ITEM 1. *Business*

Apartment Investment and Management Company, a Maryland corporation, incorporated on January 10, 1994 (AIMCO and, together with its consolidated subsidiaries and other controlled entities, the Company), is a self-administered and self-managed real estate investment trust (REIT) engaged in the ownership, acquisition, redevelopment, expansion and management of multi-family apartment properties. As of December 31, 2000, AIMCO owned or managed 326,289 apartment units in 1,720 properties located in 47 states, the District of Columbia and Puerto Rico. Based on apartment unit data compiled by the National Multi Housing Council, the Company believes that, as of December 31, 2000, it was the largest owner and manager of multi-family apartment properties in the United States.

As of December 31, 2000, AIMCO:

owned or controlled (consolidated) 153,872 units in 566 apartment properties;

held an equity interest in (unconsolidated) 111,748 units in 683 apartment properties; and

managed 60,669 units in 471 apartment properties for third party owners and affiliates.

AIMCO conducts substantially all of its operations through its operating partnership, AIMCO Properties, L.P., (the AIMCO Operating Partnership). Through a wholly-owned subsidiary, AIMCO acts as the sole general partner of the AIMCO Operating Partnership, and as of December 31, 2000, owned an approximate 91% interest in the AIMCO Operating Partnership. AIMCO manages apartment properties for third parties and affiliates through unconsolidated subsidiaries that are referred to as the management companies. Interests in the AIMCO Operating Partnership that are held by third parties are referred to as OP Units.

The Company s principal executive offices are located at 2000 South Colorado Blvd., Tower Two, Suite 2-1000, Denver, Colorado 80222-7900 and its telephone number is (303) 757-8101.

2000 Developments

Individual Property Acquisitions

The Company directly acquired 12 apartment properties in separate transactions during 2000. The aggregate consideration paid by the Company of \$136.5 million consisted of \$42.7 million in cash, \$26.4 million in preferred OP Units, \$6.8 million in common OP Units and the assumption of \$60.6 million of secured long-term indebtedness. As part of these acquisitions, the Company has also determined to undertake \$4.8 million of initial capital enhancements related to these properties.

Acquisition of Oxford Properties

On September 20, 2000, AIMCO completed the purchase of all the stock and other interests (not already owned by AIMCO) held by the principals, officers and directors of Oxford Realty Financial Group, Inc. (ORFG) in Oxford entities, including ORFG, which own interests in and control the Oxford properties for \$266 million in cash and \$62 million in common OP Units valued at \$45 per unit. In addition to the cash and securities, AIMCO assumed

liabilities and incurred transaction costs of \$861 million, resulting in a total purchase price of \$1,189 million. The Oxford properties are 167 apartment communities including 36,949 units, located in 18 states. AIMCO, through an affiliate, previously managed 165 of the 167 Oxford properties pursuant to long-term contracts and was previously a stockholder in certain of the entities. In addition to the Oxford properties, AIMCO acquired the entity that owns the managing general partner of Oxford Tax Exempt Fund II Limited Partnership (OTEF) and acquired approximately a 40% interest in the non-managing general partner of OTEF. The AIMCO Operating Partnership, together with NHP Management Company and AIMCO/Bethesda Holdings, Inc., borrowed \$279 million to pay the cash portion of the purchase price for the Oxford acquisition from Bank of America, N.A., Lehman Commercial Paper Inc., and several other lenders, pursuant to a term loan with a total availability of \$302 million.

Tender Offers

During 2000, the Company acquired limited partnership interests in various partnerships in which affiliates of

2

Table of Contents

the Company served as general partner. The Company paid approximately \$195 million in cash and OP Units to acquire these limited partnership interests.

Property Dispositions

In 2000, the Company sold 64 apartment properties, 11 commercial properties and 4 land parcels for an aggregate sales price of approximately \$573.5 million. Net cash proceeds to the Company from the sales of \$154.5 million were used to repay a portion of the Company's outstanding short-term indebtedness and for other corporate purposes. The results of operations of 47 of these properties were accounted for by the Company under the equity method.

Debt Assumptions and Financings

In August 1999, the Company closed a \$300 million revolving credit facility arranged by Bank of America, N.A., Fleet National Bank (successor to BankBoston, N.A.) and First Union National Bank with a syndicate comprised of a total of nine lender participants. Effective March 15, 2000 the credit facility was expanded by \$45 million with the potential to expand it by another \$55 million to a total of \$400 million. Of the \$55 million potential expansion, \$5 million was expanded on April 14, 2000 bringing the total availability to \$350 million. In September 2000, the credit facility was amended and restated. The obligations under the credit facility are secured by a first priority pledge of certain non-real estate assets of the Company and a second priority pledge of the stock ownership of the AIMCO Operating Partnership, NHP Management Company, AIMCO/Bethesda Holdings, Inc., AIMCO Holdings, L.P., in certain subsidiaries of AIMCO and certain options to purchase Beneficial Assignee Interests (BACs) in OTEF. Borrowings under the credit facility, including the \$50 million expansion, are available for general corporate purposes. The credit facility matures in July 2002 and can be extended twice at AIMCO's option, for a term of one year. The annual interest rate under the new credit facility is based on either LIBOR or a base rate, which is the higher of Bank of America's reference rate or 0.50% over the federal funds rate, plus, in either case, an applicable margin. The margin ranges between 2.05% and 2.55%, in the case of LIBOR-based loans, and between 0.55% and 1.05%, in the case of base rate loans, based upon a fixed charge coverage ratio. The weighted average interest rate at December 31, 2000 was 9.16%. The amount available under the credit facility at December 31, 2000 was \$95.3 million, less \$1.2 million for outstanding letters of credit.

The AIMCO Operating Partnership borrowed \$279 million to pay the cash portion of the purchase price for AIMCO's acquisition of all the stock and other interests (not already owned by AIMCO) held by the principals,

officers and directors of ORFG from Bank of America, N.A., Lehman Commercial Paper Inc. and several other lenders pursuant to a term loan with a total availability of \$302 million. Transaction costs (including advisory fees) incurred on the term loan were \$9.4 million. The borrowers under the term loan are the AIMCO Operating Partnership, NHP Management Company and AIMCO/Bethesda Holdings, Inc., and all obligations thereunder are guaranteed by AIMCO and certain of its subsidiaries. The obligations under the term loan are secured by a first priority pledge of the stock ownership of the AIMCO Operating Partnership, NHP Management Company, AIMCO/Bethesda Holdings, Inc., and AIMCO Holdings, L.P. in certain subsidiaries of AIMCO and certain options to purchase Beneficial Assignee Interests (BACs) in OTEF and a second priority pledge of certain non-real estate assets of the Company. The annual interest rate under the term loan is based either on LIBOR or a base rate which is the higher of Bank of America, N.A.'s reference rate or 0.5% over the federal funds rate, plus, in either case, an applicable margin. The margin ranges between 4.0% and 5.0% in the case of LIBOR-based loans, and between 1.0% and 2.0% in the case of base rate loans, based upon the number of months the loan is outstanding. The term loan expires in July 2002. The financial covenants contained in the term loan require the AIMCO Operating Partnership to maintain a ratio of debt to gross asset value of no more than 0.55 to 1.0, and an interest coverage ratio of 2.25 to 1.0, and a fixed charge coverage ratio of at least 1.50 to 1.0. In addition, the term loan limits AIMCO from distributing more than 80% of its Funds From Operations (as defined) (or such amounts as may be necessary for AIMCO to maintain its status as a REIT). The term loan imposes minimum net worth requirements and provides other financial covenants related to certain of AIMCO's assets and obligations. The total amount outstanding under the term loan at December 31, 2000 was \$137 million, of which \$74 million is classified as secured short-term financing of the Company, and the remainder is a liability of unconsolidated subsidiaries and, therefore, is included in investment in unconsolidated subsidiaries. Effective January 1, 2001, in connection with the REIT Modernization Act, the remaining liability of \$63 million will be consolidated.

During the year ended December 31, 2000, the Company issued \$636.0 million of long-term fixed rate, fully amortizing non-recourse mortgage notes payable with a weighted average interest rate of 7.5%. Each of the notes is individually secured by one of 107 properties with no cross-collateralization. The net proceeds after transaction costs of \$625.5 million were used to repay existing debt. During the year ended December 31, 2000, the Company also assumed \$60.6 million of long-term, fixed-rate, fully amortizing notes payables with a weighted average

Table of Contents

interest rate of 7.5% in connection with the acquisition of properties. Each of the notes is individually secured by one of 12 properties with no cross-collateralization.

Equity Offerings

In 2000, the Company issued \$230.0 million of preferred stock in three direct placements yielding \$227 million of net proceeds. These transactions are summarized below:

GROSS PROCEEDS IN 2000\$230.0

(1) For the period beginning January 13, 2000 through and including January 13, 2003, the holder of the Class M Preferred Stock is entitled to receive, when and as declared by the Board of Directors, annual cash dividends in an amount per share equal to the greater of (i) \$2.125 per year (equivalent to 8.5% of the \$25.00 liquidation preference), or (ii) the cash dividends payable on the number of shares of Class A Common Stock (or a portion thereof) into which a share of Class M Preferred Stock is convertible. Beginning with the third anniversary of the date of original issuance, the holder of Class M Preferred Stock is entitled to receive an amount per share equal to the greater of (i) \$2.3125 per year (equivalent to 9.25% of the \$25.00 liquidation preference), or (ii) the cash dividends payable on the number of shares of Class A Common Stock into which a share of Class M Preferred Stock is convertible. The 1.2 million shares of Class M Convertible Cumulative Preferred Stock outstanding are convertible into approximately 0.7 million shares of Class A Common Stock.

(2) Dividends on the Class N Preferred Stock are paid in an amount per share equal to the greater of (i) \$2.25 per year (equivalent to 9% per annum of the \$25.00 liquidation preference), subject to increase in the event of a change in control of AIMCO or (ii) the cash dividends payable on the number of shares of Class A Common Stock (or a portion thereof) into which a share

of Class N Preferred Stock is convertible. Dividends are paid on the Class N Preferred Stock quarterly, beginning on October 1, 2000 (the initial dividend paid on the Class N Preferred Stock was \$0.10 per share). The 4.0 million shares of Class N Convertible Cumulative Preferred Stock outstanding are convertible into approximately 1.9 million shares of Class A Common Stock.(3) Dividends on the Class O Preferred Stock are paid in an amount per share equal to the greater of (i) \$4.725 per year (equivalent to 9% per annum of the \$52.50 liquidation preference), subject to increase in the event of a

change in control of AIMCO or (ii) the cash dividends payable on the number of shares of Class A Common Stock (or a portion thereof) into which a share of Class O Preferred Stock is convertible. Dividends are paid on the Class O Preferred Stock quarterly, beginning on October 1, 2000 (the initial dividend paid on the Class O Preferred Stock was \$0.21 per share). The 1.9 million shares of Class O Cumulative Convertible Preferred Stock outstanding are convertible into approximately 1.9 million shares of Class A Common Stock.

Pending Acquisitions and Dispositions

In the ordinary course of business, the Company engages in discussions and negotiations regarding the acquisition of apartment properties (including interests in entities that own apartment properties). The Company frequently enters into contracts and non-binding letters of intent with respect to the purchase of properties. These contracts are typically subject to certain conditions and permit the Company to terminate the contract in its sole and absolute discretion if it is not satisfied with the results of its due diligence investigation of the properties. The Company believes that such contracts essentially result in the creation of an option on the subject properties and give the Company greater flexibility in seeking to acquire properties.

The Company is currently marketing for sale certain real estate properties in order to sell properties in the portfolio that are inconsistent with the Company's long-term investment strategies (as determined by management from time to time). The Company does not expect to incur any material losses with respect to the sales of the properties.

Table of Contents

OTEF Merger

On November 29, 2000, AIMCO and OTEF entered into a merger agreement pursuant to which OTEF would merge with a subsidiary of the AIMCO Operating Partnership. The merger closed on March 26, 2001. The AIMCO Operating Partnership owns all of the outstanding BACs in OTEF. In connection with the Oxford acquisition, AIMCO acquired interests in OTEF's managing general partner and OTEF's associate general partner. After the merger, the Company's partnership interests in OTEF reflects a 1% general partner interest held by OTEF's managing general partner and a 99% limited partner interest held by the AIMCO Operating Partnership. OTEF was a publicly traded master limited partnership that invested primarily in tax-exempt bonds issued to finance high quality apartment and senior living/health care communities, the majority of which are owned by affiliates of OTEF, including Oxford entities.

In the merger, each BAC was converted into the right to receive 0.299 shares of AIMCO's Class A Common Stock and 0.547 shares of AIMCO's Class P Convertible Cumulative Preferred Stock (the "Class P Preferred Stock"). In addition, the BAC holders received a special distribution of \$50 million or \$6.21 per BAC. The holders of the Class P Preferred Stock are entitled to receive, when and as declared by the Board of Directors, cash dividends in an amount per share equal to the greater of (i) a quarterly dividend payment of \$0.5625 or (ii) the cash dividends declared on the number of shares of Class A Common Stock into which a share of Class P Preferred Stock is convertible. Each share of Class P Preferred Stock is convertible at the option of the holder into 0.4464 shares of Class A Common Stock. The initial conversion ratio was in excess of the fair market value of the common stock on the commitment date. The Class P Preferred Stock is senior to the Class A Common Stock as to dividends and liquidation. Upon liquidation, dissolution, or winding up of AIMCO, before payment or distribution by AIMCO shall be made to any holders of the Class A Common Stock, the holders of the Class P Preferred Stock are entitled to receive a liquidation preference of \$25 per share, plus accumulated, accrued and unpaid dividends. The Company filed a Registration Statement on Form S-4 with the Securities and Exchange Commission that was declared effective on February 23, 2001.

Financial Information About Industry Segments

The Company operates in two industry segments, which include the ownership, operation and management of a diversified portfolio of apartment properties, and the management of apartment properties for third parties and affiliates. See the consolidated financial statements and notes thereto included elsewhere in this Annual Report on Form 10-K/A for financial information relating to the Company. See Footnote 22 for discussion of sources of

revenues from the various components of the Company's operations.

Operating and Financial Strategies

The Company strives to meet its objective of providing long-term, predictable Funds From Operations (FFO) per share of Class A Common Stock, less an allowance for capital replacements of \$300 per apartment unit, by implementing its operating and financing strategies which include the following:

Acquisition of Properties at Less Than Replacement Cost. AIMCO attempts to acquire properties at a significant discount to their replacement cost.

Geographic Diversification. AIMCO operates in 47 states, the District of Columbia and Puerto Rico. This geographic diversification insulates the Company, to some degree, from inevitable downturns in any one market. AIMCO's net income before depreciation and interest expense is earned in more than 164 local markets. In 2000, the largest single market (Washington D.C. Metro area) contributed 8.3% to net income before depreciation and interest expense, and the five largest markets contributed 30.9%.

