PROXY STATEMENT

Annual Meeting of Shareholders of Movado Group, Inc. to be held Thursday, June 23, 2016

Some Questions You May Have Regarding This Proxy Statement

What is the purpose of these materials?

The Board of Directors (the “Board of Directors”) of Movado Group, Inc. (the “Company”) is soliciting proxies for our 2016 Annual Meeting of Shareholders (the “Annual Meeting”). The Annual Meeting will be held on Thursday, June 23, 2016 at 10:00 a.m. at the Company’s offices located at 25 West 39th Street, 15th Floor, New York, NY 10018. The information included in this proxy statement relates to the proposals to be voted on at the Annual Meeting, the voting process, the compensation of Directors and our most highly paid executive officers, and other required information. Our annual report to shareholders for the fiscal year ended January 31, 2016 is available to review with this proxy statement. We are mailing a notice of the Annual Meeting (and, for those who request it, a paper copy of this proxy statement and the enclosed form of proxy) to our shareholders on or about May 12, 2016.

What proposals will be voted on at the Annual Meeting?

The three matters scheduled to be voted on at the Annual Meeting are:

1. The election of nine directors to serve on the Board of Directors;
2. The ratification of the selection of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm for the fiscal year ending January 31, 2017; and
3. The approval, on an advisory basis, of the compensation of the Company’s named executive officers, as described in the proxy statement under “Executive Compensation”.

In addition, such other business as may properly come before the Annual Meeting or any adjournment or postponement thereof may be voted on.

Who can vote at the Annual Meeting?

Anyone owning shares of the Company’s Common Stock and/or its Class A Common Stock at the close of business on April 25, 2016, the record date for this year’s Annual Meeting, is entitled to attend and to vote on all items properly presented at the Annual Meeting.

Who is asking me for my vote?

The Company is soliciting your proxy on behalf of the Board of Directors and has retained Broadridge Investor Communications Solutions, Inc., professional proxy solicitors, to assist with the solicitation. We will pay the entire cost of this proxy solicitation, including the cost of preparing and mailing the Notice of Internet Availability of Proxy Material and the Proxy Statement and Broadridge’s fee, which we expect to be approximately \$10,000.

What are my voting rights?

Each share of Common Stock is entitled to one vote and each share of Class A Common Stock is entitled to 10 votes on each matter properly presented at the Annual Meeting. At the close of business on April 25, 2016, the record date

for determining the shareholders entitled to notice of, and to vote at, the Annual Meeting, there were 16,368,648 shares of Common Stock outstanding and 6,685,877 shares of Class A Common Stock outstanding. The Common Stock and the Class A Common Stock are hereinafter referred to together as the "Capital Stock". A list of all shareholders as of the record date will be available during ordinary business hours at the Company's principal place of business located at 650 From Road, Ste. 375, Paramus, NJ 07652-3556, from the Secretary of the Company, at least 10 days before the Annual Meeting and will also be available at the Annual Meeting.

How does the Board of Directors recommend that I vote?

The Board of Directors recommends that you vote:

1. FOR the election of each of the director nominees;
2. FOR the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current fiscal year; and
3. FOR the approval, on an advisory basis, of the compensation of the Company's named executive officers, as described in the proxy statement under "Executive Compensation".

Why did I receive a one-page notice in the mail regarding the Internet availability of proxy materials instead of a full printed set?

In accordance with the rules of the Securities and Exchange Commission (the "SEC"), the Company is providing access to its proxy materials via the Internet. Accordingly, the Company is mailing a Notice of Internet Availability of Proxy Materials (the "Notice") to shareholders of record and beneficial owners. All shareholders will have the ability to access the proxy materials on a website referred to in the Notice or to request a printed set of the proxy materials. Instructions on how to access the proxy materials via the Internet or to request a printed set may be found in the Notice. In addition, shareholders may request to receive proxy materials in printed form by mail or electronically by email on an ongoing basis.

Where can I view the proxy materials on the Internet?

The Notice provides you with instructions on how to:

- ~~view~~ proxy materials for the Annual Meeting via the Internet; and
- ~~in~~struct the Company to send future proxy materials to you by email.

You can view the proxy materials for the Annual Meeting online at www.movadogroup.com by clicking on Investor Center and then Annual Report & Proxy Materials.

How do I vote?

If you are a shareholder on the record date, you may vote by following the instructions for voting on the Notice. If you receive paper copies of these proxy materials, you can vote by completing, signing and dating your proxy card and returning it in the enclosed envelope. Alternatively, you may attend the Annual Meeting and vote your shares in person. If you vote online, by phone or mail in a proxy card, you may still attend the Annual Meeting and vote in person but, in that case, only your in-person votes will count. If you wish to vote your shares in person at the Annual Meeting and they are held by your broker in "street name," you must bring a letter from the broker to the Annual Meeting showing that you were the beneficial owner of the shares on April 25, 2016.

Can I change my vote after I have delivered my proxy?

Yes. You may change your vote at any time before voting concludes at the Annual Meeting by:

- ~~pro~~viding another proxy, or using any of the available methods for voting, with a later date;

notifying the Company's Secretary in writing before the Annual Meeting that you wish to revoke your proxy; or
voting in person at the Annual Meeting.

What is a quorum?

For the purposes of the Annual Meeting, a "quorum" is a majority in voting power of the outstanding shares of Capital Stock owned by shareholders on the record date who are present in person or represented by proxy at the Annual Meeting. There must be a quorum for the Annual Meeting to be held. Broker non-votes (as further described below) and abstentions are counted for purposes of determining whether a quorum is present.

3

What is broker “discretionary” voting?

Under the rules of the New York Stock Exchange (“NYSE”), brokers who have transmitted proxy materials to customers will have discretion to vote the shares of customers who fail to provide voting instructions on “routine matters,” but brokers may not vote such shares on “non-routine matters” without voting instructions. When a broker’s customer does not provide the broker with voting instructions on non-routine matters, the broker cannot vote either way and instead reports the number of such shares as broker “non-votes.” Broker non-votes are counted as present for the purpose of determining the presence of a quorum for the transaction of business, but they are not counted as shares voting. Thus, broker non-votes can have the effect of preventing approval of certain proposals where the number of affirmative votes, although a majority of the votes cast, does not constitute a majority of the required quorum. Non-routine matters include: the election of directors and the approval, on an advisory basis, of the executive compensation of the Company’s named executive officers. Therefore, if you hold your shares in street name through a broker, you must cast your vote if you want it to count in respect of these non-routine matters. The ratification of the appointment of the Company’s independent registered public accounting firm is a routine matter, so brokers will have discretion to vote any uninstructed shares on that proposal (Proposal 2).

How are matters presented at the Annual Meeting approved?

Directors are elected by a plurality of the votes cast at the Annual Meeting. Approval of the proposals to: (i) ratify the selection of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm for fiscal 2017 and (ii) approve, on an advisory basis, the compensation of the Company’s named executive officers, requires the affirmative vote of the holders of a majority in voting power of the outstanding shares of Capital Stock present in person or represented by proxy and entitled to vote at the Annual Meeting. With respect to the aforementioned proposals, abstentions will not be counted as votes cast in accordance with New York law. For this reason, abstentions will have no effect on the election of directors or the advisory vote to approve the compensation of the Company’s named executive officers.

May I vote confidentially?

Yes. Our policy is to keep your vote confidential, except as otherwise legally required, to allow for the tabulation and certification of votes and to facilitate proxy solicitation.

Who will count the votes?

A representative of Broadridge will count the votes and act as the inspector of election for the Annual Meeting.

What if additional matters are presented to the Annual Meeting?

We do not know of any business to be considered at the Annual Meeting other than the proposals described in this proxy statement. If any other business is presented at the Annual Meeting, your properly executed proxy gives authority to Mitchell C. Sussis, our General Counsel and Corporate Secretary, and to Sallie A. DeMarsilis, our Chief Financial Officer, to vote on such matters at his or her discretion.

Where can I find the voting results from the Annual Meeting?

We will announce preliminary voting results at the Annual Meeting and will publish final results in a Form 8-K that we will file with the SEC within four business days after the date of the Annual Meeting.

How can I obtain information about the Company?

A copy of our fiscal 2016 Annual Report on Form 10-K is available on our website at www.movadogroup.com. Shareholders may also obtain a free copy of our Annual Report on Form 10-K for the fiscal year ended January 31, 2016 by visiting our website or by sending a request in writing to Mitchell C. Sussis, Corporate Secretary, at the Company's address set forth in the Notice.

When are shareholder proposals due for consideration at next year's annual meeting?

Under the SEC rules, for shareholder proposals to be considered for inclusion in the proxy statement for the 2017 Annual Meeting, they must be submitted in writing to our Corporate Secretary at Movado Group, Inc., 650 From Road, Ste. 375, Paramus, NJ 07652-3556, on or before January 13, 2017. In addition, our by-laws provide that for directors to be nominated or other proposals to be properly presented at the 2017 Annual Meeting, an additional notice of any nomination or proposal must be received by us not less than 60 nor more than 90 days before the Annual Meeting. If less than 70 days' notice of our 2017 Annual

Meeting is given, then to be timely, the notice by the shareholder must be received by us not later than the close of business on the tenth day following the day on which the first public announcement of the date of the 2017 Annual Meeting is made or the notice of the meeting is mailed, whichever occurs first.

