Notes to Consolidated Financial Statements (unaudited)

(Expressed in thousands of U.S. dollars, except share and per share information)

1. Basis of preparation and consolidation

These unaudited consolidated financial statements include Validus Holdings, Ltd. and its wholly and majority owned subsidiaries (together, the Company) and have been prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 in Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In addition, the year-end balance sheet data was derived from audited financial statements but does not include all disclosures required by U.S. GAAP. This Quarterly Report should be read in conjunction with the financial statements included in the Company s Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the U.S. Securities and Exchange Commission (the SEC).

In the opinion of management, these unaudited consolidated financial statements reflect all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the Company s financial position and results of operations as at the end of and for the periods presented. Certain amounts in prior periods have been reclassified to conform to current period presentation. All significant intercompany accounts and transactions have been eliminated. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. The major estimates reflected in the Company s consolidated financial statements include the reserve for losses and loss expenses, premium estimates for business written on a line slip or proportional basis, the valuation of goodwill and intangible assets, reinsurance recoverable balances including the provision for unrecoverable reinsurance recoverable balances and investment valuation. Actual results could differ from those estimates. The results of operations for any interim period are not necessarily indicative of the results for a full year. The term ASC used in these notes refers to Accounting Standard Codifications issued by the United States Financial Accounting Standards Board (FASB).

On May 25, 2011, the Company joined with other investors in capitalizing AlphaCat Re 2011, Ltd. (AlphaCat Re 2011) a new special purpose sidecar reinsurer formed for the purpose of writing collateralized reinsurance and retrocessional reinsurance. Validus Reinsurance, Ltd. (Validus Re) has an equity interest in AlphaCat Re 2011 and as Validus Re holds a majority of AlphaCat Re 2011 s outstanding voting rights, the financial statements of AlphaCat Re 2011 are included in the consolidated financial statements of the Company. The portion of AlphaCat Re 2011 s earnings attributable to third party investors for the three and nine months ended September 30, 2011 is recorded in the consolidated statements of operations and comprehensive income as net income attributable to noncontrolling interest. Refer to Note 4 Noncontrolling interest for further information.

2. Recent accounting pronouncements

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). The objective of ASU 2011-04 is to provide common fair value

measurement and disclosure requirements in U.S. GAAP and IFRSs. Consequently, the amendments change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. For many of the requirements, the amendments do not result in a change in the application of the requirements in Topic 820 *Fair Value Measurements* . ASU 2011-04 is effective for interim and annual periods beginning after December 15, 2011. The Company is currently evaluating the impact of this guidance, however it is not expected to have a material impact on the Company s consolidated financial statements.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, *Presentation of Comprehensive Income* (*ASU 2011-05*). The objective of ASU 2011-05 is to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. ASU 2011-05 is effective for interim and annual periods beginning after December 15, 2011. The Company is currently evaluating the impact of this guidance; however, since this update affects disclosures only, it is not expected to have a material impact on the Company s consolidated financial statements.

In September 2011, the FASB issued Accounting Standards Update No. 2011-08, *Testing Goodwill for Impairment* (*ASU 2011-08*). The objective of ASU 2011-08 is to simplify how entities test goodwill for impairment. The amendments permit an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test described in Topic 350 *Intangibles* *Goodwill and Other*. The amendments are effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, including for annual and interim goodwill impairment tests performed as of a date before September 15, 2011, if an entity s financial statements for the most recent annual or interim period have not yet been issued. The Company is currently evaluating the impact of this guidance; however it is not expected to have a material impact on the Company s consolidated financial statements.

3. Investments

The Company s investments in fixed maturities are classified as trading and carried at fair value, with related net unrealized gains or losses included in earnings. The Company has adopted all authoritative guidance in effect as of the balance sheet date regarding certain market conditions that allow for fair value measurements that incorporate unobservable inputs where active market transaction based measurements are unavailable.

(a) Classification within the fair value hierarchy

Under U.S. GAAP, a company must determine the appropriate level in the fair value hierarchy for each fair value measurement. The fair value hierarchy prioritizes the inputs, which refer broadly to assumptions market participants would use in pricing an asset or liability, into three levels. It gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The level in the fair value hierarchy within which a fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3 inputs are unobservable inputs for the asset or liability.

Level 1 primarily consists of financial instruments whose value is based on quoted market prices or alternative indices including overnight repos and commercial paper. Level 2 includes financial instruments that are valued through independent external sources using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including time value, yield curve, prepayment speeds, default rates, loss severity, current market and contractual prices for the underlying financial instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. The Company performs internal procedures on the valuations received from independent external sources. Financial instruments in this category include U.S. and U.K. Treasuries, sovereign debt, corporate debt, catastrophe bonds, U.S. agency and non-agency mortgage and asset-backed securities and bank loans. Level 3 includes financial instruments that are valued using market approach and income approach valuation techniques. These models incorporate both observable and unobservable inputs. A hedge fund is the only financial instrument in

Validus Holdings, Ltd.

Notes to Consolidated Financial Statements (unaudited)

(Expressed in thousands of U.S. dollars, except share and per share information)

this category as at September 30, 2011.

The Company s management and external investment advisors had noted illiquidity and dislocation in the non- Agency RMBS market for the period September 30, 2008 through to June 30, 2010. During this period, the Company identified certain non-Agency RMBS securities in its portfolio trading in inactive markets (identified RMBS securities). In order to gauge market activity for the identified RMBS securities, the Company, with assistance from external investment advisors, reviewed the pricing sources for each security in the portfolio. The Company utilized various pricing vendors to obtain market pricing information for investment securities.

Consistent with U.S. GAAP, market approach fair value measurements for securities trading in inactive markets are not determinative. In weighing the fair value measurements resulting from market approach and income approach valuation techniques, the Company had previously placed less reliance on the market approach fair value measurements. The income approach valuation technique determines the fair value of each security on the basis of contractual cash flows, discounted using a risk-adjusted discount rate. As the income approach valuation technique incorporates both observable and significant unobservable inputs, the securities were included as Level 3 assets with respect to the fair value hierarchy. The foundation for the income approach was the amount and timing of future cash flows.

During the three month period ended September 30, 2010, the Company, with assistance from external investment advisors, determined that market activity had increased for the identified RMBS securities. Therefore, a market approach valuation technique was adopted for the identified RMBS securities. Because the market approach incorporated observable inputs, the identified RMBS securities are classified as Level 2 with respect to the fair value hierarchy at September 30, 2010. During the three months ended December 31, 2010, the Company liquidated substantially all of the identified RMBS securities which had previously been classified as Level 3 securities.

