PART I

ITEM 1. DESCRIPTION OF BUSINESS

GENERAL DEVELOPMENT OF BUSINESS

In June 1985, Consulier Engineering, Inc. ("Consulier" or the "Company") was incorporated in Florida. Its principal businesses are the distribution of automobile parts in the automotive after-market, the development of household and tool products, and corporate and investment activities. Consulier conducts its automobile parts distribution business through a wholly owned subsidiary, Southeast Automotive Acquisition Corporation (Southeast), which is based in Miami, Florida. Consulier's corporate office is located in Riviera Beach, Florida.

DESCRIPTION OF BUSINESS SEGMENTS

(1) AUTOMOTIVE PARTS DISTRIBUTION

BACKGROUND AND RECENT DEVELOPMENTS

Southeast is located in Miami, Florida. It is engaged in research, development and distribution to the automotive wholesale market. It sells OEM Quality Aftermarket Products, distributing automotive flywheels, flex plates, transmission and engine mounts, torque struts, nylon gears, plastic components, grommets, cables and repair kits.

Based upon the Board of Director's determination that it was in the best long-term interest of the Company's shareholders to reduce its interest in Southeast, Consulier sold 70% of its shares of common stock of Southeast to Bernardo and Aimee Davila, CEO and CFO of Southeast, for a purchase price of all their stock in Consulier consisting of 45,000 shares, valued at approximately \$110,000. In addition, Southeast agreed to repay Consulier its debt, totaling approximately \$1,600,000 at December 31, 2002, which shall be calculated as inventory at cost, plus accounts receivable, minus accounts payable, plus cash on hand, plus any debt to Consulier incurred after the effective date of the sale. The debt will be paid by an interest -bearing promissory note payable by Southeast to Consulier in monthly installments of approximately \$9,600 of principal and interest at a rate of 6% beginning February 20, 2003 through January 20, 2033. The debt is guaranteed by Bernardo and Aimee Davila, up to approximately \$228,000, the amount of cash in Southeast at December 31, 2002, and is secured by the assets of Southeast. The effective date of the sale was on December 31, 2002 and the closing was held on February 5, 2003.

PRODUCTS

The Southeast line of products features Premium Quality Mounts, torqued to P/F Specification fasteners, and the use of natural or synthetic quality rubber compounds and bonding agents. Southeast's primary products are transmission, engine, torque strut and hydraulic mounts. Southeast sells approximately 200 different after-market mounts for domestic and imported vehicles. Development efforts are directed towards developing mount or strut products, which replace two or more original equipment products.

The Southeast logo on Southeast's mounts is recognized as a quality standard in the automotive transmission industry. It provides a replacement warranty on any

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

item of its product line assessed as defective. Also, Southeastools come with a limited lifetime warranty for materials and craftsmanship.

Consulier is presently working with a new U.S. based manufacturer of soap and other cleaning products on a new and improved formula for its Captain CRA-Z Soap to replace its inventory of soap which was

- 3 -

damaged by Hurricane Irene in 1999. The Company expects its first delivery of soap based on this formula to be ready for sale in the second quarter of 2003. Consulier has now received Federal trademark registrations for Captain CRA-Z and Captain CRA-Z Hand and All Purpose Soap. The Company has made design changes to the packaging to better serve the industrial as well as retail markets. These changes will be implemented and launched along with the new formula.

Consulier is developing a new distribution/sales network for the sale of the new formula soap. The specifics of the new marketing plan are yet to be finalized.

In connection with the Company's sale of 70% of its interest in Southeast, the Captain CRA-Z Soap product line has been transferred from Southeast to the Company.

### SALES AND MARKETING

In the sale of automotive parts products, Southeast competes with a number of other automotive aftermarket suppliers, many of which are considerably larger than Southeast in terms of sales, financial resources, product development facilities and channels of distribution. Automotive parts sales is an extremely competitive market and prices and warranty provisions are comparable throughout the industry. Southeast markets its products through both in-house sales personnel and commissioned sales people, and using print catalogs sent to distributors and trade shows.

### RESEARCH AND DEVELOPMENT EXPENDITURES

Primarily, the suppliers are funding product development costs for Southeast's transmission mounts. Other research and development expenditures, including design of specialty tools, are not significant.

### EMPLOYEES

Southeast has 12 employees in various categories, including shipping and receiving, sales, marketing, management, and administration.

### (2) INVESTMENTS SEGMENT

#### INVESTMENT IN AVM, L.P.

Consulier owns a 10% equity interest in AVM, L.P. (AVM), a broker/dealer in U.S. Government securities formed in October 1983 as an Illinois limited partnership and located in West Palm Beach, Florida. AVM is registered with the Commodity Futures Trading Commission as an Introducing Broker (IB) and conducts its IB business with other broker/dealers on a fully disclosed basis. AVM is also registered as a broker/dealer with the Securities and Exchange Commission, and is a member of the National Association of Securities Dealers, Inc. The firm is generally engaged in the brokerage of U.S. Government securities, other fixed income instruments, and arbitrage transactions and presently employs 59 people in addition to the four members of its general partner. Warren B. Mosler ("Mosler"), Consulier's Chairman and majority shareholder is one of the founders

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

of AVM and is a member of the general partner of AVM.

As of both December 31, 2002 and 2001, Consulier's limited partnership interest represented approximately 10% of AVM's total partnership capital. Allocation of the partnership's income to its partners varies based on amounts of appreciation of the partnership's assets and operating profits of the partnership. Based on earnings distributions provided in the partnership agreement, Consulier was

- 4 -

allocated approximately 8% of AVM's earnings in both 2002 and 2001.

Under the partnership agreement, Consulier may withdraw all or any portion of its capital upon 30 days written notice. AVM's general partner may also expel Consulier from the partnership, on 30 days written notice, through return of the balance of Consulier's capital.

### BIOSAFE SYSTEMS, LLC

Consulier owns a 40% equity interest in BioSafe Systems, LLC, a Connecticut limited liability corporation (BioSafe). Although Consulier is entitled to representation on BioSafe's Board of Managers, as of March 28, 2003 no such representation exists. BioSafe develops and markets environmentally safe products, alternatives to traditionally toxic pesticides. BioSafe has developed a well-established national distribution network, serving the greenhouse and nursery marketplace. In addition, BioSafe has established distribution in Central and South America. BioSafe has introduced products to both the horticultural industry as well as to general agriculture. BioSafe has concentrated its efforts at expanding its distribution network to cover a broad-spectrum distribution into the agricultural markets and utilizes the already established distributors who now carry their products.

BioSafe had revenues of approximately \$4,672,000 and \$3,300,000 for fiscal 2002 and fiscal 2001. Steady and consistent progress has been made with respect to establishing an algaecide/fungicide product into the commercial greenhouse/nursery market. Slower progress has been experienced with respect to introducing such products to the golf course industry.

### SYSTEMS TECHNOLOGIES, LLC

During 2002, the Company purchased a 14.25% interest for \$1,425,000 in Systems Technologies, LLC, a Nevada limited liability company (ST, LLC). ST, LLC's primary asset is its approximate 60% (as of December 31, 2002) interest in Patient Care Technology Systems, LLC, a California limited liability company (PCTS), which holds the exclusive license to the AmeliorED(TM) Patient Care Systems. The AmeliorED(TM) Patient Care Systems provides total hospital emergency department automation support in an integrated computerized emergency room reporting system. PCTS was formed during 2001 and began piloting its product to three healthcare facilities, resulting in total revenues for 2002 of approximately \$259,000. The Company's principal stockholder also holds an approximate 71% interest in ST, LLC.

### (3) CORPORATE SEGMENT

#### GENERAL

Consulier's Corporate Segment includes management and finance activities as well as consulting, engineering, new product development and business management. Wholly owned subsidiaries include Southeast, C-6 and a small leasing company named Consulier Business Services, Inc.

