Item 2.05 Costs Associated with Exit or Disposal Activities.

On April 30, 2013, Ecolab announced that it plans to undertake restructuring and other cost-saving actions to realize its Champion acquisition-related cost synergies as well as streamline and strengthen the Company's position in the fast-growing energy market. It is anticipated that the restructuring actions will be completed by the end of 2015 and will result in total pre-tax charges of approximately \$80 million (\$55 million after tax), with approximately \$50 million (\$30 million after tax) in 2013. Approximately \$45 million of the total restructuring charges are expected to be related to a reduction of the company's global workforce in connection with the Champion integration. The remaining expected charges are related to the optimization of the company's supply chain, including the planned reduction of plant and distribution center locations and the rationalization of sales offices and other redundant facilities.
