We are mailing the Notice of Internet Availability of Proxy Materials on or about April 4, 2014. This Proxy Statement is being made available to our shareholders on or about April 4, 2014. In this Proxy Statement, we refer to Verisk Analytics, Inc. as the Company, Verisk, we, our or us and the Board of Directors as the Board.

ANNUAL MEETING INFORMATION

Date and Location. We will hold the annual meeting on Wednesday, May 21, 2014 at 8:00 AM, local time, at the offices of the Company, 545 Washington Boulevard, Jersey City, New Jersey 07310.

Admission. Only record or beneficial owners of our common stock as of the Record Date, as defined below, or their proxies, and eligible participants of the ISO 401(k) Savings and Employee Stock Ownership Plan, or ESOP, may attend the annual meeting in person. When you arrive at the annual meeting, you must present photo identification, such as a driver's license. Beneficial owners must also provide evidence of stock holdings, such as a recent brokerage account or bank statement.

Notice of Electronic Availability of Proxy Materials. Pursuant to the rules adopted by the SEC, we are making this Proxy Statement and our Annual Report on Form 10-K available to many of our shareholders electronically via the Internet. Accordingly, in compliance with this e-proxy process, on or about April 4, 2014, we are mailing to our beneficial owners (other than ESOP participants) the Notice of Internet Availability of Proxy Materials (Notice) containing instructions on how to access this Proxy Statement and our Annual Report on Form 10-K via the Internet and how to vote online. As a result, these beneficial owners will not receive a printed copy of the proxy materials in the mail unless they request a copy. The Notice is not a proxy card and cannot be used to vote your shares. If you would like to receive a printed or electronic copy of our proxy materials, you should follow the instructions for requesting such materials included in the Notice. Your participation in the e-proxy process enables us to save money on the cost of printing and mailing the documents to you. Beneficial owners may request to receive a printed set of the proxy materials by mail or electronically, in either case, free of charge.

Printed copies of the proxy materials are being sent to record holders of our stock and to eligible ESOP participants. All shareholders and eligible ESOP participants will be able to access the proxy materials at www.proxyvote.com.

Record and Beneficial Owners. If your shares are registered directly in your name with our transfer agent, Wells Fargo Shareowner Services, you are considered, with respect to those shares, to be a stockholder of record, and our annual meeting materials are being sent to you directly by us. As the stockholder of record, you have the right to grant your voting proxy or to attend the meeting and vote in person. If your shares are held in a brokerage account, including an Individual Retirement Account, or by a bank or other nominee, you are considered a beneficial owner of those shares held in street name and your broker or nominee is considered, with respect to those shares, to be the stockholder of record. As the beneficial owner, you have the right to direct your broker or nominee on how to vote your shares.

Table of Contents

VOTING INFORMATION

Record Date. The Record Date for the annual meeting is March 24, 2014. Record and beneficial owners may vote all shares of Verisk's common stock they owned as of the close of business on that date. ESOP participants may direct the Plan Trustee, Greatbanc Trust Company, to vote all shares of Verisk's common stock allocated to their ESOP accounts as of the close of business on that date. Each share of Class A common stock entitles you to one vote on the election of each of the Directors nominated for election and one vote on each other matter voted on at the annual meeting. On the Record Date 166,660,725 shares of Class A common stock were outstanding. We need a quorum consisting of a majority of the shares of Class A common stock outstanding on the Record Date present, in person or by proxy, to hold the annual meeting.

Submitting Voting Instructions for Shares Held Through a Broker. If you hold shares through a broker, follow the voting instructions you receive from your broker. If you want to vote in person at the annual meeting, you must obtain a legal proxy from your broker and present it at the annual meeting. If you do not submit voting instructions to your broker, your broker may still be permitted to vote your shares. New York Stock Exchange (NYSE) member brokers may vote your shares as described below:

Discretionary Items. The ratification of the appointment of Verisk's independent auditor is a discretionary item. NYSE member brokers that do not receive instructions from beneficial owners may vote on this proposal in their discretion, subject to any voting policies adopted by the broker holding your shares.

Nondiscretionary Items. The election of directors and the approval of the compensation of the Company's named executive officers on an advisory, non-binding basis are considered non-discretionary items. NYSE members that do not receive instructions from beneficial owners may not vote on these proposals on their behalf.

If you do not submit voting instructions and your broker does not have discretion to vote your shares on a matter, your broker will return the proxy card without voting on that matter (referred to as broker non-votes). Your shares will not be counted in determining the outcome of the vote on that matter. Therefore, if you hold your shares through a broker, it is critically important that you submit your voting instructions if you want your shares to count in the election of directors and the approval of the compensation of named executive officers on an advisory, non-binding basis.

Submitting Voting Instructions for Shares Held in Your Name. If you hold shares as a record holder, you may vote by submitting a proxy for your shares by mail, telephone or Internet as described on the proxy card. If you submit your proxy via the Internet, you may incur costs such as cable, telephone and Internet access charges. The deadline for submitting your proxy via the Internet or by telephone is 11:59 p.m., EDT, on May 20, 2014. Submitting your proxy will not limit your right to vote in person at the annual meeting. A properly completed and submitted proxy will be voted in accordance with your instructions, unless you subsequently revoke your instructions. If you submit a signed proxy card without indicating your vote, the person voting the proxy will vote your shares according to the Board's recommendations.

Submitting Voting Instructions for Shares held in the ESOP. Participants who hold shares indirectly through the ISO 401(k) Savings and Employee Stock Ownership Plan may instruct the Plan Trustee, Greatbanc Trust Company, how to vote all shares of Verisk Class A common stock allocated to their accounts. The Plan Trustee will vote the ESOP shares for which it has not received instruction in its discretion, in the best interests of ESOP participants. All votes will be kept confidential and individual votes will not be disclosed to management unless required by law.