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

### (3) (a) CONSULIER BUSINESS SERVICES, INC.

Consulier Business Services, Inc. is a wholly owned subsidiary involved in the leasing of various machinery and equipment used in the engine repair and overhaul business. Assets and revenues are not material, and corporate staff operates the business.

- 5 -

### (4) HOUSEHOLD AND TOOL PRODUCTS

In April 1997 C-6 Products, Inc. purchased six patents for tool and ladder related products. The patents are for work platform and tool holding attachments to ladders. Initial development was launched in April 1997 of a product that attaches to a standard stepladder, converting it into a handy work platform for standard household chores, which is the present day Tool Topper(TM) Workstation and related accessories. The design and development was completed in 1998.

The sales and marketing of the Tool Topper has been taken over by the in-house sales personnel at Consulier. On June 30, 2000, Tool Topper inventory and tooling were written down based on the unit's failure to meet expected sales and income goals. No material sales of Tool Topper Workstations occurred during 2002.

### (5) OTHER INVESTMENTS

Since April 2002, Consulier has held an option to purchase a 95% interest in Asset Assistance Group, LLC, (AAG) a licensed pawn shop, located in Stuart, Florida, which specializes in unique and high line goods such as airplanes, boats, and gems. The option, to which no value has been assigned, was granted as consideration for Consulier issuing a line of credit for up to \$900,000 for the benefit of AAG. The line of credit expires April 16, 2003. No amounts are outstanding under the line of credit, and management does not intend to extend the expiration date.

- 6 -

## ITEM 2. DESCRIPTION OF PROPERTY

In May 2000, Consulier moved its headquarters to Riviera Beach, Florida occupying approximately 500 square feet of office space in a building owned by Mosler. The office space is adequate and suitable for current operations, with additional space available for expansion, if needed.

The Company owns a 47,000 square foot industrial warehouse in Medley, Florida, which is leased to Southeast for a 5-year term beginning July 1, 2002 at an initial base rent of \$10,000 per month. The warehouse space is adequate and suitable for Southeast's operations.

## ITEM 3. LEGAL PROCEEDINGS

The Company, from time to time, is involved in routine litigation arising in the ordinary course of business. While the outcome of litigation can never be predicted with certainty, the Company does not believe that any existing litigation, individually or in aggregate, will have a material adverse effect upon the Company.

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

### ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The election of five directors and the approval of independent auditors were submitted to a vote of shareholders at the Company's Annual Meeting held February 5, 2003. Warren B. Mosler, Alan R. Simon, Charles E. Spaeth, Burck E. Grosse and Skender Fani were elected upon receipt of the following votes: for 4,933,530, against 100, and 0 shares abstaining. BDO Seidman, LLP was approved as independent auditors by a vote for of 4,933,530, against 100, and 0 shares abstaining.

- 7 -

### PART II

### ITEM 5. MARKET FOR THE COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

#### RECENT SALE OF UNREGISTERED SECURITIES

The award of bonus stock is not subject to the registration requirements of the Securities Act of 1933 since it did not involve a "sale" of securities for purposes of Section 2 (a) (3) of the Securities Act.

#### MARKET PRICE AND DIVIDENDS

The following table sets forth, for the periods indicated, the high and low bid prices for Consulier's common stock, as reported by NASDAQ.

#### YEAR ENDED DECEMBER 31, 2002:

	High ----	Low ---
First quarter	\$ 2.25	\$ 2.05
Second quarter	2.25	2.00
Third quarter	3.25	1.86
Fourth quarter	3.25	2.02

#### YEAR ENDED DECEMBER 31, 2001:

	High ----	Low ---
First quarter	\$ 2.25	\$1.625
Second quarter	2.19	2.00
Third quarter	2.20	2.00
Fourth quarter	2.24	2.09

As of March 18, 2003 there were approximately 331 record holders of Consulier's

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

common stock. To date, Consulier has not paid any dividends on its common stock. Because of the financial requirements of the Company, the Board of Directors has no current intention to commence paying dividends. Future dividend policy will depend upon Consulier's profitability, capital requirements and other factors.

### NASDAQ LISTING

Consulier's common stock (Symbol: CSLR) is listed on the NASDAQ SmallCap Market and has been traded thereon since Consulier's initial public offering in May 1989.

### ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

- 8 -

### CRITICAL ACCOUNTING POLICIES

Management believes the following critical accounting policies affect the significant judgments and estimates used in the preparation of the financial statements:

### PARTNERSHIP INVESTMENTS AND LIMITED LIABILITY COMPANIES

The Company's Partnership and Limited Liability Company investments, all of which are less than 50% interests, are accounted for using the equity method. Income or loss is allocated by the investee to Consulier based on the partnership and LLC agreements. Certain of these investments are less than 20% interests, however, due to the Company's significant shareholder also owning interests in these entities, and through the terms of the related LLC agreements, the Company has significant influence over the entities. Therefore, the Company uses the equity method of accounting for these investments. On a monthly basis, management evaluates for potential impairment the ongoing value of these investments through review of financial information, comparison of budgeted to actual results and in the case of the partnership investment, monthly distributions. However, actual results of operations of the underlying entities could differ from management's evaluation, which could require adjustment to the carrying value of such investments.

### REVENUE RECOGNITION

Revenue is recorded upon shipment of goods to customers, which is FOB shipping point. Revenue is primarily derived from automotive part sales, which include flywheels, flex plates and engine and transmission mounts. Returns and allowances are evaluated on a case-by-case basis, at time of sale.

Shipping and handling costs billed to customers are included in sales when goods are shipped to customers. Shipping and handling costs incurred by the Company are classified as selling expense.

### INVENTORY RESERVES

The reserve for inventory obsolescence is evaluated by management based on inventory quantities, historical sales reports and sales projections. As the inventory reserve is an estimate subject to management's judgment, actual obsolescence could differ from those estimates.

### RESULTS OF OPERATIONS

CONSOLIDATED OPERATING RESULTS - During the twelve months ended December 31, 2002, sales decreased \$479,072, to \$2,704,182, over the prior twelve months.

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

Cost of goods sold decreased \$406,206, to \$1,511,745, from the comparable amounts recorded during the twelve months ended December 31, 2001. Gross profit for the twelve months ended December 31, 2002 decreased \$72,866 over the twelve months ended December 31, 2001. Selling, general and administrative costs were reduced by \$234,262 from \$1,861,602 to \$1,627,340. The reductions in selling, general and administrative costs were primarily as a result of reducing the number of employees at Southeast Automotive from 20 to 12 employees during 2002. When these factors are combined they resulted in a \$161,396 decrease in operating loss, from \$596,299 in 2001 to \$434,903 in 2002.

Interest expense declined \$58,676 due to the reduction in notes payable banks and the partial redemption of bonds payable during 2001.

Other income, consisting primarily of investment income, interest income/expense, and insurance

- 9 -

recovery decreased \$768,870, from \$3,101,228 in 2001 to \$2,332,358 in 2002, primarily attributable to an insurance recovery of \$1.75 million in 2001. Income before income taxes decreased \$607,474 from income of \$2,504,929 in 2001 to income of \$1,897,455 in 2002.

The effective tax rate increased to approximately 40% in 2002 from 37% in 2001 primarily due to the Company's utilization of its remaining net operating loss carry forward of approximately \$565,000 in 2001.

Consulier's consolidated income for the year ended December 31, 2002 was \$1,139,370 and \$.23 basic and diluted earnings per share compared to income of \$1,589,629, or \$0.32 basic and diluted earnings per share for 2001.

**AUTOMOTIVE PARTS DISTRIBUTION** - Net sales of Consulier's Southeast automotive parts distribution segment represented 98% and 96% of Consulier's net sales in 2002 and 2001 respectively. This segment's sales decreased 14% or \$417,790 in 2002 to \$2,642,624 compared to \$3,060,414 in 2001, principally due to a decrease of approximately 16% in mount sales and a slight decrease in nylon gear sales. Due to current economic conditions and foreign competition, management does not expect Southeast's sales to reach 2001 levels again during 2003. This sales decrease, attributed to lower priced competitor products in the U.S. market, was a factor in the determination of selling Southeast.

