Following the recent widespread publicity regarding the granting of stock options, in the second quarter of 2006, HCC Insurance Holdings, Inc. (the Company) initiated a voluntary internal review of its stock option grant practices. This voluntary review found that in some instances the grant date may differ from the date used to record certain prior option grants. Based on its preliminary internal review, the Company does not believe that the financial statement impact of the items identified would be material to its consolidated financial statements but can provide no assurance that material items will not be identified during the completion of its internal review.

The Audit Committee has retained independent outside counsel to conduct a more extensive review, which is currently in process. In addition, management is continuing its internal review. Due to the volume of data subject to these reviews, outside counsel has not yet completed its assessment and the Audit Committee has not reached any preliminary or final conclusions about the Company's stock option practices, the related accounting treatment or the Company's internal controls related to stock option practices. As a result, the Company was not able to file its Quarterly Report on Form 10-Q for the quarter ended June 30, 2006 within the time period prescribed by the report.
