#

AMERICAN HOSPITAL RESOURCES, INC. AND SUBSIDIARY

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [*Continued*]

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2002 audited financial statements. The results of operations for the periods ended September 30, 2003 and 2002 are not necessarily indicative of the operating results for the full year.

Consolidation - The consolidated financial statements include the accounts of Parent, Parent's wholly owned AHR Subsidiary, Parent's wholly owned NPT Subsidiary and Parent's wholly owned RX Subsidiary. All significant intercompany transactions have been eliminated in consolidation.

Cash and Cash Equivalents - The Company considers all highly liquid debt investments purchased with a maturity of three months or less to be cash equivalents.

Accounts and Loans Receivable - The Company records accounts and loans receivable at the lower of cost or fair value. The Company determines the lower of cost or fair value of non-mortgage loans on an individual asset basis. The Company recognizes interest income on an account receivable based on the stated interest rate for past-due accounts over the period that the account is past due. The Company recognizes interest income on a loan receivable based on the stated interest rate over the term of the loan. The Company accumulates and defers fees and costs associated with establishing a receivable to be amortized over the estimated life of the related receivable. The Company estimates allowances for doubtful accounts and loan losses based on the aged receivable balances and historical losses. The Company records interest income on delinquent accounts and loans receivable only when payment is received. The Company first applies payments received on delinquent accounts and loans receivable to eliminate the outstanding principal. The Company charges off uncollectible accounts and loans receivable when management estimates no possibility of collecting the related receivable. The Company considers accounts and loans receivable to be past due or delinquent based on contractual terms.

Inventory - Inventory is stated at the lower of cost or market using the first-in, first-out (FIFO) method [*See Note 7*].

Property and Equipment - Property and equipment are stated at cost. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized upon being placed in service. Expenditures for maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets of five to ten years. In accordance with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* , the Company periodically reviews their property and equipment for impairment.

#

AMERICAN HOSPITAL RESOURCES, INC. AND SUBSIDIARY

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [*Continued*]

Website Costs - The Company has adopted the provisions of Emerging Issues Task Force 00-2, Accounting for Web Site Development Costs. Costs incurred in the planning stage of a website are expensed as research and development while costs incurred in the development stage are capitalized and amortized over the life of the asset, estimated to be five years. As of September 30, 2003, the Company has capitalized a total of \$2,955 of website costs which are included in property and equipment. The Company did not incur any planning costs and did not record any research and development costs for the nine months ended September 30, 2003 and 2002.

Intangible Assets - The Company accounts for their intangible assets in accordance with Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 establishes three classifications for intangible assets including definite-life intangible assets, indefinite-life intangible assets and goodwill and requires different accounting treatment and disclosures for each classification. In accordance with SFAS No. 142, the Company periodically reviews their intangible assets for impairment. No impairment was recorded during the nine months ended September 30, 2003 and 2002.

Acquisition Costs - Costs related to proposed acquisitions are deferred and will be included in the acquisition price upon completion of the related acquisition. In the event an acquisition is unsuccessful, the costs related to the acquisition are written off to expense.

Stock Offering Costs - Costs related to proposed stock offerings are deferred and will be offset against the proceeds of the offering. In the event a stock offering is unsuccessful, the costs related to the offering are written off to expense.

Revenue Recognition - The Company's revenue comes primarily from the retail sale of medications as a closed-door pharmacy. Revenue from pharmacy sales is recognized upon shipment of the product. All sales are final when shipment is made. The Company also generates revenue from hospital management consulting. Revenue from consulting and managing hospitals is recognized over the term of the underlying agreement. A portion of the consulting services is subcontracted out by the Company to third party vendors. These direct costs are recorded by the Company as general and administrative expenses. Revenue from facilitating the sale of hospital property is recorded when property is sold. The Company has purchased the right to receive a portion of the revenues from a consulting and asset sale agreement. Revenue derived from the purchased contract rights is recorded as received on a net basis. On a net basis, only the share of revenue belonging to the Company is recorded as revenue.

