Independent Auditor s Report

Kookmin Bank

We have audited the accompanying consolidated balance sheets of Kookmin Bank (the Bank) and its subsidiaries as of December 31, 2002 and 2001, and the related consolidated statements of income, changes in shareholders equity, and cash flows for the years then ended, expressed in Korean Won. These consolidated financial statements are the responsibility of the Bank s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Kookmin Credit Card Co., Ltd., Kookmin Futures Co., Ltd., Kookmin Bank Luxembourg S.A., and Kookmin Finance HK Ltd., whose statements represent 7.4% of total assets as of December 31, 2002 and 16.2% of total revenues for the year then ended. Also, we did not audit the financial statements of subsidiaries, Kookmin Credit Card Co., Ltd., Kookmin Leasing Co., Ltd., Kookmin Venture Capital Co., Ltd., Kookmin Futures Co., Ltd., Kookmin Investment Co., Ltd., Kookmin Bank Luxembourg S.A., Kookmin Finance HK Ltd., Kookmin Bank Finance Asia Ltd., and Kookmin Leasing & Finance (Hong Kong) Ltd., whose statements represent 6.9% of total assets as of December 31, 2001 and 18.1% of total revenues for the year then ended. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these entities, is based solely on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Kookmin Bank and its subsidiaries as of December 31, 2002 and 2001, and the results of their operations, the changes in their shareholders—equity and their cash flows for the years then ended in conformity with financial accounting standards for consolidated financial statements generally accepted in the Republic of Korea.

Without qualifying our opinion, we draw your attention to the following matters.

As discussed in Note 32 to the consolidated financial statements, the Bank completed the legal consolidation with H&CB as of October 31, 2001. Despite the legal form of consolidation, the business combination was accounted for as an acquisition with the Bank as acquirer of H&CB s total assets of (Won)67,742,958 million and liabilities of (Won)64,381,185 million. The Bank s registration statement with the Securities and Exchange Commission of the United States of America was declared effective on September 10, 2001, and the new shares of the Bank are listed on New York Stock Exchange as American Depositary Shares (ADS) since November 1, 2001.

Samil Accounting Corporation is the Korean member firm of PricewaterhouseCoopers. PricewaterhouseCoopers refers to the network of member firms of PricewaterhouseCoopers International Limited, each of which is a separate and independent legal entity.

As discussed in Note 2 to the consolidated financial statements, during the current period, the rates for determining allowances for consumer loans and credit cards loans were changed, in preparation for the increasing risk of loan losses due to the increase of consumer loans and credit cards, as follows.

	Allowance Rates	Allowance Rates after Changes			
Credit Risk Classification	before Changes	Consumer	Credit Cards		
Normal	0.50%	0.75%	1.00%		
Precautionary	2.00%	8.00%	12.00%		
Sub-standard	20.00%	20.00%	20.00%		
Doubtful	50.00%	55.00%	60.00%		
Estimated loss	100.00%	100.00%	100.00%		

As a result of the changed allowance rates, for the year ended December 31, 2002, the Bank provided additional allowances of (Won)274,673 million for consumer loans and (Won)87,035 million for credit cards loans, resulting in a decrease of (Won)361,708 million in net income before income tax expenses.

Kookmin Credit Card, a subsidiary of the Bank, had been providing for loan losses under the Regulation on Supervision of Credit-Specialized Financial Business in prior years. However, from the current period, to better provide for increased risks against losses on credit card receivables, Kookmin Credit Card revised its provision policy based on the historical loan loss rates and expectations on future redemption amounts. Due to this change, for the year ended December 31, 2002, Kookmin Credit Card provided additional allowances of (Won)397,158 million resulting in a decrease of (Won)397,158 million in net income before income taxes.

As discussed in Note 1 and 18 to the consolidated financial statements, the Bank sold 65.43% of its 85.43% investment in Alpha Capital Corp. (Jooeun Leasing Co., Ltd. until prior period) and (Won)172,024 million of its loans to Sun Capital Inc. for (Won)145,000 million on August 30, 2002. The Bank also sold an additional 5.03% of its investment in Alpha Capital Corp. to Sun Capital Inc. for (Won)900 million on October 28, 2002.