The automotive parts distribution segment had income (loss) before income taxes of (\$49,358) in 2002 compared to \$1,581,067 in 2001. This segment recovered \$1,750,000 in 2001 as a result of the casualty loss in the amount of \$1,092,586 caused by Hurricane Irene, which made landfall in Miami (location of Southeast) on October 15, 1999. The Company suffered extreme hurricane damage resulting in destruction of a large portion of its inventory, damage to its equipment and physical plant, and suffered other damage. The majority of the damage was to the CRA-Z Soap inventory, as a direct result of the intense rain that caused substantial flooding.

**HOUSEHOLD AND TOOL PRODUCTS** - During 2002 and 2001, no material sales of C-6 Products, Inc. products (Tool Topper Laddertop Workstation) occurred.

**INVESTMENT IN AVM** - Investment income from Consulier's AVM limited partnership interest was \$1,871,933, a 58% increase from 2001 income of \$1,186,343. This represents annualized returns of 96% and 57%, respectively, on Consulier's average investment during each year. This increase is due to AVM's increase in net income of approximately \$7,299,000 from approximately \$14,899,000 in 2001 to approximately \$22,198,000 in 2002. AVM's increase in net income is due to its

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

continued success as an introducing broker.

INVESTMENT IN BIOSAFE - Equity in income of BioSafe was \$321,207 in 2002, a 706% increase over 2001 income of \$39,861. This represents the Company's 40% interest in BioSafe's net income of approximately \$815,000 in 2002, compared to \$100,000 in 2001. The increase in net income is attributed to an increase in sales of approximately \$1,368,000 and an improvement in the gross margin percentage from approximately 60% in 2001 to approximately 66% in 2002. Biosafe has shipped more items as a result of their increased market. This increase has helped cover their fixed cost, thus improving margins.

INVESTMENT IN ST, LLC - Equity in the loss of ST, LLC was \$66,330 in 2002. This represents the Company's interest in ST, LLC's net loss of approximately \$690,000 for the period from September 2002 through December 31, 2002, during which the Company made its initial investment in ST, LLC. ST, LLC is in the emerging stage with its product being piloted in three healthcare facilities. The Company's management has based their evaluation of the investment in ST, LLC on monthly financial information, ST, LLC's business plan and forecasts. Although ST, LLC is expected to begin generating profits during

- 10 -

2004, management expects ST, LLC to continue to incur significant operating losses during 2003 due to expenditures for selling and customer support activities. ST, LLC's business plan requires additional capital contributions, which are expected to be from the Company's principal shareholder. The Company has the right to require, with 60 days written notice, the Company's principal shareholder to purchase for cash the Company's capital account balance of its investment in ST, LLC.

### OUTLOOK FOR 2003

Based on AVM's recent operations and operating results over the past five years, management expects continued annualized returns in 2003 on Consulier's limited partnership investment. However, there is no guarantee that the returns of 96% and 57% in 2002 and 2001, respectively, will be maintained.

Although the Company reduced its ownership interest in Southeast to 30%, Southeast's operations will continue to be consolidated with the Company's operations, due to the significance of the long-term note payable by Southeast to Consulier, which is secured by substantially all of Southeast's assets, and the limited purchaser guarantee. There are no guarantees concerning the success of Southeast's future operations, which would allow it to service its debt to the Company.

In addition to the above, Consulier maintains a sales and marketing department which is working to develop new retail and distribution outlets nationally and internationally for Captain CRA-Z Soap.

### LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2002, Consulier's cash totaled \$262,303 as compared to \$150,032 at December 31, 2001, an increase of \$112,271. Net cash used in operations was \$1,460,200 in 2002, compared to net cash provided of \$1,327,907 in 2001. The decrease in cash provided by operations is due primarily to, a change from a net income of \$1,589,629 in 2001 to net income of \$1,139,370 in 2002, of which \$1,750,000 is the result of an insurance recovery in 2001, the payment of approximately \$1,488,000 of income taxes in 2002 for 2001 and 2002 income taxes, and an increase in investment income of AVM of approximately \$686,000 from 2002 over 2001. Although total trade accounts receivable decreased from approximately

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

\$520,000 at December 31, 2002 to \$395,000 at December 31, 2001, the percentage of accounts in the 120 days or over category increased from 1% to 14% of accounts receivable, resulting in an net increase in the provision for bad debts of approximately \$72,000 from 2001 to 2002.

Net cash provided by investing activities was \$1,508,466 in 2002, compared to net cash used in investing activities of \$48,828 in 2001. The increase in cash provided by investing activities is primarily the result of an increase of approximately \$903,000 in distributions from AVM, a reduction of due from principal shareholder of approximately \$735,000, offset by the \$1,425,000 purchase of the interest in ST, LLC in 2002, compared to an increase in due from principal shareholder of \$1,263,726 in 2001.

Net cash provided by financing activities was \$64,005 from the sale of treasury stock in 2002 compared to cash used of \$1,547,681 in 2001, for partial repayments of bonds payable of \$500,000 and approximately \$1,048,000 of bank loan repayments. Bank indebtedness was retired during 2001 with the insurance proceeds received.

On August 14, 2002 the Company entered into a revolving credit agreement ("borrowing") with a financial institution in an amount not to exceed \$2,000,000. The borrowings under this agreement bear interest at either a LIBOR based rate plus a margin of 2.10% or at the financial institution's Prime rate less 0.075%, depending upon the rate chosen by the Company. The borrowings are secured by primarily all assets of the Company and by collateral pledged by the principal shareholder, including a partnership,

- 11 -

WBM Investors Limited Partnership, a limited partner of AVM, L.P. of which the Company has a approximately a 10% investment at December 31, 2002. The revolving credit agreement matures on August 1, 2003. The borrowing was entered for standby liquidity and the Company has no outstanding balance under the borrowing at December 31, 2002.

The ability of Consulier to continue to generate cash flow in excess of its operating requirements depends in the short term almost entirely on the performance of its limited partnership investment in AVM. Consulier cannot, with any degree of assurance, predict whether there will be a continuation of the net return experienced in the period the AVM limited partnership interest has been owned. However, Consulier does not expect that the rate of return will decline to the point where Consulier has negative cash flow. Furthermore, although AVM has given Consulier no indication of any intention on its part to redeem the partnership interest, there can be no assurance that AVM will not do so in the future.

During 2001 through July 2002, a significant portion of the Company's excess cash funds was advanced to Mr. Warren Mosler under demand receivables. During 2002, approximately \$735,000 of advances were repaid. The advances are expected to be repaid during the next two years.

Below is a chart setting forth the Company's contractual cash payment obligations, which have been aggregated to facilitate a basic understanding of the Company's liquidity as of December 31, 2002.

CASH OBLIGATIONS	\$423,920	\$100,000	\$323,920	\$ -	\$ -
	=====	=====	=====	=====	=====

On April 16, 2002, the Company entered into agreement granting a line of credit of up to \$900,000 to Asset Assistance Group, LLC. The line of credit expires on April 16, 2003 and has \$0 outstanding at December 31, 2002. Sources for funding the line of credit will be investment income from AVM and repayments of outstanding amounts/advances by the principal shareholder. The Company does not intend to extend the expiration date of the line of credit.

The Company does not trade derivative instruments. The Company is invested in AVM, which enters various transactions involving derivatives and other off-balance sheet financial instruments. These derivatives and off-balance sheet instruments are subject to varying degrees of market and credit risk.