Stock-Based Compensation - The Company has two stock-based employee compensation plans [See Note 17]. The Company accounts for their plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and related Interpretations. The following table illustrates the effect on net income and loss per share if the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, to the Company's stock-based employee compensation.

NOTE 2 - ACQUISITION AND CANCELLATION OF ACQUISITION OF RX SUBSIDIARY

On May 1, 2003, Parent acquired RX Subsidiary pursuant to a Stock Purchase Agreement signed May 8, 2003. The agreement called for Parent to issue 720,000 shares of Class B Preferred Stock and to sign \$900,000 of notes payable to the former shareholders of RX Subsidiary for 100% of the outstanding shares of RX Subsidiary's common stock. The \$900,000 of notes payable was issued as a \$300,000 90-day no-interest note payable, a \$294,000 five-year 7% note payable with interest-only payments for the first 24 months and a \$306,000 five-year 7% note payable with interest-only payments for the first 24 months. As part of the agreement, the Company entered into a three-year Employment Agreement with the former shareholders of RX Subsidiary [See Note 22]. The agreement also granted to the Company's Chief Executive Officer an 18-month option to purchase up to 300,000 shares of the Class B preferred stock from the former shareholders of RX Subsidiary at \$2.50 per share. The Company has accounted for the acquisition as a purchase of RX Subsidiary. The Company recorded goodwill of \$1,234,017 as a result of the acquisition. The financial statements reflect the operations of RX Subsidiary from May 1, 2003.

In July 2003, the Company defaulted on the notes payable and employment agreement underlying the acquisition. In August 2003, the Company entered into an agreement to extend the maturity of the \$300,000 90-day no interest note payable to September 29, 2003. The extension required the Company to pay \$40,000 in August and September 2003 in lieu of the interest and salary payments required by the Stock Purchase Agreement.

In September 2003, the Company renegotiated the notes payable underlying the acquisition so that the Company would pay \$25,000 by October 31, 2003 against the \$300,000 90-day no interest note payable and pay \$200,000 by November 29, 2003 as payment in full of the \$294,000 five-year 7% note payable, the \$306,000 five-year 7% note payable and related accrued interest.

In November 2003, the Company defaulted on the notes payable underlying the acquisition and the former owners of RX Subsidiary called for the acquisition to be cancelled [See Note 24].

NOTE 3 - ACQUISITION AND VOIDING OF ACQUISITION OF NIPSI

On December 13, 2002, Parent signed an asset purchase agreement with NIPSI Healthcare of Houston Limited Partnership (NIPSI) and NIPSI of Houston, Inc. (NIPSI General Partner). The agreement provided for Parent to assume certain liabilities of NIPSI and to sign an unsecured 18-month \$150,000 note payable to NIPSI for most of the operating assets of NIPSI. The agreement also included a non-compete covenant from NIPSI and NIPSI General Partner. The acquisition closed December 16, 2002; however, in April 2003, the court entered a default judgment against NIPSI [See Note 22]. The court found that NIPSI had fraudulently transferred assets to the Company to avoid the claims of AmeriSource. The court voided and nullified the transfer of assets from NIPSI to the Company and ordered NIPSI to pay \$551,264 to AmeriSource. As a result of these proceedings, the asset purchase agreement between the Company, NIPSI and NIPSI General Partner was voided and the Company was released as a defendant. Also, NIPSI General Partner sent a demand letter to the Company to rescind the asset purchase agreement and claiming damages of \$120,000 against the Company [See Note 22]. The financial statements reflect the acquisition as having been voided or rescinded and any expenses associated with the voided acquisition have been classified as costs of the unsuccessful NIPSI acquisition.

NOTE 4 - ACQUISITION OF AMERICAN HOSPITAL RESOURCES, INC.

