

CUBIC CORP /DE/
Form 10-Q
February 07, 2008

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the Quarter Ended December 31, 2007

1-8931

Commission File Number

CUBIC CORPORATION

Exact Name of Registrant as Specified in its Charter

Delaware
State of Incorporation

95-1678055
IRS Employer Identification No.

9333 Balboa Avenue
San Diego, California 92123
Telephone (858) 277-6780

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer (as defined in Rule 12b-2 of the Exchange Act).

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12-b-2 of the Exchange Act).

Yes No

As of January 23, 2008, registrant had only one class of common stock of which there were 26,724,163 shares outstanding (after deducting 8,945,066 shares held as treasury stock).

CUBIC CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

December 31, 2007

Note 1 Basis for Presentation

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all information and footnotes required by accounting principles generally accepted in the United States for complete financial statements.

In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three month period ended December 31, 2007 are not necessarily indicative of the results that may be expected for the year ending September 30, 2008. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2007.

The preparation of the financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 Balance Sheet Details

The components of accounts receivable are as follows (in thousands):

	December 31, 2007 (unaudited)	September 30, 2007
Trade and other receivables	\$ 8,753	\$ 13,024
Long-term contracts:		
Billed	68,677	101,054
Unbilled	227,601	213,388
Allowance for doubtful accounts	(5,155)	(5,144)
Total accounts receivable	299,876	322,322
Less estimated amounts not currently due	(32,100)	(16,650)

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

Current accounts receivable	\$	267,776	\$	305,672
-----------------------------	----	---------	----	---------

The amount classified as not currently due is an estimate of the amount of long-term contract accounts receivable that will not be collected within one year from December 31, 2007 under transportation systems contracts in the U.S., Australia and the U.K. and a defense contract in Canada. The non-current balance at September 30, 2007 represented non-current amounts due from the same contracts.

Note 2 Balance Sheet Details - Continued

Inventories consist of the following (in thousands):

	December 31, 2007 (unaudited)	September 30, 2007
Finished products	\$ 223	\$ 240
Work in process and inventoried costs under long-term contracts	29,521	25,005
Raw material and purchased parts	2,712	2,097
Total inventories	\$ 32,456	\$ 27,342

At December 31, 2007, work in process and inventoried costs under long-term contracts includes approximately \$5.3 million in costs incurred in advance of contract award or outside the scope of work on several contracts in the defense segment. Management believes it is probable that these costs, plus appropriate profit margin, will be recovered under contract change orders or upon the award of new contracts within the next year.

Such costs were \$8.4 million as of September 30, 2007. Of this amount, \$5.7 million has been reclassified from Work in Process and Inventoried Costs Under Long-term Contracts to Other Assets (non-current) as of December 31, 2007. The company has submitted a claim to the Armed Services Board of Contract Appeals related to these costs and a trial date is set for January 2009. Management believes it is probable that these costs, plus appropriate profit margin, will be recovered through this contract claims process.

Note 3 Comprehensive Income

Comprehensive income is as follows (in thousands):

	Three Months Ended December 31,	
	2007	2006
Net income	\$ 10,676	\$ 8,325
Foreign currency translation adjustments	(1,058)	4,120
Net unrealized loss from cash flow hedges	34	11
Comprehensive income	\$ 9,652	\$ 12,456

Note 4 Segment Information

Business segment financial data is as follows (in millions):

	Three Months Ended December 31,	
	2007	2006
Sales:		
Defense	\$ 146.2	\$ 143.3
Transportation systems	56.5	56.0
Corporate and other		3.6
Total sales	\$ 202.7	\$ 202.9
Operating income (loss):		
Defense	\$ 9.8	\$ 9.5
Transportation systems	7.3	2.3
Corporate and other		(0.1)
Total operating income	\$ 17.1	\$ 11.7

Note 5 Financing Arrangements

The Company has a committed five-year revolving credit agreement with a group of financial institutions in the amount of \$150 million, expiring in March 2010. As of December 31, 2007, there were no borrowings under this agreement; however, there were letters of credit outstanding under the agreement totaling \$11.2 million.