Other investments consist of an investment in a fund of hedge funds and a deferred compensation trust held in mutual funds. The fund of hedge funds is a side pocket valued at $8,767 at September 30, 2011. While a redemption request has been submitted, the timing of receipt of proceeds on the side pocket is unknown. The fund s administrator provides monthly reported net asset values (NAV) with a one-month delay in its valuation. As a result, the funds administrator s August 31, 2011 NAV was used as a partial basis for fair value measurement in the Company s September 30, 2011 balance sheet. The fund manager provides an estimate of the performance of the fund for the following month based on the estimated performance provided from the underlying third-party funds. The Company utilizes the fund investment manager s primary market approach estimated NAV that incorporates relevant valuation sources on a timely basis. As this valuation technique incorporates both observable and significant unobservable inputs, the fund of hedge funds is classified as a Level 3 asset. To determine the reasonableness of the estimated NAV, the Company assesses the variance between the estimated NAV and the one-month delayed fund administrator s NAV. Immaterial variances are recorded in the following reporting period.

At September 30, 2011, the Company s investments were allocated between Levels 1, 2 and 3 as follows:

(a) Classification within the fair value hierarchy

As described in Note 3 Investments under U.S. GAAP, a company must determine the appropriate level in the fair value hierarchy for each fair value measurement. The assumptions used within the valuation are observable in the marketplace, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. Accordingly, these derivatives were classified within Level 2 of the fair value hierarchy.

(b) Derivative instruments designated as a fair value hedge

The Company designates its derivative instruments as fair value hedges and formally and contemporaneously documents all relationships between the hedging instruments and hedged items and links the hedging derivatives to specific assets and liabilities. The Company assesses the effectiveness of the hedges, both at inception and on an on-going basis and determines whether the hedges are highly effective in offsetting changes in fair value of the linked hedged items.

The following table provides the total impact on earnings relating to the derivative instruments formally designated as fair value hedges along with the impact of the related hedged items for the three and nine months ended September 30, 2011:

		Three Months Ended September 30, 2011		
Derivatives designated as fair value hedges and related hedged item:	Location of gain (loss) recognized in income	Amount of gain (loss) recognized in income on derivative	Amount of gain (loss) on hedged item recognized in income attributable to risk being hedged	Amount of gain (loss) recognized in income on derivative (ineffective portion)

6. Reserve for losses and loss expenses

Reserves for losses and loss expenses are based in part upon the estimation of case losses reported from brokers, insureds and ceding companies. The Company also uses statistical and actuarial methods to estimate ultimate expected losses and loss expenses. The period of time from the occurrence of a loss, the reporting of a loss to the Company and the settlement of the Company s liability may be several months or years. During this period, additional facts and trends may be revealed. As these factors become apparent, case reserves will be adjusted, sometimes requiring an increase or decrease in the overall reserves of the Company, and at other times requiring a reallocation of incurred but not reported reserves to specific case reserves. These estimates are reviewed regularly, and such adjustments, if any, are reflected in earnings in the period in which they become known. While management believes that it has made a reasonable estimate of ultimate losses, there can be no assurances that ultimate losses and loss expenses will not exceed the total reserves.

The following table represents an analysis of paid and unpaid losses and loss expenses incurred and a reconciliation of the beginning and ending unpaid loss expenses for the three and nine months ended September 30, 2011 and 2010:

	Three Months Ended		Nine Months Ended

7. Reinsurance

The Company enters into reinsurance and retrocession agreements in order to mitigate its accumulation of loss, reduce its liability on individual risks, enable it to underwrite policies with higher limits and increase its aggregate capacity. The cession of insurance and reinsurance does not legally discharge the Company from its primary liability for the full amount of the policies, and the Company is required to pay the loss and bear collection risk if the reinsurer fails to meet its obligations under the reinsurance or retrocession agreement. Amounts recoverable from reinsurers are estimated in a manner consistent with the underlying liabilities.

(a) Credit risk

The Company evaluates the financial condition of its reinsurers and monitors concentration of credit risk arising from its exposure to individual reinsurers. The reinsurance program is generally placed with reinsurers whose rating, at the time of placement, was A- or better rated by Standard & Poor s or the equivalent with other rating agencies. Exposure to a single reinsurer is also controlled with restrictions dependent on rating. At September 30, 2011, 99.3% of reinsurance recoverables (which includes loss reserves recoverable and recoverables on paid losses) were from reinsurers rated A- or better and included $109,106 of IBNR recoverable (December 31, 2010: $146,519). At September 30, 2011 and December 31, 2010, the provision for uncollectible reinsurance relating to losses recoverable was $6,393 and $5,652, respectively. To estimate the provision for uncollectible reinsurance recoverable, the reinsurance recoverable is first allocated to applicable reinsurers. This determination is based on a process rather than an estimate, although an element of judgment is applied. As part of this process, ceded IBNR is allocated by reinsurer. Of the $467,117 reinsurance recoverable at September 30, 2011, $20,077 was fully collateralized (December 31, 2010: $23,750).

The Company uses a default analysis to estimate uncollectible reinsurance. The primary components of the default analysis are reinsurance recoverable balances by reinsurer and default factors used to determine the portion of a reinsurer s balance deemed to be uncollectible. Default factors require considerable judgment and are determined using the current rating, or rating equivalent, of each reinsurer as well as other key considerations and assumptions.

8. Share capital

(a) Authorized and issued

The Company s authorized share capital is 571,428,571 voting and non-voting shares with a par value of $0.175 per share. The holders of common voting shares are entitled to receive dividends and are allocated one vote per share, provided that, if the controlled shares of any shareholder or group of related shareholders constitute more than 9.09 percent of the outstanding common shares of the Company, their voting power will be reduced to 9.09 percent.

