NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

The accompanying unaudited financial statements have been prepared on the same basis as the audited consolidated financial statements and, in the opinion of management, contain all adjustments, consisting of normal recurring adjustments, necessary to fairly present the financial information included therein.

The Company suggests that this financial data be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2001 included in the Company's 2001 Annual Report on Form 10-K, filed with the Securities and Exchange Commission. Results for the interim period presented are not necessarily indicative of results to be expected for the entire year.

The Company adopted certain provisions of SFAS No. 142 (SFAS 142), Goodwill and Other Intangible Assets effective January 1, 2002. Therefore, we ceased to amortize approximately \$16.5 million of goodwill effective January 1, 2002, that we had amortized during 2001. In accordance with SFAS 142, the Company is required to perform an initial impairment test of goodwill in 2002 and update the impairment test annually. We expect to complete our initial impairment test during the first six months of 2002.

2. EARNINGS PER SHARE INFORMATION

The following table shows the amounts used in computing earnings per share and the effect on the weighted average number of shares of dilutive potential common stock. For the quarter ended March 31, 2001, the average market price of the Company's common stock was less than the exercise price of all the Company's outstanding common stock subject to option.

	THREE MONTHS ENDED MARCH 31,	
	(In thousands)	
	2002	2001
Weighted average number of shares outstanding used in basic EPS	50,908	50,609
Net additional common stock equivalent shares outstanding after assumed exercise of stock options	315	—
Weighted average number of shares outstanding used in diluted EPS	51,223	50,609

3. SEGMENT INFORMATION

The Company currently manages existing operations utilizing financial information accumulated and reported for two business segments.

The small business segment principally engages in the selling of sales lead generation, business directories and consumer DVD products to small and medium sized companies, small office and home office businesses and individual consumers. This segment includes the sale of content via the Internet.

The large business segment principally engages in the selling of data processing services, licensed databases, database marketing solutions and list brokerage and list management services to large companies. This segment includes the licensing of databases for Internet directory assistance services.

The small business and large business segments reflect actual net sales, direct order production, and identifiable direct sales and marketing costs related to their operations. The remaining indirect costs are presented as a reconciling item in corporate activities.

Corporate activities principally represent the information systems technology, database compilation, database verification, and administrative functions of the Company. Investment income, interest expense, income taxes, amortization of intangibles, and depreciation expense are only

recorded in corporate activities. The Company does not allocate these costs to the two business

Table of Contents

segments. The Company records unusual or non-recurring items including acquisition costs, non-cash stock compensation expense, asset impairments and other extraordinary items in corporate activities to allow for the analysis of the sales business segments excluding such unusual or non-recurring charges.

The Company accounts for property and equipment on a consolidated basis. The Company's property and equipment is shared by the Company's business segments. Depreciation expense is recorded in corporate activities.

The Company has no intercompany sales or intercompany expense transactions. Accordingly, there are no adjustments necessary to eliminate amounts between the Company's segments.

The following table summarizes segment information:

FOR THE THREE MONTHS ENDED MARCH 31, 2002				
	Small Business	Large Business	Corporate Activities	Consolidated Total
	(In thousands)			
Net sales	\$ 39,348	\$ 37,375	\$	\$ 76,723

The components of accumulated other comprehensive income (loss) is as follows:

	Foreign Currency Translation Adjustments	Gains / (Losses) On Derivative Instruments	Unrealized Gains / (Losses) On Securities	Accumulated Other Comprehensive Income (Loss)
	(In thousands)			
Balance at March 31, 2002	\$(668)	\$	\$ (113)	\$ (781)
Balance at December 31, 2001	\$(668)	\$ (527)	\$ (166)	\$(1,361)

5. ACQUISITIONS

Effective March 2002, the Company acquired certain assets and assumed certain liabilities related to the email list business of Doubleclick, Inc. Total consideration for the acquisition was \$2.0 million, funded using cash provided by operations. The acquisition has been accounted for under the purchase method of accounting, and accordingly, the operating results of the email lists business purchased from Doubleclick, Inc.

Edgar Filing: INFOUSA INC - Form 10-Q

have been included in the Company's financial statements since the date of the acquisition. Intangibles recorded as a part of the purchase include goodwill of \$0.2 million. No pro forma operating results have been included as the Company has determined that the results of operations for the email list business purchased are not material.

Effective January 2002, the Company acquired all issued and outstanding common stock of Database Concepts, Inc., a Canadian database development business. Total consideration for the acquisition was \$0.3 million, funded using cash provided by operations. The acquisition has been accounted for under the purchase method of accounting, and accordingly, the operating results of Database Concepts have been included in the Company's financial statements since the date of the acquisition. Intangibles recorded as a part of the purchase include goodwill of \$0.3 million. No pro forma operating results have been included as the Company has determined that the results of operations for the database development business purchased are not material.