Note 6 Pension Plans

The components of net periodic pension benefits costs are as follows (in thousands):

	Three Months Ended December 31,	
	2007	2006
Service cost	\$ 888	\$ 2,254
Interest cost	2,518	2,406
Expected return on plan assets	(3,261)	(2,844)
Amortization of:		
Prior service cost		3
Actuarial loss (gain)	(53)	118
Administrative expenses	30	25

Edgar Filing: CUBIC CORP /DE/ - Form 10-Q

Net pension cost	\$	122	\$	1,962
------------------	----	-----	----	-------

7

Note 7 New Accounting Pronouncements

Effective October 1, 2007, the Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 prescribes a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance in de-recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures. The cumulative effects of applying this interpretation have been recorded as a decrease of \$2.5 million to retained earnings and an increase of \$2.5 million to net deferred income tax assets as of October 1, 2007.

The liability for unrecognized tax benefits, exclusive of interest, was \$10 million at October 1, 2007, of which \$3.9 million, if recognized, would affect the effective tax rate. We recorded no change to the unrecognized tax benefits as of December 31, 2007. In conjunction with the adoption of FIN 48, we have classified uncertain tax positions as noncurrent income tax liabilities unless expected to be paid in one year.

The Company continues to report income tax-related interest income or expense and penalties in income tax expense in the Condensed Consolidated Statement of Income. As of October 1, 2007 and December 31, 2007, the total amount of accrued income tax-related interest and penalties included in the Condensed Consolidated Balance Sheets was \$0.8 million and \$0.9 million, respectively.

The Company is subject to examination in the U.S. federal tax jurisdiction for the 2004 - 2007 tax years. The Company is also subject to examination in the U.K. for the 2003 - 2007 tax years. In addition, the Company is subject to examination in various state and foreign jurisdictions for the 2004 - 2007 tax years, none of which were individually material. The Company believes appropriate provisions for all outstanding issues have been made for all jurisdictions and all open years.

Approximately \$1.4 million of unrecognized tax benefits relate to items that are affected by expiring statute of limitations within the next 12 months. Of this amount, approximately \$1.0 million, if recognized, would affect the effective tax rate.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS 157 defines fair value, establishes a framework and gives guidance regarding the methods used for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company is currently evaluating the impact of SFAS 157 on its consolidated results of operations and financial position.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115*, which is effective for fiscal years beginning after November 15, 2007. This statement permits an entity to choose to measure many financial instruments and certain other items at fair value at specified election dates. Subsequent unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. The Company is currently evaluating the potential impact of SFAS 159 on its consolidated results of operations and financial position.

Note 7 New Accounting Pronouncements - Continued

In December 2007, the FASB issued SFAS No. 141(R), *Business Combinations (revised 2007)*, which is effective for fiscal years beginning after December 15, 2008. This revised statement is intended to simplify existing guidance and converge rulemaking under U.S. generally accepted accounting principles (GAAP) with international accounting rules. The Company is currently evaluating the potential impact of SFAS 141(R) on its consolidated results of operations and financial position.

In December 2007, the FASB also issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements*, which is effective for fiscal years beginning after December 15, 2008. This statement requires all entities to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial statements. The Company is currently evaluating the potential impact of SFAS 160 on its consolidated results of operations and financial position.

CUBIC CORPORATION

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

December 31, 2007

Our two primary businesses are in the defense and transportation industries. These are high technology businesses that design, manufacture and integrate complex systems and provide essential services to meet the needs of various federal and regional government agencies in the U.S. and other nations around the world.

Our defense segment is a diversified supplier of constructive, live and virtual military training systems, services and communication systems and products to the U.S. Department of Defense, other government agencies and allied nations. We design instrumented range systems for fighter aircraft, armored vehicles and infantry force-on-force live training; weapons effects simulations; laser-based tactical engagement and virtual simulation systems; and precision gunnery solutions. Our services are focused on training mission support, computer simulation training, distributed interactive simulation, development of military training doctrine, force modernization services for NATO entrants and field operations and maintenance. Our communications products are aimed at intelligence, surveillance, and search and rescue markets.

Our transportation systems segment develops and delivers innovative fare collection systems for public transit authorities worldwide. We provide hardware, software and multi-agency, multimodal transportation integration technologies and services that allow the agencies to efficiently collect fares, manage their operations, reduce shrinkage and make using public transit a more convenient and attractive option for commuters.

Consolidated Overview

Sales for the quarter ended December 31, 2007 were flat compared to the first fiscal quarter last year at \$202.7 million compared to \$202.9 million. Defense sales increased about 2% compared to last year, while transportation systems sales increased less than 1%. Last year's first quarter included sales of \$3.7 million from the corrugated box business we sold in the fourth quarter of 2007. The elimination of sales from that business offset the increases in sales from our defense and transportation systems segments.