### IMPACT OF INFLATION AND CHANGING PRICES

Management does not consider the impact of inflation on Consulier's operations to be material. The operating segments of its businesses had inventories of approximately \$1.3 million as of December 31, 2002. Considering the dollar value of inventory and the gross profit margins generated by sales, moderate rates of inflation should have little, if any, effect on the business. Product development expenditures will

- 12 -

be significantly reduced, but such expenditures should not be significantly affected by inflation. Interest rates on bond indebtedness are fixed and, therefore, are not impacted by inflationary rate increases, while rates on notes payable and notes receivable are floating and should move with inflation.

### FORWARD LOOKING STATEMENTS

Statements made in this Management's Discussion and Analysis and elsewhere in this Annual Report that state Consulier's or management's intentions, hopes, beliefs, expectations or predictions of the future contain forward looking statements. Such forward looking statements include, without limitation, statements regarding Consulier's planned capital expenditure requirements, cash and working capital requirements, Consulier's expectations regarding the adequacy of current financing arrangements, product demand and market growth, other statements regarding future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. It should be noted that Consulier's actual results could differ materially from those contained in such forward looking statements mentioned above due to adverse changes in any number of factors that affect Consulier's business including, without limitation, risks associated with investing in BioSafe, ST, LLC, and AVM and the marketing of Consulier's Tool Topper(TM) and Captain CRA-Z Soap products, manufacturing and supply risks, risks concerning the protection of Consulier's patents, reliance upon distributors, regulatory risks, risks of expansion, product liability and other risks described herein.

### ITEM 7. FINANCIAL STATEMENTS

### PART III

### ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT

#### DIRECTORS

DIRECTOR NAME	AGE	SINCE	POSITIONS AND OFFICES HELD AND PRINCIPAL OCCUPATION OR OTHER DURING THE PAST FIVE YEARS
Warren B. Mosler	53	1985	Chairman of the Board, 1985 to present. President and Chief Executive Officer, June 1985 to May 1994. In February 1999, Mr. Mosler held the positions of President and Chief Executive Officer. Principal broker/dealer engaged in arbitrage and government securities trading since present.
Alan R. Simon, Esq.	52	1985	General Counsel, Treasurer and Secretary since November 2001. Present, private practice of law in Palm Beach Gardens, Florida.
Charles E. Spaeth	79	1992	Chief Engineer 1992 to present. Project Engineer, Pratt & Whitney, 1949 to 1990. Last position - responsible for directing product support functions in areas of structural analytical methods, finite element methods, mission definition and component design verification.
Burck E. Grosse	73	1992	1991 to present, President, BG Consulting Group, Inc. July 1992 to present, Senior Vice President, Lear Group, Inc., general contracting and construction, 1987, General Motors Corporation. Last position General Director of Service; responsible for coordination of all technical services for the GM car and truck division.
Dr. Skender Fani	63	1999	Dr. Fani is the Chairman of the Board of Otis Elevators, Austria. He is a corporate lawyer in Austria, also specializing in sports and entertainment law. For the past 20 years he has represented top entertainment personalities throughout Europe.

No family relationships exist among the directors and officers of Consulier. Messrs. Mosler and Simon have been directors since the inception.

- 14 -

#### EXECUTIVE OFFICERS

The principal occupation of each executive officer of Consulier is set forth below. All of the executive officers are elected annually, or until their successors have been duly elected.

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

Warren B. Mosler, 53, is the Chairman of the Board of Directors. Mr. Mosler has served as Chairman since the inception of Consulier and as Chief Executive Officer from inception to March 1989 and from August 1989 to May 1994. In February 1999 Mr. Mosler reassumed the positions of President and Chief Executive Officer. From 1983 to the present, Mr. Mosler has been a principal in AVM, LP, a broker/dealer engaged in arbitrage and government securities trading in West Palm Beach, Florida.

Alan R. Simon, 52, is a director, and has served as the Corporation's General Counsel and its Secretary-Treasurer since November 2001. He has been in the private practice of law in Boca Raton, Florida since 1982, and has relocated his practice to Palm Beach Gardens, Florida in 2001. Mr. Simon is a member of the Board of Directors of Enterprise National Bank of Palm Beach and serves as the Chairman of its Audit Committee.

Bernardo Davila, 51, has served as President and CEO of Southeast Automotive Acquisition Corporation since 1991. In 1980 Mr. Davila founded Southeast Automotive Parts, Inc. of Dade which was purchased by Consulier in 1991. From 1971 to 1980 Mr. Davila was in management at Carfel, Inc., an importer of automotive parts. In connection with the Company's sale of 70% of its interest in Southeast in February 2003, Mr. Davila is no longer an executive officer of the Company.

### ITEM 10. EXECUTIVE COMPENSATION

#### SUMMARY COMPENSATION TABLE

The following table sets forth the aggregate compensation paid to Consulier's Chief Executive Officer for the last three years.

#### SUMMARY COMPENSATION TABLE

Name and Principal Position	Fiscal Year	Salary	All Other Compensation
Warren B. Mosler, Chairman of the Board, President and CEO	2002	\$ 75,000	\$ -
	2001	\$ 75,000	\$ -
	2000	\$ 75,000	\$ -
Bernardo Davila President and CEO Of Subsidiary	2002	(1)	\$ -
	2001	(1)	\$ -
	2000	(1)	\$ -

(1) Total annual salary and bonus was less than \$100,000.

Certain columns have been omitted from the above table because there is no compensation required to be reported in such columns.

- 15 -

#### OPTION/SAR GRANTS IN LAST FISCAL YEAR

There were no stock options/SARs granted to executive officers during 2002 requiring disclosure.

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

### AGGREGATED OPTION/SAR EXERCISES IN LAST FISCAL YEAR AND FISCAL YEAR-END OPTION/SAR VALUES

There were no stock options/SARs exercised during 2002 and no stock options/SARs outstanding at December 31, 2002.

### LONG-TERM INCENTIVE AND PENSION PLANS

On January 1, 1998 employees of Consulier became members of the Mosler Auto Care Center, Inc. 401(k) Retirement Plan (the Plan). The Plan allows employees to save up to 15% of their gross pay. Consulier may match a percentage of the employees' savings contributions or provide more money, through discretionary contributions. During 2002 and 2001 there were no matching or discretionary contributions made by the Company to employees' accounts. The benefit derived by employees was the tax deferral on earnings until they receive them as benefits. Mr. Mosler and the directors do not participate in this Plan.

### COMPENSATION OF DIRECTORS

Directors are compensated \$100 for attendance at each Board of Directors' meeting.

- 16 -

### ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following officers and directors of Consulier beneficially own the indicated number of shares of Common Stock of Consulier as of March 28, 2003:

Title Of Class	Name and Address of Beneficial Owner	Amount and Nature Of Beneficial Ownership	Percent of Class At December 31, 2002
Common Stock	Warren B. Mosler 1020 Fairview Lane Singer Island, Fl 33404	4,273,259	86.6%
Common Stock	Alan R. Simon 3980 RCA Boulevard, Suite 8012 Palm Beach Gardens, FL 33420	212,727 (1)	4.3%
Common Stock	Burck E. Grosse 11 Huntly Circle Palm Beach Gardens, FL 33418	10,000	(2)
Common Stock	Charles Spaeth 13 Paddock Circle Tequesta, FL 33469	10,000	(2)
Common Stock	Skender Fani	0	-
	All directors and executive Officers as a group (5 people)	4,315,986	87.5%

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

- (1) Includes of options to acquire 190,000 shares of Consulier common stock from Mr. Mosler at \$1.25 per share.
- (2) Does not exceed one (1%) percent of the class.

- 17 -

### ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### LEASE OF OFFICE SPACE

Consulier maintains its headquarters in Riviera Beach, Florida occupying approximately 500 square feet of office space in a building owned by Warren B. Mosler, Consulier's Chairman of the Board, President and CEO. Rent expense was approximately \$8,300 for both 2002 and 2001.