THE BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Board of Directors Leadership Structure

Prior to January 31, 2009, the positions of Chairman of the Board of Directors and Chief Executive Officer were held by two individuals. Following the retirement and passing of the Company's former Chairman, Mr. Gedalio Grinberg, the Board of Directors appointed Mr. Efraim Grinberg, who at that time was the Chief Executive Officer and a sitting Board of Directors member, to also serve as Chairman. In making the decision to combine the positions of the Chairman and Chief Executive Officer, the Board of Directors took into consideration Mr. E. Grinberg's almost 30 years of management, financial and administrative leadership at the Company and his extensive knowledge of, and experience with, all other aspects of the Company's business and concluded that he is the director most capable of guiding our business, at both the strategic and operational levels.

In May 2011, upon the recommendation of the Nominating/Corporate Governance Committee, the Board of Directors established the position of “lead director” to help coordinate the activities of the other independent directors and to perform such other duties and responsibilities as the Board of Directors may determine from time to time. Mr. Howard was appointed by the Board of Directors as lead director at that time and currently continues to serve in that capacity, in addition to chairing the Compensation Committee. The primary duties of the lead director include providing advice on agendas for and the scheduling of Board of Directors meetings, advising the Chairman as to the quality, quantity and timeliness of the information submitted by the Company’s management to the Board of Directors, serving as the principal liaison for consultation and communication between the independent directors of the Board of Directors and the Chairman, without inhibiting direct communication between the Chairman and the other directors, and presiding at meetings of the Board of Directors in the absence of or upon the request of the Chairman and presiding at all meetings of the independent directors.

The composition of the Board of Directors, the tenure of the directors with the Company, the overall experience of the directors and the experience that the directors have had with the Chairman, the lead director and the executive management group permit and encourage each member to take an active role in all discussions, and each member does actively participate in all substantive discussions. We believe that our current Board of Directors leadership structure is serving the Company well at this time.

Board of Directors Meetings and Committees

In fiscal 2016, the Board of Directors held eleven meetings. All directors attended at least 75% of the meetings of the Board of Directors and of the committees on which they served.

The Board of Directors has three committees:

- ~~A~~udit;
- ~~C~~ompensation; and
- ~~N~~ominating/Corporate Governance.

The members of the committees and their chairs are appointed by the Board of Directors annually. Each committee is comprised entirely of independent directors in accordance with NYSE listing standards. Each committee operates under a written charter which is available at the Company’s website at www.movadogroup.com by clicking on “Investor Center”, “Corporate Governance”, “Committee Composition” and then the name of the respective committee. Committee charters are also available in print upon the written request of any shareholder. The current committee membership is as follows:

Audit Committee	Compensation Committee	Nominating/Corporate Governance Committee
Richard Isserman *	Alan H. Howard *	Nathan Leventhal *
Peter A. Bridgman	Margaret Hayes Adame	Margaret Hayes Adame
Alan H. Howard	Nathan Leventhal	Peter A. Bridgman
Maurice Reznik	Maurice Reznik	Richard Isserman
* Committee Chair		

Audit Committee

The Board of Directors has determined that each member of the Audit Committee is an “audit committee financial expert” as defined under the rules adopted by the SEC and, therefore, has accounting or related financial expertise in accordance with the NYSE listing standards. The Audit Committee held four meetings in fiscal 2016.

The principal functions of the Audit Committee are to (i) appoint, approve the compensation of, terminate and oversee the work of the Company's independent auditors; (ii) approve in advance all audit and permissible non-audit services provided to the Company by independent auditors; (iii) review, in consultation with the Company's independent auditors, management and the Company's internal auditors, the Company's financial reporting process, including its internal controls; (iv) review with management and the Company's independent auditors, the Company's annual and quarterly financial statements before the same are publicly filed, and (v) report regularly to the Board of Directors with respect to any issues that arise concerning, among other things, the quality or integrity of the Company's financial statements, the performance of the internal audit function, the Company's compliance with legal requirements and the performance and independence of the Company's independent auditors.

Compensation Committee

The Compensation Committee held eight meetings in fiscal 2016. The principal functions of the Compensation Committee are to (i) review and approve corporate goals and objectives relevant to the CEO's compensation, evaluate the CEO's performance in light of those goals and objectives and set the CEO's compensation level based on that evaluation; (ii) review and approve compensation levels for non-CEO executive officers and key employees of the Company; (iii) review significant employee benefit programs; and (iv) establish and administer executive compensation programs, including bonus plans, stock option and other equity-based programs, deferred compensation plans and any other cash or stock incentive programs.

For additional information concerning the operation of the Compensation Committee, including the role of outside compensation consultants and management in the process of determining the amount and form of executive compensation, see "Compensation Discussion and Analysis" below.

Compensation Committee Interlocks and Insider Participation

The Company's Compensation Committee was at all times during fiscal year 2016 comprised entirely of independent directors who at no time were executive officers or employees of the Company. No executive officer of the Company has ever served as a member of the Board of Directors or compensation committee of any company whose executive officers include a member of the Board of Directors or the Compensation Committee.

Nominating/Corporate Governance Committee

The Nominating/Corporate Governance Committee held two meetings in fiscal 2016. The principal functions of the Nominating/Corporate Governance Committee are to (i) identify individuals qualified to become directors, consistent with criteria approved by the Board of Directors, and recommend director candidates to the Board of Directors; (ii) develop and recommend corporate governance principles to the Board of Directors; (iii) oversee the adoption of a code of ethics for directors, officers and employees of the Company and assure that procedures are in place for disclosure of any waivers of that code for directors or executive officers; and (iv) facilitate an annual assessment of the performance of the Board of Directors and each of its committees.

The Board of Directors and individual committee self-assessments typically occur each May or June. The annual Board of Directors self-assessment is organized by the chairman of the Nominating/Corporate Governance Committee who generally circulates a list of proposed key discussion topics as well as current and relevant governance issues in advance of the meeting to each member of the Board of Directors for review, consideration and input. Topics are centered on Board of Directors practices and performance and are intended to and do engender analysis and robust discussion. Management members of the Board of Directors attend and participate in the first part of the self-assessment meeting together with the independent directors, after which the independent directors meet alone. At the first regularly scheduled Board of Directors meeting following the self-assessment meetings, the Nominating/Corporate Governance Committee chairman reports to the full Board of Directors on the results of the Board of Directors self-assessment. Based on those results and any recommendations coming out of the self-assessment, the Board of Directors may implement changes, as appropriate, to its corporate governance guidelines or other processes.

Identifying and Evaluating Candidates for the Board of Directors

In considering possible candidates to serve on the Board of Directors, the Nominating/Corporate Governance Committee will take into account all appropriate qualifications, qualities and skills in the context of the current make-up of the Board of Directors and will consider the entirety of each candidate's credentials. In addition, the Nominating/Corporate Governance Committee will evaluate each nominee according to the following criteria:

personal character, accomplishments, integrity, and reputation in the business community; knowledge of the industry in which the Company does business; sound business judgment; leadership ability and capacity for strategic thinking; experience working constructively with others; sufficient time to devote to Board of Directors matters; diversity of viewpoints and backgrounds; and the absence of any conflict of interest that might interfere with performance as a director. While the Nominating/Corporate Governance Committee has no other policy with respect to the consideration of diversity in identifying nominees, it seeks directors who represent a diverse mix of backgrounds and experiences that will enhance the quality of the Board of Directors' deliberations and decisions.

Shareholders may recommend director candidates for consideration by the Nominating/Corporate Governance Committee. To have a candidate considered by the Nominating/Corporate Governance Committee, a shareholder must submit the recommendation in writing and must include the following information:

— The name and address of the shareholder and evidence of the shareholder's ownership of Company stock, including the number and class of shares owned and the length of time of ownership;

A description of all arrangements or understandings between the shareholder and each candidate pursuant to which the nomination is being made;

The name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of the Company and the person's consent to be named as a director if nominated by the Board of Directors; and

Such other information regarding each proposed candidate as would be required to be included in a proxy statement under the rules of the SEC if such candidate had been nominated by the Board of Directors.

Each such recommendation must be sent to the Secretary of the Company at Movado Group, Inc., 650 From Road, Ste. 375, Paramus, New Jersey 07652-3556 and must be received within the time indicated above under "When are shareholder proposals due for consideration at next year's annual meeting?". The Nominating/Corporate Governance Committee will evaluate shareholder recommended director candidates in the same manner as it evaluates director candidates identified by other means.

Corporate Governance Guidelines

The Company has adopted a Code of Business Conduct and Ethics that applies to all directors, officers and employees, including the Company's Chief Executive Officer, Chief Financial Officer and principal accounting and financial officers.

