## DEFINED TERMS

As used in this Quarterly Report on Form 10-Q, unless the context otherwise requires:

“Assets Under Management,” or “AUM,” refers to the assets we manage, including capital we have the right to call from our investors pursuant to their capital commitments to various funds. Our AUM equals the sum of:

- (i) the net asset value, or “NAV,” of our private equity funds and hedge funds plus the capital that we are entitled to call from investors pursuant to the terms of their capital commitments to those funds;
- (ii) the NAV of managed accounts; and
- (iii) the market capitalization of the common stock of each of our publicly traded alternative investment vehicles, which we refer to as our “Castles”.

We earn management fees pursuant to management agreements on a basis which varies from Fortress Fund to Fortress Fund (e.g., any of “net asset value”, “capital commitments”, “invested equity” or “gross equity,” each as defined in the applicable management agreement, may form the basis for a management fee calculation). Our calculation of AUM may differ from the calculations of other asset managers and, as a result, this measure may not be comparable to similar measures presented by other asset managers. Our AUM measure includes, for instance, assets under management for which we charge either no or nominal fees, generally related to our principal investments in funds as well as investments in funds by our principals, directors and employees. Our definition of AUM is not based on any definition of assets under management contained in our operating agreement or in any of our Fortress Fund management agreements.

“Fortress,” “we,” “us,” “our,” and the “company” refer, (i) following the consummation of the reorganization and the Nomura transaction, collectively, to Fortress Investment Group LLC and its subsidiaries, including the Fortress Operating Group and all of its subsidiaries, and, (ii) prior to the consummation of the reorganization and the Nomura transaction on January 17, 2007, to the Fortress Operating Group and all of its subsidiaries, in each case not including funds that, prior to March 31, 2007, were consolidated funds, except with respect to our historical financial statements and discussion thereof unless otherwise specified. Effective March 31, 2007, all of our previously consolidated funds were deconsolidated. The financial statements contained herein represent consolidated financial statements of Fortress Investment Group LLC subsequent to the reorganization and combined financial statements of Fortress Operating Group, considered the predecessor, prior to the reorganization. See Part I, Item 1, “Financial Statements.”

“Fortress Funds” and “our funds” refers to the private investment funds and alternative asset companies that are managed by the Fortress Operating Group.

“Fortress Operating Group” refers to the combined entities, which were wholly-owned by the principals prior to the Nomura transaction and in each of which Fortress Investment Group LLC acquired an indirect controlling interest upon completion of the Nomura transaction (described below).

“principals” refers to Peter Briger, Wesley Edens, Robert Kauffman, Randal Nardone and Michael Novogratz, collectively, who prior to the completion of our initial public offering and the Nomura transaction directly owned 100% of the Fortress Operating Group units and following completion of our initial public offering and the Nomura transaction own a majority of the Fortress Operating Group units and all of the Class B shares, representing a majority

of the total combined voting power of all of our outstanding Class A and Class B shares. The principals' ownership percentage is subject to change based on, among other things, equity offerings by Fortress and dispositions by the principals.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the statements under Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," Part I, Item 3, "Quantitative and Qualitative Disclosures About Market Risk," Part II, Item 1A, "Risk Factors," and elsewhere in this Quarterly Report on Form 10-Q may contain forward-looking statements which reflect our current views with respect to, among other things, future events and financial performance. Readers can identify these forward-looking statements by the use of forward-looking words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," or other comparable words and their negative version of those words or other comparable words. Any forward-looking statements contained in this report are based upon the historical performance of us and our subsidiaries and on our current plans, estimates and expectations. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. Such forward-looking statements are subject to various risks and uncertainties and assumptions relating to our operations, financial results, financial condition, business prospects, growth strategy and liquidity. If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, our actual results may vary materially from those indicated in these statements. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report. We do not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

#### 1. ORGANIZATION AND BASIS OF PRESENTATION

Fortress Investment Group LLC (the “Registrant,” or, together with its subsidiaries, “Fortress”) is a global alternative asset management firm whose predecessor was founded in 1998. Its primary business is to sponsor the formation of, and provide investment management services for, various investment funds and companies (the “Fortress Funds”). Fortress generally makes principal investments in these funds.

