EARNINGS RELEASE FOR THE QUARTER ENDED 31 DECEMBER, 2003 IN AUSTRALIAN DOLLARS

NEWS CORPORATION REPORTS SECOND QUARTER OPERATING
INCOME OF A\$1.1 BILLION ON REVENUES OF A\$7.9 BILLION

NET PROFIT BEFORE OTHER ITEMS OF A\$575; NET PROFIT
INCREASES 17% TO A\$501 MILLION

QUARTER HIGHLIGHTS

- o Strong revenue growth across all major cable channels substantially drives up Cable Network Programming operating income.
- o Television segment operating income up slightly on a US\$ basis as strong advertising demand for the broadcast network's sports schedule and STAR's growing profitability offset tough political advertising comparisons at the station group; Market share at stations group up nearly a full percentage point.
- o Filmed Entertainment operating income on a US\$ basis in line with a year ago as robust home entertainment sales of film and television titles match prior-year success of Ice Age.
- o All print businesses report higher earnings on a US\$ basis led by advertising and circulation revenue gains in U.K. and Australian newspapers, increased page volume at free-standing inserts and several leading titles at HarperCollins.
- o BSKyB's operating profit more than doubles on revenue growth of 17%, primarily from a 10% increase in the DTH subscriber base, now exceeding 7.2 million.
- o Completed acquisition of 34% interest in Hughes Electronics, including leading DTH provider DIRECTV.

SYDNEY, 12 February, 2004 - The News Corporation Limited (ASX: NCP, NCPDP) today reported second quarter consolidated revenues of A\$7.9 billion, a 6% decrease over the A\$8.4 billion in the prior year, and consolidated operating income of A\$1.1 billion, down 19% over the A\$1.3 billion a year ago. The year-on-year declines were primarily a result of the unfavourable impact of the strong Australian dollar. On a US\$ basis revenues increased 19% and operating income increased 4% driven by double-digit increases at the Cable Network Programming, Newspaper and Book Publishing segments.

Net profit for the fiscal second quarter was A\$501 million, an increase of A\$71 million over the A\$430 million reported in the second quarter a year ago. Net profit before other items was A\$575 million, in line with the A\$576 million reported in the prior year.

Commenting on the results, Chairman and Chief Executive Rupert Murdoch said:

"This past quarter saw the Company achieve significant operational and strategic gains. Operationally, we recorded our eighth consecutive quarter of operating income growth, led by double-digit gains at our cable networks, newspapers and book publishing segments, and strong performances from our filmed entertainment and television segments despite difficult

comparisons to prior year results. All of our key assets are performing well, including the television network, which after a difficult start to the broadcast season has once again reclaimed ratings momentum and is now strongly competitive in the key 18-49 demographic.

"Strategically, we have continued to expand our global distribution capabilities with the acquisition of our interest in DirecTV and the rapid

Edgar Filing: NEWS CORP LTD - Form 6-K

growth at SKY Italia. We are looking forward to the unique opportunities these businesses provide us as we position ourselves for continued strong growth in the years to come."

Management Review of Performance

The Statement of Financial Performance, Statement of Financial Position, Statement of Cash Flows and Supplemental Financial Data for the three and six months ended 31 December are attached. The following commentary is made in respect of those statements, including an analysis of certain information contained therein.

Net Profit Attributable to Members of the Parent Entity

The reported net profit attributable to members of the parent entity consisted of the following items:

	3 Months Ended 31 December,		6 Months Ended 31 December	
	2003	2002	2003	
	A\$ Millions (except per share amounts)			
Revenue	\$ 7,899	\$ 8,420	\$ 14,980	\$
Operating income	1,069	1,313	2,164	
Associated entities before other items	68	(69)	155	
Interest expense, net	(154)	(207)	(327)	
Exchangeable securities expense	(27)	(23)	(55)

Other	(46)	(38)	(81)	
Consolidated Operating Income	\$ 1,069	\$ 1,313	\$ 2,164	\$ 1,313

* New segment reflecting the results of SKY Italia, consolidated as of 1 May, 2003

Second quarter net earnings from associated entities before other items were A\$68 million versus losses of A\$69 million in the same period a year ago, primarily due to the absence of Stream's losses in the current year. In addition, contributions from BSKYB increased partly due to improved earnings resulting from a 10% increase in the DTH subscriber base, as well as earnings that were not reflected for a portion of the prior year's quarter. These favourable variances were partially offset by lower foreign currency gains at Sky Brasil. A detailed discussion of the components of associated entities earnings is provided later in the release.

