Supplemental Schedules:	
Schedule H, line 4i* – Schedule of Assets (Held at End of Year)	21
*Refers to item number in Form 5500 (“Annual Return/Report of Employee Benefit Plan”) filed with the Department of Labor for the plan year ended December 31, 2006.	
Other schedules required by 29 CFR 2520.103-10 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 have been omitted as the conditions under which they are required are not present.	

Report of Independent Registered Public Accounting Firm

To the Participants and Plan Administrator of
L-3 Communications Master Savings Plan:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the L-3 Communications Master Savings Plan (the “Plan”) at December 31, 2006 and 2005, and the changes in net assets available for benefits for the year ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan’s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan’s management. This supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Plan Description

General

The following description of the L-3 Communications Master Savings Plan (the ‘‘Plan’’) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

The Plan is a defined contribution 401(k) plan and is administered by the Benefit Plan Committee (‘‘Plan Administrator’’) appointed by L-3 Communications Corporation (the ‘‘Company’’). The Plan is designed to provide eligible employees with tax advantaged long-term savings for retirement. The Plan covers employees of 62 business units of the Company (see Note 3 for a complete listing) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (‘‘ERISA’’), as amended. Participants may direct their investment to a combination of different funds, which are held in the L-3 Communications Master Savings Plan Trust (the ‘‘Master Trust’’), managed by Fidelity Management Trust Company (‘‘FMTC’’), as Trustee.

Transfers from Other Plans

During 2006, 18 defined contribution plans sponsored by certain business units of the Company with plan assets of \$265.1 million were merged into the Plan.

Participant Contributions

Generally, all eligible employees can participate in the Plan, as of their date of hire. Each eligible employee wishing to participate in the Plan must elect to authorize pre-tax and/or post-tax contributions by payroll deduction. Generally, participants may contribute from 1% to 25% of total compensation, as defined. A participant may elect to increase, decrease, suspend or resume contributions at any time. The election will become effective as soon as administratively possible. The Internal Revenue Code (‘‘IRC’’) of 1986, as amended, limited the maximum amount an employee may contribute on a pre-tax basis in 2006 to \$15,000 for participants under 50 years of age and \$20,000 for participants 50 years of age and over. Participants are 100% vested in their individual contributions and earnings thereon. See Note 3 for a discussion of the Company contribution and related vesting provisions of the Plan. Participants have the option of investing participant-directed employee contributions in the L-3 Stock Fund, as well as other investment options offered by the Master Trust.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and (b) the Plan’s earnings (losses), and may be charged with certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Master Trust Investments

All non-participant directed employer contributions must be initially invested in the L-3 Stock Fund, which invests in the common stock of L-3 Communications Holdings, Inc. (‘‘L-3 Holdings’’) and money market funds, and may not be

invested in other Master Trust investment options until two years after the end of the plan year in which the employer contribution is made. Effective January 1, 2007, a participant may make an investment election with respect to employer contributions to invest in other investment options offered by the Master Trust for the employer contributions credited to the participants' account on the date the election is made. Employer contributions that are made in L-3 Holdings common stock after the date of the election will remain invested in the L-3 Stock Fund until the participant makes an election to transfer such employer contributions out of the L-3 Stock Fund.

6

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS — CONTINUED

2. Summary of Significant Accounting Policies

Investment in Master Trust

Investment assets of the Plan are maintained in the Master Trust administered by FMTC. The Plan participates in the Master Trust along with all the assets of the Aviation Communications & Surveillance Systems 401(k) Plan, and these plans together are collectively referred to as the Participating Plans.

The investment in the Master Trust represents the Plan's specific interest in the assets of the Master Trust. The assets consist of units of funds that are maintained by FMTC. (See Note 4 for a list of the funds and the Plan's investment in each fund as of December 31, 2006 and 2005.) Contributions, benefit payments and certain administrative expenses are specifically identified to the Plan.

Valuation of Investments

The investment in the Master Trust is stated at fair value. Investments in mutual funds are valued at quoted market prices, which represent the net asset value per share as reported by Fidelity Management and Research Company.

The L-3 Stock Fund is a unitized fund whose underlying assets consist primarily of shares of L-3 Holdings common stock. The L-3 Stock Fund's unit price is computed by the Trustee daily. Shares of L-3 Holdings common stock are valued at the last reported quoted market price of a share on the last trading day of the year.

