Acquisition of Assets – Purchase Price

Effective January 2, 2009, the Company purchased 80% of the issued and outstanding shares of common stock of all of the operating subsidiaries of DirecTECH Holding Company (DTHC) (an additional 29% of Multiband NC, Inc. (formerly Michigan MicroTECH (MMT)), 51% of which was previously purchased effective March 1, 2008 and 80% of Multiband NE, Inc.(NE), Multiband SW, Inc.(SW), Multiband EC Inc.(EC), Multiband MDU, Inc.(MBMDU), Multiband DV, Inc.(DV) and Multiband Security, Inc. (Security) (the “acquisition”). DTHC, a fulfillment agent for a national satellite television company, DirecTV, specializes in the providing of satellite TV to single family homes. The purpose of this acquisition was to increase the Company’s business of installing video services in single family homes (HSP segment). The purchase price totaled \$40,400. The \$40,400 consists of three parts; 1) \$500 in cash which was paid at the initial closing date of January 2, 2009 and in escrow as a deposit at December 31, 2008, 2) a non-interest bearing note of \$500 payable without interest as follows: \$250 on demand on or after April 1, 2009 and \$250 after the Company’s retention of senior financing, as defined, no later than August 31, 2009 and 3) a promissory note in the amount of \$39,400, due January 1, 2013, bearing interest at an annual rate of 8.25% (subject to adjustment in the event of a default), plus the remaining \$800 note payable from the purchase of 51% of NC. Subsequent to the closing, the Company and DTHC mutually agreed to offset the \$40,200 promissory note by the amount of \$5,844, for an offsetting receivable on Multiband’s books as of December 31, 2008. This reduced the amount of this promissory note to \$34,356. As part of the agreement, Multiband has until December 31, 2009 to purchase the remaining 20% of the issued and outstanding shares of common stock of all DTHC. The consideration for the 20% purchase will be \$10,000 of Multiband Series J Preferred Stock, whose issuance will require Multiband shareholder approval. The closing on the remaining 20% stock transaction is anticipated to occur on or before December 31, 2009. The contingent consideration related to the acquisition agreement requires a 20% cash payout on all earnings in 2009 until the remaining 20% of the Company is acquired.

Unaudited Proforma Combined Financial Information

The unaudited pro forma combined statement of operations set forth as below gives effect to the acquisition as if it had occurred on January 1, 2008. The pro forma adjustments reflecting the acquisition are based upon the purchase method of accounting and upon the assumptions set forth in the notes hereto. The unaudited proforma combined balance sheet as of December 31, 2008 gives effect to the acquisition as if it had occurred on December 31, 2008. The proforma combined financial statements are based upon the historical financial statements of the Company and the acquired entities and do not purport to project the future financial condition and results of operations after giving effect to the acquisition. The proforma information should be read in conjunction with the historical financial statements and accompanying notes of the Company and DTHC included in exhibit 99.1 and 99.2 of this filing.

Since the transaction was effective January 2, 2009, there is not a change in the June 30, 2009 balance sheet or statement of operations for the three and six months ended June 30, 2009 (filed in the Quarterly Report Form 10-Q for the quarter ended June 30, 2009).

NOTE 1 - Basis of Presentation

The Company applied SFAS No. 141(R) "Business Combinations" ("SFAS 141(R)") to evaluate the purchase price allocation based on the fair value of the assets acquired and liabilities assumed. The Company also applied Staff Position No. FSP FAS 141(R)-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies" ("FSP FAS 141 (R)-1") which amends the accounting in FAS 141(R) for assets and liabilities arising from contingencies in a business combination. FSP FAS 141(R)-1 requires that pre-acquisition contingencies be recognized at fair value, if fair value can be reasonably determined. If fair value cannot be reasonably determined, FSP FAS 141(R)-1 requires measurement based on the best estimate in accordance with SFAS No. 5, "Accounting for Contingencies." ("SFAS 5") FSP FAS 141(R)-1 is effective as of January 1, 2009 in connection with the adoption of FAS 141(R).

The Company applied SFAS No. 160 "Noncontrolling Interests in Consolidated Financial Statements" ("SFAS 160") for the presentation and accounting for the noncontrolling 20% interest at June 30, 2009. Multiband had previously gained control of NC with its purchase of 51% of NC in March 2008, SFAS 160 required Multiband to recognize the acquisition of additional 29% ownership interest in NC on January 2, 2009 as an equity transaction. The purchase price of \$1,660 increased the accumulated deficit and the transfer of \$2,054 of noncontrolling interest to controlling interest decreased the accumulated deficit. No increase to previously recorded goodwill or intangibles was recorded as part of this acquisition.

