**PROXY STATEMENT**

**PHOENIX TECHNOLOGIES LTD.**

**915 Murphy Ranch Road  
Milpitas, California 95035**

**PROXY STATEMENT FOR THE ANNUAL MEETING OF STOCKHOLDERS**

**To Be Held February 14, 2007**

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors (the **Board**) of Phoenix Technologies Ltd. (the **Company** or **Phoenix**) of proxies for use at the Annual Meeting of Stockholders of the Company to be held on February 14, 2007 (the **Meeting**) at the Company's offices located at 915 Murphy Ranch Road, Milpitas, California, commencing at 10:00 AM, Pacific Standard Time, and at any adjournments thereof. All proxies are solicited for the purposes set forth herein and in the Notice of Annual Meeting of Stockholders that accompanies this Proxy Statement. The date of this Proxy Statement is January 22, 2007, the approximate date on which this Proxy Statement and the accompanying form of proxy were first sent or given to stockholders.

We do not expect any matters not listed in the Proxy Statement to come before the Meeting. If any other matter is presented, your signed proxy card gives the individuals named as proxy holders the authority to vote your shares to the extent authorized by Rule 14a-4(c) under the Securities Exchange Act of 1934, as amended, which would include matters that the proxy holders did not know were to be presented at the Meeting by December 28, 2006.

**General Information**

*Certain Financial Information.* The Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2006 is enclosed with this Proxy Statement.

*Voting Securities.* Only stockholders of record as of the close of business on January 10, 2007 (the **Record Date**) will be entitled to vote at the Meeting and any adjournments thereof. As of the Record Date, there were 25,574,579 shares of the Common Stock of the Company issued and outstanding. Stockholders may vote in person or by proxy. Each holder of shares of Common Stock is entitled to one vote on the proposals presented in this Proxy Statement and one vote for each director to be elected for each share of Common Stock held. There is no cumulative voting in connection with the election of directors.

*Quorum.* The required quorum for transacting business at the Meeting is a majority of the votes eligible to be cast by holders of shares of Common Stock issued and outstanding on the Record Date. Shares that are voted **FOR**, **AGAINST** or **WITHHELD** on a matter (the **Votes Cast**) are treated as being present at the Meeting for purposes of establishing a quorum and are also treated as shares entitled to vote at the Meeting with respect to such matter. Because directors are elected by a plurality vote, shares covered by proxies marked **WITHHELD** will not affect the outcome of the election of directors.

*Abstentions.* Under the Company's bylaws and applicable Delaware law, abstentions will be counted for purposes of determining both (i) the presence or absence of a quorum for transacting business and (ii) the total number of Votes Cast with respect to a proposal (other than the election of directors). Accordingly, abstentions will have the same effect as a vote against the proposal.

*Broker Non-Votes.* Broker non-votes will be counted for purposes of determining the presence or absence of a quorum for transacting business, but will not be counted for purposes of determining the number of Votes Cast with respect to the particular proposal on which the broker has expressly not voted.

Accordingly, broker non-votes will not affect the outcome of the voting on a proposal that requires a majority of the Votes Cast (such as Proposal 2) and will have no effect on the election of directors.

*Solicitation of Proxies.* In addition to soliciting stockholders by mail, certain of the Company's directors and officers may solicit proxies personally, by telephone, email, facsimile, postings to the Internet, electronic means and otherwise. Appendix A to this Proxy Statement sets forth information relating to the directors and those officers who may be deemed to be participants in the solicitation of proxies on the Company's behalf. None of these individuals will receive special compensation for their assistance in soliciting proxies, but may be reimbursed for reasonable out-of-pocket expenses incurred in connection with this solicitation. The Company will request brokers, custodians, nominees and other record holders to forward copies of the proxy and other soliciting material to persons for whom they hold shares of Common Stock of the Company and to request authority for the exercise of proxies; in such cases, the Company, upon request of the record holders, will reimburse such holders for their reasonable expenses.

The Company has also retained Morrow & Co., Inc. to assist in obtaining proxies for the Meeting from brokers, custodians, nominees and institutional investors. The estimated fee for such services is [\$ ] plus out-of-pocket expenses. Morrow will employ approximately [ ] people in connection with its solicitation.

As a result of the potential solicitation of proxies by Starboard Value and Opportunity Master Fund Ltd. in connection with its nomination of a competing slate of directors, as described in Proposal No. 1 Election of Directors Nominating and Corporate Governance Committee, the Company's expenses related to this solicitation of proxies will exceed those normally spent for an annual meeting. Such additional costs (exclusive of litigation costs, if any) are expected to aggregate up to [\$ ], of which approximately [\$ ] has been incurred to date. The additional costs do not include the costs represented by the regular salaries and wages of our employees and officers. The Company will pay all costs of this solicitation.