The Company may from time to time repurchase its securities, including common shares, Junior Subordinated Deferrable Debentures and Senior Notes. In November 2009, the Board of Directors of the Company authorized an initial $400,000 share repurchase program. On February 17, 2010, the Board of Directors of the Company authorized the Company to return up to $750,000 to shareholders. This amount was in addition to, and in excess of, the $135,494 of common shares purchased by the Company through February 17, 2010 under its previously authorized $400,000 share repurchase program. On May 6, 2010, the Board of Directors authorized a self tender offer pursuant to which the Company repurchased $300,000 in common shares. On November 4, 2010, the Board of Directors authorized a self tender offer pursuant to which the Company repurchased $238,362 in common shares. In addition, the Board of Directors authorized separate repurchase agreements with funds affiliated with or managed by each of Aquiline Capital Partners LLC, New Mountain Capital LLC, and Vestar Capital Partners pursuant to which the Company repurchased $61,638 in common shares. On December 20, 2010, the Board of Directors authorized the Company to return up to an additional $400,000 to shareholders. This amount is in addition to the $929,173 of common shares purchased by the Company through December 23, 2010 under its previously authorized share repurchase program.

The Company expects the purchases under its share repurchase program to be made from time to time in the open market or in privately negotiated transactions. The timing, form and amount of the share repurchases under the program will depend on a variety of factors, including market conditions, the Company s capital position relative to internal and rating agency targets, legal requirements and other factors. The repurchase program may be modified, extended or terminated by the Board of Directors at any time.

(b) Warrants

During the three months ended September 30, 2011, no warrants were exercised. During the nine months ended September 30, 2011, 72,598 warrants were exercised which resulted in the issuance of 34,340 common shares. During the three and nine months ended September 30, 2010, 10,018 warrants were exercised which resulted in the issuance of 2,996 common shares.

(c) Deferred share units

Under the terms of the Company s Director Stock Compensation Plan, non-management directors may elect to receive their director fees in deferred share units rather than cash. The number of share units distributed in case of election under the plan is equal to the amount of the annual retainer fee otherwise payable to the director on such payment date divided by 100% of the fair market value of a share on such payment date. Additional deferred share units are issued in lieu of dividends that accrue on these deferred share units. The total outstanding deferred share units at September 30, 2011 were 4,802 (December 31, 2010: 4,727).

(d) Dividends

On February 9, 2011, the Company announced a quarterly cash dividend of $0.25 (2010: $0.22) per common share and $0.25 per common share equivalent for which each outstanding warrant is exercisable. This dividend was paid on March 30, 2011 to holders of record on March 15, 2011.

On May 4, 2011, the Company announced a quarterly cash dividend of $0.25 (2010: $0.22) per common share and $0.25 per common share equivalent for which each outstanding warrant is exercisable. This dividend was paid on June 30, 2011 to holders of record on June 15, 2011.

On August 3, 2011, the Company announced a quarterly cash dividend of $0.25 (2010: $0.22) per common share and $0.25 per common share equivalent for which each outstanding warrant is exercisable. This dividend was paid on September 30, 2011 to holders of record on September 15, 2011.

9. Stock plans

(a) Long Term Incentive Plan and Short Term Incentive Plan

The Company s Amended and Restated 2005 Long Term Incentive Plan (LTIP) provides for grants to employees of options, stock appreciation rights (SARs), restricted shares, restricted share units, performance shares, dividend equivalents or other share-based awards. In addition, the Company may issue restricted share awards or restricted share units in connection with awards issued under its annual Short Term Incentive Plan (STIP). The total number of shares reserved for issuance under the LTIP and STIP are 13,126,896 shares of which 4,120,511 shares are remaining. The LTIP and STIP are administered by the Compensation Committee of the Board of Directors. No SARs have been granted to date. Grant prices are established at the fair market value of the Company s common shares at the date of grant.

i. Options

Options may be exercised for voting common shares upon vesting. Options have a life of 10 years and vest either ratably or at the end of the required service period from the date of grant. Grant prices are established at the estimated fair value of the Company s common shares at the date of grant using the Black-Scholes option-pricing model. The following weighted average assumptions were used for all grants to date:

Year	Weighted average risk free interest rate	Weighted average dividend yield	Expected life (years)	Expected volatility
2008	3.5%	3.2%	7	30.0%
2009	3.9%	3.7%	2	34.6%
2010 (a)	n/a	n/a	n/a	n/a

(a) The Company did not grant any stock option awards during the year ended December 31, 2010 or the nine months ended September 30, 2011.

Expected volatility is based on stock price volatility of comparable publicly-traded companies. The Company used the simplified method consistent with U.S. GAAP authoritative guidance on stock compensation expenses to estimate expected lives for options granted during the period as historical exercise data was not available and the options met the requirement as set out in the guidance.

Share compensation expenses of $183 were recorded for the three months ended September 30, 2011 (2010: $1,059). Share compensation expenses of $1,609 were recorded for the nine months ended September 30, 2011 (2010: $3,133). The expenses represent the proportionate accrual of the fair value of each grant based on the remaining vesting period.

Activity with respect to options for the nine months ended September 30, 2011 was as follows:

	Options	Weighted Average Grant Date Fair Value	Weighted Average Grant Date Exercise Price
Options outstanding, December 31, 2010	2,723,684	$ 6.74	$ 20.19

iv. Performance share awards

The Performance Share Awards (PSAs) contain a performance based component. The performance component relates to the compounded growth in the Dividend Adjusted Diluted Book Value per Share over a three year period. For PSAs granted during the period, the grant date Diluted Book Value per Share (DBVPS) is based on the DBVPS at the end of the most recent financial reporting year. The Dividend Adjusted Performance Period End DBVPS will be the DBVPS three years after the grant date DBVPS. The fair value estimate earns over the requisite attribution period and the estimate will be reassessed at the end of each performance period which will reflect any adjustments in the consolidated statements of income in the period in which they are determined.

Share compensation expenses of $739 were recorded for the three months ended September 30, 2011 (2010: $nil). Share compensation expenses of $1,611 were recorded for the nine months ended September 30, 2011 (2010: $nil). The expenses represent the proportionate accrual of the fair value of each grant based on the remaining vesting period.

acquisition, the employee seller shares were validly issued, fully-paid and non-assessable and entitled to vote and participate in distributions and dividends in accordance with the Company s Bye-laws. However, the employee seller shares are subject to a restricted period during which they are subject to forfeiture (as implemented by repurchase by the Company for a nominal amount). Forfeiture of employee seller shares will generally occur in the event that any such Talbot employee s employment terminates, with certain exceptions, prior to the end of the restricted period. The restricted period ended for 25% of the employee seller shares on each anniversary of the closing date of July 2, 2007 for all Talbot employees other than Talbot s Chairman, such that on July 2, 2011 the potential for forfeiture was completely extinguished.