As it relates to the purchase of the remainder of the DTHC operating subsidiaries, SFAS 141(R) required the Company to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with certain exceptions. It also required the Company to recognize goodwill as of the acquisition date, measured using an income, market or cost approach, which in most types of business combinations will result in measuring goodwill as the excess of the fair value of consideration transferred plus the fair value of any noncontrolling interest in the acquiree at the acquisition date over the fair value of the identifiable net assets acquired or assumed. A qualitative and quantitative analysis of factors that make up recognized goodwill, such as DTHC's assets, liabilities and other contingent considerations, such as leases and other off-balance sheet commitments, follows. This analysis is preliminary while the Company is still in its one year measurement period.

FAIR VALUE OF CONTROLLING INTEREST	\$ 38,740

Noncontrolling Interest

The fair value of the intangible assets of \$27,634 and 20% noncontrolling interest of \$6,306 was obtained by management, using significant level 3 unobservable inputs, as defined in SFAS No. 157, "Fair Value Measurements" ("SFAS 157") including discount rates of 15%, a terminal value of \$28,200, and an applied discount of 30% for illiquidity and lack of control related to a minority interest. This fair value was accounted for as equity on Multiband's balance sheet pursuant to SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements" ("SFAS 160").

As previously mentioned herein, Multiband purchased 51% of NC effective March 1, 2008 and another 29% of NC as of January 2, 2009. The Company recorded \$2,819 of minority interest as of March 1, 2008. Earnings of \$652 were added to the minority interest for a book value as of December 31, 2008 of \$3,471. As of January 2, 2009, the

minority interest as of December 31, 2008 will be included as part of the fair value of the noncontrolling interest for the acquisition.

As part of the acquisition, the Company preliminarily assessed a \$5,040 contingent legal accrual related to an existing litigation. In connection with the purchase of the operating subsidiaries of DTHC, the Company has the right to offset 50% of certain claims against the note to DTHC once those claims are settled and paid. The Company has recorded a receivable of \$2,290 which represents an estimate of the amount that can be recovered from DTHC based on the current estimate of certain legal claims. The receivable is classified as long-term since management intends to offset the receivable with any balance remaining on the note payable to DTHC. At present, the litigation is proceeding through a discovery stage. While the parties have made some preliminary attempts to settle the matter there is no guarantee that the matter can be settled out of court. As a result there is no current timeline under which the amount of the aforementioned accrual can be finalized. The Company intends to adjust the purchase price allocation should more information become available as to the fair value of the legal contingency during the measurement period.

Multiband Corporation and Subsidiaries
Notes to the Unaudited Proforma Combined Financial Statements
December 31, 2008
(in thousands)

The Company acquired \$25,400 of intangible assets relating to contracts with DirecTV as well as right of entry contracts of \$2,234. At the time of the acquisition, the weighted average remaining life of the intangibles acquired was 2.57 years based on terms without renewals, with right of entry contracts average life of 5.44 years and contracts with DirecTV of 2.33 years. The weighted average remaining life of the intangibles acquired was 3.49 years assuming one year term renewals, with right of entry contracts average life of 5.44 years and contracts with DirecTV of 3.33 years. In May 2009, the Company signed a new contract with DirecTV. The Company capitalizes material costs incurred to renew or extend terms of intangible assets. No costs have been incurred to renew or extend the terms of intangible assets during the three and six months ended June 30, 2009. Goodwill and intangible assets acquired are not expected to be deductible for tax purposes

The contingent consideration related to the acquisition agreement requires a 20% cash payout on all earnings in 2009 until the remaining 20% of the Company is acquired. The Company estimated this consideration to be \$1,608 based on significant level 3 inputs as defined in SFAS 157 and the probability of adjusted cash flow. At June 30, 2009, the Company revised the fair value of the contingent consideration from \$1,608 to zero. The Company determined that the significant level 3 inputs previously used to determine the contingent consideration were incomplete. After further review, the Company determined that it was appropriate to define this change as a measurement period adjustment to the purchase price as a result of improved information regarding circumstances that existed as of the acquisition date.

There are no assets and liabilities arising from contingencies that were not accounted for previous to the acquisition date as part of the net value acquired. The fair value of legal contingencies recorded by DTHC as of December 31, 2008 was \$5.0 million based on management's estimate of fair value.

The Company evaluated the DTHC lease agreements for vehicles and office/warehouse space and noted no leases were above or below market.

The Company's report on Form 10-K for the year ended December 31, 2008 contained a preliminary estimated fair value of all the aforementioned assets and liabilities related to the purchase. At the time of the preliminary estimate DTHC had not completed its audit for the year ended December 31, 2008. Nor at this time had the Company completed its procedures to value and allocate the final purchase price to intangible and tangible assets acquired in the acquisition. The Company's subsequent receipt of final balance sheet information to the aforementioned Form 10-K filing necessitated a revision of the DTHC purchase price valuation. This revision is reflected in this footnote. The revision consists of reallocations of goodwill and other intangible assets related to the purchase. More specifically, goodwill assets were increased by \$14,400 and intangible assets were decreased by \$9,066 from the original estimate, due to the additional purchase of 29% of NC being treated as an equity transaction under SFAS 160 and therefore no additional assets (including goodwill) or liabilities were allocated for NC in the purchase price.
