Notes to Condensed Financial Statements
September 30, 2005
(Unaudited)

PRELIMINARY NOTE

The accompanying condensed financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the interim financial statements reflect all adjustments, consisting of normal recurring accruals, which are necessary for a fair statement of the results for the period. Certain information and disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations in the period ending September 30, 2005, or since before approximately 1989. The Company intends to continue to seek out the acquisition of assets, property or business that may be beneficial to the Company and its stockholders.

The Company's only foreseeable cash requirements during the next 12 months will relate to maintaining the Company in good standing in the State of Utah, keeping its reports "current" with the Securities and Exchange Commission or the payment of expenses associated with reviewing or investigating any potential

Edgar Filing: ENERGROUP TECHNOLOGIES CORP - Form 10QSB

business venture. Management does not anticipate that the Company will have to raise additional funds during the next 12 months, however, if additional moneys are needed, they may be advanced by management or principal stockholders as loans to the Company. Because the Company has not identified any such venture as of the date of this Report, it is impossible to predict the amount of any such loan. However, any such loan will not exceed \$25,000 and will be on terms no less favorable to the Company than would be available from a commercial lender in an arm's length transaction. As of the date of this Report, the Company has not begun seeking any acquisition.

Results of Operations.

The Company has had no operations during the quarterly period ended September 30, 2005, or since on or before approximately 1989. During the quarterly period covered by this Report, the Company received no revenue and incurred expenses of \$702, stemming from general and administrative expenses.

Liquidity.

At September 30, 2005, the Company had total current assets of \$0 and total liabilities of \$16,458.

Item 3. Controls and Procedures.

As of the end of the period covered by this Quarterly Report, we carried out an evaluation, under the supervision and with the participation of our President and Vice President, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our President and Chief Financial Officer concluded that our disclosure controls and procedures are effective at ensuring that information required to be disclosed or filed by us is recorded, processed or summarized, within the time periods specified in the rules and regulations of the Securities and Exchange Commission. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. In addition, we reviewed our internal controls over financial reporting, and there have been no changes in our internal controls or in other factors in the last fiscal quarter that has materially affected our internal controls over financial reporting.

PART II - OTHER INFORMATION