Share compensation expenses of $73 were recorded for the three months ended September 30, 2011 (2010: $1,357). Share compensation expenses of $2,293 were recorded for the nine months ended September 30, 2011 (2010: $3,410).

(b) $250,000 2010 Senior Notes due 2040

On January 21, 2010, the Company offered and sold $250,000 of Senior Notes due 2040 (the 2010 Senior Notes) in a registered public offering. The 2010 Senior Notes mature on January 26, 2040, and are redeemable at the Company s option in whole any time or in part from time to time at a make-whole redemption price. The Company may redeem the notes in whole, but not in part, at any time upon the occurrence of certain tax events as described in the notes prospectus supplement. The 2010 Senior Notes bear interest at the rate of 8.875% per annum from January 26, 2010 to maturity or early redemption. Interest on the 2010 Senior Notes is payable semi-annually in arrears on January 26 and July 26 of each year, commencing on July 26, 2010. The net proceeds of $243,967 from the sale of the 2010 Senior Notes, after the deduction of commissions paid to the underwriters in the transaction and other expenses, was used by the Company for general corporate purposes, which included the repurchase of its outstanding capital stock and payment of dividends to shareholders. Debt issuance costs of $2,808 were deferred as an asset and amortized over the life of the 2010 Senior Notes.

The 2010 Senior Notes are unsecured and unsubordinated obligations of the Company and rank equally in right of payment with all of the Company s existing and future unsecured and unsubordinated indebtedness. The 2010 Senior Notes will be effectively junior to all of the Company s future secured debt, to the extent of the value of the collateral securing such debt, and will rank senior to all our existing and future subordinated debt. The 2010 Senior Notes will be structurally subordinated to all obligations of the Company s subsidiaries.

Future expected payments of principal on the 2010 Senior Notes are as follows:

(c) Junior subordinated deferrable debentures

On June 15, 2006, the Company participated in a private placement of $150,000 of junior subordinated deferrable interest debentures due 2036 (the 2006 Junior Subordinated Deferrable Debentures). The 2006 Junior Subordinated Deferrable Debentures mature on June 15, 2036, are redeemable at the Company s option at par beginning June 15, 2011, and require quarterly interest payments by the Company to the holders of the 2006 Junior Subordinated Deferrable Debentures. Interest is payable at 9.069% per annum through June 15, 2011, and thereafter at a floating rate of three-month LIBOR plus 355 basis points, reset quarterly. The proceeds of $150,000 from the sale of the 2006 Junior Subordinated Deferrable Debentures, after the deduction of commissions paid to the placement agents in the transaction and other expenses, were used by the Company to fund Validus Re segment operations and for general working capital purposes. Debt issuance costs of $3,750 were deferred as an asset and are amortized to income over the five year optional redemption period.

On June 21, 2007, the Company participated in a private placement of $200,000 of junior subordinated deferrable interest debentures due 2037 (the 2007 Junior Subordinated Deferrable Debentures). The 2007 Junior Subordinated Deferrable Debentures mature on June 15, 2037, are redeemable at the Company s option at par beginning June 15, 2012, and require quarterly interest payments by the Company to the holders of the 2007 Junior Subordinated Deferrable Debentures. Interest will be payable at 8.480% per annum through June 15, 2012, and thereafter at a floating rate of three-month LIBOR plus 295 basis points, reset quarterly. The proceeds of $200,000 from the sale of the 2007 Junior Subordinated Deferrable Debentures, after the deduction of commissions paid to the placement agents in the transaction and other expenses, were used by the Company to fund the purchase of Talbot Holdings Ltd. Debt issuance costs of $2,000 were deferred as an asset and are amortized to income over the five year optional redemption period.

During 2008 and 2009 the Company repurchased from an unaffiliated financial institution $60,200 principal amount of its 2007 Junior Subordinated Deferrable Debentures due 2037.

Future expected payments of principal on the 2006 and 2007 Junior Subordinated Deferrable Debentures are as follows:

Validus Re and the Company s other subsidiaries and revolving credit availability for the Company (the Three Year Facilities) (the full $400,000 of which is available for letters of credit and/or revolving loans).

On March 12, 2007, the Company entered into a $500,000 five-year secured letter of credit facility, as subsequently amended on October 25, 2007, July 24, 2009, and March 12, 2010, which provides for letter of credit availability for Validus Re and the Company s other subsidiaries (the Five Year Facility and, together with the Three Year Facilities, the Credit Facilities). The Credit Facilities were provided by a syndicate of commercial banks arranged by J.P. Morgan Securities Inc. and Deutsche Bank Securities Inc. On October 25, 2007, the Company entered into the First Amendment to the Credit Facilities to provide for, among other things, additional capacity to incur up to $100,000 under a new Funds at Lloyd s Letter of Credit Facility (as described below) to support underwriting capacity provided to Talbot 2002 Underwriting Ltd through Syndicate 1183 at Lloyd s of London for the 2008 and 2009 underwriting years of account. The amendment also modified certain provisions in the Credit Facilities in order to permit dividend payments on existing and future preferred and hybrid securities notwithstanding certain events of default.

On September 4, 2009, the Company announced that it had entered into Amendments to its $500,000 five-year secured letter of credit facility and its then outstanding $200,000 three-year unsecured facility and $100,000 Talbot FAL Facility to amend a specific investment restriction clause in order to permit the completion of the IPC Acquisition. The amendment also modified and updated certain pricing and covenant terms.

On August 2, 2011, the Company announced that it had entered into Amendments to the Credit Facilities in order to modify certain provisions thereof, including definitions, affirmative covenants, negative covenants (including those relating to consolidations, mergers and sales of assets, indebtedness, liens, limitations on certain restrictions on subsidiaries and investments) and events of default, in each case, in order to reflect and permit the proposed exchange offer, the proposed second-step merger and the other proposed transactions contemplated by the Registration Statement on Form S-4 of the Company originally filed with the Securities Exchange Commission on July 25, 2011 (the Exchange Offer Transactions) in connection with its proposed acquisition of Transatlantic.