Market Growth. The Company seeks to operate in markets where population and employment growth are expected to exceed the national average and where it believes it can become a regionally significant owner or manager of properties.

Product Diversification. The Company's portfolio of apartment properties spans a wide range of apartment community types, both within and among markets, including garden and high-rise apartments, as well as corporate and student housing.

Capital Replacement. AIMCO believes that the physical condition and amenities of its apartment communities are important factors in its ability to maintain and increase rental rates. The Company allocates approximately \$300 annually per owned apartment unit for capital replacements, and reserves unexpended amounts for future capital replacements.

Table of Contents

Debt Financing. AIMCO's strategy is generally to incur debt to increase its return on equity while maintaining acceptable interest coverage ratios. AIMCO seeks to maintain a ratio of free cash flow to combined interest expense and preferred stock dividends of between 2:1 and 3:1 and to match debt maturities to the character of the assets financed. For the year ended December 31, 2000, the Company was within these targets. The Company uses predominantly long-term, fixed-rate and self-amortizing non-recourse debt in order to avoid the refunding or repricing risks of short-term borrowings. The Company uses short-term debt financing to fund acquisitions and generally expects to refinance such borrowings with proceeds from equity offerings or long-term debt financings. As of December 31, 2000, approximately 8% of AIMCO's outstanding debt was short-term debt and 92% was long-term debt.

Dispositions. While the Company holds all its properties for investment, the Company sells properties when they do not meet its return on investment criteria or are located in areas where AIMCO does not believe that the long-term values justify the continued investment in the properties.

Dividend Policy. AIMCO pays dividends on its Class A Common Stock to distribute a significant portion of its profitability to its stockholders. The Company distributed 59.9%, 61.3% and 65.8% of FFO to holders of

Class A Common Stock for the years ended December 31, 2000, 1999 and 1998, respectively. It is the present policy of the Board of Directors to increase the dividend annually in an amount equal to one-half of the projected increase in FFO, adjusted for capital replacements, subject to minimum distribution requirements to maintain its REIT status.

Growth Strategies

The Company seeks growth through two primary sources — internal expansion and acquisitions.

Internal Growth Strategies

The Company pursues internal growth primarily through the following strategies:

Revenue Increases. The Company increases rents where feasible and seeks to improve occupancy rates.

Controlling Expenses. Cost reductions are accomplished by local focus on the regional operating center level and by exploiting economies of scale. As a result of the size of its portfolio and its creation of regional concentrations of properties, the Company has the ability to leverage fixed costs for general and administrative expenditures and certain operating functions, such as insurance, information technology and training, over a large property base.

Redevelopment of Properties. The Company believes redevelopment of selected properties in superior locations provides advantages over development of new properties. AIMCO believes that redevelopment generally allows the Company to maintain rents comparable to new properties and, compared to development of new properties, can be accomplished with relatively lower financial risk, in less time and with reduced delays due to governmental regulation.

Expansion of Properties. The Company believes that expansion within or adjacent to properties already owned or managed by the Company also provides growth opportunities at lower risk than new development. Such expansion can offer cost advantages to the extent common area amenities and on-site management personnel can service the property expansions. AIMCO's current policy is to limit redevelopments and expansions to approximately 10% of total equity market capitalization.

Ancillary Services. The Company believes that its ownership and management of properties provides it with unique access to a customer base that allows it to provide additional services and thereby increase occupancy, increase rents and generate incremental revenue. The Company currently provides cable television, telephone services, appliance rental, and carport, garage and storage space rental at certain properties.

Acquisition Strategies

The Company believes its acquisition strategies will increase profitability and predictability of earnings by increasing its geographic diversification, economies of scale and opportunities to provide ancillary services to tenants at its properties. Since AIMCO's initial public offering in July 1994, the Company has completed numerous acquisition and management transactions, expanding its portfolio of owned or managed properties from 132 apartment properties with 29,343 units to 1,720 apartment properties with 326,289 units as of December 31, 2000.

Table of Contents

The Company acquires additional properties primarily in three ways:

Direct Acquisitions. AIMCO may directly, including through mergers and other business combinations, acquire individual properties or portfolios of properties and controlling interests in entities that own or control such properties or portfolios. To date, a significant portion of AIMCO's growth has resulted from the acquisition of other companies that owned or controlled properties.

Acquisition of Managed Properties. AIMCO's property management operations have contributed to its acquisition activities. Since AIMCO's initial public offering, the Company has acquired from its managed portfolio 16 properties comprising 5,697 units for total consideration of \$189.9 million. In addition, the Company acquired interests in 167 Oxford properties comprising 36,949 units for a total purchase price of \$1,189 million.

Increasing its Interest in Partnerships. For properties where AIMCO owns a general partnership interest in the property-owning partnership, the Company may seek to acquire, subject to its fiduciary duties, the interests in the partnership held by third parties for cash or, in some cases, in exchange for OP Units. AIMCO has completed approximately 1,800 tender offers with respect to various partnerships and has purchased additional interests in such partnerships for cash and for OP Units.

Property Management Strategies

AIMCO seeks to improve the operating results from its property management business by, among other methods, combining centralized financial control and uniform operating procedures with localized property management decision-making and market knowledge. Currently, AIMCO's management operations are organized into 25 regional operating centers. Each of the regional operating centers is supervised by a Regional Vice-President.

Taxation of the Company

The Company has elected to be taxed as a REIT under the Internal Revenue Code of 1986, as amended, commencing with its taxable year ended December 31, 1994, and the Company intends to continue to operate in such a manner. The Company's current and continuing qualification as a REIT depends on its ability to meet the various requirements imposed by the Internal Revenue Code, through actual operating results, distribution levels and diversity of stock ownership.

If the Company qualifies for taxation as a REIT, it will generally not be subject to U.S. federal corporate income tax on its net income that is currently distributed to stockholders. This treatment substantially eliminates the double taxation (at the corporate and stockholder levels) that generally results from investment in a corporation. If the Company fails to qualify as a REIT in any taxable year, its taxable income will be subject to U.S. federal income tax at regular corporate rates (including any applicable alternative minimum tax). Even if the Company qualifies as a REIT, it may be subject to certain state and local income taxes and to U.S. federal income and excise taxes on its undistributed income.

If in any taxable year the Company fails to qualify as a REIT and incurs additional tax liability, the Company may need to borrow funds or liquidate certain investments in order to pay the applicable tax and the Company would not be compelled to make distributions under the Internal Revenue Code. Unless entitled to relief under certain statutory provisions, the Company would also be disqualified from treatment as a REIT for the four taxable years following the year during which qualification is lost. Although the Company currently intends to operate in a manner designed to qualify as a REIT, it is possible that future economic, market, legal, tax or other considerations may cause the Company to fail to qualify as a REIT or may cause the Board of Directors to revoke the REIT election.

The Company and its stockholders may be subject to state or local taxation in various state or local jurisdictions, including those in which it or they transact business or reside. The state and local tax treatment of the Company and its stockholders may not conform to the U.S. federal income tax treatment.

Competition

There are numerous housing alternatives that compete with the Company's properties in attracting residents. The Company's properties compete directly with other multi-family rental apartments and single family homes that are available for rent or purchase in the markets in which the Company's properties are located. The Company's

7

Table of Contents

properties also compete for residents with new and existing condominiums. The number of competitive properties in a particular area could have a material effect on the Company's ability to lease apartment units at its properties and on the rents charged. The Company competes with numerous real estate companies in acquiring, developing and managing multi-family apartment properties and seeking tenants to occupy its properties. In addition, the Company competes with numerous property management companies in the markets where the properties managed by the Company are located.

Regulation

General

Multi-family apartment properties are subject to various laws, ordinances and regulations, including regulations relating to recreational facilities such as swimming pools, activity centers and other common areas. Changes in laws increasing the potential liability for environmental conditions existing on properties or increasing the restrictions on discharges or other conditions, as well as changes in laws affecting development, construction and safety requirements, may result in significant unanticipated expenditures, which would adversely affect the Company's cash flows from operating activities. In addition, future enactment of rent control or rent stabilization laws or other laws regulating multi-family housing may reduce rental revenue or increase operating costs in particular markets.

Laws Benefiting Disabled Persons

Under the Americans with Disabilities Act of 1990, all places of public accommodation are required to meet certain Federal requirements related to access and use by disabled persons. These requirements became effective in 1992. A number of additional Federal, state and local laws may also require modifications to the Company's properties, or restrict certain further renovations of the properties, with respect to access thereto by disabled persons. For example, the Fair Housing Amendments Act of 1988 requires apartment properties first occupied after March 13, 1990 to be accessible to the handicapped. Noncompliance with these laws could result in the imposition of fines or an award of damages to private litigants and also could result in an order to correct any non-complying feature, which could result in substantial capital expenditures. Although the Company believes that its properties are substantially in compliance with present requirements, it may incur unanticipated expenses to comply with these laws.

Regulation of Affordable Housing

As of December 31, 2000, the Company owned or controlled 59 properties that benefit from governmental programs intended to provide housing to people with low or moderate incomes. AIMCO also held an equity interest in 428 properties with a combined average ownership percentage of 28% and managed for third parties and affiliates 298 properties that benefit similarly. These programs, which are usually administered by the United States Department of Housing and Urban Development (HUD) or state housing finance agencies, typically provide mortgage insurance, favorable financing terms or rental assistance payments to the property owners. As a condition to the receipt of

assistance under these programs, the properties must comply with various requirements, which typically limit rents to pre-approved amounts. If permitted rents on a property are insufficient to cover costs, a sale of the property may become necessary, which could result in a loss of management fee revenue. The Company must obtain the approval of HUD in order to manage, or acquire a significant interest in, a HUD-assisted or HUD-insured property. This approval process is commonly referred to as 2530 Clearance.

Environmental

Various Federal, state and local laws subject property owners or operators to liability for the costs of removal or remediation of certain hazardous substances present on a property. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of the hazardous substances. The presence of, or the failure to properly remediate hazardous substances may adversely affect occupancy at contaminated apartment communities and the ability to sell or borrow against contaminated properties. In addition to the costs associated with investigation and remediation actions brought by governmental agencies, the presence of hazardous wastes on a property could result in personal injury or similar claims by private plaintiffs. Various laws also impose liability for the cost of removal or remediation of hazardous substances at a disposal or treatment facility. Anyone who arranges for the disposal or treatment of hazardous or toxic substances is potentially liable under such laws. These laws often impose liability whether or not the person arranging for the disposal ever owned or operated the disposal facility. In connection with the ownership, operation and management of our properties, the Company could potentially be liable for environmental liabilities or costs associated with its properties or properties it may acquire or manage in the future.

At December 31, 2000, the Company owned or controlled 566 properties containing 153,872 units. These owned or controlled properties contain, on average, 272 apartment units, with the largest property containing 2,907 apartment units. These properties offer residents a range of amenities, including swimming pools, clubhouses, spas, fitness centers, tennis courts and saunas. Many of the apartment units offer design and appliance features such as vaulted ceilings, fireplaces, washer and dryer hook-ups, cable television, balconies and patios. In addition, at December 31, 2000, the Company held an equity interest in 683 properties containing 111,748 units, and managed 471 other properties containing 60,669 units. The Company's total portfolio of 1,720 properties contain, on average, 190 apartment units, with the largest property containing 2,907 apartment units.

Substantially all of the properties owned or controlled by the Company are encumbered by mortgage indebtedness or serve as collateral for the Company's indebtedness. At December 31, 2000, the Company had aggregate mortgage indebtedness totaling \$4,031.4 million, which was secured by 537 properties with a combined net book value of \$6,054.6 million, having an aggregate weighted average interest rate of 7.89%. As of December 31, 2000, approximately 8% of AIMCO's outstanding debt was short-term debt and 92% was long-term debt. See the financial statements included elsewhere in this Annual Report on Form 10-K/A for additional information about the Company's indebtedness.

ITEM 3. *Legal Proceedings*

General

The Company is a party to various legal actions resulting from its operating activities. These actions are routine litigation and administrative proceedings arising in the ordinary course of business, some of which are covered by liability insurance, and none of which are expected to have a material adverse effect on the consolidated financial condition or results of operations of the Company and its subsidiaries taken as a whole.

Limited Partnerships

In connection with the Company's acquisitions of interests in limited partnerships that own properties, the Company and its affiliates are sometimes subject to legal actions, including allegations that such activities may involve breaches of fiduciary duties to the limited partners of such partnerships or violations of the relevant partnership agreements. The Company believes it complies with its fiduciary obligations and relevant partnership agreements, and does not expect such legal actions to have a material adverse effect on the consolidated financial condition or results of operations of the Company and its subsidiaries taken as a whole. The Company may incur costs in connection with the defense or settlement of such litigation, which could adversely affect the Company's desire or ability to complete certain transactions or otherwise have a material adverse effect on the Company and its subsidiaries.

Pending Investigations of HUD Management Arrangements

In July 1999, The National Housing Partnership (NHP) received a grand jury subpoena requesting documents relating to NHP's management of HUD-assisted or HUD-insured multi-family projects and NHP's operation of a group purchasing program created by NHP, known as Buyers Access. The subpoena relates to the same subject matter as subpoenas NHP received in October and December of 1997 from the HUD Inspector General. To date, neither the HUD Inspector General nor the grand jury has initiated any action against NHP or AIMCO or, to NHP's or AIMCO's

knowledge, any owner of a HUD property managed by NHP. AIMCO believes that NHP's operations and programs are in compliance, in all material respects, with all laws, rules and regulations relating to HUD-assisted or HUD-insured properties. AIMCO is cooperating with the investigation and does not believe that the investigation will result in a material adverse effect on the financial condition of the Company. However, as with any similar investigation, there can be no assurance that these will not result in material fines, penalties or other costs that may impact the Company's future results of operations or cash flow.

On March 8, 2001, there were 71,521,685 shares of Class A Common Stock outstanding, held by 2,776 stockholders of record.

AIMCO, as a REIT, is required to distribute annually to holders of common stock at least 90% (95% in 2000) of its real estate investment trust taxable income, which, as defined by the Internal Revenue Code and Treasury regulations, is generally equivalent to net taxable ordinary income. AIMCO measures its economic profitability and intends to pay regular dividends to its stockholders based on FFO during the relevant period. However, the future payment of dividends by AIMCO will be at the discretion of the Board of Directors and will depend on numerous factors including AIMCO's financial condition, its capital requirements, the annual distribution requirements under the provisions of the Internal Revenue Code applicable to REITs and such other factors as the Board of Directors deems relevant.

From time to time, AIMCO issues shares of Class A Common Stock in exchange for OP Units tendered to the AIMCO Operating Partnership for redemption in accordance with the terms and provisions of the agreement of limited partnership of the AIMCO Operating Partnership. Such shares are issued based on an exchange ratio of one share for each OP Unit. The shares are issued in exchange for OP Units in private transactions exempt from registration under the Securities Act of 1933, as amended (the Securities Act), pursuant to Section 4(2) thereof. During 2000, a total of 200,696 shares of Class A Common Stock were issued in exchange for OP Units.

