HIGH CURRENT INCOME FROM A PORTFOLIO OF SENIOR CORPORATE LOANS

Chairman's Letter to Shareholders

Dear Shareholder:

I am very pleased to report that over the nine-month period covered by this report, your Fund continued to provide you with attractive monthly income from a portfolio primarily composed of senior corporate loans. For more information on your Fund's performance, please read the Portfolio Managers' Comments, the Distribution and Share Price Information, and the Performance Overview sections of this report.

Portfolio diversification is a recognized way to try to reduce some of the risk that comes with investing. Since one part of your portfolio may be going up when another is going down, portfolio diversification may help smooth your investment returns over time. In addition to providing regular monthly income, a senior loan investment like your Fund may help you achieve and benefit from greater portfolio diversification. Your financial advisor can explain these advantages in more detail. I encourage you to contact him or her for more information on this and other important investment strategies.

At Nuveen Investments, our mission continues to be to assist you and your financial advisor by offering investment services and products that can help you to secure your financial objectives. We are grateful that you have chosen us as a partner as you pursue your financial goals, and we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

TIMOTHY R. SCHWERTFEGER
Chairman of the Board
June 12, 2006

PORTFOLIO MANAGERS' COMMENTS

The Fund's investment portfolio is managed by Gunther Stein and Lenny Mason of Symphony Asset Management, LLC, an affiliate of Nuveen Investments. Gunther and Lenny have more than 25 years of combined investment management experience, much of it in evaluating and purchasing senior corporate loans and other high-yield

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

debt. Here Gunther and Lenny talk about their management strategies and the performance of the Fund for the nine-month period ended April 30, 2006.

WHAT WAS YOUR OVERALL MANAGEMENT STRATEGY FOR THE NINE MONTH PERIOD ENDED APRIL 30, 2006?

We continue to view the leveraged loan market favorably but given the current credit environment we continue to take a defensive stance in positioning our loan portfolios. The loan market has continued to demonstrate many positive characteristics that we think make the asset class attractive. Market liquidity is better than it has ever been, investor appetite has been strong and many high quality deals have come to market. Strong investor demand, however, has allowed many deals to be structured with aggressive leverage levels. It is this environment and market dynamic that leads us to avoid credits we feel are too aggressively leveraged or do not have a sound credit profile. We do not feel that now is the appropriate time to be reaching for yield or involved with what we consider to be marginal credits.

We continued to avoid many small loans that are supporting leveraged buyouts as we feel that market liquidity could be challenged if the credit experiences any negative events. We are focused on adding high quality new-issue loans at par as we do not feel that paying 101 or higher for loans is prudent in the current environment.

We also continued to avoid the vast majority of second lien loans. At current trading levels we do not believe that most second lien loans compensate investors for the risk these credits pose over a credit cycle. We believe when the economy does weaken - whenever that may be - that second lien loans could see significant downside from current levels.

HOW DID THE FUNDS PERFORM DURING THE PERIOD?

The performance of NSL as well as the performance of a comparative index, is shown in the nearby chart:

Total Return on Net Asset Value*
For the Nine-month period ending April 30, 2006

NSL	4.89%
CSFB Leveraged Loan Index(1)	5.01%

* Nine-month returns are cumulative

Past performance does not guarantee future results. Current performance may be higher or lower than the data shown.

Returns do not reflect the deduction of taxes that a shareholder may have to pay on Fund distributions or upon the sale of Fund shares.

For more information, please see the individual Performance Overview pages in this report.

(1) The CSFB Leveraged Loan Index is a representative, unmanaged index of tradable, senior, U.S. dollar-denominated leveraged loans. It is not possible to invest directly in an Index.

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

Over the nine-month reporting period, NSL slightly underperformed the unmanaged, unleveraged CSFB Leveraged Loan Index.

Several securities positively impacted the performance of the senior loan component of the portfolio. However, the Federal Mogul term loan holdings had a more material positive impact.

The Fund had several holdings that constrained the Fund's performance over this reporting period. Some issuers that had a negative impact on NSL's portfolio were Norwood Promotional Products, OpBiz and Armstrong.

DISTRIBUTION AND SHARE PRICE INFORMATION

As noted, this Fund uses financial leverage in an effort to enhance its distribution paying capabilities. While this strategy adds volatility to a Fund's net asset value (NAV) and share price, it generally works to enhance the amount of income the Fund has to distribute to its common shareholders, as long as the distribution rates the Fund pays to its preferred shareholders are less than the interest rates the Fund receives from its portfolio of loans.

Since this Fund invests in adjustable rate loans, the income stream can typically be expected to rise or fall over time to reflect the movement of shorter-term market interest rates. In March of this period, the Fund increased its monthly distribution to \$0.0535 per share.