Operating income increased to \$17.1 million in the quarter compared to \$11.7 million in the first quarter last year, an increase of 46%. Defense operating income increased about 3%, commensurate with the increase in sales. Transportation systems operating income increased significantly over the relatively low level last year. See the segment discussions following for further analysis of segment sales and operating income.

Net income for the first quarter of fiscal 2008 increased to \$10.7 million, or 40 cents per share, compared to \$8.3 million, or 31 cents per share, last year as a result of the increase in operating income. Net income was impacted by higher income tax expense. See following discussion on effective tax rate.

Selling, general and administrative (SG&A) expenses increased in the first quarter this year compared to last year, increasing from \$23.2 million in the first quarter last year to \$24.8 million this year. As a percentage of sales, SG&A expenses increased from 11.4% to 12.2%. SG&A expenses increased in both segments due primarily to increased selling expenses incurred for new contract proposals. Research and development expense also increased in the first quarter this year, primarily in the defense segment relating to advanced programs dealing with optical technologies.

Our projected effective tax rate for fiscal 2008 is 39.0%. The projected effective rate for fiscal 2008 is higher than last year's first quarter effective rate of 35.5% due to the expiration of the U.S. Research and Experimentation credit as of December 31, 2007. The rate is also higher because we are projecting higher earnings in the U.K. and are required to provide U.S. taxes on the earnings which we do not consider to be permanently reinvested as they may be repatriated in the form of dividends. The effective rate for fiscal 2008 could be affected by, among other factors, the mix of business between the U.S. and foreign jurisdictions, our ability to take advantage of available tax credits and audits of our records by taxing authorities.

Defense Segment

	Three Months Ended December 31,	
	2007	2006
	(in millions)	
<u>Defense Segment Sales</u>		
Mission support services (MSBU)	\$ 72.3	\$ 67.1
Readiness systems (RSBU)	62.9	59.0
Communications and electronics (CEBU)	8.8	14.8
Tactical systems and other	2.2	2.4
	\$ 146.2	\$ 143.3
<u>Defense Segment Operating Income</u>		
Mission support services (MSBU)	\$ 5.5	\$ 5.0
Readiness systems (RSBU)	5.5	4.0
Communications and electronics (CEBU)	(0.8)	1.0
Tactical systems and other	(0.4)	(0.5)
	\$ 9.8	\$ 9.5

Defense segment sales increased 2%, from \$143.3 million in the first quarter of fiscal 2007 to \$146.2 million in the first quarter this year. The growth came from both the MSBU and the RSBU, while CEBU sales decreased compared to last year. Operating income in the defense segment improved in the first quarter to \$9.8 million compared to \$9.5 million in the first quarter of fiscal 2007, a 3% increase. RSBU and MSBU operating income improved over last year, while CEBU incurred a loss for the first quarter this year compared to a profit last year.

Mission Support Services (MSBU)

MSBU sales increased 8% to \$72.3 million in the first quarter this year, compared to \$67.1 million last year. Higher sales from training and exercise support activities for the U.S. Army and Marine Corps, the win of a contract to support the US Army's Quartermaster Center and School as well as increased support to the Defense Threat Reduction Agency contributed to the increase in sales.

Mission support services operating income increased 10% from \$5.0 million in the first quarter last year to \$5.5 million this year due primarily to the increase in sales described above and higher operating income from one of the Marine Corps programs mentioned above.

Readiness Systems (RSBU)

RSBU sales increased from \$59.0 million in the first quarter last year to \$62.9 million this year, a 7% increase. The increase is due primarily to work that began during the quarter on a new contract to develop an on-board air combat training system for the Joint Strike Fighter. Sales of the transportable, deployable ground combat training system, known as I-HITS and small arms training systems also increased over the first quarter of last year. Partially offsetting these increases was a decrease in ground combat system sales to customers in the Far East and Canada.

Training systems operating income improved from \$4.0 million in the first quarter last year to \$5.5 million this year, a 38% increase. Higher air combat training, I-HITS and small arms training sales helped to improve operating income. Operating income from the MILES product line was down for the quarter due to cost growth of \$1 million on a contract for the development of the next generation of MILES equipment. In addition, the business unit incurred additional costs during the quarter of approximately \$0.3 million at its San Diego facility due to a two day shutdown during the San Diego fires in October 2007.

