NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 ORGANIZATION

Readers of this Quarterly Report should refer to the Company's (as defined below) audited Consolidated Financial Statements for the year ended December 31, 2010 which are included in the Company's Annual Report on Form 10-K (the Annual Report) for the fiscal year ended December 31, 2010 (Commission File No. 1-34948), as certain footnote disclosures which would substantially duplicate those contained in our Annual Report have been omitted from this Quarterly Report. Capitalized terms used, but not defined in this Quarterly Report, have the same meanings as in our Annual Report.

General

General Growth Properties, Inc. (GGP , the Successor or the Company), a Delaware corporation, formerly known as New GGP, Inc., was organized in July 2010 and is a self-administered and self-managed real estate investment trust, referred to as a REIT . GGP is the successor registrant, by merger, on November 9, 2010 (the Effective Date) to GGP, Inc. (the Predecessor). The Predecessor had filed for bankruptcy protection under Chapter 11 of Title 11 of the United States Code (Chapter 11) in the Southern District of New York (the Bankruptcy Court) on April 16, 2009 (the Petition Date) and emerged from bankruptcy, pursuant to a plan of reorganization (the Plan) on the Effective Date as described below. In these notes, the terms we, us and our refer to GGP and its subsidiaries or, in certain contexts, the Predecessor and its subsidiaries.

GGP, through its subsidiaries and affiliates, operates, manages, develops and acquires retail and other rental properties, primarily regional malls, which are predominantly located throughout the United States. GGP also holds assets in Brazil through an investment in an Unconsolidated Real Estate Affiliate (as defined below). Prior to the Effective Date, the Predecessor had also developed and sold land for residential, commercial and other uses primarily in large-scale, long-term master planned community projects in and around Columbia, Maryland; Summerlin, Nevada; and Houston, Texas, as well as one residential condominium project located in Natick (Boston), Massachusetts.

Substantially all of our business is conducted through GGP Limited Partnership (the Operating Partnership or GGPLP). As of September 30, 2011, GGP holds approximately a 99% common equity ownership (without giving effect to the potential conversion of the Preferred Units as defined below) of the Operating Partnership, while the remaining 1% is held by limited partners that indirectly include family members of the original stockholders of the Predecessor and certain previous contributors of properties to the Operating Partnership. The Operating Partnership also has preferred units of limited partnership interest (the Preferred Units) outstanding.

In this Quarterly Report, we refer to our ownership interests in properties in which we own a majority or controlling interest and, as a result, are consolidated under generally accepted accounting principles in the United States of America (GAAP) as the Consolidated Properties. We also hold some properties through joint venture entities in which we own a non-controlling interest (Unconsolidated Real Estate Affiliates) and we refer to those properties as the Unconsolidated Properties .

Principles of Consolidation and Basis of Presentation

The accompanying consolidated financial statements include the accounts of GGP, our subsidiaries and joint ventures in which we have a controlling interest. For consolidated joint ventures, the noncontrolling partner's share of the assets, liabilities and operations of the joint ventures (generally computed as the joint venture partner's ownership percentage) is included in noncontrolling interests in Consolidated Real Estate Affiliates as permanent equity of the Company. All significant intercompany balances and transactions have been eliminated.

We operate in a single segment referred to as our Retail segment, which includes the operation, development and management of retail and other rental properties, primarily regional malls. Our portfolio of regional malls represents a collection of retail properties that are targeted to a range of market sizes and consumer tastes. We do not distinguish or group our consolidated operations on a geographic basis. Further, all material operations are within the United States and no customer or tenant comprises more than 10% of consolidated revenues.

In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods have been included. The results for the interim period ended September 30, 2011 are not necessarily indicative of the results to be obtained for the full fiscal year.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Reclassifications

Certain prior period amounts in the consolidated financial statements have been reclassified to conform to the current period presentation as a result of discontinued operations. Income statement amounts for properties sold or to be disposed of, including the Special Consideration Properties (as defined below), have been reclassified to discontinued operations for all periods presented. However, two previously identified Special Consideration Properties, Mall St. Vincent and Southland Center, were reclassified as held for use in the first quarter of 2011 and have been included in continuing operations for all periods presented in the accompanying consolidated financial statements. Lastly, certain prior period income statement disclosures in the accompanying footnotes have been restated to exclude amounts which have been reclassified to discontinued operations.

Reorganization under Chapter 11 and the Plan

In April 2009, certain additional domestic subsidiaries (collectively, with the subsidiaries filing on the Petition Date and the Predecessor, the Debtors) of the Predecessor also filed voluntary petitions for relief in the Bankruptcy Court (collectively, the Chapter 11 Cases).

On August 17, 2010, the Predecessor filed with the Bankruptcy Court its third amended and restated disclosure statement and the plan of reorganization, supplemented on September 30, 2010 and October 21, 2010 for the remaining Debtors in the Chapter 11 Cases. Prior to the Effective Date, approximately 262 Debtors had emerged from bankruptcy during 2010 and 2009. On October 21, 2010, the Bankruptcy Court entered an order confirming the Plan. Pursuant to the Plan, on the Effective Date, the Predecessor merged with a wholly-owned subsidiary of New GGP, Inc. and New GGP, Inc. was re-named General Growth Properties, Inc. Also pursuant to the Plan, prepetition creditor claims were satisfied in full and equity holders received newly issued common stock in New GGP, Inc. and in The Howard Hughes Corporation, a newly formed real estate company (HHC).

The Plan was based on the agreements (collectively, as amended and restated, the Investment Agreements) with REP Investments LLC, an affiliate of Brookfield Asset Management Inc. (the Brookfield Investor), an affiliate of Fairholme Funds, Inc. (Fairholme) and an affiliate of Pershing Square Capital Management, L.P. (Pershing Square) and together with the Brookfield Investor and Fairholme, the Plan Sponsors), pursuant to which the Predecessor would be divided into two companies, New GGP, Inc. and HHC, and the Plan Sponsors would invest in the Company s standalone emergence plan. In addition, the Predecessor entered into an investment agreement with Teachers Retirement System of Texas (Texas Teachers). The Plan Sponsors also entered into an agreement with affiliates of the Blackstone Group (Blackstone) whereby Blackstone subscribed for equity in New GGP and HHC. Under the agreements, the Plan Sponsors and Blackstone agreed to purchase shares of GGP common stock at \$10.00 per share and Texas Teachers agreed to purchase shares of GGP common stock at \$10.25 per share.

Pursuant to the Plan, each holder of a share of the Predecessor common stock received, on the Effective Date, a distribution of 0.098344 shares of common stock of HHC. Following the distribution of the shares of HHC common stock, each existing share of the Predecessor common stock converted into and represented the right to receive one share of New GGP, Inc. common stock. No fractional shares of HHC or New GGP, Inc. were issued (i.e., the number of shares issued to each record holder was rounded down). Following these transactions, the Predecessor common stock ceased to exist.

The structure of the Plan Sponsors' investments triggered the application of the acquisition method of accounting, as the Plan and the consummation of the Investment Agreements and the Texas Teachers investment agreement constituted a transaction or event in which an acquirer obtains control of one or more businesses or a business combination requiring such application. New GGP, Inc. was the acquirer that obtained control as it obtained all of the common stock of the Predecessor (a business for purposes of applying the acquisition method of accounting) in exchange for issuing its stock to the Predecessor common stockholders on a one-for-one basis (excluding fractional shares). The acquisition method of accounting was applied at the Effective Date and, therefore, the Consolidated Balance Sheets at September 30, 2011 and December 31, 2010, the Consolidated Statement of Income and Comprehensive Income for the three and nine months ended September 30, 2011 and the Consolidated Statement of Equity and the Consolidated Statement of Cash Flows for the nine months ended September 30, 2011 reflect the revaluation of the Predecessor's assets and liabilities to fair value as of the Effective Date.

GENERAL GROWTH PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

On the Effective Date, the Plan Sponsors, Blackstone and Texas Teachers owned a majority of the outstanding common stock of GGP. The Predecessor common stockholders held approximately 317 million shares of GGP common stock; the Plan Sponsors, Blackstone and Texas Teachers collectively held approximately 644 million shares of GGP common stock on the Effective Date.

On November 15, 2010 (and November 23, 2010 with respect to the over allotment option), we sold an aggregate of approximately 154.9 million shares of GGP common stock in a registered public offering at \$14.75 per share and repurchased an equal number of shares from Fairholme and Pershing as permitted under clawback rights in the Investment Agreements. We also used a portion of the offering proceeds to repurchase approximately 24.4 million shares from Texas Teachers, also as permitted under its investment agreement.

Claims resolution process

As permitted under the bankruptcy process, the Debtors' creditors filed proofs of claim with the Bankruptcy Court. Through the claims resolution process, the Bankruptcy Court disallowed many claims for various reasons, including claims that were duplicative, amended or superseded by later filed claims, were without merit, or were otherwise overstated. Throughout the Chapter 11 proceedings, the Company resolved many other claims through settlement. The Company has since settled or otherwise resolved substantially all of the claims asserted against it in the bankruptcy proceedings, and substantially all claims have been paid or transferred in the ordinary course of business as of September 30, 2011.