6. NON-CASH STOCK COMPENSATION EXPENSE

The Company had a majority-owned subsidiary, infoUSA.com, that sponsored an Equity Incentive Plan in which shares of the subsidiary's common stock were reserved for issuance to officers, directors, employees and consultants of the subsidiary. During the quarter ended September 30, 2001, the Company eliminated the minority interests in its subsidiary, infoUSA.com, through the acquisition of assets. As a result of the purchase, the Company's obligation associated with the subsidiary stock options was eliminated. There were no options granted during the three months ended March 31, 2001 or subsequent periods. The Company used Accounting Principles Bulletin (APB) Opinion No. 25 to account for stock-based compensation to employees and directors of

Table of Contents

the Company and Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation and FASB Interpretation No. 28, Accounting for Stock Appreciation Rights and Other Variable Stock Option or Award Plans for stock-based compensation to non-employees of the Company. As such, the Company has recorded a non-cash charge of \$0.1 million, during the quarter ended March 31, 2001, related of stock options for infoUSA.com. The charge was recorded as an addition to paid-in-capital.

7. RESTRUCTURING CHARGES

During the first quarter of 2002, the Company recorded restructuring charges due to further workforce reductions of \$0.2 million. The costs were incurred and paid during the three months ended March 31, 2002. The workforce reduction charges included involuntary employee separation costs for approximately 29 employees in administration, sales support and marketing functions.

During the first quarter of 2001, the Company recorded restructuring charges due to workforce reductions of \$0.9 million, as a part of the Company's overall strategy to reduce costs and continue commitment to its core businesses. The costs were incurred and paid during the three months ended March 31, 2001. The workforce reduction charges included involuntary employee separation costs for approximately 150 employees in administration, sales support and marketing functions.

8. ACQUISITION COSTS

During the first quarter of 2002, the Company recorded integration-related acquisition costs of \$0.1 million, or less than 1% of net sales. The integration-related costs included consulting costs, information system conversion and other direct integration-related charges. These costs were not directly related to the acquisition of Polk Directories, and therefore could not be capitalized, but were costs associated with the integration of Polk Directories operations into the Company's existing operations.

9. LOSS ON INTEREST RATE SWAP AGREEMENT

During 1999 in conjunction with the acquisition of Donnelley, the Company negotiated a credit arrangement (Senior Debt Credit facility). According to the terms of the Senior Debt Credit Facility, the Company entered into an interest rate swap agreement with Union Bank of California, to fix the rate on \$60.5 million of the debt at an interest rate of 6.385% for the term of 3 years. On March 6, 2002, the Company refinanced the Senior Debt Credit facility administered by Deutsche Bank with Bank of America Securities, LLC. As a result of the refinancing, the Company recorded a charge of \$1.2 million for amounts reported in Other Comprehensive Income related to the fair value of the interest rate swap agreement. The interest rate swap agreement will not be accounted for as an interest rate hedge agreement for the remaining term of the agreement, which ultimately concludes September 2002.

10. EXTRAORDINARY ITEM, NET OF TAX

On March 6, 2002, the Company refinanced its senior debt credit facility administered by Deutsche Bank to Bank of America Securities, LLC. On March 6, 2002, the Company recorded an extraordinary item of \$1.8 million, net of income tax benefit of \$1.2 million, for the net unamortized debt issue costs related to the extinguishment of the senior debt credit facility with Deutsche Bank.

11. RELATED PARTY TRANSACTIONS

Mr. Gupta, who is the Chairman and Chief Executive Officer of the Company, is eligible for a cash bonus in 2002 based on Company performance. The criteria for Mr. Gupta's bonus is that he will receive 10% of the Company's adjusted EBITDA in excess of \$80 million. In January 2002, the Company paid an advance to Mr. Gupta in the amount of \$1.5 million (based on 2001 performance) to be off set against any 2002 bonus payable to Mr. Gupta pursuant to his bonus program. The advance will be applied to part or all of his 2002 bonus, if performance criteria are met, or paid back by Mr. Gupta within the next 12 months. In April 2002, Mr. Gupta paid back \$0.6 million of the original advance, leaving an advance balance of \$0.9 million.

12. GOODWILL AND OTHER INTANGIBLE ASSETS ADOPTION OF STATEMENT 142

The Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets for the quarter ended March 31, 2002. Beginning January 1, 2002, the Company ceased the amortization of goodwill and certain other intangible assets, the result of which is no further expense for the amortization of these intangible assets

Table of Contents

in 2002 and future years. Amortization expense for goodwill of \$3.8 million, net of tax benefit of \$0.3 million, was recorded during the first quarter of 2001 that was not recorded during the first quarter of 2002.

