AGNICO EAGLE MINES LIMITED

U.S.\$220,000,025.64

5,003,412 Common Shares

This prospectus supplement of Agnico Eagle Mines Limited (the "Company") qualifies the distribution of 5,003,412 common shares ("Common Shares") of the Company (the "Offering") directly to the Subscriber (as defined herein). The closing of the Offering is expected to occur on or about March 31, 2017, or such other date as may be agreed upon by the Company and the Subscriber.

The outstanding common shares of the Company are listed on the New York Stock Exchange (the "NYSE") and the Toronto Stock Exchange (the "TSX") under the symbol "AEM". On March 27, 2017, the last trading day prior to the date of the public announcement of the Offering, the closing price of the Company's common shares on the NYSE was U.S.\$44.64 and on the TSX was C\$59.71. The offering price of the Common Shares was determined by negotiation between the Company and the Subscriber. The Company has applied to list the Common Shares on the NYSE and the TSX. Listing of the Common Shares will be subject to the Company fulfilling all of the listing requirements of the NYSE and the TSX.

Price: U.S.\$43.97 per Common Share

Investing in the Company's common shares involves risks. See "Risk Factors" beginning on page S-5 of this prospectus supplement.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SEC OR ANY STATE SECURITIES COMMISSION NOR HAS THE SEC OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS SUPPLEMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The Offering is made by a foreign issuer that is permitted, under a multijurisdictional disclosure system adopted by the United States, to prepare this prospectus supplement in accordance with the disclosure requirements of Canada. Prospective investors should be aware that such requirements are different from those of the United States. Financial statements included or incorporated by reference herein have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board, and may be subject to foreign auditing and auditor independence standards, and thus may not be comparable to financial statements of United States companies.

Prospective investors should be aware that the acquisition of the securities described herein may have tax consequences both in the United States and in Canada. Such consequences for investors who are residents in, or citizens of, the United States may not be fully described herein. See "Certain Canadian Federal Income Tax Considerations" and "Certain United States Federal Income Tax Considerations".

The enforcement by investors of civil liabilities under U.S. federal securities laws may be affected adversely by the fact that the Company is incorporated under the laws of Ontario, that most of its officers and directors are residents of a foreign country, that some or all of the experts named in the registration statement are residents of a foreign country, and that all or a substantial portion of the assets of the Company and said persons are located outside the United States.

	Price to the Subscriber	Proceeds to the Company ⁽¹⁾

ABOUT THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this prospectus supplement, which describes the terms of the Offering and also supplements and updates information contained in the accompanying Prospectus and the documents incorporated by reference herein and therein. The second part is the accompanying Prospectus which gives more general information, some of which may not apply to the Offering. This prospectus supplement is deemed to be incorporated by reference into the Prospectus solely for the purposes of the Offering constituted by this prospectus supplement.

Only the information contained or incorporated by reference in the accompanying Prospectus, including this prospectus supplement, should be relied upon. The Company has not authorized any other person to provide different information. If anyone provides different or inconsistent information, it should not be relied upon. The Common Shares may not be offered or sold in any jurisdiction where the offer or sale is not permitted. Unless otherwise indicated, the statistical, operating and financial information contained in this prospectus supplement is presented as at March 27, 2017. It should be assumed that the information appearing in this prospectus supplement, the Prospectus and the documents incorporated by reference herein and therein is accurate only as of the respective dates of such documents. The Company's business, financial condition, results of operations and prospects may have changed since those dates.

In this prospectus supplement, unless stated otherwise, "Company", "we", "us" and "our" refer to Agnico Eagle Mines Limited.

The Company publishes its consolidated financial statements, including the Annual Financial Statements (as defined below), in United States dollars ("U.S. dollars"). Unless otherwise indicated, all references to "\$", "U.S.\$" or "dollar" in this prospectus supplement refer to U.S. dollars and "C\$" refers to Canadian dollars. For information purposes, the noon buying rate in Canadian dollars as reported by the Bank of Canada on March 27, 2017 was U.S.\$1.00 = C\$1.3368.

The Company reports its financial results using IFRS. The Company adopted IFRS as its basis of accounting, replacing United States generally accepted accounting principles effective July 1, 2014, with a transition date of January 1, 2013. Unless otherwise stated herein, all financial statement data used in this prospectus supplement were prepared in accordance with IFRS.

**NOTE TO INVESTORS CONCERNING ESTIMATES OF
MINERAL RESERVES AND MINERAL RESOURCES**

The mineral reserve and mineral resource estimates contained in or incorporated by reference in this prospectus supplement or the accompanying Prospectus have been prepared in accordance with the Canadian Securities Administrators' National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101"). These standards are similar to those used by the SEC's Industry Guide No. 7, as interpreted by Staff at the SEC ("Guide 7"). However, the definitions in NI 43-101 differ in certain respects from those under Guide 7. Accordingly, mineral reserve information contained or incorporated by reference herein may not be comparable to similar information disclosed by U.S. companies. Under the requirements of the SEC, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. The SEC does not recognize measures of "mineral resource".

The mineral reserve and mineral resource data presented in this prospectus supplement, the Prospectus and in documents incorporated by reference herein and therein are estimates, and no assurance can be given that the anticipated tonnages and grades will be achieved or that the indicated level of recovery will be realized. The Company does not include equivalent gold ounces for by-product metals contained in mineral reserves in its calculation of contained ounces.

Cautionary Note to Investors Concerning Estimates of Measured and Indicated Mineral Resources

This prospectus supplement, the accompanying Prospectus and documents incorporated by reference herein and therein use the terms "measured mineral resources" and "indicated mineral resources". Investors are advised that while those terms are recognized and required by Canadian regulations, the SEC does not

Table of Contents

recognize them. **Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves.**

Cautionary Note to Investors Concerning Estimates of Inferred Mineral Resources

This prospectus supplement, the accompanying Prospectus and documents incorporated by reference herein and therein use the term "inferred mineral resources". Investors are advised that while this term is recognized and required by Canadian regulations, the SEC does not recognize it. "Inferred mineral resources" have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that any part or all of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian regulations, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases. **Investors are cautioned not to assume that any part or all of an inferred mineral resource exists, or is economically or legally mineable.**

For definitions of certain terms used in this section, see the Company's annual information form for the year ended December 31, 2016 (the "AIF") filed with the Canadian Securities Administrators on the System for Electronic Document Analysis and Retrieval ("SEDAR") on March 27, 2017.

NOTE TO INVESTORS CONCERNING CERTAIN MEASURES OF PERFORMANCE

This prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein disclose certain measures, including "total cash costs per ounce", "all-in sustaining costs per ounce" and "minesite costs per tonne" that are not recognized measures under IFRS. These measures may not be comparable to similar measures reported by other gold producers. For a reconciliation of these measures to the most directly comparable financial information presented in the Annual Financial Statements prepared in accordance with IFRS, and for an explanation of how management uses these measures, please see the Company's management discussion and analysis for the period ended December 31, 2016 (the "Annual MD&A") filed with the Canadian Securities Administrators on SEDAR on March 27, 2017.

The total cash costs per ounce of gold produced is reported on both a by-product basis (deducting by-product metal revenues from production costs) and co-product basis (before deducting by-product metal revenues). The total cash costs per ounce of gold produced on a by-product basis is calculated by adjusting production costs as recorded in the consolidated statements of income (loss) for by-product revenues, unsold concentrate inventory production costs, smelting, refining and marketing charges and other adjustments, and then dividing by the number of ounces of gold produced. The total cash costs per ounce of gold produced on a co-product basis is calculated in the same manner as the total cash costs per ounce of gold produced on a by-product basis except that no adjustment is made for by-product metal revenues. Accordingly, the calculation of total cash costs per ounce of gold produced on a co-product basis does not reflect a reduction in production costs or smelting, refining and marketing charges associated with the production and sale of by-product metals. The total cash costs per ounce of gold produced is intended to provide information about the cash-generating capabilities of the Company's mining operations. Management also uses these measures to monitor the performance of the Company's mining operations. As market prices for gold are quoted on a per ounce basis, using the total cash costs per ounce of gold produced on a by-product basis measure allows management to assess a mine's cash-generating capabilities at various gold prices. All-in sustaining costs per ounce is used to show the full cost of gold production from current operations. The Company calculates all-in sustaining costs per ounce of gold produced on a by-product basis as the aggregate of total cash costs per ounce on a by-product basis, sustaining capital expenditures (including capitalized exploration), general and administrative expenses (including stock options) and reclamation expenses, divided by the number of ounces of gold produced. The all-in sustaining costs per ounce of gold produced on a co-product basis is calculated in the same manner as the all-in sustaining costs per ounce of gold produced on a by-product basis except that the total cash costs per ounce on a co-product basis is used, meaning no adjustment is made for by-product metal revenues. The Company's methodology for calculating all-in sustaining costs per ounce may differ from the methodology used by other producers that disclose all-in sustaining costs per ounce. The Company may change the methodology it uses to calculate all-in sustaining costs per ounce in the future, including in response to the adoption of formal industry guidance regarding this measure by the World Gold Council.

Table of Contents

Management is aware that these per ounce measures of performance can be affected by fluctuations in exchange rates and, in the case of total cash costs per ounce of gold produced on a by-product basis, by-product metal prices. Management compensates for these inherent limitations by using these measures in conjunction with minesite costs per tonne as well as other data prepared in accordance with IFRS.

Management also performs sensitivity analyses in order to quantify the effects of fluctuating exchange rates and metal prices. This prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein also contain information as to estimated future total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne. The estimates are based upon the total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne that the Company expects to incur to mine gold at its mines and projects and, consistent with the reconciliation of these actual costs referred to above, do not include production costs attributable to accretion expense and other asset retirement costs, which will vary over time as each project is developed and mined. It is therefore not practicable to reconcile these forward-looking financial measures to the most comparable IFRS measure.

