Item 2.02. Results of Operations and Financial Condition.

- (a) On October 23, 2013, Texas Capital Bancshares, Inc. issued a press release and made a concurrent public presentation regarding its operating and financial results for its fiscal quarter ended September 30, 2013. A copy of the press release is attached hereto as Exhibit 99.1. A copy of the presentation is attached hereto as Exhibit 99.2.

The information in Item 2.02 of this report (including the exhibits hereto) shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall such information be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as expressly set forth by specific reference in such a filing.

Item 8.01. Other Events.

- (b) Federal Financial Institutions Examination Council (FFIEC) Financial Institution Letter FIL-44-2013 issued October 7, 2013, included Supplemental Instructions for September 30, 2013 Call Reports requiring that reporting institutions consider whether loans originated by third parties and acquired by the institution should be accounted for as a purchase of loans held for sale or as a secured loan to the originator that is held for investment based upon factors identified in the Supplemental Instructions. TCBI has reported interests in mortgage loans originated by our mortgage warehouse customers and acquired in our mortgage warehouse lending business as loans to the originator that are held for sale in our Call Reports prepared in accordance with regulatory accounting principles (RAP) and our GAAP basis financial statements. We will be reporting the mortgage loan interests as held for investment in the September 30, 2013 Call Report for Texas Capital Bank.

We are currently evaluating the impact of the FFIEC Supplemental Instructions, if any, on our GAAP financial reporting. We believe the loans held for sale classification applied to our purchased mortgage interests is in accordance with GAAP. We anticipate that our revised Call Report treatment of these loans will create a difference between RAP accounting and our GAAP accounting in our September 30, 2013, Form 10-Q and subsequent filings. Our initial analysis indicates that if we were to report purchased mortgage loan interests as loans held for investment for GAAP purposes, rather than as held for sale, the change would have no impact on net income or the statement of operations. There would be no change to total loans on our consolidated balance sheet. The activity from the mortgage warehouse lending program would be reclassified out of operating activities to investing activities within our consolidated statement of cash flows and as such would be reported as a net number, as opposed to the gross inflows and outflows currently shown in the operating activities section of that statement.