As amended, the Credit Facilities contain covenants that include, among other things, (i) the requirement that the Company initially maintain a minimum level of consolidated net worth of at least 70% of consolidated net worth ($2,925,590) and, commencing with the end of the fiscal quarter ending December 31, 2009 to be increased quarterly by an amount equal to 50% of its consolidated net income (if positive) for such quarter plus 50% of any net proceeds received from any issuance of common shares during such quarter, (ii) the requirement that the Company maintain at all times a consolidated total debt to consolidated total capitalization ratio not greater than 0.35:1.00, and (iii) the requirement that Validus Re and any other material insurance subsidiaries maintain a financial strength rating by A.M. Best of not less than B++ (Fair). For purposes of covenant compliance (i) net worth is calculated with investments carried at amortized cost and (ii) consolidated total debt does not include the Company s junior subordinated deferrable debentures. The credit facilities also contain restrictions on our ability to pay dividends and other payments in respect of equity interests at any time that we are otherwise in default with respect to certain provisions under the credit facilities, make investments, incur debt at our subsidiaries, incur liens, sell assets and merge or consolidate with others.

As of September 30, 2011, there was $275,407 in outstanding letters of credit under the Five Year Facility (December 31, 2010: $268,944) and $nil outstanding under the Three Year Facilities (December 31, 2010: $nil).

As of September 30, 2011, and throughout the reporting periods presented, the Company was in compliance with all covenants and restrictions under the Credit Facilities.

(ii) Talbot FAL Facility

On November 28, 2007, Talbot entered into a $100,000 standby Letter of Credit facility (the Talbot FAL Facility) to provide Funds at Lloyd s for the 2008 and 2009 underwriting years of account; this facility is guaranteed by the Company and is secured against the assets of Validus Re. The Talbot FAL Facility was provided by a syndicate of commercial banks arranged by Lloyds TSB Bank plc and ING Bank N.V., London Branch.

On November 19, 2009, the Company entered into an Amendment and Restatement of the Talbot FAL Facility to reduce the commitment from $100,000 to $25,000, and to extend the support to the 2010 and 2011 underwriting years of account.

As amended, the Talbot FAL Facility contains affirmative covenants that include, among other things, (i) the requirement that we initially maintain a minimum level of consolidated net worth of at least 70% of consolidated net worth ($2,607,219), and commencing with the end of the fiscal quarter ending September 30, 2009 to be increased quarterly by an amount equal to 50% of our consolidated net income (if positive) for such quarter plus 50% of any net proceeds received from any issuance of common shares during such quarter, and (ii) the requirement that we maintain at all times a consolidated total debt to consolidated total capitalization ratio not greater than 0.35:1.00.

The Talbot FAL Facility also contains restrictions on our ability to incur debt at our subsidiaries, incur liens, sell assets and merge or consolidate with others. Other than in respect of existing and future preferred and hybrid securities, the payment of dividends and other payments in respect of equity interests are not permitted at any time that we are in default with respect to certain provisions under the Credit Facilities. As of September 30, 2011, the Company had $25,000 in outstanding letters of credit under this facility (December 31, 2010: $25,000).

As of September 30, 2011, and throughout the reporting periods presented, the Company was in compliance with all covenants and restrictions under the Talbot FAL Facility.

(iii) IPC Syndicated Facility and IPC Bi-Lateral Facility

IPC obtained letters of credit through the IPC Syndicated Facility and the IPC Bi-Lateral Facility (the IPC Facilities). In July, 2009, certain terms of these facilities were amended including suspending IPC s ability to increase existing letters of credit or to issue new letters of credit. Effective March 31, 2010, the IPC Syndicated Facility was closed. As of September 30, 2011, $57,464 of outstanding letters of credit were issued under the IPC Bi-Lateral Facility (December 31, 2010: $68,063).

As of September 30, 2011, and throughout the reporting periods presented, the Company was in compliance with all covenants and restrictions under the IPC Bi-Lateral Facility.

11. Commitments and contingencies

(a) Concentrations of credit risk

The Company s investments are managed following prudent standards of diversification. The Company attempts to limit its credit exposure by purchasing high quality fixed income investments to maintain an average portfolio credit quality of AA- or higher with mortgage and commercial mortgage-backed issues having an aggregate weighted average credit quality of triple-A. In addition, the Company limits its exposure to any single issuer to 3% or less, excluding treasury and agency securities. With the exception of the Company s bank loan portfolio, the minimum credit rating of any security purchased is Baa3/BBB- and where investments are downgraded, the Company permits a holding of up to 2% in aggregate market value, or 10% with written pre-authorization. At September 30, 2011, 1.0% of the portfolio, excluding bank loans, had a split rating below Baa3/BBB- and the

Company did not have an aggregate exposure to any single issuer of more than 1.0% of its investment portfolio, other than with respect to government and agency securities.

(b) Funds at Lloyd s

The amounts provided under the Talbot FAL Facility would become a liability of the Company in the event of Syndicate 1183 declaring a loss at a level which would call on this arrangement.

Talbot operates in Lloyd s through a corporate member, Talbot 2002 Underwriting Capital Ltd (T02), which is the sole participant in Syndicate 1183. Lloyd s sets T02 s required capital annually based on syndicate 1183 s business plan, rating environment, reserving environment together with input arising from Lloyd s discussions with, inter alia, regulatory and rating agencies. Such capital, called Funds at Lloyd s (FAL), comprises: cash, investments and undrawn letters of credit provided by various banks. The amounts of cash, investments and letters of credit at September 30, 2011 amounted to $441,000 (December 31, 2010: $441,000) of which $25,000 is provided under the Talbot FAL Facility (December 31, 2010: $25,000).

(c) Lloyd s Central Fund

Whenever a member of Lloyd s is unable to pay its debts to policyholders, such debts may be payable by the Lloyd s Central Fund. If Lloyd s determines that the Central Fund needs to be increased, it has the power to assess premium levies on current Lloyd s members up to 3% of a member s underwriting capacity in any one year. The Company does not believe that any assessment is likely in the foreseeable future and has not provided any allowance for such an assessment. However, based on the Company s 2011 estimated premium income at Lloyd s of £560,000, the September 30, 2011 exchange rate of £1 equals $1.5582 and assuming the maximum 3% assessment, the Company would be assessed approximately $26,178.