FORWARD-LOOKING STATEMENTS

The information contained in this prospectus supplement has, unless otherwise specified, been prepared as of March 27, 2017 and, unless otherwise specified, the information contained in the accompanying Prospectus and the documents incorporated by reference herein and therein has been prepared as of the respective dates of such documents. Certain statements contained in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein, referred to herein as "forward-looking statements", constitute "forward-looking information" under the provisions of Canadian provincial securities laws and constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. These statements relate to, among other things, the Company's plans, objectives, expectations, estimates, beliefs, strategies and intentions and can generally be identified by the use of words such as "anticipate", "believe", "budget", "could", "estimate", "expect", "forecast", "likely", "may", "plan", "project", "schedule", "should", "target", "will", "would" or other variations of these terms or similar words. Forward-looking statements in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein include, but are not limited to, the following:

the Company's outlook for 2017 and future periods;

statements regarding future earnings, and the sensitivity of earnings to gold and other metal prices;

anticipated levels or trends for prices of gold and by-product metals mined by the Company or for exchange rates between currencies in which capital is raised, revenue is generated or expenses are incurred by the Company;

estimates of future mineral production and sales;

estimates of future costs, including mining costs, total cash costs per ounce, all-in sustaining costs per ounce, minesite costs per tonne and other costs;

estimates of future capital expenditures, exploration expenditures and other cash needs, and expectations as to the funding thereof;

statements regarding the projected exploration, development and exploitation of ore deposits, including estimates of exploration, development and production and other capital costs and estimates of the timing of such exploration, development and production or decisions with respect thereto;

estimates of mineral reserves and mineral resources and their sensitivities to gold prices and other factors, ore grades and mineral recoveries and statements regarding anticipated future exploration results;

estimates of cash flow;

estimates of mine life;

S-4

anticipated timing of events at the Company's mines, mine development projects and exploration projects;

estimates of future costs and other liabilities for environmental remediation;

statements regarding anticipated legislation and regulations, including with respect to climate change, and estimates of the impact on the Company; and

other anticipated trends with respect to the Company's capital resources and results of operations.

Forward-looking statements are necessarily based upon a number of factors and assumptions that, while considered reasonable by the Company as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. The factors and assumptions of the Company upon which the forward-looking statements in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein are based, and which may prove to be incorrect, include the assumptions set out in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein, as well as: that there are no significant disruptions affecting the Company's operations, whether due to labour disruptions, supply disruptions, damage to equipment, natural or man-made occurrences, mining or milling issues, political changes, title issues or otherwise; that permitting, development and expansion at each of the Company's mines, mine development projects and exploration projects proceed on a basis consistent with expectations, and that the Company does not change its exploration or development plans relating to such projects; that the exchange rates between the Canadian dollar, Euro, Mexican peso and the U.S. dollar will be approximately consistent with current levels or as set out in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein; that prices for gold, silver, zinc and copper will be consistent with the Company's expectations; that prices for key mining and construction supplies, including labour costs, remain consistent with the Company's expectations; that production meets expectations; that the Company's current estimates of mineral reserves, mineral resources, mineral grades and mineral recoveries are accurate; that there are no material delays in the timing for completion of development projects; and that there are no material variations in the current tax and regulatory environments that affect the Company.

The forward-looking statements in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein reflect the Company's views as at the respective dates of such documents and involve known and unknown risks, uncertainties and other factors which could cause the actual results, performance or achievements of the Company or industry results to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the risk factors set out under "Risk Factors" in this prospectus supplement and the AIF, and under "Risk Profile" in the Annual MD&A, as well as in the Company's other filings with the Canadian Securities Administrators and the SEC. Given these uncertainties, investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. Except as otherwise required by law, the Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any such statements to reflect any change in the Company's expectations or any change in events, conditions or circumstances on which any such statement is based.

RISK FACTORS

An investment in the Common Shares involves certain risks. Before making an investment decision, prospective investors should carefully consider all of the information in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein and, in particular, should evaluate the following risk factors and those set out under the heading "Risk Factors" in the AIF and under the heading "Risk Profile" in the Annual MD&A. However, the risks described herein and therein are not the only ones facing the Company. Additional risks not currently known to the Company or that the Company currently deems immaterial may also impair the Company's business operations.

Table of Contents

Future sales or issuances of securities of the Company.

Significant shareholders may sell their common shares of the Company. The Company may also issue additional securities to finance future activities. The Company cannot predict the size of future issuances of securities or the effect, if any, that future issuances and sales of securities will have on the market price of the Common Shares. Sales or issuances of substantial numbers of common shares of the Company, or the perception that such sales could occur, may adversely affect prevailing market prices of the Common Shares. With any additional issuance of common shares of the Company, investors will suffer dilution to their voting power and the Company will experience dilution in its earnings per share.

Potential unenforceability of civil liabilities and judgments.

The Company is incorporated under the laws of the Province of Ontario, Canada. The majority of the Company's directors and officers and certain of the experts named in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein are residents of Canada. Also, almost all of the Company's assets and the assets of these persons are located outside of the United States. As a result, it may be difficult for shareholders to initiate a lawsuit within the United States against these non-U.S. residents, or to enforce judgments in the United States against the Company or these persons which are obtained in a U.S. court. See "Enforceability of Certain Civil Liabilities".

THE COMPANY

The Company is an established Canadian based international gold producer with mining operations in northwestern Quebec, northern Mexico, northern Finland and Nunavut and exploration activities in Canada, Europe, Latin America and the United States. The Company's operating history includes over three decades of continuous gold production, primarily from underground operations. Since its formation on June 1, 1972, the Company has produced approximately 14.4 million ounces of gold.

The Company's strategy is to deliver high quality growth while maintaining high performance standards in health, safety, environmental matters and social acceptability; build a strong pipeline of projects to drive future production; and employ the best people and motivate them to reach their potential. Over the past eight years, the Company transformed itself from a regionally focused, single mine producer to a multi mine international gold producer with seven operating, 100% owned mines, one operating 50% owned mine, and the Meliadine advanced development project.

The Company announced on February 15, 2017 that it intends to build mining operations at the Amaruq satellite deposit at Meadowbank and the Meliadine project, both of which are expected to commence mining operations in the third quarter of 2019.

The following table sets out the date of acquisition, the date of commencement of construction, the date of achieving commercial production and the estimated mine life for the Company's mines.

Mine	Date of Acquisition ⁽¹⁾	Date of Commencement of Construction	Date of achieving Commercial Production	Estimated Mine Life ⁽²⁾

Construction of infrastructure for purposes of mining the Goldex Extension Zone (the "GEZ") commenced in July 2005 and the GEZ achieved commercial production in August 2008. Mining operations on the GEZ have been suspended since October 2011. In late 2013, mining and production began from the M and E Zones of the Goldex mine.

S-6

Table of Contents

Since 1988, the LaRonde mine, in the Abitibi region of Quebec, has been the Company's flagship operation, producing approximately 5.3 million ounces of gold as well as valuable by products. The Lapa mine is 11 kilometres east of the LaRonde mine, and the Goldex mine, which achieved commercial production from the M and E Zones in October 2013, is 60 kilometres east of the LaRonde mine. The synergies between these sites contribute to the Company's efforts to reduce costs. The Company's 50% owned Canadian Malartic mine, also in the Abitibi region of Quebec, was acquired in June 2014. The Kittila mine in Finland, has a long reserve life and has significant production expansion potential. The Company's Meadowbank mine, in Nunavut, is expected to produce the most gold (approximately 320,000 ounces) of any of the Company's mines in 2017. The Pinos Altos mine, in Mexico, has significant production expansion potential. In addition, the Company plans to pursue opportunities for growth in gold production and gold reserves through the prudent acquisition or development of exploration properties, development properties, producing properties and other mining businesses in the Americas and Europe.

In 2016, the Company produced 1,662,888 ounces of gold at production costs per ounce of gold of \$621 and total cash costs per ounce of gold on a by-product basis of \$573 and at all-in sustaining costs per ounce of \$824 on a by-product basis. For 2017, the Company expects to produce approximately 1,555,000 ounces of gold at total cash costs per ounce of gold on a by-product basis between \$595 and \$625 and at all in sustaining costs per ounce between \$850 and \$900 on a by-product basis. See "Note to Investors Concerning Certain Measures of Performance" for a discussion of the use of the non GAAP measures total cash costs per ounce and all in sustaining costs per ounce. The Company has traditionally sold all of its production at the spot price of gold due to its general policy not to sell forward its future gold production.

USE OF PROCEEDS

The estimated net proceeds to the Company of the Offering will be approximately \$213.1 million, determined after deducting the expenses of the Offering payable by the Company, which expenses are estimated to be \$6.9 million. The net proceeds of the Offering will be used for general corporate purposes.

CONSOLIDATED CAPITALIZATION

The following table sets forth the consolidated cash and cash equivalents, short-term investments and restricted cash and capitalization of the Company as at December 31, 2016, both actual and as adjusted to reflect the issuance of the Common Shares pursuant to the Offering and the estimated net proceeds to the Company of \$213.1 million from the Offering. This table should be read in conjunction with the Annual Financial Statements and the Annual MD&A, each incorporated by reference into this prospectus supplement and the Prospectus.

	As at December 31, 2016

Table of Contents

(4)

The Company's authorized share capital consists of an unlimited number of common shares. As at December 31, 2016 (actual), there were 225,465,654 common shares of the Company issued and outstanding. Assuming the closing of the Offering on December 31, 2016, there would have been 230,469,066 common shares of the Company issued and outstanding as at such date. As at March 27, 2017 (actual), there were 225,969,140 common shares of the Company issued and outstanding. Assuming the closing of the Offering on March 27, 2017, there would have been 230,972,552 common shares of the Company issued and outstanding as at such date.

PLAN OF DISTRIBUTION

The Common Shares will be issued directly to one or more funds managed and advised by Capital Research and Management Company (collectively, the "Subscriber") under a purchase agreement between the Company and the Subscriber dated March 27, 2017. The closing of the Offering under the purchase agreement is subject to customary conditions and is expected to occur on or about March 31, 2017, or such other date as may be agreed upon by the Company and the Subscriber. The offering price of the Common Shares was determined by negotiation between the Company and the Subscriber. The Subscriber has agreed that until 90 days after the date of the closing of the Offering, it will not, directly or indirectly, offer or sell in any of the provinces or territories of Canada or to or for the account of any person who the Subscriber knows or has reasonable grounds to believe is in Canada any Common Shares. The Company has not engaged the services of any underwriters in connection with the distribution of the Common Shares hereunder; however, fees of \$4.4 million and \$2.2 million will be payable by the Company to Maxit and Sprott, respectively, upon closing of the Offering for financial advisory services provided in connection with the Offering. The head office of the Subscriber is located in the United States.

The expenses of the Offering payable by the Company are estimated to be \$6.9 million.

The Common Shares are registered in the United States under the United States Securities Act of 1933, as amended, in accordance with the multijurisdictional disclosure system adopted by the SEC and by the Canadian Securities Administrators. This prospectus supplement does not qualify the distribution of the securities to which it relates in any of the provinces of Canada.

The Company has applied to list the Common Shares on the NYSE and the TSX. Listing of the Common Shares will be subject to the Company fulfilling all of the listing requirements of the NYSE and the TSX.

