversely affect Remington's business, financial results, financial condition and stock price.

The price of Helix common stock may be affected by factors different from those affecting the price of Remington common stock.

Holders of Remington common stock will receive Helix common stock in the merger. Helix's business is different in many ways from that of Remington (including Helix's significant diving and marine construction business and its greater exposure to international projects), and Helix's results of operations, as well as the price of Helix's common stock, may be affected by factors different from those affecting Remington's results of operations and the price of Remington common stock. The price of Helix common stock may fluctuate significantly following the merger, including fluctuation due to factors over which Helix has no control. For a discussion of Helix's business and certain factors to consider in connection with its business, including risk factors associated with its business, see **Risks Relating to Helix**, **Information About Helix** and **Helix's Historical Consolidated Financial Statements and Supplementary Data** and the notes thereto included in this proxy statement/prospectus. For a discussion of Remington's business and certain factors to consider in connection with its business, including risk factors associated with its business, see Remington's Annual Report on Form 10-K and Form 10-K/A for the fiscal year ended December 31, 2005, which is incorporated by reference into this proxy statement/prospectus. See also the other documents incorporated by reference into this proxy statement/prospectus under the caption **Where You Can Find More Information** beginning on page 204 of this proxy statement/prospectus.

Helix will have higher levels of indebtedness following the merger than either Helix or Remington had before the merger.

You should consider that, following the merger, Helix will have higher levels of debt and interest expense than Helix and Remington, together, had immediately prior to the merger. As of March 31, 2006, after giving effect to the merger and other currently contemplated related financings, the combined company and its subsidiaries are expected to have approximately \$1.3 billion of indebtedness outstanding. See **Helix Energy Solutions Group, Inc. Unaudited Pro Forma Combined Balance Sheet** on page 184 of this proxy statement/prospectus. The significant level of combined indebtedness after the merger may have an effect on the combined company's future operations, including:

limiting its ability to obtain additional financing on satisfactory terms to fund its working capital requirements, capital expenditures, acquisitions, investments, debt service requirements and other general corporate requirements;

increasing its vulnerability to general economic downturns, competition and industry conditions, which could place it at a competitive disadvantage compared to its competitors that are less leveraged;

increasing its exposure to rising interest rates because a portion of its borrowings will be at variable interest rates;

reducing the availability of its cash flow to fund its working capital requirements, capital expenditures, acquisitions, investments and other general corporate requirements because it will be required to use a

substantial portion of its cash flow to service debt obligations; and

limiting its flexibility in planning for, or reacting to, changes in its business and the industry in which it operates.

See Proposed Financings on page 202 of this proxy statement/prospectus.

Table of Contents

The opinion obtained by Remington from its financial advisor does not reflect changes in circumstances between signing the merger agreement and the completion of the merger.

Jefferies, Remington's financial advisor, delivered a fairness opinion to the Remington board of directors. The opinion states that, as of January 22, 2006, the consideration to be received by Remington stockholders pursuant to the merger agreement was fair from a financial point of view to Remington stockholders. The opinion does not reflect changes that may occur or may have occurred after January 22, 2006, including changes to the operations and prospects of Remington or Helix, changes in general market and economic conditions or other factors. Any such changes, or other factors on which the opinion is based, may significantly alter the value of Remington or Helix or the prices of shares of Remington common stock or Helix common stock by the time the merger is completed. The opinion does not speak as of the time the merger will be completed or as of any date other than the date of such opinion. For a description of the opinion that Remington received from its financial advisor, see *The Merger Opinion of Remington's Financial Advisor* beginning on page 39. For a description of the other factors considered by Remington's board of directors in determining to approve the merger, see *The Merger Remington's Reasons for the Merger* beginning on page 36 and *The Merger Recommendation of the Remington Board of Directors* beginning on page 38.

The shares of Helix common stock to be received by Remington stockholders as a result of the merger will have different rights from the shares of Remington common stock.

Remington stockholders will become Helix stockholders, and their rights as stockholders will be governed by the articles of incorporation and bylaws of Helix and Minnesota corporate law. The rights associated with Remington common stock are different from the rights associated with Helix common stock. See the section of this proxy statement/prospectus titled *Comparison of Stockholders Rights* beginning on page 192 for a discussion of the different rights associated with Helix common stock.

Remington stockholders will have a reduced ownership and voting interest after the merger and will exercise less influence over management.

After the merger's completion, Remington stockholders will own a significantly smaller percentage of Helix than they currently own of Remington. Following completion of the merger, Remington stockholders will own approximately 14% of the combined company. Consequently Remington stockholders will have less influence over the management and policies of Helix than they currently have over the management and policies of Remington.

Risks Relating to Helix

Helix's Contracting Services business is adversely affected by low oil and gas prices and by the cyclicity of the oil and gas industry.

Helix's Contracting Services business is substantially dependent upon the condition of the oil and gas industry and, in particular, the willingness of oil and gas companies to make capital expenditures for offshore exploration, drilling and production operations. The level of capital expenditures generally depends on the prevailing view of future oil and gas prices, which are influenced by numerous factors affecting the supply and demand for oil and gas, including, but not limited to:

Worldwide economic activity;

Economic and political conditions in the Middle East and other oil-producing regions;

Coordination by the Organization of Petroleum Exporting Countries, or OPEC;

The cost of exploring for and producing oil and gas;

The sale and expiration dates of offshore leases in the United States and overseas;

The discovery rate of new oil and gas reserves in offshore areas;

Technological advances;

Table of Contents

Interest rates and the cost of capital;

Environmental regulations; and

Tax policies.

The level of offshore construction activity improved somewhat in 2004 and continued the trend in 2005 following higher commodity prices in 2003 through 2005 and significant damage sustained to the Gulf of Mexico infrastructure in Hurricanes *Katrina and Rita*. Helix cannot assure you activity levels will remain the same or increase. A sustained period of low drilling and production activity or the return of lower commodity prices would likely have a material adverse effect on Helix's financial position, cash flows and results of operations.

The operation of marine vessels is risky, and Helix does not have insurance coverage for all risks.

Marine construction involves a high degree of operational risk. Hazards, such as vessels sinking, grounding, colliding and sustaining damage from severe weather conditions, are inherent in marine operations. These hazards can cause personal injury or loss of life, severe damage to and destruction of property and equipment, pollution or environmental damage and suspension of operations. Damage arising from such occurrences may result in lawsuits asserting large claims. Helix maintains such insurance protection as it deems prudent, including Jones Act employee coverage, which is the maritime equivalent of workers' compensation, and hull insurance on its vessels. Helix cannot assure you that any such insurance will be sufficient or effective under all circumstances or against all hazards to which it may be subject. A successful claim for which Helix is not fully insured could have a material adverse effect on Helix. Moreover, Helix cannot assure you that it will be able to maintain adequate insurance in the future at rates that it considers reasonable. As a result of market conditions, premiums and deductibles for certain of our insurance policies have increased substantially and could escalate further. In some instances, certain insurance could become unavailable or available only for reduced amounts of coverage. For example, insurance carriers are now requiring broad exclusions for losses due to war risk and terrorist acts and limitations for wind storm damages. As construction activity expands into deeper water in the Gulf and other Deepwater basins of the world, a greater percentage of Helix's revenues may be from Deepwater construction projects that are larger and more complex, and thus riskier, than shallow water projects. As a result, Helix's revenues and profits are increasingly dependent on its larger vessels. The current insurance on Helix's vessels, in some cases, is in amounts approximating book value, which could be less than replacement value. In the event of property loss due to a catastrophic marine disaster, mechanical failure or collision, insurance may not cover a substantial loss of revenues, increased costs and other liabilities, and could have a material adverse effect on Helix's operating performance if it was to lose any of its large vessels.

Helix's contracting business typically declines in winter, and bad weather in the Gulf or North Sea can adversely affect its operations.

Marine operations conducted in the Gulf and North Sea are seasonal and depend, in part, on weather conditions. Historically, Helix has enjoyed its highest vessel utilization rates during the summer and fall when weather conditions are favorable for offshore exploration, development and construction activities. Helix typically has experienced its lowest utilization rates in the first quarter. As is common in the industry, Helix typically bears the risk of delays caused by some, but not all, adverse weather conditions. Accordingly, Helix's results in any one quarter are not necessarily indicative of annual results or continuing trends.

If Helix bids too low on a turnkey contract, it suffers consequences.

A significant amount of Helix's projects are performed on a qualified turnkey basis where described work is delivered for a fixed price and extra work, which is subject to customer approval, is billed separately. The revenue, cost and gross profit realized on a turnkey contract can vary from the estimated amount because of changes in offshore job conditions, variations in labor and equipment productivity from the original estimates, and the performance of third parties such as equipment suppliers. These variations and risks inherent in the marine construction industry may result in Helix experiencing reduced profitability or losses on projects.

Table of Contents

Exploration and production of oil and natural gas is a high-risk activity and subjects Helix to a variety of factors that it cannot control.

Helix's Oil & Gas Production business is subject to all of the risks and uncertainties normally associated with the exploration for and development and production of oil and natural gas, including uncertainties as to the presence, size and recoverability of hydrocarbons. Helix may not encounter commercially productive oil and natural gas reservoirs. Helix may not recover all or any portion of its investment in new wells. The presence of unanticipated pressures or irregularities in formations, miscalculations or accidents may cause Helix's drilling activities to be unsuccessful and result in a total loss of its investment. In addition, Helix often is uncertain as to the future cost or timing of drilling, completing and operating wells.

Projecting future natural gas and oil production is imprecise. Producing oil and gas reservoirs eventually have declining production rates. Projections of production rates rely on certain assumptions regarding historical production patterns in the area or formation tests for a particular producing horizon. Actual production rates could differ materially from such projections. Production rates depend on a number of additional factors, including commodity prices, market demand and the political, economic and regulatory climate.

Further, Helix's drilling operations may be curtailed, delayed or canceled as a result of a variety of factors, including:

unexpected drilling conditions;

title problems;

pressure or irregularities in formations;

equipment failures or accidents;

adverse weather conditions; and

compliance with environmental and other governmental requirements, which may increase our costs or restrict our activities.

Estimates of Helix's oil and gas reserves, future cash flows and abandonment costs may be significantly incorrect.

This proxy statement/prospectus contains estimates of Helix's proved oil and gas reserves and the estimated future net cash flows therefrom based upon reports for the year ended December 31, 2004 and 2005, audited by Helix's independent petroleum engineers. These reports rely upon various assumptions, including assumptions required by the Securities and Exchange Commission, as to oil and gas prices, drilling and operating expenses, capital expenditures, abandonment costs, taxes and availability of funds. The process of estimating oil and gas reserves is complex, requiring significant decisions and assumptions in the evaluation of available geological, geophysical, engineering and economic data for each reservoir. As a result, these estimates are inherently imprecise. Actual future production, cash flows, development expenditures, operating and abandonment expenses and quantities of recoverable oil and gas reserves may vary substantially from those estimated in these reports. Any significant variance in these assumptions could materially affect the estimated quantity and value of Helix's proved reserves. You should not assume that the present value of future net cash flows from our proved reserves referred to in this proxy statement/prospectus is the current market value of Helix's estimated oil and gas reserves. In accordance with Securities and Exchange Commission requirements, Helix bases the estimated discounted future net cash flows from its proved reserves on prices and costs on the date of the estimate. Actual future prices and costs may differ materially from those used in the

net present value estimate. In addition, if costs of abandonment are materially greater than Helix's estimates, they could have an adverse effect on financial position, cash flows and results of operations.

Helix's actual development results are likely to differ from its estimates of its proved reserves. Helix may experience production that is less than estimated and development costs that are greater than estimated in its reserve reports. Such differences may be material.

As a result of the large property acquisitions made in 2005 (Murphy Shelf package and five Deepwater non-producing fields), 55% of Helix's proven reserves as of December 31, 2005 are PUDs. Estimates of Helix's oil and natural gas reserves and the costs associated with developing these reserves may not be

Table of Contents

accurate. Development of Helix's reserves may not occur as scheduled and the actual results may not be as estimated. Development activity may result in downward adjustments in reserves or higher than estimated costs.

Reserve replacement may not offset depletion.

Oil and gas properties are depleting assets. Helix replaces reserves through acquisitions, exploration and exploitation of current properties. If Helix is unable to acquire additional properties or if it is unable to find additional reserves through exploration or exploitation of its properties, Helix's future cash flows from oil and gas operations could decrease.

Helix's oil and gas operations involve significant risks, and Helix does not have insurance coverage for all risks.

Helix's oil and gas operations are subject to risks incident to the operation of oil and gas wells, including, but not limited to, uncontrollable flows of oil, gas, brine or well fluids into the environment, blowouts, cratering, mechanical difficulties, fires, explosions, pollution and other risks, any of which could result in substantial losses to Helix. Helix maintains insurance against some, but not all, of the risks described above. Drilling for oil and gas involves numerous risks, including the risk that Helix will not encounter commercially productive oil or gas reservoirs. If certain exploration efforts are unsuccessful in establishing proved reserves and exploration activities cease, the amounts accumulated as unproved property costs would be charged against earnings as impairments.

Helix may not be able to compete successfully against current and future competitors.

The businesses in which Helix operates are highly competitive. Several of Helix's competitors are substantially larger and have greater financial and other resources than Helix has. If other companies relocate or acquire vessels for operations in the Gulf or the North Sea, levels of competition may increase and Helix's business could be adversely affected.

The loss of the services of one or more of Helix's key employees, or Helix's failure to attract and retain other highly qualified personnel in the future, could disrupt its operations and adversely affect its financial results.

The industry has lost a significant number of experienced professionals over the years due to, among other reasons, the volatility in commodity prices. Helix's continued success depends on the active participation of its key employees. The loss of its key people could adversely affect Helix's operations. Helix believes that its success and continued growth are also dependent upon its ability to attract and retain skilled personnel. Helix believes that its wage rates are competitive; however, unionization or a significant increase in the wages paid by other employers could result in a reduction in its workforce, increases in the wage rates it pays, or both. If either of these events occurs for any significant period of time, Helix's revenues and profitability could be diminished and its growth potential could be impaired.

If Helix fails to effectively manage its growth, its results of operations could be harmed.

Helix has a history of growing through acquisitions of large assets and acquisitions of companies. Helix must plan and manage its acquisitions effectively to achieve revenue growth and maintain profitability in its evolving market. If Helix fails to effectively manage current and future acquisitions, its results of operations could be adversely affected. Helix's growth has placed, and is expected to continue to place, significant demands on its personnel, management and other resources. Helix must continue to improve its operational, financial, management and legal/compliance information systems to keep pace with the growth of its business.

Helix may need to change the manner in which it conducts its business in response to changes in government regulations.

Helix's subsea construction, intervention, inspection, maintenance and decommissioning operations and its oil and gas production from offshore properties, including decommissioning of such properties, are subject to and affected by various types of government regulation, including numerous federal, state and local environmental protection laws and regulations. These laws and regulations are becoming increasingly complex,

Table of Contents

stringent and expensive to comply with, and significant fines and penalties may be imposed for noncompliance. Helix cannot assure you that continued compliance with existing or future laws or regulations will not adversely affect its operations.

Certain provisions of Helix's corporate documents and Minnesota law may discourage a third party from making a takeover proposal.

In addition to the 55,000 shares of preferred stock issued to Fletcher International, Ltd. under the First Amended and Restated Agreement dated January 17, 2003, but effective as of December 31, 2002, by and between Helix and Fletcher International, Ltd., Helix's board of directors has the authority, without any action by Helix's shareholders, to fix the rights and preferences on up to 4,945,000 shares of undesignated preferred stock, including dividend, liquidation and voting rights. In addition, Helix's bylaws divide the board of directors into three classes. Helix is also subject to certain anti-takeover provisions of the Minnesota Business Corporation Act. Helix also has employment contracts with all of its senior officers that require cash payments in the event of a change of control. Any or all of the provisions or factors described above may have the effect of discouraging a takeover proposal or tender offer not approved by management and the board of directors and could result in shareholders who may wish to participate in such a proposal or tender offer receiving less for their shares than otherwise might be available in the event of a takeover attempt.

Helix's operations outside of the United States subject it to additional risks.

Helix's operations outside of the U.S. are subject to risks inherent in foreign operations, including, without limitation:

the loss of revenue, property and equipment from hazards such as expropriation, nationalization, war, insurrection, acts of terrorism and other political risks,

increases in taxes and governmental royalties;

changes in laws and regulations affecting its operations;

renegotiation or abrogation of contracts with governmental entities;

changes in laws and policies governing operations of foreign-based companies;

currency restrictions and exchange rate fluctuations;

world economic cycles;

restrictions or quotas on production and commodity sales;

limited market access; and

other uncertainties arising out of foreign government sovereignty over its international operations.

In addition, laws and policies of the U.S. affecting foreign trade and taxation may also adversely affect Helix's international operations.

Helix's ability to market oil and natural gas discovered or produced in any future foreign operations, and the price it could obtain for such production, depends on many factors beyond its control, including:

ready markets for oil and natural gas;

the proximity and capacity of pipelines and other transportation facilities;

fluctuating demand for crude oil and natural gas;

the availability and cost of competing fuels; and

the effects of foreign governmental regulation of oil and gas production and sales.

Pipeline and processing facilities do not exist in certain areas of exploration and, therefore, any actual sales of Helix's production could be delayed for extended periods of time until such facilities are constructed.

Table of Contents

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus, including the documents incorporated by reference, contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are generally accompanied by words such as anticipate, expect, intend, plan, believe, seek, could, should, will, project, estimate, look for, and other expressions which convey uncertainty of future events or outcomes.

The expectations set forth in this proxy statement/prospectus and the documents incorporated by reference regarding, among other things, accretion, returns on invested capital, achievement of annual savings and synergies, achievement of strong cash flow, sufficiency of cash flow to fund capital expenditures and achievement of debt reduction targets are only the parties' expectations regarding these matters. Actual results could differ materially from these expectations depending on factors such as:

the factors described under "Risk Factors" beginning on page 14 of this proxy statement/prospectus;

the factors that generally affect Helix's and Remington's businesses as further outlined in "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in this proxy statement/prospectus, in the case of Helix, and in Remington's Annual Report on Form 10-K and Form 10-K/A for the year ended December 31, 2005 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2006, in the case of Remington, and elsewhere in this proxy statement/prospectus, including the performance of contracts by suppliers, customers and partners; employee management issues; and complexities of global political and economic developments; and

the fact that, following the merger, the actual results of the combined company could differ materially from the expectations set forth in this proxy statement/prospectus and the documents incorporated by reference depending on additional factors such as:

the combined company's cost of capital;

the ability of the combined company to identify and implement cost savings, synergies and efficiencies in the time frame needed to achieve these expectations;

the combined company's actual capital needs, the absence of any material incident of property damage or other hazard that could affect the need to effect capital expenditures and any currently unforeseen merger or acquisition opportunities that could affect capital needs; and

the costs incurred in implementing synergies including, but not limited to, our ability to terminate, amend or renegotiate prior contractual commitments of Helix and Remington.

Actual actions that the combined company may take may differ from time to time as the combined company may deem necessary or advisable in the best interest of the combined company and its shareholders to attempt to achieve the successful integration of the companies, the synergies needed to make the transaction a financial success and to react to the economy and the combined company's market for its exploration and production.

Table of Contents**SELECTED HISTORICAL AND UNAUDITED PRO FORMA FINANCIAL INFORMATION****Selected Helix Historical Financial Data**

Helix derived the following historical information from its audited consolidated financial statements for the years ended December 31, 2001, 2002, 2003, 2004 and 2005, and from its unaudited condensed consolidated financial statements for the three months ended March 31, 2006 and 2005. The unaudited condensed consolidated financial statements have been prepared by Helix on a basis consistent with the audited financial statements and include, in the opinion of Helix's management, all normal recurring adjustments necessary for a fair presentation of the information. Operating results for the three months ended March 31, 2006 are not necessarily indicative of the results that will be achieved for future periods. You should read this information in conjunction with Helix's Management's Discussion and Analysis of Financial Condition and Results of Operations and Helix's Historical Consolidated Financial Statements and Supplementary Data and the notes to such financial statements included in this proxy statement/prospectus.

current prices, costs, and existing regulatory practices and technology. Remington bases the standardized measure of future discounted net cash flows on year-end prices and costs. Any changes in future prices, costs, regulations, technology, or other unforeseen factors could significantly increase or decrease the proved reserve estimates.

- (3) Remington has not entered into any financial or commodity hedges for oil or gas prices during any of the years presented, therefore, the average sales prices represent actual sales revenue per barrel or Mcf.

Selected Unaudited Condensed Combined Pro Forma Financial Data

We derived the following unaudited condensed combined pro forma financial data from Helix's audited consolidated financial statements for the year ended December 31, 2005, Remington's audited consolidated financial statements for the year ended December 31, 2005, Helix's unaudited condensed consolidated financial statements for the three months ended March 31, 2006 and Remington's unaudited condensed consolidated financial statements for the three months ended March 31, 2006. The financial data has been prepared as if the proposed merger and the consummation of Helix's financing transactions related to the proposed merger had occurred on January 1, 2005, for the operating data and as of March 31, 2006, for the balance sheet data. The process of valuing Remington's tangible and intangible assets and liabilities is still in the preliminary stages. Material revisions to our current estimates could be necessary as the valuation process is finalized. The unaudited pro forma operating data set forth below is not necessarily indicative of the results that actually would have been achieved if the proposed merger and the currently contemplated financing transactions related to the merger had been consummated on January 1, 2005, or that may be achieved in the future.

The unaudited pro forma financial statements do not reflect any benefits from potential cost savings or revenue changes resulting from the proposed merger. You should read this information in conjunction with Helix's

Management's Discussion and Analysis of Financial Condition and Results of Operations, Helix's Historical Consolidated Financial Statements and Supplementary Data and the notes thereto, Remington's Management's Discussion and Analysis of Financial Condition and Results of Operations, Remington's consolidated financial statements and notes thereto and the Unaudited Condensed Combined Pro Forma Financial Data included in this proxy statement/prospectus or included in Remington's Annual Report on Form 10-K, Form 10-K/A and Quarterly Report on Form 10-Q incorporated by reference in this proxy statement/prospectus.

Table of Contents**COMPARATIVE HISTORICAL AND PRO FORMA PER SHARE INFORMATION**

Set forth below are the Helix and Remington historical and pro forma amounts per share of common stock for income from continuing operations and book value. The exchange ratio for the pro forma computations is 0.436 of a share of Helix common stock for each share of Remington common stock. The merger consideration is 0.436 of a share of Helix common stock and \$27.00 in cash for each share of Remington common stock outstanding immediately prior to completion of the merger.

The Remington pro forma (equivalent) information shows the effect of the merger from the perspective of an owner of Remington common stock. The information was computed by multiplying the Helix pro forma combined information by the exchange ratio of 0.436. This computation does not include the benefit to Remington stockholders of the cash component of the transaction.

You should read the information below together with the historical financial statements and related notes contained herein, in the case of Helix, and in the Remington Annual Report on Form 10-K and Form 10-K/A for the year ended December 31, 2005 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2006, in the case of Remington, and other information filed with the SEC and incorporated by reference in this proxy statement/prospectus. See *Where You Can Find More Information* beginning on page 204.

The unaudited pro forma combined data below is for illustrative purposes only. The pro forma adjustments for the balance sheet are based on the assumption that the transaction was consummated on each of the respective dates presented below. The pro forma adjustments for the statements of operations are based on the assumption that the transaction was consummated on January 1, 2005.

The financial results may have been different had the companies always been combined. You should not rely on this information as being indicative of the historical results that would have been achieved had the companies always been combined or of the future results of the combined company. See *Unaudited Condensed Combined Pro Forma Financial Data* beginning on page 181 for a discussion of the pro forma financial data used in the comparative per-share amounts in the table below.

Table of Contents**COMPARATIVE MARKET VALUE INFORMATION**

The following table sets forth the closing price per share of Helix common stock and the closing price per share of Remington common stock on January 20, 2006 (the last business day preceding the announcement by Helix and Remington of the execution of the merger agreement) and May 24, 2006 (the most recent practicable trading date prior to the date of this proxy statement/prospectus). The table also presents the equivalent market value per share of Remington common stock on January 20, 2006 and May 24, 2006, for receipt of a combination of 0.436 of a share of Helix common stock and \$27.00 in cash, without interest, for each share of Remington common stock that you own.

You are urged to obtain current market quotations for shares of Helix common stock and Remington common stock before making a decision with respect to the merger.

No assurance can be given as to the market prices of Helix common stock or Remington common stock at the closing of the merger. Because the exchange ratio will not be adjusted for changes in the market price of Helix common stock, the market value of the shares of Helix common stock that holders of Remington common stock will receive at the effective time of the merger may vary significantly from the market value of the shares of Helix common stock that holders of Remington common stock would have received if the merger were consummated on the date of the merger agreement or on the date of this proxy statement/prospectus.

	Closing Price per Share	
	January 20, 2006	May 24, 2006

INFORMATION ABOUT THE SPECIAL MEETING AND VOTING

This proxy statement/prospectus is being furnished to Remington stockholders by Remington's board of directors in connection with the solicitation of proxies from the holders of Remington common stock for use at the special meeting of Remington stockholders and any adjournments or postponements of the special meeting. This proxy statement/prospectus also is being furnished to Remington stockholders as a prospectus of Helix in connection with the issuance by Helix of shares of Helix common stock to Remington stockholders in connection with the merger.

Date, Time and Place

The special meeting of stockholders of Remington will be held on June 29, 2006 at 9:00 a.m., Central Daylight Time, at the Hilton Dallas Park Cities, 5954 Luther Lane, Dallas, Texas 75225.

Matters to Be Considered

At the special meeting, Remington stockholders will be asked:

to consider and vote upon a proposal to approve and adopt the merger agreement;

to consider and vote upon a proposal to adjourn or postpone the special meeting, if necessary, to solicit additional proxies in favor of the approval and adoption of the merger agreement; and

to consider and transact any other business as may properly be brought before the special meeting or any adjournments or postponements thereof.

At this time, the Remington board of directors is unaware of any matters, other than those set forth in the preceding sentence, that may properly come before the special meeting.

Stockholders Entitled to Vote

The close of business on May 26, 2006 has been fixed by Remington's board as the record date for the determination of those holders of Remington common stock who are entitled to notice of, and to vote at, the special meeting and at any adjournments or postponements thereof.

At the close of business on the record date, there were 28,870,296 shares of Remington common stock outstanding and entitled to vote, held by approximately 504 holders of record. A list of the stockholders of record entitled to vote at the special meeting will be available for examination by Remington stockholders for any purpose germane to the meeting. The list will be available at the meeting and for ten days prior to the meeting during ordinary business hours by contacting Remington's Corporate Secretary at 8201 Preston Road, Suite 600, Dallas, Texas 75225-6211.

Quorum and Required Vote

Each holder of record of shares of Remington common stock as of the record date is entitled to cast one vote per share at the special meeting on each proposal. The presence, in person or by proxy, of the holders of a majority of the issued and outstanding shares of Remington common stock outstanding as of the record date constitutes a quorum for the transaction of business at the special meeting. The affirmative vote of the holders of a majority of the shares of Remington common stock entitled to vote at the special meeting is required to approve and adopt the merger

agreement.

As of the record date for the special meeting, directors and executive officers of Remington and their affiliates beneficially owned an aggregate of 1,084,621 shares of Remington common stock entitled to vote at the special meeting. These shares represent 3.76% of the Remington common stock outstanding and entitled to vote as of the record date. Although these individuals are not party to any voting agreements with Remington or Helix and do not have any obligations to vote in favor of the approval and adoption of the merger agreement, they have indicated their intention to vote their outstanding shares of Remington common stock in favor of the approval and adoption of the merger agreement.

As of May 26, 2006, Helix and its directors, executive officers and their affiliates owned none of the outstanding shares of Remington common stock.

Table of Contents

How Shares Will Be Voted at the Special Meeting

All shares of Remington common stock represented by properly executed proxies received before or at the special meeting, and not properly revoked, will be voted as specified in the proxies. Properly executed proxies that do not contain voting instructions will be voted FOR the approval and adoption of the merger agreement and any adjournment or postponement of the special meeting.

A properly executed proxy marked Abstain with respect to any proposal will be counted as present for purposes of determining whether there is a quorum at the special meeting. However, because the approval and adoption of the merger agreement requires the affirmative vote of the holders of a majority of the outstanding shares entitled to vote at the special meeting, an abstention will have the same effect as a vote AGAINST approval and adoption of the merger agreement.

If you hold shares of Remington common stock in street name through a bank, broker or other nominee, the bank, broker or nominee may vote your shares only in accordance with your instructions. If you do not give specific instructions to your bank, broker or nominee as to how you want your shares voted, your bank, broker or nominee will indicate that it does not have authority to vote on the proposal, which will result in what is called a broker non-vote. Broker non-votes will be counted for purposes of determining whether there is a quorum present at the special meeting, but because approval and adoption of the merger agreement requires the affirmative vote of the holders of a majority of the outstanding shares entitled to vote at the special meeting, broker non-votes will have the same effect as a vote AGAINST the merger agreement.

If any other matters are properly brought before the special meeting, the proxies named in the proxy card will have discretion to vote the shares represented by duly executed proxies in their sole discretion.

How to Vote Your Shares

You may vote in person at the special meeting or by proxy. We recommend you vote by proxy even if you plan to attend the special meeting. You can always change your vote at the special meeting.

You may vote by proxy card, by completing and mailing the enclosed proxy card. If you properly submit your proxy card, in time to vote, one of the individuals named as your proxy will vote your shares of common stock as you have directed. You may vote for or against the proposals submitted at the special meeting or you may abstain from voting.

If you hold shares of Remington common stock through a broker or other custodian, please follow the voting instructions provided by that firm. If you do not return your proxy card, or if your shares are held in a stock brokerage account or held by a bank, broker or nominee, or, in other words, in street name and you do not instruct your bank, broker or nominee on how to vote those shares, those shares will not be voted at the special meeting.

A number of banks and brokerage firms participate in a program that also permits stockholders whose shares are held in street name to direct their vote by the Internet or telephone. This option, if available, will be reflected in the voting instructions from the bank or brokerage firm that accompany this proxy statement/prospectus. If your shares are held in an account at a bank or brokerage firm that participates in such a program, you may direct the vote of these shares by the Internet or telephone by following the voting instructions enclosed with the proxy from the bank or brokerage firm. The Internet and telephone proxy procedures are designed to authenticate stockholders' identities, to allow stockholders to give their proxy voting instructions and to confirm that those instructions have been properly recorded. Votes directed by the Internet or telephone through such a program must be received by 11:59 p.m., New York, New

York time, on June 28, 2006. Requesting a proxy prior to the deadline described above will automatically cancel any voting directions you have previously given by the Internet or by telephone with respect to your shares. Directing the voting of your shares will not affect your right to vote in person if you decide to attend the meeting; however, you must first obtain a signed and properly executed proxy from your bank, broker or nominee to vote your shares held in street name at the special meeting.

If you submit your proxy but do not make specific choices, your proxy will be voted FOR each of the proposals presented.

Table of Contents

How to Change Your Vote

If you are a registered stockholder, you may revoke your proxy at any time before the shares are voted at the special meeting by:

completing, signing and timely submitting a new proxy to the addressee indicated on the pre-addressed envelope enclosed with your initial proxy card by the close of business on June 28, 2006; the latest dated and signed proxy actually received by such addressee before the special meeting will be counted, and any earlier proxies will be considered revoked;

notifying Remington's Corporate Secretary, at 8201 Preston Road, Suite 600, Dallas, Texas 75225-6201, in writing, by the close of business on June 28, 2006, that you have revoked your earlier proxy; or

voting in person at the special meeting.

Merely attending the special meeting will not revoke any prior votes or proxies; you must vote at the special meeting to revoke a prior proxy.

If you hold shares of Remington common stock through a broker or other custodian and you vote by proxy, you may later revoke your proxy instructions by informing the holder of record in accordance with that entity's procedures.

Voting by Participants in the Remington Plans

Under the Remington stock incentive plan, a grantee of restricted shares of Remington common stock has all the rights of a Remington stockholder with respect to those shares, including the right to vote. Accordingly, holders of shares of Remington restricted stock will be entitled to vote at the special meeting in the same way as holders of non-restricted shares of Remington common stock. Beneficial holders of shares of Remington stock held within the Remington 401(k) plan control the voting of those shares.

Solicitation of Proxies

In addition to solicitation by mail, directors, officers and employees of Remington may solicit proxies for the special meeting from Remington stockholders personally or by telephone, facsimile and other electronic means without compensation other than reimbursement for their actual expenses.

The expenses incurred in connection with the filing of this document will be paid for by Helix. The expenses incurred in connection with the printing and mailing this proxy statement/prospectus will be paid for by Remington. Arrangements also will be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of solicitation material to the beneficial owners of shares of Remington stock held of record by those persons, and Remington will, if requested, reimburse the record holders for their reasonable out-of-pocket expenses in so doing.

Recommendation of the Remington Board of Directors

The Remington board of directors has unanimously approved the merger agreement and the transactions it contemplates, including the merger. The Remington board of directors determined that the merger is advisable and in the best interests of Remington and its stockholders and unanimously recommends that you vote FOR approval and

adoption of the merger agreement. See *The Merger Remington's Reasons for the Merger* beginning on page 36 and *The Merger Recommendation of the Remington Board of Directors* beginning on page 38 for a more detailed discussion of the Remington board of directors' recommendation.

Special Meeting Admission

If you wish to attend the special meeting in person, you must present either an admission ticket or appropriate proof of ownership of Remington stock, as well as a form of personal identification. If you are a registered stockholder and plan to attend the meeting in person, please mark the attendance box on your proxy card and bring the tear-off admission ticket with you to the meeting. If you are a beneficial owner of Remington common stock that is held by a bank, broker or other nominee, you will need proof of ownership to be admitted to the meeting. A recent brokerage statement or a letter from your bank or broker are examples of proof of ownership.

Table of Contents

No cameras, recording equipment, electronic devices, large bags, briefcases or packages will be permitted in the meeting.

PLEASE DO NOT SEND IN ANY REMINGTON STOCK CERTIFICATES WITH YOUR PROXY CARD. After the merger is completed, you will receive written instructions from the exchange agent informing you how to surrender your stock certificates to receive the merger consideration.

Adjournment and Postponements

The special meeting may be adjourned from time to time, to reconvene at the same or some other place, by approval of the holders of common stock representing a majority of the votes present in person or by proxy at the special meeting, whether or not a quorum exists, without further notice other than by an announcement made at the special meeting, so long as the new time and place for the special meeting are announced at that time. If the adjournment is for more than thirty days, or if after the adjournment a new record date is determined for the adjourned special meeting, a notice of the adjourned special meeting must be given to each stockholder of record entitled to vote at the special meeting. If a quorum is not present at the Remington special meeting, holders of Remington common stock may be asked to vote on a proposal to adjourn or postpone the Remington special meeting to solicit additional proxies. If a quorum is not present at the Remington special meeting, the holders of a majority of the shares entitled to vote who are present in person or by proxy may adjourn the meeting. If a quorum is present at the Remington special meeting but there are not sufficient votes at the time of the special meeting to approve the other proposal(s), holders of Remington common stock may also be asked to vote on a proposal to approve the adjournment or postponement of the special meeting to permit further solicitation of proxies.

Table of Contents

THE MERGER

General

Remington's board of directors is using this document to solicit proxies from the holders of Remington common stock for use at the Remington special meeting, at which holders of Remington common stock will be asked to vote upon approval and adoption of the merger agreement. In addition, Helix is sending this document to Remington stockholders as a prospectus in connection with the issuance of shares of Helix common stock in exchange for shares of Remington common stock in the merger.

The boards of directors of Remington and Helix have unanimously approved the merger agreement providing for the merger of Remington into Merger Sub. Merger Sub, which is wholly owned by Helix, will be the surviving entity in the merger, and upon completion of the merger, the separate corporate existence of Remington will terminate. We expect to complete the merger in the second quarter of 2006.

Background of the Merger

The board of directors and senior management of Helix periodically discuss strategic options, including growth by acquisition. Helix has, from time to time, considered business combinations with other energy services companies or oil and gas exploration and production companies. Three service related acquisitions were completed during 2005, and a short list of potential exploration and production target companies was developed by mid-year.

In recent years, Remington has from time to time entered into agreements with Helix for the use of Helix's marine contract services in Remington's offshore oil and gas exploration activities. As a result, Mr. James A. Watt, Chairman and Chief Executive Officer of Remington, and Mr. Martin R. Ferron, President and Chief Operating Officer of Helix, as well as other officers and employees of both companies, have come to know each other. Therefore, from time to time in the past, Messrs. Watt and Ferron discussed contractual arrangements between the companies and general matters regarding their respective businesses and the oil and gas industry.

In October 2005, Helix engaged Simmons & Company International to prepare an overview of Remington, together with a preliminary valuation/comparison analysis. That report was issued on November 14, 2005.

On November 17, 2005, Mr. Ferron contacted Mr. Watt by telephone to set up a meeting to discuss the possibility of a business combination between Helix and Remington.

On November 22, 2005, Mr. Ferron met with Mr. Watt and Mr. Robert P. Murphy, Remington's President and Chief Operating Officer, at Remington's offices in Dallas, Texas. During the meeting, Mr. Ferron expressed an interest in a business combination between Helix and Remington. Mr. Ferron suggested that Helix would be willing to pay a yet-to-be determined premium for the common stock of Remington, and that consideration for the transaction would consist of approximately 75% cash and 25% Helix common stock. Mr. Ferron further stated that, to formulate a proposal, Helix needed to review and evaluate certain non-public Remington operational and financial data. Accordingly, Mr. Ferron requested that Remington consider entering into a confidentiality agreement with Helix and provided Mr. Watt an initial request for information about Remington. Mr. Watt responded that he would discuss with the Remington board of directors Helix's indication of interest and its request for access to non-public information pursuant to a confidentiality agreement.

On November 28, 2005, the board of directors of Remington met by telephonic conference and Mr. Watt and Mr. Murphy reported to the directors the discussions with Mr. Ferron at the November 22, 2005 meeting. Following a discussion of the matter, the board of directors authorized Remington to enter into a confidentiality agreement with Helix, and to conduct exploratory communications with Helix's management regarding a possible business combination. Helix and Remington executed the confidentiality agreement on November 30, 2005. On December 5, 2005, Remington sent to Helix, by overnight courier, a package containing certain information requested by Helix.

On December 6, 2005, Mr. Watt received a letter from Mr. Ferron expressing continued interest in evaluating a potential transaction with Remington and requesting an exclusivity period until February 15,

Table of Contents

2006, during which Remington would not seek or consider alternative business combination transactions. Mr. Ferron's letter also expressed Helix's interest in entering into a merger agreement with Remington by the end of January 2006. Mr. Watt responded that Remington was not in a position to grant that exclusivity to Helix and stated that Remington was not for sale.

On December 9, 2005, Mr. Owen Kratz, Chairman and Chief Executive Officer of Helix, and Mr. Ferron met with Mr. Watt and Mr. Murphy at Remington's offices in Dallas, Texas. At the meeting Messrs. Kratz and Ferron requested further information about Remington's business and operations. They also stated that, in the event of a combination of the companies, they contemplated that Remington would largely remain as a separate unit or division of Helix. During a follow-up telephone conference on December 12, 2005, Mr. Ferron indicated to Messrs. Watt and Murphy that, based on an analysis of publicly available information and the additional information provided to them by Remington, Helix was contemplating a price in the range of \$44 for each share of Remington common stock. Messrs. Watt and Murphy reiterated that Remington was not for sale but that at Helix's request they would discuss the matter with Remington's board of directors.

On December 13, 2005, a regularly scheduled meeting of the Helix board of directors was held at which the Helix board of directors discussed the potential acquisition of Remington and an indicative offer.

Also on December 13, 2005, a regularly scheduled meeting of the board of directors of Remington was held, during which Mr. Watt updated the directors on the conversations to date with Helix. The directors discussed the Helix level of interest and concluded that the tentative indication of value at \$44 per share of Remington common stock warranted continued dialogue with Helix, although the board reiterated that Remington was not for sale and noted that a formal offer had not been submitted. Upon Mr. Watt's request, Remington's board of directors authorized him to retain Jefferies in order to assist the board of directors in assessing Helix's valuation of Remington. On December 14, 2005, Mr. Watt communicated to Mr. Ferron that Remington's board of directors had reviewed Helix's tentative proposal but had not reached a conclusion on it, and confirmed to Helix that Remington was not willing, at that stage of the process, to provide an exclusivity period to Helix.

On December 14, 2005, Mr. Ferron sent another letter to Mr. Watt suggesting that Helix commence its due diligence review of Remington immediately. In the letter Helix proposed, in lieu of an exclusivity period, a break-up fee payable by Remington to Helix of \$10 million prior to the announcement of a merger and \$50 million afterwards. On December 15, 2005, Mr. Ferron sent a third letter to Mr. Watt, indicating a potential offer could be made in the range of \$43 to \$46 per share of Remington common stock, based on approximately 30 million fully diluted shares outstanding, with Helix common stock constituting up to 50% of the consideration. Mr. Watt responded by e-mail that he would review Helix's revised preliminary proposal with Remington's board of directors and advisors.

On December 20, 2005, officers of Remington met with representatives of Jefferies at Remington's offices in Dallas, Texas, to discuss and review Helix's proposal. Remington entered into an engagement agreement with Jefferies on December 21, 2005. Mr. Watt then instructed Jefferies to review and evaluate Helix's proposal and to help evaluate potential alternatives for Remington.

Between December 21 and December 22, 2005, Helix completed technical due diligence with respect to Remington.

On January 5, 2006, the Helix Board of Directors held a telephonic meeting to approve a definitive acquisition offer. The following day, a firm offer of \$45 per Remington share was submitted in writing, with the consideration consisting of 50% cash and 50% Helix common stock. Mr. Watt reiterated to Mr. Ferron that Remington's board of directors had not changed its determination that Remington was not for sale. Mr. Watt also indicated that Remington's board of directors had to assess whether Helix's proposal made sense to Remington's stockholders, and that he would review it with the board of directors and external advisors.

Remington's board of directors met on January 11, 2006 to consider Helix's proposal. At the meeting, Jefferies made a presentation that included an overview of Helix, a preliminary valuation of Remington using different methodologies and a review of alternative strategic options available to Remington. Jefferies provided its evaluation of Helix's proposal in comparison to alternative strategic options and similar recent transactions involving the sale of Gulf of Mexico oil and gas assets. Andrews Kurth LLP, outside legal counsel to

Table of Contents

Remington, then discussed with the Remington board of directors the fiduciary duties of the board under the circumstances. Upon deliberation, the Remington board of directors confirmed that Remington was not for sale, and determined that Remington management should continue discussions with Helix and that Remington and its advisors should seek an increase in the consideration to be paid by Helix. Jefferies was then directed to contact a limited number of additional parties that might have an interest in a potential business combination with Remington at a premium to the market price of Remington's common stock. On January 12, 2005, Mr. Watt informed Mr. Ferron of the discussions of Remington's board of directors. After further negotiations with Helix, on January 13, 2006, Mr. Watt informed the Remington board of directors that Helix had increased its proposed offering price from \$45 to \$46 per share of Remington common stock, approximately 60% of which would be paid in cash and 40% in Helix common stock.