Tax Indemnification Liability

Pursuant to the Investment Agreements, the Successor has indemnified HHC from and against 93.75% of any and all losses, claims, damages, liabilities and reasonable expenses to which HHC and its subsidiaries become subject, in each case solely to the extent directly attributable to MPC Taxes (as defined in the Investment Agreements) in an amount up to \$303.8 million. Under certain circumstances, we agreed to be responsible for interest or penalties attributable to such MPC Taxes in excess of the \$303.8 million. As a result of this indemnity, the Company caused the two former taxable REIT subsidiaries to file petitions in the Tax Court contesting this liability. We have accrued \$21.6 million of interest related to the tax indemnification liability in accounts payable and accrued expenses on our Consolidated Balance Sheet as of September 30, 2011 and \$19.7 million as of December 31, 2010. The aggregate liability of \$325.4 million represents management's best estimate of our liability as of September 30, 2011, which will be periodically evaluated in the aggregate. We do not expect to make any payments on the tax indemnification liability within the next 12 months.

Default Interest

Pursuant to the Plan Debtors' Third Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code, as modified (the Plan) confirmed on October 21, 2010, the Company cured and reinstated that certain note (the Homart Note) in the original principal amount of \$254.0 million between GGP Limited Partnership and The Comptroller of the State of New York as Trustee of the Common Retirement Fund (CRF) by payment in cash of accrued interest at the contractual non-default rate. CRF, however, contended that the Company's bankruptcy caused the Company to default under the Homart Note and, therefore, post-petition interest accrued under the Homart Note at the contractual default rate was due for the period June 1, 2009 until November 9, 2010. On June 16, 2011, the United States Bankruptcy Court for the Southern District of

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

New York (the Bankruptcy Court) ruled in favor of CRF, and, on June 22, 2011, the Company elected to satisfy the Homart Note in full by paying CRF the outstanding default interest and principal amount on the Homart Note totaling \$246.0 million. As a result of the ruling, the Company incurred and paid \$11.7 million of default interest expense during the second quarter of 2011. However, the Company has appealed the Bankruptcy Court s order and has reserved its right to recover the payment of default interest.

Pursuant to the Plan, the Company agreed to pay to the holders of claims (the 2006 Lenders) under a revolving and term loan facility (the 2006 Credit Facility) the principal amount of their claims outstanding of approximately \$2.58 billion plus post-petition interest at the contractual non-default rate. However, the 2006 Lenders asserted that they were entitled to receive interest at the contractual default rate. In July 2011, the Bankruptcy Court ruled in favor of the 2006 Lenders, and in August 2011, the Company appealed the order. As a result of the ruling, the Company accrued additional default interest of \$47.1 million in the quarter ended June 30, 2011 and has accrued \$90.3 million as of September 30, 2011. The Company had accrued \$42.0 million of default interest as of December 31, 2010 based upon its assessment of default interest amounts that would be paid under the 2006 Credit Facility. We will continue to evaluate the appropriateness of our accrual during the appeal process. In accordance with the

GENERAL GROWTH PROPERTIES, INC.

agreement, the Company is required to pay incremental interest on the default interest. The amount of default interest recorded during the period for this claim was \$1.2 million for the three months ended September 30, 2011 and \$48.3 million for the nine months ended September 30, 2011.

Reorganization Items

Reorganization items are expense or income items that were incurred or realized by the Debtors as a result of the Chapter 11 Cases and are presented separately in the Consolidated Statements of Income and Comprehensive Income of the Predecessor. Reorganization items include legal fees, professional fees and similar types of expenses resulting from activities of the reorganization process, gains on liabilities subject to compromise directly related to the Chapter 11 Cases, and interest earned on cash accumulated by the Debtors as a result of the Chapter 11 Cases. We recognized a net expense on reorganization items of \$84.3 million for the three months ended September 30, 2010 and \$111.3 million for the nine months ended September 30, 2010. These amounts exclude reorganization items that are currently included within discontinued operations. We did not recognize any reorganization items in 2011.

With respect to certain retained professionals, the terms of engagement and the timing of payment for services rendered were subject to approval by the Bankruptcy Court. In addition, certain of these retained professionals had agreements that provided for success or completion fees that became payable upon the Effective Date. As of December 31, 2010 we accrued \$7.1 million of success or completion fees in accounts payable and accrued expenses on the Consolidated Balance Sheet. All success fees were fully paid as of September 30, 2011.

In addition, a key employee incentive program (the KEIP) provided for payment to certain key employees upon successful emergence from bankruptcy. The amount payable under the KEIP was calculated based upon a formula related to the recovery to creditors and equity holders on the Effective Date and on February 7, 2011, 90 days after the Effective Date. Approximately \$181.5 million was paid in two installments, November 12, 2010 and February 25, 2011, under the KEIP, which we recognized from the date the KEIP was approved by the Bankruptcy Court to the Effective Date. As of December 31, 2010, we accrued a liability of approximately \$115.5 million for the KEIP in accounts payable and accrued expenses on the Consolidated Balance Sheet. We recognized expense for the KEIP of \$43.0 million for the three months ended September 30, 2010 and \$112.5 million for the nine months ended September 30, 2010 in reorganization items on the Consolidated Statements of Income and Comprehensive Income. All KEIP amounts were fully paid as of September 30, 2011.

Special Consideration Properties

In 2010, we identified 13 properties (the Special Consideration Properties) as underperforming retail assets. As of the Effective Date, we entered into deed-in-lieu agreements with respect to two of these properties, Eagle Ridge Mall and Oviedo Marketplace, pursuant to which we transferred the deeds to the properties to the respective lenders on November 1, 2010. We subsequently notified the lenders to the remaining Special Consideration Properties of our intent to transfer the deed to these properties in full satisfaction of the related debt, in accordance with our rights in the loan modification agreements. Accordingly, all the Special Consideration Properties were classified as held for disposition in our Consolidated Balance Sheet as of December 31, 2010 and as discontinued operations in the Consolidated Statements of Income and Comprehensive Income for all periods presented.

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

As of September 30, 2011, we have one remaining Special Consideration Property, which is expected to be disposed of, either by third-party sale or deed transfer to the lender, in the remainder of 2011 or 2012. The property continues to be classified as held for disposition in the Consolidated Balance Sheets. The following special consideration properties were either sold or transferred to the lender:

Properties	Description	Date
Northgate Mall	Sold	September 2011
Piedmont Mall	Transferred to lender	September 2011
Chico Mall	Sold	July 2011
Country Hills Plaza	Transferred to lender	July 2011
Chapel Hills Mall	Sold	June 2011

Lakeview Square	Transferred to lender	February 2011
Moreno Valley Mall	Transferred to lender	February 2011
Eagle Ridge Mall	Transferred to lender	November 2010
Oviedo Marketplace	Transferred to lender	November 2010

In addition, in March 2011 we revised our intent with respect to two of the Special Consideration Properties (Mall St. Vincent and Southland Center) and began negotiations to repay the debt and retain the title from the respective lenders. These transactions closed on April 25, 2011. As we no longer met the criteria for held for sale treatment, we reclassified these two properties as held for use in our Consolidated Balance Sheet as of March 31, 2011 and as continuing operations in our Consolidated Statements of Income and Comprehensive Income for all periods presented.

Impairment*Operating properties*

Accounting for the impairment of long-lived assets requires that if impairment indicators exist and the undiscounted cash flows expected to be generated by an asset are less than its carrying amount, an impairment provision should be recorded to write down the carrying amount of such asset to its fair value. We review our consolidated assets for potential impairment indicators whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

Impairment indicators for our operating properties are assessed separately for each property and include, but are not limited to, significant decreases in real estate property net operating income and occupancy percentages.

Impairment indicators for pre-development costs, which are typically costs incurred during the beginning stages of a potential development and developments in progress are assessed by project. These indicators include, but are not limited to, significant changes in the Company's plans with respect to the project, significant changes in projected completion dates, tenant demand, revenues or cash flows, development costs, market factors and sustainability of development projects.

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

If an indicator of potential impairment exists, the asset is tested for recoverability by comparing its carrying amount to the estimated future undiscounted cash flows. The cash flow estimates used both for determining recoverability and estimating fair value are inherently judgmental and reflect current and projected trends in rental, occupancy and capitalization rates, and estimated holding periods for the applicable assets. Although the estimated fair value of certain assets may be exceeded by the carrying amount, a real estate asset is only considered to be impaired when its carrying amount cannot be recovered through estimated future undiscounted cash flows. To the extent an impairment provision is determined to be necessary, the excess of the carrying amount of the asset over its estimated fair value is expensed to operations. In addition, the impairment provision is allocated proportionately to adjust the carrying amount of the asset group. The adjusted carrying amount, which represents the new cost basis of the asset, is depreciated over the remaining useful life of the asset.

The Predecessor recorded impairment charges related to operating properties and properties under development of \$4.5 million for the three months ended September 30, 2010 and \$15.6 million for the nine months ended September 30, 2010. No provisions for impairment were necessary for the three and nine months ended September 30, 2011.

Investment in Unconsolidated Real Estate Affiliates

According to the guidance related to the equity method of accounting for investments, a series of operating losses of an investee or other factors may indicate that an other-than-temporary decrease in value of our investment in the Unconsolidated Real Estate Affiliates has occurred. The investment in each of the

Table of Contents**GENERAL GROWTH PROPERTIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Unconsolidated Real Estate Affiliates is evaluated periodically and as deemed necessary for valuation declines that are other-than temporary. Accordingly, in addition to the property-specific impairment analysis that we perform for such joint ventures (as part of our operating property impairment process described above), we also consider the ownership and distribution preferences and limitations. Based on our evaluations, no provisions for impairment were recorded for the three and nine months ended September 30, 2011 and 2010 related to our investments in Unconsolidated Real Estate Affiliates.