Acquired intangible assets as of March 31, 2002 consist of:

	<u>Gross Carrying Amount</u>	<u>Accumulated Amortization</u>
(amounts in \$000s)		
Amortized intangible assets:		
Goodwill	\$266,841	\$ 51,069
Purchased data processing and technology	78,278	39,374
Acquired database costs	19,000	19,000
Tradename	15,802	3,950
Non-compete agreements	13,534	7,081
Customer base	8,372	4,570
	<u>\$401,827</u>	<u>\$ 125,044</u>

Assuming the provisions of SFAS 142 had been implemented as of January 1, 2001, adjusted net income before extraordinary items, adjusted net income and earnings per share would have been:

	FOR THE THREE MONTHS ENDED	
	<u>MARCH 31, 2002</u>	<u>MARCH 31, 2001</u>
(\$000s except for earnings-per-share amounts)		
Reported income before extraordinary item	\$6,635	\$ 1,854
Goodwill amortization, net of tax		3,787
Adjusted net income before extraordinary item	<u>\$6,635</u>	<u>\$ 5,641</u>
Reported net income	\$4,866	\$ 1,854
Goodwill amortization, net of tax		3,787
Adjusted net income	<u>\$4,866</u>	<u>\$ 5,641</u>
Basic & Diluted earnings per share:		
Reported net income before extraordinary item per share	\$ 0.13	\$ 0.04
Goodwill amortization, net of tax		0.07
Adjusted net income before extraordinary item per share	<u>\$ 0.13</u>	<u>\$ 0.11</u>
Reported net income per share	\$ 0.10	\$ 0.04
Goodwill amortization, net of tax		0.07
Adjusted net income per share	<u>\$ 0.10</u>	<u>\$ 0.11</u>

13. CONTINGENCIES

The Company and its subsidiaries are involved in legal proceedings, claims and litigation arising in the ordinary course of business. Management believes that any resulting liability should not materially affect the Company's financial position, results of operations, or cash flows.

Table of Contents

infoUSA INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

GENERAL

The Company is a leading provider of business and consumer information, data processing and database marketing services. The Company's key assets include proprietary databases of 14 million businesses and 250 million consumers in the United States and Canada. We believe our proprietary content is the most comprehensive and accurate data available. We leverage these key assets by selling through multiple distribution channels to over 4 million customers that include small and medium-size businesses, Fortune 1000 companies, consumers, and Internet users.

This discussion and analysis contains forward-looking statements, including without limitation statements in the discussion of comparative results of operations, accounting standards and liquidity and capital resources, within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933, which are subject to the safe harbor created by those sections. The Company's actual future results could differ materially from those projected in the forward-looking statements. Some factors which could cause future actual results to differ materially from the company's recent results or those projected in the forward-looking statements are described in Factors Affecting Operating Results below. The Company assumes no obligation to update the forward-looking statement or such factors.

RESULTS OF OPERATIONS

The following table sets forth, for the periods indicated, selected financial information and other data. The amounts and related percentages may not be fully comparable due to the acquisitions of Polk Directories during October 2001, Database Concepts during January 2002 and the Internet email list assets from Doubleclick, Inc. in March 2002:

-
- (1) This represents amortization expense recorded by the Company on all intangibles recorded as part of the acquisition of other companies, and excludes amortization related to deferred financing costs, software development costs, and other intangible assets not recorded as part of an acquisition of another company.
- (2) EBITDA, as adjusted is defined as operating income adjusted to exclude depreciation, amortization and non-cash stock compensation expenses. EBITDA is presented because it is a widely accepted indicator of a company's ability to incur and service debt and of the Company's cash flows from operations excluding any non-recurring items. However, EBITDA, as adjusted, does not purport to represent cash provided by operating activities as reflected in the Company's consolidated statements of cash flows, is not a measure of financial performance under generally accepted accounting principles (GAAP) and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. Also, the measure of EBITDA, as adjusted, may not be comparable to similar measures reported by other companies.

Table of Contents

Overview

The Company has supplemented its internal growth through strategic acquisitions. The Company has completed sixteen acquisitions since mid-1996. Through these acquisitions, the Company has increased its presence in the consumer marketing information industry, greatly increased its ability to provide data processing solutions, added two consumer CD-Rom product lines, increased its presence in list management and list brokerage services and broadened its offerings of business marketing information.

The Company has previously made certain disclosures relative to the continuing results of operations of acquired companies where appropriate and possible, although the Company has in the case of all acquisitions since 1996, immediately integrated the operations of the acquired companies into existing operations of the Company. Generally, the results of operations for these acquired activities are no longer separately accounted for from existing activities. The Company cannot report on the results of operations of acquired companies upon completion of the integration as the results are commingled with existing results. Additionally, upon integration of acquired operations, the Company frequently combines acquired products or features with existing products, and experiences significant cross-selling of products between business units, including sales of acquired products by existing business units and sales by acquired business units of existing products. Due to recent and potential future acquisitions, future results of operations will not be comparable to historical data. While the results cannot be accurately quantified, a number of the acquisitions have had a significant impact on net sales.