The Common Shares will be delivered in electronic form through the Depository Trust Company on closing of the Offering.

CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the principal tax considerations under the *Income Tax Act* (Canada) (the "Canadian Tax Act") generally applicable to a purchaser of Common Shares that: (i) is not a resident and is not deemed to be a resident of Canada for purposes of the Canadian Tax Act or any applicable tax treaty or convention; (ii) holds the Common Shares as capital property; (iii) deals at arm's length and is not affiliated with the Company; and (iv) does not use or hold (and is not deemed to use or hold) the Common Shares in the course of carrying on a business in Canada (a "Non-Resident Holder"). Special rules, which are not discussed in this summary, may apply to a Non-Resident Holder that is an insurer that carries on an insurance business in Canada and elsewhere. This summary is based upon the current provisions of the Canadian Tax Act and its regulations, all specific proposals to amend the Canadian Tax Act and the regulations publicly announced by or on behalf of the Minister of Finance (Canada) before the date of this prospectus supplement (the "Tax Proposals"), and on the published administrative practices of the Canada Revenue Agency ("CRA"). This summary does not address all of the tax considerations that may be relevant to any particular holder and, except for the Tax Proposals, does not take into account or anticipate any changes in law, whether by legislative, governmental or judicial decision or action, or any changes in the administrative practices of the CRA. This summary does not take into account tax legislation of any province, territory or foreign jurisdiction. Provisions of provincial or territorial income tax legislation vary among provinces and territories in Canada and may differ from federal income tax legislation.

This summary is of a general nature only and is not intended to be legal or tax advice to any particular purchaser of Common Shares. Accordingly, prospective purchasers of Common Shares should consult their own tax advisors about the specific tax consequences to such holders of purchasing, holding or disposing of Common Shares.

Dividends on Common Shares

Dividends paid or credited or deemed to be paid or credited to a Non-Resident Holder on Common Shares will be subject to withholding tax under the Canadian Tax Act at a rate of 25%, subject to reduction under the provisions of an applicable income tax treaty or convention. For example, under the Canada United States Income Tax Convention (the "Treaty"), the withholding tax rate in respect of a dividend paid to a person who is the beneficial owner of the dividend and is resident in the United States for purposes of, and entitled to full benefits under, the Treaty, is generally reduced to 15% (or potentially to 0%, in the case of some fully or partially tax-exempt organizations).

Table of Contents

Certain entities (including most limited liability companies) that are treated as being fiscally transparent for U.S. federal income tax purposes will not qualify as residents of the United States and therefore will not be entitled to relief from Canadian tax under the provisions of the Treaty. However, the Treaty allows certain U.S. resident owners of transparent entities to enjoy benefits of the Treaty under certain circumstances. Prospective purchasers of Common Shares should consult their own tax advisors to determine their entitlement to relief from Canadian tax under the provisions of the Treaty based on their particular circumstances.

Disposition of Common Shares

A Non-Resident Holder will not be subject to tax under the Canadian Tax Act on any capital gain realized on a disposition of a Common Share, unless the Common Share is or is deemed to be "taxable Canadian property" to the Non-Resident Holder for the purposes of the Canadian Tax Act and the gain realized by the Non-Resident Holder on the disposition of the Common Share is not exempt from tax under the Canadian Tax Act or under an applicable income tax convention between Canada and the country in which the Non-Resident Holder is resident.

Generally, provided the Common Shares are listed on a "designated stock exchange" (as defined in the Canadian Tax Act), which includes the TSX and the NYSE, at the time of disposition, the Common Shares will not constitute taxable Canadian property of a Non-Resident Holder, unless at any time during the 60-month period immediately preceding the disposition, the Non-Resident Holder, persons with whom the Non-Resident Holder did not deal at arm's length, or the Non-Resident Holder together with all such persons, owned 25% or more of the issued common shares or any other class of shares of the Company. Notwithstanding the foregoing, in certain circumstances set out in the Canadian Tax Act, the Common Shares may be deemed to be taxable Canadian property. Non-Resident Holders whose Common Shares constitute taxable Canadian property should consult with their own tax advisors.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the principal U.S. federal income tax considerations to a U.S. Holder (as defined below) regarding the acquisition, ownership and disposition of Common Shares. This summary applies only to U.S. Holders who acquire Common Shares and who hold such Common Shares as capital assets. This summary is based upon current U.S. federal income tax law, as in effect on the date of this prospectus supplement. Changes in the laws may alter the tax treatment of Common Shares, possibly with retroactive effect.

This summary does not purport to be a comprehensive description of all the possible U.S. federal income tax considerations that may be relevant to a decision to acquire, hold, or dispose of Common Shares. This summary is of a general nature and is not, and should not be construed as, legal or tax advice to any particular U.S. Holder, and no representation is made with respect to the U.S. federal income tax consequences to any U.S. Holder. This summary does not address the effects of any state, local, U.S. estate or gift tax, foreign or other tax laws. In addition, it does not address all tax considerations that may be relevant to a U.S. Holder in light of a U.S. Holder's particular circumstances, nor does it apply to a U.S. Holder having a special status, such as:

a U.S. Holder that owns, or is treated as owning, 10% or more of the Company's voting shares, including direct and indirect subsidiaries of the Company;

a dealer in securities or currencies;

a trader in securities that elects to use a mark-to-market method of accounting for securities holdings;

a bank, mutual fund, life insurance company or other financial institution;

a tax-exempt organization;

a U.S. Holder that holds Common Shares as part of a straddle, hedge, constructive sale or other integrated transaction for tax purposes;

Edgar Filing: AGNICO EAGLE MINES LTD - Form SUPPL

an S corporation or small business investment company;

a U.S. Holder whose functional currency for tax purposes is not the U.S. dollar;

S-12

Table of Contents

a U.S. Holder liable for alternative minimum tax;

a U.S. Holder subject to U.S. federal income taxation as an expatriate; or

a U.S. Holder that is treated as a partnership or other pass-through entity for U.S. federal income tax purposes.

This summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), U.S. Treasury Regulations promulgated thereunder, the Treaty, court decisions, revenue rulings and procedures issued by the Internal Revenue Service (the "IRS"), and such other federal authorities as have been deemed relevant, in each case as of the date of this prospectus supplement. U.S. federal income tax laws and regulations, and the interpretations thereof, are subject to change, which could adversely affect the accuracy of the information presented in this summary. Should there be any change, including any change having retroactive effect, in the Code, the regulations thereunder and the administrative guidance issued thereunder, or in the prevailing judicial interpretation of the foregoing, this summary would necessarily have to be re-evaluated in light of such change.

U.S. HOLDERS SHOULD CONSULT THEIR OWN ADVISORS REGARDING THE U.S. TAX CONSEQUENCES OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF COMMON SHARES IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES.

For purposes of this discussion, a "U.S. Holder" means a beneficial owner of a Common Share that is, for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the U.S. or any political subdivision thereof;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if (a) a U.S. court can exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all of the substantial decisions of the trust, or (b) if a valid election is in effect to be treated as a U.S. person.

This summary does not describe U.S. federal income tax consequences applicable to a U.S. Holder that is treated as a partnership or other pass-through entity for U.S. federal income tax purposes. If a partnership (or limited liability company or other entity that is treated as a partnership for U.S. federal income tax purposes) holds Common Shares, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners of partnerships (or entities treated as partnerships) holding Common Shares should consult their own tax advisors.

Distributions

Any dividends on Common Shares are expected to be declared and paid in U.S. dollars. In the event that dividends are paid to U.S. Holders in a currency other than the U.S. dollar, such U.S. Holder will have dividend income as described below in an amount equal to the U.S. dollar value of the dividend at the time the dividend is received, in accordance with the exchange rate in effect on the date the dividend is properly included in income, and whether or not the other currency is converted into U.S. dollars at that time. Any gain or loss recognized by a U.S. Holder on a subsequent sale or exchange of the foreign currency will generally be United States source ordinary income or loss. The U.S. Holder may also have foreign currency gain or loss at the time the dividend is converted into U.S. dollars. Subject to the discussion under "Passive Foreign Investment Company" below, the gross amount of any distribution (other than in liquidation) generally will be treated as a foreign source taxable dividend to the extent paid out of the Company's current or accumulated earnings and profits, as determined for U.S. federal income tax purposes, even though the U.S. Holder may receive only a portion of the gross amount after giving effect to the Canadian withholding tax as reduced by the Treaty. Dividend income generally will be foreign source income and generally will be "passive category income" for U.S. foreign tax credit purposes. U.S. Holders are advised to consult their own tax advisors with respect to the availability

Edgar Filing: AGNICO EAGLE MINES LTD - Form SUPPL

of the U.S. foreign tax credit in light of their particular circumstances. Dividend income on the Common Shares held by certain non-corporate U.S. Holders, including individuals and certain estates and trusts, may be treated as

S-13

Table of Contents

"qualified dividend income", provided the U.S. Holder satisfies the applicable holding period and other requirements with respect to the Common Shares. Qualified dividend income generally is subject to the maximum rate applicable to long-term capital gains, which currently is 20%. The reduced tax rates generally are available only with respect to dividends received from U.S. corporations, and also from non-U.S. corporations (1) that are eligible for the benefits of a comprehensive income tax treaty with the United States that the U.S. Treasury Department determines to be satisfactory and that contains an exchange of information program, or (2) whose stock is readily tradeable on an established securities market in the United States. In addition, the reduced tax rates are not available with respect to dividends received from a foreign corporation that was a PFIC, as defined under "Passive Foreign Investment Company" below, in either the taxable year of the distribution or the preceding tax year. Special rules may apply, however, to cause such dividends to be taxable at the higher rates applicable to ordinary income. For example, the reduced tax rates are not available with respect to a dividend on shares where the U.S. Holder does not continuously own such shares for more than 60 days during the 120-day period beginning 60 days before the ex-dividend date. Other rules may apply as a condition to, or as a result of, the application of the reduced tax rate on dividends. U.S. Holders are advised to consult their own tax advisors to determine whether a distribution from the Company constitutes qualified dividend income in light of a U.S. Holder's particular circumstances. Certain taxable dividends either not treated as "qualified dividend income" or which the U.S. Holder elects to include as investment income for purposes of determining the amount of deductible investment interest expense will be taxable at the ordinary income rate to the U.S. Holder.

A distribution on the Common Shares made by the Company in excess of the Company's current or accumulated earnings and profits will be treated as a tax-free return of capital to the extent of a U.S. Holder's adjusted tax basis in the Common Shares and, to the extent in excess of adjusted basis, as capital gain from the sale of a capital asset. See "Sale or Other Disposition of Common Shares" below. Generally, no dividends received deduction will be allowed with respect to dividends paid by the Company.