#### SALE OF AUTOMOBILE OPERATIONS

In consideration of the sale of Consulier's automobile manufacturing business in 1990, MACC executed a promissory note for \$750,000, which note was personally guaranteed by Mr. Mosler. This note, which has an interest rate of one month U.S. Dollar London Interbank Offering Rate (LIBOR), will mature on May 11, 2003. It had an unpaid balance of \$430,559 at December 31, 2002, plus accrued interest of \$7,561.

#### SALE AND LEASEBACK OF REAL ESTATE

In December 1989, Consulier engaged in a sale and partial leaseback of real estate to Mr. Mosler, subject to existing bond indebtedness collateralized by the property. This real estate is located in Riviera Beach, Florida. In consideration for the property, Mr. Mosler signed a promissory note, which was to mature in December 2001, of \$2,500,000 with interest at one month LIBOR. In 2001, the maturity date was extended to December 2003.

Simultaneously with the execution of the sale, Consulier entered into a lease with Mr. Mosler for approximately 25,000 square feet of space at an annual gross rental of \$4.00 per square foot. This lease was subsequently reduced to 6,000 square feet when Consulier sold its automobile operations. The lease was terminated in 1994.

On November 1st, 14th and 16th 2000, Mr. Mosler made payments totaling \$2,000,000 reducing interest and principal owed on this promissory note. The balance of principal and interest at both December 31, 2002 and 2001 was \$1,748,357.

During October 2000, Mr. Mosler purchased outstanding bonds previously issued by the Company from a third-party bondholder at face value of \$680,000. On July 2, 2001, the Company redeemed \$500,000 of Mr. Mosler's bonds. These bonds continue to carry a due date of 2004 with interest of 8% per annum, payable quarterly.

#### SALE OF INTEREST IN SOUTHEAST

Based upon the Board of Director's determination that it was in the best long-term interest of the Company's shareholders to reduce its interest in Southeast, Consulier sold 70% of its shares of common stock of Southeast to Bernardo and Aimee Davila, CEO and CFO of Southeast, for a purchase price of all their stock in Consulier consisting of 45,000 shares, valued at approximately \$110,000. In addition, Southeast agreed to repay Consulier its debt, totaling

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

approximately \$1,600,000 at December 31, 2002, which shall be calculated as inventory at cost, plus accounts receivable, minus accounts payable, plus cash on hand, plus any debt to Consulier incurred between the effective date of the sale and the closing. The debt is in the form of an interest-bearing promissory note payable by Southeast to Consulier in monthly installments of approximately \$9,600 of principal and interest at a rate of 6% beginning February 20, 2003 through January 20, 2033. The debt is guaranteed by Bernardo and Aimee Davila, up to approximately \$228,000, the amount of cash in Southeast at December 31, 2002, and is secured by the assets of Southeast. The effective date of the sale on December 31, 2002 and the closing was held on February 5, 2003.

- 18 -

### ITEM 13. EXHIBITS AND REPORTS ON FORM 8-K

- (a) Exhibits - See index to Exhibits in this report on page E-1.
- (b) No reports on Form 8-K were filed during the last quarter of the period covered by this report.

### ITEM 14. CONTROLS AND PROCEDURES

- a. Within the 90 days prior to the date of this report, the Company evaluated the effectiveness of its disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Company's Chief Executive Officer and Secretary/Treasurer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company required to be included in its periodic SEC filings.
- b. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date of the evaluation referenced above.

- 19 -

CONSULIER ENGINEERING, INC. AND SUBSIDIARIES

FORM 10-KSB ITEM 7 FINANCIAL STATEMENTS

Financial Statements:

Report of Independent Certified Public Accountants.....  
Consolidated Balance Sheets at December 31, 2002 and 2001.....  
Consolidated Statements of Income for the years ended December 31, 2002 and 2001.....  
Consolidated Statements of Stockholders' Equity for the years ended December 31, 2002 and 2001.....  
Consolidated Statements of Cash Flows for the years ended December 31, 2002 and 2001.....  
Notes to Consolidated Financial Statements.....

Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Stockholders and Board of Directors Consulier of Engineering, Inc.  
Riviera Beach, Florida

We have audited the accompanying consolidated balance sheets of Consulier Engineering, Inc. and subsidiaries as of December 31, 2002 and 2001 and the related consolidated statements of income, stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Consulier Engineering, Inc. and subsidiaries as of December 31, 2002 and 2001, and the results of their income and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

CONSULIER ENGINEERING, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

NOTE 1 - GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consulier Engineering, Inc. (Consulier) and its subsidiaries are engaged in four primary business lines: the distribution of Captain CRA-Z Soap, sales of automobile parts in the automotive after-market, investment activities and other activities.

The parts distribution business is conducted through Southeast Automotive Acquisition Corporation (Southeast), which was a wholly-owned subsidiary until the sale of approximately 70% of the Company's interest in Southeast, effective on December 31, 2002 (see Note 17).

Consulier's investment income is primarily derived from a limited partnership interest (see Notes 5 and 12) in AVM, L.P. (AVM), an Illinois limited partnership. AVM is a broker/dealer in government securities and other fixed income instruments. Consulier's Chairman and majority stockholder, Warren B. Mosler (Mosler), is a general partner of the general partner of AVM.

BASIS OF PRESENTATION

The consolidated financial statements include Consulier, its wholly-owned and controlled subsidiaries. All significant intercompany balances and transactions have been eliminated.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are customer obligations due under normal trade terms. Management performs continuing credit evaluations of customers' financial condition and generally does not require collateral. Management reviews accounts receivable on a monthly basis to determine if any receivables will potentially be uncollectible. The Company includes any accounts receivable balances that are determined to be uncollectible, along with a general reserve, in its overall allowance for doubtful accounts. The general reserve is based upon historical collection experience, current economic conditions and market conditions. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. Based on the information available, the Company believes its allowance for doubtful accounts as of December 31, 2002 and 2001 is adequate. However, actual write-offs might exceed the recorded allowance.

INVENTORIES

Inventories are stated at the lower of cost, determined on a first-in, first-out basis, or market.

PROPERTY AND EQUIPMENT

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

Property and equipment are stated at cost. Depreciation and amortization are computed using the straight-line and declining balance methods over estimated useful lives or related lease terms, as appropriate. Depreciation for income tax purposes is computed using declining balance methods over statutory lives.

The Company reviews the carrying values of its long-lived and identifiable intangible assets for possible impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable.

F-7

### CONSULIER ENGINEERING, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

#### PARTNERSHIP AND LIMITED LIABILITY COMPANY INVESTMENTS

The Company's Partnership and Limited Liability Company investments, all of which are less than 50% interests, are accounted for using the equity method. Certain of the investments are less than 20% interests, however, the Company has the ability to significantly influence these investees under the terms of the partnership or LLC agreements. Income or loss is allocated to Consulier based on the partnership and LLC agreements. The Company reviews its partnership and limited liability company investments for other than temporary declines in value on a monthly basis, by analyzing the underlying investee's actual revenues, earnings capacity and estimated future undiscounted cash flows.

#### LONG-LIVED ASSETS - IMPAIRMENTS AND DISPOSALS

The Company reviews the carrying values of its long-lived assets for possible impairment whenever events or changes in circumstances indicate that the carrying amounts of the assets may not be recoverable through the estimated undiscounted future cash flows resulting from the use of these assets. At December 31, 2002 and 2001, no long-lived assets were held for disposal.

F-8

### CONSULIER ENGINEERING, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

#### REVENUE RECOGNITION

Revenue is recorded upon shipment of goods, when related risks and title passes to the customers and collectibility is reasonably assured. Shipping and handling costs billed to customers are included in sales when the goods are shipped to customers. Shipping and handling expenses incurred by the Company are recorded as selling expenses, and are classified in the caption selling, general and administrative expenses in the accompanying consolidated statements of operations. Shipping and handling costs totaled \$78,000 and \$39,600 in 2002 and 2001, respectively. Historically, the company's warranty costs have been nominal as the company's suppliers bear the company's cost of warranty claims.

