FORWARD LOOKING STATEMENTS

The Exhibits incorporated by reference into this Registration Statement contain forward-looking statements concerning anticipated developments in the operations of **Endeavour Silver Corp.** (the Registrant) in future periods, planned exploration activities, the adequacy of the Registrant's financial resources and other events or conditions that may occur in the future. Forward-looking statements are frequently, but not always, identified by words such as expects, anticipates, believes, intends, estimates, potential, possible and similar expressions, or statements of conditions or results will, may, could or should occur or be achieved. Information concerning the interpretation of such results and mineral resource estimates also may be deemed to be forward-looking statements, as such information constitutes a prediction of what mineralization might be found to be present if and when a project is actually developed. Forward-looking statements are statements about the future and are inherently uncertain, and actual achievements of the Registrant or other future events or conditions may differ materially from those reflected in the forward-looking statements due to a variety of risks, uncertainties and other factors, including, without limitation, those described in the Annual Information Form of the Registrant filed as Exhibit 1 to this Registration Statement.

The Registrant's forward-looking statements contained in the Exhibits incorporated by reference into this Registration Statement are made as of the respective dates set forth in such Exhibits. Such forward-looking statements are based on the beliefs, expectations and opinions of management on the date the statements are made. In preparing this Registration Statement, the Registrant has not updated such forward-looking statements to reflect any change in circumstances or in management's beliefs, expectations or opinions that may have occurred prior to the date hereof. Nor does the Registrant assume any obligation to update such forward-looking statements in the future. For the reasons set forth above, investors should not place undue reliance on forward-looking statements.

DIFFERENCES IN UNITED STATES AND CANADIAN REPORTING PRACTICES

The Registrant is permitted, under a multi-jurisdictional disclosure system adopted by the United States, to prepare this report in accordance with Canadian disclosure requirements, which are different from those of the United States. The Registrant prepares its financial statements, which are filed with this report on Form 40-F in accordance with Canadian generally accepted accounting practices (GAAP), and they may be subject to Canadian auditing and auditor independence standards. They may not be comparable to financial statements of the United States companies. Significant differences between Canadian GAAP and United States GAAP are described in Exhibit 4 to this registration statement.

RESOURCE AND RESERVE ESTIMATES

The terms Mineral Reserve, Proven Mineral Reserve and Probable Mineral Reserve are Canadian mining terms as defined in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects (NI 43-101) under the guidelines set out in the Canadian Institute of Mining, Metallurgy and Petroleum (the CIM) *CIM Standards on Mineral Resources and Mineral Reserves*, adopted by the CIM Council, as may be amended from time to time by the CIM. These definitions differ from the definitions in the United States Securities & Exchange Commission (SEC) Industry Guide 7 under the *Securities Act* of 1933. The definitions of proven and probable reserves used in NI 43-101 differ from the definitions in the United States Securities and Exchange Commission (SEC) Industry Guide 7. Under SEC Guide 7 standards, a Final or Bankable feasibility study is required to report reserves, the three year history average price is used in any reserve or cash flow analysis to designate reserves and the primary environmental analysis or report must be filed with the appropriate governmental authority.

In addition, the terms mineral resource , measured mineral resource , indicated mineral resource and inferred mineral resource are defined in and required to be disclosed by NI 43-101; however, these terms are not defined terms under SEC Industry Guide 7 and normally are not permitted to be used in reports and registration statements filed with the SEC. Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves. Inferred mineral resources have a great amount of uncertainty as to their existence, and great uncertainty as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases.

Accordingly, information contained in this report and the documents incorporated by reference herein containing descriptions of our mineral deposits may not be comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements under the United States federal securities laws and the rules and regulations thereunder.

DOCUMENTS FILED PURSUANT TO GENERAL INSTRUCTIONS

In accordance with General Instruction B.(1) of Form 40-F, the Registrant hereby incorporates by reference Exhibits 1, 2, 3 and 5 through Exhibit 83, inclusive as set forth in the Exhibit Index attached hereto.

In accordance with General Instruction C.(2) of Form 40-F, the Registrant hereby incorporates by reference Exhibits 3 and 4, the Annual Audited Consolidated Financial Statements of the Registrant for the ten month period ended December 31, 2005 and for the years ended February 28, 2005 and February 29, 2004, including a reconciliation of the financial statements to U.S. Generally Accepted Accounting Practices as required by Item 17 of Form 20-F, and Exhibit 5, the Company's management's discussion and analysis for the ten month period ended December 31, 2005 and for the years ended February 28, 2005 and February 29, 2004, as set forth in the Exhibit Index attached hereto.

In accordance with General Instruction D.(9) of Form 40-F, the Registrant has filed written consents of certain experts named in the foregoing Exhibits as Exhibit 84 through Exhibit 86, inclusive, as set forth in the Exhibit Index attached hereto.

The Company has no off-balance sheet arrangements.

The following table lists as of December 31, 2005 information with respect to the Company's known contractual obligations.

As at December 31, 2005, the Company earned a 51% option interest in these concessions. However, in order to obtain legal rights to its 51% interest after January 28, 2006, the Company had to make a payment of US\$5,000 on January 28, 2006 which the Company did make. The Company currently has a 51% interest in these mining concessions. To acquire the remaining 49% interest in the mining concessions, the Company must pay US\$5,000 on January 28, 2007 and a further US\$5,000 on January 28, 2008.
- (3) Pursuant to the Contract of Assignment of Mining Exploitation Rights dated October 11, 2005 for the El Porvenir mine, the Company is to expend a minimum of US\$100,000 per quarter and an additional US\$500,000 during the first two years of the term of the agreement. As at December 31, 2005 and June 30, 2006, the Company has incurred expenditures of approximately US\$325,000 and US\$1.2 million, respectively, related to the exploration, exploitation, development and operation of the El Porvenir mine.

UNDERTAKINGS

The Registrant undertakes to make available, in person or by telephone, representatives to respond to inquiries made by the Commission staff, and to furnish promptly, when requested to do so by the Commission staff, information relating to: the securities registered pursuant to Form II-4

40-F; the securities in relation to which the obligation to file an annual report on Form 40-F arises; or to transactions in said securities.

CONSENT TO SERVICE OF PROCESS

Concurrently with the filing of the Registration Statement on Form 40-F, the Registrant will file with the Commission a written Irrevocable Consent and Power of Attorney on Form F-X.

Any change to the name or address of the Registrant's agent for service shall be communicated promptly to the Commission by amendment to the Form F-X referring the file number of the Registrant.