Communications and Electronics (CEBU)

Sales from CEBU were \$8.8 million in the first quarter of 2008, down from \$14.8 million in the same quarter last year, a 41% decrease. Sales decreased from contracts for the supply of data links for unmanned aerial vehicles in the U.S. and U. K. and a data link contract for the Navy was nearly completed, yielding lower sales as well. Sales of power amplifiers and other communications products also decreased, while sales of personnel locator systems increased compared to last year.

CEBU incurred an operating loss of \$0.8 million for the first quarter this year compared to operating income of \$1.0 million last year. Cost growth on a data link contract for unmanned aerial vehicles in the U.K., due primarily to schedule slip by a major subcontractor, impacted profitability by \$1.2 million during the quarter when compared to last year. The company may be able to recover some or all of its increased costs caused by the subcontractor; however, the amount of any potential cost recovery cannot be determined at this time and therefore these costs have been expensed. Lower sales of other data link products and power amplifiers also resulted in lower operating income. This was partially offset by increased operating income from sales of personnel locator systems. CEBU was also impacted by the shutdown associated with the San Diego fires and incurred related costs of approximately \$0.1 million.

Transportation Systems Segment

	Three Months Ended December 31,	
	2007	2006
	(in millions)	
Transportation Segment Sales	\$ 56.5	\$ 56.0
Transportation Segment Operating Income	\$ 7.3	\$ 2.3

Transportation segment sales increased slightly from \$56.0 million in the first quarter last year to \$56.5 million in the first quarter of this fiscal year. Sales from system installation contracts in North America and Australia were lower, although this decrease was partially offset by higher sales of spare parts to U.S. customers. Sales increased due to added work on the Prestige contract in London, and due to a higher average exchange rate between the British Pound and the U.S. Dollar in the current quarter compared to last year's first quarter, which added approximately \$2 million.

Operating income from transportation systems in the first quarter improved to \$7.3 million compared to \$2.3 million last year. Last year's first quarter results included a loss provision of \$3.9 million on a contract in Sweden. In addition, operating income from the Prestige contract in London improved during the first quarter this year compared to last year, due to higher sales volume and an improved profit margin on the contract. The first quarter last year included a contract settlement that added a net of \$1.3 million to operating income for the quarter, while this year's first quarter did not include such a settlement.

Backlog

As reflected in the table below, total backlog decreased approximately \$67 million at December 31, 2007 compared to September 30, 2007. Transportation systems backlog decreased \$8 million, while defense backlog decreased \$59 million during the quarter. Funded backlog decreased \$10 million during the quarter, with transportation systems decreasing \$8 million and defense funded backlog decreasing by \$2 million.

	December 31, 2007	September 30, 2007
	(in millions)	
Total backlog		
Transportation systems	\$ 779.0	\$ 787.3
Defense:		
Mission support services	712.9	776.6
Readiness systems	390.4	383.4
Communications and electronics	55.1	56.4
Tactical systems and other	29.6	30.6
Total defense	1,188.0	1,247.0
Total	\$ 1,967.0	\$ 2,034.3

	December 31, 2007	September 30, 2007
	(in millions)	
Funded backlog		
Transportation systems	\$ 779.0	\$ 787.3
Defense:		
Mission support services	124.7	131.2
Readiness systems	390.4	383.4
Communications and electronics	55.1	56.4
Tactical systems and other	29.6	30.6
Total defense	599.8	601.6
Total	\$ 1,378.8	\$ 1,388.9

In defense, the difference between total backlog and funded backlog represents options under multi-year service contracts. Funding for these contracts comes from annual operating budgets of the U.S. government and the options are normally exercised annually. Options for the purchase of additional systems or equipment are not included in backlog until exercised nor are indefinite delivery, indefinite quantity contracts until an order is received.

Liquidity and Capital Resources

Operating activities provided cash of \$26.8 million for the first three months of the fiscal year. In addition to net income for the period, customer advances and reductions in accounts receivable and prepaid expenses contributed to the positive cash flows. Positive operating cash flows came from both the transportation systems and defense segments, with the majority coming from the defense systems segment.

Investing activities for the three-month period included capital expenditures of \$1.8 million and net positive cash flows from the liquidation of short-term investments of \$27.2 million. In light of the turmoil in the credit market, we made a portfolio shift to shorter duration investments.