Participant loans are valued at cost, which approximates fair value.

Basis of Accounting

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the investment contracts through a collective trust. As required by the FSP, the Statements of Net Assets Available for Benefits

present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The financial statements of the Plan are prepared under the accrual method of accounting, except for the recording of benefit payments, as discussed below.

Investment Transactions and Investment Income

Investment transactions by the Master Trust are accounted for on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Gains and losses on sales of investment securities are determined based on the average cost method.

Net appreciation in the fair value of the Plan's investment consists of the Plan's proportionate share of realized gains or losses and unrealized appreciation or depreciation on those investments. The net appreciation and interest and dividends are allocated to the Participating Plans based upon the relationship of each Participating Plan's respective monthly balances in the investment pool to the total investment pool of the Master Trust, as determined at the beginning of each month.

7

L-3 COMMUNICATIONS MASTER SAVINGS PLAN NOTES TO FINANCIAL STATEMENTS — CONTINUED

Forfeitures

Participants vest in Company contributions in accordance with the provisions of their respective divisions and/or subsidiaries as described in Note 3. Non-vested Company contributions are forfeited upon a participant's five year break in service or withdrawal of vested balance, if earlier, and are used by the Company to reduce future Company contributions and to pay plan expenses. As of December 31, 2006 and 2005, forfeitures used to reduce Plan expenses totaled \$770,330 and \$300,590, respectively. Forfeitures available were approximately \$10,389,000 and \$2,583,000 at December 31, 2006 and 2005, respectively.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The Plan provides for payment from available forfeitures of all its administrative expenses, including trustee, record keeping, consulting, audit and legal fees, with the exception of loan administration fees, which are charged to participants. In the event that forfeitures are not available, the Company pays for administrative expenses. Taxes and investment fees related to the stock funds or mutual funds are paid from the net assets of such funds.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results will differ from these estimates. The most significant estimate relates to valuations of investments in the Master Trust.

Risks and Uncertainties

The Plan provides for various investment fund options, which in turn invest in any combination of stocks, bonds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Company Contributions and Vesting Provisions

The Company provides matching contributions based on a matching percentage of the participant's contribution up to a designated percentage of the participant's compensation. Certain divisions and subsidiaries provide non-matching and supplemental contributions as provided for in the Plan document. The Company's matching contribution percentages, which vary by division and /or subsidiary, subject to limitations described in the Plan document, are presented in the table below.

Business Units	Company Match
Army Fleet Support, LLC	50% up to 8%
Aviation Recorders	25% up to 6% (1)

Generally all of the Company matching contributions are made in L-3 Holdings' common stock.

-
- (1) In addition to the Company's matching contribution for Aviation Recorders, the Company also makes a supplemental contribution of 1% of the participant's compensation and may include an additional discretionary match of up to 75% of 6% of the participant's compensation contributed. Effective January 1, 2007, the Company will make an additional supplemental contribution each pay period equal to 1.5% of compensation for each participant hired after December 31, 2006 who is not eligible to participate in the L-3 Communications Aviation Recorders Retirement Plan or the L-3 Communications Aviation Recorders Retirement Plan II.
- (2) The Company's matching contributions for participants who are employees of, Aydin Electro-Fab, DP Associates, Inc., MPRI and Ship Analytics, Inc. are discretionary and determined each year.
- (3) For BT Fuze Products, only salaried employees are eligible to participate in the Plan.
- (4) The Company's matching contribution for a participant who is a salaried employee of Combat Propulsion Systems is equal to 100% up to 7% of compensation for the payroll period. No matching contributions shall be made for hourly employees of Combat Propulsion Systems.
- (5) The Company's matching contribution for CS West-Photonics was 100% up to 4% of compensation to October 30, 2005. Effective October 31, 2005, the matching contribution is 100% up to 5% of compensation.
- (6) The Company's matching contribution for participants who are salaried employees of Electrodynamics, Inc. is 100% up to 5% of compensation. The Company shall make an annual supplemental contribution for salaried employees ranging from 1% of total compensation to 8% of the first \$10,000 of compensation plus 5% of compensation in excess of \$10,000, based on age attained during the plan year. The Company's matching contribution for participants who are members of the International Brotherhood of Electrical Workers, Local 134 ("I.B.E.W. Local 134") is 100% up to 2% of salary. Effective January 1, 2007, the Company will make a supplemental contribution equal to 3% of compensation on behalf of each participant hired after December 31, 2006 represented by I.B.E.W Local 134 who is not eligible to participate in the Electrodynamics, Inc. Pension Plan for Members of Local 134, I.B.E.W.
- (7) Participants who were employees of Electron Devices on October 26, 2002 and as of the last day of the plan year were eligible for a supplemental employer contribution as of the last day of the plan year equal to 1% of compensation for participants under 45 years of age, 3% of compensation for participants between 45 and 54 years of age, and 5% of compensation for participants 55 years of age or above. The supplemental contribution was discontinued as