As described above under "Canadian Federal Income Tax Considerations – Dividends on Common Shares", under the Treaty, Canada currently imposes withholding tax on distributions to residents of the United States entitled to the benefits of the Treaty generally at a rate of 15%. U.S. Holders generally will have the option of claiming the amount of any Canadian income taxes withheld either as a deduction from gross income or as a dollar-for-dollar credit against their U.S. federal income tax liability, subject to numerous complex limitations and restrictions which must be determined and applied on an individual basis by each shareholder. Accordingly, U.S. Holders should consult their own tax advisors concerning these rules in light of their particular circumstances.

Sale or Other Disposition of Common Shares

Subject to the discussion under "Passive Foreign Investment Company" below, in general, if a U.S. Holder sells or otherwise disposes of Common Shares in a taxable disposition, the U.S. Holder will recognize gain or loss equal to the difference (if any) between the U.S. dollar value of the amount realized on the sale or other taxable disposition and the U.S. Holder's adjusted tax basis in such Common Shares. Generally, any gain or loss will be capital gain or loss and will be long-term capital gain or loss if such U.S. Holder's holding period for the Common Shares is more than one year at the time of the sale or other taxable disposition. Generally, long-term capital gain of certain non-corporate U.S. Holders, including individuals and certain estates and trusts, will be taxable at the maximum applicable rate (which currently is 20%), provided the U.S. Holder does not elect to include the gain as investment income for purposes of determining the amount of deductible investment interest expense. A reduced rate does not apply to capital gains realized by a U.S. Holder that is a corporation. Any gains with respect to which such election is made would be taxable at the ordinary income rate applicable to the U.S. Holder. Any gain or loss will generally be treated as U.S. source income for U.S. foreign tax credit purposes. A U.S. Holder's ability to deduct capital losses (if any) is subject to limitations.

If a U.S. Holder is a cash basis taxpayer who receives foreign currency, such as Canadian dollars, in connection with a sale or other taxable disposition of Common Shares, the amount realized will be based on the U.S. dollar value of the foreign currency received with respect to such Common Shares, as determined on the settlement date of such sale or other taxable disposition, based on the applicable foreign exchange rate on that date. If a U.S. Holder is an accrual basis taxpayer who receives foreign currency, such as Canadian dollars, in

Table of Contents

connection with a sale or other taxable disposition of Common Shares, the U.S. Holder may elect the same treatment required of cash basis taxpayers with respect to a sale or other taxable disposition of Common Shares, provided the election is applied consistently from year to year. The election may not be changed without the consent of the IRS. If a U.S. Holder is an accrual basis taxpayer and does not elect to be treated as a cash basis taxpayer for this purpose, the U.S. Holder might have a foreign currency gain or loss for U.S. federal income tax purposes. This gain or loss is equal to the difference between the U.S. dollar value of the foreign currency received on the date of the sale or other taxable disposition of Common Shares and on the date of payment. Any such currency gain or loss generally will be treated as U.S. source ordinary income or loss and would be in addition to gain or loss, if any, that the U.S. Holder recognizes on the sale or other taxable disposition of Common Shares.

Passive Foreign Investment Company

In general, the Company will be a passive foreign investment company (a "PFIC") with respect to a U.S. Holder if, for any taxable year in which the U.S. Holder holds Common Shares, at least 75% of the Company's gross income consists of certain passive income or at least 50% of the value of the Company's assets is attributable to assets that produce or are held for the production of such passive income. For this purpose, "passive income" generally includes, among other things, interest, dividends, rents, royalties, certain gains from the sale of stock and securities and certain gains from commodities transactions. Active business gains arising from the sale of commodities generally are excluded from passive income if substantially all (85% or more) of a foreign corporation's commodities are stock in trade or inventory, depreciable property used in a trade or business, or supplies regularly used or consumed in the ordinary course of a trade or business.

Based on the nature of the Company's current and anticipated income, assets and activities, the Company believes that it will not be classified as a PFIC for U.S. federal income tax purposes for the current taxable year and does not expect to become a PFIC in future taxable years. However, this conclusion is a factual determination that is made annually after the end of each taxable year and thus may be subject to change or differing interpretations. In addition, the IRS or a court may disagree with the Company's position, and the Company cannot assure U.S. Holders that the Company is not currently a PFIC or that it will not become a PFIC in the future.

If the Company were a PFIC, U.S. Holders would be subject to a special, adverse tax regime that would differ in certain respects from the tax rules otherwise described herein. Each U.S. Holder should consult his, her or its own tax advisor regarding the application of the PFIC rules to an investment in the Common Shares and whether to make any of the elections provided under the PFIC rules, which may mitigate some of the adverse consequences that would result if the Company were a PFIC.

Additional Tax on Net Investment Income

U.S. Holders that are individuals, estates or trusts and whose income exceeds certain thresholds generally will be subject to a 3.8% Medicare contribution tax on net investment income, including, among other things, dividends on, and capital gains from the sale or other taxable disposition of, the Common Shares, subject to certain limitations and exceptions. Each U.S. Holder should consult his, her or its own tax advisor regarding the applicability of the tax on net investment income to such U.S. Holder in light of his, her or its particular circumstances.

Information Reporting and Backup Withholding

Dividends on Common Shares and payments of the proceeds from a sale or other disposition of Common Shares to a U.S. Holder may be subject to backup withholding (currently at a rate of 28%) unless the U.S. Holder furnishes his, her or its correct United States taxpayer identification number, and certifies, under penalty of perjury, that he, she or it has furnished his, her or its correct U.S. taxpayer identification number, and that the IRS has not notified the U.S. Holder that he, she or it is subject to backup withholding tax, generally via Form W-9, Request for Taxpayer Identification Number and Certification. Such dividends and proceeds may be subject to information reporting.

Edgar Filing: AGNICO EAGLE MINES LTD - Form SUPPL

Table of Contents

U.S. Holders that are corporations generally are excluded from the information reporting and back-up withholding tax rules described above. Amounts withheld as backup withholding may be creditable against a U.S. Holder's U.S. federal income tax liability, and a U.S. Holder may obtain a refund of excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the IRS and furnishing required information.

All documents of the type referred to above, and any business acquisition reports and material change reports (excluding confidential material change reports), filed by the Company with any securities commission or similar regulatory authority in Canada subsequent to the date of this prospectus supplement and prior to the termination of the distribution of the Common Shares under this prospectus supplement shall be deemed to be incorporated by reference into this prospectus supplement and the accompanying Prospectus.

To the extent that any document or information incorporated by reference into this prospectus supplement is included in a report that is filed with or furnished to the SEC on Form 40-F or Form 6-K (or any respective successor form), such document or information shall also be deemed to be incorporated by reference as an exhibit to the registration statement on Form F-10 of which this prospectus supplement forms a part. In addition, the Company may incorporate by reference into this prospectus supplement documents that it files with or furnishes to the SEC pursuant to Section 13(a) or 15(d) of the United States Securities Exchange Act of 1934, as amended, if and to the extent expressly provided therein.

Any statement contained in this prospectus supplement, the Prospectus or in a document incorporated or deemed to be incorporated by reference herein or therein for the purposes of the Offering shall be deemed to be modified or superseded for the purposes of this prospectus supplement and the Prospectus to the extent that a statement contained herein, or in any other subsequently filed document which also is incorporated or is deemed to be incorporated by reference in this prospectus supplement or the Prospectus, modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document which it modifies or supersedes. The making of a modifying or superseding statement will not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus supplement or the Prospectus for the purposes of the Offering.

Information has been incorporated by reference in this prospectus supplement from documents filed with the Canadian Securities Administrators and the SEC. Copies of the documents incorporated by reference herein may be obtained on request without charge from the Corporate Secretary, Agnico Eagle Mines Limited, 145 King Street East, Suite 400, Toronto, Ontario, Canada M5C 2Y7 (telephone (416) 947-1212), and are also available electronically at www.sedar.com and www.sec.gov.

ENFORCEABILITY OF CERTAIN CIVIL LIABILITIES

The Company is incorporated under the laws of the Province of Ontario, Canada. The majority of the Company's directors and officers and certain of the experts named in this prospectus supplement, the accompanying Prospectus and the documents incorporated by reference herein and therein are residents of Canada. Also, almost all of the Company's assets and the assets of these persons are located outside of the United States. As a result, it may be difficult for shareholders to initiate a lawsuit within the United States against these non-U.S. residents, or to enforce judgments in the United States against the Company or these persons which are obtained in a U.S. court. The Company's Canadian counsel, Davies Ward Phillips & Vineberg LLP, has advised the Company that a monetary judgment of a U.S. court predicated solely upon the civil liability provisions of U.S. federal securities laws would likely be enforceable in Canada if the U.S. court in which the judgment was obtained had a basis for jurisdiction in the matter that was recognized by a Canadian court for such purposes. The Company cannot provide assurance that this will be the case. It is less certain that an action could be brought in Canada in the first instance on the basis of liability predicated solely upon the civil liability provisions of U.S. federal securities laws.

DOCUMENTS FILED AS PART OF THE U.S. REGISTRATION STATEMENT

The following documents have been filed with the SEC as part of the U.S. registration statement of which this prospectus supplement forms a part: the documents referred to under "Documents Incorporated by Reference"; the consent of Ernst & Young LLP; the consent of each of the Qualified Persons named as having prepared or certified any part of the U.S. registration statement, or named as having prepared or certified a report or valuation for use in connection with the U.S. registration statement; and the powers of attorney from directors and the authorized representative.

This offering is made by a foreign issuer that is permitted, under a multijurisdictional disclosure system adopted by the United States, to prepare this prospectus in accordance with the disclosure requirements of Canada. Prospective investors should be aware that such requirements are different from those of the United States. Financial statements included or incorporated herein, if any, have been prepared in accordance with foreign generally accepted accounting principles, and may be subject to foreign auditing and auditor independence standards, and thus may not be comparable to financial statements of United States companies.

Prospective investors should be aware that the acquisition of the securities described herein may have tax consequences both in the United States and in the home country of the Registrant. Such consequences for investors who are resident in, or citizens of, the United States may not be described fully herein.

