NEW YORK, NEW YORK 10036

2012 ANNUAL MEETING OF STOCKHOLDERS

PROXY STATEMENT

Annaly Capital Management, Inc. (“we”, “our” or “us”) is furnishing this proxy statement in connection with our solicitation of proxies to be voted at our 2012 annual meeting of stockholders. We will hold the annual meeting at the New York Marriott Marquis, 1535 Broadway, New York, New York 10036, on Thursday, May 24, 2012 at 9:00 a.m. New York time, and any postponements or adjournments thereof. We are sending this proxy statement and the enclosed proxy to our stockholders commencing on or about April 12, 2012.

QUESTIONS AND ANSWERS ABOUT THE MEETING

Q: What am I voting on?

A: (1) Election of three directors, Wellington J. Denahan-Norris, Michael Haylon and Donnell A. Segalas, for terms of three years and election of one director, Jonathan D. Green, for a term of two years; and

(2) Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2012.

Q: How does the board of directors recommend that I vote on these proposals?

A: Our board of directors recommends that you vote:

(1) “FOR” the election of each of the nominees as directors; and

(2) “FOR” the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2012.

Q: Who is entitled to vote at the meeting?

A: Only common stockholders of record as of the close of business on March 30, 2012, the record date, are entitled to vote at the meeting.

Q: What quorum is required for the meeting?

A: A quorum will be present at the annual meeting if a majority of the votes entitled to be cast are present, in person or by proxy. Since there were 971,962,743 outstanding shares of common stock, each entitled to one vote per share, as of the record date, we will need at least 485,981,372 votes present in person or by proxy at the annual meeting for a quorum to exist. If a quorum is not present at the annual meeting, we expect that the annual meeting will be adjourned to solicit additional proxies.

Q: What are the voting requirements that apply to the proposals discussed in this proxy statement?

| A: | Proposal | Vote Required | Discretionary Voting Allowed? |
|----|--|---------------|-------------------------------|
| | (1) Election of directors | Majority | No |
| | (2) Ratification of the appointment of Ernst & Young LLP | Majority | Yes |

“Majority” means (a) with regard to the election of directors, the affirmative vote of a majority of all the votes cast on the election of a director on a per director basis; provided, however, that in an election of directors, if the number of nominees exceeds the number of directors to be elected at such meeting, the directors shall be elected by the vote of a plurality of the shares represented in person or by proxy at any such meeting; and (b) with regard to the ratification of the appointment of Ernst & Young LLP, a majority of the votes cast at the annual meeting.

“Discretionary voting” occurs when a bank, broker, or other holder of record does not receive voting instructions from the beneficial owner and votes those shares in its discretion on any proposal as to which the rules of the New York Stock Exchange permit such bank, broker, or other holder of record to vote. When banks, brokers, and other holders of record are not permitted under the New York Stock Exchange rules to vote the beneficial owner’s shares on a proposal, and there is at least one other proposal on which discretionary voting is allowed, the affected shares are referred to as broker “non-votes.”

Q: What is the effect of abstentions and broker “non-votes”?

A: Abstentions will be treated as shares that are present and entitled to vote for purposes of determining the presence of a quorum. An abstention is the voluntary act of not voting by a stockholder who is present at a meeting and entitled to vote. Broker “non-votes” will be treated as present and entitled to vote for purposes of determining the presence of a quorum at the annual meeting.

Abstentions and broker non-votes, if any, will have no effect on the election of the directors (Proposal No. 1) and the ratification of the appointment of Ernst & Young LLP (Proposal No. 2).

Q: How will my shares be voted if I do not specify how they should be voted?

A: Properly executed proxies that do not contain voting instructions will be voted as follows:

- (1) Proposal 1: FOR the election of directors; and

(2) Proposal 2: FOR the ratification of Ernst & Young LLP as our independent registered public accounting firm.

The individuals named as proxies by a stockholder may vote for one or more adjournments of the annual meeting, including adjournments to permit further solicitations of proxies.

We do not expect that any matter other than the proposals described above will be brought before the annual meeting. If, however, other matters are properly presented at the annual meeting, the individuals named as proxies will vote in accordance with the recommendation of our board of directors.

Q: What do I do if I want to change my vote?

A: You may revoke a proxy at any time before it is voted by filing with us a duly executed revocation of proxy, by submitting a duly executed proxy to us with a later date or by appearing at the annual meeting and voting in person. You may revoke a proxy by any of these methods, regardless of the method used to deliver your previous proxy. Attendance at the annual meeting without voting will not itself revoke a proxy.

Q: How will voting on any other business be conducted?

A: Other than the two proposals described in this proxy statement, we know of no other business to be considered at the annual meeting. If any other matters are properly presented at the meeting, your signed proxy card authorizes Michael A.J. Farrell, our Chairman of the Board, Chief Executive Officer and President, and R. Nicholas Singh, our Secretary, to vote on those matters according to their best judgment.

Q: Who will count the vote?

A: Representatives of Broadridge Financial Solutions, Inc., the independent Inspector of Elections, will count the votes.

Q: Who can attend the annual meeting?

A: All stockholders of record as of March 30, 2012 can attend the annual meeting, although seating is limited. If your shares are held through a broker and you would like to attend, please either (1) write us at Investor Relations, Annaly Capital Management, Inc., 1211 Avenue of the Americas, Suite 2902, New York, New York 10036 or email us at investor@annaly.com, or (2) bring to the meeting a copy of your brokerage account statement or an omnibus proxy (which you can get from your broker).

In addition, you must bring valid, government-issued photo identification, such as a driver's license or a passport. If you plan to attend, please check the box on your proxy card and return it as directed on the proxy card. In addition, if you are a record holder of common stock, your name is subject to verification against the list of our record holders on the record date prior to being admitted to the annual meeting. If you are not a record holder but hold shares in street name, that is, with a broker, dealer, bank or other financial institution that serves as your nominee, you should be prepared to provide proof of beneficial ownership on the record date, or similar evidence of ownership. If you do not provide valid government-issued photo identification or comply with the other procedures outlined above upon request, you will not be admitted to the annual meeting.

Security measures will be in place at the meeting to help ensure the safety of attendees. Metal detectors similar to those used in airports may be located at the entrance to the auditorium and briefcases, handbags and packages may be inspected. No cameras or recording devices of any kind, or signs, placards, banners or similar materials, may be brought into the meeting. Anyone who refuses to comply with these requirements will not be admitted.

