This presentation contains certain statements that describe ITC Holdings Corp. ( ITC ) management 's beliefs concerning future conditions and prospects, growth opportunities and the outlook for ITC 's business, including ITC 's business and the electric utility industry based upon information currently available. Such statements are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Wherever possible, ITC has identified these forward-looking statements by using words such as anticipates , believes , intends , estimates , expects , projects and similar phrases. These forward-looking statements

based upon assumptions ITC management believes are reasonable. Such forward-looking statements are subject to risks and uncertainties which could cause ITC's actual results, performance and achievements to differ materially from those expressed implied by, these statements, including, among other things, (a) the risks and uncertainties disclosed in ITC's annual report on and ITC's quarterly reports on Form 10-Q filed with the Securities and Exchange Commission (the SEC) from time to time following transactional factors (in addition to others described elsewhere in this document and in subsequent filings with the SEC), risks inherent in the contemplated transaction, including: (A) failure to obtain approval by the Company's shareholders; (B) failure to obtain regulatory approvals necessary to consummate the transaction or to obtain regulatory approvals on favorable terms; (C) inability to obtain the required financings; (D) delays in consummating the transaction or the failure to consummate the transaction; (E) exceeding the expected costs of the transactions; (ii) legislative and regulatory actions, and (iii) conditions of the capital markets during the periods covered by the forward-looking statements.

Because ITC's forward-looking statements are based on estimates and assumptions that are subject to significant business, economic and competitive uncertainties, many of which are beyond ITC's control or are subject to change, actual results could be materially different and any or all of ITC's forward-looking statements may turn out to be wrong. They speak only as of the date made and are affected by assumptions ITC might make or by known or unknown risks and uncertainties. Many factors mentioned in this document and the exhibits hereto and in ITC's annual and quarterly reports will be important in determining future results. Consequently, ITC cannot assure you that ITC's expectations or forecasts expressed in such forward-looking statements will be achieved. Actual results may vary materially. Except as required by law, ITC undertakes no obligation to publicly update any of ITC's forward-looking statements, whether as a result of new information, future events, or otherwise.

The transaction is subject to certain conditions precedent, including regulatory approvals, approval of ITC's shareholders and availability of financing. ITC cannot provide any assurance that the proposed transactions related thereto will be completed, nor can ITC give assurances as to the terms on which such transactions will be consummated.

Entergy Transaction Update

STATUS

UPDATE / TIMELINE

Outreach efforts with key stakeholders ongoing; in process of preparing and refining regulatory applications and testimony:

Expect to finalize and initiate a sequenced

filing schedule beginning mid-summer for both retail jurisdictions and FERC  
Other required approvals include ITC shareholder approval, pre-merger notification under Hart Scott Rodino Act and receipt of IRS private letter ruling  
Anticipated timeline for these activities expected to allow for closing in 2013, as initially contemplated  
FERC conditionally approved MISO and its transmission owners proposal to establish a transition period for the integration of Entergy  
Entergy currently in process of seeking approvals from its retail regulators to join MISO  
Transaction agreements contingent on Entergy receiving approval to join an acceptable RTO

Key operating earnings drivers

Higher net income due to higher rate base and AFUDC at our operating companies

Partially offset by:

Lower revenues associated with the amortization of the ITC *Transmission* rate freeze revenue deferral which expired in May 2011 and

Lower G&A expenses in first quarter of 2011 due to recognition of a

regulatory asset associated with the Kansas V-Plan Project, which did not reoccur in first quarter 2012