The Company's Corporate Governance Guidelines and its Code of Business Conduct and Ethics are available on the Company's website at www.movadogroup.com by clicking on "Investor Center" and then "Corporate Governance". The Corporate Governance Guidelines and the Code of Business Conduct and Ethics are also available in print, without charge, upon the written request of any shareholder.

Director Independence

The listing standards of the NYSE require that a majority of the Board of Directors be independent. No director qualifies as independent unless the Board of Directors affirmatively determines that the director has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company). The Board of Directors broadly considers all relevant facts and circumstances relative to independence and considers the issue not merely from the standpoint of the director, but also from the viewpoint of persons or organizations with which the director has an affiliation. Material relationships can include commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships (among others). In accordance with the NYSE listing standards, the Board of Directors has adopted categorical standards of director independence that provide that none of the following relationships will be considered a material relationship that would impair a director's independence:

A director who is a director, an executive officer or an employee, or whose immediate family member is a director, an executive officer or an employee, of a company that makes payments to, or receives payments from, the Company for goods or services in an amount which, in any single fiscal year, is less than the greater of \$1,000,000 and 2% of such other company's consolidated gross revenues; or

A director who serves, or whose immediate family member serves, as an executive, officer, director, trustee or employee of a charitable organization and the Company's discretionary charitable contributions to the organization are less than the greater of \$1,000,000 and 2% of that organization's consolidated gross revenues.

The Board of Directors has determined that all of the members of the Board of Directors, with the exception of those three members who are employees of the Company (namely Alex Grinberg, Efraim Grinberg and Richard Coté), representing a majority of the entire Board of Directors, are independent under the NYSE listing standards and satisfy the Company's categorical standards set forth above.

In addition, in accordance with the NYSE listing standards, the Board of Directors has determined that the Compensation Committee and Nominating/Corporate Governance Committee are composed entirely of independent directors. The Board of Directors has also determined that each member of the Audit Committee is independent under the applicable rules of the SEC and under the NYSE listing standards.

Executive Sessions of Non-Management Directors

The non-management directors hold regular executive sessions without management at least once each quarter. The lead director is designated to chair these executive sessions under the Company's Corporate Governance Guidelines.

Board of Directors Role in Risk Oversight

While management is responsible for managing the various risks that may arise in the course of the Company's business, the Board of Directors has a role in the oversight of the risk management process. The Board of Directors and, as appropriate, its committees regularly meet to receive and discuss operating and financial reports presented by the Chairman of the Board of Directors and Chief Executive Officer, the President and Chief Operating Officer, the Chief Financial Officer, the Company's General Counsel, the Senior Vice President of Human Resources, the Senior Vice President of Global Business Processes and Chief Information Officer, the Vice President of Internal Audit and Business Controls and numerous other officers and employees of the Company as well as experts and other advisors. In addition, each year management presents a budget and business plan for the following fiscal year which is reviewed by and discussed with the Board of Directors. Management also regularly discusses with the Board of Directors strategic initiatives and the associated risks. The Board of Directors also reviews specific risk areas on a regular basis. These include insured risks, disaster recovery, management authority and internal controls, litigation risks, risks associated with the Company's information systems and data privacy, foreign currency risks, risks associated with the Company's customer mix, supply chain and credit risks, inventory risks and other operational and financial risks. The Audit Committee has particular oversight responsibility with respect to the preparation and audit of the Company's financial statements and internal audit issues and is specifically charged in its charter to, and does, discuss with management and the independent auditor the Company's policies with respect to risk assessment and risk management. The Audit Committee concerns itself most specifically with the integrity of the financial reporting process, but also with personnel, asset and information security risk. All committee meetings are open to the other directors and many regularly attend because the committee meetings are regularly scheduled on the same day as Board of Directors meetings.

Compensation Risk Assessment

We believe that the performance goals and incentive plan structures generally established under the Company's executive, annual and long-term incentive programs would not contribute to excessive risk by our senior executives or employees. The approved goals under our incentive programs are consistent with our financial operating plans and strategies, and these programs are discussed and reviewed by the Compensation Committee. The Company's compensation systems are balanced, rewarding both short-term and long-term performance, and its performance goals are team oriented rather than individually focused, and are based on measurable factors and objective criteria that are transparent to shareholders. The Compensation Committee is actively engaged in setting compensation systems, monitoring those systems during the year and using discretion in making rewards, as necessary. As a result of the procedures and practices described above, the Committee believes that the Company's compensation policies and practices for its employees do not encourage risk taking that is reasonably likely to have a material adverse effect on the Company.

Communications with the Board of Directors

Shareholders and other interested parties desiring to communicate directly with the full Board of Directors, the Audit Committee of the Board of Directors, the non-management directors as a group or with any individual director or directors may do so by sending such communication in writing addressed to the attention of the intended recipient(s), c/o Secretary and General Counsel, Movado Group, Inc., 650 From Road, Ste. 375, Paramus, NJ 07652-3556. Interested parties may communicate anonymously and/or confidentially if they desire. All communications received that relate to accounting, internal accounting controls or auditing matters will be referred to the chairman of the Audit Committee unless the communication is otherwise addressed. All other communications received will be forwarded to the appropriate director or directors.

Director Attendance at Annual Meeting

The Company encourages all of the directors to attend each annual meeting of shareholders. To the extent reasonably practicable, the Company regularly schedules a meeting of the Board of Directors on the same day as the Annual Meeting of Shareholders. All members of the Board of Directors attended the 2015 Annual Meeting of Shareholders.

COMPENSATION DISCUSSION AND ANALYSIS

Role of the Compensation Committee

The Compensation Committee of the Board of Directors (for purposes of this analysis, the “Committee”) is responsible for reviewing and approving annually corporate goals with respect to the compensation of the Company’s Chief

Executive Officer (“CEO”), evaluating the performance of the CEO against those goals and determining the CEO’s compensation based on that evaluation. In addition, the Committee also reviews and approves the structure and levels of compensation for the

15

Company's other executive officers and senior management; reviews and approves significant compensation programs generally, including performance goals under annual and long-term incentive plans; and reviews and administers the Company's 1996 Stock Incentive Plan, as amended and restated as of April 4, 2013 (the "Stock Plan"). Throughout this proxy statement, the individuals who served as the Company's CEO or Chief Financial Officer ("CFO") during fiscal 2016, as well as the other individuals included in the SUMMARY COMPENSATION TABLE below, are referred to as the "named executive officers".

The Committee considers feedback from our shareholders regarding the Company's executive compensation programs, including the results of our shareholders' advisory vote on executive compensation. At the 2015 annual meeting, our shareholders approved the executive compensation program by over 99% of the votes cast. Also, in accordance with the preference indicated by more than 97% of the votes cast at our 2011 annual meeting regarding the frequency of future advisory votes on executive compensation, the Board of Directors decided that such future advisory votes would be submitted to shareholders every year. Shareholders are invited to express their views to the Board of Directors regarding executive compensation as well as other matters as described in this proxy statement under the heading "Communications with the Board of Directors".

Compensation Objectives

The fundamental purpose served by every compensation recommendation made by the Company and approved by the Committee is to attract, retain, motivate and appropriately reward a group of highly qualified individuals who contribute to the Company's continued success, with the ultimate objective of enhancing shareholder value. The three most significant elements of compensation used by the Company in developing specific compensation packages offered to its executives and management level employees generally are: (1) base salary, (2) annual incentive cash bonuses and (3) long term equity compensation. Of these, the variable elements (annual incentive cash bonuses and equity compensation) vary with performance, are closely linked to the creation of long-term shareholder value and, as such, most closely align executives' interests with those of the Company's shareholders. The Company and the Committee believe that the most effective executive compensation programs are those designed to reward the achievement of specific strategic goals set by the Company and those that are closely linked to the creation of long-term shareholder value; therefore, a significant portion of the total compensation that may be earned by the named executive officers is determined by these variable elements.

Setting Executive Compensation

With the foregoing objectives in mind, the Company determines overall compensation levels for the named executive officers and senior management based on particular facts and circumstances, including, for example, the experience level and performance of the individual executive and market factors.

The Committee periodically engages the services of independent executive compensation and benefits consulting firms, primarily Frederic W. Cook & Co., Inc. ("FW Cook"), to advise on the structure of the Company's compensation programs and to assist it in assessing the competitiveness of the Company's executive and independent director compensation levels. During fiscal 2016, the Chairman of the Committee had multiple conversations with FW Cook regarding elements of executive compensation and the Company's pay practices.

The Committee does not rely solely, or even primarily, on available compensation data from any single group of companies because the Committee believes that the Company competes for top executive talent with many other larger companies in addition to companies that may be considered to be the Company's peer group. Therefore, the Committee considers prevailing compensation trends and practices in other industries and other companies but does not engage in any formal benchmarking with respect to these other industries or companies.