General

Carrying values of our properties were reset to fair value on the Effective Date as provided by the acquisition method of accounting. Additional impairment charges could be taken in the future if economic conditions change or if the plans regarding such assets change. Therefore, we can provide no assurance that material impairment charges with respect to our assets, including operating properties, investments in Unconsolidated Real Estate Affiliates and developments in progress, will not occur in future periods. Accordingly, we will continue to monitor circumstances and events in future periods to determine whether impairments are warranted.

Warrant Liability

Pursuant to the terms of the Investment Agreements, the Plan Sponsors and Blackstone were issued warrants (the Warrants), which included eight million warrants to purchase common stock of HHC at an exercise price of \$50.00 per share and 120 million warrants to purchase common stock of GGP. The Brookfield Investor and Blackstone received 57.5 million and 2.5 million, respectively, of GGP Warrants at an exercise price of \$10.75 per share; Fairholme, Pershing Square and Blackstone received 41.07 million, 16.43 million and 2.5 million, respectively, of GGP Warrants at an exercise price of \$10.50 per share. The GGP Warrants are fully vested and the exercise prices are subject to adjustment for future dividends, stock dividends, splits or reverse splits of our common stock or certain other events. As a result of these investment provisions, as of the record date of our common stock dividends, the number of shares issuable upon exercise of the outstanding GGP Warrants was increased as follows:

	July 15, 2011	Record Date April 15, 2011	December 30, 2010
Shares issuable upon exercise of outstanding GGP Warrants	124,704,000	123,960,000	123,144,000
Exercise price of the Brookfield Investor and Blackstone GGP Warrants	\$ 10.3445	\$ 10.4000	\$ 10.4800
Exercise price of the Fairholme, Pershing Square and Blackstone GGP Warrants	10.1039	10.1600	10.2300

Each GGP Warrant has a term of seven years from the Effective Date. The Brookfield Investor Warrants and the Blackstone Investors Warrants are immediately exercisable, while the Fairholme Warrants and the Pershing Square Warrants will be exercisable (for the initial 6.5 years from the Effective Date) only upon 90 days prior notice. No GGP Warrants were exercised during the three and nine months ended September 30, 2011.

The GGP Warrants are recorded as a liability on our Consolidated Balance Sheets as the holders of the GGP Warrants could require GGP to settle these warrants in cash in the circumstance of a subsequent change of control, which is a circumstance that we consider to be remote. The fair value of the GGP Warrants was estimated using the Black Scholes option pricing model using our stock price and level 3 inputs which were based primarily on the Company's stock price and our estimate of implied volatility derived from the market prices of publicly traded options. Subsequent to the Effective Date, changes in the fair value of the GGP Warrants have been and will continue to be recognized in earnings. Based on the uncertainty and variability of the assumptions used to fair value the GGP Warrants, significant changes in earnings could be recognized in future periods. The change in the fair value of the warrant liability for the three and nine months ended September 30, 2011 was primarily due to a decrease in the Company's stock price partially offset by an increase in our estimate of implied volatility derived from the market prices of publicly traded options. We used an implied volatility of 45% as of September 30, 2011 and 38% of December 31, 2010. The estimated fair value of the GGP Warrants was \$721.5 million as of September 30, 2011 and \$1.04 billion as of December 31, 2010.

Noncontrolling Interests

The minority interests related to our common and preferred Operating Partnership units are presented as redeemable noncontrolling interests and will remain as temporary equity at a mezzanine level in our Consolidated Balance Sheets, presented at the greater of the carrying amount adjusted for the noncontrolling interest's share of the allocation of income or loss (and its share of other comprehensive income or loss) and dividends or the fair value as of each measurement date. The redeemable noncontrolling interests have been

Table of Contents**GENERAL GROWTH PROPERTIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

presented at carrying value plus allocated income (loss) and other comprehensive income as of September 30, 2011 and at fair value as of December 31, 2010. The excess of the fair value over the carrying amount from period to period is recorded within additional paid-in capital in our Consolidated Balance Sheets. Allocation to noncontrolling interests is presented as an adjustment to net income to arrive at net income attributable to common stockholders.

The Plan provided that holders of the Common Units could elect to redeem, reinstate or convert their units. Four holders of the Common Units elected to redeem 226,684 Common Units in the aggregate on the Effective Date. All remaining Common Units were reinstated in the Operating Partnership on the Effective Date.

Generally, the holders of the Common Units share in any distributions by the Operating Partnership with our common stockholders. However, the Operating Partnership agreement permits distributions solely to GGP if such distributions were required to allow GGP to comply with the REIT distribution requirements or to avoid the imposition of excise tax. Under certain circumstances, the conversion rate for each Common Unit is required to be adjusted to give effect to stock distributions. In such regard, the common stock dividend declared for 2010 modified the conversion rate to 1.0397624. The aggregate amount of cash that would have been paid to the holders of the outstanding Common Units as of September 30, 2011 if such holders had requested redemption of the Common Units as of September 30, 2011, and all such Common Units were redeemed or purchased pursuant to the rights associated with such Common Units for cash, would have been \$83.0 million.

The following table reflects the activity of the redeemable noncontrolling interests for the nine months ended September 30, 2011 and 2010:

Fair Value Measurements

Fair value measurements utilize a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1 - defined as observable inputs such as quoted prices for identical assets or liabilities in active markets;
- Level 2 - defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and
- Level 3 - defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following table summarizes our assets and liabilities that were measured on a nonrecurring basis at fair value as of September 30, 2010:

Fair Value of Financial Instruments

The fair values of our financial instruments approximate their carrying amount in our financial statements except for debt. Management's estimates of fair value are presented below for our debt as of September 30, 2011 and December 31, 2010.

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

The fair value of the Junior Subordinated Notes approximates their carrying amount as of September 30, 2011 and December 31, 2010. We estimated the fair value of this debt based on recent financing transactions (which may not be comparable), estimates of the fair value of the property that serves as collateral for such debt, historical risk premiums for loans of comparable quality, current London Interbank Offered Rate ("LIBOR"), a widely quoted market interest rate which is frequently the index used to determine the rate at which we borrow funds, U.S. treasury obligation interest rates and on the discounted estimated future cash payments to be made on such debt. The discount rates estimated reflect our judgment as to what the approximate current lending rates for loans or groups of loans with similar maturities and credit quality would be if credit markets were operating efficiently and assume that the debt is outstanding through maturity. We have utilized market information as available or present value techniques to estimate the amounts required to be disclosed, or, in the case of the Emerged Debtors, recorded due to GAAP bankruptcy emergence guidance. Since such amounts are estimates that are based on limited available market information for similar transactions and do not acknowledge transfer or other repayment restrictions that may exist in specific loans, it is unlikely that the estimated fair value of any of such debt could be realized by immediate settlement of the obligation.

Derivative Financial Instruments

As of September 30, 2011 and December 31, 2010, we had no derivative financial instruments for our Consolidated Properties. For the three and nine months ended September 30, 2010, we recognized \$0.6 million and \$9.6 million, respectively, of additional interest expense related to the amortization of accumulated other comprehensive (loss) income that resulted from the termination of interest rate swaps in 2009.

Revenue Recognition and Related Matters

Minimum rent revenues are recognized on a straight-line basis over the terms of the related leases. Minimum rent revenues also include amounts collected from tenants to allow the termination of their leases prior to their scheduled termination dates and accretion related to above and below-market tenant leases on acquired properties. The following is a summary of straight-line rent, termination income, net amortization /accretion related to above and below-market tenant leases and percentage rent in lieu of minimum rent:

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. For example, estimates and assumptions have been made with respect to fair values of assets and liabilities for purposes of applying the acquisition method of accounting, the useful lives of assets, capitalization of development and leasing costs, provision for income taxes, recoverable amounts of receivables and deferred taxes, initial valuations and related amortization periods of deferred costs and intangibles, particularly with respect to acquisitions and impairment of long-lived assets. Actual results could differ from these and other estimates.

Basic EPS is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding. Diluted EPS is computed after adjusting the numerator and denominator of the basic EPS computation for the effects of all potentially dilutive common shares. The dilutive effect of the warrants are computed using the if-converted method and the dilutive effect of options and their equivalents (including fixed awards and nonvested stock issued under stock-based compensation plans) is computed using the treasury stock method.

Table of Contents**GENERAL GROWTH PROPERTIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

All stock options were anti-dilutive for continuing operations for all periods presented as the impact of the warrant adjustment reduced income from continuing operations to a loss position. Anti-dilutive stock options excluded from diluted earnings per share were 602,509 shares for the three months ended September 30, 2011 and 753,437 shares for the nine months ended September 30, 2011. All stock options were anti-dilutive for the prior periods presented. Outstanding Common Units have also been excluded from the diluted earnings per share calculation because including such Common Units would also require that the share of GGPLP income attributable to such Common Units be added back to net income therefore resulting in an anti-dilutive effect on EPS.