Revoking Your Proxy. You can revoke your proxy at any time before your shares are voted by (1) delivering a written revocation notice prior to the annual meeting to the Corporate Secretary, Kenneth E. Thompson, Verisk Analytics, Inc., 545 Washington Boulevard, Jersey City, New Jersey 07310; (2) submitting a later proxy that we receive no later than the conclusion of voting at the annual meeting; or (3) voting in person at the annual meeting. Attending the annual meeting does not revoke your proxy unless you vote in person at the meeting.

Table of Contents

Votes Required to Elect Directors. Each director will be elected by a plurality of the votes cast with respect to such director. A plurality of the votes cast means that the open seats on the Board will be filled by the nominees who receive the highest number of votes until all of the open seats have been filled. Under Delaware law, if the director is not re-elected at the annual meeting, the director will continue to serve on the Board until such director's successor is elected and qualified or until such director's earlier resignation or removal.

Votes Required to Approve the Compensation of the Company's Named Executive Officers on an Advisory, Non-Binding Basis. The approval of the compensation of the Company's named executive officers on an advisory, non-binding basis requires the affirmative vote of a majority of the shares of common stock present in person or represented by proxy at the annual meeting and entitled to vote thereon.

Votes Required to Ratify Auditor. The ratification of the appointment of Deloitte & Touche requires the affirmative vote of a majority of the shares of common stock present in person or represented by proxy at the annual meeting and entitled to vote thereon.

Abstaining and Broker Non-Votes. You may vote to withhold on all or any of the director nominees, and you may vote abstain for any other proposal. Shares voting withhold, and broker non-votes with respect to any nominee for director will be excluded entirely from such vote and will have no effect on the election of directors. Shares voting abstain on the other proposals will be counted as present at the annual meeting for purposes of that proposal and your abstention will have the effect of a vote against the proposal. Broker non-votes will not be counted in determining the results of the votes on the say-on-pay proposal but will be counted as present at the annual meeting for purposes of the auditor ratification proposal.

ITEM 1 ELECTION OF DIRECTORS

Our Board of Directors is divided into three classes of four directors each serving staggered terms. The number of directors is fixed by our Board of Directors, subject to the terms of our amended and restated certificate of incorporation. Our Board of Directors consists of twelve directors and each director who is elected will be elected for a three-year term by the holders of a plurality of the votes cast by the holders of shares of common stock present in person or represented by proxy at the meeting and entitled to vote on the election of directors. Each director holds office until his or her successor has been duly elected and qualified or the director's earlier resignation, death or removal.

The nominees for election at the 2014 Annual Meeting are set forth below and will serve terms continuing until 2017. All of the director nominees are current directors of Verisk as of April 4, 2014, and each nominee has indicated that he will serve if elected. We do not anticipate that any nominee will be unable or unwilling to stand for election, but if that happens, your proxy may be voted for another person nominated by the Board or the Board may reduce its size.

We believe that each of the nominees listed below possesses key attributes that we seek in a director, including strong and effective decision-making, communication and leadership skills. We also believe that the Board as a whole possesses the right diversity of experience, qualifications and skills to oversee and address the key issues facing the Company.

Our Board has adopted a written charter for each of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee setting forth the roles and responsibilities of each committee. The reports of the Audit Committee and the Compensation Committee appear herein.

Director Attendance at Annual Meetings. The Company's Corporate Governance Guidelines state that directors are expected to attend annual meetings of shareholders. All of our directors attended the 2013 Annual Meeting of Shareholders, except for Mr. Motamed who could not attend due to extenuating circumstances.

Executive Sessions. The Company's Corporate Governance Guidelines provide that non-employee directors may meet in executive sessions and the Presiding Director will preside over these executive sessions. If any non-employee directors are not independent, then the independent directors will meet in executive sessions and the Presiding Director will preside over these executive sessions. In 2013, after every Board and committee meeting an executive session consisting of non-employee directors, each of whom is independent, was convened.

Communications with Directors. Shareholders and other interested parties may contact any member (or all members) of the Board by mail. To communicate with the Board, the Presiding Director, any individual director or any group or committee of directors (including the independent directors as a group), correspondence should be addressed to the Board or any such individual director or group or committee of directors by either name or title. All such correspondence should be sent to Kenneth E. Thompson, Executive Vice President, General Counsel and Corporate Secretary, Verisk Analytics, Inc., 545 Washington Blvd., Jersey City, NJ 07310. Any communication to report potential issues regarding accounting, internal controls and other auditing matters should be marked Personal and Confidential and sent to Verisk Analytics, Inc., 545 Washington Blvd., Jersey City, NJ 07310, Attention: Chair of the Audit Committee of Verisk Analytics, Inc., in care of Kenneth E. Thompson, Executive Vice President, General Counsel and Corporate Secretary. Our Policy for Reporting Concerns Related to Accounting and Ethical Violations (Whistleblower Policy) is available on our website at the Corporate Governance link under the Investors link at www.verisk.com.

Mandatory Retirement. Glen A. Dell is currently serving as a director for a three year term ending in 2015. In 2012, Mr. Dell reached the Company's mandatory retirement age under our Corporate Governance Guidelines for directors of 75. The Board and the Nominating and Corporate Governance Committee believed that, having recently transitioned to public company status, the Company would benefit from Mr. Dell's continued service for the remainder of his three year term. Accordingly, the applicability of the mandatory retirement age under our Corporate Governance Guidelines was waived in this circumstance in order to permit Mr. Dell to complete his three year term continuing until 2015. Pursuant to our Corporate Governance Guidelines, this waiver was renewed in 2014.