NSL seeks to pay stable distributions at rates that reflect the Fund's past results, and projected future performance. During certain periods, the Fund may pay distributions at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in distributions, it holds the excess in reserve as undistributed net investment income (UNII), which is part of the Fund's NAV. Conversely, if a Fund has cumulatively paid distributions in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV.

As of April 30, 2006, the Fund was trading at a -4.51% discount to its net asset value, compared with an average discount of -3.21% for the nine-month reporting period.

- (1) All percentages shown in the Portfolio of Investments are based on net assets and otherwise noted.
- (2) Senior Loans in which the Fund invests generally pay interest at rates which are based on reference to a base short-term, floating lending rate plus an assigned fixed rate. Rates are generally (i) the lending rate referenced by the London Inter-Bank Offered Rate (LIBOR) rate offered by one or more major United States banks.
- Senior Loans may be considered restricted in that the Fund ordinarily is contractually restricted from approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.
- (3) Senior Loans generally are subject to mandatory and/or optional prepayment. Because of these conditions and because there may be significant economic incentives for a Borrower to prepay Senior Loans may occur. As a result, the actual remaining maturity of Senior Loans may be shorter than the stated maturities shown.
- (4) Ratings: Using the higher of Standard & Poor's or Moody's rating. Ratings below BBB- by Moody's Investor Service, Inc. are considered to be below investment grade.
- (5) At or subsequent to April 30, 2006, this issue was under the protection of the Trust Agreement.
- (6) Non-income producing. Non-income producing, in the case of a bond, generally depends on the payment of principal or interest or has filed for bankruptcy.

- (8) Position represents an unfunded Senior Loan commitment outstanding at April 30, 2006.
- (9) Negative value represents unrealized depreciation on Senior Loan commitment at April 30, 2006.
- (10) Valued at fair value using methods determined in good faith by, or at the discretion of, the Fund.
- (11) Borrowings payable as a percentage of total investments is (25.1%).

- TBD Senior Loan purchased on a when-issued or delayed-delivery basis. Certain details are not known prior to the settlement date of the transaction. In addition, Senior Loans may have accrued interest and therefore a weighted average coupon rate is not available. If still unknown, the borrower or counterparty will provide the Fund with the final coupon rate and maturity date.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The fund (the "Fund") covered in this report and its corresponding Common share New York Stock Exchange symbol is Nuveen Senior Income Fund (NSL). The Fund is registered under the Investment Company Act of 1940, as amended, as a closed-end management investment company.

The Fund seeks to provide a high level of current income by investing primarily in senior loans whose interest rates float or adjust periodically based on a benchmark interest rate index.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of senior loans, bonds and other securities in the Fund's investment portfolio, are generally provided by one or more independent pricing services approved by the Fund's Board of Trustees. The pricing services typically value exchange-listed securities at the last sales price on that day; and value senior loans, bonds and other securities traded in the over-the-counter market at the mean of the highest bona fide bid and lowest bona fide asked prices when current quotations are readily available. The pricing services or, in the absence of a pricing service for a particular investment, the Board of Trustees of the Fund,

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

or its designee, may establish fair market value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service or the Board of Trustees' designee. Short-term investments are valued at amortized cost, which approximates market value.

The senior loans in which the Fund invests are not listed on an organized exchange and the secondary market for such investments may be less liquid relative to markets for other fixed income securities. Consequently, the value of senior loans, determined as described above, may differ significantly from the value that would have been determined had there been an active market for that senior loan.

Investment Transactions

Investment transactions are recorded on a trade date basis. Trade date for senior loans purchased in the "primary market" is considered the date on which the loan allocations are determined. Trade date for senior loans purchased in the "secondary market" is the date on which the transaction is entered into. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Fund maintains liquid assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At April 30, 2006, the Fund had outstanding when-issued/delayed delivery purchase commitments of \$17,786,400.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also includes paydown gains and losses on senior loans. Fee income, if any, consists primarily of amendment fees. Amendment fees are earned as compensation for evaluating and accepting changes to the original loan agreement and are recognized when received.

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

Federal Income Taxes

The Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

Dividends and Distributions to Common Shareholders

The Fund declares monthly income distributions to Common shareholders. Net realized capital gains from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

The Fund has issued and outstanding 1,840 shares of Series TH, Taxable Auctioned Preferred shares, \$25,000 stated value per share, as a means of effecting

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

financial leverage. The dividend rate paid by the Fund is determined every 28 days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The Fund has also effected financial leverage by borrowing, as described in footnote 8.

Repurchase Agreements

In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Custodian Fee Credit

The Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on the Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Fund's organizational documents, its Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

FINANCIAL STATEMENTS (Unaudited) (continued)

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, and timing differences in recognizing certain gains and losses on investment transactions.