Q: How will we solicit proxies for the annual meeting?

A: We are soliciting proxies by mailing this proxy statement and proxy card to our stockholders. We will pay the expenses incurred in connection with the printing and mailing of this proxy statement. In addition to solicitation by mail, the directors, officers and our employees, who will not be specially compensated, may solicit proxies from our stockholders by telephone, facsimile or other electronic means or in person. Arrangements also will be made with brokerage houses and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of shares held of record by these persons, and we will reimburse them for their reasonable out-of-pocket expenses. We will bear the total cost of soliciting proxies.

Stockholders have the option to vote over the internet or by telephone. Please be aware that if you vote over the internet, you may incur costs such as telephone and access charges for which you will be responsible.

Q: What is “Householding” and does Annaly do this?

A: Householding is a procedure approved by the Securities and Exchange Commission under which stockholders who have the same address and last name and do not participate in electronic delivery of proxy materials receive only one copy of a company’s proxy statement and annual report from a company, bank, broker or other intermediary, unless one or more of these stockholders notifies the company, bank, broker or other intermediary that they wish to continue to receive individual copies. We engage in this practice, which is known as “householding,” as it reduces our printing and postage costs. However, if a stockholder of record residing at such an address wishes to receive a separate annual report or proxy statement, he or she may request it orally or in writing by contacting us at Annaly Capital Management, Inc., 1211 Avenue of the Americas, Suite 2902, New York, New York 10036, Attention: Investor Relations, by emailing us at investor@annaly.com, or by calling us at 212-696-0100, and we will promptly deliver to the stockholder the requested annual report or proxy statement. If a stockholder of record residing at such an address wishes to receive a separate annual report or proxy statement in the future, he or she may contact us in the same manner. If you are an eligible stockholder of record receiving multiple copies of our annual report and proxy statement, you can request householding by contacting us in the same manner. If you own your shares through a bank, broker or other nominee, you can request householding by contacting the nominee.

Q: Could the Annual Meeting be postponed or adjourned?

A: If a quorum is not present or represented, our bylaws permit a majority of stockholders entitled to vote at the annual meeting, present in person or represented by proxy, to postpone or adjourn the meeting, without notice other than an announcement.

Q: Who can help answer my questions?

A: If you have any questions or need assistance voting your shares or if you need additional copies of this proxy statement or the enclosed proxy card, you should contact:

We have adopted a number of written policies, including corporate governance guidelines, code of business conduct and ethics and charters for our audit committee, compensation committee and nominating/corporate governance committee.

Board Oversight of Risk

As required by its charter, the audit committee routinely discusses with management our significant risk exposures and the actions management has taken to limit, monitor or control such exposures, including guidelines and policies with respect to our assessment of risk and risk management. At least annually, the audit committee reviews with management our risk management program which identifies and quantifies a broad spectrum of enterprise-wide risks and related action plans. In 2011, our full board of directors participated in this review and discussion and expects to continue this practice as part of its role in the oversight of our risk management practices. In addition, our employees report to the audit committee on various matters related to our risk exposures on a regular basis or more frequently, if appropriate. At their discretion, members of the board of directors may also directly contact management to review and discuss any risk-related or other concerns that may arise between regular meetings. Our board of directors reviewed with our compensation committee its compensation policies and practices applicable to all employees that could affect our assessment of risk and risk management. Following such review, we determined that our compensation policies and practices for all employees do not create risks that are reasonably likely to have a material adverse effect on us. As part of this risk assessment and management activities going forward, our board of directors also determined that it would undertake an annual review of our compensation policies and practices as they relate to

risk.

Independence of Our Directors

New York Stock Exchange rules require that at least a majority of our directors be independent of our company and management. The rules also require that our board of directors affirmatively determine that there are no material relationships between a director and us (either directly or as a partner, stockholder or officer of an organization that has a relationship with us) before such director can be deemed independent. We have adopted independence standards consistent with New York Stock Exchange rules. Our board of directors has reviewed both direct and indirect transactions and relationships that each of our directors had or maintained with us, our management and employees. As a result of this review, our board of directors, based upon the fact that none of Kevin P. Brady, Jonathan D. Green, Michael Haylon, E. Wayne Nordberg and Donnell A. Segalas have any relationships with us other than as directors and holders of our common stock, affirmatively determined that these five directors are independent directors under New York Stock Exchange rules. Michael A.J. Farrell and Wellington J. Denahan-Norris are not considered independent because they are employees of the company, and John A. Lambiase is not considered independent because we employ his son as an executive officer. We do not have a lead independent director.

Board Leadership Structure

Michael A. J. Farrell, one of our founders, has served as Chairman of the Board and Chief Executive Officer since we commenced operations. We believe that a combined Chairman of the Board and Chief Executive Officer position, together with independent directors serving as members in each of our board committees, and regularly-scheduled sessions of the board and committees is the most appropriate board leadership structure for us at this time. Experienced and independent directors, sitting on various committees, oversee our operations, risks, performance and business strategy. Our board believes that for us, the combination of the Chairman of the Board and Chief Executive Officer positions takes advantage of Mr. Farrell's talent and knowledge and effectively combines the responsibilities for strategy development and execution with management of day-to-day operations. We also believe it provides us with clear leadership lines and reduces the potential for confusion or duplication of efforts. Our board believes that given its strong governance practices, including the requirement that a majority of its members be independent of us, the combination of these two roles, provide an appropriate balance among strategy development, operational execution and independent oversight of us. This structure has served us well as we have built ourselves to be the largest REIT in our sector.

Board Committees and Charters

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics, which sets forth the basic principles and guidelines for resolving various legal and ethical questions that may arise in the workplace and in the conduct of our business. This code is applicable to all employees, officers and directors of the company.

Corporate Governance Guidelines

We have adopted Corporate Governance Guidelines which, in conjunction with the charters and key practices of our board committees, provide the framework for the governance of our company.

Other Charters

Our compensation committee, audit committee and nominating/corporate governance committee have also adopted written charters which govern their conduct.