Compensation Governance. The Compensation Committee shall consist of at least three members, and shall be composed solely of independent directors meeting the independence requirements of the NASDAQ listing rules. The Compensation Committee currently consists of four members, each of whom is an outside director within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). The Compensation Committee has the responsibility and authority to approve performance-based compensation for the Company's executive officers. The Nominating and Corporate Governance Committee recommends nominees for appointment to the Compensation Committee from time-to-time and as vacancies or newly-created positions occur. Compensation Committee members are appointed by the Board and may be removed by the Board at any time.

Table of Contents

The Compensation Committee operates under a written charter adopted by the Board. As noted above, the Compensation Committee is responsible for determining, or recommending to the Board for determination, annually all compensation awarded to the Company's executive officers, including the CEO and the other executive officers named in the Summary Compensation Table herein (named executive officers or NEOs). In addition, the Compensation Committee administers the Company's equity incentive plans, including reviewing and approving equity grants to executive officers. Information on the Compensation Committee's processes, procedures and analysis of NEO compensation for fiscal 2013 is addressed in the Compensation Discussion and Analysis herein.

The Compensation Committee actively engages in its duties and follows procedures intended to ensure excellence in compensation governance, including those described below:

Identifying corporate goals and objectives relevant to executive officer compensation.

Evaluating each executive officer's performance in light of such goals and objectives and setting each executive officer's compensation based on such evaluation and such other factors as the Compensation Committee deems appropriate and in the best interests of the Company (including the cost to the Company of such compensation).

Determining any long-term incentive component of each executive officer's compensation.

Identifying corporate goals and objectives relevant to director compensation.

Evaluating each director's performance in light of such goals and objectives and setting each director's compensation, including any long-term incentive component, based on such evaluation and such other factors as the Compensation Committee deems appropriate and in the best interests of the Company (including the cost to the Company of such compensation).

Additional information about our executive compensation plans and arrangements and their administration is described in the Compensation Discussion and Analysis herein and the accompanying executive compensation tables. The Compensation Committee may delegate the administration of these plans as appropriate, including to one or more officers of the Company, to subcommittees of the Board or to the Chairperson of the Compensation Committee when it deems it appropriate and in the best interests of the Company.

The Compensation Committee has the sole authority to retain and terminate any advisor, including any compensation consultant assisting the Compensation Committee in the evaluation of CEO or other executive officer compensation, including authority to approve all such fees and other retention terms. As further described in the Compensation Discussion and Analysis herein, during 2013, the Compensation Committee retained a compensation consultant. In developing its views on compensation matters and determining the compensation awarded to our NEOs, the Compensation Committee also obtains input from the Company's Human Resources department, which collects information and prepares materials for the Compensation Committee's use in compensation decisions.

Compensation Committee Interlocks and Insider Participation. No member of the Compensation Committee is a current or former officer of the Company or any of our subsidiaries. In addition, there are no compensation committee interlocks with the Board of Directors or compensation committee of any other company.

Board Diversity. The Nominating and Corporate Governance Committee and the Board include diversity of viewpoints, background, experience and other demographics among the criteria they consider in connection with selecting candidates for the Board. While neither the Board nor the Nominating and Corporate Governance Committee has a formal diversity policy, one of many factors the Board and the Nominating and Corporate Governance Committee carefully considers in the selection of new directors is the importance to the Company of racial and gender diversity in board composition. Moreover, when considering director candidates, the Nominating and Governance Committee and the Board seek individuals with backgrounds and qualities that, when combined with those of our incumbent directors, enhance the Board's effectiveness and result in the Board having a broad range of skills, expertise, industry knowledge, diversity of opinion and contacts relevant to the Company's business.

Board Role in Risk Oversight. The Board of Directors oversees the Company's enterprise-wide approach to the major risks facing the Company and, with the assistance of the Audit Committee, oversees the Company's policies for assessing and managing its exposure to risk. The Board also considers risk in evaluating the Company's strategy. The Audit Committee reviews with management and the auditors the Company's enterprise risk assessment process and risk categories. As part of its process to identify and prioritize risks, the Company's Internal Audit department uses the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and segregates risks based on their nature and/or potential significance – strategic risk, financial risk, operational risk and compliance risk. The Chief Internal Auditor reports both to the Chairman of the Audit Committee and to the General Counsel. Management reviews with the Audit Committee the risk assessment process, the various enterprise risks, the prioritization of the identified risks and its mitigation plans. The Audit Committee reviews and discusses with the Chief Internal Auditor and Risk Manager the Company's internal system of audit and financial controls, enterprise risk information, internal audit plans, and the periodic report of audit activities. Finally, on a quarterly basis, management reviews its progress on the testing and mitigation of any identified risks with the Audit Committee. The Board's role in risk oversight has not had any effect on the Board's leadership structure.

DIRECTORS' COMPENSATION AND BENEFITS

EXECUTIVE COMPENSATION**Compensation Discussion and Analysis**

Edgar Filing: Verisk Analytics, Inc. - Form DEF 14A

Our business requires a highly skilled work force. While the capital intensity of our business is low, our human capital requirements are great. Our business depends on our senior leadership team, who possess business and technical capabilities that would be difficult, and costly, to replace. We have designed our compensation program to address these needs.