During 2000, the Company repurchased and retired approximately 69,000 shares of Class A Common Stock at a net price of \$2.6 million, at an average share price of \$37.39 per share

ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements in certain circumstances. Certain information included in this Report, the Company's Annual Report to Stockholders and

other filings under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended (as well as information communicated orally or in writing between the dates of such filings) contains or may contain information that is forward looking, including, without limitation, statements regarding the effect of acquisitions, the Company's future financial performance and the effect of government regulations. Actual results may differ materially from those described in the forward looking statements and will be affected by a variety of risks and factors including, without limitation, national and local economic conditions, the general level of interest rates, terms of governmental regulations that affect the Company and interpretations of those regulations, the competitive environment in which the Company operates, financing risks, including the risk that the Company's cash flows from operations may be insufficient to meet required payments of principal and interest, real estate risks, including variations of real estate values and the general economic climate in local markets and competition for tenants in such markets, acquisition and development risks, including failure of such acquisitions to perform in accordance with projections, and possible environmental liabilities, including costs which may be incurred due to necessary remediation of contamination of properties presently owned or previously owned by the Company. In addition, the Company's continued qualification as a real estate investment trust involves the application of highly technical and complex provisions of the Internal Revenue Code. Readers should carefully review the Company's financial statements and the notes thereto, as well as the risk factors described in the documents the Company files from time to time with the Securities and Exchange Commission.

The following discussion and analysis of the results of operations and financial condition of the Company should be read in conjunction with the financial statements incorporated by reference in Item 8 of this Annual Report on Form 10-K/A. The following discussion of results of operations is based on net income calculated under accounting principles generally accepted in the United States. The Company, however, considers Funds From Operations, less a reserve for capital replacements, to be a more meaningful measure of economic performance.

Results of Operations

Comparison of the Year Ended December 31, 2000 to the Year Ended December 31, 1999

Net Income

The Company recognized net income of \$99.2 million, and net income attributable to common stockholders of \$36.0 million, for the year ended December 31, 2000, compared to net income and net income attributable to common stockholders of \$77.5 million and \$24.1 million, respectively, for the year ended December 31, 1999. Net income attributable to common stockholders represents net income less dividends accrued on preferred stock.

The following paragraphs discuss the results of operations in detail.

Consolidated Rental Property Operations

The increases in consolidated rental property operations resulted from improved same store sales results, acquisitions of properties in 2000 and 1999, and the purchase of limited partnership interests from unaffiliated third parties, which gave the Company a controlling interest in partnerships owning 201 properties in 2000.

Consolidated rental and other property revenues from the Company's owned and controlled properties totaled \$1,051.0 million for the year ended December 31, 2000, compared to \$533.9 million for the year ended December 31, 1999, an increase of \$517.1 million, or 96.9%. Of the \$517.1 million increase, 92.4% was related to the purchase of controlling interests in limited partnerships owning 201 properties, which resulted in these properties being consolidated during 2000, 4.9% was due to improved same store sales and the remaining 2.7% was due to acquisitions of properties in 2000 and 1999.

Consolidated property operating expenses totaled \$426.2 million for the year ended December 31, 2000, compared to \$213.8 million for the year ended December 31, 1999, an increase of \$212.4 million, or 99.3%. The purchase of controlling interests in limited partnerships owning 201 properties, which resulted in these properties being consolidated during 2000, contributed 89.0% of the increase; 3.6% was due to same store sales increases and

Table of Contents

the remaining 7.4% was due to acquisitions of properties in 2000 and 1999. Property operating expenses consist of on-site payroll costs, utilities (net of reimbursements received from tenants), contract services, turnover costs, repairs and maintenance, advertising and marketing, property taxes and insurance. The Company believes that energy costs will not have a material adverse effect on its results of operations.

Consolidated owned property management expenses, representing the costs of managing the Company's owned or controlled properties, totaled \$13.7 million for the year ended December 31, 2000, compared to \$1.7 million for the year ended December 31, 1999, an increase of \$12.0 million. The increase was due to the purchase of controlling interests in limited partnerships owning 201 properties, which resulted in these properties being consolidated in 2000.

Consolidated Service Company Business

Income from the consolidated service company business was \$5.5 million for the year ended December 31, 2000, compared to \$7.0 million for the year ended December 31, 1999, a decrease of \$1.5 million or 21.4%. Before consideration of the intercompany allocation of general and administrative expenses and the non-cash charge for the amortization of intangibles, the income from the consolidated service company was comparable to the prior year. The decrease in the amortization of intangibles of \$7.6 million was due to property management and asset management contract intangibles that were fully amortized in 1999. The increase in the allocation of general and administrative expenses to the consolidated service company is attributable to the increase in the consolidated properties, whereby the management fee revenue is included in the consolidated service company. Accordingly, the overhead costs associated with managing these properties were reallocated from general and administrative expenses to the consolidated service company to more closely align the expenses with the revenue from the operating activity.

Consolidated General and Administrative Expenses

Consolidated general and administrative expenses before allocation (see allocation description above in consolidated service company business) totaled \$18.1 million for the year ended December 31, 2000, compared to \$15.2 million for the year ended December 31, 1999, an increase of \$2.9 million, or 19.1%. The increase is due to additional professional fees incurred to support information technology enhancements and operational initiatives.

Consolidated Interest Expense

Consolidated interest expense, which includes the amortization of deferred finance costs, totaled \$269.8 million for the year ended December 31, 2000, compared to \$140.1 million for the year ended December 31, 1999, an increase of \$129.7 million or 92.6%. Of the \$129.7 million increase, 46.3% was due to the Company acquiring controlling interests in partnerships owning 201 properties and the subsequent consolidation of these properties. Interest expense incurred in connection with the 2000 and 1999 acquisitions (including the Oxford acquisition) contributed 47.6% of the increase. The remaining 6.1% was due to increased usage of the Company's credit facility.

Consolidated Interest Income

Consolidated interest income totaled \$66.2 million for the year ended December 31, 2000, compared to \$55.3 million for the year ended December 31, 1999, an increase of \$10.9 million or 19.7%. The \$66.2 million of interest income in 2000 consisted of recurring interest income of \$39.8 million and accretion of loan discounts of \$26.4 million. In 1999, the \$55.3 million of interest income consisted of recurring interest income of \$22.9 million and accretion of loan discounts of \$32.4 million. Recurring interest income increased \$16.9 million as a result of the following: during 2000, (i) the Company increased notes receivable from general partner loans by approximately \$81.7 million, (ii) as a result of improved property operations certain of the outstanding notes receivable in the form of general partner loans remitted cash payments on a recurring basis. The combination of these factors resulted in \$10.7 million of the increase in recurring interest income. The remaining recurring interest income increase of \$6.2 million resulted from higher average cash balances maintained in money market and interest bearing accounts during 2000. The Company holds investments in notes receivable which were either extended by the Company and are carried at the face amount plus accrued interest (par value notes) or were made by predecessors whose positions have been acquired by the Company at a discount and are carried at the acquisition amount using the cost recovery method (discounted notes). The decrease in accretion of \$6.0 million is due to fewer loans and fewer events allowing the Company to recognize accretion on certain discounted notes.

Table of Contents

Equity in Earnings (Losses) of Unconsolidated Real Estate Partnerships

Equity in earnings of unconsolidated real estate partnerships totaled \$7.6 million for the year ended December 31, 2000, compared to a loss of \$4.5 million for the year ended December 31, 1999, an increase of \$12.1 million. Of the \$12.1 million increase, \$2.1 million was due to acquisition of interests in Oxford properties and the remaining was due to the acquisition of equity interests in better performing multi-family apartment properties where the Company owns a general partnership interest.

Equity in Earnings (Losses) of Unconsolidated Subsidiaries

Equity losses from unconsolidated subsidiaries totaled \$2.3 million for the year ended December 31, 2000, compared to \$5.0 million for the year ended December 31, 1999, a decrease of \$2.7 million or 54.0%. The decrease in the equity loss from unconsolidated subsidiaries is due to interest income earned on general partner notes acquired in 2000 through the acquisition of interests in the Oxford properties.

Minority Interest in Other Entities

Minority interest in other entities totaled \$3.9 million for the year ended December 31, 2000, compared to \$0.9 million for the year ended December 31, 1999, an increase of \$3.0 million. The increase is due to the consolidation of 201 additional properties in 2000, as compared to the consolidation of 125 additional properties in 1999.

Gain (Loss) on Disposition of Properties

Gain (loss) on disposition of properties totaled \$26.3 million for the year ended December 31, 2000, compared to a gain(loss) of (\$1.8) million for the year ended December 31, 1999, an increase of \$28.1 million. The sales in both periods are of properties that are considered by management to be inconsistent with the Company's long-term investment strategy.

Comparison of the Year Ended December 31, 1999 to the Year Ended December 31, 1998

Net Income

The Company recognized net income of \$77.5 million, and net income attributable to common stockholders of \$24.1 million, for the year ended December 31, 1999, compared to net income and net income attributable to common stockholders of \$64.5 million and \$37.9 million, respectively, for the year ended December 31, 1998. Net income attributable to common stockholders represents net income less dividends accrued on preferred stock.

The following paragraphs discuss the results of operations in detail.

Consolidated Rental Property Operations

The increases in consolidated rental property operations resulted from improved same store sales results, acquisitions of properties in 1999 and 1998, and through the purchase of limited partnership interests from unaffiliated third parties that gave the Company a controlling interest in partnerships owning 125 properties in 1999.

Consolidated rental and other property revenues from the Company's owned and controlled properties totaled \$533.9 million for the year ended December 31, 1999, compared to \$377.1 million for the year ended December 31, 1998, an increase of \$156.8 million, or 41.6%. Of the \$156.8 million increase, 49.4% was related to the purchase of controlling interests in limited partnerships owning 125 properties, which resulted in these properties being consolidated in 1999, 4.3% was due to improved same store sales and the remaining 46.3% was due to acquisitions of properties in 1999 and 1998.

Consolidated property operating expenses totaled \$213.8 million for the year ended December 31, 1999, compared to \$147.5 million for the year ended December 31, 1998, an increase of \$66.3 million, or 44.9%. The purchase of controlling interests in limited partnerships owning 125 properties, which resulted in these properties being consolidated during 1999, contributed 47.0% of the increase; 11.4% was due to same store sales increases and the remaining 42.6% was due to acquisitions of properties in 1999 and 1998. Property operating expenses consist of on-site payroll costs, utilities (net of reimbursements received from tenants), contract services, turnover costs, repairs and maintenance, advertising and marketing, property taxes and insurance.

or controlled properties, remained consistent with \$1.7 million for the year ended December 31, 1999, compared to \$2.0 million for the year ended December 31, 1998, a decrease of \$0.3 million, or 15.0%.

Consolidated Service Company Business

Income from the consolidated service company business was \$7.0 million for the year ended December 31, 1999, compared to a loss of \$4.9 million for the year ended December 31, 1998, an increase of \$11.9 million. Management contracts acquired in the Company's merger with Insignia Financial Group, Inc and Insignia Properties Trust that are held by the Company contributed 22.9% of the increase. The transfer of majority-owned management contracts from the unconsolidated management companies to the AIMCO Operating Partnership contributed another 49.1% of the change. When the Company owns at least a 40% interest in a real estate partnership, the management contract with that real estate partnership is assigned to the AIMCO Operating Partnership, increasing the amount of revenues recognized by the consolidated service company operations.

Consolidated General and Administrative Expenses

Consolidated general and administrative expenses before allocation remained relatively unchanged with \$15.2 million for the year ended December 31, 1999, compared to \$13.8 million for the year ended December 31, 1998, an increase of \$1.4 million, or 10.1%.

Consolidated Interest Expense

Consolidated interest expense, which includes the amortization of deferred finance costs, totaled \$140.1 million for the year ended December 31, 1999, compared to \$89.4 million for the year ended December 31, 1998, an increase of \$50.7 million or 56.7%. Interest expense incurred in connection with the 1999 and 1998 acquisitions contributed 52.5% of the increase. Another contributing factor was the consolidation of an additional 125 properties when control was obtained resulting in 22.5% of the increase from 1998.

Consolidated Interest Income

Consolidated interest income totaled \$55.3 million for the year ended December 31, 1999, compared to \$29.4 million for the year ended December 31, 1998, an increase of \$25.9 million or 88.1%. The Company holds investments in notes receivable which were either extended by the Company and are carried at the face amount plus accrued interest (par value notes) or were made by predecessors whose positions have been acquired by the Company at a discount and are carried at the acquisition amount using the cost recovery method (discounted notes). The increase in interest income was due to the recognition of interest income that had previously been deferred and portions of the related discounts for certain discounted notes. As required by generally accepted accounting principles, based upon closed or pending transactions, market conditions, and improved operations of the obligor, the collectibility of such notes is now believed by management to be probable and the amounts and timing of collections are estimable.

Same Store Property Operating Results

The Company defines same store properties as conventional apartment communities in which AIMCO owned greater than ten percent in the comparable periods of 2000 and 1999. Total portfolio includes same store properties plus acquisition properties and redevelopment properties. The following table summarizes the unaudited conventional rental property operations in 2000 and 1999, on a same store and a total portfolio basis (dollars in thousands):

Table of Contents**Funds From Operations**

The Company measures its economic profitability based on Funds From Operations (FFO), less a reserve for capital replacements of \$300 per apartment unit. The Company's management believes that FFO, less such a reserve, provides investors with an understanding of the Company's ability to incur and service debt and make capital expenditures. The Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT) defines FFO as net income (loss), computed in accordance with generally accepted accounting principles (GAAP), excluding gains and losses from debt restructuring and sales of property, plus real estate related depreciation and amortization (excluding amortization of financing costs), and after adjustments for unconsolidated partnerships and joint ventures. The Company calculates FFO based on the NAREIT definition, as further adjusted for minority interest in the AIMCO Operating Partnership, amortization of intangibles, interest expense on mandatorily redeemable convertible preferred securities, the non-cash deferred portion of the income tax provision for unconsolidated subsidiaries and less the payment of dividends on perpetual and non-dilutive convertible preferred stock. FFO should not be considered an alternative to net income or net cash flows from operating activities, as calculated in accordance with GAAP, as an indication of the Company's performance or as a measure of liquidity. FFO is not necessarily indicative of cash available to fund future cash needs. In addition, there can be no assurance that the Company's basis for computing FFO is comparable with that of other real estate investment trusts.