Fortress has three principal sources of income from the Fortress Funds: management fees, incentive income, and investment income on its principal investments in the funds. The Fortress Funds fall into four primary business segments in which Fortress operates:

- 1) Private equity funds, which invest in debt and equity securities of public or privately held entities.
- 2) Liquid hedge funds, which invest in the global fixed income, commodities, currency and equity markets, and their related derivatives.
- 3) Hybrid hedge funds, which invest in undervalued, distressed and other less liquid investments, as well as investment funds managed by external managers.
- 4) Publicly traded alternative investment vehicles that Fortress refers to as the “Castles,” which are companies that invest in operating real estate and real estate related loans and securities (debt

and equity).

The accompanying consolidated financial statements include the following:

- subsequent to Fortress’s reorganization and the inception of operations of Fortress Investment Group LLC on January 17, 2007, the accounts of Fortress Investment Group LLC and its consolidated subsidiaries, and
- prior to such reorganization and the inception of operations of Fortress Investment Group LLC, the accounts of eight affiliated entities under common control and management (“Fortress Operating Group” or the “predecessor”) and their respective consolidated subsidiaries. Each of the eight entities was owned either directly or indirectly by its members, Peter Briger, Wesley Edens, Robert Kauffman, Randal Nardone, and Michael Novogratz (the “Principals”).

#### Reorganization of Fortress Operating Group

Fortress Investment Group LLC was formed on November 6, 2006 for the purpose of becoming the general partner of Fortress Operating Group, completing the Nomura Transaction (described below), and effecting a public offering of shares and related transactions (the “Transactions”) in order to carry on the business of its predecessor, Fortress Operating Group, as a publicly traded entity. The Registrant completed the Nomura Transaction and commenced its operations on January 17, 2007 and completed its initial public offering on February 8, 2007. As a result of the Transactions, the Registrant acquired control of Fortress Operating Group and held, through two intermediate holding companies (FIG Corp. and FIG Asset Co. LLC), approximately 23.3% of the Fortress Operating Group limited partnership units and all of the general partner interests. The Principals retained the remaining 76.7% of the Fortress Operating Group limited partnership units and a 76.7% voting interest in the Registrant. All of the businesses engaged in by the Registrant continue to be conducted by Fortress Operating Group. The ownership percentages are subject to change based on, among other things, equity offerings by Fortress and dispositions by the Principals. As of June 30, 2007, the Fortress Operating Group units were owned as follows: Registrant 23.3%, Principals 76.7%.

---

In January 2007, in connection with the Nomura transaction and the initial public offering, Fortress Operating Group was reorganized from eight limited liability companies, each having individual capital accounts for each of the Principals, into four limited partnerships, each having a unitized capital structure. The Principals were issued 367,143,000 non-voting limited partner interests in each of the four limited partnerships and the Registrant, through two intermediate holding companies, was issued the non-economic general partner interest in each of them. The Principals were also issued 367,143,000 non-economic Class B shares of the Registrant, of which 55,071,450 were cancelled in the Nomura transaction (see below). The term “Fortress Operating Group unit” is used to represent one limited partner interest in each limited partnership. A Fortress Operating Group unit is not a legal interest but is the term used to refer to the aggregate of one limited partnership interest in each reorganized Fortress Operating Group entity.

As the Registrant is a newly formed company, Fortress Operating Group is considered its predecessor for accounting purposes, and its combined financial statements have become the Registrant's historical financial statements. Also, because the Principals controlled Fortress Operating Group before the Transactions and control the Registrant after the Transactions, the Transactions have been accounted for as a reorganization of entities under common control. Accordingly, the Registrant has carried forward unchanged the value of assets and liabilities recognized in Fortress Operating Group's combined financial statements into its consolidated financial statements. When the Registrant purchased Fortress Operating Group units, from the Principals and directly from the Fortress Operating Group partnerships, it recorded the proportion of Fortress Operating Group net assets acquired at their historical carrying value and proportionately reduced the Principals' and others' interests in equity of consolidated subsidiaries. The excess of the amounts paid for the purchase of Fortress Operating Group units over the historical carrying value of the proportion of net assets acquired was charged to paid-in capital and is identified in the statement of members' and shareholders' equity as dilution.

FIG Corp. is a corporation for tax purposes. As a result, the Registrant is subject to income taxes on that portion of its income which flows through FIG Corp.