The enforcement by investors of civil liabilities under the federal securities laws may be affected adversely by the fact that the registrant is incorporated or organized under the laws of the Province of Ontario, that some or all of its officers and directors may be residents of a foreign country, that some or all of the underwriters or experts named in the registration statement may be residents of a foreign country, and that all or a substantial portion of the assets of the Registrant and said persons may be located outside the United States.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION NOR HAS THE COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

This short form base shelf prospectus has been filed under legislation in all provinces of Canada that permits certain information about these securities to be determined after this prospectus has become final and that permits the omission from this prospectus of that information. The legislation requires the delivery to purchasers of a prospectus supplement containing the omitted information within a specified period of time after agreeing to purchase any of these securities.

No securities regulatory authority in Canada or the United States has expressed an opinion about these securities and it is an offence to claim otherwise. This short form base shelf prospectus constitutes a public offering of securities only in those jurisdictions where they may lawfully be offered for sale and therein only by persons permitted to sell such securities.

Information has been incorporated by reference in this short form base shelf prospectus from documents filed with the securities commissions or similar regulatory authorities in each of the provinces of Canada and the United States Securities and Exchange Commission. Copies of the documents incorporated herein by reference may be obtained on request without charge from the Corporate Secretary, Agnico Eagle Mines Limited, 145 King Street East, Suite 400, Toronto, Ontario, Canada M5C 2Y7 (telephone (416) 947-1212), and are also available electronically at www.sedar.com and www.sec.gov.

ABOUT THIS PROSPECTUS

Only the information contained or incorporated by reference in this prospectus should be relied upon. The Company has not authorized any other person to provide different information. If anyone provides different or inconsistent information, it should not be relied upon. The Securities offered hereunder may not be offered or sold in any jurisdiction where the offer or sale is not permitted. Unless otherwise indicated, the statistical, operating and financial information contained in this prospectus is presented as at September 4, 2015. It should be assumed that the information appearing in this prospectus and the documents incorporated by reference herein are accurate only as of their respective dates. The Company's business, financial condition, results of operations and prospects may have changed since those dates.

In this prospectus, unless stated otherwise, the "Company", "we", "us" and "our" refer to Agnico Eagle Mines Limited and its consolidated subsidiaries.

The Company publishes its consolidated financial statements in United States dollars ("US dollars"). Unless otherwise indicated, all references to "\$", "US\$" or "dollar" in this prospectus refer to US dollars and "C\$" refers to Canadian dollars. For information purposes, the noon buying rate in Canadian dollars as reported by the Bank of Canada (the "Noon Buying Rate") on September 3, 2015 was US\$1.00 = C\$1.3199.

The Company reports its financial results using International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board. The Company adopted IFRS as its basis of accounting, replacing United States generally accepted accounting principles effective July 1, 2014, with a transition date of January 1, 2013. Unless otherwise stated herein, all financial statement data used herein were prepared in accordance with IFRS.

**NOTE TO INVESTORS CONCERNING ESTIMATES
OF MINERAL RESERVES AND MINERAL RESOURCES**

The mineral reserve and mineral resource estimates contained in or incorporated by reference in this prospectus have been prepared in accordance with the Canadian securities regulatory authorities' National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101"). These standards are similar to those used by the United States Securities and Exchange Commission's (the "SEC") Industry Guide No. 7 ("Guide 7"), as interpreted by Staff at the SEC. However, the definitions in NI 43-101 differ in certain respects from those under Guide 7. Accordingly, mineral reserve and mineral resource information contained or incorporated by reference herein may not be comparable to similar information disclosed by U.S. companies. Under the requirements of the SEC, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. The SEC does not recognize measures of "mineral resource".

The mineral reserve and mineral resource data presented in this prospectus and in documents incorporated by reference herein are estimates, and no assurance can be given that the anticipated tonnages and grades will be achieved or that the indicated level of recovery will be realized. The Company does not include equivalent gold ounces for byproduct metals contained in mineral reserves in its calculation of contained ounces.

Cautionary Note to Investors Concerning Estimates of Measured and Indicated Resources

This prospectus and documents incorporated by reference herein use the terms "measured mineral resources" and "indicated mineral resources". Investors are advised that while those terms are recognized and required by Canadian regulations, the SEC does not recognize them. **Investors are cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into reserves.**

Cautionary Note to Investors Concerning Estimates of Inferred Resources

This prospectus and documents incorporated by reference herein use the term "inferred mineral resources". Investors are advised that while this term is recognized and required by Canadian regulations, the SEC does not recognize it. "Inferred mineral resources" have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral

Table of Contents

resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases. **Investors are cautioned not to assume that any part or all of an inferred mineral resource exists, or is economically or legally mineable.**

For definitions of the terms used in this section, see the Company's annual information form for the year ended December 31, 2014 (the "AIF") filed with the Canadian securities regulatory authorities on the System for Electronic Document Analysis and Retrieval ("SEDAR") on March 25, 2015.

NOTE TO INVESTORS CONCERNING CERTAIN MEASURES OF PERFORMANCE

This prospectus and the documents incorporated by reference herein present certain measures, including "total cash costs per ounce", "all-in sustaining costs per ounce" and "minesite costs per tonne", that are not recognized measures under IFRS. This data may not be comparable to data disclosed by other gold producers. A reconciliation of these measures to the most directly comparable financial information presented in the consolidated financial statements prepared in accordance with IFRS is set out (i) in respect of the data for the year ended December 31, 2014, in the Company's management's discussion and analysis for the year ended December 31, 2014 filed with the Canadian securities regulatory authorities on SEDAR on March 25, 2015, and (ii) in respect of the three months and six months ended June 30, 2015, in the Company's management's discussion and analysis for the three and six months ended June 30, 2015 filed with the Canadian securities regulatory authorities on SEDAR on August 12, 2015. The Company believes that these generally accepted industry measures are realistic indicators of operating performance and are useful in allowing year over year comparisons. However, these non-IFRS measures should be considered together with other data prepared in accordance with IFRS, and these measures, taken by themselves, are not necessarily indicative of operating costs or cash flow measures prepared in accordance with IFRS. This prospectus and the documents incorporated by reference herein also contain information as to estimated future total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne. The estimates of total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne are based upon the total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne that the Company expects to incur to mine gold at its projects and, consistent with the reconciliation of these actual costs referred to above, do not include production costs attributable to accretion expense and other asset retirement costs, which will vary over time as each project is developed and mined. It is therefore not practicable to reconcile these forward-looking non-IFRS financial measures to the most comparable IFRS measure.

PROSPECTUS SUMMARY

The following information is a summary only and is to be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this prospectus and in the documents incorporated by reference herein. Capitalized terms used but not defined in this summary have the respective meanings ascribed thereto elsewhere in this prospectus. Unless otherwise indicated, the statistical, operating and financial information contained in this prospectus is presented as at September 4, 2015.

The Company

The Company is an established Canadian-based international gold producer with mining operations in northwestern Quebec, northern Mexico, northern Finland and Nunavut and exploration activities in Canada, Europe, Latin America and the United States. The Company's operating history includes over four decades of continuous gold production, primarily from underground operations. Since its formation on June 1, 1972, the Company has produced approximately 11.7 million ounces of gold.

The Company's strategy is to focus on the continued exploration, development and expansion of its properties, all of which are located in politically stable jurisdictions. The Company has spent approximately \$2.7 billion on mine development since January 1, 2010. Through this development program, the Company transformed itself from a regionally focused, single mine producer to a multi-mine international gold producer with seven operating 100% owned mines, one operating 50% owned mine, and one advanced exploration project. The Company plans to pursue opportunities for growth in gold production and gold reserves through the prudent acquisition or development of exploration properties, development properties, producing properties and other mining businesses in the Americas and Europe. As at December 31, 2014, on a contained gold ounces basis, the gold reserves of the Company were 19,976,000 ounces (258,711,000 tonnes grading on average 2.40 grams of gold per tonne).

In 2014, the Company produced 1,429,288 ounces of gold at total cash costs per ounce of \$637 on a byproduct basis and at all-in sustaining costs per ounce of \$954 on a byproduct basis. For 2015, the Company expects to produce approximately 1.6 million ounces of gold at a total cash costs per ounce of gold on a byproduct basis between \$600 and \$620 and at all-in sustaining costs per ounce between \$870 and \$890 on a byproduct basis. The expected decrease in total cash costs per ounce of gold produced on a byproduct basis in 2015 compared with 2014 is due primarily to increased production and changes in foreign exchange rates. During the six-month period ended June 30, 2015, the Company produced 807,888 ounces of gold at total cash costs per ounce of \$595 on a byproduct basis and at all-in sustaining costs per ounce of \$835 on a byproduct basis. The Company has traditionally sold all of its production at the spot price of gold due to its general policy not to sell forward its future gold production.

Recent Developments

Recent Acquisitions

On June 9, 2015, the Company completed its acquisition of all of the issued and outstanding common shares of Soltoro Ltd. ("Soltoro"), a Canadian-based mineral exploration company listed on the TSX Venture Exchange, pursuant to a court-approved plan of arrangement under the *Canada Business Corporations Act*. Under the terms of the arrangement, each shareholder of Soltoro received 0.00793 of a common share of the Company, C\$0.01 in cash and one common share of a newly-formed Ontario company named Palamina Corp. valued at approximately C\$0.02 per share. Through this transaction, the Company acquired more than 30,000 hectares of property in Jalisco State, Mexico, including the El Rayo silver-gold project and another exploration property that are contiguous with and to the east of the Company's existing El Barqueno project. Soltoro is now a wholly-owned subsidiary of the Company.

On June 11, 2015, Agnico Eagle Sweden AB ("AE Sweden") acquired from Orex Minerals Inc. ("Orex") a 55% interest in Gunnarn Mining AB ("Gunnarn"), which holds the Barsele Gold Project in northern Sweden. Consideration for the acquisition was comprised of \$6 million paid to Orex at closing and additional payments of \$2 million due to Orex on each of the first and second anniversaries of the closing. As part of the transaction,

Table of Contents

Orex received a 2% net smelter royalty on production from the project. At closing, AE Sweden, the Company, Orex and Gunnarn entered into a joint venture agreement governing the project under which AE Sweden committed to spend \$7 million on exploration at the project prior to the third anniversary of the closing, will obtain a further 15% interest in Gunnarn on the completion of a prefeasibility study in respect of the project and is the operator of the project.