Common Stock Dividend and Purchase of Common Stock

In December 2010, we declared a dividend of \$0.38 per share, paid on January 27, 2011 in the amount of approximately \$35.8 million in cash and issued approximately 22.3 million shares of common stock (with a valuation of \$14.4725 calculated based on the volume weighted average trading prices of GGP's common stock on January 19, 20 and 21, 2011).

We recorded \$283.3 million as a decrease in retained earnings (accumulated deficit) on our Consolidated Balance Sheet as of September 30, 2011. The following table summarizes the cash common stock dividends declared in 2011:

Declaration Date	Amount per Share	Date Paid	Record Date
March 29, 2011	\$ 0.10	April 29, 2011	April 15, 2011

July 29, 2011	0.10	October 31, 2011	October 14, 2011

On March 29, 2011, we announced the implementation of our Dividend Reinvestment Plan (DRIP). The DRIP provides eligible holders of GGP's common stock with a convenient method of increasing their investment in the Company by reinvesting all or a portion of cash dividends in additional shares of common stock. Eligible stockholders who enroll in the DRIP on or before the fourth business day preceding the record date for a dividend payment will be able to have that dividend reinvested. As a result of the DRIP elections for the dividends declared in the first and second quarters of 2011, 4,846,784 shares were issued during the nine months ended September 30, 2011.

In May 2011, we purchased shares of our common stock on the New York Stock Exchange through a private purchase. In addition, on August 8, 2011, the board authorized the Company to repurchase up to \$250 million of our common stock on the open market. The following table summarizes the stock buy-back activity during the period:

NOTE 2 INTANGIBLE ASSETS AND LIABILITIES**Acquisition Method of Accounting Adjustments on the Effective Date**

The acquisition method of accounting was applied to the assets and liabilities of the Successor to reflect the acquisition of the Predecessor by the Successor as part of the Plan. The acquisition method of accounting adjustments, recorded on the Effective Date, reflect the allocation of the purchase price. These adjustments reflect the amounts required to adjust the carrying values of our assets and liabilities, after giving effect to the transactions pursuant to the Plan and the distribution of HHC, to the fair values of such remaining assets and liabilities and redeemable non-controlling interests, with the offset to common equity, as provided by the acquisition method of accounting.

The following table summarizes our intangible assets and liabilities:

Table of Contents**GENERAL GROWTH PROPERTIES, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 3 DISCONTINUED OPERATIONS AND GAINS (LOSSES) ON DISPOSITIONS OF INTERESTS IN OPERATING PROPERTIES**

All of our 2011 and 2010 dispositions are included in discontinued operations in our Consolidated Statements of Income and Comprehensive Income and are summarized in the table below. We have five additional properties as held for disposition as of September 30, 2011. These properties have been approved for sale and are expected to be sold within 12 months. In addition, as of September 30, 2011, one Special Consideration property remained as held for disposition (Note 1). In March 2011 we revised our intent with respect to two of the Special Consideration Properties (Mall St. Vincent and Southland Center) (Note 1). As we no longer met the criteria for held for sale treatment, we reclassified these two properties as held for use in our Consolidated Balance Sheet as of March 31, 2011 and as continuing operations in our Consolidated Statements of Income and Comprehensive Income for all periods presented.

The following is a summary of properties sold, transferred or held for sale and included in discontinued operations.

NOTE 4 UNCONSOLIDATED REAL ESTATE AFFILIATES

The Unconsolidated Real Estate Affiliates represents our investments in real estate joint ventures. Generally, we share in the profits and losses, cash flows and other matters relating to our investments in Unconsolidated Real Estate Affiliates in accordance with our respective ownership percentages. We manage most of the properties owned by these joint ventures. As we have joint control of these ventures with our venture partners and they have substantive participating rights in such ventures, we account for these joint ventures under the equity method. Some of the joint ventures have elected to be taxed as REITs.

On September 19, 2011, we contributed St. Louis Galleria, a wholly-owned regional mall consisting of over one million square feet of gross leasable area located in St. Louis, Missouri, into a newly formed joint venture, GGP-CPP Venture, LP (GGP-CPP) with the Canada Pension Plan Investment Board (CPPIB). CPPIB contributed approximately \$83 million of cash into GGP-CPP. GGP-CPP used the cash to purchase Plaza Frontenac, a regional mall which consists of approximately 482,000 square feet of gross leasable area located in Frontenac, Missouri, a suburb of St. Louis. In exchange for our contribution of St. Louis Galleria, we received a 55% economic interest in Plaza Frontenac and a 74% economic interest in St. Louis Galleria. GGP is the general partner in GGP-CPP; however, because we share control over major decisions with

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

CPPIB and CPPIB has substantive participating rights, we will account for GGP-CPP under the equity method of accounting. No gain or loss was recorded upon the contribution of St. Louis Galleria to GGP-CPP as no cash was received in exchange for the contribution.

The following is a summary of the properties included in discontinued operations of our Unconsolidated Properties that have been sold, transferred or are held for sale.

GENERAL GROWTH PROPERTIES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In June 2011, we closed on a transaction with a third party in which we sold our ownership share of Superstition Springs Center and Arrowhead Towne Center, both located in Phoenix, Arizona for \$120.0 million, which consisted of a sales price of \$168.0 million less \$48.0 million of debt assumed by the third party. In exchange we received six big-box anchor locations in Arizona, California, Illinois and Utah previously owned by the third party and \$75.0 million of cash. The transaction was treated as a non-monetary exchange that resulted in a minimal gain.

Indebtedness secured by our Unconsolidated Properties was \$5.89 billion as of September 30, 2011 and \$6.02 billion as of December 31, 2010. Our proportionate share of such debt was \$2.77 billion as of September 30, 2011 and \$2.67 billion as of December 31, 2010, including Retained Debt (as defined below). There can be no assurance that the Unconsolidated Properties will be able to refinance or restructure such debt on acceptable terms or otherwise, or that joint venture operations or contributions by us and/or our partners will be sufficient to repay such loans.

In certain circumstances, we have debt obligations in excess of our pro rata share of the debt of our Unconsolidated Real Estate Affiliates (Retained Debt). This Retained Debt represents distributed debt proceeds of the Unconsolidated Real Estate Affiliates in excess of our pro rata share of the non-recourse mortgage indebtedness of such Unconsolidated Real Estate Affiliates. The proceeds of the Retained Debt which are distributed to us are included as a reduction in our investment in Unconsolidated Real Estate Affiliates. Such Retained Debt totaled \$131.1 million as of September 30, 2011 and \$155.6 million as of December 31, 2010, and has been reflected as a reduction in our investment in Unconsolidated Real Estate Affiliates. We are obligated to contribute funds to our Unconsolidated Real Estate Affiliates in amounts sufficient to pay debt service on such Retained Debt. If we do not contribute such funds, our distributions from such Unconsolidated Real Estate Affiliates, or our interest in, could be reduced to the extent of such deficiencies. As of September 30, 2011, we do not anticipate an inability to perform on our obligations with respect to such Retained Debt.

In certain other circumstances, the Company, in connection with the debt obligations of certain Unconsolidated Real Estate Affiliates, has agreed to provide supplemental guarantees or master-lease commitments to provide to the debt holders additional credit-enhancement or security. As of September 30, 2011, we do not expect to be required to fund more than immaterial amounts related to any of such supplemental credit-enhancement provisions for our Unconsolidated Real Estate Affiliates.

On January 29, 2010, our Brazilian joint venture, Aliansce Shopping Centers S.A. (Aliansce), commenced trading on the Brazilian Stock Exchange, or BM&FBovespa, as a result of an initial public offering of Aliansce's common shares in Brazil (the Aliansce IPO). Although we did not sell any of our Aliansce shares in the Aliansce IPO, our ownership interest in Aliansce was diluted from 49% to approximately 31% as a result of the stock sold in the Aliansce IPO. We continue to apply the equity method of accounting to our ownership interest in Aliansce. As an equity method investor, we accounted for the shares issued by Aliansce as if we had sold a proportionate share of our investment at the issuance price per share of the Aliansce IPO. Accordingly, the Predecessor recognized a gain of \$9.7 million for the nine months ended September 30, 2010, which is reflected in equity in income of Unconsolidated Real Estate Affiliates.

Total Mortgages, notes and loans payable	\$ 17,235,603	\$ 17,841,757
Variable-rate debt:		
Junior Subordinated Notes	\$ 206,200	\$ 206,200

The weighted-average interest rate excluding the effects of deferred finance costs and using the contract rate prior to any defaults on such loans, on our collateralized mortgages, notes and loans payable was 5.11% at September 30, 2011 and 5.24% at December 31, 2010. The weighted average interest rate, using the contract rate prior to any defaults on such loans, on the remaining corporate unsecured fixed and variable rate debt and the revolving credit facility was 6.73% at September 30, 2011 and 6.18% at December 31, 2010.

As a result of a Bankruptcy Court ruling, the Company incurred and paid \$11.7 million of default interest expense during the second quarter of 2011 related to the Homart Note. In addition, on July 20, 2011, the Bankruptcy Court ruled in favor of the 2006 Lenders holding that they were entitled to interest at the contractual default rate. The amount of default interest recorded as interest expense during the period for this claim was

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

\$1.2 million for the three months ended September 30, 2011 and \$48.3 million for the nine months ended September 30, 2011 (Note 1).