Following completion of the Transactions, substantially all of Fortress's expenses (other than (i) income tax expenses of the Registrant, FIG Corp. and FIG Asset Co. LLC (Note 5), (ii) obligations incurred under the tax receivable agreement (Note 5) and (iii) payments on indebtedness incurred by the Registrant, FIG Corp. and FIG Asset Co. LLC), including substantially all expenses incurred by or attributable solely to the Registrant, such as expenses incurred in connection with the Transactions, are accounted for as expenses of Fortress Operating Group.

#### Nomura Transaction

On December 18, 2006, the Principals entered into a securities purchase agreement with Nomura Investment Managers U.S.A., Inc., a Delaware corporation, or Nomura (whose ultimate parent is Nomura Holdings, Inc., a Japanese corporation), pursuant to which Nomura acquired a then 15% indirect stake in Fortress Operating Group for \$888 million, all of the proceeds of which were paid to the Principals. On January 17, 2007, Nomura completed the transaction by purchasing 55,071,450 Class A shares of the Registrant for \$888 million and the Registrant, in turn, purchased 55,071,450 Fortress Operating Group units, which then represented 15% of Fortress Operating Group's economic interests, and the sole general partner interest, from the Principals for \$888 million.

#### Initial Public Offering ("IPO")

On February 8, 2007, the Registrant completed an initial public offering of 39,428,900 of its Class A shares, including the underwriters' over allotment option, for net proceeds of approximately

\$652.7 million. The Registrant contributed the net proceeds from the offering to Fortress Operating Group in exchange for 39,428,900 Fortress Operating Group units. Fortress Operating Group applied those proceeds as follows: (a) to pay \$250 million outstanding under its term loan facility, as required by the credit agreement (Note 4), and (b) to pay \$85 million then outstanding under its revolving credit facility (Note 4), and intended to use the remaining proceeds (a) to fund \$169 million of commitments to existing and future private equity funds, and (b) to use \$149 million for general business purposes. As of June 30, 2007, \$177.9 million of IPO proceeds remain unused, of which \$67.7 million is intended for private equity capital commitments and \$110.2 million is intended for general business purposes.

Following the IPO, Fortress adopted accounting policies with respect to new transactions as described in Notes 5, 7 and 8.

#### Consolidation and Deconsolidation of Fortress Funds

Certain of the Fortress Funds were consolidated into Fortress prior to the Transactions, notwithstanding the fact that Fortress has only a minority economic interest in these funds. Consequently, Fortress's financial statements reflected the assets, liabilities, revenues, expenses and cash flows of the consolidated Fortress Funds on a gross basis through the date of their deconsolidation, as described below. The majority ownership interests in these funds, which are not owned by Fortress, were reflected as Principals' and others' interests in equity of consolidated subsidiaries in the accompanying financial statements during periods in which such funds were consolidated. The management fees and incentive income earned by Fortress from the consolidated Fortress Funds were eliminated in consolidation; however, Fortress's allocated share of the net income from these funds was increased by the amount of these eliminated fees. Accordingly, the consolidation of these Fortress Funds had no net effect on Fortress's earnings from the Fortress Funds. For a reconciliation between the financial statements and the segment-based financial data that management uses for making operating decisions and assessing performance, see Note 10.

Following the IPO, each Fortress subsidiary that acts as a general partner of a consolidated Fortress Fund has granted rights, effective March 31, 2007, to the investors in the fund to provide that a simple majority of the fund's unrelated investors are able to liquidate the fund, without cause, in accordance with certain procedures, or to otherwise have the ability to exert control over the fund. The granting of these rights has led to the deconsolidation of the Fortress Funds from Fortress's financial statements as of March 31, 2007. The deconsolidation of the Fortress Funds has had significant effects on many of the items within these financial statements but has had no net effect on net income or equity. Since the deconsolidation did not occur until March 31, 2007, the income statement and the statement of cash flows for the six months ended June 30, 2007 are presented with these funds on a consolidated basis for three of the six months. The unaudited pro forma effects of the deconsolidation on these financial statements are described in Note 12.

The accompanying consolidated financial statements and related notes of Fortress have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under U.S. generally accepted accounting principles have been condensed or omitted. In the opinion of management, all adjustments considered necessary for a fair presentation of Fortress's financial position, results of operations and cash flows have been included and are of a normal and recurring nature. The operating results presented for interim periods are not necessarily indicative of the results that may be expected for any other interim period or for the entire year. These financial statements

should be read in conjunction with Fortress's combined financial statements for the year ended December 31, 2006 and notes thereto included in Fortress's annual report on Form 10-K filed with the Securities and Exchange Commission. Capitalized terms used herein, and not otherwise defined, are defined in Fortress's combined financial statements for the year ended December 31, 2006.

