- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02. Results of Operations and Financial Condition.

This information will not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

On August 2, 2012, Kraft Foods Inc., a Virginia corporation, issued a press release announcing earnings for the second quarter ended June 30, 2012. A copy of the earnings press release is furnished as Exhibit 99.1 to this current report.

NON-GAAP FINANCIAL MEASURES

We report our financial results in accordance with accounting principles generally accepted in the United States (GAAP).

Our top-line measure is Organic Net Revenues, which excludes the impacts of divestitures (including for reporting purposes the Starbucks CPG business), currency and accounting calendar changes. We use Organic Net Revenues and corresponding metrics as non-GAAP financial measures. Management believes Organic Net Revenues better reflects the underlying growth from the ongoing activities of our business and provides improved comparability of results.

We use Adjusted Operating Income and Adjusted Segment Operating Income (formerly known as Underlying Operating Income and Underlying Segment Operating Income, respectively), which is defined as operating income (or segment operating income) excluding costs related to: the Integration Program; the Restructuring Program; and Spin-Off Costs, including transaction fees and other costs associated with the proposed spin-off of the North American grocery business. We use Adjusted Operating Income, Adjusted Segment Operating Income and corresponding metrics as non-GAAP financial measures. Management believes Adjusted Operating Income and Adjusted Segment Operating Income provide improved comparability of operating results.

We use Operating EPS, which is defined as diluted EPS attributable to Kraft Foods excluding costs related to: the Integration Program; the Restructuring Program; and Spin-Off Costs. We use Operating EPS and corresponding metrics as non-GAAP financial measures. Management believes Operating EPS provides improved comparability of operating results.

See the schedules attached to the press release for supplemental financial data and corresponding reconciliations of the non-GAAP financial measures referred to above to the most comparable GAAP financial measures for the three and six months ended June 30, 2012 and 2011. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our results prepared in accordance with GAAP. In addition, the non-GAAP measures we use may differ from non-GAAP measures used by other companies. Because GAAP financial measures on a forward-looking basis are neither accessible nor deemed to be significantly different from the non-GAAP financial measures, and reconciling information is not available without unreasonable effort, with regard to the non-GAAP financial measures in our Outlook, we have not provided that information.

SEGMENT OPERATING INCOME

Management uses segment operating income to evaluate segment performance and allocate resources. We believe it is appropriate to disclose this measure to help investors analyze segment performance and trends. Segment operating income excludes unrealized gains and losses on hedging activities (which are a component of cost of sales), certain components of our U.S. pension plan cost (which is a component of selling, general and administrative expenses), general corporate expenses (which are a component of selling, general and administrative expenses) and amortization of intangibles for all periods presented. We centrally manage pension plan funding decisions and determination of discount rate, expected rate of return on plan assets and other actuarial assumptions. Therefore, we allocate only the service cost component of our U.S. pension plan expense to segment operating income. We exclude the unrealized gains and losses on hedging activities from segment operating income to provide better transparency of our segment operating results. Once realized, we record the gains and losses on hedging activities within segment operating results. Accordingly, we do not present these items by segment because they are excluded from the segment profitability measure that management reviews.

Item 9.01. Financial Statements and Exhibits.