Net sales

Net sales of the Company for the quarter ended March 31, 2002 were \$76.7 million, a increase of 4% from \$73.9 million for the same period of 2001. The increase in net sales is principally due to the acquisition of Polk Directories in October 2001.

Net sales of the small business segment for the quarter ended March 31, 2002 were \$39.3 million, a 11% increase from \$35.4 million for the same period of 2001. The small business segment principally engages in the selling of sales lead generation and consumer DVD products to small to medium sized companies, small office and home office businesses and individual consumers. This segment also includes the sale of content via the Internet. The increase in net sales is principally due to the acquisition of Polk Directories in October 2001. The Company immediately integrated the operations of Polk Directories into existing operations. As discussed in the overview above, the Company cannot separately report the results of operations of Polk Directories upon completion of the integration.

Net sales of the large business segment for the quarter ended March 31, 2002 were \$37.4 million, a 3% decline from \$38.4 million for the same period of 2001. The large business segment principally engages in the selling of data processing services, licensed databases, database marketing solutions and list brokerage and list management services to large companies. This segment includes the licensing of databases for Internet directory assistance services. The decrease in net sales is principally due to softer customer demand for data processing services related to a general slow-down in the United States economy.

Database and production costs

Database and production costs for the quarter ended March 31, 2002 were \$21.3 million, or 28% of net sales, compared to \$21.4 million, or 29% of net sales for the same period of 2001. The decrease in database and production costs as a percentage of net sales is primarily due to favorable changes in product sales mix and resulting revenues in the large business segment. Database and production costs for the large business segment were 21% of net sales for the quarter ended March 31, 2002, compared to 23% of net sales for the same period of 2001, reflecting a decrease of approximately \$1.0 million for database and production costs associated with the large business segment. Database and production costs for the small business segment increased \$0.9 million to \$13.5 million for the quarter ended March 31, 2002 from \$12.6 million for the same period of 2001, principally due to increased printing and binding costs associated with the operations of Polk Directories.

Selling, general and administrative expenses

Selling, general and administrative expenses for the quarter ended March 31, 2002 were \$31.9 million, or 42% of net sales, compared to \$27.3 million, or 37% of net sales for the same period of 2001. The increase in selling, general and administrative expenses as a percentage of net sales is principally due to the acquisition of Polk Directories. Polk Directories utilizes a dedicated sales force that has a higher operating cost structure as a percentage of sales than the Company's existing businesses.

Table of Contents

Depreciation and amortization expenses

Depreciation and amortization expenses for the quarter ended March 31, 2002 were \$7.1 million, or 9% of net sales, compared to \$12.7 million, or 17% of net sales for the same period of 2001. The decrease in depreciation and amortization expenses is principally due to the Company's adoption of Statement of Financial Standards (SFAS) No. 142, 'Goodwill and Other Intangible Assets' as of January 1, 2002. SFAS No. 142 requires the Company to complete an annual impairment test on goodwill and other intangible assets with an indefinite life rather than record amortization expense on those assets. The Company has not yet completed the evaluation for the initial impairment test that is required upon adoption of SFAS 142. The Company expects to complete this initial impairment test within the first six months of 2002. We currently do not expect to record an impairment charge upon completion of the initial impairment test. However, there can be no assurance that at the time the review is completed a material impairment charge will not be recorded.

Non-cash stock compensation expense

During the quarter ended March 31, 2001, the Company recorded a non-cash charge of \$0.1 million, or less than 1% of net sales, related to the issuance of stock options for infoUSA.com, a subsidiary of the Company. The Company eliminated the minority interest in its infoUSA.com subsidiary through the purchase of assets as of September 30, 2001, and will not incur non-cash stock compensation expense related to the infoUSA.com subsidiary options for the fourth quarter of 2001 and subsequent periods.

Restructuring costs

During the quarter ended March 31, 2002, the Company recorded restructuring charges due to workforce reductions of \$0.2 million as a part of the Company's continuing strategy to reduce costs. The workforce reduction charges included involuntary employee separation costs for 29 employees.

During the quarter ended March 31, 2001, the Company recorded restructuring charges due to workforce reductions of \$0.9 million as a part of the Company's overall strategy to reduce costs and continue commitment to its core businesses. The workforce reduction charges included involuntary employee separation costs for 150 employees.

Acquisition costs

During the first quarter of 2002, the Company recorded integration-related costs of \$0.1 million. The integration-related costs included consulting costs, information system conversion and other direct integration-related charges. These costs were not directly related to the acquisition of Polk Directories, and therefore could not be capitalized, but were costs associated with the integration of Polk Directories operations into the Company's existing operations.

Operating income

Including the factors previously described, the Company had operating income of \$16.2 million, or 21% of net sales for the quarter ended March 31, 2002, compared to operating income of \$11.5 million, or 16% of net sales for the same period in 2001.