As discussed in Note 18 to the consolidated financial statements, the Bank sold its 87.00% ownership of Kookmin Investment Trust Management Co., Ltd. and 88.66% ownership of Kookmin Leasing Co., Ltd. to Morgan Stanley Private Equity, the M&A private funds led by Morgan Stanley Global Emerging Markets Inc. and affiliated funds, and Sun Capital Inc. on May 29, 2002 and December 27, 2002, respectively.

As a result of the changes in the scope of the subsidiaries of the Bank, assets of (Won)788,924 million and liabilities of (Won)615,097 million which were included in the consolidated financial statements as of December 31, 2001, were excluded from the consolidated financial statements as of December 31, 2002.

As discussed in Note 1 to the consolidated financial statements, Kookmin Venture Capital Co., Ltd. merged with Frontier Investment Co., Ltd.
and Kookmin Investment Co., Ltd. on December 31, 2001 and June 27, 2002, respectively, to avoid duplicate investments. Kookmin Venture
Capital Co., Ltd., Frontier Investment Co., Ltd., and Kookmin Investment Co., Ltd. had been subsidiaries of the Bank as of December 31, 2001

Accounting principles and auditing standards and their application in practice vary among countries. The accompanying consolidated financial statements are not intended to present the financial position, results of operations, and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying consolidated financial statements are for use by those who are knowledgeable about Korean accounting principles or auditing standards and their application in practice.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2002 and 2001

1. The Consolidated Company;

The accompanying consolidated financial statements have been prepared in accordance with financial accounting standards and the relevant laws and regulations of the Republic of Korea. The accompanying consolidated financial statements include the banking accounts and trust accounts, subject to guaranteed fixed rates of return or principal repayment, of Kookmin Bank and its consolidated subsidiaries (the Consolidated Company). General information on Kookmin bank and its controlled subsidiaries is described below.

The Bank -

Kookmin Bank (the Bank) was established in 1963 under the Citizens National Bank Act to provide and administer funds for financing the general public and small businesses. Pursuant to the repeal of the Citizens National Bank Act effective January 5, 1995, the Bank has conducted its operations in accordance with the provisions of the General Banking Act.

The Bank merged with Korea Long Term Credit Bank (KLB) on December 31, 1998 and with Daegu, Busan, Jeonnam Kookmin Mutual Savings & Finance Co., Ltd. on August 22, 1999. Also, under the decision of the Financial Supervisory Commission in accordance with the Act concerning the Structural Improvement of the Financial Industry, the Bank purchased certain assets, including the loans classified as normal or precautionary, and assumed most of the liabilities of Daedong Bank as of June 29, 1998. The Bank completed the legal consolidation with H&CB as of October 31, 2001 (See Note 32).

The Bank had its shares listed on the Korea Stock Exchange since September 1994. As a result of the business combination with H&CB, the former shareholders of the Bank and H&CB received new common shares of the Bank on the basis of a pre-determined ratio. The new common shares of the Bank were relisted on the Korea Stock Exchange on November 9, 2001. The Bank s paid-in capital amounts to (Won)1,641,293 million as of December 31, 2002. Also, as of December 31, 2002, 37,728,214 shares of the Bank are listed on the New York Stock Exchange as American Depositary Shares (ADS) (See Note 19).

The Bank is engaged in the banking and trust business according to the provisions of the General Banking Act and the Trust Business Act and operates through 1,336 domestic branches and offices (including ATMs) and 3 overseas branches as of December 31, 2002.

Trust Accounts of the Bank -

According to the accounting and reporting guidelines by the banking regulatory authorities, the accompanying consolidated financial statements include trusts subject to guaranteed fixed rates of return or principal repayment. Total assets of consolidated and non-consolidated trusts of the Consolidated Company at December 31, 2002 and 2001 are as follows (in millions of Won):

Those adjustments pertain mostly to periods before December 31, 2001.

2. Summary of Significant Accounting Policies:

The significant accounting policies followed by the Consolidated Company in the preparation of the accompanying consolidated financial statements are summarized below.