of March 31, 2006.

(8) With the exception of Interstate Electronics Corporation (IEC)'s Redmond operations, the Company's matching contribution for IEC is 100% of the participants contribution up to 2% of

10

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS — CONTINUED

the participant's compensation plus 50% of the participants contribution on the next 4% of the participant's compensation. For IEC's Redmond operations, the Company's matching contribution is 50% of the first 8% of compensation, which increases to 100% of the first 8% of compensation after 5 years of participation. Participants from IEC's Redmond operations do not receive any matching contributions during the first year of employment.

(9) The Company's matching contribution for KDI Precision Products, Inc. is 100% of the participant's contribution for the first 3% of compensation, plus 75% of the participant's contribution on the next 4% of compensation.

(10) The Company makes a non-matching contribution on behalf of each participant employed by L-3 Communications Advanced Laser Systems Technology, Inc. in an amount currently equal to 3% of the employee's compensation.

(11) The Company makes a supplemental contribution each year for participants who were participants in the Goodrich Corporation Employees' Pension Plan on June 30, 2003 and who (i) are employees on the last day of the plan year, (ii) separated from employment with the employer during the plan year due to death, retirement on or after age 65, disability, or (iii) are not employees on the last day of the plan year solely as a result of the transfer of such participants to a division/subsidiary not participating in the Plan in an amount ranging from 1.0% to 5.5% of compensation, depending on years of service attained on the last day of the plan year. The Company also makes a supplemental contribution for employees hired after 7/1/2003 in an amount equal to 2% of Compensation.

(12) The Company makes a non-matching contribution for a participant on the last day of the plan year who is employed by L-3 Communications Brashear on or after January 1, 2002, in an amount currently equal to 3% of the participant's compensation.

(13) The Company makes a supplemental contribution for a salaried participant employed by L-3 Communications Cincinnati Electronics Corporation equal to 1% of the participant's compensation. The additional supplemental contribution is equal to 1.5% of salaried participants' compensation. Bargaining employees are not eligible to participate. Effective January 1, 2007, bargaining employees will be eligible to participate if they irrevocably elect to forego pension participation or are new hires.

(14) Effective January 1, 2007, the Company will make a supplemental contribution for participants who are not eligible to accrue a benefit under the L-3 Communications Corporation Pension Plan equal to 1% of compensation.

(15) The Company's matching contribution for a participant who is a salaried employee of L-3 Communications Electron Technologies, Inc. is equal to 75% up to 8% of compensation for the payroll period. Effective January 1, 2007, the Company will make a supplemental contribution on behalf of each employee who has at least one year of completed service and is not eligible to participate in either the L-3 Communications Electron Technologies Retirement Plan or the Pension Value Plan for Employees of L-3 Communications Electron Technologies, Inc. The amount of supplemental contribution is based on years of service and is between 1% and 5% of compensation.

The contribution for an hourly employee is 100% up to 4% of compensation for the payroll period.

- (16) Beginning January 1, 2006, the Company's annual matching contribution shall not exceed 50% up to \$4,000 for combined pretax and after tax contributions.
- (17) Participants who are employees of L-3 Communications Flight International Aviation LLC do not receive any matching contributions during the first year of employment. Effective January 1, 2007, the Company's matching contribution for a participant hired after

11

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS — CONTINUED

December 31, 2006 who is not eligible to participate in the L-3 Communications Infrared Products Retirement Plan is 100% up to 6% of compensation.