Second quarter net profit before other items of A\$575 million (A\$0.107 per share) was in-line with the A\$576 million (A\$0.110 per share) in the prior year primarily due to lower consolidated operating income offset by the significant improvement in net earnings from associated entities.

The following commentary is discussed primarily in U.S. dollars

REVIEW OF OPERATING RESULTS

FILMED ENTERTAINMENT

The Filmed Entertainment segment reported second quarter operating income of

Edgar Filing: NEWS CORP LTD - Form 6-K

US\$253 million, in-line with the US\$255 million reported in the same period a year ago, which included the blockbuster worldwide home entertainment performances of Ice Age and Star Wars Episode II: Attack of the Clones. Current-year results primarily reflected strong contributions from several film and television home entertainment releases as well as pay-TV and free-TV contributions from catalog titles.

Very strong current-quarter film results were largely driven by the worldwide home entertainment performances of X-2: X-Men United and 28 Days Later as well as various catalog titles. Additionally, the domestic home entertainment performances of Bend it Like Beckham and League of Extraordinary Gentlemen also contributed to the strong quarterly results. These contributions were partially offset by marketing costs for several new releases including Master and Commander: The Far Side of The World which garnered ten Academy Award nominations, including Best Picture, the Farrelly Brothers comedy Stuck on You and Cheaper by the Dozen, which has brought in more than US\$130 million domestically since its Christmas release.

Twentieth Century Fox Television (TCFTV) contributions primarily reflected continued momentum in home entertainment sales, most notably from The Simpsons, Buffy the Vampire Slayer, Family Guy and 24, offset by lower network revenue from The Practice. Several TCFTV shows garnered Golden Globe nominations during the quarter including Bernie Mac, Arrested Development, Reba and Best Drama winner 24.

TELEVISION

The Television segment reported second quarter operating income of US\$168 million, an increase of US\$3 million versus the same period a year ago, primarily reflecting improvement at the FOX Broadcasting Company and higher contributions from STAR, partially offset by a decline at the Fox Television Stations.

At the FOX Broadcasting Company, second quarter operating income improved by US\$21 million compared to a year ago due principally to improved sports advertising, particularly from Major League Baseball with ratings up nearly 30% for the post-season. Additionally, higher pricing for the primetime entertainment schedule more than offset a 10% decline in ratings and increased promotional costs. Following the end of the quarter, the network premiered several shows that are winning their time slots among all key demographics, including American Idol and My Big Fat Obnoxious Fiance.

Fox Television Stations (FTS) second quarter operating income declined 9% from the prior year as market share growth of nearly a full percentage point was more than offset by an overall market-wide decline, primarily from non-recurring political advertising. FTS, excluding primetime, achieved ratings growth in the quarter across all key day-parts, particularly during the morning and early evening news programming periods.

STAR, bolstered by a 20% increase in revenues, substantially increased its second quarter operating income versus prior year. Revenue gains were driven by both advertising and subscription growth primarily at STAR Plus which, on average, continues to deliver all of the top 10 cable programs in India.

CABLE NETWORK PROGRAMMING

Cable Network Programming reported second quarter operating income of US\$187 million, an increase of US\$66 million or 55% over last year's results reflecting strong growth across all of the Company's primary cable television channels as

Edgar Filing: NEWS CORP LTD - Form 6-K

well as the recovery of US\$15 million of Adelphia receivables which had been previously written off.

The Fox News Channel (FNC) reported operating income growth of 23% compared to the second quarter a year ago fueled by double-digit revenue growth, primarily from increased ad sales, partially offset by higher costs associated with covering the war. During the quarter, FNC once again achieved the highest viewership among all cable news channels, expanding its lead to 42% in primetime and 57% on a 24-hour basis.