Where You Can Find These Documents

Our Code of Business Conduct and Ethics, Corporate Governance Guidelines, Compensation Committee Charter, Audit Committee Charter and Nominating/Corporate Governance Committee Charter are available on our website (www.annaly.com). We will provide copies of these documents free of charge to any stockholder who sends a written request to Investor Relations, Annaly Capital Management, Inc., 1211 Avenue of the Americas, Suite 2902, New York, New York 10036.

Compensation Committee

We have a standing compensation committee. The members of our compensation committee are Jonathan D. Green, E. Wayne Nordberg and Donnell A. Segalas, each of whom is an independent director within the meaning of the rules of the New York Stock Exchange. The compensation committee administers our 2010 Equity Incentive Plan, or Incentive Plan, and recommends changes to the Incentive Plan to our board of directors when appropriate. The compensation committee also administered our prior equity incentive plan, or the Prior Plan. The compensation committee also approves compensation for our officers. We refer to our Incentive Plan and our Prior Plan collectively as the Plan. For additional information on the compensation committee, please see “Compensation Committee Report” below.

Audit Committee

We have a standing audit committee. The members of our audit committee are Kevin P. Brady, Jonathan D. Green, Michael Haylon and E. Wayne Nordberg. Each member of our audit committee is an independent director within the meaning of the rules of the New York Stock Exchange, and Mr. Brady has been designated as our audit committee's financial expert. The audit committee recommends to our board of directors the engagement or discharge of independent registered public accountants, reviews the plan and results of the auditing engagement with our Chief Financial Officer and our independent registered public accountants, and reviews with our Chief Financial Officer the scope and nature of our internal auditing system. The activities of the audit committee are described in greater detail below under the caption "Report of the Audit Committee."

Nominating/Corporate Governance Committee

We have a standing nominating/corporate governance committee. The members of our nominating/corporate governance committee are Kevin P. Brady, Michael Haylon, E. Wayne Nordberg and Donnell A. Segalas. Each of the members of our nominating/corporate governance committee meets the independence requirements of the New York Stock Exchange. Our nominating/corporate governance committee (i) recommends criteria for the selection of new directors, identifies individuals qualified to become board members and recommends to the board of directors persons to be nominated as directors or to be elected to fill vacancies on the board of directors; (ii) develops and recommends to the board of directors a set of corporate governance principles; (iii) provides oversight of the evaluation of the board of directors and management; and (iv) considers corporate governance matters, such as director retirement policies, succession plans for management and potential conflicts of interest of members of the board of directors and senior management and makes recommendations for change, as appropriate. Our nominating/corporate governance committee will consider nominees recommended by our stockholders. These recommendations should be submitted in writing to our Secretary.

Our nominating/corporate governance committee currently considers the following factors in making its recommendations to the board of directors: background, skills, expertise, accessibility and availability to serve effectively on the board of directors. Our nominating/corporate governance committee also conducts inquiries into the background and qualifications of potential candidates. Although the nominating/corporate governance committee does not have a formal diversity policy, it believes that diversity is an important factor in determining the composition of the board of directors. Additionally, the committee believes that it is critical to have a board of directors with diverse backgrounds in various areas as this contributes to our success and is in the best interests of our stockholders.

Our nominating/corporate governance committee uses a variety of methods for identifying and evaluating nominees for director. Our nominating/corporate governance committee regularly assesses the appropriate size of the board of directors, and whether any vacancies on the board of directors are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, our nominating/corporate governance committee considers various potential candidates for director. Candidates may come to the attention of our nominating/corporate governance committee through current members of our board of directors, professional search firms, stockholders or other persons. These candidates are evaluated at regular or special meetings of our nominating/corporate governance committee and may be considered at any point during the year. As described above, our nominating/corporate governance committee considers properly submitted stockholder nominations for candidates for the board of directors. Following verification of the stockholder status of persons proposing candidates, recommendations are aggregated and considered by our nominating/corporate governance committee at a regularly scheduled or special meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials are forwarded to our nominating/corporate governance committee. Our nominating/corporate governance committee also reviews materials provided by professional search firms or other parties in connection with a nominee who is not proposed by a stockholder. In evaluating such nominations, our nominating/corporate

governance committee seeks to achieve a balance of knowledge, experience and capability on the board of directors.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our Compensation Discussion and Analysis describes our compensation program, objectives and policies for the executive officers named in this proxy statement and our executive officers generally. This discussion should be read together with the compensation tables and related disclosures contained in this proxy statement.

Overview of Compensation Philosophy, Risk Considerations and Program

Philosophy

Our principal business objective is to generate income for distribution to our stockholders as dividends. We believe that our compensation program is directly linked to our principal business objective of generating income to return to our stockholders. Our compensation program is designed to meet three principal goals:

- attract, reward and retain officers and other key employees;
- motivate these individuals to achieve short-term and long-term corporate goals that enhance stockholder value; and
- support our core values and cultures.

To meet these objectives, we have adopted the following policies:

- we pay compensation that is competitive with the compensation paid by other leading asset management companies;
- we pay for performance by structuring compensation so that the majority of cash compensation is comprised of bonuses which are paid only upon the approval of the compensation committee; and
- we provide long-term incentives in the form of stock options to incentivize our employees and align their interests with those of our stockholders.

Risk Considerations

Our compensation committee reviews the risks and rewards associated with our compensation programs. Our compensation committee designs compensation programs with features that mitigate risk without diminishing the incentive nature of the compensation. We believe our programs encourage and reward prudent business judgment and appropriate risk-taking over the long term. With respect to specific elements of compensation:

- Base salary does not encourage risk-taking as it is a fixed amount. Base salary has traditionally been a smaller component of our executives overall compensation; however, we may allocate a greater portion of an executive's total compensation to base salary instead of bonus than we have historically if we believe that is appropriate and given competitive pay trends generally.
- Any bonus we pay our executives is calculated based on our book value. We believe that this arrangement disincentives our executives from causing us to take undue risks. For example, as discussed below, our executives can earn larger bonuses if our book value grows. However, book value growth is dependent on us being able to access the capital markets. We do not think we will be able to access the capital markets unless the markets believe our performance, and our management of risk, warrants it.
- We provide our executives with equity incentives. We believe this component of compensation should be long term incentives, and consistent with this view, we place relatively long term vesting requirements on equity incentive grants. Such grants generally vest over four, five or ten year periods.

Management and our compensation committee evaluate regularly the risks involved with all compensation programs globally and do not believe any of our compensation programs create risks that are reasonably likely to pose a material adverse impact to us.