- (18) Effective January 1, 2007, the Company's matching contribution for a participant hired after December 31, 2006 who is not eligible to participate in the L-3 Communications Infrared Products Retirement Plan is 100% up to 6% of compensation.
- (19) The Company makes a supplemental contribution for a participant who is employed by L-3 Communications Integrated Systems L.P. on the last day of the plan year in an amount equal to 0.5% of the participant's compensation. No matching or supplemental contribution shall be made on behalf of a participant who is an employee covered by the Service Contract Act, as amended. Effective January 1, 2007, the Company's matching contribution for a participant hired after December 31, 2006 who is not eligible to participate in the L-3 Communications Integrated Systems Retirement Plan is 100% up to 5% of compensation.
- (20) The Company may make a discretionary matching contribution in an amount to be determined by the Company each year.
- (21) The Company may make an annual discretionary profit sharing contribution on behalf of each participant in an amount determined by the Company each year.
- (22) Participants may not make contributions to the Plan. The Company may make a discretionary profit sharing contribution in an amount to be determined by the Company annually.
- (23) The Company's matching contribution for participants who are employees of SPD Electrical Systems, SPD Switchgear, Henschel, or who are salaried employees of PacOrd is 50% of the participant's contribution up to 6% of compensation. The Company's matching contribution for participants who are hourly employees of PacOrd is 15% of the participant's contribution up to 6% of compensation.
- (24) Participants who are represented by UAW Local 1612 and who do not participate in the SPD Technologies Retirement Pension Plan may participate in an additional employer contribution ranging from 1% to 2% of compensation depending on employee eligibility and years of participation in this employer contribution arrangement.
- (25) The Company's matching contribution for participants who are hourly employees of L-3 Communications Systems – East with less than 36 months of employment is 50% of the participants contribution up to 6% of compensation. Effective January 1, 2007, the Company's matching contribution for a participant hired after December 31, 2006 who is not eligible to participate in either the L-3 Communications Systems – East Retirement Income Plan or the L-3 Communications Systems – East Pension Plan For Bargaining Unit Employees will be 100% up to 2% of compensation and 50% up to the next 4% of

compensation. In addition, the Company will make a supplemental contribution for these participants between 2% and 4% of compensation based on years of service.

- (26) The Company's matching contribution for L-3 Communications Systems – West is (i) 100% of the participant's contribution up to 4% of compensation for participants that are salaried employees and union employees represented by the East Coast Lodge 815, International Association of Machinists & Aerospace Workers ("IAM") and (ii) 75% of the participant's contribution up to 4% of compensation for participants that are union employees not represented by the IAM. Effective January 1, 2007, the matching contribution for union employees represented by the IAM will change from the provisions in section (i) to section (ii) as noted above. Additionally, the Company shall make a supplemental contribution of 2% of compensation for participants that are union employees, except for participants who are members of the IAM. Effective January 1, 2007, the supplemental contribution for union

12

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS — CONTINUED

employees represented by the International Brotherhood of Electrical Workers, AFL-CIO ("I.B.E.W.") will increase to 2.5% of compensation. Salaried employees hired on or after October 31, 2005 receive a matching contribution of 100% of the participant's contribution up to 5%.

- (27) The Company's matching contribution is generally between 3% and 5% of compensation and varies by Titan division. A participant who was an employee of Titan Corporation on July 29, 2005 and became an employee of the Company on July 30, 2005 will be fully vested for amounts transferred from the Titan Corporation Consolidated Retirement Plan to this Plan.

- (28) The Company's matching contribution for participants who are employees of L-3 Communications Vertex Aerospace LLC and who do not belong to the Support Services Division is generally 100% of the participant's contribution up to 4% of salary. Additionally, the Company provides a non-matching contribution for these participants of 1/2 of 1% of compensation. The Company shall also make a supplemental contribution as of the last day of each year to participants who were eligible to participate on June 26, 2001 in either the Raytheon Aircraft Holdings, Inc. Base Retirement Income Plan or the Raytheon Aircraft Company Retirement Income Plan for Salaried Employees provided the participant is an employee of the Company on the last day of the plan year

- (29) The Company's matching contribution for participants who are employees of L-3 Communications Vertex Aerospace LLC and who belong to the Support Services Division is generally zero. Non-union employees of the Support Services Division receive a non-matching contribution ranging from 2% to 3% of compensation. Union employees receive contributions based upon the terms of their various bargaining agreements.

- (30) For Link Simulation and Training, employees covered by the Service Contract Act or collective bargaining agreement are not eligible to receive the Company's matching contribution.