*Voting of Proxies.* All shares represented by a valid proxy received prior to the Meeting will be voted, and where a stockholder specifies by means of the proxy a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the specification so made. If no choice is indicated on the proxy, the shares will be voted FOR all nominees, FOR all other proposals described herein, and as the proxy holders may determine in their discretion with respect to any other matters that properly come before the Meeting. A stockholder giving a proxy has the power to revoke his or her proxy at any time prior to the time it is voted by delivering to the Secretary of the Company a written instrument revoking the proxy or a duly executed proxy with a later date, or by attending the Meeting and voting in person.

If you plan to vote in person at the Meeting, please bring proof of identification. Even if you currently plan to attend the Meeting, we recommend that you submit your proxy as described above so that your vote will be counted if you later decide not to attend the Meeting. If you hold your shares through a broker or other nominee and simply wish to attend the Meeting, please bring either a copy of the voting instruction card provided by your broker or nominee or a copy of a brokerage statement showing your share ownership in the Company as of January 10, 2007.

**PROPOSAL NO. 1****ELECTION OF DIRECTORS**

The Company's nominees for election at the Meeting to Class 2 of the Board are David S. Dury and Taher Elgamal (the "Nominees"). Mr. Dury and Dr. Elgamal are presently Class 2 Directors of the Company. Anthony Sun, currently a Class 2 Director of the Company, has decided not to stand for re-election to the Board. Pursuant to a resolution adopted by the Board at a meeting held on December 19, 2006, the Board reduced the number of authorized directors of the Company from seven to six and the number of Class 2 Directors from three to two, effective immediately prior to the commencement of the Meeting.

The Company expects each Nominee to be available to serve as a director. If, however, a Nominee is unable or declines to serve for any reason, proxies may be voted for such substitute nominee as the Board may designate. Proxies may not be voted for more than one substitute nominee.

The Company's Certificate of Incorporation and Bylaws provide for a classified Board currently consisting of two Class 1 Directors (currently Woodson Hobbs and Anthony P. Morris), three Class 2 Directors (currently Mr. Dury, Dr. Elgamal and Mr. Sun) and two Class 3 Directors (currently Dale L. Fuller and Richard A. Noling). The Class 1, 2 and 3 Directors serve staggered three-year terms. The Class 2 Directors to be elected at the Meeting will be elected to hold office until the 2010 Annual Meeting of Stockholders and until their successors have been elected and qualified.

Mr. Hobbs is not independent because he is employed by the Company. Mr. Dury is not independent because his wife served as a consultant to the Company until June 2006 and in such capacity received remuneration in excess of the limits permitted by the NASDAQ rules governing director independence. In the twelve months ending June 30, 2006, Ms. Dury received a total of \$67,725 for her service to the Company, and, over the length of her consulting engagement, Ms. Dury received a total of \$162,225 in compensation from the Company.

## **Meetings and Committees of the Board**

During the fiscal year ended September 30, 2006 (the Last Fiscal Year), the Board held a total of 13 regularly scheduled meetings, no special meetings, and took additional actions by written consent. During the Last Fiscal Year, each Board member, other than Mr. Sun, attended at least 75% of the aggregate number of meetings of the Board and meetings of the committees of the Board on which he served during the Last Fiscal Year.

The Company encourages attendance of Board members at all annual meetings. None of the Board members, other than Albert E. Sisto, the Company's former Chairman of the Board, President and Chief Executive Officer, attended the annual meeting which took place in the prior calendar year.

The Board has an Audit Committee, a Compensation Committee and a Nominating and Governance Committee.

### *Audit Committee*

The members of the Audit Committee are Messrs. Fuller, Morris, and Noling. Dr. Elgamal was a member of the Audit Committee during the Last Fiscal Year. On November 1, 2006, the Board unanimously approved the appointment of Mr. Fuller to replace Dr. Elgamal as a member of the Audit Committee.

Each member of the Audit Committee is independent as such term is defined in the NASDAQ Rules and Rule 10A-3 of the Securities and Exchange Commission (the SEC) under the Securities Exchange Act of 1934, as amended. Mr. Noling serves as the Chairman of the Audit Committee. The Board has determined that Mr. Noling qualifies as an audit committee financial expert as defined in Item 401(h) of Regulation S-K promulgated by the SEC. During the Last Fiscal Year, the Audit Committee met 13 times, and took additional actions by written consent. The responsibilities of the Audit Committee include:

- overseeing the Company's accounting and financial reporting processes and the audits of the Company's financial statements;
- monitoring the integrity of the Company's financial statements;
- evaluating the qualifications, independence and performance of the Company's independent registered public accounting firm; and
- monitoring and reviewing the performance of the Company's internal audit function.

A copy of the Audit Committee Charter was previously attached as Appendix B to the Company's Proxy Statement dated February 17, 2004 and mailed to stockholders of record in connection with the Company's 2004 Annual Meeting of Stockholders. The Audit Committee Charter was subsequently

modified, via unanimous written consent of the Board dated November 18, 2005, and is available for viewing at <http://www.phoenix.com/en/About+Phoenix/Investors/Corporate+Governance/default.htm>.

