Grupo Radio Centro Reports Results for Third Quarter and First Nine Months of 2008

Mexico City, October 27, 2008 - Grupo Radio Centro, S.A.B. de C.V. (NYSE: RC, BMV: RCENTRO-A) (the "Company"), one of Mexico's leading radio broadcasting companies, announced today its results of operation for the third quarter and nine months ended September 30, 2008. All figures were prepared in accordance with the Mexican Financial Reporting Standards ("MFRS") issued by the Mexican Board for Research and Development of Financial Information Standards.

Third Quarter Results

Broadcasting revenue for the third quarter of 2008 was Ps. 201,892,000, representing an increase of 15.1% compared to the Ps. 175,460,000 reported in the third quarter of 2007. This increase was mainly attributable to higher advertising expenditures by the Company's clients, who purchased more airtime in the third quarter of 2008 compared to the same period of 2007. This was a result of a highly competitive environment, in which the Company sought to gain market share by offering attractive sales packages as well as increasing the size of its sales force.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) for the third quarter of 2008 were Ps. 114,671,000, representing an increase of 11.9% compared to the Ps. 102,491,000 reported in the third quarter of 2007. This increase was primarily due to higher sales commissions paid to the Company's sales force as a result of the increase in broadcasting revenue, as well as higher expenses related to the Company's advertising and market research during the third quarter of 2008 compared to the same period of 2007.

For the third quarter of 2008, the Company reported broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) of Ps. 87,221,000, a 19.5% increase compared to the Ps. 72,969,000 reported in the third quarter of 2007. This increase in broadcasting income was mainly attributable to the increase in broadcasting revenue described above.

Depreciation and amortization expenses for the third quarter of 2008 were Ps. 8,044,000, a 1.7% decrease compared to the Ps. 8,187,000 reported in the third quarter of 2007. Depreciation and amortization expenses were lower in the third quarter of 2008 due to the Company no longer recording depreciation on certain assets whose useful lives ended after the third quarter of 2007.

The Company's corporate, general and administrative expenses were Ps. 2,700,000 in the third quarter of 2008, compared to the Ps. 2,712,000 reported in the third quarter of 2007.

The Company reported operating income of Ps. 76,477,000 in the third quarter of 2008, a 23.2% increase compared to the Ps. 62,070,000 in operating income reported in the third quarter of 2007. This increase was due to increased broadcasting revenue during the third quarter of 2008 compared to the third quarter of 2007, as described above.

Grupo Radio Centro, S.A.B. de C.V.
Third Quarter and Nine Months 2008 Results

During the third quarter of 2008, other expenses, net, were Ps. 14,896,000, a 28.8% increase compared to the Ps. 11,565,000 reported in the third quarter of 2007. This increase was mainly attributable to higher legal expenses during the third quarter of 2008 compared to the comparable period of 2007.

The Company's comprehensive financing cost for the third quarter of 2008 was Ps. 1,346,000, a decrease of 56.7% compared to the Ps. 3,105,000 reported in the third quarter of 2007. This decrease was mainly attributable to a change in MFRS for periods beginning in 2008, which did not require the Company to record gains and losses on net monetary position, as compared to the third quarter of 2007 when the Company reported a loss on net monetary position of Ps. 2,854,000.

For the third quarter of 2008, the Company reported income before taxes of Ps. 60,235,000, an increase of 27.1% compared to the Ps. 47,400,000 reported in the third quarter of 2007, primarily from the increase in broadcasting income during the third quarter of 2008, as described above.

The Company recorded income taxes of Ps. 17,413,000 in the third quarter of 2008, an increase of 17.5% compared to the Ps. 14,816,000 recorded in the third quarter of 2007. This increase was due to higher taxable income in the third quarter of 2008 compared to the comparable period in 2007.

As a result of the foregoing, the Company's net income for the third quarter of 2008 was Ps. 42,822,000, an increase of 31.4% compared to net income of Ps. 32,584,000 reported in the third quarter of 2007.

Nine Months Results

For the first nine months ended September 30, 2008, broadcasting revenue was Ps. 503,763,000, representing an 11.1% increase compared to the Ps. 453,583,000 reported in the same period of 2007. The increase in broadcasting revenue was mainly attributable to an increase in advertising expenditures by the Company's clients, who purchased more airtime during the first nine months of 2008 than the comparable period in 2007. This was the result of a highly competitive environment, in which the Company sought to gain market share by offering attractive sales packages as well as increasing the size of its sales force.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) for the first nine months of 2008 were Ps. 327,508,000, an increase of 3.6% compared to the Ps. 316,101,000 reported in the same period of 2007. This increase was primarily due to higher sales commissions to the Company's sales force, as well as higher expenses related to the Company's market research during 2008 compared to the same period of 2007.

Broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) for the first nine months of 2008 was Ps. 176,255,000, an increase of 28.2% compared to the Ps. 137,482,000 reported in the same period of 2007. This increase was mainly attributable to the increase in broadcasting revenue, as described above.

Third Quarter and Nine Months 2008 Results

Depreciation and amortization expenses for the first nine months of 2008 were Ps. 23,776,000, a decrease of 8.4% compared to the Ps. 25,967,000 reported in the same period of 2007. This decrease was due to the Company no longer recording depreciation on certain Company assets whose useful lives have ended.

The Company's corporate, general and administrative expenses for the first nine months of 2008 were Ps. 10,000,000, compared to the Ps. 9,985,000 reported in the same period of 2007.

As a result of the foregoing, the Company reported operating income of Ps. 142,479,000 for the first nine months of 2008, a 40.3% increase compared to the Ps. 101,530,000 reported in the same period of 2007.

Other expenses, net, for the first nine months of 2008 were Ps. 39,341,000, a 22.7% increase compared to the Ps. 32,063,000 reported in the same period of 2007. This increase was mainly attributable to higher legal expenses during 2008 compared to the same period of 2007.

The Company's comprehensive financing cost for the first nine months of 2008 was Ps. 5,853,000, a 13.2% increase compared to the Ps. 5,171,000 reported in the same period of 2007. This increase was mainly due to fees paid in connection with the amendment of the Company's credit facility. The increase in comprehensive financing cost was partially offset by the fact that the Company did not record a gain or loss on net monetary position due to a change in MFRS for periods beginning in 2008, as compared to a loss on net monetary position of Ps. 3,650,000 that the Company recorded during the first nine months of 2007.

For the first nine months of 2008, the Company reported income before taxes of Ps. 97,285,000, a 51.3% increase compared to the Ps. 64,296,000 reported in the same period of 2007, mainly due to the previously mentioned increase in broadcasting revenue.

The Company recorded income taxes of Ps. 28,213,000 for the first nine months of 2008, compared to Ps. 18,631,000 recorded in the same period of 2007, primarily due to higher taxable income.

As a result of the foregoing, the Company reported net income of Ps. 69,072,000 for the first nine months of 2008, an increase of 51.3% compared to net income of Ps. 45,665,000 reported for the same period of 2007.

Other Matters

On October 16, 2008, the Company entered into an agreement to extend the term of the Operating Agreement, dated as of September 7, 2004, between the Company and Comercializadora Siete, S.A. de C.V., under which the Company operates the radio station XHFO-FM. - (3) **Broadcasting revenue for a particular period includes (as a reclassification of interest income) interest earned on funds received by the Company pursuant to advance sales of commercial air time to the extent that the underlying funds were earned by the Company during the period in question. Advances from advertisers are recognized as broadcasting revenue only when the corresponding commercial air time has been transmitted.