- (31) The maximum Company matching contribution for Microdyne Outsourcing Incorporated is \$500 per year.

- (32) The Company's matching contribution for all participants who also participate in the Narda Microwave Pension Plan is 40% of the participant's contribution up to 5% of salary. The Company's matching contributions for participants who do not participate in the Narda Microwave Pension Plan is 50% of the participant's contribution up to 10% of salary.

- (33)

The Company's matching contribution for participants who are salaried employees of Ocean Systems or Space & Navigation is 50% of the participant's contribution up to 8% of salary, which increases to 100% of the participant's contribution up to 8% of salary after 5 years of participation. Salaried employees of Ocean Systems and Space & Navigation do not receive any matching contributions during the first year of employment. The Company's matching contribution for participants who are hourly employees of Ocean Systems or Space & Navigation is 50% of the participant's contribution up to 4% and 6% of salary, respectively.

(34) The Company's contribution for Southern California Microwave is an annual discretionary profit sharing contribution of 7.5% of a participant's compensation.

Vesting of Company contributions in effect during 2006 varied by division and/or subsidiary and is listed below.

Aviation Recorders, Aydin Electro-Fab, Broadcast Sports, Inc., CS West – Photonics, Display Systems, DP Associates, Inc., Electroynamics, Inc., Interstate Electronics Corporation (IEC) (including IEC's Redmond operations), KDI Precision Products, Inc., L-3 Communications Avionics Systems, Inc. (former participant in the Goodrich Corporation Employee Pension Plan), L-3 Communications BAI Aerosystems, L-3 Communications Cincinnati Electronics Corporation, L-3

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
 NOTES TO FINANCIAL STATEMENTS — CONTINUED

The net change in the fair value of the Master Trust and the Plan's portion of the net change in fair value for the year ended December 31, 2006 is presented in the table below.

	Master Trust	Plan's Portion
	(in thousands)	
Investment Income:		
Investment in Master Trust	\$ 74,825	\$ 74,217
Interest and dividend income	153,725	153,134
Interest on participant loans	3,041	3,029
Net increase in investment income	\$ 231,591	\$ 230,380

Net appreciation in the fair value of investments in the Master Trust includes approximately \$169,233,000 net appreciation related to mutual funds, approximately \$43,907,000 net appreciation related to the L-3 Stock Fund, approximately \$18,410,000 net appreciation related to the commingled trust fund and approximately \$41,000 of interest income related to active participant loans.

5. Benefit Responsive Investment Contracts

T. Rowe Price Stable Value Fund

The Plan, through its Master Trust, held investments in the T. Rowe Price Stable Value Trust Fund (“TRP Fund”) at December 31, 2005, and during 2006, discontinued and transferred its investments in the TRP Fund to other fund offerings available under the Master Trust. All investment contracts held by the TRP Fund are held directly between the TRP Fund and the issuer of the contract and are nontransferable. The TRP Fund is designed to invest principally in guaranteed investment contracts issued by insurance companies, investment contracts issued by banks, synthetic investment contracts issued by banks, insurance companies, and other issuers and securities supporting such synthetic investment contracts, and other similar instruments which are intended to maintain a constant net asset value. This fund was available only to participants with account balances transferred from the Titan Consolidated and ILEX Systems business units on December 29, 2005. Permitted participant-initiated withdrawals refer to withdrawals from the TRP Fund by the Plan directly as a result of participant transactions allowed by the Plan, such as participant withdrawals for benefits, loans, or transfers to other funds or trusts within the Plan.

Traditional Investment Contracts. Traditional investment contracts, such as Guaranteed Investment Contracts (“GIC”), are designed to provide a fixed return on principal invested for a specific period of time. The issuer of a traditional contract is a financially responsible counterparty, typically an insurance company or bank. The issuer accepts a deposit from the TRP Fund and purchases investments, which are held by the issuer. The issuer is contractually obligated to repay principal and interest at the stated coupon rate to the TRP Fund, and guarantees liquidity at contract value prior to maturity for permitted participant initiated withdrawals from the TRP Fund.