We are not aware of any instance of non-compliance with any of our financial covenants related to our mortgages, notes and loans payable as of September 30, 2011.

During the nine months ended September 30, 2011, we refinanced the mortgage notes on 15 Consolidated and Unconsolidated regional malls representing \$2.89 billion of new mortgage notes at our proportionate share. These 15 new fixed-rate mortgage notes have a weighted average term of 10.16 years and generated excess proceeds of approximately \$640 million to us. We were also able to lower the weighted average interest rate of these 15 mortgage notes from 5.88% to 5.26%, while lengthening the term by approximately seven years over the term previously in place.

Collateralized Mortgages, Notes and Loans Payable

As of September 30, 2011, \$22.67 billion of land, buildings and equipment and developments in progress (before accumulated depreciation) have been pledged as collateral for our mortgages, notes and loans payable. Certain of these secured loans, representing \$2.96 billion of debt, are cross-collateralized with other properties. Although a majority of the \$15.54 billion of fixed and variable rate collateralized mortgages, notes and loans payable are non-recourse, \$2.33 billion of such mortgages, notes and loans payable are recourse due to guarantees or other security provisions for the benefit of the note holder. In addition, certain mortgage loans contain other credit enhancement provisions (primarily master leases for all or a portion of the property) which have been provided by GGP. Certain mortgages, notes and loans payable may be prepaid but are generally subject to a prepayment penalty equal to a yield-maintenance premium, defeasance or a percentage of the loan balance.

Corporate and Other Unsecured Loans

We have publicly-traded unsecured bonds of \$1.65 billion outstanding as of September 30, 2011 and December 31, 2010. Such bonds have maturity dates from September 2012 through November 2015 and interest rates ranging from 5.38% to 7.20%.

In connection with the consummation of the Plan, we entered into a revolving credit facility (the Facility) providing for revolving loans of up to \$300 million, none of which was used to consummate the Plan, with Deutsche Bank Trust Company Americas, as administrative agent and collateral agent, various lenders, and Deutsche Bank Securities Inc., Wells Fargo Securities, LLC and RBC Capital Markets, LLC as Joint Lead Arrangers. On February 25, 2011, we amended the Facility to provide for loans up to approximately \$720 million and, under certain circumstances, up to \$1 billion. On April 11, 2011, we further amended the Facility to provide for loans up to \$750 million retaining the right, in certain circumstances, to borrow up to \$1 billion. The Facility is scheduled to mature on November 9, 2013 and the Facility is guaranteed by certain of our subsidiaries and secured by (i) first lien mortgages on certain properties, (ii) first-lien pledges of equity interests in certain of our subsidiaries and (iii) various additional collateral.

No amounts have been drawn on the Facility as of the date of this Quarterly Report. Borrowings under the Facility bear interest at a rate equal to LIBOR plus 4.5%. The Facility contains certain restrictive covenants which limit material changes in the nature of our business conducted, including but not limited to, mergers, dissolutions or liquidations, dispositions of assets, liens, incurrence of additional indebtedness, dividends, transactions with affiliates, prepayment of subordinated debt, negative pledges and changes in fiscal periods. In addition, we are required to maintain a maximum net debt to value ratio, a maximum leverage ratio and a minimum net cash interest coverage ratio and we are not aware of any instance of non-compliance with such covenants as of September 30, 2011.

Junior Subordinated Notes

In 2006, GGP Capital Trust I, a Delaware statutory trust (the Trust) and a wholly-owned subsidiary of GGPLP completed a private placement of \$200.0 million of trust preferred securities (TRUPS). The Trust also issued \$6.2 million of Common Securities to GGPLP. The Trust used the proceeds from the sale of the TRUPS and Common Securities to purchase \$206.2 million of floating rate Junior Subordinated Notes of GGPLP due 2036. Distributions on the TRUPS are equal to LIBOR plus 1.45%. Distributions are cumulative and accrue from the date of original issuance. The TRUPS mature on April 30, 2036, but may be redeemed beginning on April 30, 2011 if the Trust exercises its right to redeem a like amount of the Junior Subordinated

Notes. The Junior Subordinated Notes bear interest at LIBOR plus 1.45%. Though the Trust is a wholly-owned subsidiary of GGPLP, we are not the primary beneficiary of the Trust and, accordingly, the Trust is not consolidated for accounting purposes. We recorded the debt as Junior Subordinated Notes and our common equity interest in the Trust as prepaid expenses and other assets in our Consolidated Balance Sheets as of September 30, 2011 and December 31, 2010.

Letters of Credit and Surety Bonds

We had outstanding letters of credit and surety bonds of \$24.3 million as of September 30, 2011 and \$41.8 million as of December 31, 2010. These letters of credit and bonds were issued primarily in connection with insurance requirements, special real estate assessments and construction obligations.

NOTE 6 INCOME TAXES

The Predecessor elected to be taxed as a REIT under sections 856-860 of the Internal Revenue Code, commencing with the taxable year beginning January 1, 1993. We elected to be taxed as a REIT commencing with the taxable year beginning July 1, 2010, the date of incorporation of New GGP. We intend to maintain REIT status. To qualify as a REIT, the Company must meet a number of organizational and operational requirements, including requirements to distribute at least 90% of our ordinary taxable income and to either distribute capital gains to stockholders, or pay corporate income tax on the undistributed capital gains. In addition, the Company is required to meet certain asset and income tests.

As a REIT, we will generally not be subject to corporate level Federal income tax on taxable income we distribute currently to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to Federal income taxes at regular corporate rates (including any applicable alternative minimum tax) and may not be able to qualify as a REIT for four subsequent taxable years. Even if we qualify for taxation as a REIT, we may be subject to certain state and local taxes on our income or property, and to Federal income and excise taxes on our undistributed taxable income. Generally, we are currently open to audit by the Internal Revenue Service for the years ending December 31, 2007 through 2010 and are open to audit by state taxing authorities for years ending December 31, 2006 through 2010. Two of the Predecessor's taxable REIT subsidiaries distributed as part of HHC were subject to IRS audit for the years ended December 31, 2007 and 2008. On February 9, 2011, the two taxable REIT subsidiaries received statutory notices of deficiency (90-day letters) seeking \$144.1 million in additional tax. The two taxable REIT subsidiaries filed petitions in the U.S. Tax Court on May 6, 2011 and the government filed answers on July 6, 2011. It is the Predecessor's position that the tax law in question has been properly applied and reflected in the 2007 and 2008 returns for these two taxable REIT subsidiaries. However, as the result of the IRS' position, the Predecessor previously provided appropriate levels for the additional taxes sought by the IRS, through its uncertain tax position liability or deferred tax liabilities. Although the Predecessor believes the tax returns are correct, the final determination of tax examinations and any related litigation could be different than what was reported on the returns. In the opinion of management, the Predecessor has made adequate tax provisions for the years subject to examination.

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

Based on our assessment of the expected outcome of examinations that are in process or may commence, or as a result of the expiration of the statute of limitations for specific jurisdictions, we do not expect that the related unrecognized tax benefits, excluding accrued interest, for tax positions taken regarding previously filed tax returns will materially change from those recorded at December 31, 2010 during the next twelve months.

NOTE 7 STOCK-BASED COMPENSATION PLANS

The General Growth Properties, Inc. 2010 Equity Plan (the Equity Plan) provides for grants of nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock, and other stock-based awards and performance-based compensation. Stock-based compensation expense consists of costs associated with the Equity Plan and threshold-vesting stock options pursuant to the Plan on the Effective Date. Stock-based compensation expense was \$5.2 million for the three months ended September 30, 2011, \$14.3 million for the nine months ended September 30, 2011, \$2.6 million for the three months ended September 30, 2010 and \$9.7 million for the nine months ended September 30, 2010.

During the nine months ended September 30, 2011 (pursuant to the Equity Plan), GGP granted 8,262,716 options to certain senior executives and other essential employees. During the nine months ended September

NOTE 9 COMMITMENTS AND CONTINGENCIES

In the normal course of business, from time to time, we are involved in legal proceedings relating to the ownership and operations of our properties. In management's opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a material adverse effect on our consolidated financial position, results of operations or liquidity.

We lease land or buildings at certain properties from third parties. The leases generally provide us with a right of first refusal in the event of a proposed sale of the property by the landlord. Rental payments are expensed as incurred and have, to the extent applicable, been straight-lined over the term of the lease. The following is a summary of our contractual rental expense as presented in our Consolidated Statements of Income and Comprehensive Income:

NOTE 10 RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

As of January 1, 2011, we were required to separately disclose purchases, sales, issuances and settlements on a gross basis in the reconciliation of recurring Level 3 fair value measurements. This guidance did not have a material effect on our financial statements.

As of January 1, 2011, public companies that enter into a business combination are required to disclose revenue and earnings of the combined entity as though the business combination that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. In addition, supplemental pro forma disclosures are expanded. If we enter into a qualifying business combination, we will comply with the disclosure requirements of this guidance.

As of January 1, 2012, guidance on how to measure fair value and on what disclosures to provide about fair value measurements will be converged with international standards. We do not expect the adoption will have a material effect on our financial statements.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

All references to numbered Notes are to specific footnotes to our Consolidated Financial Statements included in this Quarterly Report and which descriptions are incorporated into the applicable response by reference. The following discussion should be read in conjunction with such Consolidated Financial Statements and related Notes. Capitalized terms used, but not defined, in this Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") have the same meanings as in such Notes.