Basis of Consolidated Financial Statement Presentation -

The official accounting records of the Bank and its subsidiaries, except for foreign subsidiaries, are maintained in Korean Won in accordance with financial accounting standards and the relevant laws and regulations of the Republic of Korea. Such basis of accounting and presentation is not in conformity with International Accounting Standards, which, if applied, would give rise to material adjustments to the financial statements.

The Bank maintains its official accounting records in Korean Won and prepares statutory financial statements in the Korean language in conformity with the accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Bank that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been condensed, restructured and translated into English from the Korean language financial statements. Some information attached to the Korean language financial statements, but not required for a fair presentation of the Bank s financial position, results of operations or cash flows, is not presented in the accompanying financial statements.

The preparation of the consolidated financial statements in conformity with financial accounting standards requires management to make estimates and assumptions that affect amounts reported therein. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may differ from those estimates.

2.	Summary	of Signif	ficant Acc	ounting P	Policies.	Continued:

Accounting Policies of Consolidated Companies -

The financial statements of the Consolidated Company are prepared in conformity with generally accepted financial accounting standards and the relevant laws and regulations of the Republic of Korea. The relevant laws and regulations that differ from generally accepted financial accounting standards are as follows:

Relevant Laws and Regulations

The Bank and Trust Accounts

Kookmin Credit Card Co., Ltd.

Kookmin Investment Co., Ltd.

KB Investment Trust Mgt. Co., Ltd

Kookmin Futures Co., Ltd. KB Real Estate Trust Co., Ltd. KB Credit Information Co., Ltd. Accounting Standards of Banking Industry, General Banking Act, and Trust Business Act

Loan Specialization Financial Business Act, and Credit Card Business Act

Act on support for foundation of small and medium-sized companies, and Loan Specialization Financial Business Act

Securities Investment Trust Business Act, and Accounting Standards for Securities Investment Trust Business

Supervisory Guidelines on Futures Trading

Trust Business Act

Act on the use and protection of credit information

Principles of Consolidation -

The Bank records differences between the cost basis of investment accounts and the corresponding capital accounts of subsidiaries at the time of acquisition as goodwill.

When net losses attributable to minority interests exceed the minority interest in the equity of the subsidiary, the excess is charged to the equity of the Bank. When the subsidiaries report income, the minority interest portion of such income is allocated to the equity of the Bank until the minority interest s share of net losses previously charged to the Bank has been fully recovered.

If the fiscal year-end of subsidiaries is different from that of the Bank, financial statements of such subsidiaries were prepared as of and for the year then ended December 31 for consolidation purposes.

All significant intercompany transactions and account balances among the consolidated company are eliminated in consolidation.
Recognition of Interest Income -
The Consolidated Company recognizes interest income on loans and debt securities on an accrual basis. However, interest income on delinquent and dishonored loans and debt securities, other than those subject to security deposits and guaranteed by financial institutions, is recognized on a cash basis.
<u>Translation of Foreign Currency</u> -
Assets and liabilities denominated in foreign currencies are translated into Korean Won at exchange rates announced by Seoul Money Brokerage Services, Ltd. at the balance sheet date. The resulting exchange gains or losses are reflected in other operating income or expenses.
The exchange rate used to translate foreign currency denominated assets and liabilities are (Won)1,200.4: US\$1, (Won)1,925.02: GBP1, (Won)1,257.36: EUR1 and (Won)1,012.87: JPY100 at December 31, 2002 and (Won)1,326.1: US\$1, (Won)1,923.11: GBP1, (Won)1,172.60: EUR1 and (Won)1,009.4: JPY100 at December 31, 2001, respectively.

2. Summary of Significant Accounting Policies, Continued;

Loans -

Until November 30, 2002, the Consolidated Company regarded granting lines of credit under import usance letters of credit, as guarantees and acceptances outstanding (acceptances on letters of credit), and provided allowances only for the transactions classified as sub-standard or below according to the credit risk classifications. However, under the revised Enforcement Regulations on Supervision of Banking Business, effective on December 1, 2002, those transactions are regarded as loans in foreign currencies (domestic usance bills) and borrowings in foreign currencies and the Bank provided allowances for loan losses under the same criteria for regular loans. As a result, as of December 31, 2002, loans in foreign currencies and borrowings in foreign currencies have been both increased by (Won)981,379 million, and allowances for guarantees and acceptances outstanding have been decreased by (Won)11,568 million and allowances for loan losses have been increased by (Won)18,866 million.