On April 3, 2002, Parent signed an agreement and plan of reorganization with Phase One, LLC and AHR Subsidiary. The agreement provided for Parent to issue 3,196,873 shares of its common stock for all 1,500 shares of AHR Subsidiary s common stock. In connection with the proposed agreement, Parent previously issued a total of 13,000,000 shares of its common stock to Phase One, LLC for \$130,000 in financing. The agreement called for former shareholders of AHR Subsidiary to receive up to 12,870,000 shares of the common stock issued to Phase One, LLC based on the performance of the Company. In connection with the agreement, Parent amended its articles of incorporation to authorize 10,000,000 shares of preferred stock and to change its name to American Hospital Resources, Inc. Also in connection with the agreement, Parent and AHR Subsidiary entered into three-year consulting agreements with both Synergistic Connections, Inc. and Corporate Dynamics, Inc. [See Note 22]. As a result of the agreement, the former officers and directors of the Company resigned and new officers and directors were appointed. The acquisition closed June 17, 2002 and has been accounted for as a purchase of AHR Subsidiary. The Company recorded goodwill of \$60,321 as a result of the acquisition.

On December 31, 2002, the agreement and plan of reorganization was amended to exchange the 13,000,000 shares of the Company's common stock that had been issued to Phase One, LLC for 2,600,000 shares of the Company's Class A preferred stock. The agreement was further amended to issue the 2,600,000 shares of Class A preferred stock to the Company's former Chief Executive Officer for value received by Phase One, LLC, which effected a change in control of the Company. The amended agreement also grants the Company's former Chief Executive Officer the right to convert, at any time, any or all of the common stock that he received under the agreement into Class A preferred stock at a rate of five shares of common stock into one share of Class A preferred stock.

NOTE 15 - PREFERRED STOCK SUBJECT TO MANDATORY REDEMPTION

In September 2003, the Company agreed to repurchase 520,000 shares of Class B preferred stock, which had been issued as part of the acquisition of RX Subsidiary, for \$1,000,000 by November 2004. Accordingly, the Company has reclassified these shares as preferred stock subject to mandatory redemption.

NOTE 16 - PREFERRED STOCK

The Company has authorized 10,000,000 shares of preferred stock, no par value, with such rights, preferences and designations and to be issued in such classes and series as determined by the Company's Board of Directors. In

December 2002, the Company's Board of Directors designated 5,000,000 shares as Class A and 5,000,000 shares as Class B. In June 2003, the Company's Board of Directors modified the preferred stock distributions to designate 2,600,000 shares as Class A, 5,000,000 shares as Class B and 1,200,000 as Class C. Although the Company has not yet designated any shares of preferred stock as Class D1, the Company plans to designate enough shares as Class D1 to allow for a stock dividend declared on June 2, 2003 [See Below and Note 24]. The Class C preferred stock ranks senior to the Class A, B and D1 preferred stocks in liquidation preference and the Class B preferred stock ranks senior to the Class A preferred stock in liquidation preference.

Class A Preferred Stock - Class A preferred stock is only available to the Company's management, directors and existing shareholders. Each share of Class A preferred stock has the voting rights of five shares of common stock and is convertible at the shareholder's option into five shares of common stock. If shares of the Class A preferred stock are required to be converted as part of a sale or merger of the Company, then each share of Class A preferred stock is convertible into 5.5 shares of common stock. Each share of Class A preferred stock is entitled to receive a \$.0575 annual dividend payable monthly. The total annual dividend for all shares of Class A preferred stock was limited to 50% of the Company's earnings before interest, taxes, depreciation and amortization for the year and the monthly payments were adjusted accordingly. For the six months ended June 30, 2003, the Company had negative earnings before interest, taxes, depreciation and amortization; therefore, no dividends were due on the Class A preferred stock through June 30, 2003. In June 2003, the Company's Board of Directors modified the mandatory conversion and dividend provisions of the Class A preferred stock. Effective July 1, 2003, if there is a merger, reorganization, recapitalization or similar event in which the Company is not the surviving entity, then each share of Class A preferred stock will be converted into 5.5 shares of common stock. Effective July, 1, 2003, each share of Class A preferred stock is entitled to receive a cumulative \$.0575 annual dividend payable monthly with no limitation based on earnings. Through September 30, 2003, the Company has recorded \$25,348 in dividends payable on Class A preferred stock.

In June 2003, the Company issued 5,300 shares of their previously authorized but unissued Class A preferred stock for cash of \$10,000, or approximately \$1.887 per share. Due to the beneficial conversion feature of the shares, the Company recorded a dividend of \$9,875 upon the issuance of the shares. Stock offering costs of \$62 were netted against the proceeds.