12. Related party transactions

The transactions listed below are classified as related party transactions as each counterparty has either a direct or indirect shareholding in the Company.

a) On December 8, 2005, the Company entered into agreements with Goldman Sachs Asset Management and its affiliates (GSAM) under which GSAM provides investment management services for a portion of the Company s investment portfolio. For the three and nine months ended September 30, 2010, GSAM was deemed to be a related party due to a combination of GSAM being a shareholder in the Company and having an employee on the Company s Board of Directors during this period. For the three and nine months ended September 30, 2011, GSAM was no longer a related party due to the resignation of Sumit Rajpal from the Board of Directors effective February 7, 2011. Investment management fees earned by GSAM for the three and nine months ended September 30, 2010 were $370 and $1,397, respectively. Management believes that the fees charged were consistent with those that would have been charged in arm s-length transactions with unrelated third parties.

b) Aquiline Capital Partners, LLC and its related companies (Aquiline), which own 6,255,943 shares in the Company, hold warrants to purchase 2,756,088 shares, and have two employees on the Company s Board of Directors who do not receive compensation from the Company, are shareholders of Group Ark Insurance Holdings Ltd. (Group Ark). Christopher E. Watson, a director of the Company, also serves as a director of Group Ark. Pursuant to reinsurance agreements with a subsidiary of Group Ark, the Company recognized gross premiums written during the three and nine months ended September 30, 2011 of $53 (2010: $nil) and $1,464 (2010: $1,341), respectively, of which $683 was included in premiums receivable at September 30, 2011 (December 31, 2010: $378). The Company also recognized reinsurance premiums ceded during the three and nine months ended September 30, 2011 of $nil (2010: $nil) and $163 (2010: $606), respectively, of which $21 was included in reinsurance balances payable at September 30, 2011 (December 31, 2010: $132). Earned premium adjustments of $451 (2010: ($237)) and $1,129 (2010: $645) were incurred during the three and nine months ended September 30, 2011.

c) Aquiline is also a shareholder of Tiger Risk Partners LLC (Tiger Risk). Christopher E. Watson, a director of the Company serves as a director of Tiger Risk. Pursuant to certain reinsurance contracts, the Company

recognized brokerage expenses paid to Tiger Risk for the three and nine months ended September 30, 2011 of $57 (2010: ($11)) and $1,138 (2010: $1,458), respectively, of which $155 was included in accounts payable and accrued expenses at September 30, 2011 (December 31, 2010: $792).

d) On November 24, 2009, the Company entered into an Investment Management Agreement with Conning, Inc. (Conning) to manage a portion of the Company s investment portfolio. Aquiline acquired Conning on June 16, 2009. John J. Hendrickson and Jeffrey W. Greenberg, directors of the Company, each serve as a director of Conning Holdings Corp., the parent company of Conning and Michael Carpenter, the Chairman of Talbot Holdings, Ltd. serves as a director of a subsidiary company of Conning Holdings Corp. Investment management fees earned by Conning for the three and nine months ended September 30, 2011 were $200 (2010: $100) and $580 (2010: $286), respectively, of which $201 was included in accounts payable and accrued expenses at September 30, 2011 (December 31, 2010: $97).

13. Earnings per share

Share equivalents that would result in the issuance of common shares of 175,454 (2010: 168,670) and 223,518 (2010: 152,765) were outstanding for the three and nine months ended September 30, 2011, but were not included in the computation of diluted earnings per share because the effect would be antidilutive.

14. Subsequent events

Loss Events

The Company has evaluated the following subsequent events:

- Persistent rains in the Northern and Northeastern regions of Thailand caused severe flooding throughout the country, becoming particularly acute in the Bangkok area during October of 2011.

- On October 23, 2011, an earthquake struck Eastern Turkey, which caused widespread damage to property in the city of Van.

- On October 30, 2011, areas in the Northeast United States experienced significant snowstorms which caused extensive damage and power outages across a number of states.

The Company is continuing to review its in-force contracts and preliminary loss information from clients for the events described above and does not expect that these losses, either individually or when aggregated, will have a material impact on its shareholders equity or liquidity.

Transatlantic Acquisition Proposal

On November 2, 2011, the Board of Directors authorized, through open market purchases or otherwise, an increase in the Company s current share repurchase authorization to $1.0 billion contingent upon the consummation of the acquisition of Transatlantic Holdings, Inc.

(Transatlantic).

On November 3, 2011, the Company announced that it had increased its offer to acquire Transatlantic to 1.5564 voting common shares and $11.00 per share in cash and, subject to the impact of certain Transatlantic share repurchase activity, up to an additional $2.00 in cash per Transatlantic share, to be funded from available cash on hand at Transatlantic. The Transatlantic board failed to accept this revised offer.

15. Segment information

The Company conducts its operations worldwide through two wholly-owned subsidiaries, Validus Reinsurance, Ltd. and Talbot Holdings Ltd. from which two operating segments have been determined under U.S. GAAP segment reporting. The Company s operating segments are strategic business units that offer different products and services. They are managed and have capital allocated separately because each business requires different strategies.

Validus Re

The Validus Re segment is focused on short-tail lines of reinsurance. The primary lines in which the segment conducts business are property, marine and specialty which includes agriculture, aerospace and aviation, financial lines of business, nuclear, terrorism, life, accident & health, workers compensation, crisis management and motor.

Talbot

The Talbot segment focuses on a wide range of marine and energy, war, political violence, commercial property, financial institutions, contingency, bloodstock, accident & health and aviation classes of business on an insurance or facultative reinsurance basis and principally property, aerospace and marine classes of business on a treaty reinsurance basis.

Corporate and other reconciling items

The Company has a Corporate function, which includes the activities of the parent company, and which carries out certain functions for the group. Corporate includes non-core underwriting expenses, predominantly general and administrative and stock compensation expenses. Corporate also denotes the activities of certain key executives such as the Chief Executive Officer and Chief Financial Officer. For internal

reporting purposes,

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of the Company s consolidated results of operations for the three and nine months ended September 30, 2011 and 2010 and the Company s consolidated financial condition, liquidity and capital resources at September 30, 2011 and December 31, 2010. This discussion and analysis should be read in conjunction with the audited consolidated financial statements and related notes for the fiscal year ended December 31, 2010, the discussions of critical accounting policies and the qualitative and quantitative disclosure about market risk contained in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

For a variety of reasons, the Company s historical financial results may not accurately indicate future performance. See Cautionary Note Regarding Forward-Looking Statements. The Risk Factors set forth in Item 1A of the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2010 present a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained herein.