At April 30, 2006, the cost of investments was \$417,693,190.

Gross unrealized appreciation and gross unrealized depreciation of investments at April 30, 2006, were as follows:

Gross unrealized:

Depreciation	(12,990,264)

Net unrealized appreciation (depreciation) of investments	\$ (7,462,510)

The tax components of undistributed net ordinary income and net realized gains at July 31, 2005, the Fund's last tax year end, were as follows:

Undistributed net ordinary income *	\$ 3,141,702
Undistributed net long-term capital gains	--
=====	

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any. Undistributed net ordinary income (on a tax basis) has not been reduced for the dividend declared on July 1, 2005, paid on August 1, 2005.

The tax character of distributions paid during the Fund's last tax year ended July 31, 2005, was designated for purposes of the dividends paid deduction as follows:

Distributions from net ordinary income *	\$ 18,143,299
Distributions from net long-term capital gains	--
=====	

* Net ordinary income consists of net taxable income derived from dividends, interest, and net short-term capital gains, if any.

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

At July 31, 2005, the Fund's last tax year end, the Fund had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

Expiration year:

2011	10,704,254	

Total	\$25,621,182	
=====		

5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and a specific fund-level component, based only on the amount of assets within the Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, is based upon the average daily Managed Assets of the Fund as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE

For the first \$1 billion	.6500%
For the next \$1 billion	.6375
For the next \$3 billion	.6250
For the next \$5 billion	.6000
For Managed Assets over \$10 billion	.5750
=====	

Notes to FINANCIAL STATEMENTS (Unaudited) (continued)

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of April 30, 2006, the complex-level fee was .1888%.

COMPLEX-LEVEL ASSETS(1)	COMPLEX-LEVEL FEE RATE

For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150

Edgar Filing: NUVEEN SENIOR INCOME FUND - Form N-CSRS

For Managed Assets over \$91 billion(2) .1400

=====

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

- (2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into a Sub-Advisory Agreement with Symphony Asset Management, LLC ("Symphony"), an indirect wholly owned subsidiary of Nuveen, under which Symphony manages the investment portfolio of the Funds. Symphony is compensated for its services to the Fund from the management fee paid to the Adviser.

The Fund pays no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Fund from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

For the first ten years of the Fund's operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

YEAR ENDING OCTOBER 31,		YEAR ENDING OCTOBER 31,	

1999*	.45%	2005	.35%

6. COMMITMENTS

Pursuant to the terms of certain of the variable rate senior loan agreements, the Fund may have unfunded senior loan commitments. The Fund will maintain with its custodian, cash, liquid securities and/or liquid senior loans having an

aggregate value at least equal to the amount of unfunded senior loan commitments. At April 30, 2006, the Fund had an unfunded senior loan commitments of \$1,876,069.

7. SENIOR LOAN PARTICIPATION COMMITMENTS

With respect to the senior loans held in the Fund's portfolio, the Fund may: 1) invest in assignments; 2) act as a participant in primary lending syndicates; or 3) invest in participations. If the Fund purchases a participation of a senior loan interest, the Fund would typically enter into a contractual agreement with the lender or other third party selling the participation, rather than directly with the Borrower. As such, the Fund not only assumes the credit risk of the Borrower, but also that of the Selling Participant or other persons interpositioned between the Fund and the Borrower.

The Fund had the following participation commitments outstanding at April 30, 2006:

COUNTERPARTY	COMMITMENT AMOUNT	VALUE
Bear, Stearns & Co., Inc.	\$ 2,000,000	\$ 1,936,667
Morgan Stanley	1,640,000	1,588,067

8. BORROWINGS

In accordance with the Fund's current investment policies, the Fund may utilize financial leverage for investment purposes in an amount currently anticipated to represent approximately 40% of the Fund's total assets, and in no event exceeding 50% of the Fund's total assets.

The Fund has entered into a commercial paper program (\$110 million maximum) with Bank One's conduit financing agency, Falcon Asset Securitization Corp. ("Falcon"), whose sole purpose is the issuance of high grade commercial paper. Falcon uses the proceeds to make advances to the Fund and to many other borrowers who comprise Falcon's total borrowing base. For the nine months ended April 30, 2006, the average daily balance of borrowings under the commercial paper program agreement was \$103 million. The average annualized interest rate for funding and program usage fees on such borrowings was 4.26%.

The Fund has also entered into a \$110 million liquidity facility. If the facility is utilized, interest on the borrowings would be charged a variable interest rate. An unused commitment fee of .095% on 102% of the unused portion of the \$110 million facility is charged. There were no borrowings under the revolving credit agreement during the nine months ended April 30, 2006.