In May 2003, shareholders of the Company converted 305,010 shares of Class A preferred stock into 1,525,050 shares of common stock.

In May 2003, a shareholder of the Company returned 200,000 shares of Class A preferred stock back to the Company for cancellation.

In May 2003, a shareholder of the Company returned 720,000 shares of Class A preferred stock back to the Company for cancellation.

In April and May 2003, the Company issued 383,000 shares of their previously authorized but unissued Class A preferred stock for cash of \$71,500 and services valued at \$120,000, or \$.50 per share. Due to the beneficial conversion feature of the shares, the Company recorded a dividend of \$314,900 upon the issuance of the shares. Stock offering costs of \$65 were netted against the proceeds.

In December 2002, the Company issued 2,600,000 shares of their previously authorized but unissued Class A preferred stock in exchange for 13,000,000 shares of the Company's common stock which were then cancelled.

Class B Preferred Stock - Class B preferred stock is only available to parties who sell a business to the Company. Each share of Class B preferred stock has no voting rights and is convertible into five shares of common stock. Each share of Class B preferred stock is entitled to receive a cumulative 6% annual dividend payable quarterly based on the purchase price paid to the Company or the consideration received by the Company. Class B preferred stock may not be transferred without the express written consent of the Company. At June 30, 2003, there were 920,000 shares of Class B preferred stock issued and outstanding which are recorded at \$1,040,000. Accordingly, the Company recorded a quarterly dividend of \$15,600 at June 30, 2003. At September 30, 2003, there were 920,000 shares of Class B preferred stock issued and outstanding which are recorded at \$1,040,000, although 520,000 shares have been reclassified as preferred stock subject to mandatory redemption. Accordingly, the Company recorded a quarterly dividend of \$21,667 at September 30, 2003. Through September 30, 2003, total dividend payments on Class C preferred stock have amounted to \$60.

In September 2003, the Company issued 173,747 shares of their previously authorized but unissued Class C preferred stock to a third party in exchange for payment of liabilities totaling \$868,735 which were owed to shareholders of the Company, or \$5.00 per share. Creditors have not released the Company from \$100,335 of the liabilities [See Note 22] and the Company has recorded a subscription receivable for the remaining \$100,335 in liabilities to be paid by the third party.

Private Class C Preferred Stock Offering - The Company is offering 600 units at a price of \$10,000 per unit. Each unit consists of 2,000 shares of the Company's previously authorized but unissued Class C preferred stock. The offering price of \$10,000 per unit was arbitrarily determined by the Company. The Company expects to use one or more agents in the offering and expects to pay up to 10% in sales commissions. Some shares will be offered and may be sold by an officer of the Company who will receive no sales commissions or other compensation in connection with the offering except for reimbursement of expenses actually incurred on behalf of the Company in connection with the offering. Stock offering costs are estimated to be approximately \$700,000 and will be offset against the proceeds of the offering. The offering is expected to close December 31, 2003. As of September 30, 2003, the Company has sold 4.4 units for cash of \$44,000. At September 30, 2003, the Company has incurred stock offering costs of \$5,303 which have been netted against the proceeds.

Class D1 Preferred Stock Dividend - Class D1 preferred stock is only available to shareholders of record on July 15, 2003. Each share of Class D1 preferred stock has no voting or dividend rights. The Class D1 preferred stock shareholders were to be entitled to 5% of the net sale or liquidation value of RX Subsidiary. If there had been a merger, reorganization, recapitalization or similar event in which the Company was not the surviving entity, then the Class D1 preferred stock shareholders would have been entitled to 5% of the net proceeds attributable to RX Subsidiary. Class D1 preferred stock may not be transferred except as required by applicable state and federal law. On June 2, 2003, the Company's Board of Directors declared a dividend of one share of Class D1 preferred stock for every 20 shares of common stock or common stock equivalent preferred stock held as of July 15, 2003. The Company has not yet designated any shares of preferred stock as Class D1. The Company plans to designate enough shares as Class D1 to allow for this stock dividend [See Note 24]. Since the former owners of RX Subsidiary have called for the acquisition to be cancelled [See Note 24], the stock dividend has been suspended indefinitely.