For the years ended December 31, 2000, 1999 and 1998, the Company's FFO is calculated as follows (amounts in thousands):

	<u>2000</u>	<u>1999</u>	<u>1998</u>

Contribution to Free Cash Flow

The Company seeks to improve funds from operations, less a reserve for capital replacements, on a per share basis. In this regard, in addition to the year-to-year comparative discussion, the Company has provided disclosure (see Footnote 22 in the accompanying Notes to Consolidated Financial Statements) on the contribution (separated between consolidated and unconsolidated activity) to the Company's Free Cash Flow from several components of the Company's business, and a reconciliation of Free Cash Flow to FFO, less a reserve for capital replacements, and to net income for the year ended December 31, 2000 and 1999. The Company defines Free Cash Flow as FFO, less a reserve

for capital replacements, plus interest expense and preferred stock dividends.

The following table summarizes the contributors to the Company's Free Cash Flow (in thousands)

	2000		1999	
	Amount	Contr. %	Amount	Contr. %
Real estate	\$598,826	86%	\$435,724	84%

Interest income: accretion of loan discount	26,409	4%	32,460	6%
General and administrative expenses	(7,813)	(1)%	(13,112)	(3)%
Total Free Cash Flow	\$697,778	100%	\$520,576	100%

Total Free Cash Flow contributed was \$697.8 million and \$520.6 million in 2000 and 1999, respectively, an increase of \$177.2 million or 34.0%.

The real estate Free Cash Flow contribution was \$598.8 million and \$435.7 million in 2000 and 1999, respectively, an increase of \$163.1 million or 37.4%. Real estate contribution to total Free Cash Flow increased to 86% in 2000 from 84% in 1999. The increase was due to improvements in property operations, acquisitions and tenders.

The recurring service business contributed \$30.6 million (4%) and \$36.6 million (7%) to Free Cash Flow in 2000 and 1999, respectively. The decreased contribution of \$6.0 million, after consideration of the increase in the intercompany allocation of general administrative expenses of \$8.2 million, was due to the establishment of the new Corporate Housing program and other product enhancements. Disposition and refinancing fees contributed \$7.4 million (1%) and \$4.5 million (1%) to Free Cash Flow in 2000 and 1999, respectively. Fees are earned on partnership sales, refinancings and other transactions. The increase in fee income is due to increased disposition fees received from the sale of 79 properties in 2000, compared to the fees received from the sale of 63 properties in 1999. The income received from refinancing fees also increased to \$4.0 million in 2000, compared to \$0.6 million in 1999.

Consolidated recurring interest income increased \$16.9 million as a result of the following: during 2000, (i) the Company increased notes receivable from general partner loans by approximately \$81.7 million, (ii) as a result of improved property operations certain of the outstanding notes receivable in the form of general partner loans remitted cash payments on a recurring basis. The combination of these factors resulted in \$10.7 million of the increase in recurring interest income. The remaining consolidated recurring interest income increase of \$6.2 million resulted from higher average cash balances maintained in money market and interest bearing accounts during 2000. The decrease in accretion of \$6.0 million is due to fewer loans and fewer events allowing the Company to recognize accretion on certain discounted notes. The Company considers disposition and refinancing fees and interest income from notes purchased at a discount as transactional. Together, the transactional contribution was \$33.8 million (5%) and \$36.9 million (7%) of Free Cash Flow contribution in 2000 and 1999.

The conventional real estate contribution to Free Cash Flow was \$609.1 million and \$403.4 million in 2000 and 1999, respectively, an increase of \$205.7 million or 51.0%. The increase was due to improvements in property operations, acquisitions and tenders.

The changes in the composition of conventional and real estate contribution resulted in an increase in contribution from properties with an average monthly rent greater than \$800 per unit to 24% from 20% in 1999, and a decrease in contribution from properties with an average monthly rent below \$500 per unit to 10% from 15% in 1999. The changes were due to improvements in property operations, acquisitions, tenders and dispositions.

Footnote 22 in the accompanying Notes to Consolidated Financial Statements provides additional detail on each component of Free Cash Flow. The Company believes this disclosure is complementary to the results of operations discussed above.

At December 31, 2000, the Company had \$157.1 million in cash and cash equivalents and \$126.9 million of restricted cash, primarily consisting of reserves and impounds held by lenders for capital expenditures, property taxes and insurance. In addition, cash, cash equivalents and restricted cash are held by partnerships and subsidiaries that are not presented on a consolidated basis. The Company's principal demands for liquidity include normal operating activities, payments of principal and interest on outstanding debt, capital improvements, acquisitions of and investments in properties, dividends paid to stockholders and distributions paid to limited partners. The Company considers its cash provided by operating activities to be adequate to meet short-term liquidity demands.

In August 1999, the Company closed a \$300 million revolving credit facility arranged by Bank of America, N.A., Fleet National Bank (successor to BankBoston, N.A.) and First Union National Bank with a syndicate comprised of a total of nine lender participants. Effective March 15, 2000 the credit facility was expanded by \$45 million with the potential to expand it by another \$55 million to a total of \$400 million. Of the \$55 million potential expansion, \$5 million was expanded on April 14, 2000 bringing the total availability to \$350 million. In September 2000, the credit facility was amended and restated. The obligations under the credit facility are secured by a first priority pledge of certain non-real estate assets of the Company and a second priority pledge of the stock ownership of the AIMCO Operating Partnership, NHP Management Company, AIMCO/Bethesda Holdings, Inc., AIMCO Holdings, L.P., in certain subsidiaries of AIMCO and certain options to purchase Beneficial Assignee Interests (BACs) in OTEF. Borrowings under the credit facility, including the \$50 million expansion, are available for general corporate purposes. The credit facility matures in July 2002 and can be extended twice at AIMCO's option, for a term of one year. The annual interest rate under the new credit facility is based on either LIBOR or a base rate, which is the higher of Bank of America's reference rate or 0.50% over the federal funds rate, plus, in either case, an applicable margin. The margin ranges between 2.05% and 2.55%, in the case of LIBOR-based loans, and between 0.55% and 1.05%, in the case of base rate loans, based upon a fixed charge coverage ratio. The weighted average interest rate at December 31, 2000 was 9.16%. The amount available under the credit facility at December 31, 2000 was \$95.3 million, less \$1.2 million for outstanding letters of credit.

On September 20, 2000 AIMCO completed the purchase of all the stock and other interests (not already owned by AIMCO) held by the principals, officers and directors of ORFG in the Oxford entities, including ORFG, which own interests in and control the Oxford properties. The purchase price of \$1,189 million was comprised of \$266 million in cash, \$861 million of assumed liabilities and incurred transaction costs and \$62 million in common OP units valued at \$45 per unit. The Oxford properties are 167 apartment communities with a total of 36,949 units located in 18 states. The Company borrowed \$279 million to pay the cash portion of the purchase price and transactions costs for the Oxford acquisition from Bank of America, N.A., Lehman Commercial Paper Inc. and several other lenders, pursuant to a term loan with a total availability of \$302 million. Transaction costs (including advisory fees) incurred on the term loan were \$9.4 million. The borrowers under the term loan are the AIMCO Operating Partnership, NHP Management Company and AIMCO/Bethesda Holdings, Inc., and all obligations thereunder are guaranteed by AIMCO and certain of its subsidiaries. The obligations under the term loan are secured by a first priority pledge of the stock ownership of the AIMCO Operating Partnership, NHP Management Company, AIMCO/Bethesda Holdings, Inc., and AIMCO Holdings, L.P. in certain subsidiaries of AIMCO and certain options to purchase BACs in OTEF and a second priority pledge of certain non-real estate assets of the Company. The annual interest rate under the term loan is based either on LIBOR or a base rate which is the higher of Bank of America, N.A.'s reference rate or 0.5% over the federal funds rate, plus, in either case, an applicable margin. The margin ranges between 4.0% and 5.0% in the case of LIBOR-based loans, and between 1.0% and 2.0% in the case of base rate loans, based upon the number of months the loan is outstanding.

Table of Contents

The term loan expires in July 2002. The financial covenants contained in the term loan require the AIMCO Operating Partnership to maintain a ratio of debt to gross asset value of no more than 0.55 to 1.0, an interest coverage ratio of 2.25 to 1.0, and a fixed charge coverage ratio of at least 1.50 to 1.0. In addition, the term loan limits AIMCO from distributing more than 80% of its Funds From Operations (as defined) (or such amounts as may be necessary for AIMCO to maintain its status as a REIT). The term loan imposes minimum net worth requirements and provides other financial covenants related to certain of AIMCO's assets and obligations. The total outstanding under the term loan at December 31, 2000 was \$137 million of which \$74 million is classified as secured short-term financing of the Company and the remainder is a liability at the unconsolidated subsidiaries and, therefore, is included in investments in unconsolidated subsidiaries. Effective January 1, 2001, in connection with the REIT Modernization Act, the remaining liability of \$63 million will be consolidated.

As of December 31, 2000, substantially all of the Company's owned or controlled properties and 78.6% of its total assets were encumbered by or served as collateral for debt. As of December 31, 2000, the Company had total secured outstanding indebtedness of \$4,360.1 million, comprised of \$3,258.3 million of secured long-term financing, \$773.0 million of secured tax-exempt long-term bond financing and \$328.7 million in secured short-term financing. As of December 31, 2000, approximately 8% of the Company's indebtedness bears interest at variable rates. As of December 31, 2000, the Company had 31 loans, each of which is secured by the property owned by such partnership and also cross-collateralized with certain other loans. The aggregate principal balances outstanding on 31 loans that are cross-collateralized are \$154.1 million as of December 31, 2000. Other than these loans, none of the Company's debt is subject to cross-collateralization provisions. The weighted average interest rate on the Company's secured, long-term notes payable was 7.89%, with a weighted average maturity of 11 years as of December 31, 2000. At December 31, 2000, the weighted average interest rate on the Company's secured short-term financing was 9.16%.

During the year ended December 31, 2000, the Company issued \$636.0 million of long-term, fixed rate, fully amortizing non-recourse mortgage notes payable with a weighted average interest rate of 7.5%. Each of the notes is individually secured by one of 107 properties with no cross-collateralization. The Company used the net proceeds after transaction costs of \$625.5 million to repay existing debt. During the year ended December 31, 2000, the Company has also assumed \$60.6 million of long-term, fixed-rate, fully amortizing notes payable with a weighted average interest rate of 7.5% in connection with the acquisition of properties. Each of the notes is individually secured by one of 12 properties with no cross-collateralization.

During the year ended December 31, 2000, the Company issued \$230.0 million of preferred stock in three direct placements yielding \$227 million of net proceeds. See Footnote 15 to the consolidated financial statements for further discussion on these preferred stocks.

The Company expects to meet its long-term liquidity requirements, such as refinancing debt and property acquisitions, through long-term borrowings, both secured and unsecured, the issuance of debt or equity securities (including OP Units) and cash generated from operations. In August 1998, AIMCO and the AIMCO Operating Partnership filed a shelf registration statement with the Securities and Exchange Commission (SEC) with respect to an aggregate of \$1,268 million of debt and equity securities of AIMCO (of which \$268 million was carried forward from AIMCO's 1997 shelf registration statement) and \$500 million of debt securities of the AIMCO Operating Partnership. The registration statement was declared effective by the SEC on December 10, 1998. As of March 29, 2001, the Company had approximately \$925 million available and the AIMCO Operating Partnership had \$500 million available from this registration statement. The Company expects to finance acquisitions of real estate interests with cash from operations or the issuance of equity securities and debt.

Capital Expenditures

For the year ended December 31, 2000, the Company spent a total of \$261.9 million for capital expenditures on its portfolio of assets. Capital expenditures include capital replacements (expenditures for routine maintenance of a property), initial capital expenditures (ICE , expenditures at a property that have been identified, at the time the property is acquired, as expenditures to be incurred within one year of the acquisition) and redevelopment and enhancements (amenities that add a material new feature or revenue source at a property). The Company s share of those expenditures are as follows (in millions):

These expenditures were funded by net cash provided by operating activities, working capital reserves, and borrowings under the Company s credit facility. ICE and capital enhancements will primarily be funded by cash from operating activities and borrowings under the Company s revolving credit facility.

(a) The Company defines Return on Assets (AFFO) as (i) annualized Free Cash Flow, divided by (ii) Average Assets. Average Assets are computed by averaging the sum of Assets, as defined below, at the beginning and the end of the period. Assets are total assets, plus accumulated depreciation, less accumulated capital replacements of \$103.6 million and \$63.3 million, for the years ended December 31, 2000 and 1999 respectively, and less all non-indebtedness liabilities. The Company defines Return on Assets (FFO) as (i) annualized Free Cash Flow plus capital replacements, divided by (ii) Average Assets plus accumulated capital replacements.

(b) The Company defines Return on Equity-Basic (AFFO) as (i) annualized AFFO-Basic, divided by (ii) Average Equity. Average Equity is computed by averaging the sum of Equity, as defined below, at the beginning and the end of the period. Equity is total stockholders equity, plus accumulated depreciation, less accumulated capital

Contingencies

Environmental

Various Federal, state and local laws subject property owners or operators to liability for the costs of removal or remediation of certain hazardous substances present on a property. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of the hazardous substances. The presence of, or the failure to properly remediate hazardous substances may adversely affect occupancy at contaminated apartment communities and the ability to sell or borrow against contaminated properties. In addition to the costs associated with investigation and remediation actions brought by governmental agencies, the presence of hazardous wastes on a property could result in personal injury or similar claims by private plaintiffs. Various laws also impose liability for the cost of removal or remediation of hazardous substances at the disposal or treatment facility. Anyone who arranges for the disposal or treatment of hazardous or toxic substances is potentially liable under such laws. These laws often impose liability whether or not the person arranging for the disposal ever owned or operated the disposal facility. In connection with the ownership, operation and management of our properties, the Company could potentially be liable for environmental liabilities or costs associated with properties or properties it acquires or manages in the future.

Inflation

Substantially all of the leases at the Company's apartment properties are for a period of twelve months or less, allowing, at the time of renewal, for adjustments in the rental rate and the opportunity to re-lease the apartment unit at the prevailing market rate. The short-term nature of these leases generally serves to minimize the risk to the Company of the adverse effect of inflation and the Company does not believe that inflation has had a material adverse impact on its operations.

ITEM 7a. Quantitative and Qualitative Disclosures About Market Risk

The Company's primary market risk exposure relates to changes in interest rates. The Company is not subject to any foreign currency exchange rate risk or commodity price risk, or any other material market rate or price risks. The Company uses predominantly long-term, fixed-rate and self-amortizing non-recourse mortgage debt in order to avoid the refunding or repricing risks of short-term borrowings. The Company uses short-term debt financing and working capital primarily to fund acquisitions and generally expects to refinance such borrowings with proceeds from operating activities, equity offerings or long-term debt financings.

The Company had \$359.5 million of variable rate debt outstanding at December 31, 2000, which represents 8% of the Company's total outstanding debt. Based on this level of debt, an increase in interest rates of 1% would result in the Company's income and cash flows being reduced by \$3.6 million on an annual basis. At December 31, 2000, the Company had \$4,000.6 million of fixed-rate debt outstanding.