Forward-looking information

We may make forward-looking statements in this Quarterly Report and in other reports that we file with the SEC. In addition, our senior management may make forward-looking statements orally to analysts, investors, creditors, the media and others.

Forward-looking statements include:

- Descriptions of plans or objectives for future operations
- Projections of our revenues, net operating income, core net operating income, earnings per share, Funds From Operations ("FFO"), capital expenditures, income tax and other contingent liabilities, dividends, leverage, capital structure or other financial items
- Forecasts of our future economic performance
- Our intention to distribute the common stock of Rouse Properties, Inc. ("Rouse Properties") to our stockholders
- Descriptions of assumptions underlying or relating to any of the foregoing

Forward-looking statements discuss matters that are not historical facts. Because they discuss future events or conditions, forward-looking statements often include words such as anticipate, believe, estimate, expect, intend, plan, project, target, can, could, may, similar expressions. Forward-looking statements should not be unduly relied upon. They give our expectations about the future and are not guarantees. Forward-looking statements speak only as of the date they are made and we might not update them to reflect changes that occur after the date they are made.

There are several factors, many beyond our control, which could cause results to differ materially from our expectations, some of which are described in Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010 (our "Annual Report"). These factors are incorporated herein by reference. Any factor could by itself, or together with one or more other factors, adversely affect our business, results of operations or financial condition. There are also other factors that we have not described in this Quarterly Report or in our Annual Report that could cause results to differ from our expectations.

Overview - Introduction

As of September 30, 2011, we are the owner, either entirely or with joint venture partners, of 167 regional malls in 43 states (excluding properties held for sale). Our current business plan is to focus our efforts on the continued operation of high quality retail shopping centers while we continue to divest non-core assets and businesses as well as certain non-performing retail assets and select development projects. Our capital plan is to obtain the appropriate leverage for the Company as a whole through non-recourse financing for individual assets.

On August 2, 2011, we announced that our Board of Directors approved a plan to spin-off a 30-mall wholly-owned portfolio of class B properties, totaling 21 million square feet, to holders of GGP common stock in the form of a special dividend. The dividend is expected to be comprised of common stock in Rouse Properties, a recently formed company to which GGP plans to transfer the portfolio. This distribution is expected to be made on a pro rata basis to holders of GGP common stock as of the dividend record date. Rouse Properties is expected to qualify as a REIT and be listed on the New York Stock Exchange. This special dividend is anticipated to be declared during the fourth quarter of 2011; however, it remains subject to the Securities and Exchange Commission's review and approval of Rouse Properties' Form 10 registration statement, as well as the satisfaction of a number of other conditions, including obtaining sufficient financing. As such, we cannot be certain that this distribution will proceed, or proceed in the manner or the amount as currently anticipated. These properties are presented as part of continuing operations and will be reclassified to discontinued operations when the spin-off is completed.

Table of Contents

The majority of the income from our properties is derived from rents received through long-term leases with retail tenants. These long-term leases generally require the tenants to pay base rent which is a fixed amount specified in the lease. The base rent is often subject to scheduled increases during the term of the lease. Another component of income is overage rent. Overage rent is paid by a tenant when its sales exceed an agreed upon minimum amount. Overage rent is calculated by multiplying the tenant's sales in excess of the minimum amount by a percentage defined in the lease, the majority of which is typically earned in the fourth quarter. Our leases include both a base rent component and a component which requires tenants to pay amounts related to all, or substantially all, of their share of real estate taxes and certain property operating expenses, including common area maintenance and insurance. The revenue earned attributable to real estate tax and operating expense recoveries are recorded as tenant recoveries. We generally prefer to enter into percent-in-lieu leases rather than agree to reductions in or abatements of fixed rent amounts because by temporarily accepting a reduced rent calculated based on a percentage of a tenant's sales, our rental revenues will increase as the tenant's business improves. In addition, we believe that these concessions help to prevent tenants from vacating a lease, thereby maintaining occupancy. Revenues from percent-in-lieu leases represent approximately 2% of our total revenues. As retail sales continue to improve, we expect to enter into fewer percent-in-lieu leases and other rent relief agreements.

We seek to increase long-term NOI growth through proactive management and leasing of our retail shopping centers. Our management strategy includes strategic reinvestment in our properties, controlled operating expenditures and enhancement of the customer experience. Our leasing strategy is to identify and provide the right stores and the appropriate merchandise for each of our retail operating centers.

We believe that the most significant operating factor affecting incremental cash flow and NOI is increased rents earned from tenants at our properties. These rental revenue increases are primarily achieved by:

- renewing expiring leases and re-leasing existing space at rates higher than expiring or existing rates;
- increasing occupancy at the properties so that more space is generating rent; and
- increased tenant sales in which we participate through overage rent.

The following table summarizes selected operating statistics for our consolidated regional malls:

	September 30, 2011	September 30, 2010	% Change
Rents per square foot (1)	\$ 61.28	\$ 59.82	2.44%
Percentage Leased (2)	91.60%	91.40%	0.22%
Tenant Sales (3)	\$ 453	\$ 421	7.60%

(1) Weighted average rent of mall stores less than 10,000 square feet as of September 30, 2011, which represents approximately 90% of our total square footage. Rent is presented on a cash basis and consists of minimum rent, common area costs and real estate taxes and includes any tenant concessions that may have been granted.

(2) Represents contractual obligations for space in regional malls or predominately retail centers and excludes traditional anchors.

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

(3) Comparative rolling twelve month tenant sales for mall stores less than 10,000 square feet, which represents 90% of our total square footage.

Non-GAAP Financial Measures

Real Estate Net Operating Income and Core Net Operating Income

We present NOI and Core NOI, as defined below, in this Quarterly Report as supplemental measures of our performance that are not required by, or presented in accordance with GAAP. We believe that NOI and Core NOI are useful supplemental measures of our operating performance. NOI is defined as income from property operations after operating expenses have been deducted, but prior to deducting depreciation, financing, administrative and income tax expenses. Core NOI is defined as NOI excluding straight-line rent, amortization of above and below-market tenant leases and amortization of above and below market ground rent expense. Other real estate companies may use different methodologies for calculating NOI and Core NOI, depreciation and accordingly, our NOI and Core NOI may not be comparable to other real estate companies.

Because NOI excludes general and administrative expenses, interest expense, impairment or other non-recoverable development costs, depreciation and amortization, gains and losses from property dispositions, allocations to noncontrolling interests, reorganization items, strategic initiatives, provision for income taxes, discontinued operations and extraordinary items and Core NOI excludes these costs and straight-line rent and intangible asset and liability amortization resulting from acquisition accounting, we believe that NOI and Core NOI provide performance measures that, when compared year over year, reflect the revenues and expenses directly associated with owning and operating regional shopping malls and the impact on operations from trends in occupancy rates, rental rates and operating costs. These measures thereby provide an operating perspective not immediately apparent from GAAP operating or net income. We use NOI and Core NOI to evaluate our operating performance on a property-by-property basis because NOI and Core NOI allow us to evaluate the impact that factors such as lease structure, lease rates and tenant base, which vary by property, have on our operating results, gross margins and investment returns.

In addition, management believes that NOI and Core NOI provide useful information to the investment community about our operating performance. However, due to the exclusions noted above, NOI and Core NOI should only be used as supplemental measures of our financial performance and not as an alternative to GAAP operating income (loss) or net income (loss).

Basis of Presentation

The Company emerged from Chapter 11 on November 9, 2010, which we refer to as the Effective Date. The structure of the Plan Sponsors investments triggered the application of the acquisition method of accounting. The acquisition method of accounting was applied at the Effective Date and, therefore, the Consolidated Balance Sheets at September 30, 2011 and December 31, 2010, the Consolidated Statement of Income and Comprehensive Income for the three and nine months ended September 30, 2011, and the Consolidated Statement of Cash Flows and the Consolidated Statement of Equity for the nine months ended September 30, 2011 reflect the revaluation of the Predecessor's assets and liabilities to fair value as of the Effective Date. Certain elements of our financial statements were significantly changed by these adjustments, such as depreciation which is calculated on revalued property and equipment and amortization of above and below market leases and other intangibles is also calculated on revalued assets and liabilities. The results for the Successor and Predecessor are based on different bases of accounting. Due to the increased depreciation in operating expenses and the net decrease of revenues due to the amortization of above and below market leases and straight-line rent, certain line items of the Predecessor's and Successor's statements of operations are not directly comparable.

Tenant recoveries increased \$5.2 million for the three months ended September 30, 2011 primarily due to a favorable settlement in the current year of a prior year real estate tax matter.

Overage rents increased \$4.3 million for the three months ended September 30, 2011 primarily due to increased tenant sales in 2011.

Property maintenance costs increased \$1.1 million for the three months ended September 30, 2011 primarily due to increased spending on general mall upkeep. Maintenance spending was depressed in 2010 due to operating the Company in bankruptcy.

Other property operating costs increased by \$13.3 million for the three months ended September 30, 2011 primarily due to a \$7.5 million favorable adjustment in 2010 related to the final settlements of the termination of utility contracts that were subject to compromise and a \$2.2 million increase in electric expenses related to higher temperatures compared to the prior year.