NOTE 18 - INCOME TAXES

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes . SFAS No. 109 requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carryforwards. At September 30, 2003, the Company has available unused operating loss carryforwards of approximately \$1,011,000, which may be applied against future taxable income and which expire in various years through 2023. Due to certain substantial changes in the Company's ownership, there is an annual limitation on the amount of net operating loss carryforwards which can be utilized.

At September 30, 2003, the total of all deferred tax assets was approximately \$508,000 and the total of all deferred tax liabilities was approximately \$8,000. The amount of and ultimate realization of the benefits from the deferred tax assets for income tax purposes is dependent, in part, upon the tax laws in effect, the future earnings of the Company, and other future events, the effects of which cannot be determined. Because of the uncertainty surrounding the realization of the loss carryforwards, the Company has established a valuation allowance of approximately \$500,000. The net change in the valuation allowance was approximately \$295,000 during the nine months ended September 30, 2003.

The temporary differences gave rise to the following deferred tax asset (liability):

NOTE 19 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has just recently commenced operations and has current liabilities in excess of current assets. Further, the Company subsequently defaulted on notes payable related to the acquisition of RX Subsidiary and the former owners of RX Subsidiary called for the acquisition to be cancelled. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through sales of their stock or through a possible business combination with another company. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

NOTE 22 - COMMITMENTS AND CONTINGENCIES [*Continued*]

Judgment and Voiding of Acquisition - In March 2003, the Company was notified that they were to be joined as defendants in a suit brought by AmeriSource Bergen Corporation (AmeriSource) against NIPSI. The original suit by AmeriSource sought to recover \$480,335 from NIPSI for failing to honor a contract. In March 2003, AmeriSource filed a supplemental petition to enjoin any transfer of assets from NIPSI to the Company. In April 2003, the court entered a default judgment against NIPSI. The court found that NIPSI had fraudulently transferred assets to the Company to avoid the claims of AmeriSource. The court voided and nullified the transfer of assets from NIPSI to the Company and ordered NIPSI to pay \$551,264 to AmeriSource. As a result of these proceedings, the asset purchase agreement between the Company, NIPSI and NIPSI General Partner was voided and the Company was released as a defendant. The financial statements reflect the acquisition as having been voided or rescinded and any expenses associated with the voided acquisition have been classified as costs of the unsuccessful NIPSI acquisition.

NIPSI Demand Letter - In March 2003, NIPSI and NIPSI General Partner sent a demand letter to the Company to rescind the asset purchase agreement with the Company because certain conditions of the agreement were not satisfied. NIPSI General Partner is claiming damages of \$120,000 against the Company. The financial statements reflect the acquisition as having been voided or rescinded and the expenses associated with the voided acquisition have been classified as costs of the unsuccessful NIPSI acquisition. No accrual for possible losses or settlements, including the \$120,000 in damages claimed by NIPSI General Partner, has been recorded in the accompanying financial statements.

Possible NIPSI Claims - For approximately three months, the Company operated the assets of NIPSI pursuant to an asset purchase agreement [See Note 3 and above]. The Company's management believes that the Company is not responsible for any liabilities of NIPSI, but the possibility exists that creditors and others seeking relief from NIPSI may also include the Company in claims and suits based on the previous relationship. The Company is not currently named in, nor are they aware of, any such claims or suits against NIPSI. The Company's management believes that the Company would be successful in defending against any such claims. No accrual for possible losses or settlements has been recorded in the accompanying financial statements. As further disclosed above, NIPSI General Partner is claiming damages of \$120,000 against the Company.