*Compensation Committee*

The members of the Compensation Committee are Dr. Elgamal, Mr. Morris and, until the date of the Meeting, Mr. Sun. Mr. Dury's tenure as a member of the Compensation Committee expired on March 6, 2006, the date of the annual meeting of stockholders for the fiscal year ended September 30, 2005. Mr. Morris serves as the Chairman of the Compensation Committee. Each member of the Compensation Committee is independent as such term is defined in the NASDAQ Rules. During the Last Fiscal Year, the Compensation Committee met five times, and took additional actions by written consent. The responsibilities of the Compensation Committee include:

- establishing and reviewing the Company's general compensation policies applicable to the Company's Chief Executive Officer and other executive officers;
- reviewing and approving the level of compensation, including salaries, fees, benefits, executive incentive plans and perquisites, of the Company's Chief Executive Officer and other executive officers;
- establishing and reviewing on an annual basis, the terms and conditions of employment of the Company's Chief Executive Officer and other executive officers, including, without limitation, executive perquisites and change of control benefits;
- administering the Company's stock-based incentive compensation plans; and
- reviewing and advising the Board concerning the performance of the Company's Chief Executive Officer and other executive officers.

For a complete listing of the Compensation Committee's responsibilities, please refer to the Compensation Committee Charter attached as Appendix B to the Company's Proxy Statement dated January 27, 2006 and mailed to stockholders of record in connection with the Company's 2006 Annual Meeting of Stockholders.

*Nominating and Corporate Governance Committee*

The members of the Nominating and Corporate Governance Committee are Dr. Elgamal and Messrs. Dury and Noling. Dr. Elgamal and Mr. Noling are independent as such term is defined in the NASDAQ Rules. Although Mr. Dury does not qualify as independent under the NASDAQ rules (see Board Independence above), the Board has determined that the appointment of Mr. Dury to the Nominating and Corporate Governance Committee is required in the best interests of the Company and its stockholders because of his experience and extensive knowledge regarding the Company's business, strategy and mission, and his ability to evaluate the extent to which a candidate's background is relevant to the Company's needs.

The Nominating and Corporate Governance Committee, which was formerly called the Nominating Committee, operates pursuant to a charter approved and adopted by the Board on May 9, 2006. A copy of the Nominating Committee charter was attached as Appendix A to the Company's Proxy Statement dated February 17, 2004 and mailed to stockholders of record in connection with the Company's 2004 Annual Meeting of Stockholders. Pursuant to a meeting held on May 9, 2006, the Board unanimously approved expanding the responsibilities of the Nominating Committee to include governance oversight. The updated Nominating and Corporate Governance Committee charter is available for viewing, at <http://www.phoenix.com/en/About+Phoenix/Investors/Corporate+Governance>. During the Last Fiscal Year, the Nominating and Corporate Governance Committee met three times.

The purpose of the Nominating and Governance Committee is to establish general qualification guidelines applicable to nominees for election to the Board and to ensure that the Board is appropriately constituted to meet its fiduciary obligations to the Company and its stockholders. The Nominating and Corporate Governance Committee identifies individuals qualified to become Board members, including nominees suggested by stockholders, and recommends nominees for appointment or election to the Board. The Nominating and Corporate Governance Committee does not use specific minimum requirements, but considers several factors to determine whether a director candidate is qualified. These factors include, but are not limited to: (i) the extent of a candidate's prior experience dealing with financial and auditing issues of a publicly traded company; (ii) the existence of significant training and experience at the policy-making level in areas of business, government, education and/or technology; (iii) specific past concentration in the areas of strategic planning, finance, business law, and management; and (iv) the extent to which the candidate's background is relevant to the Company's mission, strategy and needs. To date, the Company has not paid any fees to any third party to identify or evaluate or assist in identifying or evaluating potential nominees.

Additionally, the Nominating and Corporate Governance Committee is responsible for the creation and monitoring of the corporate governance practices of the Company. Specifically, the Nominating and Corporate Governance Committee's responsibilities include:

- overseeing the Company's processes for providing information to the Board;
- assessing the reporting channels through which the Board receives information and the quality and timeliness of information received to ensure that the Board obtains appropriately detailed information in a timely fashion;
- establishing procedures for stockholders to communicate with the Board and individual directors;
- reviewing annually the Company's corporate governance practices and code of ethics and recommending to the Board any amendments deemed necessary or appropriate; and
- overseeing an annual performance evaluation of the Board and management and reporting the results of such evaluations to the Board.

The Nominating and Corporate Governance Committee seeks to have on the Board at least one financial expert as defined in Item 401(h) of Regulation S-K promulgated by the SEC and believes that the majority of the Board must be composed of independent directors as defined in NASDAQ Rule 4200.

The Nominating and Corporate Governance Committee will consider candidates for director from any source, including director candidates recommended by stockholders. No formal procedures exist for the handling of director candidates recommended by stockholders; however, all candidates recommended by stockholders will be evaluated by the Nominating and Corporate Governance Committee in the same way and by using the same criteria and general guidelines used for all other candidates. Stockholders may submit director recommendations in writing to the Nominating and Corporate Governance Committee, c/o the Company's Chief Executive Officer at the Company's offices located at 915 Murphy Ranch Road, Milpitas, California 95035.

The Nominating and Corporate Governance Committee did not receive prior to September 29, 2006 any recommendations for director candidates from any non-management stockholder or group of stockholders that beneficially owns more than 5% of the Company's voting stock. Each Nominee included on this year's proxy card is an executive officer and/or director standing for re-election.

On December 19, 2006, in connection with the decision by Anthony Sun to not run for election to the Board at the Meeting, the Board resolved to reduce the number of Class 2 Directors from three to two effective immediately prior to the commencement of the Meeting. As a result, only two Class 2 Directors will be elected at the Meeting. Also on December 19, 2006, the Board resolved to nominate Messrs. Dury

and Elgamal as its nominees for election as Class 2 Directors at the Meeting. Subsequently, in a letter dated December 27, 2006, Starboard Value and Opportunity Master Fund Ltd. ( Starboard ) notified the Company of its intent to nominate John Mutch, Philip Moyer and Jeffrey C. Smith as nominees for election as Class 2 Directors at the Meeting. On January 3, 2007, Starboard filed a copy of the letter as an exhibit to a Schedule 13D/A filed by Starboard and certain other parties (collectively, the Reporting Persons ) with the SEC. In the Schedule 13D/A, the Reporting Persons disclosed that they had agreed to form a group for the purpose of soliciting proxies or written consents for the election of the persons nominated by Starboard to the Board at the Meeting and stated that Ramius Capital Group, L.L.C., one of the Reporting Persons, continued to be interested in acquiring the Company. On January 12, 2007, the Board considered the nominees proposed by Starboard, and resolved to continue to recommend Mr. Dury and Dr. Elgamal for election as Class 2 directors at the 2007 Annual Meeting.

On January 16, 2006, the Reporting Persons filed a preliminary proxy statement with the Commission relating to the solicitation of proxies for the election of John Mutch and Philip Moyer as Class 2 Directors at the Meeting. On that same date, Admiral Advisors, LLC, one of the Reporting Persons, sent the Company a letter offering to acquire the Company for \$5.25 per share, in cash.

#### **Stockholder Communications with Directors**

The Board welcomes communications from the Company's stockholders. Any stockholder may communicate with either the Board as a whole, or with any individual director by sending a written communication c/o the Company's Lead Independent Director at the Company's offices located at 915 Murphy Ranch Road, Milpitas, California 95035. All communications sent to the Company's Lead Independent Director will be forwarded to the Board, as a whole, or to the individual director to whom such communication was addressed, without review by management.

**Option/SAR Grants in Last Fiscal Year**

The following table sets forth certain information regarding the stock options granted to each of the Named Executive Officers under the Company's stock option plans during the Last Fiscal Year. None of the Named Executive Officers received an award of stock appreciation rights during the Last Fiscal Year.

Name	Number of Securities Underlying Options(1)	Percent of Total Options Granted to Employees in Fiscal Year		Exercise Price(2)	Expiration Date	Potential Realizable Value(3)

Ramesh Kesanupalli	10,000	0.32	%	\$ 6.76	2/1/2016	\$ 42,513	\$ 107,737

(1) Mr. Hobbs' option vests over a period of four years, but may be exercised at any time. If Mr. Hobbs exercises the option, unvested shares are subject to a right of repurchase that lapses in accordance with the four year vesting schedule. All other stock options vest and become exercisable over a period of four years from the date of grant.

(2) All options were granted at fair market value on the date of grant. The exercise price may be paid in cash, in shares of the Company's Common Stock valued at fair market value on the exercise date, or through a cashless exercise involving a same-day sale of all or part of the purchased shares.

(3) These columns reflect the potential realizable value of each grant assuming the market value of the Company's stock appreciates at 5% and 10% annually from the date of grant over the term of the option. Realizable values are reported net of the option exercise price. There is no assurance that the actual stock price appreciation over the 10-year option term will be at the assumed 5% or 10% levels or at any other level. Unless the market price of the stock does in fact appreciate over the option term, no value will be realized from the option grants.

**Aggregated Option Exercises in Last Fiscal Year  
And Fiscal Year-End Option Values  
With Respect to Option Grants by the Company**

The following table provides summary information regarding options to purchase the Company's Common Stock that were exercised by the Named Executive Officers during the Last Fiscal Year and the number and value of unexercised in-the-money options held by the Named Executive Officers at September 30, 2006. The closing price per share of the Company's Common Stock on September 29, 2006 was \$4.30.

Name	Shares Acquired on Exercise(#)	Value Realized \$(1)	Number of Securities Underlying Unexercised Options at FY End (#)		Value of Unexercised In-the- Money Options at FY End \$(2)		
			Exercisable	Unexercisable	Exercisable	Unexercisable

Kort van Bronkhorst				115,000			
Curtis Francis			253,154				
Ramesh Kesanupalli			71,832				

(1) These amounts represent the fair market value of the shares underlying the stock options on the date of exercise less the stock option exercise price.

(2) These amounts represent the difference between the exercise price of the stock options and the closing price of \$4.30 of the Company's Common Stock on September 29, 2006 for all options held by each Named Executive Officer.

(3) Twenty-five percent of these options vest on September 6, 2007, and 1/48 of the options will vest each month thereafter, conditioned on Mr. Hobbs's continued employment with the Company. Mr. Hobbs may elect to exercise this option at any time with respect to unvested shares and enter into a Restricted Stock Purchase Agreement providing the Company with a repurchase right for the unvested shares. Such repurchase right would lapse at the same rate as the options would have otherwise vested.

(2) See the description below of the material features of the equity compensation plans not approved by security holders that correlate with the numbers listed in the table.

*1997 Non-Statutory Stock Option Plan*

The Company's 1997 Non-statutory Stock Option Plan (the "1997 Plan") is the Company's only equity compensation plan that has not been approved by the stockholders and under which additional options of the Company's Common Stock may be granted. The Board adopted the 1997 Plan to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentives to employees and consultants of the Company and to promote the success of the Company's business. Officers and directors of the Company are not eligible to receive option grants under the 1997 Plan. The term of the 1997 Plan is ten years.

The Board has reserved 1,317,576 shares of Common Stock for issuance under the 1997 Plan. As of January 20, 2006, 373,330 shares of Common Stock had been issued upon exercise of options granted under the 1997 Plan, options to purchase 555,114 shares were outstanding and 389,132 shares remained available for future grant. Options granted under the 1997 Plan are non-statutory stock options that are not intended to qualify as "incentive stock options" as defined in Section 422 of the Internal Revenue Code of 1986, as amended. The 1997 Plan is administered by the Board or a committee appointed by the Board (as applicable, the "Administrator"). The Administrator determines the exercise price of options at the time the options are granted, when options become exercisable, and the acceptable form of consideration for exercising an option. Options granted under the 1997 Plan are generally not transferable other than by will or the laws of descent and distribution, and may be exercised during the optionee's lifetime only by the optionee.

*Senior Management Nonqualified Stock Option Plan*

The Board adopted the Company's Senior Management Nonqualified Stock Option Plan (the 1987 Plan) in 1987. The 1987 Plan has not been approved by the Company's stockholders. The term of the 1987 Plan was ten years; therefore, no additional options may be granted under the 1987 Plan. Officers (and directors that also served as officers) were eligible to receive options grants under the 1987 Plan. As of January 20, 2006, options to purchase 10,150 shares of Common Stock were outstanding under the 1987 Plan.

*Non-Plan Stock Option Agreements*

Pursuant to a stock option agreement between Woodson Hobbs and the Company, dated September 6, 2006, Mr. Hobbs was granted a non-qualified stock option on September 6, 2006, to purchase 900,000 shares of Common Stock with an exercise price of \$5.05 per share, the closing price of the Common Stock on September 6, 2006. Subject to certain vesting acceleration provisions, the option will vest at a rate of  $\frac{1}{4}$  on the first anniversary of the grant date and  $\frac{1}{48}$  each month thereafter, conditioned upon Mr. Hobbs' continued employment with the Company. The term of the option is ten years from the date of grant unless sooner terminated. Mr. Hobbs may elect to exercise this option with respect to unvested shares and enter into a Restricted Stock Purchase Agreement providing the Company with a repurchase right for the unvested shares. Such repurchase right would lapse at the same rate as the options would have otherwise vested.

Pursuant to a stock option agreement between Richard Arnold and the Company, dated September 27, 2006, Mr. Arnold was granted a non-qualified stock option on September 27, 2006, to purchase 600,000 shares of Common Stock with an exercise price of \$4.45 per share, the closing price of the Common Stock on September 27, 2006. Subject to certain vesting acceleration provisions, the option will vest at a rate of  $\frac{1}{4}$  on the first anniversary of the grant date and  $\frac{1}{48}$  each month thereafter, conditioned upon Mr. Arnold's continued employment with the Company. The term of the option is ten years from the date of grant unless sooner terminated.

**Employment Contracts and Termination of Employment and Change of Control Arrangements**

**Employment Arrangements**

The Company entered into an Offer Letter agreement with Mr. Hobbs on September 6, 2006. This agreement provides that Mr. Hobbs will serve as President and Chief Executive Officer of the Company at an annual salary of \$420,000. He is also eligible for an annual bonus targeted at 75% of his base salary. The Company agreed to pay him 50% of his first year bonus, in the amount of \$157,500, in September 2006.

The Company also granted Mr. Hobbs a non-qualified stock option to purchase 900,000 shares of Common Stock at an exercise price of \$5.05, which was the closing price of the Common Stock on September 6, 2006. Subject to certain vesting acceleration provisions contained in Mr. Hobbs's Severance and Change of Control Agreement (as described below)  $\frac{1}{4}$  of the options shall vest on September 6, 2007, and  $\frac{1}{48}$  of the options shall vest each month thereafter, conditioned on Mr. Hobbs's continued employment with the Company. Mr. Hobbs may elect to exercise this option with respect to unvested shares and enter into a Restricted Stock Purchase Agreement providing the Company with a repurchase right for the unvested shares. Such repurchase right would lapse at the same rate as the options would have otherwise vested.

The Company also granted Mr. Hobbs 100,000 shares of restricted stock in connection with the commencement of his employment. Subject to certain vesting acceleration provisions contained in Mr. Hobbs's Severance and Change of Control Agreement (as described below), the restricted stock vests,

the shares become nonforfeitable, and the Company's right to repurchase the stock lapses with respect to 50% of the shares on September 6, 2008, and as to 12.5% of the shares every six months thereafter, conditioned on Mr. Hobbs's continued employment with the Company.

Pursuant to the terms of Mr. Hobbs's Severance and Change of Control Agreement dated September 6, 2006, if Mr. Hobbs's employment is terminated by the Company (for any reason other than Cause (as defined in the agreement), death or disability) or if Mr. Hobbs terminates his employment for Good Reason (as defined in the agreement), the Company will continue to pay him his base salary and benefits for an initial severance period of six months following such termination. Mr. Hobbs will continue to receive severance and benefits beyond the six-month period if his tenure with the Company on the date of termination equals or exceeds four months' time. In such event, Mr. Hobbs will receive severance and benefits for a number of months equal to two times the number of whole months he has been employed by the Company prior to termination; provided, however, that the maximum term of such severance payments shall be twelve months and the maximum amount of severance pay shall be one times his annual base salary rate in effect on the date of termination. In the case of such a termination, the vested portion of Mr. Hobbs's stock options as of the termination date shall remain exercisable until the earlier of the options' expiration or six months. If Mr. Hobbs's employment with the Company is so terminated after the fiscal year ending September 30, 2007, he shall be entitled to a bonus equivalent to the number of whole months he has been employed by the Company during the fiscal year in which the termination occurs, divided by twelve, and multiplied by his bonus, if any, for the previous fiscal year.

If the Company terminates Mr. Hobbs (other than for Cause, death, disability) or if Mr. Hobbs terminates his employment for Good Reason, during a period beginning on the date of the signing of a definitive agreement for a Change of Control (as defined in the agreement) and ending twelve months following a Change of Control, all of the following provisions apply: (i) All restricted stock and other equity awards (other than stock options) shall vest; (ii) if the Change of Control occurs within six months of Mr. Hobbs's date of hire, 1/3 of the unvested stock options granted at the commencement of his employment shall become exercisable as of the date of termination; (iii) if the Change of Control occurs six to twelve months after Mr. Hobbs's date of hire, 2/3 of such start-date stock options shall become exercisable; (iv) if the Change of Control occurs on or after twelve months after Mr. Hobbs's date of hire, all of such start-date stock options shall become exercisable; (v) any more favorable vesting provisions in an equity award agreement shall govern; (vi) if on the date of termination the sum of all severance payments, any unearned portion of Mr. Hobbs's prepaid bonus of \$157,500, and the acceleration value (as defined in the agreement) of all restricted stock and stock options is less than \$500,000, the Company shall pay Mr. Hobbs the difference.

Pursuant to the terms of the Severance and Change of Control Agreement, Mr. Hobbs is subject to a covenant not to compete until the end of any severance period and a covenant not to solicit employees of the Company for a period of twelve months after termination of employment.

The Company entered into a consulting arrangement with Albert E. Sisto effective upon his resignation as Chairman, President and Chief Executive Officer of the Company on May 26, 2006. Pursuant to this arrangement, Mr. Sisto has received \$10,000. In addition, all of Mr. Sisto's stock options that were vested as of the date of his resignation remain exercisable through May 26, 2007.

#### **Additional Severance and Change of Control Agreements**

If Mr. Gibbs is not re-employed during this twelve month period, he shall receive compensation until he is re-employed for up to an additional six months. The vested portion of Mr. Gibbs's stock options as of the termination date shall remain exercisable until the earlier of the options' expiration or six months.

If such a termination occurs within two months prior to or twelve months following a Change of Control (as defined in the agreement), 50% of any unvested stock options and restricted stock shall vest and become exercisable as of the date of termination. If such termination of employment occurs between July 25, 2006 and July 24, 2007, Mr. Gibbs shall continue to receive compensation and benefits for eighteen months. If Mr. Gibbs is not re-employed during this eighteen month period, he shall receive compensation for up to an additional six months or until he is re-employed. In addition, 100% of any unvested stock options and restricted stock shall vest and become exercisable. Any vesting provisions in an equity award agreement that are more favorable with respect to a Change of Control than those set forth herein shall govern. This agreement has a term of three years and shall extend through the one-year anniversary of any Change of Control.

## REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION

### Membership and Role of the Compensation Committee

The primary role of the Compensation Committee is to oversee the Company's compensation plans and policies, annually review and determine all executive officers' compensation, and administer the Company's cash and equity incentive plans (including reviewing and approving equity awards to Company executive officers). The Compensation Committee operates under a written charter adopted by the Board and acts at scheduled times during the year in formal meetings or by written consent. The Compensation Committee and Board periodically review and revise the Compensation Committee's charter. The Committee Chairman reports on Compensation Committee actions and recommendations at Board meetings. The Company's legal and human resource departments support the Compensation Committee in its work and in some cases act pursuant to delegated authority to fulfill various functions in administering the Company's compensation programs. In addition, the Compensation Committee has engaged outside advisors for independent assistance.

The Compensation Committee currently consists of Dr. Elgamal and Messrs. Morris (Chairman), and Sun. Mr. Dury's tenure as a member of the Compensation Committee expired on March 6, 2006, the date of the 2006 Annual Meeting of Stockholders. Mr. Sun's tenure as a member of the Compensation Committee will expire as of February 14, 2007, the date of the upcoming Annual Meeting of Stockholders. Each current member of the Compensation Committee is independent as such term is defined in the NASDAQ Rules.

### Compensation Philosophy and Objectives

The Compensation Committee's general philosophy is that executive compensation levels should be based upon an evaluation of the performance of the Company and its officers in absolute terms, as well as in comparison to persons with comparable responsibilities in similar business enterprises. The Company's overall compensation program emphasizes variable compensation elements with direct links to Company financial performance. The Compensation Committee has determined, as a matter of principle to be implemented over time, that while the components of each executive's total direct compensation (including base salary, annual cash incentives and long-term equity incentives) may vary from executive to executive, aggregate total direct compensation should be targeted to approximate the 60th percentile of the total direct compensation provided by companies the Company has established as its peer group. For these purposes, the Company's peer group is reviewed and determined by the Compensation Committee to reflect software-industry companies and direct labor market competitors considered by the Compensation Committee to be comparable to the Company in certain areas, including annual revenue, headcount and other key metrics. The Compensation Committee reserves the right to set compensation below or above this level in appropriate circumstances. These compensation principles are intended to enable the Company to attract, retain and motivate its key executives, to reward executives appropriately for their contribution to the attainment of key strategic objectives, and to align the interests of executives and stockholders through equity-based plans and performance measures.

### Compensation Methodology

The Compensation Committee's review of the Company's executive compensation programs and practices includes an analysis of all elements of compensation, including base and variable cash compensation and equity grants for each of the Company's executive officers. The Compensation Committee reviews these compensation components separately and in the aggregate. When establishing executive officer compensation, the Compensation Committee reviews peer and general market data (including reports of its executive compensation consultant), assesses the Company's competitive position,

and considers: (1) the Company's financial performance during the past fiscal year, (2) the executive's performance during the past fiscal year, (3) the retention value of existing, unvested equity awards held by the executive and (4) the current economic climate. Compensation amounts are established by the Compensation Committee based upon its consideration of the above comparative data, its evaluation of Company and individual performance and the Compensation Committee's policy relating to total direct compensation.

### **Components of Executive Compensation**

The Company's executive compensation program generally combines the following three components: base salary, annual bonus, and long-term incentive compensation, which consists of stock options and/or restricted stock grants to key executives. Each component of the Company's executive compensation program serves a specific purpose in meeting its objectives and is described more fully below.

#### **Base Salary**

The Compensation Committee annually reviews the salaries of Company executives. Payment of base salary is not conditioned upon the achievement of any specific, pre-determined performance targets. When setting base salary levels, the Compensation Committee considers (1) competitive market conditions for executive compensation, (2) Company performance, and (3) the individual's performance, role and responsibilities.

#### **Annual Bonus**

The Company's annual executive incentive program (the Executive Incentive Program) is a cash-based program that the Company first implemented in its fiscal year 2004. The program's purpose is to motivate and reward eligible employees for their contributions to the Company's performance by making a portion of their total potential cash compensation dependent upon the Company's annual financial performance. All of the Company's Named Executive Officers, except Mr. Hobbs, were eligible for bonuses under the Executive Incentive Program during the Last Fiscal Year (as a term of his employment, Mr. Hobbs received an advanced bonus payment for fiscal year 2007). Although paid during the Last Fiscal Year, bonuses to certain Named Executive Officers related to the Company's financial performance in fiscal year 2005. For the Last Fiscal Year, the Executive Incentive Program initially measured the Company's performance in three areas: total revenue, operating profit, and revenue mix by product line. Under this program, the Compensation Committee worked with Company management to set annual goals for each area of achievement, the formulas used for determining the percentage of achievement in each area, and the weighting of each component. After the departure of the former Chief Executive Officer, the Compensation Committee worked with Company management to revise the goals and remove the operating profit measure from the formula. Performance against these measures, together with individual performance, was used to determine the incentive-based cash compensation paid to the Named Executive Officers (other than Mr. Hobbs).

