ABOUT THE ANNUAL MEETING

What is the Purpose of the Meeting?

At the Annual Meeting, stockholders will elect directors and transact any other business as may properly come before the meeting or any adjournments or postponements thereof. In addition, our management will report on our performance during 2005 and respond to questions from stockholders.

Who is Entitled to Vote?

Only holders of record of common stock as of the close of business on the record date, August 28, 2006, are entitled to receive notice of the Annual Meeting and to vote at the Annual Meeting (or any adjournment or postponement thereof) the shares that they held on the record date. Each share of common stock will entitle its holder to one vote on each matter properly brought before the Annual Meeting. As of August 28, 2006, there were 18,464,341 common shares outstanding.

What Constitutes a Quorum?

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the common shares on the record date will constitute a quorum, permitting us to conduct the business of the meeting. Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the Annual Meeting, but will not be counted for any other purpose. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power for that particular item and has not received instructions as to that item from the beneficial owner. Since current members of the Board of Directors control more than 50% of the outstanding common stock, a quorum will be available without Trinsic incurring the expense of soliciting proxies.

How Do I Vote?

If you were a stockholder of record on the record date, you or your legally constituted proxy may attend the Annual Meeting and vote your shares. If your shares are held in the name of a bank, broker or other holder of record, you must obtain a proxy, executed in your favor, from the holder of record to be able to vote at the Annual Meeting.

Can I Vote by Telephone or Electronically?

No. You or your legally constituted proxy must vote in person at the meeting.

What Vote is Required to Approve Each Item?

The affirmative vote of a plurality of the votes cast at the Annual Meeting is required for the election of directors and any other matter properly brought to a vote. Members of the Board of Directors controlling more than 50% of the outstanding shares have announced their intention to vote for the two nominees identified in this Information Statement. Accordingly, the two nominees will be re-elected to the Board of Directors.

How Will Votes be Counted?

All votes will be tabulated by Andrew L. Graham, Vice President and Secretary, who will serve also as Inspector of Election. Although abstentions and broker non-votes are included in the determination of the number of shares present, they are not counted on any matters brought before the meeting.

Do I have any Dissenter's or Appraisal Rights?

No. There no dissenter's rights or rights of appraisal in connection with the election of directors.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Two directors are to be elected at the Annual Meeting. Currently, the Board of Directors is divided into three classes. Class I consists of three directors and Classes II and III each consist of two directors. Class I currently has one vacancy. All directors within a class have the same terms of office as all other directors in the same class. The class terms expire at successive annual meetings so that each year a class of directors is elected. The current terms of the three classes of directors expire in 2006 (Class III directors), 2007 (Class I directors) and 2008 (Class II directors). Directors are elected for three-year terms or to serve the remainder of an unexpired three-year term. Each of the Class III directors elected at the 2006 Annual Meeting will be elected to serve a three-year term.

The Board of Directors has nominated the following persons to stand for election as Class III directors at the 2006 Annual Meeting of Stockholders, with terms expiring in 2009:

Lawrence C. Tucker
Roy Neel

Members of the Board of Directors controlling more than 50% of the outstanding shares have announced their intention to vote for the two nominees identified in this Information Statement. Accordingly, the two nominees will be re-elected to the Board of Directors.

WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED NOT TO SEND A PROXY.

AUDIT COMMITTEE REPORT

To The Board of Directors:

The Audit Committee oversees Trinsic's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the company's financial statements and reporting process, including its systems of internal controls. The company's independent auditors are responsible for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles.

In fulfilling its oversight responsibilities, the Audit Committee reviewed with management (which has the primary responsibility for the company's financial statements and reporting process, including its systems of internal controls) the audited financial statements in the Annual Report and discussed with management the quality, in addition to the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

In addition, the Audit Committee met various times with the company's independent auditors, with and without management present. The independent auditors are responsible for expressing an opinion on the conformity of the financial statements with generally accepted accounting principles. In these meetings, the Audit Committee discussed with the independent auditors, among other things, the overall scope and plans for their audit, the results of their examinations, their evaluations of the company's internal controls, and the overall quality of the company's financial reporting. The Audit Committee also reviewed with the independent auditors their judgments as to the quality, not just the acceptability, of the company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. Furthermore, the Audit Committee discussed with the independent auditors their independence from management and the company, including the matters in the written disclosures required by the Independence Standards Board. Specifically, the Audit Committee discussed with the independent auditors the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards, AU § 380) and it received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the company's Annual Report on Form 10-K for the year ended December 31, 2005 as filed with the Securities and Exchange Commission.

COMPENSATION COMMITTEE REPORT

To The Board of Directors:

Role of the Compensation Committee; Philosophy

The Compensation Committee is a committee of the Board of Directors to which authority has been delegated to approve and monitor the executive compensation and benefits programs of Trinsic, Inc. and its subsidiaries (collectively the Company), to administer and make awards under the company s equity participation plans and to monitor and supervise the administration of the Trinsic, Inc. 401-K Plan (the 401-K Plan).