Consistent with the Company's compensation philosophy, a significant percentage of total compensation, particularly in the case of the named executive officers, is allocated to variable incentive compensation. The Committee reviews all information made available to it periodically from outside compensation consultants and annually from the Company's Senior Vice President of Human Resources to determine the appropriate level and mix of incentive

compensation as among cash and non-cash or short-term and long-term incentive compensation. In setting the compensation for the CEO and the other named executive officers for fiscal 2016, the Committee considered the financial performance of the Company in fiscal 2015, the Company's projected financial performance in fiscal 2016, the Company's historical base pay, bonus and equity grant data from the previous three fiscal years and information relating to compensation survey data from the luxury goods industry provided by the Company's Senior Vice President of Human Resources.

The Committee makes all compensation decisions affecting the compensation awarded to the CEO. With respect to the compensation of the other named executive officers and other senior executives, the Committee considers the recommendations of the CEO and the Senior Vice President of Human Resources, including recommendations regarding salary adjustments and annual award amounts. Subject to any applicable plan limitations, the Committee may exercise its discretion in modifying any recommended adjustments or awards to executives. The Committee also reviews total compensation earned by and awarded to the named executive officers for the prior three years.

Fiscal 2016 Executive Compensation Components

For the fiscal year ended January 31, 2016, the principal components of compensation for the named executive officers were:

- ~~base~~ salary;
- ~~performance~~-based annual incentive compensation;
- ~~equity~~ incentive compensation;
- ~~retirement~~ and other post-employment benefits; and
- ~~perquisites~~ and other personal benefits.

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salaries for named executive officers are determined by the Committee for each individual in light of the Committee's assessment of the responsibilities relative to the position under consideration, as well as each individual's background, training and experience, and by reference to the competitive marketplace for comparable talent. Annual increases in base salary levels, if warranted, are reviewed with reference to the individual's performance, the performance of the Company as a whole and the prevailing rate of increase in base salary levels generally in the competitive marketplace with respect to similar executive positions. During its review of base salaries for executives, the Committee primarily considers:

- ~~market~~ data with respect to average merit and cost of living increases for similar positions;
- ~~internal~~ review of the executive's compensation, both individually and relative to other executive officers; and
- ~~individual~~ performance of the executive.

For fiscal 2016, the Committee determined to keep the annual base salaries of each of the executive officers unchanged as compared to fiscal 2015.

Performance-Based Annual Incentive Compensation

The Company has two plans under which it provides its named executive officers, other executives and key management level employees annual performance-based incentive compensation opportunities: the Movado Group, Inc. Executive Performance Plan (the "EPP"), in which only the CEO and the three most highly compensated executive officers as of the last day of the Company's taxable year, excluding the principal financial officer ("Covered Employees"), participate, and the Annual Incentive Compensation Plan, in which all bonus-eligible employees participate. Both plans are designed to tie a significant portion of participants' annual cash compensation to the Company's annual financial performance.

Under the EPP and consistent with Section 162(m) of the Internal Revenue Code, as amended (the "Code"), within 90 days after the beginning of each fiscal year the Committee establishes target and maximum incentive levels for the Covered Employees that are expressed as a percentage of their respective base salaries. At the same time, the Committee establishes a corporate performance objective that must be met before any annual incentive payments can be made under the EPP to any of the Covered Employees. As was the case in the four prior fiscal years, for fiscal 2016 the Committee selected adjusted operating profit as the performance objective for the EPP.

For fiscal 2016, the Committee set the target annual incentive payments (based on 100% bonus pool funding of the Annual Incentive Compensation Plan discussed below) for the CEO at 100% of his base salary; for Mr. Coté at 75%

of his base salary; for Mr. Quintero at 75% of his base salary; for Mr. Morelli at 50% of his base salary; and for Ms. DeMarsilis at 50% of her base salary. The Committee determines the target bonus under the EPP for each named executive officer by exercising its subjective judgment of what an appropriate percentage is, informed by a consideration of the target bonus that was in effect for such officer for each of the three previous years and such person's total compensation compared to target bonus levels and total compensation payable to other executive officers in other positions within the Company and, more generally, relative to similar executive positions in the broad competitive marketplace. In addition, the Committee established the maximum annual incentive

payments under the EPP to any of the named executive officers at 200% of their target annual incentive amounts. The EPP provides that total cash incentives payable thereunder to all the named executive officers (or any single named executive officer) in any year may not exceed \$5 million. Please see the GRANTS OF PLAN-BASED AWARDS TABLE for the target and maximum annual incentive awards payable to each of the named executive officers in respect of fiscal 2016.

No payments are made to any of the Covered Employees under the EPP unless the threshold corporate performance objective for the year is achieved. For fiscal 2016, the threshold performance goal under the EPP was established as operating profit of \$40 million, adjusted for restructuring charges and other unusual items.

If the Company achieves the corporate performance goal under the EPP, the Committee then assesses the Company's overall financial performance and each Covered Employee's individual performance in exercising its discretion to determine the annual bonus actually paid to any of them under the Annual Incentive Compensation Plan, which may not, in any event, exceed the maximum set at the beginning of the year. Just as with the corporate performance objective established by the Committee under the EPP, the financial performance targets approved by the Committee under the Annual Incentive Compensation Plan are determined within 90 days after the beginning of the award period taking into account the Company's operating budget for the year.

In fiscal 2016, the Annual Incentive Compensation Plan provided for 100% (target) bonus pool funding if the Company were to achieve its financial performance targets under the plan. The Committee's practice is to pay seventy-five percent of each named executive officer's Annual Incentive Compensation Plan payout in cash and twenty-five percent in a Common Stock award that cliff-vests on the third anniversary of the grant date subject to continued employment through such third anniversary. See discussion under "Equity Incentive Compensation" below.

The Committee considers the extent to which the financial criteria under the Annual Incentive Compensation Plan have been met in determining the annual incentive amount to pay to each named executive officer; provided that no payment may be made to any Covered Employee unless the threshold corporate performance objective for the year is achieved under the EPP. The financial performance measures serve the purpose of providing the Committee with objective criteria by which to assess the Company's performance notwithstanding that they are not assigned a relative weight to one another. Those criteria consist of key indicators against which to measure how well or how poorly the Company performed overall for the year.

It is not necessary that every single corporate performance measure be met for bonuses to be paid. However, as discussed above, the corporate performance objective established by the Committee under the EPP must be met as a precondition to making any payments to Covered Employees. Subject to the foregoing, the Committee may determine in its discretion to pay bonuses to the named executive officers regardless of whether any of the Annual Incentive Compensation Plan targets are met. Similarly, even if all the corporate performance targets are met, the Committee retains the discretion to modify or eliminate the annual incentive payable to each named executive officer, although the Committee may not authorize a payment to any Covered Employee in excess of his or her maximum annual incentive established under the EPP.

In fiscal 2016, the Committee approved the following corporate performance objectives under the Annual Incentive Compensation Plan that would correspond to a payout at the 100% (target) funding level. The table below shows each measure at the target level and the corresponding result actually achieved.

Measure	Target	Actual (Adjusted)*
Net Sales	\$608 million	\$594.9 million
Gross Profit	\$326.6 million	\$317.6 million
Gross Margin %	53.7%	53.4%
Operating Profit	\$78 million	\$74.1 million
Cash Flow from Operations	\$62 million	\$74.6 million

Edgar Filing: MOVADO GROUP INC - Form DEF 14A

Net Income	\$53 million	\$49.0 million
EPS	\$2.19	\$2.06

*Consistent with the Annual Incentive Compensation Plan, each of the measures other than Net Sales was adjusted to exclude the impact of a \$4.0 million charge for severance, occupancy expenses and the write-off of certain fixed assets. Such charge impacted Gross Profit by \$0.6 million, Gross Margin % by 12 basis points, Operating Profit by \$4.0 million, Net Income by \$3.9 million and EPS by \$0.16.

In addition to the above financial performance targets, the Committee also considers individual performance in determining the amount of each named executive officer's bonus payment under the Annual Incentive Compensation Plan. There is no specific relative weight given by the Committee either to the financial performance of the Company as compared to the

individual performance of any executive officer or to any one financial performance measure as compared to any other. The Committee retains the absolute discretion to determine the amount of each named executive officer's annual incentive payment regardless of the extent to which any of the performance criteria (individual or corporate) are met, subject, in the case of any bonus payment to a Covered Employee, to the achievement of the threshold corporate performance objective for the year under the EPP. However, in exercising its discretion the Committee does, in practice, take into account these criteria, including individual performance. In considering individual performance, the Committee is briefed by, and relies on a general summary assessment and recommendation provided by, the Company's CEO and/or Senior Vice President of Human Resources relative to the performance of each of the named executive officers (other than the CEO). That summary assessment and recommendation is based on and generally reflects the individual assessment provided to the Human Resources department by each named executive officer's immediate supervisor which itself would typically address the individual performance goals of such named executive officer as well as his or her overall performance. Therefore, when the Committee considers individual named executive officer performance in this way, including consideration of whether individual goals have been met, the Committee does so indirectly as it is not apprised of any named executive officer's specific personal goals nor does it (with the exception of the CEO) independently consider, or assess individual named executive officer performance relative to, those goals.