As of December 31, 2000, the scheduled principal amortization and maturity payments for the Company's consolidated secured notes payable and consolidated secured tax-exempt bonds are as follows (in thousands):

	Amortization	Maturities	Total
1	\$79,491	\$96,343	\$175,835
283,260			
102,484

142,302			
246,747			
Thereafter

			\$4,031,375

The estimated aggregate fair value of the Company's cash and cash equivalents, receivables, payables and short-term secured debt as of December 31, 2000 is assumed to approximate their carrying value due to their relatively short terms. Management further believes that the fair market value of the Company's secured tax-exempt bond debt and secured long-term debt approximates their carrying value, based on market comparisons to similar types of debt instruments having similar maturities.

(1) Unless otherwise specified, options vest over three years. Under the terms of the Apartment Investment and Management Company 1997 Stock Award and Incentive Plan (the 1997 Stock Plan), the plan administrator retains discretion, subject to certain restrictions, to modify the terms of outstanding options. The exercise price of incentive options granted under the 1997 Stock Plan equal the fair market value of a share of Class A Common Stock on the date of grant. The exercise price of non-qualified options granted under the 1997 Stock Plan generally equals the fair market value of a share of Class A Common Stock on the date of grant.

(2) Assumed annual rates of stock price appreciation are set forth

for illustrative purposes only. The amounts shown are for the assumed rates of appreciation only, do not constitute projections of future stock price performance, and may not be realized.

ITEM 12. Security Ownership of Certain Beneficial Owners and Management

The following table sets forth certain information available to the Company, as of March 8, 2001, with respect to equity securities of the Company or any of its subsidiaries (other than directors qualifying shares) beneficially owned by (i) each director and nominee, the chief executive officer and the Named Executive Officers who were serving as of December 31, 2000, and (ii) all directors and executive officers as a group. The table also sets forth certain information available to the Company, as of March 8, 2001, with respect to shares of AIMCO's Class A Common Stock held by each person known to the Company to be the beneficial owner of more than 5% of such shares. This table does not reflect options that are not exercisable within 60 days. Unless otherwise indicated, each person has sole voting and investment power with respect to the securities beneficially owned by that person. The business address of each of the following directors and executive officers is 2000 South Colorado Boulevard, Tower Two, Suite 2-1000, Denver, Colorado 80222-7900, unless otherwise specified.

Stock which may be acquired by a person within 60 days upon the exercise of options, warrants, rights or conversion privileges are deemed to be beneficially owned by that person and are deemed outstanding for the purpose of computing the percentage of outstanding shares of Class A Common Stock owned by that person, but not any other person.

(3) Through wholly owned subsidiaries, the Company acts as general partner of, and, as of March 8, 2001, holds approximately 90% of the interests in the AIMCO Operating Partnership. After a one-year holding period, common OP Units may be tendered for redemption and, upon tender, may be acquired by the Company for shares of Class A Common Stock at an exchange ratio of one share of Class A Common Stock for each common OP Unit (subject

to adjustment). If all common OP Units were acquired by the Company for Class A Common Stock (without regard to the ownership limit set forth in AIMCO's Charter) these shares of Class A Common Stock would constitute approximately 12% of the then outstanding shares of Class A Common Stock. Common OP Units are subject to certain restrictions on transfer. Class I HPUs are not convertible into Class A Common Stock. However, in the event of a change of control of the Company, holders of the Class I HPUs will have redemption rights similar to those of holders of common OP Units.(4) Represents the number of shares of Class A Common Stock beneficially owned, divided by the total number of shares of Class A Common Stock outstanding, assuming, in both

ITEM 13. *Certain Relationships and Related Transactions*

From time to time, the Company has entered into various transactions with certain of its executive officers and directors. The Company attempts to price such transactions based on fair market value, and believes that the transactions are on terms that are as favorable to the Company as could be achieved with unrelated third parties.

High Performance Units. Effective January 1, 1998, the AIMCO Operating Partnership sold to a limited liability company then owned by fourteen members of AIMCO's senior management (70% by a Considine family partnership, 14% owned by Mr. Kompaniez and 16% owned by twelve members of AIMCO's senior management) and then directors J. Landis Martin, Thomas Rhodes and John Smith, the Class I High Performance Partnership Units. The sale of Class I HPUs was ratified by AIMCO stockholders at AIMCO's 1998 Annual Stockholders Meeting.

Based upon the AIMCO's actual 1998-2000 performance versus the Morgan Stanley Dean Witter REIT Index, and a 30% minimum return the High Performance Units were valued at \$115 million as of January 1, 2001 and thereafter entitled the holders thereof to receive distributions equal to those paid on approximately 2.4 million OP Units.

Transactions with Management Companies. From time to time the Company has formed corporations (the Management Companies) in which the AIMCO Operating Partnership holds non-voting preferred stock and 100% of the voting stock is owned by certain of the Company's executive officers of the General Partner and AIMCO (or entities controlled by them), including Messrs. Considine and Kompaniez. The Management Companies were formed to engage in businesses generally not permitted under the REIT provisions of the Internal Revenue Code. Although transactions between the Company and the Management Companies are not at arm's length, the Company believes that such transactions are at fair market value.

After January 1, 2000, Messrs. Considine and Kompaniez, collectively, owned 1% of the outstanding stock (100% of the voting stock) of the following Management Companies: AIMCO/NHP Holdings, Inc. (ANHI), NHP Management Company (NHPMC), AIMCO/NHP Properties, Inc. (ANPI) and NHP A&R Services, Inc. (NHPAR). All of Mr. Considine's ownership interests in these Management Companies are held through Tebet, L.L.C., a Colorado limited liability company of which he is the managing member (Tebet) and Considine Investment Company (CIC) which is wholly owned by Mr. Considine.

Effective January 1, 2000, the AIMCO Operating Partnership offset debt owed to NHPMC and ANHI, against amounts receivables from NHPMC and ANHI in the aggregate amounts of \$255,510 and \$619,336, respectively. In addition, the AIMCO Operating Partnership repaid all of its debt owed to NHPAR and ANPI in the amounts of \$1,894,326 and \$538,621, respectively.

Effective January 1, 2000, the AIMCO Operating Partnership also contributed its 99% preferred stock holding in each of ANPI and NHPAR to NHPMC, and Messrs. Considine and Kompaniez contributed their collective 1% common stock holding in each of ANPI and NHPAR to NHPMC. As a result, NHPMC became the sole stockholder of both ANPI and NHPAR.

Effective January 1, 2000, after NHPMC became the sole stockholder of ANPI, NHPMC paid the AIMCO Operating Partnership a dividend of all of the stock of TAHF Funding Corp., a wholly owned subsidiary of ANPI, and all the stock of NHP-HDV Eleven, Inc., NHP-HDV Eighteen, Inc., and NHP-HDV Nineteen, Inc., three general partners of general partners of property owning partnerships.

For the year ended December 31, 2000, Tebet and CIC, and Mr. Kompaniez have received dividends of approximately \$23,800 and \$6,000, respectively, on their shares of common stock of the Management Companies, and the Company has received dividends of \$2,947,300 on its shares of preferred stock of the Management Companies.

As of January 1, 2001, Tebet and Mr. Kompaniez each transferred to the AIMCO Operating Partnership the remainder of their common stock holdings in ANHI; and CIC and Mr. Kompaniez each transferred to the AIMCO

Operating Partnership the remainder of their common stock holdings in NHPMC. As a result, the AIMCO Operating Partnership increased its ownership interest in each of ANHI and NHPMC from 99% to 100%, and Tebet, CIC and Mr. Kompaniez eliminated their ownership interests in each of ANHI and NHPMC. The purchase price paid by the AIMCO Operating Partnership for the interests in these companies acquired from Tebet and CIC was \$1,303,800 and for the interests in NHPMC acquired from Mr. Kompaniez was \$325,950. These purchase prices were determined by AIMCO's independent directors, based on valuation done by an independent appraiser. In consideration for the transfers, the AIMCO Operating Partnership assumed \$98,305 of promissory notes that Tebet and CIC had issued to purchase their interests in NHPMC, and \$24,575 of promissory notes that Mr. Kompaniez had issued to purchase his interests in NHPMC. In considerations for the transfers, the AIMCO Operating Partnerships also issued to Tebet and CIC 24,140 OP Units, and to Mr. Kompaniez 6,035 OP Units.

Stock Purchase Loans. From time to time, the Company makes loans to its executive officers to finance their purchase of shares of Class A Common Stock from the Company. During 2000, the Company sold 12,000 shares and 13,148 shares, respectively, of Class A Common Stock to Messrs. Alcock and Monson for a purchase price of \$462,000 and \$506,198, respectively. In each case, the purchase price was equal to the closing price of the Class A Common Stock on the New York Stock Exchange on the date of sale. In payment for such shares, Messrs. Alcock, and Monson executed notes payable to the Company bearing interest at 7.25% per annum, payable quarterly, and due in 2010. The following table sets forth certain information with respect to these loans to executive officers.

REPORT OF INDEPENDENT AUDITORS

Stockholders and Board of Directors
Apartment Investment and Management Company

We have audited the accompanying consolidated balance sheets of Apartment Investment and Management Company as of December 31, 2000 and 1999, and the related consolidated statements of income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2000. Our audits also included the financial statement schedule listed in the Index at Item 14(a)(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Apartment Investment and Management Company at December 31, 2000 and 1999, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2000 in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects the information set forth therein.

APARTMENT INVESTMENT AND MANAGEMENT COMPANY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2000

NOTE 1 Organization

Apartment Investment and Management Company, a Maryland corporation incorporated on January 10, 1994 (AIMCO and, together with its consolidated subsidiaries and other controlled entities, the Company), owns a majority of the ownership interests in AIMCO Properties, L.P., (the AIMCO Operating Partnership) through its wholly owned subsidiaries, AIMCO-GP, Inc. and AIMCO-LP, Inc. The Company held an approximate 91% interest in the AIMCO Operating Partnership as of December 31, 2000. AIMCO-GP, Inc. is the sole general partner of the AIMCO Operating Partnership.

As of December 31, 2000, AIMCO:

owned or controlled (consolidated) 153,872 units in 566 apartment properties;

held an equity interest in (unconsolidated) 111,748 units in 683 apartment properties; and

managed 60,669 units in 471 apartment properties for third party owners and affiliates.

At December 31, 2000, AIMCO had 71,337,217 shares of Class A Common Stock outstanding and the AIMCO Operating Partnership had 8,341,161 Partnership Common Units (Common OP Units) outstanding (excluding units held by the Company), for a combined total of 79,678,378 shares of Class A Common Stock and Common OP Units outstanding.

Interests in the AIMCO Operating Partnership held by limited partners other than AIMCO are referred to as OP Units . OP Units include Common OP Units, Partnership Preferred Units (Preferred OP Units) and High Performance Partnership Units. The AIMCO Operating Partnership 's income is allocated to holders of Common OP Units based on the weighted average number of Common OP Units outstanding during the period. The AIMCO Operating Partnership records the issuance of Common OP Units and the assets acquired in purchase transactions based on the market price of the Company 's Class A Common Stock at the date of execution of the purchase contract. The holders of the Common OP Units receive distributions, prorated from the date of issuance, in an amount equivalent to the dividends paid to holders of Class A Common Stock. After holding the Common OP Units for one year, the limited partners generally have the right to redeem their Common OP Units for cash. Notwithstanding that right, the AIMCO Operating Partnership may elect to cause AIMCO to acquire some or all of the Common OP Units tendered for redemption in exchange for shares of Class A Common Stock in lieu of cash. During 2000, 1999 and 1998, the weighted average ownership interest in the AIMCO Operating Partnership held by the Common OP Unit holders was 9%, 9% and 12%, respectively. Preferred OP Units entitle the holders thereof to a preference with respect to distributions or upon liquidation (see Note 13). See Footnote 19 for the discussion on High Performance Units.

NOTE 2 Basis of Presentation and Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of AIMCO, the AIMCO Operating Partnership, majority owned subsidiaries and controlled real estate partnerships. Interests held by limited partners in real estate partnerships controlled by the Company and interests held by the minority shareholders of Insignia Properties Trust (through February 26, 1999) are reflected as minority interest in other entities. Significant intercompany balances and transactions have been eliminated in consolidation. The assets of property owning limited partnerships and limited liability companies owned or controlled by AIMCO or the AIMCO Operating Partnership generally are not available to pay creditors of AIMCO or the AIMCO Operating Partnership.

Real Estate and Depreciation

Real estate is recorded at cost, less accumulated depreciation, unless considered impaired. If events or circumstances indicate that the carrying amount of a property may be impaired, the Company will make an assessment of its recoverability by estimating the undiscounted future cash flows, excluding interest charges, of the property. If

the carrying amount exceeds the aggregate future cash flows, the Company would recognize an impairment loss to the extent the carrying amount exceeds the fair value of the property.

F-8

Table of Contents

As of December 31, 2000, management believes that no impairments exist based on periodic reviews. No impairment losses were recognized for the years ended December 31, 2000, 1999 and 1998.

Direct costs associated with the acquisition of ownership or control of properties are capitalized as a cost of the assets acquired, and are depreciated over the estimated useful lives of the related assets. Expenditures for ordinary repairs, maintenance and apartment turnover costs are expensed as incurred.

Initial Capital Expenditures (ICE) are those costs considered necessary by the Company in its investment decision to correct deferred maintenance or improve a property. Capital enhancements are costs incurred that add a material new feature or increase the revenue potential of a property. ICE and capital enhancement costs are capitalized and depreciated over the estimated useful lives of the related assets.

Expenditures in excess of \$250 that maintain an existing asset which has a useful life of more than one year are capitalized as capital replacement expenditures and depreciated over the estimated useful life of the asset.

Depreciation is calculated on the straight-line method based on a fifteen to thirty year life for buildings and improvements and five years for furniture, fixtures and equipment.

Redevelopment

The Company capitalizes direct and indirect costs (including interest, taxes and other costs) in connection with the redevelopment of its owned or controlled properties and land under development. Interest of \$9.3 million, \$6.6 million and \$2.8 million was capitalized for the years ended December 31, 2000, 1999 and 1998, respectively.

Investments in Unconsolidated Real Estate Partnerships

The Company owns general and limited partnership interests in numerous partnerships that own multi-family apartment properties. Investments in real estate partnerships in which the Company has significant influence but does not have control are accounted for under the equity method. Under the equity method, the Company's pro-rata share of the earnings or losses of the entity for the periods being presented is included in equity in earnings (losses) from unconsolidated partnerships (see Note 5).

Investments in Unconsolidated Subsidiaries

The Company has investments in numerous subsidiaries. Investments in entities in which the Company has significant influence but does not have control are accounted for under the equity method. Under the equity method, the Company's pro-rata share of the earnings or losses of the entity for the periods being presented is included in equity in earnings (losses) from unconsolidated subsidiaries (see Note 6).