#### STOCK-BASED COMPENSATION

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

In previous years, the Company had granted stock options to employees under stock option plans that are more fully described in Note 9. The Company accounted for those plans using the intrinsic value method under Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees". Stock-based employee compensation cost reflected in net income is not significant, as all options granted under those plans had an exercise price greater than or equal to the market value of the underlying common stock on the date of grant. As all options under such plans granted in previous years expired during 2001 and no new grants were made in 2001 and 2002, there is no effect on net income and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123, ("SFAS 123") "Accounting for Stock-Based Compensation", to stock-based employee compensation.

### ADVERTISING COSTS

Advertising costs of \$10,499 and \$94,986 in 2002 and 2001 were expensed as incurred.

### INCOME TAXES

The Company and its subsidiaries file a consolidated Federal income tax return. Income taxes are calculated using the liability method specified by SFAS 109, "Accounting for Income Taxes." Deferred income taxes are provided for temporary differences arising from differences between financial statement and income tax basis of assets and liabilities.

### USE OF ESTIMATES IN THE PREPARATION OF FINANCIAL STATEMENTS

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### RECLASSIFICATIONS

Certain amounts in the 2001 financial statements have been reclassified to conform to 2002 presentation.

### FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of the Company's financial instruments including accounts receivable, accounts payable and short-term debt approximated estimated fair value as of December 31, 2002 and 2001 because of the relatively short-term maturities of these instruments. The carrying amount of the Company's long-term fixed rate bonds payable approximated estimated fair value as of December 31, 2002 and 2001 as they may be redeemed at face value by the Company.

F-9

## CONSULIER ENGINEERING, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

### NET INCOME PER COMMON SHARE

Net income per common share is calculated according to SFAS 128, "Earnings Per Share," which requires companies to present basic and diluted earnings per

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

share. Net income per common share - basic is based on the weighted average number of common shares outstanding during the year. Net income per common share - diluted is based on the weighted average of common shares and dilutive potential common shares outstanding during the year.

### SEGMENT INFORMATION

Operating segments are components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company has four reportable segments: automotive parts distribution, household and tool products, investments, and corporate. The automotive parts distribution segment distributes after-market automotive and truck parts to wholesale markets, and sales of the Captain CRA-Z soap product line. The household and tool products segment is engaged in sales of tool and ladder related products. The investments segment maintains investment interests in an investment limited partnership and limited liability companies. The corporate segment is engaged in management of the business and finance activities.

### RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the FASB finalized FASB Statements No. 141, "Business Combinations" (SFAS 141), and No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). SFAS 141 requires the use of the purchase method of accounting and prohibits the use of the pooling-of-interest method of accounting for business combinations initiated after June 30, 2001. SFAS 141 also requires that the Company recognize acquired intangible assets apart from goodwill if the acquired intangible assets meet certain criteria. SFAS 141 applies to all business combinations initiated after June 30, 2001 and for purchase business combinations completed on or after July 1, 2001. It also requires, upon adoption of SFAS 142, that the Company reclassify the carrying amounts of intangible assets and goodwill based on the criteria in SFAS 141.

SFAS 142 requires, among other things, that companies no longer amortize goodwill, but instead test goodwill for impairment at least annually. In addition, SFAS 142 requires that the Company identify reporting units for the purpose of assessing potential future impairments of goodwill, reassess the useful lives of other existing recognized intangible assets, and cease amortization of intangibles assets with an indefinite useful life. An intangible asset with an indefinite useful life should be tested for impairment in accordance with the guidance in SFAS 142. SFAS 142 is required to be applied in fiscal years beginning after December 15, 2001 to all goodwill and other intangible assets recognized at that date, regardless of when those assets were initially recognized. SFAS 142 requires the Company to complete transitional goodwill impairment test six months from the date of adoption. The Company is also required to reassess the useful lives of other intangible assets within the first interim quarter after adoption of SFAS 142. The impact of the adoption of SFAS 141 and SFAS 142 on the Company's financial position and results of operations was not material.

F-10

### CONSULIER ENGINEERING, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

In October 2001, the FASB issued SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" which resolves significant

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

implementation issues related to FASB Statement No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," and supersedes the accounting and reporting provisions of APB Opinion No. 30, Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions, for the disposal of a business segment. SFAS 144 is effective for fiscal years beginning after December 15, 2001, and interim periods within those fiscal years, with early application encouraged. The impact of adoption of SFAS 144 on the Company's financial position and results of operations was not material.

In April 2002, the FASB issued SFAS No. 145 (SFAS 145), Rescission of SFAS No.'s 4, 44, and 64, Amendment of SFAS No. 13, and Technical Corrections. In addition to rescinding the aforementioned statements, SFAS 145 also amends SFAS 13, Accounting for Leases, to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. This statement also amends other existing authoritative pronouncements to make various technical corrections, clarify meanings, or describe their applicability under changed conditions. SFAS 145 is generally effective for fiscal years beginning after May 15, 2002. The impact of adoption of SFAS 145 on the Company's financial position and results of operations is not expected to be material.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." The standard requires companies to recognize costs associated with exit (including restructuring) or disposal activities at fair value when the related liability is incurred rather than at the date of a commitment to an exit or disposal plan under current practice. Costs covered by the standard include certain contract termination costs, certain employee termination benefits and other costs to consolidate or close facilities and relocate employees that are associated with an exit activity or disposal of long-lived assets. The new requirements are effective prospectively for exit or disposal activities initiated after December 31, 2002 and will be adopted by the Company effective January 1, 2003. The adoption of SFAS No. 146 is not expected to have a material impact on the Company's financial position and results of operations.

In December 2002, the FASB issued SFAS, No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure." This statement amends SFAS 123, "Accounting for Stock-Based Compensation," to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based accounting for employee compensation and the effect of the method used on reported results. SFAS 148 is generally effective for financial statements for fiscal years ending after December 15, 2002. The adoption of SFAS 148 on the Company's financial position and results of operations was not material as the Company continues to use the intrinsic value method.

F-11

### CONSULIER ENGINEERING, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantors Accounting and Disclosure Requirements for Guarantees, Including

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

Indirect Guarantees and Indebtedness of Others" (FIN 45). FIN 45 elaborates on the disclosures that a guarantor should make in its interim and annual financial statements regarding its obligations relating to the issuance of certain guarantees. It also requires a guarantor to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and measurement provisions of this interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2002. The impact of adopting FIN 45 on the Company's financial position and results of operations is not expected to be material.

In January 2003, the FASB issued FIN 46, "Consolidation of Variable Interest Entities", which clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN 46 is applicable immediately for variable interest entities created after January 31, 2003. For variable interest entities created prior to January 31, 2003, the provisions of FIN 46 are applicable no later than July 1, 2003. At December 31, 2002, the Company is accounting for its continuing interest in Southeast (see Note 17) under this Interpretation.

CONSULIER ENGINEERING, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

## NOTE 5- PARTNERSHIP AND LIMITED LIABILITY COMPANY INTERESTS AND CONCENTRATION OF CREDIT RISK

The limited partnership interests consist of Consulier's investment in AVM, L.P., BioSafe Systems, LLC and Systems Technologies, LLC.

## BIOSAFE SYSTEMS, LLC

The Company owns a 40% interest in BioSafe Systems, LLC ("BioSafe"). At December 31, 2002 and 2001 BioSafe's summarized financial information was as follows: total assets of approximately \$1,725,000 and \$965,000, respectively, and total liabilities of approximately \$272,000 and \$250,000, respectively. In 2002 and 2001 total revenue was approximately \$4,672,000 and \$3,304,000, respectively, gross profit was approximately \$3,064,000 and \$1,995,000, respectively, and operating expenses were approximately \$2,277,000 and \$1,912,000, respectively. The investment is recorded at \$788,371 and \$467,164 at December 31, 2002 and 2001. During 2002, due to the Company's earnings begin undistributed compared to certain distributions taken by the managing member, the Company's carrying value of its investments was in excess of its underlying equity in the net assets of BioSafe by approximately \$207,000, which represents goodwill. The equity in income for 2002 and 2001 was \$321,207 and \$39,861, respectively, and is included in the statements of income in undistributed income of equity investees.