When it considers the individual performance of the CEO in exercising its discretion to approve any annual incentive payment to be made to him, the Committee refers to the CEO's individual performance goals but does not base its assessment of his performance solely or even primarily on those goals since it may, consistent with the plan, approve award payments regardless of whether other performance criteria (besides the threshold corporate performance goal established under the EPP) have been met. In fiscal 2016, the CEO's individual objectives included net sales of \$608 million, operating profit of \$78 million and cash flow from operations of \$62 million. Other goals set for the CEO for fiscal 2016 included non-quantitative objectives that were not specifically considered by the Committee as part of its determination of his cash incentive payment under the Annual Incentive Compensation Plan. However, the Committee does evaluate the CEO's individual performance against those other objectives for the year subsequent to and separate from the deliberative process conducted under the Annual Incentive Compensation Plan.

In determining the annual incentive compensation payments for the named executive officers for fiscal 2016, the Committee considered the factors described above. The Committee noted that the Company had achieved the threshold corporate performance objective under the EPP but did not achieve the targeted levels of financial performance established under the Annual Incentive Compensation Plan, other than the objective for Cash Flow from Operations. However, the Committee also took into account the growth in sales and operating profit generated by the Company in the context of a challenging retail environment and unfavorable impacts of foreign currency exchange rate changes. In light of these factors, the Committee exercised its discretion to award each of the named executive officers a 2016 bonus equal to 80% of his or her respective target bonus opportunity, except that Mr. Quintero was awarded 90% of his target opportunity in recognition of his significant contributions and leadership during the year. Each of the named executive officers received 75% of his or her bonus payment in cash, with the remaining 25% paid in restricted Common Stock units that cliff-vest on the third anniversary of the grant date, subject to continued employment through such date. These restricted Common Stock units were valued based on the closing price of the Common Stock on the grant date (April 15, 2016). See discussion under "Equity Incentive Compensation" below.

Equity Incentive Compensation

Stock ownership is a key element of the Company's compensation program for the named executive officers, senior management generally, as well as mid-level managers throughout the Company. Under the Stock Plan, the Committee may grant participants shares of the Company's Common Stock, restricted stock, share units, stock options, stock appreciation rights, performance units and/or performance bonuses. In granting these awards, the Committee may establish any conditions or restrictions it deems appropriate.

All grants made by the Committee under the Stock Plan since its inception have been in the form of stock options, time-vesting restricted stock unit awards (pursuant to which unrestricted shares of Common Stock are issued to the grantee when the award vests) or performance-based awards (under which vesting occurs only if one or more predetermined financial goals are achieved within the relevant performance period). The Committee believes that all of these equity awards are useful retention tools to the extent that vesting only occurs after a period of several years and are also an effective means of encouraging award recipients to focus on enhancing shareholder value over the long term by directly aligning the recipient's financial interests with the interests of the Company's shareholders. The Committee normally makes annual grants under the Stock Plan within 30 days after the release of the Company's fourth quarter and year-end earnings results.

All stock options granted under the Stock Plan have an exercise price equal to or greater than the fair market value of the Company's Common Stock on the grant date and have typically either vested incrementally over a period of three or five years or cliff-vested after three years. The Committee views stock options as an effective means to closely tie individual

performance directly to the Company's stock price performance because stock options will have no value unless the Company's share price increases from the date of grant. Accordingly, the Committee has been using stock options as a standard long-term, non-cash incentive for the named executive officers and other senior executives since fiscal 2013.

Since the beginning of fiscal 2011, the Committee has been including an equity component as part of the Annual Incentive Compensation Plan. Specifically, 25% of each participant's bonus opportunity under the Annual Incentive Compensation Plan is payable in restricted Common Stock units. On the same date that a participant receives his or her cash incentive payment (if any) in respect of the prior fiscal year, he or she also receives a number of restricted Common Stock units equal in value on the grant date to approximately 25% of the total bonus amount approved by the Committee for such participant. These restricted stock units cliff-vest on the third anniversary of the grant date, subject to the participant's continued employment with the Company through such vesting date.

In April 2015, the Committee granted fiscal 2016 equity awards to the named executive officers and other key employees taking into account the considerations described above. Such equity awards made to the named executive officers are reported in the SUMMARY COMPENSATION TABLE for fiscal 2016 and in the GRANTS OF PLAN-BASED AWARDS table below. In light of the Company's financial performance in the prior fiscal year (i.e., fiscal 2015), Mr. E. Grinberg did not receive an equity award in fiscal 2016.

Considering this history of using various types of equity grants under the Stock Plan, the Committee currently believes that the most effective use of equity as a component of compensation for the named executive officers and other senior level executives is a mix of three-year time-vesting restricted stock unit awards and stock options which cliff-vest three years from the grant date. In this way, a significant portion of their compensation is directly dependent on an increase in the share price, thereby more closely aligning their long term objectives with enhancing shareholder value over time. The Committee also considers the possible benefits of performance-based vesting criteria in its equity grant practices and retains the discretion to include such criteria where it deems appropriate.

Retirement and Other Post Employment Benefits

401(k) Plan

All employees in the United States, including the named executive officers, are eligible to participate in the Company's Employee Savings and Investment Plan ("401(k) Plan"), a tax-qualified defined contribution retirement savings plan.

Deferred Compensation Plan

The named executive officers and certain other executives selected by the Committee are eligible to participate in the Company's Amended and Restated Deferred Compensation Plan for Executives ("DCP"), which was most recently amended and restated at the annual shareholders meeting in 2013 to extend its term through June 13, 2023. The DCP is designed to offer retirement benefits to the named executive officers, senior management and key employees, consistent with overall market practices, to attract and retain the talent needed in the Company. Under the DCP, participants may defer amounts from their base salary and cash bonus (if any) annually, and the Company will credit to the account of each participant a matching contribution in an amount equal to one hundred percent of the compensation deferral, up to a maximum match equal to either 10% (for "Group I" participants) or 5% (for "Group II" participants) of the participant's base salary. Of the named executive officers, Mr. Grinberg, Mr. Coté and Mr. Quintero are Group I participants. Mr. Morelli and Ms. DeMarsilis are Group II participants. Twenty percent of the Company's matching contribution is in the form of rights to Common Stock vesting ratably in annual installments over five years. The DCP also permits the Company to make discretionary contributions to any participant's DCP account.

Participants may direct the investment of amounts in their DCP accounts (other than rights to Common Stock) among third-party investment funds that are made available to them under the plan. Those funds largely track the funds offered under the 401(k) Plan. Further information regarding the participation by the named executive officers in the DCP is discussed in further detail under the heading "NONQUALIFIED DEFERRED COMPENSATION" below.

Severance and Change of Control Agreements

The Company has severance agreements with Mr. Morelli and Mr. Quintero which provide for certain benefits to the executives in exchange for certain post-employment restrictions. The agreements prohibit them from (i) working in the watch or jewelry business for six months after the termination of their employment for any reason (with such six month period being extended to 12 months to the extent the Company is paying them severance during that time) and (ii) soliciting Company employees and clients for 12 months after the termination of their employment. In addition, the Company has agreed to change-in-control arrangements with each of Mr. Coté and Mr. Morelli. Under these change-in-control arrangements, each of

20

Mr. Coté and Mr. Morelli will continue to be paid his then current base salary (for 24 months in the case of Mr. Coté and for 18 months in the case of Mr. Morelli) after the termination of his employment following a change in control unless termination was by the Company for cause (or as a result of his death or disability) or was voluntary by the employee without good reason.

For a detailed description of the agreements between the Company and each of Messrs. Coté, Morelli and Quintero, please refer to the discussion under POTENTIAL PAYMENTS ON TERMINATION OR CHANGE IN CONTROL below.

Mr. Coté's Retirement Arrangements

Mr. Coté has informed the Company that he will be retiring as Chief Operating Officer of the Company effective July 1, 2016. Following his retirement, Mr. Coté will continue to serve as a member of the Board of Directors. On March 29, 2016, the Board of Directors approved compensation arrangements for Mr. Coté in connection with his retirement. Specifically, Mr. Coté will receive bi-weekly payments equivalent, on an annualized basis, to his annual salary, payable for the period from Mr. Coté's retirement date through January 31, 2017. Mr. Coté will also qualify for continued coverage under the Movado Group health and medical plan until he turns 65 years old (in 2020) so long as he remains a member of the Board of Directors. Mr. Coté's annual equity grant made on April 15, 2016 and the portion of his fiscal year 2016 bonus paid in equity on April 15, 2016 were immediately vested; provided that each such award will be issued or become exercisable, as the case may be, over the respective time period applicable to such award but is not conditioned on Mr. Coté's continued employment. In addition, the Board of Directors approved the immediate vesting of the unvested portion of Mr. Coté's outstanding equity awards for prior fiscal years, with such awards becoming immediately issuable or exercisable, as the case may be. An immediately-vested employer contribution of \$44,135 was deposited into Mr. Coté's deferred compensation account under the DCP, and the Board of Directors approved the immediate vesting of the unvested balance in such account. Mr. Coté will not be entitled to compensation under the Company's compensation program for non-employee directors until the beginning of fiscal year 2018. In connection with these compensation arrangements, Mr. Coté agreed to certain restrictions on his ability to compete with the Company for a period beginning on his retirement date and ending on the later of the one-year anniversary thereof or the date on which he ceases to serve on the Board of Directors.

Perquisites and Other Personal Benefits

As part of providing a competitive executive compensation program, the Company provides to the CEO and the other named executive officers certain perquisites, described below, that the Company and the Committee believe are reasonable and consistent with its overall compensation program. The Committee reviews annually the levels of perquisites provided to the named executive officers.

The Company pays the CFO a taxable housing allowance for the rental of an apartment located near the Company's New Jersey headquarters.

The Company provides each of its named executive officers with a taxable car allowance, and in some cases, automobile insurance reimbursement.

The Company has purchased life insurance policies insuring the CEO and pays the premiums for that insurance. Under the Company's arrangement with the CEO, the named insured is entitled to the cash surrender value in respect of these life insurance policies and the respective beneficiaries are entitled to the applicable death benefits without, in either event, reimbursement to the Company.

Attributed costs of the perquisites described above for the named executive officers for the fiscal year ended January 31, 2016 are included in column (i) of the SUMMARY COMPENSATION TABLE below.

Tax and Accounting Implications

Deductibility of Executive Compensation

The Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code, which provides that the Company may not deduct compensation of more than \$1,000,000 that is paid to any one of the chief executive officer and the three other highest paid executive officers (other than our chief financial officer) unless the compensation meets certain requirements relating to performance-based compensation. Certain of the Company's compensation plans (including our Stock Plan and EPP) have been approved by our shareholders and are designed to enable the Committee to award annual bonuses and grants of stock options and other equity-based awards which could qualify for exemption from the application of Section 162(m). The Committee reviews compensation plans in light of applicable tax

provisions, including Section 162(m), and may revise compensation plans from time to time to maximize deductibility. However, the Committee may approve compensation that does not qualify for deductibility when we deem it to be in our best interests.

Accounting for Stock-Based Compensation

Beginning on February 1, 2006, the Company began accounting for stock-based payments in accordance with the requirements of FASB ASC Topic 718 (previously FASB Statement 123(R)). The Committee considers the expense implications of the equity compensation awards in determining the aggregate annual award levels.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and the Company's Annual Report on Form 10-K for the year ended January 31, 2016.

SUMMARY COMPENSATION TABLE FOR FISCAL 2016

The following Summary Compensation Table sets forth information about the compensation paid in respect of fiscal 2016 by the Company to the CEO, the CFO and the three most highly compensated executive officers of the Company other than the CEO and the CFO who were serving as executive officers at January 31, 2016. The foregoing individuals are referred to in this proxy statement as the “named executive officers”.

Salary amounts include amounts deferred at the election of the executive under the Company’s DCP and under the 401(k) plan. Amounts deferred under the DCP are also shown in the NONQUALIFIED DEFERRED COMPENSATION TABLE. Salary amounts for fiscal 2014 also reflect 27 bi-weekly pay periods which occurred in that year due to a calendar shift (compared to the usual 26 periods).

(2) Amounts shown under the “Stock Awards” column and the “Option Awards” column do not reflect compensation actually received by the named executive officers. Instead the dollar value of these awards represents the fair value

of the awards on the date of grant calculated in accordance with FASB ASC Topic 718. Assumptions used in calculating these amounts are described in Note 11 to the Company's audited financial statements for the fiscal year ended January 31, 2016, included in our Annual Report on Form 10-K filed with the SEC on March 31, 2016. The stock and option awards granted in fiscal 2014, 2015 and 2016 cliff-vest on the third anniversary of the grant date and are not subject to any performance conditions other than the continued employment of the grantee, except that the stock and option awards granted to Mr. Quintero in fiscal 2015 vest in equal installments on each of the first, second and third anniversaries of the grant date.

Represents the cash component of the annual incentive payments under the EPP and the Annual Incentive Compensation Plan. The equity component of such annual incentive payments is reflected in the "Stock Awards" (3) column for the fiscal year in which the equity grant is made (i.e., the fiscal year immediately following the fiscal year in respect of which the bonus is paid). See "Fiscal 2016 Executive Compensation Components – Equity Incentive Compensation" above.

Includes a taxable car allowance and automobile insurance reimbursement of \$24,900. Includes \$33,348 for premiums paid in respect of certain life insurance policies purchased for Mr. Grinberg by the Company. Under his (4) arrangement with the Company, Mr. Grinberg is entitled to the cash surrender value in respect of certain of these life insurance policies and his beneficiaries are entitled to the applicable benefit without, in either event, reimbursement to the Company of any premiums

paid by the Company under such policies. Includes a \$3,400 matching contribution made by the Company for the account of Mr. Grinberg under the Company's 401(k) Plan. Includes a matching cash contribution of \$83,077 and a matching non-cash contribution of 777 phantom stock units valued at \$20,769 (based on the closing prices of the Company's Common Stock on the grant dates) to his account under the DCP. These contributions under the DCP are also shown in the NONQUALIFIED DEFERRED COMPENSATION TABLE below.

Mr. Morelli took delivery of the underlying shares represented by the options he exercised, net of shares withheld (1) to pay for taxes. The amount shown for him in the table above represents the difference between the market price of the Common Stock on the date of his option exercise and the exercise price of the options.

(2) Value represents the mathematical product resulting from multiplying the number of shares vesting by the market price of the shares on the vesting date.

NONQUALIFIED DEFERRED COMPENSATION

Under the Company's DCP, participants may defer amounts from their base salary and cash bonus, if any, annually and the Company will credit to the account of each participant a matching contribution in an amount equal to the deferral, up to a maximum match of either 10% or 5% of the participant's base salary (depending on whether the participant is included in Group I or Group II, as defined in the DCP). Of the named executive officers, Mr. Grinberg, Mr. Coté and Mr. Quintero are in Group I and Ms. DeMarsilis and Mr. Morelli are in Group II. Deferral elections must be made no later than December 31 of the year before the year in which the salary or bonus will be deferred. Twenty percent of the Company's matching contribution is made in the form of rights to the Company's Common Stock, representing the number of shares (including fractional shares) of Common Stock that the matching contribution could purchase based upon the New York Stock Exchange's closing price of the stock on the date when the matching contribution is made. Matching contributions are made on the last business day of each calendar quarter. The Company also has the right to make discretionary contributions to any participant's account in such amount and in such manner as it shall determine.

The following table shows the deferrals made by the named executive officers and the contributions made by the Company under the DCP in fiscal 2016.

(1) The amounts reported in column (b) are also reported as compensation to the named executive officer in columns (c) and/or (g) of the SUMMARY COMPENSATION TABLE above. The amounts reported in column (c) are also reported as compensation to the named executive officer in column (i) of the SUMMARY COMPENSATION TABLE above.

- (2) These amounts are not required to be reported as compensation in the Summary Compensation Table for fiscal 2016 because there were no above-market earnings on the deferred compensation.

The amounts reported in column (f), other than earnings on deferred compensation, have all been previously disclosed in Summary Compensation Tables in our prior proxy statements, except for Mr. Morelli. Mr. Morelli was not a named executive officer prior to fiscal 2010. Therefore, except for the executive contributions and (3) contributions by the Company that are reported in the Summary Compensation Table or that were reported in prior Summary Compensation Tables for fiscal 2010 through fiscal 2015, the remainder of the aggregate balance for Mr. Morelli relates to prior year contributions and earnings not previously disclosed in Summary Compensation Tables in our prior proxy statements.

A participant's compensation deferrals and any earnings on those deferrals are immediately vested. Company matching contributions and any discretionary contributions vest at the rate of 20% per year so long as the participant remains employed by the Company. A participant who attains the age of 65 or whose employment terminates due to death or disability automatically vests in all amounts in such participant's account. A participant may also vest in all amounts credited to his or her account upon their "separation from service" as defined under Code Section 409A and the Treasury Regulations promulgated thereunder after attaining the age of fifty-five (55), provided the participant has been employed by the Company or one of the Company's affiliates for at least 10 years and further subject to the approval of the Compensation Committee of the Company's Board of Directors including any limitations or conditions such committee may, in its discretion, impose which are not inconsistent with the terms of the DCP (including, without limitation, a covenant not to compete with the Company or any Company affiliate). Pursuant to these provisions, in March 2016 the Board of Directors approved the immediate vesting of the unvested portion of Mr. Coté's DCP account balance in connection with his decision to retire effective July 1, 2016. A participant whose employment terminates for any other reason forfeits unvested amounts. If there is a "change in control" (as defined in the DCP) of the Company, all amounts attributable to matching contributions and discretionary Company contributions become fully vested on the date of such change in control.

Participants may direct the investment of amounts in their accounts (other than rights to Common Stock) among third-party investment funds that largely track the funds offered under the 401(k) Plan.

Participants in the DCP elect as part of their initial deferral election whether to receive distributions after termination of their employment in a lump sum or in 10 equal annual installments. Payments are made in Common Stock to the extent a participant's vested account balance is denominated in Common Stock, except for any fractional shares which are paid in cash. All other payments are made in cash. Payments generally are made or begin only upon the expiration of six months following the participant's separation of service from the Company except to the extent that the payments are payable during the short-term deferral period set forth in Treasury Regulation Section 1.409A-1(b)(4). In the event that an exception to the six month delay provision applies, payments are made or begin within 90 days after a participant's employment terminates.

POTENTIAL PAYMENTS ON TERMINATION OR CHANGE IN CONTROL

None of the named executive officers have employment agreements. The Company has entered into severance and/or change in control agreements with Messrs. Coté, Morelli and Quintero, which are described below. In addition, the DCP and the Stock Plan provide for accelerated vesting of Company matching contributions and of equity compensation (stock options and stock awards), respectively, in the event of a change in control. The Stock Plan also provides for accelerated vesting of equity awards in the event of a participant's death, disability or retirement.

Severance Agreements

Mr. Coté and Mr. Morelli each has an agreement providing for the continuation of his then applicable annual base salary, paid bi-weekly (to Mr. Coté for 24 months and to Mr. Morelli for 18 months) following the termination of his employment within two years after a change in control (defined as the acquisition by a person or group of more than 50% of the combined aggregate voting power represented by the Company's then outstanding shares; or certain mergers and asset sales; or a liquidation or dissolution), except that nothing is due if his termination is because of his death or disability, or is by the Company for cause or if by Mr. Coté or Mr. Morelli, respectively, other than because of an "adverse change" in the conditions of his employment. Their agreements define such an adverse change as any of the following by the Company:

altering his duties or responsibilities so that his position becomes one of substantially less importance, dignity or scope;
~~reducing his base salary;~~

discontinuing his participation in any compensation or benefit plan in which (and on at least as favorable a basis as) ~~he~~ was participating before the change in control or barring him from participating in any other plan that may be adopted in which other key employees are entitled to participate; or requiring that he be based more than 50 miles from the principal office location where he worked before the change in control.

“Cause” is defined as gross negligence or willful misconduct that has resulted in or is likely to result in material economic damage to the Company. The agreements also obligate each of Mr. Coté and Mr. Morelli to keep confidential and to not use any confidential information pertaining to the Company obtained by him in the course of his employment.

If there had been a change in control of the Company on January 31, 2016, and Mr. Coté’s employment had been terminated immediately thereafter by the Company without cause, then he would have been entitled to the continuation of his then current annual base salary of \$750,000, paid in bi-weekly installments through January 31, 2018. If there had been a change in control of the Company on January 31, 2016, and Mr. Morelli’s employment had been terminated immediately thereafter by the Company without cause, then he would have been entitled to the continuation of his then current annual base salary of \$475,000 through June 30, 2017.

Mr. Morelli has a severance agreement with the Company providing that, although he is employed at will, he will be entitled to receive severance payments in the form of salary continuation upon termination of his employment by the Company without cause. For this purpose, “cause” is defined as conviction of a felony, the knowing violation of a material Company policy, the failure to perform any material obligation owed to the Company or the gross negligence in the performance of duties or breach of fiduciary duty as determined by the CEO. The severance payments will be paid for 12 months after termination, in bi-weekly installments. The agreement also contains a non-competition clause which proscribes employment in the watch or jewelry industry for six months after termination of employment with the Company, a twelve month non-solicitation clause and a confidentiality provision. If the Company had terminated the employment of Mr. Morelli without cause on January 31, 2016, then he would have been entitled to receive \$475,000 in severance paid in bi-weekly installments through January 31, 2017.

Mr. Quintero’s agreement with the Company provides that his employment is at will but that he will be entitled to receive severance payments for one year in the form of salary continuation upon termination of his employment by the Company without cause, which is not defined. The agreement also contains a non-competition clause which proscribes employment in the watch or jewelry industry for six months after termination of employment, or, if longer, for the duration of any period during which he is paid severance. The Agreement also contains a prohibition against the solicitation of Company employees and clients for a period of 12 months after the termination of his employment. If the Company had terminated the employment of Mr. Quintero without cause on January 31, 2016, then he would have been entitled to receive \$750,000 in severance paid in bi-weekly installments through January 31, 2017.

Change in Control

In the event of a change in control of the Company, all unvested matching contributions under the DCP and all unvested options and time-vesting stock awards then outstanding under the Stock Plan immediately vest. Both plans have identical definitions for what is considered a “change in control,” including:

irrevocable termination and liquidation of the plan within 12 ~~m~~months of the dissolution of the Company taxed under Section 331 of the Code or with the approval of a bankruptcy court; ~~s~~ale of substantially all of the Company’s business or assets; ~~a~~change in the composition of the Board of Directors such that the individuals comprising the Board of Directors on the

effective date of the Stock Plan (or DCP, as applicable) (or their successors who were approved by at least two-thirds of the directors then on the Board) cease for any 12 month period to constitute a majority of the Board, exclusive, in any event, of any individual initially elected or nominated as a director as a result of an actual or threatened election contest or actual or threatened proxy solicitation by any person other than the Board;

a merger, consolidation, reorganization or similar corporate transaction unless shareholders in the Company immediately before any such transaction control at least 50% of the total voting power in the resulting corporation immediately after any such transaction; and no person (meaning an individual, entity or group acting in concert) acquires at least 20% of the voting power in the resulting corporation; and a majority of the members of the Board of Directors after the transaction were Board members immediately before the transaction; and the acquisition by any person (with certain exceptions) of 30% or more of the combined voting power of the Company's outstanding voting securities.

The following table shows the value of accelerated vesting of stock options and stock awards under the Stock Plan and of Company contributions under the DCP that would have been provided to the named executive officers in the event that a change in control of the Company had occurred immediately after the close of business on January 31, 2016.

Vesting Upon Change in Control
With or Without Termination of Employment

Name	Early Vesting of	Early Vesting of	Early Vesting of
	Deferred Compensation Plan (\$)	Stock Options (\$ (1))	of Stock Awards (\$ (2))
Efraim Grinberg	354,334	-	1,064,957
Sallie DeMarsilis	49,077	-	361,985
Richard Coté	190,247	-	787,654
Ricardo Quintero	81,004	-	660,953
Frank Morelli	-	-	347,695

The value of early vesting of stock options was determined based on the extent (if any) by which \$25.70/share, (1) which was the closing price of the Company's Common Stock as reported on the NYSE on January 29, 2016 (the last trading day of the fiscal year), exceeded the exercise price of the subject options.

The value of early vesting of stock awards was determined based on a value of \$25.70/share, which was the (2) closing price of the Company's Common Stock as reported on the NYSE on January 29, 2016 (the last trading day of the month).

Death or Disability; Retirement

If any of the named executive officers had died, become permanently disabled or retired on January 31, 2016, their unvested stock options and stock awards granted under the Stock Plan would have immediately vested on that date. Retirement triggers immediate vesting (i) under the Stock Plan provided that the retiring employee is at least the age of 65 and (ii) under both the Stock Plan and the DCP if the retiring employee is at least the age of 55 and has been employed continuously by the Company for at least 10 years and the Compensation Committee approves the immediate vesting. As part of its approval, the Compensation Committee may impose any conditions as it deems to be appropriate which are not inconsistent with the express terms of the subject plan, including covenants dealing with non-competition, non-disparagement, non-solicitation and confidentiality. The values of such early vesting under both plans as of January 31, 2016 are shown in the table above.

DIRECTOR COMPENSATION

No executive officer of the Company receives any additional compensation for serving on the Board of Directors. The annual compensation paid to the independent directors for fiscal 2016 consisted of a \$60,000 cash component and an equity component valued at approximately \$95,000 in the form of a stock award, cliff-vesting in one year. The value of the equity component of independent director compensation was increased in the beginning of fiscal 2016 from \$90,000 to \$95,000 with the intent to maintain total compensation for the Company's independent directors near the median percentile of a representative peer group. In addition to the annual base compensation, the annual fees paid to the committee chairpersons were as follows: Audit: \$15,000; Compensation and Nominating/Corporate Governance: \$10,000; and the annual fee paid to the lead director was \$20,000. The cash compensation is paid quarterly and the equity grant is made once each year in April.

Each director is granted an annual allowance for the purchase of Company watches up to an aggregate suggested retail value of \$5,000. In addition, recognizing that ownership of the Company's common stock more closely aligns independent director interests with the long-term interests of shareholders and is consistent with best governance practices, the Compensation Committee recommended and the Board of Directors adopted stock ownership guidelines for the independent directors to the effect that each independent director is expected to beneficially own shares of the Company's Common Stock with a market value of at least \$200,000.