The provision for doubtful accounts decreased \$2.9 million for the three months ended September 30, 2011 primarily due to improved collections of outstanding accounts receivable in the third quarter as well as higher tenant bankruptcies and weaker economic conditions in 2010.

Property management and other costs increased \$8.1 million for the three months ended September 30, 2011 primarily due to a \$4.0 million increase in professional services due to an increase in temporary staff and a \$2.8 million increase in severance resulting from a reduction in workforce.

General and administrative expenses increased by \$7.9 million for the three months ended September 30, 2011 primarily due to a \$3.1 million increase in external fees related to the anticipated spin-off of Rouse Properties and a \$3.7 million increase in non-cash stock based compensation.

Based on the results of the Predecessor's evaluations for impairment (Note 1), we recognized impairment charges of \$4.5 million for the three months ended September 30, 2010 related to a property. There were no impairments for the three months ended September 30, 2011.

Depreciation and amortization increased \$87.4 million for the three months ended September 30, 2011 primarily due to the impact of the application of the acquisition method of accounting in the fourth quarter of 2010.

The following are explanations for significant changes in line items reported below operating income:

Interest expense decreased \$170.3 million for the three months ended September 30, 2011 primarily due to the following:

- \$82.6 million decrease in interest expense resulting from higher default interest in 2010;
- \$63.3 million decrease in interest expense resulting from extinguished debt in 2010;

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

- \$18.6 million decrease in amortization of debt market rate write-offs compared to 2010;
- \$2.6 million decrease in debt market rate write-offs, primarily due to the refinancing of properties during the period prior to their expected maturity date;
- \$8.9 million decrease in debt extinguishment expenses; and
- \$5.7 million increase in interest expense on existing debt.

During the three months ended September 30, 2011, we recognized an adjustment of \$337.8 million related to the change in the fair value of the warrant liability which was primarily due to a decrease in the Company's stock price partially offset by an increase in our estimate of implied volatility derived from the market prices of publicly traded options.

The (provision for) benefit from income taxes increased \$7.8 million for the three months ended September 30, 2011 primarily due to federal income taxes related to our management company.

Reorganization items under the bankruptcy filings are expense or income items that were incurred or realized by the Debtors as a result of the Chapter 11 Cases. These items include professional fees and similar types of expenses incurred that are directly related to the bankruptcy filings, gains or losses resulting from activities of the reorganization process, including gains related to recording the mortgage debt at fair value upon emergence from bankruptcy and interest earned on cash accumulated by the Debtors. Bankruptcy-related items incurred after the Effective Date are reported within general and administrative expenses.

As described in Notes 1 and 3 to the consolidated financial statements, the operations of our properties sold in 2011 and 2010, certain Special Consideration Properties, properties transferred and properties held for

Overage rents increased \$6.6 million for the nine months ended September 30, 2011 primarily due to increased tenant sales in 2011.

Other revenue, including noncontrolling interests decreased \$2.2 million primarily due to a decrease in marketing revenue and a sale of a land parcel in 2010.

Real estate taxes increased \$3.4 million for the nine months ended September 30, 2011 primarily due to a favorable real estate tax settlement in 2010.

Property maintenance costs increased \$5.0 million for the nine months ended September 30, 2011 primarily due to increased spending on mall upkeep, including equipment and supplies. Maintenance spending was depressed in 2010 due to operating the Company in bankruptcy.

Marketing expense increased \$1.7 million for the nine months ended September 30, 2011 primarily due an increased marketing efforts related to internal, external and national advertising.

Other property operating costs increased by \$10.1 million for the nine months ended September 30, 2011 primarily due to a \$7.6 million favorable adjustment in 2010 related to the final settlements of the termination of utility

contracts that were subject to compromise and a \$2.7 million increase in electric expenses related to higher third quarter temperatures compared to the prior year.

The provision for doubtful accounts decreased \$9.9 million for the nine months ended September 30, 2011 primarily due to improved collections of outstanding accounts receivable in the nine months ended September 30, 2011 in addition to the higher allowances in the same period of 2010 related to tenant bankruptcies and weaker economic conditions.

Management fees and other corporate revenues decreased \$4.3 million for the nine months ended September 30, 2011 due to a \$3.1 million decrease in management fees and lease fees resulting from the sale of our third-party management business in July 2010. In addition, lease fees and development fees from our joint ventures decreased approximately \$1.1 million for the nine months ended September 30, 2011 due to lower fees earned from two joint venture properties as development projects were completed.

Property management and other costs increased \$19.2 million for the nine months ended September 30, 2011 primarily due to a \$7.9 million increase in incentive compensation, an \$8.8 million increase in severance costs resulting from a reduction in workforce and a \$3.4 million increase in building rent for our home office, which we owned in the prior year.

General and administrative expenses decreased by \$2.2 million for the nine months ended September 30, 2011 primarily due to the reversal of previously accrued bankruptcy costs and gains on settlements of \$14.7 million, which were offset by the following:

- \$9.9 million increase in stock based compensation due to increased executive stock grants; and
- \$3.1 million increase in external fees related to the anticipated spin-off of the Rouse Properties.

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

Based on the results of the Predecessor's evaluations for impairment (Note 1), we recognized impairment charges of \$15.6 million for the nine months ended September 30, 2010 related to two properties. There were no impairments for the nine months ended September 30, 2011.

Depreciation and amortization decreased \$255.3 million for the nine months ended September 30, 2011 primarily due to the impact of the application of the acquisition method of accounting in the fourth quarter of 2010.

The following are explanations for significant changes in line items reported below operating income:

Interest expense decreased \$329.5 million for the nine months ended September 30, 2011 primarily due to the following:

- \$189.6 million decrease in interest expense resulting from extinguished debt in 2010;
- \$46.8 million decrease in debt market rate adjustments, primarily due to the refinancing of properties during the period prior to their expected maturity date;
- \$47.5 million decrease in amortization of debt market rate write-offs compared to 2010;
- \$23.8 million decrease in interest expense resulting from higher default interest in 2010; and
- \$14.4 million decrease in interest expense on existing debt due to a decrease in average debt outstanding as well as a lower weighted average interest rate.

Table of Contents

- \$7.4 million decrease in debt extinguishment expenses.

During the nine months ended September 30, 2011, we recognized an adjustment of \$319.5 million related to the change in the fair value of the warrant liability which was primarily due to a decrease of the Company's stock price partially offset by an increase in our estimate of implied volatility derived from the market price of publicly traded options.

The provision for income taxes increased \$6.8 million for the nine months ended September 30, 2011 primarily due to federal income taxes related to our management company.

The decrease in equity in income (loss) of Unconsolidated Real Estate Affiliates for the nine months ended September 30, 2011 was primarily due to an increase in depreciation and amortization of the step-up in basis of our investment in and loans to / from Unconsolidated Real Estate Affiliates due to the application of acquisition accounting in the fourth quarter of 2010. In addition, the decrease is partially due to our investment in Aliance, in which we recorded a \$9.7 million gain in the nine months ended September 30, 2010 as a result of the Aliance IPO (Note 4).

Reorganization items under the bankruptcy filings are expense or income items that were incurred or realized by the Debtors as a result of the Chapter 11 Cases. These items include professional fees and similar types of expenses incurred that are directly related to the bankruptcy filings, gains or losses resulting from activities of the reorganization process, including gains related to recording the mortgage debt at fair value upon emergence from bankruptcy and interest earned on cash accumulated by the Debtors. Bankruptcy-related items incurred after the Effective Date are reported within general and administrative expenses.

As described in Notes 1 and 3 to the consolidated financial statements, the operations of our properties sold in 2011 and 2010, certain Special Consideration Properties, properties transferred and properties held for disposition are classified as discontinued operations for all periods presented. In addition, we sold 14 of our consolidated properties during the first nine months of 2011 which were also reclassified to discontinued operations during the current period.

Liquidity and Capital Resources

Our primary sources of cash include operating cash flow and borrowings under our revolving credit facility. These are our primary source to pay operating expenses, service debt, reinvest in properties, develop and redevelop properties and pay dividends. Since emergence, we have executed a long-term refinancing strategy of extending the average debt maturity profile while reducing interest rates as we move towards a debt structure that is primarily individual property non-recourse debt.

Since September 30, 2011 we have refinanced the debt on four shopping malls representing \$966.0 million of new mortgages. These four new fixed-rate mortgages have a weighted average term of 9.1 years and a weighted average interest rate of 4.63%, as compared to the 5.66% rate on the prior maturing loans. After adjusting for GGP's ownership interest, the Company's pro-rata share of the new four non-recourse mortgages totals \$483.0 million. All other fourth quarter 2011 maturities are in the process of being refinanced. From January 1, 2011 through October 31, 2011, GGP has completed nearly \$3.9 billion (\$3.1 billion at our ownership share) of new consolidated and unconsolidated property level

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

non-recourse financings extending the weighted average term of this debt approximately seven years and the reduction in the weighted average interest rate from 5.81% to 5.10%. We will continue to refinance debt in order to, in part, maintain a relatively even percentage of our debt maturity in any given year.

As of September 30, 2011, our proportionate share of our total debt aggregated \$19.92 billion consisting of our consolidated debt, net of noncontrolling interest, of \$17.15 billion combined with our share of the debt of our Unconsolidated Real Estate Affiliates of approximately \$2.77 billion.