This section discusses the principles underlying our policies and decisions relating to the compensation of our principal executive officer, our principal financial officer, and our three other most highly compensated executive officers for 2013 (our named executive officers or NEOs). Under the rules of the SEC, Mr. Coyne, who retired from his position as Chief Executive Officer effective as of April 1, 2013 and continues to serve on our Board as Non-Executive Chairman also qualifies as one of our named executive officers for 2013; however, because his employment terminated during 2013, this section generally does not discuss or analyze his compensation. The payments and benefits that Mr. Coyne received in his capacity as our Chief Executive Officer

Table of Contents

are disclosed in the compensation tables following this section. The compensation that Mr. Coyne received in connection with his service as our Non-Executive Chairman on our Board is discussed on pages 9-10 of this Proxy Statement. The information in this section describes the manner and context in which compensation is earned by and awarded to our NEOs, and provides perspective on the tables and narrative that follow.

Compensation Program Objectives

The compensation program for our NEOs must attract, reward, motivate and retain the highly qualified individuals we need to plan and execute our business strategy. We believe our compensation program motivates managers by directly linking a portion of compensation both to the Company's performance and the individual's performance. To foster this direct link, we have designed our compensation program so that a significant percentage of an NEO's compensation is variable rather than fixed. This percentage increases with seniority, because the decisions of more senior managers have a greater impact on our performance.

Executives will earn variable compensation (cash awards and equity-based awards) only if warranted by Company and individual performance. Variable compensation for our NEOs consists of an annual cash payment pursuant to our Short Term Incentive, or STI, program and a long-term equity incentive award (typically in the form of stock options and restricted stock) pursuant to our Long Term Incentive, or LTI, program. We believe the design of our compensation program effectively encourages our senior managers, including our NEOs, to act in a manner that benefits the Company by creating long-term value for our stockholders.

Elements of the Company's Compensation Program

We currently provide the following elements of compensation to our NEOs:

base salary;

annual cash incentive awards;

long-term equity incentive awards; and

health, welfare and retirement plans.

Each compensation element fulfills one or more of our compensation program objectives.

Base Salary

We pay base salaries to attract, reward and retain managers, and so that in recruiting and retaining senior executives we are not disadvantaged by being seen as offering a lower level of fixed compensation for a given position level. We adjust salaries annually to maintain competitive market levels, which are based on the experience and scope of responsibilities of each NEO. We perform our own internal analysis of prevailing market levels of salary for comparable positions. This analysis utilizes our general knowledge of the industry, information gained by our human resources professionals in the hiring and termination process and, when available, commercially prepared market surveys obtained by our human resources professionals. In addition, we periodically retain outside compensation consultants to assess the competitiveness of compensation for certain members of senior management.

In 2013 the Compensation Committee retained Fredric W. Cook & Co. (Cook) to perform an analysis of senior management compensation. In addition, in 2013 Cook reviewed our peer group of companies and, to better align the size of the companies in the peer group to our company size, Cook recommended the removal of five companies (Acxiom, DST Systems, Dun & Bradstreet, Fair Isaac and Morningstar) and the addition of Alliance Data Systems to our previous peer group of 16 companies. Our Compensation Committee approved the recommended changes to the peer group and, accordingly, the 12 public companies whose compensation information was reviewed by Cook in its 2013 analysis were Alliance Data Systems, Equifax, FactSet Research Systems, Fidelity National Info Services, Fiserv, Gartner, IHS, McGraw-Hill Companies, Moody's, MSCI, Nielsen Holdings and Solera Holdings. The 2013 Cook assessment compared the then current compensation of members of our senior management to data from proprietary third party surveys and to information obtained by reviewing the proxy statements of the 12 publicly traded companies, which we consider to be our peer companies.

Table of Contents

The base salary of our Chief Executive Officer is determined by the Compensation Committee. The base salary of each of our other NEOs is recommended by the Chief Executive Officer, subject to approval by the Compensation Committee. Our NEOs' base salaries were initially determined by the Compensation Committee (in the case of Mr. Stephenson) or by Mr. Stephenson, with the approval of the Compensation Committee (in the case of other NEOs) based on the Company's assessment as described above. Base salary as a percentage of total compensation differs based on an executive's position and function. Generally, executives with the highest position and level of responsibility, and thus the greatest ability to influence our performance through their decision making, have the smallest percentage of their total compensation fixed as base salary. Annual adjustments to base salary are determined by the Compensation Committee (in the case of Mr. Stephenson), and by Mr. Stephenson with the approval of the Compensation Committee (in the case of other NEOs), based on the assessment of prevailing market compensation practices as described above, and based on the subjective evaluation of individual performance factors as discussed below in *Analysis of 2013 Variable Compensation*. We have historically placed greater emphasis on the potential of variable compensation to incent employees to create long-term value for our stockholders. In connection with Mr. Stephenson's promotion to Chief Executive Officer, the Compensation Committee approved an increase of his annual base salary to \$850,000, effective as of April 1, 2013, the date of his promotion.

Annual Cash Incentive Awards

Annual cash incentive awards are paid to all eligible employees, including NEOs, pursuant to our STI program. Prior to the beginning of each year, the Compensation Committee establishes financial performance goals for the coming year under our STI program. The primary financial performance goals relate to revenue growth and EBITDA margin, and are derived from our strategic and business growth plan. We selected revenue growth and EBITDA margin as the primary criteria for STI because we believe our business's ability to generate recurring revenue and positive cash flow is the key indicator of the successful execution of our business strategy. In addition, the Compensation Committee evaluates the accomplishment during the year of other financial and nonfinancial performance measures that we believe position the Company to achieve long-term future growth. These include earnings per share results, enhancements to productivity, achievement of new sales, accomplishment of strategic and operational initiatives, completion of acquisitions, development of strategic relationships and return on invested capital. At the conclusion of the performance year, funding of the aggregate STI pool for all eligible employees is determined by the Compensation Committee, taking into account the recommendation of the Chief Executive Officer with respect to awards for employees other than the Chief Executive Officer, based on the degree to which goals are achieved during the year. Cash STI awards are paid in March, in respect of performance for the prior year. Annual cash incentive awards made to our NEOs for 2013 were further subject to the achievement of performance goals set forth under our 2013 Performance Bonus Program, as discussed below under *Analysis of 2013 Variable Compensation*.

