RJO FINANCIAL SERVICES, INC. DBA RESERVE MORTGAGE SERVICES
NOTES TO FINANCIAL STATEMENTS
December 31, 2003 and 2002

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

RJO Financial Services, Inc. dba Reserve Mortgage Services (the Company) was incorporated on February 7, 1994 and, since August 1998, has been in the business of originating mortgage loans (primarily conventional mortgages) and the subsequent placement with financial institutions at the time of closing.

Revenue Recognition

Substantially all of the Company's operating revenues are recognized at the time a mortgage loan is closed. These loans are then subsequently placed with financial institutions that have, prior to closing, committed to purchase the loans. The loans are sold without recourse.

Property and Equipment

Property and equipment are stated at cost or appraised value. Depreciation is provided using primarily double declining methods over the estimated useful lives of the assets that range from 5-7 years.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include cash and all highly liquid investments purchased with an original maturity of three months or less.

Concentration of Credit Risk

The Company is a mortgage banker located in northeast Ohio and grants credit to the purchasers of loans that it originates, substantially all of which are financial institutions.

The Company maintains cash balances at a financial institution located in Ohio. The Federal Deposit Insurance Corporation insures deposits up to \$100,000. The Company's uninsured cash balance was \$155,073 and \$30,691 at December 31, 2003, and 2002, respectively. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash.

Use of Estimates

In preparing the Company's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising expense

Advertising costs are expensed as incurred. Advertising costs expensed during 2003 and 2002 amounted to \$69,334 and \$97,782, respectively.