Allowances for Loan Losses -

Allowances are determined by applying at minimum the following rates to the outstanding balances of each credit risk classification.

	Credit Ratings			
	before Changes	after Changes	Allowance Rates	
Normal	AAA ~ B	AAA ~ B	0.5%	
Precautionary	CCC	B-, CCC	2%	
Sub-standard	CC	CC	20%	
Doubtful	C	C	50%	
Estimated loss	D	D	100%	

However, the Bank does not apply the FLC to small-sized corporate loans, consumer loans, and credit cards. Alternatively, the bank classifies such loans by considering the current financial status including delinquent number of days, bankruptcies and collateral value. During the current period, the rates used for determining the allowances for small-sized corporate loans, consumer loans, and credit cards were changed as follows:

	Allowance Rates	Allowance	e Rates after Cha	nges
	before Changes	Small-sized Corporate	Consumer	Credit Cards
Normal	0.50%	0.50%	0.75%	1.00%
Precautionary	2.00%	2.00%	8.00%	12.00%
Sub-standard	20.00%	20.00%	20.00%	20.00%
Doubtful	50.00%	50.00%	55.00%	60.00%
Estimated loss	100.00%	100.00%	100.00%	100.00%

As a result of the changed allowance rates for the year ended December 31, 2002, the Bank provided additional allowances of (Won)274,673 million for consumer loans and (Won)87,035 million for credit cards loans resulting in a decrease of (Won)361,708 million in net income before income tax expenses.

Subsidiaries of the Bank recognize provision for loan losses based on a credit risk classification of loans and receivables in accordance with accounting standards for related subsidiaries industry and relevant laws and regulations. The material difference between the provision for loan losses of a subsidiary and that applied by FLC of the Bank is accounted for as additional provision (See Note 1).

December 31, 2002 and 2001

2. Summary of Significant Accounting Policies, Continued;
Allowances for Loan Losses, Continued-
Kookmin Credit Card, a subsidiary of the Bank, had been providing for loan losses under the Regulation on Supervision of Credit-Specialized Financial Business in prior years. However, from the current period, to better provide for increased risks against losses on credit card receivables, Kookmin Credit Card revised its provision policy based on the historical loan loss rates and expectations on future redemption amounts. Due to this change, for the year ended December 31, 2002, Kookmin Credit Card provided additional allowances of (Won)397,158 million resulting in a decrease of (Won)397,158 million in net income before income taxes.
Present Value Discounts -
Troubled debt restructuring loans, which are modified as to outstanding principal, interest rate, and/or maturity under programs such as workout, court receivership, court mediation, or debt restructuring agreements of parties concerned, are carried at present value if the difference between the book value and the present value of the restructured loan is significant. When estimating the present value of the loans, the Consolidated Company applies the interest rate as of the inception of the loans, except for the interest rate of variable rate loans and extended maturity loans, which are adjusted to reflect the interest rate as of the restructuring date. The present value discounts are recorded by reclassifying allowances for loan losses and if additional allowances need to be provided for, the additional allowances are provided and recognized as provision for loan losses of the current period. These present value discounts are amortized using the effective interest method and are recognized as interest income. Allowances for loan losses on the restructured loans are provided for based on the loan balances net of present value discounts.
The Consolidated Company recorded (Won)21,156 million and (Won)28,868 million of present value discounts as of December 31, 2002 and 2001, respectively, on long-term deposits placed with Hansol Mutual Savings & Finance Co., Ltd. (previously, Bukook Mutual Savings & Finance Co., Ltd.), a subsidiary of the Bank sold in December 1999 (See Note 3). The receivables from the disposal of foreclosed assets that are redeemed in long-term installments are recorded in the balance sheet net of the related present value discounts.
Securities -
Marketable securities held for short-term capital gain purposes, which exclude stocks issued by associates and debt securities held to maturity, are classified as trading securities. Securities that are not classified as trading securities are classified as investment securities.