## SYSTEMS TECHNOLOGIES, LLC

During 2002 the Company purchased a 14.25% interest in Systems Technologies, LLC, a Nevada limited liability company (ST, LLC). ST, LLC is a member of Patient Care Technology Systems, LLC, a California limited liability company (PCTS). ST, LLC's primary asset is its approximate 60% (at December 31, 2002) investment in PCTS. As of and for the year ended December 31, 2002 PCTS's summarized financial information was as follows: total assets of approximately \$557,000, total liabilities of approximately \$254,000, total revenue of approximately \$259,000, and total operating expenses of approximately \$3,409,000. The Company's investment in ST, LLC is recorded at \$1,358,670 which is the initial investment of \$1,425,000 net of equity in the loss of ST, LLC of \$66,330. The Company's principal shareholder owns approximately 71% of ST, LLC, therefore the Company is accounting for its investment using the equity method. The loss of \$66,330 is included in the statements of income in net undistributed income of equity investees. At December 31, 2002, the difference of approximately \$1,200,000 between the \$1,358,670 carrying value of the Company's investment and its underlying equity in the net assets of ST, LLC of approximately \$159,000 primarily represents goodwill. The Company can require the Company's principal shareholder to purchase its interest in ST, LLC for cash equal to the Company's capital account balance in ST, LLC at any time with 60 days written notice.

## AVM, L.P

Consulier owned approximately 10% of AVM's capital as of December 31, 2002 and 2001. Based on capital and earnings distributions provided in the partnership

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

agreement, Consulier was allocated approximately 8% of AVM's earnings during 2002 and 2001. Under the partnership agreement, Consulier may withdraw all or any portion of its capital account upon 30 days written notice. AVM's general partner may also expel Consulier from the partnership through payment of the balance of Consulier's capital account.

### CONSULIER ENGINEERING, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

# Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

YEARS ENDED DECEMBER 31, 2002 AND 2001

## NOTE 6 - BONDS PAYABLE

Bonds payable are due in 2004 with interest of 8% per annum, payable quarterly.

On December 7, 1999 the December 31, 1999 expiration date of 70,000 warrants held by bondholders was extended to December 31, 2004. The fair market value of the 70,000 warrants at December 7, 1999 of approximately \$77,700 (see Note 9(b)) has been recorded as original issue discount and is being amortized over the remaining term of the bonds payable.

No principal payments are due until maturity. The bonds are redeemable by Consulier at face value after June 30, 1994. On May 1, 1999, 8% Bonds totaling \$420,000 were redeemed. The bonds are collateralized by land and building owned by Mosler (see Note 11(c)(1)), and machinery and equipment, personal property, and leasehold improvements owned by the Company.

During October 2000, Mr. Mosler purchased outstanding bonds issued by the Company from a bond holder at face value of \$680,000. These bonds continue to carry a due date of 2004 with interest of 8% per annum, payable quarterly. On July 2, 2001, \$500,000 of Mr. Mosler's bonds were redeemed.

## NOTE 7 - LEASES

Consulier leases office space under month-to-month leases. Rent expense charged to operations was approximately \$8,300 in 2002 and 2001, all of which was to related parties.

## NOTE 8 - INCOME TAXES

Provisions for federal and state income tax (benefit) in the consolidated statements of income consist of the following:

	2002	2001
	-----	-----
Current:		
Federal	\$666,598	\$650,500
State	147,404	59,800
	-----	-----
	\$814,002	\$710,300
	-----	-----
Deferred		
Federal	\$(49,839)	\$186,200
State	(6,078)	18,800
	-----	-----
	\$(55,917)	\$205,000
	-----	-----
TOTAL INCOME TAX EXPENSE	\$758,085	\$915,300
	=====	=====

Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

CONSULIER ENGINEERING, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

Applicable income taxes (benefit) for financial reporting purposes differ from the amount computed by applying the statutory federal income tax rate as follows:

	Year ended December 31,	
	2002	2001
Tax expense (benefit) at statutory rate	\$645,135	\$852,500
State income tax benefit net of federal tax effect	97,287	90,900
Other	15,663	(28,100)
INCOME TAX EXPENSE	\$758,085	\$915,300

As a result of the Company's sale of 70% of its interest in Southeast effective December 31, 2002 (Note 17), the future utilization by the Company of approximately \$119,000 of the net deferred tax assets listed below at December 31, 2002, applicable to Southeast will be limited to Southeast's taxable income, if any. The approximate tax effects of temporary differences that give rise to deferred tax assets (liabilities) are as follows:

	December 31,	
	2002	2001
Depreciation	\$ 45,500	\$ 39,200
Allowance for doubtful accounts	22,500	10,000
Inventory Items	137,200	132,600
Unrealized loss on available for sale securities	24,000	16,200
Other	20,500	(4,200)
TOTAL NET DEFERRED TAX ASSET	\$249,700	\$193,800

 YEARS ENDED DECEMBER 31, 2002 AND 2001

NOTE 9 - STOCKHOLDERS' EQUITY

(a) STOCK OPTION PLANS

Consulier has established a Tandem Stock Option Plan (Tandem Plan) and an Incentive Stock Option Plan (Incentive Plan) covering current employees and former employees who currently work for Mosler Auto Care Center, Inc. (MACC) (see note 11(c)(2)). Under the Tandem Plan, qualified and non-qualified options may be granted.

The Tandem Plan provides that an aggregate of 200,000 options to purchase shares of Consulier's common stock may be granted to officers, directors and other key employees of Consulier and MACC. The Incentive Plan provides that an aggregate of 100,000 options to purchase shares of Consulier's common stock may be granted to officers and other key employees of Consulier. The options under both plans are exercisable after two years of continuous employment or service and have a maximum life of ten years from the date of grant.

Options to purchase 61,232 shares of common stock by employees were exercised in 2000. Loans totaling \$76,540 were made to these employees for a term up to five years at an 8% annual interest rate for the exercise. At December 31, 2002 and 2001, such loans remain outstanding and are recorded as notes receivable for common stock, included as a reduction of stockholders' equity. As of December 31, 2002, there were no outstanding options.

CONSULIER ENGINEERING, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

(b) COMMON STOCK WARRANTS

In connection with the issuance of the bonds payable (see Note 6), Consulier issued warrants to purchase shares of its common stock at a purchase price of \$1.71875 per share. At December 31, 2002 and 2001, 70,000 warrants remain outstanding. No warrants have been exercised to date. On December 7, 1999 the Board of Directors extended the December 31, 1999 expiration date to December 31, 2004. Using the Black-Scholes option pricing model, the fair market value of the 70,000 warrants at the December 7, 1999 extension date was calculated as approximately \$77,700 with the following assumptions: 46% volatility, 4.5 years expected life, and a 5.86% risk free interest rate. The fair value of the warrants represents an original issue discount, which is being amortized over the remaining term of the bonds payable.

NOTE 10 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the years ended December 31, 2002 and 2001 totaled approximately \$23,000 and \$71,000, respectively. Cash paid for income taxes during 2002 and 2001 was approximately \$1,488,000 and \$0.

NOTE 11 - RELATED PARTY TRANSACTIONS

(a) CASH ADVANCES

During 2002 and 2001, MACC and Consulier continued to incur certain joint costs and expenses incurred in the normal course of business. MACC owed Consulier \$105,945 and \$67,693, due on demand, at December 31, 2002 and 2001 respectively, resulting from these transactions. Interest was accrued on the outstanding balance at one month LIBOR (1.38% at December 31, 2002) see Note 11 (c)(1).

(b) OTHER

For other related party transactions see Notes 5, 6, and 7.