Operating income for the small business segment for the quarter ended March 31, 2002 was \$15.5 million, or 39% of net sales, as compared to \$17.4 million, or 49% of net sales for the same period in 2001. The decrease in operating income is principally due to increased sales and marketing expenses represented as a percentage of net sales associated with Polk Directories, discussed in the selling, general administrative section above.

Operating income for the large business segment for the quarter ended March 31, 2002 was \$20.3 million, or 54% of net sales, as compared to \$21.2 million, or 55% of net sales for the same period in 2001. The decrease in operating income as a percentage of net sales is due to increased sales and marketing costs.

Other income (expense), net

Other income (expense) net, was \$(5.5) million, or (7)% of net sales, and \$(6.7) million, or (9)% of net sales, for the quarters ended March 31, 2002 and 2001, respectively. Other income (expense) is comprised of interest expense, investment income, minority interest in subsidiary and other income or expense items which do not represent components of operating income (expense) of the Company.

Table of Contents

The Company recorded a non-cash loss of \$1.2 million, on the interest rate swap agreement designated as a cash flow hedge for the Company's Senior Debt Credit Facility described in Note 9, Loss on interest rate swap agreement. The Senior Debt Credit Facility was refinanced on March 6, 2002. As a result of the refinancing, the Company recorded a charge of \$1.2 million for unrealized interest expense that had been accounted for as a component of Other Comprehensive Income of owners equity. The interest rate swap agreement will not be accounted for as an interest rate hedge agreement for the remaining term of the agreement, that concludes September 2002.

Interest expense was \$4.4 million and \$6.9 million for the quarters ended March 31, 2002 and 2001, respectively. Interest expense on the Company's senior credit facility decreased from \$3.7 million for the quarter ended March 31, 2001, to \$1.3 million for the same period of 2002 primarily due to prepayments made on the credit facility. Investment income was \$0.1 and \$0.2 million for the quarters ended March 31, 2002 and 2001.

Minority interest in loss of subsidiary of \$0.1 million for the quarter ended March 31, 2001, represents the unaffiliated investors' share of infoUSA.com's net loss for the period then ended.

Income taxes

A provision for income taxes of \$4.1 million and \$2.9 million was recorded for the quarters ended March 31, 2002 and 2001, respectively. The decrease in the Company's effective tax rate to 38% in 2002 from 61% in 2001 is the result of two items. First, the Company's net income did not include any deferred tax benefits related to operating losses of its former subsidiary infoUSA.com due to uncertainties surrounding the recoverability of these assets. infoUSA.com was not previously included in the Company's consolidated Federal income tax return. Second, the Company's pre-tax book income for the fiscal year 2001 included nondeductible amortization expense of \$16.5 million for goodwill and intangible assets with indefinite lives. Upon the adoption of SFAS No. 142 on January 1, 2002, the Company ceased amortizing these assets for financial reporting purposes and consequently, the amortization expense for those assets does not affect either book or taxable income in 2002. These items collectively increased the Company's effective tax rate by 36% over the Federal statutory rate of 34% for the first quarter of 2001.

Extraordinary item, net of tax

On March 6, 2002, the Company refinanced its senior debt credit facility administered by Deutsche Bank to Bank of America Securities, LLC. On March 6, 2002, the Company recorded an extraordinary item of \$1.8 million, net of income tax benefit of \$1.2 million, for the net unamortized debt issue costs related to the extinguishment of the senior debt credit facility with Deutsche Bank.

EBITDA, as adjusted

The Company's EBITDA, as adjusted, was \$23.4 million, or 30% of net sales for the quarter ended March 31, 2002, and \$24.3 million, or 33% of net sales for the same period in 2001. EBITDA as adjusted is defined as operating income adjusted to exclude depreciation, amortization and non-cash stock compensation expenses.

LIQUIDITY AND CAPITAL RESOURCES

General information:

During 1999 in conjunction with the acquisition of Donnelley, the Company negotiated a credit arrangement with Deutsche Bank. On March 6, 2002, the Company refinanced the Senior Secured Credit facility administered by Deutsche Bank with Bank of America Securities, LLC. Under the refinanced Senior Secured Credit facility, the payment terms of the Term Loans A and B were changed such that the total debt will be due in March 2006. Available borrowings under the new Senior Secured Credit facility are \$47.0 million for Term A with a maturity of 3 years, \$45.0 million for Term B with a maturity of 4 years and \$18.0 million under a revolving credit facility with a maturity of 3 years. The new credit facility also reduced the Revolving Credit Facility, as amended, from \$25 million to \$18 million. As of March 31, 2002, the Company had no borrowings under the Revolving Credit Facility, with the exception of two outstanding letters of credit in the amount of \$6.3 million reducing the availability under the Revolving Credit Facility to \$11.7 million.

Table of Contents

The Company is subject to certain financial covenants in its various credit facilities, including total funded debt leverage ratio, senior debt leverage ratio, fixed charge coverage ratio and minimum consolidated EBITDA. Management believes the Company is in compliance with all restrictive covenants of the Company's various debt facilities.