Fox Cable Networks' (including the Regional Sports Networks (RSNs), the FX Channel (FX) and SPEED Channel) operating profit improved 52% during the quarter driven by double-digit revenue growth at both the RSNs and FX. The revenue increase at the RSNs was largely due to higher affiliate rates, additional DTH subscribers and increased advertising sales versus a year ago. FX achieved revenue gains from increases in both advertising and affiliate revenues fueled by ratings gains, higher advertising pricing and a 4% expansion in the subscriber base over the past year.

DIRECT BROADCAST SATELLITE TELEVISION

On 30 April, 2003 the Company completed the acquisition of the Italian pay-TV business Telepiu and combined it with Stream. News Corporation owns 80.1% of the combined entity, SKY Italia, whose results comprise this segment. During the second quarter, SKY Italia reported an operating loss of US\$106 million on revenues of US\$421 million while increasing the subscriber base to more than 2.4 million. Over 90% of the new subscribers during the quarter opted for a premium-programming tier including movies and/or sports programming.

MAGAZINES AND INSERTS

The Magazines and Inserts segment reported second quarter operating income of US\$63 million, an increase of US\$4 million versus a year ago. The improvement was primarily driven by higher contributions from the Free Standing Inserts division, principally as a result of increased demand for packaged goods pages, partially offset by lower contributions from the InStore division.

NEWSPAPERS

The Newspaper segment reported second quarter operating income of US\$170 million, a 67% increase versus the same period a year ago reflecting circulation revenue increases in the U.K. combined with advertising strength in both the U.K. and Australia.

The U.K. newspaper group reported operating income growth of 61% in local currency terms for the second quarter compared to the prior year, driven by both circulation and advertising revenue gains partially offset by costs associated with the launch of the tabloid version of The Times. Circulation revenue growth was achieved across all titles, with the largest increase at The Sun, where reduced cover price initiatives during the second quarter a year ago adversely affected results. The improvement in advertising was primarily driven by growth at The Sun on the strength of higher classified and display advertisements.

The Australian newspaper group reported a 16% increase in operating income in local currency terms, primarily driven by an 11% increase in advertising revenue compared to a year ago. Both display and classified advertising showed increases across all categories, with the strongest growth in the national, retail and real estate sectors.

Edgar Filing: NEWS CORP LTD - Form 6-K

BOOK PUBLISHING

HarperCollins reported operating income of US\$57 million during the quarter, an increase of US\$9 million compared to the same period a year ago. The 19% growth was led by the phenomenal success of Zondervan's The Purpose Driven Life, the best-selling non-fiction book of calendar 2003 with more than 11 million English language copies sold in the United States. During the quarter, HarperCollins had 30 titles on The New York Times bestseller lists including three titles that reached the #1 spot.

OTHER

At the end of the quarter, the Company completed the acquisition of 34% of the outstanding common stock of Hughes Electronics for approximately US\$3.1 billion in cash and 522.8 million preferred limited voting ordinary shares. At closing, News Corporation's ownership interest was transferred to Fox Entertainment Group, Inc. (FEG) in exchange for US\$4.5 billion in promissory notes and

approximately 74.5 million shares in FEG, increasing News Corporation's ownership interest in FEG from 80.6% to approximately 82%.

Also during the quarter, the Company announced it had reached an agreement in principle for the sale of the Los Angeles Dodgers. The sale has been approved by Major League Baseball and is expected to close shortly, subject to customary closing conditions.

An interim unfranked dividend of A\$0.015 per Ordinary share and an unfranked dividend of A\$0.0375 per Preferred Limited Voting Ordinary share has been declared and is payable on 30 April, 2004. The Company's Dividend Reinvestment Plan ("Plan") remains in operation and a discount of 10% will apply in determining the allotment price calculated in accordance with the Plan rules. The record date for determining dividend entitlements and Plan participation is 26 March, 2004. The ex-dividend date will be 22 March, 2004.

