Item 1.01 Entry into a Material Definitive Agreement.

On May 19, 2006, American Greetings Corporation entered into an Underwriting Agreement (the "Underwriting Agreement"), with UBS Securities LLC, J.P. Morgan Securities Inc., and McDonald Investments Inc., as the managing underwriters, in connection with an underwritten public offering (the "Offering") of \$200,000,000 aggregate principal amount of 7³/₈% Senior Notes due 2016 (the "Notes"). The Underwriting Agreement includes indemnification and contribution obligations and other terms and conditions customary in agreements of this type. The Offering is expected to be completed on May 24, 2006. Upon completion of the Offering, the Notes will be issued pursuant to the Indenture (defined below) with the following terms:

The Notes will mature on June 1, 2016 and will bear interest at a fixed rate of 7³/₈% per annum, payable semi-annually on June 1 and December 1 of each year, commencing December 1, 2006. The Notes will be our general unsecured obligations. The Notes will rank equally with our other senior unsecured indebtedness and senior in right of payment to all of our obligations that are, by their terms, expressly subordinated in right of payment to the Notes. The Notes will be effectively subordinated to all of our secured indebtedness, including borrowings under our new credit facility, to the extent of the value of the assets securing such indebtedness. The Notes will be structurally subordinated to all existing and future obligations of our subsidiaries that do not guarantee the Notes. On the issue date, none of our subsidiaries will guarantee the Notes.

Except as set forth below, the notes may not be redeemed prior to June 1, 2011. At any time or from time to time on or after June 1, 2011, we, at our option, may redeem the notes, in whole or in part, at the redemption prices (expressed as percentages of principal amount) set forth below, together with accrued and unpaid interest thereon, if any, to the redemption date, if redeemed during the 12-month period beginning June 1 of the years indicated:

Date	Price
2011	103.688%
2012	102.458%
2013	101.229%
2014 and thereafter	100.000%

In addition, at any time prior to June 1, 2011, the notes may also be redeemed or purchased (by American Greetings or any other person) in whole or in part, at our option, at a price equal to 100% of the principal amount thereof plus the Applicable Premium as of, and accrued but unpaid interest, if any, to, the date of redemption or purchase (the "Redemption Date") (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Applicable Premium means, with respect to a Note at any Redemption Date, the greater of:

(1) 1.0% of the principal amount of such Note; and

(2) the excess of:

(a) the present value at such Redemption Date of (1) the redemption price of such Note on June 1, 2011 (such redemption price being that described above) plus (2) all required remaining scheduled interest payments due on such Note through June 1, 2011, other than accrued interest to such Redemption Date, computed using a discount rate equal to the Treasury Rate plus 50 basis points per annum discounted on a semi-annual bond equivalent basis, over

(b) the principal amount of such Note on such Redemption Date.

Treasury Rate means, with respect to a Redemption Date, the yield to maturity at the time of computation of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15(519) that has become publicly available at least two business days prior to such Redemption Date

(or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from such Redemption Date to June 1, 2011; *provided, however*, that if the period from such Redemption Date to June 1, 2011 is not equal to the constant maturity of a United States Treasury security for which a weekly average yield is given, the Treasury Rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of United States Treasury securities for which such yields are given, except that if the period from such Redemption Date to June 1, 2011 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year shall be used.

At any time or from time to time prior to June 1, 2009, at our option, we may redeem up to 35% of the aggregate principal amount of the Notes with the net cash proceeds of one or more Qualified Equity Offerings (as defined in the Indenture) at a redemption price equal to 107.375% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest thereon, if any, to the date of redemption; *provided* that (1) at least 65% of the aggregate principal amount of Notes remains outstanding immediately after the occurrence of such redemption and (2) the redemption occurs within 90 days of the date of the closing of any such Qualified Equity Offering.

Upon the occurrence of any change of control (as defined in the Indenture), each holder of Notes will have the right to require us to purchase all of that holder's Notes for a cash price equal to 101% of the principal amount of the Notes to be purchased, plus accrued and unpaid interest, if any, to the date of purchase.

In connection with the Offering, we will enter an Indenture (the Indenture) with The Bank of Nova Scotia Trust Company of New York, as trustee (the Trustee). The Indenture will provide for the issuance by American Greetings of the Notes. The Indenture will contain certain covenants that, among other things, will limit our ability and the ability of certain of our restricted subsidiaries to:

incur additional debt;

declare or pay dividends, make distributions on or repurchase or redeem our capital stock;

make certain investments;

enter in agreements affecting the ability of our restricted subsidiaries to pay dividends;

enter into transactions with affiliates;

grant or permit liens;

sell assets;

enter in sale and leaseback transactions; and

consolidate, merge or sell all or substantially all of our assets.

The foregoing description of the Indenture and the Notes is qualified in its entirety by reference to the copy of the forms of such documents attached hereto as Exhibits 4.1 and 4.2, and incorporated herein by reference.

The Notes are registered pursuant to the Registration Statement on Form S-3 (File No. 333-134029) that American Greetings filed with the Securities and Exchange Commission (the SEC) on May 11, 2006 relating to the public offering from time to time of debt securities of American Greetings pursuant to Rule 415 of the Securities Act of 1933, as amended (the Registration Statement). In connection with American Greetings filing with the SEC of a definitive prospectus supplement, dated May 19, 2006, and prospectus, dated May 11, 2006, relating to the public offering of the Notes, American Greetings is filing the Underwriting Agreement as Exhibit 1.1 to this Current Report on Form 8-K, which is to