In connection with the reevaluation of certain transactions previously reported in 2006, Fortress has concluded that the classification of certain interest expense should be presented net of interest income, resulting in a \$179 million reduction of both interest income and expense for the six months ended June 30, 2006. This reclassification had no net effect on Fortress's financial position, results of operations or liquidity, nor did it impact distributable earnings or segment (unconsolidated) revenues or expenses. Accordingly, Fortress has concluded that this reclassification is not material to its financial position taken as a whole.

## 2. MANAGEMENT AGREEMENTS AND FORTRESS FUNDS

## Management Fees, Incentive Income and Related Profit Sharing Expense

On a pro forma basis (Note 12), as adjusted for the deconsolidation of the consolidated Fortress Funds as if it had occurred on January 1, 2007, Fortress recognized management fees and incentive income as follows:

	Six Months Ended June 30, 2007
Private Equity Funds	
Management fees	\$ 62,294
Incentive income	211,942
Liquid Hedge Funds	
Management fees	68,062

Incentive Income Subject to Annual Performance Criteria	

Incentive income from certain Fortress Funds is earned based on achieving annual performance criteria. Accordingly, this incentive income is recorded as revenue at year end (in the fourth quarter of each year) and has not been recognized for these funds during the six months ended June 30, 2007 and 2006. If the amount of incentive income contingent on achieving annual performance criteria was not contingent on the results of the subsequent quarters, \$83.4 million and \$53.2 million of additional

incentive income from affiliates would have been recognized during the six months ended June 30, 2007 and 2006, respectively. These amounts are included as “undistributed” deferred incentive income in the table below.

Deferred incentive income from the Fortress Funds, subject to contingent repayment, was comprised of the following:

	June 30, 2007	December 31, 2006
Distributed – gross	\$ 391,595	\$ 252,774

<b>Total</b>	<b>\$ 1,251,722</b>	<b>\$ 1,648,782</b>

(A) All related contingencies have been resolved.

(B) On a consolidated basis, undistributed incentive income from the Fortress Funds is recognized on the balance sheet as deferred incentive income; on a deconsolidated basis subsequent to March 31, 2007, undistributed incentive income is no longer recorded and has been removed from the balance sheet.

As of June 30, 2007, Fortress has recognized and paid compensation expense under its employee profit sharing arrangements in connection with the \$391.6 million of distributed incentive income. If the \$1,030.1 million of undistributed incentive income were realized, Fortress would recognize an additional \$317.2 million of compensation expense.

The change in deferred incentive income is summarized as follows:

Private Equity Funds

In January 2007, Fortress increased its capital commitment to one of its private equity funds by \$80 million.

In February 2007, Fortress had its first closing of a new private equity Fortress Fund, Long Dated Value Fund III ("LDVF III"). A second closing was held in March 2007. A third and final closing was held in June 2007 resulting in total commitments of \$345.1 million. Fortress, its affiliates and employees represent \$22.3 million of the total commitments. Fortress will manage LDVF III under similar terms to the other private equity Fortress Funds.

In March 2007, \$11.6 million of Fortress's remaining capital commitment to one of its private equity funds was extinguished.

In May 2007, Fortress formed a new private equity Fortress Fund known as Fortress Investment Fund V ("Fund V") with total capital commitments from third-party investors of \$4.0 billion. Fortress has committed to contribute to Fund V an amount equal to 1.5% of Fund V's total equity contributed by third party investors, or \$60 million. In June 2007, Fortress formed two additional private equity funds for the purpose of co-investing alongside Fund V in either single or multiple transactions. In total, \$2.0 billion was committed by investors to these two additional funds, of which \$0.4 billion was committed by Fortress and its employees. Fortress has entered into management agreements with the

Fund V entities and will manage Fund V and the related funds under essentially the same terms as the other private equity Fortress Funds, including management fees and incentive income.

In June 2007, Fortress formed a new private equity Fortress Fund known as Real Assets Fund with total capital commitments of \$300.4 million. Fortress, its affiliates and employees represent \$95.0 million of the total

commitments. Fortress will manage Real Assets Fund under similar terms to the other private equity Fortress Funds.