CONSULIER ENGINEERING, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

(c) NOTES RECEIVABLE - RELATED PARTIES

Notes receivable - related parties consist of the following:

2002

2001

Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

Mosler (see (c ) (1) below)	\$1,748,357	\$1,748,357
MACC (see (c ) (2) below)	\$ 430,559	\$ 430,559
	-----	-----
	\$2,178,916	\$2,178,916
less excess of face amount of note over carrying cost of real estate	(\$ 758,202)	(\$ 758,202)
	-----	-----
Notes Receivable - Long Term	\$1,420,714	\$1,420,714
	=====	=====

Interest income relating to the above notes totaled approximately \$45,200 in 2002 and \$89,100 in 2001.

(c) (1) SALE AND LEASEBACK OF REAL ESTATE

In 1989, Consulier sold to and partially leased-back real estate from Mosler. The property was transferred, subject to a pledge on bond indebtedness, in exchange for Mosler's promissory note for \$2,500,000, with interest at one month LIBOR (1.38% at December 31, 2002). Principal on the note was payable at the original maturity in December 2001, which was extended to December 2003 in 2001. Simultaneously with the execution of the deed, Consulier entered into a lease with Mosler for approximately 6,000 square feet of the property. This lease was terminated in 1994 when the Company's principal offices were moved to Tequesta, Florida.

The transaction resulted in a sales price of \$758,202 in excess of the carrying cost of the building and has been accounted for as a sale-leaseback with a related party. Accordingly, the excess has been offset against the note receivable from Mosler. The excess will be recorded as a capital contribution to the extent of any reduction in the principal balance of the note receivable.

In November 2000, Mosler made a payment of \$2,000,000 on his note receivable, including \$1,248,357 of interest and \$751,643 of principal.

(c) (2) SALE OF AUTOMOBILE OPERATIONS

In 1990, Consulier sold its automobile manufacturing business to MACC. As consideration for the purchase, MACC executed a promissory note for \$750,000, which note was personally guaranteed by Mosler. This promissory note accrues interest at an annual rate of one month LIBOR (1.38% at December 31, 2002). The note, which was to mature on May 11, 2001 and was extended to May 11, 2003 in 2001, has an outstanding balance of \$430,559 at both December 31, 2002 and 2001.

(d) DUE FROM PRINCIPAL SHAREHOLDER

Prior to 2001, capital and income distributions from the Company's investment in

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

AVM were distributed directly from AVM to the Company on a monthly basis. Beginning in 2001 through July 2002, the Company had been advancing its cash distributions from AVM to the principal shareholder, offset by cash repayments from the principal shareholder. The unpaid portion of these distributions due on demand and are included in due from principal shareholder of \$529,174 at December 31, 2002 in the consolidated balance sheet.

### CONSULIER ENGINEERING, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2002 AND 2001

#### NOTE 14 - CAPITAL STOCK

During 2000, former employees of Consulier, who are now employees of MACC, exercised stock option agreements with the Company, 61,232 shares of restricted common stock were issued as a result.

Consulier loaned a total of \$76,540 to these individuals to allow them to exercise their options and purchase the restricted common stock. Each person signed a promissory note with an interest rate of 8% per annum. The note is secured by the maker pursuant to the terms of the stock pledge agreement between the maker and the holder.

On December 20, 2002, the Company's Board of Directors authorized the sale of up to 30,000 shares of its Treasury Stock at \$2.20 per share (the then market

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

price) to Mosler Auto Care Center, Inc. and an affiliate to be issued to certain of their respective employees/contractors.

On December 23, 2002, 29,093 shares of restricted Treasury Stock with a historical cost of \$50,452 were sold for cash of \$64,005 (\$2.20 per share, the then market price).

### NOTE 15 - CASUALTY LOSS

A casualty loss in the amount of \$1,092,586 was caused by Hurricane Irene, which made landfall in Miami (location of Southeast's facility) on October 15, 1999. The Company suffered extreme hurricane damage resulting in destruction primarily of a large portion of its inventory, and certain damage to its equipment and physical plant. The majority of the damage was to the CRA-Z Soap inventory.

The loss of \$1,092,586 was reflected in the 1999 statement of operations as a casualty loss. The Company began litigation against the insurance company whose policy covered the Southeast warehouse facility and inventory, to recover the loss. However, the insurance company disputed the claim.

Upon further inspection and evaluation during the latter part of April 2000, management estimated that the remaining CRA-Z Soap located at Southeast was unsaleable. The product's unique fragrance was severely impaired by the conditions that were a result of the hurricane. Also, it was determined the soap was unsaleable because of discoloration, a change in texture and the soap stuck to packaging. The \$506,937 change in estimate, representing the remaining CRA-Z Soap inventory held at Southeast, was recorded as a casualty loss during the three months ended March 31, 2000.

On March 22, 2001, the Court entered an omnibus Order Granting Plaintiff's Motion for Summary Declaratory Judgment and a Final Declaratory Judgment in favor of Southeast against American States Insurance Company, declaring that the subject insurance contract between the parties covers the loss due to all damages, including water damage caused by a hurricane, and noted there is no dispute that the rainfall associated with Hurricane Irene caused the damage to Plaintiff's (Southeast Automotive Acquisition Corp.) property. In June 2001 the Company settled its lawsuit with American States Insurance Company for \$1,750,000, recorded as insurance recovery in the accompanying 2001 statement of income.

F-26

CONSULIER ENGINEERING, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
YEARS ENDED DECEMBER 31, 2002 AND 2001

### NOTE 16 - COMMITMENTS

On January 15, 2003 the Company entered into an agreement for the production of CRA-Z Soap. The Company committed to purchase approximately \$100,000 of CRA-Z Soap. Expected delivery of the CRA-Z Soap is during the second quarter of 2003.

On April 16, 2002, the Company entered into an agreement granting a line of credit of up to \$900,000, at an interest rate of 4% per annum, payable on demand, to Asset Assistance Group, LLC ("AAG"). The line of credit expires one year from April 16, 2002. Further, in consideration for the line of credit, the Company was granted an option to acquire 95% of AAG. That option expires one year from April 16, 2002 and has an exercise price of \$950. As of December 31, 2002, no amount was outstanding under the line of credit.

## Edgar Filing: CONSULIER ENGINEERING INC - Form 10KSB

On August 14, 2002 the Company entered into a revolving credit agreement ("borrowing") with a financial institution in an amount not to exceed \$2,000,000. The borrowings under this agreement bear interest at either a LIBOR based rate plus a margin of 2.10% or at the financial institution's Prime rate less 0.075%, depending upon the rate chosen by the Company. The borrowings are secured by primarily all assets of the Company and by collateral pledged by the principal shareholder, including a partnership, WBM Investors Limited Partnership, a limited partner of AVM, L.P. of which the Company has a approximately a 10% investment at December 31, 2002. The revolving credit agreement matures on August 1, 2003. The Company has no outstanding balance under the borrowing at December 31, 2002.

### NOTE 17 - SALE OF INTEREST IN SOUTHEAST

The Company sold seventy percent of the common stock of its wholly-owned subsidiary, Southeast, to executive officers of Southeast, in exchange for 45,000 shares of the Company's common stock, and a promissory note initially estimated to be approximately \$1,600,000 payable to the Company by Southeast for its pre-existing debt to the Company, secured by Southeast's assets, the common stock in Southeast and the purchasers' personal guarantees, limited to the cash in Southeast at December 31, 2002 of approximately \$228,000. The note, which balance is subject to certain adjustments based upon actual book balances of certain of Southeast's assets and liabilities, bears interest at 6% and is payable in monthly installments of principal and interest of approximately \$9,600 beginning February 20, 2003 through January 20, 2033. The effective date of the sale on December 31, 2002 and the closing was held on February 5, 2003.

Although the Company will retain a minority interest in Southeast, due to the significant portion of the sales proceeds being in the form of a note receivable collateralized by substantially all assets of Southeast, the Company will continue to account for Southeast as a consolidated subsidiary.