The Company believes that its existing sources of liquidity and cash generated from operations will satisfy the Company's projected working capital, debt repayments and other cash requirements for at least the next 12 months. Acquisitions of other technologies, products or companies, or internal product development efforts may require the Company to obtain additional equity or debt financing, which may not be available or may be dilutive.

Consolidated Statements of Cash Flows Information:

As of March 31, 2002, the Company's principal sources of liquidity included cash and cash equivalents of \$0.2 million, and \$11.7 million available under the Revolving Credit Facility described above. As of March 31, 2002, the Company had a working capital deficit of \$6.0 million.

Net cash provided by operating activities during the three months ended March 31, 2002, totaled \$8.7 million compared to \$13.2 million during the same period of 2001. The decrease is principally the result of decreases in accrued payroll, prepaid 401K, interest rate swap accrued expenses and other accrued expenses.

During the quarter ended March 31, 2002, the Company spent \$1.2 million for additions of property and equipment, \$0.7 million related to software and database development costs, \$2.2 million for the acquisition of businesses and \$7.9 million on the repayment of long-term debt. The Company made voluntary prepayments of \$7.1 million on its senior debt credit facility during the quarter ended March 31, 2002.

Consolidated Balance Sheet Information:

Trade accounts receivable increased from \$44.9 million at December 31, 2001 to \$45.3 million at March 31, 2002, with related days sales outstanding (DSO) remaining unchanged at 54 days, for both quarters reported. List brokerage trade accounts receivable increased from \$17.0 million at December 31, 2001 to \$21.9 million at March 31, 2002, principally due to the acquisition of the assets of the email list business of Doubleclick, Inc.

Intangible assets, net of accumulated amortization, decreased from \$284.7 million at December 31, 2001 to \$280.0 million at March 31, 2002. The decrease is principally due to the amortization of other intangible assets with estimatable or definite lives related to the acquisitions described in the Overview section. Depreciation and amortization expense totaled \$7.1 million during the quarter ended March 31, 2002, as compared to \$12.7 million in 2001.

List brokerage trade accounts payable increased from \$15.0 million at December 31, 2001 to \$17.3 million at March 31, 2002, principally due to the acquisition of the assets of the email list business of Doubleclick, Inc.

Long term debt decreased from \$205.9 million at December 31, 2001 to \$197.0 million at March 31, 2002. The Company made repayments on long-term debt totaling \$7.9 million during the quarter ended March 31, 2002.

ACCOUNTING STANDARDS

The Company adopted SFAS No. 133 effective January 1, 2001. The Company used derivative financial instruments to manage the risk of a change in interest rates on \$60.5 million of the debt incurred for the acquisition of Donnelley Marketing in July 1999. The Company does not enter into derivative financial instruments for trading or speculative purposes. The Company recorded a transition adjustment at January 1, 2001 of \$0.3 million, net of tax, as an accumulated other comprehensive loss to record the derivative financial instrument on the Company's financial statements. During the quarter ended March 31, 2002, the Company refinanced the senior debt credit facility as described above and in Note 9

Loss on interest rate swap agreement and Note 10 Extraordinary item, net of tax. The Company recorded a non-cash loss of \$1.2 million, on the interest rate swap agreement designated as a cash flow hedge for the Company's senior debt credit facility. As a result of the refinancing, the interest rate swap agreement will not be accounted for as a interest rate hedge agreement for the remaining term of the agreement, that concludes September 2002.

Table of Contents

In June 2001, the Financial Accounting Standards Board issued SFAS No. 141, *Business Combinations*, which requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method.

In June 2001, the Financial Accounting Standards Board also issued SFAS No. 142, *Goodwill and Other Intangible Assets*. This statement:

replaces the requirement to amortize goodwill and certain other intangible assets with an annual impairment test, and

requires an evaluation of the useful lives of intangible assets and an impairment test for goodwill upon adoption.

Goodwill and intangible assets with indefinite lives that result from acquisitions of businesses and minority interests after June 30, 2001, are not subject to amortization under the provisions of SFAS 142. The provisions of this statement are fully effective for fiscal years beginning after December 15, 2001, so the Company adopted the provisions of SFAS 142 in the financial statements for the quarter ended March 31, 2002.

Beginning January 1, 2002, the Company ceased the amortization of goodwill, the result of which is no further expense for the amortization of these intangible assets in 2002 and future years. Amortization expense for goodwill and intangible assets with indefinite lives was \$16.5 million for the full year 2001, compared to total intangible asset amortization of \$30.3 million for the full year 2001. The Company has not yet completed the evaluation whether or not it has any impairment charges in our consolidated financial statements that may result from the initial impairment test that is required upon adoption of SFAS 142. The Company expects to complete this initial impairment test within the first six months of 2002. We currently do not expect to record an impairment charge upon completion of the initial impairment test. However, there can be no assurance that at the time the review is completed a material impairment charge will not be recorded.