Section 162(m) of the Code generally limits the federal income tax deduction for compensation paid to each of the chief executive officer and the three other most highly compensated executive officers (other than the chief financial officer) of a publicly held corporation to \$1 million per fiscal year, with an exception for qualified performance-based compensation. As a newly public company, we have been eligible for special transition relief under Section 162(m) of the Code, which relief expired on May 15, 2013, the date of our 2013 Annual Meeting of Shareholders. In order to preserve the flexibility to award annual cash incentive awards for 2013 and future years that are eligible for the qualified performance-based compensation exception under Section 162(m) of the Code, the Board of Directors submitted to the Company's shareholders for their approval at our 2013 Annual Meeting of Shareholders, and the Company's shareholders approved, the Verisk Analytics, Inc. Executive Officer Annual Incentive Plan (the *Annual Incentive Plan*). Annual cash incentive awards for 2013 awarded under the Annual Incentive Plan to our Chief Executive Officer and our next three most highly compensated executive officers (other than our Chief Financial Officer) are intended to comply with the qualified performance-based compensation exception under Section 162(m) of the Code. For additional discussion of Section 162(m) of the Code, see below under *Tax and Accounting Considerations*.

See *Analysis of 2013 Variable Compensation* for a discussion of how we determined 2013 STI awards for NEOs.

Table of Contents

Long-Term Equity Incentive Awards

Long-term equity incentive awards are made annually to eligible employees, including NEOs, pursuant to our LTI program. On May 15, 2013, at our 2013 Annual Meeting of Shareholders, the Company's shareholders approved the Verisk Analytics, Inc. 2013 Equity Incentive Plan (the "2013 Equity Incentive Plan"), which is the successor plan to the Verisk Analytics, Inc. 2009 Equity Incentive Plan (the "2009 Equity Incentive Plan"). Among other features, the 2013 Equity Incentive Plan preserves the Company's flexibility to grant cash awards and certain equity-based awards that are structured to comply with the qualified performance-based compensation exception under Section 162(m) of the Code. For additional discussion of Section 162(m) of the Code, see below under *Tax and Accounting Considerations*.

Since 2011 we have awarded long-term equity incentive awards in the form of option grants and restricted stock, and for 2013 the value of the long-term equity incentive awards were 50% in the form of option grants and 50% in the form of restricted stock. In general, option and/or restricted stock awards under our LTI program are made in April, in respect of prior year performance. Option awards have an exercise price equal to the fair market value of our Class A common stock on the date of grant. At the conclusion of a plan year, the Compensation Committee determines the aggregate number of options and shares of restricted stock issuable to all eligible participants under the LTI program by evaluating the same performance goals used to determine the aggregate funding amount under the STI program. Long term incentive awards granted to our NEOs with respect to the 2013 performance year were further subject to the achievement of performance goals set forth under our 2013 Performance Bonus Program, as discussed below under *Analysis of 2013 Variable Compensation*.

See *Analysis of 2013 Variable Compensation* for a discussion of how we determined 2013 LTI awards for NEOs.

2013 Variable Compensation Performance Goals

The Compensation Committee established the following revenue growth and EBITDA margin goals as the primary factors for determination of aggregate award pools available to all eligible employees, including our NEOs, under both the STI and LTI programs for 2013:

	Revenue Growth	EBITDA Margin
Tier IV	15%	47%
Tier III	12%	45%
Tier II	10%	43%
Tier I	4%	40%
Below Threshold	<4%	<40%

During 2013, we achieved revenue growth of 11.1%, which is between the Tier II and Tier III performance goals, and EBITDA margin of 44.6%, which is also between the Tier II and Tier III performance goals. The Compensation Committee primarily considered the degree to which these goals were achieved, together with financial and nonfinancial performance measures including enhancements to productivity, achievement of new sales, accomplishment of strategic and operational initiatives, completion of acquisitions and development of strategic relationships in determining the aggregate STI and LTI pools. In assessing the revenue growth target, the Compensation Committee considered the Company's strong organic growth during 2013. The Compensation Committee established an STI pool of up to \$51.8 million for distribution to more than 4,150 eligible employees including all NEOs and an aggregate LTI pool of equity awards with an aggregate value of up to \$40.0 million for distribution to approximately 432 eligible employees, including all NEOs.

EBITDA margin is computed as EBITDA divided by revenues, and is a non-GAAP financial measure. See *Item 6 Selected Financial Data* in our Annual Report on Form 10-K for the year ended December 31, 2013 for a reconciliation of EBITDA to net income, the most directly comparable GAAP financial measure.

See *Analysis of 2013 Variable Compensation* for a discussion of how we determined 2013 STI and LTI awards for NEOs.