Offers to Purchase - In October 2002, the Company signed an Offer to Purchase with Coastalmed Inc. and Coastalmed of Panama City, Inc. (collectively Coastalmed). The offer called for the Company to purchase all of the assets of Coastalmed for \$7,000,000 payable as \$4,000,000 cash, \$1,375,000 as a five-year 6.5% note payable with interest-only payments for the first 18 months and \$1,625,000 as Class B preferred stock. This offer expired and was replaced by a new Offer to Purchase signed in January 2003. The new offer called for the Company to purchase 100% of the stock of Coastalmed for \$8,400,000 payable as \$4,900,000 cash, \$1,625,000 as a five-year 6.5% note payable with interest-only payments for the first 18 months and \$1,875,000 as Class B preferred stock. The Company also issued 1,000,000 shares of common stock as partial consideration [See Note 17]. The second offer expired and, in September 2003, the Company abandoned their plans to acquire Coastalmed and expensed the associated acquisition costs of \$250,000.

The first alternative was \$250,000 cash, \$500,000 as a five-year 6% note payable and \$400,000 as Class B preferred stock. The second alternative was \$650,000 as a five-year 6% note payable and \$850,000 as Class B preferred stock. The offer expired without a signed acquisition agreement and consummation of the proposed acquisition is not guaranteed.

Possible Legal Action - In March 2003, the Company was notified that Pre-Employment Screening, Inc., Lawrence J. Altman, Gateway Legal Services, Inc. and Fun Services of Kansas City plan to file suit to seek \$12,000 for alleged violations of the Telephone Consumer Protection Act. The Company denies the allegations and intends to vigorously defend themselves in this matter. No accrual for possible losses or settlements has been recorded in the accompanying financial statements.

Potential Stock Issuances - Through September 30, 2003 and subsequently [See Note 24], the Company has signed notes payable totaling \$138,845 which call for the Company to issue 1,513,345 shares of common stock as collateral; however, none of the shares have been issued.

Release from Liability - In September 2003, the Company's former Chief Executive Officer approved issuing 173,747 shares of Class C preferred stock to a third party in exchange for payment of liabilities totaling \$868,735 [See Note 16]. Of the liabilities to be settled, \$100,335 was owed to the Company's former Chief Executive Officer. The Company has recorded this amount as a contingent liability in the accompanying financial statements pending payment by the third party.

Source of Revenues - For the nine months ended September 30, 2003, all of the Company's sales were made by RX Subsidiary through healthcare facilities which are owned or controlled by only two groups. The loss of the business provided through these two groups of healthcare facilities could adversely affect the Company's business and financial position.

Description of Business

General

American Hospital Resources, Inc. (AMHR or the Company) originally incorporated in the State of Utah on May 9, 1972, under the name High-Line Investment & Development Company. In 1977, the Company changed its name to Gayle Industries, Inc. In 1978 the Company merged into its subsidiary, Swing Bike, keeping the Swing Bike name. In 1979 the Company changed its name from Swing Bike to Horizon Energy Corp. In 1992 the Company changed its name to Millennium Entertainment Corp.

In 1993 the Company changed its name to New Horizon Education, Inc. and began focusing on marketing computer education programs. The Company was not successful and in 1995 the Company sold its assets and suspended operations. The Company remained essentially dormant from 1998 through 2000.

In 2001, the Company recommenced operations and in June of 2002, finalized an Agreement and Plan of Reorganization with American Hospital Resources, Inc., a Delaware corporation founded on August 27, 1999. Under the Agreement, American Hospital Resources Inc. became a wholly owned subsidiary of the Company and the Company changed its name from New Horizon Education, Inc. to American Hospital Resources, Inc. The Company also authorized a class of 10,000,000 shares of Preferred Stock at no par value per share and changed its business strategy to focus on providing health care consulting and pharmaceutical outsourcing.

The Company's common stock is quoted on the OTCBB under the symbol AMHR.

Nature of Business

American Hospital Resources is a healthcare services company that provides pharmacy services to long-term care providers and specialty hospitals as well as other acute care consulting and management services. We are currently focusing on acquiring and consolidating profitable pharmacy outsourcing businesses. We are targeting companies that provide pharmacy management services and pharmaceutical supplies to long-term care facilities such as nursing homes and hospices. As part of our business strategy, we have structured a program designed to merge profitable regional pharmacy outsourcers into a national team. We believe these regional providers will benefit from the enhanced buying power and market presence of a consolidated healthcare entity.