The primary objectives of the Compensation Committee as set forth in the Compensation Committee Charter are

(1) To assure that the Company s executive compensation and benefits programs and awards under its equity plans

Are competitive with other growing companies in the Company s industry;

Safeguard the interests of the Company and its stockholders;

Are effective in driving performance to achieve financial goals and create stockholder value;

Foster teamwork on the part of management and non-management employees;

Are cost effective and fair to employees, management and stockholders; and

Are well communicated and understood by the participants;

(2) To assure investor confidence in the integrity of the Company s process for determining executive compensation; and

(3) To assure the Company fulfills its fiduciary obligations in its administration of the 401-K Plan.

The Committee s philosophy with respect to executive compensation is to establish comparatively low base salaries and place substantial emphasis on stock-based compensation, which we view to be very effective at correlating executive compensation with corporate performance and increases in stockholder value. In setting the compensation levels for the chief executive officer and other executive officers, we use our own judgment considering many factors, including comparisons to the levels of compensation paid to similarly situated executives in other companies and a variety of quantitative performance measures such as revenue, earnings and cash flow, all with due regard to management s projections and the competitive and regulatory environment in which the company operates. In 2004, we retained a compensation consulting firm, Hewitt Associates LLC, to assist us. Hewitt provided us with an executive compensation study.

Equity Participation Plans

The company has three equity participation plans: the 1998 Equity Participation Plan, the 2000 Equity Participation Plan and the 2004 Stock Incentive Plan. The 1998 Equity Participation Plan was terminated in 2000, although options

remain outstanding under that plan. The 2000 Equity Participation Plan and the 2004 Stock Incentive Plan authorize us to award, among other things, non-qualified and incentive stock options, restricted stock, deferred stock and stock appreciation rights to employees and consultants, while the full Board administers stock-based awards to independent directors. Under the 2000 Equity Participation Plan and the 2004 Stock Incentive Plan, we select the employees and consultants to whom awards are to be made, determine the number of shares to be subject to awards and the terms and conditions of the awards, and make all other determinations and take all other actions necessary or advisable for the administration of the plan with respect to employees or consultants.

Table of Contents

As of May 1, 2006, 269,107 shares of common stock were available for issuance under the 2000 Equity Participation Plan. The 2000 Equity Plan is an evergreen plan. On the first day of each fiscal year a number of shares equal to the lesser of 60,000 or 6% of the outstanding shares of common stock are added to the plan, unless the Board of Directors sets a smaller number. The exercise price of stock options awarded under the 2000 Equity Participation Plan is generally made at no less than fair market value on the date of the award. During 2005, we awarded options to purchase 226 shares and we awarded 24,000 shares of restricted stock under the 2000 Equity Plan.

As of May 1, 2006, 828,850 shares were available for issuance under the 2004 Stock Incentive Plan. During 2005, we did not award any options to purchase stock and we granted 301,533 shares of restricted stock under the 2004 Stock Incentive Plan.

2005 Compensation for the Chief Executive Officer

The general policies described above for the compensation of the executive officers also apply to the compensation approved by Compensation Committee during 2005 for the company's chief executive officer. After the resignation of D. Gregory Smith in August 2004, Horace J. Davis III, the company's chief financial officer, assumed the additional role of chief executive officer, eventually relinquishing the role of chief financial officer. We subsequently increased Mr. Davis' base annual salary from \$200,000 to \$300,000. We also awarded Mr. Davis a bonus of \$30,000. Based upon the executive compensation study provided to us by Hewitt Associates LLC, our compensation consulting firm, and our own observations we believe Mr. Davis' annual salary is relatively lower than the salaries of other chief executive officers in comparable situations. Mr. Davis has an employment agreement with the company, the initial term of which will expire in August 2008. The agreement currently provides for (i) a base salary of \$300,000, (ii) automatic renewal for subsequent one year terms (subject to nonrenewal by either party 90 days prior to the end of the term), (iii) the payment of his base salary and benefits for one year in the event of termination without cause, (iv) the payment of 2.9 times his base salary and any incentive or bonus paid in the prior year if termination of employment occurs within six months before or two years after a change in control, and (v) deemed termination of employment without cause (at his election) if certain specified events occur within six months of a change in control. Under the agreement, Mr. Davis also agreed to certain non-competition and nonsolicitation covenants.

This report has been provided by the Compensation Committee.

Thereafter, each independent director also receives automatically options to purchase an additional 220 shares of our common stock at the time of each annual meeting of stockholders at which such director is reelected. Options received by independent directors under the 2000 Equity Participation Plan have exercise prices not less than the fair market value of the company's common shares at the date of the grant, expire ten years after the date of the grant and vest over four years. The 2000 Equity Participation Plan and the 2004 Stock Incentive Plan also permit discretionary grants of stock options to independent directors. We did not grant any discretionary options to directors during 2005.