Table of Contents*Analysis of 2013 Variable Compensation*

For fiscal 2013, the Compensation Committee established the 2013 Performance Bonus Program for Executive Officers (the "2013 Performance Bonus Program") in order for each award made pursuant to the Annual Incentive Plan and the 2013 Equity Incentive Plan to be eligible for the "qualified performance-based compensation" exception under Section 162(m) of the Code. Under the 2013 Performance Bonus Program for fiscal year 2013, our Chief Executive Officer is eligible to receive an incentive award in an amount not to exceed 2.5% of EBITDA and our executive officers other than our Chief Executive Officer are eligible to receive an incentive award in an amount not to exceed 0.7% of EBITDA. In addition, a maximum aggregate cap of \$10,000,000 applies to cash awards for any executive officer, including our Chief Executive Officer. As the formula used to calculate the maximum incentive award that each executive officer is eligible for under the 2013 Performance Bonus Program is intended to be cap and not a target, the Compensation Committee is expected to apply negative discretion based on the performance goals used in determining the aggregate STI and LTI award pools and subjective determination of the Company's and the executive officer's individual performance when setting actual STI and LTI amounts. EBITDA means the EBITDA as reported in the Company's annual report filed on Form 10-K with respect to the year ended December 31, 2013, except that, to the extent permitted by Section 162(m) of the Code, EBITDA will be adjusted to eliminate the effects of charges for restructurings, discontinued operations, extraordinary items, other unusual or non-recurring items, and the cumulative effect of tax or accounting changes, each as determined in accordance with generally accepted accounting principles and identified in the Company's financial statements, notes to the financial statements or management's discussion and analysis with respect to the year ended December 31, 2013.

Subject to the determination of the maximum incentive payment each executive officer is eligible to receive pursuant to the performance criteria and formula set forth under the 2013 Performance Bonus Program for individual NEOs, cash awards under the STI program and awards of options and restricted stock under the LTI program are highly variable, and are not based on fixed target amounts other than the performance goals that relate to funding the overall STI program and LTI program award pools for all eligible employees as discussed above. Individual awards are determined based on the judgment of the Compensation Committee (in the case of Mr. Stephenson) and of Mr. Stephenson (with the concurrence of the Compensation Committee) in the case of other NEOs. There is no fixed relationship between an individual NEO's STI and LTI awards other than the value of the awards together must be below the maximum established under the 2013 Performance Bonus Program. In reaching their subjective determinations about aggregate compensation, the Compensation Committee and Mr. Stephenson seek to allocate a meaningful portion of total compensation in the form of LTI awards in order to incent employees to create long-term value for our stockholders.

For individual NEOs, other than Mr. Stephenson, the STI and LTI awards were made based on Mr. Stephenson's subjective evaluation of their individual performance and on the analysis of prevailing market compensation levels described above. Factors considered include the successful operation of an NEO's business unit or functional department including, where applicable, enhancements to productivity and profitability, achievement of new sales, revenue generated from new products, accomplishment of strategic and operational initiatives, completion of acquisitions and development of strategic relationships. For NEOs other than Mr. Stephenson, the additional factors described below were considered by Mr. Stephenson and the Compensation Committee in determining such NEO's STI and LTI awards. The factors noted were not given any specific weights, but rather informed the recommendation of Mr. Stephenson regarding the contribution of each individual to our overall performance.

Mr. Anquillare: assumption of new responsibility for line management of many of the Company's Risk Assessment lines of business.

Mr. Thompson: advocacy for the creation of, and oversight of, the Company's newly-formed Risk and Compliance Department; strong execution in connection with our acquisition and financing transactions; and oversight of our public company reporting and governance requirements.

Mr. McCarthy: strengthening of the Business Development team and the successful pursuit of an asset disposal and two important new strategic alliances.

Table of Contents

Mr. Rotella: right-sizing the Company's technology infrastructure and assumption of new responsibility for line management of the Company's supply chain activities.

The 2013 STI award to Mr. Stephenson was determined based upon the Compensation Committee's evaluation of Company performance and subjective evaluation of several nonfinancial factors including Mr. Stephenson's leadership, strong corporate performance and positioning the Company for success into the future. In making its determination the Compensation Committee recognized Mr. Stephenson's strong execution of strategy, growth in EBITDA and operating cash flows achieved by the Company and strong revenue performance.

The amount of any annual increase in base salary or STI or LTI award is generally based on the subjective evaluation of the Compensation Committee in the case of Mr. Stephenson, and of Mr. Stephenson (with the approval of the Compensation Committee) in the case of other NEOs. Although the Company's financial performance is a factor taken into consideration, the specific amount of an increase in any component of an NEO's 2013 compensation is not tied directly to any overall Company financial performance metric but rather reflects a determination by the Compensation Committee or Mr. Stephenson, as the case may be, that the amount of the increase is appropriate based on the matters considered as set forth above.

Health, Welfare and Retirement Plans

We offer health and welfare benefit programs including medical, dental, life, accident and disability insurance. The Company contributes a percentage of the cost of these benefits. These benefits are available to substantially all employees, and the percentage of the Company's contribution is the same for all.

Our tax-qualified retirement plans during 2013 included:

a combined 401(k) Savings Plan and ESOP,

a defined benefit pension plan with (i) a traditional final pay formula applicable to employees who were 49 years old with 15 years of service as of January 1, 2002, and (ii) a cash balance formula applicable to other employees hired prior to March 1, 2005 (effective February 29, 2012, the Company implemented a "hard freeze" of such benefits under the pension plan), and

a profit sharing plan (as a component of the 401(k) Savings Plan), which is available to employees hired on or after March 1, 2005, and to which the Company did not make a contribution to during 2013.

Our nonqualified retirement plans include a supplemental pension and a supplemental savings plan for highly compensated employees, including our NEOs. The combined 401(k) Savings Plan and ESOP and the pension/profit sharing plans are broad-based plans available to substantially all of our employees, including our NEOs. The supplemental retirement plans are offered to our highly paid employees, including our NEOs, to restore to them amounts to which they would be entitled under our tax-qualified plans but which they are precluded from receiving under those plans by IRS limits. The supplemental retirement plans are unsecured obligations of the Company. Effective February 29, 2012, the Company implemented a "hard freeze" of the benefits under the supplemental pension plan.