Synthetic Investment Contracts (“SIC”). The investments underlying a synthetic structure are owned by the TRP Fund. SICs consist of a portfolio of underlying assets owned by the TRP Fund, and a wrap contract issued by a third party, typically a bank, insurance company, or other financial services institution. The issuer of the wrap contract provides for unscheduled withdrawals from the contract at contract value, regardless of the value of the underlying assets, in order to fund permitted participant-initiated withdrawals from the TRP Fund. SICs provide for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. Generally, the crediting rate is based, in part, on the relationship between the contract value and the market value of the underlying assets, as well as previously realized gains and losses on underlying assets. The crediting rate will generally reflect, over time, movements in prevailing interest rates. However, at

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS — CONTINUED

times the crediting rate may be more or less than prevailing rates or the actual income earned on the underlying assets. Generally, realized and unrealized gains and losses on the underlying investments are amortized either over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The degree of any increase or decrease in the crediting rate will depend on the amount of contract/ market value difference as well as the duration and yield of the TRP Fund's portfolio.

The existence of certain conditions can limit the TRP Fund's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the TRP Fund which causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the TRP Fund, tax disqualification of the TRP Fund, and certain TRP Fund amendments if issuers' consent is not obtained. In addition, issuers of the investment contracts have certain rights to terminate a contract and settle at an amount which differs from contract value. For example, certain breaches by the TRP Fund of its obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts may also provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law. SICs may also provide issuers with the right to reduce contract value in the event an underlying security suffers a credit event or the right to terminate the contract in the event certain investment guidelines are materially breached and not cured. As of December 31, 2006 and 2005, the occurrence of an event outside the normal operation of the TRP Fund which would cause withdrawal from an investment contract was not probable.

The average yield earned by the TRP Fund for all fully benefit-responsive investment contracts for its plan year ended December 31, 2005 was 4.33% based on actual earnings.

Fidelity Managed Income Portfolio II

The Plan, through its Master Trust, held investments in the Fidelity Managed Income Portfolio II Fund ("MIP Fund") at December 31, 2006 and 2005. All investment contracts held by the MIP Fund are held directly between the MIP Fund and the issuer of the contract and are nontransferable. The MIP Fund is designed to invest in investment contracts offered by major insurance companies and in fixed income securities. The MIP Fund's investment objective is to seek preservation of capital and a competitive level of income over time. To achieve its investment objective, the MIP Fund invests in underlying assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into a wrap contract issued by a third party. FMTC seeks to minimize the exposure of the MIP Fund to credit risk through, among other things, diversification of the wrap contracts across an approved group of issuers. The MIP Fund's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations.

Wrap Contracts. Investments in wrap contracts are fair valued using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio of securities. The dealers may consider the following in the bid process: size of the portfolio, performance of the underlying portfolio, and the fair value to contract value ratio. For purposes of benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. These investment contracts provide for benefits responsive withdrawals at contract value including those instances when, in connection with wrap contracts, underlying investment securities are sold to fund normal benefit payments prior to the maturity of such contracts.

FMTC purchases wrap contracts for the MIP Fund with the aim of maintaining the contract value of the MIP Fund's bond investments. In selecting wrap issuers, FMTC analyzes the proposed terms of the wrap contract and the credit quality of the wrap issuer. Other factors, including the availability of

17

L-3 COMMUNICATIONS MASTER SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS — CONTINUED

wrap contracts under certain market or competitive conditions, may affect the number of wrap issuers and the terms of the wrap contracts held by the MIP Fund. The MIP Fund may agree to additional limitations on its investments as a condition of the wrap contracts. These may include maximum duration limits, minimum credit standards, and diversification requirements. In addition, a wrap issuer may also require that the MIP Fund invest entirely in cash or cash equivalents under certain conditions. Generally, as long as the MIP Fund is in compliance with the conditions of its wrap contracts, it may buy and sell underlying assets without impacting the contract value of the underlying assets. FMTC may terminate and replace wrap contracts under various circumstances, including when there is a default by the wrap issuer.

Wrap contracts accrue interest using a formula called the "crediting rate". Wrap contracts use the crediting rate formula to convert market value changes in the underlying assets into income distributions in order to minimize the difference between the market and contract value of the underlying assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding a portfolio's current market value at a portfolio's current yield to maturity for a period equal to a portfolio's duration. The crediting rate is the discount rate that equates that estimated future market value with a portfolio's current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0%.