Changes to the Board of Directors

During the second quarter of 2015, the Company received the resignation of Mr. Bernard Kraft due to health reasons. Mr. Kraft had been a director of the Company since 1992. To fill the vacancy created by the resignation of Mr. Kraft, Mr. Jamie Sokalsky was appointed to the board of directors of the Company.

otherwise; that permitting, development and expansion at each of the Company's mines and mine development and exploration projects proceed on a basis consistent with current expectations, and that the Company does not change its plans relating to such projects; that the exchange rates between the Canadian dollar, euro, Mexican peso and the U.S. dollar will be approximately consistent with current levels or as set out in this prospectus; that prices for gold, silver, zinc and copper will be consistent with the Company's expectations; that prices for key mining and construction supplies, including labour costs, remain consistent with the Company's current expectations; that production meets expectations; that the Company's current estimates of mineral reserves, mineral resources, mineral grades and mineral recovery are accurate; that there are no material delays in the timing for completion of development or exploration projects; and that there are no material variations in the current tax and regulatory environment that affect the Company.

The forward-looking statements in this prospectus reflect the Company's views as at the date of this prospectus and involve known and unknown risks, uncertainties and other factors which could cause the actual results, performance or achievements of the Company or industry results to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the risk factors set out under "Risk Factors" in this prospectus and the AIF, as well as in the Company's other filings with the Canadian securities regulatory authorities and the SEC. Given these uncertainties, investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. Except as otherwise required by law, the Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any such statements to reflect any change in the Company's expectations or any change in events, conditions or circumstances on which any such statement is based. This prospectus and the documents incorporated by reference herein contain information regarding anticipated total cash costs per ounce, all-in sustaining costs per ounce and minesite costs per tonne in respect of the Company or at certain of the Company's projects. The Company believes that these generally accepted industry measures are realistic indicators of operating performance and are useful in allowing year over year comparisons. Investors are cautioned that this information may not be suitable for other purposes.

RISK FACTORS

An investment in the Securities involves certain risks. Before making an investment decision, prospective purchasers should carefully consider all of the information in this prospectus and the documents incorporated by reference herein, including the relevant Prospectus Supplement, and, in particular, should evaluate the risk factors set forth under the heading "Risk Factors" in the AIF. The risks described therein are not the only ones facing the Company. Additional risks not currently known to the Company or that the Company currently deems immaterial may also impair the Company's business operations.

THE COMPANY

Overview of the Company

The Company is an established Canadian-based international gold producer with mining operations in northwestern Quebec, northern Mexico, northern Finland and Nunavut and exploration activities in Canada, Europe, Latin America and the United States. The Company's operating history includes over four decades of continuous gold production, primarily from underground operations. Since its formation on June 1, 1972, the Company has produced approximately 11.7 million ounces of gold.

The Company's strategy is to focus on the continued exploration, development and expansion of its properties, all of which are located in politically stable jurisdictions. The Company has spent approximately \$2.7 billion on mine development since January 1, 2010. Through this development program, the Company transformed itself from a regionally focused, single mine producer to a multi-mine international gold producer with seven operating 100% owned mines, one operating 50% owned mine, and one advanced exploration project. The Company plans to pursue opportunities for growth in gold production and gold reserves through the prudent acquisition or development of exploration properties, development properties, producing properties and other mining businesses in the Americas and Europe. As at December 31, 2014, on a contained gold ounces basis, the gold reserves of the Company were 19,976,000 ounces (258,711,000 tonnes grading on average 2.40 grams of gold per tonne).

In 2014, the Company produced 1,429,288 ounces of gold at total cash costs per ounce of \$637 on a byproduct basis and at all-in sustaining costs per ounce of \$954 on a byproduct basis. For 2015, the Company expects to produce approximately 1.6 million ounces of gold at a total cash costs per ounce of gold on a byproduct basis between \$600 and \$620 and at all-in sustaining costs per ounce between \$870 and \$890 on a byproduct basis. The expected decrease in total cash costs per ounce of gold produced on a byproduct basis in 2015 compared with 2014 is due primarily to increased production and changes in foreign exchange rates. During the six-month period ended June 30, 2015, the Company produced 807,888 ounces of gold at total cash costs per ounce of \$595 on a byproduct basis and at all-in sustaining costs per ounce of \$835 on a byproduct basis. The Company has traditionally sold all of its production at the spot price of gold due to its general policy not to sell forward its future gold production.

The Company operates through three business units: Northern Business, Southern Business and Exploration.

The Company's Northern Business is comprised of the Company's operations in Canada and Finland. The Company's Canadian properties include the LaRonde mine, the Lapa mine and the Goldex mine in the Province of Quebec, and the Meadowbank mine and the Meliadine and Amaruq projects in the Nunavut Territory, each of which is held directly by the Company, and the Canadian Malartic mine in the Province of Quebec, which is held through a general partnership in which the Company and Yamana Gold Inc. ("Yamana") each own an indirect 50% interest. The Company's operations in Finland are conducted through its indirect subsidiary, Agnico Eagle Finland Oy, which owns the Kittila mine. In 2014, the Northern Business accounted for approximately 79% of the Company's gold production. In 2015, the Company anticipates that the Northern Business will account for approximately 80% of the Company's gold production.

The Company's Southern Business is comprised of the Company's operations in Mexico. The Company's mining at Pinos Altos is conducted through its subsidiary, Agnico Eagle Mexico S.A. de C.V., which owns the Pinos Altos mine, including the Creston Mascota deposit. The La India mine is owned by the Company's indirect subsidiary, Agnico Sonora, S.A. de C.V. The El Barqueno project is owned by the Company's indirect subsidiary, Minas Chaparral, S.A. de C.V. In 2014, the Southern Business accounted for approximately 21% of the Company's gold production. In 2015, the Company anticipates that the Southern Business will account for approximately 20% of the Company's gold production.

The Company's Exploration group focuses primarily on the identification of new mineral reserves and resources and new development opportunities in politically stable and proven gold producing regions. Current exploration activities are concentrated in Canada, Europe, Latin America and the United States. Several projects were evaluated during 2014 and 2015 in other countries where the Company believes the potential for gold occurrences is excellent and which the Company believes to be politically stable and supportive of the

mining industry. The Company currently manages 72 properties in Canada, five properties in the United States, three groups of properties in Finland, two properties in Sweden and 18 properties in Mexico. Exploration activities are managed from offices in Val d'Or, Quebec; Reno, Nevada; Tucson, Arizona; Chihuahua and Hermosillo, Mexico; Kittila, Finland; and Vancouver, British Columbia.

The Company's executive and registered office is located at 145 King Street East, Suite 400, Toronto, Ontario, Canada M5C 2Y7; telephone: (416) 947-1212; website: <http://www.agnicoeagle.com>. The information contained on the website is not part of this prospectus.

Proven and Probable Mineral Reserves

Historically, mineral reserves and mineral resources for all properties were typically estimated using historic three-year average metals prices and foreign exchange rates in accordance with SEC guidelines. These guidelines require the use of prices that reflect current economic conditions at the time of reserve determination, which the Staff of the SEC has interpreted to mean historic three-year average prices. Given the commodity price environment, the Company decided to use price assumptions below the three-year averages for its 2013 and 2014 mineral reserve and mineral resource estimates. The assumptions used for the Company's 2014 mineral reserves and mineral resources estimate at all mines and advanced projects reported by the Company in this prospectus (other than the Canadian Malartic mine) were \$1,150 per ounce gold, \$18 per ounce silver, \$1.00 per pound zinc, \$3.00 per pound copper and exchange rates of C\$1.08 per \$1.00, 13.00 Mexican pesos per \$1.00 and \$1.30 per €1.00. The assumptions used at the Canadian Malartic mine were \$1,300 per ounce gold, a cut-off grade between 0.28 g/t and 0.35 g/t gold (depending on the deposit) and an exchange rate of C\$1.10 per \$1.00. For information regarding the estimation of the Company's mineral reserves and mineral resources, see "Operations and Production Mineral Reserves and Mineral Resources" in the AIF and "Note to Investors Concerning Estimates of Mineral Reserves and Mineral Resources" in this prospectus.

Set out below are the Company's mineral reserve estimates as of December 31, 2014, calculated in accordance with NI 43-101 (tonnages and contained gold quantities are rounded to the nearest thousand).

In the mineral reserve table above, the total contained gold ounces stated do not include equivalent gold ounces for byproduct metals contained in the mineral reserve. The Canadian Malartic mineral reserve amounts reflect the Company's 50% interest in the property. For all mineral reserves in the table above, the reported metal grades in the estimates reflect dilution after mining recovery. The mineral reserve and mineral resource figures presented in this prospectus and in the documents incorporated by reference herein are estimates, and no assurance can be given that the anticipated tonnages and grades will be achieved or that the indicated level of recovery will be realized.

DESCRIPTION OF SHARE CAPITAL

The authorized capital of the Company consists of an unlimited number of common shares, of which 217,424,509 were issued and outstanding as of the close of business on September 3, 2015. All outstanding common shares of the Company are fully paid and non-assessable. The holders of the common shares are entitled to one vote per share at meetings of shareholders and to receive on a pro rata basis dividends if, as and when declared by the directors of the Company. In the event of voluntary or involuntary liquidation, dissolution or winding-up of the Company, after payment of all outstanding debts, the remaining assets of the Company available for distribution would be distributed rateably to the holders of the common shares. Holders of the common shares of the Company have no pre-emptive, redemption, exchange or conversion rights. The Company may not create any class or series of shares or make any modification to the provisions attaching to the Company's common shares without the affirmative vote of two-thirds of the votes cast by the holders of the common shares.

DIVIDENDS

The Company's current policy is to pay quarterly dividends on its common shares. On March 16, 2015 and June 15, 2015, the Company paid a quarterly cash dividend of \$0.08 per common share. Although the Company expects to continue paying a cash dividend, future dividends will be at the discretion of the board of directors of the Company and will be subject to factors such as the Company's earnings, financial condition and capital requirements. The Company's unsecured revolving bank credit facility contains a covenant that restricts the Company's ability to declare or pay dividends if certain events of default under such bank credit facility have occurred and are continuing.

DESCRIPTION OF DEBT SECURITIES

General

The Company may issue debt securities in one or more series under an indenture that it will enter into with one or more trustees that will be described in the Prospectus Supplement for such debt securities. The following summary describes certain general terms of the debt securities and certain provisions of the indenture, although it does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the Prospectus Supplement relating to such debt securities and all of the provisions of the indenture. The terms of debt securities the Company offers may differ from the general information provided below. Prospective investors should rely only on information in the Prospectus Supplement if it is different from the following information.

The Company may issue debt securities and incur additional indebtedness other than through the offering of debt securities pursuant to this prospectus.

References to the "Company" in this description of debt securities mean Agnico Eagle Mines Limited but not any of its subsidiaries.

The indenture will not limit the amount of debt securities the Company can issue under the indenture and will not limit the amount of other indebtedness the Company may incur. The Company may issue debt securities from time to time in separate series.