Executive Overview

The Company underwrites from two distinct global operating segments, Validus Reinsurance, Ltd. (Validus Re) and Talbot Holdings Ltd. (Talbot). Validus Re, the Company s principal reinsurance operating segment, operates as a Bermuda-based provider of short-tail reinsurance products on a global basis. Talbot, the Company s principal insurance operating segment, operates through its two underwriting platforms: Talbot Underwriting Ltd, which manages Syndicate 1183 at Lloyd s of London (Lloyd s) and which writes short-tail insurance products on a worldwide basis, and Underwriting Risk Services Ltd, which is an underwriting agency writing primarily yacht and onshore energy business on behalf of the Talbot syndicate and others.

The Company s strategy has been to concentrate primarily on short-tail risks, which has been an area where management believes current prices and terms provide an attractive risk adjusted return and the management team has proven expertise. The Company s profitability in any given period is based upon premium and investment revenues, less net losses and loss expenses, acquisition expenses and operating expenses. Financial results in the insurance and reinsurance industry are influenced by the frequency and/or severity of claims and losses, including as a result of catastrophic events, changes in interest rates, financial markets and general economic conditions, the supply of insurance and reinsurance capacity and changes in legal, regulatory and judicial environments.

On September 4, 2009, the Company acquired all of the outstanding shares of IPC (the IPC Acquisition) in exchange for common shares and cash. IPC s operations focused on short-tail lines of reinsurance. The primary lines in which IPC conducted business were property catastrophe reinsurance and, to a limited extent, property-per-risk excess, aviation (including satellite) and other short-tail reinsurance on a worldwide basis. The IPC Acquisition was undertaken to increase the Company s capital base and gain a strategic advantage in the then current reinsurance market. This acquisition created a leading Bermuda carrier in the short-tail reinsurance market that facilitates stronger relationships with major reinsurance intermediaries.

On May 25, 2011, the Company joined with other investors in capitalizing AlphaCat Re 2011, a new special purpose sidecar reinsurer formed for the purpose of writing collateralized reinsurance and retrocessional reinsurance. Validus Re has an equity interest in AlphaCat Re 2011 and as Validus Re holds a majority of AlphaCat Re 2011 s outstanding voting rights, the financial statements of AlphaCat Re 2011 are included in the

consolidated financial statements of the Company. The portion of AlphaCat Re 2011 s earnings attributable to third party investors for the three and nine months ended September 30, 2011 is recorded in the consolidated statements of operations and comprehensive income as net income attributable to noncontrolling interest.

Business Outlook and Trends

We underwrite global specialty property insurance and reinsurance and have large aggregate exposures to natural and man-made disasters. The occurrence of claims from catastrophic events results in substantial volatility, and can have material adverse effects on the Company s financial condition and results and ability to write new business. This volatility affects results for the period in which the loss occurs because U.S. accounting principles do

Table of Contents

not permit reinsurers to reserve for such catastrophic events until they occur. Catastrophic events of significant magnitude historically have been relatively infrequent, although management believes the property catastrophe reinsurance market has experienced a higher level of worldwide catastrophic losses in terms of both frequency and severity in the period from 1992 to the present. We also expect that increases in the values and concentrations of insured property will increase the severity of such occurrences in the future. The Company seeks to reflect these trends when pricing contracts.

Property and other reinsurance premiums have historically risen in the aftermath of significant catastrophic losses. As loss reserves are established, industry surplus is depleted and the industry s capacity to write new business diminishes. At the same time, management believes that there is a heightened awareness of exposure to natural catastrophes on the part of cedants, rating agencies and catastrophe modeling firms, resulting in an increase in the demand for reinsurance protection.

The global property and casualty insurance and reinsurance industry has historically been highly cyclical. The Company was formed in October 2005 in response to the supply/demand imbalance resulting from the large industry losses in 2004 and 2005. In the aggregate, the Company observed substantial increases in premium rates in 2006 compared to 2005 levels. During the years ended December 31, 2007 and 2008, the Company experienced increased competition in most lines of business. Capital provided by new entrants or by the commitment of additional capital by existing insurers and reinsurers increased the supply of insurance and reinsurance which resulted in a softening of rates in most lines. However, during 2008, the insurance and reinsurance industry incurred material losses and capital declines due to Hurricanes Ike and Gustav and the global financial crisis. In the wake of these events, the January 2009 renewal season saw decreased competition and increased premium rates due to relatively scarce capital and increased demand. During 2009, the Company observed reinsurance demand stabilization and industry capital recovery from investment portfolio gains. In 2009, there were few notable large losses affecting the worldwide (re)insurance industry and no major hurricanes making landfall in the United States. During 2010, the Company continued to see increased competition and decreased premium rates in most classes of business with the exception of offshore energy, Latin America, financial institutions and political risk lines. During 2010 there was an increased level of catastrophe activity, principally the Chilean earthquake and the Deepwater Horizon events.

During the January 2011 renewal season, Validus Re increased gross premiums written on the U.S. Cat XOL lines and decreased gross premiums written in the proportional lines. In addition, Validus Re decreased gross premiums written in the International Property lines as market conditions dictated. In the aftermath of 2010 s Deepwater Horizon loss, Validus Re saw additional opportunities and rate increases in the marine lines. Within its specialty lines, Validus Re increased gross premiums written in the terrorism lines among other sub-classes. During the first quarter of 2011, premiums in Talbot have been relatively stable with rate increases occurring on renewals that have suffered losses but rate reductions continuing elsewhere, as a result of good experience and excess capacity in the market. Talbot is receiving improved pricing in the energy, property and political risk lines as a result of recent loss events. The significant worldwide elevated loss activity since the beginning of 2010, in conjunction with changes to certain commercial vendors catastrophe models, is resulting in improved pricing and demand for catastrophe reinsurance. Rate levels in both our U.S. and International property catastrophe business continued to improve for mid-year 2011 renewals due to the magnitude of the worldwide loss activity.

During the third quarter, the Talbot segment has experienced significant price increases in its offshore energy, onshore energy and property classes, offset by some pricing pressure in other classes, resulting in an overall price increase at a whole account level of 3.4% for the year to date.

Financial Measures

The Company believes the following financial indicators are important in evaluating performance and measuring the overall growth in value generated for shareholders:

Annualized return on average equity represents the level of net income available to shareholders generated from the average shareholders equity during the period. Annualized return on average equity is calculated by dividing the net income available to Validus for the period by the average shareholders equity during the period. Average shareholders equity is the average of the beginning, ending and intervening quarter end shareholders equity balances. Percentages for the

Table of Contents

quarter and interim periods are annualized. The Company s objective is to generate superior returns on capital that appropriately reward shareholders for the risks assumed and to grow premiums written only when returns meet or exceed internal requirements. Details of annualized return on average equity are provided below.