#### **Long-Term Incentives**

The Compensation Committee believes that stock options and restricted shares (1) align executive interests with stockholder interests by creating a direct link between compensation and stockholder return, (2) give executives a significant, long-term interest in the Company's success, and (3) help retain key executives in a competitive market for executive talent. Annual stock option grants for executives and restricted stock grants are key elements of the Company's market-competitive total direct compensation approach. During the Last Fiscal Year, the Compensation Committee approved annual stock option grants for the Company's executive officers that generally vest over a period of four years and expire ten years from the date of grant. The Compensation Committee based individual grant amounts on factors such as

the relative job scope, expected future contributions to the growth and development of the Company and the retention value of each executive's previously granted and unvested equity awards. Subject to consideration of each executive officer's performance, the Compensation Committee generally seeks to make annual stock option grants to each of the Company's executive officers such that the aggregate value of all unvested stock options held by each executive officer as of the grant determination date, including the newly granted options, equals a set multiple of the executive's annual base salary. For the Chief Executive Officer, this multiple is four, and for the other executive officers, this multiple is two.

The Compensation Committee monitors general corporate and industry trends and practices and may in the future, for competitive or other reasons (such as recent changes in accounting rules or share limitations in the Company's equity incentive plans), use other equity incentive vehicles in place of, or in combination with, time-based stock options and restricted stock. The Compensation Committee continues to manage the Company's stock option and restricted stock issuances and perform comprehensive reviews of the Company's equity compensation programs to ensure their continued effectiveness.

During the Last Fiscal Year, the Compensation Committee reviewed the recommendations issued by its outside consultant in a report on retention strategies for the Company's executive officers and other key employees in the event of a potential change in control of the Company or similar transaction. In order to reduce the resulting risks to the Company's operations in the event executive officers and certain key employees of the Company were not retained during the period of uncertainty that usually accompanies a potential acquisition or similar transaction, the Compensation Committee approved certain retention arrangements, including amending the existing Severance and Change of Control Agreements between the Company and its executive officers, granting restricted stock awards to the Company's executive officers, and establishing a cash-based severance plan for a group of key employees.

#### **Compensation of Chief Executive Officer during the Last Fiscal Year**

The Compensation Committee is responsible for establishing the corporate goals and objectives applicable to determining the compensation for Mr. Hobbs, who was hired during the Last Fiscal Year as the Company's Chief Executive Officer.

In determining Mr. Hobbs' compensation, the Compensation Committee relied on the recommendations issued by its outside consultant in a detailed report containing a comparison of peer company data, new-hire chief executive officer salary information and several industry relevant executive survey findings. Mr. Hobbs' compensation package generally includes the same elements and performance measures as those of the Company's other senior executives, and reflects a blend of market and new-hire chief executive officer competitive practices.

During the Last Fiscal Year, the Compensation Committee approved setting Mr. Hobbs' base salary at \$420,000 per annum. Additionally, Mr. Hobbs received 50% of his first-year performance bonus, \$157,500, as an advance payment with his first semi-monthly salary payment. Mr. Hobbs is eligible to receive additional bonus payments based on the Company's performance.

As part of Mr. Hobbs' compensation package, the Compensation Committee authorized the following stock grants: On September 6, 2006, Mr. Hobbs received a non-qualified option to purchase 900,000 shares of Company Common Stock at \$5.05 per share. The option was granted with an exercise price equal to the fair market value on the date of grant and vests as to 25% of the underlying shares on the first anniversary of Mr. Hobbs' hire date and as to 1/48 of the shares each month thereafter. In addition, on September 27, 2006, Mr. Hobbs received a grant of 100,000 shares of restricted Common Stock of the Company. The restricted stock vests as to 50% of the shares on the two-year anniversary of Mr. Hobbs' hire date, and as to 12.5% of the shares every six months thereafter.

**Tax Deductibility of Executive Compensation**

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code ) places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any one year with respect to its Chief Executive Officer and each of the Named Executive Officers. Certain performance-based compensation approved by stockholders is not subject to the deduction limit. It is the Compensation Committee's policy that the compensation paid to executive officers qualify for deductibility to the extent not inconsistent with the Company's fundamental compensation policies and the Company does not have a history of lost deductions under Section 162(m).

The graph below compares the cumulative total stockholder return on the Common Stock of the Company from September 30, 2001 to September 30, 2006 with the cumulative total return on the Standard and Poor's 500, the Standard and Poor's Application Software, and the Standard and Poor's System Software market indices over the same period, assuming the investment of \$100 in the Company's Common Stock and in each of the indices on September 30, 2001 and the reinvestment of all dividends. In previous years this graph compared the Common Stock of the Company to the Standard and Poor's 500 and the Standard and Poor's Computer Software and Services market indices. Standard and Poor's has ceased tracking the Computer Software and Services index and has instead created the two new indices now compared to the Common Stock of the Company. The Company intends to use both new indices for comparison purposes in the future.