Since acquiring our subsidiary and implementing our business plan in the summer of 2002, we have been actively engaged in identifying pharmaceutical and healthcare companies to join our proposed healthcare network. During the past year we identified three companies that we thought would be suitable for potential acquisition and/or management.

In October of 2002, we began negotiations to acquire the assets of Coastalmed Inc. and its subsidiary. In January 2003, we issued 1,000,000 shares of common stock as partial and nonrefundable consideration of \$250,000 for the proposed acquisition of Coastalmed. Our efforts to acquire Coastalmed were unsuccessful and in September 2003, we abandoned the acquisition and expensed \$250,000 in associated acquisition costs.

In December of 2002 we reported on Form 8-K an agreement to acquire the assets of NIPSI Healthcare of Houston LP from its general partner. For a brief time in early 2003, we operated the assets of NIPSI pursuant to this agreement. However, we returned the assets in March of 2003 when we learned of a lawsuit filed by AmeriSource Bergen Corporation against NIPSI. The suit sought the return of NIPSI's assets to satisfy a prior claim by AmeriSource. In April of 2003, a Texas State court entered a default judgment against NIPSI in favor of AmeriSource. As a result, the asset transfer was voided by act of law and AMHR was released from any claims.

On May 8, 2003 we finalized a Stock Purchase Agreement to acquire and operate Rx Solutions, Inc., a Mississippi healthcare corporation, as a wholly owned subsidiary of AMHR. However, subsequent to the date of this report, in November 2003, we defaulted on the notes payable underlying the acquisition and the acquisition was cancelled.

Although our acquisition efforts have so far proven unsuccessful, we intend to continue seeking suitable healthcare and pharmaceutical companies for potential acquisition, consulting or management opportunities.

Three and Nine Month Periods Ended September 30, 2003

All of our revenue during the three and nine month periods ended September 30, 2003 derived from sales generated by our former subsidiary, Rx Solutions, Inc. Subsequent to the date of this report, in November 2003 we defaulted on the notes payable underlying the acquisition of Rx Solutions and the acquisition was cancelled. Management anticipates that the loss of revenue generated by Rx Solutions will have a material negative impact on our results of operations through the end of the year.

Total revenues during the three months ended September 30, 2003 were \$1,637,234 with cost of goods sold of \$1,357,864 resulting in gross profit of \$279,370. However, operating expenses were \$920,123 during this period and interest expense was \$18,770. As a result, we realized a net loss of \$659,523 during the three months ended September 30, 2003.

Revenues for the nine months ended September 30, 2003 were \$2,606,498 with cost of goods sold of \$2,050,677 resulting in gross profit of \$555,821. Operating expenses were \$1,266,699 through the first nine months of 2003, consisting mainly of \$1,014,693 in general and administrative expenses and \$252,006 in costs resulting from the failed acquisitions of NIPSI and Coastalmed. We also had interest expense of \$31,500 during this period. As a result, our net loss during the first nine months of 2003 was \$742,378. General and administrative expenses during all periods consisted of salaries, leases, professional fees, executive compensation, operating overhead and legal and accounting fees.

Three and Nine Month Periods Ended September 30, 2002

Total revenue during the three months ended September 30, 2002 was \$118,200. Revenues during the nine months ended September 30, 2003 were \$176,300. All revenue during these periods derived from fees received for consulting services.

Expenses during the three months ended September 30, 2002 consisted of \$110,714 in general and administrative expenses resulting in net income after taxes of \$3,659. Expenses during the nine months ended September 30, 2002 consisted of \$196,571 in general and administrative expenses and \$1,122 in interest expenses. As a result of the factors, AMHR realized a net loss of \$25,052 through the first nine months of 2002. General and administrative expenses during both periods consisted of executive compensation, consulting and negotiation services, office rental, legal and accounting costs and other administrative expenses.

Higher general and administrative expenses in 2003 are largely attributable to increased payroll costs, professional fees and executive compensation incurred through acquiring our former subsidiaries and implementing our business plan.