Securities are recorded at cost at acquisition, including incidental expenses, using the moving-average or specific identification method. The subsequent valuation methods used for the securities are summarized as follows:

	Valuation	Recognition of Unrealized	
	Method	Gains and Losses	
Trading securities	Fair value	Net income	
Investment securities			
Available-for-sale securities and marketable equity securities	Fair value	Capital adjustments	
Held-to-maturity securities and non-marketable equity	Cost	N/A	
Investment in associates	Equity	Net income, retained earnings, or capital adjustments per source of the gain or loss	

If the fair value of the investment securities are significantly below the book value and the decrease in value is anticipated to be permanent, the Consolidated Company adjusts the investment securities to their fair value and recognizes impairment losses in non-operating expenses of the current period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2002 and 2001

2. Summary of Significant Accounting Policies, Continued;

Fixed Assets and Related Depreciation -

Tangible assets are recorded at cost, except for upward revaluation of certain assets in accordance with the Korean Asset Revaluation Law. Depreciation is calculated based on the estimated average useful lives of the assets and is presented as accumulated depreciation, which is a contra account of tangible assets in the financial statements.

The estimated useful lives and depreciation methods of the tangible assets are as follows:

	Depreciation Method	Estimated Useful Life
Buildings and structures	Straight-line method	40 years
Leasehold improvements	Declining balance method	4 years
Equipment and vehicles	Declining balance method	4 years

Expenditures that enhance the value or extend the useful life of the assets involved are capitalized as additions to tangible assets. Routine maintenance and repairs are recognized as expenses as incurred.

The Consolidated Company recorded goodwill as a result of the merger with H&CB for the cost of the merger exceeding the fair value of the net assets acquired. Intangible assets including goodwill are amortized based on the following estimated average useful lives using the straight-line method and are presented in the financial statements net of accumulated amortization.

	Amortization Method	Estimated Useful Life
Goodwill	Straight-line method	9 years
Trademarks	Straight-line method	1-10 years
Others	Straight-line method	7-30 years

Foreclosed assets acquired through, or in lieu of, loan redemption are stated at cost and are not depreciated. A valuation allowance is recorded when the latest bidding price at a public auction is below the book value, and is presented as a contra account of foreclosed assets in the financial statements.

Stock Issuance Costs and Debenture Issuance Costs -
Stock issuance costs are deducted from paid-in capital in excess of par value. Debenture issuance costs are recorded as discounts on debentures and amortized over the maturity of the debentures using the effective interest method.
Accrued Retirement Benefits -
Employees and directors with more than one year of service as of the balance sheet date are entitled to receive a lump-sum payment upon termination of their employment with the Consolidated Company, based on their length of service and rate of pay at the time of termination. Additionally, the Bank records the contributions to pension funds, which grant the payment rights to its employees, and contributions to the national pension fund as contra accounts of accrued retirement benefits.
Guarantees and Acceptances -
By applying the credit risk classification used for loans to the guarantees and acceptances, the Consolidated Company records an allowance for losses on outstanding guarantees and acceptances according to their classification as sub-standard, doubtful, or estimated loss (allowance rates are at minimum 20%, 50% and 100%, respectively).
<u>Deferred Income Taxes</u> -
The Consolidated Company records the future tax effects of temporary differences between the financial and tax bases of assets and liabilities a deferred tax assets or liabilities. The tax effects of temporary differences arising from the cumulative effects of accounting changes are adjusted in retained earnings.

December 31, 2002 and 2001

2. Summary of Significant Accounting Policies, Continued;
Bonds under Repurchase/Resale Agreements -
Securities bought under resale agreements are recorded in loans as bonds purchased under resale agreements. Securities sold under repurchase agreements are recorded in borrowings as bonds sold under repurchase agreements.
Stock Options -
The Bank had applied the fair value method using an option-pricing model in measuring compensation cost until the prior period. However, starting from the current period, expecting a high probability of grant and exercise as stock appreciation rights, the Bank changed the measurement method to the intrinsic value method. As a result, previous amounts recorded in capital adjustments (stock options) have been reclassified into accrued expenses (See Note 14).
<u>Derivatives Instruments</u> -
Derivative financial instruments for trading or hedging purposes are valued at estimated market price and resulting unrealized gains or losses are recognized in current operations, except for the effective portion of derivative transactions entered into for the purpose of cash-flow hedges, which is recorded as an adjustment to shareholders equity.
Fair value hedge accounting is applied to a hedging transaction relationship entered into for hedging the exposure to changes in the fair value of an asset or a liability or a firm commitment (hedged item) that is attributable to a particular risk. The gain or loss, both on the hedging derivative instrument and on the hedged item attributable to the hedged risk, are recognized in current operations.
Cash flow hedge accounting is applied to a hedging transaction relationship entered into for hedging the exposure to variability in expected future cash flows of an asset or a liability or a forecasted transaction that is attributable to a particular risk. The effective portion of the gain or loss on the hedging derivative instrument designated as a cash flow hedge is recorded as a capital adjustment and the ineffective portion is