The following table illustrates the scheduled loan maturities of our mortgages, notes and loans payable for our consolidated debt and unconsolidated debt at our proportionate share at September 30, 2011. The table excludes Special Consideration Properties, debt included in liabilities on assets held for disposition, special improvement districts, and other debt on properties expected to be transferred back to the lender. Also, \$206.2 million of callable subordinated notes are included in the \$9.06 billion of consolidated debt due subsequent to 2015 as the notes mature in 2036. Although the Trust may exercise its right to redeem the notes prior to 2036, we do not

Table of Contents

expect the notes to be redeemed prior to maturity. Of the \$9.06 billion of consolidated debt that matures in the subsequent period, \$3.18 billion matures in 2016 and \$2.25 billion matures in 2017.

We believe that we currently have sufficient liquidity in the form of \$492.7 million of unrestricted cash and \$750.0 million of available credit under the Facility, as well as anticipated cash provided by operations to satisfy all of our commitments. We generally believe that we will be able to extend the maturity date or refinance the consolidated debt that is scheduled to mature in 2011 (excluding the Special Consideration Properties). We also believe that the joint venture will be able to refinance the debt of our Unconsolidated Real Estate Affiliates that mature in 2011, except for Riverchase Galleria, Pinnacle and Silver City as these properties may be deeded back to the lender for full satisfaction of the loan in the event that we are not able to refinance or modify the loans; however, there can be no assurance that we will be able to refinance or restructure such debt on acceptable terms or otherwise, or that joint venture operations or contributions by us and/or our partners will be sufficient to repay such loans.

We repaid \$338.8 million of corporate recourse debt during the nine months ended September 30, 2011. Following the repayment of these obligations, our only outstanding corporate debt is \$206.2 million of Junior Subordinated Notes which are due in 2036 and \$1.65 billion of bonds with maturity dates from 2012 through 2015.

Development

We, together with our joint venture partners, are currently redeveloping several consolidated and unconsolidated properties, primarily Fashion Place and Christiana Mall. The total amount spent at our pro rata share was \$117.4 million to date. The costs to complete these redevelopment projects with scheduled completion dates through the end of 2012 are expected to be approximately \$60.1 million at our pro rata share.

Dividend

On November 7, 2011, the Board of Directors of the Company declared a quarterly common share dividend of \$0.10 per share to shareholders of record at the close of business on December 30, 2011, payable on January 13, 2012.

Share Repurchase

On May 4, 2011, our Board of Directors approved and we executed privately negotiated transactions with two financial institutions in which we agreed to purchase 30,585,957 shares of our common stock for \$15.95 per share, which represents a 1% discount to the last reported price for our common stock on the New York Stock Exchange on the previous trading day. On May 9, 2011, we paid a total purchase price of \$487.8 million for the common stock.

On August 8, 2011, the Company's Board of Directors authorized the Company to repurchase up to \$250 million of its common stock. During the third quarter, we have purchased 4,320,112 shares at a weighted average price of \$12.77 per share for a total of \$55.2 million.

Summary of Cash Flows

Cash Flows from Operating Activities

Net cash provided by operating activities was \$395.8 million for the nine months ended September 30, 2011 and \$545.8 million for the nine months ended September 30, 2010. Significant components of net cash from operating activities include:

- The 2011 fair value adjustment of the outstanding warrants, \$(319.5) million;

Table of Contents

- The 2011 decrease in accounts payable and accrued expenses of \$(123.0) million is primarily attributable to the \$(115.0) million payment of the KEIP (Note1) during the first quarter, as well as the payment of accrued bankruptcy-related claims and restructuring costs;
- The 2010 increase in accounts payable and accrued expenses of \$177.8 million is primarily attributable to an increase in accrued interest for unsecured debt;
- 2010 reorganization costs of \$11.1 million, net; and
- 2010 net cash flows from our master planned communities and condominium project of \$(27.5) million.

Cash Flows from Investing Activities

Net cash provided by (used in) investing activities was \$246.5 million for the nine months ended September 30, 2011 and \$(119.8) million for the nine months ended September 30, 2010. The net cash from investing activities primarily includes 2011 proceeds from the sales of investment properties of \$446.8 million. These proceeds resulted from the sale of the following investment properties: Arizona Center, Canyon Point, Anaheim Crossing, Vista Commons, Riverlands, Twin Falls Crossing, Chapel Hills, Gateway Crossing, Yellowstone Square, Riverside Plaza, Bailey Hills Village, Westlake Office and Garage, and also included net proceeds from our property and cash exchange with a third party. These proceeds were partially offset by 2011 acquisition costs of \$180.5 million. The acquisition costs were primarily related to two anchor acquisitions and redevelopment projects at existing properties.

Cash Flows from Financing Activities

Net cash used in financing activities was \$(1.17) billion for the nine months ended September 30, 2011 and \$(450.4) million for the nine months ended September 30, 2010. Significant components of net cash from financing activities include:

- 2011 proceeds from the refinancing and issuance of mortgages, notes and loans payable of \$2.15 billion;
- 2011 principal payments on mortgages, notes and loans payable of \$(2.60) billion;
- The 2011 purchase and cancellation of common stock of \$(543.0) million;
- 2011 cash distributions paid to common stockholders of \$(145.1) million;
- 2010 proceeds from the issuance of the DIP facility, \$400.0 million; and
- 2010 finance costs related to emerged entities of \$(138.5) million.

In the fourth quarter of 2010, we declared a dividend of \$0.38 per share of common stock (to satisfy REIT distribution requirements for 2010) payable in a combination of cash and common stock, provided that the cash component of the dividend could not exceed 10% in the aggregate. As a result of shareholder elections, on January 27, 2011, we paid approximately \$35.8 million in cash and issued approximately 22.3 million shares of common stock.

Edgar Filing: General Growth Properties, Inc. - Form 10-Q

In the first quarter of 2011, we declared a dividend of \$0.10 per share of common stock (to satisfy REIT distribution requirements for 2011) payable in a combination of cash and common stock, provided that the cash component of the dividend could not exceed 10% in the aggregate. As a result of shareholder elections, on April 29, 2011, we paid approximately \$50.6 million in cash and issued approximately 2.7 million shares of common stock through our dividend reinvestment plan.

In the second quarter of 2011, we declared a dividend of \$0.10 per share of common stock (to satisfy REIT distribution requirements for 2011) payable in a combination of cash and common stock, provided that the cash component of the dividend could not exceed 10% in the aggregate. As a result of shareholder elections, on July 29, 2011, we paid approximately \$58.7 million in cash and issued approximately 2.1 million shares of common stock through our dividend reinvestment plan.

In the third quarter of 2011, we declared a dividend of \$0.10 per share of common stock (to satisfy REIT distribution requirements for 2011) payable in a combination of cash and common stock, provided that the cash component of the dividend could not exceed 10% in the aggregate. As a result of shareholder elections, on October 31, 2011, we paid approximately \$58.6 million in cash and issued approximately 2.4 million shares of common stock through our dividend reinvestment plan.

Table of Contents

In the fourth quarter of 2009, we declared a dividend of \$0.19 per share of common stock (to satisfy REIT distribution requirements for 2009) payable in a combination of cash and common stock, provided that the cash component of the dividend could not exceed 10% in the aggregate. As a result of shareholder elections, on January 28, 2010, we paid approximately \$6.0 million in cash and issued approximately 4.9 million shares of common stock.

A \$6.8 million cash distribution was paid to holders of common units during the nine months ended September 30, 2011, and there were no distributions made to the holders of common units during the nine months ended September 30, 2010.

Seasonality

Although we have a year-long temporary leasing program, occupancies for short-term tenants and, therefore, rental income recognized, are higher during the second half of the year. In addition, the majority of our tenants have December or January lease years for purposes of calculating annual average rent amounts. Accordingly, average rent thresholds are most commonly achieved in the fourth quarter. As a result, revenue production is generally highest in the fourth quarter of each year.

Critical Accounting Policies

Critical accounting policies are those that are both significant to the overall presentation of our financial condition and results of operations and require management to make difficult, complex or subjective judgments. Our critical accounting policies as discussed in our Annual Report have not changed during 2011, and such policies, and the discussion of such policies, are incorporated herein by reference.

REIT Requirements

In order to remain qualified as a REIT for federal income tax purposes, we must distribute or pay tax on 100% of our capital gains and distribute at least 90% of our ordinary taxable income to stockholders. See Note 6 to the consolidated financial statements for more detail on our ability to maintain our REIT status.

Recently Issued Accounting Pronouncements

See Note 10 to the consolidated financial statements.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no significant changes in the market risks described in our Annual Report.

ITEM 4 CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934, as amended, (the Exchange Act)). Based on that evaluation, the CEO and the CFO have concluded that our disclosure controls and procedures are effective.

Internal Controls over Financial Reporting

There have been no changes in our internal controls during our most recently completed fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1 LEGAL PROCEEDINGS

Other than the appeals related to default interest on the Homart Note and the 2006 Credit Facility (Note 1), neither the Company nor any of the Unconsolidated Real Estate Affiliates is currently involved in any material pending legal proceedings nor, to our knowledge, is any material legal proceeding currently threatened against the Company or any of the Unconsolidated Real Estate Affiliates.