We established our ESOP at the time we converted from not-for-profit to for-profit status, in order to foster an ownership culture in the Company and to strengthen the link between compensation and value created for stockholders. This plan has enabled our employees to hold an ownership interest in the Company as well as provide a stock vehicle for Company matching contributions to our 401(k) and profit sharing plans, which has allowed employees to monitor directly, and profit from, the increasing value of our stock since our conversion in 1997.

Use of Comparative Compensation Data and Retention of Compensation Consultant

To ensure that our compensation levels remain reasonable and competitive, the Compensation Committee engaged Cook to provide consulting services in 2013. In 2013, Cook advised the Compensation Committee on matters including the compensation of senior management. We have used comparative data available from market surveys conducted by Cook as one component in our decision making process relating to the base salary and STI and LTI awards for our executive team.

Table of Contents

In connection with its retention, Cook has provided the Compensation Committee with information necessary for an evaluation of its independence, as set forth in Section 10C-1 of the Securities Exchange Act of 1934, as amended, to determine whether a potential conflict of interest might arise in connection with advising the Compensation Committee. After reviewing the information, the Compensation Committee concluded that Cook's advice is objective and no conflict exists.

Employment Agreements; Change of Control Severance Agreements

We do not currently have employment agreements with any of our NEOs. Mr. Coyne, our former Chief Executive Officer who retired effective April 1, 2013, had an employment agreement which ceased being effective, other than with respect to certain restrictive covenants, upon his retirement.

In October 2009, in connection with our IPO, we entered into Change of Control Severance Agreements with each of our current NEOs. We believe that these agreements are desirable to retain the services of these individuals in whom the Company has a significant investment. For information about the provisions of the NEOs' change of control severance agreements, please see [Potential Payments upon Termination or Change in Control](#).

Impact of prior equity awards on current compensation

In general, we do not take into account prior equity grants, ESOP balances, amounts realized on the exercise or vesting of prior option grants or amounts realized on the sale or vesting of prior awards of restricted stock in determining the number of options or shares of restricted stock to be granted, because we believe we should pay an annualized market value for an executive's position, sized according to the performance level of the individual in the position. The Compensation Committee does consider prior equity grants (and related wealth accumulations) of executives in assessing the recruitment/retention risk for executives.

2013 Say-on-Pay Results

In connection with our 2013 annual meeting of shareholders, the proposal to approve on an advisory basis the compensation of the Company's named executive officers for 2012 received 144,146,547 votes, or 96.46% of votes cast. Although this vote was advisory and therefore non-binding on the Company, the Board of Directors and the Compensation Committee carefully reviewed these results. The Board of Directors and the Compensation Committee considered these results, in determining the size of STI cash awards and LTI equity awards granted to NEOs for 2013.

Stock Ownership Requirements for Executives

Senior executives are subject to minimum equity holding requirements. The Chief Executive Officer is required to hold stock with a value equal to six times his annual base salary. Mr. Stephenson, our Chief Executive Officer, currently holds common stock in excess of this requirement. The other NEOs are required to hold stock with a value equal to three times their respective annual base salary. Existing NEOs, other than Mr. Stephenson, are required to comply with this requirement no later than April 1, 2015. New NEOs will be required to comply with this requirement no later than the fifth anniversary of the date they acquired NEO status. The in-the-money value of vested and unvested options held by NEOs are not included in determining compliance with this requirement.

Policy on Recovery of Bonus in Event of Financial Restatement

The Company maintains a clawback policy that permits the Board of Directors to recover bonus or incentive compensation from executive officers whose fraud or misconduct resulted in a significant restatement of financial results. The policy allows for the recovery or cancellation of any bonus or incentive payments made to an executive officer on the basis of having met or exceeded performance targets during a period of fraudulent activity or a material misstatement of financial results if the Board of Directors determines that such a recovery or cancellation is appropriate due to intentional misconduct by the executive officer that resulted in performance targets being achieved that would not have been achieved absent such misconduct. The Board of Directors

Table of Contents

intends to review this policy when the regulations promulgated by the U.S. Securities and Exchange Commission implementing the provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act relating to clawbacks become effective.

Tax and Accounting Considerations

Section 162(m) of the Code generally limits the federal income tax deduction for compensation paid to each of the chief executive officer and the three other most highly compensated executive officers (other than the chief financial officer) of a publicly held corporation to \$1 million per fiscal year, with an exception for qualified performance-based compensation. As a newly public company, we were eligible for special transition relief under Section 162(m) of the Code, which special transition relief expired effective as of the date of our 2013 Annual Meeting of Shareholders. In order to preserve the flexibility to award annual cash incentive awards for 2013 and future years that are eligible for the qualified performance-based compensation exception under Section 162(m) of the Code, the Board of Directors submitted to the Company's shareholders for their approval at our 2013 Annual Meeting of Shareholders, and the Company's shareholders approved, the Annual Incentive Plan and the 2013 Equity Incentive Plan. Going forward, we will generally seek to maximize the tax deductibility of compensation payments to our named executive officers (other than our Chief Financial Officer) by awarding annual cash incentive awards pursuant to the requirements of the Annual Incentive Plan and the 2013 Equity Incentive Plan. We may, however, authorize payments to executive officers that may not be fully tax deductible, and we reserve the flexibility to do so.

We also structure compensation in a manner intended to avoid the incurrence of any additional tax, interest or penalties under Section 409A of the Code. We make no representations or warranty, however, that recipients of any payments, compensation or other benefits will not incur additional tax, interest or penalties under Section 409A of the Code.

We account for stock-based compensation in accordance with the requirements of FASB Accounting Standards Codification (ASC) Topic 718.