recorded in current operations. The effective portion of the gain or loss recorded as a capital adjustment is reclassified into current operations in the same period during which the hedged forecasted transaction affects earnings. If the hedged transaction results in the acquisition of an asset or

the incurrence of a liability, the gain or loss recorded in capital adjustment is added to or deducted from the asset or the liability.

National	Housing	Fund -	-

The Consolidated Company, as designated by the Korean Government under the Housing Construction Promotion Law, manages the sources and uses of funds of the National Housing Fund (the NHF) and records the related NHF account in other liabilities. In addition, the Bank pays interest, which is computed by multiplying the average balance of the NHF account by the passbook deposit interest rate, to the NHF.

Gains and Losses on Trust Management -

The Bank's trust accounts (the Trust Accounts) recognize as an expense the trust commissions paid to the banking accounts, which is equivalent to the total trust revenue less total trust expenses and trustee benefits (including the guaranteed principal and minimum rate of return). The Bank recognizes these trust commissions as a gain on trust management in other operating income. The trust fees on money trusts consist of base fees of $0.5\% \sim 2.0\%$ (depending on trust fund types) and special fees applied to the invested capital.

Translation of the Foreign Currency Financial Statements of Foreign Entities -

Accounting records of the overseas branches are maintained in a foreign currency prevailing in their respective countries. For the purpose of presentation in the accompanying financial statements, the financial statements of the branches have been translated into Korean Won, using exchange rates published by Seoul Money Brokerage Services, Ltd. as of the balance sheet dates.

The issuance limit of finance debentures issued in Won and foreign currencies is 300% of the BIS (bank for international settlements) shareholder s equity according to the Enforcement Ordinance of the Bank Law. However, these limits under the Bank Law do not apply to the Bank s long-term bank debentures issued for the repayment of the KLB debentures acquired due to the merger with KLB.

On November 25, 2002, Goldman Sachs Capital Koryo, L.P. converted \$200 million of its subordinated foreign currency convertible bonds, all of which had been outstanding as of December 31, 2001, into common stocks (See Notes 19).

14. Employee Stock Options, Continued;

The Bank had applied the fair value method using an option-pricing model in measuring compensation cost until the prior period. However, starting from the current period, expecting a high probability of grant and exercise as stock appreciation rights, the Bank changed the measurement method to the intrinsic value method. As a result, previous amounts recorded in capital adjustments (stock options) have been reclassified into accrued expenses. Compensation costs are summarized as follows (in millions of Won):

	Series 1	Series 2	Series 3	Series 5	Series 6	Series 7	Total

17. <u>Derivatives</u>:

The Consolidated Company s derivative instruments are divided between hedge derivatives and trading derivatives based on the purpose of the transaction. The Consolidated Company enter into hedge transactions mainly for the purpose of hedging fair value risks related to its assets and liabilities.

Trading derivatives include futures contracts, forward contracts, swaps, and options entered into by the Consolidated Company to meet the financing needs of its customers and to gain profit from arbitrage transactions between customers and other banks. The Consolidated Company also uses derivative instruments in managing its own trading and asset-liability management exposures to fluctuations in interest rates and foreign exchange risks.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2002 and 2001

17. **Derivatives**, Continued;

Hedge derivatives comprise mainly of interest rate swaps to hedge the fair value changes or cash flow changes arising from the interest rate risk. Some hedge purpose transactions do not qualify for hedge accounting and are thus accounted for as trading derivatives. These transactions include the hedge relationships where the hedged item is an asset or liability that is re-measured with the changes in fair value attributable to the hedged risk reported currently in earnings or where the hedged item cannot be individually identified.