Financing activities for the first three months included scheduled payments on our long-term debt of \$5.6 million.

Our financial condition remains strong with working capital of \$297.4 million and a current ratio of 2.9 to 1 at December 31, 2007. We expect that cash on hand and our unused lines of credit will be adequate to meet our liquidity requirements for the foreseeable future.

Critical Accounting Policies, Estimates and Judgments

Our financial statements are prepared in accordance with accounting principles that are generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. We continually evaluate our estimates and judgments, the most critical of which are those related to revenue recognition, income taxes, valuation of goodwill and pension costs. We base our estimates and judgments on historical experience and other factors that we believe to be reasonable under the circumstances. Materially different results can occur as circumstances change and additional information becomes known.

Besides the estimates identified above that are considered critical, we make many other accounting estimates in preparing our financial statements and related disclosures. All estimates, whether or not deemed critical affect reported amounts of assets, liabilities, revenues and expenses, as well as disclosures of contingent assets and liabilities. These estimates and judgments are also based on historical experience and other factors that are believed to be reasonable under the circumstances. Materially different results can occur as circumstances change and additional information becomes known, even for estimates and judgments that are not deemed critical. Refer to Note 7 for discussion of the Company's implementation of FIN 48, which has affected the method for calculating income tax liabilities.

For further information, refer to the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2007.

CAUTIONARY STATEMENT ABOUT FORWARD-LOOKING INFORMATION

This report, including the documents that we incorporate by reference, contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, that are subject to the safe harbor created by those sections. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or our future financial and/or operating performance are not historical and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as may, will, anticipate, estimate, plan, project, continuing, ongoing, expect, believe, intend, predict, potential, opportunity and similar words or phrases of these words or phrases. These statements involve estimates, assumptions and uncertainties, including those discussed in Risk Factors in the Company's annual report on Form 10-K for the year ended September 30, 2007, and throughout this filing that could cause actual results to differ materially from those expressed in these statements.

Because the risk factors referred to above could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any forward-looking statements. In addition, past financial and/or operating performance is not necessarily a reliable indicator of future performance and you should not use our historical performance to anticipate results or future period trends. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

ITEM 4 - STATEMENT ON DISCLOSURE CONTROLS AND PROCEDURES.

We maintain disclosure controls and procedures, including internal control over financial reporting, which are designed to ensure that information required to be disclosed in our periodic filings with the SEC is reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that assets are safeguarded and transactions are properly executed and recorded. Our disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating such controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to use its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

We routinely review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems and migrating certain processes from our operating units to our corporate shared service center. In addition, if we acquire new businesses, we will review the controls and procedures of the acquired business as part of our integration activities.

We performed an evaluation of the effectiveness of our disclosure controls and procedures as of December 31, 2007. The evaluation was performed with the participation of senior management of each business segment and key corporate functions, and under the supervision of the CEO and CFO. Based on our evaluation, we concluded that our disclosure controls and procedures were effective as of December 31, 2007.

There were no changes in our internal control over financial reporting during the most recently completed fiscal quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 6 - EXHIBITS

(a) The following exhibits are included herein:

Exhibit No.	Description
3.1	Amended and Restated Certificate of Incorporation. Incorporated by reference to Form 10-Q filed for the quarter ended June, 30, 2006, file No. 1-8931, Exhibit 3.1.
3.2	Bylaws. Incorporated by reference to Form 10-K filed for the fiscal year ended September 30, 2004, file No. 1-8931, Exhibit 3.
10.1	2005 Equity Incentive Plan. Incorporated by reference to Form 10-K filed for the fiscal year ended September 30, 2005, file No. 1-8931, Exhibit 10.1.
10.2	Amended Transition Protection Plan. Incorporated by reference to Form 10-K filed for the fiscal year ended September 30, 2007, file No. 1-8931, Exhibit 10.2.
10.3	Credit Agreement dated March 10, 2005. Incorporated by reference to Form 10-Q for the quarter ended March 31, 2005, file No. 1-8931, Exhibit 10.
10.4	Deferred Compensation Plan Summary. Incorporated by reference to Form 8-K filed April 6, 2005, file No. 1-8931, Exhibit 10.
15	Report of Independent Registered Public Accounting Firm
31.1	Certification of CEO
31.2	Certification of CFO
32.1	CEO Certification
32.2	CFO Certification