The following table shows the cash amounts and the value of other compensation paid to each non-employee director in respect of fiscal 2016:

(a) Name	(b) Fees Earned or Paid in Cash (\$)	(c) Stock Awards (1) (\$)	(d) Option Awards (\$)	(e) All Other Compensation (\$)	(f) Total (\$)
Margaret Hayes Adame	60,000	95,027	-	1,250	156,277
Peter Bridgman	60,000	95,027	-	1,250	156,277
Alan H. Howard	90,000	95,027	-	1,206	186,233
Richard Isserman	75,000	95,027	-	1,250	171,277
Nathan Leventhal	70,000	95,027	-	-	165,027
Maurice Reznik	60,000	95,027	-	1,250	156,277

Amounts shown do not reflect compensation actually received by the director. Instead the dollar value of these awards represents the fair value of the stock award on the date of grant calculated in accordance with FASB ASC Topic 718. Assumptions used in calculating these amounts are described in Note 11 to the Company's audited (1) financial statements for the fiscal year ended January 31, 2016, included in our Annual Report on Form 10-K filed with the SEC on March 31, 2016. Each non-employee director was granted one stock award in fiscal 2016 for 3,130 shares of the Company's Common Stock. At January 31, 2016 each non-employee director held no other stock awards except this one, unvested stock award.

Each independent director is provided an annual allowance for the purchase of Company watches up to an (2) aggregate suggested retail value of \$5,000. The amounts listed above reflect the actual allowance utilized by each independent director, at Company cost.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Mr. Alex Grinberg, a beneficial owner of more than five percent of the Company's Class A Common Stock and the brother of Efraim Grinberg, is the Company's Senior Vice President Customer/Consumer Centric Initiatives in the United States and earned \$310,000 in salary in fiscal 2016. In addition, as a participant in the Company's Annual Incentive Compensation Plan and the Stock Plan, Mr. Alex Grinberg received a cash bonus of \$93,000 in respect of fiscal 2016 and an award of 1,275 time-vesting shares last year, subject to the same terms and conditions applicable to similar awards made to the other participants in the Stock Plan. Mr. Alex Grinberg is also a member of the Board of Directors.

The Board of Directors has adopted a code of business conduct and ethics which provides for the review, approval and ratification of transactions with the Company (or any of its subsidiaries) in which any officer or employee of the Company or any of its subsidiaries or any director has any direct or indirect material interest. Such transactions involving any executive officer of the Company or any member of the Board of Directors are referred to the Nominating/Corporate Governance Committee. Other transactions are referred to the Company's General Counsel. In each case, the standard applied under the Company's code is whether the transaction, when considered in the context of

all the relevant facts and circumstances, including the person's position with the Company, the nature of the transaction and the amount involved, could reasonably appear to present a conflict of interest.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee has reviewed and discussed with the Company's management and with PricewaterhouseCoopers LLP ("PwC"), the evaluation by PwC of the Company's internal control over financial reporting and the audited financial statements of the Company for the fiscal year ended January 31, 2016. The Audit Committee has discussed with PwC the matters required to be discussed under the standards of the Public Company Accounting Oversight Board (United States).

The Audit Committee has also received the written disclosures and the letter from PwC required by the applicable requirements of the Public Company Accounting Oversight Board and the Audit Committee has discussed the independence of PwC with that firm.

Based on the Audit Committee's review and discussions noted above, the Committee recommended to the Board of Directors that the Company's audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2016 for filing with the SEC.

The Committee and the Board of Directors also have recommended, subject to shareholder approval, the selection of PwC as the Company's independent auditors for fiscal 2017.

Members of the Audit Committee:

Richard Isserman (chairman)

Peter A. Bridgman

Alan H. Howard

Maurice Reznik

The Report of the Audit Committee is not to be deemed to be "soliciting material" or to be "filed" with the SEC or subject to Regulation 14A or 14C or to the liabilities of Section 18 of the Exchange Act, except to the extent the Company specifically requests that such information be treated as soliciting material or specifically incorporates it by reference into any filing under the Securities Act of 1933 (the "Securities Act") or the Exchange Act.

AUDIT-RELATED FEES, TAX FEES AND ALL OTHER FEES

The following table presents the aggregate fees billed for professional services rendered by the Company’s independent registered public accounting firm, PricewaterhouseCoopers LLP, in the “audit fees”, “audit related fees”, “tax fees”, and “all other fees” categories, in each case as such terms are defined by the SEC, for the fiscal years ended January 31, 2015 and 2016.

Year	Audit (\$)	Audit Related (\$)	Tax (\$)	All Other (\$)	Total (\$)
2015	1,771,000-	-	-	2,000	1,773,000
2016	1,763,000 -	-	-	2,000	1,765,000

Audit fees include fees for audit or review services in accordance with generally accepted auditing standards and fees for services that generally only the Company’s auditors provide, such as statutory audits and review of documents filed with the SEC.

All other fees are subscription fees for the use of the independent auditors’ database of authoritative literature and accounting and financial guidance.

The Audit Committee reviews and approves all audit and non-audit services to be rendered in every instance by the Company’s independent auditors before such auditors are engaged to render any such services. Therefore the Audit Committee has not adopted a pre-approval policy with respect to such services.

PROPOSAL 2 - RATIFICATION OF APPOINTMENT OF ACCOUNTANTS

The Audit Committee has appointed PricewaterhouseCoopers LLP to be the Company’s independent registered public accounting firm for the year ending January 31, 2017, subject to ratification of such appointment by the Company’s shareholders. PricewaterhouseCoopers LLP has served as the Company’s independent registered public accounting firm since fiscal year 1977 and is considered by the Audit Committee and the Board of Directors to be well qualified. Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting. Such representatives will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

The Board of Directors recommends that the shareholders vote FOR such ratification. Proxies solicited by the Board will be so voted unless shareholders specify in their proxies a contrary choice.

PROPOSAL 3 – ADVISORY APPROVAL OF EXECUTIVE COMPENSATION

In accordance with Section 14A of the Exchange Act and the related rules of the SEC and as a matter of good corporate governance, a proposed resolution will be presented at the Annual Meeting asking our shareholders to approve, on an advisory basis, the compensation of the Company’s named executive officers as disclosed in the Compensation Discussion and Analysis (“CD&A”), the Summary Compensation Table and the related compensation tables, notes and narrative in the Proxy Statement for the Company’s 2016 Annual Meeting of Shareholders.

As set forth in the CD&A, above, the Company has designed its compensation programs to: (i) properly incentivize executive officers to accomplish the short- and long-term objectives of the Company, (ii) be in line with prevailing pay practices and overall compensation levels at other companies with which the Company competes for executive-level talent, (iii) reward our executives for their individual performance as well as the performance of their respective business units and the Company overall and (iv) retain our executive officers and key management

employees. Although the vote to approve executive compensation is purely advisory and non-binding, the Board of Directors values the opinions of our shareholders and will consider the results of the vote in determining the compensation of the named executive officers and the Company's compensation programs generally. The vote is not intended to address any specific item of compensation but rather the overall compensation of our named executive officers and the policies and practices described in this proxy statement. If any shareholder wishes to communicate with the Board of Directors regarding executive compensation, the Board can be contacted using the procedures outlined in "Communications with the Board of Directors" set forth in this proxy statement.

Accordingly, we are asking for shareholder approval of the following resolution:

"RESOLVED, that the compensation of the Company's named executive officers as described under "Compensation

Discussion and Analysis,” the compensation tables and the narrative discussion associated with the compensation tables in the Company’s proxy statement for its 2016 Annual Meeting of Shareholders is hereby APPROVED.”

The Board of Directors recommends a vote FOR the approval, on an advisory basis, of the compensation paid by the Company to the named executive officers as disclosed in this proxy statement.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company’s executive officers, directors, and persons who own more than 10% of a registered class of the Company’s equity securities (the “10% Stockholders”) to file reports of ownership and changes of ownership with the SEC. The Company assists its directors, officers and certain 10% Stockholders by assisting in their completion of Section 16 reports and filing these reports on their behalf. The Company’s executive officers, directors and 10% Stockholders timely complied with all such filing requirements applicable to them last fiscal year with respect to their beneficial ownership of the Company’s securities, except that the Form 4s filed on behalf of the executive officers, directors, Alexander Grinberg and Ms. Phalen relating to the annual equity grants made on April 15, 2015 were inadvertently filed one day late. Each such late Form 4 reported one transaction (i.e., an annual restricted stock unit grant), except that the late Forms 4 for each executive officer reported two transactions (i.e., an annual restricted stock unit grant and an annual stock option grant).

OTHER MATTERS

The Board of Directors, at the time of the preparation of this proxy statement, knows of no business to come before the Annual Meeting other than that referred to herein. If any other business should properly come before the Annual Meeting, the persons named in the enclosed proxy will have discretionary authority to vote all proxies received and not theretofore revoked in accordance with their best judgment.

Upon the written request of any record holder or beneficial owner of Common Stock or Class A Common Stock entitled to vote at the Annual Meeting, the Company, without charge, will provide a copy of its Annual Report on Form 10-K for the fiscal year ended January 31, 2016, as filed with the SEC. Requests should be directed to Mitchell C. Sussis, Secretary, Movado Group, Inc., 650 From Road, Ste. 375, Paramus, New Jersey 07652-3556.