Notes Receivable from Unconsolidated Real Estate Partnerships and Subsidiaries

The Company has investments in numerous notes receivable, which were either extended by the Company or were made by predecessors whose positions have been acquired by the Company. Interest income is recognized on these

investments based upon whether the collectibility of such amounts is both probable and estimable. Notes receivable from unconsolidated real estate partnerships and subsidiaries consist substantially of second mortgage note receivable, whose ultimate repayment is subject to a number of variables, including the performance and value of the underlying real property and the ultimate timing of repayments of receivables. The carrying amounts of notes receivable approximates their fair value in consideration of interest rates, market conditions and other qualitative factors (see Note 7).

Cash Equivalents

The Company considers highly liquid investments with an original maturity of three months or less to be cash equivalents.

F-9

Table of Contents

Restricted Cash

Restricted cash includes capital replacement reserves, completion repair reserves, bond sinking fund amounts and tax and insurance impound accounts held by lenders.

Other Assets

Fees and costs incurred in obtaining financing are capitalized and are included in other assets. Such costs are amortized over the terms of the related loan agreements and are charged to interest expense.

Certain intangible assets are included in other assets and consist of costs associated with the purchase of property management businesses, including property management contracts, legal and other acquisition costs. These costs are amortized on a straight-line basis over terms ranging from five to twenty years.

Revenue Recognition

The Company's properties have operating leases with apartment residents with terms generally of twelve months or less. Rental revenues and property management and asset management fees are recognized when earned.

Income on Loans

Income on loans is recorded as earned in accordance with the terms of the related loan agreements. The accrual of interest is discontinued when a loan becomes ninety days contractually delinquent or sooner when, in the opinion of the Company, impairment has occurred in the value of the collateral property securing the loan. Income on nonaccrual loans or loans that are otherwise not performing in accordance with their terms is recorded on a cash basis.

Allowance for Loan Losses

Loan losses on notes receivable are charged to income and an allowance account is established when the Company believes the principal balance will not be recovered. The Company assesses the collectibility of each note on a periodic basis through a review of the collateral, property operations, the property value and the borrower's ability to repay the loan.

Income Taxes

AIMCO has elected to be taxed as a real estate investment trust (REIT), as defined under the Internal Revenue Code of 1986, as amended. In order for AIMCO to qualify as a REIT, at least 90% (95% in 2000) of AIMCO s gross income in any year must be derived from qualifying sources. The activities of unconsolidated subsidiaries engaged in the service company business are not qualifying sources.

As a REIT, AIMCO generally will not be subject to U.S. Federal income taxes at the corporate level on its net income that is distributed to its stockholders if it distributes at least 90% of its REIT taxable income to its stockholders. REITs are also subject to a number of other organizational and operational requirements. If AIMCO fails to qualify as a REIT in any taxable year, its taxable income will be subject to U.S. Federal income tax at regular corporate rates (including any applicable alternative minimum tax). Even if AIMCO qualifies as a REIT, it may be subject to certain state and local income taxes and to U.S. Federal income and excise taxes on its undistributed income.

Earnings and profits, which determine the taxability of dividends to stockholders, differ from net income reported for financial reporting purposes due to differences for U.S. Federal tax purposes in the estimated useful lives and methods used to compute depreciation and the carrying value (basis) of the investments in properties, among other things.

F-10

Table of Contents

The following table reconciles the Company s net income to REIT taxable income for the year ended December 31, 2000:

Net income	\$ 99,178
Elimination of earnings from unconsolidated subsidiaries	(3,666)
Depreciation and amortization expense not deductible for tax	89,885

For income tax purposes, distributions paid to common stockholders consist of ordinary income, capital gains, return of capital or a combination thereof. For the years ended December 31, 2000, 1999 and 1998, distributions paid per share were taxable as follows:

Earnings Per Share

Earnings per share is calculated based on the weighted average number of shares of common stock, common stock equivalents and dilutive convertible securities outstanding during the period (see Note 17).

Fair Value of Financial Instruments

The estimated aggregate fair value of the Company's cash and cash equivalents, receivables, payables and short-term secured debt as of December 31, 2000 is assumed to approximate their carrying value due to their relatively short terms. Management further believes that the fair market value of the Company's secured tax-exempt bond debt and secured long-term debt approximate their carrying value, based on market comparisons to similar types of debt instruments having similar maturities.

Concentration of Credit Risk

Financial instruments that potentially could subject the Company to significant concentrations of credit risk consist principally of notes receivable from unconsolidated real estate partnerships. Concentrations of credit risk with respect to notes receivable from unconsolidated real estate partnerships are limited due to the large number of partnerships comprising the Company's partnership base and the geographic diversity of the underlying properties.

F-11

Table of Contents

Use of Estimates

The preparation of the Company's consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts included in the financial statements and accompanying notes thereto. Actual results could differ from those estimates.

Reclassifications

Certain items included in the 1999 and 1998 consolidated financial statements have been reclassified to conform with the 2000 presentation.

NOTE 3 Real Estate

Real estate at December 31, 2000 and 1999, is as follows (in thousands):

2000

1999

Land	\$ 976,421	\$ 661,502
Buildings and improvements	6,036,031	3,851,195
	<u>7,012,452</u>	<u>4,512,697</u>
Accumulated depreciation	(913,263)	(416,497)
	<u>\$6,099,189</u>	<u>\$4,096,200</u>

The Company directly acquired 12 apartment communities containing 2,830 units in separate transactions during 2000 (not including those acquired in connection with the acquisition of the Oxford properties (see Note 4)). The aggregate consideration paid by the Company of \$136.5 million consisted of \$42.7 million in cash, \$26.4 million in preferred OP Units, \$6.8 million in common OP Units and the assumption of \$60.6 million of secured long-term indebtedness. As part of these acquisitions, the Company has also determined to undertake \$4.8 million of initial capital enhancements to these properties.

The Company directly acquired 28 apartment communities containing 12,721 units in unrelated transactions during 1999 (not including those acquired in connection with the merger with Insignia Properties Trust (see Note 4)). The aggregate consideration paid by the Company of \$495.0 million consisted of \$91.5 million in cash, 2.4 million preferred OP Units, 0.9 million common OP Units and 0.5 million shares of Class A Common Stock with a total recorded value of \$116.8 million, the assumption of \$110.1 million of secured long-term indebtedness, the assumption of \$15.2 million of other liabilities, and new financing of \$161.4 million of secured long-term indebtedness. Four of these assets were then contributed to an unconsolidated subsidiary.

In addition to the acquisitions described above, in 2000 and 1999, the Company acquired controlling interests in partnerships owning 201 properties (52,217 units) and 125 properties (34,228 units), respectively, and began consolidating these entities. Control was obtained through the purchase of limited partnership interests from unaffiliated third parties or other increases in the Company's equity investment in the partnerships.

During 2000, the Company sold 32 properties containing 7,660 units to unaffiliated third parties. Cash proceeds from the sales of approximately \$159.3 million were used to repay a portion of the Company's outstanding indebtedness. The Company recognized a net GAAP gain of approximately \$26.3 million on the disposition of these properties, of which 35% of the gain related to one property.

During 1999, the Company sold 8 properties containing 2,309 units to unaffiliated third parties. Cash proceeds from the sales of approximately \$49.0 million were used to repay a portion of the Company's outstanding indebtedness. The Company recognized a loss of approximately \$1.8 million on disposition of these properties, of which 96% of the loss related to one property.

NOTE 4 Mergers

Ambassador Merger

On May 8, 1998, Ambassador Apartments, Inc. (Ambassador), was merged with and into AIMCO, with AIMCO

being the surviving corporation. The merger was accounted for as a purchase and as a result, the results of operations were included in the consolidated statement of income from the date of acquisition. The purchase price of \$713.6 million was comprised of \$90.3 million in cash, \$372.0 million of assumed debt and approximately 6.6 million shares of Class A Common Stock valued at \$251.3 million. Pursuant to the Ambassador merger agreement, each outstanding share of Ambassador common stock not owned by AIMCO was converted into the right to receive 0.553 shares of Class A Common Stock. Concurrently, all outstanding options to purchase Ambassador common stock were converted into cash or options to purchase Class A Common Stock, at the same conversion ratio. Contemporaneously with the consummation of the Ambassador merger, a subsidiary of the AIMCO Operating Partnership merged with Ambassador's operating partnership and each outstanding unit of limited partnership interest in the Ambassador operating partnership was converted into the right to receive 0.553 OP Units. Prior to its acquisition by AIMCO, Ambassador was a self-administered and self-managed real estate investment trust engaged in the ownership and management of garden-style apartment properties leased primarily to middle income tenants. Ambassador owned 52 apartment communities with a total of 15,728 units located in Arizona, Colorado, Florida, Georgia, Illinois, Tennessee and Texas, and managed one property containing 252 units for an unrelated third party.

Insignia Merger

On October 1, 1998, Insignia Financial Group, Inc., a Delaware corporation, (Insignia) was merged with and into AIMCO with AIMCO being the surviving corporation. The merger was accounted for as a purchase and as a result, the results of operations were included in the consolidated statement of income from the date of acquisition. The purchase price of \$1,125.7 million was comprised of the issuance of up to approximately 8.9 million shares of Class E Cumulative Convertible Preferred Stock (the Class E Preferred Stock) valued at \$301.2 million, \$670.1 million in assumed debt and liabilities (including a \$50 million special dividend, assumed liabilities of Insignia Properties Trust and transaction costs), \$149.5 million in assumed mandatory redeemable convertible preferred securities, and \$4.9 million in cash. The Class E Preferred Stock entitled the holders thereof to receive the same cash dividends per share as holders of Class A Common Stock. On January 15, 1999, holders of Class E Preferred Stock received a special dividend in an aggregate amount of approximately \$50 million, and all outstanding shares of Class E Preferred Stock automatically converted into an equal number of shares of Class A Common Stock.

As a result of the Insignia merger, AIMCO acquired: (i) Insignia's interests in Insignia Properties Trust, (IPT), a Maryland REIT, which was a majority owned subsidiary of Insignia; (ii) Insignia's interest in Insignia Properties, L.P., IPT's operating partnership; (iii) 100% of the ownership of the Insignia entities that provide multifamily property management and partnership administrative services; (iv) Insignia's interest in multi-family co-investments; (v) Insignia's ownership of subsidiaries that control multi-family properties not included in IPT; (vi) Insignia's limited partner interests in public and private syndicated real estate limited partnerships; and (vii) assets incidental to the foregoing businesses. Insignia owned or managed in excess of 170,000 apartment units.

Insignia Properties Trust Merger

As a result of the Insignia merger, AIMCO acquired approximately 51% of the outstanding shares of beneficial interest of IPT. On February 26, 1999, IPT was merged into AIMCO. Pursuant to the merger, each of the outstanding shares of IPT that were not held by AIMCO were converted into the right to receive 0.3601 shares of Class A Common Stock, resulting in the issuance of approximately 4.3 million shares of Class A Common Stock (with a recorded value of approximately \$158.8 million).

Table of Contents*Oxford Acquisition*

On September 20, 2000, the Company acquired all of the stock and other interests of the Oxford entities that were held by six executive officers and directors of the Oxford entities. The Oxford properties, which are owned by 166 separate partnerships, are 167 apartment communities including 36,949 units, located in 18 states. This transaction was accounted for as a purchase, and as a result, the results of operations were included in the consolidated statement of income from the date of acquisition. The purchase price of \$1,189 million was comprised of \$266 million in cash, \$861 million of assumed liabilities and transaction costs and \$62 million in Common OP Units valued at \$45 per unit.

Unaudited Pro forma Statements

The unaudited pro forma condensed consolidated statements of operations for the years ended December 31, 2000 and 1999 have been prepared as if each of the following transactions had occurred on January 1, 1999: (i) the Oxford acquisition; (ii) the acquisition of the Regency Windsor Apartment Communities, which include fourteen separate residential apartment communities located in Indiana, Michigan and North Carolina; (iii) the acquisition of the Dreyfuss Apartment Communities located in Virginia and Maryland; and (v) the Oxford tender offers of approximately \$58 million (\$37 million paid in cash, \$21 million paid in Common OP units) that occurred in 2000 subsequent to the Oxford acquisition.

The pro forma information is not necessarily indicative of what the Company's results of operations would have been assuming the completion of the described transactions at the beginning of the periods indicated, nor does it purport to project the Company's results of operations for any future period.

NOTE 5 Investments in Unconsolidated Real Estate Partnerships

The Company owns general and limited partner interests in approximately 625 partnerships which it acquired through acquisitions, direct purchases and separate offers to other limited partners. The Company's total ownership interests in these unconsolidated real estate partnerships range from 1% to 99%. However, based on the provisions of the related partnership agreements, which grant varying degrees of control, the Company is not deemed to have control of these partnerships sufficient to require or permit consolidation for accounting purposes.

During 2000 and 1999, the Company acquired limited partnership interests in various partnerships in which affiliates of the Company served as a general partner. The Company paid approximately \$195 million in cash and OP Units and \$271 million in cash and OP Units, during 2000 and 1999, respectively, in connection with such tender offers. In 2000, the Company also acquired general and limited partnership interests in various partnerships as part of

the Oxford acquisition, which closed on September 20, 2000, increasing the resulting partnership debt.

F-14

Table of Contents

The Oxford acquisition and consolidation of an additional 201 and 125 properties in 2000 and 1999, respectively, resulted in the following net change to the selected combined gross historical financial information for the Company's unconsolidated real estate partnerships as of and for the years ended December 31, 2000 and 1999 (in thousands):

	2000	1999

NOTE 6 Investments in Unconsolidated Subsidiaries

In order to satisfy certain requirements of the Internal Revenue Code applicable to AIMCO's status as a REIT, certain assets of the Company are held through corporations in which the AIMCO Operating Partnership holds non-voting preferred stock and certain officers and/or directors of AIMCO hold, directly or indirectly, all of the voting common stock. Effective December 29, 1999, a portion of the voting common stock was purchased by the Company and was exchanged for non-voting preferred stock, bringing the total voting common stock interests to represent a 1% economic interest and the non-voting preferred stock to represent a 99% economic interest.

In 2000, in connection with the Oxford acquisition, the Company sold or contributed certain real estate assets and liabilities to the unconsolidated subsidiaries in exchange for notes receivable and preferred stock interest.

As a result of the controlling ownership interest in the unconsolidated subsidiaries being held by others, AIMCO accounts for its interest in the unconsolidated subsidiaries using the equity method. As of December 31, 2000, the unconsolidated subsidiaries included AIMCO/NHP Holdings, Inc., AIMCO/NHP Properties, Inc., NHP Management Company, NHP A&R Services, Inc., and AIMCO/Bethesda Holdings, Inc.