Mr. Watt and Mr. Murphy met with Mr. Ferron at Helix's offices in Houston, Texas on January 16, 2006 to conduct due diligence on Helix and further discuss the prospect of a merger between the companies. At that meeting, Mr. Ferron delivered a letter to Mr. Watt stating an aggregate offer price of \$812,885,625 in cash plus 13,577,577 shares of Helix common stock for the approximately 30.1 million of fully diluted shares of Remington common stock.

On January 18, 2006, the board of directors of Remington met in order to consider Helix's revised proposal. Mr. Watt informed the Remington directors that the proposal was \$46 per share of Remington common stock, based on the closing price of Helix's common stock on January 13, 2006 of \$42.10 per share. Remington stockholders would receive \$27.00 in cash plus 0.4513 of a share of Helix common stock for each outstanding share of Remington common stock. The cash component would be about 58.7% of the total consideration. At the meeting, representatives of Jefferies expressed their oral opinion that they believed they would be able to conclude that the merger consideration to the holders of Remington common stock in the Helix proposal was fair to such holders from a financial point of view. Remington's board of directors then directed Mr. Watt to continue discussions with Helix and report back to the board of directors with a comprehensive definitive offer from Helix. In addition, the board of directors requested that Jefferies prepare to render a fairness opinion with respect to the transaction at the next board meeting. Following the meeting, in a letter dated January 18, 2006, Mr. Watt informed Mr. Ferron that the board of directors of Remington intended to meet again on January 22, 2006 to consider approval of the transaction, provided a mutually acceptable merger agreement was negotiated by then, and Jefferies rendered a fairness opinion acceptable to the board of directors of Remington.

Later on January 18, 2006, Remington distributed a draft merger agreement prepared by Andrews Kurth LLP, Remington's outside legal counsel, to Helix and its outside legal counsel, Fulbright & Jaworski L.L.P. Over the following few days, the managements of Remington and Helix and their respective financial advisors and outside legal counsel engaged in negotiations with respect to the merger agreement.

Between January 19 and January 20, 2006, Helix completed financial and administrative due diligence.

On January 19, 2006, Helix's board of directors held a telephonic meeting regarding the status of the negotiations and discussed a revised offer as a result of information obtained as part of the due diligence review.

On January 20, 2006, Helix representatives notified Mr. Watt that through financial due diligence they had determined that the tax basis of Remington's assets was significantly less than previously estimated. In addition, on January 21, 2006, Remington determined that the Gulf of Mexico exploratory well, South Pass 87 #6, in which Remington had a 50% non-operating working interest, was a dry hole. As a result, Mr. Ferron advised Mr. Watt that Helix was revising its offer and asked Mr. Watt to present the revised offer to the Remington board of directors. Mr. Watt agreed to submit the revised offer to the Remington board of directors and agreed to recommend to the board that the merger agreement be executed reflecting a consideration for each share of fully diluted Remington common stock of \$27.00

in cash and 0.436 of a share of Helix common stock. Based on the closing price of Helix's common stock on January 20, 2006, that final offer represented a consideration of \$46.33 per share of Remington common stock.

Remington's board of directors held a telephonic meeting on the evening of January 22, 2006 to review Helix's revised offer and the proposed transaction. Remington's financial advisors and outside legal counsel also attended the meeting. At the meeting, Remington's board of directors discussed various aspects of the

Table of Contents

proposed transaction, including the proposed merger consideration and the terms of the merger agreement. Jefferies reviewed its analysis of the economic terms of the transaction and its assessment of the fairness of the merger consideration to the holders of Remington common stock from a financial point of view. Jefferies representatives also informed the Remington board that, pursuant to the board's instructions, Jefferies had contacted six other parties to see if they would have an interest in a potential combination with Remington. One of them executed a confidentiality agreement, but none of them expressed an interest in submitting an offer. Jefferies then delivered its written opinion to Remington's board of directors, that, as of the date of the opinion and based on and subject to the matters described in the opinion, the merger consideration to be received in the merger by the holders of Remington common stock, other than Helix and its affiliates, was fair, from a financial point of view, to such holders. Then Remington's outside legal counsel presented a summary of the terms of the merger agreement and discussed various legal issues with Remington's directors. After further discussion on certain aspects of the proposed transaction, Remington's board of directors unanimously approved the merger, the terms of the merger agreement and the transactions contemplated by the merger agreement, and determined to recommend adoption of the merger agreement to the stockholders of Remington.

The board of directors of Helix approved the merger agreement and the transactions contemplated thereby effective as of January 22, 2006.

Late in the evening of January 22, 2006, following the approval by the boards of directors of both companies, Helix and Remington executed the merger agreement. Early in the morning of January 23, 2006, the parties publicly announced the execution of the merger agreement.

Remington's Reasons for the Merger

The Remington board of directors, at a special meeting held on January 22, 2006, unanimously determined that the merger and the merger agreement are advisable, fair to and in the best interests of Remington and its stockholders. The Remington board of directors has approved the merger agreement and unanimously recommends Remington stockholders vote FOR approval and adoption of the merger agreement and the merger.

In reaching its decision, the Remington board of directors consulted with Remington's management and its financial and legal advisors in this transaction. In concluding that the merger is in the best interests of Remington and its stockholders, the Remington board of directors considered a variety of factors, including the following:

the merger consideration of \$27.00 in cash plus 0.436 of a share of Helix common stock, with a combined value equal to \$46.33 per share of Remington common stock based upon the closing price of Helix common stock as reported on the Nasdaq National Market January 20, 2006, the last trading day prior to the date of the public announcement of the merger, represents:

a premium of \$8.44, or approximately 22.28%, over the trailing average closing price of \$37.89 per share for Remington's common stock as reported on the NYSE composite transaction reporting system for the 30 trading days ended January 20, 2006;

a premium of \$8.75, or approximately 23.28%, over the trailing average closing price of \$37.58 per share for Remington's common stock as reported on the NYSE composite transaction reporting system for the five trading days ended January 20, 2006; and

a premium of \$8.37, or approximately 22.05%, over the closing sale price of \$37.96 for Remington's common stock as reported on the NYSE composite transaction reporting system on January 20, 2006, the last trading day prior to the date of the public announcement of the proposed merger;

the financial presentation of Jefferies, including its opinion dated January 22, 2006, to the Remington board of directors as to the fairness, from a financial point of view and as of the date of the opinion, of the merger consideration, as more fully described below under Opinion of Remington's Financial Advisor ;

the Remington board of directors familiarity with, and understanding of, Remington's business, financial condition, results of operations, current business strategy, earnings and prospects, and its

Table of Contents

understanding of Helix's business, financial condition, results of operations, business strategy and earnings (including the report of Remington's management on the results of its due diligence review of Helix);

the possible alternatives to the merger, including:

other acquisition or combination possibilities for Remington;

the possibility of continuing to operate as an independent oil and gas exploration and production company under its current model focused in the Gulf of Mexico; and

adopting a more broad-based but also more risky strategy possibly involving acquisitions and an international component;

the range of possible benefits to Remington's stockholders of those alternatives and the timing and likelihood of accomplishing the goal of any of those alternatives, and the board's assessment that the merger with Helix presents an opportunity superior to those alternatives;

the fact that Remington stockholders will receive a substantial cash payment for their shares, while at the same time retaining a large equity stake in the combined company, which will afford Remington stockholders the opportunity to participate in the future financial performance of a larger, more diversified energy and energy services company; in that regard, the Remington board of directors understood that the volatility of prices for oil and gas would cause the value of the merger consideration to fluctuate, perhaps significantly, but was of the view that on a long-term basis it would be desirable for stockholders to have an opportunity to retain some continuing investment in the post-merger combined company;

the Remington board of directors' understanding, following its review together with Remington's management and financial advisors, of overall market conditions, including then-current and prospective commodity prices and recent trading prices for Remington's common stock, and the board's determination that, in light of these factors, the timing of a potential transaction was favorable to Remington and its stockholders;

the Remington board of directors' understanding, and management's review, of Remington's current and prospective holdings, including Remington's oil and gas reserves in the Gulf of Mexico, and the Remington board of directors' and management's views concerning maximizing the future benefits relating to these holdings in light of Remington's size and position in the oil and gas industry, together with their belief that having ready access to Helix's resources and expertise in the offshore oil and gas services industry would be a major factor in maximizing those future benefits;

the consideration by the Remington board of directors, with the assistance of its advisors, of the general terms and conditions of the merger agreement, including the parties' representations, warranties and covenants, the conditions to their respective obligations as well as the likelihood of consummation of the merger, the proposed transaction structure, the termination provisions of the agreement and the Remington board of directors' evaluation of the likely time period necessary to close the transaction; and

the expectation that the merger would qualify as a reorganization for federal income tax purposes.

The Remington board of directors also considered potential risks associated with the merger in connection with its evaluation of the proposed transaction, including:

the risks of the type and nature described under "Risk Factors" beginning on page 14;

because the merger agreement provides for a fixed exchange ratio, if the price of Helix common stock at the time of the closing of the merger is lower than the price as of the time of signing the merger agreement, the value received by holders of Remington common stock in the merger could be materially less than the value as of the date of the merger agreement;

the risk, which is common in transactions of this type, that the terms of the merger agreement, including provisions relating to Helix's right to obtain information with respect to any alternative proposals and to a three business day negotiating period after receipt by Remington of a superior

Table of Contents

proposal and Remington's payment of a termination fee under specified circumstances, might discourage other parties that could otherwise have an interest in a business combination with, or an acquisition of, Remington from proposing such a transaction;

the interests of certain of Remington's executive officers and directors described under Interests of Remington Directors and Executive Officers in the Merger beginning on page 49;

the restrictions on the conduct of Remington's business prior to the consummation of the merger, requiring Remington to conduct its business in the ordinary course consistent with past practice subject to specific limitations, which may delay or prevent Remington from undertaking business opportunities that may arise pending completion of the merger; and

the risks and contingencies related to the announcement and pendency of the merger, the possibility that the merger will not be consummated and the potential negative effect of public announcement of the merger on Remington's business and relations with customers and service providers, operating results and stock price and Remington's ability to retain key management and personnel.

The foregoing discussion of the information and factors discussed by the Remington board of directors is not exhaustive but does include material factors considered by the Remington board of directors. The Remington board of directors did not quantify or assign any relative or specific weight to the various factors that it considered. Rather, the Remington board of directors based its recommendation on the totality of the information presented to and considered by it. In addition, individual members of the Remington board of directors may have given different weight to different factors.

Recommendation of the Remington Board of Directors

After careful consideration of the matters discussed above, the Remington board of directors concluded that the proposed merger is in the best interest of the stockholders of Remington.

FOR THE REASONS SET FORTH ABOVE, THE BOARD OF DIRECTORS OF REMINGTON HAS UNANIMOUSLY ADOPTED THE MERGER AGREEMENT AS IN THE BEST INTERESTS OF REMINGTON AND ITS STOCKHOLDERS, AND UNANIMOUSLY RECOMMENDS THAT REMINGTON'S STOCKHOLDERS VOTE FOR THE ADOPTION OF THE MERGER AGREEMENT.

Helix's Reasons for the Merger

The Helix Board of Directors has approved the merger agreement and believes that the acquisition of Remington is the next logical step in the evolution of Helix's unique production contracting based business model.

Helix believes that the merger joins two well managed companies, providing strategic and financial benefits to shareholders. The benefits include:

The transaction is expected to be accretive to earnings and cash flow;

Remington's prospect generation based growth strategy is highly complementary to Helix's production model and will build on Helix's existing portfolio of proved undeveloped reserves by:

creating extra exploitation value through the deployment of Helix assets for drilling, development, maintenance and abandonment;

accelerating high impact, ready to drill inventory;

adding 4 Tcfe reserve potential (1 Tcfe risked); and

providing 100% working interest in all deepwater prospects;

Remington possesses a highly experienced technical team;

Exploitation of Remington's prospect inventory will provide increased backlog for Helix's contracting services;

Combined Helix and Remington production business on the Outer Continental Shelf has critical mass, including:

operating synergies and purchasing leverage; and

Table of Contents

Remington's seismic library, which can be used across Helix assets; and

Helix can enhance financial results of key deepwater prospects by promoting partnership arrangements.

Opinion of Remington's Financial Advisor

Jefferies has rendered its written opinion, dated January 22, 2006, to the board of directors of Remington to the effect that, as of that date and subject to the assumptions, limitations, qualifications and other matters described in its opinion, the merger consideration to be received in connection with the merger by the holders of Remington common stock (other than Helix and its affiliates) was fair, from a financial point of view, to such holders.

The full text of Jefferies' written opinion to Remington's board of directors, which sets forth the procedures followed, the assumptions made, qualifications and limitations on the review undertaken and other matters, is attached to this proxy statement/prospectus as Annex B. The summary of Jefferies' opinion in this proxy statement/prospectus is qualified in its entirety by reference to the full text of the opinion, which is incorporated by reference into this proxy statement/prospectus. Holders of Remington common stock are encouraged to read the opinion in its entirety.

The opinion of Jefferies does not constitute a recommendation as to how any stockholder should vote on the merger or any matter relevant to the merger agreement.

General

Jefferies was selected by Remington's board of directors based on Jefferies' qualifications, expertise and reputation. Jefferies is an internationally recognized investment banking and advisory firm. Jefferies, as part of its investment banking business, is regularly engaged in the evaluation of capital structures, valuation of businesses and their securities in connection with mergers and acquisitions, negotiated underwritings, competitive biddings, secondary distributions of listed and unlisted securities, private placements, financial restructurings and other financial services.

In the ordinary course of business, Jefferies and its affiliates may publish research reports regarding the securities of Remington and Helix and their respective affiliates and may trade or hold such securities of Remington and Helix for their own account and for the accounts of their customers and, accordingly, may at any time hold long or short positions in those securities. In the past, Jefferies and its affiliates have provided investment banking services to Remington unrelated to the merger for which they have received compensation, and Jefferies or its affiliates may, in the future, provide investment banking and financial advisory services to Helix for which they would expect to receive compensation.

Pursuant to an engagement letter between Remington and Jefferies dated December 21, 2005, Jefferies was retained to act as financial advisor to Remington in connection with a possible transaction involving Remington. Jefferies also assisted Remington in soliciting expressions of interest in Remington from other parties potentially interested in a transaction with Remington. In consideration for these financial advisory services, Jefferies will receive a fee based on a percentage of the transaction value, which is contingent upon the completion of a transaction such as the merger. On January 19, 2006, the engagement letter was amended to provide that Jefferies would render a written opinion to the board of directors of Remington regarding the fairness of the merger consideration to be received in connection with the merger by the holders of Remington common stock (other than Helix and its affiliates) from a financial point of view. On January 22, 2006, Jefferies rendered its oral opinion to the board of directors of Remington (and subsequently provided a written copy of its opinion) that, as of that date and subject to the assumptions, limitations, qualifications and other matters described in its opinion, the merger consideration to be received in connection with

the merger by the holders of Remington common stock (other than Helix and its affiliates) was fair, from a financial point of view, to such holders. Jefferies received a separate fee of \$1 million for rendering such opinion, which was not contingent upon the completion of the merger. Upon the completion of the merger, a portion of such fee will be credited towards the transaction fee payable pursuant to the initial engagement letter. In addition, Remington has agreed to indemnify Jefferies for certain liabilities arising out of the engagements described above.

Table of Contents

The opinion of Jefferies was one of many factors taken into consideration by Remington's board of directors in making its determination to approve the merger and should not be considered determinative of the views of Remington's board of directors or management with respect to the merger or the merger consideration.

Jefferies did not establish the amount of cash or amount of shares of Helix common stock that will be received in exchange for each share of Remington common stock as consideration for the merger. These amounts were determined pursuant to negotiations between Remington and Helix and were approved by the board of directors of Remington.

Procedures Followed

In connection with rendering its opinion, Jefferies has, among other things,:

reviewed a draft of the merger agreement dated January 22, 2006, participated in certain limited negotiations concerning the merger among representatives of Remington and Helix and discussed with the officers of Remington the course of other negotiations with Helix;

reviewed certain financial and other information about Remington and Helix that was publicly available and that Jefferies deemed relevant;

reviewed certain internal financial and operating information, including financial projections relating to Remington that were provided to Jefferies by Remington, taking into account (a) the growth prospects of Remington, (b) Remington's historical and current fiscal year financial performance and track record of meeting its forecasts, and (c) Remington's forecasts going forward and its ability to meet them;

reviewed the corporate budget of Helix for 2006;

met with Remington's and Helix's managements regarding the business prospects, financial outlook and operating plans of Remington and Helix, respectively, and held discussions concerning the impact on Remington and Helix and their prospects of the economy and the conditions in Remington's industry;

reviewed the market prices and valuation multiples for the common stock of Remington and Helix, respectively;

compared the valuation in the public market of companies Jefferies deemed similar to that of Remington in market, services offered, and size;

reviewed public information concerning the financial terms of certain recent transactions that Jefferies deemed comparable to the merger;

performed a discounted cash flow analysis to analyze the present value of the future cash flow streams that Remington has indicated it expects to generate;

reviewed certain proved oil and gas reserve data furnished to Jefferies by Remington and Helix, including the 2004 year end reserve reports for Remington and Helix, respectively, prepared by independent reserve engineers as well as internal 2005 year end projected reserve information of Remington and Helix furnished to Jefferies by Remington and Helix, respectively; and

reviewed the potential pro forma impact of the merger.

In addition, Jefferies conducted such other studies, analyses and investigations and considered such other financial, economical and market factors and criteria as they considered appropriate in arriving at their opinion. Jefferies analyses must be considered as a whole. Considering any portion of such analyses or factors, without considering all analyses and factors, could create a misleading or incomplete view of the process underlying the conclusions expressed in the opinion delivered by Jefferies.

Assumptions Made and Qualifications and Limitations on Review Undertaken

In rendering its opinion, Jefferies assumed and relied upon the accuracy and completeness of all of the financial information, forecasts and other information provided to or otherwise made available to Jefferies by Remington, Helix or that was publicly available to Jefferies, and did not attempt, or assume any responsibility, to independently verify any of such information. The opinion of Jefferies is expressly conditioned upon such information, whether written or oral, being complete, accurate and fair in all respects. With respect to the oil

Table of Contents

and gas reserve reports, hydrocarbon production forecasts and financial projections provided to and examined by Jefferies or discussed with Jefferies by Remington and Helix, Jefferies noted that projecting future results of any company is inherently subject to uncertainty. Jefferies was advised by each of Remington and Helix and has assumed that the oil and gas reserve reports, hydrocarbon production forecasts and financial projections provided to and examined by Jefferies or discussed with Jefferies by Remington and Helix were reasonably prepared on bases reflecting the best currently available estimates and good faith judgments of the management of Remington or Helix as to the expected future financial performance of Remington or Helix (including in the case of Helix as to the future revenues and related costs attributable to its services segment and production facilities operations), and their respective petroleum engineers, as to their respective oil and gas reserves, related future revenues and associated costs. Jefferies expressed no opinion as to Remington's or Helix's oil and gas reserves, related future revenue, financial projections or the assumptions upon which they are based. In addition, in rendering its opinion, Jefferies assumed that Remington will perform in accordance with such financial projections for all periods specified therein. Jefferies noted that although such projections did not form the principal basis for their opinion, but rather constituted one of many items that they employed, changes to such projections could affect the opinion rendered.

Jefferies' opinion also expressly assumed that there were no material changes in Remington's assets, financial condition, results of operations, business or prospects since the most recent financial statements made available to them. In addition, Jefferies' opinion noted that they:

did not conduct a physical inspection of the properties and facilities of Remington or Helix, nor were they furnished, any reports of physical inspections;

did not make or obtain, nor were they furnished, any independent evaluation or appraisal of the assets or liabilities (contingent or otherwise) of Remington or Helix (other than the reserve reports referred to in the opinion);

did not assume any responsibility to obtain any such evaluations, appraisals or inspections for Remington or Helix; and

did not evaluate the solvency or fair value of Remington or Helix under any state or federal laws relating to bankruptcy, insolvency or similar matters.

Jefferies assumed that the merger will be consummated in a manner that complies in all respects with the applicable provisions of the Securities Act of 1933, and all other applicable federal and state statutes, rules and regulations and that the merger will qualify as a tax-free reorganization for U.S. federal income tax purposes. Jefferies further assumed, with permission of Remington, that:

the final form of the merger agreement would be substantially similar to the last draft they reviewed;

the merger will be consummated in accordance with the terms described in the merger agreement, without any amendments thereto, and without waiver by Remington of any of the conditions to Helix's obligations;

there was not as of the date of the opinion, and there will not as a result of the consummation of the transactions contemplated by the merger agreement be, any default or event of default under any indenture, credit agreement or other material agreement or instrument to which Remington or Helix or any of their respective subsidiaries or affiliates is a party;

in the course of obtaining the necessary regulatory or other consents or approvals (contractual or otherwise) for the merger, no restrictions, including divestiture requirements or amendments or modifications, will be imposed

that will have a material adverse effect on the contemplated benefits of the merger; and

all material assets and liabilities (contingent or otherwise, known or unknown) of Remington are as set forth in its consolidated financial statements provided to Jefferies by Remington.

Summary of Financial and Other Analyses

The following is a summary of the material financial and other analyses presented by Jefferies to Remington's board of directors in connection with Jefferies' opinion dated January 22, 2006. The financial

Table of Contents

and other analyses summarized below include information presented in tabular format. In order to fully understand Jefferies' analyses, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the analyses. Considering the data in the tables below without considering the full narrative description of the financial and other analyses, including the methodologies underlying and the assumptions, qualifications and limitations affecting each analysis, could create a misleading or incomplete view of Jefferies' analyses.

Overview

Based on the closing price per share of Helix common stock on January 20, 2006 of \$44.33, Jefferies noted that the implied value of the merger consideration per share of Remington common stock was \$46.33, which is referred to in this summary of Jefferies' opinion as the implied merger consideration. The implied merger consideration includes 0.436 of a share of Helix common stock and \$27.00 in cash for each share of Remington common stock. Jefferies also noted that based on the implied merger consideration of \$46.33 per share, approximately 30.2 million fully diluted shares of Remington common stock currently outstanding (calculated using the treasury method) and Remington's \$38 million of cash and cash equivalent assets, the implied enterprise value of Remington was \$1.36 billion. Jefferies also noted that the implied merger consideration represented a 22% premium to Remington's closing stock price of \$37.96 on January 20, 2006.

Jefferies analyzed the value of Remington in accordance with the following methodologies, each of which is described in more detail below:

Discounted Cash Flow Analysis;

Discounted Equity Value Analysis;

Comparable Company Analysis; and

Precedent Transaction Analysis.

These methodologies were used to determine an implied price range per share of Remington common stock, which was then compared to the implied merger consideration and to the historical price range of Remington common stock. The following table summarizes the results of the analyses and should be read together with the more detailed descriptions set forth below:

Methodology	Implied Price Range (Per share)
Discounted Cash Flow Analysis	\$ 43.18 to \$52.90
Discounted Equity Value Analysis (NYMEX Pricing)	\$ 42.61 to \$60.15
Discounted Equity Value Analysis (Flat Pricing)	\$ 26.12 to \$40.57
Comparable Company Analysis	\$ 36.79 to \$44.96
Precedent Transactions Analysis	\$ 29.00 to \$43.27
52-Week Range of Remington Common Stock	\$ 24.73 to \$42.59
3-Year Range of Remington Common Stock	\$ 16.75 to \$42.59
Implied Merger Consideration: \$46.33 per share	

Discounted Cash Flow Analysis

Jefferies calculated the present value of Remington's projected cash flows using risk-weighted oil and gas reserves, including estimates of non-proved reserves provided by Remington's management. For the purposes of the discounted cash flow analysis, Jefferies used a price deck based on the New York Mercantile Exchange, or NYMEX, forward pricing curve on January 18, 2006 for proved developed reserves and proved behind pipe reserves and a flat price of \$50.00 per barrel of oil and \$7.00 per thousand cubic feet of gas for undeveloped and exploratory reserves. Jefferies assumed various discount rates and investment factors in connection with the discounted cash flow analysis. The discounted cash flow analysis resulted in an implied price range of \$43.18 to \$52.90 per share as compared to the implied proposed merger consideration of \$46.33 per share of Remington common stock.

Table of Contents*Discounted Equity Value Analysis*

Jefferies calculated the present value of Remington's hypothetical future stock price at December 31, 2008 using certain projections provided by Remington's management related to production, lease operating expenses, general and administrative expenses, other expenses and capital expenditures and an exit multiple range from 3.0x to 4.0x earnings before interest, taxes, depreciation and amortization (referred to as EBITDA). Jefferies performed the discounted equity analysis using both the NYMEX forward pricing curve as of January 18, 2006 and flat pricing of \$50.00 per barrel of oil and \$7.00 per thousand cubic feet of gas. These pricing scenarios resulted in an implied price range as follows:

Pricing Scenario	Implied Price Range (Per share)
NYMEX forward pricing curve	\$42.61 to \$60.15
Flat pricing	\$26.12 to \$40.57

Comparable Company Analysis

Using publicly available financial and operating data for selected public companies in the oil and gas exploration and production industry, Jefferies calculated trading multiples of the selected public companies at their current stock price and applied those multiples to the following historical and projected financial data provided by Remington's management:

estimated 2006 EBITDA based on the NYMEX forward price curve;

estimated 2006 EBITDA based on First Call pricing of \$56.52 per barrel of oil and \$8.72 per thousand cubic feet of gas;

proved oil and gas reserves (in \$per billion of cubic feet equivalents, or \$/Bcfe); and

daily oil and gas production (in \$per million of cubic feet equivalents per day, or \$/Mmcfe per day).

For the purposes of calculating cubic feet equivalents, six thousand cubic feet of natural gas are deemed equivalent to one barrel of oil. Enterprise values in this analysis were calculated using the closing price of the common stock of Remington and the selected companies as of January 20, 2006.

The selected public companies used by Jefferies in the comparable company analysis were:

ATP Oil & Gas Corporation;

Boisd Arc Energy Inc.;

Callon Petroleum Company;

Energy Partners Limited;

The Houston Exploration Company;

Newfield Exploration Company;

Stone Energy Corporation; and

W&T Offshore, Inc.

In determining the implied price range per share for this analysis, each of the EBITDA multiples was weighted 30%, the proved oil and gas reserves multiple was weighted 10% and the daily oil and gas production multiple was weighted 30%. Based on this analysis, Jefferies calculated Remington's implied valuation per share to be \$36.79 to \$44.96, as compared to the implied proposed merger consideration of \$46.33 per share of Remington common stock.

No company utilized for comparison in the comparable company analysis is identical to Remington. In evaluating the merger, Jefferies made numerous judgments and assumptions with regard to industry performance, general business, economic, market, and financial conditions and other matters, many of which are beyond Remington's control. Mathematical analysis, such as determining the weighted average, is not in itself a meaningful method of using comparable company data.

Table of Contents

Precedent Transaction Analysis

Using publicly available financial and operating data and other information for selected comparable precedent transaction in the oil and gas exploration and production industry, with a focus on transactions involving companies with significant operations in the Gulf of Mexico, Jefferies calculated multiples of transaction value to:

- oil and gas production (in \$/Mmcfe per day); and
- proved oil and gas reserves (in \$/Mmcfe).

For the purposes of the precedent transaction analysis, Jefferies used the following selected comparable precedent transactions occurring in 2004 or 2005 and involving companies with significant shelf operations in the Gulf of Mexico:

Purchaser	Seller
Mariner Energy, Inc.	Forest Oil Corporation
Woodside Petroleum Ltd.	Gryphon Exploration Company
Helix	Murphy Oil Corporation
Nippon Oil Corporation	Devon Energy Corporation
Sumitomo Corporation	NCX Company, Inc.
Stone Energy Corporation	Anadarko Petroleum Corporation
Undisclosed	ChevronTexaco Corporation
The Houston Exploration Company	Undisclosed
Apache Corporation/Morgan Stanley	Anadarko Petroleum Corporation
Newfield Exploration Company	Denbury Resources Inc.

For the purposes of the precedent transaction analysis, Jefferies also used the following selected comparable precedent transactions occurring in 2004 or 2005 and involving companies with significant deep water operations in the Gulf of Mexico:

Purchaser	Seller
Marubeni Corp.	Devon Energy Corporation
Statoil (U.K.) Limited	EnCana Corporation
Norsk Hydro ASA	Spinnaker Exploration Company

Jefferies applied the transaction value ranges derived from the precedent transactions analysis to corresponding historical and projected financial and operating data for Remington as provided by Remington's management and calculated an implied price range of \$29.00 to \$43.27 per share of Remington common stock, as compared to the implied proposed merger consideration of \$46.33 per share.

No transaction utilized for comparison in the precedent transaction analysis is identical to the merger. In evaluating the merger, Jefferies made numerous judgments and assumptions with regard to industry performance, general business, economic, market, and financial conditions and other matters, many of which are beyond Remington's control. Mathematical analysis, such as determining the average or the median, is not in itself a meaningful method of using comparable transaction data.

Analysis of Helix

Jefferies reviewed the price trading history of Helix for the 3-year period ending January 20, 2006 on a stand alone basis. Jefferies also compared the growth rate of the historical price of Helix common stock to the growth rate of an index consisting of various large exploration and production companies and an index of various comparable oil field services companies, each over the previous twelve months. Jefferies noted that the growth rate of the price of Helix common stock outperformed both indices during that period.

Using publicly available information and information related to Helix as provided by Helix's management, Jefferies analyzed the trading multiples of Helix and the following comparable companies:

McDermott International Inc.;

Oceaneering International, Inc.;

Table of Contents

Gulfmark Offshore, Inc.;

Superior Energy Services, Inc.;

TETRA Technologies, Inc.;

Global Industries Ltd.;

Stolt Offshore S.A.;

Technip; and

Saipem S.P.A.

In its analysis, Jefferies derived and compared the following benchmarks for Helix and the comparable companies listed above:

price per estimated 2006 earnings, or Price/2006 Earnings;

price per estimated 2006 cash flows per share, or Price/2006 CFPS; and

enterprise value per estimated 2006 EBITDA, or Enterprise Value/2006 EBITDA.

This analysis indicated the following:

Benchmark	High	Low	Mean(1)	Helix
Price/2006 Earnings	24.9x	12.5x	19.0x	15.6x
Price/2006 CFPS	17.7x	8.2x	11.7x	9.7x
Enterprise Value/2006 EBITDA	12.7x	6.8x	9.3x	7.5x

(1) Excludes Helix

Conclusion

Jefferies determined and issued its written opinion to the board of directors of Remington to the effect that as of January 22, 2006, and subject to the assumptions, limitations, qualifications and other matters described in its opinion, the merger consideration to be received in connection with the merger by the holders of Remington common stock (other than Helix and its affiliates) was fair, from a financial point of view, to such holders.

Accounting Treatment

The combination of the two companies will be accounted for as an acquisition of Remington by Helix using the purchase method of accounting.

Opinions that the Merger Constitutes a Reorganization under Section 368(a) of the Internal Revenue Code

The completion of the merger is conditioned on, among other things, the receipt of opinions from tax counsel for each of Helix and Remington that the merger will qualify as a reorganization under Section 368(a) of the Internal Revenue Code.

Regulatory Matters

Under the Hart-Scott-Rodino Act, the merger may not be completed unless Helix and Remington file premerger notification and report forms with the Federal Trade Commission and the Antitrust Division of the U.S. Department of Justice and the waiting periods expire or terminate. The initial waiting period is 30 days after both parties have filed the applicable notifications, but this period may be extended if the reviewing agency issues a formal request for additional information and documentary material, referred to as a second request. On March 14, 2006, the Federal Trade Commission granted Helix and Remington's request for early termination of the waiting period under the HSR Act.

Other than as we describe in this document, the merger does not require the approval of any other U.S. federal or state or foreign agency.

Table of Contents

Appraisal and Dissenters Rights

Under the DGCL, any Remington stockholder who does not wish to accept the merger consideration has the right to dissent from the merger and to seek an appraisal of, and to be paid the fair value (exclusive of any element of value arising from the accomplishment or expectation of the merger) for his or her shares of Remington common stock, so long as the stockholder complies with the provisions of Section 262 of the DGCL.

Holders of record of Remington common stock who do not vote in favor of the merger agreement and who otherwise comply with the applicable statutory procedures summarized in this proxy statement/prospectus will be entitled to appraisal rights under Section 262 of the DGCL. A person having a beneficial interest in shares of Remington common stock held of record in the name of another person, such as a broker or nominee, must act promptly to cause the record holder to follow the steps summarized below properly and in a timely manner to perfect appraisal rights.

THE FOLLOWING DISCUSSION IS NOT A COMPLETE STATEMENT OF THE LAW PERTAINING TO APPRAISAL RIGHTS UNDER THE DGCL AND IS QUALIFIED IN ITS ENTIRETY BY THE FULL TEXT OF SECTION 262 OF THE DGCL, WHICH IS REPRINTED IN ITS ENTIRETY AS ANNEX C. ALL REFERENCES IN SECTION 262 OF THE DGCL AND IN THIS SUMMARY TO A STOCKHOLDER OR HOLDER ARE TO THE RECORD HOLDER OF THE SHARES OF COMMON STOCK AS TO WHICH APPRAISAL RIGHTS ARE ASSERTED.

Under Section 262 of the DGCL, holders of shares of Remington common stock who follow the procedures set forth in Section 262 of the DGCL will be entitled to have their Remington common stock appraised by the Delaware Chancery Court and to receive payment in cash of the fair value of those Remington shares, exclusive of any element of value arising from the accomplishment or expectation of the merger, together with a fair rate of interest, if any, as determined by that court.

Under Section 262 of the DGCL, when a proposed merger is to be submitted for approval at a meeting of stockholders, the corporation, not less than 20 days prior to the meeting, must notify each of its stockholders who was a stockholder on the record date for this meeting with respect to shares for which appraisal rights are available, that appraisal rights are so available, and must include in that required notice a copy of Section 262 of the DGCL.

This proxy statement/prospectus constitutes the required notice to the holders of those Remington shares and the applicable statutory provisions of the DGCL are attached to this proxy statement/prospectus as Annex C. Any Remington stockholder who wishes to exercise his or her appraisal rights or who wishes to preserve his or her right to do so should review the following discussion and Annex C carefully, because failure to timely and properly comply with the procedures specified in Annex C will result in the loss of appraisal rights under the DGCL.

A holder of Remington shares wishing to exercise his or her appraisal rights (a) must not vote in favor of the merger agreement and (b) must deliver to Remington prior to the vote on the merger agreement at the Remington special meeting, a written demand for appraisal of his or her Remington shares. This written demand for appraisal must be in addition to and separate from any proxy or vote abstaining from or against the merger. This demand must reasonably inform Remington of the identity of the stockholder and of the stockholder's intent thereby to demand appraisal of his or her shares. A holder of Remington common stock wishing to exercise his or her holder's appraisal rights must be the record holder of these Remington shares on the date the written demand for appraisal is made and must continue to hold these Remington shares until the consummation of the merger. Accordingly, a holder of Remington common stock who is the record holder of Remington common stock on the date the written demand for appraisal is made, but who thereafter transfers these Remington shares prior to consummation of the merger, will lose any right to appraisal

in respect of these Remington shares.

Only a holder of record of Remington common stock is entitled to assert appraisal rights for the Remington shares registered in that holder's name. A demand for appraisal should be executed by or on behalf of the holder of record, fully and correctly, as the holder's name appears on the holder's stock certificates. If the Remington shares are owned of record in a fiduciary capacity, such as by a trustee, guardian or custodian,

Table of Contents

execution of the demand should be made in that capacity, and if the Remington common stock is owned of record by more than one owner as in a joint tenancy or tenancy in common, the demand should be executed by or on behalf of all joint owners. An authorized agent, including one or more joint owners, may execute a demand for appraisal on behalf of a holder of record. The agent, however, must identify the record owner or owners and expressly disclose the fact that, in executing the demand, the agent is agent for the owner or owners. A record holder such as a broker who holds Remington common stock as nominee for several beneficial owners may exercise appraisal rights with respect to the Remington shares held for one or more beneficial owners while not exercising appraisal rights with respect to the Remington common stock held for other beneficial owners. In this case, the written demand should set forth the number of Remington shares as to which appraisal is sought. When no number of Remington shares is expressly mentioned, the demand will be presumed to cover all Remington common stock in brokerage accounts or other nominee forms, and those who wish to exercise appraisal rights under Section 262 of the DGCL are urged to consult with their brokers to determine the appropriate procedures for the making of a demand for appraisal by such a nominee.

ALL WRITTEN DEMANDS FOR APPRAISAL SHOULD BE SENT OR DELIVERED TO REMINGTON OIL AND GAS CORPORATION, 8201 PRESTON ROAD, SUITE 600, DALLAS, TEXAS 75225-6211, ATTENTION: SECRETARY.

Within ten days after the effective time of the merger, Helix will notify each stockholder who has properly asserted appraisal rights under Section 262 of the DGCL and has not voted in favor of the merger agreement of the date the merger became effective.

Within 120 days after the effective time of the merger, but not thereafter, Helix or any stockholder who has complied with the statutory requirements summarized above may file a petition in the Delaware Chancery Court demanding a determination of the fair value of the shares of Remington common stock of all those stockholders. None of Helix, Merger Sub or Remington is under any obligation to and none of them has any present intention to file a petition with respect to the appraisal of the fair value of the Remington shares. Accordingly, it is the obligation of stockholders wishing to assert appraisal rights to initiate all necessary action to perfect their appraisal rights within the time prescribed in Section 262 of the DGCL.

Within 120 days after the effective time of the merger, any Remington stockholder who has complied with the requirements for exercise of appraisal rights will be entitled, upon written request, to receive from Helix a statement setting forth the aggregate number of Remington shares not voted in favor of adoption of the merger agreement and with respect to which demands for appraisal have been received and the aggregate number of holders of those Remington shares. That statement must be mailed to those stockholders within ten days after a written request therefor has been received by Helix.

If a petition for an appraisal is filed timely, at a hearing on the petition, the Delaware Chancery Court will determine the stockholders entitled to appraisal rights. After determining those stockholders, the Delaware Chancery Court will appraise the fair value of their Remington shares, exclusive of any element of value arising from the accomplishment or expectation of the merger, together with a fair rate of interest, if any, to be paid upon the amount determined to be the fair value. Stockholders considering seeking appraisal should be aware that the fair value of their Remington shares as determined under Section 262 of the DGCL could be more than, the same as or less than the value of the merger consideration they would receive pursuant to the merger agreement if they did not seek appraisal of their Remington shares and that investment banking opinions as to fairness from a financial point of view are not necessarily opinions as to fair value under Section 262 of the DGCL. The Delaware Supreme Court has stated that proof of value by any techniques or methods which are generally considered acceptable in the financial community and otherwise admissible in court should be considered in the appraisal proceedings.

The Delaware Chancery Court will determine the amount of interest, if any, to be paid upon the amounts to be received by stockholders whose Remington shares have been appraised. The costs of the appraisal proceeding may be determined by the Delaware Chancery Court and taxed upon the parties as the Delaware Chancery Court deems equitable. The Delaware Chancery Court may also order that all or a portion of the expenses incurred by any stockholder in connection with the appraisal proceeding, including, without limitation, reasonable attorneys' fees and the fees and expenses of experts used in the appraisal proceeding, be charged pro rata against the value of all of the Remington shares entitled to appraisal.

Table of Contents

Any holder of Remington common stock who has duly demanded an appraisal in compliance with Section 262 of the DGCL will not, after the effective time of the merger, be entitled to vote the Remington shares subject to that demand for any purpose or be entitled to the payment of dividends or other distributions on those Remington shares (except dividends or other distributions payable to holders of record of Remington common stock as of a record date prior to the effective time of the merger).

If any stockholder who properly demands appraisal of his or her Remington common stock under Section 262 of the DGCL fails to perfect, or effectively withdraws or loses, his or her right to appraisal, as provided in Section 262 of the DGCL, the Remington shares of that stockholder will be converted into the right to receive the consideration receivable with respect to these Remington shares in accordance with the merger agreement. A stockholder will fail to perfect, or effectively lose or withdraw, his or her right to appraisal if, among other things, no petition for appraisal is filed within 120 days after the consummation of the merger, or if the stockholder delivers to Remington or Helix, as the case may be, a written withdrawal of his or her demand for appraisal. Any attempt to withdraw an appraisal demand in this matter more than 60 days after the consummation of the merger will require the written approval of the surviving company.

Failure to follow the steps required by Section 262 of the DGCL for perfecting appraisal rights may result in the loss of these rights, in which event a Remington stockholder will be entitled to receive the merger consideration receivable with respect to his or her Remington shares in accordance with the merger agreement.

If the number of shares of dissenting stock exceeds 8% of the outstanding shares of Remington common stock outstanding immediately prior to the effective time of the merger, then either Remington or Helix may elect not to consummate the merger.

Delisting and Deregistration of Remington Common Stock

If the merger is completed, the shares of Remington common stock will be delisted from the New York Stock Exchange and will be deregistered under the Securities Exchange Act of 1934. The stockholders of Remington will become stockholders of Helix and their rights as stockholders will be governed by Helix's articles of incorporation and bylaws and by the laws of the State of Minnesota. See "Comparison of Stockholders' Rights" beginning on page 192 of this proxy statement/prospectus.

Federal Securities Laws Consequences; Resale Restrictions

All shares of Helix common stock that will be distributed to Remington stockholders as a result of the merger will be freely transferable, except for restrictions applicable to persons who are deemed to be affiliates of Remington. Persons who are deemed to be affiliates of Remington may resell Helix shares received by them only in transactions permitted by the resale provisions of Rule 145 or as otherwise permitted under the Securities Act of 1933. Persons who may be deemed to be affiliates of Remington generally include executive officers, directors and individuals or entities who are significant stockholders of Remington. The merger agreement requires Remington to use its best efforts to cause each of its directors, executive officers and individuals or entities who Remington believes may be deemed to be affiliates of Remington to execute and deliver to Helix a written agreement to the effect that those persons will not sell, assign or transfer any of the Helix shares issued to them as a result of the merger unless that sale, assignment or transfer has been registered under the Securities Act of 1933, is in conformity with Rule 145 or is otherwise exempt from the registration requirements under the Securities Act of 1933.

This proxy statement/prospectus does not cover any resales of the Helix shares to be received by Remington's stockholders in the merger, and no person is authorized to make any use of this proxy statement/prospectus in connection with any resale.

Table of Contents**INTERESTS OF REMINGTON DIRECTORS AND EXECUTIVE OFFICERS IN THE MERGER**

In considering the recommendation of the Remington board of directors with respect to the merger, Remington stockholders should be aware that some directors and executive officers of Remington have interests in the merger that are different from, or in addition to, the interests of Remington stockholders generally. The Remington board of directors was aware of those interests and took them into account in approving and adopting the merger agreement and recommending that Remington stockholders vote to approve and adopt the merger agreement. Those interests are summarized below.

Stock Options and Restricted Stock

All options to purchase Remington common stock granted under Remington's equity compensation plans that are outstanding immediately prior to the effective time of the merger are fully vested. At the effective time of the merger, each outstanding Remington stock option will be cancelled and converted into the right to receive the cash consideration and the stock consideration for each deemed outstanding Remington option share. Similarly, all shares of Remington restricted common stock issued under the Remington stock incentive plan that have not vested immediately prior to the effective time of the merger, will become fully vested at the effective time of the merger, and the holders of those restricted shares will be entitled to receive the corresponding cash consideration and stock consideration. See The Merger Agreement Treatment of Remington Options and Restricted Stock beginning on page 56.

The following table shows, as of May 24, 2006, the number of shares of Remington common stock subject to vested and unexercised stock options held by Remington's named executive officers and directors, and the number of shares of restricted Remington common stock held by Remington's named executive officers and directors that will vest as a result of the merger based on the closing price of Remington common stock of \$41.24 per share on May 24, 2006.

Name and Principal Position	Stock Options	Value of Stock Options	Restricted Stock	Value of Restricted Stock

Change in Control Severance Agreements

Remington has in place an Executive Severance Plan which covers James A. Watt, Chairman and Chief Executive Officer of Remington, and Robert P. Murphy, President and Chief Operating Officer of Remington, and an Employee Severance Plan which covers all other Remington officers and employees. The Executive Severance Plan and the Employee Severance Plan will remain in effect after the merger is consummated, and Helix will perform the obligations of Remington under these plans.

Table of Contents

Executive Severance Plan

Under the Executive Severance Plan, if either Mr. Watt or Mr. Murphy (i) is subject to an involuntarily termination (as defined in the Executive Severance Plan) or (ii) terminates his employment with Remington or Helix, as the case may be, for good reason (as defined in the Executive Severance Plan) within three months prior to, or within two years after, the consummation of the merger:

he will receive a lump sum cash payment equal to 2.99 times the sum of (A) his then current base salary and (B) his maximum annual incentive opportunity;

all stock options, restricted stock and other equity compensation awards granted to him will be subject to the terms of the grant agreement and plan under which they were granted;

for a period of three years, or until he gains new employment with substantially similar benefits, Helix will provide him with medical and dental benefits for him and his immediate family;

Helix will provide 12 months of out-placement services;

all non-qualified deferred compensation benefits will be immediately vested and subject to immediate distribution, subject to applicable provisions of tax law; and

he will receive a gross-up payment for any excise taxes imposed by Sections 409A or 4999 of the Internal Revenue Code.

Employee Severance Plan

There are two categories of employees under the Employee Severance Plan:

Officers and Select Exempt Employees, other than Mr. Watt and Mr. Murphy; and

Other Exempt Employees and Non-Exempt Employees.

Under the Employee Severance Plan, if an Officer and Select Exempt Employee (i) is subject to an involuntarily termination (as defined in the Employee Severance Plan) or (ii) terminates his or her employment with Remington or Helix, as the case may be, for good reason (as defined in the Employee Severance Plan) within two years after the consummation of the merger:

he or she will receive a lump sum cash payment equal to two times the sum of (A) his or her then current base salary and (B) his or her maximum annual incentive opportunity;

all stock options, restricted stock and other equity compensation awards granted to him or her will be subject to the terms of the grant agreement and plan under which they were granted;

for a period of two years, or until he or she gains new employment with substantially similar benefits, Helix will provide him or her with medical and dental benefits for him or her and his or her immediate family;

Helix will provide 12 months of out-placement services;

all non-qualified deferred compensation benefits will be immediately vested and subject to immediate distribution, subject to applicable provisions of tax law; and

he or she will receive a gross-up payment for any excise taxes imposed by Sections 409A or 4999 of the Internal Revenue Code.

Under the Employee Severance Plan, if an Exempt Employee, other than those discussed above, or Non-Exempt Employee (i) is subject to an involuntary termination or (ii) terminates his or her employment with Remington or Helix, as the case may be, for good reason within one year after the consummation of the merger:

he or she will receive a lump sum cash payment equal to the greater of six months base pay or one month's base salary for each year of service up to nine months base pay;

all stock options, restricted stock and other equity compensation awards granted to him or her shall be subject to the terms of the grant agreement and plan under which they were granted;

for a period of the greater of six months or one month for each year of service up to nine months, Helix shall provide him or her with medical and dental benefits for him or her and his or her immediate family; and

Table of Contents

he or she shall receive a gross-up payment for any excise taxes imposed by Sections 409A or 4999 of the Internal Revenue Code.

The following table sets forth the lump sum cash payments that Remington named executive officers would receive under the applicable severance plan if the merger is consummated and they become entitled to severance benefits, as described above.

Executive Officer	Cash Severance Payments
James A. Watt	\$ 4,485,000
Robert P. Murphy	\$ 2,616,250
Gregory B. Cox	\$ 900,000
Steven J. Craig	\$ 720,000
Frank T. Smith, Jr.	\$ 738,000

Positions of Certain Remington Executive Officers After the Merger

Helix has agreed that, as of the effective time of the merger, Helix will cause James A. Watt, Chairman of the Board and Chief Executive Officer of Remington, to be elected to the Helix board of directors.

On January 22, 2006, each of Robert P. Murphy, President and Chief Operating Officer of Remington and Gregory B. Cox, Vice President/Exploration of Remington, entered into letter agreements with Helix regarding employment with Helix upon effectiveness of the merger. Mr. Murphy will be the President and Chief Operating Officer of Merger Sub, the surviving company, and Mr. Cox will be Vice President Exploration of Merger Sub. Each will enter into a mutually agreeable employment agreement with the surviving company having substantially similar terms as those currently in effect for such officers of Helix and providing for total compensation equal to or greater than that currently received from Remington. Helix has also agreed to pay Mr. Murphy the severance payment he would be entitled to receive under the Remington Executive Severance Plan (as described above). In addition, Mr. Murphy will receive restricted stock valued at \$4,000,000 and Mr. Cox will receive restricted stock valued at \$2,000,000, each based on the closing price of Helix's common stock on the day before the date of grant, which is expected to be made on or about the effective date of the merger. Each of the grants will vest as to 60% of the shares initially covered thereby on the third anniversary of the date of grant and as to an additional 20% initially covered thereby on each of the next two anniversaries of the date of grant. In the case of Mr. Murphy, if his employment is terminated without cause (as defined in the Helix employment agreements for senior executives) before the third anniversary of the grant, then the restricted stock will be deemed to have vested 20% annually, beginning on the first anniversary of the grant. In addition, Messrs. Murphy and Cox have agreed not to compete with Helix or to solicit its employees for a period of three years following the execution of the letter agreement.

Indemnification of Remington Officers and Directors

Under the merger agreement, Helix has agreed to indemnify and hold harmless all past and present officers and directors of Remington for acts or omissions occurring at and prior to the effective time of the merger and to promptly advance reasonable litigation expenses incurred by these officers and directors in connection with investigating, preparing and defending any action arising out of these acts or omissions.

D&O Insurance

For a period of six years after the effective time of the merger, Helix has agreed that it will provide Remington's current officers and directors with an insurance and indemnification policy that provides for coverage of events occurring prior to the effective time that is no less favorable than the existing policy or, if substantially equivalent insurance coverage is unavailable, the best available coverage. However, Helix will not be required to pay an annual premium for this insurance in excess of \$490,781 (150% of the last annual premium paid by Remington preceding the date of the merger agreement).

Ownership of Remington Common Stock

Remington directors and officers beneficially owned, as of the record date, approximately 3.76% of the outstanding Remington common stock, including those shares of Remington common stock underlying outstanding stock options.

Table of Contents

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following discussion summarizes material U.S. federal income tax consequences of the merger to U.S. holders. This discussion is based upon the Internal Revenue Code of 1986, as amended, Treasury Regulations promulgated under the Internal Revenue Code, court decisions, published positions of the Internal Revenue Service and other applicable authorities, all as in effect on the date of this document and all of which are subject to change or differing interpretations, possibly with retroactive effect. This discussion is limited to U.S. holders who hold Remington shares as capital assets for U.S. federal income tax purposes (generally, assets held for investment). This discussion does not address all of the U.S. federal income tax consequences that may be relevant to a holder in light of their particular circumstances or to holders who may be subject to special treatment under U.S. federal income tax laws, such as tax exempt organizations, foreign persons or entities, S corporations or other pass-through entities, financial institutions, insurance companies, broker-dealers, holders who hold Remington shares as part of a hedge, straddle, wash sale, synthetic security, conversion transaction, or other integrated investment comprised of Remington shares and one or more investments, holders with a functional currency (as defined in the Internal Revenue Code) other than the U.S. dollar, persons who exercise appraisal rights, and persons who acquired Remington shares in compensatory transactions. Further, this discussion does not address any aspect of state, local or foreign taxation. No ruling has been or will be obtained from the Internal Revenue Service regarding any matter relating to the merger. While receipt of opinions of counsel on the tax consequences of the merger are conditions to the closing, an opinion of counsel is not a guaranty of a result as it merely represents counsel's best legal judgment and is not binding on the Internal Revenue Service or the courts. As a result, no assurance can be given that the Internal Revenue Service will not assert, or that a court will not sustain, a position contrary to any of the tax aspects described below. Holders are urged to consult their own tax advisors as to the U.S. federal income tax consequences of the merger, as well as the effects of state, local and foreign tax laws.

As used in this summary, a U.S. holder includes:

an individual U.S. citizen or resident alien;

a corporation, partnership or other entity created or organized under U.S. law (federal or state);

an estate whose worldwide income is subject to U.S. federal income tax; or

a trust if a court within the United States of America is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust.

If a partnership (including for this purpose any entity treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of Remington shares, the tax treatment of a partner in that partnership will generally depend on the status of the partner and the activities of the partnership. Holders of Remington shares that are partnerships and partners in these partnerships are urged to consult their tax advisors regarding the U.S. federal income tax consequences of owning and disposing of Remington shares in the merger.

THIS SUMMARY IS NOT A SUBSTITUTE FOR AN INDIVIDUAL ANALYSIS OF THE TAX CONSEQUENCES OF THE MERGER TO YOU. WE URGE YOU TO CONSULT A TAX ADVISOR REGARDING THE PARTICULAR FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES OF THE MERGER IN LIGHT OF YOUR OWN SITUATION.

It is a condition to the closing of the merger that Fulbright & Jaworski L.L.P. and Andrews Kurth LLP deliver opinions, effective as of the date of closing, to Helix and Remington, respectively, to the effect that (i) the merger will be treated for U.S. federal income tax purposes as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, (ii) each of Helix and Remington will be a party to the reorganization within the meaning of Section 368(b) of the Internal Revenue Code and (iii) no gain or loss will be recognized by Helix, Remington or Merger Sub as a result of the merger.

The opinions of Fulbright & Jaworski L.L.P., counsel to Helix, and Andrews Kurth LLP, counsel to Remington, which are required as a condition to closing the merger, are and will be based on U.S. federal income tax law in effect as of the date of these opinions. In rendering the opinions, Fulbright & Jaworski L.L.P. and Andrews Kurth LLP will rely on certain assumptions, including assumptions regarding the absence of changes in existing facts and the completion of the merger strictly in accordance with the merger agreement

Table of Contents

and this proxy statement/prospectus. The opinions will also rely upon certain representations and covenants of the management of Helix and Remington and will assume that these representations are true, correct and complete without regard to any knowledge limitation, and that these covenants will be complied with. If any of these assumptions or representations are inaccurate in any way, or any of the covenants are not complied with, the opinions could be adversely affected.

Tax Consequences of the Merger to U.S. Holders of Remington Common Stock

The Merger

Assuming the merger qualifies as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, Remington stockholders will recognize neither gain nor loss with respect to the stock portion of the merger consideration, while with respect to the cash portion of the merger consideration Remington stockholders will generally recognize gain (but not loss) in an amount generally equal to the lesser of

the amount of cash received pursuant to the merger (excluding any cash received in lieu of fractional shares of Helix), and

the amount, if any, by which the sum of the fair market value of the Helix shares as of the effective time of the merger and the amount of cash received pursuant to the merger for these Remington shares exceeds the U.S. holder's adjusted tax basis in these Remington shares.

Gain recognized upon the exchange generally will be capital gain, unless the receipt of cash by a U.S. holder has the effect of a distribution of a dividend, in which case the gain will be treated as dividend income to the extent of the U.S. holder's ratable share of Remington's accumulated earnings and profits as calculated for U.S. federal income tax purposes. In general, the determination as to whether the receipt of cash has the effect of a distribution of a dividend depends upon whether and to what extent the transactions related to the merger will be deemed to reduce a U.S. holder's percentage ownership of Remington following the merger. For purposes of that determination, a U.S. holder will be treated as if he or she first exchanged all of the U.S. holder's Remington common stock solely for Helix common stock, and then a portion of that stock was immediately redeemed by Helix for the cash that the U.S. Holder actually received in the merger. The Internal Revenue Service has indicated that a reduction in the interest of a minority stockholder that owns a small number of shares in a publicly and widely held corporation and that exercises no control over corporate affairs would result in capital gain (as opposed to dividend) treatment. In determining whether or not the receipt of cash has the effect of a distribution of a dividend, certain constructive ownership rules must be taken into account. Any recognized capital gain will be long-term capital gain if the U.S. holder has held Remington shares for more than one year.

Remington stockholders who hold Remington shares with differing bases or holding periods should consult their tax advisors with regard to identifying the bases or holding periods of the particular Helix shares received in the merger.

If a U.S. holder receives cash in lieu of a fractional share of Helix shares, subject to the discussion above regarding possible dividend treatment, he or she will generally recognize capital gain or loss equal to the difference between the cash received in lieu of this fractional share and the portion of his or her adjusted tax basis in Remington shares surrendered that is allocable to this fractional share. The capital gain or loss will be long-term capital gain or loss if the holding period for Remington shares exchanged for cash in lieu of the fractional share of Helix stock is more than one year as of the date of the merger.

A U.S. holder will have an aggregate tax basis in shares of Helix shares received in the merger equal to the aggregate adjusted tax basis in Remington shares surrendered in the merger,

reduced by

the portion of his or her adjusted tax basis in those Remington shares that is allocable to a fractional share of Helix shares for which cash is received, and

the amount of cash received by him or her for these Remington shares in the merger, and

increased by the amount of gain (including the portion of this gain that is treated as a dividend as described above) recognized by him or her in the exchange (but not by any gain recognized upon the receipt of cash in lieu of a fractional share of Helix shares pursuant to the merger).

Table of Contents

The holding period of the Helix shares received by a Remington stockholder pursuant to the merger will include the holding period of Remington shares surrendered in exchange for these Helix shares, if these Remington shares are held as capital assets as of the effective time of the merger.

Holders of Remington shares are entitled to dissenters' rights under Delaware law in connection with the merger. If a U.S. holder receives cash pursuant to the exercise of dissenters' rights, that U.S. holder generally will recognize gain or loss measured by the difference between the cash received and his or her adjusted tax basis in his or her Remington shares. This gain should be long-term capital gain or loss if the U.S. holder held Remington shares for more than one year. Any holder of Remington shares that plans to exercise dissenters' rights in connection with the merger is urged to consult a tax advisor to determine the related tax consequences.

If the merger is not treated as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, then each U.S. holder would recognize gain or loss equal to the difference between the sum of the fair market value of the Helix shares and the amount of cash received in the merger (including cash received in lieu of fractional shares of Helix shares) and his or her tax basis in Remington shares surrendered in exchange therefor. Further, if the merger is not treated as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, Remington would be subject to tax on the deemed sale of its assets to Merger Sub, with gain or loss for this purpose measured by the difference between Remington's tax basis in its assets and the fair market value of the consideration deemed to be received therefor, or, in other words, the cash and Helix shares. This gain or loss would be reported on Remington's final tax return, subject to the effect of any tax carryovers and the effect of its other income or loss for that period, and Merger Sub would become liable for any such tax liability by virtue of the merger.

Backup Withholding

United States federal income tax law requires that a holder of Remington shares provide the exchange agent with his or her correct taxpayer identification number, which is, in the case of a U.S. holder who is an individual, a social security number, or, in the alternative, establish a basis for exemption from backup withholding. Exempt holders, including, among others, corporations and some foreign individuals, are not subject to backup withholding and reporting requirements. If the correct taxpayer identification number or an adequate basis for exemption is not provided, a holder will be subject to backup withholding on any reportable payment. Any amounts withheld under the backup withholding rules from a payment to a U.S. holder will be allowed as a credit against that U.S. holder's U.S. federal income tax and may entitle the U.S. holder to a refund, if the required information is furnished to the Internal Revenue Service.

To prevent backup withholding, each holder of Remington shares must complete the Substitute Form W-9 which will be provided by the exchange agent with the transmittal letter and certify under penalties of perjury that

the taxpayer identification number provided is correct or that the holder is awaiting a taxpayer identification number, and

the holder is not subject to backup withholding because

the holder is exempt from backup withholding,

the holder has not been notified by the Internal Revenue Service that he is subject to backup withholding as a result of the failure to report all interest or dividends, or

the Internal Revenue Service has notified the holder that he is no longer subject to backup withholding.

The Substitute Form W-9 must be completed, signed and returned to the exchange agent.

Information Reporting

Stockholders of Remington receiving Helix shares in the merger should file a statement with their U.S. federal income tax return setting forth their adjusted tax basis in Remington shares exchanged in the merger, as well as the fair market value of the Helix shares and the amount of cash received in the merger. In addition, stockholders of Remington will be required to retain permanent records of these facts relating to the merger.

Table of Contents

THE MERGER AGREEMENT

The following summary of the merger agreement is qualified by reference to the complete text of the merger agreement, which is attached as Annex A and incorporated by reference into this proxy statement/prospectus.

The merger agreement contains representations and warranties Helix and Remington made to each other. The assertions embodied in those representations and warranties are qualified by information in confidential disclosure schedules that Remington and Helix have provided to each other in connection with signing the merger agreement. The disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the attached merger agreement. Accordingly, you should keep in mind that the representations and warranties are modified in important part by the underlying disclosure schedules. The disclosure schedules contain information that has been included in Remington's or Helix's general prior public disclosures, as well as additional information, some of which is non-public. Neither Helix nor Remington believe the disclosure schedules contain information that the securities laws require them to publicly disclose except as discussed in this proxy statement/prospectus. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the merger agreement, and that information may or may not be fully reflected in the companies' public disclosures.

Structure of the Merger

Upon the terms and subject to the conditions of the merger agreement, and in accordance with the DGCL, at the effective time of the merger, Remington will merge with and into Cal Dive Merger Delaware Inc., a wholly owned subsidiary of Helix, which we refer to as Merger Sub. Merger Sub will continue as the surviving company and a wholly owned subsidiary of Helix. The separate corporate existence of Remington will cease. The effectiveness of the merger will not affect the separate corporate existence of Remington's subsidiaries, which will become subsidiaries of Merger Sub following the merger.

Timing of Closing

The closing date of the merger will occur as soon as possible following the date on which all conditions to the merger, other than those conditions that by their nature are to be satisfied at the closing, have been satisfied or waived. Helix and Remington expect to complete the merger during the second quarter of 2006. However, we do not know how long after the Remington special meeting the closing of the merger will take place. Helix and Remington hope to have the significant conditions, including necessary financings, satisfied so that the closing can occur immediately following the special meeting. However, there can be no assurance that such timing will occur or that the merger will be completed during the second quarter of 2006 as expected.

As soon as practicable after the closing of the merger, Merger Sub and Remington will file a certificate of merger with the Secretary of State of the State of Delaware. The effective time of the merger will be the time Merger Sub and Remington file the certificate of merger with the Secretary of State of the State of Delaware or at a later time as we may agree and specify in the certificate of merger.

Merger Consideration

At the effective time of the merger, each outstanding share of Remington common stock (other than any shares owned directly or indirectly by Remington or Helix and those shares held by dissenting stockholders) will be converted into the right to receive a combination of 0.436 of a share of Helix common stock and \$27.00 in cash, without interest. We

refer to the aggregate amount of the stock consideration and cash consideration to be received by Remington stockholders pursuant to the merger as the merger consideration.

Fractional Shares

No fractional shares of Helix common stock will be issued in the merger. Instead, you will be entitled to receive cash, without interest, in an amount equal to the fraction of a share of Helix common stock you might otherwise have been entitled to receive multiplied by the market value of a Helix share. The market value of a share of Helix common stock will be determined using the average of the closing sales price per share of

Table of Contents

Helix common stock on the Nasdaq National Market for the 20 trading days ending on the third day before the date the merger closes.

Potential Adjustment to Merger Consideration

In the event that, before the effective time of the merger, any change in the outstanding shares of capital stock of Helix occurs as a result of any stock split, combination, merger, consolidation, reorganization or other similar transaction, or any distribution of shares of Helix common stock is declared with a record date occurring prior to the effective time of the merger, the number of shares of Helix common stock to be received by holders of Remington common stock will be appropriately adjusted to provide Remington stockholders with the same economic effect as was contemplated by the merger agreement prior to the occurrence of that event.

Treatment of Remington Options and Restricted Stock

All Remington stock options have vested. At the effective time of the merger, the Remington stock options will be canceled and converted to a right to receive the cash consideration and the stock consideration for each deemed outstanding Remington option share. The number of deemed outstanding Remington option shares attributable to each Remington stock option will be equal to the net number of shares of Remington common stock (rounded to the nearest thousandth of a share) that would have been issued upon a cashless exercise of that Remington stock option immediately before the effective time of the merger. That net number of shares will be computed by deducting from the shares of Remington common stock that would be issued to the option holder a number of deemed surrendered shares of Remington common stock which is equal to the fair value of (i) the exercise price of a Remington stock option to be paid by the option holder and (ii) all amounts required to be withheld and paid by Remington for federal taxes and other payroll withholding obligations as a result of such exercise (using an assumed tax rate of 35%). The fair value of each deemed surrendered share of Remington common stock, for purposes of determining the net number of shares, will be equal to \$27.00 plus (A) 0.436 multiplied by (B) the market value of a share of Helix common stock (to be determined using the average of the closing sales price per share of Helix common stock on the Nasdaq National Market for the 20 trading days ending on the third trading day before the date the merger closes).

All shares of Remington restricted stock that have been issued but have not vested prior to the effective time of the merger will become fully vested at the effective time of the merger.

Conversion of Shares

At the effective time of the merger, each outstanding share of Remington common stock (other than shares held by Remington, Helix and stockholders who properly exercise their dissenters' rights) will automatically be canceled and retired, will cease to exist and will be converted into the right to receive the merger consideration. Shares of Remington common stock owned by Remington or Helix will be canceled in the merger without payment of any merger consideration.

Prior to the completion of the merger, Helix will deposit with the exchange agent, for the benefit of the holders of Remington common stock, an amount in cash and certificates representing shares of Helix common stock (or instructions authorizing uncertificated shares of Helix common stock) sufficient to effect the conversion of Remington common stock into the cash and stock consideration to be paid in the merger. Helix will also make funds available to the exchange agent from time to time after the effective time of the merger as needed to pay any cash instead of fractional shares or any dividends or other distributions declared by Helix on shares of Helix common stock with a record date after the effective time of the merger and a payment date on or before the date the relevant Remington stock certificate was surrendered. Helix has appointed Wells Fargo Bank Minnesota, N.A. to act as exchange agent for the merger.

Exchange Procedures

As soon as reasonably practicable after the effective time of the merger, the exchange agent will send to each holder of Remington common stock a letter of transmittal for use in the exchange and instructions explaining how to surrender Remington shares to the exchange agent. Holders of Remington common stock who surrender their certificates to the exchange agent, together with a properly completed letter of transmittal,

Table of Contents

will receive the appropriate merger consideration. Holders of unexchanged shares of Remington common stock will not be entitled to receive any dividends or other distributions payable by Helix after the closing until their shares are properly surrendered

At the effective time of the merger, the stock transfer books of Remington will be closed and no further issuances or transfers of Remington common stock will be made. If, after the effective time, valid Remington stock certificates are presented to the surviving company for any reason, they will be cancelled and exchanged as described above to the extent allowed by applicable law.

The exchange agent will deliver to Helix any shares of Helix common stock to be issued in the merger or funds set aside by Helix to pay the cash consideration, cash in lieu of fractional shares in connection with the merger or to pay dividends or other distributions on Helix shares to be issued in the merger that are not claimed by former Remington stockholders within twelve months after the effective time of the merger. Thereafter, Helix will act as the exchange agent and former Remington stockholders may look only to Helix for payment of their shares of Helix common stock, cash consideration, cash in lieu of fractional shares and unpaid dividends and distributions. None of Remington, Helix, the surviving company, the exchange agent or any other person will be liable to any former Remington stockholder for any amount properly delivered to a public official pursuant to applicable abandoned property, escheat or similar laws.

REMINGTON STOCK CERTIFICATES SHOULD NOT BE RETURNED WITH THE ENCLOSED PROXY CARD. REMINGTON STOCK CERTIFICATES SHOULD BE RETURNED WITH THE TRANSMITTAL LETTER AND ACCOMPANYING INSTRUCTIONS WHICH WILL BE PROVIDED TO REMINGTON STOCKHOLDERS FOLLOWING THE EFFECTIVE TIME OF THE MERGER.

Directors and Officers of the Surviving Company After the Merger

Under the merger agreement, the directors and officers of Merger Sub immediately prior to the effective time of the merger will be the directors and officers of the surviving company at and after the effective time of the merger.

Representations and Warranties

The merger agreement contains customary and substantially reciprocal representations and warranties made by each party to the other. These representations and warranties relate to, among other things:

corporate organization, qualification and good standing and organizational power;

ownership of equity interests;

corporate power and authority to enter into the merger agreement, and due execution, delivery and enforceability of the merger agreement;

absence of a breach of charter documents, bylaws, material agreements, instruments or obligations, or applicable law as a result of the merger;

consents, approvals, orders, authorizations, registrations, declarations, filings and permits required to enter into the merger agreement or to complete the transactions contemplated by the merger agreement;

timely and accurate filings with the Securities and Exchange Commission in compliance with applicable rules and regulations;

financial statements;

capital structure;

absence of undisclosed liabilities;

absence of specified adverse changes or events since September 30, 2005;

material contracts;

compliance with laws, material agreements and permits;

governmental regulation;

Table of Contents

material litigation, material judgments or injunctions and absence of undisclosed investigations or litigation;
absence of certain restrictive agreements or arrangements;
tax matters;
employee benefit plans and labor matters;
employee contracts and benefits;
insurance matters;
intellectual property;
title to assets;
oil and gas operations;
environmental matters;
books and records;
brokers and finders fees;
affiliate transactions;
disclosure controls and procedures and internal control over financial reporting;
derivative transactions and hedging;
required vote of stockholders to approve the merger/absence of vote required by Helix shareholders;
recommendation of Remington board of directors and opinion of financial advisor;
funding for the merger;
interim operation of Merger Sub;
absence of imbalances;
absence of preferential purchase rights;
absence of tax partnerships;
royalties;
inapplicability of Delaware anti-takeover statute; and

earnings announcement by Remington.

The representations and warranties in the merger agreement are subject to materiality and knowledge qualifications in many respects and do not survive the closing or termination of the merger agreement, but they form the basis of specified conditions to the obligations of Helix and Remington to complete the merger.

Covenants and Agreements

Each of Helix and Remington has undertaken various covenants in the merger agreement. The following summarizes the more significant of these covenants:

Operating Covenants Remington

Prior to the effective time of the merger Remington has agreed that it and its subsidiaries will conduct their operations in the ordinary and usual course consistent with past practices. Prior to the effective time of the merger, unless Helix consents otherwise in writing, with certain exceptions, Remington has agreed that neither Remington nor any of its subsidiaries will:

amend its certificate or articles of incorporation, bylaws or other organizational documents;

adjust, split, combine or reclassify any of its outstanding capital stock;

declare, set aside or pay any dividends or other distributions (whether payable in cash, property or securities) with respect to its capital stock;

Table of Contents

issue, sell or agree to issue or sell any securities or other equity interests, including its capital stock, any rights, options or warrants to acquire its capital stock, or securities (other than shares of Remington common stock issued pursuant to the exercise of any Remington stock option outstanding on the date of the merger agreement, or issued under grants or awards outstanding pursuant to Remington benefit plans in existence on the date of the merger agreement);

purchase, cancel, retire, redeem or otherwise acquire any of its outstanding capital stock or other securities or other equity interests, except pursuant to the terms of the Remington benefit plans in effect as of the date of the merger agreement;

merge or consolidate with, or transfer all or substantially all of its assets to, any other person (other than the merger contemplated in this proxy statement/prospectus);

liquidate, wind-up or dissolve;

acquire any corporation, partnership or other business entity or any interest therein (other than interests in joint ventures, joint operation or ownership arrangements or tax partnerships acquired in the ordinary course of business);

sell, lease or sublease, transfer or otherwise dispose of or mortgage, pledge or otherwise encumber any oil and gas interests of Remington that have a value in excess of \$25 million, individually, or any other assets that have a value at the time of such sale, lease, sublease, transfer or disposition in excess of \$25 million, individually, except that this clause shall not apply to:

the sale of hydrocarbons in the ordinary course of business or

encumbrances under the Remington credit agreement;

farm-out any oil and gas interest of Remington having a value in excess of \$10 million or interest therein;

sell, transfer or otherwise dispose of or mortgage, pledge or otherwise encumber any securities of any other person (including any capital stock or other securities or equity interest in any subsidiary of Remington);

make any loans, advances or capital contributions to, or investments in, any person (other than advances in the ordinary course of business);

enter into any material agreement or any other agreement not terminable by Remington or any of its subsidiaries upon notice of 30 days or less and without penalty or other obligation;

permit to be outstanding at any time under Remington's credit agreement indebtedness for borrowed money in excess of \$50 million, exclusive of any indebtedness incurred to fund costs relating to the transactions contemplated under the merger agreement;

incur any indebtedness for borrowed money other than under trade credit vendor lines not exceeding \$50 million in the aggregate or under Remington's credit agreement;

incur any other obligation or liability (other than liabilities incurred in the ordinary course of business);

assume, endorse (other than endorsements of negotiable instruments in the ordinary course of business), guarantee or otherwise become liable or responsible (whether directly, contingently or otherwise) for the liabilities or obligations of any other person;

enter into, or otherwise become liable or obligated under or pursuant to, or amend or extend:

any employee benefit, pension or other plan (whether or not subject to ERISA),

any other stock option, stock purchase, incentive or deferred compensation plan or arrangement or other fringe benefit plan, or

any consulting, employment, severance, termination or similar agreement with any Person;

except for payments made pursuant to any Remington benefit plan or certain other plans, agreements or arrangements, grant, or otherwise become liable for or obligated to pay, any severance or termination payment, bonus or increase in compensation or benefits (other than payments, bonuses or increases that

Table of Contents

are mandated by the terms of agreements existing as of the date of the merger agreement) to, or forgive any indebtedness of, any employee or consultant of any of Remington or its subsidiaries;

enter into any contract, agreement, commitment or arrangement with respect to any of the foregoing;

voluntarily resign, transfer or otherwise relinquish any right it has as of the date of the merger agreement, as operator of any oil and gas interest of Remington, except as required by law, regulation or contract;

create, incur, assume or permit to exist any lien on any of its assets, except for certain encumbrances which are permitted under the merger agreement: or

engage in any practice, take any action or permit by inaction any of the representations and warranties of Remington contained in the merger agreement to become untrue.

Prior to the effective time of the merger, unless Helix consents otherwise in writing, with certain exceptions, Remington has agreed that Remington and its subsidiaries will:

operate, maintain and otherwise deal with the oil and gas interests of Remington in accordance with good and prudent oil and gas field practices and in accordance with all applicable oil and gas leases and other contracts and agreements and all applicable laws, rules and regulations;

keep and maintain accurate books, records and accounts;

maintain in full force and effect the policies or binders of insurance described in Remington's representations and warranties concerning insurance matters in the merger agreement;

pay all taxes, assessments and other governmental charges imposed upon any of their assets or with respect to their franchises, business, income or assets before any penalty or interest accrues thereon;

pay all material claims (including claims for labor, services, materials and supplies) that have become due and payable and which by law have or may become a lien upon any of their assets prior to the time when any penalty or fine shall be incurred with respect thereto or any such lien shall be imposed thereon;

comply in all material respects with the requirements of all applicable laws, rules, regulations and orders of any governmental authority, obtain or take all governmental actions necessary in the operation of their businesses, and comply with and enforce the provisions of all of their material agreements, including paying when due all rentals, royalties, expenses and other liabilities relating to their businesses or assets;

preserve and keep in full force and effect their corporate existence and rights and franchises material to their performance under the merger agreement, except where the failure to do so would not have a material adverse effect (as defined in the merger agreement) on Remington; and

upon the request by Helix to Remington prior to the effective time of the merger, and subject to the limitations in Remington's credit agreement, enter into financial hedges for up to 50% of hydrocarbon production attributable to the proved developed producing reserves that Remington and its subsidiaries estimate will be produced before July 1, 2007 if Helix and Remington mutually agree that such hedges are reasonably prudent to protect Helix's expected acquisition economics and Remington's expected economics.

Operating Covenants Helix

Prior to the effective time of the merger Helix has agreed that it and its subsidiaries will conduct their operations in the ordinary and usual course consistent with past practices. Prior to the effective time of the merger, unless Remington consents otherwise in writing, with certain exceptions, Helix has agreed that Helix will not:

amend its certificate or articles of incorporation, bylaws or other organizational documents;

adjust, split, combine or reclassify any of its outstanding capital stock;

declare, set aside or pay any dividends or other distributions (whether payable in cash, property or securities) with respect to its capital stock;

Table of Contents

issue, sell or agree to issue or sell any securities or other equity interests, including its capital stock, any rights, options or warrants to acquire its capital stock, or securities convertible into or exchangeable or exercisable for its capital stock (other than shares of Helix common stock issued pursuant to the terms of any Helix benefit plan in existence on the date of the merger agreement, including, without limitation, Helix common stock issued pursuant to the exercise of any Helix stock option issued under any of such Helix benefit plans);

purchase, cancel, retire, redeem or otherwise acquire any of its outstanding capital stock or other securities or other equity interests, except pursuant to the terms of the Helix benefit plans in effect as of the date of the merger agreement;

merge or consolidate with, or transfer all or substantially all of its assets to, any other person, or permit any of its subsidiaries to merge or consolidate with, or transfer all or substantially all of its assets to, any other person (in each case other than the merger contemplated in this proxy statement/prospectus and other than any merger or consolidation of a wholly owned direct or indirect subsidiary of Helix with and into Helix in which Helix is the surviving corporation);

liquidate, wind-up or dissolve; or

enter into, or with regard to merger, consolidations or transfers of all or substantially all of the assets of a subsidiary of Helix permit such subsidiary to enter into, any contract, agreement, commitment or arrangement with respect to any of the foregoing.

Prior to the effective time of the merger, unless Remington consents otherwise in writing, with certain exceptions, Helix has agreed that neither Helix nor any of its subsidiaries will:

acquire any corporation, partnership or other business entity or any interest therein (other than interests in joint ventures, joint operation or ownership arrangements or tax partnerships acquired in the ordinary course of business) having an acquisition price in excess of \$50 million;

sell, lease or sublease, transfer or otherwise dispose of assets that have a value at the time of such sale, lease, sublease, transfer or disposition in excess of \$50 million, individually (except that this clause shall not apply to the sale of hydrocarbons, storage capacity, pipeline transportation capacity, or processing capacity in the ordinary course of business) or the disposition of vessels so long as individually or in the aggregate such dispositions are not material to the operations of Helix's services segment;

sell, transfer or otherwise dispose of any equity securities of any subsidiary of Helix; or

engage in any practice, take any action or permit by inaction any of the representations and warranties of Helix contained in the merger agreement to become untrue.

Prior to the effective time of the merger, unless Remington consents otherwise in writing, with certain exceptions, Helix has agreed that Helix will:

preserve and keep in full force and effect the corporate existence and rights and franchises material to their performance under the merger agreement, and will cause each of its subsidiaries to do the same, except where the failure to do so would not have a material adverse effect (as defined in the merger agreement) on Helix.

Acquisition Proposals

Remington has agreed that, except as specifically permitted in the merger agreement, it will not, and it will not authorize or permit its subsidiaries or its representatives to:

solicit, initiate or knowingly encourage any inquiries, offers or proposals that constitute, or are reasonably likely to lead to, any acquisition proposal (as defined below);

engage in discussions or negotiations with, furnish or disclose any information or data relating to Remington or any of its subsidiaries to, or in response to a request therefor, give access to the properties, assets or the books and records of Remington or its subsidiaries to, any person that has made or, to the knowledge of Remington, may be considering making any acquisition proposal or otherwise in connection with an acquisition proposal;

Table of Contents

grant any waiver or release under any standstill or similar contract with respect to any Remington common stock or any properties or assets of Remington or its subsidiaries;

approve, endorse or recommend any acquisition proposal;

enter into any agreement in principle, arrangement, understanding or contract relating to any acquisition proposal; or

take any action to exempt or make not subject to the provisions of the DGCL related to business combinations with interested stockholders or any other state takeover statute or state law that purports to limit or restrict business combinations or the ability to acquire or vote shares, any person (other than Helix and its subsidiaries) or any action taken thereby, which person or action would have otherwise been subject to the restrictive provisions thereof and not exempt therefrom.

An acquisition proposal is any contract, proposal, offer or other indication of interest (whether or not in writing and whether or not delivered to the stockholders of Remington) relating to any of the following (other than the transactions contemplated by the merger agreement or the merger):

any merger, reorganization, share exchange, take over bid, tender offer, recapitalization, consolidation, liquidation, dissolution or other business combination directly or indirectly involving Remington or its subsidiaries;

the acquisition in any manner, directly or indirectly, of any business or group of assets that generates 10% or more of Remington's consolidated net revenues, net income or stockholders' equity, or assets representing 10% or more of the book value of the assets of Remington and its subsidiaries, taken as a whole, or any license, lease, long-term supply agreement, exchange, mortgage, pledge or other arrangement having a similar economic effect, in each case in a single transaction or a series of related transactions; or

any direct or indirect acquisition of beneficial ownership of 10% or more of the shares of Remington common stock, whether in a single transaction or a series of related transactions.

Remington has agreed to promptly keep Helix reasonably informed of the status and terms of any inquiries, proposals or offers and the status and terms of any discussions or negotiations, including the identity of the person making such inquiry, proposal or offer. Except as specifically permitted in the merger agreement, Remington has also agreed to, and will cause its subsidiaries and instruct its officers, directors and representatives to, immediately terminate any activities, discussions or negotiations existing as of the date of the merger agreement with any person (other than Helix) conducted with respect to any acquisition proposal.

However, if the Remington board of directors determines in good faith, after consultation with its financial advisors and outside legal counsel, that an acquisition proposal that was unsolicited and that did not otherwise result from a breach of Remington's obligations described above in this Acquisition Proposals section is a superior proposal (as defined below), Remington may terminate the merger agreement if:

Remington stockholders have not yet approved and adopted the merger agreement;

Remington notifies Helix of its intent to take enter into a binding agreement concerning the superior proposal and attaches the most current version of such agreement;

Remington gives Helix at least three business days after delivery of such notice to negotiate to make adjustments in the terms and conditions of the merger agreement described in this proxy statement/prospectus as will enable Remington to proceed with this merger; and

Remington pays to Helix the sum of (i) Helix's documented out of pocket fees and expenses incurred or paid by or on behalf of Helix in connection with the merger or the consummation of any of the transactions contemplated by the merger agreement, including all HSR Act filing fees, fees and expenses of counsel, commercial banks, investment banking firms, accountants, experts, environmental consultants, and other consultants to Helix, up to a maximum amount not to exceed \$2 million, and (ii) \$45 million.

A superior proposal is a bona fide written acquisition proposal made by a third party for at least a majority of the voting power of Remington's then outstanding equity securities or all or substantially all of the

Table of Contents

assets of Remington and its subsidiaries, taken as a whole, if the board of directors of Remington determines in good faith (based on, among other things, the advice of its independent financial advisors and after consultation with outside counsel, and taking into account all legal, financial, regulatory and other aspects of the acquisition proposal) that such acquisition proposal:

would, if consummated in accordance with its terms, be more favorable, from a financial point of view, to the holders of Remington common stock than the transactions contemplated by the merger agreement described in this proxy statement/prospectus (taking into account any amounts payable by Remington to Helix upon termination of the merger agreement);

contains conditions which are all reasonably capable of being satisfied in a timely manner; and

is not subject to any financing contingency or to the extent financing for such proposal is required, that such financing is then committed.

Employee Benefit Matters

Generally, Helix will grant Remington employees full credit for past service with Remington for purposes of eligibility, vesting and benefit accrual under any employee benefit plans maintained by Helix or any of its subsidiaries. Remington employees will also receive full credit for their past service with Remington for purposes of determining the amounts of sick pay, holiday pay and vacation pay they are eligible to receive under any sick pay, holiday pay or vacation pay policies maintained by Helix and its subsidiaries. Helix will take any actions as are necessary so that each Remington employee who continues as an employee of Helix or any of its subsidiaries will not be subject to preexisting condition exclusions or waiting periods for coverages under any Helix benefit plan.

Helix will, and will cause its subsidiaries to, honor, in accordance with its terms, each Remington benefit plan and each Remington severance program and all obligations under those plans and programs, including any rights or benefits arising as a result of the merger. According to the merger agreement, the consummation of the merger constitutes a change of control or change in control, as the case may be, for all purposes under those Remington benefit plans and severance programs. The rights of each Remington employee or officer covered by a Remington severance program at or immediately prior to the effective time of the merger will remain in full force and effect, and each Remington severance program will remain in full force and effect pursuant to its terms, for a period of two years following the effective time of the merger.

Indemnification and Insurance

Each of Remington's certificate of incorporation and bylaws, and Helix's articles of incorporation and bylaws, contains a provision eliminating the personal liability of its directors to the relevant company or its stockholders for monetary damages for breach of fiduciary duty as a director to the extent permitted under applicable law. The effect of this provision is to eliminate the personal liability of directors to the company or its stockholders for monetary damages for actions involving a breach of their fiduciary duty of care. The articles of incorporation and bylaws of Helix generally provide for the mandatory indemnification of, and payment of expenses incurred by, its directors and officers to the fullest extent permitted under applicable law. The certificate of incorporation and bylaws of Remington generally provide for the mandatory indemnification of, and payment of expenses incurred by, directors and officers to the fullest extent permitted by applicable law. Remington and Helix have both obtained directors' and officers' liability insurance, which insures against liabilities that its directors and officers may incur in these capacities.

Following the effective time of the merger for a period of six years, Helix will indemnify, defend and hold harmless each person who is or was an officer, director, or employee of Remington or any of its subsidiaries at or prior to the

signing of the merger agreement or at or prior to the effective time of the merger. This indemnification will include indemnification against all losses, expenses (including attorneys' fees), claims, damages, liabilities and amounts that are paid in settlement arising out of actions or omissions occurring at or prior to the effective time of the merger (whether asserted or claimed prior to, at or after the effective time of the merger) that are based on the fact that the person is or was a director, officer, employee, controlling stockholder or agent of Remington or any of its subsidiaries or served as a fiduciary under any

Table of Contents

Remington employee benefit plan. Helix will not be liable for any settlement effected without its written consent, which consent will not be unreasonably withheld or delayed.

For six years after the effective time of the merger, Helix will also maintain in effect directors' and officers' liability insurance covering acts or omissions occurring prior to the effective time of the merger with respect to those directors and officers of Remington who were covered by, and on terms and in amounts no less favorable than those of, Remington's directors' and officers' liability insurance at the time the merger agreement was executed. Helix will not be required to pay aggregate annual premiums for the insurance described in this paragraph in excess of 150% of the last aggregate annual premiums paid by Remington prior to the date of the merger agreement (*i.e.*, not to exceed \$490,781). However, if Helix is unable to obtain the insurance described in this paragraph, Helix must obtain a policy with as much comparable coverage as possible for a cost up to but not exceeding 150% of the amount of those aggregate annual premiums.

Affiliate Agreements

Remington has agreed to use its best efforts to cause each person or entity identified by Remington who may be deemed an affiliate, as defined by Rule 145 under the Securities Act of 1933, to deliver to Helix prior to the date of the closing of the merger a written agreement that restricts the affiliate's ability to sell, transfer or otherwise dispose of any Helix shares issued to such affiliate in connection with the merger, except:

in compliance with Rule 145 under the Securities Act of 1933;

pursuant to an effective registration statement under the Securities Act of 1933; or

in reliance upon an opinion of counsel reasonably acceptable to Helix, to the effect that the sale, transfer or other disposition is exempt from registration under the Securities Act of 1933.

Tax Matters

The parties have agreed to use their reasonable best efforts to cause the merger to qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code.

Additional Agreements

In addition to those covenants described above, the merger agreement contains additional agreements between Helix and Remington relating to, among other things:

convening and holding the Remington special meeting;

preparing, filing and distributing this proxy statement/prospectus and filing the registration statement of which this proxy statement/prospectus is a part;

providing access to information;

using their best efforts regarding filings with and obtaining waivers, consents and approvals from governmental and other agencies and organizations, including HSR filings; provided, that neither Helix nor Remington is under any obligation to defend any litigation relating to the merger under federal or state antitrust laws or sell or dispose of any of their assets;

providing notice of (i) any representation or warranty in the merger agreement becoming untrue or inaccurate, (ii) the occurrence of any event or development that would cause any representation or warranty to be untrue or inaccurate at the time of the closing of the merger or (iii) the failure to materially comply with or satisfy any covenant, condition or agreement in the merger agreement;

making public announcements;

payment of fees and expenses in connection with the merger;

tax matters;

listing of the shares of Helix common stock to be issued in connection with the merger on the Nasdaq National Market upon official notice of issuance.

Conditions Precedent

Conditions to Each Party's Obligation to Effect the Merger

Unless waived in whole or in part by both Helix and Remington, the obligations of Helix, Merger Sub and Remington to complete the merger are subject to the following conditions:

adoption of the merger agreement by the holders of at least a majority of the outstanding Remington shares entitled to vote at the Remington special meeting;

receipt of consents, approvals, permits and authorizations of governmental authorities or other persons, including expiration or early termination of the waiting period under the Hart-Scott-Rodino Act, required to consummate the transactions contemplated by the merger agreement except where the failure to obtain them would not have a material adverse effect (as defined in the merger agreement) on Helix or materially adversely affect the consummation of the merger;

continued effectiveness of the registration statement of which this proxy statement/prospectus is a part, the absence of a stop order by the Securities and Exchange Commission suspending the effectiveness of the registration statement and the absence of any continuing action, suit, proceeding or investigation by the SEC to suspend such effectiveness;

receipt of all necessary approvals under state securities laws relating to the issuance or trading of the Helix common stock to be issued in the merger;

absence of any temporary restraining order, preliminary or permanent injunction or other order issued by a court of competent jurisdiction or other legal restraint or prohibition preventing the consummation of the merger, so long as the parties have used their reasonable efforts to have any applicable decree, ruling, injunction or order vacated;

approval for listing of the Helix shares to be issued in the merger on its stock exchange, upon official notice of issuance; and

absence of Remington stockholders exercising their appraisal and dissenters rights with respect to greater than 8% of the outstanding shares of Remington common stock immediately prior to the effective time of the merger.

Conditions to Obligations of Helix and Merger Sub

Unless waived in whole or in part by Helix and Merger Sub, the obligations of Helix and Merger Sub to effect the merger are subject to the following conditions:

accuracy as of the closing of the merger of the representations and warranties made by Remington to the extent specified in the merger agreement;

Remington's performance in all material respects of its covenants and agreements under the merger agreement;

the absence of a material adverse change in Remington's business or operations; and

receipt of an opinion satisfactory to Helix of its tax counsel, Fulbright & Jaworski L.L.P., to the effect that the merger will constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code.

Conditions to Obligations of Remington

Unless waived in whole or in part by Remington, the obligations of Remington to effect the merger are subject to the following conditions:

accuracy as of the closing of the merger of the representations and warranties made by Helix and Merger Sub to the extent specified in the merger agreement;

Table of Contents

Helix and Merger Subs performance in all material respects of their covenants and agreements under the merger agreement;

absence of a material adverse change in Helix's business or operations;

receipt of an opinion satisfactory to Remington of its tax counsel, Andrews Kurth LLP, to the effect that the merger will constitute a reorganization within the meaning of Section 368(a) of the Internal Revenue Code; and

delivery by Helix to the exchange agent of an irrevocable letter of instruction, in a form reasonably satisfactory to Remington, authorizing and directing the transfer to Remington stockholders of the merger consideration.

Termination

Before the effective time of the merger, the merger agreement may be terminated:

by mutual written consent of Helix and Remington;

by either Helix or Remington, if:

adoption of the merger agreement by the Remington stockholders is not obtained;

the parties fail to consummate the merger on or before August 31, 2006, unless the failure is the result of a breach of the merger agreement by the party seeking the termination; or

any governmental authority has issued a final and nonappealable order, decree or ruling or has taken any other final and nonappealable action that restrains, enjoins or prohibits the merger, unless the party seeking the termination has not used all reasonable efforts to remove such injunction, order or decree;

by Helix, if:

Remington materially breaches any of its representations or warranties set forth in the merger agreement or Remington fails to materially perform any of its covenants or agreements under the merger agreement and, in either case, Remington has not cured the breach or failure within 10 days of receiving notice from Helix of such breach or failure;

Remington's board of directors (1) fails to recommend, or withdraws or modifies in any manner adverse to Helix, the approval or recommendation of the merger agreement, (2) recommends to the Remington stockholders, enters into, or publicly announces its intention to enter into, an agreement or an agreement in principle with respect to a superior proposal, (3) refuses to affirm its approval or recommendation of the merger agreement within 10 business days of any written request from Helix, (4) exempts any person or entity other than Helix from the provisions of the DGCL related to business combinations with interested stockholders or (5) publicly announces its intention to do any of the foregoing;

Remington breaches in any material respect its covenant not to solicit, initiate or knowingly encourage any inquiries, offers or proposals that constitute, or are reasonably likely to lead to, an alternate acquisition proposal or engaged in certain prohibited activities with respect thereto, or publicly announces its intention to do so; or

a competing tender or exchange offer constituting an acquisition proposal has commenced and Remington has not sent Remington stockholders a statement that Remington's board of directors recommends rejection of the acquisition proposal, or Remington publicly announces its intention not to do so;

by Remington, if:

prior to approval by Remington's stockholders of the merger agreement, the Remington board of directors approves a superior proposal; provided, that:

Remington complies with its obligations under the no-solicitation provisions of the merger agreement;

Table of Contents

the board of directors of Remington authorizes Remington to enter into a binding agreement with respect to the superior proposal and Remington notifies Helix of the superior proposal;

within three business days of that notice, Remington offers to negotiate with Helix in order to make adjustments to the terms and conditions of the merger agreement so that Remington can proceed with the merger with Helix; and

Remington's board of directors determines in good faith after those negotiations with Helix, upon consulting with Remington's independent financial advisor and outside counsel, that the superior proposal continues to be a superior proposal; see "The Merger Agreement - Covenants and Agreements - Acquisition Proposals" beginning on page 61; or

Helix materially breaches any of its representations or warranties set forth in the merger agreement or Helix fails to materially perform any of its covenants or agreements under the merger agreement, and, in either case, Helix has not cured the breach or failure within 10 days of receiving notice from Remington of such breach or failure.

If the merger agreement is validly terminated, the agreement will become void without any liability on the part of any party unless that party is in breach. However, certain provisions of the merger agreement, including, among others, those provisions relating to expenses and termination fees, will continue in effect notwithstanding termination of the merger agreement.

Fees and Expenses

Remington must pay to Helix the sum of (i) Helix's documented out of pocket fees and expenses incurred or paid by or on behalf of Helix in connection with the merger or the consummation of any of the transactions contemplated by the merger agreement, including all HSR Act filing fees, fees and expenses of counsel, commercial banks, investment banking firms, accountants, experts, environmental consultants, and other consultants to Helix, up to a maximum amount not to exceed \$2 million, and (ii) \$45 million, in the following circumstances:

if Remington terminates the merger agreement because, prior to approval by Remington's stockholders of the merger agreement, the Remington board of directors approves a superior proposal; provided, that:

Remington complies with its obligations under the no-solicitation provisions of the merger agreement;

the board of directors of Remington authorizes Remington to enter into a binding agreement with respect to the superior proposal and Remington notifies Helix of the superior proposal;

within three business days of that notice, Remington offers to negotiate with Helix in order to make adjustments to the terms and conditions of the merger agreement so that Remington can proceed with the merger with Helix; and

Remington's board of directors determines in good faith after those negotiations with Helix, upon consulting with Remington's independent financial advisor and outside counsel, that the superior proposal continues to be a superior proposal; and

if Helix terminates the merger agreement because:

Remington's board of directors (1) fails to recommend, or withdraws or modifies in any manner adverse to Helix, the approval or recommendation of the merger agreement, (2) recommends to the Remington stockholders, enters into, or publicly announces its intention to enter into, an agreement or an agreement in principle with respect to a superior proposal, (3) refuses to affirm its approval or recommendation of the merger agreement within 10 business days of any written request from Helix, (4) exempts any person or entity other than Helix from the provisions of the DGCL related to business combinations with interested stockholders or (5) publicly announces its intention to do any of the foregoing;

Remington breaches in any material respect its covenant not to solicit, initiate or knowingly encourage any inquiries, offers or proposals that constitute, or are reasonably likely to lead to, an

Table of Contents

alternate acquisition proposal or engaged in certain prohibited activities with respect thereto, or publicly announces its intention to do so; or

a competing tender or exchange offer constituting an acquisition proposal has commenced and Remington has not sent Remington stockholders a statement disclosing that Remington's board of directors recommends rejection of the acquisition proposal, or Remington publicly announces its intention not to do so.

Whether or not the merger is consummated, each of Helix, Merger Sub and Remington will bear its own costs and expenses in connection with the merger agreement and the related transactions, except that Helix will pay the fee for filing with the SEC the registration statement of which this proxy statement/prospectus is a part and for complying with any applicable state securities laws and Remington will pay the costs and expenses associated with the mailing of this proxy statement/prospectus to the Remington stockholders and soliciting the votes of the Remington stockholders.

Amendment

Helix, Merger Sub and Remington may amend the merger agreement in writing at any time before the effective time of the merger. However, after the approval of the merger agreement by the Remington stockholders, no amendment may be made that would require further approval by any Remington stockholders without the further approval of Remington stockholders.

Extension; Waiver

Helix, Merger Sub and Remington may at any time before the effective time of the merger and to the extent legally allowed:

extend the time for the performance of any of the obligations or the other acts of the other parties;

waive any inaccuracies in the representations and warranties contained in the merger agreement or in any document delivered pursuant to the merger agreement; or

waive performance of any of the covenants or agreements, or satisfaction of any of the conditions, contained in the merger agreement.

Table of Contents

INFORMATION ABOUT HELIX

Helix's Business

Overview

Effective March 6, 2006, Cal Dive International, Inc. changed its name to Helix Energy Solutions Group, Inc. Helix is an energy services company, incorporated in the State of Minnesota, that provides development solutions and related services to the energy market and specializes in the exploitation of marginal fields, including exploration of unproven fields, where it differentiates itself by employing its services on its own oil and gas properties as well as providing services to the open market.

In Helix's Oil & Gas Production business segment, its subsidiary Energy Resource Technology, Inc., or ERT, partners or acquires and produces marginal, mature and non-core offshore property interests, offering customers a cost-effective alternative to the standard development and decommissioning process. In 2000, ERT's reservoir engineering and geophysical expertise enabled Helix to acquire in partnership with the operator, Kerr McGee Oil & Gas Corp., a working interest in *Gunnison*, a Deepwater Gulf oil and natural gas exploration project, which began initial production in December 2003. In 2004, ERT continued to successfully pursue its strategy of acquiring (or partnering in) and developing proved undeveloped and high probability of success exploration reserves, i.e., leases where reserves were judged by the current owner to be too marginal to justify development or for which they were seeking a partner. During 2005, ERT was successful in acquiring a large package of mature properties on the Shelf from Murphy Exploration & Production Company USA and also equity interests in five additional undeveloped reservoirs in the Deepwater Gulf of Mexico that will be developed over the next few years. ERT's ability to successfully develop these fields is subject to various risk factors, as described in this proxy statement/prospectus under Risk Factors. Each of these Deepwater interests is owned in partnership with other producers. Also, in 2004, Helix formed Energy Resource Technology (U.K.) Limited, or ERT (U.K.) Limited, to explore exporting these strategies to the North Sea.

In Helix's Contracting Services segment (or Deepwater Contracting), it has positioned itself for work in water depths greater than 1,000 feet, referred to as the Deepwater, by continuing to grow its technically advanced fleet of dynamically positioned, or DP, vessels, ROVs and the number of highly experienced support professionals it employs. These DP vessels serve as advanced work platforms for the subsea solutions that enable Helix to offer a diverse range of DP subsea construction and intervention vessels, as well as robotics, to support most drilling, development, life of field and abandonment requirements for Helix's, as well as third party, E&P projects. Helix's ROV subsidiary, Canyon Offshore, Inc., or Canyon, offers survey, engineering, repair, maintenance and international pipe and cable burial services in the Gulf, Europe/West Africa and Asia/Pacific regions.

Helix's Deepwater Contracting business also includes Wells Ops Inc., and its Aberdeen, Scotland based sister company, known as Well Ops (U.K.) Limited, which engineer, manage and conduct well construction, intervention and decommissioning operations in water depths from 200 to 10,000 feet in, the Gulf of Mexico and the North Sea. Saturation diving in the North Sea from the DP vessel, the *Seawell*, is also performed. Utilizing specialty designed vessels, the *Q4000* and the *Seawell*, Helix believes this well operations service is the global leader in rig alternative subsea well intervention.

Also included in Deepwater Contracting is Reservoir and Well Technical Services. Until 2005, Helix's reservoir and well tech services were an in-house service for its own production. With the acquisition of Helix Energy Limited in 2005, which includes a technical staff of over 200, Helix has increased the resources that it can bring to its own

projects as well as provide a value adding service to its clients. With offices in Aberdeen, Perth, London and Kuala Lumpur, these services provide the market presence in regions it has identified as strategically important to future growth.

In Helix's Production Facilities segment, it participates in the ownership of production facilities in hub locations where there is potential for significant subsea tieback activity. In addition to production from the *Gunnison* reservoir, which is included in the Oil and Gas Production segment, Helix will receive ongoing revenues from its 20% interest in the production facility as satellite prospects are drilled and tied back to the spar. Deepwater Gateway, L.L.C., Helix's second such endeavor, involves a 50% ownership position in the tension-leg platform installed at Anadarko's *Marco Polo* field at Green Canyon Block 608 (which began

Table of Contents

producing in July 2004). In 2004, Helix acquired a 20% interest in Independence Hub, LLC, an affiliate of Enterprise Products Partners L.P. Independence Hub, LLC will own the Independence Hub platform to be located in Mississippi Canyon Block 920 in a water depth of 8,000 feet. Construction is ongoing and is expected to be complete and come online in early 2007. At both *Gunnison* and *Marco Polo*, Helix participated in field development planning and performed subsea construction work.

These deepwater services and assets allow Helix to respond to market demand for the individual services and allow Helix to control and lower its own cost of development and life of field production enhancement through well intervention.

In its Shelf Contracting business segment, Helix performs traditional subsea services, including air and saturation diving, salvage work and shallow water pipelay on the Outer Continental Shelf, or OCS, of the Gulf of Mexico, in water depths up to 1,000 feet. Helix believes that it is the market leader in the diving support business in the Gulf of Mexico OCS, including construction, inspection, maintenance, repair and decommissioning. Helix also provides these services in select international offshore markets, such as Trinidad and the Middle East. Helix currently owns and operates a diversified fleet of 26 vessels, including 23 surface and saturation diving support vessels capable of operating in water depths of up to 1,000 feet, as well as three shallow-water pipelay vessels. Helix's customers include major and independent oil and natural gas producers, pipeline transmission companies and offshore engineering and construction firms. Since 1975, Helix has provided services in support of offshore oil and natural gas infrastructure projects involving the construction and maintenance of pipelines, production platforms, risers and subsea production systems in the Gulf of Mexico. In the Gulf of Mexico saturation diving market, which typically covers water depths of 200 to 1,000 feet, Helix offers its full complement of services via its eight saturation diving vessels and three portable saturation diving systems. Helix believes that its saturation diving support fleet is the largest in the world. Helix offers the same range of services through its 15 surface and mixed gas diving vessels in water depths typically less than 300 feet. In addition to its diving operations, Helix has three vessels dedicated exclusively to pipelay and pipe burial services in water depths of up to approximately 400 feet. Helix believes the scheduling flexibility offered by its large fleet and the advanced technical expertise of its personnel provides a valuable advantage over its competitors. As a result, Helix believes that it is a leading provider to most of the largest oil and gas producers operating in the Gulf of Mexico.

In the past year, Helix has substantially increased the size of its Shelf Contracting fleet and expanded its operating capabilities through a series of strategic acquisitions. In August 2005, Helix acquired seven vessels and a portable saturation diving system from Torch Offshore. In November 2005, Helix acquired all of Stolt Offshore's diving and shallow water pipelay assets operating in the Gulf of Mexico and Trinidad. Upon closing these transactions, Helix added a total of 13 vessels, including three premium saturation diving vessels and one portable saturation diving system to its fleet.

Helix plans to sell a minority stake of approximately 35 to 49 percent in its Shelf Contracting business, continuing to control the business in the foreseeable future and retaining access to the services. Though Helix's plans are still under review, the planned sale could reasonably occur at any point within this range. Significant financial information relating to Helix's segments for the last three years and the three months ended March 31, 2006 is contained in Footnote 14 Business Segment Information of Helix's Historical Consolidated Financial Statements and Supplementary Data included in this proxy statement/prospectus beginning on page 155 and in Footnote 15 Business Segment Information of Helix's Historical Consolidated Financial Statements and Supplementary Data Unaudited Interim Financial Statements included in this proxy statement/prospectus beginning on page 178, respectively.

Business Strengths and Strategies

Helix's overall corporate goal is to increase shareholder value by strengthening its market position to provide a return that leads its Peer Group. Helix's goal for Return on Invested Capital is 10% or greater. Helix attempts to achieve its return on capital objective by focusing on the following business strengths and strategies.

Table of Contents

Helix's Strengths

Unique Business Model. Helix has assembled a company with highly specialized people, assets and methodologies that it believes provide all of the necessary services to maximize the economics from marginal fields. Marginal fields that Helix targets include (i) mature properties on the OCS where Helix brings its late life field management expertise to bear and (ii) Deepwater properties with reserves that are judged by the current owner to be too marginal to justify development and where Helix is able to bring its development expertise to bear.

Oil & Gas Production. The strategy of ERT's oil and gas production business differentiates Helix from its competitors and helps to offset the cyclical nature of its subsea construction operations. ERT's oil and gas investments secure utilization of Helix construction vessels. The Remington merger would bring not only proven producing reserves, but also prospects that Helix believes will likely generate over \$1 billion of life of field services for its vessels.

Fleet of Dynamically Positioned Vessels. Helix believes its fleet of dynamically positioned, or DP, construction vessels is one of the most capable in the world, with one of the most diverse and technically advanced collections of subsea intervention and construction capabilities. The comprehensive services provided by Helix's DP vessels are both complementary and overlapping, enabling Helix to provide customers with the redundancy essential for most projects, especially in the Deepwater. Helix also utilizes these capabilities to lower total finding and development costs in both wholly owned properties as well as those in which it is partnered with third parties.

Subsea Well Operations Subsidiary. Establishment of the Well Ops group followed the construction of the purpose-built *Q4000* and the acquisition of the Subsea Well Operations Business Unit of Technip in Aberdeen, Scotland. The mission of these companies is to provide the industry with a single, comprehensive source for addressing current subsea well operations needs and to engineer for future needs using drill rig alternatives. Helix also uses these capabilities to maintain, enhance and abandon its own reservoirs.

Experienced Personnel and Qualified Turnkey Contracting. A key element of Helix's successful growth has been its ability to attract and retain experienced personnel who are among the best in the industry at providing turnkey contracting. Helix believes the recognized skill of its personnel and its successful operating history uniquely position it to capitalize on the trend in the oil and gas industry of increased outsourcing to contractors and suppliers. This is especially true on a broader scale with smaller, economically challenged reservoirs.

Leader in the Gulf of Mexico OCS Diving Market. Helix believes its Shelf Contracting business is the leader in the Gulf of Mexico OCS diving market based on the size and quality of its fleet of vessels and diving assets. The size of its fleet and crews provides a distinct advantage over its competitors in that Helix can respond more quickly to service the traditional spot diving market in the Gulf of Mexico OCS.

High Quality, High Capability Asset Base. Helix believes that its diverse fleet of Shelf Contracting diving support vessels and systems and pipelay and pipe burial vessels afford Helix the range of technical capabilities necessary to the execution of the more complex integrated subsea project work that is in high demand in the Gulf of Mexico, and valued even more highly in certain international markets.

Excellent, Long-Standing Customer Relationships with the Top Producers in the Gulf of Mexico. Helix's Shelf Contracting business has built a reputation as a premium diving services contractor by consistently providing high-quality service to its customers in the Gulf of Mexico for over 30 years. Shelf Contracting has developed a strong and loyal customer base through its ability to provide superior and comprehensive services on schedule, while maintaining a strong safety record.

Production Facilities. At the *Marco Polo* field, Helix's 50% ownership in the production facility allows it to realize a return on investment consisting of both a fixed monthly demand charge and a volumetric tariff charge. In addition, Helix assisted with the installation of the tension leg platform, or TLP, and the work to develop the surrounding acreage that can be tied back to the platform by Helix's construction vessels. With the acquisition of a 20% interest in Independence Hub, LLC, Helix is in a good position to secure installation and tie-back work similar to what it achieved at the *Marco Polo* field. Helix also owns a 20% interest in the spar at *Gunnison*. As Helix's track record increases so does the demand for its model.

Table of Contents*Helix's Strategies*

Focusing on the Gulf and Global Expansion. Helix will continue to focus on the Gulf of Mexico, where it has provided marine construction services since 1975 and taken interests in reservoirs since 1992, as well as the North Sea, Southeast Asia and other Deepwater basins worldwide. Helix expects oil and gas exploration and development activity in the Deepwater Gulf and other Deepwater basins of the world to continue to increase over the next several years.

Focusing on Deepwater Niche Services. Helix will focus on services that provide the best niche financial return in the external market and add value to acquired oil and gas properties, particularly in the Deepwater. These include pipelay (acquisition/conversion of the *Caesar*), drilling (conversion of the *Q4000* to drilling) and robotics (pipe burial). The Remington merger will bring a significant prospect portfolio which Helix believes will likely generate over \$1 billion of life of field services for its vessels. As Helix's Shelf Contracting services do not add value to acquired oil and gas properties, Helix may sell a minority stake of approximately 35 to 49 percent in the Shelf Contracting business as these services are not as critical to unlocking value in marginal fields. Helix would continue to control this business and retain access to the services. Though Helix's plans are still under review, the planned sale could reasonably occur at any point within this range. This proxy statement/prospectus does not constitute an offer of such securities.

Developing Well Operations Niche. As major and independent oil and gas companies expand operations in the deepwater basins of the world, development of these reserves will often require the installation of subsea trees. Historically, drilling rigs were typically necessary for subsea well operations to troubleshoot or enhance production, shift zones or perform recompletions. Three of Helix's vessels serve as work platforms for well operations services at costs significantly less than drilling rigs. In the Gulf of Mexico, Helix's multi-service semi-submersible, the *Q4000* has set a series of well operations' firsts' in increasingly deep water without the use of a rig. In the North Sea, the *Seawell* has provided intervention and abandonment services for approximately 500 North Sea wells since her commissioning in 1987. Competitive advantages of the Helix vessels stem from their lower operating costs, together with an ability to mobilize quickly and to maximize productive time by performing a broad range of tasks for intervention, construction, inspection, repair and maintenance. These services provide a cost advantage in the development and management of subsea reservoir developments.

Expanding Ownership in Production Facilities. Along with Enterprise Products Partners L.P., Helix owns 50% of the tension leg production platform installed at the *Marco Polo* field and 20% of the Independence Hub platform, a 105 foot deep draft, semi-submersible platform. Helix also owns a 20% interest in the spar at *Gunnison*. Ownership of these production facilities provides a transmission type return that does not entail any reservoir or commodity price risk. Helix plans to seek additional opportunities to invest in such production facilities as well as evolved models, to be provided on a third party basis, and also to be utilized on its own developments.

Acquiring Mature Oil and Gas Properties. Through ERT, Helix has been acquiring mature or sunset properties since 1992, thereby providing customers a cost effective alternative to the decommissioning process. In the last thirteen years, Helix has acquired interests in 168 leases and currently is the operator of 61 of 115 active offshore leases. ERT has been able to achieve a significant return on capital by efficiently developing acquired reserves, lowering lease operating expenses and adding new reserves through exploitation drilling and well work. Helix's customers consider ERT a preferred buyer as a result of ERT's reputation, Helix's financial strength and its salvage expertise. As an industry leader in acquiring mature properties, ERT has a significant flow of potential acquisitions. In June 2005, ERT acquired a large package of mature properties from Murphy Exploration & Production Company - USA for \$163.5 million cash and assumption of approximately \$32.0 million abandonment liability.

Expanding the Model. The Deepwater Gulf has seen a significant increase in oil and gas exploration, development, and production due, in part, to new technologies that reduce operational costs and risks; the discovery of new, larger oil and gas reservoirs with high production potential; government deepwater incentives; and increasing demand and prices. Along with these larger fields are prospects where the reserves are judged by the current owner to be too marginal to justify development. Helix first applied the ERT model to the Deepwater with its involvement in the *Gunnison* field. During 2005, ERT was successful in acquiring

Table of Contents

equity interests in five additional undeveloped reservoirs, in the Deepwater Gulf, that will be developed over the next few years. Through an integrated development approach combining the advantages of application of each of Helix's select services, Helix can apply a differentiated methodology to the development of these marginal reservoirs. In 2006, ERT will continue to aggressively pursue its strategy of acquiring reserves and develop these reserves utilizing Helix's assets. Remington has a significant prospect inventory, mostly in the Deepwater, which Helix believes will likely generate over \$1 billion of life of field services for its vessels if the merger is completed. Through ERT (U.K.) Limited, Helix plans to expand the model to the North Sea, and eventually to the Asian Continent.

The Industry

The offshore oilfield services industry originated in the early 1950's as producers began to explore and develop the new frontier of offshore fields. The industry has grown significantly since the 1970's with service providers taking on greater roles on behalf of the producers. Industry standards were established during this period largely in response to the emergence of the North Sea as a major province leading the way into a new hostile frontier. The methodology of these standards was driven by the requirement of mitigating the risk of developing relatively large reservoirs in a then challenging environment. This is still true today and these standards are still largely adhered to for all developments even if they are small and the frontier is more understood. There are factors Helix believes will influence the industry in the coming years: (1) increasing world demand for oil and natural gas; (2) global production rates peaked or peaking; (3) globalization of the natural gas market; (4) increasing number of mature and small reservoirs; (5) increasing ratio of contribution to global production from marginal fields; (6) increasing offshore activity; and (7) increasing subsea developments.

In response to the oil and gas industry's ongoing migration to the Deepwater, equipment and vessel requirements have and will continue to change. A new industry set of methodologies will emerge alongside of the current ones. These new methodologies will focus not only on the larger reservoirs in the harsh frontiers, but on the smaller and older reservoirs in the better understood frontiers. Helix believes there is a niche for new generation vessels such as the *Q4000* and employment of alternative methodologies for development of marginal reservoirs in Deepwater depths.

For now, Helix tries to provide for both sets of methodologies. For marginal reservoirs, Helix finds it more efficient to develop its own and work with partners. Therefore, Helix aligns its interests in the reservoir and is able to better control the development methodologies.

Defined below are certain terms helpful to understanding the services Helix performs in support of offshore development:

Bcfe: Billions of cubic feet equivalent, used to describe oil volumes converted to their energy equivalent in natural gas as measured in billions of cubic feet.

Deepwater: Water depths beyond 1,000 feet.

Dive Support Vessel (DSV): Specially equipped vessel that performs services and acts as an operational base for divers, ROVs and specialized equipment.

Dynamic Positioning (DP): Computer-directed thruster systems that use satellite-based positioning and other positioning technologies to ensure the proper counteraction to wind, current and wave forces enabling the vessel to maintain its position without the use of anchors. Two DP systems (DP-2) are necessary to provide the redundancy required to support safe deployment of divers, while only a single DP system is necessary to support ROV operations.

DP-2: Redundancy allows the vessel to maintain position even with failure of one DP system; required for vessels which support both manned diving and robotics and for those working in close proximity to platforms.

EHS: Environment, Health and Safety programs to protect the environment, safeguard employee health and eliminate injuries.

E&P: Oil and gas exploration and production activities.

Table of Contents

F&D: Total finding and development costs.

G&G: Geological and geophysical.

IMR: Inspection, maintenance and repair activities.

Life of Field Services: Services performed on offshore facilities, trees and pipelines from the beginning to the economic end of the life of an oil field, including installation, inspection, maintenance, repair, contract operations, well intervention, recompletion and abandonment.

MBbl: When describing oil, refers to 1,000 barrels containing 42 gallons each.

Minerals Management Service (MMS): The federal regulatory body having responsibility for the mineral resources of the United States OCS.

MMcf: When describing natural gas, refers to 1 million cubic feet.

Moonpool: An opening in the center of a vessel through which a saturation diving system or ROV may be deployed, allowing safe deployment in adverse weather conditions.

MSV: Multipurpose support vessel.

Outer Continental Shelf (OCS): For purposes of our industry, areas in the Gulf from the shore to 1,000 feet of water depth.

Peer Group: Defined in this proxy statement/prospectus as comprising Global Industries, Ltd. (Nasdaq: GLBL), McDermott International, Inc. (NYSE: MDR), Oceaneering International, Inc. (NYSE: OII), Stolt Offshore SA (Nasdaq: SOSA), Technip-Coflexip (NYSE: TKP), Superior Energy Services, Inc. (NYSE: SPN), TETRA Technologies, Inc. (NYSE: TTI) and Subsea 7.

Proved Undeveloped Reserve (PUD): Proved undeveloped oil and gas reserves that are expected to be recovered from a new well on undrilled acreage, or from existing wells where a relatively major expenditure is required for recompletion.

Remotely Operated Vehicle (ROV): Robotic vehicles used to complement, support and increase the efficiency of diving and subsea operations and for tasks beyond the capability of manned diving operations.

Saturation Diving: Saturation diving, required for work in water depths between 200 and 1,000 feet, involves divers working from special chambers for extended periods at a pressure equivalent to the pressure at the work site.

Spar: Floating production facility anchored to the sea bed with catenary mooring lines.

Spot Market: Prevalent market for subsea contracting in the Gulf, characterized by projects generally short in duration and often of a turnkey nature. These projects often require constant rescheduling and the availability or interchangeability of multiple vessels.

Stranded Field: Smaller PUD reservoir that standing alone may not justify the economics of a host production facility and/or infrastructure connections.

Subsea Construction Vessels: Subsea services are typically performed with the use of specialized construction vessels which provide an above-water platform that functions as an operational base for divers and ROVs. Distinguishing characteristics of subsea construction vessels include DP systems, saturation diving capabilities, deck space, deck load, craneage and moonpool launching. Deck space, deck load and craneage are important features of the vessel s ability to transport and fabricate hardware, supplies and equipment necessary to complete subsea projects.

Tension Leg Platform (TLP): A floating Deepwater compliant structure designed for offshore hydrocarbon production.

Trencher or Trencher System: A subsea robotics system capable of providing post lay trenching, inspection and burial (PLIB) and maintenance of submarine cables and flowlines in water depths of 30 to 7,200 feet across a range of seabed and environmental conditions.

Ultra-Deepwater: Water depths beyond 4,000 feet.

Table of Contents

Contracting Services

Helix provides a full range of contracting services in both the shallow water and Deepwater including:

Exploration. Pre-installation surveys; rig positioning and installation assistance; drilling inspection; subsea equipment maintenance; reservoir engineering; G&G; modeling; well design; and engineering.

Development. Installation of production platforms; installation of subsea production systems; pipelay and burial; riser, manifold assembly installation and tie in; integrated production modeling; commissioning, testing and inspection; cable and umbilical lay and connection.

Production. Inspection, maintenance and repair of production structures, risers and pipelines and subsea equipment; well intervention; life of field support; reservoir management; production technology; and intervention engineering.

Decommissioning. Decommissioning and remediation services; plugging and abandonment services; platform salvage and removal; pipeline abandonment; site inspections.

Deepwater Contracting

In 1994, Helix began to assemble a fleet of DP vessels in order to deliver subsea services in the Deepwater and Ultra-Deepwater. Today, Helix's fleet consists of two semi-submersible DP MSVs, the *Q4000* and the *Uncle John*; a dedicated well operations vessel, the *Seawell*; four umbilical and pipelay vessels, the *Intrepid*, the *Kestrel*, the *Express* and the *Caesar*; three construction DP DSVs, the *Witch Queen* (through Helix's 40% interest in Offshore Technology Solutions Limited), the *Mystic Viking*, and the *Eclipse*; and an ROV support vessel the *Northern Canyon*. Additional assets are chartered as required. The *Uncle John*, *Kestrel*, *Witch Queen*, *Mystic Viking* and *Eclipse* currently perform diving related activities and are accordingly included in the Shelf Contracting segment.

Helix's subsidiary, Canyon Offshore, Inc., operates ROVs and trenchers designed for offshore construction, rather than supporting drilling rig operations. As marine construction support in the Gulf of Mexico and other areas of the world moves to deeper waters, ROV systems play an increasingly important role. Helix's vessels add value by supporting deployment of Canyon's ROVs. Helix has positioned itself to provide its customers with vessel availability and schedule flexibility to meet the technological challenges of these Deepwater construction developments in the Gulf and internationally. Helix's 25 ROVs and four trencher systems operate in three regions: the Americas, Europe/West Africa and Asia Pacific.

The mission of the Well Ops group is to provide the industry with a comprehensive source for addressing current subsea well operations needs and to engineer for future needs. Helix's purpose-built vessels serve as work platforms for subsea well operations services at costs significantly less than drilling rigs.

In both the Gulf of Mexico and North Sea, the increased number of subsea wells installed, the increasing value of the product, and the shortfall in both rig availability and equipment have resulted in an increased demand for Well Ops services. During 2005 two critical production recovery projects were successfully completed by the *Q4000*. These projects for Kerr McGee and Walter Oil & Gas highlighted the value of an asset capable of performing repairs and installations normally requiring a drilling rig and available on short call out. A high volume of less critical intervention and decommissioning work was delayed during the second half of the year by extensive hurricane repair work. Despite the lower than expected utilization on Well Ops projects, 76 days versus the budgeted 106 days, Well Ops met all of the 2005 financial goals, including gross profit. The back log of projects delayed by critical construction work is now approaching 240 days and will be carried into 2006.

The *Seawell* has provided intervention and abandonment services on approximately 500 North Sea wells since her commissioning in 1987, being the only consistent and continuous solution to light well intervention needs in the region, setting many records and firsts over the last 17 years. One additional advantage is that the *Seawell* can undertake saturation diving and construction tasks independently or simultaneously with the well intervention activities. Due to these unique capabilities, Well Ops (U.K.) Limited re-negotiated its existing call-off contract with Shell Exploration and Production Limited in 2005 to incorporate utilization of the *Seawell* to service its assets for a minimum of 120 days per annum in 2006 and 2007 with the potential to continue this arrangement until 2010. Competitive advantages of Helix's vessels stem from their lower

Table of Contents

operating costs and the ability to mobilize quickly for multi-well campaigns of work and maximize productive time by performing a broad range of tasks for intervention, construction, inspection, repair and maintenance.

Well Ops Inc. and Well Ops (U.K.) Limited also collaborate with leading downhole service providers to provide superior, comprehensive solutions to the well operations challenges faced by Helix's customers.

Also included in Deepwater Contracting is Reservoir and Well Technical Services. Until 2005, Helix's reservoir and well tech services were an in-house service for its own production. With the acquisition of Helix Energy Limited in 2005, which includes a technical staff of over 200, Helix has increased the resources that it can bring to its own projects as well as provide a value adding service to its clients. With offices in Aberdeen, Perth, London and Kuala Lumpur, these services provide the market presence in regions Helix has identified as strategically important to future growth.

Shelf Contracting

Helix provides marine contracting services, including saturation, surface and mixed gas diving as well as pipelay and pipe burial services, to the offshore oil and natural gas industry. Helix believes that it is the market leader in the diving support business in the Gulf of Mexico OCS, including construction, inspection, maintenance, repair and decommissioning. Helix also provides these services in select international offshore markets, such as Trinidad and the Middle East. Helix currently owns and operates a diversified fleet of 26 vessels, including 23 surface and saturation diving support vessels capable of operating in water depths of up to 1,000 feet, as well as three shallow-water pipelay vessels. Helix's customers include major and independent oil and natural gas producers, pipeline transmission companies and offshore engineering and construction firms.

Since 1975, Helix has provided services in support of offshore oil and natural gas infrastructure projects involving the construction and maintenance of pipelines, production platforms, risers and subsea production systems in the Gulf of Mexico. In the Gulf of Mexico saturation diving market, which typically covers water depths of 200 to 1,000 feet, Helix offers its full complement of services via its eight saturation diving vessels and three portable saturation diving systems. Helix believes that its saturation diving support fleet is the largest in the world. Helix offers the same range of services through its 15 surface and mixed gas diving vessels in water depths typically less than 300 feet. In addition to its diving operations, Helix has three vessels dedicated exclusively to pipelay and pipe burial services in water depths of up to approximately 400 feet. Helix believes the scheduling flexibility offered by its large fleet and the advanced technical expertise of its personnel provides a valuable advantage over its competitors. As a result, Helix believes that it is a leading provider to most of the largest oil and gas producers operating in the Gulf of Mexico.

In the past year Helix has substantially increased the size of its Shelf Contracting fleet and expanded its operating capabilities through a series of strategic acquisitions. In August 2005, Helix acquired five diving support vessels, two shallow water pipelay vessels and a portable saturation diving system from Torch Offshore. In November 2005, Helix acquired all of Stolt Offshore's assets operating in the Gulf of Mexico. In January 2006, Helix acquired Stolt's shallow water pipelay vessel and, in March 2006, acquired the *Kestrel*. Upon closing these transactions, Helix has added a total of 13 vessels, including three premium saturation diving vessels, and one portable saturation diving system to its fleet.

Production Facilities

There are a significant number of small discoveries that cannot justify the economics of a dedicated host facility. These are typically developed as subsea tie backs to existing facilities when capacity through the facility is available. Helix provides over-sized facilities to operators for these fields without burdening the operator of the hub reservoir. Helix is well positioned to facilitate the tie back of the smaller reservoir to these hubs through our services and

production groups. When a hub is not feasible, Helix intends to apply an integrated application of its services in a manner that cumulatively lowers development costs to a point that allows for a small dedicated facility to be used, thus being able to develop some fields that otherwise would be non-commercial to develop. The commercial risk is mitigated since Helix has a portfolio of reservoirs and the assets to easily redeploy the facility. At the *Marco Polo* field, Helix's 50% ownership in the production facility through Deepwater Gateway, L.L.C. will allow it to realize a return on investment consisting of both a fixed monthly demand charge and a volumetric tariff charge. In addition, Helix assisted with the installation of

Table of Contents

the TLP and will work to develop the surrounding acreage that can be tied back to the platform by its construction vessels. Helix's 20% interest in the Independence Hub platform, scheduled for installation in late 2006, should enable Helix to repeat the *Marco Polo* strategy. Helix's production facilities group has evolved to become its development engineering group. In conjunction with its reservoir integrated modeling services, Helix is able to efficiently assess opportunities and provide the conceptual development most appropriate to the reservoir.

Oil & Gas Production

Helix formed ERT in 1992 to exploit a market opportunity to provide a more efficient solution to offshore abandonment, to expand its off-season asset utilization and to achieve better returns than are likely through pure service contracting. In essence, Helix transfers the risk of abandonment and through its services Helix mitigates that risk to yield a lower cost to produce and therefore increases value from the reservoir.

Over the past 14 years, Helix has identified similar opportunities to transfer and mitigate risk throughout the life of the reservoir. This has led to the assembly of a services set that allows Helix to create value at key points in the life of a reservoir from exploration through development, life of field management and operating to abandonment. Helix does not provide all services, but just those key to mitigating certain risks and costs.

ERT now seeks to be involved in the reservoir at any stage of its life if Helix can apply its methodologies. The cumulative effect of Helix's model is the ability to meaningfully improve the economics of a reservoir that would otherwise be considered non-commercial or non-impact, as well as making Helix a value adding partner. Interests are better aligned creating a more efficient relationship with other producers. With a focus on acquiring non-impact reservoirs or mature fields, Helix's approach taken as a whole is, itself, a service in demand by its producer clients and partners. During 2005, Helix was successful in acquiring equity interests in five deepwater undeveloped reservoirs. Developing these fields over the next few years will require meaningful capital commitments but will also provide significant backlog for Helix's construction assets. In addition to 279 Bcfe of proven reserves as of December 31, 2005, Remington has a significant prospect inventory, mostly in the Deepwater, which Helix believes will likely generate over \$1 billion of life of field services for its vessels if the merger is completed.

The benefits of Helix's strategy are fourfold. First, oil and gas revenues counteract the volatility in revenues Helix experiences in offshore construction. Second, in periods of excess capacity, such as in 2002 and 2003, Helix has the flexibility to be less dependent on the competitive bid market and instead focus on negotiated contracts thus avoiding contractual risks. Third, Helix's oil and gas operations generate significant cash flow and visibility that has partially funded construction and/or modification of assets such as the *Q4000*, the *Intrepid* and the *Caesar*, also enabling Helix to add technical talent to support its expansion into the new Deepwater frontier. Finally, a major objective of Helix's investments in oil and gas properties is to secure backlog for its services in a manner that yields better returns than the typical backlog assembled by the service industry during slow demand cycles.

Within ERT Helix has assembled a team of personnel with experience in geology, geophysics, reservoir engineering, drilling, production engineering, facilities management, lease operations and petroleum land management. ERT generates income in a number of ways: mitigating abandonment liability risk, lowering development time and cost, mitigating finding (exploration) costs, operating the field more effectively, and having a focus on extending the reservoir life through well exploitation operations. When a company sells an OCS property, they retain the financial responsibility for plugging and decommissioning if their purchaser becomes financially unable to do so. Thus, it becomes important that a property be sold to a purchaser who has the financial wherewithal to perform their contractual obligations. Although there is significant competition in this mature field market, ERT's reputation, supported by Helix's financial strength, has made it the purchaser of choice of many major and independent oil and gas companies. In addition, ERT's reservoir engineering and geophysical expertise and having access to service assets and an ability to impact development costs have made ERT a preferred partner in development projects.

The offshore basins worldwide have seen a significant increase in oil and gas exploration, development and production due, in part, to new technologies that reduce operational costs and risks, the discovery of new, larger oil and gas reservoirs with high production potential, government deepwater incentives, and increasing

Table of Contents

demand and prices. Along with these larger fields are discoveries where the exploratory well has encountered smaller proven undeveloped reserves that are judged by the current owner to be too marginal to justify development. As an extension of ERT's well exploitation strategy, it is Helix's intent to participate in drilling of high probability of success wells which initially do not possess proven reserves, and thus would be considered exploratory wells. Depending upon the water depth, development of these fields may require state of the art equipment such as the *Q4000*, a more specialized asset such as the *Intrepid* for pipelay, or a combination of Helix contracting assets. At the same time, the market is being revitalized by emerging new small producers. When these producers have opportunities, but insufficient resources or access to services, then ERT is a logical value adding partner.

The current terms of ERT's leases on undeveloped acreage in the offshore Gulf of Mexico are scheduled to expire as shown in the table below. The terms of a lease may be extended by drilling and production operations.

Year	For the Years Ended December 31, (Acreage)	
	Gross	Net
2006	51,840	18,432
2007	97,920	38,592
2008	34,560	14,078
2009 and Beyond	34,560	12,480
Total	218,880	83,582

The table below sets forth information, as of December 31, 2005, with respect to estimates of net proved reserves and the present value of estimated future net cash flows at such date, prepared in accordance with guidelines established by the Securities and Exchange Commission. Helix's estimates of reserves at December 31, 2005, have been audited by Huddleston & Co., Inc., independent petroleum engineers. All of Helix's reserves are currently located in the United States (55% of such reserves are PUDs). Proved reserves cannot be measured exactly because the estimation of reserves involves numerous judgmental determinations. Accordingly, reserve estimates must be continually revised as a result of new information obtained from drilling and production history, new geological and geophysical data and changes in economic conditions.

	Total Proved
Estimated Proved Reserves:	
Natural gas (MMcf)	136,073
Oil and condensate (MBbls)	14,873
Standardized measure of discounted future net cash flows (pre-tax)*	\$ 1,063,332,000

* The standardized measure of discounted future net cash flows attributable to our reserves was prepared using constant prices as of the calculation date, discounted at 10% per annum. As of December 31, 2005, Helix owned an interest in 354 gross (285 net) oil wells and 302 gross (154 net) natural gas wells located in federal offshore waters in the Gulf of Mexico.

Customers

Helix's customers include major and independent oil and gas producers and suppliers, pipeline transmission companies and offshore engineering and construction firms. The level of construction services required by any particular contracting customer depends on the size of that customer's capital expenditure budget devoted to construction plans in a particular year. Consequently, customers that account for a significant portion of contract revenues in one fiscal year may represent an immaterial portion of contract revenues in subsequent fiscal years. The percent of consolidated revenue of major customers was as follows: 2005 - Louis Dreyfus Energy Services (10%) and Shell Trading (US) Company (10%); 2004 - Louis Dreyfus Energy Services (11%) and Shell Trading (US) Company (10%); 2003 - Shell Trading (US) Company (10%) and Petrocom Energy Group Ltd. (10%). All of these customers were purchasers of ERT's oil and gas production. Helix estimates in 2005 it provided subsea services to over 150 customers. Helix's projects are typically of short

Table of Contents

duration and are generally awarded shortly before mobilization. Accordingly, Helix believes backlog is not a meaningful indicator of future business results. A more meaningful measure of its backlog is the potential of Helix's production portfolio to generate work for its services. Helix does not typically tender in the EPIC market as other contractors do. For that reason, the other contractors are more likely to be Helix's customers and Helix serves as a contractor's contractor.

Competition

The marine contracting industry is highly competitive. While price is a factor, the ability to acquire specialized vessels, attract and retain skilled personnel, and demonstrate a good safety record are also important. Helix's competitors on the OCS include Global Industries Ltd., Oceaneering International, Inc and a number of smaller companies, some of which only operate a single vessel and often compete solely on price. For Deepwater projects, Helix's principal competitors include Stolt Offshore S.A., Subsea 7, and Technip-Coflexip.

ERT encounters significant competition for the acquisition of mature oil and gas properties. Helix's ability to acquire additional properties depends upon its ability to evaluate and select suitable properties and consummate transactions in a highly competitive environment. Competition includes TETRA Technologies, Inc. and Superior Energy Services, Inc. for Gulf of Mexico mature properties. Small or mid-sized producers, and in some cases financial players, with a focus on acquisition of reserves through PUDs and PDP are often competition on development properties.

Training, Safety and Quality Assurance

Helix has established a corporate culture in which Environment, Health & Safety (EHS) remains among the highest of priorities. Helix's corporate goal, based on the belief that all accidents can be prevented, is to provide an injury-free workplace by focusing on correct, safe behavior. Helix's EHS procedures, training programs and management system were developed by management personnel, common industry work practices and by employees with on-site experience who understand the physical challenges of the ocean work site. As a result, management believes that Helix's EHS programs are among the best in the industry. Helix has introduced a company-wide effort to enhance and provide continual improvements to its behavioral based safety process, as well as its training programs, that continue to focus on safety through open communication. The process includes the documentation of all daily observations, collection of data and data treatment to provide the mechanism of understanding of both safe and unsafe behaviors at the worksite. In addition Helix initiated scheduled Hazard Hunts by Project Management on each vessel, complete with assigned responsibilities and action due dates. To further this continual improvement effort, progressive auditing is done to continue improvement of Helix's EHS management system. Results from this program were evident as Helix's safety performance improved significantly in 2003 through 2005.

Government Regulation

Many aspects of the offshore marine construction industry are subject to extensive governmental regulations. Helix is subject to the jurisdiction of the U.S. Coast Guard, the U.S. Environmental Protection Agency, the MMS and the U.S. Customs Service, as well as private industry organizations such as the American Bureau of Shipping. In the North Sea, international regulations govern working hours and a specified working environment, as well as standards for diving procedures, equipment and diver health. These North Sea standards are some of the most stringent worldwide. In the absence of any specific regulation, Helix's North Sea branch adheres to standards set by the International Marine Contractors Association and the International Maritime Organization.

Helix supports and voluntarily complies with standards of the Association of Diving Contractors International. The Coast Guard sets safety standards and is authorized to investigate vessel and diving accidents, and to recommend improved safety standards. The Coast Guard also is authorized to inspect vessels at will. Helix is required by various

governmental and quasi-governmental agencies to obtain various permits, licenses and certificates with respect to its operations. Helix believes that it has obtained or can obtain all permits, licenses and certificates necessary for the conduct of its business.

Table of Contents

In addition, Helix depends on the demand for its services from the oil and gas industry and, therefore, Helix's business is affected by laws and regulations, as well as changing taxes and policies relating to the oil and gas industry generally. In particular, the development and operation of oil and gas properties located on the OCS of the United States is regulated primarily by the MMS.

The MMS requires lessees of OCS properties to post bonds or provide other adequate financial assurance in connection with the plugging and abandonment of wells located offshore and the removal of all production facilities. Operators on the OCS are currently required to post an area-wide bond of \$3.0 million, or \$500,000 per producing lease. Helix has provided adequate financial assurance for its offshore leases as required by the MMS.

Helix acquires production rights to offshore mature oil and gas properties under federal oil and gas leases, which the MMS administers. These leases contain relatively standardized terms and require compliance with detailed MMS regulations and orders pursuant to the Outer Continental Shelf Lands Act, or OCSLA. These MMS directives are subject to change. The MMS has promulgated regulations requiring offshore production facilities located on the OCS to meet stringent engineering and construction specifications. The MMS also has issued regulations restricting the flaring or venting of natural gas and prohibiting the burning of liquid hydrocarbons without prior authorization. Similarly, the MMS has promulgated other regulations governing the plugging and abandonment of wells located offshore and the removal of all production facilities. Finally, under certain circumstances, the MMS may require any operations on federal leases to be suspended or terminated or may expel unsafe operators from existing OCS platforms and bar them from obtaining future leases. Suspension or termination of Helix's operations or expulsion from operating on its leases and obtaining future leases could have a material adverse effect on Helix's financial condition and results of operations.

Under OCSLA and the Federal Oil and Gas Royalty Management Act, MMS also administers oil and gas leases and establishes regulations that set the basis for royalties on oil and gas produced from the leases. The MMS's amendments to these regulations are subject to judicial review. In 2002, the D.C. Circuit reversed a 2000 district court decision and upheld a 1997 MMS gas valuation rule categorically denying allowances for post-production marketing costs such as long-term storage fees and marketer fees; however, the D.C. Circuit decision expressly allows firm demand charges to be deducted. Two trade associations had sought judicial review of the 1997 gas valuation rule and procured a favorable district court decision; however, the D.C. Circuit decision and denial of certiorari by the Supreme Court ended the litigation in early 2003. On March 5, 2005, the MMS published a further revision to its gas valuation rule. The 2005 gas rule revision clarifies the deductibility of transportation costs and adopts the 2004 oil valuation rule's cost of capital approach described below. The revisions are not expected to reflect any major changes. Helix cannot predict what effect these changes will have on its operations but nothing material is anticipated.

In 2004, the MMS further amended its royalty regulations governing the valuation of crude oil produced from federal leases. The MMS's 2000 oil valuation rule had replaced a set of valuation benchmarks based on posted prices and comparable sales with an indexing system based on spot prices at nearby market centers. Among other things, the 2000 oil valuation rule (like the 1997 gas valuation rule) also categorically disallowed deductions for post-production marketing costs. Two industry trade associations sought judicial review of the 2000 oil rule, but voluntarily dismissed their suit after late 2002 negotiations led the MMS to amend its oil valuation rule further in 2004. The amended rule retained indexing for valuation but replaced spot prices with NYMEX future prices, except in the Rocky Mountain Region and California. The 2004 oil valuation rule also liberalized allowances for non-arm's length transportation arrangements by increasing the multiplier used for calculating the cost of capital. While the 2000 oil valuation rule was likely to increase Helix's royalty obligation somewhat, the 2004 oil valuation rule is likely to attenuate that increase.

Historically, the transportation and sale for resale of natural gas in interstate commerce has been regulated pursuant to the Natural Gas Act of 1938, the Natural Gas Policy Act of 1978, or NGPA, and the regulations promulgated

thereunder by the Federal Energy Regulatory Commission, or FERC. In the past, the federal government has regulated the prices at which oil and gas could be sold. While sales by producers of natural gas, and all sales of crude oil, condensate and natural gas liquids currently can be made at uncontrolled market prices, Congress could reenact price controls in the future. Deregulation of wellhead sales in the natural gas industry began with the enactment of the NGPA. In 1989, the Natural Gas Wellhead Decontrol Act was

Table of Contents

enacted. This act amended the NGPA to remove both price and non-price controls from natural gas sold in first sales no later than January 1, 1993.

Sales of natural gas are affected by the availability, terms and cost of transportation. The price and terms for access to pipeline transportation remain subject to extensive federal and state regulation. Several major regulatory changes have been implemented by Congress and the FERC from 1985 to the present that affect the economics of natural gas production, transportation and sales. In addition, the FERC continues to promulgate revisions to various aspects of the rules and regulations affecting those segments of the natural gas industry, most notably interstate natural gas transmission companies that remain subject to FERC jurisdiction. These initiatives may also affect the intrastate transportation of natural gas under certain circumstances. The stated purpose of many of these regulatory changes is to promote competition among the various sectors of the natural gas industry. The ultimate impact of the complex rules and regulations issued by the FERC since 1985 cannot be predicted. Helix cannot predict what further action the FERC will take on these matters, but Helix does not believe any such action will materially affect it differently than other companies with which it competes.

Additional proposals and proceedings before various federal and state regulatory agencies and the courts could affect the oil and gas industry. Helix cannot predict when or whether any such proposals may become effective. In the past, the natural gas industry has been heavily regulated. There is no assurance that the regulatory approach currently pursued by the FERC will continue indefinitely. Notwithstanding the foregoing, Helix does not anticipate that compliance with existing federal, state and local laws, rules and regulations will have a material effect upon its capital expenditures, earnings or competitive position.

Environmental Regulation

Helix's operations are subject to a variety of national (including federal, state and local) and international laws and regulations governing the discharge of materials into the environment or otherwise relating to environmental protection. Numerous governmental departments issue rules and regulations to implement and enforce such laws that are often complex and costly to comply with and that carry substantial administrative, civil and possibly criminal penalties for failure to comply. Under these laws and regulations, Helix may be liable for remediation or removal costs, damages and other costs associated with releases of hazardous materials including oil into the environment, and such liability may be imposed on Helix even if the acts that resulted in the releases were in compliance with all applicable laws at the time such acts were performed. Some of the environmental laws and regulations that are applicable to Helix's business operations are discussed in the following paragraphs, but the discussion does not cover all environmental laws and regulations that govern Helix's operations.

The Oil Pollution Act of 1990, as amended, or OPA, imposes a variety of requirements on responsible parties related to the prevention of oil spills and liability for damages resulting from such spills in waters of the United States. A

Responsible Party includes the owner or operator of an onshore facility, a vessel or a pipeline, and the lessee or permittee of the area in which an offshore facility is located. OPA imposes liability on each Responsible Party for oil spill removal costs and for other public and private damages from oil spills. Failure to comply with OPA may result in the assessment of civil and criminal penalties. OPA establishes liability limits of \$350 million for onshore facilities, all removal costs plus \$75 million for offshore facilities and the greater of \$500,000 or \$600 per gross ton for vessels other than tank vessels. The liability limits are not applicable, however, if the spill is caused by gross negligence or willful misconduct; if the spill results from violation of a federal safety, construction, or operating regulation; or if a party fails to report a spill or fails to cooperate fully in the cleanup. Few defenses exist to the liability imposed under OPA. Management is currently unaware of any oil spills for which Helix has been designated as a Responsible Party under OPA that will have a material adverse impact on Helix or its operations.

OPA also imposes ongoing requirements on a Responsible Party, including preparation of an oil spill contingency plan and maintaining proof of financial responsibility to cover a majority of the costs in a potential spill. Helix believes it has appropriate spill contingency plans in place. With respect to financial responsibility, OPA requires the Responsible Party for certain offshore facilities to demonstrate financial responsibility of not less than \$35 million, with the financial responsibility requirement potentially increasing up to \$150 million if the risk posed by the quantity or quality of oil that is explored for or produced indicates

Table of Contents

that a greater amount is required. The MMS has promulgated regulations implementing these financial responsibility requirements for covered offshore facilities. Under the MMS regulations, the amount of financial responsibility required for an offshore facility is increased above the minimum amounts if the worst case oil spill volume calculated for the facility exceeds certain limits established in the regulations. Helix believes that it currently has established adequate proof of financial responsibility for its onshore and offshore facilities and that Helix satisfies the MMS requirements for financial responsibility under OPA and applicable regulations.

In addition, OPA requires owners and operators of vessels over 300 gross tons to provide the Coast Guard with evidence of financial responsibility to cover the cost of cleaning up oil spills from such vessels. Helix currently owns and operates six vessels over 300 gross tons. Satisfactory evidence of financial responsibility has been provided to the Coast Guard for all of Helix's vessels.

The Clean Water Act imposes strict controls on the discharge of pollutants into the navigable waters of the U.S. and imposes potential liability for the costs of remediating releases of petroleum and other substances. The controls and restrictions imposed under the Clean Water Act have become more stringent over time, and it is possible that additional restrictions will be imposed in the future. Permits must be obtained to discharge pollutants into state and federal waters. Certain state regulations and the general permits issued under the Federal National Pollutant Discharge Elimination System program prohibit the discharge of produced waters and sand, drilling fluids, drill cuttings and certain other substances related to the exploration for and production of oil and gas into certain coastal and offshore waters. The Clean Water Act provides for civil, criminal and administrative penalties for any unauthorized discharge of oil and other hazardous substances and imposes liability on responsible parties for the costs of cleaning up any environmental contamination caused by the release of a hazardous substance and for natural resource damages resulting from the release. Many states have laws that are analogous to the Clean Water Act and also require remediation of releases of petroleum and other hazardous substances in state waters. Helix's vessels routinely transport diesel fuel to offshore rigs and platforms and also carry diesel fuel for their own use. Helix's vessels transport bulk chemical materials used in drilling activities and also transport liquid mud which contains oil and oil by-products. Offshore facilities and vessels operated by Helix have facility and vessel response plans to deal with potential spills of oil or its derivatives. Helix believes that its operations comply in all material respects with the requirements of the Clean Water Act and state statutes enacted to control water pollution.

OCSLA provides the federal government with broad discretion in regulating the production of offshore resources of oil and gas, including authority to impose safety and environmental protection requirements applicable to lessees and permittees operating in the OCS. Specific design and operational standards may apply to OCS vessels, rigs, platforms, vehicles and structures. Violations of lease conditions or regulations issued pursuant to OCSLA can result in substantial civil and criminal penalties, as well as potential court injunctions curtailing operations and cancellation of leases. Because Helix's operations rely on offshore oil and gas exploration and production, if the government were to exercise its authority under OCSLA to restrict the availability of offshore oil and gas leases, such action could have a material adverse effect on Helix's financial condition and results of operations. As of this date, Helix believes it is not the subject of any civil or criminal enforcement actions under OCSLA.

The Comprehensive Environmental Response, Compensation, and Liability Act, or CERCLA, contains provisions requiring the remediation of releases of hazardous substances into the environment and imposes liability, without regard to fault or the legality of the original conduct, on certain classes of persons including owners and operators of contaminated sites where the release occurred and those companies who transport, dispose of or who arrange for disposal of hazardous substances released at the sites. Under CERCLA, such persons may be subject to joint and several liability for the costs of cleaning up the hazardous substances that have been released into the environment, for damages to natural resources and for the costs of certain health studies. Third parties may also file claims for personal injury and property damage allegedly caused by the release of hazardous substances. Although Helix handles hazardous substances in the ordinary course of business, it is not aware of any hazardous substance contamination for

which it may be liable.

Helix operates in foreign jurisdictions that have various types of governmental laws and regulations relating to the discharge of oil or hazardous substances and the protection of the environment. Pursuant to these laws and regulations, Helix could be held liable for remediation of some types of pollution, including

Table of Contents

the release of oil, hazardous substances and debris from production, refining or industrial facilities, as well as other assets Helix owns or operates or which are owned or operated by either Helix's customers or Helix's sub-contractors.

Management believes that Helix is in compliance in all material respects with all applicable environmental laws and regulations to which Helix is subject. Helix does not anticipate that compliance with existing environmental laws and regulations will have a material effect upon its capital expenditures, earnings or competitive position. However, changes in the environmental laws and regulations, or claims for damages to persons, property, natural resources or the environment, could result in substantial costs and liabilities, and thus there can be no assurance that Helix will not incur significant environmental compliance costs in the future.

Employees

Helix relies on the high quality of its workforce. As of December 31, 2005, Helix had approximately 1,800 employees, nearly 450 of which were salaried personnel. As of that date, Helix also contracted with third parties to utilize approximately 500 non-U.S. citizens to crew its foreign flag vessels. None of Helix's employees belong to a union or are employed pursuant to any collective bargaining agreement or any similar arrangement. Helix believes its relationship with its employees and foreign crew members is good.

Helix's Properties

Helix's Vessels

Helix owns a fleet of 34 vessels (two of which are held-for-sale at December 31, 2005) and 29 ROVs and trenchers. Helix also leases one vessel. Helix believes that the Gulf market requires specially designed and/or equipped vessels to competitively deliver subsea construction and well operations services. Eleven of Helix's vessels have DP capabilities specifically designed to respond to the Deepwater market requirements. Fifteen of Helix's vessels (thirteen of which are based in the Gulf) have the capability to provide saturation diving services. Recent developments in Helix's fleet include:

Divestitures:

In April 2005, the *Witch Queen* was contributed for an interest in Offshore Technology Solutions Limited, or OTSL, a company organized in Trinidad & Tobago. A wholly owned subsidiary of Helix owns a non-controlling 40% interest in OTSL.

In July 2005, the *Merlin* was sold to a third party.

In December 2005, the *Mr. Sonny* was sold to a third party.

Pursuant to a consent order with the U.S. Department of Justice permitting Helix to complete the Stolt Offshore acquisitions in November 2005, Helix agreed to divest itself of the *Carrier*, the *Seaway Defender* and a portable saturation diving system acquired out of the Torch Offshore bankruptcy. As a result, these vessels are held for sale at December 31, 2005.

The *Cal Dive Barge I* was retired in 2005 and sold in January 2006 to a third party.

Acquisitions/Investments:

In August 2005, the *Brave*, *Carrier*, *Dancer*, *Fox*, *Express*, *Rider*, and *Sat Star* were purchased out of the Torch Offshore bankruptcy.

In November 2005, the acquisition of the *American Constitution*, *American Diver*, *American Liberty*, *American Sat Star*, *American Triumph*, *American Victory* and *Seaway Defender* from Stolt Offshore was completed.

In January 2006, the *DLB 801* was acquired from Stolt Offshore. Subsequent to that acquisition, Helix sold a one-half undivided interest in the vessel to a pipelay contractor based in Mexico, which is currently operating the vessel under a bareboat charter.

In January 2006, the *Caesar* (formerly known as the *Baron*), a four year old mono-hull vessel, originally built for the cable lay market, was acquired by Helix's subsidiary Vulcan Marine Technology LLC. It is

Table of Contents

currently under charter to Oceanografia S.A. de C.V. After completion of the charter (anticipated to end in mid-2006), Helix plans to convert the vessel into a deepwater pipelay asset. The vessel is 485 feet long and already has a state-of-the-art, class 2, dynamic positioning system. The conversion program will primarily involve the installation of a conventional S lay pipelay system together with a main crane and a significant upgrade to the accommodation capability. A conversion team has already been assembled with a base at Rotterdam, the Netherlands, and the vessel is likely to enter service at the end of the first quarter of 2007. The estimated capital cost to purchase the vessel and complete the conversion will be approximately \$120 million.

In March 2006, Helix acquired the *Kestrel* from Stolt Offshore.

The *Q4000* will be enhanced to include drilling via the addition of a modular-based drilling system for approximately \$40 million. These enhancements involve primarily equipment installation and accordingly Helix believes the vessel will be out of service less than a month. Helix anticipates this service being available in 2007.

Notes:

- (1) Under government regulations and Helix's insurance policies, Helix is required to maintain its vessels in accordance with standards of seaworthiness and safety set by government regulations and classification organizations. Helix maintains its fleet to the standards for seaworthiness, safety and health set by the

Table of Contents

American Bureau of Shipping, or ABS, Bureau Veritas, or BV, Det Norske Veritas, or DNV, Lloyds Register of Shipping, or Lloyds, and the U.S. Coast Guard, or USCG. The ABS, BV, DNV and Lloyds are classification societies used by ship owners to certify that their vessels meet certain structural, mechanical and safety equipment standards.

- (2) Acquired in January 2006.
- (3) Acquired in March 2006.
- (4) Held for sale at December 31, 2005.
- (5) Leased.
- (6) Average age of ROV fleet is approximately 3.72 years. One of the ROVs is leased.

Helix incurs routine drydock, inspection, maintenance and repair costs pursuant to Coast Guard regulations and in order to maintain its vessels in class under the rules of the applicable Class Society. In addition to complying with these requirements, Helix has its own vessel maintenance program that it believes permits Helix to continue to provide its customers with well maintained, reliable vessels. In the normal course of business, Helix charters in other vessels on a short-term basis, such as tugboats, cargo barges, utility boats and dive support vessels. The *Q4000* is subject to a mortgage that secures the MARAD financing guarantees.

Summary of Natural Gas and Oil Reserve Data

The table below sets forth information, as of December 31, 2005, with respect to estimates of net proved reserves and the present value of estimated future net cash flows at such date, prepared in accordance with guidelines established by the Securities and Exchange Commission. Helix's estimates of reserves at December 31, 2005, have been audited by Huddleston & Co., Inc., independent petroleum engineers. All of Helix's reserves are located in the United States (55% of such reserves are PUDs). Proved reserves cannot be measured exactly because the estimation of reserves involves numerous judgmental determinations. Accordingly, reserve estimates must be continually revised as a result of new information obtained from drilling and production history, new geological and geophysical data and changes in economic conditions.

	Total Proved
Estimated Proved Reserves:	
Natural gas (MMcf)	136,073
Oil and condensate (MBbls)	14,873
Standardized measure of discounted future net cash flows (pre-tax)*	\$ 1,063,332,000

* The standardized measure of discounted future net cash flows attributable to Helix's reserves was prepared using constant prices as of the calculation date, discounted at 10% per annum. As of December 31, 2005, Helix owned an interest in 354 gross (285 net) oil wells and 302 gross (154 net) natural gas wells located in federal and state offshore waters in the Gulf of Mexico.

Table of Contents

Production Facilities

Through its interest Deepwater Gateway, L.L.C., a 50/50 venture between Helix and Enterprise Products Partners L.P., Helix owns a 50% interest in the *Marco Polo* TLP, which was installed on Green Canyon Block 608 in 4,300 feet of water. Deepwater Gateway, L.L.C. was formed to construct, install and own the *Marco Polo* TLP in order to process production from Anadarko Petroleum Corporation's *Marco Polo* field discovery at Green Canyon Block 608. Anadarko required 50,000 barrels of oil per day and 150 million feet per day of processing capacity for *Marco Polo*. The *Marco Polo* TLP was designed to process 120,000 barrels of oil per day and 300 million cubic feet of gas per day and payload with space for up to six subsea tie backs.

Helix also owns a 20% interest in Independence Hub, LLC, an affiliate of Enterprise Products Partners L.P., that will own the Independence Hub platform, a 105 foot deep draft, semi-submersible platform to be located in Mississippi Canyon block 920 in a water depth of 8,000 feet that will serve as a regional hub for natural gas production from multiple Ultra-Deepwater fields in the previously untapped eastern Gulf of Mexico. Installation of the platform is scheduled for late 2006 and first production is expected in 2007. The Independence Hub facility will be capable of processing 1 billion cubic feet per day of gas.

At *Gunnison*, Helix owns a 20% interest in the *Gunnison* truss spar facility, together with the operator Kerr-McGee Oil & Gas Corporation, who owns a 50% interest, and Nexen, Inc., who owns the remaining 30% interest. The *Gunnison* spar, which is moored in 3,150 feet of water and located on Garden Banks Block 668, has daily production capacity of 40,000 barrels of oil and 200 million cubic feet of gas. This facility is designed with excess capacity to accommodate production from satellite prospects in the area.

Facilities

Helix's corporate headquarters are located at 400 N. Sam Houston Parkway E., Suite 400, Houston, Texas. Helix's primary subsea and marine services operations are based in Port of Iberia, Louisiana. Helix owns the Aberdeen (Dyce), Scotland facility. All of Helix's other facilities are leased.

Table of Contents**Helix's Insurance and Litigation**

Helix's operations are subject to the inherent risks of offshore marine activity, including accidents resulting in personal injury and the loss of life or property, environmental mishaps, mechanical failures, fires and collisions. Helix insures against these risks at levels consistent with industry standards. Helix also carries workers' compensation, maritime employer's liability, general liability and other insurance customary in our business. All insurance is carried at levels of coverage and deductibles Helix considers financially prudent. Helix's services are provided in hazardous environments where accidents involving catastrophic damage or loss of life could occur, and litigation arising from such an event may result in Helix being named a defendant in lawsuits asserting large claims. Although there can be no assurance the amount of insurance Helix carries is sufficient to protect Helix fully in all events, or that such insurance will continue to be available at current levels of cost or coverage, Helix believes that its insurance protection is adequate for its business operations. A successful liability claim for which Helix is underinsured or uninsured could have a material adverse effect on its business.

Helix is involved in various legal proceedings, primarily involving claims for personal injury under the General Maritime Laws of the United States and the Jones Act as a result of alleged negligence. In addition, Helix from time to time incur other claims, such as contract disputes, in the normal course of business. In that regard, in 1998, one of Helix's subsidiaries entered into a subcontract with Seacore Marine Contractors Limited ("Seacore") to provide a vessel to a Coflexip subsidiary in Canada ("Coflexip"). Due to difficulties with respect to the sea states and soil conditions the contract was terminated and an arbitration to recover damages was commenced. A preliminary liability finding has been made by the arbitrator against Seacore and in favor of the Coflexip subsidiary. Helix was not a party to this arbitration proceeding. Seacore and Coflexip settled this matter prior to the conclusion of the arbitration proceeding with Seacore paying Coflexip \$6.95 million CDN. Seacore has initiated an arbitration proceeding against Cal Dive Offshore Ltd. ("CDO"), a subsidiary of Helix, seeking contribution of one-half of this amount. Because only one of the grounds in the preliminary findings by the arbitrator is applicable to CDO, and because CDO holds substantial counterclaims against Seacore, it is anticipated Helix's subsidiary's exposure, if any, should be less than \$500,000.

Market for Helix's Common Stock and Related Shareholder Matters

Helix's common stock is traded on the Nasdaq National Market under the symbol HELX. Prior to March 6, 2006, Helix's common stock traded under the symbol CDIS. The following table sets forth, for the periods indicated, the high and low closing sale prices per share of Helix's common stock:

	Common Stock Price	
	High*	Low*
Calendar Year 2004		
First quarter	\$ 14.00	\$ 11.37
Second quarter	\$ 15.62	\$ 12.51
Third quarter	\$ 18.14	\$ 13.96
Fourth quarter	\$ 21.86	\$ 16.95
Calendar Year 2005		
First quarter	\$ 26.14	\$ 19.11
Second quarter	\$ 26.94	\$ 20.57
Third quarter	\$ 32.18	\$ 25.98

Edgar Filing: HELIX ENERGY SOLUTIONS GROUP INC - Form 424B3

Fourth quarter	\$ 40.17	\$ 26.40
Calendar Year 2006		
First quarter	\$ 45.61	\$ 32.85
Second quarter (through May 24, 2006)	\$ 45.00	\$ 32.32

* Adjusted to reflect the two-for-one stock split effective as the close of business on December 8, 2005.

Table of Contents

On May 24, 2006, the closing sale price of Helix common stock on the Nasdaq National Market was \$33.08 per share. As of May 24, 2006, there were an estimated 47 registered shareholders (approximately 45,000 beneficial owners) of Helix common stock.

Helix has never declared or paid cash dividends on its common stock and does not intend to pay cash dividends in the foreseeable future. Helix currently intends to retain earnings, if any, for the future operation and growth of its business. In addition, Helix's financing arrangements prohibit the payment of cash dividends on its common stock.

See Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Business Overview

The offshore oilfield services industry originated in the early 1950's as producers began to explore and develop the new frontier of offshore fields. The industry has grown significantly since the 1970's with service providers taking on greater roles on behalf of the producers. Industry standards were established during this period largely in response to the emergence of the North Sea as a major province leading the way into a new hostile frontier. The methodology of these standards was driven by the requirement of mitigating the risk of developing relatively large reservoirs in a then challenging environment. This is still true today and these standards are still largely adhered to for all developments even if they are small and the frontier is more understood. There are factors Helix believes will influence the industry in the coming years: (1) increasing world demand for oil and natural gas; (2) global production rates peaked or peaking; (3) globalization of the natural gas market; (4) increasing number of mature and small reservoirs; (5) increasing ratio of contribution to global production from marginal fields; (6) increasing offshore activity; and (7) increasing subsea developments.

Oil and gas prices, the offshore mobile rig count, and Deepwater construction activity are three of the primary indicators Helix uses to forecast the future performance of its Deepwater and Shelf Contracting business. In addition, more recently, damage sustained to the Gulf of Mexico infrastructure from hurricanes (e.g. *Katrina* and *Rita*) has resulted in significant inspection, repair and maintenance activities for Helix's Shelf Contracting business. Helix's construction services generally follow successful drilling activities by six to eighteen months on the OCS and twelve months or longer in the Deepwater arena. The level of drilling activity is related to both short- and long-term trends in oil and gas prices. Oil and natural gas prices have been at robust levels for the last three years and offshore drilling activity has increased, but only modestly in the Gulf of Mexico. Helix's primary leading indicator, the number of offshore mobile rigs contracted, is currently at approximately 130 rigs employed in the Gulf of Mexico, which is comparable with year ago levels. The Deepwater Gulf is principally being developed for oil, with the complexity of developing these reservoirs resulting in significant lead times to first production. In the North Sea, the rig count is currently at 72 rigs employed, which compared to 65 during the first quarter of 2005.

Helix is an energy services company which provides development solutions and related services to the energy market and specializes in the exploitation of marginal fields, including exploration of unproven fields, where it differentiates itself by employing its services on its own oil and gas properties as well as providing services to the open market.

Helix's business is substantially dependent upon the condition of the oil and gas industry and, in particular, the willingness of oil and gas companies to make capital expenditures for offshore exploration, drilling and production operations. The level of capital expenditures generally depends on the prevailing view of future oil and gas prices, which are influenced by numerous factors affecting the supply and demand for oil and gas, including, but not limited to:

Worldwide economic activity,

Economic and political conditions in the Middle East and other oil-producing regions,

Coordination by the Organization of Petroleum Exporting Countries, or OPEC,

The cost of exploring for and producing oil and gas,

Table of Contents

The sale and expiration dates of offshore leases in the United States and overseas,

The discovery rate of new oil and gas reserves in offshore areas,

Technological advances,

Interest rates and the cost of capital,

Environmental regulations, and

Tax policies.

The level of offshore construction activity improved somewhat in 2004 and continued the trend in 2005 following higher commodity prices in 2003 through 2005, and significant damage sustained to the Gulf of Mexico infrastructure in Hurricanes *Katrina* and *Rita*. Helix cannot assure you that activity levels will continue to increase. A sustained period of low drilling and production activity or the return of lower commodity prices would likely have a material adverse effect on Helix's financial position and results of operations.

Product prices impact Helix's oil and gas operations in several respects. Historically, Helix sought to acquire producing oil and gas properties that were generally in the later stages of their economic life. The sellers' potential abandonment liabilities are a significant consideration with respect to the offshore properties Helix has purchased to date. Although higher natural gas prices tend to reduce the number of mature properties available for sale, these higher prices typically contribute to improved operating results for ERT. In contrast, lower natural gas prices typically contribute to lower operating results for ERT and a general increase in the number of mature properties available for sale. During 2005, ERT acquired a large package of mature properties from Murphy Exploration & Production Company - USA and also acquired equity interests in five deepwater undeveloped properties. On one such property, ERT agreed to participate in the drilling of an exploratory well (Tulane prospect) that was drilled in the first quarter of 2006. This prospect targeted reserves in deeper sands, within the same trapping fault system, of a currently producing well. In March 2006, mechanical difficulties were experienced in the drilling of this well, and, after further review, ERT concluded that the wellbore would be plugged and abandoned. The total estimated cost to ERT of approximately \$20.7 million was charged to earnings in the first quarter of 2006. ERT will continue to evaluate various options with the operator for recovering the potential reserves. Approximately \$5.5 million of the equipment was redeployed and remains capitalized.

In Helix's Production Facilities segment it participates in the ownership of production facilities in hub locations where there is potential for significant subsea tieback activity for its Marine Contracting assets. Helix has a 50% interest in the TLP at *Marco Polo*, which began production in the second quarter of 2004, and a 20% interest in the Independence Hub semi-submersible which should be online in early 2007.

Regarding deepwater and shelf contracting, vessel utilization is typically lower during the first quarter due to winter weather conditions in the Gulf and the North Sea. Accordingly, Helix normally plans its drydock inspections and other routine and preventive maintenance programs during this period. During the first quarter, a substantial number of Helix's customers finalize capital budgets and solicit bids for construction projects. The bid and award process during the first two quarters typically leads to the commencement of construction activities during the second and third quarters. As a result, Helix has historically generated up to 65% of its deepwater and shelf contracting revenues in the last six months of the year. Helix's operations can also be severely impacted by weather during the fourth quarter. Operation of oil and gas properties and production facilities tends to offset the impact of weather since the first and fourth quarters are typically periods of high demand and strong prices for natural gas. Due to this seasonality, full year

results are not likely to be a direct multiple of any particular quarter or combination of quarters.

Table of Contents

The following table sets forth for the periods presented average U.S. natural gas and oil prices, Helix's equivalent natural gas production, the average number of offshore rigs under contract in the Gulf, the number of platforms installed and removed in the Gulf and the vessel utilization rates for each of the major categories of Helix's fleet.

	2005				2004				2003

- (5) Average vessel utilization rate is calculated by dividing the total number of days the vessels in this category generated revenues by the total number of days in each quarter.

Critical Accounting Policies

Helix's results of operations and financial condition, as reflected in the accompanying financial statements and related footnotes, are subject to management's evaluation and interpretation of business conditions, changing capital market conditions and other factors which could affect the ongoing viability of Helix's business segments and/or its customers. Helix believes the most critical accounting policies in this regard are those described below. While these issues require Helix to make judgments that are somewhat subjective, they are generally based on a significant amount of historical data and current market data.

Accounting for Oil and Gas Properties

ERT acquisitions of producing offshore properties are recorded at the fair value exchanged at closing together with an estimate of its proportionate share of the decommissioning liability assumed in the purchase based upon its working interest ownership percentage. In estimating the decommissioning liability assumed in offshore property acquisitions, Helix performs detailed estimating procedures, including engineering studies and then reflect the liability at fair value on a discounted basis as discussed below. Helix follows the successful efforts method of accounting for its interests in oil and gas properties. Under the successful efforts method, the costs of successful wells and leases containing productive reserves are capitalized. Costs incurred to drill and equip development wells, including unsuccessful development wells, are capitalized. Costs incurred relating to unsuccessful exploratory wells are expensed in the period the drilling is determined to be unsuccessful.

Helix evaluates the impairment of its oil and gas properties on a field-by-field basis whenever events or changes in circumstances indicate, but at least annually, an asset's carrying amount may not be recoverable. Unamortized capital costs are reduced to fair value (based upon discounted cash flows) if the expected

Table of Contents

undiscounted future cash flows are less than the asset's net book value. Cash flows are determined based upon proved reserves using prices and costs consistent with those used for internal decision making. Although prices used are likely to approximate market, they do not necessarily represent current market prices.

Estimated Proved Oil and Gas Reserves

The evaluation of Helix's oil and gas reserves is critical to the management of its oil and gas operations. Decisions such as whether development of a property should proceed and what technical methods are available for development are based on an evaluation of reserves. These oil and gas reserve quantities are also used as the basis for calculating the unit-of-production rates for depreciation, depletion and amortization, evaluating impairment and estimating the life of Helix's producing oil and gas properties in its decommissioning liabilities. Helix's proved reserves are classified as either proved developed or proved undeveloped. Proved developed reserves are those reserves which can be expected to be recovered through existing wells with existing equipment and operating methods. Proved undeveloped reserves include reserves expected to be recovered from new wells from undrilled proven reservoirs or from existing wells where a significant major expenditure is required for completion and production. Helix prepares, and independent petroleum engineers (Huddleston & Co.) audit, the estimates of Helix's oil and gas reserves presented in this proxy statement/prospectus based on guidelines promulgated under generally accepted accounting principles and in accordance with the rules and regulations of the U.S. Securities and Exchange Commission. The audit of Helix's reserves by the independent petroleum engineers involves their rigorous examination of Helix's technical evaluation and extrapolations of well information such as flow rates and reservoir pressure declines as well as other technical information and measurements. Helix's internal reservoir engineers interpret this data to determine the nature of the reservoir and ultimately the quantity of proved oil and gas reserves attributable to a specific property. Helix's proved reserves in this proxy statement/prospectus include only quantities that Helix expects to recover commercially using current prices, costs, existing regulatory practices and technology. While Helix is reasonably certain that the proved reserves will be produced, the timing and ultimate recovery can be affected by a number of factors including completion of development projects, reservoir performance, regulatory approvals and changes in projections of long-term oil and gas prices. Revisions can include upward or downward changes in the previously estimated volumes of proved reserves for existing fields due to evaluation of (1) already available geologic, reservoir or production or (2) new geologic or reservoir data obtained from wells. Revisions can also include changes associated with significant changes in development strategy, oil and gas prices, or production equipment/facility capacity.

Goodwill and Other Intangible Assets

Helix tests for the impairment of goodwill and other indefinite-lived intangible assets on at least an annual basis. Helix's goodwill impairment test involves a comparison of the fair value of each of Helix's reporting units with its carrying amount. The fair value is determined using discounted cash flows and other market-related valuation models, such as earnings multiples and comparable asset market values. Helix completed its annual goodwill impairment test as of November 1, 2005. Helix's goodwill impairment test involves a comparison of the fair value of each of Helix's reporting units with its carrying amount. Goodwill of \$73.9 million and \$69.2 million related to Helix's Deepwater Contracting segment as of December 31, 2005 and 2004, respectively. Goodwill of \$27.8 million and \$15.0 million related to Helix's Shelf Contracting segment as of December 31, 2005 and 2004, respectively. None of Helix's goodwill was impaired based on the impairment test performed as of November 1, 2005 (the annual impairment test excluded the goodwill and other indefinite-lived intangible assets acquired in the Stolt Offshore and Helix Energy Limited acquisitions which closed in November 2005). See footnote 5 to Helix's Historical Consolidated Financial Statements and Supplementary Data Audited Financial Statements included in this proxy statement/prospectus for goodwill and intangible assets related to the acquisitions. Helix will continue to test its goodwill and other indefinite-lived intangible assets annually on a consistent measurement date unless events occur or circumstances change between annual tests that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Table of Contents

Property and Equipment

Property and equipment, both owned and under capital leases, are recorded at cost. Depreciation is provided primarily on the straight-line method over the estimated useful lives of the assets described in footnote 2 to the Helix consolidated financial statements under Helix's Historical Consolidated Financial Statements and Supplementary Data Audited Financial Statements included in this proxy statement/prospectus.

For long-lived assets to be held and used, excluding goodwill, Helix bases its evaluation of recoverability on impairment indicators such as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements and other external market conditions or factors that may be present. If such impairment indicators are present or other factors exist that indicate that the carrying amount of the asset may not be recoverable, Helix determines whether an impairment has occurred through the use of an undiscounted cash flows analysis of the asset at the lowest level for which identifiable cash flows exist. Helix's marine vessels are assessed on a vessel by vessel basis, while Helix's ROVs are grouped and assessed by asset class. If an impairment has occurred, Helix recognizes a loss for the difference between the carrying amount and the fair value of the asset. The fair value of the asset is measured using quoted market prices or, in the absence of quoted market prices, is based on management's estimate of discounted cash flows. Helix recorded an impairment charge of \$1.9 million (included in Shelf Contracting cost of sales in Helix's consolidated statement of operations included in this proxy statement/prospectus) in December 2004 on certain Shelf Contracting vessels that met the impairment criteria. These assets were subsequently sold in December 2005 and January 2006, respectively, for an aggregate gain on the disposals of approximately \$322,000.

Assets are classified as held for sale when Helix has a plan for disposal of certain assets and those assets meet the held for sale criteria. During the fourth quarter of 2004, Helix classified a certain Shelf Contracting vessel and other Deepwater Contracting property and equipment intended to be disposed of within a twelve month period as assets held for sale totaling \$5.0 million (included in other current assets in Helix's consolidated balance sheet at December 31, 2004 included in this proxy statement/prospectus).

In July 2005, Helix completed the sale of a certain Shelf Contracting DP ROV Support vessel, the *Merlin*, for \$2.3 million in cash that was previously included in assets held for sale. Helix recorded an additional impairment of \$790,000 on the vessel in June 2005.

In March 2005, Helix completed the sale of certain Deepwater Contracting property and equipment for \$4.5 million that were previously included in assets held for sale. Proceeds from the sale consisted of \$100,000 cash and a \$4.4 million promissory note bearing interest at 6% per annum due in semi-annual installments beginning September 30, 2005 through March 31, 2010. In addition to the asset sale, Helix entered into a five year services agreement with the purchaser whereby Helix has committed to provide the purchaser with a specified amount of services for its Gulf of Mexico fleet on an annual basis (\$8 million per year). The measurement period related to the services agreement begins with the twelve months ending June 30, 2006 and continues every six months until the contract ends on March 31, 2010. Further, the promissory note stipulates that should Helix not meet its annual services commitment the purchaser can defer its semi-annual principal and interest payment for six months. Helix determined that the estimated gain on the sale of approximately \$2.5 million should be deferred and recognized as the principal and interest payments are received from the purchaser over the course of the promissory note. The first installment on the \$4.4 million promissory note was received in October 2005 and \$210,000 was recognized as a partial gain on the sale.

Recertification Costs and Deferred Drydock Charges

Helix's Deepwater and Shelf Contracting vessels are required by regulation to be recertified after certain periods of time. These recertification costs are incurred while the vessel is in drydock where other routine repairs and maintenance are performed and, at times, major replacements and improvements are performed. Helix expenses routine repairs and maintenance as they are incurred. Recertification costs can be accounted for in one of three ways: (1) defer and amortize, (2) accrue in advance, or (3) expense as incurred. Helix defers and amortizes recertification costs over the length of time in which the recertification is expected to last, which is generally 30 months. Major replacements and improvements, which extend the vessel's economic

Table of Contents

useful life or functional operating capability, are capitalized and depreciated over the vessel's remaining economic useful life. Inherent in this process are estimates Helix makes regarding the specific cost incurred and the period that the incurred cost will benefit.

Helix accounts for regulatory (U.S. Coast Guard, American Bureau of Shipping and Det Norske Veritas) related drydock inspection and certification expenditures by capitalizing the related costs and amortizing them over the 30-month period between regulatory mandated drydock inspections and certification. As of December 31, 2005 and 2004, capitalized deferred drydock charges (included in other assets, net) totaled \$18.3 million and \$10.0 million, respectively. During the years ended December 31, 2005, 2004 and 2003, drydock amortization expense was \$8.9 million, \$4.9 million and \$4.1 million, respectively.

Accounting for Decommissioning Liabilities

Statement of Financial Accounting Standards (SFAS) No. 143, *Accounting for Asset Retirement Obligations*, addresses the financial accounting and reporting obligations and retirement costs related to the retirement of tangible long-lived assets. Among other things, SFAS No. 143 requires oil and gas companies to reflect decommissioning liabilities (dismantlement and abandonment of oil and gas wells and offshore platforms) on the face of the balance sheet at fair value on a discounted basis. ERT historically has purchased producing offshore oil and gas properties that are in the later stages of production. In conjunction with acquiring these properties, ERT assumes an obligation associated with decommissioning the property in accordance with the regulations set by government agencies. The abandonment liability related to the acquisitions of these properties is determined through a series of management estimates.

Prior to an acquisition and as part of evaluating the economics of an acquisition, ERT will estimate the plug and abandonment liability. ERT personnel prepare detailed cost estimates to plug and abandon wells and remove necessary equipment in accordance with regulatory guidelines. ERT currently calculates the discounted value of the abandonment liability (based on the estimated year the abandonment will occur) in accordance with SFAS No. 143 and capitalizes that portion as part of the basis acquired and records the related abandonment liability at fair value. Decommissioning liabilities were \$121.4 million and \$82.0 million at December 31, 2005 and 2004, respectively.

On an ongoing basis, ERT personnel monitor the status of wells on the properties, and as fields deplete and no longer produce, ERT will monitor the timing requirements set forth by the MMS for plugging and abandoning the wells and commence abandonment operations, when applicable. On an annual basis, ERT and Helix management personnel review and update the abandonment estimates and assumptions for changes, among other things, in market conditions, interest rates and historical experience.

The adoption of SFAS No. 143 resulted in a cumulative effect adjustment as of January 1, 2003 to record (i) a \$33.1 million decrease in the carrying values of proved properties, (ii) a \$7.4 million decrease in accumulated depreciation, depletion and amortization of property and equipment, (iii) a \$26.5 million decrease in decommissioning liabilities and (iv) a \$0.3 million increase in deferred income tax liabilities. The net impact of items (i) through (iv) was to record a gain of \$0.5 million, net of tax, as a cumulative effect adjustment of a change in accounting principle in Helix's consolidated statements of operations upon adoption on January 1, 2003. Helix has no material assets that are legally restricted for purposes of settling its decommissioning liabilities other than \$27.0 million of restricted cash held in escrow included in Other Assets, net in Helix's consolidated balance sheet (see *Liquidity and Capital Resources - Investing Activities*).

Revenue Recognition

Helix typically earns the majority of deepwater and shelf contracting revenues during the summer and fall months. Revenues are derived from billings under contracts (which are typically of short duration) that provide for either lump-sum turnkey charges or specific time, material and equipment charges which are billed in accordance with the terms of such contracts. Helix recognizes revenue as it is earned at estimated collectible amounts. Revenues generated from specific time, materials and equipment charges contracts are generally earned on a dayrate basis and recognized as amounts are earned in accordance with contract terms. Revenues generated in the pre-operation mode before a contract commences are deferred and recognized on a straight line basis in accordance with contract terms. Direct and incremental costs associated with pre-operation activities are similarly deferred and recognized over the estimated contract period.

Table of Contents

Revenue on significant turnkey contracts is recognized on the percentage-of-completion method based on the ratio of costs incurred to total estimated costs at completion, or achievement of certain contractual milestones if provided for in the contract. Contract price and cost estimates are reviewed periodically as work progresses and adjustments are reflected in the period in which such estimates are revised. Provisions for estimated losses on such contracts are made in the period such losses are determined. Helix recognizes additional contract revenue related to claims when the claim is probable and legally enforceable. Unbilled revenue represents revenue attributable to work completed prior to year-end which has not yet been invoiced. All amounts included in unbilled revenue at December 31, 2005 are expected to be billed and collected within one year.

Helix records revenues from the sales of crude oil and natural gas when delivery to the customer has occurred and title has transferred. This occurs when production has been delivered to a pipeline or a barge lifting has occurred. Helix may have an interest with other producers in certain properties. In this case Helix uses the entitlements method to account for sales of production. Under the entitlements method Helix may receive more or less than its entitled share of production. If Helix receives more than its entitled share of production, the imbalance is treated as a liability. If Helix receives less than its entitled share, the imbalance is recorded as an asset. As of December 31, 2005 the net imbalance was a \$2.0 million asset and was included in Other Current Assets (\$5.0 million) and Accrued Liabilities (\$3.0 million) in the Helix consolidated balance sheet included in this proxy statement/prospectus.

Accounts Receivable and Allowance for Uncollectible Accounts

Accounts receivable are stated at the historical carrying amount net of write-offs and allowance for uncollectible accounts. Helix establishes an allowance for uncollectible accounts receivable based on historical experience and any specific customer collection issues that Helix has identified. Uncollectible accounts receivable are written off when a settlement is reached for an amount that is less than the outstanding historical balance or when Helix has determined the balance will not be collected.

Foreign Currency

The functional currency for Helix's foreign subsidiaries, Well Ops (U.K.) Limited and Helix Energy Limited, is the applicable local currency (British Pound). Results of operations for these subsidiaries are translated into U.S. dollars using average exchange rates during the period. Assets and liabilities of these foreign subsidiaries are translated into U.S. dollars using the exchange rate in effect at the balance sheet date and the resulting translation adjustment, which was an unrealized loss in 2005 of \$11.4 million and an unrealized gain in 2004 of \$10.8 million, and is included as accumulated other comprehensive income (loss), as a component of shareholders' equity. Beginning in 2004, deferred taxes have not been provided on foreign currency translation adjustments for operations where the Company considers its undistributed earnings of its principal non-U.S. subsidiaries to be permanently reinvested. As a result, cumulative deferred taxes on translation adjustments totaling approximately \$6.5 million were reclassified from noncurrent deferred income taxes and accumulated other comprehensive income. All foreign currency transaction gains and losses are recognized currently in the statements of operations.

Canyon Offshore, Helix's ROV subsidiary, has operations in the Europe/West Africa and Asia/Pacific regions. Canyon conducts the majority of its affairs in these regions in U.S. dollars which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received the resulting gain or loss from translation is recognized in the statements of operations. These amounts for the years ended December 31, 2005 and 2004, respectively, were not material to Helix's results of operations or cash flows.

Accounting for Price Risk Management Activities

Helix's price risk management activities involve the use of derivative financial instruments to hedge the impact of market price risk exposures primarily related to our oil and gas production. All derivatives are reflected in our balance sheet at their fair market value.

There are two types of hedging activities: hedges of cash flow exposure and hedges of fair value exposure. Helix engages primarily in cash flow hedges. Hedges of cash flow exposure are entered into to hedge a forecasted transaction or the variability of cash flows to be received or paid related to a recognized

Table of Contents

asset or liability. Changes in the derivative fair values that are designated as cash flow hedges are deferred to the extent that they are effective and are recorded as a component of accumulated other comprehensive income until the hedged transactions occur and are recognized in earnings. The ineffective portion of a cash flow hedge's change in value is recognized immediately in earnings in oil and gas production revenues.

Helix formally documents all relationships between hedging instruments and hedged items, as well as its risk management objectives, strategies for undertaking various hedge transactions and its methods for assessing and testing correlation and hedge ineffectiveness. All hedging instruments are linked to the hedged asset, liability, firm commitment or forecasted transaction. Helix also assesses, both at the inception of the hedge and on an on-going basis, whether the derivatives that are used in its hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. Helix discontinues hedge accounting prospectively if it determines that a derivative is no longer highly effective as a hedge or it is probable that a hedged transaction will not occur. If hedge accounting is discontinued, deferred gains or losses on the hedging instruments are recognized in earnings immediately.

The fair value of hedging instruments reflects Helix's best estimate and is based upon exchange or over-the-counter quotations whenever they are available. Quoted valuations may not be available due to location differences or terms that extend beyond the period for which quotations are available. Where quotes are not available, Helix utilizes other valuation techniques or models to estimate market values. These modeling techniques require Helix to make estimations of future prices, price correlation and market volatility and liquidity. Helix's actual results may differ from its estimates, and these differences can be positive or negative.

During 2005 and 2004, Helix entered into various cash flow hedging swap and costless collar contracts to stabilize cash flows relating to a portion of Helix's oil and gas production. All of these qualified for hedge accounting. The aggregate fair value of the hedge instruments was a net liability of \$13.4 million and \$876,000 as of December 31, 2005 and 2004, respectively. For the years ended December 31, 2005, 2004 and 2003, Helix recorded unrealized (losses) gains of approximately \$(8.1) million, \$846,000 and \$1.2 million, net of taxes of \$4.4 million, \$456,000 and \$654,000, respectively, in other comprehensive income, a component of shareholders' equity as these hedges were highly effective. The balance in the cash flow hedge adjustments account is recognized in earnings when the hedged item is sold. During 2005, 2004 and 2003, Helix reclassified approximately \$14.1 million, \$11.1 million and \$14.6 million, respectively, of losses from other comprehensive income to Oil and Gas Production revenues upon the sale of the related oil and gas production.

Hedge ineffectiveness related to cash flow hedges was a loss of \$1.8 million, net of taxes of \$951,000 in the third quarter of 2005 as reported in that period's earnings as a reduction of oil and gas production revenues. Hedge ineffectiveness resulted from ERT's projected inability to deliver contractual oil and gas production in fourth quarter 2005 due primarily to the effects of Hurricanes *Katrina* and *Rita*.

Equity Investments

Helix's equity investments in unconsolidated subsidiaries include our investments in Deepwater Gateway, L.L.C., Independence Hub, LLC and Offshore Technology Solutions Limited (OTSL), a Trinidad and Tobago entity. Helix reviews its equity investments for impairment and records an adjustment when it believes the decline in fair value is other than temporary. The fair value of the asset is measured using quoted market prices or, in the absence of quoted market prices, fair value is based on an estimate of discounted cash flows. In determining whether the decline is other than temporary, Helix considers the cyclical nature of the industry in which the investment operates, its historical performance, its performance in relation to its peers and the current economic environment. Helix will monitor the fair value of its investments for impairment and will record an adjustment if it believes a decline is other than temporary. During 2005, 2004 and 2003 no impairment indicators existed.

Income Taxes

Deferred income taxes are based on the difference between financial reporting and tax bases of assets and liabilities. Helix utilizes the liability method of computing deferred income taxes. The liability method is based on the amount of current and future taxes payable using tax rates and laws in effect at the balance sheet date. Income taxes have been provided based upon the tax laws and rates in the countries in which operations

Table of Contents

are conducted and income is earned. A valuation allowance for deferred tax assets is recorded when it is more likely than not that some or all of the benefit from the deferred tax asset will not be realized. Helix considers the undistributed earnings of its principal non-U.S. subsidiaries to be permanently reinvested. At December 31, 2005, Helix's principal non-U.S. subsidiaries had an accumulated deficit of approximately \$4.3 million in earnings and profits. These losses are primarily due to timing differences related to fixed assets. Helix has not provided deferred U.S. income tax on the losses. See footnote 9 to Helix's Historical Consolidated Financial Statements and Supplementary Data Audited Financial Statements included in this proxy statement/prospectus for discussion of net operating loss carry forwards and deferred income taxes.

Worker's Compensation Claims

Helix's onshore employees are covered by Worker's Compensation. Offshore employees, including divers, tenders and marine crews, are covered by our Maritime Employers Liability insurance policy which covers Jones Act exposures. Helix incurs worker's compensation claims in the normal course of business, which management believes are substantially covered by insurance. Helix, its insurers and legal counsel analyze each claim for potential exposure and estimate the ultimate liability of each claim.

Recently Issued Accounting Principles

In December 2004, the FASB issued SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS No. 123R), which replaces SFAS No. 123, *Accounting for Stock-Based Compensation*, (SFAS No. 123) and supercedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*. SFAS No. 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with the first interim period in fiscal 2006, with early adoption encouraged. The pro forma disclosures previously permitted under SFAS No. 123 no longer will be an alternative to financial statement recognition. Helix adopted SFAS No. 123R on January 1, 2006. Under SFAS No. 123R, Helix will continue to use the Black-Scholes fair value model for valuing share-based payments, and amortize compensation cost on a straight-line basis over the respective vesting period. Helix selected the modified-prospective method which requires that compensation expense be recorded for all unvested stock options and restricted stock beginning in 2006 as the requisite service is rendered. In addition to the compensation cost recognition requirements, SFAS No. 123R also requires the tax deduction benefits for an award in excess of recognized compensation cost be reported as a financing cash flow rather than as an operating cash flow, which was required under SFAS No. 95. The adoption did not have a material impact on Helix's consolidated results of operations and earnings per share and cash flows.

In September 2004, the EITF of the FASB reached a consensus on issue No. 04-08, *The Effect of Contingently Convertible Instruments on Diluted Earnings per Share* (EITF 04-08), which is effective for reporting periods ending after December 15, 2004. Contingently convertible instruments within the scope of EITF 04-08 are instruments that contain conversion features that are contingently convertible or exercisable based on (a) a market price trigger or (b) multiple contingencies if one of the contingencies is a market price trigger for which the instrument may be converted or share settled based on meeting a specified market condition. EITF 04-08 requires companies to include shares issuable under convertible instruments in diluted earnings per share computations (if dilutive) regardless of whether the market price trigger (or other contingent feature) has been met. In addition, prior period earnings per share amounts presented for comparative purposes must be restated. Helix adopted EITF 04-08 in 2005. The adoption did not have a material impact on Helix's earnings per share for the years ended December 31, 2005, 2004 and 2003.

Results of Operations

In the fourth quarter of 2005, Helix modified its segment reporting from three reportable segments to four reportable segments. Helix's operations are conducted through the following primary reportable segments: Deepwater

Contracting, Shelf Contracting, Oil and Gas Production and Production Facilities. The realignment of reportable segments was attributable to organizational changes within Helix as it is related to separating Marine Contracting into two reportable segments – Deepwater Contracting (or Contracting Services) and Shelf Contracting. Deepwater Contracting operations include deepwater pipelay, well operations and robotics. Shelf Contracting operations consist of assets deployed primarily for diving-related activities and shallow

Table of Contents

water construction. As a result, segment disclosures for 2004 and 2003 have been restated to conform to the current period presentation. All intercompany transactions between the segments have been eliminated.

Helix plans to sell a minority stake of approximately 35 to 49 percent in its Shelf Contracting business, continuing to control the business in the foreseeable future and retaining access to the services. Though Helix's plans are still under review, the planned sale could reasonably occur at any point within this range. For historical financial information of Helix's Shelf Contracting business, see Footnote 14 Business Segment Information contained in Helix's Historical Consolidated Financial Statements and Supplementary Data Audited Financial Statements included in this proxy statement/prospectus beginning on page 155 and in Footnote 15 Business Segment Information of Helix's Historical Consolidated Financial Statements and Supplementary Data Unaudited Interim Financial Statements included in this proxy statement/prospectus beginning on page 178.

Comparison of Three Months Ended March 31, 2006 and 2005

Net Revenues. Of the overall \$132.1 million increase in revenues, \$33.0 million was generated by the Contracting Services segment, \$82.2 million by the Shelf Contracting segment and \$16.9 million generated by the Oil and Gas Production segment. Contracting Services revenues increased primarily due to improved market demand and the addition of the *Express* acquired from Torch in August 2005, resulting in significantly improved utilization rates and contract pricing for the Pipelay and ROV divisions, offset partially by decreased utilization in the Well Operations division due to unscheduled downtime in the first quarter of 2006. Shelf Contracting revenues increased due to improved market demand, much of which continues to be the result of damages sustained in Hurricanes *Katrina* and *Rita*. This resulted in significantly improved utilization rates and contract pricing for all divisions within the segment (shallow water pipelay, diving and portable SAT systems). Further, Shelf Contracting's revenues increased in the three months ended March 31, 2006 compared with 2005 directly as a result of the acquisition of the Torch and Stolt vessels in the third and fourth quarters of 2005.

Oil and Gas Production revenue increased \$16.9 million, or 27%, during the three months ended March 31, 2006 compared with the prior year period. The increase was primarily due to increases in oil and natural gas prices realized. The average realized natural gas price of \$9.52 per Mcf, net of hedges in place, during first quarter 2006 was 43% higher than the \$6.64 per Mcf realized in first quarter 2005, while average realized oil prices, net of hedges in place, increased 33% to \$58.71 per barrel in first quarter 2006 compared with \$44.02 per barrel realized during first quarter 2005. These increases were partially offset by a production decrease of 11% (8.1 Bcfe for the three months ended March 31, 2006 compared to 9.0 Bcfe in the prior year period) primarily due to production shut-ins due to Hurricanes *Katrina* and *Rita*. However, oil and gas production is currently at or near pre-hurricane levels.

Gross Profit. Gross profit of \$102.3 million for the three months ended March 31, 2006 represented a 97% increase compared to the \$51.9 million recorded in the comparable prior year period. Contracting Services gross profit increased to \$29.5 million for the three months ended March 31, 2006, from \$9.9 million in the first quarter of 2005. The increase was primarily attributable to improved utilization rates, contract pricing for the Pipelay and ROV divisions and the addition of the *Express* for the full first quarter 2006. Shelf Contracting gross profit increased to \$50.2 million for the three months ended March 31, 2006, from \$11.1 million in the first quarter of 2005. As previously discussed, the increase was primarily attributable to improved utilization rates, contract pricing for all divisions within the segment and the addition of the Torch and Stolt assets for a full first quarter 2006. Oil and Gas Production gross profit decreased \$8.3 million, to \$22.6 million, due primarily to \$20.7 million of exploratory drilling costs expensed related to the Tulane prospect as a result of mechanical difficulties experienced in the drilling of this well and after further review, Helix concluded that the wellbore would be plugged and abandoned. Further, Helix incurred inspection and repair costs of approximately \$3.5 million as a result of Hurricanes *Katrina* and *Rita*, partially offset by \$2.7 million in insurance recoveries. In addition, gross profit for the Oil and Gas Production segment decreased due to the aforementioned lower production levels. Decreases in Oil and Gas Production segment gross

profit were partially offset by higher commodity prices.

Gross margins in the first quarter of 2006 were 35% as compared to 33% in the comparable prior year period. Contracting Services margins increased 15 points to 31% in first quarter 2006 compared with 16% in

Table of Contents

the prior year period, due to the factors noted above. Shelf Contracting margins increased 11 points to 43% in first quarter 2006 from 32% in the prior year period, due to the factors noted above. In addition, margins in the Oil and Gas Production segment decreased 21 points to 28% in first quarter 2006 from 49% in first quarter 2005, primarily due to the Tulane charge.

As discussed above, Helix sustained damage to certain of its oil and gas production facilities in Hurricanes *Katrina* and *Rita*. Helix's estimate of total repair and inspection costs resulting from the hurricanes will range from \$5 million to \$8 million, net of expected insurance reimbursement. These costs, and any related insurance reimbursements, will be recorded as incurred over the next year.

Selling and Administrative Expenses. Selling and administrative expenses of \$21.0 million for the three months ended March 31, 2006 were \$8.2 million higher than the \$12.8 million incurred in first quarter 2005 due primarily to increased overhead to support our growth. Selling and administrative expenses at 7% of revenues for the first quarter of 2006 was slightly lower than the 8% in first quarter 2005.

Equity in Earnings of Investments. Equity in earnings of Helix's 50% investment in Deepwater Gateway, L.L.C. increased to \$3.4 million in first quarter 2006 compared with \$1.7 million in first quarter 2005. Further, equity in earnings from Helix's 40% minority ownership interest in OTSL in first quarter 2006 totaled approximately \$2.8 million compared with \$0 in the comparable prior year period.

Net Interest Expense and Other. Helix reported other expense of \$2.5 million for the three months ended March 31, 2006 compared to other expense of \$264,000 in the prior year period. Net interest expense of \$2.5 million in first quarter 2006 was higher than the \$1.3 million incurred in first quarter 2005 due primarily to higher levels of debt associated with Helix's \$300 million Convertible Senior Notes which closed in March 2005. Offsetting the increase in interest expense was \$1.2 million of capitalized interest in first quarter 2006, compared with \$73,000 in first quarter 2005, which related primarily to Helix's investment in Independence Hub.

Provision for Income Taxes. Income taxes increased to \$29.1 million for the three months ended March 31, 2006 compared to \$14.5 million in the prior year period, primarily due to increased profitability. The effective tax rate of 34.1% in first quarter 2006 was lower than the 36% effective tax rate for first quarter 2005 due to Helix's ability to realize foreign tax credits and oil and gas percentage depletion due to improved profitability both domestically and in foreign jurisdictions and implementation of the Internal Revenue Code section 199 manufacturing deduction as it primarily related to oil and gas production.

Comparison of Years Ended 2005 and 2004

Revenues. During the year ended December 31, 2005, Helix's revenues increased 47% to \$799.5 million compared to \$543.4 million for the year ended December 31, 2004. Of the overall \$256.1 million increase, \$126.4 million was generated by the Deepwater Contracting segment, \$97.1 million by the Shelf Contracting segment and \$32.5 million generated by the Oil and Gas Production segment. Deepwater Contracting revenues increased \$126.4 million from \$175.4 million for 2004 to \$301.9 million for 2005 due primarily to improved market demand resulting in significantly improved utilization rates and contract pricing for all divisions within the segment (Deepwater, Well Operations and ROVs). Shelf Contracting revenues increased \$97.1 million from \$124.6 million for 2004 to \$221.8 million for 2005 also due to improved market demand, much of which was the result of damages sustained in Hurricanes *Katrina* and *Rita*. This resulted in significantly improved utilization rates and contract pricing for all divisions within the segment (shallow water pipelay, diving and portable SAT systems). Further, Shelf Contracting's revenues increased in 2005 compared with 2004 directly as a result of the acquisition of the Torch and Stolt vessels in the third and fourth quarter of 2005, with much of the impact attributable to the fourth quarter.

Oil and Gas Production revenue for the year ended December 31, 2005 increased \$32.5 million, or 13%, to \$275.8 million from \$243.3 million during 2005. Production decreased 17% (33.0 Bcfe for the year ended December 31, 2005 compared to 39.8 Bcfe in 2004) primarily due to production shut-ins due to Hurricanes *Katrina* and *Rita* in the third and fourth quarters of 2005. The average realized natural gas price of \$8.29 per Mcf, net of hedges in place, during 2005 was 35% higher than the \$6.13 per Mcf realized in 2004 while average realized oil prices, net of hedges in place, increased 39% to \$49.15 per barrel compared to \$35.34 per barrel realized during 2004.

Table of Contents

Gross Profit. Gross profit of \$283.1 million for the year ended December 31, 2005 represented a 65% increase compared to the \$171.9 million recorded in the prior year. Deepwater Contracting gross profit increased to \$69.4 million, for the year ended December 31, 2005, from \$11.1 million in the prior year. The increase was primarily attributable to improved utilization rates and contract pricing for all divisions within the segment. Shelf Contracting gross profit increased to \$71.2 million, for the year ended December 31, 2005, from \$25.4 million in the prior year. As previously discussed, the increase was primarily attributable to improved utilization rates and contract pricing for all divisions within the segment. Shelf Contracting gross profit in 2004 was impacted by asset impairments on certain vessels totaling \$3.9 million for conditions meeting Helix's asset impairment criteria. Oil and Gas Production gross profit increased \$7.0 million, to \$142.5 million, due to the aforementioned higher commodity price increases, offset by decreased production levels.

Gross margins of 35% in 2005 were 3 points better than the 32% in 2004. Deepwater Contracting margins increased 17 points to 23% for the year ended December 31, 2005, from 6% in the prior year, due to the factors noted above. Shelf Contracting margins increased 12 points to 32% in 2005 from 20% in 2004, due to the factors noted above. In addition, margins in the Oil and Gas Production segment decreased 4 points to 52% in 2005 from 56% in 2004, due primarily to impairment analysis on certain properties and expensed well work which resulted in \$4.8 million of impairments, inspection and repair costs of approximately \$7.1 million as a result of Hurricanes *Katrina* and *Rita* (no insurance recoveries recorded as of December 31, 2005), and \$5.7 million of expensed seismic data purchased for ERT's offshore property acquisitions.

As discussed above, Helix sustained damage to certain of its oil and gas production facilities in Hurricanes *Katrina* and *Rita*. Helix estimates future total repair and inspection costs resulting from hurricanes will range from \$5 million to \$8 million, net of expected insurance reimbursement. These costs, and any related insurance reimbursements, will be recorded as incurred over the next year.

Selling & Administrative Expenses. Selling and administrative expenses of \$62.8 million for the year ended December 31, 2005 were \$13.9 million higher than the \$48.9 million incurred in 2004 due primarily to increased incentive compensation as a result of increased profitability. Selling and administrative expenses at 8% of revenues for 2005 was slightly lower than the 9% of revenues in 2004.

Equity in Earnings of Investments. Equity in earnings of the Company's 50% investment in Deepwater Gateway, L.L.C. increased to \$10.6 million in 2005 compared with \$7.9 million in 2004. The increase was attributable to the demand fees which commenced following the March 2004 mechanical completion of the *Marco Polo* tension leg platform, owned by Deepwater Gateway, L.L.C., as well as production tariff charges which commenced in the third quarter of 2004 as *Marco Polo* began producing. Further, equity in earnings from Helix's 40% minority ownership interest in OTSL in 2005 totaled approximately \$2.8 million.

Other (Income) Expense. Helix reported other expense of \$7.6 million for the year ended December 31, 2005 compared to other expense of \$5.3 million for the year ended December 31, 2004. Net interest expense of \$7.0 million in 2005 was higher than the \$5.6 million incurred in 2004 due primarily to higher levels of debt associated with Helix's \$300 million Convertible Senior Notes which closed in March 2005. Offsetting the increase in interest expense was \$2.0 million of capitalized interest in 2005, compared with \$243,000 in 2004, which related to Helix's investment in *Gunnison* and Independence Hub, and interest income of \$5.5 million in 2005 compared to \$439,000 in 2004.

Income Taxes. Income taxes increased to \$75.0 million for the year ended December 31, 2005 compared to \$43.0 million in 2004, primarily due to increased profitability. The effective tax rate of 33% in 2005 was lower than the 34% effective tax rate for 2004 due to Helix's ability to realize foreign tax credits and oil and gas percentage depletion due to improved profitability both domestically and in foreign jurisdictions, and implementation of the Internal Revenue Code section 199 manufacturing deduction as it primarily related to oil and gas production. In 2004,

Helix recognized a benefit for its research and development credits in the first quarter of 2004 as a result of the conclusion of the Internal Revenue Service (IRS) examination of Helix s income tax returns for 2001 and 2002, and the tax cost or benefit of U.S. and U.K. branch operations.

Net Income. Net income of \$150.1 million for 2005 was \$70.2 million greater than 2004 as a result of the factors described above.

Table of Contents*Comparison of Years Ended 2004 and 2003*

Revenues. During the year ended December 31, 2004, Helix's revenues increased 37% to \$543.4 million compared to \$396.3 million for the year ended December 31, 2003. Of the overall \$147.1 million increase, \$106.0 million was generated by the Oil and Gas Production segment due to increased oil and gas production and higher commodity prices. Deepwater Contracting revenues increased \$48.0 million from \$127.4 million for 2003 to \$175.4 million for 2004 due primarily to slightly increased utilization and improved contract pricing for Helix's Well Operations division and improved performance from the Company's ROV division. Shelf Contracting revenues decreased \$6.9 million from \$131.5 million for 2003 to \$124.6 million for 2004 due primarily to decreased vessel utilization.

Oil and Gas Production revenue for the year ended December 31, 2004 increased \$106.0 million, or 77%, to \$243.3 million from \$137.3 million during 2003. Production increased 43% (39.8 Bcfe for the year ended December 31, 2004 compared to 27.9 Bcfe in 2003) primarily as a result of our successful well exploitation program, bringing a subsea PUD development online late in 2003, and *Gunnison* wells coming online throughout 2004 and provided 21% of total production. The average realized natural gas price of \$6.13 per Mcf, net of hedges in place, during 2004 was 23% higher than the \$4.98 per Mcf realized in 2003 while average realized oil prices, net of hedges in place, increased 28% to \$35.34 per barrel compared to \$27.63 per barrel realized during 2003.

Gross Profit. Gross profit of \$171.9 million for the year ended December 31, 2004 represented an 87% increase compared to the \$92.1 million recorded in the prior year with the Oil and Gas Production segment contributing 87% of the increase. Deepwater Contracting gross profit increased to \$11.1 million, for the year ended December 31, 2004, from breakeven million in the prior year. The increase was primarily attributable to improved contract pricing for the Company's Well Operations division and improved performance from Helix's ROV division. Shelf Contracting gross profit of \$25.4 million in 2004 was comparable to the \$25.7 million in 2003. The segment experienced lower utilization, however, Shelf Contracting was able to offset lower utilization rates with higher margin lump sum contracts in 2004. Further offsetting the increase in Shelf Contracting gross profit was asset impairments on certain Shelf vessels totaling \$3.9 million for conditions that met Helix's asset impairment criteria. Oil and Gas Production gross profit increased \$69.3 million, to \$135.4 million, due to the aforementioned higher levels of production and commodity price increases.

Gross margins of 32% in 2004 were 9 points better than the 23% in 2003. Deepwater Contracting margins increased 6 points to 6% for the year ended December 31, 2004, from breakeven in the prior year, due to the factors noted above. Shelf Contracting margins were 20% in both 2004 and 2003 due to the factors noted above. In addition, margins in the Oil and Gas Production segment increased 8 points to 56% for the year ended December 31, 2004, from 48% in 2003, due primarily to the higher oil and gas commodity prices.

Selling & Administrative Expenses. Selling and administrative expenses of \$48.9 million for the year ended December 31, 2004 were \$13.0 million higher than the \$35.9 million incurred in 2003 due primarily to an increase in the 2004 Deepwater and Shelf Contracting compensation program, which is based on certain individual performance criteria and Helix's profitability, and the ERT incentive compensation program, which is tied directly to the Oil and Gas Production segment profitability that was significantly higher in 2004 compared to 2003. Selling and administrative expenses at 9% of revenues for 2004 matched that of the prior year.

Equity in Earnings of Investments. Equity in earnings of Helix's 50% investment in Deepwater Gateway, L.L.C. increased to \$7.9 million in 2004 compared with a loss of \$87,000 in 2003. The increase was attributable to the demand fees which commenced following the March 2004 mechanical completion of the *Marco Polo* tension leg platform, owned by Deepwater Gateway, L.L.C., as well as production tariff charges which commenced in the third quarter of 2004 as *Marco Polo* began producing.

Other (Income) Expense. Helix reported other expense of \$5.3 million for the year ended December 31, 2004 compared to other expense of \$3.4 million for the year ended December 31, 2003. Net interest expense of \$5.6 million in 2004 was higher than the \$2.4 million incurred in 2003, due primarily to \$243,000 of capitalized interest in 2004, compared with \$3.4 million in 2003, which related to Helix's investment in *Gunnison* and construction of the *Marco Polo* tension leg platform, both of which were online at different times during 2004.

Table of Contents

Income Taxes. Income taxes increased to \$43.0 million for the year ended December 31, 2004 compared to \$19.0 million in 2003, primarily due to increased profitability. The effective tax rate of 34.2% in 2004 is lower than the 36.1% effective tax rate for 2003 due to the benefit recognized by Helix for its research and development credits in the first quarter of 2004 as a result of the conclusion of the IRS examination of Helix's income tax returns for 2001 and 2002, and the tax cost or benefit of U.S. and U.K. branch operations.

Net Income. Net income of \$79.9 million for 2004 was \$47.1 million greater than 2003 as a result of the factors described above. Further, convertible preferred stock dividends and accretion increased from \$1.4 million in 2003 to \$2.7 million in 2004 as a result of the Series A-2 Tranche of convertible preferred stock issued in June 2004 to the existing holder. See *Liquidity and Capital Resources* *Financing Activities* .

Liquidity and Capital Resources

Financial Condition as of March 31, 2006

Total debt as of March 31, 2006 was \$444.7 million comprised primarily of \$300 million of Convertible Senior Notes which mature in 2025 and \$133.1 million of MARAD debt which matures in 2027. See further discussion below under *Financing Activities* *Three Months Ended March 31, 2006*. In addition, as of March 31, 2006, Helix had \$37.8 million of unrestricted cash, as well as a \$150 million, undrawn revolving credit facility. See *Investing Activities* *Three Months Ended March 31, 2006* below for a discussion of expected uses of Helix's cash related to Helix's exploration and development of its deepwater prospects and the merger.

Financial Condition as of December 31, 2005

Total debt as of December 31, 2005 was \$447.2 million comprised primarily of \$300 million of Convertible Senior Notes which mature in 2025 and \$134.9 million of MARAD debt which matures in 2027. See further discussion below under *Financing Activities* . In addition, Helix had \$91.1 million of unrestricted cash as of December 31, 2005, as well as a \$150 million, undrawn revolving credit facility. The majority of the unrestricted cash was utilized for the previously announced acquisition of certain assets of Stolt Offshore not purchased as of December 31, 2005 and the purchase of the mono-hull vessel, the *Caesar* in January 2006.

During 2005, Helix acquired equity interests in five deepwater undeveloped properties. The capital commitments for these developments will occur over the next few years. Helix believes internally generated cash flow and borrowings under existing credit facilities will provide the necessary capital to meet these and other obligations.

Hedging Activities

Helix's price risk management activities involve the use of derivative financial instruments to hedge the impact of market price risk exposures primarily related to its oil and gas production. All derivatives are reflected in Helix's balance sheet at fair value.

During 2005 and the first three months of 2006, Helix entered into various cash flow hedging swap and costless collar contracts to stabilize cash flows relating to a portion of its expected oil and gas production. All of these qualified for hedge accounting. The aggregate fair value of the hedge instruments was a net liability of \$8.4 million as of March 31, 2006. Helix recorded unrealized gains (losses) of approximately \$3.2 million and (\$3.0) million, net of tax (expense) benefit of \$(1.7) million and \$1.6 million, during the first three months of 2006 and 2005, respectively, in accumulated other comprehensive income (loss), a component of shareholders' equity, as these hedges were highly effective. During the three months ended March 31, 2006 and 2005, Helix reclassified approximately \$4.9 million of gains and \$1.2 million of losses, respectively, from other comprehensive income to Oil and Gas Production revenues

upon the sale of the related oil and gas production.

Operating Activities

Three Months Ended March 31, 2006. The increase in cash flow from operations for the three months ended March 31, 2006 as compared to the same period in 2005 was due primarily to an increase in profitability (\$30.2 million), which included a non-cash asset impairment charge of \$20.7 million. These

Table of Contents

increases were partially offset by decreases in accounts payable and accrued liabilities due primarily to incentive compensation payments, timing of trade accounts payable and a decrease in hedge liability accruals.

Year Ended December 31, 2005. Net cash provided by operating activities was \$242.4 million during 2005, an increase of \$15.6 million over the \$226.8 million generated during 2004 due primarily to an increase in profitability (\$69.9 million). Further, operating cash flow increased due to an increase in accounts payable and accrued liabilities (\$21.3 million). The increases related to increased trade payables due to increased contracting activity volume, increased incentive compensation accruals resulting from increased profitability, increased ERT royalty accruals and increased ERT hedge liability accruals. Cash flow from operations was negatively impacted by an increase in trade accounts receivable of approximately \$89.8 million due primarily to increased revenues in 2005 compared with 2004 in the Deepwater Contracting, Shelf Contracting and Oil and Gas Production segments. Further, cash flow from operations was negatively impacted by approximately \$18 million of cash used to fund regulatory dry dock activity in 2005.

Net cash provided by operating activities was \$226.8 million during 2004, an increase of \$139.4 million over the \$87.4 million generated during 2003 due primarily to an increase in profitability (\$48.5 million), a \$37.5 million increase in depreciation and amortization (including the non-cash asset impairment charge in 2004) resulting from the aforementioned increase in production levels (including the *Gunnison* wells that began producing in December 2003). Further an increase in trade payables and accrued liabilities of \$53.1 million due primarily to higher accruals for ERT royalties as a result of increased production and higher accruals for ERT and Marine Contracting incentive compensation also contributed to the increase in operating cash flow. Cash flow from operations was negatively impacted by an increase in other current assets (\$28.3 million) primarily for prepaid insurance and current deferred taxes.

Investing Activities

Three Months Ended March 31, 2006. Included in the capital acquisitions and expenditures during the first three months of 2006 was \$24.1 million for ERT well exploitation programs, further *Gunnison* field development and other deepwater development costs, and \$33.7 million related to Helix's Contracting Services segment (including \$27.5 million for the purchase of the *Caesar*). Further, Helix completed its Stolt acquisition with the purchase of the *DB801* and the *Kestrel* for approximately \$77.9 million. Included in the capital expenditures during the first three months of 2005 was \$17.9 million for ERT well exploitation programs and further *Gunnison* field development and \$4.8 million for Canyon Offshore ROV and trencher systems.

As of March 31, 2006, Helix has the following investments that are accounted for under the equity method of accounting: Deepwater Gateway, L.L.C., Independence Hub, LLC (Independence) and Offshore Technology Solutions Limited (OTSL):

Deepwater Gateway, L.L.C. Helix, along with Enterprise Products Partners L.P. (Enterprise), formed Deepwater Gateway, L.L.C. (a 50/50 venture) to design, construct, install, own and operate a TLP production hub primarily for Anadarko Petroleum Corporation's *Marco Polo* field discovery in the Deepwater Gulf of Mexico. Helix's investment in Deepwater Gateway, L.L.C. totaled \$116.6 million as of March 31, 2006. Included in the investment account was capitalized interest and insurance paid by the Company totaling approximately \$2.1 million.