For the derivative instruments for cash flow hedging purposes, the period in which the forecasted transactions are expected to occur is within 63 months from December 31, 2002, and all deferred losses recorded in capital adjustments at that date are expected to be included in the determination of net income within the 63-month period.

The notional amounts outstanding for derivative contracts as of December 31, 2002 and 2001 are as follows (in millions of Won):

18. <u>Commitments and Contingencies</u>:

As of December 31, 2002, 149 pending legal actions with an aggregate amount of claims of (Won)257,438 million are charged against the Consolidated Company and the Consolidated Company has also filed 192 lawsuits against various parties, which are still pending with an aggregate amount of claims of (Won)140,647 million. Management believes that the actions related to the Consolidated Company are without merit and that the ultimate liability, if any, will not materially affect the Bank s financial position.

The Bank, under the Mutual Savings & Finance Company Act, is liable for the payment of the deposits of Orange Mutual Savings & Finance Co., Ltd. (previously, Kookmin Mutual Savings & Finance Co., Ltd.) and Hansol Mutual Savings & Finance Co., Ltd. (previously, Bukook Mutual Savings & Finance Co., Ltd.), previously the Bank s subsidiaries but which were sold during 1999, if they enter into bankruptcy within 3 years of sale. Orange Mutual Savings & Finance Co., Ltd. is currently under going bankruptcy procedures due to the disapproval of its business by the Financial Supervisory Commission. Korea Deposit Insurance Corporation (KDIC) has paid for the deposit money subject to the Depositor Protection Act. Despite the fact that Resolution and Finance Corp. (a subsidiary of KDIC) has filed a lawsuit against the Bank for the recovery of the repayment, the resulting losses from such lawsuit is not expected to materially affect the Consolidated Company s financial statements.

The Bank has credit lines with and commitments to purchase commercial paper from asset securitization companies. Under these commitments, the Bank provides money, in case of a temporary fund shortage, for the principal and interest repayment of these companies—senior bonds within the contracted term and amounts. As of December 31, 2002, under these commitments, the aggregate committed credit line and loans outstanding are (Won)3,280,638 million and (Won)26,762 million, respectively. Also, the Bank entered into arrangements to purchase (Won)1,617,000 million of commercial papers issued by the securitization companies. The Bank has arranged various methods to compensate for losses on these credit line commitments including payment guarantees, repurchase contracts, surety certificate guarantees, and cash reserve. Also, resulting expected losses amounting to (Won)9,938 million are reserved as other allowances.

18. Commitments and Contingencies, Continued;

Pursuant to the asset securitization plans, the Bank previously sold loans to special purpose entities in previous periods. The related contracts for asset securitization stipulate the Bank s performance of warranty liability for loans sold to Kookmin &-ABS Specialty Co., Ltd. and Jooeun 5th-ABS Specialty Co., Ltd. (collectively, the SPEs) when the underlying loans are delinquent for a certain period of time or go into default. Accordingly, the Bank bears possible liabilities for collateral performance toward the SPEs within the limits of (Won)72,000 million and (Won)66,500 million, respectively, as of December 31, 2002. Kookmin Credit Card Co., Ltd., a subsidiary of the Bank sold some assets to ABS Specialty Co., Ltd and other special purpose entities. in accordance with the relevant law and the Loan Sale Contract, and the balances which have not matured as of December 31, 2002 amounted to (Won)7,710,322 million. No adjustments have been made in the accompanying financial statements related to contingent losses that may arise from these transactions.

As of December 31, 2002, loan sales to Korea Asset Management Corporation (KAMCO) are completed and the Bank provided an allowance of (Won)15,073 million for estimated losses from the repurchase of loans sold to KAMCO that are under the repurchase agreement (See Note 15).

The Bank sold 65.43% of its 85.43% investment in Alpha Capital Corp. (Jooeun Leasing Co., Ltd. until prior period) and (Won)172,024 million of its loans to Sun Capital Inc. for (Won)145,000 million on August 30, 2002. The Bank also sold an additional 5.03% of its investment in Alpha Capital Corp. to Sun Capital Inc. for (Won)900 million on October 28, 2002.