In October 2001, the Financial Accounting Standards Board also issued SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. The provisions of this statement are effective for fiscal years beginning after December 15, 2001. Therefore, the Company adopted the provisions of SFAS No. 144 in its financial statements for the quarter ended March 31, 2002. Management does not expect the adoption of this statement to significantly impact the consolidated financial statements.

FACTORS THAT MAY AFFECT OPERATING RESULTS

Our Internet strategy is subject to review and revision.

Our Internet strategy is to leverage our proprietary content into multiple vertical market applications and provide marketing solutions for electronic commerce applications. The strategy we introduced in fiscal 2000 of being an incubator of Internet database companies has been revised to a strategy of developing more efficient and profitable applications of our content through the Internet. We cannot guarantee that our customers will choose to have our products and services delivered to them over the Internet. If we are successful in developing Internet applications, we may face strong competition from current and potential competitors, including other Internet companies and other providers of business and consumer databases. We will review our Internet strategy from time to time and may continue to revise it.

Our markets are highly competitive and many of our competitors have greater resources than we do.

The business and consumer marketing information industry in which we operate is highly competitive. Intense competition could harm us by causing, among other things, price reductions, reduced gross margins, and loss of market share. Our competition includes:

In consumer sales lead generation products, Acxiom, Experian (a subsidiary of Great Universal Stores, P.L.C. (GUS)), and Equifax, both directly and through reseller networks.

In data processing services, Acxiom, Experian, Direct Marketing Technologies (a subsidiary of GUS), and Harte-Hanks Communications, Inc.

In business sales lead generation products, Experian and Dun s Marketing Services (DMS), a division of Dun & Bradstreet. DMS, which relies upon information compiled from Dun & Bradstreet s credit database, tends to focus on marketing to large companies.

In business directory publishing, from Regional Bell Operating Companies and many smaller, regional directory publishers.

Table of Contents

In consumer products, certain smaller producers of CD-Rom products.

Technologies which companies may install and implement in-house as part of their internal IS functions, instead of purchasing or outsourcing such functions.

In addition, we may face competition from new entrants to the business and consumer marketing information industry as a result of the rapid expansion of the Internet, which creates a substantial new channel for distributing business information to the market. Many of our competitors have longer operating histories, better name recognition and greater financial resources than we do, which may enable them to implement their business strategies more readily than we can.

We are highly leveraged. If we are unable to service our debt as it becomes due, our business would be harmed.

As of March 31, 2002, we had total indebtedness of approximately \$217.7 million, including \$106.0 million of Notes under an indenture (the Indenture) and \$92.0 million under a \$110 million Senior Secured Credit Agreement. Substantially all of our assets are pledged as security under the terms of the Credit Agreement. The indebtedness under the Credit Agreement was refinanced March 6, 2002 and originally incurred in connection with our acquisition of Donnelley Marketing in 1999. Our ability to pay principal and interest on the Notes issued under the Indenture and the indebtedness under the Credit Agreement and to satisfy our other debt obligations will depend upon our future operating performance. Our performance will be affected by prevailing economic conditions and financial, business and other factors. Certain of these factors are beyond our control. The future availability of revolving credit under the Credit Agreement will depend on, among other things, our ability to meet certain specified financial ratios and maintenance tests. We expect that our operating cash flow should be sufficient to meet our operating expenses, to make necessary capital expenditures and to service our debt requirements as they become due. If we are unable to service our indebtedness, however, we will be forced to take actions such as reducing or delaying acquisitions and/or capital expenditures, selling assets, restructuring or refinancing our indebtedness (including the Notes issued under the Indenture and the Credit Agreement) or seeking additional equity capital. We may not be able to implement any such measures or obtain additional financing.

The terms of our current indebtedness restrict our ability to take certain actions that fit our business strategy.

Our existing credit facilities contain certain covenants which restrict our ability to:

Incur additional indebtedness;

Pay dividends and make certain other similar payments;

Guarantee indebtedness of others;

Enter into certain transactions with affiliates;

Consummate certain asset sales, certain mergers and consolidations, sales or other dispositions of all or substantially all of our assets

Acquire other companies; and

Obtain dividends or certain other payments from our subsidiaries.

These restrictions may impair our ability to take certain actions that fit our business strategy. A breach of any of these covenants could result in an event of default under the terms of our existing credit facilities. Upon the occurrence of an event of default, the lenders could elect to declare all amounts outstanding, together with accrued interest, to be immediately due and payable. If the payment of any such indebtedness is accelerated, our assets may not be sufficient to repay in full the indebtedness under our credit facilities and our other indebtedness. Moreover, if we were unable to repay amounts owed to the lenders under our credit facilities, the lenders could foreclose on our assets that secure the indebtedness.