The crediting rate, and hence a portfolio's return, may be affected by many factors, including purchases and redemptions by unitholders. The impact depends on whether the market value of the underlying assets is higher or lower than the contract value of those assets at the time of those transactions. If the market value of underlying assets is higher than their contract value, the crediting rate will ordinarily be higher than the yield of the underlying assets. Under these circumstances, cash from new investors will tend to lower the crediting rate and a portfolio's return, and redemptions by existing unitholders will tend to increase the crediting rate and a portfolio's return.

Wrap contracts limit the ability of a MIP Fund to transact at contract value upon the occurrence of certain events. These events include, but are not limited to, tax disqualification, certain MIP Fund amendments if the issuers' consent is not obtained, complete or partial termination of the MIP Fund, any legal changes applicable to the plan that could have a material adverse effect on the portfolio's cash flow, merger or consolidation of the MIP Fund with another plan, exclusion of a previously eligible group, early retirement/ termination programs and transfer of assets from a portfolio to a competing option. In addition, the issuers of wrap contracts have certain rights to terminate a contract and settle at an amount which differs from contract value.

The average yield earned by the MIP Fund for all fully benefit responsive investment contracts for the years ended December 31, 2006 and 2005 was 7.01% and 5.61%, respectively, based on actual earnings, and 4.37% and 3.73%, respectively, based on interest rate credited to participants.

6. Benefit Payments

Upon termination, participants may receive the vested portion of their account balance as soon as practicable after termination. Terminated participants who have an account balance in excess of \$1,000 may elect to leave their account balance in the Plan and withdraw it at any time up to age 70 ½, at which time withdrawal is mandatory. Effective March 31, 2005, a participant who terminates employment with a vested account balance of \$1,000 or less shall receive an immediate payment of the vested account balance.

A participant may withdraw after-tax contributions and rollovers at any time. A participant who has attained age 55 may withdraw his or her vested matching contribution and supplemental contribution. Also, a participant may withdraw pre-tax contributions before termination of employment or before reaching age 59½ only for financial hardship. Financial hardship is determined pursuant to provisions of the Plan and the IRC. Generally, a penalty will be imposed on withdrawals made before the participant reaches age 59½. In the event of retirement or termination of

18

L-3 COMMUNICATIONS MASTER SAVINGS PLAN NOTES TO FINANCIAL STATEMENTS — CONTINUED

employment prior to age 59½, funds may be rolled over to another qualified plan or individual retirement account without being subject to income tax or a penalty.

7. Loans

The Plan provides for loans to active participants. Participants may not have more than one loan outstanding at any time. The maximum loan allowed to each participant is the lesser of (1) \$50,000 less the highest outstanding loan balance over the prior 12 months or (2) 50% of the vested value of the participant's account in the Plan. The minimum loan amount is \$1,000. The interest rate is based on the prime interest rate, as defined, plus one percent. Repayment periods generally range from one to five years, and six to thirty years for loans used in connection with the purchase of a principal residence.

Loan repayments are made through payroll deductions, with principal and interest credited to the participants' fund accounts. Repayment of the entire balance is permitted at any time. Participant loans are secured by the participant's vested account balance.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 5, 2002, that the Plan is designed in accordance with applicable sections of the IRC, and thus is exempt from federal income taxes. The Plan has been amended since receiving the determination letter. The Plan Administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC. The Company filed a determination letter application in January 2007, for which application is pending.

9. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by FMTC and therefore these transactions qualify as party-in-interest. Fees paid by the Company to Fidelity Investments Institutional Operations Company, Inc. for record keeping services were \$110,579 for the year ended December 31, 2006.

The Plan's proportionate interest in the L-3 Stock Fund includes 5,733,531 shares of L-3 Holdings' common stock valued at approximately \$468,888,000 at December 31, 2006 and 4,857,134 shares of L-3 Holdings' common stock valued at approximately \$361,128,000 at December 31, 2005. The Plan received dividends on the L-3 Stock Fund in the amount of \$3,989,689 for the year ended December 31, 2006.

10. Termination Priorities

Although the Company has not expressed intent to do so, the Company can discontinue its contributions and/or terminate participation to employee groups at any or all of the divisions and/or subsidiaries of the Company at any time, subject to the provisions of ERISA. In the event that such a discontinuance and/or termination occurs, participants in that employee group will become 100 percent vested in Company contributions and the net assets attributable to that employee group will be allocated among the participants and their beneficiaries in accordance with the provisions of ERISA.