Liquidity and Capital Resources

Total assets at September 30, 2003 were \$3,334,216 compared to total assets of \$1,173,342 at December 31, 2002. Total current assets at September 30, 2003 were \$785,738 consisting of \$26,248 in cash, \$462,052 in net accounts receivable and \$297,438. At September 30, 2003, the Company had net property and equipment of \$156,311. Total other assets at September 30, 2003 totaled \$2,392,167 consisting of \$1,312,936 in goodwill, \$1,069,609 in deferred

stock offering costs and \$9,622 in deposits. The majority of accounts receivable, inventory and equipment at September 30, 2003 were related to the operations of Rx Solutions.

Current assets at December 31, 2002 were \$51,854 consisting of \$6,779 in cash, \$15,000 in an advance due from NIPSI and \$30,075 in prepaid expenses. At December 31, 2002, AMHR had net property and equipment of \$1,743. Other assets at December 31, 2002 were \$1,119,745 consisting of \$60,321 in goodwill and \$1,059,424 in deferred stock offering costs.

Total liabilities at September 30, 2003 were \$2,730,422. Current liabilities totaled \$1,534,748 consisting of \$256,582 in accounts payable, \$290,000 in liabilities related to a proposed equity line of credit, \$717,529 in the current portion of notes payable, \$130,407 in accrued expenses, \$61,305 in current lease obligations and \$78,925 in dividends payable. Long-term debt at September 30, 2003 was \$1,195,674 consisting of \$1,000,000 in liabilities related to the failed acquisition of Rx Solutions, \$162,592 in notes payable and \$33,082 in capital lease obligations.

Liabilities at December 31, 2002 were \$1,198,090 consisting of \$1,088,150 in accounts payable and \$109,940 in accrued expenses. The significant increase in liabilities through September 30, 2003 was primarily due to signing \$900,000 in notes payable to acquire a subsidiary, Rx Solutions, Inc. The company also recorded accrued payroll and associated interest expense during both periods. These accrued expenses were \$170,287 at September 30, 2003 compared to \$109,940 at December 31, 2002.

Through the beginning of 2004 we hope to reduce liabilities and bring current our outstanding debts. We anticipate that our operating expenses for the rest of the year will be approximately \$500,000 consisting mainly of operating expenses, salaries and consulting fees. We will also have ongoing legal and auditing expenses relating to our public reports as well as office rental and other expenses.

Management believes that we have sufficient cash on hand to continue operations through the end of 2003, however, we will require additional funding to settle our debts and fully implement our business plan. In November of 2002 we explored the possibility of entering an equity line of credit agreement with Cornell Capital Partners, LP that would provide up to \$10,000,000 of equity financing. To activate the line of credit, we would have to register the equity line and have the registration statement declared effective by the SEC. We have not filed a registration statement with the SEC at the date of this report.

We have also retained a consultant to negotiate a five-year \$6,000,000 loan and a supplementary line of credit to provide additional operating capital. If these efforts are unsuccessful we may consider securing loans from officers and directors, selling additional stock or entering into debt financing. Other than as discussed in this report, we have no material commitments for capital expenditures.

Item 3. Controls and Procedures

Pursuant to Rule 13a-14 of the Securities Exchange Act of 1934, AMHR, under the supervision of the chief executive and financial officer, has conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures within 90 days of the filing date of this quarterly report. Based upon the results of this evaluation, our chief executive officer and chief financial officer have concluded believes that we maintain proper procedures for gathering, analyzing and disclosing all information in a timely fashion that are required to be disclosed in its Exchange Act reports. There have been no significant changes in our controls subsequent to the evaluation date.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Management is aware of a potential suit in the Circuit Court of the County of St. Louis, State of Missouri, Cause No. 03AC-002539TCV, dated March 25, 2003. The suit is being brought by Pre-Employment Screening, Inc., Lawrence J. Altman, Gateway Legal Services, Inc. and Fun Services of Kansas City, Inc. The petition alleges that the company breached the Telephone Consumer Protection Act by sending unsolicited advertising faxes to plaintiffs and requests damages of \$12,000 and such other relief as the court deems proper. Management denies transmitting any faxes to the plaintiffs and regards the lawsuit as frivolous and opportunistic. Should AMHR be formally served with this suit, it intends to deny all charges and defend itself appropriately.