The Bank sold its 87.00% ownership of Kookmin Investment Trust Management Co., Ltd. and 88.66% ownership of Kookmin Leasing Co., Ltd. to Morgan Stanley Private Equity, the M&A private funds led by Morgan Stanley Global Emerging Markets Inc. and affiliated funds, and Sun Capital Inc. on May 29, 2002 and December 27, 2002, respectively, and the Bank recognized losses on disposal of investment securities amounting to (Won)10,752 million and (Won)365 million, respectively.

As of December 31, 2002 and 2001, the Bank holds the unexpired rights to claim from borrowers or guarantors for loans in accordance with the relevant law, which has already been written off, amounting to (Won)3,750,402 million and (Won)2,490,069 million, respectively, and that of Koomin Credit Card Co., Ltd., a subsidiary of the Bank amounted to (Won)1,016,772 million and (Won)328,007 million, respectively.

As of December 31, 2002 and 2001, the Bank holds endorsed bills amounting to (Won)9,285 million and (Won)13,474 million, respectively.

In response to the generally unstable economic conditions, the Korean government and the private sector have been implementing structural reforms to historical business practices. Implementation of these reforms is progressing slowly, particularly in the areas of restructuring private enterprises and reforming the banking industry. The Korean government continues to apply pressure to Korean companies to restructure into more efficient and profitable firms.

Certain financially troubled borrowers of the Consolidated Company including Korea Data System Co., Ltd. are experiencing a cash crisis or in the debt restructuring process under workout plans and other similar programs. As of December 31, 2002, in relation to such borrowers, total loans outstanding including guarantees and acceptances amounted to (Won)668,219 million, and the related allowances and present value discount amounted to (Won)184,641 million and (Won)5,075 million, respectively.

The Consolidated Company may be either directly or indirectly affected by these general unstable economic conditions and the reform program described above. The accompanying non-consolidated financial statements reflect management s assessment of the impact to date of the economic situation on the financial position of the Consolidated Company. Actual results may differ materially from management s current assessment.

As of December 31, 2002, the Bank has 1,000,000,000 common shares (par value: (Won)5,000) authorized and 328,258,685 shares issued and Goldman Sachs Capital Koryo, L.P., ING Bank N.V. Amsterdam, and the Korean government own 5.13%, 3.87%, and 9.33%, respectively, of the total issued shares. During the current period, Goldman Sachs Capital Koryo, L.P. sold the 14,470,000 common shares as ADSs. As a result, as of December 31, 2002, 37,728,214 common shares, equivalent to 11.49% of the total issued shares, are listed on the New York Stock Exchange as ADSs and are managed by Bank of New York, the trustee of the Bank.

Under the General Banking Act, if one single entity, other than the government or a foreign investor, owns more than 4% of total outstanding voting shares, the entity s voting rights are limited to those of 4% shareholders.

As a result of the business combination with H&CB, the shareholders of the Bank and H&CB, listed on the Register of Shareholders at October 31, 2001, received 179,775,233 new shares and 119,922,229 new shares of the Bank, respectively, at the exchange ratio of one new common share of the Bank for 1.688346 old shares of the Bank and 1 share of H&CB, respectively.

In accordance with the resolution approved during the general shareholders meeting on March 22, 2002, the Bank approved a 6% stock dividend for shareholders listed on the Register of Shareholders at December 31, 2001, and issued 17,979,954 shares.

The Bank is authorized to issue to non-shareholders convertible bonds and bonds with stock purchase warrants up to total par value amounts of (Won)2,500 billion and (Won)500 billion, respectively. On November 25, 2002, Goldman Sachs Capital Koryo, L.P. converted \$200 million of its subordinated foreign currency convertible bonds, equivalent to (Won)265,220 million, all of which had been outstanding as of December 31, 2001, into 10,581,269 shares of common stock at (Won)22,124 per share. As a result the Bank recorded (Won)180,919 million, net of stock issuance costs of (Won)275 million, as paid-in capital in excess of par value in capital surplus (See Notes 12 and 20).

20. <u>Capital Surplus</u>:

Capital surplus as of December 31, 2002 and 2001 comprises the following (in millions of Won):