Under the terms of our current indebtedness, the occurrence of a change of control of infoUSA could have serious adverse financial consequences to us.

Table of Contents

If a change of control of *infoUSA* were to occur, we would in certain circumstances be required to make an offer to purchase all outstanding Notes under the Indenture at a purchase price equal to 101% of the principal amount of the Notes, together with accrued and unpaid interest. There can be no guarantee that, if this were to happen, we would have sufficient funds to purchase the Notes. In addition, a change of control and any repurchase of the Notes upon a change of control may constitute an event of default under our other current or future credit facilities. In that event, our obligations under such credit facilities could be declared due and payable by the lenders, and the lenders may also have the right to be paid for all outstanding obligations under such credit facilities before we repurchase any of the Notes.

Fluctuations in our operating results may result in decreases in the market price of our common stock.

Our operating results may fluctuate on a quarterly and annual basis. Our expense levels are relatively fixed and are based, in part, on our expectations as to future revenues. As a result, unexpected changes in revenue levels may have a disproportionate effect on operating performance in any given period. In some period or periods our operating results may be below the expectations of public market analysts and investors. Our failure to meet analyst or investor expectations could result in a decrease in the market price of our common stock.

If we do not adapt our products and services to respond to changes in technology, they could become obsolete.

We provide marketing information and services to our customers in a variety of formats, including printed formats, electronic formats such as CD-Rom and DVD, and over the Internet. Advances in information technology may result in changing customer preferences for products and product delivery formats. If we do not successfully adapt our products and services to take advantage of changes in technology and customer preferences, our business, financial condition and results of operations would be adversely affected.

We have adopted an Internet strategy because we believe that the Internet represents an important and rapidly evolving market for marketing information products and services. Our business, financial condition and results of operations would be adversely affected if we:

Fail to develop products and services that are well suited to the Internet market;

Experience difficulties that delay or prevent the successful development, introduction and marketing of these products and services; or

Fail to achieve sufficient traffic to our Internet sites to generate significant revenues, or to successfully implement electronic commerce operations.

Changes in laws and regulations relating to data privacy could adversely affect our business.

We engage in direct marketing, as do many of our customers. Certain data and services provided by us are subject to regulation by federal, state and local authorities in the United States as well as those in Canada and the United Kingdom. In addition, growing concerns about individual privacy and the collection, distribution and use of information about individuals have led to self-regulation of such practices by the direct marketing industry through guidelines suggested by the Direct Marketing Association and to increased federal and state regulation. There is increasing awareness and concern among the general public regarding marketing and privacy concerns, particularly as it relates to the Internet. This concern is likely to result in new laws and regulations. Compliance with existing federal, state and local laws and regulations and industry self-regulation has not to date seriously affected our business, financial condition or results of operations. Nonetheless, federal, state and local laws and regulations designed to protect the public from the misuse of personal information in the marketplace and adverse publicity or potential litigation concerning the commercial use of such information may increasingly affect our operations. This could result in substantial regulatory compliance or litigation expense or a loss of revenue.

Our business would be harmed if we do not successfully integrate future acquisitions.

Our business strategy includes continued growth through acquisitions of complementary products, technologies or businesses. We have made sixteen acquisitions since mid-1996 and completed the integration of these acquisitions into our existing business by the end of the quarter as of March 31, 2002. We continue to evaluate strategic opportunities available to us

Table of Contents

and intend to pursue opportunities that we believe fit our business strategy. Acquisitions of companies, products or technologies may result in the diversion of management's time and attention from day-to-day operations of our business and may entail numerous other risks, including difficulties in assimilating and integrating acquired operations, databases, products, corporate cultures and personnel, potential loss of key employees of acquired businesses, difficulties in applying our internal controls to acquired businesses, and particular problems, liabilities or contingencies related to the businesses being acquired. To the extent our efforts to integrate future acquisitions fail, our business, financial condition and results of operations would be adversely affected.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is not exposed to significant future earnings or cash flow exposures from changes in interest rates on long-term debt as a significant portion of the Company's debt is at fixed interest rates and the Company has entered into long-term interest rate swap agreements used to reduce the potential impact of changes in interest rates on floating rate debt. The Company is not exposed to material future earnings or cash flow exposures from fluctuations in foreign currency exchange rates as operating results related to foreign operations in Canada are not material.

SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

At the 2002 Annual Meeting of Stockholders of the Company held on May 3, 2002, the stockholders voted and approved the following items:

1. Elected the following directors to the Board of Directors for a term of three years.

Rob S. Chandra	FOR: 43,528,027	WITHHELD: 1,971,736
J. Robert Kerrey	FOR: 43,516,305	WITHHELD: 1,983,458

2. The stockholders also ratified the appointment of KPMG LLP as the Company's independent auditors to examine the financial statements of the Company for the fiscal year 2002.

FOR: 42,983,637	AGAINST: 2,480,180	ABSTAIN: 35,946