The following table provides selected combined historical financial information for the Company's unconsolidated subsidiaries as of and for the years ended December 31, 2000 and 1999 (in thousands):

	2000	1999
Total assets	\$ 649,813	\$ 166,019

F-15

Table of Contents

The Company recognizes interest income earned from its investments in notes receivable based upon whether the collectibility of such amounts is both probable and estimable. The notes receivable were either extended by the Company and are carried at the face amount plus accrued interest (par value notes) or were made by predecessors whose positions have been acquired by the Company at a discount and are carried at the acquisition amount using the cost recovery method (discounted notes).

As of December 31, 2000 and 1999, the Company held \$60.4 million and \$67.4 million, respectively, of par value notes receivable from unconsolidated real estate partnerships, including accrued interest, for which management believes the collectibility of such amounts is both probable and estimable. As such, interest income from the par value notes is generally recognized as it is earned. Interest income from such notes for the years ended December 31, 2000, 1999 and 1998, totaled \$23.2 million, \$12.8 million, and \$15.3 million, respectively.

As of December 31, 2000 and 1999, the Company held discounted notes, including accrued interest, with a carrying value of \$80.5 million and \$92.5 million, respectively. The total face value plus accrued interest of these notes were \$151.0 million and \$173.1 million in 2000 and 1999, respectively. In general, interest income from the discounted notes is not recognized as it is earned until such time as the timing and amounts of cash flows are probable and estimable.

Under the cost recovery method, the discounted notes are carried at the acquisition amount, less subsequent cash collections, until such time as collectibility is probable and the timing and amounts are estimable. Based upon closed or pending transactions (including sales activity), market conditions, and improved operations of the obligor, among other things, certain notes and the related discounts have been determined to be collectible. Accordingly, interest

income that had previously been deferred and portions of the related discounts were recognized as interest income during the period. For the years ended December 31, 2000, 1999 and 1998, the Company recognized deferred interest income and discounts of approximately \$26.4 million (\$0.39 per share (basic) and \$0.38 per share (diluted)), \$32.5 million (\$0.52 per share (basic) and \$0.51 per share (diluted)), and \$1.4 million (\$0.03 per basic and diluted share). Approximately 90% of the recognized interest income is collected in cash or through foreclosure of the property securing the note within 12 months from the date that such amounts were determined to be collectible, and the remainder is collected in the following six months.

As of December 31, 2000 and 1999, the Company held \$218.9 million and \$88.8 million, respectively of par value notes receivable from unconsolidated subsidiaries. In 2000, in connection with the Oxford acquisition, the Company sold certain assets and liabilities to the unconsolidated subsidiaries in exchange for notes receivable. The Company also acquired, in the Oxford acquisition, notes receivable that were payable from Oxford entities that are now owned by the unconsolidated subsidiaries. Certain general partner notes are held at the unconsolidated subsidiaries and, therefore, the general partner payables (\$28.4 million) related to these notes are offset against the Company's notes receivable from unconsolidated subsidiaries.

NOTE 8 Secured Notes Payable

During 2000, the Company issued or assumed \$669.0 million of long-term, fixed-rate, fully amortizing non-recourse notes payable with a weighted average interest rate of 7.5%. Each of the notes is individually secured by 107 properties with no cross-collateralization. In addition, the Company also assumed \$895.9 million of long-term, fixed-rate notes payable, as a part of purchasing controlling interests in limited partnerships owning 201 properties, which resulted in these properties being consolidated in 2000.

The following table summarizes the Company's secured notes payable at December 31, 2000 and 1999, all of which are non-recourse to the Company (in thousands):

NOTE 10 Secured Short-Term Financing

In August 1999, the Company closed a \$300 million revolving credit facility arranged by Bank of America, N.A., Fleet National Bank (successor in Bank Boston, N.A.) and First Union National Bank with a syndicate comprised of a total of nine lender participants. Effective March 15, 2000 the credit facility was expanded by \$45 million with the potential to expand it by another \$55 million to a total of \$400 million. Of the \$55 million potential expansion, \$5 million was expanded on April 14, 2000 bringing the total availability to \$350 million. In September 2000, the credit facility was amended and restated. The obligations under the credit facility are secured by a first priority pledge of certain non-real estate assets of the Company and a second priority pledge of the stock ownership of the AIMCO Operating Partnership, NHP Management Company, AIMCO/Bethesda Holdings, Inc., and AIMCO Holdings, L.P., in certain subsidiaries of AIMCO and certain options to purchase Beneficial Assignee Interests (BACs) in Oxford Tax Exempt Fund II Limited Partnership (OTEF). Borrowings under the credit facility, including the \$50 million expansion, are available for general corporate purposes. The credit facility matures in July 2002 and can be extended twice at AIMCO's option, for a term of one year. The annual interest rate under the new credit facility is based on either LIBOR or a base rate which is the higher of Bank of America's reference rate or 0.5% over the federal funds rate, plus, in either case, an applicable margin. The margin ranges between 2.05% and 2.55%, in the case of LIBOR-based loans, and between 0.55% and 1.05%, in the case of base rate loans, based upon a fixed charge coverage ratio. The weighted average interest rate at December 31, 2000 was 9.16% and the balance outstanding was \$254.7 million. The amount available under the credit facility at December 31, 2000 and 1999 was \$95.3 million (less \$1.2 million for outstanding letters for credit) and \$90.8 million, respectively. Of the total availability of \$94.1 million, \$28.8 million pertains to unused letters of credit.

Table of Contents

In September 2000, the Company closed a term loan from Bank of America, N.A., Lehman Commercial Paper Inc. and several other lenders, pursuant to a term loan with a total availability of \$302 million to finance part of the Oxford acquisition. Transaction costs (including advisory fees) incurred on the term loan were \$9.4 million. The borrowers under the term loan are the AIMCO Operating Partnership, NHP Management Company and AIMCO/Bethesda Holdings, Inc., and all obligations thereunder are guaranteed by AIMCO and certain of its subsidiaries. The obligations under the term loan are secured by a first priority pledge of the stock ownership of the AIMCO Operating Partnership, NHP Management Company, AIMCO/Bethesda Holdings, Inc., and AIMCO Holdings, L.P., in certain subsidiaries of AIMCO and certain options to purchase BACs in OTEF and a second priority pledge of certain non-real estate assets of the Company. The annual interest rate under the term loan is based either on LIBOR or a base rate which is the higher of Bank of America's reference rate or 0.5% over the federal funds rate, plus, in either case, an applicable margin. The margin ranges between 4.0% and 5.0% in the case of LIBOR-based loans, and between 1.0% and 2.0% in the case of base rate loans, based upon the number of months the loan is outstanding. The term loan expires in July 2002. The weighted average interest rate at December 31, 2000 was 10.5%. The total amount outstanding under the term loan at December 31, 2000 was \$137 million, of which \$74 million is classified as secured short-term financing of the Company and the remainder is a liability at the unconsolidated subsidiaries and, therefore, is included in investment in unconsolidated subsidiaries.

NOTE 11 Commitments and Contingencies

Legal

The Company is a party to various legal actions resulting from its operating activities. These actions are routine litigation and administrative proceedings arising in the ordinary course of business, some of which are covered by liability insurance, and none of which are expected to have a material adverse effect on the consolidated financial condition or results of operations of the Company and its subsidiaries taken as a whole.

Limited Partnerships

In connection with the Company's acquisitions of interests in limited partnerships that own properties, the Company and its affiliates are sometimes subject to legal actions, including allegations that such activities may involve breaches of fiduciary duties to the limited partners of such partnerships or violations of the relevant partnership agreements. The Company believes it complies with its fiduciary obligations and relevant partnership agreements, and does not expect such legal actions to have a material adverse effect on the consolidated financial condition or results of operations of the Company and its subsidiaries taken as a whole. The Company may incur costs in connection with the defense or settlement of such litigation, which could adversely affect the Company's desire or ability to complete certain transactions or otherwise have a material adverse effect on the Company and its subsidiaries.

Pending Investigations of HUD Management Arrangements

In July 1999, The National Housing Partnership (NHP) received a grand jury subpoena requesting documents relating to NHP's management of HUD-assisted or HUD-insured multi-family projects and NHP's operation of a group purchasing program created by NHP, known as Buyers Access. The subpoena relates to the same subject matter as subpoenas NHP received in October and December of 1997 from the HUD Inspector General. To date, neither the HUD Inspector General nor the grand jury has initiated any action against NHP or AIMCO or, to NHP's or AIMCO's knowledge, any owner of a HUD property managed by NHP. AIMCO believes that NHP's operations and programs are in compliance, in all material respects, with all laws, rules and regulations relating to HUD-assisted or HUD-insured properties. AIMCO is cooperating with the investigation and does not believe that the investigation will result in a material adverse effect on the financial condition of the Company. However, as with any similar investigation, there can be no assurance that these will not result in material fines, penalties or other costs that may impact the Company's future results of operations or cash flow.

Environmental

Various Federal, state and local laws subject property owners or operators to liability for the costs of removal or remediation of certain hazardous substances present on a property. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of the hazardous substances. The presence of, or the failure to properly remediate hazardous substances may adversely affect occupancy at contaminated apartment communities and the ability to sell or borrow against contaminated properties. In addition to the costs associated with investigation and remediation actions brought by governmental agencies, the presence of hazardous wastes on a property could result in personal injury or similar claims by private plaintiffs.

Table of Contents

Various laws also impose liability for the cost of removal or remediation of hazardous substances at the disposal or treatment facility. Anyone who arranges for the disposal or treatment of hazardous or toxic substances is potentially liable under such laws. These laws often impose liability whether or not the person arranging for the disposal ever

owned or operated the disposal facility. In connection with the ownership, operation and management of our properties, the Company could potentially be liable for environmental liabilities or costs associated with properties or properties it acquires or manages in the future.

Operating Leases

The Company is obligated under office space and equipment non-cancelable operating leases. In addition, the Company subleases certain of its office space to tenants under non-cancelable subleases. Approximate minimum annual rentals under operating leases and approximate minimum payments to be received under annual subleases for the five years ending after December 31, 2000 are as follows (in thousands):

	Operating Lease Payments	Sublease Payments
	_____	_____
2001	\$ 11,059	\$ 2,350
2002	5,796	84
2003	4,116	
2004	3,525	
2005	1,534	
	_____	_____
Total	\$ 26,030	\$ 2,434
	_____	_____

Under the Company's current operating structure, substantially all of the office space and equipment subject to the operating leases described above are for the use of its regional operating centers, which are operated by certain of the Company's unconsolidated subsidiaries (see Note 6). Rent expense recognized by the unconsolidated subsidiaries totaled \$5.6, \$5.8 and \$6.2 million in 2000, 1999 and 1998, respectively. Sublease payments for 2000, 1999 and 1998 were not material.

NOTE 12 Mandatorily Redeemable Convertible Preferred Securities

In connection with the Insignia merger, the Company assumed the obligations under the Trust Based Convertible Preferred Securities with an aggregate liquidation amount of \$149.5 million. The securities will mature on September 30, 2016 and require distributions at the rate of 6.5% per annum, with quarterly distributions payable in arrears. The securities are convertible by the holders at any time through September 30, 2016 and may be redeemed by the Company on or after November 1, 1999. Each \$50 of liquidation value of the securities can be converted into Class A Common Stock at a conversion price of \$49.61, which equates to 1.007 shares of Class A Common Stock. In 2000, the holders of the securities converted a total of \$117.2 million of the \$149.5 million of the securities into approximately 2,363,000 shares of Class A Common Stock.

NOTE 13 Transactions Involving Minority Interests in Operating Partnership

The Company completed tender offers for limited partnership interests and acquisitions of individual properties resulting in the issuance of 2,189,000 and 1,084,000 Common OP Units in 2000 and 1999, respectively. Of the 2,189,000 Common OP Units issued in 2000, approximately 1,382,000 were issued in connection with the acquisition of interests in Oxford properties. The Company also issued Preferred OP Units to acquire individual properties and limited partnership interests.

NOTE 14 Registration Statements

In August 1998, AIMCO and the AIMCO Operating Partnership filed a shelf registration statement with the Securities and Exchange Commission with respect to an aggregate of \$1,268 million of debt and equity securities of AIMCO (of which \$268 million was carried forward from a 1997 shelf registration statement) and \$500 million of debt securities of the AIMCO Operating Partnership. The registration statement was declared effective by the SEC on December 10, 1998. As of December 31, 2000, the Company had \$988 million available and the AIMCO Operating Partnership had \$500 million available from this registration statement. The Company expects to finance pending acquisitions of real estate interests with the issuance of equity and debt securities under the shelf registration statement.

Common Stock

During 2000 and 1999, the Company issued approximately 258,000 shares and 215,000 shares, respectively, of Class A Common Stock to certain executive officers (or entities controlled by them) at market prices. In exchange for the shares purchased, the executive officers (or entities controlled by them) executed notes payable totaling \$7.7 million and \$8.2 million, respectively. Total payments on such notes from officers in 2000 and 1999 were \$15.1 million and \$6.2 million, respectively. In addition, in 2000 and 1999, the Company issued approximately 42,000 and 37,000 restricted shares of Class A Common Stock, respectively, to certain executive officers. The restricted stock was issued at the fair market value of the Class A Common Stock on the date of issuance. The restricted stock may not be sold, assigned, transferred, pledged, hypothecated or otherwise disposed of and shall be subject to a risk of forfeiture within the vesting periods of 3 to 5 years.

On September 15, 1999, the Company completed a direct placement of 1,382,580 shares of Class A Common Stock at a net price of \$39.50 per share to five institutional investors. The net proceeds of approximately \$54.6 million were used to repay outstanding indebtedness under the new credit facility.

During 2000, the Company repurchased and retired approximately 69,000 shares of Class A Common Stock at an average price of \$37.39 per share.

NOTE 16 Stock Option Plans and Stock Warrants

The Company has adopted the 1994 Stock Option Plan of Apartment Investment and Management Company (the 1994 Plan), the Apartment Investment and Management Company 1996 Stock Award and Incentive Plan (the 1996 Plan), the Apartment Investment and Management Company 1997 Stock Award and Incentive Plan (the 1997 Plan) and the Apartment Investment and Management Company Non-Qualified Employee Stock Option Plan (the Non-Qualified Plan) to attract and retain officers, key employees and independent directors. The 1994 Plan provides for the granting of a maximum of 150,000 options to purchase common shares. The 1996 Plan provides for the granting of a maximum of 500,000 options to purchase common shares. The 1997 Plan provides for the granting of a maximum of 20,000,000 options to purchase common shares. The Non-Qualified Plan provides for the granting of a maximum of 500,000 options to purchase common shares and allows for the granting of non-qualified stock options. The 1994 Plan, the 1996 Plan and the 1997 Plan allow for the grant of incentive and non-qualified stock options, and together with the Non-Qualified Plan, are administered by the Compensation Committee of the Board of Directors. The 1994 Plan also provides for a formula grant of the non-qualified stock options to the independent directors to be administered by the Board of Directors to the extent necessary. The exercise price of the options granted may not be less than the fair market value of the common stock at the date of grant. The term of the incentive and non-qualified options is ten years from the date of grant. The options vest over a one to five-year period from the date of grant. Terms may be modified at the discretion of the Compensation Committee of the Board of Directors.