#### Liquid Hedge Funds and Hybrid Hedge Funds

Approximately \$383.8 million of distributions were made to the Principals during the period from January 1, 2007 through the date of the IPO from the net proceeds from collection of deferred fee receivables, earned in prior periods, related to the liquid and hybrid hedge funds. Following this distribution, all of the deferred fee arrangements were terminated. Subsequently, \$27.4 million of net proceeds from all of the remaining deferred fee receivables were collected.

In February 2007, one of the then consolidated hybrid hedge funds raised \$1.2 billion of capital commitments from existing and new limited partners, of which 18% was called in the first quarter of 2007 and 20% was called in the second quarter of 2007. During the capital commitment period, which expires on the earlier of when it is fully drawn or December 31, 2008, no other new third party investors will be permitted in this fund.

In February 2007, one of the consolidated hybrid hedge funds originated a \$1.2 billion loan in connection with a transaction between two third parties. As part of the syndication of this loan, Fortress formed four managed account relationships totaling \$425 million, whereby Fortress manages investments on behalf of third parties in exchange for fees, syndicated \$300 million to a third party participant and retained the remainder in certain Fortress Funds. Fortress will earn incentive income from the managed account relationships based upon the performance of the underlying investment.

In June 2007, one of the liquid hedge funds, which had begun an orderly liquidation process after the completion of Fortress's initial public offering, liquidated its positions and all investors fully redeemed out of the fund, including \$14.5 million redeemed to third party investors.

### 3. INVESTMENTS IN EQUITY METHOD INVESTEES

#### Investments in Equity Method Investees

Fortress holds investments in certain unconsolidated Fortress Funds which are accounted for under the equity method. Upon the deconsolidation of the consolidated Fortress Funds on March 31, 2007 (Note 1), these funds also became equity method investees. Fortress's maximum exposure to loss with respect to these entities is generally equal to its investment plus its basis in any options received from such entities as described below. In addition, unconsolidated affiliates also hold an ownership interest in certain of these entities. Summary financial information related to these investments is as follows:

---

In January 2007, in connection with a capital raise, Newcastle issued 242,000 options to purchase shares of its common stock at \$31.30 per share to Fortress, which were valued at \$0.8 million. Fortress assigned 121,605 of these options to employees, recording compensation expense of \$0.4 million. In addition, during May 2004 and January 2005, Newcastle issued 675,000 options (at a weighted average strike price of \$27.63) to purchase shares of its common stock to Fortress. During March 2007, Fortress assigned 261,525 of these options to employees, recording compensation expense of \$0.5 million.

During the six months ended June 30, 2007, Fortress assigned a total of 317,670 Eurocastle options, with a weighted average strike price of €19.24 per share, to certain of its employees. Fortress recorded compensation expense of \$1.6 million and \$3.3 million associated with the assignment of these options during the three and six months ended June 30, 2007, respectively.

In April 2007, in connection with a capital raise, Newcastle issued 456,000 options to purchase shares of its common stock at \$27.75 per share to Fortress, which were valued at \$1.2 million. Fortress assigned 162,450 of these options to employees and recorded compensation expense of \$0.4 million. The Principals in their personal capacities purchased approximately \$60 million in the aggregate of the shares sold in this offering directly from the underwriter at the public offering price.

Investments in Variable Interest Entities

## Edgar Filing: Fortress Investment Group LLC - Form 10-Q

As part of the deconsolidation of the consolidated Fortress Funds (Note 1), Fortress caused reconsideration events to occur in each of the variable interest entities in which it was deemed to be the primary beneficiary. As a result of these reconsideration events, Fortress is no longer considered the primary beneficiary of, and therefore does not consolidate, any of the variable interest entities in which it holds an interest. No other reconsideration events occurred during the six months ended June 30, 2007 which caused a change in Fortress's accounting.

The following table represents information as of June 30, 2007 regarding entities formed during the six months ended June 30, 2007 that were determined to be VIEs in which Fortress holds a variable interest:

Business Segment	Fortress is not Primary Beneficiary	
	Gross Assets	Fortress Investment
Private Equity Funds	\$ 18,397	\$(554)(A)
Liquid Hedge Funds	\$ 6,750,470	\$121,360 (B)

(A) Fortress's interest in Fund V is negative as a result of Fortress's share of the loss incurred on a derivative used to hedge the anticipated financing of the fund's first investment. Fortress will be required to fund this loss based on its capital commitment to this fund. No capital contributions have been made as of June 30, 2007.