The Prospectus Supplement for any series of debt securities the Company offers will describe the specific terms of such debt securities, which may include any of the following:

the designation of the debt securities;

any limit on the aggregate principal amount that may be issued in respect of the debt securities;

the percentage of the principal amount at which the debt securities will be issued;

the maturity date of the debt securities;

the ranking of the debt securities and whether payment on the debt securities will be senior or subordinated to its other liabilities and obligations;

whether the Company will issue the debt securities as bearer securities or only in registered form;

changes or additions to events of default;

changes or additions to the provisions for defeasance described under "Defeasance" below;

special rights held by the holders of the debt securities if specified events occur;

restrictions on the transfer or exchange of the debt securities;

the terms for any conversion or exchange of the debt securities for any securities of the Company;

provisions permitting or restricting the issuance of additional securities, the incurring of additional indebtedness and other material negative covenants;

provisions as to modification, amendment or variation of any rights or terms attaching to the debt securities; and

any other terms of the debt securities.

Unless stated otherwise in the applicable Prospectus Supplement, no holder will have the right to require the Company to repurchase the debt securities and there will be no increase in the interest rate if the Company becomes involved in a highly leveraged transaction or there is a change of control of the Company.

The Company may issue debt securities bearing no interest or interest at a rate below the prevailing market rate at the time of issuance, and offer and sell these securities at a discount below their stated principal amount. The Company may also sell any of the debt securities for a foreign currency or currency unit, and payments on the debt securities may be payable in a foreign currency or currency unit. In any of these cases, the Company will describe in the applicable Prospectus Supplement, any Canadian and United States federal income tax consequences and other special considerations.

The Company may issue debt securities with terms different from those of debt securities previously issued and, without the consent of the holders thereof, the Company may reopen a previous issue of a series of debt securities and issue additional debt securities of such series (unless the reopening was restricted when such series was created).

Unless stated otherwise in the applicable Prospectus Supplement, the Company will issue debt securities only in fully registered form without coupons, in denominations of \$1,000 and multiples of \$1,000. In addition, all or a portion of the debt securities of any series may be issued in permanent registered global form which will be exchangeable for definitive debt securities only under certain conditions. The applicable Prospectus Supplement may indicate the denominations to be issued, the procedures for payment of interest and principal and other matters. No service charge will be made for any registration of transfer or exchange of the debt securities, but the Company may, in certain instances, require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with these transactions.

Ranking

The debt securities will be direct unsecured obligations of the Company. The debt securities will be senior or subordinated indebtedness of the Company as described in the applicable Prospectus Supplement. If the debt securities are senior indebtedness, they will rank equally and rateably with all other unsecured indebtedness of the Company from time to time issued and outstanding which is not subordinated. If the debt securities are subordinated indebtedness, they will be subordinated to senior indebtedness of the Company as described in the applicable Prospectus Supplement, and they will rank equally and rateably with other subordinated indebtedness of the Company from time to time issued and outstanding as described in the applicable Prospectus Supplement. The Company reserves the right to specify in a Prospectus Supplement

whether a particular series of subordinated debt securities is subordinated to any other series of subordinated debt securities.

Payment and Transfer

Unless stated otherwise in the applicable Prospectus Supplement, the Company will make payments of principal of (and premium, if any, on) debt securities of a particular series in the designated currency against

Table of Contents

surrender of the debt securities at the office of the paying agent the Company designates from time to time. Unless stated otherwise in the applicable Prospectus Supplement, the Company will make payment of any installment of interest on debt securities to the persons in whose names the debt securities are registered on the close of business on the day or days specified by the Company. Unless otherwise indicated in the applicable Prospectus Supplement, payments of interest will be made, at the Company's option:

at the corporate trust office of the paying agent that the Company designates from time to time;

by electronic funds transfer to an account that the holder designates from time to time; or

by cheque in the designated currency mailed to each holder at the relevant holder's registered address.

Unless stated otherwise in the applicable Prospectus Supplement, holders may transfer or exchange fully registered debt securities at the corporate trust office of the trustee or at any other office or agency the Company maintains, or causes to be maintained, for these purposes, without the payment of any service charge except for any tax or governmental charge.

Global Securities

The Company may issue debt securities of a series in the form of one or more global securities which will be deposited with a depository, or its nominee, identified in the applicable Prospectus Supplement. The global securities may be in temporary or permanent form. The applicable Prospectus Supplement will describe the terms of any depository arrangement and the rights and limitations of owners of beneficial interests in any global security. The applicable Prospectus Supplement will also describe the exchange, registration and transfer rights relating to any global security.

Merger, Amalgamation or Consolidation

The indenture will generally permit the Company to amalgamate or consolidate with or merge into any other person, and to transfer or dispose of substantially all of its assets, so long as (a) the resulting person (i) is the Company or (ii) is a Canadian or U.S. entity and assumes the Company's obligations regarding the debt securities and under the indenture, and (b) immediately after giving effect to the transaction, no default or event of default under the indenture shall have occurred and be continuing.

If the resulting person assumes the Company's obligations, subject to certain exceptions, the Company will be relieved of those obligations.

Events of Default

When the Company uses the term "event of default" in the indenture, it will mean, in respect of a series of debt securities:

the Company fails to pay principal or any premium on any debt security of that series when it is due;

the Company fails to pay interest on any debt security of that series for 30 days after the date when it is due;

the Company fails to comply with any of its other agreements relating to the debt securities or the indenture for 60 days after written notice by the trustee or by holders of at least 25% of the aggregate principal amount of the debt securities of that series then outstanding;

certain events involving its bankruptcy, insolvency or reorganization; and

any other event of default provided for with respect to that series of debt securities.

Edgar Filing: AGNICO EAGLE MINES LTD - Form SUPPL

The Prospectus Supplement for a series of debt securities may include additional events of default or changes to the events of default described above. The trustee will give notice within a reasonable time (not exceeding 30 days) to the holders of debt securities of any default unless it determines in good faith the withholding of such notice is in the best interests of the holders, collectively, and so advises the Company in writing.

Table of Contents

A default under one series of debt securities will not necessarily be a default under another series.

If an event of default for any series of debt securities occurs and is continuing, the trustee or the holders of at least 25% of the aggregate principal amount of the debt securities of that series may require the Company to repay immediately:

the aggregate unpaid principal amount of the debt securities of the series; or

if the debt securities are discounted securities, that portion of the principal as is described in the applicable Prospectus Supplement.

If an event of default relates to events involving the Company's or a material subsidiary's bankruptcy, insolvency or reorganization, the aggregate unpaid principal amount of all debt securities will become immediately due and payable without any action by the trustee or any holder. In either case, subject to certain conditions, the holders of a majority of the aggregate principal amount of the debt securities of the affected series can rescind the accelerated payment requirement.

Other than its duties in case of a default, the trustee will not be obligated to exercise any of its rights or powers under the indenture at the request, order or direction of any holders, unless the holders offer the trustee reasonable indemnity. If they provide this reasonable indemnity, the holders of a majority in principal amount of any series of debt securities may, subject to certain limitations, direct the time, method and place of conducting any proceeding or any remedy available to the trustee, or exercising any power conferred on the trustee, for any series of debt securities.

The Company will be required to furnish to the trustee a statement annually as to its compliance with all conditions and covenants under the indenture and, if the Company is not in compliance, it must specify any defaults.

Defeasance

When the Company uses the term "defeasance", it means that the Company is deemed to have paid and discharged the entire indebtedness represented by all debt securities of a particular series then outstanding and to have satisfied all its other obligations with respect to such series. If the Company deposits with the trustee sufficient cash or government securities to pay the principal, interest, any premium and any other sums due to the stated maturity date or a redemption date of the debt securities of a series, then at its option:

the Company will be discharged from its obligations with respect to the debt securities of that series; or

the Company will no longer be under any obligation to comply with certain restrictive covenants under the indenture, and certain events of default will no longer apply to the Company.

If this happens, the holders of the debt securities of the affected series will not be entitled to the benefits of the indenture except for registration of transfer and exchange of the debt securities and the replacement of lost, stolen or mutilated debt securities. These holders may look only to the deposited fund for payment on their debt securities.

Unless stated otherwise in the applicable Prospectus Supplement, in order to exercise its defeasance option, the Company will be required to deliver to the trustee an opinion of counsel to the effect that the deposit and related defeasance would not cause the holders of the debt securities to recognize income, gain or loss for Canadian federal or Canadian provincial (and any other jurisdiction specified for this purpose in the Prospectus Supplement) income tax purposes. The Company also will be required to deliver a certificate of an officer of the Company and an opinion of counsel, each stating that all of the conditions precedent provided for relating to defeasance have been satisfied. In addition, other conditions will be required to be met before the Company may exercise its defeasance option.

Table of Contents

Modification and Waiver

The Company may modify the indenture with the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of each series affected by the modification. However, without the consent of each holder affected, no modification may:

reduce the percentage of the unpaid principal amount of any series whose holders must consent to any amendment or waiver under the indenture or which may otherwise require notice, information or action or effect any action, or modify the provisions in the indenture relating to amendment or waiver;

reduce the amount of, or change the currency of payment of, or delay the time of, any payments (whether of principal, premium, interest or otherwise) to be made to the holders of debt securities of any series;

change the definition of or the manner of calculating amounts (including any change in the applicable rate or rates of interest) to which any holder of debt securities of any series is entitled under the indenture;

make any change that adversely affects the redemption, conversion or exchange rights of holders of debt securities of any series;

make any change that would result in the issuer being required to make any deduction or withholding from payments to be made to holders of debt securities of any series; or

impair the right of holders to institute a suit to enforce their rights to payment.

The holders of a majority in principal amount of outstanding debt securities of any series may on behalf of the holders of all outstanding debt securities of that series waive, only insofar as that series is concerned, any prospective or existing defaults under the indenture and the Company's compliance with certain restrictive provisions of the indenture. However, these holders may not waive a default in any payment on any debt security or compliance with a provision that cannot be modified without the consent of each holder affected.

Unless stated otherwise in the applicable Prospectus Supplement, the Company may modify the indenture without the consent of the holders to:

cure any ambiguity, defect or inconsistency, provided, however, that the amendment to cure any ambiguity, defect or inconsistency does not adversely affect the rights of any holder;

provide for the assumption by a successor of the Company's obligations under the indenture;

give effect to certain directions of the holders;

provide for uncertificated debt securities in addition to or in place of certificated debt securities, as long as those uncertificated debt securities are in registered form for United States federal income tax purposes;

make any change to maintain the qualification of the indenture under the United States Trust Indenture Act of 1939, as amended, or to comply with applicable laws;

Edgar Filing: AGNICO EAGLE MINES LTD - Form SUPPL

change or eliminate any provisions of the indenture provided that there are no debt securities outstanding under the indenture at the time when such change or elimination takes effect;

add to the Company's covenants or the Company's obligations under the indenture or surrender any right, power or option conferred upon the Company by the indenture; or

make any other change that would not adversely affect the rights of holders.

The Trustee

The trustee under the indenture or its affiliates may provide banking and other services to the Company in the ordinary course of its business.

The indenture will contain certain limitations on the rights of the trustee, as long as it or any of its affiliates remain the Company's creditor, to obtain payment of claims in certain cases or to realize on certain property

received on any claim as security or otherwise. The trustee and its affiliates will be permitted to engage in other transactions with the Company. If a material conflict of interest arises with respect to the trustee, the trustee shall, within 90 days of ascertaining that the conflict exists, either eliminate the conflict or resign.

Governing Law

Unless stated otherwise in the applicable Prospectus Supplement, the indenture and the debt securities will be governed by and construed in accordance with the laws of the Province of Ontario and the federal laws of Canada applicable in such Province.

DESCRIPTION OF WARRANTS

The Company may issue warrants to purchase debt securities or common shares of the Company. The Company may issue warrants independently or together with other securities, and warrants sold with other securities may be attached to or separate from the other securities. Unless the Prospectus Supplement otherwise indicates, warrants will be issued under, and governed by the terms of, one or more indentures that the Company will enter into with a warrant trustee or trustees that will be named in the Prospectus Supplement.

The following sets forth certain general terms and provisions of the warrants offered under this prospectus. The specific terms of the warrants, and the extent to which the general terms described in this section apply to these warrants, will be set out in the applicable Prospectus Supplement.

The Prospectus Supplement relating to any warrants the Company offers will describe the warrants and include specific terms relating to the offering. The Prospectus Supplement will include some or all of the following:

the designation and aggregate number of warrants offered;

the currency or currencies in which the warrants will be offered;

the designation, number and terms of the common shares or debt securities purchasable on exercise of the warrants, and procedures that will result in the adjustment of those numbers;

the exercise price of the warrants;

the dates or periods on, after or during which the warrants are exercisable;

the designation and terms of any securities with which the warrants are issued;

if the warrants are issued as a unit with another security, the date on and after which the warrants and the other security will be separately transferable;

any minimum or maximum amount of warrants that may be exercised at any one time;

any terms, procedures and limitations relating to the transferability, exchange or exercise of the warrants;

whether the warrants will be subject to redemption or call and, if so, the terms of such redemption or call provisions;

Edgar Filing: AGNICO EAGLE MINES LTD - Form SUPPL

provisions as to modification, amendment or variation of the warrant indenture or any rights or terms attaching to the warrants;

material Canadian and United States tax consequences of owning the warrants; and

any other material terms, preferences, rights or limitations of, or restrictions on, the warrants.

Prior to the exercise of their warrants, holders of warrants will not have any of the rights of holders of the securities for which the warrants are exercisable.

The Company may amend the warrant indenture(s) and the warrants, without the consent of the holders of the warrants, to cure any ambiguity, to cure, correct or supplement any defective or inconsistent provision, or in any other manner that will not prejudice the rights of the holders of outstanding warrants, as a group.

PLAN OF DISTRIBUTION

The Company may offer and sell the Securities, separately or together, to or through one or more underwriters or dealers, purchasing as principal for public offering and sale by them, and also may sell Securities to one or more other purchasers directly or through agents. Each Prospectus Supplement will set out the terms of the offering, including:

the name or names of any underwriters or agents;

the purchase price or prices, and form of consideration for, the Securities;

the proceeds to the Company from the sale of the Securities;

any underwriting discounts or commissions and other items constituting underwriters' compensation;

any delayed delivery arrangements; and

any securities exchanges on which the Securities may be listed.

A Prospectus Supplement may also provide that the Securities sold thereunder will be "flow-through" securities.

The Securities may be sold, from time to time in one or more transactions at a fixed price or prices which may be changed or at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. The price at which the Securities may be offered may vary as between purchasers and during the distribution period. If, in connection with the offering of Securities at a fixed price or prices, the underwriters have made a *bona fide* effort to sell all of the Securities at the initial offering price fixed in the applicable Prospectus Supplement, the public offering price may be decreased and thereafter further changed, from time to time, to an amount not greater than the initial public offering price fixed in such Prospectus Supplement, in which case the compensation realized by the underwriters will be decreased by the amount that the aggregate price paid by purchasers for the Securities is less than the gross proceeds paid by the underwriters to the Company.

Underwriters, dealers and agents that participate in the distribution of the Securities may be entitled under one or more agreements to be entered into with the Company to indemnification by the Company against certain liabilities, including liabilities under Canadian and U.S. securities legislation, or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof. Such underwriters, dealers and agents may engage in transactions with, or perform services for, the Company in the ordinary course of business.

Unless otherwise set out in a Prospectus Supplement relating to a particular offering of Securities, the underwriters or dealers, as the case may be, may over-allot or effect transactions intended to fix or stabilize the market price of the Securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

To the extent that any document or information incorporated by reference into this prospectus is included in a report that is filed with or furnished to the SEC on Form 40-F or Form 6-K (or any respective successor form), such document or information shall also be deemed to be incorporated by reference as an exhibit to the registration statement on Form F-10 of which this prospectus forms a part. In addition, the Company may incorporate by reference into this prospectus documents that it files with or furnishes to the SEC pursuant to Section 13(a) or 15(d) of the United States Securities Exchange Act of 1934, as amended (the "Exchange Act"), if and to the extent expressly provided therein.

Upon a new annual information form and the related annual audited consolidated financial statements being filed by the Company with, and where required, accepted by, the Canadian securities regulatory authorities during the currency of this prospectus, the previous annual information form, the previous annual audited consolidated financial statements and all interim unaudited financial statements (including management's discussion and analysis of financial condition and results of operations in the quarterly reports for such periods), material change reports and management information circulars filed prior to the commencement of the Company's financial year in which the new annual information form is filed shall be deemed no longer to be incorporated by reference in this prospectus for purposes of future offers and sales of Securities hereunder.

Any statement contained herein or in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purposes of this prospectus to the extent that a statement contained herein, or in any other subsequently filed document which also is incorporated or is deemed to be incorporated by reference herein, modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document which it modifies or supersedes. The making of a modifying or superseding statement will not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this prospectus.

Information has been incorporated by reference in this short form base shelf prospectus from documents filed with the securities regulatory authorities in each of the provinces of Canada and the SEC. A Prospectus Supplement containing the specific terms of an offering of Securities will be delivered to purchasers of such Securities together with this prospectus and shall be deemed to be incorporated by reference into this prospectus as of the date of such Prospectus Supplement solely for the purposes of the offering of the Securities covered by that Prospectus Supplement.

AVAILABLE INFORMATION

The Company has filed with the SEC a registration statement on Form F-10 under the United States Securities Act of 1933, as amended, with respect to the securities offered hereby. This prospectus, which forms a part of the registration statement, does not contain all of the information set forth in the registration statement, certain parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information with respect to the Company and the Securities offered in this prospectus, reference is made to the registration statement and to the schedules and exhibits filed therewith. Statements contained in this prospectus as to the contents of certain documents are not necessarily complete and, in each instance, reference is made to the copy of the document filed and exhibits to the registration statement. Each such statement is qualified in its entirety by such reference.

The Company is subject to the informational requirements of the Exchange Act and in accordance therewith files reports and other information with the SEC. Under a multijurisdictional disclosure system adopted by the United States, such reports and other information may be prepared in accordance with the disclosure requirements of Canada, which requirements are different from those of the United States. Any information filed with the SEC can be read and copied at prescribed rates at the SEC's Public Reference Room

at 100 F Street, N.E., Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330 or by accessing its website at www.sec.gov. Some of the documents the Company files with or furnishes to the SEC are electronically available from the SEC's Electronic Document Gathering and Retrieval System, which is commonly known by the acronym "EDGAR", and may be accessed at www.sec.gov.

ENFORCEABILITY OF CERTAIN CIVIL LIABILITIES

The Company is incorporated under the laws of the Province of Ontario, Canada. The majority of the Company's directors and officers and the experts named in this prospectus are residents of Canada. Also, almost all of the Company's assets and the assets of these persons are located outside of the United States. As a result, it may be difficult for shareholders to initiate a lawsuit within the United States against these non-U.S. residents, or to enforce U.S. judgments against the Company or these persons. The Company's Canadian counsel has advised the Company that a monetary judgment of a U.S. court predicated solely upon the civil liability provisions of U.S. federal securities laws would likely be enforceable in Canada if the U.S. court in which the judgment was obtained had a basis for jurisdiction in the matter that was recognized by a Canadian court for such purposes. The Company cannot provide assurance that this will be the case. It is less certain that an action could be brought in Canada in the first instance on the basis of liability predicated solely upon the civil liability provisions of U.S. federal securities laws.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of these rights or consult with a legal adviser.

In an offering of warrants or convertible debt securities, original purchasers will have a contractual right of rescission against the Company in respect of the exercise or conversion of such warrants or convertible debt securities. The contractual right of rescission will entitle such original purchasers to receive from the Company, upon surrender of the underlying securities acquired upon the exercise or conversion of such warrants or convertible debt securities, the amount paid for the warrants or convertible debt securities (and any additional amount paid upon exercise or conversion), in the event that this prospectus, the applicable Prospectus Supplement or any amendment contains a misrepresentation, provided that: (i) the exercise or conversion takes place within 180 days of the date of the purchase of the warrants or convertible debt securities under this prospectus and the applicable Prospectus Supplement; and (ii) the right of rescission is exercised within 180 days of the date of the purchase of the warrants or convertible debt securities under this prospectus and the applicable Prospectus Supplement. This contractual right of rescission will be consistent with the statutory right of rescission described under section 130 of the *Securities Act* (Ontario), and is in addition to any other right or remedy available to original purchasers under Section 130 of the *Securities Act* (Ontario) or otherwise at law.

Purchasers of warrants or convertible debt securities are cautioned that the statutory right of action for damages for a misrepresentation contained in the prospectus is limited, in certain provincial securities legislation, to the price at which the warrants or convertible debt securities are offered to the public under the prospectus offering. This means that, under the securities legislation of certain provinces, if the purchaser pays additional amounts upon exercise or conversion of the security, those amounts may not be recoverable under the statutory right of action for damages that applies in those provinces. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province for the particulars of this right of action for damages or consult with a legal adviser.