Independence Hub, LLC. In December 2004, Helix acquired a 20% interest in Independence, an affiliate of Enterprise. Independence will own the Independence Hub platform to be located in Mississippi Canyon block 920 in a water depth of 8,000 feet. Helix's investment in Independence Hub LLC (Independence) was \$62.9 million as of March 31, 2006, and its total investment is expected to be approximately \$83 million. Helix

expects to complete its investment by the end of 2006.

OTSL. In July 2005, Helix acquired a 40% minority ownership interest in OTSL in exchange for its DP DSV, *Witch Queen*. Helix's investment in OTSL totaled \$14.3 million at March 31, 2006. OTSL provides marine construction services to the oil and gas industry in and around Trinidad and Tobago, as well as the U.S. Gulf of Mexico. Further, in conjunction with Helix's investment in OTSL, Helix entered into a one year, unsecured \$1.5 million working capital loan, bearing interest at 6% per annum, with OTSL. Interest is due quarterly beginning September 30, 2005 with a lump sum principal payment due to Helix on June 30, 2006. In the first quarter of 2006, OTSL contracted the *Witch Queen* to Helix

Table of Contents

for certain services to be performed in the U.S. Gulf of Mexico. Helix incurred costs associated with the contract with OTSL totaling approximately \$7.3 million during the first quarter of 2006.

Helix made the following contributions to its equity investments during the three months ended March 31, 2006 and 2005 (in thousands):

	Three Months Ended March 31,	
	2006	2005
Deepwater Gateway, L.L.C.(1)	\$	\$ 72,000
Independence Hub, LLC	11,373	6,327
OTSL		
	\$ 11,373	\$ 78,327

- (1) Contribution made in March 31, 2005 related to Deepwater Gateway, L.L.C. was for the repayment of Helix's portion of the term loan for Deepwater Gateway, L.L.C. Upon repayment of the loan, Helix's \$7.5 million restricted cash was released from escrow and the escrow agreement was terminated.

Helix received the following distributions from its equity investments during the three months ended March 31, 2006 and 2005 (in thousands):

	Three Months Ended March 31,	
	2006	2005
Deepwater Gateway, L.L.C.	\$ 4,000	\$ 11,600
Independence Hub, LLC		
OTSL	68	
	\$ 4,068	\$ 11,600

As of March 31, 2006, Helix had \$30.0 million of restricted cash, included in other assets, net, in the accompanying condensed consolidated balance sheet, all of which related to ERT's escrow funds for decommissioning liabilities associated with the SMI 130 field acquisitions in 2002. Under the purchase agreement for the acquisitions ERT is obligated to escrow 50% of production up to the first \$20 million and 37.5% of production on the remaining balance up to \$33 million in total escrow. ERT may use the restricted cash for decommissioning the related fields.

In March 2005, Canyon Offshore sold an ROV for \$2.1 million in cash and recognized a gain on the sale totaling \$925,000.

In April 2000, ERT acquired a 20% working interest in *Gunnison*, a Deepwater Gulf of Mexico prospect of Kerr-McGee Oil & Gas Corp. Financing for the exploratory costs of approximately \$20 million was provided by an

investment partnership (OKCD Investments, Ltd. or OKCD), the investors of which include current and former Helix senior management, in exchange for a revenue interest that is an overriding royalty interest of 25% of Helix's 20% working interest. Production began in December 2003. Payments to OKCD from ERT totaled \$9.6 million and \$6.5 million in the first three months of 2006 and 2005, respectively.

As an extension of ERT's well exploitation and PUD strategies, ERT agreed to participate in the drilling of an exploratory well (Tulane prospect) that was drilled in the first quarter of 2006. This prospect targeted reserves in deeper sands, within the same trapping fault system, of a currently producing well. In March 2006, mechanical difficulties were experienced in the drilling of this well, and after further review, Helix concluded that the wellbore would be plugged and abandoned. The total estimated cost to Helix of approximately \$20.7 million was charged to earnings in the first quarter of 2006. Helix will continue to evaluate various options with the operator for recovering the potential reserves. Approximately \$5.5 million of the equipment was redeployed and remains capitalized.

In March 2005, ERT acquired a 30% working interest in a proven undeveloped field in Atwater Block 63 (Telemark) of the Deepwater Gulf of Mexico for cash and assumption of certain decommissioning liabilities. In December 2005, ERT was advised by Norsk Hydro USA Oil and Gas, Inc. (Norsk Hydro) that Norsk

Table of Contents

Hydro will not pursue their development plan for the deepwater discovery. ERT did not support that development plan and is currently developing its own plans based on the marginal field methodologies that were envisaged when the working interest was acquired. Any revised development plan will have to be approved by the Minerals Management Service. In April 2006, Norsk Hydro relinquished its interest in Telemark to ERT.

In April 2005, ERT entered into a participation agreement to acquire a 50% working interest in the Devil's Island discovery (Garden Banks Block 344 E/2) in 2,300 feet water depth. This deepwater development is operated by Amerada Hess. An appraisal well was drilled in April 2006 and was suspended. A new sidetrack well completion plan is currently under review. The field will ultimately be developed via a subsea tieback to Baldpate Field (Garden Banks Block 260). Under the participation agreement, ERT will pay 100% of the drilling costs and a disproportionate share of the development costs to earn 50% working interest in the field.

Also in April 2005, ERT acquired a 37.5% working interest in the Bass Lite discovery (Atwater Blocks 182, 380, 381, 425 and 426) in 7,500 feet water depth along with varying interests in 50 other blocks of exploration acreage in the eastern portion of the Atwater lease protraction area from BHP Billiton. The Bass Lite discovery contains proved undeveloped gas reserves in a sand discovered in 2001 by the Atwater 426 #1 well. In October 2005, ERT exchanged 15% of its working interest in Bass Lite for a 40% working interest in the Tiger Prospect located in Green Canyon Block 195. ERT paid \$1.0 million in the exchange with no corresponding gain or loss recorded on the transaction.

In February 2006, ERT entered into a participation agreement with Walter Oil & Gas for a 20% interest in the Huey prospect in Garden Banks Blocks 346/390 in 1,835 feet water depth. Drilling of the exploration well began in April 2006. If successful, the development plan would consist of a subsea tieback to the Baldpate Field (Garden banks 260). Under the participation agreement, ERT has committed to pay 32% of the costs to casing point to earn the 20% interest in the potential development, with ERT's share of drilling costs estimated to be approximately \$6.7 million.

As of March 31, 2006, Helix had incurred costs of \$63.3 million and had committed to an additional estimated \$64 million for development and drilling costs related to the above property transactions.

Also in April 2005, Helix agreed to acquire the diving and shallow water pipelay assets of Stolt Offshore that currently operate in the waters of the Gulf of Mexico (GOM) and Trinidad. On November 1, 2005, Helix closed the transaction to purchase the diving assets of Stolt that operate in the Gulf of Mexico. In addition, separate agreements to purchase the *DB801* and *Kestrel* were closed in 2006 when these assets completed their work campaigns in Trinidadian waters. The *DB801* was purchased in January 2006 for approximately \$38.0 million. Helix subsequently sold a 50% interest in this vessel in January 2006 for approximately \$19.0 million. Helix received \$6.5 million in cash in 2005 and a \$12.5 million interest-bearing promissory note in 2006. Helix has received \$6.0 million of the promissory note and expects to collect the remaining balance in the second quarter of 2006. Subsequent to the sale of the 50% interest, Helix entered into a 10 year charter lease agreement with the purchaser, in which the lessee has an option to purchase the remaining 50% interest in the vessel beginning in January 2009. This lease was accounted for as an operating lease. Included in Helix's lease accounting analysis was an assessment of the likelihood of the lessee performing under the full term of the lease. The carrying amount of the *DB801* at March 31, 2006, was approximately \$18.6 million. Minimum future rentals to be received on this lease are \$73.0 million over the next ten years (\$7.3 million per year). In addition, under the lease agreement, the lessee is able to credit \$2.35 million of its lease payments per year against the remaining 50% interest in the *DB801* not already owned.

In addition, in January 2006, one of Helix's subsidiaries, Vulcan Marine Technology LLC, purchased the *Caesar* for the Contracting Services segment for approximately \$27.5 million in cash. It is currently under charter to a third-party. After completion of the charter (anticipated to end in mid-2006), Helix plans to convert the vessel into a deepwater pipelay asset. Total conversion costs are estimated to be approximately \$93 million, of which \$1.7 million had been committed at March 31, 2006. Helix has entered into an agreement with a third-party (currently leasing the vessel),

whereby, it has an option to purchase up to 49% of Vulcan for consideration totaling (i) \$32.0 million cash prior to the vessel entering conversion plus its proportionate share of actual conversion costs (estimated to be \$93 million), or (ii) once conversion begins,

Table of Contents

proportionate share (up to 49%) of total vessel and conversion costs (estimated to be \$120 million). The third-party must make all contributions to Vulcan on or before December 28, 2006. In addition, Helix will upgrade the *Q4000* to include drilling via the addition of a modular-based drilling system for approximately \$40 million, of which approximately \$10 million had been committed at March 31, 2006.

Year Ended December 31, 2005. Capital expenditures have consisted principally of strategic asset acquisitions related to the purchase or construction of DP vessels, acquisition of select businesses, improvements to existing vessels, acquisition of oil and gas properties and investments in our Production Facilities. Helix incurred \$539.1 million of capital investments during 2005, \$82.3 million during 2004 and \$95.4 million in 2003.

Helix incurred \$428.1 million of capital expenditures and business acquisitions during 2005 compared to \$50.1 million during the comparable prior year period. Included in the capital acquisitions and expenditures during 2005 was \$163.5 million for the Murphy properties, \$85.6 million for the acquisition of the Torch Offshore assets, \$42.9 million for the GOM Stolt Offshore assets, \$32.7 million for the purchase of Helix Energy Limited (the cash portion of which was approximately \$27.1 million), \$79.0 million for ERT well exploitation programs and further *Gunnison* field development, \$14.6 million for Canyon Offshore ROV and trencher systems, and the balance primarily related to vessel upgrades on certain Deepwater Contracting and Shelf Contracting vessels.

Helix incurred \$50.1 million of capital expenditures during the year ended December 31, 2004 compared to \$93.2 million during the prior year. Included in the capital expenditures during 2004 was \$5.5 million for the purchase of an intervention riser system, \$14.8 million for ERT well exploitation programs, \$19.6 million for further *Gunnison* field development, \$6.7 million for the purchase of an operations facility in Aberdeen, Scotland to serve as our UK headquarters and \$3.5 million for the purchase and upgrade of a trencher system for our ROV division. Included in the capital expenditures during 2003 was \$17.5 million for the purchase of ROV units to support the Canyon MSA agreement with Technip/Coflexip to provide robotic and trenching services, \$39.6 million related to *Gunnison* development costs, including the spar, as well as \$39.7 million relating to ERT's 2003 well exploitation program.

During 2005, Helix invested \$111.1 million in its Production Facilities segment which consists of its investments in Deepwater Gateway, L.L.C. and Independence Hub, LLC. In June 2002, Helix, along with Enterprise Products Partners L.P. (Enterprise), formed Deepwater Gateway, L.L.C. (a 50/50 venture accounted for by Helix under the equity method of accounting) to design, construct, install, own and operate a TLP production hub primarily for Anadarko Petroleum Corporation's *Marco Polo* field discovery in the Deepwater Gulf of Mexico. Helix's investment in Deepwater Gateway, L.L.C. totaled \$117.2 million as of December 31, 2005 (\$72.0 million of which was contributed in 2005). Included in the investment account was capitalized interest and insurance paid by Helix totaling approximately \$2.2 million. In August 2002, Helix along with Enterprise, completed a limited recourse project financing for this venture. In accordance with terms of the term loan of \$144 million, Deepwater Gateway, L.L.C. had the right to repay the principal amount plus any accrued interest due under its term loan at any time without penalty. Deepwater Gateway, L.L.C. repaid in full its term loan in March 2005. Helix and Enterprise made equal cash contributions (\$72 million each) to Deepwater Gateway, L.L.C. to fund the repayment. Upon repayment of the term loan, Helix's \$7.5 million of restricted cash was released from escrow and the escrow agreement was terminated. Further, Helix received cash distributions from Deepwater Gateway, L.L.C. totaling \$21.1 million in 2005.

In December 2004, Helix acquired a 20% interest (accounted for by Helix under the equity method of accounting) in Independence Hub, LLC (Independence), an affiliate of Enterprise. Independence will own the Independence Hub platform to be located in Mississippi Canyon block 920 in a water depth of 8,000 feet. Helix's investment was \$50.8 million as of December 31, 2005, and its total investment is expected to be approximately \$83 million (\$39.1 million of which was contributed in 2005). Further, Helix is party to a guaranty agreement with Enterprise to the extent of Helix's ownership in Independence. The agreement states, among other things, that Helix and Enterprise guarantee performance under the Independence Hub Agreement between Independence and the producers group of

exploration and production companies up to \$397.5 million, plus applicable attorneys fees and related expenses. Helix has estimated the fair value of its share of the

Table of Contents

guarantee obligation to be immaterial at December 31, 2005 based upon the remote possibility of payments being made under the performance guarantee.

In July 2005, Helix acquired a 40% minority ownership interest in Offshore Technology Solutions Limited (OTSL) in exchange for Helix's DP DSV, *Witch Queen*. Helix's investment in OTSL totaled \$11.5 million at December 31, 2005. OTSL provides marine construction services to the oil and gas industry in and around Trinidad and Tobago, as well as the U.S. Gulf of Mexico. Helix accounts for its investment in OTSL under the equity method of accounting.

Further, in conjunction with its investment in OTSL, Helix entered into a one year, unsecured \$1.5 million working capital loan, bearing interest at 6% per annum, with OTSL. Interest is due quarterly beginning September 30, 2005 with a lump sum principal payment due to Helix on June 30, 2006.

In the third and fourth quarters of 2005, OTSL contracted the *Witch Queen* to Helix for certain services to be performed in the U.S. Gulf of Mexico. Helix incurred costs under its contract with OTSL totaling approximately \$11.1 million during the third and fourth quarters of 2005.

As of December 31, 2005, Helix had \$27.0 million of restricted cash, included in other assets, net in the accompanying consolidated balance sheet, all of which related to ERT's escrow funds for decommissioning liabilities associated with the SMI 130 field acquisitions in 2002. Under the purchase agreement, ERT is obligated to escrow 50% of production up to the first \$20 million and 37.5% of production on the remaining balance up to \$33 million in total escrow. ERT may use the restricted cash for decommissioning the related fields.

In January 2002, Helix purchased Canyon, a supplier of remotely operated vehicles (ROVs) and robotics to the offshore construction and telecommunications industries. In connection with the acquisition, Helix committed to purchase the redeemable stock in Canyon at a price to be determined by Canyon's performance during the years 2002 through 2004 from continuing employees at a minimum purchase price of \$13.53 per share (or \$7.5 million). Helix also agreed to make future payments relating to the tax impact on the date of redemption, whether or not employment continued. As they are employees, any share price paid in excess of the \$13.53 per share was recorded as compensation expense. These remaining shares were classified as long-term debt in the accompanying balance sheet and have been adjusted to their estimated redemption value at each reporting period based on Canyon's performance. In March 2005, Helix purchased the final one-third of the redeemable shares at the minimum purchase price of \$13.53 per share. Consideration included approximately \$337,000 of contingent consideration relating to tax gross-up payments paid to the Canyon employees in accordance with the purchase agreement. This gross-up amount was recorded as goodwill in the period paid.

In April 2000, ERT acquired a 20% working interest in *Gunnison*, a Deepwater Gulf of Mexico prospect of Kerr-McGee Oil & Gas Corp. Financing for the exploratory costs of approximately \$20 million was provided by an investment partnership (OKCD Investments, Ltd. or OKCD), the investors of which include current and former Helix senior management, in exchange for a revenue interest that is an overriding royalty interest of 25% of Helix's 20% working interest. Production began in December 2003. Payments to OKCD from ERT totaled \$28.1 million and \$20.3 million in the years ended December 31, 2005 and 2004, respectively. Helix's Chief Executive Officer, as a Class A limited partner of OKCD, personally owns approximately 67% of the partnership. Other executive officers of the Company own approximately 6% combined of the partnership. In 2000, OKCD also awarded Class B limited partnership interests to key Helix employees.

As an extension of ERT's well exploitation and PUD strategies, ERT agreed to participate in the drilling of an exploratory well (Tulane prospect) that was drilled in 2006. This prospect targeted reserves in deeper sands, within the same trapping fault system, of a currently producing well. In March 2006, mechanical difficulties were experienced in the drilling of this well, and after further review, ERT concluded the wellbore would be plugged and abandoned. The

total estimated cost to ERT of approximately \$20.7 million was charged to earnings in the first quarter of 2006. ERT will continue to evaluate various options with the operator for recovering the potential reserves. Approximately \$5.5 million of the equipment was redeployed and remains capitalized.

Table of Contents

In March 2005, ERT acquired a 30% working interest in a proven undeveloped field in Atwater Valley Block 63 (Telemark) of the Deepwater Gulf of Mexico for cash and assumption of certain decommissioning liabilities. In December 2005, ERT was advised by Norsk Hydro USA Oil and Gas, Inc., that they will not pursue their development plan for Telemark. ERT did not support that development plan and is currently developing its own plans based on the marginal field methodologies that were envisaged when the working interest was acquired. Any revised development plan will have to be approved by the MMS.

In April 2005, ERT entered into a participation agreement to acquire a 50% working interest in the Devil's Island discovery (Garden Banks Block 344 E/2) in 2,300 feet water depth. This deepwater development is operated by Amerada Hess and will be drilled in 2006. The field will be developed via a subsea tieback to Baldpate Field (Garden Banks Block 260). Under the participation agreement, ERT will pay 100% of the drilling costs and a disproportionate share of the development costs to earn 50% working interest in the field. Helix's Deepwater Contracting assets would participate in this development.

Also, in April 2005, ERT acquired a 37.5% working interest in the Bass Lite discovery (Atwater Blocks 182, 380, 381, 425 and 426) in 7,500 feet water depth along with varying interests in 50 other blocks of exploration acreage in the eastern portion of the Atwater lease protraction area from BHP Billiton. The Bass Lite discovery contains proved undeveloped gas reserves in a sand discovered in 2001 by the Atwater 426 #1 well. In October 2005, ERT exchanged 15% of its working interest in Bass Lite for a 40% working interest in the Tiger Prospect located in Green Canyon Block 195. ERT paid \$1.0 million in the exchange with no corresponding gain or loss recorded on the transaction.

In June 2005, ERT acquired a mature property package on the Gulf of Mexico shelf from Murphy Exploration & Production Company USA (Murphy), a wholly owned subsidiary of Murphy Oil Corporation. The acquisition cost to ERT included both cash (\$163.5 million) and the assumption of the estimated abandonment liability from Murphy of approximately \$32.0 million. The acquisition represents essentially all of Murphy's Gulf of Mexico Shelf properties consisting of eight operated and eleven non-operated fields. ERT estimates proved reserves of the acquisition to be approximately 75 BCF equivalent. The results of the acquisition are included in Helix's statements of operations since the date of purchase.

In February 2006, ERT entered into a participation agreement with Walter Oil & Gas for a 20% interest in the Huey prospect in Garden Banks Blocks 346/390 in 1,835 feet water depth. Drilling of the exploration well is expected to begin March 2006. If successful, the development plan would consist of a subsea tieback to the Baldpate Field (Garden Banks 260). Under the participation agreement, ERT has committed to pay 32% of the costs to casing point to earn the 20% interest in the potential development, with ERT's share of drilling costs of approximately \$6.7 million.

As of December 31, 2005, Helix had spent \$31.5 million and had committed to an additional estimated \$78 million for development and drilling costs related to the above property transactions.

In a bankruptcy auction held in June 2005, Helix was the high bidder for seven vessels, including the *Express*, and a portable saturation system for approximately \$85 million, subject to the terms of an amended and restated asset purchase agreement, executed in May 2005, with Torch Offshore, Inc. and its wholly owned subsidiaries, Torch Offshore, L.L.C. and Torch Express, L.L.C. This transaction received regulatory approval, including completion of a review pursuant to a Second Request from the U.S. Department of Justice, in August 2005 and subsequently closed. The total purchase price for the Torch vessels was approximately \$85.6 million, including certain costs incurred related to the transaction. The acquisition was an asset purchase with the acquisition price allocated to the assets acquired based upon their estimated fair values. All of the assets acquired, except for the *Express* (Deepwater Contracting segment) and the portable saturation system (included in assets held for sale in other current assets in the accompanying consolidated balance sheet), are included in the Shelf Contracting segment. The results of the acquired vessels are included in Helix's condensed consolidated statements of operations since the date of the purchase,

August 31, 2005.

In April 2005, Helix agreed to acquire the diving and shallow water pipelay assets of Stolt Offshore that operate in the waters of the Gulf of Mexico (GOM) and Trinidad. The transaction included: seven diving support vessels; two diving and pipelay vessels (the *Kestrel* and the *DB 801*); a portable saturation diving system; various general diving equipment and Louisiana operating bases at the Port of Iberia and Fourchon. The transaction required regulatory approval, including the completion of a review pursuant to a Second

Table of Contents

Request from the U.S. Department of Justice. On October 18, 2005, Helix received clearance from the U.S. Department of Justice to close the asset purchase from Stolt. Under the terms of the clearance, Helix will divest two diving support vessels and a portable saturation diving system from the combined asset package acquired through this transaction and the Torch transaction which closed August 31, 2005. These assets were included in assets held for sale totaling \$7.8 million (included in other current assets in the accompanying consolidated balance sheet) as of December 31, 2005. On November 1, 2005, Helix closed the transaction to purchase the Stolt diving assets operating in the Gulf of Mexico. The Shelf Contracting assets include: seven diving support vessels, a portable saturation diving system, various general diving equipment and Louisiana operating bases at the Port of Iberia and Fourchon. The acquisition was accounted for as a business purchase with the acquisition price allocated to the assets acquired and liabilities assumed based upon their estimated fair values, with the excess being recorded as goodwill. The preliminary allocation of the purchase price at December 31, 2005 resulted in \$12.0 million allocated to vessels (including the asset held for sale at December 31, 2005), \$10.1 million allocated to the portable saturation diving system and various general diving equipment and inventory, \$4.3 million to operating bases at the Port of Iberia and Fourchon, \$3.7 million allocated to a customer-relationship intangible asset (amortized over 8 years on a straight line basis) and goodwill of approximately \$12.8 million. The results of the acquisition are included in Helix's statements of operations since the date of the purchase. Helix acquired the *DB 801* in January 2006 for approximately \$38.0 million. Helix subsequently sold a 50% interest in the vessel in January 2006 for approximately \$19.0 million. The purchaser has an option to purchase the remaining 50% interest in the vessel beginning in January 2009. This will result in a subsequent revision to the purchase price allocation of the Stolt acquisition. The *Kestrel* was acquired by Helix in March 2006 for approximately \$40 million. The preliminary allocation of the purchase price was based upon preliminary valuations and estimates and assumptions are subject to change upon the receipt and management's review of the final valuations. The primary areas of the purchase price allocation which are not yet finalized relate to identifiable intangible assets and residual goodwill. The final valuation of net assets is expected to be completed no later than one year from the acquisition date. The total transaction value for all of the assets at December 31, 2005 was approximately \$120 million.

On November 3, 2005, Helix acquired Helix Energy Limited for approximately \$32.7 million (approximately \$27.1 million in cash, including transaction costs, and \$5.6 million at time of acquisition in two year, variable rate notes payable to certain former owners), offset by \$3.4 million of cash acquired. Helix Energy Limited is an Aberdeen, UK based provider of reservoir and well technology services to the upstream oil and gas industry with offices in London, Kuala Lumpur (Malaysia) and Perth (Australia). The acquisition was accounted for as a business purchase with the acquisition price allocated to the assets acquired and liabilities assumed based upon their estimated fair values, with the excess being recorded as goodwill. The preliminary allocation of the purchase price resulted in \$8.9 million allocated to net working capital, equipment and other assets acquired, \$1.1 million allocated to patented technology (to be amortized over 20 years), \$7.1 million allocated to a customer-relationship intangible asset (to be amortized over 12 years), \$2.1 million allocated to covenants-not-to-compete (to be amortized over 3.5 years), \$6.3 million allocated to trade name (not amortized, but tested for impairment on an annual basis) and goodwill of approximately \$7.2 million. Resulting amounts are included in the Deepwater Contracting segment. The preliminary allocation of the purchase price was based upon preliminary valuations and estimates and assumptions are subject to change upon the receipt and management's review of the final valuations. The primary areas of the purchase price allocation which are not yet finalized relate to identifiable intangible assets and residual goodwill. The final valuation of net assets is expected to be completed no later than one year from the acquisition date. The results of Helix Energy Limited are included in the accompanying statements of operations since the date of the purchase.

Financing Activities

Helix has financed seasonal operating requirements and capital expenditures with internally generated funds, borrowings under credit facilities, the sale of equity and project financings.

Convertible Senior Notes.

On March 30, 2005, Helix issued \$300 million of 3.25% Convertible Senior Notes due 2025 (Convertible Senior Notes) at 100% of the principal amount to certain qualified institutional buyers. The Convertible

Table of Contents

Senior Notes are convertible into cash and, if applicable, shares of Helix's common stock based on the specified conversion rate, subject to adjustment. As a result of Helix's two for one stock split paid on December 8, 2005, effective as of December 2, 2005, the initial conversion rate of the Convertible Senior Notes of 15.56, which was equivalent to a conversion price of approximately \$64.27 per share of common stock, was changed to 31.12 shares of common stock per \$1,000 principal amount of the Convertible Senior Notes, which is equivalent to a conversion price of approximately \$32.14 per share of common stock. Helix may redeem the Convertible Senior Notes on or after December 20, 2012. Beginning with the period commencing on December 20, 2012 to June 14, 2013 and for each six-month period thereafter, in addition to the stated interest rate of 3.25% per annum, Helix will pay contingent interest of 0.25% of the market value of the Convertible Senior Notes if, during specified testing periods, the average trading price of the Convertible Senior Notes exceeds 120% or more of the principal value. In addition, holders of the Convertible Senior Notes may require Helix to repurchase the notes at 100% of the principal amount on each of December 15, 2012, 2015, and 2020, and upon certain events.

The Convertible Senior Notes can be converted prior to the stated maturity under the following circumstances:

during any fiscal quarter (beginning with the quarter ended March 31, 2005) if the closing sale price of Helix's common stock for at least 20 trading days in the period of 30 consecutive trading day ending on the last trading day of the preceding fiscal quarter exceeds 120% of the conversion price on that 30th trading day (i.e. \$38.56 per share);

upon the occurrence of specified corporate transactions; or

if Helix has called the Convertible Senior Notes for redemption and the redemption has not yet occurred.

To the extent Helix does not have alternative long-term financing secured to cover such conversion notice, the Convertible Senior Notes would be classified as a current liability in the accompanying balance sheet.

In connection with any conversion, Helix will satisfy its obligation to convert the Convertible Senior Notes by delivering to holders in respect of each \$1,000 aggregate principal amount of notes being converted a settlement amount consisting of:

cash equal to the lesser of \$1,000 and the conversion value, and

to the extent the conversion value exceeds \$1,000, a number of shares equal to the quotient of (A) the conversion value less \$1,000, divided by (B) the last reported sale price of Helix's common stock for such day.

The conversion value means the product of (1) the conversion rate in effect (plus any applicable additional shares resulting from an adjustment to the conversion rate) or, if the Convertible Senior Notes are converted during a registration default, 103% of such conversion rate (and any such additional shares), and (2) the average of the last reported sale prices of Helix's common stock for the trading days during the cash settlement period.

Approximately 118,000 shares underlying the Convertible Senior Notes were included in the calculation of diluted earnings per share because Helix's share price as of December 31, 2005, was above the conversion price of approximately \$32.14 per share. As a result, there would be a premium over the principal amount, which is paid in cash, and the shares would be issued on conversion. The maximum number of shares of common stock which may be issued upon conversion of the Convertible Senior Notes is 13,303,770. In addition to the 13,303,770 shares of common stock registered, Helix registered an indeterminate number of shares of common stock issuable upon conversion of the Convertible Senior Notes by means of an antidilution adjustment of the conversion price pursuant to the terms of the Convertible Senior Notes. Proceeds from the offering were used for general corporate purposes

including a capital contribution of \$72 million (made in March 2005) to Deepwater Gateway, L.L.C. to enable it to repay its term loan, \$163.5 million related to the ERT acquisition of the Murphy properties in June 2005 and to partially fund the approximately \$85.6 million purchase of the Torch vessels acquired in August 2005.

Table of Contents

MARAD Debt

At December 31, 2005, \$134.9 million was outstanding on Helix's long-term financing for construction of the *Q4000*. This U.S. Government guaranteed financing is pursuant to Title XI of the Merchant Marine Act of 1936 which is administered by the Maritime Administration (*MARAD Debt*). The *MARAD Debt* is payable in equal semi-annual installments which began in August 2002 and matures 25 years from such date. Helix made two payments each during 2005 and 2004 totaling \$4.3 million and \$2.9 million, respectively. The *MARAD Debt* is collateralized by the *Q4000*, with Helix guaranteeing 50% of the debt, and initially bore interest at a floating rate which approximated AAA Commercial Paper yields plus 20 basis points. As provided for in the existing *MARAD Debt* agreements, in September 2005 Helix fixed the interest rate on the debt through the issuance of a 4.93% fixed-rate note with the same maturity date (February 2027). In accordance with the *MARAD Debt* agreements, Helix is required to comply with certain covenants and restrictions, including the maintenance of minimum net worth, working capital and debt-to-equity requirements. As of December 31, 2005, Helix was in compliance with these covenants.

Further, Helix made one payment on the *MARAD Debt* during each of the three months ended March 31, 2006 and 2005 totaling \$1.8 million and \$2.1 million, respectively. As of March 31, 2006, Helix was in compliance with the covenants set forth in the *MARAD Debt* agreements.

In September 2005, Helix entered into an interest rate swap agreement with a bank. The swap was designated as a cash flow hedge of a forecasted transaction in anticipation of the refinancing of the *MARAD Debt* from floating rate debt to fixed-rate debt that closed on September 30, 2005. The interest rate swap agreement totaled an aggregate notional amount of \$134.9 million with a fixed interest rate of 4.695%. On September 30, 2005, Helix terminated the interest rate swap and received cash proceeds of approximately \$1.5 million representing a gain on the interest rate differential. This gain will be deferred and amortized over the remaining life of the *MARAD Debt* as an adjustment to interest expense.

Revolving Credit Facility

In August 2004, Helix entered into a four year, \$150 million revolving credit facility with a syndicate of banks, with Bank of America, N.A. as administrative agent and lead arranger. The amount available under the facility may be increased to \$250 million at any time upon the agreement of Helix and the existing or additional lenders. The credit facility is secured by the stock in certain Helix subsidiaries and contains a negative pledge on assets. The new facility bears interest at LIBOR plus 75 – 175 basis points depending on Helix leverage and contains financial covenants relative to Helix's level of debt to EBITDA, as defined in the credit facility, fixed charge coverage and book value of assets coverage. As of each of March 31, 2006 and December 31, 2005, Helix was in compliance with these covenants and there was no outstanding balance under this facility.

Other

Helix had a \$35 million term loan facility which was obtained to assist Helix in funding its portion of the construction costs of the spar for the *Gunnison* field. The loan was repaid in full in August 2004, and the loan agreement was subsequently cancelled and terminated.

In connection with the acquisition of Helix Energy Limited (see *Investing Activities* above), on November 3, 2005, Helix entered into two year notes payable to former owners totaling approximately 3.1 million British Pounds, or approximately \$5.6 million, (approximately \$5.4 million at December 31, 2005). The notes bear interest at a LIBOR based floating rate with payments due quarterly beginning January 31, 2006. Principal amounts are due in November 2007.

In connection with borrowings under credit facilities and long-term debt financings, Helix has paid deferred financing costs totaling \$11.7 million, \$4.6 million and \$208,000 in the years ended December 31, 2005, 2004 and 2003, respectively, and \$7.6 million in the three months ended March 31, 2005.

On January 8, 2003, Helix completed the private placement of \$25 million of a newly designated class of cumulative convertible preferred stock (Series A-1 Cumulative Convertible Preferred Stock, par value \$0.01 per share) that is convertible into 1,666,668 shares of Helix common stock at \$15.00 per share. The preferred stock was issued to a private investment firm. Subsequently in June 2004, the preferred stockholder exercised

Table of Contents

its existing right and purchased \$30 million in additional cumulative convertible preferred stock (Series A-2 Cumulative Convertible Preferred Stock, par value \$0.01 per share). In accordance with the January 8, 2003 agreement, the \$30 million in additional preferred stock is convertible into 1,964,058 shares of Helix common stock at \$15.27 per share. In the event the holder of the convertible preferred stock elects to redeem into Helix common stock and Helix's common stock price is below the conversion prices, unless the Company has elected to settle in cash, the holder would receive additional shares above the 1,666,668 common shares (Series A-1 tranche) and 1,964,058 common shares (Series A-2 tranche). The incremental shares would be treated as a dividend and reduce net income applicable to common shareholders. The preferred stock has a minimum annual dividend rate of 4%, subject to adjustment, payable quarterly in cash or common shares at Helix's option. Helix paid these dividends in 2005 and 2004 on the last day of the respective quarter in cash. The holder may redeem the value of its original and additional investment in the preferred shares to be settled in common stock at the then prevailing market price or cash at the discretion of Helix. In the event Helix is unable to deliver registered common shares, Helix could be required to redeem in cash. Helix paid \$1.1 million and \$550,000 in dividends for the three months ended March 31, 2006 and 2005, respectively.

In August 2003, Canyon Offshore, Ltd. (a U.K. subsidiary COL) (with a parent guarantee from Helix) completed a capital lease with a bank refinancing the construction costs of a newbuild 750 horsepower trenching unit and a ROV. COL received proceeds of \$12 million for the assets and agreed to pay the bank sixty monthly installment payments of \$217,174 (resulting in an implicit interest rate of 3.29%). No gain or loss resulted from this transaction. COL has an option to purchase the assets at the end of the lease term for \$1. The proceeds were used to reduce Helix's revolving credit facility, which had initially funded the construction costs of the assets. This transaction was accounted for as a capital lease with the present value of the lease obligation (and corresponding asset) being reflected on Helix's consolidated balance sheet beginning in the third quarter of 2003.

In April 2005, 2004 and 2003, Helix purchased approximately one-third each year of the redeemable stock in Canyon related to the Canyon purchase at the minimum purchase price of \$13.53 per share (\$2.4 million, \$2.5 million and \$2.7 million, respectively).

During the first three months of 2006 and 2005, Helix made payments of \$739,000 and \$702,000, respectively, on capital leases relating to Canyon. The only other financing activity during the three months ended March 31, 2006 and 2005 involved exercises of employee stock options of \$7.7 million and \$6.1 million, respectively. In addition, in the first quarter of 2006, financing activities included \$6.7 million of excess tax benefits related to exercise of options and vesting of restricted shares. During 2005, 2004 and 2003, Helix made payments of \$2.9 million, \$3.6 million and \$2.4 million separately on capital leases related to Canyon. The only other financing activity during 2005, 2004 and 2003 involved the exercise of employee stock options (\$8.7 million, \$11.0 million and \$3.6 million, respectively).

Table of Contents

Contractual Obligations as of March 31, 2006. The following table summarizes Helix's contractual cash obligations as of March 31, 2006 and the scheduled years in which the obligations are contractually due (in thousands):

	Total(1)	Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Convertible Senior Notes(2)	\$ 300,000	\$	\$	\$	\$ 300,000
MARAD debt	133,129	3,731	8,030	8,851	112,517
Revolving debt					
Loan notes	5,452		5,452		
Capital leases	6,113	2,707	3,406		
Acquisition of businesses(3)	814,000	814,000			
Investments in Independence Hub, LLC	20,000	20,000			
Drilling and development costs	64,000	32,000	32,000		
Property and equipment(4)	108,000	108,000			
Operating leases	16,646	2,693	4,077	3,253	6,623
Total cash obligations	\$ 1,467,340	\$ 983,131	\$ 52,965	\$ 12,104	\$ 419,140

- (1) Excludes guarantee of performance related to the construction of the Independence Hub platform under Independence Hub, LLC (estimated to be immaterial at March 31, 2006) and unsecured letters of credit outstanding at March 31, 2006 totaling \$6.9 million. These letters of credit primarily guarantee various contract bidding and insurance activities.
- (2) Maturity 2025. Can be converted prior to stated maturity if closing sale price of Helix's common stock for at least 20 days in the period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter exceeds 120% of the closing price on that 30th trading day (i.e. \$38.56 per share).
- (3) Helix expects to fund the cash portion of the merger (approximately \$814 million) through a senior secured term facility which has been underwritten by a bank (not reflected in the table above).
- (4) At December 31, 2005, Helix had committed to purchase a certain Contracting Services vessel (*Caesar*) to be converted into a deepwater pipelay vessel. The vessel was purchased in January 2006 for \$27.5 million and estimated conversion costs are estimated to be approximately \$93 million, of which \$1.7 million was committed at March 31, 2006. Further, Helix will upgrade the *Q4000* to include drilling via the addition of a modular-based drilling system for approximately \$40 million, of which approximately \$10 million had been committed at March 31, 2006.

Contractual Obligations as of December 31, 2005. The following table summarizes our contractual cash obligations as of December 31, 2005 and the scheduled years in which the obligation are contractually due (in thousands):

	Total(1)	Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Convertible Senior Notes(2)	\$ 300,000	\$	\$	\$	\$ 300,000

Edgar Filing: HELIX ENERGY SOLUTIONS GROUP INC - Form 424B3

MARAD debt	134,927	3,641	7,837	8,638	114,811
Revolving debt					
Capital leases	6,852	2,828	4,024		
Helix Energy Limited loan notes	5,393		5,393		
Acquisition of Stolt assets(3)	78,000	78,000			
Investments in Independence Hub, LLC	32,200	32,200			
Drilling and development costs	78,000	78,000			
Property and equipment(4)	130,000	130,000			
Operating leases	17,869	4,025	3,940	3,139	6,765
Total cash obligations	\$ 783,241	\$ 328,694	\$ 21,194	\$ 11,777	\$ 421,576

Table of Contents

- (1) Excludes Helix guarantee of performance related to the construction of the Independence Hub platform under Independence Hub, LLC (estimated to be immaterial at December 31, 2005), and unsecured letters of credit outstanding at December 31, 2005 totaling \$6.7 million. These letters of credit primarily guarantee various contract bidding and insurance activities. Helix has estimated decommissioning costs of \$15.0 million for 2006 and \$106.3 million thereafter which are excluded from table above as the amounts are not contractually committed at December 31, 2005.
- (2) Maturity 2025. Can be converted prior to stated maturity if closing sale price of Helix's common stock for at least 20 trading days in the period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter exceeds 120% of the closing price on that 30th trading day (i.e. \$38.56 per share).
- (3) In April 2005, Helix announced that it had reached an agreement (subject to certain regulatory approvals) to acquire certain assets of Stolt Offshore for approximately \$120 million. Helix acquired the *DB 801* in January 2006 for approximately \$38.0 million. Helix subsequently sold a 50% interest in the vessel in January 2006 for approximately \$19.0 million. Helix acquired the *Kestrel* in March 2006 for approximately \$40 million.
- (4) At December 31, 2005, Helix had committed to purchase a certain Deepwater Contracting vessel (the *Caesar*) to be converted into a deepwater pipelay vessel. Total purchase price and conversion costs are estimated to be approximately \$125 million to be incurred over the next year. Further, Helix had committed approximately \$5 million of the \$40 million related to the upgrade of the *Q4000*.

In addition, in connection with Helix's business strategy, it regularly evaluates acquisition opportunities (including additional vessels as well as interest in offshore natural gas and oil properties). Helix believes internally generated cash flow, borrowings under existing credit facilities and use of project financings along with other debt and equity alternatives will provide the necessary capital to meet these obligations and achieve its planned growth. However, there can be no assurance that sufficient financings will be available for all future capital expenditures.

Quantitative and Qualitative Disclosures About Market Risk

Helix is currently exposed to market risk in three major areas: interest rates, commodity prices and foreign currency exchange rates.

Interest Rate Risk. Because only 1% of Helix's debt (i.e. the Helix Energy Limited loan notes) at each of March 31, 2006 and December 31, 2005 was based on floating rates, changes in interest would, assuming all other things equal, have a minimal impact on the fair market value of the debt instruments.

Commodity Price Risk. Helix has utilized derivative financial instruments with respect to a portion of 2006, 2005 and 2004 oil and gas production to achieve a more predictable cash flow by reducing its exposure to price fluctuations. Helix does not enter into derivative or other financial instruments for trading purposes.

As of March 31, 2006, Helix has the following volumes under derivative contracts related to our oil and gas producing activities:

Production Period	Instrument Type	Average Monthly Volumes	Weighted Average Price
--------------------------	------------------------	--------------------------------	-------------------------------

Crude Oil:

Edgar Filing: HELIX ENERGY SOLUTIONS GROUP INC - Form 424B3

April 2006	December 2006	Collar	125 MBbl	\$	44.00	\$70.48
January 2007	December 2007	Collar	50 MBbl	\$	40.00	\$62.15
Natural Gas:						
April 2006	December 2006	Collar	666,667 MMBtu	\$	7.38	\$13.37
January 2007	March 2007	Collar	600,000 MMBtu	\$	8.00	\$16.24

Subsequent to March 31, 2006, Helix entered into additional natural gas costless collars for the period of April 2007 through June 2007. The contract covers 500,000 MMBtu per month at a weighted average price of \$8.00 to \$10.62.

Table of Contents

As of December 31, 2005, Helix has the following volumes under derivative contracts related to its oil and gas producing activities:

Production Period	Instrument Type	Average Monthly Volumes	Weighted Average Price
Crude Oil:			
January to December 2006	Collar	125 MBbl	\$ 44.00 \$70.48
January to December 2007	Collar	50 MBbl	\$ 40.00 \$62.15
Natural Gas:			
January to December 2006	Collar	718,750 MMBtu	\$ 8.16 -\$14.40

Subsequent to December 31, 2005, Helix entered into additional natural gas costless collars for the period of January 2007 through March 2007. The contract covers 600,000 MMBtu per month at a weighted average price of \$8.00 to \$16.24.

Changes in NYMEX oil and gas strip prices would, assuming all other things being equal, cause the fair value of these instruments to increase or decrease inversely to the change in NYMEX prices.