The Company has elected to follow Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25) and related interpretations in accounting for its employee stock options because, as discussed below, the alternative fair value accounting provided for under Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS 123), requires the use of option valuation models that were not developed for use in valuing employee stock options and warrants. Under APB 25, because the exercise price of the Company's employee stock options and warrants equals the market price of the underlying stock on the date of grant, no compensation expense is recognized.

Pro forma information regarding net income and earnings per share is required by SFAS 123, which also requires that the information be determined as if the Company had accounted for its employee stock options and warrants granted subsequent to December 31, 1994 under the fair value method. The fair value for these options and warrants were estimated at the date of grant using a Black-Scholes valuation model with the following assumptions:

	<u>2000</u>	<u>1999</u>	<u>1998</u>
Risk free interest rates	6.1%	5.0%	5.0%
Expected dividend yield	6.8%	6.6%	6.0%
Volatility factor of the expected market price of the Company's common stock	0.192	0.183	0.183
Weighted average expected life of options	4.5 years	4.5 years	4.5 years

The Black-Scholes valuation model was developed for use in estimating the fair value of traded options and for warrants which have no vesting restrictions and are fully transferable. In addition, the valuation model requires the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options and warrants have characteristics significantly different from those of traded options and warrants, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing model does not necessarily provide a reliable single measure of the fair value of its employee stock options and warrants.

For purposes of pro forma disclosures, the estimated fair values of the options are amortized over the options vesting period. The Company's pro forma information for the years ended December 31, 2000, 1999 and 1998 is as follows (in thousands, except per share data):

	<u>2000</u>	<u>1999</u>	<u>1998</u>
Pro forma net income attributable to common stockholders	\$31,396	\$17,606	\$34,396
Pro forma basic earnings per common share \$0.46 \$0.28 \$0.76 Pro forma diluted earnings per common share \$0.45 \$0.28 \$0.75			

The effects of applying SFAS 123 in calculating pro forma income attributable to common stockholders and pro forma basic earnings per share may not necessarily be indicative of the effects of applying SFAS 123 to future years earnings.

At December 31, 2000, exercise prices for outstanding and exercisable options range from \$15.21 to \$44.22 and warrants range from \$36.00 to \$41.00, and the remaining weighted-average contractual life of the options is 8 years.

On December 14, 1998, the Company sold, in a private placement, 1.4 million Class B partnership preferred units of a subsidiary of the AIMCO Operating Partnership for \$30.85 million. The partnership units may be redeemed at the option of the holders at any time, and at the option of the Company under certain circumstances. Any redemption of the units may be satisfied by delivery of cash, Class A Common Stock or OP Units. As a part of the transaction, the Company also sold a warrant to purchase 875,000 shares of Class A Common Stock for \$4.15 million. The warrant has an exercise price of \$40 per share. The warrant may be exercised at any time, and expires upon redemption of the Class B partnership preferred units issued by a subsidiary of the AIMCO Operating Partnership.

On December 2, 1997, AIMCO issued warrants (the Oxford Warrants) exercisable to purchase up to an aggregate of 500,000 shares of Class A Common Stock at \$41 per share. The Oxford Warrants were issued to affiliates of Oxford Realty Financial Group, Inc., a Maryland corporation (Oxford), in connection with the amendment of certain agreements pursuant to which the Company manages properties formerly controlled by Oxford or its affiliates. The Oxford Warrants were amended in connection with the acquisition of the Oxford entities in September 2000, are currently exercisable and terminate on December 31, 2006.

The Class B Preferred Stock, the Class J Preferred Stock (1999 and 1998), the Class K Preferred Stock, the Class L Preferred Stock, the Class M Preferred Stock, the Class N Preferred Stock and the Class O Preferred Stock are convertible into Class A Common Stock (see Note 15). The Class C Preferred Stock, the Class D Preferred Stock, the Class G Preferred Stock, and the Class H Preferred Stock are not convertible. All of the convertible preferred stock is anti-dilutive on an as converted basis, therefore, all of the dividends are deducted to arrive at the numerator and no additional shares are included in the denominator.

NOTE 18 Recent Accounting Developments

In June 1998, Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities* (Statement 133) was issued. In June 2000, Statement of Financial Accounting Standards No. 138, *Accounting for Certain Derivative Instruments and Hedging Activities*, an amendment of FASB Statement No. 133" (SFAS 138) was issued. SFAS 133 and SFAS 138 address the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and hedging activities. The Company is required to adopt SFAS 133 and SFAS 138 in the first quarter of 2001. The Company anticipates that the adoption of SFAS 133 and SFAS 138 as of January 1, 2001 will not have a material effect on its financial position or results of operations.

In September 2000, Statement of Financial Accounting Standards No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (SFAS 140) was issued. SFAS 140 provides accounting and reporting standards for transfers and servicing of financial assets and extinguishments of liabilities. SFAS 140 is effective for recognition and reclassification of collateral and for disclosures relating to securitization transactions and collateral for fiscal years ending after December 15, 2000 and is effective for transfers and servicing of financial assets and extinguishments of liabilities occurring after March 31, 2001. The Company anticipates that the adoption of SFAS 140 will not have a material effect on its financial position or results of operations.

In December 1999, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 101, *Revenue Recognition in Financial Statements* (SAB 101). SAB 101 summarizes certain of the SEC's views in applying generally accepted accounting principles to revenue recognition in financial statements. SAB 101 is effective for the fourth quarter of fiscal years beginning after December 1999. The Company believes that it is in compliance with the guidelines set forth in SAB 101.

NOTE 19 High Performance Units

In January 1998, the AIMCO Operating Partnership sold an aggregate of 15,000 of its Class I High Performance Partnership Units (the High Performance Units) to a joint venture comprised of fourteen members of AIMCO's senior management and to three of its independent directors for \$2.1 million in cash. The value of the High Performance Units was determined on December 31, 2000 based on the Company's total return, defined as dividend income plus share price appreciation of the Class A Common Stock, over the three year period ended December 31, 2000 (the Total Return). As a result, the 15,000 High Performance Units converted to approximately 2,379,000 High Performance Units in January 2001, and the holders of the High Performance Units will receive distributions and allocations of income and loss from the AIMCO Operating Partnership in the same amounts and at the same times as would holders of the same number of Common OP Units. The table below illustrates the calculation of the value of High Performance Units (in thousands):

NOTE 20 Employee Benefit Plans

The Company offers medical, dental, life and short-term and long-term disability benefits to employees of the Company through insurance coverage of Company-sponsored plans. The medical and dental plans are self-funded and are administered by independent third parties. In addition, the Company also participates in a 401(k) defined-contribution employee savings plan. Employees who have completed six months of service are eligible to participate. The Company matches 50%-100% of the participant's contributions to the plan up to a maximum of 6% of the participant's prior year compensation. The Company match percentage is based on employee tenure. The expense incurred by the Company totaled approximately \$3.7 million, \$2.6 million and \$1.6 million in 2000, 1999 and 1998, respectively.

NOTE 22 Industry Segments

AIMCO has two reportable segments: real estate and service business. The Company owns and operates multi-family apartment communities throughout the United States and Puerto Rico which generate rental and other property related income through the leasing of apartment units to a diverse base of tenants. The Company separately evaluates the performance of each of its apartment communities. However, because each of the apartment communities has similar economic characteristics, facilities, services and tenants, the apartment communities have been aggregated into a single apartment communities segment, or real estate segment. There are different components of the multi-family business for which management considers disclosure to be useful. All real estate revenues are from external customers and no revenues are generated from transactions with other segments. There were no tenants that contributed 10% or more of the Company's total revenues during 2000, 1999, or 1998. The Company also manages apartment properties for third parties and affiliates through its service company business segment. As disclosed, a significant portion of the revenues of the service business are from affiliates of the Company.

The performance measure used by management of the Company for each segment is its contribution to free cash flow (Free Cash Flow (FCF)). Free Cash Flow is defined by the Company as net operating income minus the capital spending required to maintain the related assets. Free Cash Flow measures profitability prior to the cost of capital. Other performance measures also used by management of the Company include funds from operations, adjusted funds from operations and earnings before structural depreciation. The accounting policies of the reportable segments are the same as those described in the summary of significant accounting policies.

The following tables present the contribution (separated between consolidated and unconsolidated activity) to the Company's Free Cash Flow for the years ended December 31, 2000 and 1999 (information for the year ended December 31, 1998 is not included as it would be impracticable for the Company to obtain the necessary information, and the cost to develop it would be excessive), from these segments, and a reconciliation of Free Cash Flow to funds from operations, funds from operations less a reserve for capital replacements, and net income (in thousands, except equivalent units (ownership effected and period weighted) and monthly rents):.

- (4) Free Cash Flow, Earnings Before Structural Depreciation, Funds From Operations, and Adjusted Funds From Operations are measurement standards used by the Company's management. These should not be considered alternatives to net income or net cash flow from operating activities, as determined in accordance with GAAP, as an indication of the Company's performance or as a measure of liquidity.

Free Cash Flow is defined by the Company as net operating income minus the capital spending required to maintain the related assets. It measures profitability prior to the cost of capital.

Earnings Before Structural Depreciation (EBSD) is defined by the Company as Net Income, determined in accordance with GAAP, plus structural depreciation, i.e., depreciation of buildings and land improvements

whose useful lives exceed 20 years.

Funds From Operations (FFO) is defined by the Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT) as net income (loss), computed in accordance with generally accepted accounting principles (GAAP), excluding gains and losses from debt restructuring and sales of property, plus real estate related depreciation and amortization (excluding amortization of financing costs), and after adjustments for unconsolidated partnerships and joint ventures. The Company calculates FFO (diluted) based on the NAREIT definition, as further adjusted for minority interest in the AIMCO Operating Partnership, amortization of intangibles, interest expense on mandatorily redeemable convertible preferred securities, the non-cash deferred portion of the income tax provision for unconsolidated subsidiaries and less the payment of dividends on perpetual and non-dilutive convertible preferred stock. There can be no assurance that the Company's basis for computing FFO is comparable with

F-32

Table of Contents

that of other real estate investment trusts.

Adjusted Funds From Operations (AFFO) is defined by the Company as FFO less a charge for capital replacements equal to at least \$300 per apartment unit.

NOTE 23 Portfolios Held for Sale

The Company is currently marketing for sale certain real estate properties in order to sell properties in the portfolio that are inconsistent with the Company's long-term investment strategies (as determined by management from time to time). Approximately 10,349 units with an approximate carrying value of \$325.3 million are included with real estate in the consolidated financial statements and approximately 17,755 units with an approximate carrying value of \$80.1 million are included with investments in unconsolidated real estate partnerships in the consolidated financial statements. The Company does not expect to incur any material losses with respect to the sales of the properties.

NOTE 24 Subsequent Events

Dividend Declared

On January 24, 2001, the Board of Directors declared a quarterly cash dividend of \$0.78 per common share for the quarter ended December 31, 2000, paid on February 9, 2001, to stockholders of record on February 2, 2001. The increased dividend is equivalent to an annualized dividend rate of \$3.12 per common share, an 11% increase from the previous annual dividend rate of \$2.80.

OTEF Merger

On November 29, 2000, AIMCO and Oxford Tax Exempt Fund II Limited Partnership (OTEF) entered into a merger agreement pursuant to which OTEF would merge with a subsidiary of the AIMCO Operating Partnership. The merger closed on March 26, 2001. The AIMCO Operating Partnership owns all of the outstanding OTEF beneficial assignments of limited partnership interests (BACs) in OTEF. In connection with the Oxford acquisition, AIMCO acquired interests in OTEF s managing general partner and OTEF s associate general partner. After the merger, the Company s partnership interests in OTEF reflects a 1% general partner interest held by OTEF s managing general partner and a 99% limited partner interest held by the AIMCO Operating Partnership. OTEF was a publicly traded master limited partnership that invested primarily in tax-exempt bonds issued to finance high quality apartment and senior living/health care communities, the majority of which were owned by affiliates of OTEF, including Oxford entities.

In the merger, each BAC was converted into the right to receive 0.299 shares of AIMCO s Class A Common Stock and 0.547 shares of AIMCO s Class P Convertible Cumulative Preferred Stock (the Class P Preferred Stock). In addition, the BAC holders received a special distribution of \$50 million, or \$6.21 per BAC. The holders of the Class P Preferred Stock are entitled to receive, when and as declared by the Board of Directors, cash dividends in an amount per share equal to the greater of (i) a quarterly dividend payment of \$0.5625 or (ii) the cash dividends declared on the number of shares of Class A Common Stock into which a share of Class P Preferred Stock is convertible. Each share of Class P Preferred Stock is convertible at the option of the holder into 0.4464 shares of Class A Common Stock. The initial conversion ratio was in excess of the fair market value of the common stock on the commitment date. The Class P Preferred Stock is senior to the Class A Common Stock as to dividends and liquidation. Upon liquidation, dissolution, or winding up of AIMCO, before payment or distribution by AIMCO shall be made to any holders of the Class A Common Stock, the holders of the Class P Preferred Stock are entitled to receive a liquidation preference of \$25 per share, plus accumulated, accrued and unpaid dividends. The Company filed a Registration Statement on Form S-4 with the Securities and Exchange Commission that was declared effective on February 23, 2001.

Class Q Preferred Stock

On March 19, 2001, AIMCO issued 2,200,000 shares of newly created Class Q Cumulative Preferred Stock, par value \$0.01 per share (the Class Q Preferred Stock) in a public offering. On March 29, 2001, the underwriters' exercised their option to purchase an additional 330,000 shares. The net proceeds of approximately \$61 million were used to repay short term indebtedness. Dividends are cumulative from the date of original issue and are payable quarterly each year, when and as declared, beginning in June 2001. Cumulative dividends on the Class Q Preferred Stock will be in an amount per share equal to \$2.525 per year, equivalent to 10.1% of the \$25 liquidation preference. The Class Q Preferred Stock is senior to the Class A Common Stock as to dividends and liquidation. Upon any liquidation, dissolution or winding up of AIMCO, before payment or distributions by AIMCO shall be made to any holders of Class A Common Stock, the holders of the Class Q Preferred Stock shall be entitled to receive a liquidation preference of \$25 per share, plus accumulated, accrued and unpaid dividends. Each share of Class Q Preferred Stock is redeemable beginning March 19, 2006, at the option of the Company, at a price equal to a liquidation preference of \$25 per share, plus all accumulated accrued and unpaid dividends, if any to the date fixed for redemption.