REVIEW OF ASSOCIATED ENTITIES RESULTS

Second quarter net earnings from associated entities before other items were A\$68 million versus losses of A\$69 million in the same period a year ago, primarily due to the absence of Stream's losses in the current year. In addition, contributions from BSKyB increased partly due to improved earnings resulting from a 10% increase in the DTH subscriber base, as well as earnings that were not reflected for a portion of the prior year's quarter. These favourable variances were partially offset by lower foreign currency gains at Sky Brasil.

The Company's share of associated entities' earnings (losses) is as follows:

Ending Subscribers				11,070,000
DTH Subscribers				7,208,000

* Does not reflect BSkyB's adoption of accounting abstract UITF 38.

BSkyB's quarterly revenues increased 17% in local currency terms largely due to DTH subscriber growth, an increase in average revenue per subscriber and improved interactive revenues. Operating profit before exceptional items increased 115% due to increased revenues, partially offset by higher programming expenses from increased sports rights (mainly soccer and cricket) as well as higher betting and subscriber management costs. The increase in net income before exceptional items reflects the improvement in operating income largely offset by an increase in the tax provision resulting from higher earnings in the current year as well as the absence of a tax benefit that was recorded in the prior year's quarter.

Sky Brasil (in US\$)

	3 Months Ended 31 December,		6 Months 31 Decem	
	2003	2002	2003

	=====	=====	=====	
Net debt (excluding capitalised leases)			\$ 216	
Ending Subscribers			784,000	

Sky Brasil's revenues grew 14% in local currency terms in the quarter compared to prior year primarily driven by a higher subscriber base and increased average revenue per subscriber. The revenue growth for the quarter was partly offset by increased marketing costs due to new campaigns to grow the subscriber base. The

Edgar Filing: NEWS CORP LTD - Form 6-K

increase in net loss in the current quarter principally reflects lower foreign currency gains versus a year ago.

Innova (in US\$) - Mexico

	3 Months Ended 31 December, 2003		2002		6 Months Ended 31 December 2003	
	Millions (except subscribers)		Millions (except subscribers)		Millions (except subscribers)

Net loss	\$	(1)	\$	(30)	\$	(33)
News' reportable 30% share (in US\$)	\$	-	\$	(9)	\$	(10)
Net Debt (excluding capitalised leases)					\$	344
Ending Subscribers						857,000

Innova's revenues grew 26% in local currency terms compared to prior year primarily driven by a 15% increase in the subscriber base. The decrease in net loss during the quarter principally reflects lower interest expense resulting from the refinancing of debt and lower foreign currency losses versus a year ago.

FOXTEL (in A\$)

	3 Months Ended 31 December, 2003		2002		6 Months Ended 31 December 2003	
	Millions (except subscribers)		Millions (except subscribers)		Millions (except subscribers)

News' reportable 25% share (in US\$)	\$	(4)	\$	(2)	\$	(7)
Ending Subscribers (including Optus)						1,073,000

FOXTEL's revenues for the quarter increased 24% principally due to an increase of 18% in satellite subscribers compared to a year ago, higher average revenue per subscriber, and the inclusion of Optus wholesale subscribers as of 1,

Edgar Filing: NEWS CORP LTD - Form 6-K

December, 2002. Net loss for the quarter increased A\$9 million against the prior year as the increased subscriber revenues were more than offset by subscriber acquisition expenses, the development of a future digital service, higher depreciation expense and the inclusion of Optus license fee costs. Total subscribers (including Optus wholesale) have increased by 2.2% over prior year while FOXTEL managed subscribers have increased by 6.6%.

Fox Sports Cable Networks* (in US\$)	3 Months Ended 31 December,		6 Months 31 Decem

Note 2 - SUPPLEMENTAL FINANCIAL DATA

The Company considers net profit before other items to be an important indicator of the Company's operating performance on a consolidated basis. Net profit before other items, defined as net profit attributable to members of the parent entity before other items related to the Company and associated entities, net of applicable income tax expenses and outside equity interests, eliminates the effect of transactions that are considered significant by reason of their size, nature or effect on the Company's financial performance for the year. Net profit before other items should be considered in addition to, not as a substitute for the Company's operating income, net profit attributable to members of the parent entity, cash flows and other measures of financial performance prepared in accordance with generally accepted accounting principles in Australia. Net profit before other items does not reflect cash available to fund requirements, and the items excluded from net profit before other items, such as other revenues and expenses, are significant components in assessing the Company's financial performance.

The following table reconciles certain components of net profit attributable to members of the parent entity as presented on page 3 of this release to the presentation required under Australian GAAP as required by Australian Accounting Standard AASB 1018 "Statement of Financial Performance" on page 13 of this release.

EARNINGS RELEASE FOR THE QUARTER ENDED DECEMBER 31, 2003 IN U.S. DOLLARS
PREPARED FOR THE U.S. MARKET. AUSTRALIAN READERS SHOULD
REFER TO THE AUSTRALIAN DOLLAR EARNINGS RELEASE

News Corporation Reports Second Quarter Operating Income of \$760
Million; Eighth Consecutive Quarter of Year-on-Year Growth

Revenues Increase 19% to \$5.6 Billion

Net Profit before Other Items Increases 28% to \$410 Million;
Net Profit Increases 51% to \$361 Million

-- QUARTER HIGHLIGHTS

- Strong revenue growth across all major cable channels substantially drives up Cable Network Programming operating income.
- Television segment operating income up slightly as strong advertising demand for the broadcast network's sports schedule and STAR's growing profitability offset tough political advertising comparisons at the station group; Market share at stations group up nearly a full percentage point.
- Filmed Entertainment operating income in line with a year ago as robust home entertainment sales of film and television titles match prior-year success of Ice Age.

Edgar Filing: NEWS CORP LTD - Form 6-K

- All print businesses report higher earnings led by advertising and circulation revenue gains in U.K. and Australian newspapers, increased page volume at free-standing inserts and several leading titles at HarperCollins.
- BSKyB's operating profit more than doubles on revenue growth of 17%, primarily from a 10% increase in the DTH subscriber base, now exceeding 7.2 million.
- Completed acquisition of 34% interest in Hughes Electronics, including leading DTH provider DIRECTV.

NEW YORK--Feb. 11, 2004--The News Corporation Limited (NYSE: NWS, NWSA) today reported second quarter consolidated revenues of \$5.6 billion, a 19% increase over the \$4.7 billion in the prior year, and consolidated operating income of \$760 million, up 4% over the \$729 million a year ago, despite the inclusion of \$106 million in losses from SKY Italia in the quarter. The year-on-year growth was driven by double-digit increases at the Cable Network Programming, Newspaper and Book Publishing segments.

Net profit for the fiscal second quarter was \$361 million, an increase of \$122 million over the \$239 million reported in the second quarter a year ago. Net profit before other items was \$410 million, an increase of \$90 million over the \$320 million reported in the prior year.

Commenting on the results, Chairman and Chief Executive Rupert Murdoch said:

"This past quarter saw the Company achieve significant operational and strategic gains. Operationally, we recorded our eighth consecutive quarter of operating income growth, led by double-digit gains at our cable networks, newspapers and book publishing segments, and strong performances from our filmed entertainment and television segments despite difficult comparisons to prior year results. All of our key assets are performing well, including the television network, which after a difficult start to the broadcast season has once again reclaimed ratings momentum and is now strongly competitive in the key 18-49 demographic.

"Strategically, we have continued to expand our global distribution capabilities with the acquisition of our interest in DirecTV and the rapid growth at SKY Italia. We are looking forward to the unique opportunities these businesses provide us as we position ourselves for continued strong growth in the years to come."

MANAGEMENT REVIEW OF PERFORMANCE

The Statement of Financial Performance, Statement of Financial Position, Statement of Cash Flows and Supplemental Financial Data for the three and six months ended December 31st are attached. The following commentary is made in respect of those statements, including an analysis of certain information contained therein.

NET PROFIT ATTRIBUTABLE TO MEMBERS OF THE PARENT ENTITY

The reported net profit attributable to members of the parent entity consisted of the following items:

	=====	=====	=====	=====

* New segment reflecting the results of SKY Italia, consolidated as of May 1, 2003

Second quarter net earnings from associated entities before other items were \$49 million versus losses of \$39 million in the same period a year ago, primarily due to the absence of Stream's losses in the current year. In addition, contributions from BSKyB increased partly due to improved earnings resulting from a 10% increase in the DTH subscriber base, as well as earnings that were not reflected for a portion of the prior year's quarter. These favorable variances were partially offset by lower foreign currency gains at Sky Brasil. A detailed discussion of the components of associated entities earnings is provided later in the release.

Second quarter net profit before other items increased to \$410 million (\$0.30 per ADR) versus \$320 million (\$0.24 per ADR) in the prior year primarily due to higher consolidated operating income and the significant improvement in net earnings from associated entities.

REVIEW OF OPERATING RESULTS

FILMED ENTERTAINMENT

The Filmed Entertainment segment reported second quarter operating income of \$253 million, in-line with the \$255 million reported in the same period a year ago, which included the blockbuster worldwide home entertainment performances of Ice Age and Star Wars Episode II: Attack of the Clones. Current-year results primarily reflected strong contributions from several film and television home entertainment releases as well as pay-TV and free-TV contributions from catalog titles.

Very strong current-quarter film results were largely driven by the worldwide home entertainment performances of X-2: X-Men United and 28 Days Later as well as various catalog titles. Additionally, the domestic home entertainment performances of Bend it Like Beckham and League of Extraordinary Gentlemen also contributed to the strong quarterly results. These contributions were partially offset by marketing costs for several new releases including Master and Commander: The Far Side of The World which garnered ten Academy Award nominations, including Best Picture, the Farrelly Brothers comedy Stuck on You and Cheaper by the Dozen, which has brought in more than \$130 million domestically since its Christmas release.

Twentieth Century Fox Television (TCFTV) contributions primarily reflected continued momentum in home entertainment sales, most notably from The Simpsons, Buffy the Vampire Slayer, Family Guy and 24, offset by lower network revenue from The Practice. Several TCFTV shows garnered Golden Globe nominations during the quarter including Bernie Mac, Arrested Development, Reba and Best Drama winner 24.

TELEVISION

The Television segment reported second quarter operating income of \$168 million, an increase of \$3 million versus the same period a year ago, primarily reflecting improvement at the FOX Broadcasting Company

Edgar Filing: NEWS CORP LTD - Form 6-K

and higher contributions from STAR, partially offset by a decline at the Fox Television Stations.

At the FOX Broadcasting Company, second quarter operating income improved by \$21 million compared to a year ago due principally to improved sports advertising, particularly from Major League Baseball with ratings up nearly 30% for the post-season. Additionally, higher pricing for the primetime entertainment schedule more than offset a 10% decline in ratings and increased promotional costs. Following the end of the quarter, the network premiered several shows that are winning their time slots among all key demographics, including American Idol and My Big Fat Obnoxious Fiance.

Fox Television Stations (FTS) second quarter operating income declined 9% from the prior year as market share growth of nearly a full percentage point was more than offset by an overall market-wide decline, primarily from non-recurring political advertising. FTS, excluding primetime, achieved ratings growth in the quarter across all key day-parts, particularly during the morning and early evening news programming periods.

STAR, bolstered by a 20% increase in revenues, substantially increased its second quarter operating income versus prior year. Revenue gains were driven by both advertising and subscription growth primarily at STAR Plus which, on average, continues to deliver all of the top 10 cable programs in India.

CABLE NETWORK PROGRAMMING

Cable Network Programming reported second quarter operating income of \$187 million, an increase of \$66 million or 55% over last year's results reflecting strong growth across all of the Company's primary cable television channels as well as the recovery of \$15 million of Adelphia receivables which had been previously written off.

The Fox News Channel (FNC) reported operating income growth of 23% compared to the second quarter a year ago fueled by double-digit revenue growth, primarily from increased ad sales, partially offset by higher costs associated with covering the war. During the quarter, FNC once again achieved the highest viewership among all cable news channels, expanding its lead to 42% in primetime and 57% on a 24-hour basis.

Fox Cable Networks' (including the Regional Sports Networks (RSNs), the FX Channel (FX) and SPEED Channel) operating profit improved 52% during the quarter driven by double-digit revenue growth at both the RSNs and FX. The revenue increase at the RSNs was largely due to higher affiliate rates, additional DTH subscribers and increased advertising sales versus a year ago. FX achieved revenue gains from increases in both advertising and affiliate revenues fueled by ratings gains, higher advertising pricing and a 4% expansion in the subscriber base over the past year.

DIRECT BROADCAST SATELLITE TELEVISION

On April 30th, 2003 the Company completed the acquisition of the Italian pay-TV business Telepiu and combined it with Stream. News Corporation owns 80.1% of the combined entity, SKY Italia, whose results comprise this segment. During the second quarter, SKY Italia reported an operating loss of \$106 million on revenues of \$421 million while increasing the subscriber base to more than 2.4 million. Over 90% of the new subscribers during the quarter opted for a premium-programming tier including movies and/or sports programming.

MAGAZINES AND INSERTS

The Magazines and Inserts segment reported second quarter

Edgar Filing: NEWS CORP LTD - Form 6-K

operating income of \$63 million, an increase of \$4 million versus a year ago. The improvement was primarily driven by higher contributions from the Free Standing Inserts division, principally as a result of increased demand for packaged goods pages, partially offset by lower contributions from the InStore division.

NEWSPAPERS

The Newspaper segment reported second quarter operating income of \$170 million, a 67% increase versus the same period a year ago reflecting circulation revenue increases in the U.K. combined with advertising strength in both the U.K. and Australia.

The U.K. newspaper group reported operating income growth of 61% in local currency terms for the second quarter compared to the prior year, driven by both circulation and advertising revenue gains partially offset by costs associated with the launch of the tabloid version of The Times. Circulation revenue growth was achieved across all titles, with the largest increase at The Sun, where reduced cover price initiatives during the second quarter a year ago adversely affected results. The improvement in advertising was primarily driven by growth at The Sun on the strength of higher classified and display advertisements.

The Australian newspaper group reported a 16% increase in operating income in local currency terms, primarily driven by an 11% increase in advertising revenue compared to a year ago. Both display and classified advertising showed increases across all categories, with the strongest growth in the national, retail and real estate sectors.

BOOK PUBLISHING

HarperCollins reported operating income of \$57 million during the quarter, an increase of \$9 million compared to the same period a year ago. The 19% growth was led by the phenomenal success of Zondervan's The Purpose Driven Life, the best-selling non-fiction book of calendar 2003 with more than 11 million English language copies sold in the United States. During the quarter, HarperCollins had 30 titles on The New York Times bestseller lists including three titles that reached the #1 spot.

OTHER

At the end of the quarter, the Company completed the acquisition of 34% of the outstanding common stock of Hughes Electronics for approximately \$3.1 billion in cash and 130.7 million preferred limited voting ordinary ADRs. At closing, News Corporation's ownership interest was transferred to Fox Entertainment Group, Inc. (FEG) in exchange for \$4.5 billion in promissory notes and approximately 74.5 million shares in FEG, increasing News Corporation's ownership interest in FEG from 80.6% to approximately 82%.

Also during the quarter, the Company announced it had reached an agreement in principle for the sale of the Los Angeles Dodgers. The sale has been approved by Major League Baseball and is expected to close shortly, subject to customary closing conditions.

An interim unfranked dividend of A\$0.06 per Ordinary ADR and an unfranked dividend of A\$0.15 per Preferred Limited Voting Ordinary ADR has been declared and is payable on May 7, 2004. The Company's Dividend Reinvestment Plan ("Plan") remains in operation and a discount of 10% will apply in determining the allotment price calculated in accordance with the Plan rules. The record date for determining dividend entitlements and Plan participation is March 25, 2004. The ex-dividend date will be March 23, 2004.

Edgar Filing: NEWS CORP LTD - Form 6-K

REVIEW OF ASSOCIATED ENTITIES RESULTS

Second quarter net earnings from associated entities before other items were \$49 million versus losses of \$39 million in the same period a year ago, primarily due to the absence of Stream's losses in the current year. In addition, contributions from BSKyB increased partly due to improved earnings resulting from a 10% increase in the DTH subscriber base, as well as earnings that were not reflected for a portion of the prior year's quarter. These favorable variances were partially offset by lower foreign currency gains at Sky Brasil.

The Company's share of associated entities' earnings (losses) is as follows:

	% Owned	3 Months Ended December 31,		6 Months Ended December 31,

		=====	=====	=====	=====

Further details on the associated entities follow.

(a) The Company's investment basis in BSKyB was negative from December 31, 2001 through November 11, 2002. Accordingly, the Company's share of BSKyB's results was not recognized during that period.

(b) Represents the Company's economic interest, which was 46.7% as of December 31, 2002. The Company continues to hold a 36% equity interest in Sky Brasil.

(c) The Company's share of Stream's losses was included as part of associated entities from April 1, 2002 through April 30, 2003, when it merged with Telepiu to form the consolidated entity SKY Italia.

(d) Primarily comprising Gemstar-TV Guide International, Independent Newspapers Limited, and Queensland Press.

BSkyB (in STG) - Europe	3 Months Ended December 31,	6 Months Ended December 31,

DTH Subscribers			7,208,000	6,562,000

* Does not reflect BSkyB's adoption of accounting abstract UITF 38.

BSkyB's quarterly revenues increased 17% in local currency terms largely due to DTH subscriber growth, an increase in average revenue per subscriber and improved interactive revenues. Operating profit before exceptional items increased 115% due to increased revenues, partially offset by higher programming expenses from increased sports rights (mainly soccer and cricket) as well as higher betting and subscriber management costs. The increase in net income before exceptional items reflects the improvement in operating income largely offset by an increase in the tax provision resulting from higher earnings in the current year as well as the absence of a tax benefit that was recorded in the prior year's quarter.

Sky Brasil (in US\$)	3 Months Ended December 31,		6 Months Ended December 31,

Sky Brasil's revenues grew 14% in local currency terms in the quarter compared to prior year primarily driven by a higher subscriber base and increased average revenue per subscriber. The revenue growth for the quarter was partly offset by increased marketing costs due to new campaigns to grow the subscriber base. The increase in net loss in the current quarter principally reflects lower foreign currency gains versus a year ago.

Net Debt (excluding capitalized leases)			\$ 344	\$ 350
Ending Subscribers			857,000	742,000

Innova's revenues grew 26% in local currency terms compared to prior year primarily driven by a 15% increase in the subscriber base. The decrease in net loss during the quarter principally reflects lower interest expense resulting from the refinancing of debt and lower foreign currency losses versus a year ago.

	=====	=====	=====	=====
Ending Subscribers (including Optus)			1,073,000	1,050,000

FOXTEL's revenues for the quarter increased 24% principally due to an increase of 18% in satellite subscribers compared to a year ago, higher average revenue per subscriber, and the inclusion of Optus wholesale subscribers as of December 1, 2002. Net loss for the quarter increased A\$9 million against the prior year as the increased subscriber revenues were more than offset by subscriber acquisition expenses, the development of a future digital service, higher depreciation expense and the inclusion of Optus license fee costs. Total subscribers (including Optus wholesale) have increased by 2.2% over prior year while FOXTEL managed subscribers have increased by 6.6%.

Note 2 - SUPPLEMENTAL FINANCIAL DATA

The Company considers net profit before other items to be an important indicator of the Company's operating performance on a consolidated basis. Net profit before other items, defined as net profit attributable to members of the parent entity before other items related to the Company and associated entities, net of applicable income tax expenses and outside equity interests, eliminates the effect of transactions that are considered significant by reason of their size, nature or effect on the Company's financial performance for the year. Net profit before other items should be considered in addition to, not as a substitute for the Company's operating income, net profit attributable to members of the parent entity, cash flows and other measures of financial performance prepared in accordance with generally accepted accounting principles in Australia. Net profit before other items does not reflect cash available to fund requirements, and the items excluded from net profit before other items, such as other revenues and expenses, are significant components in assessing the Company's financial performance.

The following table reconciles certain components of net profit attributable to members of the parent entity as presented earlier in this release to the presentation required under Australian GAAP as required by Australian Accounting Standard AASB 1018 "Statement of Financial Performance."