(B) Includes \$103.0 million of incentive income receivable. Also represents Fortress's maximum exposure to loss with respect to these entities.

Consolidated Fortress Fund debt			2,619,456					
Total			\$3,306,609					

(A) Approximately \$194.1 million and \$450 million were undrawn and available on the revolving debt and delayed term loan, respectively, as of June 30, 2007, including a \$25 million letter of credit subfacility of which \$5.9 million was utilized.

(B) Subject to unused commitment fees of 0.375% per annum (the unused commitment fee for the delayed term loan is 0.175% for the first 135 days after closing).

(C) Collateralized by substantially all of Fortress Operating Group's assets as well as Fortress Operating Group's rights to fees from the Fortress Funds and its equity interest therein.

In connection with a repayment of a prior credit facility, deferred loan costs of \$3.1 million were written off to interest expense in June 2006. In connection with the repayment of a portion of a prior term loan, \$2.0 million of deferred loan costs were written off to interest expense in February 2007. In May 2007, Fortress entered into a new credit agreement to refinance its existing credit agreement, reduce the amount of interest and other fees payable under its credit facilities, and increase the amount of funds available for investments.

Management believes that for similar financial instruments with comparable credit risks, the stated interest rates of Fortress's debt as of June 30, 2007 approximate market rates. Accordingly, the carrying values outstanding are believed to approximate fair value.

5. INCOME TAXES AND TAX RELATED PAYMENTS

Prior to January 17, 2007, Fortress, as a partnership, generally had not been subject to U.S. federal income tax but certain of its subsidiaries had been subject to the New York City unincorporated business tax (“UBT”) on its U.S. earnings based on a statutory rate of 4%. One subsidiary of Fortress was subject to U.S. federal corporate income taxes. Certain subsidiaries of Fortress are subject to income tax of the foreign countries in which they conduct business. In connection with the Nomura transaction and the initial public offering (Note 1), Fortress was reorganized. Fortress was established as a publicly traded partnership and also established a wholly owned corporate subsidiary. Accordingly, a substantial portion of Fortress’s income earned by the corporate subsidiary is subject to U.S. federal income taxation and taxed at prevailing rates. The remainder of Fortress’s income is allocated directly to its shareholders and is not subject to a corporate level of taxation.

The Nomura transaction involved Fortress’s purchase of Fortress Operating Group units from the Principals and an election by certain Fortress Operating Group entities under Section 754 of the Code, resulting in the tax basis of the assets owned by Fortress Operating Group to increase. Fortress established a deferred tax asset of \$454.8 million for the expected tax benefit associated with the difference between the book value of net assets and the tax basis of net assets, based on an estimated combined marginal federal and state tax rate of approximately 39.4 % and the expectation, based on an analysis of expected future earnings, that it is more likely than not that this benefit will be realized. The establishment of the deferred tax asset increased additional paid in capital as the transaction giving rise to the increase in tax basis was between Fortress and its shareholders. The deferred tax asset described above reflects the tax impact of payments expected to be made under the tax receivable agreement (described below), which further increase Fortress’s deferred tax benefits and the estimated payments due under the tax receivable agreement.

As a result of the contribution of \$578.3 million of the net proceeds of the initial public offering by FIG Corp. to the capital of Fortress Operating Group, a temporary difference arose between the carrying value of Fortress Operating Group for financial reporting purposes and that for income tax purposes. A gross deferred tax asset of \$24.6 million has been recorded to reflect the deferred tax effects of the tax basis over financial reporting basis.

(dollars in tables in thousands, except share data)

---

The tax effects of temporary differences have resulted in deferred income tax assets and liabilities as follows:

	June 30, 2007	December 31, 2006
Deferred tax assets	\$ 475,091	\$ 2,808
Deferred tax liabilities (A)	\$ 7,883	\$ 12,989

(A) Included in Other Liabilities.

For the period January 17, 2007, the reorganization date, through June 30, 2007, an estimated annual (January 17, 2007 through December 31, 2007) negative effective tax rate of (16.13%) was used to compute the tax provision on the Registrant's income subject to U.S. federal, state and local income taxes. Fortress incurred a loss before income taxes for financial reporting purposes, after deducting the compensation expense arising from the Principals' forfeiture agreement (Note 7). However, this compensation expense is not deductible for income tax purposes. Also, after the reorganization, a portion of Fortress's income is not subject to U.S. federal corporate income tax but is allocated directly to Fortress's shareholders.