Foreign Currency Exchange Rates. Because Helix operates in various oil and gas exploration and production regions in the world, Helix conducts a portion of its business in currencies other than the U.S. dollar (primarily with respect to Well Ops (U.K.) Limited and Helix Energy Limited). The functional currency for Well Ops (U.K.) Limited and Helix Energy Limited is the applicable local currency (British Pound). Although the revenues are denominated in the local currency, the effects of foreign currency fluctuations are partly mitigated because local expenses of such foreign operations also generally are denominated in the same currency. The impact of exchange rate fluctuations during each of the years ended December 31, 2005 and 2004, respectively, and the three months ended March 31, 2006 and 2005, respectively, did not have a material effect on reported amounts of revenues or net income.

Assets and liabilities of Well Ops (U.K.) Limited and Helix Energy Limited are translated using the exchange rates in effect at the balance sheet date, resulting in translation adjustments that are reflected in accumulated other comprehensive income (loss) in the shareholders' equity section of Helix's balance sheet. Approximately 10% of Helix's assets are impacted by changes in foreign currencies in relation to the U.S. dollar at March 31, 2006. Helix recorded unrealized gains (losses) of \$1.2 million and \$(1.6) million, respectively, to its equity account in the three months ended March 31, 2006 and 2005. Helix recorded unrealized (losses) gains of \$(11.4) million and \$10.8 million to its equity account in the years ended December 31, 2005 and 2004, respectively, to reflect the net impact of the strengthening (2005) and the decline (2004) of the U.S. dollar against the British Pound. Beginning in 2004, deferred taxes have not been provided on foreign currency translation adjustments for operations where Helix considers its undistributed earnings of its principal non-U.S. subsidiaries to be permanently reinvested. As a result, cumulative deferred taxes on translation adjustments totaling approximately \$6.5 million were reclassified from noncurrent deferred income taxes and accumulated other comprehensive income.

Canyon Offshore, Helix's ROV subsidiary, has operations in the Europe/West Africa and Asia/Pacific regions. Canyon conducts the majority of its operations in these regions in U.S. dollars which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received, the resulting transaction gain or loss is recognized in the statements of operations. These amounts for each of the years ended December 31, 2005 and 2004, respectively, and the three months ended March 31, 2006 and 2005, respectively, were not material to Helix's results of operations or cash flows.

Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

During its last two fiscal years, Helix has had no change in its independent accountants nor has Helix had any disagreements with its independent accountants on accounting and financial disclosure.

Table of Contents

Directors and Executive Officers

Directors of Helix

Class I Directors (Continuing in Office until 2007)

Owen Kratz Chairman of the Board and Chief Executive Officer Helix Energy Solutions Group, Inc.	Director since 1990 age 51
---	-------------------------------

Mr. Kratz is Chairman and Chief Executive Officer of Helix Energy Solutions Group, Inc. He was appointed Chairman in May 1998 and has served as Helix's Chief Executive Officer since April 1997. Mr. Kratz served as President from 1993 until February 1999, and as a Director since 1990. He served as Chief Operating Officer from 1990 through 1997. Mr. Kratz joined Helix in 1984 and has held various offshore positions, including saturation diving supervisor, and has had management responsibility for client relations, marketing and estimating. Mr. Kratz has a Bachelor of Science degree in Biology and Chemistry from the State University of New York at Stony Brook.

Bernard J. Duroc-Danner Chairman of the Board, Chief Executive Officer and President Weatherford International, Ltd.	Director since 1999 age 52
--	-------------------------------

Mr. Duroc-Danner has served on Helix's Board of Directors since February 1999. He is the Chairman of the Board, Chief Executive Officer and President of Weatherford International Ltd., a provider of equipment and services used for the drilling, completion and production of oil and natural gas wells. Mr. Duroc-Danner also serves as a director of Dresser, Inc., a provider of highly engineered equipment and services, primarily for the energy industry; and Universal Compression, a provider of rental, sales, operations, maintenance and fabrication services and products to the domestic and international natural gas industry. Mr. Duroc-Danner holds a Ph.D. in economics from The Wharton School of the University of Pennsylvania.

John V. Lovoi Principal JVL Partners	Director since 2003 age 45
--	-------------------------------

Mr. Lovoi has served as a Director since February 2003. He is a founder of JVL Partners, a private oil and gas investment partnership. Mr. Lovoi served as head of Morgan Stanley's global oil and gas investment banking practice from 2000 to 2002, and was a leading oilfield services and equipment research analyst for Morgan Stanley from 1995-2000. Prior to joining Morgan Stanley in 1995, he spent two years as a senior financial executive at Baker Hughes and four years as an energy investment banker with Credit Suisse First Boston. Mr. Lovoi also serves as a director of KFX Inc., a clean energy technology company engaged in providing technology and service solutions to the power generation industry. Mr. Lovoi graduated from Texas A&M University with a bachelor of science degree in chemical engineering and received a M.B.A. from the University of Texas.

Class II Directors (Continuing in Office Until 2006)

T. William Porter, III
Chairman
Porter & Hedges, L.L.P.

Director since 2004
age 64

Mr. Porter has served on Helix's Board of Directors since March 2004. He is the Chairman and a founding partner of Porter & Hedges, L.L.P., a Houston law firm formed in 1981. Mr. Porter also serves as a director of Copano Energy L.L.C., a midstream energy company with networks of natural gas gathering and intrastate transmission pipelines in the Texas Gulf Coast region, and U.S. Concrete, Inc., a value-added provider of ready-mixed concrete and related products and services to the construction industry in several major markets in the United States. Mr. Porter graduated with a B.B.A. in Finance from Southern Methodist University in 1963 and received his law degree from Duke University in 1966.

Table of Contents

William L. Transier	Director since 2000
Co-Chief Executive Officer	age 51
Endeavour International Corporation	

Mr. Transier has served on Helix's Board of Directors since October 2000. He is Co-Chief Executive Officer of Endeavour International Corporation, an international oil and gas exploration and production company focused on the North Sea. He served as Executive Vice President and Chief Financial Officer of Ocean Energy, Inc. from March 1999 to April 2003, when Ocean Energy merged with Devon Energy Corporation. From September 1998 to March 1999, Mr. Transier served as Executive Vice President and Chief Financial Officer of Seagull Energy Corporation when Seagull Energy merged with Ocean Energy. From May 1996 to September 1998, he served as Senior Vice President and Chief Financial Officer of Seagull Energy Corporation. Prior thereto, Mr. Transier served in various roles including partner from June 1986 to April 1996 in the audit department of KPMG LLP. He graduated from the University of Texas with a B.B.A. in Accounting and has a M.B.A. from Regis University. He is also a director of Reliant Energy, Inc., a provider of electricity and energy services to retail and wholesale customers in the United States.

Class III Directors (Continuing in Office Until 2008)

Martin Ferron	Director since 1998
President	age 49
Helix Energy Solutions Group, Inc.	

Mr. Ferron has served on Helix's Board of Directors since September 1998. He became President in February 1999 and has served as Chief Operating Officer since January 1998. Mr. Ferron has 25 years of worldwide experience in the oilfield industry, seven of which were in senior management positions with McDermott Marine Construction and Oceaneering International Services Limited immediately prior to his joining Helix. Mr. Ferron has a Civil Engineering degree from City University, London; a Masters Degree in Marine Technology from the University of Strathclyde, Glasgow; and a M.B.A. from the University of Aberdeen. Mr. Ferron is also a Chartered Civil Engineer.

Gordon F. Ahalt	Director since 1990
Retired Consultant	age 78

Mr. Ahalt has served on Helix's Board of Directors since July 1990. Since 1982, Mr. Ahalt has been the President of GFA, Inc., a petroleum industry management and financial consulting firm. From 1977 to 1980, he was President of the International Energy Bank, London, England. From 1980 to 1982, he served as Senior Vice President and Chief Financial Officer of Ashland Oil Company. Prior thereto, he spent a number of years in executive positions with Chase Manhattan Bank. Mr. Ahalt also serves as a director of Bancroft & Elsworth Convertible Funds and other private investment funds. Mr. Ahalt received a B.S. Degree in Petroleum Engineering in 1951 from the University of Pittsburgh.

Anthony Tripodo	Director since 2003
Managing Director	age 53
Arch Creek Advisors LLC	

Mr. Tripodo has served on Helix's Board of Directors since February 2003. He is a Managing Director of Arch Creek Advisors LLC, a Houston based investment banking firm. From 2002 to 2003, Mr. Tripodo was Executive Vice President of Veritas DGC, Inc., an international oilfield service company specializing in geophysical services. Prior to becoming Executive Vice President, he was President of Veritas DGC's North and South American Group, which consists of four operating divisions: marine acquisition, processing, exploration services and multi-client data library. From 1997 to 2001, he was Executive Vice President, Chief Financial Officer and Treasurer of Veritas. Previously, Mr. Tripodo served 16 years in various executive capacities with Baker Hughes, including serving as Chief Financial Officer of both the Baker Performance Chemicals and the Baker Oil Tools divisions. Mr. Tripodo also serves as a director of Petroleum Geo-Services, a Norwegian based oilfield services company and Vetco International Limited, a London based oilfield services company. He graduated summa cum laude with a bachelor of arts degree from St. Thomas University.

Table of Contents***Executive Officers of Helix***

The executive officers of Helix are as follows:

Name	Age	Position
Owen Kratz	51	Chairman and Chief Executive Officer and Director
Martin R. Ferron	49	President and Director
Bart H. Heijermans	39	Executive Vice President and Chief Operating Officer
James Lewis Connor, III	48	Senior Vice President, General Counsel and Corporate Secretary
A. Wade Pursell	41	Senior Vice President, Chief Financial Officer and Treasurer
Lloyd A. Hajdik	40	Vice President Corporate Controller and Chief Accounting Officer

See Directors of Helix above for the past business experience of Messrs. Kratz and Ferron.

Bart H. Heijermans became Executive Vice President and Chief Operating Officer of Helix in September 2005. Prior to joining Helix, Mr. Heijermans worked as Senior Vice President Offshore and Gas Storage for Enterprise Products Partners, L.P. from 2004 to 2005 and previously from 1998 to 2004 was Vice President Commercial and Vice President Operations and Engineering for GulfTerra Energy Partners, L.P. Before his employment with GulfTerra, Mr. Heijermans held various positions with Royal Dutch Shell in the United States, the United Kingdom and the Netherlands. Mr. Heijermans received a Master of Science degree in Civil and Structural Engineering from the University of Delft, the Netherlands and is a graduate of the Harvard Business School Executive Program.

James Lewis Connor, III became Senior Vice President and General Counsel of Helix in May 2002 and Corporate Secretary in July 2002. He had previously served as Deputy General Counsel since May 2000. Mr. Connor has been involved with the oil and gas industry for over 20 years, including nearly 15 years in his capacity as legal counsel to both companies and individuals. Prior to joining Helix, Mr. Connor was a Senior Counsel at El Paso Production Company (formerly Sonat Exploration Company) from 1997 to 2000 and previously from 1995 to 1997 was a senior associate in the oil, gas and energy law section of Hutcheson & Grundy, L.L.P. Mr. Connor received his Bachelor of Science degree from Texas A&M University in 1979 and his law degree, with honors, from the University of Houston in 1991.

A. Wade Pursell is Senior Vice President and Chief Financial Officer of Helix Energy Solutions Group, Inc. In this capacity, which he was appointed to in October 2000, Mr. Pursell oversees the finance, treasury, accounting, tax, administration and corporate planning functions. He joined Helix in May 1997, as Vice President Finance and Chief Accounting Officer. From 1988 through 1997 he was with Arthur Andersen LLP, lastly as an Experienced Manager specializing in the offshore services industry. Mr. Pursell received a Bachelor of Science degree from the University of Central Arkansas.

Lloyd A. Hajdik joined the Company in December 2003 as Vice President Corporate Controller and became Chief Accounting Officer in February 2004. From January 2002 to November 2003 he was Assistant Corporate Controller for Houston-based NL Industries, Inc. Prior to NL Industries, Mr. Hajdik served as Senior Manager of SEC Reporting and Accounting Services for Compaq Computer Corporation from 2000 to 2002, and as Controller for Halliburton's Baroid Drilling Fluids and Zonal Isolation product service lines from 1997 to 2000. Mr. Hajdik served as Controller for Engineering Services for Cliffs Drilling Company from 1995 to 1997 and was with Ernst & Young in the audit practice from 1989 to 1995. Mr. Hajdik graduated from Texas State University San Marcos (formerly Southwest Texas State University) receiving a Bachelor of Business Administration degree. Mr. Hajdik is a Certified Public Accountant and a member of the Texas Society of CPAs as well as the American Institute of Certified Public

Accountants.

Certain Relationships and Related Transactions

In April 2000, ERT acquired a 20% working interest in *Gunnison*, a Deepwater Gulf of Mexico prospect of Kerr-McGee Oil & Gas Corp. Financing for the exploratory costs of approximately \$20 million was provided by an investment partnership (OKCD Investments, Ltd. or OKCD), the investors of which include current and former Helix senior management, in exchange for a revenue interest that is an overriding royalty

Table of Contents

interest of 25% of Helix's 20% working interest. Production began in December 2003. Payments to OKCD from ERT totaled \$28.1 million in the year ended December 31, 2005. Helix's Chief Executive Officer, as a Class A limited partner of OKCD, personally owns, either directly or indirectly, approximately 67% of the partnership equity. Other executive officers of the Company own approximately 6% combined of the partnership equity. OKCD has also awarded Class B limited partnership interests to key Helix employees.

Executive Compensation

The following table provides a summary of the cash and non-cash compensation for each of the last three years ended December 31, 2005 for each of (i) the chief executive officer and (ii) each of the five most highly compensated executive officers of Helix during 2005 other than the chief executive officer.

Summary Compensation Table

Name and Principal Position	Year	Annual Compensation(1)		Long Term Compensation	All Other Compensation (3)
		Salary	Bonus(2)	Dollar Value of Restricted Stock Awards	
Owen Kratz Chairman and Chief Executive Officer	2005	\$ 389,423	\$ 529,759	\$ 1,164,155	\$ 5,250
	2004	350,000	467,608		5,125
	2003	335,416	123,750		5,000
Martin R. Ferron President	2005	389,423	529,759	1,164,155	5,250
	2004	250,000	209,394		5,125
	2003	239,583	63,800		5,000
Bart H. Heijermans(4) Executive Vice President and Chief Operating Officer	2005	113,333	120,000	3,728,423	
	2004				
	2003				
A. Wade Pursell Senior Vice President and Chief Financial Officer	2005	221,037	197,353	400,000	5,250
	2004	200,000	164,248		5,125
	2003	193,750	45,500		4,844
James Lewis Connor, III Senior Vice President and General Counsel	2005	189,728	204,592	225,392	5,250
	2004	171,000	128,489		5,125
	2003	133,752	122,582		4,601
Lloyd A. Hajdik(5) Vice President Corporate Controller and Chief Accounting Officer	2005	143,654	106,984	65,123	5,250
	2004	140,000	80,000		3,800
	2003	11,667			

(1) The Bonus reflected in a fiscal year is based on that year's performance.

(2) In each of the years included in the table, the Named Executive Officers were eligible for annual incentives, based on achievement of certain individual performance criteria and corporate profit-sharing incentives, under

the Compensation Committee approved Senior Management Compensation Plan. The actual bonus payments to the Named Executive Officers consisted of bonuses based on individual performance objectives together with departmental and Company criteria based on the attainment of pre-established revenue and profit goals by Helix as a whole. The exact amount of the bonus paid to the Named Executive Officers was determined by the Compensation Committee.

- (3) Consists of matching contributions by Helix through its 401(k) Plan. Helix's Retirement Plan is a 401(k) retirement savings plan under which Helix currently matches 50% of employees' pre-tax contributions up to 5% of salary (including bonus) subject to contribution limits.
- (4) Mr. Heijermans' employment with Helix began on September 1, 2005.
- (5) Mr. Hajdik's employment with the Company began on December 1, 2004.

Option Grants in Last Fiscal Year

There were no options granted to the Named Executive Officers during the fiscal year ended December 31, 2005.

Table of Contents***Aggregated Option Exercises in Last Fiscal Year and Fiscal Year End Option Values***

Name	Number of Shares	Dollar Value	Number of Securities Underlying Unexercised Options	Dollar Value of Unexercised In-the-Money Options at
	Acquired on Exercise		Fiscal Year-End	Fiscal Year-End
		Realized	Exercisable/Unexercisable	Exercisable/Unexercisable
Owen Kratz	230,000	\$ 3,301,469	615,063 / 101,095	\$15,046,150 / \$2,532,798
Martin R. Ferron	78,420	\$ 2,397,602	/ 52,012	/\$1,281,744
Bart H. Heijermans			/	/
A. Wade Pursell	4,800	\$ 72,666	73,172 / 36,158	\$1,877,785 / \$899,400
James Lewis Connor, III	28,680	\$ 507,411	/ 42,720	/\$1,095,211
Lloyd A. Hajdik	6,000	\$ 113,220	2,000 / 12,000	\$50,600 / \$303,600

Summary of Employment Contracts

All of Helix's Named Executive Officers, other than Mr. Hajdik, have entered into employment agreements with Helix.

Helix and Mr. Kratz entered into a multi-year employment agreement (the Kratz Employment Agreement) effective February 28, 1999. Mr. Kratz is entitled to participate in all profit sharing, incentive, bonus and other employee benefit plans made available to Helix's executive officers, but does not have the right to cause Helix to purchase his shares. The Kratz Employment Agreement contains the Good Cause and Change of Control provisions described below. At the end of Mr. Kratz's employment with Helix, Helix may, in its sole discretion under the Kratz Employment Agreement, elect to trigger a non-competition covenant pursuant to which Mr. Kratz will be prohibited from competing with Helix in various geographic areas for a period of up to five years. The amount of the non-competition payment to Mr. Kratz under the Kratz Employment Agreement will be his then base salary plus insurance benefits for the non-competition period.

Each of Messrs. Ferron, Heijermans, Pursell and Connor's employment contracts have similar terms involving salary, bonus and benefits (with amounts that vary due to their responsibilities), but none of them have the right to cause Helix to purchase his shares. Each of these executive employment agreements provide, among other things, that if Helix pays specific amounts, then until the first or second anniversary date of termination of the executive's employment with Helix (depending on the event of termination), the executive shall not, directly or indirectly either for himself or any other individual or entity, participate in any business which engages or which proposes to engage in the business of providing diving services in the Gulf of Mexico or any other business actively engaged in by us on the date of termination of employment, so long as Helix continues to make payments to such executive, including his base salary and insurance benefits received by senior executives of Helix. Helix has also entered into employment agreements with the some of its other senior officers substantially similar to the above agreements.

If a Named Executive Officer, other than Mr. Hajdik, terminates his employment for Good Cause or is terminated without cause during the two year period following a Change of Control, Helix would (a) make a lump sum payment to him of two times the sum of the annual base salary and annual bonus paid to the officer with respect to the most recently completed fiscal year, (b) all options and restricted stock held by such officer under the Helix Energy

Solutions Group, Inc. 2005 Long Term Incentive Plan and its predecessor, the Cal Dive International, Inc. 1995 Long Term Incentive Plan, as amended, would vest, and (c) he would continue to receive welfare plan and other benefits for a period of two years or as long as such plan or benefits allow. For the purposes of the employment agreements, Good Cause includes both that (a) the chief executive officer or chief operating officer shall cease employment with Helix and (b) one of the following: (i) a material change in the officer's position, authority, duties or responsibilities, (ii) changes in the office or location at which he is based without his consent (such consent not to be unreasonably withheld), or (iii) certain breaches of the agreement. Each agreement also provides for payments to officers as part of any Change of Control. A Change of Control for purposes of the agreements would occur if a person or group becomes the beneficial owner, directly or indirectly, of securities of Helix representing forty-five percent (45%) or more of the combined voting power of Helix's then outstanding securities. The agreements provided that if any payment to one of the covered officers will be subject to any excise tax under Code Section 4999, a

Table of Contents

gross-up payment would be made to place the officer in the same net after-tax position as would have been the case if no excise tax had been payable.

Beneficial Ownership of Helix's Common Stock

Five Percent Owners. The following table sets forth information as to the only persons (or entities) known by Helix to have beneficial ownership, as of December 31, 2005, of more than 5% of the outstanding shares of Helix common stock, other than Owen Kratz whose beneficial ownership is disclosed below under Management Shareholdings. As of May 26, 2006, Helix had 78,475,551 shares outstanding. The information set forth below has been determined in accordance with Rule 13d-3 under the Exchange Act on the basis of the most recent information filed with the Securities and Exchange Commission and furnished to Helix by the person listed. To Helix's knowledge, except as otherwise indicated below, all shares shown as beneficially owned are held with sole voting power and sole dispositive power.

Name and Address	Shares Beneficially Owned	Percent of Common Shares
Neuberger Berman, LLC 605 Third Avenue New York, New York 10158	8,114,000	10.30%

Notes: On April 7, 2006, Neuberger Berman Inc. filed a Schedule 13G as it owns 100% of both Neuberger Berman, LLC and Neuberger Berman Management Inc. Based on the Schedule 13G, Neuberger Berman, Inc. has sole voting power with respect to 1,311,767 of these shares, shared voting power with respect to 5,145,740 of these shares and shared dispositive power with respect to all of these shares. The remaining balance of 1,656,493 shares included in the table are for individual client accounts over which Neuberger Berman, LLC has shared dispositive power but no power to vote. Neuberger Berman, LLC, a wholly owned subsidiary of Neuberger Berman, Inc. and an investment advisor and broker/ dealer with discretion, is deemed to be a beneficial owner for purpose of Rule 13(d) since it has shared power to make decisions whether to retain or dispose, and in some cases the sole power to vote, the securities of many unrelated clients. Neuberger Berman, LLC does not, however, have any economic interest in the securities of those clients. The clients are the actual owners of the securities and have the sole right to receive and the power to direct the receipt of dividends from or proceeds from the sale of such securities. With regard to the 5,145,740 shares with respect to which there is shared voting power, Neuberger Berman, LLC and Neuberger Berman Management Inc. are deemed to be beneficial owners for purposes of Rule 13(d) since they both have shared power to make decisions whether to retain or dispose and vote the securities. Neuberger Berman, LLC and Neuberger Berman Management Inc. serve as sub-adviser and investment manager, respectively, of Neuberger Berman's various mutual funds which hold such shares in the ordinary course of their business and not with the purpose nor with the effect of changing or influencing the control of the issuer. No other Neuberger Berman, LLC advisory client has an interest of more than 5% of the issuer.

Table of Contents

Management Shareholdings. The following table shows the number of shares of Helix common stock beneficially owned as of May 26, 2006 by Helix's Directors and six highest paid executive officers identified in the Summary Compensation Table below (Named Executive Officers), and all Directors and executive officers as a group.

Name of Beneficial Owner	Amount and Nature of Beneficial Ownership(1)(2)	Of Shares Beneficially Owned, Amount That May be Acquired Within 60 Days by Option Exercise
Owen Kratz(3)	6,020,979	
Martin R. Ferron(4)	247,385	
Bart H. Heijermans	133,738	
A. Wade Pursell(5)	143,284	83,438
James Lewis Connor, III	41,929	12,000
Lloyd A. Hajdik	10,310	2,000
Gordon F. Ahalt	91,000	64,800
Bernard Duroc-Danner	37,189	35,200
John V. Lovoi	58,302	52,800
T. William Porter	17,600	17,600
William L. Transier	11,982	
Anthony Tripodo	21,651	15,800
Total	6,835,349	283,638

- (1) Only one Director or executive officer, Owen Kratz, beneficially owns more than 1% of the shares outstanding. Mr. Kratz owns approximately 7.64% of the outstanding shares. Helix's Directors and Named Executive Officers as a group beneficially own 6,835,349 shares (including shares that are not outstanding but are deemed beneficially owned because of the right to acquire them pursuant to options exercisable within 60 days), which represents approximately 8.68% of the shares outstanding.
- (2) Amounts include the shares shown in the last column, which are not currently outstanding but are deemed beneficially owned because of the right to acquire them pursuant to options exercisable within 60 days of May 26, 2006 (i.e., on or before July 25, 2006). With respect to employees other than Mr. Kratz, amounts include shares held through Helix's Employee Stock Purchase Plan.
- (3) Mr. Kratz disclaims beneficial ownership of 1,000,000 shares included in the above table, which are held by Joss Investments Limited Partnership, an entity of which he is a General Partner.
- (4) Mr. Ferron disclaims beneficial ownership of 44,340 shares included in the above table, which are held by the Uncle John Limited Partnership, a family limited partnership of which he is a General Partner.
- (5) Mr. Pursell disclaims beneficial ownership of 15,000 shares included in the above table, which are held by the WT Kona Redbird Limited Partnership, a family limited partnership of which he is a General Partner.

INFORMATION ABOUT REMINGTON

General Development of Remington's Business

Remington is an independent oil and gas exploration and production company incorporated in the State of Delaware. Its oil and gas properties are located in the United States in the offshore and onshore regions of the Gulf Coast, and it treats all of these areas as one line of business. Remington began as OKC Limited Partnership in 1981. In 1992, it converted to a corporation named Box Energy Corporation, and changed its name to Remington Oil and Gas Corporation in 1997. Headquartered in Dallas, Texas, Remington had assets of approximately \$586 million as of December 31, 2005.

Remington identifies prospective oil and gas properties primarily by using 3-D seismic technology. After acquiring an interest in a prospective property, Remington drills one or more exploratory wells. If the exploratory wells find commercial oil and/or gas, Remington completes the wells and begins producing the oil or gas. Because most of Remington's operations are located in the offshore Gulf of Mexico, Remington must install facilities such as offshore platforms and gathering pipelines in order to produce the oil and gas and deliver it to the marketplace. Certain properties require additional drilling to fully develop the oil and gas reserves and maximize the production from a particular discovery. In order to increase its oil and gas reserves and production, Remington continually reinvests its net operating cash flow into new or existing exploration, development, and acquisition activities.

Remington shares ownership in its oil and gas properties with various industry participants. Remington currently operates the majority of its offshore properties. An operator is generally able to maintain a greater degree of control over the timing and amount of capital expenditures than can a non-operating interest owner.

Remington's long-term strategy is to increase its oil and gas reserves and production while keeping its finding and development costs and operating costs competitive with its industry peers. Remington implements this strategy through drilling exploratory and development wells from an inventory of available prospects that it has evaluated for geologic and mechanical risk and future reserve potential. Remington's drilling program contains some high risk/high reserve potential opportunities as well as some lower risk/lower reserve potential opportunities, in order to attempt to deliver a balanced program of reserve and production growth. Success of this strategy is contingent on various risk factors as discussed in Remington's filings with the SEC.

Additional information concerning Remington is included in the Remington documents filed with the SEC and incorporated by reference in this document. See "Where You Can Find More Information" on page 204.

Directors and Executive Officers

For information regarding Remington's directors and executive officers, please see Remington's Annual Report on Form 10-K, as amended by Form 10-K/A, which is incorporated by reference in this proxy statement/prospectus.

Beneficial Ownership of Remington's Common Stock

For information regarding beneficial ownership of Remington's common stock, please see Remington's Annual Report on Form 10-K, as amended by Form 10-K/A, which is incorporated by reference in this proxy statement/prospectus.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Helix Energy Solutions Group, Inc.

We have audited the accompanying consolidated balance sheets of Helix Energy Solutions Group, Inc. (formerly Cal Dive International, Inc.) and Subsidiaries as of December 31, 2005 and 2004, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Helix Energy Solutions Group, Inc. and Subsidiaries at December 31, 2005 and 2004, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, the Company adopted Statement of Financial Accounting Standards No. 143, Accounting for Asset Retirement Obligations in 2003.

HELIX ENERGY SOLUTIONS GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization

Effective March 6, 2006, Cal Dive International, Inc. changed its name to Helix Energy Solutions Group, Inc. (Helix or the Company). Helix, headquartered in Houston, Texas is an energy services company specializing in Marine Contracting development on the Outer Continental Shelf and in the Deepwater (including subsea construction, provision of production facilities, well operations and reservoir and well engineering) and providing oil and gas companies with alternatives to traditional approaches including equity or production sharing in offshore properties through our Oil & Gas Production and Production Facilities segments. Within its Deepwater and Shelf Contracting segments, Helix operates primarily in the Gulf of Mexico (Gulf), the North Sea and Asia/Pacific regions, with services that cover the lifecycle of an offshore oil or gas field. Helix's current diversified fleet of 33 vessels (one of which is leased) and 29 remotely operated vehicles (ROVs) and trencher systems perform services that support drilling, well completion, intervention, construction and decommissioning projects involving pipelines, production platforms, risers and subsea production systems. The Company also has a significant investment in offshore oil and gas production (through its wholly owned subsidiary Energy Resource Technology, Inc.) as well as production facilities. Operations in the Production Facilities segment began in 2004 with the *Marco Polo* field coming online and the completion of the tension leg platform owned by Deepwater Gateway, L.L.C.. The Production Facilities segment is currently accounted for under the equity method of accounting and includes the Company's 50% investment in Deepwater Gateway, L.L.C., and its 20% investment in Independence Hub, LLC. Helix's customers include major and independent oil and gas producers, pipeline transmission companies and offshore engineering and construction firms. See discussion of segment reporting in footnote 14.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its majority owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. The Company accounts for its 50% interest in Deepwater Gateway, L.L.C., its 20% interest in Independence Hub, LLC and its 40% interest in Offshore Technology Solutions Limited (OTSL), a Trinidad and Tobago entity, under the equity method of accounting as the Company does not have voting or operational control of these entities.

Certain reclassifications were made to previously reported amounts in the consolidated financial statements and notes thereto to make them consistent with the current presentation format. See footnote 13 for discussion of two-for-one stock split in December 2005.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis the Company evaluates its estimates including those related to bad debts, investments, intangible assets and goodwill, property plant and equipment, oil and gas reserves, decommissioning liabilities, income taxes, worker's compensation insurance and contingent liabilities. The Company bases its estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying

values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

Goodwill and Other Intangible Assets

The Company tests for the impairment of goodwill and other indefinite-lived intangible assets on at least an annual basis. The Company's goodwill impairment test involves a comparison of the fair value of each of the Company's reporting units with its carrying amount. The fair value is determined using discounted cash

Table of Contents

HELIX ENERGY SOLUTIONS GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

flows and other market-related valuation models, such as earnings multiples and comparable asset market values. The Company completed its annual goodwill impairment test as of November 1, 2005. The Company's goodwill impairment test involves a comparison of the fair value of each of the Company's reporting units with its carrying amount. Goodwill of \$73.9 million and \$69.2 million related to the Company's Deepwater Contracting segment as of December 31, 2005 and 2004, respectively. Goodwill of \$27.8 million and \$15.0 million related to the Company's Shelf Contracting segment as of December 31, 2005 and 2004, respectively. None of the Company's goodwill was impaired based on the impairment test performed as of November 1, 2005 (the annual impairment test excluded the goodwill and other indefinite-lived intangible assets acquired in the Stolt Offshore and Helix Energy Limited acquisitions which closed in November 2005). The Company will continue to test its goodwill and other indefinite-lived intangible assets annually on a consistent measurement date unless events occur or circumstances change between annual tests that would more likely than not reduce the fair value of a reporting unit below its carrying amount.

Property and Equipment

Property and equipment, both owned and under capital leases, are recorded at cost. Depreciation is provided primarily on the straight-line method over the estimated useful lives of the assets.

All of the Company's interests in oil and gas properties are located offshore in United States waters. The Company follows the successful efforts method of accounting for its interests in oil and gas properties. Under the successful efforts method, the costs of successful wells and leases containing productive reserves are capitalized. Costs incurred to drill and equip development wells, including unsuccessful development wells, are capitalized. Costs incurred relating to unsuccessful exploratory wells are expensed in the period the drilling is determined to be unsuccessful.

Energy Resource Technology, Inc. (ERT) acquisitions of producing offshore properties are recorded at the value exchanged at closing together with an estimate of its proportionate share of the discounted decommissioning liability assumed in the purchase based upon its working interest ownership percentage. In estimating the decommissioning liability assumed in offshore property acquisitions, the Company performs detailed estimating procedures, including engineering studies. The resulting decommissioning liability is reflected on the face of the balance sheet at fair value on a discounted basis. All capitalized costs are amortized on a unit-of-production basis (UOP) based on the estimated remaining oil and gas reserves. Properties are periodically assessed for impairment in value, with any impairment charged to expense.

The evaluation of the Company's oil and gas reserves is critical to the management of its oil and gas operations. Decisions such as whether development of a property should proceed and what technical methods are available for development are based on an evaluation of reserves. These oil and gas reserve quantities are also used as the basis for calculating the unit-of-production rates for depreciation, depletion and amortization, evaluating impairment and estimating the life of the producing oil and gas properties in decommissioning liabilities. The Company's proved reserves are classified as either proved developed or proved undeveloped. Proved developed reserves are those reserves which can be expected to be recovered through existing wells with existing equipment and operating methods. Proved undeveloped reserves include reserves expected to be recovered from new wells from undrilled proven reservoirs or from existing wells where a significant major expenditure is required for completion and production.

Table of Contents**HELIX ENERGY SOLUTIONS GROUP, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following is a summary of the components of property and equipment (dollars in thousands):

	Estimated Useful Life	2005	2004
Vessels	15 to 30 years	\$ 609,558	\$ 506,262
Offshore oil and gas leases and related equipment	UOP	601,866	328,071
Machinery, equipment, buildings and leasehold improvements	5 to 30 years	47,590	26,948
Total property and equipment		\$ 1,259,014	\$ 861,281

The cost of repairs and maintenance is charged to operations as incurred, while the cost of improvements is capitalized. Total repair and maintenance charges were \$24.0 million, \$17.0 million and \$14.7 million for the years ended December 31, 2005, 2004 and 2003, respectively.

For long-lived assets to be held and used, excluding goodwill, the Company bases its evaluation of recoverability on impairment indicators such as the nature of the assets, the future economic benefit of the assets, any historical or future profitability measurements and other external market conditions or factors that may be present. If such impairment indicators are present or other factors exist that indicate that the carrying amount of the asset may not be recoverable, the Company determines whether an impairment has occurred through the use of an undiscounted cash flows analysis of the asset at the lowest level for which identifiable cash flows exist. The Company's marine vessels are assessed on a vessel by vessel basis, while the Company's ROVs are grouped and assessed by asset class. If an impairment has occurred, the Company recognizes a loss for the difference between the carrying amount and the fair value of the asset. The fair value of the asset is measured using quoted market prices or, in the absence of quoted market prices, is based on an estimate of discounted cash flows. The Company recorded an impairment charge of \$1.9 million (included in Shelf Contracting cost of sales) in December 2004 on certain Shelf Contracting vessels that met the impairment criteria. These assets were subsequently sold in December 2005 and January 2006, respectively, for an aggregate gain on the disposals of approximately \$322,000.

Assets are classified as held for sale when the Company has a plan for disposal of certain assets and those assets meet the held for sale criteria. During the fourth quarter of 2004, the Company classified a certain Shelf Contracting vessel and other Deepwater Contracting property and equipment intended to be disposed of within a twelve month period as assets held for sale totaling \$5.0 million (included in other current assets at December 31, 2004).

In July 2005, the Company completed the sale of a certain Shelf Contracting DP ROV Support vessel, the *Merlin*, for \$2.3 million in cash that was previously included in assets held for sale. The Company recorded an additional impairment of \$790,000 on the vessel in June 2005.

In March 2005, the Company completed the sale of certain Deepwater Contracting property and equipment for \$4.5 million that was previously included in assets held for sale. Proceeds from the sale consisted of \$100,000 cash and a \$4.4 million promissory note bearing interest at 6% per annum due in semi-annual installments beginning

September 30, 2005 through March 31, 2010. In addition to the asset sale, the Company entered into a five year services agreement with the purchaser whereby the Company has committed to provide the purchaser with a specified amount of services for its Gulf of Mexico fleet on an annual basis (\$8 million per year). The measurement period related to the services agreement begins with the twelve months ending June 30, 2006 and continues every six months until the contract ends on March 31, 2010. Further, the promissory note stipulates that should the Company not meet its annual services commitment the purchaser can defer its semi-annual principal and interest payment for six months. The Company determined that the estimated gain on the sale of approximately \$2.5 million should be deferred and recognized as the principal and interest payments are received from the purchaser over the course of the promissory note. The first installment on the \$4.4 million promissory note was received in October 2005 and \$210,000 was recognized as a partial gain on the sale.

Recertification Costs and Deferred Drydock Charges

The Company's Deepwater and Shelf Contracting vessels are required by regulation to be recertified after certain periods of time. These recertification costs are incurred while the vessel is in drydock where other routine repairs and maintenance are performed and, at times, major replacements and improvements are performed. The Company expenses routine repairs and maintenance as they are incurred. Recertification costs can be accounted for in one of three ways: (1) defer and amortize, (2) accrue in advance, or (3) expense as incurred. The Company defers and amortizes recertification costs over the length of time in which the recertification is expected to last, which is generally 30 months. Major replacements and improvements, which extend the vessel's economic useful life or functional operating capability, are capitalized and depreciated over the vessel's remaining economic useful life. Inherent in this process are estimates the Company makes regarding the specific cost incurred and the period that the incurred cost will benefit.

The Company accounts for regulatory (U.S. Coast Guard, American Bureau of Shipping and Det Norske Veritas) related drydock inspection and certification expenditures by capitalizing the related costs and amortizing them over the 30-month period between regulatory mandated drydock inspections and certification. As of December 31, 2005 and 2004, capitalized deferred drydock charges (included in other assets, net) totaled \$18.3 million and \$10.0 million, respectively. During the years ended December 31, 2005, 2004 and 2003, drydock amortization expense was \$8.9 million, \$4.9 million and \$4.1 million, respectively.

Accounting for Decommissioning Liabilities

On January 1, 2003, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 143, *Accounting for Asset Retirement Obligations*, which addresses the financial accounting and reporting obligations and retirement costs related to the retirement of tangible long-lived assets. Among other things, SFAS No. 143 requires oil and gas companies to reflect decommissioning liabilities (dismantlement and abandonment of oil and gas wells and offshore platforms) on the face of the balance sheet at fair value on a discounted basis. Prior to January 1, 2003, the Company reflected this liability on the balance sheet on an undiscounted basis.

The adoption of SFAS No. 143 resulted in a cumulative effect adjustment as of January 1, 2003 to record (i) a \$33.1 million decrease in the carrying values of proved properties, (ii) a \$7.4 million decrease in accumulated depreciation, depletion and amortization of property and equipment, (iii) a \$26.5 million decrease in decommissioning liabilities and (iv) a \$0.3 million increase in deferred income tax liabilities. The net impact of items (i) through (iv) was to record a gain of \$0.5 million, net of tax, as a cumulative effect adjustment of a change in accounting principle in the Company's consolidated statements of operations upon adoption on January 1, 2003. The Company has no material assets that are legally restricted for purposes of settling its decommissioning liabilities other than the \$27.0 million of restricted cash in escrow (see *Statement of Cash Flow Information* in this footnote).

Table of Contents**HELIX ENERGY SOLUTIONS GROUP, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The pro forma effects of the application of SFAS No. 143 are presented below (in thousands, except per share amounts):

	Year Ended December 31, 2003
Net income applicable to common shareholders as reported	\$ 32,771
Cumulative effect of accounting change	(530)
Pro forma net income applicable to common shareholders	\$ 32,241
Pro forma earnings per common share applicable to common shareholders:	
Basic	\$ 0.43
Diluted	0.43
Earnings per common share applicable to common shareholders as reported:	
Basic	\$ 0.44
Diluted	0.44

The following table describes the changes in the Company's asset retirement obligations for the year ended 2005 (in thousands):

Asset retirement obligation at December 31, 2004	\$ 82,030
Liability incurred during the period	36,119
Liabilities settled during the period	(1,913)
Revision in estimated cash flows	(583)
Accretion expense (included in depreciation and amortization)	5,699
Asset retirement obligation at December 31, 2005	\$ 121,352

Foreign Currency

The functional currency for the Company's foreign subsidiaries, Well Ops (U.K.) Limited and Helix Energy Limited, is the applicable local currency (British Pound). Results of operations for these subsidiaries are translated into U.S. dollars using average exchange rates during the period. Assets and liabilities of this foreign subsidiary are translated into U.S. dollars using the exchange rate in effect at the balance sheet date and the resulting translation adjustment, which was an unrealized (loss) gain of \$(11.4) million and \$10.8 million, respectively, is included in accumulated other comprehensive income (loss), a component of shareholders' equity. Beginning in 2004, deferred taxes were not provided on foreign currency translation adjustments for operations where the Company considers its undistributed earnings of its principal non-U.S. subsidiaries to be permanently reinvested. As a result, cumulative deferred taxes on translation adjustments totaling approximately \$6.5 million were reclassified from noncurrent

deferred income taxes and accumulated other comprehensive income. All foreign currency transaction gains and losses are recognized currently in the statements of operations. These amounts for the years ended December 31, 2005 and 2004 were not material to the Company's results of operations or cash flows.

Canyon Offshore, the Company's ROV subsidiary, has operations in the United Kingdom and Southeast Asia sectors. Canyon conducts the majority of its operations in these regions in U.S. dollars which it considers the functional currency. When currencies other than the U.S. dollar are to be paid or received, the resulting transaction gain or loss is recognized in the statements of operations. These amounts for the years ended December 31, 2005 and 2004 were not material to the Company's results of operations or cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Accounting for Price Risk Management Activities

The Company's price risk management activities involve the use of derivative financial instruments to hedge the impact of market price risk exposures primarily related to the Company's oil and gas production. All derivatives are reflected in the Company's balance sheet at fair market value.

There are two types of hedging activities: hedges of cash flow exposure and hedges of fair value exposure. The Company engages primarily in cash flow hedges. Hedges of cash flow exposure are entered into to hedge a forecasted transaction or the variability of cash flows to be received or paid related to a recognized asset or liability. Changes in the derivative fair values that are designated as cash flow hedges are deferred to the extent that they are effective and are recorded as a component of accumulated other comprehensive income until the hedged transactions occur and are recognized in earnings. The ineffective portion of a cash flow hedge's change in value is recognized immediately in earnings in oil and gas production revenues.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk management objectives, strategies for undertaking various hedge transactions and the methods for assessing and testing correlation and hedge ineffectiveness. All hedging instruments are linked to the hedged asset, liability, firm commitment or forecasted transaction. The Company also assesses, both at the inception of the hedge and on an on-going basis, whether the derivatives that are used in the hedging transactions are highly effective in offsetting changes in cash flows of its hedged items. The Company discontinues hedge accounting if it determines that a derivative is no longer highly effective as a hedge, or it is probable that a hedged transaction will not occur. If hedge accounting is discontinued, deferred gains or losses on the hedging instruments are recognized in earnings immediately.

The fair value of hedging instruments reflects the Company's best estimate and is based upon exc