Compensation Program

Pursuant to employment agreements entered into between us and our executive officers, each executive has a targeted aggregate cash compensation which is calculated as a percentage of our book value. The targeted compensation is comprised of a base salary and a potential bonus. Any bonus paid, however, must be approved by the compensation committee. We have used this approach to compensate our executives because we believe that only successful performance by our management would increase our book value. We believe our compensation policies are particularly appropriate since we are a REIT. REIT regulations require us to pay at least 90% of our earnings to stockholders as dividends. As a result, unlike most companies, we cannot grow our business and our book value by reinvesting our earnings. Rather, our growth in book value is dependent on sequential access to the capital markets. This places a unique market discipline on us since we are able to access the capital markets only if the markets believe our performance warrants it. The result of our compensation program is that there may be prolonged periods, such as during 1997-2001, 2003-2006 and 2009, when we do not access the capital markets and during which executive compensation is, in effect, frozen because of the employment contracts. Our board of directors and our executive officers believe that our compensation program is performance based since our executives are paid more only if our performance warrants it.

While each executive has a targeted aggregate compensation based on our book value, in determining the particular elements of compensation that will be used to implement our overall compensation policies, the compensation committee takes into consideration a number of factors related to our performance, as well as the performance of the individual executive. In particular, in considering whether to approve any bonuses, the compensation committee considers our increase in assets under management, earnings per share, profitability, overall economic conditions as well as competitive practices among our competitors in the portfolio management business. The compensation committee also considers the individual efforts made by the executive in achieving overall company goals.

Although we do not do an annual market assessment of our executive compensation program, we believe our management compensation structure is consistent, generally, with the management compensation structure of comparable companies. We will continue to monitor whether our compensation structure is consistent with the compensation structure of our competitors.

The principal components of compensation for our executive officers were:

- base salary;
- bonus compensation; and
- long-term equity incentive compensation.

Base Salary

We pay a base salary to our named executive officers and other employees to compensate them for services rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility by using market data, and were negotiated with each executive and us. Base salary has traditionally been a smaller component of our executives' overall compensation; however, we may allocate a greater portion of an executive's total compensation to base salary instead of bonus than we have historically if we believe that is appropriate and given competitive pay trends generally. The compensation committee from time to time reviews the base salaries we pay our executives. In doing so, it considers a number of factors, including market data, internal review of the executive's compensation compared to other executive officers, and the individual performance of the executive.

Bonus Compensation

As noted above, pursuant to employment agreements entered into between us and our executive officers, base compensation and bonus for the officers is calculated as a percentage of our book value. Any bonus paid, however, is subject to the discretion of the compensation committee. The compensation committee also has the right to increase a bonus beyond the targeted compensation contained in an executive's employment agreement. As discussed above, this arrangement was established based upon our view that successful performance by our management would result in our ability to raise additional capital. Since bonuses must be approved by the compensation committee taking into account a number of factors relating to our performance, we believe that our executives are paid for performance.

Long-Term Equity Incentive Compensation

The compensation committee did not use a specific formula to calculate the number of options awarded to executives under our Plan. The compensation committee does not explicitly set future award levels/opportunities on the basis of what the executives earned from prior awards. While the compensation committee takes past awards into account, it does not solely base future awards in view of those past awards. Generally, our chief executive officer will recommend the amounts of awards to be made to each employee to the compensation committee. In determining the specific amounts to be granted to each employee, our compensation committee will take into account factors such as the executive's position, his or her contribution to our performance, market practices as well as the recommendations of our chief executive officer.

Presently, we do not have designated dates on which we grant stock option awards (other than an annual grant to our directors). We do not, however, intend to time stock options grants with our release of material nonpublic information for the purpose of affecting the value of executive compensation.

We have designed our compensation policy in an effort to provide the proper incentives to management to maximize our performance in order to serve the best interests of our stockholders. We have sought to achieve this objective through the granting of stock options under our Plan. To date, our executive officers, pursuant to the Plan, have been granted options to purchase, in the aggregate, 6,757,297 shares of common stock with exercise prices ranging from \$4.00 to \$17.97. Consistent with our view that this component of compensation is designed to provide long term incentives, these options vest in equal installments over four, five or ten year periods from the date of grant. Consistent with the foregoing, we have structured our executive compensation policies with the goal of promoting the long-term commitment of management. In addition, over 98% of the stock options granted by us since inception have been options with vesting periods of three, four and five years. The vesting of stock options accelerates upon a change-in-control.

Perquisites and Fringe Benefits

We do not believe in providing our executives with excessive perquisites and other fringe benefits. Consistent with our pay-for-performance mandate, we provide very few executive fringe benefits. Our executive officers receive health and welfare benefits, such as group medical, group life and long-term disability coverage, under plans generally available to all other employees. We believe that our executives should be able to provide for their retirement needs from the total annual compensation they earn based on our performance. Accordingly, other than an employer matching contribution under our Section 401(k) plan which is the same that we provide all of our employees, we do not offer our executives any nonqualified pension plans, supplemental executive retirement plans, deferred compensation plans or other forms of compensation for retirement.

Employment Agreements

As noted above, we have entered into employment agreements with our executive officers. This is because we believe that the long-term commitment of our current management team is a crucial factor in our future performance. This team includes Mr. Farrell and Ms. Denahan-Norris, who have worked together at FIDAC since November 1994 and with us since our commencement of operations in February 1997, Ms. Fagan, who has worked with us since April 1997, Mr. Keyes, who has worked with us since September 2009, and Mr. Fortescue, who has worked at FIDAC since June 1995 and with us since our commencement of operations in February 1997. In an effort to ensure the long-term commitment of its management team, we, with the approval of our board of directors, entered into employment agreements with Mr. Farrell, Ms. Denahan-Norris, Ms. Fagan, Mr. Keyes and Mr. Fortescue. Each of the agreements with Mr. Farrell, Ms. Denahan-Norris, Ms. Fagan, Mr. Keyes and Mr. Fortescue provides for a one year term with automatic one-year extensions unless we or the officer provides written notice to the contrary. These employment agreements are described below.

Each of the employment agreements with our executive officers provides for overall targeted compensation consisting of annual base salaries and bonus payments based upon a percentage of our book value. Actual compensation paid in any year, however, may vary depending on a number of factors related to our performance. Mr. Farrell and Ms. Denahan-Norris are our founders, and their initial percentages, 0.20% and 0.17%, respectively, were set when we commenced operations. Ms. Fagan's percentage of 0.10% was set shortly after our initial public offering in 1997. The percentage for Mr. Fortescue was initially set upon our acquisition of FIDAC in June 2004. Over time, the employment agreements of our executive officers have been amended to change their base salaries and/or percentages. In 2001, the percentage for Mr. Farrell was increased to 0.25% to reflect additional duties and responsibilities assumed by him at that time, and it has been unchanged since then. At the same time, Ms. Denahan-Norris's percentage was increased to 0.20% to reflect our compensation committee's view that her compensation should reflect the broad set of responsibilities that she has as a member of our senior executive team. Ms. Denahan-Norris's percentage was further increased to 0.25% in 2008 when our compensation committee determined that in light of her contribution to our success, her base salary and percentage should be the same as our chief executive officer because our compensation committee attributed much of our success to her oversight of the team of investment professionals she manages. Ms. Fagan's percentage is 0.10% and has not been changed since it was initially set but her base salary has been increased. The percentage for Mr. Keyes was initially set at 0.04% and has not changed. The percentage for Mr. Fortescue was initially set at 0.05% and has not changed but his base salary has been increased. Our book value is defined in each of the employment agreements as the aggregate amounts reported on our balance sheet as "Stockholders' Equity," excluding any adjustments for valuation reserves (i.e., changes in the value of our portfolio of investments as a result of mark-to-market valuation changes).

Mr. Farrell and Ms. Denahan-Norris each receive an annual base salary of \$3,000,000. Ms. Fagan receives an annual base salary of \$1,200,000. Mr. Keyes and Mr. Fortescue each receive annual base salaries of \$750,000. In addition, all bonuses paid under these employment agreements are subject to the discretion of our compensation committee.

Our compensation committee approved bonuses for Mr. Farrell, Ms. Denahan-Norris, Ms. Fagan and Mr. Fortescue which gave these officers substantially their targeted bonus and base salary compensation for 2011. For Mr. Keyes, our Managing Director and Chief Strategy Officer, our compensation committee awarded an additional bonus of \$1.5 million above his targeted bonus for 2011. This award to Mr. Keyes was based on internal pay equity considerations as a result of comparing his compensation to the compensation paid to our employees in similar senior executive positions within the company. Moreover, Mr. Keyes successfully designed and managed our capital markets activities in 2011 at significant cost savings to us. Additionally, we believe that there is strong demand for the services of experienced capital markets executives such as Mr. Keyes, and we want to ensure we continue to employ Mr. Keyes.

Pursuant to the employment agreements, the executive officers are also entitled to participate in our benefit plans, including the Plan. In addition, our board of directors has established a bonus incentive compensation plan for our executive officers. This program permits our compensation committee, in its discretion, to award cash bonuses annually to our executive officers. Each employment agreement also provides for the subject officer to receive compensation, in the event that we terminate the officer's employment without "cause" (as defined in the agreement), or if the officer resigns for "good reason" (as defined in the agreement). We describe the severance benefits our named executives receive in "Potential Payments Upon Termination of Employment" below.

Each employment agreement also contains a "non-compete" provision prohibiting the officer from managing, controlling, participating in or operating a competing REIT for a period of one year following termination of employment following our termination of the officer for cause or resignation of the subject officer other than for "good reason." Each agreement requires that the officer act in accordance with provisions of Maryland law relating to corporate opportunities.

"Good reason" is generally defined by the employment agreements as the occurrence of one or more of the following without the executive's written consent:

- a material breach of the agreement by us;
- a materially significant change in the executive's duties, authorities or responsibilities;
- the relocation of the executive's principal place of employment more than 60 miles from New York, New York; and
- our failure to obtain the assumption in writing by any successor to all or substantially all of our assets or business within fifteen days upon a merger, consolidation, sale or similar transaction of its obligations to perform the executive's employment agreement.

We have a thirty day cure period to cure a breach of the first three items described above.

“Cause” is generally defined by the employment agreements as the occurrence of one or more of the following:

- the executive’s failure to substantially perform the duties described in his employment agreement (provided we give the executive 60 day prior notice of the failure and provide the executive an opportunity to respond, and, if the failure is able to be cured, an opportunity to cure the failure);
- acts or omissions constituting recklessness or willful misconduct on the part of the executive in respect of his fiduciary obligations to us which is materially and demonstrably injurious to us; and
 - the executive’s conviction for fraud, misappropriation or embezzlement in connection with our assets.

The employment agreements do not necessarily require payments by us upon a change of control of us, unless the change of control includes the failure of our successor to agree to perform its obligations under the employment agreement. In such a case, the executive would have “good reason” to terminate the agreement and require us to make severance payments.

Tax Considerations

Section 162(m) of the Internal Revenue Code denies a tax deduction for compensation in excess of \$1 million paid to our Chief Executive Officer and our three other most highly compensated officers, excluding the Financial Officer, unless the compensation is paid under a program that has satisfied stockholder approval requirements and the compensation is “performance-based” within the meaning of Section 162(m). Currently, the employment agreements of these officers do not contain performance-based criteria and the compensation program has not been approved by our stockholders. As a result, portions of the compensation we pay is subject to the \$1 million deduction limitation because it is not considered performance-based within the meaning of Section 162(m).

As noted above, the compensation committee has traditionally believed that it is in the best interests of us and our stockholders that the overall compensation of our officers be calculated as a percentage of book value. Nevertheless, in view of the non-deductibility of a portion of the compensation we pay, the compensation committee reviews, from time to time, its policies to determine whether we should in the future add performance-based criteria to executive compensation. Adding performance-based criteria will require amending the existing employment agreements of the applicable employees.

Consideration of “Say on Pay” and “Say on Frequency” Voting Results

The compensation committee considered the results of the advisory stockholder “say on pay vote” at our 2011 annual meeting of stockholders in making compensation decisions for 2011. Because our stockholders approved our compensation program as described in our 2011 proxy statement, the compensation committee believes that stockholders support our compensation policies. Therefore, the compensation committee continued to apply the same principles in determining the amounts and types of executive compensation for 2011.

The board of directors has considered the appropriate frequency of future non-binding advisory votes regarding compensation awarded to its named executive officers. Among other factors, the board of directors considered the voting results at our 2011 annual meeting of stockholders with respect to the non-binding advisory vote regarding the frequency of non-binding advisory votes regarding compensation awarded to its named executive officers. The board of directors has determined that future non-binding advisory votes regarding compensation awarded to its named executive officers will be submitted to our stockholders every three years. The board of directors will continue to evaluate this decision annually.

Compensation Committee Report

The compensation committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

(1) Amounts shown in this column represent the aggregate grant date fair value of stock option awards granted during the respective year computed in accordance with Financial Accounting Standards Board ASC Topic 718. For the assumptions regarding determination of the grant date fair value of stock options, see Note 12 to our Consolidated Financial Statements for the 2011 fiscal year included in our Form 10-K filed with the SEC on February 28, 2011.

(2) The amounts shown in this column reflects for each named executive officer:

- matching contributions of \$9,800 were made by us with respect to each of the named executive officers pursuant to our Section 401(k) plan, other than to Mr. Farrell who did not receive a matching contribution and Mr. Keyes who did not receive a matching in 2009; and
- the premiums associated with term life insurance that we provide to our named executives officers.

(3) Mr. Keyes joined the Company on September 1, 2009.

We have in effect employment agreements with each of our named executive officers. The employment agreements set forth minimum base salary amounts and provide each executive with a targeted aggregate compensation which is calculated as a percentage of our book value. We describe these employment agreements in “Compensation Discussion and Analysis” above. We describe the severance payments we may pay to these executives in “Potential Payments Upon Termination Of Employment” below.

Grants of Plan-Based Awards

We did not grant our executive officers any plan based awards in 2011. We describe our Plan in “Compensation Discussion and Analysis” above and in “Equity Compensation Plan Information” below.

Pension Benefits

We do not provide any of our employees with pension benefits. We do, however, make matching contributions to all our employees, including our named executive officers, who contribute to our Section 401(k) plan. We make a matching contribution in cash of 100% of the employee's elective deferral contribution up to 3% of the employee's pay, and 50% of the employee's pay above 3% up to 5% of the employee's pay (subject to IRS limits).

Nonqualified Deferred Compensation

We do not provide any of our employees with any nonqualified deferred compensation plans.

Potential Payments Upon Termination Of Employment

The following summaries set forth potential payments payable to our named executive officers upon termination of employment or a change in control of us under their current employment agreements. As discussed above, each of our named executives has an employment agreement which provides for an annual base salary and performance bonus which in the aggregate equal a percentage of our book value. Post employment payments to our executives are determined by reference to their base salary and performance bonus.

Termination upon Death, Disability or for Cause

An executive's employment with us terminates immediately upon his death. Thereafter, we are obligated to pay his estate all accrued but unpaid amounts of his base salary and the pro rata portion of his performance bonus for the year of his death. The amount of the performance bonus paid in the year of an executive's death will equal the maximum performance bonus he would have been entitled to receive for that year (as determined at the end of the year of his death) multiplied by a ratio equal to the number of days he was employed in the year of his death, divided by

365. The performance bonus will be paid at the same time and manner had the executive not died. In addition, the executive's beneficiaries will receive benefits in accordance with the Company's retirement, insurance and other applicable programs and plans then in effect.

We are entitled to terminate an executive's employment due to his disability if he has been absent from the full-time performance of his duties with the Company for six consecutive months, and if, within thirty days after written notice by us, he has not returned to the full-time performance of his duties. We will continue to pay the executive's base salary during the period that the executive is first absent from the full-time performance of his duties and until the later of the date he is terminated from employment due to disability or the date he begins receiving long-term disability payments under our long term disability plan. In addition, the executive will be entitled to receive a pro rata portion of the performance bonus for the year of the executive's termination due to disability. The amount of the pro rata portion of the performance bonus will be determined in the same manner as described above upon termination upon an executive's death. In addition, the executive's beneficiaries will receive benefits in accordance with the Company's retirement, insurance and other applicable programs and plans then in effect.

If we terminate an executive's employment for "cause" at any time prior to expiration of the term of the agreement, we will be obligated to pay him all accrued but unpaid amounts of his base salary and the pro rata portion of his performance bonus for the year of his termination. The amount of the pro rata portion of the performance bonus will be determined in the same manner as described above upon termination upon an executive's death. In addition, the executive's beneficiaries will receive benefits in accordance with the Company's retirement, insurance and other applicable programs and plans then in effect.

Termination by Us Other Than for Cause or Termination by the Executive for Good Reason

If we terminate an executive's employment without "cause," or if the executive officer resigns for "good reason", we must immediately pay any unpaid portion of the executive's base salary. In addition, the executive is entitled to receive a severance payment equal to three times the greater of (i) the executive's combined maximum base salary and actual performance bonus for the preceding fiscal year or (ii) the average for the three preceding years of the officer's combined actual base salary and performance bonus compensation. One half of this severance amount is payable immediately and the remaining 50% is payable in monthly installments over the succeeding three months.

If any payments, distributions, or benefits provided or to be provided to the executive under the employment agreement or otherwise are determined to be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code on payments related to a change in control (or parachute payments), each employment agreement provides that such parachute payments will be reduced to an amount that will avoid imposition of such excise taxes. However, the parachute payments will not be reduced if it is determined that the officer would have a greater net after-tax benefit after paying the applicable excise taxes on the unreduced parachute payments. If the parachute payments are not reduced under the terms of the employment agreements, Section 280G of the Code may limit our ability to deduct such payments for Federal income tax purposes.

In addition, if we terminate without cause or if the executive terminates for good reason, all unexercised stock options owned by the executive as of the termination date, whether vested or not, become immediately exercisable. If however, any incentive stock options will not be exercisable for the first time in a calendar year to the extent that all incentive stock options exercisable by the executive during that calendar year exceeds \$100,000.

Termination by Executive Without Good Reason

If the executive terminates the agreement without good reason, we are obligated to pay him only all accrued but unpaid amounts of his base salary and any previously awarded but unpaid performance bonus.

Potential Post-Employment Payments and Payments on a Change in Control

Each of our named executives has the right to terminate employment for “good reason” and receive severance payment from us. We are not necessarily required to make payments to an executive upon a change of control of us, unless the change of control includes the failure of our successor to agree to perform its obligations under the employment agreement. Such an event would constitute “good reason” for purposes of the executive’s right to terminate the agreement and receive severance payments.

The following table presents the potential post employment payments and payments our named executive officers would be entitled under their employment agreements and assumes that the triggering event took place on December 31, 2011.

COMPENSATION OF DIRECTORS

We pay an annual director's fee equal to \$100,000 to each director who is not an officer or employee, as well as a fee of \$500 for each meeting of our board of directors or any committee attended by each independent director (or \$250 for any meeting at which the director participates by conference telephone call). We also reimburse all directors for costs and expenses for attending these meetings.

Each non-employee director, upon appointment to our board of directors, receives a non-discretionary automatic grant of non-qualified stock options for the purchase of 5,000 shares of common stock; these options vest in four equal installments over a period of four years from the date of grant. In addition, each non-employee director is entitled to receive for each year that he or she serves as a director, options to purchase an additional 1,250 shares of common stock; these options vest on the date of grant. The exercise price for each option is the fair market value of our common stock as of the date on which the option is granted. Non-employee directors also are entitled to receive

discretionary awards under the Plan.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

This section discusses certain direct and indirect relationships and transactions involving us and certain persons related to us. A. Alexandra Denahan is the sister of Wellington J. Denahan-Norris, our Vice Chairman of the Board, Chief Operating Officer and Chief Investment Officer, and is employed by us as Deputy Chief Financial Officer of Annaly and FIDAC and received \$5,700,000 in salary and bonus during 2011. Ms. Alexandra Denahan is not an executive officer. Matthew J. Lambiase, one of our executive officers, is the son of our director, John A. Lambiase, and is employed by us as Managing Director and Head of Business Development, and received \$6,750,000 in salary and bonus for 2011. Ms. Alexandra Denahan and Mr. Lambiase also participate in other employee benefit plans and arrangements which are generally made available to other employees at their level (including health, vacation, Section 401(k) and insurance plans). The compensation of these individuals was established in accordance with our employment and compensation practices applicable to employees with equivalent qualifications, experience and responsibilities.

Approval of Related Person Transactions

Each of our directors, director nominees and executive officers is required to complete an annual disclosure questionnaire and report all transactions with us in which they and their immediate family members had or will have a direct or indirect material interest with respect to us. We review these questionnaires and, if we determine it necessary, discuss any reported transactions with the entire board of directors. We do not, however, have a formal written policy for approval or ratification of such transactions, and all such transactions are evaluated on a case-by-case basis. If we believe a transaction is significant to us and raises particular conflict of interest issues, we will discuss it with our legal counsel, and if necessary, we will form an independent board committee which has the right to engage its own legal and financial counsel to evaluate and approve the transaction. An example of this process was our acquisition of FIDAC from certain of our executive officers. Other types of transactions, such as employment of individuals who may be related to our executive officers or directors which are described above, are discussed by the board of directors, but not approved or ratified by the board.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Our compensation committee is comprised solely of the following non-employee directors: Messrs. Green, Nordberg and Segalas. None of them is serving or has served as an officer or employee of us or any affiliate or has any other business relationship or affiliation with us, except his service as a director, and there are no other compensation committee interlocks that are required to be reported under the rules and regulations of the Securities Exchange Act of 1934, as amended.

EQUITY COMPENSATION PLAN INFORMATION

On May 27, 2010, at our 2010 Annual Meeting of Stockholders, our stockholders approved the Incentive Plan. The Incentive Plan authorizes the Compensation Committee of the board of directors to grant options, stock appreciation rights, dividend equivalent rights, or other share-based award, including restricted shares up to an aggregate of 25,000,000 shares, subject to adjustments as provided in the Incentive Plan. Existing awards made under the Prior Plan for executive officers, key employees and nonemployee directors will remain effective. Stock options are issued at the current market price on the date of grant.

The following table provides information as of December 31, 2011 concerning shares of our common stock authorized for issuance under our Plan.

| Plan Category | Number of securities to be issued upon exercise of outstanding options, warrants and rights | Weighted-average exercise price of outstanding options, warrants and rights | Number of securities remaining available for future issuance under Plan (excluding previously issued) |

REPORT OF THE AUDIT COMMITTEE

Since our inception, we have had an audit committee composed entirely of non-employee directors. The members of the audit committee meet the independence and experience requirements of the New York Stock Exchange. The board of directors has determined that Mr. Brady is the audit committee financial expert and is an independent director within the meaning of the applicable rules of the Securities and Exchange Commission and the New York Stock Exchange. In 2011, the Committee met four times. The audit committee has adopted a written charter outlining the practices it follows. A full text of our audit committee charter is available for viewing on our website at www.annaly.com. Any changes in the charter or key practices will be reflected on our website.

During the year 2011, at each of its meetings, the audit committee met with the Chief Financial Officer and our independent registered public accounting firm. The audit committee's agenda is established by the audit committee's chairman. During the year 2011, the audit committee engaged Deloitte & Touche LLP as our independent registered public accounting firm and reviewed with our Chief Financial Officer and the independent registered public accounting firm, overall audit scope and plans, the results of external audit examination, evaluations by the independent registered public accounting firm of our internal controls and the quality of our financial reporting.

The audit committee has reviewed and discussed the audited financial statements with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. In addressing the quality of management's accounting judgments, members of the audit committee asked for and received management's representations that our audited financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, and have expressed to both management and registered public accounting firm their general preference for conservative policies when a range of accounting options is available.

In its meetings with representatives of the independent registered public accounting firm, the audit committee asks them to address, and discusses their responses to several questions that the audit committee believes are particularly relevant to its oversight. These questions include:

- Are there any significant accounting judgments made by management in preparing the financial statements that would have been made differently had the registered public accounting firm themselves prepared and been responsible for the financial statements?
- Based on the registered public accounting firm's experience, and their knowledge of us, do our financial statements fairly present to investors, with clarity and completeness, our financial position and performance for the reporting period in accordance with generally accepted accounting principles, and SEC disclosure requirements?
- Based on the registered public accounting firm's experience, and their knowledge of us, have we implemented internal controls that are appropriate?

The audit committee believes that, by thus focusing its discussions with the independent registered public accounting firm, it can promote a meaningful dialogue that provides a basis for its oversight judgments.

The audit committee also discussed with the independent registered public accounting firm other matters required to be discussed by the registered public accounting firm with the audit committee under the standards of Public Company Accounting Oversight Board. The audit committee received and discussed with the registered public accounting firm their annual written report on their independence from us and our management, which is made pursuant to applicable requirements of the Public Company Accounting Oversight Board, and considered with the registered public accounting firm whether the provision of non-audit services is compatible with the registered public accounting firm's independence.

In performing all of these functions, the audit committee acts only in an oversight capacity and, necessarily, in its oversight role, the audit committee relies on the work and assurances of our management, which has the primary responsibility for financial statements and reports, and of the independent registered public accounting firm, who, in their report, express an opinion on the conformity of our annual financial statements to generally accepted accounting principles and on the effectiveness of our internal control over financial reporting as of year end.

In reliance on these reviews and discussions, and the report of the independent registered public accounting firm, the audit committee has recommended to our board of directors, and our board of directors has approved, that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2011 for filing with the Securities and Exchange Commission.

The foregoing report has been furnished by the current members of the audit committee:

Kevin P. Brady

Jonathan D. Green

PROPOSAL 2
RATIFICATION OF APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our audit committee has appointed Ernst & Young LLP, or Ernst & Young, to serve as our independent registered public accounting firm for the fiscal year ending December 31, 2012, and shareholders are asked to ratify the selection at the Annual Meeting.

We expect that representatives of Ernst & Young will be present at the annual meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions. If the appointment of Ernst & Young is not ratified, our audit committee will reconsider the appointment. Deloitte & Touche LLP, or Deloitte, was our independent registered public accounting firm from our formation in November 1996 through the year 2011. During this time, Deloitte and its affiliated entities, or D&T, performed accounting and auditing services for us. We expect that representatives of D&T will be present at the annual meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” THE RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE YEAR 2012.

Change in Accountants

On March 13, 2012, our audit committee approved the dismissal of Deloitte as our independent registered public accounting firm, effective immediately.

Deloitte’s report on our consolidated financial statements for the fiscal years ended December 31, 2011 and 2010 did not contain any adverse opinion or disclaimer of opinion, nor was such report qualified or modified as to uncertainty, audit scope or accounting principles.

During the two fiscal years ended December 31, 2011 and 2010 and through March 13, 2012, there were (i) no disagreements (as that term is defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) between us and Deloitte on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of Deloitte would have caused Deloitte to make reference thereto in its reports on our consolidated financial statements for such years, and (ii) no “reportable events” (as that term is defined in Item 304(a)(1)(v) of Regulation S-K).

On March 13, 2012, we provided Deloitte with a copy of the Form 8-K relating to the change in independent registered public accounting firm and requested that Deloitte provide us with a letter addressed to the Securities and Exchange Commission stating whether or not Deloitte agrees with the above disclosures. A copy of Deloitte’s letter, dated March 13, 2012, is attached as Exhibit 16.1 to our Form 8-K filed on March 19, 2012 relating to the change in independent registered public accounting firm.

On March 13, 2012, our audit committee approved the appointment of Ernst & Young as our new independent registered public accounting firm, effective immediately, to perform independent audit services for the fiscal year ended December 31, 2012 (including with respect to our quarterly period ended March 31, 2012). During the two fiscal years ended December 31, 2011 and 2010 and through March 13, 2012, neither we, nor anyone on our behalf, consulted Ernst & Young regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered with respect to our consolidated financial statements, and no written report or oral advice was provided to us by Ernst & Young that was an important factor considered by us in reaching a decision as to any accounting, auditing or financial reporting issue; or (ii) any matter that was the subject of a disagreement (as that term is defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a “reportable event” (as that term is defined in Item 304(a)(1)(v) of Regulation S-K).

Relationship with Independent Registered Public Accounting Firm

In addition to performing the audits of our financial statements and management’s assessment of the effectiveness of the internal control over financial reporting, Deloitte and its affiliated entities, or D&T, provided audit-related services for us during 2011 and 2010. The aggregate fees billed for 2011 and 2010 for each of the following categories of services are set forth below:

Audit Fees: The aggregate fees billed by D&T for audit and reviews of our 2011 financial statements were \$770,550. The aggregate fees billed by D&T for audit and reviews of our 2010 financial statements were \$769,500.

Audit-Related Fees: The aggregate fees billed by D&T for audit-related services during 2011 were \$17,000. The aggregate fees billed by D&T for audit related services during 2010 were \$157,000. The audit-related services in 2011 and 2010 principally included due diligence and accounting consultation relating to our public offerings.

Tax Fees: The aggregate fees billed by D&T for tax services for 2011 were \$37,820. The aggregate fees billed by D&T for tax services for 2010 were \$46,500.

All Other Fees: D&T did not perform any other kinds of services for us during 2011 or 2010, and we did not pay D&T any additional fees.

The audit committee has also adopted policies and procedures for pre-approving all non-audit work performed by our independent registered public accounting firm. Specifically, the audit committee pre-approved the use of D&T for the following categories of non-audit services: merger and acquisition due diligence and audit services; tax services; internal control reviews; employee benefit plan audits; and reviews and procedures that we request D&T to undertake to provide assurances on matters not required by laws or regulations. In addition, the audit committee specifically pre-approved the use of Ernst & Young for the tax services. In each case, the audit committee also set a specific annual limit on the amount of such services which we would obtain from the independent registered public accounting firm, and required management to report the specific engagements to the audit committee on a quarterly basis, and also obtain specific pre-approval from the audit committee for any engagement over five percent of the total amount of revenues estimated to be paid by us to such independent registered public accounting firm during the then current fiscal year. Our audit committee approved the hiring of each independent registered public accounting firm to provide all of the services detailed above prior to such independent registered public accounting firm’s engagement. None of the services related to the Audit-Related Fees described above was approved by the audit committee pursuant to a waiver of pre-approval provisions set forth in applicable rules of the Securities and Exchange Commission.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

We believe that based solely upon our review of copies of forms we have received or written representations from reporting persons, during the fiscal year ended December 31, 2011, all filing requirements under Section 16(a) of the Securities Exchange Act of 1934, as amended, applicable to our officers, directors and beneficial owners of more than ten percent of our common stock were complied with on a timely basis.