The actual effective tax rate for the period ended June 30, 2007 is significantly different than the effective tax rate above primarily because (i) all of the income earned by the predecessor prior to January 17, 2007 was earned through partnerships and only subject to the New York City UBT; and (ii) significant income was earned by the predecessor prior to January 17, 2007 as compared to a loss incurred by the Registrant for the period from January 17, 2007 through June 30, 2007.

As a result of the foregoing, Fortress's effective tax rate for GAAP reporting purposes may be subject to significant variation from period to period.

#### Tax Receivable Agreement

The Principals have the right to exchange each of their Fortress Operating Group units for one of the Class A shares. The Fortress Operating Group entities intend to make an election under Section 754 of the Internal Revenue Code, as amended, which may result in an adjustment to the tax basis of the assets owned by Fortress Operating Group at the time of an exchange. The exchanges may result in increases in tax deductions and tax basis that would reduce the amount of tax that the corporate taxpayers (i.e. FIG Corp.) would otherwise be required to pay in the future. Additionally, the further acquisition of Fortress Operating Group units from the Principals, such as in the Nomura transaction (Note 1), also may result in increases in tax deductions and tax basis that would reduce the amount of tax that the corporate taxpayers would otherwise be required to pay in the future. The corporate taxpayers entered into a tax receivable agreement with each of the Principals that provides for the payment to an exchanging or selling Principal of 85% of the amount of cash savings, if any, in U.S. federal, state, local and foreign income tax that the corporate taxpayers actually realize (or are deemed to realize in the case of an early termination payment by the corporate taxpayers or a change of control, as defined) as a result of these increases in tax basis. Such payments are expected to occur over approximately the next 15 years. In connection with the Nomura transaction and related tax effects, a \$390 million capital decrease and offsetting liability to the Principals was recorded with respect to the tax receivable agreement. Such amount is a component of the deferred tax effects reflected in the Statement of Members' and Shareholders' Equity. No further liability was recorded during the period ended June 30, 2007, nor were any payments made during that period. Although the

tax receivable agreement payments are calculated based on annual tax savings, for the period ended June 30, 2007 the payments which would have been made pursuant to the tax receivable agreement, if such period was calculated by itself, were \$7.5 million.

## Recently Adopted Accounting Pronouncement

We adopted the Financial Accounting Standards Board's Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109" ("FIN 48"), effective January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements and requires the impact of a tax position to be recognized in the financial statements if that position is more likely than not of being sustained by the taxing authority. The adoption of FIN 48 did not have a material effect on our consolidated financial position, liquidity or results of operations.

In February 2007, Fortress entered into a preliminary agreement with two employees who were departing from Fortress to form their own investment management company. Fortress received a profits interest in their management company, and, as part of the transaction, a Fortress Fund received certain rights to invest at discounted fee rates in the fund being formed by the departing employees, and committed to invest \$200 million in that fund subject to certain conditions. The transaction was approved by the advisory board of the Fortress Fund.

In March 2007, a departing Fortress employee entered into a sourcing agreement with a Fortress Fund pursuant to which the Fortress Fund agreed to make contingent payments to the former employee based on the employee sourcing future transactions for that Fortress Fund.

In March 2007, one of the Portfolio Companies leased office space to a company owned by one of the Principals. The Principal pays approximately \$0.2 million per annum in rent to the Portfolio Company.

In March 2007, in conjunction with the deconsolidation (Note1), Fortress transferred its general partner interests in certain CDO Portfolio Companies to certain Fortress Funds for \$6.5 million.

In connection with the IPO, Fortress entered into a tax receivable agreement with the Principals, as described in Note 5, and the Principals entered into a forfeiture agreement with each other, as described in Note 7. The Principals, employees, directors and Fortress Funds have and continue to make investments in Fortress Funds.

In June 2007, Fortress sold two investments to Real Assets Fund, a private equity Fortress Fund. Fortress received \$29.1 million from the sales and recorded gains aggregating \$0.4 million.

## 7. EQUITY-BASED COMPENSATION

Fortress currently has seven categories of equity-based compensation which are accounted for as described in the table below. A total of 115,000,000 Class A shares have been authorized for issuance under Fortress's equity-based compensation plan. RSUs are Class A restricted share units which entitle the holder to receive Class A shares on various future dates if the applicable service conditions, if any, are met. LTIP means long-term incentive plan.
