ITEM 1.01. Entry Into a Material Definitive Agreement

On July 28, 2005, FTI Consulting, Inc. (FTI) entered into (i) a purchase agreement (the Senior Note Purchase Agreement) for a sale of \$200.0 million in aggregate principal amount of 7³/₈ Senior Notes due 2013 (the Senior Notes) to the initial purchasers named therein (the Initial Purchasers), and (ii) a purchase agreement (together with the Senior Note Purchase Agreement, the Purchase Agreements) for the sale of \$150.0 million in aggregate principal amount of 3³/₄% Convertible Senior Subordinated Notes due July 15, 2012 (the Convertible Notes) to the Initial Purchasers, in each case in offerings (the Offerings) conducted pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended (the Securities Act). The Purchase Agreements contain customary representations and warranties of the parties and indemnification and contribution provisions whereby FTI, on the one hand, and the Initial Purchasers, on the other hand, have agreed to indemnify each other against certain liabilities. The Private Placements were consummated on August 2, 2005.

The Senior Notes were issued pursuant to an indenture (the Senior Notes Indenture), dated as of August 2, 2005, by and among FTI, the guarantors party thereto and Wilmington Trust Company, as trustee (the Trustee). The Senior Notes will mature on June 15, 2013 and rank *pari passu* in right of payment with all of FTI's existing and future senior indebtedness, if any, and senior in right of payment to all of FTI's existing and future subordinated indebtedness. FTI will have the option to redeem all or a portion of the Senior Notes at any time on or after June 15, 2009 at specified redemption prices. At any time before June 15, 2008, FTI may also redeem up to 35% of the aggregate principal amount of the Senior Notes at a redemption price of 107.625% of the principal amount, plus accrued and unpaid interest, if any, to the date of redemption, with the proceeds of certain equity offerings.

The Convertible Notes were issued pursuant to an indenture (the Convertible Notes Indenture and, together with the Senior Notes Indenture, the Indentures), dated as of August 2, 2005, by and among FTI, the guarantors party thereto and the Trustee. The Convertible Notes will be convertible, only under certain conditions, at the option of the holder. Upon conversion, the principal of the Convertible Notes will be paid in cash, and any excess over the conversion rate will be paid in shares of FTI common stock or cash at an initial conversion rate of 31.9980 shares of FTI common stock per \$1,000 principal amount of Convertible Notes, which represents an initial conversion price of \$31.25 per share. This represents a premium of 30.0% to the last reported sale price of FTI's common stock on July 28, 2005, of \$24.04. The Convertible Notes are non-callable.

FTI used a portion of the net proceeds of the Offerings to repay its existing \$142.5 million term loan indebtedness and to repurchase approximately \$125.3 million of common shares through a combination of direct share repurchases and an accelerated stock buyback program. FTI plans to use the remainder of the net proceeds for stock repurchases and for general corporate purposes, which may include acquisitions.

In connection with the Offerings, FTI entered into registration rights agreements with the Initial Purchasers relating to the Senior Notes and the Convertible Notes (the Registration Rights Agreements). In the registration rights agreement relating to the Senior Notes, FTI agreed to file an exchange offer registration statement and to undertake an offer to exchange the Senior Notes for notes with substantially identical terms that are registered under the Securities Act of 1933, as amended (the Securities Act). In the registration rights agreement relating to the Convertible Notes, FTI agreed to file and use commercially reasonable efforts to make and keep effective a shelf registration statement permitting registered resales of the Convertible Notes and the shares of FTI's common stock issuable upon conversion of the Convertible Notes.

In connection with the Offerings, FTI also entered into a second amendment to its senior secured credit facility (the Credit Facility Amendment) to facilitate the Offerings, adjust its financial covenants and effect certain other changes, including elimination of the lenders term loan commitment.

The foregoing descriptions of the Purchase Agreements, Indentures, Registration Rights Agreements and Credit Facility Amendment are qualified in their entireties by reference to the full and complete terms of the copies of those agreements that are attached as exhibits to this Current Report on Form 8-K and incorporated by reference herein.

ITEM 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

ITEM 3.02. Unregistered Sales of Equity Securities.

The information included under Item 1.01 above with respect to the Offerings is incorporated under these Items 2.03 and 3.02.

ITEM 7.01. Regulation FD Disclosure.

On August 2, 2005, FTI issued a press release (including financial tables) announcing that it had closed the Offerings and updating its financial guidance for the remainder of 2005. A copy of the press release (and financial tables) is furnished as an exhibit to this Current Report on Form 8-K.

The press release contains updated guidance relating to FTI s earnings before interest, taxes, depreciation and amortization (EBITDA) and EBITDA by business segment. Although EBITDA is not a measure of financial condition or performance determined in accordance with generally accepted accounting principles, FTI believes that it is useful operating performance measures for evaluating our results of operations from period to period and as compared to our competitors. EBITDA is a common alternative measure of operating performance used by investors, financial analysts and rating agencies to value and compare the financial performance of companies in our industry. FTI uses EBITDA to evaluate and compare the operating performances of its segments and it is one of the primary measures used to determine employee bonuses. FTI also uses EBITDA to value businesses it considers acquiring. EBITDA is not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies unless the definition is the same. We believe that EBITDA as a supplemental financial measure is also indicative of FTI s capacity to incur and service debt and thereby provides additional useful information to investors regarding FTI s financial condition and results of operations. EBITDA for purposes of the covenants set forth in our senior secured credit facility and the Senior Notes Indenture is not calculated in the same manner as calculated for purposes of the attached Financial Tables accompanying the Press Release.

The information included in this Item 7.01, including Exhibit 99.1 furnished herewith, shall be deemed not to be filed for purposes of Section 18 of the Securities Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.