	Three Months Ended September 30, 2011	2010	Year Ended December 31, 2010
Annualized return on average equity	6.6%	25.9%	10.8%

The decrease in annualized return on average equity for the three months ended September 30, 2011 was driven primarily by a reduction in net income. Net income available to Validus for the three months ended September 30, 2011 decreased by $182.0 million, or 76.3% compared to the three months ended September 30, 2010. This unfavorable movement was primarily due to large loss events coupled with an unfavorable movement in unrealized gains on investments.

Diluted book value per common share is considered by management to be an appropriate measure of our returns to common shareholders, as we believe growth in our book value on a diluted basis ultimately translates into growth of our stock price. Diluted book value per common share decreased by $0.75, or 2.3%, from $32.98 at December 31, 2010 to $32.23 at September 30, 2011. The decrease was due to the loss generated in the nine months ended September 30, 2011. Diluted book value per common share is a Non-GAAP financial measure. The most comparable U.S. GAAP financial measure is book value per common share. Diluted book value per common share is calculated based on total shareholders equity plus the assumed proceeds from the exercise of outstanding options and warrants, divided by the sum of common shares, unvested restricted shares, options and warrants outstanding (assuming their exercise). A reconciliation of diluted book value per common share to book value per common share is presented below in the section entitled Other Non-GAAP Financial Measures.

Cash dividends per common share are an integral part of the value created for shareholders. On November 2, 2011, the Company announced a quarterly cash dividend of $0.25 per each common share and $0.25 per common share equivalent for which each outstanding warrant is exercisable, payable on December 30, 2011 to holders of record on December 15, 2011.

Underwriting income (loss) measures the performance of the Company s core underwriting function, excluding revenues and expenses such as net investment income (loss), other income, finance expenses, net realized and unrealized gains (losses) on investments and foreign exchange gains (losses). The Company believes the reporting of underwriting income enhances the understanding of our results by highlighting the underlying profitability of the Company s core insurance and reinsurance operations. Underwriting income for the three months ended September 30, 2011 and 2010 was $111.8 million and $150.2 million, respectively. Underwriting income (loss) is a Non-GAAP financial measure as described in detail and reconciled in the section below entitled Underwriting Income (Loss).

Critical Accounting Policies and Estimates

There are certain accounting policies that the Company considers to be critical due to the judgment and uncertainty inherent in the application of those policies. In calculating financial statement estimates, the use of different assumptions could produce materially different estimates. The Company believes the following critical accounting policies affect significant estimates used in the preparation of our consolidated financial statements:

- Premiums;
- Reinsurance premiums ceded and reinsurance recoverable;
- Investment valuation; and
- Reserve for losses and loss expenses.

Table of Contents

For insurance and reinsurance companies, a significant judgment made by management is the estimation of the reserve for losses and loss expenses. The Company establishes its reserve for losses and loss expenses to cover the estimated remaining liability incurred for both reported claims (case reserves) and unreported amounts (incurred but not reported or IBNR reserves). For insurance and reinsurance business, the IBNR reserves include provision for loss incidents that have occurred but have not yet been reported to the Company as well as for future variation in case reserves (where the claim has been reported but the ultimate cost is not yet known). Within the reinsurance business, the portion of total IBNR related to future variation on known claims is calculated at the individual claim level in some instances (either as an additional case reserve or individual claim IBNR).Within the insurance business, the provision for future variation in current case reserves is generally calculated using actuarial estimates of total IBNR, while individual claim IBNR amounts are sometimes calculated for larger claims. During 2010 and 2011, given the complexity and severity of notable loss events in the year, an explicit reserve for development on 2010 and 2011 notable loss events was included within the Company s IBNR reserving process. As uncertainties surrounding initial estimates on notable loss events develop, it is expected that the reserve will be allocated to specific notable loss events.

The requirement for a provision in respect of the reserve for development on notable loss events in a quarter is a function of (a) the number of significant events occurring in that quarter and (b) the complexity and volatility of those events. These factors are considered in the aggregate for the events occurring in the quarter, recognizing that it is more likely that one or some of the events may deteriorate significantly, rather than all deteriorating proportionately. The evaluation of each quarter s requirement for provision for a reserve for development on notable loss events takes place as part of the quarterly evaluation of the reserve requirement. It is not directly linked in isolation to any one significant/notable loss in the quarter, and therefore it is not assigned to a contract on the basis of a specific review . The provision for the reserve for development on notable loss events is evaluated by our in-house actuaries as part of their normal process in setting of indicated reserves for the quarter. In ensuing quarters senior management revisits and re-estimates each event previously considered in the catastrophe loss event process, as well as events that have subsequently emerged in the current quarter. Changes to the reserve for potential development on notable loss events will be considered in light of changes to previous loss estimates from notable losses in this re-estimation process.

Critical accounting policies and estimates are discussed further in Item 7, Management s Discussion and Analysis of Results of Operations and Financial Condition in the Company s Annual Report on Form 10-K for the year ended December 31, 2010.

Segment Reporting

Management has determined that the Company operates in two reportable segments. The two significant operating segments are Validus Re and Talbot.

Results of Operations

Validus Re commenced operations on December 16, 2005. The Company s fiscal year ends on December 31. Financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (U.S. GAAP) for interim financial information.

Three Months Ended September 30, 2011 compared to Three Months Ended September 30, 2010

Net income available to Validus for the three months ended September 30, 2011 was $56.5 million compared to $238.5 million for the three months ended September 30, 2010, a decrease of $182.0 million or 76.3%. The primary factors driving the decrease in net income were:

- Decrease in underwriting income of $38.4 million due to:

- The impact of $58.5 million adverse development, net of reinstatement premiums, on prior quarter, current accident year, notable and certain other loss events, partially offset by $11.3 million in favorable development on prior accident year losses.

- Offset by a $26.0 million increase in net premiums earned.

- An unfavorable movement of $59.4 million in net unrealized (losses) gains on investments;

- An unfavorable movement of $30.7 million in foreign exchange (losses); and

- An unfavorable movement of $17.8 million in net realized (losses) gains on investments.

The change in net income available to Validus for the three months ended September 30, 2011 of $182.0 million as compared to the three months ended September 30, 2010 is described in the following table:
