Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA, Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 175 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

24

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 428,017	\$ 440,563	\$ 442,313
Reimbursement of general and administrative expenses	\$ 73,296	\$ 34,349	\$ 33,674

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

25

### PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000, 1999 and 1998

Statements of partners' capital for the years ended December 31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000, 1999 and 1998

Notes to financial statements

2. Financial statement schedules.

All financial statement schedules have been omitted since the required information is in the financial statements or notes thereto, or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or incorporated by reference as part of this Report.

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 87-B Conv., Ltd. and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 87-B Conv., Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the partnership to its partners.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, and Arter & Hadden LLP of Dallas, Texas (as to matters of Texas law) for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

5

PARKER & PARSLEY 87-B CONV., LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 87-B Conv., Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and Results of Operations (1)

Six months ended June 30, 2001 compared with six months ended June 30, 2000

Results of Operations

Revenues:

The Partnership's oil and gas revenues decreased 5% to \$202,782 for the six months ended June 30, 2001 as compared to \$212,568 for the same period in 2000. The decrease in revenues resulted from a decrease in production and a lower

6

average price received for oil, offset by higher average prices received for gas and NGLs. For the six months ended June 30, 2001, 4,828 barrels of oil, 1,562 barrels of natural gas liquids ("NGLs") and 8,728 mcf of gas were sold, or 7,845 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 5,308 barrels of oil, 2,838 barrels of NGLs and 11,701 mcf of gas were sold, or 10,096 BOEs.

The average price received per barrel of oil decreased \$.16, or 1%, from \$27.30 for the six months ended June 30, 2000 to \$27.14 for the same period in 2001. The average price received per barrel of NGLs increased \$2.21, or 15%, from \$15.08 during the six months ended June 30, 2000 to \$17.29 for the same period in 2001. The average price received per mcf of gas increased 141% from \$2.13 during the six months ended June 30, 2000 to \$5.13 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$5,439 was received during the six months ended June 30, 2001 from disposal of equipment on two wells plugged and abandoned during the current period. Expenses to plug and abandon these wells were \$4,243. For the six months ended June 30, 2000 a gain on disposition of assets of \$919 was recognized due to credits received from the disposal of oil and gas equipment on one fully depleted well.

Costs and Expenses:

Total costs and expenses increased to \$128,747 for the six months ended June 30, 2001 as compared to \$109,009 for the same period in 2000, an increase of \$19,738, or 18%. This increase was due to increases in depletion, production costs and abandoned property costs, offset by a decrease in general and administrative expenses ("G&A").

Production costs were \$91,336 for the six months ended June 30, 2001 and \$84,466 for the same period in 2000, resulting in a \$6,870 increase, or 8%. The increase was due to additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 16% from \$6,307 for the six months ended June 30, 2000 to \$5,272 for the same period in 2001, due to a lower G&A being allocated (limited to 3% of oil and gas revenues) due to lower oil revenues for the six months ended June 30, 2001 as

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

compared to the same period in 2000.

Depletion was \$27,896 for the six months ended June 30, 2001 as compared to \$18,236 for the same period in 2000, an increase of \$9,660, or 53%. This increase was due to a downward revision to proved reserves on one significant well, offset by a decline in oil production of 480 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

7

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 8% to \$93,434 for the three months ended June 30, 2001 as compared to \$101,370 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and a decrease in production, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 2,390 barrels of oil, 858 barrels of NGLs and 4,278 mcf of gas were sold, or 3,961 BOEs. For the three months ended June 30, 2000, 2,515 barrels of oil, 1,351 barrels of NGLs and 5,264 mcf of gas were sold, or 4,743 BOEs.

The average price received per barrel of oil decreased slightly from \$26.86 for the three months ended June 30, 2000 to \$26.73 for the same period in 2001. The average price received per barrel of NGLs increased \$.42, or 3%, from \$14.98 during the three months ended June 30, 2000 to \$15.40 for the same period in 2001. The average price received per mcf of gas increased 47% to \$3.82 during the three months ended June 30, 2001 from \$2.59 during the same period in 2000.

Gain on disposition of assets of \$1,426 was received during the three months ended June 30, 2001 from disposal of equipment on two wells plugged and abandoned during the current period. Expenses to plug and abandon these wells were \$830.

### Costs and Expenses:

Total costs and expenses increased to \$57,519 for the three months ended June 30, 2001 as compared to \$56,356 for the same period in 2000, an increase of \$1,163, or 2%. This increase was due to increases in depletion and abandoned property costs, offset by a decrease in G&A and production costs.

Production costs were \$44,523 for the three months ended June 30, 2001 and \$44,599 for the same period in 2000, resulting in a \$76 decrease. The decrease was due to lower well maintenance costs, offset by an increase in workover costs incurred to stimulate well production.

During this period, G&A decreased 18%, from \$2,971 for the three months ended June 30, 2000 to \$2,429 for the same period in 2001, primarily due to a lower G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues for the three months ended June 30, 2001 as compared to the same period in 2000 and a decrease in audit and tax fees.

Depletion was \$9,737 for the three months ended June 30, 2001 as compared to \$8,786 for the same period in 2000, an increase of \$951, or 11%. This increase was primarily due to a downward revision to proved reserves on one significant well, offset by a decline in oil production of 125 barrels for the three months

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ended June 30, 2001 as compared to the same period in 2000.

8

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$37,426 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to reductions of \$57,336 in working capital and \$1,035 in G&A expenses, offset by a decline in oil and gas sales receipts of \$9,832 and increases in production costs of \$6,870 and abandoned property costs of \$4,243. The decline in G&A was primarily due to less G&A being allocated (limited to 3% of oil and gas revenues) due to lower oil and gas revenues for the six months ended June 30, 2001 as compared to the same period in 2000. The decrease in oil and gas receipts resulted from a decline of \$50,340 in production during 2001 as compared to the same period in 2000 and a decline in oil prices of \$879, offset by an increase in gas and NGL prices of \$41,387 during 2001. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production.

#### Net Cash Provided by Investing Activities

The Partnership's investing activities during the six months ended June 30, 2001 and 2000 were related to equipment upgrades on various oil and gas properties.

Proceeds from disposition of assets of \$2,462 and \$919 were recognized during the six months ended June 30, 2001 and 2000, respectively. The proceeds recognized during the period in 2001 were from salvage income received on two wells plugged and abandoned during the current period. The proceeds recognized during the period in 2000 were primarily from equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$85,129, of which \$851 was distributed to the managing general partner and \$84,278 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$112,519, of which \$1,125 was distributed to the managing general partner and \$111,394 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge

with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY 87-B CONV., LTD.  
(A Texas Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 87-B Conv., Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley 87-B Conv., Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 87-B Conv., Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 87-B CONV., LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 87-B Conv., Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$21,231 and \$48,745 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$63,837 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Net income (loss) per statements of operations	\$ 231,785	\$ 68,410	\$ (81,182)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	33,614	47,165	116,988
Impairment of oil and gas properties for financial reporting purposes	21,231	--	48,745
Other, net	(643)	(5,995)	(1,248)
	-----	-----	-----
Net income per Federal income tax returns	\$ 285,987	\$ 109,580	\$ 83,303
	=====	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Development costs	\$ 2,609	\$ 4,857	\$ 5,631
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 135,396	\$ 135,396
Completed wells and equipment	3,144,754	3,142,199
	-----	-----
	3,280,150	3,277,595
Accumulated depletion	(2,733,516)	(2,675,751)
	-----	-----
Net oil and gas properties	\$ 546,634 =====	\$ 601,844 =====

9

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$74,535	\$73,744	\$71,600
Reimbursement of general and administrative expenses	\$12,385	\$ 5,720	\$ 5,800

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 87-B, Ltd. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1) -----	Partnerships (2) -----
Revenues:		
Proceeds from disposition of depreciable properties	9.09091%	90.90909%
All other revenues	24.242425%	75.757575%

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Costs and expenses:

Lease acquisition costs, drilling and completion costs and all other costs	9.09091%	90.90909%
Operating costs, direct costs and general and administrative expenses	24.242425%	75.757575%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 10 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 87-B, Ltd. is 19.66971% and 80.33029%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	230,505	316,120
Revisions	(76,948)	(70,310)
Production	(17,879)	(25,477)
	-----	-----
Net proved reserves at December 31, 1998	135,678	220,333
Revisions	155,187	272,717
Production	(16,758)	(24,436)
	-----	-----
Net proved reserves at December 31, 1999	274,107	468,614
Revisions	(9,351)	(76,076)
Production	(16,015)	(23,682)
	-----	-----
Net proved reserves at December 31, 2000	248,741	368,856
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

per barrel of oil, \$13.26 per barrel of NGLs and \$7.62 per mcf of gas, discounted at 10% was approximately \$1,851,000 and undiscounted was \$3,947,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Plains Marketing, L.P.	49%	50%	-
Genesis Crude Oil, L.P.	2%	1%	57%
Western Gas Resources, Inc.	4%	6%	26%
Phillips Petroleum Company	16%	-	-

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and Phillips Petroleum Company were \$23,391 and \$10,443, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

12

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$4,919,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

### PARKER & PARSLEY 87-B CONV., LTD. (A TEXAS LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

##### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 69% to \$469,502 for 2000 as compared to \$278,326 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 10,352 barrels of oil, 5,663 barrels of natural gas liquids ("NGLs") and 23,682 mcf of gas were sold, or 19,962 barrel of oil equivalents ("BOEs"). In 1999, 10,784 barrels of oil, 5,974 barrels of NGLs and 24,436 mcf of gas were sold, or 20,831 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.60, or 75%, from \$16.71 in 1999 to \$29.31 in 2000. The average price received per barrel of NGLs increased \$7.17, or 74%, from \$9.73 in 1999 to \$16.90 in 2000. The average price received per mcf of gas increased 82% from \$1.64 in 1999 to \$2.98 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

A gain on disposition of assets of \$1,005, recognized during 2000, was attributable to credits received from the disposal of oil and gas equipment on one fully depleted well.

Total costs and expenses increased in 2000 to \$243,866 as compared to \$213,033 in 1999, an increase of \$30,833, or 14%. The increase was primarily due to the impairment of oil and gas properties and increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$172,228 in 2000 and \$155,029 in 1999, resulting in a \$17,199 increase, or 11%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decline in workover expenses.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 69% from \$8,214 in 1999 to \$13,873 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$12,385 in 2000 and \$5,720 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$21,231 related to its oil and gas properties during 2000.

Depletion was \$36,534 in 2000 as compared to \$49,790 in 1999, representing a decrease of \$13,256, or 27%. This decrease was primarily due to a 2,194 barrels of oil increase in proved reserves during 2000 as a result of higher commodity

prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 18% to \$278,326 from \$236,434 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 10,784 barrels of oil, 5,974 barrels of NGLs and 24,436 mcf of gas were sold, or 20,831 BOEs. In 1998, 12,040 barrels of oil, 5,839 barrels of NGLs and 25,477 mcf of gas were sold, or 22,125 BOEs.

The average price received per barrel of oil increased \$3.54, or 27%, from \$13.17 in 1998 to \$16.71 in 1999. The average price received per barrel of NGLs increased \$2.91, or 43%, from \$6.82 in 1998 to \$9.73 in 1999. The average price received per mcf of gas increased 10% from \$1.49 in 1998 to \$1.64 in 1999.

A gain on disposition of assets of \$3,419 was recognized during 1998 from the sale of oil and gas equipment on one well abandoned in a prior year. Abandoned

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

property costs of \$965 in 1998 were related to this abandonment.

Total costs and expenses decreased in 1999 to \$213,033 as compared to \$324,593 in 1998, a decrease of \$111,560, or 34%. The decrease was primarily due to declines in depletion, the impairment of oil and gas properties and abandoned property costs, offset by increases in production costs and G&A.

Production costs were \$155,029 in 1999 and \$146,967 in 1998, resulting in an \$8,062 increase, or 5%. The increase was due to increases in well maintenance costs and workover costs incurred to stimulate well production, offset by a decline in ad valorem taxes.

During this period, G&A increased 16% from \$7,093 in 1998 to \$8,214 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,720 in 1999 and \$5,800 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$48,745 related to its oil and gas properties during 1998.

Depletion was \$49,790 in 1999 compared to \$120,823 in 1998, representing a decrease of \$71,033, or 59%. This decrease was the result of a 92,485 barrels of oil increase in proved reserves during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,256 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum Industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$123,838 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$193,203, offset by increases in production costs paid

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of \$17,199, G&A expenses paid of \$5,659 and working capital of \$46,507. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$213,360 to oil and gas receipts, offset by \$20,157 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decline in workover expense. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$1,059 were comprised of \$1,005 received from salvage income on one fully depleted well and \$54 from equipment credits received on one active well. Proceeds of \$1,226 received during 1999 were from equipment credits received on one temporarily abandoned well.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$243,542, of which \$2,435 was distributed to the managing general partner and \$241,107 to the limited partners. In 1999, cash distributions to the partners were \$90,776, of which \$908 was distributed to the managing general partner and \$89,868 to the limited partners.

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----  
THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001  
-----

This document contains important information specific to Parker & Parsley 87-B, Ltd. and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 87-B, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as any value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, and Arter & Hadden LLP of Dallas, Texas (as to matters of Texas law) for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 87-B, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues decreased 5% to \$828,175 for the six months ended June 30, 2001 as compared to \$868,113 for the same period in 2000. The decrease in revenues resulted from a decline in production and a decrease in the average price received for oil, offset by higher average prices received for

7

gas and NGLs. For the six months ended June 30, 2001, 19,714 barrels of oil, 6,385 barrels of natural gas liquids ("NGLs") and 35,640 mcf of gas were sold, or 32,039 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 21,676 barrels of oil, 11,585 barrels of NGLs and 47,808 mcf of gas were sold, or 41,229 BOEs.

The average price received per barrel of oil decreased \$.16, or 1%, from \$27.30 for the six months ended June 30, 2000 to \$27.14 for the same period in 2001. The average price received per barrel of NGLs increased \$2.21, or 15%, from \$15.08 during the six months ended June 30, 2000 to \$17.29 for the same period in 2001. The average price received per mcf of gas increased 141% from \$2.13 during the six months ended June 30, 2000 to \$5.13 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$22,214 was received during the six months ended June 30, 2001 from disposal of equipment on two wells plugged and abandoned during the current period. Expenses to plug and abandon these wells were \$17,332. For the six months ended June 30, 2000 a gain on disposition of assets of \$3,753 was recognized due to credits received from the disposal of oil and gas equipment on one fully depleted well.

#### Costs and Expenses:

Total costs and expenses increased to \$525,773 for the six months ended June 30, 2001 as compared to \$445,483 for the same period in 2000, an increase of \$80,290, or 18%. This increase was due to increases in depletion, production costs and abandoned property costs, offset by a decline in general and administrative expenses ("G&A").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$373,020 for the six months ended June 30, 2001 and \$344,924 for the same period in 2000 resulting in a \$28,096 increase, or 8%. This increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 17% from \$26,043 for the six months ended June 30, 2000 to \$21,533 from the same period in 2001, primarily due to less G&A being allocated (limited to 3% of oil and gas revenues) due to lower oil and gas revenues for the six months ended June 30, 2001 as compared to the same period in 2000.

Depletion was \$113,888 for the six months ended June 30, 2001 as compared to \$74,516 for the same period in 2000, an increase of \$39,372, or 53%. This increase was due to a downward revision to proved reserves on one significant well, offset by a decline in oil production of 1,962 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

8

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 8% to \$381,569 for the three months ended June 30, 2001 as compared to \$414,169 for the same period in 2000. The decrease in revenues resulted from a decrease in production and a decline in the average price received for oil, offset by an increase in the average prices received for gas and NGLs. For the three months ended June 30, 2001, 9,762 barrels of oil, 3,497 barrels of NGLs and 17,474 mcf of gas were sold, or 16,171 BOEs. For the three months ended June 30, 2000, 10,284 barrels of oil, 5,499 barrels of NGLs and 21,477 mcf of gas were sold, or 19,363 BOEs.

The average price received per barrel of oil decreased slightly from \$26.86 during the three months ended June 30, 2000 to \$26.73 for the same period in 2001. The average price received per barrel of NGLs increased \$.42, or 3%, from \$14.98 during the three months ended June 30, 2000 to \$15.40 for the same period in 2001. The average price received per mcf of gas increased 47% from \$2.59 during the three months ended June 30, 2000 to \$3.82 for the same period in 2001.

Gain on disposition of assets of \$5,825 was received during the three months ended June 30, 2001 from disposal of equipment on two wells plugged and abandoned during the current period. Expenses to plug and abandon these wells were \$3,397.

### Costs and Expenses:

Total costs and expenses increased to \$234,827 for the three months ended June 30, 2001 as compared to \$230,473 for the same period in 2000, an increase of \$4,354, or 2%. This increase was due to increases in depletion and abandoned property costs, offset by decreases in G&A and production costs.

Production costs were \$181,811 for the three months ended June 30, 2001 and \$182,083 for the same period in 2000 resulting in a \$272 decrease. This decrease was primarily due to lower well maintenance costs, offset by an increase in

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

workover costs incurred to stimulate well production.

During this period, G&A decreased 20%, from \$12,425 for the three months ended June 30, 2000 to \$9,921 for the same period in 2001, primarily due to less G&A being allocated (limited to 3% of oil and gas revenues) due to lower oil and gas revenues for the three months ended June 30, 2001 as compared to the same period in 2000 and a decrease in audit and tax fees.

Depletion was \$39,698 for the three months ended June 30, 2001 as compared to \$35,965 for the same period in 2000, an increase of \$3,733, or 10%. This increase was primarily due to a downward revision to proved reserves on one significant well, offset by a decline in oil production of 522 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

9

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$120,786 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to reductions of \$201,914 in working capital and \$4,510 in G&A expenses, offset by a decline in oil and gas sales receipts of \$40,210 and increases in production costs of \$28,096 and abandoned property costs of \$17,332. The decrease in G&A was primarily due to less G&A being allocated (limited to 3% of oil and gas revenues) due to lower oil and gas revenues for the six months ended June 30, 2001 as compared to the same period in 2000. The decrease in oil and gas receipts resulted from a decline of \$205,527 in production during 2001 as compared to the same period in 2000 and a decline in oil prices of \$3,615, offset by an increase in gas and NGL prices of \$168,932 during 2001. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production.

#### Net Cash Provided by Investing Activities

The Partnership's investing activities during the six months ended June 30, 2001 and 2000 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from disposition of assets of \$10,056 and \$3,753 were recognized during the six months ended June 30, 2001 and 2000, respectively. Proceeds recognized during the period in 2001 were due to salvage income received on two wells plugged and abandoned during the current period. Proceeds recognized during the period in 2000 were from equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$347,671, of which \$3,477 was distributed to the managing general partner and \$344,194 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$459,528, of which \$4,595 was distributed to the managing general partner and \$454,933 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge

10

with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

## PART I

### ITEM 1. BUSINESS

Parker & Parsley 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 20,089 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 49% and 16% was attributable to sales made to Plains Marketing, L.P. and Phillips Petroleum Company. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Fractional working interests in developmental oil and gas prospects located in Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 64 oil and gas wells. At December 31, 2000, 49 wells were producing; one well was a dry hole from a previous year; five wells have been plugged and abandoned and nine wells were sold.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 20,089 outstanding limited partnership interests held of record by 1,468 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, distributions of \$984,669 and \$367,015, respectively, were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000	1999	1998	1997	1996
	-----	-----	-----	-----	-----
Operating results:					
-----					
Oil and gas sales	\$1,917,791	\$1,136,700	\$ 965,599	\$1,412,905	\$1,725,580

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 69% to \$1,917,791 for 2000 as compared to \$1,136,700 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 42,280 barrels of oil, 23,121 barrels of natural gas liquids ("NGLs") and 96,740 mcf of gas were sold, or 81,524 barrel of oil equivalent ("BOEs"). In 1999, 44,029 barrels of oil, 24,404 barrels of NGLs and 99,771 mcf of gas were sold, or 85,062 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

continue in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.60, or 75%, from \$16.71 in 1999 to \$29.31 in 2000. The average price received per barrel of NGLs increased \$7.17, or 74%, from \$9.73 in 1999 to \$16.90 in 2000. The average price received per mcf of gas increased 82% from \$1.64 in 1999 to \$2.98 in 2000. The market price received for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$4,102, recognized during 2000, was attributable to credits received from the disposal of oil and gas equipment on one fully depleted well.

Total costs and expenses increased in 2000 to \$997,051 as compared to \$870,434 in 1999, an increase of \$126,617, or 15%. The increase was primarily due to the impairment of oil and gas properties and increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$703,352 in 2000 and \$633,091 in 1999, resulting in an increase of \$70,261, or 11%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate production, offset by a decline in workover expenses.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 69% from \$34,237 in 1999 to \$57,746 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$50,579 in 2000 and \$23,361 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated

5

to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$86,674 related to its oil and gas properties during 2000.

Depletion was \$149,279 in 2000 compared to \$203,106 in 1999, representing a decrease of \$53,827, or 27%. The decrease was primarily due to an 8,836 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 18% to \$1,136,700 from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$965,599 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 44,029 barrels of oil, 24,404 barrels of NGLs and 99,771 mcf of gas were sold, or 85,062 BOEs. In 1998, 49,182 barrels of oil, 23,854 barrels of NGLs and 104,072 mcf of gas were sold, or 90,381 BOEs.

The average price received per barrel of oil increased \$3.54, or 27%, from \$13.17 in 1998 to \$16.71 in 1999. The average price received per barrel of NGLs increased \$2.91, or 43%, from \$6.82 in 1998 to \$9.73 in 1999. The average price received per mcf of gas increased 10% from \$1.49 in 1998 to \$1.64 in 1999.

A gain on disposition of assets of \$13,965 was received during 1998 from the sale of oil and gas equipment on one well abandoned in a prior year. Abandoned property costs of \$3,943 were incurred in 1998. These costs were attributable to the plugging and abandonment of one uneconomical well in a prior year.

Total costs and expenses decreased in 1999 to \$870,434 as compared to \$1,326,204 in 1998, a decrease of \$455,770, or 34%. The decrease was due to declines in depletion, the impairment of oil and gas properties and abandoned property costs, offset by increases in production costs and G&A.

Production costs were \$633,091 in 1999 and \$600,702 in 1998, resulting in a \$32,389 increase, or 5%. The increase was due to increases in well maintenance costs and workover costs incurred to stimulate well production, offset by a decline in ad valorem taxes.

During this period, G&A increased 18% from \$28,968 in 1998 to \$34,237 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$23,361 in 1999 and \$23,688 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$199,037 related to its oil and gas

6

properties during 1998.

Depletion was \$203,106 in 1999 compared to \$493,554 in 1998. This represented a decrease of \$290,448, or 59%. The decrease was the result of a combination of factors that included an increase in proved reserves of 377,754 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 5,153 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$569,152 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$789,348, offset by increases in production costs paid of \$70,261, G&A expenses paid of \$23,509 and working capital of \$126,426. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$871,310 to oil and gas receipts, offset by \$81,962 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decline in workover expenses. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$4,326 and \$5,007 were received during 2000 and 1999, respectively. The proceeds of \$4,326 were due to \$4,102 salvage income on one fully depleted well

7

and the remaining \$224 on equipment credits received on an active well. The proceeds of \$5,007 were due to equipment credits received on one temporarily abandoned well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$994,615, of which \$9,946 was distributed to the managing general partner and \$984,669 to the limited partners. In 1999, cash distributions to the partners were \$370,722, of which \$3,707 was distributed to the managing general partner and \$367,015 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 87-B, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley 87-B, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 87-B, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

14

PARKER & PARSLEY 87-B, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the

15

respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$86,674 and \$199,037 related to its proved oil and gas properties during 2000 and 1998, respectively.

### NOTE 4. INCOME TAXES

16

The financial statement basis of the Partnership's net assets and liabilities was \$261,429 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999	1998
Net income (loss) per statements of operations	\$ 945,927	\$279,094	\$(331,789)
Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes	--	(273)	(5)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	137,352	192,661	477,912
Impairment of oil and gas properties for financial reporting purposes	86,674	--	199,037
Loss on sale of assets for tax reporting purposes greater than amounts for financial reporting purposes	--	(25,328)	--
Other, net	(2,628)	2,156	(4,671)
	\$1,167,325	\$448,310	\$ 340,484
Net income per Federal income tax returns	\$1,167,325	\$448,310	\$ 340,484

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 10,658 =====	\$ 19,835 =====	\$ 22,998 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 552,956	\$ 552,956

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 304,400	\$ 301,167	\$ 292,411
Reimbursement of general and administrative			

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

expenses \$ 50,579 \$ 23,361 \$ 23,688

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. In addition, Pioneer USA, Parker & Parsley 87-B Conv., Ltd. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)	Partnerships (2)
	-----	-----
Revenues:		
Proceeds from disposition of depreciable properties	9.09091%	90.90909%
All other revenues	24.242425%	75.757575%
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.09091%	90.90909%
Operating costs, direct costs and general and administrative expenses	24.242425%	75.757575%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 45 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 87-B Conv., Ltd. is 80.33029% and 19.66971%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

18

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	941,555	1,291,273
Revisions	(314,311)	(287,194)
Production	(73,036)	(104,072)
	-----	-----
Net proved reserves at December 31, 1998	554,208	900,007

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Revisions	633,879	1,113,934
Production	(68,433)	(99,771)
	-----	-----
Net proved reserves at December 31, 1999	1,119,654	1,914,170
Revisions	(38,404)	(311,039)
Production	(65,401)	(96,740)
	-----	-----
Net proved reserves at December 31, 2000	1,015,849	1,506,391
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.26 per barrel of NGLs and \$7.62 per mcf of gas, discounted at 10% was approximately \$7,561,000 and undiscounted was \$16,119,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	----	----	----
Plains Marketing, L.P.	49%	50%	-
Genesis Crude Oil, L.P.	2%	-	57%
Western Gas Resources, Inc.	4%	6%	26%
Phillips Petroleum Company	16%	9%	8%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and Phillips Petroleum Company were \$95,526 and \$42,656, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

20

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$20,089,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

21

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Age at  
December 31,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Name -----	2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 45 limited partner interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

24

	2000 ----	1999 ----	1998 ----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$304,400	\$ 301,167	\$292,411
Reimbursement of general and administrative expenses	\$ 50,579	\$ 23,361	\$ 23,688

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31,  
2000, 1999 and 1998

Statements of partners' capital for the years ended December  
31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31,  
2000, 1999 and 1998

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the  
required information is in the financial statements or notes thereto,  
or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or  
incorporated by reference as part of this Report.

PARKER & PARSLEY PRODUCING PROPERTIES 87-A, LTD., A TEXAS LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley Producing Properties 87-A, Ltd. and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Producing Properties 87-A, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

July 31, 2001

- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000

-- as of June 30, 2001 (c)

-- as of December 31, 2000 (c)

Going Concern Value per \$1,000 Limited Partner Investment (c), (d)

Liquidation Value per \$1,000 Limited Partner Investment (c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (f)

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Not applicable. Since this partnership purchased producing properties, there were no intangible drilling and development costs nor any related write-off for tax purposes.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, and Arter & Hadden LLP of Dallas, Texas (as to matters of Texas law) for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

### PARKER & PARSLEY PRODUCING PROPERTIES 87-A, LTD. (A Texas Limited Partnership)

#### NOTES TO FINANCIAL STATEMENTS June 30, 2001 (Unaudited)

**Note 1. Organization and nature of operations**

Parker & Parsley Producing Properties 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

**Note 2. Basis of presentation**

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 2% to \$708,005 for the six months ended June 30, 2001 as compared to \$695,926 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas and NGLs, offset by a decline in production and lower average prices received for oil. For the six months ended June 30, 2001, 20,840 barrels of oil, 3,745

7

barrels of natural gas liquids ("NGLs") and 24,458 mcf of gas were sold, or 28,661 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 21,685 barrels of oil, 4,984 barrels of NGLs and 22,894 mcf of gas were sold, or 30,485 BOEs.

The average price received per barrel of oil decreased \$.19, or 1%, from \$27.33 for the six months ended June 30, 2000 to \$27.14 for the same period in 2001. The average price received per barrel of NGLs increased \$.43, or 4%, from \$11.41 during the six months ended June 30, 2000 to \$11.84 for the same period in 2001. The average price received per mcf of gas increased 98% from \$2.03 for the six months ended June 30, 2000 to \$4.01 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$39,237 and \$24,345 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to \$25,956 from equipment credits on one well plugged and abandoned in the current period and \$13,281 was primarily due to equipment credits received on fully depleted wells. The gain recognized during the period ended June 30, 2000 was comprised of \$10,858 from equipment credits on one well plugged and abandoned in the current period and \$13,487 salvage income primarily from wells plugged and abandoned during 1999. Expenses incurred during the six months ended June 30, 2001 and 2000 to plug and abandon these wells were \$17,463 and \$13,069, respectively.

#### Costs and Expenses:

Total costs and expenses decreased to \$405,148 for the six months ended June 30, 2001 as compared to \$427,095 for the same period in 2000, a decrease of \$21,947, or 5%. This decrease was the result of lower production costs and depletion, offset by increases in abandoned property costs and general and administrative expenses ("G&A").

Production costs were \$333,829 for the six months ended June 30, 2001 and \$359,931 for the same period in 2000, resulting in a \$26,102 decrease, or 7%.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The decrease was primarily due to a decline in workover expense, offset by additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 15% from \$20,878 for the six months ended June 30, 2000 to \$23,975 for the same period in 2001, primarily due to an increase in audit and tax fees.

Depletion was \$29,881 for the six months ended June 30, 2001 as compared to \$33,217 for the same period in 2000, a decrease of \$3,336, or 10%. This decrease was primarily due to a reduction in the Partnership's net depletable basis from charges taken in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000.

8

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 1% to \$324,594 for the three months ended June 30, 2001 as compared to \$329,057 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and NGLs and a decline in production, offset by higher average prices received for gas. For the three months ended June 30, 2001, 9,760 barrels of oil, 1,965 barrels of NGLs and 12,708 mcf of gas were sold, or 13,843 BOEs. For the three months ended June 30, 2000, 9,809 barrels of oil, 2,987 barrels of NGLs and 13,759 mcf of gas were sold, or 15,089 BOEs.

The average price received per barrel of oil decreased \$.41, or 2%, from \$27.16 for the three months ended June 30, 2000 to \$26.75 for the same period in 2001. The average price received per barrel of NGLs decreased \$.61, or 6%, from \$11.07 during the three months ended June 30, 2000 to \$10.46 for the same period in 2001. The average price received per mcf of gas increased 57% from \$2.15 during the three months ended June 30, 2000 to \$3.38 for the same period in 2001.

Gains on disposition of assets of \$11,917 and \$8,716 were recognized for the three months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to equipment credits received on fully depleted wells. The gain recognized during the period ended June 30, 2000, consisted of \$4,981 from equipment credits received on a fully depleted well and \$3,735 salvage income on a well plugged and abandoned during 1999. Expenses incurred during the three months ended June 30, 2001 and 2000 to plug and abandon these wells totaled \$5,192 and \$286, respectively.

### Costs and Expenses:

Total costs and expenses decreased to \$196,038 for the three months ended June 30, 2001 as compared to \$225,996 for the same period in 2000, a decrease of \$29,958, or 13%. This decrease was due to declines in production costs and depletion, offset by increases in abandoned property costs and G&A.

Production costs were \$163,644 for the three months ended June 30, 2001 and \$200,770 for the same period in 2000, resulting in a \$37,126 decrease, or 18%. The decrease was primarily due to less workover expense.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

During this period, G&A increased 26% from \$9,872 for the three months ended June 30, 2000 to \$12,473 for the same period in 2001, primarily due to an increase in audit and tax fees.

Depletion was \$14,729 for the three months ended June 30, 2001 as compared to \$15,068 for the same period in 2000, a decrease of \$339, or 2%.

9

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$136,279 during the six months ended June 30, 2001 from the same period in 2000. The increase was attributable to an increase of \$11,577 in oil and gas sales receipts, a reduction of \$106,091 in working capital and a decline of \$26,102 in production costs, offset by increases in abandoned property costs of \$4,394 and G&A expenses of \$3,097. The increase in oil and gas receipts resulted from the increase in gas and NGL prices of \$47,580 during 2001, offset by a decline of \$31,828 in production and a \$4,175 decline resulting from lower oil prices received in 2001 as compared to the same period in 2000. The decrease in production costs was primarily due to a decline in workover expenses, offset by additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to an increase in audit and tax fees.

#### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were related to upgrade expenditures for oil and gas equipment on active properties.

Proceeds from disposition of assets of \$23,433 and \$34,391 were received during the six months ended June 30, 2001 and 2000, respectively. The proceeds recognized during the period in 2001 were comprised of \$10,152 from equipment credits on one well plugged and abandoned during the current period and \$13,281 was from salvage income on fully depleted wells. The proceeds recognized during the period in 2000 were primarily from equipment credits on wells plugged and abandoned during 2000 and 1999.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$265,310, of which \$2,653 was distributed to the managing general partner and \$262,657 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$301,342, of which \$3,013 was distributed to the managing general partner and \$298,329 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the

10

agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley Producing Properties 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 24,426 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 59%, 15% and 11% were attributable to sales made to Plains Marketing, L.P., Phillips Petroleum Company and TEPPCO Crude Oil LLC, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and

2

ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership completed seven purchases of producing properties. These acquisitions involved the purchase of working interests in 187 properties of which 98 uneconomical oil and gas wells were plugged and abandoned and seven wells were sold. The Partnership also participated in the drilling of two oil and gas wells during 1988 which were completed as producers. During 1997, the Partnership participated in the recompletion of one well in which Pioneer USA acquired the deep rights. The Partnership already owned the shallow rights of the well bore. At December 31, 2000, the Partnership had 85 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 24,426 outstanding limited partnership interests held of record by 1,104 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, distributions of \$618,681 and \$223,952, respectively, were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000	1999	1998	1997	1996
Operating results:					

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-----

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

4

2000 compared to 1999

The Partnership's oil and gas revenues increased 76% to \$1,514,918 for 2000 as compared to \$860,305 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 43,390 barrels of oil, 10,266 barrels of natural gas liquids ("NGLs") and 45,872 mcf of gas were sold, or 61,301 barrel of oil equivalents ("BOEs"). In 1999, 41,606 barrels of oil, 11,495 barrels of NGLs and 53,145 mcf of gas were sold, or 61,959 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.54, or 75%, from \$16.80 in 1999 to \$29.34 in 2000. The average price received per barrel of NGLs increased \$4.80, or 66%, from \$7.32 in 1999 to \$12.12 in 2000. The average price received per mcf of gas increased 75% from \$1.46 in 1999 to \$2.56 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$37,944 recognized during 2000 resulted from \$26,860 in salvage income received on a fully depleted well and wells plugged and abandoned in prior years, in addition to an \$11,084 gain recognized from the abandonment of three wells during the current year. Gain on disposition of assets of \$25,173 for 1999 resulted from \$17,629 in salvage income received on the abandonment of two oil and gas wells during 1999, in addition to \$7,544 salvage income received on fully depleted wells and wells plugged and abandoned in prior years.

Total costs and expenses increased in 2000 to \$967,456 as compared to \$760,971 in 1999, an increase of \$206,485, or 27%. The increase was due to higher production costs, general and administrative expenses ("G&A"), the impairment of oil and gas properties and abandoned property costs, offset by a decline in depletion.

Production costs were \$765,021 in 2000 and \$555,988 in 1999, resulting in an increase of \$209,033, or 38%. The increase was primarily due to additional workover costs and well maintenance costs incurred to stimulate production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 76%, from \$25,809 in 1999 to \$45,448 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$29,711 in 2000 and \$1,550 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$59,777 and \$43,412 related to its oil and gas properties during 2000 and 1999, respectively.

Depletion was \$69,296 in 2000 as compared to \$109,034 in 1999, representing a decrease of \$39,738, or 36%. This decrease was primarily due to a 119,706 barrels of oil increase in proved reserves during 2000 as a result of higher

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

Abandoned property costs of \$27,914 and \$26,728 were incurred on the abandonment of several properties in 2000 and 1999, respectively.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 7% to \$860,305 from \$807,421 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 41,606 barrels of oil, 11,495 barrels of NGLs and 53,145 mcf of gas were sold, or 61,959 BOEs. In 1998, 51,039 barrels of oil, 13,328 barrels of NGLs and 56,240 mcf of gas were sold, or 73,740 BOEs.

The average price received per barrel of oil increased \$3.76, or 29%, from \$13.04 in 1998 to \$16.80 in 1999. The average price received per barrel of NGLs increased \$1.86, or 34%, from \$5.46 in 1998 to \$7.32 in 1999. The average price received per mcf of gas increased 19% from \$1.23 in 1998 to \$1.46 in 1999.

The \$25,173 gain on disposition of assets for 1999 resulted from \$17,629 in salvage income received on the abandonment of two oil and gas wells during 1999, in addition to \$7,544 salvage income received on fully depleted wells and wells plugged and abandoned in prior years. During 1998, the \$24,040 gain on disposition of assets resulted from \$29,099 in salvage income received during 1998 on properties that were plugged and abandoned in prior years, offset by a \$5,059 loss on the abandonment of two oil and gas wells and one saltwater disposal well.

Total costs and expenses decreased in 1999 to \$760,971 as compared to \$1,202,296 in 1998, a decrease of \$441,325, or 37%. The decrease was due to declines in depletion, production costs and abandoned property costs, offset by increases in the impairment of oil and gas properties and G&A.

Production costs were \$555,988 in 1999 and \$682,634 in 1998, resulting in a \$126,646 decrease, or 19%. The decrease was due to reductions in well maintenance costs and ad valorem taxes, offset by an increase in workover costs incurred to stimulate production.

During this period, G&A increased 7%, from \$24,223 in 1998 to \$25,809 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and

6

gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$1,550 in 1999 and \$10,723 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$43,412 and \$37,388 related to its oil and gas properties during 1999 and 1998, respectively.

Depletion was \$109,034 in 1999 compared to \$383,398 in 1998, representing a decrease of \$274,364, or 72%. This decrease was the result of an increase in proved reserves of 306,417 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 9,433 barrels for the period ended December 31, 1999 compared to the same period in 1998.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Abandoned property costs of \$26,728 and \$74,653 were incurred on the abandonment of several properties in 1999 and 1998, respectively.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$389,055 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$660,529, offset by increases in production costs paid of \$209,033, G&A expenses paid of \$19,639, abandoned property costs paid of \$1,186 and working capital of \$41,616. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$641,727 to oil and gas receipts and an increase of \$18,802 resulting from an increase in oil production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

7

#### Net Cash Provided by Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to the addition of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$57,999 for 2000 resulted from \$36,906 salvage income on a fully depleted well and wells abandoned in a prior year, \$15,711 salvage income received on two wells plugged and abandoned in 2000 and \$5,382 from equipment credits on one active well. Proceeds from disposition of assets of \$21,887 for 1999 resulted from \$7,583 in salvage income received on one well plugged and abandoned during 1999, in addition to \$7,544 salvage income primarily received on fully depleted wells and \$6,760 from equipment credits on one active well.

#### Net Cash Used in Financing Activities

For 2000, cash distributions to the partners were \$624,930, of which \$6,249 was distributed to the managing general partner and \$618,681 to the limited

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partners. In 1999, cash distributions to the partners were \$226,214, of which \$2,262 was distributed to the managing general partner and \$223,952 to the limited partners.

#### INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Producing Properties 87-A, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley Producing Properties 87-A, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Producing Properties 87-A, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

The accompanying notes are an integral part of these financial statements.

14

PARKER & PARSLEY PRODUCING PROPERTIES 87-A, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Producing Properties 87-A, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income (loss) of the Partnership is included in the individual Federal income tax returns of the

15

respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of the cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$59,777, \$43,412 and \$37,388 related to its proved oil and gas properties during 2000, 1999 and 1998, respectively.

16

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$1,521,385 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

	2000	1999	1998
	-----	-----	-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net income (loss) per statements of operations	\$ 601,515	\$ 134,700	\$ (357,482)
Depletion and depreciation provisions for tax reporting purposes (greater than) less than amounts for financial reporting purposes	(12,672)	47,101	(84,454)
Impairment of oil and gas properties for financial reporting purposes	59,777	43,412	37,388
Other, net	(15,730)	(2,287)	4,922
	-----	-----	-----
Net income (loss) per Federal income tax returns	\$ 632,890	\$ 222,926	\$ (399,626)
	=====	=====	=====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Property acquisition costs	\$ 4,087	\$ 1,104	\$ 11,491
	=====	=====	=====
Development costs	\$ 829	\$ 1,714	\$ -
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

	2000	1999
	-----	-----
Proved properties:		
Property acquisition costs	\$5,021,262	\$ 5,095,617
Completed wells and equipment	679,775	678,946
	-----	-----
Accumulated depletion	5,701,037	5,774,563
	(5,019,550)	(4,958,910)
	-----	-----
Net oil and gas properties	\$ 681,487	\$ 815,653
	=====	=====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

2000	1999	1998
------	------	------

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	-----	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 268,224	\$ 254,244	\$ 292,539
Reimbursement of general and administrative expenses	\$ 29,711	\$ 1,550	\$ 10,723

17

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees Producing Properties 87-A ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1) -----	Partnership -----
Revenues:		
Revenues from oil and gas production, proceeds from sales of producing properties and all other revenues:		
Before payout (2)	4.040405%	95.959595%
After payout	19.191920%	80.808080%
Costs and expenses:		
Property acquisition costs, operating costs, general and administrative expenses and other costs:		
Before payout (2)	4.040405%	95.959595%
After payout	19.191920%	80.808080%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 86 limited partner interests owned by Pioneer USA.

(2) The Partnership has not reached payout.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

18

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	719,789	996,755
Revisions	(302,841)	(385,883)
Production	(64,367)	(56,240)
	-----	-----
Net proved reserves at December 31, 1998	352,581	554,632
Revisions	461,643	633,460
Production	(53,101)	(53,145)
	-----	-----
Net proved reserves at December 31, 1999	761,123	1,134,947
Revisions	6,756	(376,058)
Production	(53,656)	(45,872)
	-----	-----
Net proved reserves at December 31, 2000	714,223	713,017
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.58 per barrel of NGLs and \$7.60 per mcf of gas, discounted at 10% was approximately \$4,683,000 and undiscounted was \$9,322,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended December 31		
	2000	1999	1998
	(in thousands)		
Oil and gas producing activities:			
Future cash inflows	\$ 22,258	\$ 18,298	\$ 3,333
Future production costs	(12,936)	(10,698)	(2,000)
	9,322	7,600	1,333
10% annual discount factor	(4,639)	(3,477)	(1,000)
	\$ 4,683	\$ 4,123	\$ 3,333

	For the years ended December 31		
	2000	1999	1998
	(in thousands)		
Oil and Gas Producing Activities:			
Oil and gas sales, net of production costs	\$ (750)	\$ (304)	\$ (1,000)
Net changes in prices and production costs	1,685	1,668	(1,000)
Revisions of previous quantity estimates	(339)	3,013	(1,000)
Accretion of discount	412	64	(1,000)
Changes in production rates, timing and other	(448)	(957)	(1,000)
	560	3,484	(2,000)
Change in present value of future net revenues			
Balance, beginning of year	4,123	639	2,000
	\$ 4,683	\$ 4,123	\$ 3,333

## NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

2000	1999	1998
------	------	------

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Plains Marketing, L.P.	59%	60%	-
Phillips Petroleum Company	15%	14%	16%
TEPPCO Crude Oil LLC	11%	-	-
Genesis Crude Oil, L.P.	-	-	66%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., Phillips Petroleum Company and TEPPCO Crude Oil LLC were \$78,270, \$54,144 and \$29,228, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership

20

affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$12,213,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

21

PART III

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name -----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the limited

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partnership agreement, Pioneer USA pays 1% of the Program's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, Pioneer USA is allocated 1% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 86 limited partnership interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$268,224	\$ 254,244	\$292,539
Reimbursement of general and administrative expenses	\$ 29,711	\$ 1,550	\$ 10,723

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----  
THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-----

This document contains important information specific to Parker & Parsley Producing Properties 87-B, Ltd. and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Producing Properties 87-B, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY PRODUCING PROPERTIES 87-B, LTD.

## SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners (a)

Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a),

Merger Value per \$1,000 Limited Partner Investment (b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001 (c)

-- as of December 31, 2000 (c)

Going Concern Value per \$1,000 Limited Partner Investment (c), (d)

Liquidation Value per \$1,000 Limited Partner Investment (c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13,

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

- (f) Not applicable. Since this partnership purchased producing properties, there were no intangible drilling and development costs nor any related write-off for tax purposes.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, and Arter & Hadden LLP of Dallas, Texas (as to matters of Texas law) for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY PRODUCING PROPERTIES 87-B, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley Producing Properties 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues decreased 7% to \$435,162 for the six months ended June 30, 2001 as compared to \$469,537 for the same period in 2000. The decrease in revenues resulted from a decline in production and lower average prices received for oil, offset by higher average prices received for gas and

7

NGLs. For the six months ended June 30, 2001, 10,264 barrels of oil, 3,788 barrels of natural gas liquids ("NGLs") and 19,481 mcf of gas were sold, or 17,299 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 11,962 barrels of oil, 5,429 barrels of NGLs and 26,130 mcf of gas were sold, or 21,746 BOEs. Of the decrease, 1,740 BOEs are attributable to the fact that on April 1, 2000 the Partnership's revenue and operating expense allocation reverted to 80.808081% from 95.959595% pursuant to the Program agreement governing the Partnership which provides for a reversionary interest of 80.808081% once cumulative distributions equal initial partners' capital ("Reversionary Interest").

The average price received per barrel of oil decreased \$1.07, or 4%, from \$27.96 for the six months ended June 30, 2000 to \$26.89 for the same period in 2001. The average price received per barrel of NGLs increased \$2.22, or 15%, from \$14.82 during the six months ended June 30, 2000 to \$17.04 for the same period in 2001. The average price received per mcf of gas increased 133% to \$4.86 for

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the six months ended June 30, 2001 compared to \$2.09 for the same period in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$8,294 was recognized during the six months ended June 30, 2000. The gain was due to equipment credits received on fully depleted wells.

### Costs and Expenses:

Total costs and expenses increased to \$240,127 for the six months ended June 30, 2001 as compared to \$225,044 for the same period in 2000, an increase of \$15,083, or 7%. This increase was due to an increase in production costs, offset by declines in depletion and general and administrative expenses ("G&A").

Production costs were \$209,886 for the six months ended June 30, 2001 and \$192,129 for the same period in 2000, resulting in a \$17,757 increase, or 9%. A 20% increase in production costs resulted from higher well maintenance and workover costs incurred to stimulate well production, offset by an 11% decline in lease operating costs and production taxes attributable to the Reversionary Interest change.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 7% from \$14,086 for the six months ended June 30, 2000, to \$13,055 for the same period in 2001, primarily due to the Reversionary Interest change as noted above.

Depletion was \$17,186 for the six months ended June 30, 2001 as compared to \$18,829 for the same period in 2000, a decrease of \$1,643, or 9%. This decrease was primarily due to a decrease in oil production of 1,698 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

8

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 4% to \$197,119 for the three months ended June 30, 2001 as compared to \$205,745 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and a decrease in production, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 4,872 barrels of oil, 2,038 barrels of NGLs and 9,647 mcf of gas were sold, or 8,518 BOEs. For the three months ended June 30, 2000, 4,955 barrels of oil, 2,418 barrels of NGLs and 11,575 mcf of gas were sold, or 9,302 BOEs.

The average price received per barrel of oil decreased \$1.93, or 7%, from \$28.54 for the three months ended June 30, 2000 to \$26.61 for the same period in 2001. The average price received per barrel of NGLs increased \$.61, or 4%, from \$14.68 during the three months ended June 30, 2000 to \$15.29 for the same period in 2001. The average price received per mcf of gas increased 51% from \$2.49 during

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the three months ended June 30, 2000 to \$3.77 for the same period in 2001.

### Costs and Expenses:

Total costs and expenses increased to \$135,925 for the three months ended June 30, 2001 as compared to \$96,968 for the same period in 2000, an increase of \$38,957, or 40%. This increase was due to higher production costs, offset by decreases in depletion and G&A.

Production costs were \$122,377 for the three months ended June 30, 2001 and \$82,693 for the same period in 2000, resulting in a \$39,684 increase, or 48%. The increase was the result of additional well maintenance and workover costs incurred to stimulate well production.

During this period, G&A decreased 4% from \$6,172 for the three months ended June 30, 2000 to \$5,914 for the same period in 2001, primarily due to decreased audit and tax fees.

Depletion was \$7,634 for the three months ended June 30, 2001 as compared to \$8,103 for the same period in 2000, a decrease of \$469, or 6%.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities decreased \$15,414 during the six months ended June 30, 2001 from the same period in 2000. This decrease was due to a reduction in oil and gas receipts of \$34,658 and an increase in production costs of \$17,757, offset by a decrease in G&A expenses of \$1,031 and a reduction in working capital of \$35,970. The increase in production costs was primarily due to higher well maintenance and workover costs incurred to stimulate well production, offset by the Reversionary Interest change. The decrease in oil and gas sales receipts resulted from a decline of \$106,201 in production in 2001 as

9

compared to the same period in 2000 and a decline in oil prices of \$12,792, offset by an increase in gas and NGL prices of \$84,335 during 2001. The decrease in G&A was primarily due to the Reversionary Interest change.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 were related to expenditures for upgrades of oil and gas equipment on active properties.

Proceeds from asset dispositions of \$13,944 were received for the six months ending June 30, 2000. The proceeds were primarily from equipment credits on fully depleted wells.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$169,535, of which \$1,695 was distributed to the managing general partner and \$167,840 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$265,842, of which \$2,658 was distributed to the managing general partner and \$263,184 to the limited partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because

10

it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

No market currently exists for the limited partnership interests of the Registrant. Based on the original purchase price, the aggregate market value of limited partnership interests owned by non-affiliates of the Registrant is \$5,997,500.

As of March 8, 2001, the number of outstanding limited partnership interests was 12,191.

The following documents are incorporated by reference into the indicated parts of this Annual Report on Form 10-K: None

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

PART I

ITEM 1. BUSINESS

Parker & Parsley Producing Properties 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the state of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 12,191

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 32%, 22% and 20% were attributable to sales made to Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that

2

its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

The Partnership completed seven purchases of producing properties. These acquisitions involved the purchase of working interests in 54 properties. The Partnership also participated in the drilling of two oil and gas wells during 1988 which were completed as producers. Additionally, the Partnership purchased 15 overriding royalty interests effective January 1, 1990 and two additional overriding royalty interests during 1991. Twenty-two uneconomical wells have been abandoned. At December 31, 2000, the Partnership had 34 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 12,191 outstanding limited partnership interests held of record by 550 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$586,016 and \$170,405, respectively, of such revenue-related distributions were made to the limited partners.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 57% to \$982,604 for 2000 as compared to \$625,861 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 22,713 barrels of oil, 10,402 barrels of natural gas liquids ("NGLs") and 49,380 mcf of gas were sold, or 41,345 barrel of oil equivalents ("BOEs"). In 1999, 24,976 barrels of oil, 10,794 barrels of NGLs and 48,774 mcf of gas were sold, or 43,899 BOEs. Of the decrease, 5,393 BOEs are attributable to the fact that on

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

April 1, 2000, the Partnership's revenue and operating expense allocation reverted to 80.808081% from 95.959595% pursuant to the Program Agreement governing the Partnership which provides for a reversionary interest of 80.808081% once cumulative distributions equal initial partner's capital ("Reversionary Interest"). This is offset by a production increase of 2,839 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$11.92, or 68%, from \$17.44 in 1999 to \$29.36 in 2000. The average price received per barrel of NGLs increased \$6.36, or 62%, from \$10.32 in 1999 to \$16.68 in 2000. The average price received per mcf of gas increased 78% from \$1.62 in 1999 to \$2.88 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gains on disposition of assets of \$8,294 and \$11,482 were recognized in 2000 and 1999, respectively. The gain from 2000 was from equipment salvage on one well abandoned in a prior year. The gain from 1999 was from equipment salvage of \$12,955 on one well plugged and abandoned in a prior year, offset by a \$1,473 loss on the write-off of basis on one well plugged and abandoned during 1999.

Total costs and expenses decreased in 2000 to \$434,793 as compared to \$477,552 in 1999, a decrease of \$42,759, or 9%. The decrease was primarily attributable to declines in depletion, production costs and abandoned property costs, offset by an increase in general and administrative expenses ("G&A").

Production costs were \$347,938 in 2000 and \$364,187 in 1999, resulting in a decrease of \$16,249, or 4%. Lease operating costs and production taxes declined 12% which was attributable to the Reversionary Interest change, offset by an 8% increase in production costs resulting from high production taxes due to higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 79%, from \$18,776 in 1999 to

5

\$33,521 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,424 in 2000 and \$8,400 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$53,334 in 2000 as compared to \$79,975 in 1999, a decrease of \$26,641, or 33%. This decrease was primarily due to a 51,092 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

Abandoned property costs of \$14,614 incurred in 1999 were related to the temporary abandonment of one well during 1999 and two wells plugged and abandoned in prior years.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 18% to \$625,861 from \$532,606 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 24,976 barrels of oil, 10,794 barrels of NGLs and 48,774 mcf of gas were sold, or 43,899 BOEs. In 1998, 29,481 barrels of oil, 11,315 barrels of NGLs and 50,220 mcf of gas were sold, or 49,166 BOEs.

The average price received per barrel of oil increased \$4.39, or 34%, from \$13.05 in 1998 to \$17.44 in 1999. The average price received per barrel of NGLs increased \$3.74, or 57%, from \$6.58 in 1998 to \$10.32 in 1999. The average price received per mcf of gas increased 11% from \$1.46 in 1998 to \$1.62 in 1999.

Gain on disposition of assets of \$11,482 was recognized in 1999 from equipment salvage of \$12,955 on one well plugged and abandoned in a prior year, offset by a \$1,473 loss on the write-off of basis on one well plugged and abandoned during 1999. In 1998, \$4,248 gain on disposition of assets was recognized from proceeds received from equipment salvage on wells plugged in prior years.

Total costs and expenses decreased in 1999 to \$477,552 as compared to \$659,670 in 1998, a decrease of \$182,118, or 28%. The decrease was primarily attributable to declines in depletion, the impairment of oil and gas properties, production costs and abandoned property costs, offset by an increase in G&A.

Production costs were \$364,187 in 1999 and \$385,648 in 1998, resulting in a \$21,461 decrease, or 6%. The decrease was the result of declines in well maintenance costs, ad valorem taxes and workover expenses.

During this period, G&A increased 18% from \$15,978 in 1998 to \$18,776 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$8,400 in 1999 and \$9,662 in 1998 for G&A incurred on behalf of the Partnership.

6

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$35,017 related to its oil and gas properties during 1998.

Depletion was \$79,975 in 1999 compared to \$206,289 in 1998, a decrease of \$126,314, or 61%. This decrease was primarily due to an increase in proved reserves of 180,622 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 4,505 barrels for the period ended December 31, 1999 compared to the same period in 1998.

Abandoned property costs of \$14,614 incurred in 1999 were related to the temporary abandonment of one well during 1999 and two wells plugged and abandoned in prior years. Expenses of \$16,738 were incurred in 1998 to plug and abandon one oil and gas well which was temporarily abandoned in a prior year.

Petroleum industry

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

7

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$392,559 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$359,902 and declines in production costs paid of \$16,249, abandoned property costs paid of \$14,614 and working capital of \$16,539, offset by an increase in G&A expenses paid of \$14,745. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$431,139 to oil and gas receipts, offset by \$71,237 resulting from the decline in production during 2000. The decrease in production costs was primarily due to the Reversionary Interest change, offset by higher production taxes associated with high oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 1999 were primarily for expenditures related to upgrades of equipment on various oil and gas properties.

Proceeds of \$13,943 and \$12,956 were recognized during 2000 and 1999, respectively, from equipment salvage on wells abandoned in prior years.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$591,935, of which \$5,919 was distributed to the managing general partner and \$586,016 to the limited partners. In 1999, cash distributions to the partners were \$172,065, of which \$1,660 was distributed to the managing general partner and \$170,405 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Producing Properties 87-B, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley Producing Properties 87-B, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Producing Properties 87-B, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

14

PARKER & PARSLEY PRODUCING PROPERTIES 87-B, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Producing Properties 87-B, Ltd. (the "Partnership") is a limited partnership organized in 1987 under the laws of the State of Texas. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

15

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$35,017 related to its proved oil and gas properties during 1998.

16

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$838,681 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

	2000	1999	1998
Net income (loss) per statements of operations	\$ 562,621	\$ 163,148	\$ (118,738)
Depletion and depreciation provisions for tax reporting purposes (greater than) less than amounts for financial reporting purposes	(39,072)	7,412	(59,976)
Impairment of oil and gas properties for financial reporting purposes	-	-	35,017
Abandoned property dispositions for tax reporting greater than (less than) amounts for financial reporting purposes	-	-	(218,079)
Other, net	4,370	(7,638)	3,376
	-----	-----	-----
Net income (loss) per Federal income tax returns	\$ 527,919	\$ 162,922	\$ (358,400)
	=====	=====	=====

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Property acquisition costs	\$ - =====	\$ (2,313) =====	\$ 6,754 =====
Development costs	\$ - =====	\$ 4,136 =====	\$ 1,863 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 3,288,184	\$ 3,289,170
Completed wells and equipment	1,541,019 -----	1,548,421 -----
	4,829,203	4,837,591
Accumulated depletion	(4,181,937) -----	(4,131,342) -----
Net oil and gas properties	\$ 647,266 =====	\$ 706,249 =====

17

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 121,257	\$ 137,769	\$ 144,149
Reimbursement of general and administrative expenses	\$ 27,424	\$ 8,400	\$ 9,662

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Producing Properties 87-B Employees ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1)	Partnership
Revenues:		
Revenues from oil and gas production, proceeds from sales of producing properties and all other revenues:		
Before payout	4.040405%	95.959595%
After payout (2)	19.191920%	80.808080%
Costs and expenses:		
Property acquisition costs, operating costs, general and administrative expenses and other costs:		
Before payout	4.040405%	95.959595%
After payout (2)	19.191920%	80.808080%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 196 limited partner interests owned by Pioneer USA.

(2) The Partnership reached payout in April 2000.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

18

	Oil and NGLs (bbls)	Gas (mcf)
Net proved reserves at January 1, 1998	419,589	664,089
Revisions	(95,538)	(99,794)
Production	(40,796)	(50,220)
	-----	-----

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net proved reserves at December 31, 1998	283,255	514,075
Revisions	292,082	490,347
Production	(35,770)	(48,774)
	-----	-----
Net proved reserves at December 31, 1999	539,567	955,648
Revisions	31,315	(45,195)
Production	(33,115)	(49,380)
	-----	-----
Net proved reserves at December 31, 2000	537,767	861,073
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.63 per barrel of oil, \$13.33 per barrel of NGLs and \$7.67 per mcf of gas, discounted at 10% was approximately \$4,413,000 and undiscounted was \$9,495,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended December 31		
	2000	1999	1998
	(in thousands)		
Oil and gas producing activities:			
Future cash inflows	\$ 18,453	\$ 13,256	\$ 3,333

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
Plains Marketing, L.P.	32%	37%	-
TEPPCO Crude Oil LLC	22%	23%	-
Phillips Petroleum Company	20%	10%	9%
Genesis Crude Oil, L.P.	-	-	58%
Western Gas Resources, Inc.	6%	7%	23%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company were \$25,204, \$31,416 and \$21,019, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

20

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$6,095,500. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

21

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Name -----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the limited partnership agreement, Pioneer USA pays 1% of the Program's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, Pioneer USA is allocated 1% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 196 limited partner interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

24

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$121,257	\$ 137,769	\$144,149
Reimbursement of general and administrative expenses	\$ 27,424	\$ 8,400	\$ 9,662

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

25

### PART IV

#### ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000,  
1999 and 1998

Statements of partners' capital for the years ended December 31,  
2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000,  
1999 and 1998

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD., A TEXAS LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley Private Investment 87, Ltd. and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 87, Ltd.:

- o A table containing:
  - the aggregate initial investment by the limited partners

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the aggregate historical limited partner distributions through July 31, 2001
- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-- as of June 30, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion must be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, and Arter & Hadden LLP of Dallas, Texas (as to matters of Texas law) for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2037, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

The accompanying notes are an integral part of these financial statements.

5

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

## Note 1. Organization and nature of operations

Parker & Parsley Private Investment 87, Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

## Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 25% to \$562,276 for the six months ended June 30, 2001 as compared to \$450,055 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas

6

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and NGLs and an increase in production, offset by a decline in average prices received for oil. For the six months ended June 30, 2001, 13,100 barrels of oil, 5,041 barrels of natural gas liquids ("NGLs") and 25,756 mcf of gas were sold, or 22,434 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 11,148 barrels of oil, 5,758 barrels of NGLs and 23,896 mcf of gas were sold, or 20,889 BOEs.

The average price received per barrel of oil decreased \$1.15, or 4%, from \$28.16 for the six months ended June 30, 2000 to \$27.01 for the same period in 2001. The average price received per barrel of NGLs increased \$2.57, or 18%, from \$14.34 during the six months ended June 30, 2000 to \$16.91 for the same period in 2001. The average price received per mcf of gas increased 113% from \$2.24 during the six months ended June 30, 2000 to \$4.78 in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$15,200 was recognized during the six months ended June 30, 2000 resulting from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$282,401 for the six months ended June 30, 2001 as compared to \$254,248 for the same period in 2000, an increase of \$28,153, or 11%. This increase was due to increases in production costs, depletion and general and administrative expenses ("G&A").

Production costs were \$222,273 for the six months ended June 30, 2001 and \$201,495 for the same period in 2000, resulting in a \$20,778 increase, or 10%. The increase was due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes due to higher gas and NGL prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 8%, from \$13,502 for the six months ended June 30, 2000 to \$14,619 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$45,509 for the six months ended June 30, 2001 as compared to \$39,251 for the same period in 2000, an increase of \$6,258, or 16%. This increase was due to an increase in oil production of 1,952 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 28% to \$267,604 for the three

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

months ended June 30, 2001 as compared to \$209,122 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas and NGLs and an increase in production, offset by a decline in average prices received for oil. For the three months ended June 30, 2001, 6,252 barrels of oil, 3,003 barrels of NGLs and 14,371 mcf of gas were sold, or 11,650 BOEs. For the three months ended June 30, 2000, 4,518 barrels of oil, 3,059 barrels of NGLs and 12,350 mcf of gas were sold, or 9,635 BOEs.

The average price received per barrel of oil decreased \$2.84, or 10%, from \$29.73 for the three months ended June 30, 2000 to \$26.89 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$1.17, or 8%, from \$13.97 during the three months ended June 30, 2000 to \$15.14 for the same period in 2001. The average price received per mcf of gas increased 45% to \$3.76 during the three months ended June 30, 2001 from \$2.60 during the same period in 2000.

Gain on disposition of assets of \$262 was recognized during the three months ended June 30, 2000 from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$142,572 for the three months ended June 30, 2001 as compared to \$120,598 for the same period in 2000, an increase of \$21,974, or 18%. This increase was due to increases in production costs, depletion and G&A.

Production costs were \$111,039 for the three months ended June 30, 2001 and \$96,847 for the same period in 2000, resulting in a \$14,192 increase, or 15%. This increase was due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes due to higher gas and NGL prices.

During this period, G&A increased 10%, from \$6,274 for the three months ended June 30, 2000 to \$6,918 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Depletion was \$24,615 for the three months ended June 30, 2001 compared to \$17,477 for the same period in 2000, an increase of \$7,138, or 41%. This increase was attributable to an increase in oil production of 1,734 barrels for the three months ended June 30, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$118,797 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$111,691 and a reduction in working capital of \$29,001, offset by increases in production costs of \$20,778 and G&A expenses of \$1,117. The increase in oil and gas receipts resulted from an increase in gas and NGL prices during 2001 which contributed an additional \$75,534 to oil and gas receipts and \$48,968 resulting from the increase in production during 2001 as compared to the same period in 2000, offset by a decline of \$12,811 due to decreased oil prices during 2001 as

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production and increased production taxes associated with higher gas and NGL prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

### Net Cash Provided by Investing Activities

The Partnership's investing activities during the six months ended June 30, 2001 and 2000 were for expenditures related to oil and gas equipment upgrades on various oil and gas properties.

Proceeds from asset dispositions of \$13,707 and \$25,096 recognized during the six months ended June 30, 2001 and 2000, respectively. The proceeds recognized during the period in 2001 were from equipment credits received on a temporarily abandoned well. The proceeds recognized during the period in 2000 consisted of \$15,200 from equipment credits on one fully depleted well and \$9,896 from credits on one active property.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$194,342, of which \$1,943 was distributed to the managing general partner and \$192,399 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$272,447, of which \$2,724 was distributed to the managing general partner and \$269,723 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and

46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Private Investment 87, Ltd.  
(A Texas Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 87, Ltd. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private Investment 87, Ltd. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD.  
(A Texas Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 87, Ltd. (the "Partnership") was organized in 1987 as a general partnership under the laws of the State of Texas and was converted to a Texas limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted and the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$176,587 related to its proved oil and gas properties during 1998.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$72,098 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	
	-----	-----

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	
	-----	
Development costs	\$ 12,021	\$
	=====	=====

Capitalized oil and gas properties consist of the following:

Proved properties:		
Property acquisition costs		\$
Completed wells and equipment		
		-----
Accumulated depletion		
		-----
Net oil and gas properties		\$
		=====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 168,618	\$
Reimbursement of general and administrative expenses	\$ 27,190	\$

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and the Partnership are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer U	-----
Revenues:		
Proceeds from disposition of depreciable properties	9.09	
All other revenues	24.24	
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.09	
Operating costs, direct costs and general and administrative expenses	24.24	

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	(bbls)
Net proved reserves at January 1, 1998	593,108
Revisions	(204,355)
Production	(42,801)
	-----
Net proved reserves at December 31, 1998	345,952
Revisions	377,937
Production	(40,495)
	-----
Net proved reserves at December 31, 1999	683,394
Revisions	114,936
Production	(35,242)
	-----
Net proved reserves at December 31, 2000	763,088
	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.67 per barrel of NGLs and \$7.76 per mcf of gas, discounted at 10% was approximately \$5,193,000 and undiscounted was \$12,461,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

For the years ended

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000	1999

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000
Plains Marketing, L.P.	42%
Genesis Crude Oil, L.P.	-

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Western Gas Resources, Inc.	3%
Phillips Petroleum Company	17%
NGTS LLC	10%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., Phillips Petroleum Company and NGTS LLC were \$34,772, \$27,567 and \$3,043, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being

12

paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. The managing general partner is also responsible for 1% of the guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$10,480,000. Contributions aggregating \$2,822,500 were received directly from the partners in cash and the remainder was made available to the limited partners by a financial institution. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

PARKER & PARSLEY PRIVATE INVESTMENT 87, LTD.  
(A TEXAS LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 54% to \$1,035,947 for 2000 as compared to \$674,794 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 24,016 barrels of oil, 11,226 barrels of natural gas liquids ("NGLs") and 48,307 mcf of gas were sold, or 43,293 barrel of oil equivalents ("BOEs"). In 1999, 27,432 barrels of oil, 13,063 barrels of NGLs and 52,874 mcf of gas were sold, or 49,307 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.74, or 76%, from \$16.82 in 1999 to \$29.56 in 2000. The average price received per barrel of NGLs increased \$6.76, or 72%, from \$9.41 in 1999 to \$16.17 in 2000. The average price received per mcf of gas increased 75% from \$1.71 in 1999 to \$2.99 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$15,201 during 2000 was attributable to salvage income received on two wells plugged and abandoned during 1999. Gain on disposition of assets of \$20,924 during 1999 was from salvage value received on equipment from two wells plugged and abandoned during 1999. Abandoned property costs of \$20,129 were incurred during 1999 related to the plugging of these two wells.

Total costs and expenses increased in 2000 to \$505,407 as compared to \$497,201 in 1999, an increase of \$8,206, or 2%. The increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by declines in depletion and abandoned property costs.

Production costs were \$395,308 in 2000 and \$333,765 in 1999, resulting in a \$61,543 increase, or 18%. The increase was due to additional well maintenance costs incurred to stimulate well production and higher production taxes.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 54% from \$20,244 in 1999 to \$31,079 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,190 in 2000 and \$13,954 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$79,020 in 2000 as compared to \$123,063 in 1999, representing a decrease of \$44,043, or 36%. This decrease was primarily due to a 114,527 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a decline in oil production of 3,416 barrels for the period ended December 31, 2000 compared to the same period in 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 19% to \$674,794 from \$568,014 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 27,432 barrels of oil, 13,063 barrels of NGLs and 52,874 mcf of gas were sold, or 49,307 BOEs. In 1998, 30,005 barrels of oil, 12,796 barrels of NGLs and 58,036 mcf of gas were sold, or 52,474 BOEs.

The average price received per barrel of oil increased \$3.77, or 29%, from \$13.05 in 1998 to \$16.82 in 1999. The average price received per barrel of NGLs increased \$2.86, or 44%, from \$6.55 in 1998 to \$9.41 in 1999. The average price received per mcf of gas increased 8% from \$1.59 in 1998 to \$1.71 in 1999.

Gain on disposition of assets of \$20,924 during 1999 was from salvage value received on equipment from two wells plugged and abandoned during 1999. Abandoned property costs of \$20,129 were incurred during 1999 related to the plugging of these two wells.

Miscellaneous income of \$27,020 during 1998 consisted of the write-off of amounts previously recorded as accounts payable. These amounts were set aside until the Partnership reconciled payments for the initial capital contributions. Once these payments were reconciled, the liability was eliminated and the cash distributed to the partners.

Total costs and expenses decreased in 1999 to \$497,201 as compared to \$810,102 in 1998, a decrease of \$312,901, or 39%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by increases in abandoned property costs and G&A.

Production costs were \$333,765 in 1999 and \$357,125 in 1998, resulting in a \$23,360 decrease, or 7%. The decrease was due to declines in well maintenance costs and ad valorem taxes.

During this period, G&A increased 19% from \$17,041 in 1998 to \$20,244 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$13,954 in 1999 and \$13,315 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$176,587 related to its oil and gas properties during 1998.

Depletion was \$123,063 in 1999 compared to \$259,349 in 1998, representing a decrease of \$136,286, or 53%. This decrease was the result of an increase in proved reserves of 239,857 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$254,339 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$366,174 and a decline in abandoned property costs of \$20,129, offset by increases in production costs paid of \$61,543, G&A expenses paid of \$10,835 and working capital of \$59,586. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$510,519 to oil and gas receipts, offset by \$144,345 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from asset dispositions of \$15,201 received in 2000 were related to salvage income received on two wells plugged and abandoned during 1999. Proceeds from asset dispositions of \$17,049 received in 1999 were from equipment credits of \$10,226 received on two wells plugged and abandoned during 1999 and equipment credits of \$6,823 received on two active wells.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$591,830, of which \$5,918 was distributed to the managing general partner and \$585,912 to the limited partners. In 1999, cash distributions to the partners were \$258,205, of which \$2,582 was distributed to the managing general partner and \$255,623 to the limited partners.

PARKER & PARSLEY 88-A CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 88-A Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-A Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the aggregate historical limited partner distributions through July 31, 2001
- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

Going Concern Value per \$1,000 Limited Partner Investment (c), (d) \$

Liquidation Value per \$1,000 Limited Partner Investment (c), (e) \$

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f) \$

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

(f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

5

PARKER & PARSLEY 88-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 88-A Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 21% to \$226,051 for the six months ended June 30, 2001 as compared to \$187,130 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas

and NGLs and an increase in production, offset by lower average prices received for oil. For the six months ended June 30, 2001, 5,145 barrels of oil, 1,881 barrels of natural gas liquids ("NGLs") and 14,063 mcf of gas were sold, or 9,370 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 4,413 barrels of oil, 2,745 barrels of NGLs and 10,700 mcf of gas were sold, or 8,941 BOEs.

The average price received per barrel of oil decreased \$2.10, or 7%, from \$28.50 for the six months ended June 30, 2000 to \$26.40 for the same period in 2001. The average price received per barrel of NGLs increased \$2.38, or 17%, from \$13.81 during the six months ended June 30, 2000 to \$16.19 for the same period in 2001. The average price received per mcf of gas increased 94% from \$2.19 for the six months ended June 30, 2000 to \$4.25 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$76 was recognized during the six months ended June 30, 2000 resulting from equipment credits received on one fully depleted well.

#### Costs and Expenses:

Total costs and expenses increased to \$111,954 for the six months ended June 30, 2001 as compared to \$103,508 for the same period in 2000, an increase of \$8,446, or 8%. This increase was due to increases in depletion, production costs and general and administrative expenses ("G&A").

Production costs were \$86,072 for the six months ended June 30, 2001 and \$83,567 for the same period in 2000, resulting in a \$2,505 increase, or 3%. This increase was due to additional well maintenance costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices, offset by lower workover costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 21% from \$5,614 for the six months ended June 30, 2000 to \$6,782 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$19,100 for the six months ended June 30, 2001 as compared to \$14,327 for the same period in 2000, an increase of \$4,773, or 33%. This increase was due to a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices and an increase in oil production of 732 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 6% to \$92,519 for the three months ended June 30, 2001 as compared to \$98,008 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and a decrease in production, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 2,189 barrels of oil, 954 barrels of NGLs and 5,418 mcf of gas were sold, or 4,046 BOEs. For the three months ended June 30, 2000, 2,104 barrels of oil, 1,558 barrels of NGLs and 6,015 mcf of gas were sold, or 4,665 BOEs.

The average price received per barrel of oil decreased \$2.22, or 8%, from \$29.17 for the three months ended June 30, 2000 to \$26.95 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$.61, or 4%, from \$13.71 during the three months ended June 30, 2000 to \$14.32 for the same period in 2001. The average price received per mcf of gas increased 43% to \$3.65 during the three months ended June 30, 2001 from \$2.55 during the same period in 2000.

### Costs and Expenses:

Total costs and expenses increased to \$54,307 for the three months ended June 30, 2001 as compared to \$49,558 for the same period in 2000, an increase of \$4,749, or 10%. This increase was due to increases in depletion and production costs, offset by a decline in G&A.

Production costs were \$41,744 for the three months ended June 30, 2001 and \$39,806 for the same period in 2000 resulting in a \$1,938 increase, or 5%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production, offset by lower production taxes due to lower oil prices.

During this period, G&A decreased 6% from \$2,940 for the three months ended June 30, 2000 to \$2,776 for the same period in 2001, primarily due to a decrease in audit and tax fees.

Depletion was \$9,787 for the three months ended June 30, 2001 as compared to \$6,812 for the same period in 2000, an increase in depletion of \$2,975, or 44%. This increase was attributable to a decrease in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$55,654 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$38,858 and a

reduction in working capital of \$20,469, offset by increases in production costs of \$2,505 and G&A expenses of \$1,168. The increase in oil and gas receipts

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

resulted from increases in gas and NGL prices of \$28,568 and \$19,630 resulting from the increase in production during 2001 as compared to the same period in 2000, offset by a decrease of \$9,340 in oil prices during 2001. The increase in production costs was primarily due to additional well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices, offset by lower workover costs. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were related to expenditures for equipment upgrades on various oil and gas properties.

Proceeds of \$76 recognized during the six months ended June 30, 2000 were from equipment credits on one fully depleted well.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$79,705, of which \$797 was distributed to the managing general partner and \$78,908 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$107,828, of which \$1,078 was distributed to the managing general partner and \$106,750 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY 88-A CONV., L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-A Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-A Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-A Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-A Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

#### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$118,823 related to its proved oil and gas properties during 1998.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$78,614 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	
	-----	-----
Net income (loss) per statements of operations	\$ 219,454	\$
Depletion and depreciation amounts for tax reporting purposes less than provisions for financial reporting purposes	27,183	
Impairment of oil and gas properties for financial reporting purposes	-	
Other, net	(622)	
	-----	-----
Net income per Federal income tax returns	\$ 246,015	\$
	=====	=====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	
	-----	-----
Development costs	\$ 2,632	\$
	=====	=====

Capitalized oil and gas properties consist of the following:

	2000		1999
	-----		-----
Proved properties:			
Property acquisition costs	\$ 143,766	\$	143,766
Completed wells and equipment	2,821,220		2,818,588
	-----		-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Accumulated depletion	2,964,986 (2,502,477) -----	2,962,354 (2,471,979) -----
Net oil and gas properties	\$ 462,509 =====	\$ 490,375 =====

9

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 64,830	\$
Reimbursement of general and administrative expenses	\$ 10,947	\$

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-A, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer -----
Revenues:	
Proceeds from disposition of depreciable properties	9.09
All other revenues	24.24
Costs and expenses:	
Lease acquisition costs, drilling and completion costs and all other costs	9.09
Operating costs, direct costs and general and administrative expenses	24.24

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 50 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 88-A, L.P. is 22.674558% and 77.325442%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	245,336	365,36
Revisions	(90,082)	(90,31
Production	(16,899)	(25,36
	-----	-----
Net proved reserves at December 31, 1998	138,355	249,69
Revisions	118,130	203,39
Production	(17,052)	(27,41
	-----	-----
Net proved reserves at December 31, 1999	239,433	425,67
Revisions	3,043	(86,94
Production	(14,604)	(21,39
	-----	-----
Net proved reserves at December 31, 2000	227,872	317,33
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.95 per barrel of NGLs and \$7.75 per mcf of gas, discounted at 10% was approximately \$1,723,000 and undiscounted was \$3,515,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999
	-----	-----
Plains Marketing, L.P.	54%	50%
NGTS LLC	9%	10%
Genesis Crude Oil, L.P.	-	-
Western Gas Resources, Inc.	3%	6%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. was \$21,731, which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being

paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$3,793,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

PARKER & PARSLEY 88-A CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

2000 compared to 1999

The Partnership's oil and gas revenues increased 49% to \$418,514 for 2000 as compared to \$280,717 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 9,403 barrels of oil, 5,201 barrels of natural gas liquids ("NGLs") and 21,399 mcf of gas were sold, or 18,171 barrel of oil equivalents ("BOEs"). In 1999, 9,977 barrels of oil, 7,075 barrels of NGLs and 27,417 mcf of gas were sold, or 21,622 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.37, or 73%, from \$16.91 in 1999 to \$29.28 in 2000. The average price received per barrel of NGLs increased \$6.00, or 65%, from \$9.30 in 1999 to \$15.30 in 2000. The average price received per mcf of gas increased 77% from \$1.69 in 1999 to \$2.99 in 2000. The

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$76 was recognized in 2000 resulting from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$203,772 as compared to \$186,418 in 1999, an increase of \$17,354, or 9%. The increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$160,855 in 2000 and \$129,227 in 1999, resulting in a \$31,628 increase, or 24%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 47% from \$8,448 in 1999 to \$12,419 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$10,947 in 2000 and \$5,872 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$30,498 in 2000 as compared to \$48,743 in 1999, representing a decrease of \$18,245, or 37%. This decrease was primarily due to a 13,403 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

### 1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$280,717 from \$227,119 in 1998. The increase in revenues resulted from higher average prices received and an increase in production. In 1999, 9,977 barrels of oil, 7,075 barrels of NGLs and 27,417 mcf of gas were sold, or 21,622 BOEs. In 1998, 10,890 barrels of oil, 6,009 barrels of NGLs and 25,367 mcf of gas were sold, or 21,127 BOEs.

The average price received per barrel of oil increased \$3.32, or 24%, from \$13.59 in 1998 to \$16.91 in 1999. The average price received per barrel of NGLs increased \$2.73, or 42%, from \$6.57 in 1998 to \$9.30 in 1999. The average price received per mcf of gas increased 8% from \$1.56 in 1998 to \$1.69 in 1999.

A gain on disposition of assets of \$1,875 was recognized during 1998 for credits received from the disposal of oil and gas equipment on a fully depleted well.

Total costs and expenses decreased in 1999 to \$186,418 as compared to \$383,123 in 1998, a decrease of \$196,705, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$129,227 in 1999 and \$149,228 in 1998, resulting in a \$20,001 decrease, or 13%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 21% from \$6,995 in 1998 to \$8,448 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,872 in 1999 and \$5,659 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$118,823 related to its oil and gas properties during 1998.

Depletion was \$48,743 in 1999 compared to \$108,077 in 1998, representing a decrease of \$59,334, or 55%. This decrease was the result of an increase in proved reserves of 72,170 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum Industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$108,537 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$139,776 and a decline in working capital of \$4,360, offset by increases in production costs paid of \$31,628 and G&A expenses paid of \$3,971. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$203,232 to oil and gas receipts, offset by \$63,456 resulting from the decline in production during

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from asset dispositions of \$76 received during 2000 were due to equipment credits received on one fully depleted well.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$239,144, of which \$2,391 was distributed to the managing general partner and \$236,753 to the limited partners. In 1999, cash distributions to the partners were \$96,923, of which \$969 was distributed to the managing general partner and \$95,954 to the limited partners.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 88-A, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

This document contains the following information concerning Parker & Parsley 88-A, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000 as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 21% to \$770,951 for the six months ended June 30, 2001 as compared to \$638,135 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas and NGLs and an increase in production, offset by lower average prices received

7

for oil. For the six months ended June 30, 2001, 17,555 barrels of oil, 6,415 barrels of natural gas liquids ("NGLs") and 47,966 mcf of gas were sold, or 31,964 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 15,055 barrels of oil, 9,352 barrels of NGLs and 36,489 mcf of gas were sold, or 30,489 BOEs.

The average price received per barrel of oil decreased \$2.10, or 7%, from \$28.50 for the six months ended June 30, 2000 to \$26.40 for the same period in 2001. The average price received per barrel of NGLs increased \$2.38, or 17%, from \$13.81 during the six months ended June 30, 2000 to \$16.19 for the same period in 2001. The average price received per mcf of gas increased 94% from \$2.19 during the six months ended June 30, 2000 to \$4.25 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$259 was recognized during the six months ended June 30, 2000 resulting from equipment credits received on one fully depleted well.

#### Costs and Expenses:

Total costs and expenses increased to \$381,676 for the six months ended June 30, 2001 as compared to \$352,955 for the same period in 2000, an increase of \$28,721, or 8%. This increase was due to increases in depletion, production costs and general and administrative expenses ("G&A").

Production costs were \$293,527 for the six months ended June 30, 2001 and \$285,013 for the same period in 2000 resulting in an \$8,514 increase, or 3%. The

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

increase was the result of additional well maintenance costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices, offset by lower workover costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 21% from \$19,144 for the six months ended June 30, 2000 to \$23,128 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$65,021 for the six months ended June 30, 2001 as compared to \$48,798 for the same period in 2000, an increase of \$16,223, or 33%. This increase was due to a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices and an increase in oil production of 2,500 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

8

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 6% to \$315,590 for the three months ended June 30, 2001 as compared to \$334,067 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and a decrease in production, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 7,473 barrels of oil, 3,259 barrels of NGLs and 18,471 mcf of gas were sold, or 13,811 BOEs. For the three months ended June 30, 2000, 7,177 barrels of oil, 5,284 barrels of NGLs and 20,502 mcf of gas were sold, or 15,878 BOEs.

The average price received per barrel of oil decreased \$2.22, or 8%, from \$29.17 for the three months ended June 30, 2000 to \$26.95 for the same period in 2001. The average price received per barrel of NGLs increased \$.61, or 4%, from \$13.71 during the three months ended June 30, 2000 to \$14.32 for the same period in 2001. The average price received per mcf of gas increased 43% from \$2.55 during the three months ended June 30, 2000 to \$3.65 for the same period in 2001.

### Costs and Expenses:

Total costs and expenses increased to \$185,095 for the three months ended June 30, 2001 as compared to \$168,976 for the same period in 2000, an increase of \$16,119, or 10%. This increase was due to increases in depletion and production costs, offset by a decline in G&A.

Production costs were \$142,364 for the three months ended June 30, 2001 and \$135,737 for the same period in 2000 resulting in a \$6,627 increase, or 5%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production, offset by lower production taxes due to lower oil prices.

During this period, G&A decreased 6% from \$10,022 for the three months ended June 30, 2000 to \$9,467 for the same period in 2001, primarily due to a decrease in audit and tax fees.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Depletion was \$33,264 for the three months ended June 30, 2001 as compared to \$23,217 for the same period in 2000, an increase of \$10,047, or 43%. This increase was due to a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$173,528 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was primarily due to an increase of \$132,522 in oil and gas sales receipts and a reduction in working capital of \$53,504, offset by increases in production costs of \$8,514 and G&A expenses of \$3,984. The increase in oil and gas receipts resulted from increases in gas and NGL prices of \$97,373 and \$67,182 resulting from an increase in production during 2001 as compared to the same period in 2000, offset by a decrease of \$32,033 in oil prices during 2001.

9

The increase in production costs was primarily due to additional well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices, offset by lower workover costs. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$259 received during the six months ended June 30, 2000 were due to equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$271,814, of which \$2,718 was distributed to the managing general partner and \$269,096 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$367,722, of which \$3,677 was distributed to the managing general partner and \$364,045 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No

10

solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

No market currently exists for the limited partnership interests of the Registrant. Based on the original purchase price, the aggregate market value of limited partnership interests owned by non-affiliates of the Registrant is \$12,762,000.

As of March 8, 2001, the number of outstanding limited partnership interests was 12,935.

The following documents are incorporated by reference into the indicated parts of this Annual Report on Form 10-K: None  
PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 12,935 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segments other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 54% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and

ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located in the Spraberry Trend area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 40 oil and gas wells. At December 31, 2000, 39 wells were producing with one well plugged and abandoned.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 12,935 outstanding limited partnership interests held of record by 981 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations, are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$807,385 and \$327,220, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

4

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 49% to \$1,428,374 for 2000 as compared to \$957,278 in 1999. The increase in revenues resulted from higher average prices received, offset by a decrease in production. In 2000, 32,063 barrels of oil, 17,745 barrels of natural gas liquids ("NGLs") and 72,965 mcf of gas were sold, or 61,969 barrel of oil equivalents ("BOEs"). In 1999, 34,020

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

barrels of oil, 24,121 barrels of NGLs and 93,498 mcf of gas were sold, or 73,724 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.37, or 73%, from \$16.91 in 1999 to \$29.28 in 2000. The average price received per barrel of NGLs increased \$6.00, or 65%, from \$9.30 in 1999 to \$15.30 in 2000. The average price received per mcf of gas increased 77% from \$1.69 in 1999 to \$2.99 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$259 was recognized in 2000 resulting from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$695,576 as compared to \$635,628 in 1999, an increase of \$59,948, or 9%. The increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$548,561 in 2000 and \$440,670 in 1999, resulting in an increase of \$107,891, or 24%. The increase was primarily due to additional well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 50% from \$28,692 in 1999 to \$42,987 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$37,340 in 2000 and \$20,027 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$104,028 in 2000 as compared to \$166,266 in 1999, representing a decrease of \$62,238, or 37%. This decrease was primarily due to a 45,809 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$957,278 from \$774,533 in 1998.

The increase in revenues resulted from higher average prices received and an increase in production. In 1999, 34,020 barrels of oil, 24,121 barrels of NGLs and 93,498 mcf of gas were sold, or 73,724 BOEs. In 1998, 37,135 barrels of oil,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

20,500 barrels of NGLs and 86,501 mcf of gas were sold, or 72,052 BOEs.

The average price received per barrel of oil increased \$3.32, or 24%, from \$13.59 in 1998 to \$16.91 in 1999. The average price received per barrel of NGLs increased \$2.73, or 42%, from \$6.57 in 1998 to \$9.30 in 1999. The average price received per mcf of gas increased 8% from \$1.56 in 1998 to \$1.69 in 1999.

A gain on disposition of assets of \$6,393 was recognized in 1998 for credits received from the disposal of oil and gas equipment on a fully depleted well.

Total costs and expenses decreased in 1999 to \$635,628 as compared to \$1,306,368 in 1998, a decrease of \$670,740, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A expenses.

Production costs were \$440,670 in 1999 and \$508,919 in 1998, resulting in a \$68,249 decrease, or 13%. The decrease was due to reductions in well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 22% from \$23,611 in 1998 to \$28,692 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$20,027 in 1999 and \$19,297 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$405,308 related to its oil and gas properties during 1998.

Depletion was \$166,266 in 1999 compared to \$368,530 in 1998, representing a decrease of \$202,264, or 55%. This decrease was the result of an increase in proved reserves of 246,048 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but

to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$401,553 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$477,946 and a decline in working capital of \$45,793, offset by increases in production costs paid of \$107,891 and G&A expenses paid of \$14,295. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$694,183 to oil and gas receipts, offset by \$216,237 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$259 received in 2000 were due to equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$815,540, of which \$8,155 was distributed to the managing general partner and \$807,385 to the limited partners. In 1999, cash distributions to the partners were \$330,525, of which \$3,305 was distributed to the managing general partner and \$327,220 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$405,308 related to its proved oil and gas properties during 1998.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$267,761 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 749,290	\$ 331,033	\$ (514,812)
Depletion and depreciation for tax reporting purposes less than provisions for financial reporting purposes	92,722	154,558	357,942
Impairment of oil and gas properties for financial reporting purposes	-	-	405,308
Other, net	(2,176)	(2,693)	13,320
	-----	-----	-----
Net income per Federal income tax returns	\$ 839,836 =====	\$ 482,898 =====	\$ 261,758 =====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 8,973 =====	\$ 11,847 =====	\$ 17,362 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 490,279	\$ 490,279
Completed wells and equipment	9,621,002	9,612,029
	-----	-----
Accumulated depletion	10,111,281 (8,534,409)	10,102,308 (8,430,381)
	-----	-----
Net oil and gas properties	\$ 1,576,872 =====	\$ 1,671,927 =====

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 221,084	\$ 211,623	\$ 215,684
Reimbursement of general and administrative expenses	\$ 37,340	\$ 20,027	\$ 19,297

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-A Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)	Partnership
<b>Revenues:</b>		
Proceeds from disposition of depreciable properties	9.09091%	90.9090
All other revenues	24.242425%	75.75757
<b>Costs and expenses:</b>		
Lease acquisition costs, drilling and completion costs and all other costs	9.09091%	90.9090
Operating costs, direct costs and general and administrative expenses	24.242425%	75.75757

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 173 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 88-A Conv., L.P. is 77.325442% and 22.674558%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	836,39	1,245,602
Revisions	(307,084)	(307,863)
Production	(57,635)	(86,501)
	-----	-----
Net proved reserves at December 31, 1998	471,675	851,238
Revisions	402,731	693,436
Production	(58,141)	(93,498)
	-----	-----
Net proved reserves at December 31, 1999	816,265	1,451,176
Revisions	10,578	(296,099)
Production	(49,808)	(72,965)
	-----	-----
Net proved reserves at December 31, 2000	777,035	1,082,112
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.95 per barrel of NGLs and \$7.75 per mcf of gas, discounted at 10% was approximately \$5,875,000 and undiscounted was \$11,988,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

#### Disclosures about Oil & Gas Producing Activities

##### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended December 31

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	54%	50%	-
NGTS LLC	9%	10%	3%
Genesis Crude Oil, L.P.	-	-	55%
Western Gas Resources, Inc.	3%	6%	22%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$74,114, which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general

partner pays 1% of the Partnership's acquisition, drilling and completion

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$12,935,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name ----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Rich Dealy

34

Vice President and Chief Accounting  
Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

owned 173 limited partner interests at January 1, 2001.

### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

23

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 221,084	\$ 211,623	\$ 215,684
Reimbursement of general and administrative expenses	\$ 37,340	\$ 20,027	\$ 19,297

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31,  
2000, 1999 and 1998

Statements of partners' capital for the years ended December  
31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000,  
1999 and 1998

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the required information is in the financial statements or notes thereto, or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or incorporated by reference as part of this Report.

S I G N A T U R E S

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-----

This document contains important information specific to Parker & Parsley 88-B Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-B Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment	(c), (f)	\$

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-B Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich

### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

##### Revenues:

Six months ended June 30, 2001 compared with six months ended June 30, 2000

The Partnership's oil and gas revenues increased 4% to \$249,201 for the six months ended June 30, 2001 as compared to \$240,056 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

6

a decrease in production. For the six months ended June 30, 2001, 5,840 barrels of oil, 1,903 barrels of natural gas liquids ("NGLs") and 8,437 mcf of gas were sold, or 9,149 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 6,703 barrels of oil, 2,606 barrels of NGLs and 10,843 mcf of gas were sold, or 11,116 BOEs.

The average price received per barrel of oil increased \$1.33, or 5%, from \$26.91 for the six months ended June 30, 2000 to \$28.24 for the same period in 2001. The average price received per barrel of NGLs increased \$3.39, or 24%, from \$14.08 during the six months ended June 30, 2000 to \$17.47 for the same period in 2001. The average price received per mcf of gas increased 184% from \$2.12 during the six months ended June 30, 2000 to \$6.03 in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$3,190 was received during the six months ended June 30, 2001 due to the sale of equipment on one well plugged and abandoned during the current period. Abandoned property costs of \$4,159 were also incurred during the same period to plug and abandon this well. A gain of \$3,592 was recognized during the same period in 2000 from equipment credits received on one fully depleted well.

##### Costs and Expenses:

Total costs and expenses increased to \$119,898 for the six months ended June 30, 2001 as compared to \$104,878 for the same period in 2000, an increase of \$15,020, or 14%. This increase was due to increases in production costs, abandoned property costs and depletion, offset by a decline in general and administrative expenses ("G&A").

Production costs were \$94,594 for the six months ended June 30, 2001 and \$83,261 for the same period in 2000, resulting in an \$11,333 increase, or 14%. The increase was due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 13% from \$7,202 for the six months ended June 30, 2000 to \$6,230 for the same period in 2001. This decrease was due to a decline in audit and tax fees.

Depletion was \$14,915 for the six months ended June 30, 2001 as compared to \$14,415 for the same period in 2000, an increase of \$500, or 3%. This increase was due to a decrease in proved reserves during the period ended June 30, 2000 due to lower commodity prices, offset by a decrease in oil production of 863 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

7

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 5% to \$116,624 for the three months ended June 30, 2001 as compared to \$122,939 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and a decrease in production, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 3,097 barrels of oil, 963 barrels of NGLs and 4,937 mcf of gas were sold, or 4,883 BOEs. For the three months ended June 30, 2000, 3,357 barrels of oil, 1,285 barrels of NGLs and 5,144 mcf of gas were sold, or 5,499 BOEs.

The average price received per barrel of oil decreased \$.56, or 2%, from \$27.42 for the three months ended June 30, 2000 to \$26.86 for the same period in June 30, 2001. The average price received per barrel of NGLs increased \$1.22, or 9%, from \$13.81 during the three months ended June 30, 2000 to \$15.03 for the same period in 2001. The average price received per mcf of gas increased 50% to \$3.83 during the three months ended June 30, 2001 from \$2.55 during the same period in 2000.

Gain on disposition of assets of \$3,190 was received during the three months ended June 30, 2001 due to the sale of equipment on one well plugged and abandoned during the current period. Abandoned property costs of \$4,159 were also incurred during the same period to plug and abandon this well. A gain of \$3,592 was recognized during the same period in 2000 from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$67,856 for the three months ended June 30, 2001 as compared to \$56,624 for the same period in 2000, an increase of \$11,232, or 20%. This increase was due to increases in production costs, abandoned property costs and depletion, offset by a decline in G&A.

Production costs were \$52,202 for the three months ended June 30, 2001 and \$46,638 for the same period in 2000, resulting in a \$5,564 increase, or 12%. The increase was due to additional well maintenance and workover costs incurred to stimulate well production.

During this period, G&A decreased 18% from \$3,575 for the three months ended June 30, 2000 to \$2,916 for the same period in 2001 primarily due to a lower allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues and a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

decrease in audit and tax fees.

Depletion was \$8,579 for the three months ended June 30, 2001 as compared to \$6,411 for the same period in 2000, an increase of \$2,168, or 34%. This increase was attributable to a decrease in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decline in oil production of 260 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

8

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$31,028 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$9,049 and reductions of \$972 in G&A expenses and \$36,499 in working capital, offset by increases in production costs of \$11,333 and abandoned property costs of \$4,159. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$60,241 to oil and gas receipts, offset by \$51,192 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The decrease in G&A was due to a decline in audit and tax fees.

#### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were related to expenditures for equipment upgrades on various oil and gas properties.

Proceeds from disposition of assets of \$2,440 was recognized during the six months ended June 30, 2001. The gain was comprised of \$2,227 received from the sale of equipment on one well plugged and abandoned during the current period and \$213 from equipment credits received on two active wells. Proceeds of \$3,592 were received during the same period in 2000 from equipment credits on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$106,165, of which \$1,062 was distributed to the managing general partner and \$105,103 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$142,879, of which \$1,429 was distributed to the managing general partner and \$141,450 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge

9

with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 88-B Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-B Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-B Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

## NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-B Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$156,111 related to its proved oil and gas properties during 1998.

### NOTE 4. INCOME TAXES

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The financial statement basis of the Partnership's net assets and liabilities was \$30,771 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999
Net income (loss) per statements of operations	\$ 327,306	\$ 96,268
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	23,646	38,232
Impairment of oil and gas properties for financial reporting purposes	-	-
Other, net	(1,011)	3,526
	-----	-----
Net income per Federal income tax returns	\$ 349,941	\$ 138,026
	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999
Development costs	\$ 2,611	\$ 3,396
	=====	=====

Capitalized oil and gas properties consist of the following:

	2000
Proved properties:	
Property acquisition costs	\$ 173,265
Completed wells and equipment	2,650,764
	-----
Accumulated depletion	2,824,029 (2,424,313)
	-----
Net oil and gas properties	\$ 399,716
	=====

## NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	
	-----	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 64,694	\$ 63,771	\$
Reimbursement of general and administrative expenses	\$ 13,920	\$ 5,293	\$

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-B, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)
	-----
Revenues:	
Proceeds from disposition of depreciable properties	9.09091%
All other revenues	24.242425%
Costs and expenses:	
Lease acquisition costs, drilling and completion costs	9.09091%
Operating costs, direct costs and general and administrative expenses	24.242425%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 20 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 88-B, L.P. is 28.880064% and 71.119936%, respectively.

## NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls) -----
Net proved reserves at January 1, 1998	214,797
Revisions	(87,571)
Production	(17,610)
	-----
Net proved reserves at December 31, 1998	109,616
Revisions	152,579
Production	(16,986)
	-----
Net proved reserves at December 31, 1999	245,209
Revisions	46,611
Production	(18,572)
	-----
Net proved reserves at December 31, 2000	273,248 =====

10

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.59 per barrel of NGLs and \$7.85 per mcf of gas, discounted at 10% was approximately \$2,098,000 and undiscounted was \$4,398,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999
	-----	-----
Plains Marketing, L.P.	50%	44%
Genesis Crude Oil, L.P.	-	-
Western Gas Resources, Inc.	3%	5%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$25,238 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$3,636,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

PARKER & PARSLEY 88-B CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 84% to \$535,228 for 2000 as compared to \$291,390 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 13,209 barrels of oil, 5,363 barrels of natural gas liquids ("NGLs") and 21,781 mcf of gas were sold, or 22,202 barrel of oil equivalents ("BOEs"). In 1999, 11,400 barrels of oil, 5,586 barrels of NGLs and 23,221 mcf of gas were sold, or 20,856 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.12, or 71%, from \$17.17 in 1999 to \$29.29 in 2000. The average price received per barrel of NGLs increased \$5.99, or 60%, from \$10.03 in 1999 to \$16.02 in 2000. The average price received per mcf of gas increased 69% from \$1.70 in 1999 to \$2.87 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$7,186 was recognized during 2000. The gain was comprised of \$5,981 received from the sale of equipment on one well plugged and abandoned during the current period and \$1,205 from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$220,151 as compared to \$197,819 in 1999, an increase of \$22,332, or 11%. The increase was due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$174,071 in 2000 and \$146,805 in 1999, resulting in a \$27,266 increase, or 19%. The increase was primarily due to higher production

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 84% from \$8,615 in 1999 to \$15,875 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$13,920 in 2000 and \$5,293 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$27,450 in 2000 as compared to \$42,399 in 1999, representing a decrease of \$14,949, or 35%. This decrease was primarily due to a 35,962 barrels of oil increase in proved reserves during 2000 due to higher commodity prices, offset by an increase in oil production of 1,809 barrels for the period ended December 31, 2000 compared to the same period in 1999.

Abandoned property costs of \$2,755 were incurred during 2000 due to the plugging and abandonment of one well during

the current period.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$291,390 from \$234,942 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 11,400 barrels of oil, 5,586 barrels of NGLs and 23,221 mcf of gas were sold, or 20,856 BOEs. In 1998, 12,653 barrels of oil, 4,957 barrels of NGLs and 21,214 mcf of gas were sold, or 21,146 BOEs.

The average price received per barrel of oil increased \$3.93, or 30%, from \$13.24 in 1998 to \$17.17 in 1999. The average price received per barrel of NGLs increased \$3.12, or 45%, from \$6.91 in 1998 to \$10.03 in 1999. The average price received per mcf of gas increased 9% from \$1.56 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$197,819 as compared to \$436,801 in 1998, a decrease of \$238,982, or 55%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$146,805 in 1999 and \$158,704 in 1998, resulting in an \$11,899 decrease, or 7%. The decrease was due to declines in well maintenance costs, workover costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 21% from \$7,091 in 1998 to \$8,615 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,293 in 1999 and \$5,608 in 1998 for G&A incurred on behalf of the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$156,111 related to its oil and gas properties during 1998.

Depletion was \$42,399 in 1999 compared to \$114,895 in 1998, representing a decrease of \$72,496, or 63%. This decrease was the result of a combination of factors that included an increase in proved reserves of 100,955 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,253 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$191,512 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$246,184, offset by increases in production costs paid of \$27,266, G&A expenses paid of \$7,260 abandoned property costs paid of \$2,755 and working capital of \$17,391. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$200,923 to oil and gas receipts and an increase of \$45,261 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's principal investing activities during 2000 and 1999 were related to equipment upgrades on active properties.

Proceeds from disposition of assets of \$7,186 were recognized during 2000. The proceeds were comprised of \$5,981 received from the sale of equipment on one well plugged and abandoned during the current period and \$1,205 from equipment credits received on one active well. Proceeds of \$4,369 during 1999 were primarily related to equipment dispositions on one oil and gas well that is temporarily abandoned.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$319,176, of which \$3,192 was distributed to the managing general partner and \$315,984 to the limited partners. In 1999, cash distributions to the partners were \$106,208, of which \$1,062 was distributed to the managing general partner and \$105,146 to the limited partners.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 88-B, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-B, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the aggregate historical limited partner distributions through July 31, 2001
- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-B, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 4% to \$613,966 for the six months ended June 30, 2001 as compared to \$591,346 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the six months ended June 30, 2001, 14,397 barrels

7

of oil, 4,692 barrels of natural gas liquids ("NGLs") and 20,792 mcf of gas were sold, or 22,554 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 16,511 barrels of oil, 6,423 barrels of NGLs and 26,695 mcf of gas were sold, or 27,383 BOEs.

The average price received per barrel of oil increased \$1.33, or 5%, from \$26.91 for the six months ended June 30, 2000 to \$28.24 for the same period in 2001. The average price received per barrel of NGLs increased \$3.39, or 24%, from \$14.08 during the six months ended June 30, 2000 to \$17.47 for the same period in 2001. The average price received per mcf of gas increased 184% from \$2.12 during the six months ended June 30, 2000 to \$6.03 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$7,855 was received during the six months ended June 30, 2001 due to the sale of equipment on one well plugged and abandoned during the current period. Abandoned property costs of \$10,241 were also incurred during the same period to plug and abandon this well. A gain of \$8,845 was recognized during the same period in 2000 resulting from equipment credits received on one fully depleted well.

#### Costs and Expenses:

Total costs and expenses increased to \$295,374 for the six months ended June 30, 2001 as compared to \$258,310 for the same period in 2000, an increase of \$37,064, or 14%. This increase was due to increases in production costs, abandoned property costs and depletion, offset by a decline in general and administrative expenses ("G&A").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production costs were \$233,029 for the six months ended June 30, 2001 and \$205,053 for the same period in 2000 resulting in a \$27,976 increase, or 14%. This increase was primarily due to additional workover and well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 13% from \$17,740 for the six months ended June 30, 2000 to \$15,349 for the same period in 2001, primarily due to decreased audit and tax fees.

Depletion was \$36,755 for the six months ended June 30, 2001 as compared to \$35,517 for the same period in 2000, an increase of \$1,238, or 3%. This increase was primarily due to a reduction in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decrease in oil production of 2,114 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

8

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 5% to \$287,569 for the three months ended June 30, 2001 as compared to \$302,734 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and a decline in production, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 7,644 barrels of oil, 2,377 barrels of NGLs and 12,161 mcf of gas were sold, or 12,048 BOEs. For the three months ended June 30, 2000, 8,275 barrels of oil, 3,156 barrels of NGLs and 12,676 mcf of gas were sold, or 13,544 BOEs.

The average price received per barrel of oil decreased \$.56, or 2%, from \$27.42 for the three months ended June 30, 2000 to \$26.86 for the same period in 2001. The average price received per barrel of NGLs increased \$1.22, or 9%, from \$13.81 during the three months ended June 30, 2000 to \$15.03 for the same period in 2001. The average price received per mcf of gas increased 50% from \$2.55 during the three months ended June 30, 2000 to \$3.83 for the same period in 2001.

Gain on disposition of assets of \$7,855 was received during the three months ended June 30, 2001 due to the sale of equipment on one well plugged and abandoned during the current period. Abandoned property costs of \$10,241 were also incurred during the same period to plug and abandon this well. A gain of \$8,845 was recognized during the same period in 2000 resulting from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$167,195 for the three months ended June 30, 2001 as compared to \$139,453 for the same period in 2000, an increase of \$27,742, or 20%. This increase was due to increases in production costs, abandoned property costs and depletion, offset by a decline in G&A.

Production costs were \$128,587 for the three months ended June 30, 2001 and \$114,842 for the same period in 2000 resulting in a \$13,745 increase, or 12%. The increase was primarily due to additional workover and well maintenance costs

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

incurred to stimulate well production.

During this period, G&A decreased 18% from \$8,802 for the three months ended June 30, 2000 to \$7,189 for the same period in 2001 due to lower percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of a decline in oil and gas revenues and a decrease in audit and tax fees.

Depletion was \$21,178 for the three months ended June 30, 2001 as compared to \$15,809 for the same period in 2000, an increase of \$5,369, or 34%. This increase was primarily due to a reduction in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decline in oil production of 631 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

9

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$56,452 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was primarily due to an increase of \$22,357 in oil and gas sales receipts and reductions of \$2,391 in G&A expenses and \$69,921 in working capital, offset by increases in production costs of \$27,976 and abandoned property costs of \$10,241. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$147,904 to oil and gas receipts, offset by \$125,547 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional workover and well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The decrease in G&A was primarily due to decreased audit and tax fees.

#### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were for equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$6,010 was recognized during the six months ended June 30, 2001. The proceeds were comprised of \$5,485 received from the sale of equipment on one well plugged and abandoned during the current period and \$525 from equipment credits received on two active wells. Proceeds of \$8,845 recognized during the same period in 2000 were from equipment credits on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$261,441, of which \$2,614 was distributed to the managing general partner and \$258,827 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$351,856, of which \$3,519 was distributed to the managing general partner and \$348,337 to the limited partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge

10

with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

The following documents are incorporated by reference into the indicated parts of this Annual Report on Form 10-K: None

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

PART I

ITEM 1. BUSINESS

Parker & Parsley 88-B, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 8,954 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 50% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located in the Spraberry Trend area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 43 oil and gas wells. Two wells have been plugged and abandoned. At December 31, 2000, 41 wells were producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 8,954 outstanding limited partnership interests held of record by 690 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$778,145 and \$258,933, respectively,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000 -----	1999 -----	1998 -----	1997 -----	-----
Operating results:

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's oil and gas revenues increased 84% to \$1,318,092 for 2000 as compared to \$717,449 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 32,524 barrels of oil, 13,205 barrels of natural gas liquids ("NGLs") and 53,620 mcf of gas were sold, or 54,666 barrel of oil equivalents ("BOEs"). In 1999, 28,078 barrels of oil, 13,752 NGLs and 57,190 mcf of gas were sold, or 51,362 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.12, or 71%, from \$17.17 in 1999 to \$29.29 in 2000. The average price received per barrel of NGLs increased \$5.99, or 60%, from \$10.03 in 1999 to \$16.02 in 2000. The average price received per mcf of gas increased 69% from \$1.70 in 1999 to \$2.87 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$17,697 was recognized during 2000. The gain was comprised of \$14,729 received from the sale of equipment on one well plugged and abandoned during the current period and \$2,968 from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$542,703 as compared to \$487,566 in 1999, an increase of \$55,137, or 11%. The increase was due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$428,633 in 2000 and \$361,482 in 1999, resulting in an increase of \$67,151, or 19%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 83% from \$21,650 in 1999 to \$39,725 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$34,281 in 2000 and \$13,039 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$67,561 in 2000 as compared to \$104,434 in 1999, representing a decrease of \$36,873, or 35%. This decrease was primarily due to a 88,489 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 4,446 barrels for the period ended December 31, 2000 compared to the same period in 1999.

Abandoned property costs of \$6,784 incurred in 2000 were related to the plugging

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and abandonment of one well during the current year.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 24% to \$717,449 from \$578,573 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 28,078 barrels of oil, 13,752 barrels of NGLs and 57,190 mcf of gas were sold, or 51,362 BOEs. In 1998, 31,155 barrels of oil, 12,210 NGLs and 52,254 mcf of gas were sold, or 52,074 BOEs.

The average price received per barrel of oil increased \$3.93, or 30%, from \$13.24 in 1998 to \$17.17 in 1999. The average price received per barrel of NGLs increased \$3.12, or 45%, from \$6.91 in 1998 to \$10.03 in 1999. The average price received per mcf of gas increased 9% from \$1.56 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$487,566 as compared to \$1,075,163 in 1998, a decrease of \$587,597, or 55%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$361,482 in 1999 and \$390,835 in 1998, resulting in a \$29,353 decrease, or 8%. The decrease was primarily due to declines in well maintenance costs, workover costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 25% from \$17,315 in 1998 to \$21,650 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$13,039 in 1999 and \$13,810 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$383,951 related to its oil and gas properties during 1998.

Depletion was \$104,434 in 1999 compared to \$283,062 in 1998. This represented a decrease of \$178,628, or 63%. This decrease was the result of a combination of factors that included an increase in proved reserves of 248,642 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 3,077 barrels for the period ended

6

December 31, 1999 compared to the same period in 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$512,129 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$606,337, offset by increases in production costs paid of \$67,151, G&A expenses paid of \$18,075, abandoned property costs paid of \$6,784 and working capital of \$2,198. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$495,153 to oil and gas receipts and an increase of \$111,184 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to the upgrades of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$17,697 were recognized during 2000. The proceeds were comprised of \$14,729 received from the sale of equipment on one well plugged and abandoned during the current period and \$2,968 from equipment credits received on active wells. Proceeds of \$10,758 recognized during 1999 were related to equipment disposals on one temporarily abandoned oil and gas well.

#### Net Cash Used in Financing Activities

7

In 2000, cash distributions to the partners were \$786,005, of which \$7,860 was distributed to the managing general partner and \$778,145 to the limited partners. In 1999, cash distributions to the partners were \$261,548, of which \$2,615 was distributed to the managing general partner and \$258,933 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-B, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The accompanying notes are an integral part of these financial statements.

14

PARKER & PARSLEY 88-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-B, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the

15

respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$383,951 related to

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

its proved oil and gas properties during 1998.

16

NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$77,883 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 805,539	\$236,642	\$ (488,631)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	58,194	94,173	274,063
Impairment of oil and gas properties for financial reporting purposes	-	-	383,951
Other	(2,494)	8,701	1,161
	-----	-----	-----
Net income per Federal income tax returns	\$ 861,239 =====	\$339,516 =====	\$ 170,544 =====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 6,430 =====	\$ 8,363 =====	\$ 15,067 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 426,682	\$ 439,249

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Completed wells and equipment	6,527,863	6,689,822
	-----	-----
Accumulated depletion	6,954,545 (5,969,972)	7,129,071 (6,083,367)
	-----	-----
Net oil and gas properties	\$ 984,573	\$ 1,045,704
	=====	=====

17

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$159,314	\$157,042	\$150,985
Reimbursement of general and administrative expenses	\$ 34,281	\$ 13,039	\$ 13,810

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-B Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)	Partnership
	-----	-----
Revenues:		
Proceeds from disposition of depreciable properties	9.09091%	90.90909
All other revenues	24.242425%	75.757575
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.09091%	90.90909
Operating costs, direct costs and general and administrative expenses	24.242425%	75.757575

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 94 limited partner interests owned by Pioneer USA.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (2) The allocation between the Partnership and Parker & Parsley 88-B Conv., L.P. is 71.119936% and 28.880064%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

18

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	528,956	612,323
Revisions	(215,651)	(183,598)
Production	(43,365)	(52,254)
	-----	-----
Net proved reserves at December 31, 1998	269,940	376,471
Revisions	375,777	553,985
Production	(41,830)	(57,190)
	-----	-----
Net proved reserves at December 31, 1999	603,887	873,266
Revisions	114,704	59,721
Production	(45,729)	(53,620)
	-----	-----
Net proved reserves at December 31, 2000	672,862	879,367
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.59 per barrel of NGLs and \$7.85 per mcf of gas, discounted at 10% was approximately \$5,167,000 and undiscounted was \$10,831,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	50%	44%	-
Genesis Crude Oil, L.P.	-	-	49%
Western Gas Resources, Inc.	3%	5%	17%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$62,153 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

**Managing general partner** - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

**Limited partner liability** - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

**Initial capital contributions** - The limited partners entered into subscription agreements for aggregate capital contributions of \$8,954,000. Pioneer USA is required to contribute amounts equal to 1% of initial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

21

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name ----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 25% of its operating and general and administrative expenses. In return, Pioneer USA is allocated approximately 25% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 94 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

24

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreement	\$159,314	\$ 157,042	\$150,985
Reimbursement of general and administrative expenses	\$34,281	\$ 13,039	\$ 13,810

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

25

### PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000, 1999 and 1998

Statements of partners' capital for the years ended December 31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000, 1999 and 1998

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the required information is in the financial statements or notes thereto, or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or incorporated by reference as part of this Report.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 88-C Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-C Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-1-

PARKER & PARSLEY 88-C CONV., L.P.

SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as any value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-C Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 8% to \$215,104 for the six months ended June 30, 2001 as compared to \$198,755 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

6

a decline in production. For the six months ended June 30, 2001, 4,777 barrels of oil, 1,958 barrels of natural gas liquids ("NGLs") and 8,160 mcf of gas were sold, or 8,095 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 5,355 barrels of oil, 2,398 barrels of NGLs and 9,952 mcf of gas were sold, or 9,412 BOEs.

The average price received per barrel of oil increased \$1.44, or 5%, from \$26.96 for the six months ended June 30, 2000 to \$28.40 for the same period in 2001. The average price received per barrel of NGLs increased \$3.13, or 22%, from \$13.94 during the six months ended June 30, 2000 to \$17.07 for the same period in 2001. The average price received per mcf of gas increased 169% from \$2.10 during the six months ended June 30, 2000 to \$5.64 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$2,508 and \$2,824 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to salvage income received on one well plugged and abandoned during the current period. The gain recognized during the period ended June 30, 2000 resulted from equipment credits received on one fully depleted well.

#### Costs and Expenses:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased to \$106,355 for the six months ended June 30, 2001 as compared to \$92,336 for the same period in 2000, an increase of \$14,019, or 15%. The increase was due to increases in production costs, general and administrative expenses ("G&A"), depletion and abandoned property costs.

Production costs were \$82,788 for the six months ended June 30, 2001 and \$73,398 for the same period in 2000 resulting in a \$9,390 increase, or 13%. The increase was due to additional workover and well maintenance costs incurred to stimulate well production and increased production taxes due to higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel costs. During this period, G&A increased 12%, from \$5,963 for the six months ended June 30, 2000 to \$6,678 for the same period in 2001, primarily due to increased audit and tax fees.

Depletion was \$13,659 for the six months ended June 30, 2001 as compared to \$12,975 for the same period in 2000, an increase of \$684, or 5%. This increase was due to a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 578 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Abandoned property costs of \$3,230 were incurred for the six months ended June 30, 2001 to plug and abandon one well.

7

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased slightly to \$102,918 for the three months ended June 30, 2001 as compared to \$103,726 for the same period in 2000. The decrease in revenues resulted from a decline in production and lower average prices received for oil, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 2,619 barrels of oil, 1,005 barrels of NGLs and 4,630 mcf of gas were sold, or 4,396 BOEs. For the three months ended June 30, 2000, 2,662 barrels of oil, 1,276 barrels of NGLs and 5,183 mcf of gas were sold, or 4,802 BOEs.

The average price received per barrel of oil decreased \$.58, or 2%, from \$27.57 for the three months ended June 30, 2000 to \$26.99 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$1.16, or 8%, from \$13.67 during the three months ended June 30, 2000 to \$14.83 for the same period in 2001. The average price received per mcf of gas increased 51% to \$3.74 during the three months ended June 30, 2001 from \$2.47 during the same period in 2000.

Gains on disposition of assets of \$2,508 and \$2,824 were recognized during the three months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to salvage income received on one well plugged and abandoned during the current period. The gain recognized during the period ended June 30, 2000 resulted from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$60,999 for the three months ended June

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

30, 2001 as compared to \$48,457 for the same period in 2000, an increase of \$12,542, or 26%. This increase was due to increases in production costs, depletion and abandoned property costs, offset by a decline in G&A.

Production costs were \$47,040 for the three months ended June 30, 2001 and \$39,337 for the same period in 2000, resulting in a \$7,703 increase, or 20%. The increase was due to additional workover and well maintenance costs incurred to stimulate well production.

During this period, G&A decreased 6%, from \$3,112 for the three months ended June 30, 2000 to \$2,912 for the same period in 2001, primarily due to a decline in audit and tax fees.

Depletion was \$7,817 for the three months ended June 30, 2001 as compared to \$6,008 for the same period in 2000, an increase of \$1,809, or 30%. This increase was attributable to a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 43 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

8

Abandoned property costs of \$3,230 were incurred for the three months ended June 30, 2001 to plug and abandon one well.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$33,008 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$16,300 and a reduction in working capital of \$30,043, offset by increases in production costs of \$9,390, G&A expenses of \$715 and abandoned property costs of \$3,230. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$50,373 to oil and gas receipts, offset by \$34,073 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional workover and well maintenance costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to increased audit and tax fees.

#### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on various oil and gas properties.

Proceeds of \$1,918 and \$2,824 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to salvage income received on one well plugged and abandoned during the current period. The gain recognized during the period ended June 30, 2000 resulted from equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

For the six months ended June 30, 2001, cash distributions to the partners were \$85,826, of which \$858 was distributed to the managing general partner and \$84,968 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$119,650, of which \$1,197 was distributed to the managing general partner and \$118,453 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and

9

46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

- (1) "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

PARKER & PARSLEY 88-C CONV., L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-C Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-C Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-C Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Parker & Parsley 88-C Conv., L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$119,715 related to its proved oil and gas properties during 1998.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$35,215 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	-----
Net income (loss) per statements of operations	\$ 261,490	\$ 69,459	\$ (1
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	21,929	37,157	
Impairment of oil and gas properties for financial reporting purposes	-	-	1
Other, net	(822)	3,106	
	-----	-----	-----
Net income per Federal income tax returns	\$ 282,597 =====	\$ 109,722 =====	\$ =====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 2,067 =====	\$ 3,851 =====	\$ 5,337 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 124,434	\$ 128,446
Completed wells and equipment	2,333,684	2,385,378
	-----	-----
	2,458,118	2,513,824
Accumulated depletion	(2,078,258)	(2,110,906)
	-----	-----
Net oil and gas properties	\$ 379,860 =====	\$ 402,918 =====

NOTE 6. RELATED PARTY TRANSACTIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 58,509	\$ 56,225	\$ 56,225
Reimbursement of general and administrative expenses	\$ 9,514	\$ 1,096	\$ 1,096

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-C, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1) -----	Partnerships (2) -----
<b>Revenues:</b>		
Proceeds from disposition of depreciable properties	9.09091%	90.90909%
All other revenues	24.242425%	75.757575%
<b>Costs and expenses:</b>		
Lease acquisition costs, drilling and completion costs and all other costs	9.09091%	90.90909%
Operating costs, direct costs and general and administrative expenses	24.242425%	75.757575%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and ten limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 88-C, L.P. is 58.387538% and 41.612462%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	181,762	227,096
Revisions	(75,078)	(70,056)
Production	(14,859)	(19,764)
	-----	-----
Net proved reserves at December 31, 1998	91,825	137,276
Revisions	124,253	193,483
Production	(14,136)	(21,119)
	-----	-----
Net proved reserves at December 31, 1999	201,942	309,640
Revisions	35,970	23,002
Production	(15,453)	(19,618)
	-----	-----
Net proved reserves at December 31, 2000	222,459	313,024
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.56 per barrel of NGLs and \$7.78 per mcf of gas, discounted at 10% was approximately \$1,724,000 and undiscounted was approximately \$3,597,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended	
	2000	1999
	(in thousand)	
Oil and gas producing activities:		
Future cash inflows	\$ 7,379	\$ 5,029

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Plains Marketing, L.P.	52%	46%	-
Genesis Crude Oil, L.P.	-	-	51%
Western Gas Resources, Inc.	4%	6%	21%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$21,565 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's

12

revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$3,411,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

PARKER & PARSLEY 88-C CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 80% to \$443,642 for 2000 as compared to \$246,242 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 10,646 barrels of oil, 4,807 barrels of natural gas liquids ("NGLs") and 19,618 mcf of gas were sold, or 18,723 barrel of oil equivalents ("BOEs"). In 1999, 9,260 barrels of oil, 4,876 barrels of NGLs and 21,119 mcf of gas were sold, or 17,656 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.09, or 70%, from \$17.24 in 1999 to \$29.33 in 2000. The average price received per barrel of NGLs increased \$5.41, or 52%, from \$10.42 in 1999 to \$15.83 in 2000. The average price received per mcf of gas increased 66% from \$1.70 in 1999 to \$2.82 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$5,650 recognized in 2000 was due to equipment credits received from salvage income of \$4,703 on one well plugged and abandoned during the current year and \$947 on one fully depleted well.

Total costs and expenses increased in 2000 to \$192,070 as compared to \$178,895 in 1999, an increase of \$13,175, or 7%. The increase was primarily due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$151,650 in 2000 and \$131,165 in 1999, resulting in a \$20,485 increase, or 16%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

Abandoned property costs of \$2,166 during 2000 were related to the plugging and abandonment of one well during the current year.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 82% from \$7,217 in 1999 to \$13,129 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

paid the managing general partner \$9,514 in 2000 and \$1,096 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$25,125 in 2000 as compared to \$40,513 in 1999, representing a decrease of \$15,388, or 38%. This decrease was primarily due to a 26,409 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 1,386 barrels for the period ended December 31, 2000 compared to the same period in 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$246,242 from \$200,460 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 9,260 barrels of oil, 4,876 barrels of NGLs and 21,119 mcf of gas were sold, or 17,656 BOEs. In 1998, 10,457 barrels of oil, 4,402 barrels of NGLs and 19,764 mcf of gas were sold, or 18,153 BOEs.

The average price received per barrel of oil increased \$3.94, or 30%, from \$13.30 in 1998 to \$17.24 in 1999. The average price received per barrel of NGLs increased \$3.48, or 50%, from \$6.94 in 1998 to \$10.42 in 1999. The average price received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

A gain on disposition of assets of \$2,175 was recognized during 1998 from equipment credits on a well plugged and abandoned in 1997.

Total costs and expenses decreased in 1999 to \$178,895 as compared to \$366,001 in 1998, a decrease of \$187,106, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$131,165 in 1999 and \$142,438 in 1998, resulting in an \$11,273 decrease, or 8%. The decrease was due to declines in well maintenance costs, workover expenses and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 20% from \$5,997 in 1998 to \$7,217 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$1,096 in 1999 and \$2,651 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$119,715 related to its oil and gas properties during 1998.

Depletion was \$40,513 in 1999 compared to \$97,851 in 1998, representing a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

decrease of \$57,338, or 59%. This decrease was the result of a combination of factors that included an increase in proved reserves of 79,930 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,197 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$155,222 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$199,556, offset by increases in production costs paid of \$20,485, G&A expenses paid of \$5,912, abandoned property costs paid of \$2,166 and working capital of \$15,771. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$164,214 to oil and gas receipts and an increase of \$35,342 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from disposition of assets of \$5,650 recognized in 2000 was due to equipment credits received from salvage income of \$4,703 on one well plugged and abandoned during the current year and \$947 on one fully depleted well. Proceeds from disposition of assets of \$3,435 during 1999 were received from equipment credits on active wells.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Net Cash Used in Financing Activities

For 2000, cash distributions to the partners were \$260,376, of which \$2,604 was distributed to the managing general partner and \$257,772 to the limited partners. In 1999, cash distributions to the partners were \$74,621, of which \$746 was distributed to the managing general partner and \$73,875 to the limited partners.

## SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 88-C, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 88-C, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 88-C, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

2001 and as of December 31, 2000

- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 88-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 88-C, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 8% to \$153,108 for the six months ended June 30, 2001 as compared to \$141,499 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the six months ended June 30, 2001, 3,403 barrels

6

of oil, 1,389 barrels of natural gas liquids ("NGLs") and 5,811 mcf of gas were sold, or 5,761 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 3,814 barrels of oil, 1,706 barrels of NGLs and 7,086 mcf of gas were sold, or 6,701 BOEs.

The average price received per barrel of oil increased \$1.44, or 5%, from \$26.96 for the six months ended June 30, 2000 to \$28.40 for the same period in 2001. The average price received per barrel of NGLs increased \$3.13, or 22%, from \$13.94 during the six months ended June 30, 2000 to \$17.07 for the same period in 2001. The average price received per mcf of gas increased 169% from \$2.10 during the six months ended June 30, 2000 to \$5.64 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$1,788 and \$2,013 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to salvage income received on one

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

well plugged and abandoned during the current period. The gain recognized during the period ended June 30, 2000 was due to equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$75,726 for the six months ended June 30, 2001 as compared to \$65,802 for the same period in 2000, an increase of \$9,924, or 15%. This increase was due to increases in production costs, general and administrative expenses ("G&A"), depletion and abandoned property costs.

Production costs were \$58,961 for the six months ended June 30, 2001 and \$52,306 for the same period in 2000 resulting in a \$6,655 increase, or 13%. The increase was due to additional workover and well maintenance costs incurred to stimulate well production and increased production taxes due to higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 12%, from \$4,245 for the six months ended June 30, 2000 to \$4,753 for the same period in 2001, primarily due to increased audit and tax fees.

Depletion was \$9,682 for the six months ended June 30, 2001 as compared to \$9,251 for the same period in 2000, an increase of \$431, or 5%. This increase was due to a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 411 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Abandoned property costs of \$2,330 were incurred for the six months ended June 30, 2001 to plug and abandon one well.

7

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased slightly to \$73,295 for the three months ended June 30, 2001 as compared to \$73,472 for the same period in 2000. The decrease in revenues resulted from a decline in production and lower average prices received for oil, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 1,866 barrels of oil, 716 barrels of NGLs and 3,294 mcf of gas were sold, or 3,131 BOEs. For the three months ended June 30, 2000, 1,884 barrels of oil, 907 barrels of NGLs and 3,694 mcf of gas were sold, or 3,407 BOEs.

The average price received per barrel of oil decreased \$.58, or 2%, from \$27.57 for the three months ended June 30, 2000 to \$26.99 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$1.16, or 8%, from \$13.67 during the three months ended June 30, 2000 to \$14.83 for the same period in 2001. The average price received per mcf of gas increased 51% to \$3.74 during the three months ended June 30, 2001 from \$2.47 during the same period in 2000.

Gains on disposition of assets of \$1,788 and \$2,013 were recognized during the three months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to salvage income received on one well plugged and abandoned during the current period. The gain recognized during

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the period ended June 30, 2000 was due to equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$43,712 for the three months ended June 30, 2001 as compared to \$34,488 for the same period in 2000, an increase of \$9,224, or 27%. This increase was due to increases in production costs, G&A, depletion and abandoned property costs.

Production costs were \$33,489 for the three months ended June 30, 2001 and \$28,016 for the same period in 2000, resulting in a \$5,473 increase, or 20%. The increase was due to additional workover and well maintenance costs incurred to stimulate well production.

During this period, G&A increased 7%, from \$2,204 for the three months ended June 30, 2000 to \$2,359 for the same period in 2001, primarily due to increased audit and tax fees.

Depletion was \$5,534 for the three months ended June 30, 2001 as compared to \$4,268 for the same period in 2000, an increase of \$1,266, or 30%. This increase was attributable to a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 18 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

8

Abandoned property costs of \$2,330 were incurred for the three months ended June 30, 2001 to plug and abandon one well.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$23,468 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$11,468 and a reduction in working capital of \$21,493, offset by increases in production costs of \$6,655, G&A expenses of \$508 and abandoned property costs of \$2,330. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$35,738 to oil and gas receipts, offset by \$24,270 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional workover and well maintenance costs incurred to stimulate well production and increased production taxes due to higher oil and gas prices. The increase in G&A was primarily due to increased audit and tax fees.

#### Net Cash Provided by Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on various oil and gas properties.

Proceeds from asset dispositions of \$1,367 and \$2,013 were recognized during the six months ended June 30, 2001 and 2000, respectively. The proceeds recognized during 2001 were due to salvage income received on a well plugged and abandoned

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

during the current year. The proceeds recognized during 2000 were due to equipment credits received on one fully depleted well.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$61,168, of which \$612 was distributed to the managing general partner and \$60,556 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$85,274, of which \$853 was distributed to the managing general partner and \$84,421 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the

9

agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY 88-C, L.P.  
(A Delaware Limited Partnership)

### FINANCIAL STATEMENTS WITH INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

### INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 88-C, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 88-C, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 88-C, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 88-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 88-C, L.P. (the "Partnership") is a limited partnership

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

**Oil and gas properties** - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

**Impairment of long-lived assets** - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

**Use of estimates in the preparation of financial statements** - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

**Net income (loss) per limited partnership interest** - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

**Income taxes** - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the

7

respective partners.

**Statements of cash flows** - For purposes of reporting cash flows, cash includes depository accounts held by banks.

**General and administrative expenses** - General and administrative expenses are allocated in part to the Partnership by the managing general

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$85,160 related to its proved oil and gas properties during 1998.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$24,633 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 185,992	\$ 49,060	\$ (114,54
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	15,635	26,451	67,89
Impairment of oil and gas properties for financial reporting purposes	--	--	85,16
Other, net	(560)	2,209	(3,30
	-----	-----	-----
Net income per Federal income tax returns	\$ 201,067 =====	\$ 77,720 =====	\$ 35,20 =====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	-----
Development costs	\$ 1,473 =====	\$ =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 88,684	\$ 91,543
Completed wells and equipment	1,663,203	1,700,045
	-----	-----
Accumulated depletion	1,751,887 (1,481,594)	1,791,588 (1,504,855)
	-----	-----
Net oil and gas properties	\$ 270,293 =====	\$ 286,733 =====

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$41,699	\$40,071	\$39,194
Reimbursement of general and administrative expenses	\$ 6,776	\$ 782	\$ 1,889

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, Parker & Parsley 88-C Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA(1)	Partnerships (2)
Revenues:		
Proceeds from disposition of depreciable properties	9.09091%	90.90909%
All other revenues	24.242425%	75.757575%
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.09091%	90.90909%
Operating costs, direct costs and general and administrative expenses	24.242425%	75.757575%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and five limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 88-C Conv., L.P. is 41.612462% and 58.387538%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	129,544	161,856
Revisions	(53,503)	(49,926)
Production	(10,596)	(14,091)
	-----	-----
Net proved reserves at December 31, 1998	65,445	97,839
Revisions	88,560	137,904
Production	(10,071)	(15,049)
	-----	-----
Net proved reserves at December 31, 1999	143,934	220,694
Revisions	25,631	16,368
Production	(11,023)	(13,979)
	-----	-----
Net proved reserves at December 31, 2000	158,542	223,083
	=====	=====

As of December 31, 2000 the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.56 per barrel of NGLs and \$7.78 per mcf of gas, discounted at 10% was approximately \$1,229,000 and undiscounted was \$2,564,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	=====	=====	=====

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000 -----	1999 -----	19 -----
Plains Marketing, L.P.	52%	45%	
Genesis Crude Oil, L.P.	-	-	
Western Gas Resources, Inc.	4%	6%	

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$15,388 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's

12

revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$2,431,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

### PARKER & PARSLEY 88-C, L.P. (A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

##### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 80% to \$316,382 for 2000 as compared to \$175,483 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 7,593 barrels of oil, 3,430 barrels of natural gas liquids ("NGLs") and 13,979 mcf of gas were sold, or 13,353 barrel of oil equivalents ("BOEs"). In 1999, 6,595 barrels of oil, 3,476 barrels of NGLs and 15,049 mcf of gas were sold, or 12,579 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.09, or 70%, from \$17.24 in 1999 to \$29.33 in 2000. The average price received per barrel of NGLs increased \$5.41, or 52%, from \$10.42 in 1999 to \$15.83 in 2000. The average price received per mcf of gas increased 66% from \$1.70 in 1999 to \$2.82 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$4,027 recognized in 2000 was due to salvage income from equipment credits of \$3,352 on one well plugged and abandoned during the current year and \$675 on one fully depleted well.

Total costs and expenses increased in 2000 to \$137,222 as compared to \$127,758 in 1999, an increase of \$9,464, or 7%. The increase was primarily due to increases in production costs, general and administrative expenses ("G&A") and abandoned property costs, offset by a decline in depletion.

Production costs were \$108,093 in 2000 and \$93,481 in 1999, resulting in a \$14,612, or 16%, increase. The increase was primarily due to higher production

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

taxes associated with higher oil and gas prices, additional well maintenance and workover costs incurred to stimulate well production.

Abandoned property costs of \$1,544 during 2000 were related to the plugging and abandonment of one well during the current year.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 78% from \$5,434 in 1999 to \$9,672 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$6,776 in 2000 and \$782 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

2000 as compared to \$28,843 in 1999, representing a decrease of \$10,930, or 38%. This decrease was primarily due to a 18,820 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 998 barrels for the period ended December 31, 2000 compared to the same period in 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$175,483 from \$142,874 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 6,595 barrels of oil, 3,476 barrels of NGLs and 15,049 mcf of gas were sold, or 12,579 BOEs. In 1998, 7,453 barrels of oil, 3,143 barrels of NGLs and 14,091 mcf of gas were sold, or 12,945 BOEs.

The average price received per barrel of oil increased \$3.94, or 30%, from \$13.30 in 1998 to \$17.24 in 1999. The average price received per barrel of NGLs increased \$3.48, or 50%, from \$6.94 in 1998 to \$10.42 in 1999. The average price received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

A gain on disposition of assets of \$1,550 was recognized during 1998 from equipment credits on a well plugged and abandoned in 1997.

Total costs and expenses decreased in 1999 to \$127,758 as compared to \$260,912 in 1998, a decrease of \$133,154, or 51%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$93,481 in 1999 and \$101,514 in 1998, resulting in an \$8,033, or 8%, decrease. The decrease was due to declines in well maintenance costs, workover expenses and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 26% from \$4,303 in 1998 to \$5,434 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas revenues. The Partnership paid the managing general partner \$782 in 1999 and \$1,889 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$85,160 related to its oil and gas properties during 1998.

Depletion was \$28,843 in 1999 compared to \$69,935 in 1998, representing a decrease of \$41,092, or 59%. This decrease was the result of a combination of factors that included an increase in proved reserves of 56,967 barrels of oil during 1999 due to higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 858 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$110,523 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$142,369, offset by increases in production costs paid of \$14,612, G&A expenses paid of \$4,238, abandoned property costs paid of \$1,544 and working capital of \$11,452. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$116,842 to oil and gas receipts and an increase of \$25,527 resulting from an increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds from disposition of assets of \$4,027 during 2000 were due to salvage income from equipment credits of \$3,352 on one well plugged and abandoned during the current year and \$675 on one fully depleted well. Proceeds from disposition of assets of \$2,448 during 1999 were from equipment credits on active wells.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$185,568, of which \$1,856 was distributed to the managing general partner and \$183,712 to the limited partners. In 1999, cash distributions to the partners were \$53,182, of which \$532 was distributed to the managing general partner and \$52,650 to the limited partners.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----  
THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001  
-----

This document contains important information specific to Parker & Parsley Producing Properties 88-A, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Producing Properties 88-A, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners (a)

Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a), (b)

Merger Value per \$1,000 Limited Partner Investment (b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001 (c)

-- as of December 31, 2000 (c)

Going Concern Value per \$1,000 Limited Partner Investment (c), (d)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Liquidation Value per \$1,000 Limited Partner Investment (c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (f)

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (B) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Not applicable. Since this partnership purchased producing properties, there were no intangible drilling and development costs nor any related write-off for tax purposes.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

Although not required by the partnership agreement for the partnership, special legal counsel will render an opinion on behalf of the limited partners to Pioneer USA that (1) neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners; and (2) neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion will be submitted for approval by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP, of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

### PARKER & PARSLEY PRODUCING PROPERTIES 88-A, L.P. (A Delaware Limited Partnership)

#### NOTES TO FINANCIAL STATEMENTS June 30, 2001 (Unaudited)

##### Note 1. Organization and nature of operations

Parker & Parsley Producing Properties 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

##### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

##### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

##### Results of Operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Six months ended June 30, 2001 compared with six months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 1% to \$350,012 for the six months ended June 30, 2001 as compared to \$346,895 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas and NGLs, offset by a decline in production and lower average prices received for oil. For the six months ended June 30, 2001, 8,258 barrels of oil, 3,840

7

barrels of natural gas liquids ("NGLs") and 16,169 mcf of gas were sold, or 14,793 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 8,488 barrels of oil, 5,238 barrels of NGLs and 20,402 mcf of gas were sold, or 17,126 BOEs.

The average price received per barrel of oil decreased \$.53, or 2%, from \$27.71 for the six months ended June 30, 2000 to \$27.18 for the same period in 2001. The average price received per barrel of NGLs increased \$.47, or 3%, from \$13.93 during the six months ended June 30, 2000 to \$14.40 for the same period in 2001. The average price received per mcf of gas increased 129% from \$1.90 during the six months ended June 30, 2000 to \$4.35 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$6,447 and \$9,859 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the six months ended June 30, 2001 resulted from equipment credits received on one well that was plugged and abandoned during the current period. Expenses incurred during the six months ended June 30, 2001 to plug this well were \$10,766. The gain recognized during the six months ended June 30, 2000 resulted from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses decreased to \$185,128 for the six months ended June 30, 2001 as compared to \$239,607 for the same period in 2000, a decrease of \$54,479, or 23%. This decrease was primarily due to a decline in production costs, offset by increases in abandoned property costs, depletion and general and administrative expenses ("G&A").

Production costs were \$127,329 for the six months ended June 30, 2001 and \$199,253 for the same period in 2000, resulting in a decrease of \$71,924, or 36%. This decrease was primarily due to lower workover and well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 1% from \$10,407 for the six months ended June 30, 2000 to \$10,506 for the same period in 2001, primarily due to an increase in audit and tax fees.

Depletion was \$36,527 for the six months ended June 30, 2001 as compared to \$29,947 for the same period in 2000, an increase of \$6,580, or 22%. This increase was primarily due to a downward revision to proved reserves during the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

period ended June 30, 2001 due to lower commodity prices as compared to the same period in 2000.

8

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 22% to \$154,567 for the three months ended June 30, 2001 as compared to \$197,479 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and NGLs and a decline in production, offset by higher average prices received for gas. For the three months ended June 30, 2001, 3,841 barrels of oil, 1,984 barrels of NGLs and 7,439 mcf of gas were sold, or 7,065 BOEs. For the three months ended June 30, 2000, 4,780 barrels of oil, 2,886 barrels of NGLs and 10,613 mcf of gas were sold, or 9,435 BOEs.

The average price received per barrel of oil decreased \$.58, or 2%, from \$27.50 for the three months ended June 30, 2000 to \$26.92 for the same period in 2001. The average price received per barrel of NGLs decreased \$1.83, or 12%, from \$14.66 during the three months ended June 30, 2000 to \$12.83 for the same period in 2001. The average price received per mcf of gas increased 55% from \$2.23 during the three months ended June 30, 2000 to \$3.46 for the same period in 2001.

Gain on disposition of assets of \$6,447 was recognized during the three months ended June 30, 2001 resulting from equipment credits received on one well plugged and abandoned during the current period. Expenses incurred to plug this well were \$10,766.

### Costs and Expenses:

Total costs and expenses decreased to \$93,876 for the three months ended June 30, 2001 as compared to \$147,866 for the same period in 2000, a decrease of \$53,990, or 37%. This decrease was primarily due to declines in production costs, G&A and depletion, offset by an increase in abandoned property costs.

Production costs were \$61,994 for the three months ended June 30, 2001 and \$124,619 for the same period in 2000 resulting in a \$62,625 decrease, or 50%. This decrease was primarily due to lower workover and well maintenance costs.

During this period, G&A decreased 22% from \$5,925 for the three months ended June 30, 2000 to \$4,643 for the same period in 2001, primarily due to a lower allocation of the managing general partner's G&A being allocated as a result of lower oil and gas revenues during the three months ended June 30, 2001 as compared to the period ended June 30, 2000, in addition to decreased audit and tax fees.

Depletion was \$16,473 for the three months ended June 30, 2001 as compared to \$17,322 for the same period in 2000, a decrease of \$849, or 5%. This decrease was primarily due to a decline in oil production of 939 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

9

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$119,583 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was primarily due to a reduction of \$56,986 in working capital, an increase of \$1,538 in oil and gas sales receipts and a decline in production costs of \$71,924, offset by increases in abandoned property costs of \$10,766 and G&A expenses of \$99. The increase in oil and gas receipts resulted from the increase in gas and NGL prices of \$52,442 during 2001, offset by a decline of \$46,359 in production and a \$4,545 decline in oil prices in 2001 as compared to the same period in 2000. The decrease in production costs was primarily due to lower workover and well maintenance costs. The increase in G&A was primarily due to an increase in audit and tax fees.

#### Net Cash Provided by Investing Activities

The Partnership's investing activities during the six months ended June 30, 2000 were related to expenditures for upgrades of oil and gas equipment on active properties.

Proceeds from disposition of assets of \$6,447 and \$9,859 were recognized during the six months ended June 30, 2001 and 2000, respectively. Proceeds during 2001 were from equipment credits on one well that was plugged and abandoned during the current period. Proceeds during 2000 were from equipment credits on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$154,242, of which \$1,542 was distributed to the managing general partner and \$152,700 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$232,627, of which \$2,326 was distributed to the managing general partner and \$230,301 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships

that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES /X/ NO / /

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. /X/

No market currently exists for the limited partnership interests of the Registrant. Based on the original purchase price, the aggregate market value of limited partnership interests owned by non-affiliates of the Registrant is \$5,572,000.

As of March 8, 2001, the number of outstanding limited partnership interests was 11,222.

The following documents are incorporated by reference into the indicated parts of this Annual Report on Form 10-K: None

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley Producing Properties 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,222 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 59% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that

2

its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of working interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

The Partnership completed one purchase of producing properties. This acquisition involved the purchase of working interests in 21 properties, all of which are operated by the managing general partner. In subsequent years, the Partnership participated in the drilling of three additional wells and one well was plugged and abandoned. At December 31, 2000 the Partnership had 23 producing oil and gas properties.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, and changes in such quantities for

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,222 outstanding limited partnership interests held of record by 507 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$458,003 and \$165,195, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000 -----	1999 -----	1998 -----	1997 -----
Operating results:

4

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 50% to \$742,384 for 2000 as compared to \$495,753 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 17,170 barrels of oil, 9,806 barrels of natural gas liquids ("NGLs") and 37,939 mcf of gas were sold, or 33,299 barrel of oil equivalents ("BOEs"). In 1999, 19,878 barrels of oil, 10,402 barrels of NGLs and 44,467 mcf of gas were sold, or 37,691 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.62, or 75%, from \$16.82 for 1999 to \$29.44 in 2000. The average price received per barrel of NGLs increased \$5.10, or 56%, from \$9.18 for 1999 to \$14.28 in 2000. The average price received per mcf of gas increased 72%, from \$1.48 for 1999 to \$2.55 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$9,859 was recognized during 2000 from salvage income received on one fully depleted well.

Total costs and expenses decreased in 2000 to \$411,959 as compared to \$619,585 in 1999, a decrease of \$207,626, or 34%. This decrease was primarily the result

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of declines in the impairment of oil and gas properties and depletion, offset by increases in production costs and general and administrative expenses ("G&A").

Production costs were \$322,751 in 2000 and \$237,875 in 1999, resulting in an increase of \$84,876, or 36%. The increase was primarily due to additional workover expense and well maintenance costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 50% from \$14,872 in 1999 to \$22,272 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$18,064 in 2000 and \$8,371 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$280,950 related to its oil and gas properties during 1999.

Depletion was \$66,936 in 2000 as compared to \$85,888 in 1999, representing a decrease of \$18,952, or 22%. This decrease was primarily due to a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999 and a decline in oil production of 2,708 barrels for the period ended December 31, 2000 compared to the same period in 1999, offset by a 20,203 barrels of oil decrease in proved reserves during 2000 as a result of a significant well having lower reserves due to a revised decline curve.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 12% to \$495,753 from \$443,496 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 19,878 barrels of oil, 10,402 barrels of NGLs and 44,467 mcf of gas were sold, or 37,691 BOEs. In 1998, 22,482 barrels of oil, 12,009 barrels of NGLs and 51,099 mcf of gas were sold, or 43,008 BOEs.

The average price received per barrel of oil increased \$3.68, or 28%, from \$13.14 for 1998 to \$16.82 in 1999. The average price received per barrel of NGLs increased \$2.87, or 45%, from \$6.31 for 1998 to \$9.18 in 1999. The average price received per mcf of gas increased 5%, from \$1.41 for 1998 to \$1.48 in 1999.

Total costs and expenses increased in 1999 to \$619,585 as compared to \$471,884 in 1998, an increase of \$147,701, or 31%. This increase was primarily the result

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of increases in the impairment of oil and gas properties and G&A expenses, offset by declines in depletion and production costs.

Production costs were \$237,875 in 1999 and \$252,339 in 1998, resulting in a \$14,464, or 6%, decrease. The decrease was due to less well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to the increase in oil and gas revenues.

During this period, G&A increased 12% from \$13,305 in 1998 to \$14,872 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$8,371 in 1999 and \$9,891 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$280,950 related to its oil and gas properties during 1999.

Depletion was \$85,888 in 1999 compared to \$206,240 in 1998. This represented a decrease of \$120,352, or 58%. This decrease was the result of an increase in proved reserves of 77,231 barrels of oil during 1999 as a result of higher commodity prices and a decline in oil production of 2,604

6

barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$159,721 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$251,009 and a decline in working capital of \$988, offset by increases in production costs paid of \$84,876 and G&A expenses paid of \$7,400. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$355,912 to oil and gas receipts, offset by \$104,903 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

taxes associated with higher oil and gas prices and additional workover expenses and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to various upgrades of equipment.

Proceeds from asset dispositions of \$9,859 recognized during 2000 were from equipment credits received on one fully depleted well.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$462,629, of which \$4,626 was distributed to the managing general partner and \$458,003 to the limited partners. In 1999, cash distributions to the partners were \$166,787, of which \$1,592 was distributed to the managing general partner and \$165,195 to the limited partners.

### INDEPENDENT AUDITORS' REPORT

The Partners

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Parker & Parsley Producing Properties 88-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Producing Properties 88-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Producing Properties 88-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRODUCING PROPERTIES 88-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Producing Properties 88-A, L.P. (the "Partnership") is a limited partnership organized in 1988 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$280,950 related to its proved oil and gas properties during 1999.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$949,574 less than the tax basis at December 31, 2000.

15

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Net income (loss) per statements of operations	\$ 357,190	\$ (111,304)	\$ (13,304)
Depletion and depreciation provisions for tax reporting purposes less than (greater than) amounts for financial reporting purposes	(55,096)	24,264	26,264
Impairment of oil and gas properties for financial reporting purposes	-	280,950	
Other	(247)	(441)	
	-----	-----	-----
Net income per Federal income tax returns	\$ 301,847	\$ 193,469	\$ 12,304
	=====	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
Property acquisition costs	\$ 782 =====	\$ 12,230 =====	\$ 1,181 =====

Capitalized oil and gas properties consist of the following:

	2000	1999
Proved properties:		
Property acquisition costs	\$ 4,109,672	\$ 4,108,890
Completed wells and equipment	746,040 -----	746,040 -----
Accumulated depletion	4,855,712 (3,719,241) -----	4,854,930 (3,652,305) -----
Net oil and gas properties	\$ 1,136,471 =====	\$ 1,202,625 =====

16

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 98,073	\$ 91,828	\$ 99,719
Reimbursement of general and administrative expenses	\$ 18,064	\$ 8,371	\$ 9,891

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees Producing Properties 88-A ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1)	Partnership
Revenues:		
Revenues from oil and gas production, proceeds from sales of producing properties and all other revenues:		
Before payout	4.040405%	95.959595%
After payout (2)	19.191920%	80.808080%
Costs and expenses:		
Property acquisition costs, operating costs, general and administrative expenses and other costs:		
Before payout	4.040405%	95.959595%
After payout (2)	19.191920%	80.808080%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 78 limited partner interests owned by Pioneer USA.

(2) The Partnership reached payout in September 1997.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

17

	Oil and NGLs (bbls)	Gas (mcf)
Net proved reserves at January 1, 1998	563,684	808,875
Revisions	(105,464)	(18,612)
Production	(34,491)	(51,099)
	-----	-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net proved reserves at December 31, 1998	423,729	739,164
Revisions	113,184	157,201
Production	(30,280)	(44,467)
	-----	-----
Net proved reserves at December 31, 1999	506,633	851,898
Revisions	(52,176)	(249,428)
Production	(26,976)	(37,939)
	-----	-----
Net proved reserves at December 31, 2000	427,481	564,531
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.90 per barrel of NGLs and \$7.43 per mcf of gas, discounted at 10% was approximately \$3,258,000 and undiscounted was \$6,795,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	59%	57%	-
Western Gas Resources, Inc.	4%	6%	28%
Genesis Crude Oil, L.P.	-	-	57%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$44,879 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total

19

contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$5,611,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

next annual meeting of stockholders or until their successors are elected and qualified.

Name -----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Directors
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the limited partnership agreement, Pioneer USA pays 1% of the Program's acquisition, drilling and completion costs and 1% of its operating, general and administrative expenses. In return, Pioneer USA is allocated 1% of the Program's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 78 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 98,073	\$ 91,828	\$ 99,719
Reimbursement of general and administrative expenses	\$ 18,064	\$ 8,371	\$ 9,891

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

24

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000, 1999 and 1998

Statements of partners' capital for the years ended December 31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000, 1999 and 1998

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley Private Investment 88, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 88, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

(f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP, of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2038, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

## PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P. (A Delaware Limited Partnership)

### NOTES TO FINANCIAL STATEMENTS

June 30, 2001

(Unaudited)

#### Note 1. Organization and nature of operations

Parker & Parsley Private Investment 88, L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

#### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

#### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

Revenues:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's oil and gas revenues increased 5% to \$625,806 for the six months ended June 30, 2001 as compared to \$598,423 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

6

a decrease in production. For the six months ended June 30, 2001, 15,090 barrels of oil, 4,484 barrels of natural gas liquids ("NGLs") and 28,101 mcf of gas were sold, or 24,258 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 15,271 barrels of oil, 8,042 barrels of NGLs and 30,899 mcf of gas were sold, or 28,463 BOEs.

The average price received per barrel of oil increased slightly from \$27.54 for the six months ended June 30, 2000 to \$27.55 for the same period in 2001. The average price received per barrel of NGLs increased \$2.26, or 16%, from \$14.01 during the six months ended June 30, 2000 to \$16.27 for the same period in 2001. The average price received per mcf of gas increased 131% from \$2.11 during the six months ended June 30, 2000 to \$4.88 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$290,136 for the six months ended June 30, 2001 as compared to \$270,220 for the same period in 2000, an increase of \$19,916, or 7%. This increase was due to an increase in production costs, offset by declines in depletion and general and administrative expenses ("G&A").

Production costs were \$235,058 for the six months ended June 30, 2001 and \$212,006 for the same period in 2000, resulting in a \$23,052 increase, or 11%. The increase was the result of additional well maintenance and workover costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 13%, from \$17,953 for the six months ended June 30, 2000 to \$15,645 for the same period in 2001 due to a decrease in audit and tax fees.

Depletion was \$39,433 for the six months ended June 30, 2001 as compared to \$40,261 for the same period in 2000, a decrease of \$828, or 2%. This decrease was due to a decline in oil production of 181 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 12% to \$286,574 for the three months ended June 30, 2001 as compared to \$324,217 for the same period in 2000. The decrease in revenues resulted from a decrease in production and a decline in the average price received for oil, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 7,491 barrels of oil,

2,446 barrels of NGLs and 13,463 mcf of gas were sold, or 12,181 BOEs. For the three months ended June 30, 2000, 8,143 barrels of oil, 4,278 barrels of NGLs and 15,250 mcf of gas were sold, or 14,963 BOEs.

The average price received per barrel of oil decreased \$.67, or 2%, from \$27.83 for the three months ended June 30, 2000 to \$27.16 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$.13, or 1%, from \$13.99 during the three months ended June 30, 2000 to \$14.12 for the same period in 2001. The average price received per mcf of gas increased 46% to \$3.61 during the three months ended June 30, 2001 from \$2.48 during the same period in 2000.

#### Costs and Expenses:

Total costs and expenses increased to \$141,490 for the three months ended June 30, 2001 as compared to \$130,309 for the same period in 2000, an increase of \$11,181, or 9%. This increase was due to increases in production costs and depletion, offset by a decrease in G&A.

Production costs were \$113,938 for the three months ended June 30, 2001 and \$101,258 for the same period in 2000, resulting in a \$12,680 increase, or 13%. The increase was due to additional well maintenance costs incurred to stimulate well production.

During this period, G&A decreased 26%, from \$9,727 for the three months ended June 30, 2000 to \$7,164 for the same period in 2001 due to a decrease in audit and tax fees.

Depletion was \$20,388 for the three months ended June 30, 2001 as compared to \$19,324 for the same period in 2000, an increase of \$1,064, or 6%. This increase was attributable to a decline in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decline in oil production of 652 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

#### Liquidity and Capital Resources

##### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$94,282 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$26,974 and reductions in working capital of \$88,052 and G&A expenses of \$2,308, offset by an increase in production costs of \$23,052. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$103,907 to oil and gas receipts, offset by \$76,933 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The decrease in G&A was primarily due to a decrease in audit and tax fees.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Net Cash Used in Investing Activities

The Partnership's investing activities for the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds of \$467 recognized during the six months ended June 30, 2000 were due to equipment credits on active properties.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$236,965, of which \$2,370 was distributed to the managing general partner and \$234,595 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$354,330, of which \$3,543 was distributed to the managing general partner and \$350,787 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to

the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley Private Investment 88, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 88, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Investment 88, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 88, L.P. (the "Partnership") was organized in 1988 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1989. The Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

7

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentation.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the

8

Partnership recognized a non-cash impairment provision of \$118,049 related to its proved oil and gas properties during 1998.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$148,226 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999	1
	-----	-----	---

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net income (loss) per statements of operations	\$ 789,392	\$ 287,153	\$ (19
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	67,335	130,790	31
Impairment of oil and gas properties for financial reporting purposes	-	-	11
Other, net	(1,469)	221	-
	-----	-----	-----
Net income per Federal income tax returns	\$ 855,258	\$ 418,164	\$ 23
	=====	=====	=====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 8,806	\$ 9,360	\$ 14,794
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

	2000 ----	1999 ----
Proved properties:		
Property acquisition costs	\$ 76,042	\$ 76,042
Completed wells and equipment	7,272,100	7,263,761
	-----	-----
	7,348,142	7,339,803
Accumulated depletion	(6,092,889)	(6,015,639)
	-----	-----
Net oil and gas properties	\$ 1,255,253	\$ 1,324,164
	=====	=====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

200

Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 164,64
Reimbursement of general and administrative expenses	\$ 29,88

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and the Partnership are parties to the Program agreement.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1)	Partnership
	-----	-----
Revenues:		
Proceeds from disposition of depreciable properties	9.09091%	90.90909%
All other revenues	24.242425%	75.757575%
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.09091%	90.90909%
Operating costs, direct costs and general and administrative expenses	24.242425%	75.757575%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

Oil and NGLs	Gas
(bbls)	(mcf)
-----	-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net proved reserves at January 1, 1998	642,625	841,260
Revisions	(223,184)	(203,072)
Production	(48,933)	(61,718)
	-----	-----
Net proved reserves at December 31, 1998	370,508	576,470
Revisions	353,229	566,412
Production	(48,802)	(66,701)
	-----	-----
Net proved reserves at December 31, 1999	674,935	1,076,181
Revisions	142,138	(79,131)
Production	(46,284)	(59,532)
	-----	-----
Net proved reserves at December 31, 2000	770,789	937,518
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.25 per barrel of NGLs and \$7.86 per mcf of gas, discounted at 10% was approximately \$5,885,000 and undiscounted was \$12,796,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	-----	-----	-----
	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	55%	52%	-
Genesis Crude Oil, L.P.	-	-	63%
Western Gas Resources, Inc.	4%	5%	21%

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$52,075 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. The managing general partner is also responsible for

12

1% of the guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$9,960,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

PARKER & PARSLEY PRIVATE INVESTMENT 88, L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Results of operations

#### 2000 compared to 1999

The Partnership's oil and gas revenues increased 63% to \$1,311,024 for 2000 as compared to \$805,538 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 30,403 barrels of oil, 15,881 barrels of natural gas liquids ("NGLs") and 59,532 mcf of gas were sold, or 56,206 barrel of oil equivalents ("BOEs"). In 1999, 30,947 barrels of oil, 17,855 barrels of NGLs and 66,701 mcf of gas were sold, or 59,919 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.44, or 73%, from \$17.01 in 1999 to \$29.45 in 2000. The average price received per barrel of NGLs increased \$6.29, or 67%, from \$9.32 in 1999 to \$15.61 in 2000. The average price received per mcf of gas increased 67% from \$1.69 in 1999 to \$2.82 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$535,959 as compared to \$526,775 in 1999, an increase of \$9,184, or 2%. The increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$425,425 in 2000 and \$361,694 in 1999, resulting in a \$63,731 increase, or 18%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 38% from \$24,166 in 1999 to \$33,284 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$29,882 in 2000 and \$18,547 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$77,250 in 2000 compared to \$140,915 in 1999, representing a decrease of \$63,665, or 45%. This decrease was primarily due to a 111,058 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

#### 1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$805,538 from \$645,636 in 1998. The increase in revenues resulted from higher average prices received. In 1999, 30,947 barrels of oil, 17,855 barrels of NGLs and 66,701 mcf of gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

were sold, or 59,919 BOEs. In 1998, 33,377 barrels of oil, 15,556 barrels of NGLs and 61,718 mcf of gas were sold, or 59,219 BOEs.

The average price received per barrel of oil increased \$3.70, or 28%, from \$13.31 in 1998 to \$17.01 in 1999. The average price received per barrel of NGLs increased \$2.53, or 37%, from \$6.79 in 1998 to \$9.32 in 1999. The average price received per mcf of gas increased 9% from \$1.55 in 1998 to \$1.69 in 1999.

Total costs and expenses decreased in 1999 to \$526,775 as compared to \$854,253 in 1998, a decrease of \$327,478, or 38%. The decrease was due to declines in depletion, the impairment of oil and gas properties and production costs, offset by an increase in G&A.

Production costs were \$361,694 in 1999 and \$390,754 in 1998, resulting in a \$29,060 decrease, or 7%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 34% from \$17,997 in 1998 to \$24,166 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$18,547 in 1999 and \$14,864 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$118,049 related to its oil and gas properties during 1998.

Depletion was \$140,915 in 1999 compared to \$327,453 in 1998, representing a decrease of \$186,538, or 57%. This decrease was the result of an increase in proved reserves of 220,875 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

Liquidity and capital resources

Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$402,704 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$511,423, offset by increases in production costs paid of \$63,731, G&A expenses paid of \$9,118 and working capital of \$35,870. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$578,466 to oil and gas receipts, offset by \$67,043 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

Proceeds recognized during 2000 of \$467 were due to equipment credits received on an active property.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$803,002, of which \$8,030 was distributed to the managing general partner and \$794,972 to the limited partners. In 1999, cash distributions to the partners were \$312,790, of which \$3,128 was distributed to the managing general partner and \$309,662 to the limited partners.

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 89-A Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-A Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

operations, for the year ended December 31, 2000

- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP, of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 89-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 89-A Conv., L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition  
and Results of Operations (1)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 13% to \$192,720 for the six months ended June 30, 2001 as compared to \$169,889 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

6

a decrease in production. For the six months ended June 30, 2001, 3,972 barrels of oil, 1,804 barrels of natural gas liquids ("NGLs") and 11,172 mcf of gas were sold, or 7,638 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 4,172 barrels of oil, 2,251 barrels of NGLs and 10,163 mcf of gas were sold, or 8,117 BOEs.

The average price received per barrel of oil increased \$.21, or 1%, from \$27.56 for the six months ended June 30, 2000 to \$27.77 for the same period in 2001. The average price received per barrel of NGLs increased \$.76, or 6%, from \$13.74 during the six months ended June 30, 2000 to \$14.50 for the same period in 2001. The average price received per mcf of gas increased 114% from \$2.35 during the six months ended June 30, 2000 to \$5.03 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$3,713 and \$2,083 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the period ended June 30, 2001 was due to salvage income received on one well plugged and abandoned during the current period. The gain recognized during the period ended June 30, 2000 was from equipment credits received on one fully depleted well. Abandoned property costs of \$2,263 were incurred during 2001 to plug and abandon this well.

#### Costs and Expenses:

Total costs and expenses increased to \$94,445 for the six months ended June 30, 2001 as compared to \$87,917 for the same period in 2000, an increase of \$6,528, or 7%. This increase was due to increases in abandoned property costs, production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$74,044 for the six months ended June 30, 2001 as compared to \$71,809 for the same period in 2000, resulting in a \$2,235 increase, or 3%. This increase was primarily due to higher workover expenses incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 22% from \$5,257 for the six months ended June 30, 2000 to \$6,388 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$11,750 for the six months ended June 30, 2001 as compared to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$10,851 for the same period in 2000, an increase of \$899, or 8%. This increase was the result of a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 200 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

7

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 7% to \$82,496 for the three months ended June 30, 2001 as compared to \$88,880 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and NGLs and a decrease in production, offset by higher average prices received for gas. For the three months ended June 30, 2001, 1,795 barrels of oil, 965 barrels of NGLs and 5,567 mcf of gas were sold, or 3,688 BOEs. For the three months ended June 30, 2000, 2,094 barrels of oil, 1,179 barrels of NGLs and 5,406 mcf of gas were sold, or 4,174 BOEs.

The average price received per barrel of oil decreased \$.27, or 1%, from \$27.65 for the three months ended June 30, 2000 to \$27.38 for the three months ended June 30, 2001. The average price received per barrel of NGLs decreased \$1.65, or 12%, from \$13.65 during the three months ended June 30, 2000 to \$12.00 for the same period in 2001. The average price received per mcf of gas increased 42% to \$3.90 during the three months ended June 30, 2001 from \$2.75 during the same period in 2000.

Gains on disposition of assets of \$2,083 were attributable to equipment credits received on one fully depleted well for the three months ended June 30, 2000.

### Costs and Expenses:

Total costs and expenses increased to \$48,809 for the three months ended June 30, 2001 as compared to \$47,741 for the same period in 2000, an increase of \$1,068, or 2%. This increase was due to increases in depletion and production costs, offset by a decline in G&A.

Production costs were \$40,659 for the three months ended June 30, 2001 and \$40,401 for the same period in 2000 resulting in a \$258 increase. This increase was the result of additional workover costs incurred to stimulate well production, offset by lower well maintenance costs.

During this period, G&A decreased 12% from \$2,816 for the three months ended June 30, 2000 to \$2,476 for the same period in 2001, primarily due to a decline in audit and tax fees.

Depletion was \$5,746 for the three months ended June 30, 2001 as compared to \$4,524 for the same period in 2000, an increase of \$1,222, or 27%. This increase was the result of a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 299 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

8

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$40,237 during the six months ended June 30, 2001 from the same period in 2000. This increase resulted from an increase of \$22,755 in oil and gas sales receipts and a reduction in working capital of \$23,111, offset by increases in production costs of \$2,235, G&A expenses of \$1,131 and abandoned property costs of \$2,263. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$29,717 to oil and gas receipts, offset by \$6,962 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to higher workover costs incurred to stimulate well production. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on various oil and gas properties.

Proceeds from salvage income of \$2,083 were recognized during the six months ended June 30, 2000 from equipment credits on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$83,321, of which \$833 was distributed to the managing general partner and \$82,488 was distributed to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$102,690, of which \$1,027 was distributed to the managing general partner and \$101,663 was distributed to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 89-A Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 89-A Conv., L.P. as of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-A Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-A Conv., L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

7

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the

8

Partnership recognized a non-cash impairment provision of \$6,198 and \$103,108 related to its proved oil and gas properties during 2000 and 1998, respectively.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$52,175 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

operations with the net income per Federal income tax returns for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 213,459	\$ 77,957	\$ (149,762)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	18,394	35,333	113,374
Impairment of oil and gas properties for financial reporting purposes	6,198	--	103,108
Other, net	(560)	(1,305)	1,416
	-----	-----	-----
Net income per Federal income tax returns	\$ 237,491 =====	\$ 111,985 =====	\$ 68,136 =====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 2,459 =====	\$ 4,107 =====	\$5,690 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 93,966	\$ 93,966
Completed wells and equipment	2,112,015	2,109,556
	-----	-----
Accumulated depletion	2,205,981 (1,860,437)	2,203,522 (1,832,074)
	-----	-----
Net oil and gas properties	\$ 345,544 =====	\$ 371,448 =====

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$52,987	\$52,678	\$51,730
Reimbursement of general and administrative expenses	\$10,994	\$ 7,203	\$ 5,808

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89-A Conv., Ltd. ("EMPL"), Parker & Parsley 89-A, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000,

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1) -----	Partnerships (2) -----
<b>Revenues:</b>		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
<b>Costs and expenses:</b>		
Lease acquisition costs, drilling and completion costs and all other costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

(2) The allocation between the Partnership and Parker & Parsley 89-A, L.P. is 25.166457% and 74.833543%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	189,854	326,511
Revisions	(83,618)	(110,279)
Production	(14,102)	(21,106)
	-----	-----
Net proved reserves at December 31, 1998	92,134	195,126
Revisions	106,866	158,479
Production	(14,166)	(20,484)
	-----	-----
Net proved reserves at December 31, 1999	184,834	333,121
Revisions	30,916	(27,906)
Production	(13,092)	(20,057)
	-----	-----
Net proved reserves at December 31, 2000	202,658	285,158
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.34 per barrel of NGLs and \$8.31 per mcf of gas, discounted at 10% was approximately \$1,685,000 and undiscounted \$3,469,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000 ----	1999 ----	1998 ----
Plains Marketing, L.P.	63%	62%	-
Genesis Crude Oil, L.P.	-	-	59%
Western Gas Resources, Inc.	3%	3%	12%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$22,502 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The

12

majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$2,797,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

PARKER & PARSLEY 89-A CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 59% to \$383,529 for 2000 as compared to \$241,781 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 8,466 barrels of oil, 4,626 barrels of natural gas liquids ("NGLs") and 20,057 mcf of gas were sold, or 16,435 barrel of oil equivalents ("BOEs"). In 1999, 9,190 barrels of oil, 4,976 barrels of NGLs and 20,484 mcf of gas were sold, or 17,580 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.48, or 73%, from \$17.11 in 1999 to \$29.59 in 2000. The average price received per barrel of NGLs increased \$5.88, or 62%, from \$9.54 in 1999 to \$15.42 in 2000. The average price received per mcf of gas increased 70% from \$1.81 in 1999 to \$3.07 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

During 2000 and 1999, gains on disposition of assets of \$1,765 and \$1,483, respectively, were attributable to credits received from equipment salvage on one fully depleted well in each year.

Total costs and expenses increased in 2000 to \$175,856 as compared to \$167,660 in 1999, an increase of \$8,196, or 5%. The increase was due to increases in production costs, the impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$135,124 in 2000 and \$118,700 in 1999, resulting in a \$16,424 increase, or 14%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 29% from \$9,612 in 1999 to \$12,370 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$10,994 in 2000 and \$7,203 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$6,198 related to its oil and gas properties during 2000.

Depletion was \$22,165 in 2000 as compared to \$39,348 in 1999, representing a decrease of \$17,183, or 44%. This decrease was primarily due to a 28,723 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$241,781 from \$196,186 in 1998. The increase in revenues resulted from higher average prices received. In 1999, 9,190 barrels of oil, 4,976 barrels of natural gas liquids ("NGLs") and 20,484 mcf of gas were sold, or 17,580 barrel of oil equivalents ("BOEs"). In 1998, 9,782 barrels of oil, 4,320 barrels of NGLs and 21,106 mcf of gas were sold, or 17,620 BOEs.

The average price received per barrel of oil increased \$3.88, or 29%, from \$13.23 in 1998 to \$17.11 in 1999. The average price received per barrel of NGLs increased \$2.59, or 37%, from \$6.95 in 1998 to \$9.54 in 1999. The average price received per mcf of gas increased 4% from \$1.74 in 1998 to \$1.81 in 1999.

During 1999, gain on disposition of assets of \$1,483 was attributable to credits received from equipment salvage on one active well. Gain on disposition of assets of \$648 was attributable to credits received in 1998 from the disposal of oil and gas equipment on a well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$167,660 as compared to \$349,225 in 1998, a decrease of \$181,565, or 52%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$118,700 in 1999 and \$121,865 in 1998, resulting in a \$3,165 decrease, or 3%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes.

During this period, G&A increased 37% from \$7,006 in 1998 to \$9,612 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$7,203 in 1999 and \$5,808 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$103,108 related to its oil and gas properties during 1998.

Depletion was \$39,348 in 1999 compared to \$117,246 in 1998, representing a decrease of \$77,898, or 66%. This decrease was primarily due to an increase in proved reserves of 70,433 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$118,472 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$143,417, offset by increases in production costs paid of \$16,424, G&A expenses paid of \$2,758 and working capital of \$5,763. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$171,552 to oil and gas receipts, offset by \$28,135 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and workover and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 were related to equipment upgrades on active properties.

During 2000 and 1999, proceeds from disposition of assets of \$1,765 and \$1,483, respectively, were from equipment credits received on an active well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$226,382, of which \$2,264 was distributed to the managing general partner and \$224,118 to the limited partners. In 1999, cash distributions to the partners were \$80,698, of which \$807 was distributed to the managing general partner and \$79,891 to the limited partners.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 89-A, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-A, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY 89-A, L.P.

SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 89-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 89-A, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 13% to \$573,213 for the six months ended June 30, 2001 as compared to \$505,131 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the six months ended June 30, 2001, 11,811 barrels

7

of oil, 5,378 barrels of natural gas liquids ("NGLs") and 33,232 mcf of gas were sold, or 22,728 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 12,412 barrels of oil, 6,682 barrels of NGLs and 30,228 mcf of gas were sold, or 24,132 BOEs.

The average price received per barrel of oil increased \$.21, or 1%, from \$27.56 for the six months ended June 30, 2000 to \$27.77 for the same period in 2001. The average price received per barrel of NGLs increased \$.76, or 6%, from \$13.74 during the six months ended June 30, 2000 to \$14.50 for the same period in 2001. The average price received per mcf of gas increased 114% from \$2.35 during the six months ended June 30, 2000 to \$5.03 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$11,040 and \$6,194 were recognized during the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

six months ended June 30, 2001 and 2000, respectively. The gain recognized during 2001 was due to salvage income received from one well plugged and abandoned during the current period. The gain recognized during 2000 was from equipment credits received on one fully depleted well. Abandoned property costs of \$8,824 were incurred during 2001 to plug and abandon this well.

### Costs and Expenses:

Total costs and expenses increased to \$282,909 for the six months ended June 30, 2001 as compared to \$262,057 for the same period in 2000, resulting in an increase of \$20,852, or 8%. This increase was due to increases in abandoned property costs, production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$219,851 for the six months ended June 30, 2001 and \$213,496 for the same period in 2000 resulting in a \$6,355 increase, or 3%. The increase was primarily due to higher workover expenses incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 19% from \$16,272 for the six months ended June 30, 2000 to \$19,284 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$34,950 for the six months ended June 30, 2001 as compared to \$32,289 for the same period in 2000, an increase in depletion of \$2,661, or 8%. This increase was primarily due to a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decrease in oil production of 601 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 7% to \$245,398 for the three months ended June 30, 2001 as compared to \$264,301 for the same period in 2000. The decrease in revenues resulted from a decline in production and lower average prices received for oil and NGLs, offset by an increase in the average price received for gas. For the three months ended June 30, 2001, 5,345 barrels of oil, 2,870 barrels of NGLs and 16,567 mcf of gas were sold, or 10,976 BOEs. For the three months ended June 30, 2000, 6,233 barrels of oil, 3,495 barrels of NGLs and 16,086 mcf of gas were sold, or 12,409 BOEs.

The average price received per barrel of oil decreased \$.27, or 1%, from \$27.65 for the three months ended June 30, 2000 to \$27.38 for the same period in 2001. The average price received per barrel of NGLs decreased \$1.65, or 12%, from \$13.65 during the three months ended June 30, 2000 to \$12.00 for the same period in 2001. The average price received per mcf of gas increased 42% from \$2.75 during the three months ended June 30, 2000 to \$3.90 for the same period in 2001.

Gains on disposition of assets of \$6,194 were recognized during the three months ended June 30, 2000 from equipment credits received on one fully depleted well.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Costs and Expenses:

Total costs and expenses increased to \$145,627 for the three months ended June 30, 2001 as compared to \$142,416 for the same period in 2000, an increase of \$3,211, or 2%. This increase was due to increases in depletion and production costs, offset by a decline in G&A.

Production costs were \$120,918 for the three months ended June 30, 2001 and \$120,113 for the same period in 2000 resulting in an \$805 increase. This increase was primarily due to higher workover costs incurred to stimulate well production, offset by lower well maintenance costs.

During this period, G&A decreased 14% from \$8,814 for the three months ended June 30, 2000 to \$7,577 for the same period in 2001 due to a decline in audit and tax fees.

Depletion was \$17,132 for the three months ended June 30, 2001 as compared to \$13,489 for the same period in 2000, an increase of \$3,643, or 27%. This increase was primarily due to downward revisions to proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 888 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$120,126 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase of \$67,811 in oil and gas sales receipts and a

9

reduction in working capital of \$70,506, offset by increases in abandoned property costs of \$8,824, production costs of \$6,355 and G&A expenses of \$3,012. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$88,303 to oil and gas receipts, offset by \$20,492 resulting from the decrease in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to higher workover expenses incurred to stimulate well production. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during the six months ended June 30, 2001 and 2000 were related to upgrades of oil and gas equipment on active properties.

Proceeds from salvage income of \$6,194 were recognized during the six months ended June 30, 2000 from equipment credits on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$247,760, of which \$2,478 was distributed to the managing general partner and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$245,282 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$305,356, of which \$3,054 was distributed to the managing general partner and \$302,302 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

10

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

PART I

ITEM 1. BUSINESS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Parker & Parsley 89-A, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 8,317 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 63% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and

ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located in the Spraberry Trend area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 33 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, 32 wells were producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTEREST AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 8,317 outstanding limited partnership interests held of record by 609 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the years ended December 31, 2000 and 1999, \$666,425 and \$237,558, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000 -----	1999 -----	1998 -----	1997 -----	1996 -----
Operating results:					
Oil and gas sales	\$1,140,280 =====	\$ 718,969 =====	\$ 583,396 =====	\$ 856,926 =====	\$1,132,944 =====
Impairment of oil and gas properties	\$ 18,391 =====	\$ - =====	\$ 306,826 =====	\$ 531,929 =====	\$ - =====
Net income (loss)	\$ 634,127 =====	\$ 231,838 =====	\$ (444,718) =====	\$ (269,363) =====	\$ 488,019 =====
Allocation of net income (loss):					
Managing general partner	\$ 6,341 =====	\$ 2,318 =====	\$ (4,447) =====	\$ (2,693) =====	\$ 4,880 =====
Limited partners	\$ 627,786 =====	\$ 229,520 =====	\$ (440,271) =====	\$ (266,670) =====	\$ 483,139 =====
Limited partners' net income (loss) per limited partnership interest	\$ 75.48 =====	\$ 27.60 =====	\$ (52.94) =====	\$ (32.06) =====	\$ 58.09 =====
Limited partners' cash distributions per limited partnership interest	\$ 80.13 =====	\$ 28.56 =====	\$ 28.57 =====	\$ 62.59 =====	\$ 68.92 =====
At year end:					
Identifiable assets	\$1,353,688 =====	\$1,397,183 =====	\$1,392,439 =====	\$2,099,131 =====	\$2,890,740 =====

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

2000 compared to 1999

The Partnership's oil and gas revenues increased 59% to \$1,140,280 for 2000 as compared to \$718,969 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 25,176 barrels of oil, 13,747 barrels of natural gas liquids ("NGLs") and 59,638 mcf of gas were sold, or 48,863 barrel of oil equivalents ("BOEs"). In 1999, 27,333 barrels of oil, 14,796 barrels of NGLs and 60,905 mcf of gas were sold, or 52,280 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.48, or 73%, from \$17.11 in 1999 to \$29.59 in 2000. The average price received per barrel of NGLs increased \$5.88, or 62%, from \$9.54 in 1999 to \$15.42 in 2000. The average price received per mcf of gas increased 70% from \$1.81 in 1999 to \$3.07 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gains on disposition of assets of \$5,248 and \$4,410 in 2000 and 1999, respectively, were attributable to equipment credits on one fully depleted well in each year.

Total costs and expenses increased in 2000 to \$523,646 as compared to \$498,672 in 1999, an increase of \$24,974, or 5%. The increase was primarily due to increases in production costs, the impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$402,118 in 2000 and \$352,977 in 1999, resulting in an increase of \$49,141, or 14%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 31% from \$28,521 in 1999 to \$37,259 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$32,691 in 2000 and \$21,420 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$18,391 related to its oil and gas properties during 2000.

Depletion was \$65,878 in 2000 as compared to \$117,174 in 1999, representing a decrease of \$51,296, or 44%. This decrease was primarily due to a 85,285 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 23% to \$718,969 from \$583,396 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 27,333 barrels of oil, 14,796 barrels of NGLs and 60,905 mcf of gas were sold, or 52,280 BOEs. In 1998, 29,084 barrels of oil, 12,847 barrels of NGLs and 62,751 mcf of gas were sold, or 52,390 BOEs.

The average price received per barrel of oil increased \$3.88, or 29%, from \$13.23 in 1998 to \$17.11 in 1999. The average price received per barrel of NGLs increased \$2.59, or 37%, from \$6.95 in 1998 to \$9.54 in 1999. The average price received per mcf of gas increased 4% from \$1.74 in 1998 to \$1.81 in 1999.

Gain on disposition of assets of \$4,410 in 1999 was attributable to equipment credits on one fully depleted well. During 1998, gain on disposition of assets of \$1,926 was attributable to credits received from the disposal of oil and gas equipment on a well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$498,672 as compared to \$1,038,152 in 1998, a decrease of \$539,480, or 52%. The decrease was primarily due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$352,977 in 1999 and \$362,377 in 1998, resulting in a \$9,400 decrease, or 3%. The decrease was due to declines in ad valorem taxes and well maintenance costs, offset by an increase in workover costs incurred to stimulate well production and an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 38% from \$20,635 in 1998 to \$28,521 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$21,420 in 1999 and \$17,270 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$306,826 related to its oil and gas properties during 1998.

6

Depletion was \$117,174 in 1999 compared to \$348,314 in 1998. This represented a decrease of \$231,140, or 66%. This decrease was primarily due to an increase in proved reserves of 209,480 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$351,738 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$426,425, offset by increases in production costs paid of \$49,141, G&A expenses paid of \$8,738 and working capital of \$16,808. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$510,320 to oil and gas receipts, offset by \$83,895 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional workover and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 2000 and 1999 were related to expenditures for equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$5,248 and \$4,410 recognized in 2000 and 1999, respectively, were from equipment credits received on one fully depleted well in each year.

#### Net Cash Used in Financing Activities

For 2000, cash distributions to the partners were \$673,157, of which \$6,732 was distributed to the managing general partner and \$666,425 to the limited partners. For 1999, cash distributions to the partners were \$239,958, of which \$2,400 was distributed to the managing general partner and \$237,558 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 89-A, L.P.

(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 89-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

PARKER & PARSLEY 89-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-A, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$18,391 and \$306,826 related to its proved oil and gas properties during 2000 and 1998, respectively.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$155,457 greater than the tax basis at December 31, 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 634,127	\$ 231,838	\$ (444,718)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	54,665	105,234	336,801
Impairment of oil and gas properties for financial reporting purposes	18,391	-	306,826
Salvage income	-	-	-
Other, net	(1,709)	(3,610)	3,948
	-----	-----	-----
Net income per Federal income tax returns	\$ 705,474 =====	\$ 333,462 =====	\$ 202,857 =====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 7,310 =====	\$ 12,213 =====	\$ 16,919 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 279,410	\$ 279,410
Completed wells and equipment	6,280,166	6,272,856
	-----	-----
Accumulated depletion	6,559,576 (5,531,818)	6,552,266 (5,447,549)
	-----	-----
Net oil and gas properties	\$ 1,027,758 =====	\$ 1,104,717 =====

## NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 157,560	\$ 156,639	\$ 153,822
Reimbursement of general and administrative expenses	\$ 32,691	\$ 21,420	\$ 17,270

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89-A Conv., Ltd. ("EMPL"), Parker & Parsley 89-A Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1) -----	Partnerships (2) -----
Revenues:		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 105 limited partner interests owned by

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer USA.

- (2) The allocation between the Partnership and Parker & Parsley 89-A Conv., L.P. is 74.833543% and 25.166457%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	564,653	971,094
Revisions	(248,699)	(328,006)
Production	(41,931)	(62,751)
	-----	-----
Net proved reserves at December 31, 1998	274,023	580,337
Revisions	317,834	471,328
Production	(42,129)	(60,905)
	-----	-----
17		
Net proved reserves at December 31, 1999	549,728	990,760
Revisions	91,729	(83,266)
Production	(38,923)	(59,638)
	-----	-----
Net proved reserves at December 31, 2000	602,534	847,856
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$12.34 per barrel of NGLs and \$8.31 per mcf of gas, discounted at 10% was approximately \$5,009,000 and undiscounted was \$10,314,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	63%	62%	-
Genesis Crude Oil, L.P.	-	-	59%
Western Gas Resources, Inc.	3%	3%	12%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$66,937 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

subscription agreements for aggregate capital contributions of \$8,317,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name ----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	45	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B.S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 105 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

## ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$157,560	\$ 156,639	\$153,822
Reimbursement of general and administrative expenses	\$ 32,691	\$ 21,420	\$ 17,270

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

## PART IV

## ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

## (a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000, 1999 and 1998

Statements of partners' capital for the years ended December 31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000, 1999 and 1998

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the required information is in the financial statements or notes thereto, or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or incorporated by reference as part of this Report.

PARKER & PARSLEY 89-B CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 89-B Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-B Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of its partnership agreement.

## NOTES TO FINANCIAL STATEMENTS June 30, 2001 (Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 89-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1989 under the laws of the State of Texas and was converted to a Delaware limited partnership on May 30, 1990.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 6% to \$432,217 for the six months ended June 30, 2001 as compared to \$409,534 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the six months ended June 30, 2001, 9,172 barrels

of oil, 3,753 barrels of natural gas liquids ("NGLs") and 23,283 mcf of gas were sold, or 16,806 barrel of oil equivalent ("BOEs"). For the six months ended June 30, 2000, 10,168 barrels of oil, 5,936 barrels of NGLs and 21,901 mcf of gas were sold, or 19,754 BOEs.

The average price received per barrel of oil increased \$.25, or 1%, from \$27.44 for the six months ended June 30, 2000 to \$27.69 for the same period in 2001. The average price received per barrel of NGLs increased \$3.09, or 22%, from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$13.93 during the six months ended June 30, 2000 to \$17.02 for the same period in 2001. The average price received per mcf of gas increased 125% from \$2.18 during the six months ended June 30, 2000 to \$4.91 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$224,263 for the six months ended June 30, 2001 as compared to \$208,637 for the same period in 2000, an increase of \$15,626, or 7%. This increase was due to an increase in production costs, depletion and general and administrative expenses ("G&A").

Production costs were \$174,038 for the six months ended June 30, 2001 and \$164,199 for the same period in 2000, resulting in a \$9,839 increase, or 6%. This increase was due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 12%, from \$12,598 for the six months ended June 30, 2000 to \$14,077 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$36,148 for the six months ended June 30, 2001 as compared to \$31,840 for the same period in 2000, an increase of \$4,308, or 14%. This increase was due to a reduction in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decline in oil production of 996 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 10% to \$189,915 for the three months ended June 30, 2001 as compared to \$210,761 for the same period in 2000. The decrease in revenues resulted from a decrease in production and lower average prices received for oil, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 4,471 barrels of oil, 1,969 barrels of NGLs and 10,803 mcf of gas were sold, or 8,241 BOEs. For the

three months ended June 30, 2000, 5,131 barrels of oil, 3,114 barrels of NGLs and 10,684 mcf of gas were sold, or 10,026 BOEs.

The average price received per barrel of oil decreased \$.78, or 3%, from \$27.73 for the three months ended June 30, 2000 to \$26.95 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$1.76, or 13%, from \$13.12 during the three months ended June 30, 2000 to \$14.88 for the same period in 2001. The average price received per mcf of gas increased 44% to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$3.72 during the three months ended June 30, 2001 from \$2.58 during the same period in 2000.

### Costs and Expenses:

Total costs and expenses increased to \$112,086 for the three months ended June 30, 2001 as compared to \$105,168 for the same period in 2000, an increase of \$6,918, or 7%. This increase was due to increases in production costs and depletion, offset by a decrease in G&A.

Production costs were \$88,828 for the three months ended June 30, 2001 and \$81,982 for the same period in 2000, resulting in a \$6,846 increase, or 8%. The increase was due to an increase in well maintenance and workover costs incurred to stimulate well production, offset by lower production taxes due to lower oil prices.

During this period, G&A decreased 14%, from \$6,635 for the three months ended June 30, 2000 to \$5,698 for the same period in 2001, primarily due to a lower allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues and a decrease in audit and tax fees.

Depletion was \$17,560 for the three months ended June 30, 2001 as compared to \$16,551 for the same period in 2000, an increase of \$1,009, or 6%. This increase was attributable to a decrease in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decline in oil production of 660 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$76,854 during the six months ended June 30, 2001 from the same period in 2000. This increase was due to an increase of \$22,400 in oil and gas sales receipts and a reduction in working capital of \$65,772, offset by increases in production costs of \$9,839 and G&A expenses of \$1,479. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$80,365 to oil and gas receipts, offset by \$57,965 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was due to additional well maintenance and workover costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The increase in G&A was due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

various oil and gas properties.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$168,850, of which \$1,689 was distributed to the managing general partner and \$167,161 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$211,637, of which \$2,116 was distributed to the managing general partner and \$209,521 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY 89-B CONV., L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

## INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 89-B Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the accompanying balance sheets of Parker & Parsley 89-B Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-B Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

6

PARKER & PARSLEY 89-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1989 under the laws of the State of Texas and was converted to a Delaware limited partnership on May 30, 1990. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121. "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$27,748 and \$262,396 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$191,325 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 433,269	\$ 121,713	\$ (366,035)
Impairment of oil and gas properties for financial reporting purposes	27,748	-	262,396
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	57,991	91,381	226,609
Other, net	(1,014)	(2,514)	2,725
	-----	-----	-----
Net income per Federal income tax returns	\$ 517,994 =====	\$ 210,580 =====	\$ 125,695 =====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	1998 -----
Development costs	\$ 10,434 =====	\$ 7,556 =====	\$ 10,801 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 171,441	\$ 171,441
Completed wells and equipment	5,143,530 -----	5,133,096 -----
	5,314,971	5,304,537
Accumulated depletion	(4,443,011) -----	(4,349,082) -----
Net oil and gas properties	\$ 871,960 =====	\$ 955,455 =====

9

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 133,513	\$ 129,059	\$ 124,312
Reimbursement of general and administrative expenses	\$ 25,658	\$ 16,168	\$ 14,082

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 89-B Conv., L.P. ("EMPL"), Parker & Parsley 89-B, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	Pioneer USA (1)	Partnerships (2)
	-----	-----
Revenues:		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 20 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 89-B, L.P. is 47.578455% and 52.421545%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	471,441	734,987
Revisions	(202,204)	(246,962)
Production	(35,481)	(52,345)
	-----	-----
Net proved reserves at December 31, 1998	233,756	435,680
Revisions	267,905	413,961
Production	(32,585)	(46,681)
	-----	-----
Net proved reserves at December 31, 1999	469,076	802,960
Revisions	1,942	(157,459)

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production	(30,959)	(42,179)
	-----	-----
Net proved reserves at December 31, 2000	440,059	603,322
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.35 per barrel of NGLs and \$7.90 per mcf of gas, discounted at 10% was approximately \$3,414,000 and undiscounted was \$6,785,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

## NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	55%	51%	-
Genesis Crude Oil, L.P.	-	-	59%
Western Gas Resources, Inc.	4%	6%	26%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$37,745 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

## NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating, general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of undistributed profits.

12

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$6,307,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

PARKER & PARSLEY 89-B CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 61% to \$873,058 for 2000 as compared to \$542,232 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 19,708 barrels of oil, 11,251 barrels of natural gas liquids ("NGLs") and 42,179 mcf of gas were sold, or 37,989 barrel of oil equivalentents ("BOEs"). In 1999, 20,322 barrels of oil, 12,263 barrels of NGLs and 46,681 mcf of gas were sold, or 40,365 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.25, or 72%, from \$16.96 in 1999 to \$29.21 in 2000. The average price received per barrel of NGLs increased \$5.99, or 63%, from \$9.57 in 1999 to \$15.56 in 2000. The average price received per mcf of gas increased 69% from \$1.72 in 1999 to \$2.90 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased in 2000 to \$448,166 as compared to \$425,787 in 1999, an increase of \$22,379, or 5%. The increase was due to increases in the impairment of oil and gas properties, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$326,082 in 2000 and \$305,897 in 1999, resulting in a \$20,185 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices, offset by a decline in well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 38% from \$20,352 in 1999 to \$28,155 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$25,658 in 2000 and \$16,168 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partners. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$27,748 related to its oil and gas properties during 2000.

Depletion was \$66,181 in 2000 as compared to \$99,538 in 1999, representing a decrease of \$33,357, or 34%. This decrease was primarily due to an 8,572 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 15% to \$542,232 from \$471,148 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 20,322 barrels of oil, 12,263 barrels of NGLs and 46,681 mcf of gas were sold, or 40,365 BOEs. In 1998, 22,378 barrels of oil, 13,103 barrels of NGLs and 52,345 mcf of gas were sold, or 44,205 BOEs.

The average price received per barrel of oil increased \$3.70, or 28%, from \$13.26 in 1998 to \$16.96 in 1999. The average price received per barrel of NGLs increased \$2.63, or 38%, from \$6.94 in 1998 to \$9.57 in 1999. The average price received per mcf of gas increased 8% from \$1.60 in 1998 to \$1.72 in 1999.

Total costs and expenses decreased in 1999 to \$425,787 as compared to \$842,701 in 1998, a decrease of \$416,914, or 49%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$305,897 in 1999 and \$322,354 in 1998, resulting in a

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$16,457 decrease, or 5%. The decrease was due to declines in ad valorem taxes and well maintenance costs.

During this period, G&A increased 27% from \$16,076 in 1998 to \$20,352 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$16,168 in 1999 and \$14,082 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$262,396 related to its oil and gas properties during 1998.

Depletion was \$99,538 in 1999 compared to \$241,875 in 1998, representing a decrease of \$142,337, or 59%. This decrease was the result of an increase in proved reserves of 173,770 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$259,724 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$334,289, offset by increases in production costs paid of \$20,185, G&A expenses paid of \$7,803 and working capital of \$46,577. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$381,025 to oil and gas receipts, offset by \$46,736 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by a decline in well maintenance costs. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited

to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

expenditures related to equipment upgrades on several oil and gas properties.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$474,240, of which \$4,742 was distributed to the managing general partner and \$469,498 to the limited partners. In 1999, cash distributions to the partners were \$154,304, of which \$1,543 was distributed to the managing general partner and \$152,761 to the limited partners.

PARKER & PARSLEY 89-B, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 89-B, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 89-B, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 89-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 89-B, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition  
and Results of Operations (1)

Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

Revenues:

The Partnership's oil and gas revenues increased 6% to \$475,940 for the six months ended June 30, 2001 as compared to \$450,799 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the six months ended June 30, 2001, 10,095 barrels

6

of oil, 4,141 barrels of natural gas liquids ("NGLs") and 25,638 mcf of gas were sold, or 18,509 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 11,198 barrels of oil, 6,538 barrels of NGLs and 24,114 mcf of gas were sold, or 21,755 BOEs.

The average price received per barrel of oil increased \$.25, or 1%, from \$27.44 for the six months ended June 30, 2000 to \$27.69 for the same period in 2001. The average price received per barrel of NGLs increased \$3.09, or 22%, from \$13.93 during the six months ended June 30, 2000 to \$17.02 for the same period in 2001. The average price received per mcf of gas increased 125% from \$2.18 during the six months ended June 30, 2000 to \$4.91 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than those received during the six months ended June 30, 2001.

Costs and Expenses:

Total costs and expenses increased to \$247,052 for the six months ended June 30, 2001 as compared to \$229,849 for the same period in 2000, an increase of \$17,203, or 7%. This increase was due to an increase in production costs, depletion and general and administrative expenses ("G&A").

Production costs were \$191,734 for the six months ended June 30, 2001 and \$180,904 for the same period in 2000, resulting in a \$10,830, or 6%, increase. This increase was the result of additional well maintenance and workover costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

general partner personnel and operating costs. During this period, G&A increased 12%, from \$13,868 for the six months ended June 30, 2000 to \$15,495 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$39,823 for the six months ended June 30, 2001 as compared to \$35,077 for the same period in 2000, an increase of \$4,746, or 14%. This increase was due to a decrease in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decline in oil production of 1,103 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 10% to \$209,198 for the three months ended June 30, 2001 as compared to \$232,094 for the same period in 2000. The decrease in revenues resulted from a decrease in production and lower average prices received for oil, offset by increases in the average prices

7

received for gas and NGLs. For the three months ended June 30, 2001, 4,922 barrels of oil, 2,174 barrels of NGLs and 11,900 mcf of gas were sold, or 9,079 BOEs. For the three months ended June 30, 2000, 5,654 barrels of oil, 3,426 barrels of NGLs and 11,762 mcf of gas were sold, or 11,040 BOEs.

The average price received per barrel of oil decreased \$.78, or 3%, from \$27.73 for the three months ended June 30, 2000 to \$26.95 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$1.76, or 13%, from \$13.12 during the three months ended June 30, 2000 to \$14.88 for the same period in 2001. The average price received per mcf of gas increased 44% to \$3.72 during the three months ended June 30, 2001 from \$2.58 during the same period in 2000.

### Costs and Expenses:

Total costs and expenses increased to \$123,475 for the three months ended June 30, 2001 as compared to \$115,883 for the same period in 2000, an increase of \$7,592, or 7%. This increase was due to increases in production costs and depletion, offset by a decrease in G&A.

Production costs were \$97,874 for the three months ended June 30, 2001 and \$90,344 for the same period in 2000, resulting in a \$7,530 increase, or 8%. The increase was due to an increase in well maintenance and workover costs incurred to stimulate well production, offset by a decrease in production taxes due to lower oil prices.

During this period, G&A decreased 14%, from \$7,307 for the three months ended June 30, 2000 to \$6,278 for the same period in 2001, primarily due to a lower allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues and a decrease in audit and tax fees.

Depletion was \$19,323 for the three months ended June 30, 2001 as compared to \$18,232 for the same period in 2000, an increase of \$1,091, or 6%. This increase

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

was attributable to a decrease in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices, offset by a decrease in oil production of 732 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$84,725 during the six months ended June 30, 2001 from the same period in 2000. This increase was due to an increase of \$24,822 in oil and gas sales receipts and a reduction in working capital of \$72,360, offset by increases in production costs of \$10,830 and G&A expenses of \$1,627. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$88,680 to oil and gas receipts, offset by \$63,858 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance and workover

8

costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on various oil and gas properties.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$186,038, of which \$1,860 was distributed to the managing general partner and \$184,178 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$233,181, of which \$2,332 was distributed to the managing general partner and \$230,849 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer

9

in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

-----

- (1) "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

PARKER & PARSLEY 89-B, L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 89-B, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 89-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 89-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 89-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

December 31, 2000, 1999 and 1998

## NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 89-B, L.P. (the "Partnership") is a limited partnership organized in 1989 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

**Oil and gas properties** - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

**Impairment of long-lived assets** - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

**Use of estimates in the preparation of financial statements** - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

**Net income (loss) per limited partnership interest** - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

**Income taxes** - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

**Statements of cash flows** - For purposes of reporting cash flows, cash includes depository accounts held by banks.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$30,586 and \$289,124 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$211,364 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 476,944	\$ 133,840	\$ (403,385)
Impairment of oil and gas properties for financial reporting purposes	30,586	--	289,124
Depletion and depreciation provisions for tax reporting purposes less than amounts deducted for financial reporting purposes	63,879	100,769	254,734
Other, net	(1,322)	(3,050)	3,282
	-----	-----	-----
Net income per Federal income tax returns	\$ 570,087 =====	\$ 231,559 =====	\$ 143,755 =====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 11,495 =====	\$ 8,325 =====	\$11,900 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 188,868	\$ 188,868
Completed wells and equipment	5,666,935	5,655,440
	-----	-----
Accumulated depletion	5,855,803 (4,894,889)	5,844,308 (4,791,400)
	-----	-----
Net oil and gas properties	\$ 960,914 =====	\$ 1,052,908 =====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$147,103	\$142,197	\$136,965
Reimbursement of general and administrative expenses	\$ 28,269	\$ 17,812	\$ 15,438

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89-B Conv., L.P. ("EMPL") Parker & Parsley 89-B Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1) -----	Partnerships (2) -----
Revenues:		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
Costs and expenses:		
Lease acquisition costs, drilling and completion costs and all other costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 72 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 89-B Conv., L.P. is 52.421545% and 47.578455%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	519,501	809,915
Revisions	(222,853)	(272,177)
Production	(39,063)	(57,643)
	-----	-----
Net proved reserves at December 31, 1998	257,585	480,095
Revisions	295,189	456,122
Production	(35,879)	(51,400)
	-----	-----
Net proved reserves at December 31, 1999	516,895	884,817
Revisions	1,443	(174,232)
Production	(34,089)	(46,454)
	-----	-----
Net proved reserves at December 31, 2000	484,249	664,131
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.35 per barrel of NGLs and \$7.90 per mcf of gas, discounted at 10% was approximately \$3,756,000 and undiscounted was \$7,461,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

#### Disclosures about Oil & Gas Producing Activities

##### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

11

	For the years ended December 31,		
	2000	1999	1998
	(in thousands)		
Oil and gas producing activities:			
Future cash inflows	\$ 15,796	\$ 12,909	\$ 2,833

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000	1999	1998
	----	----	----
Plains Marketing, L.P.	55%	51%	-
Genesis Crude Oil, L.P.	-	-	59%
Western Gas Resources, Inc.	4%	6%	26%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$41,588 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all

12

Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$6,949,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and offering expenses allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 61% to \$961,197 for 2000 as compared to \$597,130 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 21,703 barrels of oil, 12,386 barrels of natural gas liquids ("NGLs") and 46,454 mcf of gas were sold, or 41,831 barrel of oil equivalents ("BOEs"). In 1999, 22,376 barrels of oil, 13,503 barrels of NGLs and 51,400 mcf of gas were sold, or 44,446 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.25, or 72%, from \$16.96 in 1999 to \$29.21 in 2000. The average price received per barrel of NGLs increased \$5.99, or 63%, from \$9.57 in 1999 to \$15.56 in 2000. The average price received per mcf of gas increased 69% from \$1.72 in 1999 to \$2.90 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$493,734 as compared to \$469,149 in 1999, an increase of \$24,585, or 5%. The increase was due to increases in the impairment of oil and gas properties, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$359,243 in 2000 and \$337,025 in 1999, resulting in a \$22,218 increase, or 7%. The increase was primarily due to higher production taxes associated with higher oil and gas prices, offset by a decline in well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 39% from \$22,369 in 1999 to \$31,002 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$28,269 in 2000 and \$17,812 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$30,586 related to its oil and gas properties during 2000.

Depletion was \$72,903 in 2000 as compared to \$109,755 in 1999, representing a decrease of \$36,852, or 34%. This decrease was primarily due to an 8,955 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 15% to \$597,130 from \$518,801 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 22,376 barrels of oil, 13,503 barrels of NGLs and 51,400 mcf of gas were sold, or 44,446 BOEs. In 1998, 24,633 barrels of oil, 14,430 barrels of NGLs and 57,643 mcf of gas were sold, or 48,670 BOEs.

The average price received per barrel of oil increased \$3.70, or 28%, from \$13.26 in 1998 to \$16.96 in 1999. The average price received per barrel of NGLs increased \$2.63, or 38%, from \$6.94 in 1998 to \$9.57 in 1999. The average price received per mcf of gas increased 8% from \$1.60 in 1998 to \$1.72 in 1999.

Total costs and expenses decreased in 1999 to \$469,149 as compared to \$928,348 in 1998, a decrease of \$459,199, or 49%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$337,025 in 1999 and \$355,148 in 1998, resulting in an \$18,123 decrease, or 5%. The decrease was due to reductions in ad valorem taxes and well maintenance costs.

During this period, G&A increased 27% from \$17,625 in 1998 to \$22,369 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$17,812 in 1999 and \$15,438 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$289,124 related to its oil and gas properties during 1998.

Depletion was \$109,755 in 1999 compared to \$266,451 in 1998, representing a decrease of \$156,696, or 59%. This decrease was the result of an increase in proved reserves of 191,467 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$286,341 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$368,079, offset by increases in production costs paid of \$22,218, G&A expenses paid of \$8,633 and working capital of \$50,887. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$419,447 to oil and gas receipts, offset by \$51,368 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by a decline in well maintenance costs. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited

to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on several oil and gas properties.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$522,514, of which \$5,225 was distributed to the managing general partner and \$517,289 to the limited partners. In 1999, cash distributions to the partners were \$170,020, of which \$1,700 was distributed to the managing general partner and \$168,320 to the limited partners.

PARKER & PARSLEY 89-B, L.P.

### SELECTED FINANCIAL DATA

The following selected financial data for the Partnership should be read in connection with Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements included in the attached supplemental information.

PARKER & PARSLEY PRIVATE INVESTMENT 89, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

This document contains important information specific to Parker & Parsley Private Investment 89, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 89, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

PARKER & PARSLEY PRIVATE INVESTMENT 89, L.P.

## SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c). (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

The financial information included herein has been prepared by the managing general partner without audit by independent public accountants.

The accompanying notes are an integral part of these financial statements.

5

PARKER & PARSLEY PRIVATE INVESTMENT 89, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley Private Investment 89, L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition  
and Results of Operations (1)

### Results of Operations

Six months ended June 30, 2001 compared with six months ended  
June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 16% to \$452,230 for the six months ended June 30, 2001 as compared to \$388,517 for the same period in 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The increase in revenues resulted from higher average prices received and an

6

increase in production. For the six months ended June 30, 2001, 11,227 barrels of oil, 3,467 barrels of natural gas liquids ("NGLs") and 21,188 mcf of gas were sold, or 18,225 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 11,599 barrels of oil, 3,620 barrels of NGLs and 13,324 mcf of gas were sold, or 17,440 BOEs.

The average price received per barrel of oil increased slightly from \$27.07 for the six months ended June 30, 2000 to \$27.14 for the same period in 2001. The average price received per barrel of NGLs increased \$1.53, or 11%, from \$13.37 during the six months ended June 30, 2000 to \$14.90 for the same period in 2001. The average price received per mcf of gas increased 131% from \$1.96 during the six months ended June 30, 2000 to \$4.53 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$283,763 for the six months ended June 30, 2001 as compared to \$199,019 for the same period in 2000, an increase of \$84,744, or 43%. This increase was due to increases in production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$233,371 for the six months ended June 30, 2001 and \$158,403 for the same period in 2000, resulting in a \$74,968 increase, or 47%. The increase was attributable to additional workover and well maintenance costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 29%, from \$11,655 for the six months ended June 30, 2000 to \$15,038 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues in addition to increases in audit and tax fees.

Depletion was \$35,354 for the six months ended June 30, 2001 as compared to \$28,961 for the same period in 2000, an increase of \$6,393, or 22%. This increase was due to a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decrease in oil production of 372 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 1% to \$202,783 for the three months ended June 30, 2001 as compared to \$199,796 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas

and an increase in production, offset by lower average prices received for oil and NGLs. For the three months ended June 30, 2001, 5,318 barrels of oil, 1,848 barrels of NGLs and 10,180 mcf of gas were sold, or 8,863 BOEs. For the three months ended June 30, 2000, 5,732 barrels of oil, 1,766 barrels of NGLs and 6,851 mcf of gas were sold, or 8,640 BOEs.

The average price received per barrel of oil decreased \$.60, or 2%, from \$27.37 for the three months ended June 30, 2000 to \$26.77 for the three months ended June 30, 2001. The average price received per barrel of NGLs decreased \$1.95, or 13%, from \$15.25 during the three months ended June 30, 2000 to \$13.30 for the same period in 2001. The average price received per mcf of gas increased 51% to \$3.52 during the three months ended June 30, 2001 from \$2.33 during the same period in 2000.

#### Costs and Expenses:

Total costs and expenses increased to \$108,857 for the three months ended June 30, 2001 as compared to \$100,176 for the same period in 2000, an increase of \$8,681, or 9%. This increase was due to increases in production costs and G&A, offset by a decline in depletion.

Production costs were \$88,516 for the three months ended June 30, 2001 and \$79,969 for the same period in 2000, resulting in an \$8,547 increase, or 11%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production.

During this period, G&A increased 6%, from \$5,993 for the three months ended June 30, 2000 to \$6,328 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Depletion was \$14,013 for the three months ended June 30, 2001 as compared to \$14,214 for the same period in 2000, a decrease of \$201, or 1%. This decrease was attributable to a decrease in oil production of 414 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

#### Liquidity and Capital Resources

##### Net Cash Provided by Operating Activities

Net cash provided by operating activities decreased \$7,106 during the six months ended June 30, 2001 from the same period in 2000. This decrease was due to increases in production costs of \$74,968 and G&A expenses of \$3,383, offset by an increase in oil and gas receipts of \$63,298 and a reduction in working capital of \$7,947. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$40,500 to oil and gas receipts and \$22,798 resulting from an increase in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional workover and well maintenance costs incurred to stimulate well production and increased production taxes associated

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues in addition to increases in audit and tax fees.

### Net Cash Used in Investing Activities

The Partnership's investing activities included expenditures related to equipment upgrades on various oil and gas properties for the six months ended June 30, 2001 and 2000.

Proceeds from asset dispositions of \$721 and \$158 for the six months ended June 30, 2001 and 2000, respectively, were due to equipment credits received on active wells.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$94,260, of which \$943 was distributed to the managing general partner and \$93,317 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$201,904, of which \$2,019 was distributed to the managing general partner and \$199,885 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY PRIVATE INVESTMENT 89, L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley Private Investment 89, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 89, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

all material respects, the financial position of Parker & Parsley Private Investment 89, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

## NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 89, L.P. (the "Partnership") was organized in 1989 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1990. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$44,421 and \$18,873 related to its proved oil and gas properties during 1999 and 1998, respectively.

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

liabilities was \$49,559 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999
	-----	-----
Net income (loss) per statements of operations	\$ 454,189	\$ 40,604
Impairment of oil and gas properties for financial reporting purposes	-	44,421
Depletion and depreciation for tax reporting purposes less than amounts for financial reporting purposes	49,670	66,310
Other, net	(1,023)	(3,073)
	-----	-----
Net income per Federal income tax returns	\$ 502,836	\$ 148,262
	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Development costs	\$ 10,741	\$ 10,151	\$ 14,992
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

	2000	1999
	-----	-----
Proved properties:		
Property acquisition costs	\$ 58,953	\$ 58,953
Completed wells and equipment	5,164,770	5,154,187
	-----	-----
	5,223,723	5,213,140
Accumulated depletion	(4,351,220)	(4,291,008)
	-----	-----
Net oil and gas properties	\$ 872,503	\$ 922,132
	=====	=====

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 126,729	\$ 122,574	\$ 123,196
Reimbursement of general and administrative expenses	\$ 25,581	\$ 14,534	\$ 14,259

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 89 Private Conv., L.P. ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1) -----	Partn -----
Revenues:		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.8
After three years	19.191919%	80.8
All other revenues -		
First three years	14.141414%	85.8
After three years	19.191919%	80.8
Costs and expenses:		
Lease acquisition costs, drilling and completion costs	9.090909%	90.9
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.8
After three years	19.191919%	80.8

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	480,284	559,912
Revisions	(179,534)	(180,570)
Production	(36,741)	(44,624)
	-----	-----
Net proved reserves at December 31, 1998	264,009	334,718
Revisions	227,645	277,954
Production	(30,310)	(32,985)
	-----	-----
Net proved reserves at December 31, 1999	461,344	579,687
Revisions	37,767	(55,380)
Production	(30,738)	(30,037)
	-----	-----
Net proved reserves at December 31, 2000	468,373	494,270
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.18 per barrel of NGLs and \$7.93 per mcf of gas, discounted at 10% was approximately \$3,336,000 and undiscounted was \$6,999,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended Decem

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Plains Marketing, L.P.	65%	64%	-
Genesis Crude Oil, L.P.	-	-	57%
Western Gas Resources, Inc.	1%	3%	15%
GPM Gas Corporation	3%	3%	5%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$48,161 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

**Managing general partner** - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

12

**Limited partner liability** - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

**Initial capital contributions** - The partners entered into subscription agreements for aggregate capital contributions of \$7,060,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

### PARKER & PARSLEY PRIVATE INVESTMENT 89, L.P. (A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

##### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 75% to \$856,030 for 2000 as compared to \$487,809 in 1999. The increase in revenues resulted from higher average prices received, offset by a slight decline in production. In 2000, 22,438 barrels of oil, 8,300 barrels of natural gas liquids ("NGLs") and 30,037 mcf of gas were sold, or 35,744 barrel of oil equivalents ("BOEs"). In 1999, 20,601 barrels of oil, 9,709 barrels of NGLs and 32,985 mcf of gas were sold, or 35,808 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$11.94, or 70%, from \$17.06 in 1999 to \$29.00 in 2000. The average price received per barrel of NGLs increased \$6.17, or 71%, from \$8.69 in 1999 to \$14.86 in 2000. The average price received per mcf of gas increased 74% from \$1.57 in 1999 to \$2.73 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses decreased in 2000 to \$410,135 as compared to \$451,760 in 1999, a decrease of \$41,625, or 9%. The decrease was due to a decline in depletion and the impairment of oil and gas properties, offset by an increase in production costs and general and administrative expenses ("G&A").

Production costs were \$321,340 in 2000 and \$311,071 in 1999, resulting in a \$10,269 increase, or 3%. The increase was primarily due to higher production taxes associated with higher oil and gas prices, offset by lower well maintenance costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 47% from \$19,470 in 1999 to \$28,583 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$25,581 in 2000 and \$14,534 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$44,421 related to its oil and gas properties during 1999.

Depletion was \$60,212 in 2000 as compared to \$76,798 in 1999, representing a decrease of \$16,586, or 22%. This decrease was primarily due to a 23,945 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 2% to \$487,809 from \$478,637 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 20,601 barrels of oil, 9,709 barrels of NGLs and 32,985 mcf of gas were sold, or 35,808 BOEs. In 1998, 25,672 barrels of oil, 11,069 barrels of NGLs and 44,624 mcf of gas were sold, or 44,178 BOEs.

The average price received per barrel of oil increased \$3.78, or 28%, from \$13.28 in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$2.12, or 32%, from \$6.57 in 1998 to \$8.69 in 1999. The average price received per mcf of gas increased 8% from \$1.46 in 1998 to \$1.57 in 1999.

Total costs and expenses decreased in 1999 to \$451,760 as compared to \$594,818 in 1998, a decrease of \$143,058, or 24%. The decrease was due to a decline in depletion, offset by an increase in the impairment of oil and gas properties, production costs and G&A.

Production costs were \$311,071 in 1999 and \$300,564 in 1998, resulting in a \$10,507 increase, or 3%. The increase was due to an increase in well maintenance costs incurred to stimulate well production, offset by declines in ad valorem and production taxes.

During this period, G&A increased 15% from \$16,898 in 1998 to \$19,470 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$14,534 in 1999 and \$14,259 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$44,421 and \$18,873 related to its oil and gas properties during 1999 and 1998, respectively.

Depletion was \$76,798 in 1999 compared to \$258,483 in 1998, representing a decrease of \$181,685, or 70%. This decrease was the result of a combination of factors that included an increase in proved reserves of 160,524 barrels of oil during 1999 as a result of higher commodity prices, a decline in oil production

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of 5,071 barrels for the period ended December 31, 1999 compared to the same period in 1998 and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$337,800 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$371,960, offset by increases in production costs paid of

\$10,269, G&A expenses paid of \$9,113 and working capital of \$14,778. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$347,665 to oil and gas receipts and an increase of \$24,295 resulting from the increase in oil production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices, offset by lower well maintenance costs. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from asset dispositions of \$158 in 2000 were from equipment credits received on one active well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$465,729, of which \$4,657 was distributed to the managing general partner and \$461,072 to the limited partners. In 1999, cash distributions to the partners were \$103,460, of which \$1,035 was distributed to the managing general partner and \$102,425 to the limited partners.

OF

PARKER & PARSLEY 90-A CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 90-A Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-A Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-A Conv., L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition  
and Results of Operations (1)

### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 17% to \$147,209 for the six months ended June 30, 2001 as compared to \$125,481 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

6

a decrease in production. For the six months ended June 30, 2001, 3,049 barrels of oil, 1,282 barrels of natural gas liquids ("NGLs") and 8,155 mcf of gas were sold, or 5,690 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 3,105 barrels of oil, 1,853 barrels of NGLs and 6,902 mcf of gas were sold, or 6,108 BOEs.

The average price received per barrel of oil increased \$.43, or 2%, from \$27.46 for the six months ended June 30, 2000 to \$27.89 for the same period in 2001. The average price received per barrel of NGLs increased \$3.31, or 24%, from \$13.56 during the six months ended June 30, 2000 to \$16.87 for the same period in 2001. The average price received per mcf of gas increased 126% from \$2.20 during the six months ended June 30, 2000 to \$4.98 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$3,262 was recognized during the six months ended June 30, 2000 resulting from equipment credits received on one fully depleted well.

#### Costs and Expenses:

Total costs and expenses increased to \$75,360 for the six months ended June 30,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

2001 as compared to \$71,736 for the same period in 2000, an increase of \$3,624, or 5%. This increase was due to increases in production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$57,199 for the six months ended June 30, 2001 and \$55,415 for the same period in 2000 resulting in a \$1,784 increase, or 3%. The increase was due to higher production taxes due to higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decrease in workover costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 26% from \$3,892 for the six months ended June 30, 2000 to \$4,916 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$13,245 for the six months ended June 30, 2001 as compared to \$12,429 for the same period in 2000, an increase of \$816, or 7%. This increase was primarily due to a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices.

7

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 5% to \$65,354 for the three months ended June 30, 2001 as compared to \$61,992 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas and NGLs, offset by lower average prices received for oil and a decrease in production. For the three months ended June 30, 2001, 1,414 barrels of oil, 749 barrels of NGLs and 4,057 mcf of gas were sold, or 2,839 BOEs. For the three months ended June 30, 2000, 1,455 barrels of oil, 976 barrels of NGLs and 3,472 mcf of gas were sold, or 3,010 BOEs.

The average price received per barrel of oil decreased \$.22, or 1%, from \$27.54 for the three months ended June 30, 2000 to \$27.32 for the same period in 2001. The average price received per barrel of NGLs increased \$1.69, or 13%, from \$13.36 during the three months ended June 30, 2000 to \$15.05 for the same period in 2001. The average price received per mcf of gas increased 49% to \$3.82 during the three months ended June 30, 2001 from \$2.57 during the same period in 2000.

Gain on disposition of assets of \$3,262 was recognized during the three months ended June 30, 2000 resulting from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$38,932 for the three months ended June 30, 2001 as compared to \$38,150 for the same period in 2000, an increase of \$782, or 2%. This increase was due to an increase in depletion, offset by declines in production costs and G&A.

Production costs were \$30,568 for the three months ended June 30, 2001 and \$30,880 for the same period in 2000, resulting in a \$312 decrease, or 1%. The decrease was due to lower workover costs, offset by additional well maintenance

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

costs incurred to stimulate well production.

During this period, G&A decreased 1%, from \$1,979 for the three months ended June 30, 2000 to \$1,962 for the same period in 2001, primarily due to a decrease in audit and tax fees.

Depletion was \$6,402 for the three months ended June 30, 2001 as compared to \$5,291 for the same period in 2000, an increase of \$1,111, or 21%. This increase was attributable to a decrease in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$35,218 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$21,609 and a reduction of \$16,417 in working capital, offset by increases in production costs

8

of \$1,784 and G&A expenses of \$1,024. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$26,555 to oil and gas receipts, offset by \$4,946 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production, offset by a decrease in workover costs. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on various oil and gas properties.

Proceeds of \$3,262 recognized during the six months ended June 30, 2000 were from equipment credits on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$47,627, of which \$476 was distributed to the managing general partner and \$47,151 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$64,863, of which \$649 was distributed to the managing general partner and \$64,214 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

9

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY 90-A CONV., L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-A Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-A Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-A Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

Ernst & Young LLP

6

PARKER & PARSLEY 90-A CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-A Conv., L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$11,795 related to its proved oil and gas properties during 1998.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$109,150 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$135,356	\$34,513	\$(15,498)
Depletion and depreciation for tax reporting purposes less than amounts for financial reporting purposes	23,651	33,412	51,723
Impairment of oil and gas properties for financial reporting purposes	--	--	11,795
Other, net	(403)	1,343	1,229
	-----	-----	-----
Net income per Federal income tax returns	\$158,604 =====	\$69,268 =====	\$49,249 =====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Development costs	\$ 3,055 =====	\$ 2,507 =====	\$ 3,134 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Property acquisition costs	\$ 69,332	\$ 69,332
Completed well and equipment	1,691,929	1,688,874
	-----	-----
	1,761,261	1,758,206
Accumulated depletion	(1,390,348)	(1,363,812)
	-----	-----
Net oil and gas properties	\$ 370,913	\$ 394,394
	=====	=====

9

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 42,503	\$ 41,777	\$ 41,366
Reimbursement of general and administrative expenses	\$ 8,329	\$ 5,027	\$ 4,007

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90-A Conv., L.P. ("EMPL"), Parker & Parsley 90-A, L.P. and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)	Partnerships (2)
	-----	-----
Revenues:		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

Costs and expenses:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Lease acquisition costs, drilling and completion costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 14 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 90-A, L.P. is 25.725191% and 74.274809%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	137,987	205,757
Revisions	(49,089)	(52,907)
Production	(11,399)	(16,309)
	-----	-----
Net proved reserves at December 31, 1998	77,499	136,541
Revisions	71,585	121,688
Production	(10,130)	(14,989)
	-----	-----
Net proved reserves at December 31, 1999	138,954	243,240
Revisions	6,057	(59,715)
Production	(9,876)	(13,365)
	-----	-----
Net proved reserves at December 31, 2000	135,135	170,160
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.25 per barrel of NGLs and \$7.89 per mcf of gas, discounted at 10% was approximately \$1,053,000 and undiscounted was \$2,025,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended December 31,

	=====	=====	=====

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	54%	51%	-
TEPPCO Crude Oil LLC	12%	11%	-
NGTS LLC	10%	10%	-
Genesis Crude Oil, L.P.	-	-	57%
Western Gas Resources, Inc.	2%	5%	22%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and NGTS LLC were \$13,068, \$2,535 and \$1,423, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$2,359,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission, organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

13

PARKER & PARSLEY 90-A CONV., L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 65% to \$279,230 for 2000 as compared to \$169,279 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 6,255 barrels of oil, 3,621 barrels of natural gas liquids ("NGLs") and 13,365 mcf of gas were sold, or 12,104 barrel of oil equivalents ("BOEs"). In 1999, 6,133 barrels of oil, 3,997 barrels of NGLs and 14,989 mcf of gas were sold, or 12,628 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.26, or 72%, from \$17.06 in 1999 to \$29.32 in 2000. The average price received per barrel of NGLs increased \$6.04, or 63%, from \$9.58 in 1999 to \$15.62 in 2000. The average price received per mcf of gas increased 67% from \$1.76 in 1999 to \$2.94 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$3,262 was recognized during 2000 resulting from equipment credits received on one well.

Total costs and expenses increased in 2000 to \$150,163 as compared to \$136,517 in 1999, an increase of \$13,646, or 10%. The increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$114,159 in 2000 and \$93,178 in 1999, resulting in a \$20,981 increase, or 23%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 34% from \$7,068 in 1999 to \$9,468 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$8,329 in 2000 and \$5,027 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$26,536 in 2000 as compared to \$36,271 in 1999, representing a decrease of \$9,735, or 27%. This decrease was primarily due to a 10,806 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 11% to \$169,279 from \$152,905 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 6,133 barrels of oil, 3,997 barrels

of NGLs and 14,989 mcf of gas were sold, or 12,628 BOEs. In 1998, 7,476 barrels of oil, 3,923 barrels of NGLs and 16,309 mcf of gas were sold, or 14,117 BOEs.

The average price received per barrel of oil increased \$3.86, or 29%, from \$13.20 in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$2.56, or 36%, from \$7.02 in 1998 to \$9.58 in 1999. The average price received per mcf of gas increased 7% from \$1.64 in 1998 to \$1.76 in 1999.

Total costs and expenses decreased in 1999 to \$136,517 as compared to \$170,483 in 1998, a decrease of \$33,966, or 20%. The decrease was due to reductions in depletion, the impairment of oil and gas properties and production costs, offset by an increase in G&A.

Production costs were \$93,178 in 1999 and \$97,819 in 1998, resulting in a \$4,641 decrease, or 5%. The decrease was due to declines in ad valorem taxes and well maintenance costs.

During this period, G&A increased 42% from \$4,961 in 1998 to \$7,068 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$5,027 in 1999 and \$4,007 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$11,795 related to its oil and gas properties during 1998.

Depletion was \$36,271 in 1999 compared to \$55,908 in 1998, representing a decrease of \$19,637, or 35%. This decrease was primarily the result of an

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

increase in proved reserves of 43,411 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 1,343 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$77,593 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$111,227, offset by increases in production costs paid of

\$20,981, G&A expenses paid of \$2,400 and working capital of \$10,253. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$118,292 to oil and gas receipts, offset by \$7,065 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from disposition of assets of \$3,262 was recognized during 2000 resulting from equipment credits received on one well. Proceeds of \$2,501 during 1999 were received from equipment credits on one active well and one temporarily abandoned well.

#### Net Cash Used in Financing Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In 2000, cash distributions to the partners were \$152,116, of which \$1,521 was distributed to the managing general partner and \$150,595 to the limited partners. In 1999, cash distributions to the partners were \$53,463, of which \$535 was distributed to the managing general partner and \$52,928 to the limited partners.

PARKER & PARSLEY 90-A CONV., L.P.

### SELECTED FINANCIAL DATA

The following selected financial data for the Partnership should be read in connection with Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements included in the attached supplemental information.

	Six months ended June 30,		Years ended December		
	2001	2000	2000	1999	1998
Operating results:					
Oil and gas sales	\$147,209	\$ 125,481	\$ 279,230	\$ 169,279	\$ 152,905
Impairment of oil and gas properties	\$ --	\$ --	\$ --	\$ --	\$ 11,795
Net income (loss)	\$ 73,004	\$ 58,281	\$ 135,356	\$ 34,513	\$ (15,498)

PARKER & PARSLEY 90-A, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 90-A, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-A, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of its partnership agreement.

## NOTES TO FINANCIAL STATEMENTS

June 30, 2001

(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 90-A, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 17% to \$424,897 for the six months ended June 30, 2001 as compared to \$362,257 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the six months ended June 30, 2001, 8,803 barrels

of oil, 3,690 barrels of natural gas liquids ("NGLs") and 23,539 mcf of gas were sold, or 16,416 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 8,965 barrels of oil, 5,338 barrels of NGLs and 19,897 mcf of gas were sold, or 17,619 BOEs.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The average price received per barrel of oil increased \$.43, or 2%, from \$27.46 for the six months ended June 30, 2000 to \$27.89 for the same period in 2001. The average price received per barrel of NGLs increased \$3.31, or 24%, from \$13.56 during the six months ended June 30, 2000 to \$16.87 for the same period in 2001. The average price received per mcf of gas increased 126% from \$2.20 during the six months ended June 30, 2000 to \$4.98 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$9,419 was recognized during the six months ended June 30, 2000 resulting from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$217,772 for the six months ended June 30, 2001 as compared to \$207,671 for the same period in 2000, an increase of \$10,101, or 5%. This increase was due to increases in production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$165,130 for the six months ended June 30, 2001 and \$159,970 for the same period in 2000 resulting in a \$5,160 increase, or 3%. The increase was due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decrease in workover costs.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 23%, from \$11,738 for the six months ended June 30, 2000 to \$14,385 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$38,257 for the six months ended June 30, 2001 as compared to \$35,963 for the same period in 2000, an increase of \$2,294, or 6%. This increase was primarily due to a reduction in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 5% to \$188,539 for the three months ended June 30, 2001 as compared to \$178,954 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas and NGLs, offset by lower average prices received for oil and a decrease in production. For the three months ended June 30, 2001, 4,081 barrels of oil,

2,147 barrels of NGLs and 11,701 mcf of gas were sold, or 8,178 BOEs. For the three months ended June 30, 2000, 4,198 barrels of oil, 2,815 barrels of NGLs and 10,000 mcf of gas were sold, or 8,680 BOEs.

The average price received per barrel of oil decreased \$.22, or 1%, from \$27.54

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

for the three months ended June 30, 2000 to \$27.32 for the same period in 2001. The average price received per barrel of NGLs increased \$1.69, or 13%, from \$13.36 during the three months ended June 30, 2000 to \$15.05 for the same period in 2001. The average price received per mcf of gas increased 49% from \$2.57 during the three months ended June 30, 2000 to \$3.82 for the same period in 2001.

Gain on disposition of assets of \$9,419 was recognized during the three months ended June 30, 2000 from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses increased to \$112,600 for the three months ended June 30, 2001 as compared to \$110,542 for the same period in 2000, an increase of \$2,058, or 2%. This increase was due to an increase in depletion, offset by declines in production costs and G&A.

Production costs were \$88,253 for the three months ended June 30, 2001 and \$89,154 for the same period in 2000 resulting in a \$901 decrease, or 1%. The decrease was due to lower workover costs, offset by additional well maintenance costs incurred to stimulate well production.

During this period, G&A decreased 4%, from \$6,057 for the three months ended June 30, 2000 to \$5,824 for the same period in 2001, primarily due to a decrease in audit and tax fees.

Depletion was \$18,523 for the three months ended June 30, 2001 as compared to \$15,331 for the same period in 2000, an increase of \$3,192, or 21%. This increase was primarily due to a reduction in proved reserves during the period ended June 30, 2001 as a result of lower commodity prices.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$102,134 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase of \$62,291 in oil and gas sales receipts and a reduction of \$47,650 in working capital, offset by increases in production costs of \$5,160 and G&A expenses of \$2,647. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$76,480 to oil and gas receipts, offset by \$14,189 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production, offset by a decrease in workover costs. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were for expenditures related to equipment upgrades on active oil and gas properties.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Proceeds of \$9,419 recognized during the six months ended June 30, 2000 were from equipment credits on one fully depleted well.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$137,512, of which \$1,375 was distributed to the managing general partner and \$136,137 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$187,276, of which \$1,873 was distributed to the managing general partner and \$185,403 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to

the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 90-A, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 6,811 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers. Of the Partnership's total oil and gas revenues for 2000, approximately 54%, 12% and 10% were attributable to sales made to Plains Marketing, L.P., TEPPCO Crude Oil LLC and NGTS LLC, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 27 oil and gas wells. Two wells have been sold. At December 31, 2000, 25 wells were producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

## DISTRIBUTIONS

At March 8, 2001, the Partnership had 6,811 outstanding limited partnership interests held of record by 525 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$434,802 and \$152,818, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000 -----	1999 -----	1998 -----	1997 -----	-----
Operating results:					
-----					
Oil and gas sales	\$ 806,344 =====	\$ 488,752 =====	\$ 441,480 =====	\$ 643,882 =====	\$ ----- =====

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 65% to \$806,344 for 2000 as compared to \$488,752 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 18,065 barrels of oil, 10,454 barrels of natural gas liquids ("NGLs") and 38,570 mcf of gas were sold, or 34,947 barrel of oil equivalents ("BOEs"). In 1999, 17,702 barrels of oil, 11,546 barrels of NGLs and 43,302 mcf of gas were sold, or 36,465 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.26, or 72% from \$17.06 in 1999 to \$29.32 in 2000. The average price received per barrel of NGLs increased \$6.04, or 63% from \$9.58 in 1999 to \$15.62 in 2000. The average price received per mcf of gas increased 67% in 2000 to \$2.94 compared to \$1.76 in 1999. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$9,419 was recognized during 2000 resulting from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$433,960 as compared to \$394,007 in 1999, an increase of \$39,953, or 10%. This increase was primarily due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$329,608 in 2000 and \$269,017 in 1999, resulting in an increase of \$60,591, or 23%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 36% from \$20,244 in 1999 to \$27,629 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$24,038 in 2000 and \$14,514 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Depletion was \$76,723 in 2000 compared to \$104,746 in 1999, representing a decrease of \$28,023, or 27%. This decrease was primarily due to a 33,982 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 11% to \$488,752 from \$441,480 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 17,702 barrels of oil, 11,546 barrels of NGLs and 43,302 mcf of gas were sold, or 36,465 BOEs. In 1998, 21,587 barrels of oil, 11,328 barrels of NGLs and 47,086 mcf of gas were sold, or 40,763 BOEs.

The average price received per barrel of oil increased \$3.86, or 29% from \$13.20 in 1998 to \$17.06 in 1999. The average price received per barrel of NGLs increased \$2.56, or 36% from \$7.02 in 1998 to \$9.58 in 1999. The average price received per mcf of gas increased 7% in 1999 to \$1.76 compared to \$1.64 in 1998.

Total costs and expenses decreased in 1999 to \$394,007 as compared to \$492,078 in 1998, a decrease of \$98,071, or 20%. This decrease was primarily due to declines in depletion, the impairment of oil and gas properties and production costs, offset by an increase in G&A.

Production costs were \$269,017 in 1999 and \$282,430 in 1998, resulting in a \$13,413 decline, or 5%. The decline includes a reduction in ad valorem taxes and less well maintenance costs.

During this period, G&A increased 43% from \$14,124 in 1998 to \$20,244 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$14,514 in 1999 and \$11,560 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$34,145 related to its oil and gas properties during 1998.

Depletion was \$104,746 in 1999 compared to \$161,379 in 1998. This represented a decrease of \$56,633, or 35%. This decrease was primarily the result of an increase in proved reserves of 125,332 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 3,885 barrels for the period ended December 31, 1999 compared to the same period in 1998.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$223,816 during the year ended December 31, 2000 from 1999. This increase was due to increases in oil and gas sales receipts of \$321,283, offset by increases in production costs paid of \$60,591, G&A expenses paid of \$7,385 and working capital of \$29,491. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$341,604 to oil and gas receipts, offset by \$20,321 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's investing activities during 2000 and 1999 were for expenditures related to oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$9,419 were recognized during 2000 from equipment credits on one fully depleted well and proceeds of \$7,220 in 1999 were from equipment credits received on one active property and one temporarily abandoned property.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$439,194, of which \$4,392 was distributed to the managing general partner and \$434,802 to the limited partners. In 1999, cash distributions to the partners were \$154,362 of which \$1,544 was distributed to the managing general partner and \$152,818 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

PARKER & PARSLEY 90-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-A, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$34,145 related to its proved oil and gas properties during 1998.

NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

liabilities was \$315,080 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999	1998
Net income (loss) per statements of operations	\$ 390,714	\$ 99,965	\$ (44,000)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	68,390	96,496	149,000
Impairment of oil and gas properties for financial reporting purposes	-	-	34,000
Other, net	(1,209)	3,745	3,000
	\$ 457,895	\$ 200,206	\$ 142,000
Net income per Federal income tax returns			

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
Development costs	\$ 8,823	\$ 7,237	\$ 9,047
	\$ 8,823	\$ 7,237	\$ 9,047

Capitalized oil and gas properties consist of the following:

	2000	1999
Proved properties:		
Property acquisition costs	\$ 200,177	\$ 200,177
Completed wells and equipment	4,885,008	4,876,185
	5,085,185	5,076,362
Accumulated depletion	(4,014,368)	(3,937,645)
	\$ 1,070,817	\$ 1,138,717
Net oil and gas properties		

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 122,715	\$ 120,620	\$ 119,432
Reimbursement of general and administrative expenses	\$ 24,038	\$ 14,514	\$ 11,560

16

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 90-A, L.P., ("EMPL"), Parker & Parsley 90-A Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)	Partnerships (2)
Revenues:		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
Costs and expenses:		
Lease acquisition costs, drilling and completion and all other costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 147 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 90-A Conv., L.P. is 74.274809% and 25.725191%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	398,405	594,075
Revisions	(141,729)	(152,757)
Production	(32,915)	(47,086)
	-----	-----
Net proved reserves at December 31, 1998	223,761	394,232
Revisions	206,682	351,371
Production	(29,248)	(43,302)
	-----	-----
Net proved reserves at December 31, 1999	401,195	702,301
Revisions	21,424	(168,710)
Production	(28,519)	(38,570)
	-----	-----
Net proved reserves at December 31, 2000	394,100	495,021
	=====	=====

17

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.25 per barrel of NGLs and \$7.89 per mcf of gas, discounted at 10% was approximately \$3,042,000 and undiscounted was \$5,865,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended December 31,		
	2000	1999	1998
	(in thousands)		
Oil and gas producing activities:			
Future cash inflows	\$ 12,560	\$ 9,975	\$ 2,464

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	54%	51%	-
TEPPCO Crude Oil LLC	12%	11%	-
NGTS LLC	10%	10%	3%
Western Gas Resources, Inc.	2%	5%	22%
Genesis Crude Oil, L.P.	-	-	57%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and NGTS LLC were \$37,832, \$7,318 and \$4,105, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

**Managing general partner** - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

19

**Limited partner liability** - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

**Initial capital contributions** - The limited partners entered into subscription agreements for aggregate capital contributions of \$6,811,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name -----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 147 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

23

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 122,715	\$ 120,620	\$ 119,432
Reimbursement of general and administrative expenses	\$ 24,038	\$ 14,514	\$ 11,560

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

24

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 90-B CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 90-B Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-B Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment	(c), (f)	\$

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 90-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1990 under the laws of the State of Texas and was converted to a Delaware limited partnership on August 1, 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 11% to \$763,083 for the six months ended June 30, 2001 as compared to \$687,189 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

a decrease in production. For the six months ended June 30, 2001, 17,353 barrels of oil, 6,410 barrels of natural gas liquids ("NGLs") and 35,369 mcf of gas were sold, or 29,658 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 17,958 barrels of oil, 8,604 barrel of NGLs and 33,016 mcf of gas were sold, or 32,065 BOEs.

The average price received per barrel of oil increased \$.54, or 2%, from \$27.72 for the six months ended June 30, 2000 to \$28.26 for the same period in 2001. The average price received per barrel of NGLs increased \$2.09, or 15%, from \$14.00 during the six months ended June 30, 2000 to \$16.09 for the same period in 2001. The average price received per mcf of gas increased 130% from \$2.08 for the six months ended June 30, 2000 to \$4.79 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$3,054 and \$2,023 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the period in 2001 was due to salvage income received on one well plugged and abandoned during the current year. The gain recognized during the period in 2000 was from the sale of equipment on one fully depleted well.

#### Costs and Expenses:

Total costs and expenses increased to \$362,535 for the six months ended June 30, 2001 as compared to \$351,544 for the same period in 2000, an increase of \$10,991, or 3%. This increase was due to increases in production costs, abandoned property costs, depletion and general and administrative expenses ("G&A").

Production costs were \$282,193 for the six months ended June 30, 2001 and \$277,308 for the same period in 2000, resulting in a \$4,885 increase, or 2%. This increase was primarily due to higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 5% from \$21,724 for the six months ended June 30, 2000 to \$22,884 for the same period in 2001, primarily due to an increase in audit and tax fees.

Depletion was \$54,399 for the six months ended June 30, 2001 as compared to \$52,512 for the same period in 2000, an increase of \$1,887, or 4%. This increase was due to downward revisions to proved reserves on several wells during the period ended June 30, 2001, offset by a reduction in the Partnership's net depletable basis from charges taken in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000 and a decline in oil production of 605 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Abandoned property costs of \$3,059 were incurred during the six months ended June 30, 2001 due to the plugging and abandonment of one well during the current period.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

Revenues:

The Partnership's oil and gas revenues decreased 5% to \$338,348 for the three months ended June 30, 2001 as compared to \$356,486 for the same period in 2000. The decrease in revenues resulted from lower average prices received for oil and NGLs and a decline in production, offset by higher average prices received for gas. For the three months ended June 30, 2001, 8,598 barrels of oil, 3,171 barrels of NGLs and 16,373 mcf of gas were sold, or 14,498 BOEs. For the three months ended June 30, 2000, 8,968 barrels of oil, 4,625 barrels of NGLs and 17,395 mcf of gas were sold, or 16,492 BOEs.

The average price received per barrel of oil decreased \$.51, or 2%, from \$27.75 for the three months ended June 30, 2000 to \$27.24 for the same period in 2001. The average price received per barrel of NGLs decreased \$.22, or 2%, from \$14.10 during the three months ended June 30, 2000 to \$13.88 for the same period in 2001. The average price received per mcf of gas increased 50% from \$2.44 during the three months ended June 30, 2000 to \$3.67 for the same period in 2001.

Gain on disposition of assets of \$1,079 was recognized during the three months ended June 30, 2001 due to salvage income received on one well plugged and abandoned during the current period.

Costs and Expenses:

Total costs and expenses decreased to \$178,847 for the three months ended June 30, 2001 as compared to \$181,044 for the same period in 2000, a decrease of \$2,197, or 1%. This decrease was due to declines in production costs and G&A, offset by increases in abandoned property costs and depletion.

Production costs were \$138,987 for the three months ended June 30, 2001 and \$143,700 for the same period in 2000, resulting in a \$4,713 decrease, or 3%. The decrease was primarily due to lower workover expense.

During this period, G&A decreased 20% from \$11,592 for the three months ended June 30, 2000 to \$9,322 for the same period in 2001, principally due to a lower percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues and a decline in audit and tax fees.

Depletion was \$27,479 for the three months ended June 30, 2001 as compared to \$25,752 for the same period in 2000, an increase of \$1,727, or 7%. This increase was due to downward revisions to proved reserves on several properties during the period ended June 30, 2001, offset by a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 2000 and a decline in oil production of 370 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Abandoned property costs of \$3,059 were incurred during the three months ended June 30, 2001 due to the plugging and abandonment of one well during the current period.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$140,001 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase resulted from an increase of \$76,203 in oil and gas sales receipts and a reduction in working capital of \$72,902, offset by increases in production costs of \$4,885, abandoned property costs of \$3,059 and G&A expenses of \$1,160. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$117,367 to oil and gas receipts, offset by \$41,164 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to an increase in audit and tax fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities for the six months ended June 30, 2001 and 2000 were for expenditures related to oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$3,054 and \$2,023 were received during the six months ended June 30, 2001 and 2000, respectively. The proceeds recognized during the period in 2001 were due to salvage income from one well plugged and abandoned during the current year. The proceeds recognized during 2000 were derived from the sale of equipment on one fully depleted well.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$285,221, of which \$2,852 was distributed to the managing general partner and \$282,369 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$362,661, of which \$3,627 was distributed to the managing general partner and \$359,034 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

No market currently exists for the limited partnership interests of the Registrant. Based on the original purchase price, the aggregate market value of limited partnership interests owned by non-affiliates of the Registrant is \$11,817,000.

As of March 8, 2001, the number of outstanding limited partnership interests was 11,897.

The following documents are incorporated by reference into the indicated parts of this Annual Report on Form 10-K: None  
PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 90-B Conv., L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas. The Partnership converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,897 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 48% was attributable to sales made to Plains Marketing, L.P., 10% to TEPPCO Crude Oil LLC and 10% to Phillips Petroleum Company. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or

2

other liabilities and compliance may increase the cost of the Partnership's operations. The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 104 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, the Partnership had 103 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

3

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,897 outstanding limited partnership interests held of record by 665 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$825,165 and \$271,636, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000	1999	1998	1997
	-----	-----	-----	-----
Operating results:

	=====	=====	=====	=====

4

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 67% to \$1,513,122 for 2000 as compared to \$907,791 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 36,592 barrels of oil, 16,796 barrels of natural gas liquids ("NGLs") and 64,786 mcf of gas were sold, or 64,186 barrel of oil equivalents ("BOEs"). In 1999, 36,383 barrels of oil, 17,481 barrels of NGLs and 70,803 mcf of gas were sold, or 65,665 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.00, or 70%, from \$17.23 in 1999 to \$29.23 in 2000. The average price received per barrel of NGLs increased \$5.96, or 63%, from \$9.49 in 1999 to \$15.45 in 2000. The average price received per mcf of gas increased 75% from \$1.62 in 1999 to \$2.84 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$2,023 recognized in 2000 was due to equipment credits received on one fully depleted well.

Total costs and expenses decreased to \$739,327 in 2000 as compared to \$749,072 in 1999, a decrease of \$9,745, or 1%. The decrease was due to declines in the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

impairment of oil and gas properties and depletion, offset by increases in production costs and general and administrative expenses ("G&A").

Production costs were \$557,245 in 2000 and \$478,183 in 1999, resulting in an increase of \$79,062, or 17%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 30% from \$35,038 in 1999 to \$45,379 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$40,368 in 2000 and \$27,181 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$31,774 and \$88,497 related to its oil and gas properties during 2000 and 1999, respectively.

Depletion was \$104,929 in 2000 compared to \$147,354 in 1999, representing a decrease of \$42,425, or 29%. The decrease was primarily due to a 27,994 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 19% to \$907,791 from \$764,787 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 36,383 barrels of oil, 17,481 barrels of NGLs and 70,803 mcf of gas were sold, or 65,665 BOEs. In 1998, 41,140 barrels of oil, 17,403 barrels of NGLs and 73,460 mcf of gas were sold, or 70,786 BOEs.

The average price received per barrel of oil increased \$4.11, or 31%, from \$13.12 in 1998 to \$17.23 in 1999. The average price received per barrel of NGLs increased \$2.89, or 44%, from \$6.60 in 1998 to \$9.49 in 1999. The average price received per mcf of gas increased 8% from \$1.50 in 1998 to \$1.62 in 1999.

Gain on disposition of assets of \$1,669 for 1998 was attributable to credits received from the disposal of oil and gas equipment on a fully depleted well and on one well that was plugged and abandoned in a prior year.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses decreased to \$749,072 in 1999 as compared to \$1,147,349 in 1998, a decrease of \$398,277, or 35%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$478,183 in 1999 and \$517,526 in 1998, resulting in a \$39,343 decrease, or 8%. The decrease was due to declines in well maintenance costs, ad valorem taxes and workover costs, offset by an increase in production taxes due to increased oil and gas sales.

During this period, G&A increased 31% from \$26,722 in 1998 to \$35,038 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,181 in 1999 and \$22,923 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$88,497 and \$275,430 related to its oil and gas properties during 1999 and 1998, respectively.

6

Depletion was \$147,354 in 1999 compared to \$327,671 in 1998. This represented a decrease of \$180,317, or 55%. The decrease was primarily due to an increase in proved reserves of 280,631 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 4,757 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$504,622 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

and gas sales receipts of \$611,256, offset by increases in production costs paid of \$79,062, G&A expenses paid of \$10,341 and working capital of \$17,231. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$632,790 to oil and gas receipts, offset by \$21,534 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$2,023 recognized in 2000 were due to equipment credits received on one fully depleted well.

7

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$833,500, of which \$8,335 was distributed to the managing general partner and \$825,165 to the limited partners. In 1999, cash distributions to the partners were \$274,380, of which \$2,744 was distributed to the managing general partner and \$271,636 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-B Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-B Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-B Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

14

PARKER & PARSLEY 90-B CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-B Conv., L.P. (the "Partnership") was organized as a general partnership in 1990 under the laws of the State of Texas and was converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

15

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$31,774, \$88,497 and \$275,430 related to its proved oil and gas properties during 2000, 1999 and 1998, respectively.

16

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$233,211 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Net income (loss) per statements of operations	\$ 787,438	\$ 164,414	\$ (373,956)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	90,499	132,570	175,500
Impairment of oil and gas properties for financial reporting purposes	31,774	88,497	275,430
Other, net	(1,742)	(4,660)	3,987
	-----	-----	-----
Net income per Federal income tax returns	\$ 907,969	\$ 380,821	\$ 80,961
	=====	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Development costs	\$ 15,304	\$ 12,347	\$ 18,344
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

	2000		1999
	-----		-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Proved properties:

Property acquisition costs	\$ 369,498	\$ 369,498
Completed wells and equipment	9,258,622	9,243,318
	-----	-----
	9,628,120	9,612,816
Accumulated depletion	(8,075,752)	(7,939,049)
	-----	-----
Net oil and gas properties	\$1,552,368	\$1,673,767
	=====	=====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 211,037	\$ 214,306	\$ 209,549
Reimbursement of general and administrative expenses	\$ 40,368	\$ 27,181	\$ 22,923

17

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90-B Conv., L.P. ("EMPL"), Parker & Parsley 90-B, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA(1)	Partnerships(2)
	-----	-----
Revenues:		
Proceeds from disposition of depreciable and depletable properties:		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Costs and expenses:

Lease acquisition costs, drilling and completion costs and all other costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses:		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 80 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 90-B, L.P. is 26.94006% and 73.05994%, respectively.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	914,930	864,646
Revisions	(446,456)	(190,771)
Production	(58,543)	(73,460)
	-----	-----
Net proved reserves at December 31, 1998	409,931	600,415
Revisions	435,645	666,249
Production	(53,864)	(70,803)
	-----	-----
Net proved reserves at December 31, 1999	791,712	1,195,861
Revisions	15,019	(155,368)
Production	(53,388)	(64,786)
	-----	-----
Net proved reserves at December 31, 2000	753,343	975,707
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.19 per barrel of NGLs and \$7.66 per mcf of gas, discounted at 10% was approximately \$5,752,000 and undiscounted was \$11,644,000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	48%	46%	-
TEPPCO Crude Oil LLC	10%	11%	-
Genesis Crude Oil, L.P.	-	-	58%
Western Gas Resources, Inc.	4%	5%	21%
Phillips Petroleum Company	10%	5%	5%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company were \$65,440, \$13,643 and \$7,386, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The

majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$11,897,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name -----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the outstanding limited partnership interests of the Partnership. Pioneer USA owned 80 limited partnership interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

24

	2000	1999	1998
	-----		
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 211,037	\$ 214,306	\$ 209,549
Reimbursement of general and administrative expenses	\$ 40,368	\$ 27,181	\$ 22,923

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000,  
1999 and 1998

Statements of partners' capital for the years ended December 31,  
2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000,  
1999 and 1998

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the  
required information is in the financial statements or notes thereto,  
or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or  
incorporated by reference as part of this Report.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 90-B, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-B, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment	(c), (f)	\$

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-B, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 11% to \$2,069,524 for the six months ended June 30, 2001 as compared to \$1,863,518 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decrease in production. For the six months ended June 30, 2001, 47,052 barrels of oil, 17,412 barrels of natural gas liquids ("NGLs") and 95,918

7

mcf of gas were sold, or 80,450 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 48,699 barrels of oil, 23,339 barrels of NGLs and 89,536 mcf of gas were sold, or 86,961 BOEs.

The average price received per barrel of oil increased \$.54, or 2%, from \$27.72 for the six months ended June 30, 2000 to \$28.26 for the same period in 2001. The average price received per barrel of NGLs increased \$2.09, or 15%, from \$14.00 during the six months ended June 30, 2000 to \$16.09 for the same period in 2001. The average price received per mcf of gas increased 130% from \$2.08 for the six months ended June 30, 2000 to \$4.79 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gains on disposition of assets of \$8,283 and \$5,487 were recognized during the six months ended June 30, 2001 and 2000, respectively. The gain recognized during the period in 2001 was due to salvage income received from one well plugged and abandoned during the current year. The gain recognized during the period in 2000 was from the sale of equipment on one fully depleted well.

#### Costs and Expenses:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased to \$982,646 for the six months ended June 30, 2001 as compared to \$953,283 for the same period in 2000, an increase of \$29,363, or 3%. The increase was due to increases in production costs, abandoned property costs, depletion and general and administrative expenses ("G&A").

Production costs were \$765,323 for the six months ended June 30, 2001 and \$752,025 for the same period in 2000, resulting in a \$13,298 increase, or 2%. The increase was primarily the result of higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 5% from \$58,911 for the six months ended June 30, 2000 to \$61,934 for the same period in 2001, primarily due to an increase in tax and audit fees.

Depletion was \$147,093 for the six months ended June 30, 2001 as compared to \$142,347 for the same period in 2000, an increase of \$4,746, or 3%. This increase was primarily due to downward revisions to proved reserves on several wells during the period ended June 30, 2001, offset by a reduction in the Partnership's net depletable basis from charges taken in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000 and a decline in oil production of 1,647 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Abandoned property costs of \$8,296 were incurred during the six months ended June 30, 2001 due to the plugging and abandonment of one well during the current year.

8

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 5% to \$917,666 for the three months ended June 30, 2001 as compared to \$966,583 for the same period in 2000. The decrease in revenues resulted from a decline in production and lower average prices received for oil and NGLs, offset by higher average prices received for gas. For the three months ended June 30, 2001, 23,315 barrels of oil, 8,603 barrels of NGLs and 44,414 mcf of gas were sold, or 39,320 BOEs. For the three months ended June 30, 2000, 24,312 barrels of oil, 12,529 barrels of NGLs and 47,154 mcf of gas were sold, or 44,700 BOEs.

The average price received per barrel of oil decreased \$.51, or 2%, from \$27.75 for the three months ended June 30, 2000 to \$27.24 for the same period in 2001. The average price received per barrel of NGLs decreased \$.22, or 2%, from \$14.10 during the three months ended June 30, 2000 to \$13.88 for the same period in 2001. The average price received per mcf of gas increased 50% from \$2.44 during the three months ended June 30, 2000 to \$3.67 for the same period in 2001.

Gain on disposition of assets of \$2,926 was recognized during the three months ended June 30, 2001 due to salvage income received from one well plugged and abandoned during the current period.

### Costs and Expenses:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses decreased to \$484,991 for the three months ended June 30, 2001 as compared to \$490,837 for the same period in 2000, a decrease of \$5,846, or 2%. This decrease was due to declines in production costs and G&A, offset by increases in abandoned property costs and depletion.

Production costs were \$376,953 for the three months ended June 30, 2001 and \$389,681 for the same period in 2000 resulting in a \$12,728 decrease, or 3%. This decrease was primarily due to lower workover expense.

During this period, G&A decreased 20% from \$31,430 for the three months ended June 30, 2000 to \$25,284 for the same period in 2001, primarily due to a lower percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues and a decline in audit and tax fees.

Depletion was \$74,458 for the three months ended June 30, 2001 as compared to \$69,726 for the same period in 2000, an increase of \$4,732, or 7%. This increase was primarily due to downward revisions to proved reserves on several wells during the period ended June 30, 2001, offset by a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 2000 and a decline in oil production of 997 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

Abandoned property costs of \$8,296 were incurred during the three months ended June 30, 2001 due to the plugging and abandonment of one well during the current period.

9

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$326,867 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase resulted from an increase of \$207,022 in oil and gas sales receipts and a reduction in working capital of \$144,462, offset by increases in production costs of \$13,298, abandoned property costs of \$8,296 and G&A expenses of \$3,023. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$318,339 to oil and gas receipts, offset by \$111,317 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to an increase in audit and tax fees.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities for the six months ended June 30, 2001 and 2000 were related to expenditures for upgrades of oil and gas equipment on active properties.

Proceeds from asset dispositions of \$8,283 and \$5,487 were received during the six months ended June 30, 2001 and 2000, respectively. The proceeds recognized during the period in 2001 were due to salvage income from one well plugged and abandoned during the current year. The proceeds recognized during 2000 were from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the sale of equipment on one fully depleted well.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$773,504, of which \$7,735 was distributed to the managing general partner and \$765,769 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$983,517, of which \$9,835 was distributed to the managing general partner and \$973,682 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships

10

that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

## PART I

### ITEM 1. BUSINESS

Parker & Parsley 90-B, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 32,264 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA supplies all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 48% was attributable to sales made to Plains Marketing, L.P., 10% to TEPPCO Crude Oil LLC and 10% to Phillips Petroleum Company. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 104 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, the Partnership had 103 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

At March 8, 2001, the Partnership had 32,264 outstanding limited partnership interests held of record by 2,201 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$2,237,802 and \$736,663, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000	1999	1998	1997
	-----	-----	-----	-----
Operating results:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 7. MANAGEMENT' DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of Operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 67% to \$4,103,548 for 2000 as compared to \$2,461,819 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 99,252 barrels of oil, 45,552 barrels of natural gas liquids ("NGLs") and 175,696 mcf of gas were sold, or 174,087 barrel of oil equivalents ("BOEs"). In 1999, 98,658 barrels of oil, 47,406 barrels of NGLs and 192,016 mcf of gas were sold, or 178,067 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.00, or 70%, from \$17.23 in 1999 to \$29.23 in 2000. The average price received per barrel of NGLs increased \$5.96, or 63%, from \$9.49 in 1999 to \$15.45 in 2000. The average price received per mcf of gas increased 75% from \$1.62 in 1999 to \$2.84 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$5,487 recognized in 2000 was due to equipment credits received on one fully depleted well.

Total costs and expenses decreased in 2000 to \$2,004,420 as compared to \$2,029,978 in 1999, a decrease of \$25,558, or 1%. The decrease was due to declines in the impairment of oil and gas properties and depletion, offset by increases in production costs and general and administrative expenses ("G&A").

Production costs were \$1,511,223 in 2000 and \$1,296,822 in 1999, resulting in an increase of \$214,401, or 17%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 31% from \$93,562 in 1999 to \$122,731 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$109,474 in 2000 and \$73,707 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$86,231 and \$240,063 related to its oil and gas properties during 2000 and 1999, respectively.

Depletion was \$284,235 in 2000 compared to \$399,531 in 1999, representing a decrease of \$115,296, or 29%. This decrease was primarily due to an 81,075 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 19% to \$2,461,819 from \$2,074,056 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 98,658 barrels of oil, 47,406 barrels of NGLs and 192,016 mcf of gas were sold, or 178,067 BOEs. In 1998, 111,585 barrels of oil, 47,190 barrels of NGLs and 199,215 mcf of gas were sold, or 191,978 BOEs.

The average price received per barrel of oil increased \$4.11, or 31%, from \$13.12 in 1998 to \$17.23 in 1999. The average price received per barrel of NGLs increased \$2.89, or 44%, from \$6.60 in 1998 to \$9.49 in 1999. The average price received per mcf of gas increased 8% from \$1.50 in 1998 to \$1.62 in 1999.

A gain on disposition of assets of \$4,527 recognized during 1998 was due to credits received from the disposal of oil and gas equipment on one fully depleted well and one well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$2,029,978 as compared to \$3,108,696 in 1998, a decrease of \$1,078,718, or 35%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$1,296,822 in 1999 and \$1,403,494 in 1998, resulting in a \$106,672 decrease, or 8%. The decrease was due to declines in well maintenance costs, ad valorem taxes and workover costs.

During this period, G&A increased 29% from \$72,284 in 1998 to \$93,562 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$73,707 in 1999 and \$62,152 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized non-cash SFAS 121 charges of \$240,063 and \$744,642 related to its oil and gas properties during 1999 and 1998, respectively.

Depletion was \$399,531 in 1999 compared to \$888,276 in 1998. This represented a decrease of \$488,745, or 55%. This decrease was primarily due to an increase in proved reserves of 761,146 barrels of oil during 1999 due to higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 12,927 barrels for the period ended December 31, 1999 compared

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$1,473,163 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$1,657,757 and a decline in working capital of \$58,976, offset by increases in production costs paid of \$214,401 and G&A expenses paid of \$29,169. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$1,715,313 to oil and gas receipts, offset by \$57,556 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$5,487 recognized in 2000 were due to equipment credits received on one fully depleted well.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$2,260,406, of which \$22,604 was distributed to the managing general partner and \$2,237,802 to the limited partners. In 1999, cash distributions to the partners were \$744,104, of which \$7,441 was distributed to the managing general partner and \$736,663 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-B, L.P.  
(A Delaware Limited Partnership):

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

We have audited the balance sheets of Parker & Parsley 90-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 90-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-B, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

15

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$86,231, \$240,063 and \$744,642 related to its proved oil and gas properties during 2000, 1999 and 1998, respectively.

16

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$632,807 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999
	-----	-----
Net income (loss) per statements of operations	\$ 2,136,271	\$ 447,469
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	246,057	359,438
Impairment of oil and gas properties for financial reporting purposes	86,231	240,063
Other, net	(4,768)	(12,935)
	-----	-----
Net income per Federal income tax returns	\$ 2,463,791	\$ 1,034,035
	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	1998 -----
Development costs	\$ 41,504 =====	\$ 33,486 =====	\$ 49,747 =====

Capitalized oil and gas properties consist of the following:

	2000 -----	1999 -----
Proved properties:		
Property acquisition costs	\$ 1,002,057	\$ 1,002,057
Completed wells and equipment	25,108,873	25,067,369
	-----	-----
	26,110,930	26,069,426
Accumulated depletion	(21,899,717)	(21,529,251)
	-----	-----
Net oil and gas properties	\$ 4,211,213 =====	\$ 4,540,175 =====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 572,323 -----	\$ 581,191 -----	\$ 568,275 -----
Reimbursement of general and administrative expenses	\$ 109,474	\$ 73,707	\$ 62,152

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 90-B Conv., L.P. ("EMPL"), Parker & Parsley 90-B Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA(1)	Partnerships(2)
<b>Revenues:</b>		
Proceeds from disposition of depreciable and depletable properties		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
<b>Costs and expenses:</b>		
Lease acquisition costs, drilling and completion costs and all other costs	9.090909%	90.909091%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 83 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 90-B Conv., L.P. is 73.05994% and 26.94006%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
Net proved reserves at January 1, 1998	2,481,201	2,344,959
Revisions	(1,210,571)	(517,240)
Production	(158,775)	(199,215)
	-----	-----
Net proved reserves at December 31, 1998	1,111,855	1,628,504
Revisions	1,181,592	1,807,095
Production	(146,064)	(192,016)
	-----	-----
Net proved reserves at December 31, 1999	2,147,383	3,243,583
Revisions	46,430	(419,625)

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production	(144,804)	(175,696)
	-----	-----
Net proved reserves at December 31, 2000	2,049,009	2,648,262
	=====	=====

18

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.19 per barrel of NGLs and \$7.66 per mcf of gas, discounted at 10% was approximately \$15,617,000 and undiscounted was \$31,632,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider probable reserves, anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	48%	46%	-
TEPPCO Crude Oil LLC	10%	11%	-

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Genesis Crude Oil, L.P.	-	-	58%
Western Gas Resources, Inc.	4%	5%	22%
Phillips Petroleum Company	10%	5%	5%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., TEPPCO Crude Oil LLC and Phillips Petroleum Company were \$177,462, \$37,001 and \$20,032, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The

20

majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$32,264,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

## PART III

## ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name ----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

22

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

23

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 83 limited partnership interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

24

	2000 -----	1999 -----	1998 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 572,323	\$ 581,191	\$ 568,275
Reimbursement of general and administrative expenses	\$ 109,474	\$ 73,707	\$ 62,152

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000, 1999 and 1998

Statements of partners' capital for the years ended December 31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000, 1999 and 1998

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the required information is in the financial statements or notes thereto, or is not applicable nor required.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or incorporated by reference as part of this Report.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 90-C CONV., L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 90-C Conv., L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-C Conv., L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-1-

PARKER & PARSLEY 90-C CONV., L.P.

SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners (a)	\$ 7,5
Aggregate Historical Limited Partner Distributions through July 31, 2001 (a)	\$ 4,9
Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA (a), (b)	\$ 1,8
Merger Value per \$1,000 Limited Partner Investment (b), (c)	\$247.
Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001 (b), (c)	3.
Book Value per \$1,000 Limited Partner Investment:

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f)	\$ 1

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP, of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

PARKER & PARSLEY 90-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

Parker & Parsley 90-C Conv., L.P. (the "Partnership") was organized as a general partnership in 1990 under the laws of the State of Texas and was converted to a Delaware limited partnership on August 1, 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Item 2. Management's Discussion and Analysis of Financial Condition  
and Results of Operations (1)

Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

Revenues:

The Partnership's oil and gas revenues increased 7% to \$444,118 for the six months ended June 30, 2001 as compared to \$414,898 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

a decline in production. For the six months ended June 30, 2001, 11,505 barrels

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of oil, 2,477 barrels of natural gas liquids ("NGLs") and 17,805 mcf of gas were sold, or 16,950 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 11,959 barrels of oil, 4,427 barrels of NGLs and 14,092 mcf of gas were sold, or 18,735 BOEs.

The average price received per barrel of oil increased slightly from \$27.46 for the six months ended June 30, 2000 to \$27.55 for the same period in 2001. The average price received per barrel of NGLs increased \$3.24, or 25%, from \$12.80 during the six months ended June 30, 2000 to \$16.04 for the same period in 2001. The average price received per mcf of gas increased 133% from \$2.11 during the six months ended June 30, 2000 to \$4.91 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$235,830 for the six months ended June 30, 2001 as compared to \$200,554 for the same period in 2000, an increase of \$35,276, or 18%. This increase was due to increases in production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$193,283 for the six months ended June 30, 2001 and \$161,148 for the same period in 2000, resulting in a \$32,135 increase, or 20%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 12% from \$13,090 for the six months ended June 30, 2000 to \$14,679 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$27,868 for the six months ended June 30, 2001 as compared to \$26,316 for the same period in 2000, an increase of \$1,552, or 6%. This increase was the result of a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 454 barrels for the six months ended June 30, 2001 compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 4% to \$213,193 for the three months ended June 30, 2001 as compared to \$221,187 for the same period in 2000. The decrease in revenues resulted from a decline in production and lower average prices received for oil, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 5,694 barrels of oil, 1,618

barrels of NGLs and 9,654 mcf of gas were sold, or 8,921 BOEs. For the three months ended June 30, 2000, 6,157 barrels of oil, 2,484 barrels of NGLs and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

7,658 mcf of gas were sold, or 9,917 BOEs.

The average price received per barrel of oil decreased \$.75, or 3%, from \$27.75 for the three months ended June 30, 2000 to \$27.00 for the same period in 2001. The average price received per barrel of NGLs increased \$1.82, or 14%, from \$12.68 during the three months ended June 30, 2000 to \$14.50 for the same period in 2001. The average price received per mcf of gas increased 52% from \$2.44 during the three months ended June 30, 2000 to \$3.72 for the same period in 2001.

### Costs and Expenses:

Total costs and expenses increased to \$118,532 for the three months ended June 30, 2001 as compared to \$97,167 for the same period in 2000, an increase of \$21,365, or 22%. This increase was due to increases in production costs and depletion, offset by a decrease in G&A.

Production costs were \$97,643 for the three months ended June 30, 2001 and \$77,437 for the same period in 2000, resulting in a \$20,206 increase, or 26%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production.

During this period, G&A decreased 9% from \$7,156 for the three months ended June 30, 2000 to \$6,504 for the same period in 2001, primarily due to a lower percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of a decline in oil and gas revenues and a decline in audit and tax fees.

Depletion was \$14,385 for the three months ended June 30, 2001 as compared to \$12,574 for the same period in 2000, an increase of \$1,811, or 14%. This increase was the result of a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 463 barrels for the three months ended June 30, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$41,127 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to a reduction in working capital of \$45,662 and an increase of \$29,189 in oil and gas sales receipts, offset by increases in production costs of \$32,135 and G&A expenses of \$1,589. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$54,741 to oil and gas receipts, offset by \$25,552 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Used in Investing Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were related to expenditures for oil and gas equipment upgrades on active properties.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$161,186, of which \$1,612 was distributed to the managing general partner and \$159,574 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$216,896, of which \$2,169 was distributed to the managing general partner and \$214,727 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 90-C Conv., L.P. (the "Partnership") is a general partnership organized in 1990 under the laws of the State of Texas. The Partnership converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 7,531 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 64% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

liability due to pollution and other environmental damages. Although the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 44 oil and gas wells. One well was sold and one well was plugged and abandoned due to uneconomical operations. At December 31, 2000, the Partnership had 42 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

## DISTRIBUTIONS

At March 8, 2001, the Partnership had 7,531 outstanding limited partnership interests held of record by 505 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$492,300 and \$135,825, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000 -----	1999 -----	1998 -----	1997 -----
Operating results:				
-----				
Oil and gas sales	\$ 917,184 =====	\$ 537,893 =====	\$ 430,499 =====	\$ 661,475 =====
Impairment of oil and gas properties	\$ - =====	\$ - =====	\$ 185,784 =====	\$ 79,288 =====
Net income (loss)	\$ 509,518 =====	\$ 137,106 =====	\$ (258,625) =====	\$ 105,740 =====
Allocation of net income (loss):				
Managing general partner	\$ 5,095 =====	\$ 1,371 =====	\$ (2,586) =====	\$ 1,057 =====
Limited partners	\$ 504,423 =====	\$ 135,735 =====	\$ (256,039) =====	\$ 104,683 =====
Limited partners' net income (loss) per limited partnership interest	\$ 66.98 =====	\$ 18.02 =====	\$ (34.00) =====	\$ 13.90 =====
Limited partners' cash distributions per limited partnership interest	\$ 65.37 =====	\$ 18.04 =====	\$ 17.30 =====	\$ 47.53 =====
At year end:				
-----				
Identifiable assets	\$ 1,023,864 =====	\$ 1,014,263 =====	\$ 1,011,034 =====	\$ 1,411,804 =====

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 71% to \$917,184 for 2000 as compared to \$537,893 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 23,602 barrels of oil, 9,171 barrels of natural gas liquids ("NGLs") and 30,423 mcf of gas were sold, or 37,844 barrel of oil equivalents ("BOEs"). In 1999, 23,568 barrels of oil, 9,050 barrels of NGLs and 29,399 mcf of gas were sold, or 37,518 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.21, or 71%, from \$17.13 in 1999 to \$29.34 in 2000. The average price received per barrel of NGLs increased \$5.60, or 60%, from \$9.31 in 1999 to \$14.91 in 2000. The average price received per mcf of gas increased 70% from \$1.70 in 1999 to \$2.89 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than received in 2000.

Gains on dispositions of assets of \$388 and \$104 recognized during 2000 and 1999, respectively, were due to equipment credits received on a fully depleted well in each year.

Total costs and expenses increased in 2000 to \$416,488 compared to \$405,150 in 1999, an increase of \$11,338, or 3%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$334,055 in 2000 and \$297,353 in 1999, resulting in an increase of \$36,702, or 12%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period G&A increased 45% from \$20,987 in 1999 to \$30,429 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$27,439 in 2000 and \$16,060 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

5

Depletion was \$52,004 in 2000 as compared to \$86,810 in 1999, representing a decrease of \$34,806, or 40%. This decrease was primarily due to a 31,374 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$537,893 from \$430,499 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 23,568 barrels of oil, 9,050 barrels of NGLs and 29,399 mcf of gas were sold, or 37,518 BOEs. In 1998, 24,493 barrels of oil, 8,694 barrels of NGLs and 30,348 mcf of gas were sold, or 38,245 BOEs.

The average price received per barrel of oil increased \$3.89, or 29%, from \$13.24 in 1998 to \$17.13 in 1999. The average price received per barrel of NGLs increased \$2.51, or 37%, from \$6.80 in 1998 to \$9.31 in 1999. The average price received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$405,150 compared to \$693,871 in 1998, a decrease of \$288,721, or 42%. This decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$297,353 in 1999 and \$314,363 in 1998, resulting in a decrease of \$17,010, or 5%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes.

During this period G&A increased 39% from \$15,084 in 1998 to \$20,987 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$16,060 in 1999 and \$12,838 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$185,784 related to its oil and gas properties during 1998.

Depletion was \$86,810 in 1999 compared to \$178,640 in 1998. This represented a decrease of \$91,830, or 51%. This decrease was primarily the result of an increase in proved reserves of 207,077 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

6

Petroleum industry

1582

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

Liquidity and capital resources

### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$330,268 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$383,466, offset by increases in production costs paid of \$36,702, G&A expenses paid of \$9,442 and working capital of \$7,054. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$377,706 to oil and gas receipts and \$5,760 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from dispositions of assets of \$388 and \$104 recognized during 2000 and 1999, respectively, were related to equipment credits received on a fully depleted well in each year.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$497,273, of which \$4,973 was distributed to the managing general partner and \$492,300 to the limited partners. In 1999, cash distributions to the partners were \$137,197, of which \$1,372 was distributed to the managing general partner and \$135,825 to the limited partners.

## INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 90-C Conv., L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-C Conv., L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-C Conv., L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY 90-C CONV., L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-C Conv., L.P. (the "Partnership") is a general partnership organized in 1990 under the laws of the State of Texas. The Partnership converted to a Delaware limited partnership on August 1, 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of- production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income (loss) of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$185,784 related to its proved oil and gas properties during 1998.

15

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$49,618 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

	2000	1999
Net income (loss) per statements of operations	\$ 509,518	\$ 137,106
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	40,369	76,676
Impairment of oil and gas properties for financial reporting purposes	-	-
Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes	(385)	-
Other, net	(1,143)	(1,786)
	\$ 548,359	\$ 211,996
Net income (loss) per Federal income tax returns		

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000 -----	1999 -----
Development costs	\$ 22,764 =====	\$ 10,512 =====

Capitalized oil and gas properties consist of the following:

	2000 -----
Proved properties:	
Property acquisition costs	\$ 226,701
Completed wells and equipment	5,571,792 -----
	5,798,493
Accumulated depletion	(5,000,618) -----
Net oil and gas properties	\$ 797,875 =====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 130,806	\$ 126,701
Reimbursement of general and administrative expenses	\$ 27,439	\$ 16,060

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90-C Conv., L.P. ("EMPL"), Parker & Parsley 90-C, L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)
Revenues:	
Proceeds from disposition of depreciable and depletable properties -	
First three years	14.141414%
After first three years	19.191919%
All other revenues -	
First three years	14.141414%

- (1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 30 limited partner interests owned by Pioneer USA.
- (2) The allocation between the Partnership and Parker & Parsley 90-C, L.P. is 38.349119% and 61.650881%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table represents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net proved reserves at January 1, 1998	424,601
Revisions	(204,124)
Production	(33,187)
	-----
Net proved reserves at December 31, 1998	187,290
Revisions	293,912
Production	(32,618)
	-----
Net proved reserves at December 31, 1999	448,584
Revisions	50,848
Production	(32,773)
	-----
Net proved reserves at December 31, 2000	466,659
	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.22 per barrel of NGLs and \$7.80 per mcf of gas, discounted at 10% was approximately \$3,245,000 and undiscounted was \$6,366,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

2000 -----	1999 -----
---------------	---------------

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Plains Marketing, L.P.	64%	62%
Genesis Crude Oil, L.P.	-	-
Western Gas Resources, Inc.	2%	3%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$48,722 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays

19

1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$7,531,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name ----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Director of Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 30 limited partner interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 130,806	\$ 126,701
Reimbursement of general and administrative expenses	\$ 27,439	\$ 16,060

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

## SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 90-C, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 90-C, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90-C, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the legal opinion for the limited partners
- the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-1-

PARKER & PARSLEY 90-C, L.P.

SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a)

Aggregate Historical Limited Partner Distributions through July 31, 2001(a)

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a),

Merger Value per \$1,000 Limited Partner Investment(b), (c)

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001(c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

cash distribution on July 13, 2001, by the partnership to its partners.

- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP, of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2039, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

PARKER & PARSLEY 90-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Parker & Parsley 90-C, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 7% to \$713,977 for the six months ended June 30, 2001 as compared to \$666,799 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by a decline in production. For the six months ended June 30, 2001, 18,497 barrels

7

of oil, 3,982 barrels of natural gas liquids ("NGLs") and 28,625 mcf of gas were sold, or 27,250 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 19,227 barrels of oil, 7,105 barrels of NGLs and 22,664 mcf of gas were sold, or 30,109 BOEs.

The average price received per barrel of oil increased slightly from \$27.46 for the six months ended June 30, 2000 to \$27.55 for the same period in 2001. The average price received per barrel of NGLs increased \$3.24, or 25%, from \$12.80 during the six months ended June 30, 2000 to \$16.04 for the same period in 2001. The average price received per mcf of gas increased 133% from \$2.11 during the six months ended June 30, 2000 to \$4.91 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$379,038 for the six months ended June 30, 2001 as compared to \$322,425 for the same period in 2000, an increase of \$56,613, or 18%. This increase was due to increases in production costs, general and administrative expenses ("G&A") and depletion.

Production costs were \$310,730 for the six months ended June 30, 2001 and \$259,060 for the same period in 2000, resulting in a \$51,670 increase, or 20%. This increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 12% from \$21,038 for the six months ended June 30, 2000 to \$23,553 for the same period in 2001, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$44,755 for the six months ended June 30, 2001 as compared to \$42,327 for the same period in 2000, an increase of \$2,428, or 6%. This increase was the result of a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 730 barrels for the six months ended June 30, 2001 compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 4% to \$342,737 for the three months ended June 30, 2001 as compared to \$355,412 for the same period in 2000. The decrease in revenues resulted from a decline in production and lower average prices received for oil, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 9,158 barrels of oil, 2,603 barrels of NGLs and 15,519 mcf of gas were sold, or 14,348 BOEs. For the three

months ended June 30, 2000, 9,904 barrels of oil, 3,979 barrels of NGLs and 12,323 mcf of gas were sold, or 15,937 BOEs.

The average price received per barrel of oil decreased \$.75, or 3%, from \$27.75 for the three months ended June 30, 2000 to \$27.00 for the same period in 2001. The average price received per barrel of NGLs increased \$1.82, or 14%, from \$12.68 during the three months ended June 30, 2000 to \$14.50 for the same period in 2001. The average price received per mcf of gas increased 52% from \$2.44 during the three months ended June 30, 2000 to \$3.72 for the same period in 2001.

### Costs and Expenses:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Total costs and expenses increased to \$190,548 for the three months ended June 30, 2001 as compared to \$156,212 for the same period in 2000, an increase of \$34,336, or 22%. This increase was due to increases in production costs and depletion, offset by a decrease in G&A.

Production costs were \$156,985 for the three months ended June 30, 2001 and \$124,494 for the same period in 2000, resulting in a \$32,491 increase, or 26%. The increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production.

During this period, G&A decreased 9% from \$11,499 for the three months ended June 30, 2000 to \$10,457 for the same period in 2001, primarily due to a lower percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of a decline in oil and gas revenues and a decrease in audit and tax fees.

Depletion was \$23,106 for the three months ended June 30, 2001 as compared to \$20,219 for the same period in 2000, an increase of \$2,887, or 14%. This increase was the result of a reduction in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decline in oil production of 746 barrels for the three months ended June 30, 2001 compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$66,243 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to a reduction in working capital of \$73,272 and an increase of \$47,156 in oil and gas sales receipts, offset by increases in production costs of \$51,670 and G&A expenses of \$2,515. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$88,093 to oil and gas receipts, offset by \$40,937 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production and higher production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

9

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were related to expenditures for upgrades of oil and gas equipment on active properties.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$259,063, of which \$2,591 was distributed to the managing general partner and \$256,472 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$348,687, of which \$3,487 was distributed to the managing general partner and \$345,200 to the limited partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

Parts I and II of this annual report on Form 10-K (the "Report") contain forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements. See "Item 1. Business" for a description of various factors that could materially affect the ability of the Partnership to achieve the anticipated results described in the forward looking statements.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 90-C, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 12,107 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 64% was attributable to sales made to Plains Marketing, L.P. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial liability due to pollution and other environmental damages. Although the Partnership believes that

2

its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 44 oil and gas wells. One well was sold and one well was plugged and abandoned due to uneconomical operations. At December 31, 2000, the Partnership had 42 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities for the years then ended, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

## PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 12,107 outstanding limited partnership interests held of record by 901 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$791,434 and \$218,354, respectively, of such revenue-related distributions were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

2000	1999	1998	1997	1996
-----	-----	-----	-----	-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Operating results:

Oil and gas sales	\$1,474,499	\$ 864,722	\$ 692,090	\$1,063,396	\$ 1,346,

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 71% to \$1,474,499 for 2000 as compared to \$864,722 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 37,944 barrels of oil, 14,742 barrels of natural gas liquids ("NGLs") and 48,907 mcf of gas were sold, or 60,837 barrel of oil equivalents ("BOEs"). In 1999, 37,886 barrels of oil, 14,547 barrels of NGLs and 47,265 mcf of gas were sold, or 60,311 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.21, or 71%, from

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$17.13 in 1999 to \$29.34 in 2000. The average price received per barrel of NGLs increased \$5.60, or 60%, from \$9.31 in 1999 to \$14.91 in 2000. The average price received per mcf of gas increased 70% from \$1.70 in 1999 to \$2.89 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gains on disposition of assets of \$624 and \$167 recognized during 2000 and 1999, respectively, were due to equipment credits received on a fully depleted well in each year.

Total costs and expenses increased in 2000 to \$669,449 as compared to \$650,544 in 1999, an increase of \$18,905, or 3%. This increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$537,048 in 2000 and \$477,835 in 1999, resulting in an increase of \$59,213, or 12%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period G&A increased 47% from \$33,223 in 1999 to \$48,801 in 2000 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$44,112 in 2000 and \$25,818 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

5

Depletion was \$83,600 in 2000 compared to \$139,486 in 1999, representing a decrease of \$55,886, or 40%. This decrease was primarily due to a 50,718 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$864,722 from \$692,090 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 37,886 barrels of oil, 14,547 barrels of NGLs and 47,265 mcf of gas were sold, or 60,311 BOEs. In 1998, 39,380 barrels of oil, 13,978 barrels of NGLs and 48,787 mcf of gas were sold, or 61,489 BOEs.

The average price received per barrel of oil increased \$3.89, or 29%, from \$13.24 in 1998 to \$17.13 in 1999. The average price received per barrel of NGLs increased \$2.51, or 37%, from \$6.80 in 1998 to \$9.31 in 1999. The average price

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

received per mcf of gas increased 10% from \$1.55 in 1998 to \$1.70 in 1999.

Total costs and expenses decreased in 1999 to \$650,544 as compared to \$1,115,454 in 1998, a decrease of \$464,910, or 42%. This decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$477,835 in 1999 and \$505,571 in 1998, resulting in a \$27,736 decrease, or 5%. The decrease was due to declines in well maintenance costs and ad valorem taxes, offset by an increase in production taxes

During this period G&A increased 37% from \$24,190 in 1998 to \$33,223 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$25,818 in 1999 and \$20,639 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$298,622 related to its oil and gas properties during 1998.

Depletion was \$139,486 in 1999 compared to \$287,071 in 1998. This represented a decrease of \$147,585, or 51%. This decrease was primarily the result of an increase in proved reserves of 332,733 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998,

6

weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

Net Cash Provided by Operating Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net cash provided by operating activities increased \$532,008 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$616,371, offset by increases in production costs paid of \$59,213, G&A expenses paid of \$15,578 and working capital of \$9,572. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$607,017 to oil and gas receipts and an increase of \$9,354 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active oil and gas properties.

Proceeds from disposition of assets of \$624 and \$167 recognized during 2000 and 1999, respectively, were related to equipment credits received on a fully depleted well in each year.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$799,428, of which \$7,994 was distributed to the managing general partner and \$791,434 to the limited partners. In 1999, cash distributions to the partners were \$220,560, of which \$2,206 was distributed to the managing general partner and \$218,354 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 90-C, L.P.

(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90-C, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90-C, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

13

PARKER & PARSLEY 90-C, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90-C, L.P. (the "Partnership") is a limited partnership organized in 1990 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income (loss) of the Partnership is included in the individual Federal income tax returns of the respective partners.

14

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$298,622 related to its proved oil and gas properties during 1998.

15

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$81,171 less than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income (loss) per Federal income tax returns for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Net income (loss) per statements of operations	\$ 818,778	\$ 220,855	\$ (416,064)
Depletion and depreciation provisions for tax reporting purposes less than amounts for financial reporting purposes	64,630	123,267	81,152
Impairment of oil and gas properties for financial reporting purposes	--	--	298,622
Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes	(619)	--	--
Other, net	(1,775)	(4,424)	4,552
	-----	-----	-----
Net income (loss) per Federal income tax return	\$ 881,014	\$ 339,698	\$ (31,738)
	=====	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
Development costs	\$ 36,595	\$ 16,900	\$ 21,456
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

	2000		1999
Proved properties:			
Property acquisition costs	\$ 364,450	\$	8,957,333
Completed wells and equipment	8,957,333	8,	9,321,783
Accumulated depletion	(8,040,111)	(7,	9,321,783
Net oil and gas properties	\$ 1,281,672	\$ 1,	(8,040,111)
	=====	=====	=====

### NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000		1999
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 210,287	\$	203,686
Reimbursement of general and administrative expenses	\$ 44,112	\$	25,818

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA and P&P Employees 90-C Conv., L.P. ("EMPL") (the "Entities"), Parker & Parsley 90-C Conv., L.P. and the Partnership (the "Partnerships") are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnerships as follows:

	Pioneer USA (1)	Partnerships (2)
Revenues:		
Proceeds from disposition of depreciable and depletable properties:		
First three years	14.141414%	85.858586%
After first three years	19.191919%	80.808081%
All other revenues:

After first three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 27 limited partner interests owned by Pioneer USA.

(2) The allocation between the Partnership and Parker & Parsley 90-C Conv., L.P. is 61.650881% and 38.349119%, respectively.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
Net proved reserves at January 1, 1998	682,212	685,617
Revisions	(327,935)	(275,264)
Production	(53,358)	(48,787)
	-----	-----
Net proved reserves at December 31, 1998	300,919	361,566
Revisions	472,259	575,173
Production	(52,433)	(47,265)
	-----	-----
Net proved reserves at December 31, 1999	720,745	889,474
Revisions	82,135	(88,650)

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Production	(52,686)	(48,907)
	-----	-----
Net proved reserves at December 31, 2000	750,194	751,917
	=====	=====

17

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.22 per barrel of NGLs and \$7.80 per mcf of gas, discounted at 10% was approximately \$5,217,000 and undiscounted was \$10,234,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	64%	62%	-
Genesis Crude Oil, L.P.	-	-	69%
Western Gas Resources, Inc.	2%	3%	13%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$78,327 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues.

19

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$12,107,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Age at

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Name -----	December 31, 2000 -----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and Director
Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Domestic Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by Pioneer USA, the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 10% of the Program's acquisition, drilling and completion costs and approximately 15% during the first three years and approximately 20% after three years of its operating and general and administrative expenses. In return, they are allocated approximately 15% during the first three years and approximately 20% after three years of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers or

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

employees of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 27 limited partner interests at January 1, 2001.

#### (b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 210,287	\$ 203,686	\$199,461
Reimbursement of general and administrative expenses	\$ 44,112	\$ 25,818	\$ 20,639

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data",

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

### PART IV

#### ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31, 2000, 1999 and 1998

Statements of partners' capital for the years ended December 31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31, 2000, 1999 and 1998

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the required information is in the financial statements or notes thereto, or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or incorporated by reference as part of this Report.

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

-----

This document contains important information specific to Parker & Parsley Private Investment 90, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley Private Investment 90, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's financial statements, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

(d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.

(e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.

- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP, of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

# Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

PARKER & PARSLEY PRIVATE INVESTMENT 90, L.P.  
(A Delaware Limited Partnership)

## NOTES TO FINANCIAL STATEMENTS June 30, 2001 (Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley Private Investment 90, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

Six months ended June 30, 2001 compared with six months ended June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased 4% to \$722,006 for the six months ended June 30, 2001 as compared to \$692,013 for the same period in 2000. The increase in revenues resulted from higher average prices received, offset by

a decrease in production. For the six months ended June 30, 2001, 17,815 barrels of oil, 4,772 barrels of natural gas liquids ("NGLs") and 29,299 mcf of gas were

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

sold, or 27,470 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 19,734 barrels of oil, 6,946 barrels of NGLs and 24,989 mcf of gas were sold, or 30,845 BOEs.

The average price received per barrel of oil increased \$.36, or 1%, from \$27.42 for the six months ended June 30, 2000 to \$27.78 for the same period in 2001. The average price received per barrel of NGLs increased \$3.03, or 22%, from \$14.06 during the six months ended June 30, 2000 to \$17.09 for the same period in 2001. The average price received per mcf of gas increased 132% from \$2.14 during the six months ended June 30, 2000 to \$4.97 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

### Costs and Expenses:

Total costs and expenses increased to \$349,475 for the six months ended June 30, 2001 as compared to \$318,543 for the same period in 2000, an increase of \$30,932, or 10%. This increase was due to higher production costs and depletion, offset by a decrease in general and administrative expenses ("G&A").

Production costs were \$261,648 for the six months ended June 30, 2001 and \$238,333 for the same period in 2000, resulting in a \$23,315 increase, or 10%. The increase was the result of additional well maintenance and workover costs incurred to stimulate well production and higher production taxes due to higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 7%, from \$21,297 for the six months ended June 30, 2000 to \$19,906 for the same period in 2001, due to a decrease in audit and tax fees.

Depletion was \$67,921 for the six months ended June 30, 2001 as compared to \$58,913 for the same period in 2000, an increase of \$9,008, or 15%. The increase was the result of a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decrease in oil production of 1,919 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 8% to \$325,097 for the three months ended June 30, 2001 as compared to \$354,405 for the same period in 2000. The decrease in revenues resulted from higher average prices received for gas and NGLs, offset by a decrease in production and lower average prices received for oil. For the three months ended June 30, 2001, 8,406 barrels of oil, 2,746 barrels of NGLs and 14,386 mcf of gas were sold, or 13,550 BOEs. For the three months ended June 30, 2000, 9,833 barrels of oil, 3,739 barrels of NGLs and 12,235 mcf of gas were sold, or 15,611 BOEs.

The average price received per barrel of oil decreased \$.32, or 1%, from \$27.56

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

for the three months ended June 30, 2000 to \$27.24 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$1.02, or 7%, from \$14.06 during the three months ended June 30, 2000 to \$15.08 for the same period in 2001. The average price received per mcf of gas increased 51% to \$3.81 during the three months ended June 30, 2001 from \$2.52 during the same period in 2000.

### Costs and Expenses:

Total costs and expenses increased to \$194,526 for the three months ended June 30, 2001 as compared to \$164,035 for the same period in 2000, an increase of \$30,491, or 19%. This increase was due to increases in depletion and production costs, offset by a decrease in G&A.

Production costs were \$141,149 for the three months ended June 30, 2001 and \$125,781 for the same period in 2000 resulting in a \$15,368 increase, or 12%. This increase was due to additional well maintenance and workover costs incurred to stimulate well production.

During this period, G&A decreased 27%, from \$11,169 for the three months ended June 30, 2000 to \$8,129 for the same period in 2001, primarily due to a lower allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues.

Depletion was \$45,248 for the three months ended June 30, 2001 as compared to \$27,085 for the same period in 2000, an increase of \$18,163, or 67%. This increase was attributable to a decrease in proved reserves during the period ended June 30, 2001 due to lower commodity prices, offset by a decrease in oil production of 1,427 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

8

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$111,256 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$29,634 and reductions in working capital of \$103,546 and G&A expenses of \$1,391, offset by an increase in production costs of \$23,315. The increase in oil and gas receipts resulted from the increase in commodity prices during 2001 which contributed an additional \$98,698 to oil and gas receipts, offset by \$69,064 resulting from the decline in production during 2001 as compared to the same period in 2000. The increase in production costs was primarily due to additional well maintenance and workover costs incurred to stimulate well production and increased production taxes associated with higher oil and gas prices. The decrease in G&A was due to a decrease in audit and tax fees.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 included expenditures related to equipment upgrades on various oil and gas properties.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

\$304,619, of which \$3,047 was distributed to the managing general partner and \$301,572 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$367,336, of which \$3,674 was distributed to the managing general partner and \$363,662 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

9

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

-----

- (1) "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" contains forward looking statements that involve risks and uncertainties. Accordingly, no assurances can be given that the actual events and results will not be materially different than the anticipated results described in the forward looking statements.

PARKER & PARSLEY PRIVATE INVESTMENT 90, L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley Private Investment 90, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley Private Investment 90, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley Private Investment 90, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSLEY PRIVATE INVESTMENT 90, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley Private Investment 90, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally discounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$49,757 and \$373,422 related to its proved oil and gas properties during 2000 and 1998, respectively.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$139,996 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000 -----	1999 -----	
Net income (loss) per statements of operations	\$ 824,583	\$ 230,882	\$ (
Depletion and depreciation for tax reporting purposes			
less than amounts for financial reporting purposes	93,056	131,771	

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Impairment of oil and gas properties for financial reporting purposes	49,757	-
Other, net	(1,853)	432
	-----	-----
Net income per Federal income tax returns	\$ 965,543	\$ 363,085
	=====	=====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Development costs	\$ 25,378	\$ 14,048	\$ 11,793
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

	2000	1999
	-----	-----
Proved properties:		
Property acquisition costs	\$ 98,110	\$ 98,110
Completed wells and equipment	8,366,256	8,340,878
	-----	-----
Accumulated depletion	8,464,366 (7,073,249)	8,438,988 (6,916,963)
	-----	-----
Net oil and gas properties	\$ 1,391,117	\$ 1,522,025
	=====	=====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

2000	1999	1998
-----	-----	-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 186,568	\$ 174,796	\$ 187,435
Reimbursement of general and administrative expenses	\$ 37,554	\$ 23,205	\$ 16,483

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90 Private Conv., L.P. ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1)
	-----
Revenues:	
Proceeds from disposition of depreciable and depletable properties -	
First three years	14.141414%
After three years	19.191919%
All other revenues -	
First three years	14.141414%
After three years	19.191919%
Costs and expenses:	
Lease acquisition costs, drilling and completion costs	9.090909%
Operating costs, reporting and legal expenses and general and administrative expenses -	
First three years	14.141414%
After three years	19.191919%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	745,340	883,417

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Revisions	(342,345)	(365,103)
Production	(49,468)	(54,218)
	-----	-----
Net proved reserves at December 31, 1998	353,527	464,096
Revisions	394,885	538,864
Production	(46,335)	(47,331)
	-----	-----
Net proved reserves at December 31, 1999	702,077	955,629
Revisions	172,617	(96,553)
Production	(52,913)	(49,484)
	-----	-----
Net proved reserves at December 31, 2000	821,781	809,592
	=====	=====

10

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.49 per barrel of NGLs and \$7.81 per mcf of gas, discounted at 10% was approximately \$5,749,000 and undiscounted was \$12,495,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

### Disclosures about Oil & Gas Producing Activities

#### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

	2000 -----	1999 -----	1998 -----
Plains Marketing, L.P.	71%	69%	-
Genesis Crude Oil, L.P.	-	-	64%
Western Gas Resources, Inc.	3%	4%	17%

At December 31, 2000, the amount receivable from Plains Marketing, L.P. was \$93,082 which is included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. The managing general partner is also responsible for 1% of guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

12

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$10,970,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less commission, organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent that its share of revenues does not cover such costs.

13

PARKER & PARSLEY PRIVATE INVESTMENT 90, L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of operations

##### 2000 compared to 1999

The Partnership's oil and gas revenues increased 94% to \$1,508,541 for 2000 as compared to \$776,849 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 39,040 barrels of oil, 13,873 barrels of natural gas liquids ("NGLs") and 49,484 mcf of gas were sold, or 61,160 barrel of oil equivalents ("BOEs"). In 1999, 32,789 barrels of oil, 13,546 barrels of NGLs and 47,331 mcf of gas were sold, or 54,224 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.05, or 70%, from \$17.30 in 1999 to \$29.35 in 2000. The average price received per barrel of NGLs increased \$6.36, or 67%, from \$9.46 in 1999 to \$15.82 in 2000. The average price received per mcf of gas increased 69% from \$1.72 in 1999 to \$2.90 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$700,691 as compared to \$553,188 in 1999, an increase of \$147,503, or 27%. The increase was primarily due to increases in the impairment of oil and gas properties, production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$502,676 in 2000 and \$379,923 in 1999, resulting in a \$122,753 increase, or 32%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 39% from \$29,997 in 1999 to \$41,729 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$37,554 in 2000 and \$23,205 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$49,757 related to its oil and gas properties during 2000.

Depletion was \$106,529 in 2000 as compared to \$143,268 in 1999, representing a decrease of \$36,739, or 26%. This decrease was primarily due to a 148,753 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices, offset by an increase in oil production of 6,251 barrels for the period ended December 31, 2000 compared to the same period in 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 20% to \$776,849 from \$648,378 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 32,789 barrels of oil, 13,546 barrels of NGLs and 47,331 mcf of gas were sold, or 54,224 BOEs. In 1998, 35,555 barrels of oil, 13,913 barrels of NGLs and 54,218 mcf of gas were sold, or 58,504 BOEs.

The average price received per barrel of oil increased \$4.11, or 31%, from \$13.19 in 1998 to \$17.30 in 1999. The average price received per barrel of NGLs increased \$2.69, or 40%, from \$6.77 in 1998 to \$9.46 in 1999. The average price received per mcf of gas increased 10% from \$1.57 in 1998 to \$1.72 in 1999.

Total costs and expenses decreased in 1999 to \$553,188 as compared to \$1,100,322 in 1998, a decrease of \$547,134, or 50%. The decrease was primarily due to declines in the impairment of oil and gas properties, production costs and depletion, offset by an increase in G&A.

Production costs were \$379,923 in 1999 and \$481,924 in 1998, resulting in a \$102,001 decrease, or 21%. The decrease was due to declines in well maintenance costs and ad valorem taxes.

During this period, G&A increased 49% from \$20,196 in 1998 to \$29,997 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$23,205 in 1999 and \$16,483 in 1998 for G&A incurred on behalf of the Partnership.

The Partnership recognized a non-cash SFAS 121 charge of \$373,422 related to its oil and gas properties during 1998.

Depletion was \$143,268 in 1999 compared to \$224,780 in 1998, representing a decrease of \$81,512, or 36%. This decrease was the result of an increase in proved reserves of 266,736 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

Liquidity and capital resources

### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$559,243 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$738,819, offset by increases in production costs paid of \$122,753, G&A expenses paid of \$11,732 and working capital of \$45,091. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$543,958 to oil and gas receipts and an increase of \$194,861 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from asset dispositions of \$2,385 and \$2,124 recognized during 2000 and 1999, respectively, were due to equipment credits received on active properties.

### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$870,242, of which \$8,702 was distributed to the managing general partner and \$861,540 to the limited partners. In 1999, cash distributions to the partners were \$255,913, of which \$2,559 was distributed to the managing general partner and \$253,354 to the limited partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### SELECTED FINANCIAL DATA

The following selected financial data for the Partnership should be read in connection with Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements included in the attached supplemental information.

	Six months ended June 30,		Years ended December		
	2001	2000	2000	1999	1998

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 90 Spraberry Private Development, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 90 Spraberry Private Development, L.P.:

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the legal opinion for the limited partners
- the term of the partnership

-- as of December 31, 2000 (c)	\$
Going Concern Value per \$1,000 Limited Partner Investment (c), (d)	\$
Liquidation Value per \$1,000 Limited Partner Investment (c), (e)	\$
Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment (c), (f)	\$

-----

(a) Stated in thousands.

(b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.

(c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.

- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

### INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2040, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

### PARKER & PARSLEY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P. (A Delaware Limited Partnership)

#### NOTES TO FINANCIAL STATEMENTS June 30, 2001 (Unaudited)

##### Note 1. Organization and nature of operations

Parker & Parsley 90 Spraberry Private Development, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

##### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim financial statements. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's report for the year ended December 31, 2000, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Management's Discussion and Analysis of Financial Condition  
and Results of Operations (1)

Results of Operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Six months ended June 30, 2001 compared with six months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues increased 22% to \$334,282 for the six months ended June 30, 2001 as compared to \$273,886 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas

6

and NGLs and an increase in production, offset by lower average prices received for oil. For the six months ended June 30, 2001, 8,138 barrels of oil, 2,371 barrels of natural gas liquids ("NGLs") and 14,921 mcf of gas were sold, or 12,996 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 7,948 barrels of oil, 2,767 barrels of NGLs and 9,984 mcf of gas were sold, or 12,379 BOEs.

The average price received per barrel of oil decreased slightly from \$27.19 for the six months ended June 30, 2000 to \$27.13 for the same period ended June 30, 2001. The average price received per barrel of NGLs increased \$3.52, or 27%, from \$13.22 during the six months ended June 30, 2000 to \$16.74 for the same period in 2001. The average price received per mcf of gas increased 133% from \$2.12 during the six months ended June 30, 2000 to \$4.95 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

### Costs and Expenses:

Total costs and expenses decreased to \$132,965 for the six months ended June 30, 2001 as compared to \$144,571 for the same period in 2000, a decrease of \$11,606, or 8%. This decrease was attributable to declines in production costs and depletion, offset by an increase in general and administrative expenses ("G&A").

Production costs were \$105,616 for the six months ended June 30, 2001 and \$113,454 for the same period in 2000, a \$7,838 decrease, or 7%. This decrease was primarily due to lower well maintenance costs, offset by increases in production taxes associated with higher oil and gas prices.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 25% from \$8,721 for the six months ended June 30, 2000 to \$10,895 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

Depletion was \$16,454 for the six months ended June 30, 2001 as compared to \$22,396 for the same period in 2000, a decrease of \$5,942, or 27%. This decrease was primarily the result of an increase in proved reserves on a significant well during the period ended June 30, 2001.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's oil and gas revenues increased 8% to \$150,668 for the three months ended June 30, 2001 as compared to \$139,968 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas

7

and NGLs, offset by a decline in production and lower average prices received for oil. For the three months ended June 30, 2001, production included 4,092 barrels of oil, 1,224 barrels of NGLs and 6,744 mcf of gas, or 6,440 BOEs. For the three months ended June 30, 2000, 3,809 barrels of oil, 1,691 barrels of NGLs and 6,034 mcf of gas were sold, or 6,506 BOEs.

The average price received per barrel of oil decreased \$1.10, or 4%, from \$27.40 for the three months ended June 30, 2000 to \$26.30 for the three months ended June 30, 2001. The average price received per barrel of NGLs increased \$1.93, or 16%, from \$12.42 during the three months ended June 30, 2000 to \$14.35 for the same period in 2001. The average price received per mcf of gas increased 56% to \$3.78 during the three months ended June 30, 2001 from \$2.42 during the same period in 2000.

### Costs and Expenses:

Total costs and expenses decreased to \$64,490 for the three months ended June 30, 2001 as compared to \$68,339 for the same period in 2000, a decrease of \$3,849, or 6%. This decrease was due to lower production costs and depletion, offset by an increase in G&A.

Production costs were \$51,876 for the three months ended June 30, 2001 and \$54,969 for the same period in 2000 resulting in a \$3,093 decrease, or 6%. The decrease was primarily due to lower well maintenance costs.

During this period, G&A increased 4% from \$4,356 for the three months ended June 30, 2000 to \$4,521 for the same period in 2001, primarily due to a higher allocation of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

Depletion was \$8,093 for the three months ended June 30, 2001 as compared to \$9,014 for the same period in 2000, a decrease of \$921, or 10%. This decrease was primarily the result of an increase in proved reserves on a significant well during the period ended June 30, 2001.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$156,685 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was due to an increase in oil and gas sales receipts of \$60,241 and reductions in working capital of \$90,780 and production costs of \$7,838, offset by an increase in G&A expenses of \$2,174. The increase in oil and gas receipts resulted from the increase in gas and NGL prices of \$37,922 during 2001 and an increase in production of \$22,954, offset by a \$635 decline in oil prices as compared to the same period in 2000. The decrease in production costs was primarily due to lower well maintenance costs, offset by increases in production taxes associated with higher oil and gas prices. The increase in G&A was primarily due to a higher percentage of the managing general partner's G&A being

allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues and an increase in audit and tax fees.

#### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2000 included expenditures related to equipment upgrades on various oil and gas properties.

#### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$107,338, of which \$1,073 was distributed to the managing general partner and \$106,265 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$161,017, of which \$1,610 was distributed to the managing general partner and \$159,407 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

#### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to

the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARKER & PARSLEY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P.  
(A Delaware Limited Partnership)

FINANCIAL STATEMENTS  
WITH  
INDEPENDENT AUDITORS' REPORT

December 31, 2000 and 1999

INDEPENDENT AUDITORS' REPORT

The Partners

Parker & Parsley 90 Spraberry Private Development, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 90 Spraberry Private Development, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 90 Spraberry Private Development, L.P. as of December 31, 2000 and 1999, and the results of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

PARKER & PARSELY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 90 Spraberry Private Development, L.P. (the "Partnership") was organized in 1990 as a general partnership under the laws of the State of Texas and was converted to a Delaware limited partnership in 1991. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

**Oil and gas properties** - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

**Impairment of long-lived assets** - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

**Use of estimates in the preparation of financial statements** - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

**Net income (loss) per limited partnership interest** - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

7

**Income taxes** - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

**Statements of cash flows** - For purposes of reporting cash flows, cash includes depository accounts held by banks.

**General and administrative expenses** - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

**Reclassifications** - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$90,823 related to its proved oil and gas properties during 1998.

8

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$43,760 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000 -----	1999 -----	1998 -----
Net income (loss) per statements of operations	\$ 345,899	\$ 72,722	\$(133,234)
Impairment of oil and gas properties for financial reporting purposes	-	-	90,823
Depletion, depreciation and amortization for tax reporting purposes less than amounts for financial reporting purposes	36,539	79,135	110,651
Other, net	(76,555)	39,044	36,173
	-----	-----	-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net income per Federal income tax returns	\$ 305,883	\$ 190,901	\$ 104,413
	=====	=====	=====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Development costs	\$ 5,683	\$ 2,042	\$7,821
	=====	=====	=====

Capitalized oil and gas properties consist of the following:

	2000	1999
	-----	-----
Proved properties:		
Property acquisition costs	\$ 19,608	\$ 19,608
Completed wells and equipment	3,646,563	3,640,880
	-----	-----
Accumulated depletion	3,666,171 (3,046,352)	3,660,488 (3,005,158)
	-----	-----
Net oil and gas properties	\$ 619,819	\$ 655,330
	=====	=====

9

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$88,496	\$85,512	\$81,995
Reimbursement of general and administrative expenses	\$18,935	\$11,455	\$ 9,241

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 90 Spraberry Private Conv., L.P. ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a limited partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1)	Partnership
Revenues:		
Proceeds from disposition of depreciable and depletable properties -		
First three years	14.141414%	85.858586%
After three years	19.191919%	80.808081%
All other revenues -		
First three years	14.141414%	85.858586%
After three years	19.191919%	80.808081%
Costs and expenses:		
Lease acquisition costs, drilling and completion costs	9.090909%	90.909091%
Operating costs, reporting and legal expenses and general and administrative expenses -		
First three years	14.141414%	85.858586%
After three years	19.191919%	80.808081%

(1) Excludes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

10

	Oil and NGLs (bbls)	Gas (mcf)
Net proved reserves at January 1, 1998	270,590	306,642
Revisions	(126,717)	(142,535)
Production	(20,835)	(24,095)
	-----	-----
Net proved reserves at December 31, 1998	123,038	140,012

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Revisions	214,995	265,098
Production	(20,688)	(19,579)
	-----	-----
Net proved reserves at December 31, 1999	317,345	385,531
Revisions	122,969	18,001
Production	(22,593)	(22,121)
	-----	-----
Net proved reserves at December 31, 2000	417,721	381,411
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.12 per barrel of NGLs and \$7.64 per mcf of gas, discounted at 10% was approximately \$2,575,000 and undiscounted was \$5,966,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999	1998
	-----	-----	-----
Plains Marketing, L.P.	56%	50%	-
TEPPCO Crude Oil LLC	10%	10%	-
Genesis Crude Oil, L.P.	-	-	47%
Phillips Petroleum Company	17%	14%	12%
Western Gas Resources, Inc.	2%	3%	9%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P., Phillips Petroleum Company and TEPPCO Crude Oil LLC were \$29,695, \$12,633 and \$4,023, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil,

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NGLs and gas production.

### NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the Partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Program and Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being

12

paid to the Partnership. Under the Partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating, general and administrative expenses. The managing general partner is also responsible for 1% of guaranty and loan commitment fees. In return, it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The partners entered into subscription agreements for aggregate capital contributions of \$5,200,000. Pioneer USA is required to contribute amounts equal to 1% of initial Partnership capital less commission and organization and offering costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent that its share of revenues does not cover such costs.

13

PARKER & PARSLEY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P.  
(A DELAWARE LIMITED PARTNERSHIP)

THIS REPORT CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In September 2000, restated financial statements for 1999 and 1998 were issued to the partners to correct a revenue allocation error for one well in the Partnership. The 1999 and 1998 amounts contained in the following discussion of financial condition and the results of operation are based on the restated amounts.

Results of operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

2000 compared to 1999

The Partnership's oil and gas revenues increased 85% to \$638,385 from 2000 as compared to \$345,743 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 16,344 barrels of oil, 6,249 barrels of natural gas liquids ("NGLs") and 22,121 mcf of gas were sold, or 26,280 barrel of oil equivalents ("BOEs"). In 1999, 15,384 barrels of oil, 5,304 barrels of NGLs and 19,579 mcf of gas were sold, or 23,951 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.13, or 71%, from \$17.04 in 1999 to \$29.17 in 2000. The average price received per barrel of NGLs increased \$5.86, or 60%, from \$9.70 in 1999 to \$15.56 in 2000. The average price received per mcf of gas increased 76% from \$1.65 in 1999 to \$2.91 in 2000. The market price for oil and gas has been extremely volatile in the past decade, and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Total costs and expenses increased in 2000 to \$297,927 as compared to \$276,234 in 1999, an increase of \$21,693, or 8%. The increase was due to increases in production costs and general and administrative expenses ("G&A"), offset by a decline in depletion.

Production costs were \$235,823 in 2000 and \$177,422 in 1999, resulting in a \$58,401 increase, or 33%. The increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased 42% from \$14,767 in 1999 to \$20,910 in 2000, primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$18,935 in 2000 and \$11,455 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$41,194 in 2000 as compared to \$84,045 in 1999, representing a decrease of \$42,851, or 51%. This decrease was primarily due to a 106,156 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 25% to \$345,743 from \$275,856 in 1998. The increase in revenues resulted from higher average prices received and an increase in production. In 1999, 15,384 barrels of oil, 5,304 barrels of NGLs and 19,579 mcf of gas were sold, or 23,951 BOEs. In 1998, 15,196 barrels of oil, 5,639 barrels of NGLs and 24,095 mcf of gas were sold, or 24,851 BOEs.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The average price received per barrel of oil increased \$3.98, or 30%, from \$13.06 in 1998 to \$17.04 in 1999. The average price received per barrel of NGLs increased \$2.81, or 41%, from \$6.89 in 1998 to \$9.70 in 1999. The average price received per mcf of gas increased 3% from \$1.60 in 1998 to \$1.65 in 1999.

Gain on disposition of assets of \$213 recognized during 1998 was related to equipment salvage received on a well plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$276,234 as compared to \$413,082 in 1998, a decrease of \$136,848, or 33%. The decrease was due to reductions in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$177,422 in 1999 and \$184,952 in 1998, resulting in a \$7,530 decrease, or 4%. The decrease was due to reductions in well maintenance costs and ad valorem taxes.

During this period, G&A increased 35% from \$10,935 in 1998 to \$14,767 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$11,455 in 1999 and \$9,241 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$90,823 related to its oil and gas properties during 1998.

Depletion was \$84,045 in 1999 compared to \$126,372 in 1998, representing a decrease of \$42,327, or 33%. This decrease was primarily due to an increase in proved reserves of 151,444 barrels of oil during 1999 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$102,509 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$294,870, offset by increases in production costs paid of \$58,401, G&A expenses paid of \$6,143 and working capital of \$127,817. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$244,760 to oil and gas receipts and an increase of \$50,110 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues.

#### Net Cash Provided by (Used in) Investing Activities

The Partnership's principal investing activities during 2000 and 1999 included expenditures related to equipment upgrades on active properties.

Proceeds from asset dispositions of \$3,269 in 1999 were due to equipment credits received on active wells.

#### Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$308,005, of which \$3,080 was distributed to the managing general partner and \$304,925 to the limited partners. In 1999, cash distributions to the partners were \$140,741, of which \$1,407 was distributed to the managing general partner and \$139,334 to the limited partners.

PARKER & PARSLEY 90 SPRABERRY PRIVATE DEVELOPMENT, L.P.

#### SELECTED FINANCIAL DATA

The following selected financial data for the Partnership should be read in connection with Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements included in the attached supplemental information.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 91-A, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 91-A, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 91-A, L.P.:

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- o A table containing:
  - the aggregate initial investment by the limited partners
  - the aggregate historical limited partner distributions through July 31, 2001
  - the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
  - the merger value per \$1,000 limited partner investment
  - the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
  - the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
  - the going concern value per \$1,000 limited partner investment
  - the liquidation value per \$1,000 limited partner investment
  - the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

### SUPPLEMENTAL INFORMATION TABLE

Aggregate Initial Investment by the Limited Partners(a) \$

Aggregate Historical Limited Partner Distributions through July 31, 2001(a) \$

Merger Value Attributable to Partnership Interests of Limited Partners, Excluding Pioneer USA(a), (b) \$

Merger Value per \$1,000 Limited Partner Investment(b), (c) \$

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Merger Value per \$1,000 Limited Partner Investment as a Multiple of Distributions for the past four quarterly distributions including the distribution in July 2001(b), (c)

Book Value per \$1,000 Limited Partner Investment:

-- as of June 30, 2001 (c)

-- as of December 31, 2000(c)

Going Concern Value per \$1,000 Limited Partner Investment(c), (d)

Liquidation Value per \$1,000 Limited Partner Investment(c), (e)

Ordinary Tax Loss per \$1,000 Limited Partner Investment in Year of Initial Investment(c), (f)

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the sale of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2041, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

6

PARKER & PARSLEY 91-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

Note 1. Organization and nature of organization

Parker & Parsley 91-A, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

Item 2. Management's Discussion and Analysis of Financial Condition  
and Results of Operations (1)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Results of Operations

Six months ended June 30, 2001 compared with six months ended  
June 30, 2000

#### Revenues:

The Partnership's oil and gas revenues increased slightly to \$884,166 for the six months ended June 30, 2001 as compared to \$878,201 for the same period in 2000. The increase in revenues resulted from higher average prices received for gas, offset by a decline in production and a decline in the average prices received for oil and NGLs. For the six months ended June 30, 2001, 19,763

7

barrels of oil, 5,186 barrels of natural gas liquids ("NGLs") and 52,227 mcf of gas were sold, or 33,654 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 22,483 barrels of oil, 10,398 barrels of NGLs and 47,283 mcf of gas were sold, or 40,762 BOEs.

The average price received per barrel of oil decreased \$.43, or 2%, from \$27.85 for the six months ended June 30, 2000 to \$27.42 for the same period ended June 30, 2001. The average price received per barrel of NGLs decreased \$1.85, or 13%, from \$13.94 during the six months ended June 30, 2000 to \$12.09 for the same period in 2001. The average price received per mcf of gas increased 136% from \$2.27 during the six months ended June 30, 2000 to \$5.35 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

#### Costs and Expenses:

Total costs and expenses decreased to \$408,661 for the six months ended June 30, 2001 as compared to \$419,855 for the same period in 2000, a decrease of \$11,194, or 3%. This decrease was due to a decline in depletion, offset by increases in production costs and general and administrative expenses ("G&A").

Production costs were \$313,648 for the six months ended June 30, 2001 and \$308,717 for the same period in 2000 resulting in a \$4,931 increase, or 2%. This increase is primarily due to additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A increased slightly from \$32,098 for the six months ended June 30, 2000 to \$32,165 for the same period in 2001, primarily due to an increase in audit and tax fees.

Depletion was \$62,848 for the six months ended June 30, 2001 as compared to \$79,040 for the same period in 2000, a decrease of \$16,192 or 20%. This decrease was primarily due to a reduction in the Partnership's net depletable basis from charges taken in accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121") during the fourth quarter of 2000 and a decline in oil production of 2,720 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Three months ended June 30, 2001 compared with three months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 5% to \$431,706 for the three months ended June 30, 2001 as compared to \$453,778 for the same period in 2000. The decrease in revenues resulted from a decrease in production and lower average prices received for oil and NGLs, offset by higher average prices received for gas. For the three months ended June 30, 2001, 9,218 barrels of

8

oil, 2,611 barrels of NGLs and 33,176 mcf of gas were sold, or 17,358 BOEs. For the three months ended June 30, 2000, 11,123 barrels of oil, 5,559 barrels of NGLs and 24,304 mcf of gas were sold, or 20,733 BOEs.

The average price received per barrel of oil decreased \$1.06, or 4%, from \$27.82 during the three months ended June 30, 2000 to \$26.76 for the same period in 2001. The average price received per barrel of NGLs decreased \$4.84, or 34%, from \$14.20 during the three months ended June 30, 2000 to \$9.36 for the same period in 2001. The average price received per mcf of gas increased 80% from \$2.69 for the three months ended June 30, 2000 to \$4.84 for the same period in 2001.

### Costs and Expenses:

Total costs and expenses decreased to \$193,188 for the three months ended June 30, 2001 as compared to \$213,414 for the same period in 2000, a decrease of \$20,226, or 9%. This decrease was due to declines in G&A, production costs and depletion.

Production costs were \$152,796 for the three months ended June 30, 2001 and \$160,948 for the same period in 2000 resulting in an \$8,152 decrease, or 5%. This decrease was primarily due to lower well maintenance costs.

During this period, G&A decreased 49% from \$21,632 for the three months ended June 30, 2000 to \$11,109 for the same period in 2001, primarily due to a lower percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues and a decrease in audit, tax and monitoring fees.

Depletion was \$29,283 for the three months ended June 30, 2001 as compared to \$30,834 for the same period in 2000, a decrease of \$1,551, or 5%. This decrease was due to a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 2000 and a decline in oil production of 1,905 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$119,874 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This increase was the result of a reduction in working capital of \$119,505 and an increase of \$5,367 in oil and gas sales receipts, offset by increases in production costs of \$4,931 and G&A costs of \$67. The increase in oil and gas

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

receipts resulted from the increase in gas prices of \$146,081 during 2001, offset by a decline of \$111,110 in production and a \$29,604 decline resulting from lower oil and NGL prices as compared to the same period in 2000. The increase in production costs was primarily due to higher well maintenance costs incurred to stimulate well production. The increase in G&A was primarily due to an increase in audit and tax fees.

9

### Net Cash Used in Investing Activities

The Partnership's principal investing activities during the six months ended June 30, 2001 and 2000 were related to expenditures for oil and gas equipment upgrades on active properties.

Proceeds from asset dispositions of \$8,812 were received during the six months ended June 30, 2000 on a temporarily abandoned well.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$320,327, of which \$3,203 was distributed to the managing general partner and \$317,124 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$515,856, of which \$5,159 was distributed to the managing general partner and \$510,697 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333-59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite 1400, Irving, Texas 75039, Attention: Investor Relations.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to

10

the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

No market currently exists for the limited partnership interests of the Registrant. Based on the original purchase price, the aggregate market value of limited partnership interests owned by non-affiliates of the Registrant is \$11,575,000.

As of March 8, 2001, the number of outstanding limited partnership interests was 11,620.

The following documents are incorporated by reference into the indicated parts of this Annual Report on Form 10-K: None

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 91-A, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,620 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 38% and 16% were attributable to sales made to Plains Marketing, L.P. and TEPPCO Crude Oil LLC, respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Oil and gas production operations are subject to various types of regulations by local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 48 oil and gas wells. One well has been plugged and abandoned. At December 31, 2000, the Partnership had 47 wells producing.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

### PART II

### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,620 outstanding limited partnership interests held of record by 724 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations are distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, distributions of \$1,162,365 and \$432,629, respectively, were made to the limited partners.

### ITEM 6. SELECTED FINANCIAL DATA

The following table sets forth selected financial data for the years ended December 31:

	2000 -----	1999 -----	1998 -----	1997 -----
Operating results:				
Oil and gas sales	\$ 1,899,948 =====	\$ 1,140,335 =====	\$ 955,645 =====	\$ 1,411,24 =====
Impairment of oil and gas properties	\$ 12,824 =====	\$ 66,898 =====	\$ 306,043 =====	\$ 485,15 =====

4

### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 67% to \$1,899,948 for 2000 as compared to \$1,140,335 in 1999. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 2000, 43,704 barrels of oil, 20,425 barrels of natural gas liquids ("NGLs") and 94,315 mcf of gas were sold, or 79,848 barrel of oil equivalents ("BOEs"). In 1999, 44,203 barrels of oil, 20,617 barrels of NGLs and 100,615 mcf of gas were sold, or 81,589 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.33, or 70%, from \$17.57 in 1999 to \$29.90 in 2000. The average price received per barrel of NGLs increased \$5.60, or 60%, from \$9.34 in 1999 to \$14.94 in 2000. The average price received per mcf of gas increased 80% from \$1.70 in 1999 to \$3.06 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

A gain on disposition of assets of \$1,096 recognized during 1999 was from equipment credits received on one temporarily abandoned property.

Total costs and expenses decreased in 2000 to \$802,130 as compared to \$884,937 in 1999, a decrease of \$82,807, or 9%. The decrease was due to declines in depletion, the impairment of oil and gas properties and general and administrative expenses ("G&A"), offset by an increase in production costs.

Production costs were \$589,344 in 2000 and \$514,994 in 1999, resulting in an increase of \$74,350, or 14%. This increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

general partner personnel and operating costs. During this period, G&A decreased 21% from \$75,454 in 1999 to \$59,962 in 2000. The Partnership paid the managing general partner \$41,213 in 2000 and \$34,110 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized non-cash charges of \$12,824 and \$66,898 related to its oil and gas properties during 2000 and 1999, respectively.

5

Depletion decreased in 2000 to \$140,000 as compared to \$227,591 in 1999, representing a decrease of \$87,591, or 38%. This decrease was primarily due to a 127,977 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices and a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1999.

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 19% to \$1,140,335 from \$955,645 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 44,203 barrels of oil, 20,617 barrels of NGLs and 100,615 mcf of gas were sold, or 81,589 BOEs. In 1998, 49,403 barrels of oil, 21,220 barrels of NGLs and 108,617 mcf of gas were sold, or 88,726 BOEs.

The average price received per barrel of oil increased \$4.42, or 34%, from \$13.15 in 1998 to \$17.57 in 1999. The average price received per barrel of NGLs increased \$2.90, or 45%, from \$6.44 in 1998 to \$9.34 in 1999. The average price received per mcf of gas increased 9% from \$1.56 in 1998 to \$1.70 in 1999.

A gain on disposition of assets of \$1,096 recognized during 1999 was from equipment credits received on one temporarily abandoned property.

Total costs and expenses decreased in 1999 to \$884,937 as compared to \$1,247,302 in 1998, a decrease of \$362,365, or 29%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$514,994 in 1999 and \$535,948 in 1998, resulting in a decrease of \$20,954, or 4%. This decrease resulted from declines in ad valorem taxes, well maintenance costs and workover costs, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 72% from \$43,977 in 1998 to \$75,454 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$34,110 in 1999 and \$24,415 in 1998 for G&A incurred on behalf of the Partnership.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership recognized non-cash SFAS 121 charges of \$66,898 and \$306,043 related to its oil and gas properties during 1999 and 1998, respectively.

Depletion decreased in 1999 to \$227,591 as compared to \$361,334 in 1998. This represented a decrease of \$133,743, or 37%. This decrease was the result of an increase in proved reserves of 281,767 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998 and a decline in oil production of 5,200 barrels for the period ended December 31, 1999 compared to the same period in 1998.

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998,

6

weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$647,967 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$767,190 and a decline in G&A expenses paid of \$15,492, offset by an increase in production costs paid of \$74,350 and working capital of \$60,365. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$804,227 to oil and gas receipts, offset by \$37,037 resulting from the decline in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance costs incurred to stimulate well production.

#### Net Cash Used in Investing Activities

The Partnership's investing activities during 2000 and 1999 included expenditures related to equipment upgrades on various oil and gas properties.

Proceeds from asset dispositions of \$11,549 and \$1,096 recognized during 2000 and 1999, respectively, were from the disposition of oil and gas equipment on active wells.

#### Net Cash Used in Financing Activities

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

In 2000, cash distributions to the partners were \$1,174,106, of which \$11,741 was distributed to the managing general partner and \$1,162,365 to the limited partners. In 1999, cash distributions to the partners were \$436,999, of which \$4,370 was distributed to the managing general partner and \$432,629 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 91-A, L.P.  
(A Delaware Limited Partnership):

We have audited the balance sheets of Parker & Parsley 91-A, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 91-A, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

PARKER & PARSLEY 91-A, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
December 31, 2000, 1999 and 1998

### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 91-A, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated, in part, to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized non-cash impairment provisions of \$12,824, \$66,898 and \$306,043 related to its proved oil and gas properties during 2000, 1999 and 1998, respectively.

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$946,627 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of operations with the net income per Federal income tax returns for the years ended December 31:

	2000	1999
	-----	-----
Net income (loss) per statements of operations	\$ 1,115,704	\$ 266,803
Depletion and depreciation provisions for tax reporting purposes (greater than) less than amounts for financial reporting purposes	120,160	106,971
Impairment of oil and gas properties for financial reporting purposes	12,824	66,898
Other, net	8,901	(4,139)
	-----	-----
Net income per Federal income tax returns	\$ 1,257,589	\$ 436,533
	=====	=====

NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	1999
	-----	-----
Development costs	\$ 20,160	\$ 23,360
	=====	=====

Capitalized oil and gas properties consist of the following:

	2000
	-----
Property acquisition costs	\$ 343,666
Completed wells and equipment	9,366,466
	-----
Accumulated depletion	9,710,132 (7,727,573)
	-----

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Net oil and gas properties \$ 1,982,559  
=====

NOTE 6. RELATED PARTY TRANSACTIONS

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	1999
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 202,739	\$ 213,969
Reimbursement of general and administrative expenses	\$ 41,213	\$ 34,110

16

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 91-A GP ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer USA (1)
Revenues:	
Proceeds from disposition of depreciable and depletable properties	34.3434343%
All other revenues	34.3434343%
Costs and expenses:	
Lease acquisition costs, drilling and completion costs and all other costs	24.2424242%
Operating costs, reporting and legal expenses and general and administrative expenses	34.3434343%

(1) Includes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 45 limited partner interests owned by Pioneer USA.

NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls) -----
Net proved reserves at January 1, 1998	909,941
Revisions	(333,709)
Production	(70,623)
	-----
Net proved reserves at December 31, 1998	505,609
Revisions	430,559
Production	(64,820)
	-----
Net proved reserves at December 31, 1999	871,348
Revisions	171,624
Production	(64,129)
	-----
Net proved reserves at December 31, 2000	978,843
	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.72 per barrel of oil, \$12.21 per barrel of NGLs and \$7.85 per mcf of gas, discounted at 10% was approximately \$8,217,000 and undiscounted was \$17,966,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

Standardized Measure of Discounted Future Net Cash Flows

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider probable reserves, anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended Dec

	=====	=====

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the years ended December 31:

	2000	1999
	-----	-----
Plains Marketing, L.P.	38%	36%
TEPPCO Crude Oil LLC	16%	17%
Genesis Crude Oil, L.P.	-	-
Western Gas Resources, Inc.	3%	5%

At December 31, 2000, the amounts receivable from Plains Marketing, L.P. and TEPPCO Crude Oil LLC were \$64,973 and \$19,274, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1%

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of the Partnership's acquisition, drilling and completion costs, and 1% of its operating and general and administrative expenses. In return it is allocated 1% of the Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$11,620,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less sales commission costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

## PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name ----	Age at December 31, 2000 ----	Position -----
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice President, Chief Financial Officer and Director
Dennis E. Fagerstone	51	Executive Vice President and

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Mark L. Withrow	53	Executive Vice President, General Counsel and Director
Danny Kellum	46	Executive Vice President - Operations and Director
Rich Dealy	34	Vice President and Chief Accounting Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 25% of the Program's acquisition, drilling and completion costs and approximately 35% of its operating and general and administrative expenses. In return, they are allocated approximately 35% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers or employees of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

#### (a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 45 limited partner interests at January 1, 2001.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000 -----	1999 -----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 202,739	\$ 213,969
Reimbursement of general and administrative expenses	\$ 41,213	\$ 34,110

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation in oil and gas activities of the Program.

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES AND REPORTS ON FORM 8-K

(a) 1. Financial statements

The following are filed as part of this Report:

Independent Auditors' Report

Balance sheets as of December 31, 2000 and 1999

Statements of operations for the years ended December 31,  
2000, 1999 and 1998

Statements of partners' capital for the years ended December  
31, 2000, 1999 and 1998

Statements of cash flows for the years ended December 31,  
2000, 1999 and 1998

Notes to financial statements

2. Financial statement schedules

All financial statement schedules have been omitted since the  
required information is in the financial statements or notes  
thereto, or is not applicable nor required.

(b) Reports on Form 8-K

None.

(c) Exhibits

The exhibits listed on the accompanying index to exhibits are filed or  
incorporated by reference as part of this Report.

SUPPLEMENTAL INFORMATION

OF

PARKER & PARSLEY 91-B, L.P., A DELAWARE LIMITED PARTNERSHIP

TO

PROXY STATEMENT/PROSPECTUS DATED OCTOBER 12, 2001

-----

THE DATE OF THIS SUPPLEMENT IS OCTOBER 12, 2001

-----

This document contains important information specific to Parker & Parsley 91-B, L.P., and supplements the proxy statement/prospectus dated October 12, 2001, of Pioneer Natural Resources Company and Pioneer Natural Resources USA, Inc., by which Pioneer USA is soliciting proxies to be voted at a special meeting of limited partners of the partnership. The purpose of the special meeting is for you to vote upon the merger of the partnership with and into Pioneer USA that, if completed, will result in your receiving common stock of Pioneer Natural Resources Company for your partnership interests.

This document contains the following information concerning Parker & Parsley 91-B, L.P.:

o A table containing:

-- the aggregate initial investment by the limited partners

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

- the aggregate historical limited partner distributions through July 31, 2001
- the merger value attributable to partnership interests of limited partners, excluding Pioneer USA
- the merger value per \$1,000 limited partner investment
- the merger value per \$1,000 limited partner investment as a multiple of distributions for the past four quarterly distributions including the distribution in July 2001
- the book value per \$1,000 limited partner investment as of June 30, 2001 and as of December 31, 2000
- the going concern value per \$1,000 limited partner investment
- the liquidation value per \$1,000 limited partner investment
- the ordinary tax loss per \$1,000 limited partner investment in year of initial investment
- o Information about:
  - the legal opinion for the limited partners
  - the term of the partnership
- o The partnership's quarterly report on Form 10-Q, including management's discussion and analysis of financial condition and results of operations, for the six months ended June 30, 2001
- o The partnership's annual report on Form 10-K, including management's discussion and analysis of financial condition and results of operations, for the year ended December 31, 2000
- o Selected historical financial data for the partnership for the six months ended June 30, 2001 and 2000 and the five years ended December 31, 2000

\$

-----

- (a) Stated in thousands.
- (b) The merger value for the partnership is equal to the sum of the present value of estimated future net revenues from the partnership's estimated oil and gas reserves and its net working capital, in each case as of March 31, 2001, less its pro rata share, based on its reserve value, of the estimated expenses and fees of the mergers of all of the partnerships and less the cash distribution on July 13, 2001, by the partnership to its partners.
- (c) Interests in some partnerships were sold in units at prices other than \$1,000. We have presented this information based on a \$1,000 initial investment for ease of use and comparison among partnerships. You should not assume that the amount shown per \$1,000 investment is the same as the value or amount attributable to a single unit investment.
- (d) The going concern value for the partnership is based upon: (1) the sum of (A) the estimated net cash flow from the sale of the partnership's reserves during a 10-year operating period and (B) the estimated residual value from the sale of the partnership's remaining reserves at the end of the operating period, in each case using the same pricing and discount rate as in the merger value calculation, less (2) (A) partnership level general and administrative expenses, and (B) the cash distribution on July 13, 2001 by the partnership to its partners.
- (e) The liquidation value for the partnership is based upon the sale of the partnership's reserves at the reserve value, less (1) liquidation expenses which are estimated to be the sum of (A) the partnership's pro rata share of the merger expenses and fees described in footnote (b) above and (B) 3% of the partnership's reserve value, and (2) the cash distribution on July 13, 2001 by the partnership to its partners. The liquidation expenses represent estimated costs to retain an investment banker or broker to sell the assets of the partnership and the legal and other closing costs associated with such transaction, including the wind-down costs of the partnership.
- (f) Your ability to use your distributive share of the partnership's loss to offset your other income may have been subject to certain limitations at your level as a partner, and you may therefore wish to consult your tax advisor to determine the additional value, if any, actually realized by you in your particular circumstances.

### INFORMATION ABOUT THE LEGAL OPINION FOR THE LIMITED PARTNERS

The partnership agreement for the partnership requires that special legal counsel render an opinion on behalf of the limited partners to Pioneer USA that neither the grant nor the exercise of the right to approve the merger of the partnership by its limited partners will adversely affect the federal income tax classification of the partnership or any of its limited partners. Although not required by the partnership agreement, the opinion will also state that neither

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the grant nor exercise of such right will result in the loss of any limited partner's limited liability. In addition, the counsel designated to render the opinion is not required to be counsel other than counsel to Pioneer USA or the partnership. Both the designated counsel and the legal opinion must be approved by the limited partners. Pioneer USA has retained Stradley Ronon Stevens & Young, LLP of Wilmington, Delaware, for the purpose of rendering this legal opinion on behalf of the limited partners to Pioneer USA. The merger proposals include an approval of that counsel and the form of its opinion. A copy of the opinion is attached as an exhibit to the merger proposals.

INFORMATION ABOUT THE TERM OF THE PARTNERSHIP

The term of the partnership is until December 31, 2041, unless the partnership is earlier terminated in accordance with the applicable provisions of its partnership agreement.

6

PARKER & PARSLEY 91-B, L.P.  
(A Delaware Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
June 30, 2001  
(Unaudited)

### Note 1. Organization and nature of operations

Parker & Parsley 91-B, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware.

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

### Note 2. Basis of presentation

In the opinion of management, the unaudited financial statements of the Partnership as of June 30, 2001 and for the three and six months ended June 30, 2001 and 2000 include all adjustments and accruals consisting only of normal recurring accrual adjustments which are necessary for a fair presentation of the results for the interim period. These interim results are not necessarily indicative of results for a full year. Certain reclassifications may have been made to the June 30, 2000 financial statements to conform to the June 30, 2001 financial statement presentations.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in this Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. The financial statements should be read in conjunction with the financial statements and the notes thereto contained in the Partnership's Report on Form 10-K for the year ended December 31, 2000, as filed with the Securities and Exchange Commission, a copy of which is available upon request by writing to Rich Dealy, Vice President and Chief Accounting Officer, 5205 North O'Connor Boulevard, Suite 1400, Irving, Texas 75039-3746.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (1)

#### Results of Operations

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Six months ended June 30, 2001 compared with six months ended June 30, 2000

### Revenues:

The Partnership's oil and gas revenues decreased 23% to \$732,727 for the six months ended June 30, 2001 as compared to \$954,341 for the same period in 2000. The decrease in revenues resulted from a decrease in production and a decline in the average price received for oil, offset by higher average prices received for gas and NGLs. For the six months ended June 30, 2001, 17,901 barrels of oil,

7

6,251 barrels of natural gas liquids ("NGLs") and 28,144 mcf of gas were sold, or 28,843 barrel of oil equivalents ("BOEs"). For the six months ended June 30, 2000, 24,467 barrels of oil, 11,016 barrels of NGLs and 42,828 mcf of gas were sold, or 42,621 BOEs.

The average price received per barrel of oil decreased \$.65, or 2%, from \$28.58 for the six months ended June 30, 2000 to \$27.93 for the same period in 2001. The average price received per barrel of NGLs increased \$1.23, or 8%, from \$14.84 during the six months ended June 30, 2000 to \$16.07 for the same period in 2001. The average price received per mcf of gas increased 120% from \$2.14 during the six months ended June 30, 2000 to \$4.70 for the same period in 2001. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received during the six months ended June 30, 2001.

Gain on disposition of assets of \$2,273 was recognized during the six months ended June 30, 2000 from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses decreased to \$344,793 for the six months ended June 30, 2001 as compared to \$359,492 for the same period in 2000, a decrease of \$14,699, or 4%. This decrease was due to declines in general and administrative expenses ("G&A"), production costs and depletion.

Production costs were \$277,327 for the six months ended June 30, 2001 and \$280,019 for the same period in 2000 resulting in a \$2,692 decrease, or 1%. This decrease was primarily the result of a decline in workover costs, offset by an increase in well maintenance costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 28% from \$37,463 for the six months ended June 30, 2000 to \$26,948 for the same period in 2001. The decline was primarily due to a lower percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of decreased oil and gas revenues for the six months ended June 30, 2001 as compared to the same period in 2000.

Depletion was \$40,518 for the six months ended June 30, 2001 as compared to \$42,010 for the same period in 2000, a decrease of \$1,492, or 4%. This decrease was primarily due to a decline in oil production of 6,566 barrels for the six months ended June 30, 2001 as compared to the same period in 2000.

Three months ended June 30, 2001 compared with three months ended June 30, 2000

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Revenues:

The Partnership's oil and gas revenues decreased 30% to \$350,850 for the three months ended June 30, 2001 as compared to \$500,753 for the same period in 2000. The decrease in revenues resulted from a decrease in production and a decline in

8

the average price received for oil, offset by higher average prices received for gas and NGLs. For the three months ended June 30, 2001, 8,311 barrels of oil, 4,242 barrels of NGLs and 17,521 mcf of gas were sold, or 15,473 BOEs. For the three months ended June 30, 2000, 12,405 barrels of oil, 6,040 barrels of NGLs and 23,026 mcf of gas were sold, or 22,283 BOEs.

The average price received per barrel of oil decreased \$1.72, or 6%, from \$28.62 for the three months ended June 30, 2000 to \$26.90 for the same period in 2001. The average price received per barrel of NGLs increased \$.32, or 2%, from \$14.61 during the three months ended June 30, 2000 to \$14.93 for the same period in 2001. The average price received per mcf of gas increased 46% from \$2.50 during the three months ended June 30, 2000 to \$3.65 in 2001.

Gain on disposition of assets of \$2,273 was recognized during the three months ended June 30, 2000 from equipment credits received on one fully depleted well.

### Costs and Expenses:

Total costs and expenses decreased to \$180,244 for the three months ended June 30, 2001 as compared to \$180,367 for the same period in 2000, a decrease of \$123. This decrease was due to declines in G&A and depletion, offset by an increase in production costs.

Production costs were \$152,544 for the three months ended June 30, 2001 and \$134,063 for the same period in 2000 resulting in an \$18,481 increase, or 14%. This increase was primarily due to additional well maintenance and workover costs incurred to stimulate well production.

During this period, G&A decreased 66% from \$26,259 for the three months ended June 30, 2000 to \$8,966 for the same period in 2001. The decline was due to less G&A being allocated due to lower oil and gas revenues for the three months ended June 30, 2001 as compared to the same period in 2000 and declines in audit, tax and monitoring fees.

Depletion was \$18,734 for the three months ended June 30, 2001 as compared to \$20,045 for the same period in 2000, a decrease of \$1,311, or 7%. This decrease was primarily due to a decrease in oil production of 4,094 barrels for the three months ended June 30, 2001 as compared to the same period in 2000.

### Liquidity and Capital Resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities decreased \$12,053 during the six months ended June 30, 2001 from the same period ended June 30, 2000. This decrease was due to a decline in oil and gas sales receipts of \$222,242, offset by declines in production costs of \$2,692, G&A expenses paid of \$10,515 and working capital of \$196,982. The decrease in oil and gas receipts resulted from a decline of \$328,981 in production during 2001 as compared to the same period

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in 2000 and a decline in oil prices of \$16,400, offset by an increase in gas and

9

NGL prices of \$123,139 during 2001. The decrease in production costs was primarily due to lower workover costs, offset by an increase in well maintenance costs incurred to stimulate well production. The decrease in G&A was primarily due to lower G&A being allocated due to decreased oil and gas revenues.

### Net Cash Used in Investing Activities

The Partnership's investing activities for the six months ended June 30, 2001 and 2000 were related to the upgrades of oil and gas equipment on active properties.

Proceeds from asset dispositions of \$133 and \$2,273 incurred during the six months ended June 30, 2001 and 2000, respectively, were related to equipment credits on active wells.

### Net Cash Used in Financing Activities

For the six months ended June 30, 2001, cash distributions to the partners were \$281,876, of which \$2,819 was distributed to the managing general partner and \$279,057 to the limited partners. For the same period ended June 30, 2000, cash distributions to the partners were \$554,017, of which \$5,540 was distributed to the managing general partner and \$548,477 to the limited partners.

For the three months ended June 30, 2001, no distributions were made by the partnership to its partners. Subsequent to June 30, 2001 the cash distribution that otherwise would have been mailed to partners in late June was made to holders of record as of July 9, 2001 and was mailed on July 13, 2001. For further information, see "Proposal to acquire partnerships" below.

### Proposal to acquire partnerships

On June 29, 2001, Pioneer Natural Resources Company ("Pioneer") filed with the Securities and Exchange Commission Amendment No. 1 to the Form S-4 Registration Statement (File No. 333- 59094) (the "preliminary proxy statement/prospectus"), which proposes an agreement and plan of merger among Pioneer, Pioneer Natural Resources USA, Inc. ("Pioneer USA"), a wholly-owned subsidiary of Pioneer, and 46 Parker & Parsley limited partnerships. Each partnership that approves the agreement and plan of merger and the other related merger proposals will merge with and into Pioneer USA upon the closing of the transactions described in the preliminary proxy statement/prospectus, and the partnership interests of each such partnership will be converted into the right to receive Pioneer common stock. The Partnership is one of the 46 Parker & Parsley limited partnerships that will be asked to approve the agreement and plan of merger. The preliminary proxy statement/prospectus is non-binding and is subject to, among other things, consideration of offers from third parties to purchase any partnership or its assets and the majority approval of the limited partnership interests in each partnership.

Pioneer USA will solicit proxies from limited partners to approve the mergers only when the proxy statement/prospectus is final and declared effective. No solicitation will be made using preliminary materials. Nonetheless, copies of the preliminary proxy statement/prospectus may be obtained without charge upon request from Pioneer Natural Resources Company, 5205 North O'Connor Blvd., Suite

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

1400, Irving, Texas 75039, Attention: Investor Relations.

10

The limited partners are urged to read the proxy statement/prospectus of Pioneer filed with the Securities and Exchange Commission, when it is finalized, because it contains important information about the proposed mergers, including information about the direct and indirect interests of Pioneer USA and Pioneer in the mergers. The limited partners may also obtain the preliminary and (when filed) final proxy statement/prospectus and other relevant documents relating to the proposed mergers free through the internet web site that the Securities and Exchange Commission maintains at [www.sec.gov](http://www.sec.gov).

PARTS I AND II OF THIS ANNUAL REPORT ON FORM 10-K (THE "REPORT") CONTAIN FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. ACCORDINGLY, NO ASSURANCES CAN BE GIVEN THAT THE ACTUAL EVENTS AND RESULTS WILL NOT BE MATERIALLY DIFFERENT THAN THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS. SEE "ITEM 1. BUSINESS" FOR A DESCRIPTION OF VARIOUS FACTORS THAT COULD MATERIALLY AFFECT THE ABILITY OF THE PARTNERSHIP TO ACHIEVE THE ANTICIPATED RESULTS DESCRIBED IN THE FORWARD LOOKING STATEMENTS.

### PART I

#### ITEM 1. BUSINESS

Parker & Parsley 91-B, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA"). Pioneer USA is a wholly-owned subsidiary of Pioneer Natural Resources Company ("Pioneer"). As of March 8, 2001, the Partnership had 11,249 limited partnership interests outstanding.

The Partnership does not have any employees of its own. Pioneer USA employs 701 persons, many of whom dedicated a part of their time to the conduct of the Partnership's business during the period for which this Report is filed. Pioneer USA is responsible for all management functions.

The Partnership engages in oil and gas development and production and is not involved in any industry segment other than oil and gas. The Partnership's production is geographically concentrated in West Texas.

The principal markets during 2000 for the oil produced by the Partnership were refineries and oil transmission companies that have facilities near the Partnership's oil producing properties. During 2000, Pioneer USA marketed the Partnership's gas to a variety of purchasers, none of which accounted for 10% or more of the Partnership's oil and gas revenues. Of the Partnership's total oil and gas revenues for 2000, approximately 48% and 22% were attributable to sales made to Mobil Oil Corporation and Plains Marketing, L.P., respectively. Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on its ability to sell its oil, natural gas liquids ("NGLs") and gas production.

The Partnership's revenues, profitability, cash flow and future rate of growth are highly dependent on the prevailing prices of oil and gas, which are affected by numerous factors beyond the Partnership's control. Oil and gas prices historically have been very volatile. A substantial or extended decline in the prices of oil or gas could have a material adverse effect on the Partnership's revenues, profitability and cash flow and could, under certain circumstances, result in a reduction in the carrying value of the Partnership's oil and gas properties.

Oil and gas production operations are subject to various types of regulations by

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

local, state and federal agencies. The Partnership's operations are also subject to state conservation laws and regulations, including the establishment of maximum rates of production from wells and the regulation of spacing, plugging and abandonment of wells. Each state generally imposes a production or severance tax with respect to production and sale of oil and gas within their respective jurisdictions. Noncompliance with the laws and regulations may subject the Partnership to penalties, damages or other liabilities and compliance may increase the cost of the Partnership's operations.

The oil and gas business is also subject to environmental hazards such as oil spills, gas leaks and ruptures and discharges of toxic substances or gases that could expose the Partnership to substantial

2

liability due to pollution and other environmental damages. Although the Partnership believes that its business operations do not impair environmental quality and that its costs of complying with any applicable environmental regulations are not currently significant, the Partnership cannot predict what, if any, effect these environmental regulations may have on its current or future operations.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves.

No material part of the Partnership's business is seasonal and the Partnership conducts no foreign operations.

### ITEM 2. PROPERTIES

The Partnership's properties consist of leasehold interests in properties on which oil and gas wells are located. Such property interests are often subject to landowner royalties, overriding royalties and other oil and gas leasehold interests.

Fractional working interests in developmental oil and gas prospects located primarily in the Spraberry Trend Area of West Texas were acquired by the Partnership, resulting in the Partnership's participation in the drilling of 29 oil and gas wells. At December 31, 2000, the Partnership had 29 producing oil and gas wells.

For information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998, see Note 7 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" below. Such reserves have been evaluated by Williamson Petroleum Consultants, Inc., an independent petroleum consultant.

### ITEM 3. LEGAL PROCEEDINGS

The Partnership from time to time is a party to various legal proceedings incidental to its business involving claims in oil and gas leases or interests, other claims for damages in amounts not in excess of 10% of its current assets and other matters, none of which Pioneer USA believes to be material to the Partnership.

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

There were no matters submitted to a vote of the partners during the fourth quarter of 2000.

3

### PART II

#### ITEM 5. MARKET FOR LIMITED PARTNERSHIP INTERESTS AND LIMITED PARTNERSHIP DISTRIBUTIONS

At March 8, 2001, the Partnership had 11,249 outstanding limited partnership interests held of record by 677 subscribers. There is no established public trading market for the limited partnership interests. Under the limited partnership agreement, Pioneer USA has made certain commitments to purchase partnership interests at a computed value.

Revenues which, in the sole judgement of the managing general partner, are not required to meet the Partnership's obligations will be distributed to the partners at least quarterly in accordance with the limited partnership agreement. During the years ended December 31, 2000 and 1999, \$1,324,583 and \$481,274, respectively, of such revenue-related distributions were made to the limited partners.

#### ITEM 6. SELECTED FINANCIAL DATA

4

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

2000 compared to 1999

The Partnership's oil and gas revenues increased 80% to \$2,046,224 for 2000 as compared to \$1,136,073 in 1999. The increase in revenues resulted from higher average prices received and an increase in production. In 2000, 47,684 barrels of oil, 21,866 barrels of natural gas liquids ("NGLs") and 85,556 mcf of gas were sold, or 83,809 barrel of oil equivalents ("BOEs"). In 1999, 46,030 barrels of oil, 19,026 barrels of NGLs and 74,025 mcf of gas were sold, or 77,394 BOEs. Due to the decline characteristics of the Partnership's oil and gas properties, management expects a certain amount of decline in production in the future until the Partnership's economically recoverable reserves are fully depleted.

The average price received per barrel of oil increased \$12.19, or 68%, from \$17.90 in 1999 to \$30.09 in 2000. The average price received per barrel of NGLs increased \$6.35, or 63%, from \$10.15 in 1999 to \$16.50 in 2000. The average price received per mcf of gas increased 82% from \$1.61 in 1999 to \$2.93 in 2000. The market price for oil and gas has been extremely volatile in the past decade and management expects a certain amount of volatility to continue in the foreseeable future. The Partnership may therefore sell its future oil and gas production at average prices lower or higher than that received in 2000.

Gain on disposition of assets of \$2,273 was recognized during 2000 from equipment credits received on one fully depleted well.

Total costs and expenses increased in 2000 to \$713,527 as compared to \$655,625 in 1999, an increase of \$57,902, or 9%. The increase was due to an increase in production costs, offset by decreases in depletion and general and administrative expenses ("G&A").

Production costs were \$576,561 in 2000 and \$442,342 in 1999, resulting in an

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

increase of \$134,219, or 30%. This increase was primarily due to higher production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

G&A's components are independent accounting and engineering fees and managing general partner personnel and operating costs. During this period, G&A decreased 22% from \$68,860 in 1999 to \$53,623 in 2000. The Partnership paid the managing general partner \$38,999 in 2000 and \$33,982 in 1999 for G&A incurred on behalf of the Partnership. The remaining G&A was paid directly by the Partnership. The managing general partner determines the allocated expenses based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Depletion was \$83,343 in 2000 as compared to \$144,423 in 1999, representing a decrease of \$61,080, or 42%. This decrease was primarily due to a 82,084 barrels of oil increase in proved reserves during 2000 as a result of higher commodity prices.

5

1999 compared to 1998

The Partnership's 1999 oil and gas revenues increased 30% to \$1,136,073 from \$873,012 in 1998. The increase in revenues resulted from higher average prices received, offset by a decline in production. In 1999, 46,030 barrels of oil, 19,026 barrels of NGLs and 74,025 mcf of gas were sold, or 77,394 BOEs. In 1998, 49,100 barrels of oil, 17,427 barrels of NGLs and 68,244 mcf of gas were sold, or 77,901 BOEs.

The average price received per barrel of oil increased \$4.57, or 34%, from \$13.33 in 1998 to \$17.90 in 1999. The average price received per barrel of NGLs increased \$3.36, or 49%, from \$6.79 in 1998 to \$10.15 in 1999. The average price received per mcf of gas increased 10% from \$1.47 in 1998 to \$1.61 in 1999.

Gain on disposition of assets of \$197 recognized in 1998 was attributable to credits received from the disposal of oil and gas equipment on a saltwater disposal well that was plugged and abandoned in a prior year.

Total costs and expenses decreased in 1999 to \$655,625 as compared to \$1,062,299 in 1998, a decrease of \$406,674, or 38%. The decrease was due to declines in the impairment of oil and gas properties, depletion and production costs, offset by an increase in G&A.

Production costs were \$442,342 in 1999 and \$464,489 in 1998, resulting in a \$22,147 decrease, or 5%. This decrease was due to lower ad valorem taxes and well maintenance costs, offset by an increase in production taxes due to increased oil and gas revenues.

During this period, G&A increased 58% from \$43,606 in 1998 to \$68,860 in 1999 primarily due to a higher percentage of the managing general partner's G&A being allocated (limited to 3% of oil and gas revenues) as a result of increased oil and gas revenues. The Partnership paid the managing general partner \$33,982 in 1999 and \$27,503 in 1998 for G&A incurred on behalf of the Partnership.

In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

be Disposed Of" ("SFAS 121"), the managing general partner reviews the Partnership's oil and gas properties for impairment whenever events or circumstances indicate a decline in the recoverability of the carrying value of the Partnership's assets may have occurred. As a result of the review and evaluation of its long-lived assets for impairment, the Partnership recognized a non-cash charge of \$295,542 related to its oil and gas properties during 1998.

Depletion was \$144,423 in 1999 compared to \$258,662 in 1998. This represented a decrease of \$114,239, or 44%. This decrease was primarily the result of an increase in proved reserves of 362,706 barrels of oil during 1999 as a result of higher commodity prices, a reduction in the Partnership's net depletable basis from charges taken in accordance with SFAS 121 during the fourth quarter of 1998.

6

### Petroleum industry

The petroleum industry has been characterized by volatile oil, NGL and natural gas commodity prices and relatively stable supplier costs during the three years ended December 31, 2000. During 1998, weather patterns, regional economic recessions and political matters combined to cause worldwide oil supplies to exceed demand resulting in a substantial decline in oil prices. Also during 1998, but to a lesser extent, market prices for natural gas declined. During 1999 and 2000, the Organization of Petroleum Exporting Countries ("OPEC") and certain other crude oil exporting nations announced reductions in their planned export volumes. Those announcements, together with the enactment of the announced reductions in export volumes, had a positive impact on world oil prices, as have overall natural gas supply and demand fundamentals on North American natural gas prices. Although the favorable commodity price environment and stable field service cost environment is expected to continue during 2001, there is no assurance that commodity prices will not return to a less favorable level or that field service costs will not escalate in the future, both of which could negatively impact the Partnership's future results of operations and cash distributions.

### Liquidity and capital resources

#### Net Cash Provided by Operating Activities

Net cash provided by operating activities increased \$766,498 during the year ended December 31, 2000 from 1999. This increase was due to an increase in oil and gas sales receipts of \$919,054 and a decline in G&A expenses paid of \$15,237, offset by increases in production costs paid of \$134,219 and working capital of \$33,574. The increase in oil and gas receipts resulted from the increase in commodity prices during 2000 which contributed an additional \$788,626 to oil and gas receipts and \$130,428 resulting from the increase in production during 2000. The increase in production costs was primarily due to increased production taxes associated with higher oil and gas prices and additional well maintenance and workover costs incurred to stimulate well production.

#### Net Cash Used in Investing Activities

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

The Partnership's principal investing activities during 2000 and 1999 were related to the addition of equipment on various oil and gas properties.

Proceeds from asset dispositions of \$2,372 recognized during 2000 were related to equipment credits on two active wells.

Net Cash Used in Financing Activities

In 2000, cash distributions to the partners were \$1,337,963, of which \$13,380 was distributed to the managing general partner and \$1,324,583 to the limited partners. In 1999, cash distributions to the partners were \$486,135, of which \$4,861 was distributed to the managing general partner and \$481,274 to the limited partners.

INDEPENDENT AUDITORS' REPORT

The Partners  
Parker & Parsley 91-B, L.P.  
(A Delaware Limited Partnership):

Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

We have audited the balance sheets of Parker & Parsley 91-B, L.P. as of December 31, 2000 and 1999, and the related statements of operations, partners' capital and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Parker & Parsley 91-B, L.P. as of December 31, 2000 and 1999, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### NOTES TO FINANCIAL STATEMENTS December 31, 2000, 1999 and 1998

#### NOTE 1. ORGANIZATION AND NATURE OF OPERATIONS

Parker & Parsley 91-B, L.P. (the "Partnership") is a limited partnership organized in 1991 under the laws of the State of Delaware. The Partnership's managing general partner is Pioneer Natural Resources USA, Inc. ("Pioneer USA").

The Partnership engages in oil and gas development and production in Texas and is not involved in any industry segment other than oil and gas.

#### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Oil and gas properties - The Partnership utilizes the successful efforts method of accounting for its oil and gas properties and equipment. Under this method, all costs associated with productive wells and nonproductive development wells are capitalized while nonproductive exploration costs are expensed. Capitalized costs relating to proved properties are depleted using the unit-of-production method on a property-by-property basis based on proved oil (dominant mineral) reserves as evaluated by independent petroleum consultants. The carrying amounts of properties sold or otherwise disposed of and the related allowances for depletion are eliminated from the accounts and any gain or loss is included in results of operations.

Impairment of long-lived assets - In accordance with Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of" ("SFAS 121"), the Partnership reviews its long-lived assets to be held and used on an individual property basis, including oil and gas properties accounted for under the successful efforts method of accounting, whenever events or circumstances indicate that the carrying value of those assets may not be recoverable. An impairment loss is indicated if the sum of the expected future cash flows is less than the carrying amount of the assets. In this circumstance, the Partnership recognizes an impairment loss for the amount by which the carrying amount of the asset exceeds the estimated fair value of the asset.

Use of estimates in the preparation of financial statements - Preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Net income (loss) per limited partnership interest - The net income (loss) per limited partnership interest is calculated by using the number of outstanding limited partnership interests.

Income taxes - A Federal income tax provision has not been included in the financial statements as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Statements of cash flows - For purposes of reporting cash flows, cash includes depository accounts held by banks.

General and administrative expenses - General and administrative expenses are allocated in part to the Partnership by the managing general partner. Allocated expenses are determined by the managing general partner based upon the level of activity of the Partnership relative to the non-partnership activities of the managing general partner. The method of allocation has been consistent over the past several years with certain modifications incorporated to reflect changes in Pioneer USA's overall business activities.

Reclassifications - Certain reclassifications may have been made to the 1999 and 1998 financial statements to conform to the 2000 financial statement presentations.

Environmental - The Partnership is subject to extensive federal, state and local environmental laws and regulations. These laws, which are constantly changing, regulate the discharge of materials into the environment and may require the Partnership to remove or mitigate the environmental effects of the disposal or release of petroleum or chemical substances at various sites. Environmental expenditures are expensed or capitalized depending on their future economic benefit. Expenditures that relate to an existing condition caused by past operations and that have no future economic benefits are expensed. Liabilities for expenditures of a noncapital nature are recorded when environmental assessment and/or remediation is probable, and the costs can be reasonably estimated. Such liabilities are generally undiscounted unless the timing of cash payments for the liability or component are fixed or reliably determinable. No such liabilities have been accrued as of December 31, 2000.

Revenue recognition - The Partnership uses the entitlements method of accounting for oil, natural gas liquids ("NGLs") and natural gas revenues.

### NOTE 3. IMPAIRMENT OF LONG-LIVED ASSETS

In accordance with SFAS 121, the Partnership reviews its proved oil and gas properties for impairment whenever events and circumstances indicate a decline in the recoverability of the carrying value of the Partnership's oil and gas properties. The Partnership has estimated the expected future cash flows of its oil and gas properties as of December 31, 2000, 1999 and 1998, based on proved reserves, and compared such estimated future cash flows to the respective carrying amount of the oil and gas properties to determine if the carrying amounts were likely to be recoverable. For those proved oil and gas properties for which the carrying amount exceeded the estimated future cash flows, an impairment was determined to exist; therefore, the Partnership adjusted the carrying amount of those oil and gas properties to their fair value as determined by discounting their expected future cash flows at a discount rate commensurate with the risks involved in the industry. As a result, the Partnership recognized a non-cash impairment provision of \$295,542 related to its proved oil and gas properties during 1998.

15

### NOTE 4. INCOME TAXES

The financial statement basis of the Partnership's net assets and liabilities was \$367,378 greater than the tax basis at December 31, 2000.

The following is a reconciliation of net income (loss) per statements of

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

operations with the net income (loss) per Federal income tax returns for the years ended December 31:

	2000	
	-----	-----
Net income (loss) per statements of operations	\$ 1,354,094	\$
Depletion and depreciation provisions for tax reporting purposes greater than amounts for financial reporting purposes	(27,307)	
Impairment of oil and gas properties for financial reporting purposes	-	
Salvage income		
Intangible development costs capitalized for financial reporting purposes and expensed for tax reporting purposes	(328)	
Other, net	(2,832)	
	-----	-----
Net income (loss) per Federal income tax returns	\$ 1,323,627	\$
	=====	=====

### NOTE 5. OIL AND GAS PRODUCING ACTIVITIES

The following is a summary of the net costs incurred, whether capitalized or expensed, related to the Partnership's oil and gas producing activities for the years ended December 31:

	2000	
	-----	-----
Development costs	\$ 12,408	\$
	=====	=====

Capitalized oil and gas properties consist of the following:

		2000
		-----
Property acquisition costs		\$ 9
Completed wells and equipment		8,8
		-----
Accumulated depletion		9,7 (8,3)
		-----
Net oil and gas properties		\$ 1,3
		=====

### NOTE 6. RELATED PARTY TRANSACTIONS

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

16

	2000	
	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 196,507	\$
Reimbursement of general and administrative expenses	\$ 38,999	\$

The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Pioneer USA, P&P Employees 91-B GP ("EMPL") and the Partnership are parties to the Program agreement. EMPL is a general partnership organized for the benefit of certain employees of Pioneer USA. EMPL was merged with Pioneer USA on December 28, 2000.

The costs and revenues of the Program are allocated to Pioneer USA and the Partnership as follows:

	Pioneer U
	-----
Revenues:	
Proceeds from disposition of depreciable and depletable properties	34.343
All other revenues	34.343
Costs and expenses:	
Lease acquisition costs, drilling and completion costs and all other costs	24.242
Operating costs, reporting and legal expenses and general and administrative expenses	34.343

- (1) Includes Pioneer USA's 1% general partner ownership which is allocated at the Partnership level and 10 limited partner interests owned by Pioneer USA.

### NOTE 7. OIL AND GAS INFORMATION (UNAUDITED)

The following table presents information relating to the Partnership's estimated proved oil and gas reserves at December 31, 2000, 1999 and 1998 and changes in such quantities during the years then ended. All of the Partnership's

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

reserves are proved developed and located within the United States. The Partnership's reserves are based on an evaluation prepared by Williamson Petroleum Consultants, Inc., an independent petroleum consultant, using criteria established by the Securities and Exchange Commission.

	Oil and NGLs (bbls)	Gas (mcf)
	-----	-----
Net proved reserves at January 1, 1998	803,868	767,367
Revisions	(224,362)	(91,817)
Production	(66,527)	(68,244)
	-----	-----
Net proved reserves at December 31, 1998	512,979	607,306
Revisions	550,155	821,693
Production	(65,056)	(74,025)
	-----	-----
Net proved reserves at December 31, 1999	998,078	1,354,974
Revisions	113,248	(43,847)
Production	(69,550)	(85,556)
	-----	-----
Net proved reserves at December 31, 2000	1,041,776	1,225,571
	=====	=====

As of December 31, 2000, the estimated present value of future net revenues of proved reserves, calculated using December 31, 2000 prices of \$26.64 per barrel of oil, \$13.59 per barrel of NGLs and \$7.73 per mcf of gas, discounted at 10% was approximately \$8,364,000 and undiscounted was \$17,283,000.

Numerous uncertainties exist in estimating quantities of proved reserves and future net revenues therefrom. The estimates of proved reserves and related future net revenues set forth in this Report are based on various assumptions, which may ultimately prove to be inaccurate. Therefore, such estimates should not be construed as estimates of the current market value of the Partnership's proved reserves. The Partnership emphasizes that reserve estimates are inherently imprecise and, accordingly, the estimates are expected to change as future information becomes available.

Disclosures about Oil & Gas Producing Activities

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

### Standardized Measure of Discounted Future Net Cash Flows

The standardized measure of discounted future net cash flows is computed by applying year-end prices of oil and gas (with consideration of price changes only to the extent provided by contractual arrangements) to the estimated future production of proved oil and gas reserves less estimated future expenditures (based on year-end costs) to be incurred in developing and producing the proved reserves, discounted using a rate of 10% per year to reflect the estimated timing of the future cash flows. A Federal income tax provision has not been calculated as the income of the Partnership is included in the individual Federal income tax returns of the respective partners.

Discounted future cash flow estimates like those shown below are not intended to represent estimates of the fair value of oil and gas properties. Estimates of fair value should also consider anticipated future oil and gas prices, interest rates, changes in development and production costs and risks associated with future production. Because of these and other considerations, any estimate of fair value is necessarily subjective and imprecise.

	For the years ended

	=====	=====

NOTE 8. MAJOR CUSTOMERS

The following table reflects the major customers of the Partnership's oil and gas sales (a major customer is defined as a customer whose sales exceed 10% of total sales) during the periods ended December 31:

	2000	19
	-----	-----
Mobil Oil Corporation	48%	
Plains Marketing, L.P.	22%	
Genesis Crude Oil, L.P.	-	
Western Gas Resources, Inc.	4%	

At December 31, 2000, the amounts receivable from Mobil Oil Corporation and Plains Marketing, L.P. were \$64,224 and \$32,862, respectively, which are included in the caption "Accounts receivable - oil and gas sales" in the accompanying Balance Sheet.

Pioneer USA is of the opinion that the loss of any one purchaser would not have an adverse effect on the ability of the Partnership to sell its oil, NGLs and gas production.

NOTE 9. PARTNERSHIP AGREEMENT

The following is a brief summary of the more significant provisions of the limited partnership agreement:

Managing general partner - The managing general partner of the Partnership is Pioneer USA. Pioneer USA has the power and authority to manage, control and administer all Partnership affairs. As managing general partner and operator of the Partnership's properties, all production expenses are incurred by Pioneer USA and billed to the Partnership. The majority of the Partnership's oil and gas revenues are received directly by the Partnership, however, a

portion of the oil and gas revenue is initially received by Pioneer USA prior to being paid to the Partnership. Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs, and 1% of its operating and general and administrative expenses. In return it is allocated 1% of the

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

Partnership's revenues.

Limited partner liability - The maximum amount of liability of any limited partner is the total contributions of such partner plus his share of any undistributed profits.

Initial capital contributions - The limited partners entered into subscription agreements for aggregate capital contributions of \$11,249,000. The managing general partner is required to contribute amounts equal to 1% of initial Partnership capital less sales commission costs allocated to the limited partners and to contribute amounts necessary to pay costs and expenses allocated to it under the Partnership agreement to the extent its share of revenues does not cover such costs.

### ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

20

### PART III

### ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE PARTNERSHIP

The Partnership does not have any officers or directors. Under the limited partnership agreement, the Partnership's managing general partner, Pioneer USA, is granted the exclusive right and full authority to manage, control and administer the Partnership's business.

Set forth below are the names, ages and positions of the directors and executive officers of Pioneer USA. Directors of Pioneer USA are elected to serve until the next annual meeting of stockholders or until their successors are elected and qualified.

Name	Age at December 31, 2000	
----	----	---
Scott D. Sheffield	48	President
Timothy L. Dove	44	Executive Vice Pr Financial Offic
Dennis E. Fagerstone	51	Executive Vice Pr
Mark L. Withrow	53	Executive Vice Pr Counsel and Dir
Danny Kellum	46	Executive Vice Pr Operations and

Rich Dealy

34

Vice President and  
Officer

Scott D. Sheffield. Mr. Sheffield is a graduate of The University of Texas with a B.S. in Petroleum Engineering. Since August 1997, he has served as President, Chief Executive Officer and a director of Pioneer and President of Pioneer USA. Mr. Sheffield assumed the position of Chairman of the Board of Pioneer in August 1999. He served as a director of Pioneer USA from August 1997 until his resignation from the board in June 1999. Mr. Sheffield was the President and a director of Parker & Parsley Petroleum Company ("Parker & Parsley") from May 1990 until August 1997 and was the Chairman of the Board and Chief Executive Officer of Parker & Parsley from October 1990 until August 1997. He was the sole director of Parker & Parsley from May 1990 until October 1990. Mr. Sheffield joined Parker & Parsley Development Company ("PPDC"), a predecessor of Parker & Parsley, as a petroleum engineer in 1979. He served as Vice President - Engineering of PPDC from September 1981 until April 1985 when he was elected President and a director. In March 1989, Mr. Sheffield was elected Chairman of the Board and Chief Executive Officer of PPDC. Before joining PPDC's predecessor, Mr. Sheffield was employed as a production and reservoir engineer for Amoco Production Company.

21

Timothy L. Dove. Mr. Dove earned a B.S. in Mechanical Engineering from Massachusetts Institute of Technology in 1979 and received his M.B.A. in 1981 from the University of Chicago. He became Executive Vice President - Business Development of Pioneer and Pioneer USA in August 1997 and was also appointed a director of Pioneer USA in August 1997. Mr. Dove assumed the position of Chief Financial Officer of Pioneer and Pioneer USA effective February 1, 2000. Mr. Dove joined Parker & Parsley in May 1994 as Vice President - International and was promoted to Senior Vice President - Business Development in October 1996, in which position he served until August 1997. Prior to joining Parker & Parsley, Mr. Dove was employed with Diamond Shamrock Corp., and its successor, Maxus Energy Corp, in various capacities in international exploration and production, marketing, refining and marketing and planning and development.

Dennis E. Fagerstone. Mr. Fagerstone, a graduate of the Colorado School of Mines with a B.S. in Petroleum Engineering, became an Executive Vice President of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. He served as Executive Vice President and Chief Operating Officer of MESA Inc. ("Mesa") from March 1, 1997 until August 1997. From October 1996 to February 1997, Mr. Fagerstone served as Senior Vice President and Chief Operating Officer of Mesa and from May 1991 to October 1996, he served as Vice President - Exploration and Production of Mesa. From June 1988 to May 1991, Mr. Fagerstone served as Vice President - Operations of Mesa.

Mark L. Withrow. Mr. Withrow, a graduate of Abilene Christian University with a B. S. in Accounting and Texas Tech University with a Juris Doctorate degree, became Executive Vice President, General Counsel and Secretary of Pioneer and Pioneer USA in August 1997. He was also appointed a director of Pioneer USA in August 1997. Mr. Withrow was Vice President - General Counsel of Parker & Parsley from January 1991, when he joined Parker & Parsley, to January 1995, when he was appointed Senior Vice President - General Counsel. He was Parker & Parsley's Secretary from August 1992 until August 1997. Prior to joining Parker & Parsley, Mr. Withrow was the managing partner of the law firm

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

of Turpin, Smith, Dyer, Saxe & MacDonald, Midland, Texas.

Danny Kellum. Mr. Kellum, who received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University in 1979, was elected Executive Vice President - Domestic Operations of Pioneer and Pioneer USA on May 18, 2000 and Director of Pioneer USA on February 1, 2000. From January 2000 until May 2000, Mr. Kellum served as Vice President - Domestic Operations of Pioneer and Pioneer USA. Mr. Kellum served as Vice President Permian Division of Pioneer and Pioneer USA from April 1998 until December 1999. From 1989 until 1994 he served as Spraberry District Manager and as Vice President of the Spraberry and Permian Division for Parker & Parsley until August of 1997. Mr. Kellum joined Parker & Parsley as an operations engineer in 1981 after a brief career with Mobil Oil Corporation.

Rich Dealy. Mr. Dealy is a graduate of Eastern New Mexico University with a B.B.A. in Accounting and Finance and is a Certified Public Accountant. He became Vice President and Chief Accounting Officer of Pioneer and Pioneer USA in February 1998. Mr. Dealy served as Controller of Pioneer USA from August 1997 to February 1998. He served as Controller of Parker & Parsley from August 1995 to August 1997. Mr. Dealy joined Parker & Parsley as an Accounting Manager in July, 1992. He was previously employed with KPMG Peat Marwick as an Audit Senior, in charge of Parker & Parsley's audit.

22

### ITEM 11. EXECUTIVE COMPENSATION

The Partnership does not have any directors or officers. Management of the Partnership is performed by the managing general partner. The Partnership participates in oil and gas activities through an income tax partnership (the "Program") pursuant to the Program agreement. Under the Program agreement, Pioneer USA pays approximately 25% of the Program's acquisition, drilling and completion costs and approximately 35% of its operating and general and administrative expenses. In return, they are allocated approximately 35% of the Program's revenues.

The Partnership does not directly pay any salaries of the executive officers or employees of Pioneer USA, but does pay a portion of Pioneer USA's general and administrative expenses of which these salaries are a part.

See Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data" for information regarding fees and reimbursements paid to the managing general partner by the Partnership.

### ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

(a) Beneficial owners of more than five percent

The Partnership is not aware of any person who beneficially owns 5% or more of the outstanding limited partnership interests of the Partnership. Pioneer USA owned 10 limited partner interests at January 1, 2001.

(b) Security ownership of management

The Partnership does not have any officers or directors. The managing general partner of the Partnership, Pioneer USA, has the exclusive right and full authority to manage, control and administer the Partnership's business. Under

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

the limited partnership agreement, limited partners holding a majority of the outstanding limited partnership interests have the right to take certain actions, including the removal of the managing general partner or any other general partner. The Partnership is not aware of any current arrangement or activity which may lead to such removal. The Partnership is not aware of any officer or director of Pioneer USA who beneficially owns limited partnership interests in the Partnership.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Transactions with the managing general partner

Pursuant to the limited partnership agreement, the Partnership had the following related party transactions with the managing general partner during the years ended December 31:

	2000	
	-----	-----
Payment of lease operating and supervision charges in accordance with standard industry operating agreements	\$ 196,507	\$
Reimbursement of general and administrative expenses	\$ 38,999	\$

Under the limited partnership agreement, the managing general partner pays 1% of the Partnership's acquisition, drilling and completion costs and 1% of its operating and general and administrative expenses. In return, it is allocated 1% of the Partnership's revenues. Also, see Notes 6 and 9 of Notes to Financial Statements included in "Item 8. Financial Statements and Supplementary Data", regarding the Partnership's participation with the managing general partner in oil and gas activities of the Program.

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 20. INDEMNIFICATION OF OFFICERS AND DIRECTORS.

Article Twelfth of the Amended and Restated Certificate of Incorporation of Pioneer Parent provides that Pioneer Parent must indemnify its officers and directors to the extent allowed by the Delaware General Corporation Law. Pursuant to Section 145 of the Delaware General Corporation Law, Pioneer Parent generally has the power to indemnify its present and former directors and officers against expenses and liabilities incurred by them in connection with any suit to which they are, or are threatened to be made, a party by reason of their serving in those positions so long as they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, the best interests of Pioneer Parent, and with respect to any criminal action, they had no reasonable cause to believe their conduct was unlawful. With respect to suits by or in the right of Pioneer Parent, however, indemnification is generally limited to attorneys' fees and other expenses and is not available if the person is adjudged to be liable to Pioneer Parent unless the court determines that indemnification is appropriate. The statute expressly provides that the power to indemnify authorized thereby is not exclusive of any rights granted under any by-law, agreement, vote of stockholders or disinterested directors, or otherwise. Pioneer Parent also has the power to purchase and maintain insurance for its directors and officers. Additionally, Article Twelfth of the Amended and Restated Certificate of Incorporation of Pioneer Parent provides that, in the event that an officer or director files suit against Pioneer Parent seeking indemnification of liabilities or expenses incurred, the burden will be on Pioneer Parent to prove that the indemnification would not be permitted under the Delaware General Corporation Law.

Pioneer Parent has entered into indemnification agreements with each of its directors and officers. These agreements provide that Pioneer Parent must, within 30 days of a request, indemnify an officer or director for liabilities incurred to the fullest extent permitted by the Delaware General Corporation Law. Pioneer Parent must, within two days of a request, indemnify an officer or director for expenses incurred in the defense of a claim or other proceeding. The obligation of Pioneer Parent to provide the indemnification does not apply if, before the date on which Pioneer Parent must provide the indemnification, Pioneer Parent's board of directors, or a representative chosen by the board of directors, concludes that indemnification would be improper under the Delaware General Corporation Law.

The preceding discussion of Pioneer Parent's Amended and Restated Certificate of Incorporation, Section 145 of the Delaware General Corporation Law, and the indemnification agreements is not intended to be exhaustive and is

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

qualified in its entirety by such Amended and Restated Certificate of Incorporation, Section 145 of the Delaware General Corporation Law, and such indemnification agreements.

### ITEM 21. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES.

The following exhibits are filed with the registration statement:

EXHIBIT NUMBER	DESCRIPTION
2.1	Agreement and Plan of Merger dated as of September 20, 2001, among Pioneer Parent, Pioneer USA and the partnerships named therein (included as Appendix F to the proxy statement/prospectus forming a part of this Registration Statement).
3.1	Amended and Restated Certificate of Incorporation of Pioneer Parent (incorporated by reference to Exhibit 3.1 to Pioneer Parent's Registration Statement on Form S-4 dated June 27, 1997, Registration No. 333-26951).
3.2	Restated Bylaws of Pioneer Parent (incorporated by reference to Exhibit 3.2 to Pioneer Parent's Registration Statement on Form S-4 dated June 27, 1997, Registration No. 333-26951).

### ITEM 22. UNDERTAKINGS.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of Pioneer Parent pursuant to the foregoing provisions, or otherwise, Pioneer Parent has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities, other than the payment by Pioneer Parent of expenses incurred or paid by a director, officer or controlling person of Pioneer Parent in the successful defense of any action, suit or proceeding, is asserted by such director, officer or controlling person

## Edgar Filing: PIONEER NATURAL RESOURCES CO - Form S-4/A

in connection with the securities being registered, Pioneer Parent will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

Pioneer Parent hereby undertakes:

(1) That, for purposes of determining any liability under the Securities Act of 1933, each filing of Pioneer Parent's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new

II-8

registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(2) That prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), Pioneer Parent undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form;

(3) That every prospectus: (a) that is filed pursuant to paragraph (3) immediately preceding, or (b) that purports to meet the requirements of Section 10(a)(3) of the Securities Exchange Act of 1934 and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;

(4) To respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11 or 13 of Form S-4, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request; and

(5) To supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.