Risk Assessment Regarding Compensation Policies and Practices

When reviewing our compensation programs and approving awards under them, the Compensation Committee considers the potential risks associated with these policies and practices. We selected revenue growth and EBITDA margin as the primary criteria for the funding of both aggregate STI and LTI award pools because we believe our business's ability to generate recurring revenue and positive cash flow is the key indicator of the successful execution of our business strategy. In determining awards for senior executives, the Compensation Committee also considers non-financial metrics, such as earnings per share results, enhancements to productivity, achievement of new sales, accomplishment of strategic and operational initiatives, completion of acquisitions, development of strategic relationships and return on invested capital. We believe the combination of these financial and nonfinancial metrics best aligns the interests of management with those of our shareholders, while providing an appropriate balance of risk and reward that does not encourage excessive or unnecessary risk-taking behavior. As a result, we do not believe that risks relating to our compensation policies and practices for our employees are reasonably likely to have a material adverse effect on the Company.

In reaching this determination we also considered the following attributes of our programs:

balance between annual and longer-term performance opportunities;

alignment of annual and long-term incentives to ensure that the awards encourage consistent behaviors and achievable performance results;

use of 10-year stock options and other equity awards that vest over time;

use of restricted stock awards that vest over time;

Edgar Filing: Verisk Analytics, Inc. - Form DEF 14A

generally providing senior executives with long-term equity-based compensation on an annual basis (we believe that accumulating equity over a period of time encourages executives to take actions that promote the long-term sustainability of our business); and

stock ownership guidelines that are reasonable and align the interests of the executive officers with those of our shareholders, which discourages executive officers from focusing on short-term results without regard for longer-term consequences. In addition, we maintain a clawback policy, as described above.

Compensation Committee Report

We, the Compensation Committee of the Board of Directors of Verisk Analytics, Inc., have reviewed and discussed with management the Compensation Discussion and Analysis above. Based on the review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, filed with the Securities and Exchange Commission.

Table of Contents**Grants of Plan-Based Awards**

The following table sets forth information concerning grants of plan-based awards made to the NEOs during the Company's fiscal year ended December 31, 2013. We generally grant plan-based awards in April under our then in effect equity incentive plans, based on performance for the prior year. However, due to SEC regulations, the options and restricted stock shown in this table as granted on April 1, 2013 generally relate to 2012 performance (except where noted below), and we consider them to be part of the NEOs' 2012 compensation.

Table of Contents**Pension Plans**

The following table sets forth information with respect to each plan that provides for payments or other benefits at, following, or in connection with retirement.

Eligible employees hired prior to March 1, 2005 participate in the Pension Plan for Insurance Organizations, or PPIO, a multiple-employer pension plan in which we participate. The PPIO provides a traditional final pay formula pension benefit, payable as an annuity, to employees who were 49 years old with 15 years of service as of January 1, 2002. Effective January 1, 2002, this formula benefit was frozen for all eligible employees. Effective January 1, 2002, a cash balance pension benefit, also payable as an annuity, was established under the PPIO. Employees hired prior to January 1, 2002 receive their frozen traditional benefit as well as their cash balance benefit. Employees hired from January 1, 2002 to March 1, 2005 receive only the cash balance benefit. Effective February 29, 2012, the Company implemented a hard freeze of benefits under the PPIO. Accordingly, after February 29, 2012 benefits under the PPIO will no longer increase as the result of new compensation earned or continued service. The Supplemental Cash Balance Plan, or the Supplemental Plan, provides a benefit to which the participant would be entitled under the PPIO but which is subject to caps imposed by IRS regulations. Employees hired on or after March 1, 2005 were not eligible to participate in the PPIO or the Supplemental Plan. Effective February 29, 2012, the Company implemented a hard freeze of benefits under the Supplemental Plan.

Nonqualified Deferred Compensation Table

Certain highly compensated employees, including our NEOs, are eligible to participate in the Supplemental Executive Retirement Savings Plan (the Top Hat Plan). The Top Hat Plan allows participants to elect to defer compensation on a non-tax qualified basis and provides a vehicle for the Company to provide, on a non-tax qualified basis, matching contributions that could not be made on the participants behalf to the tax-qualified 401(k) Savings Plan due to limits imposed by IRS regulations. The deferred amounts are notionally invested in the same investment options selected by the participant under the 401(k) Savings Plan. Participants elect to receive payment at termination of employment or some other future date.

The following table sets forth information with respect to the Top Hat Plan.

Potential Payments Upon Termination or Change in Control

Below is a description of the arrangements in place applicable to the NEOs relating to payments upon termination or change in control, other than severance payments upon termination (other than for cause) available to all salaried employees.

In October 2009, in connection with our IPO, the Company entered into Change in Control Severance Agreements with all of our current NEOs. These agreements incorporate provisions for payments to be made to the NEOs upon termination of their employment. Payments will be due in the event the NEO's employment is involuntarily terminated by the Company without cause, or is voluntarily terminated by the NEO for good reason, which are defined in the agreements, within a two-year period following a change in control, which is defined in the agreement.

These agreements provide that, upon a qualifying termination event, an NEO will be entitled to:

- (i) a pro rata STI award;
- (ii) a severance payment equal to the NEO's base salary plus a target bonus amount times two;
- (iii) continuation of health benefits (at the NEO's expense) for 18 months; and
- (iv) immediate vesting of any remaining unvested equity awards.

The severance and pro rata bonus amounts will be payable in cash, in a lump sum for NEOs. Receipt of these benefits is conditioned upon the NEO executing a general release of claims against the Company, and complying with perpetual confidentiality obligations and noncompete and nonsolicitation obligations for a period of 24 months. If these agreements had been in place at December 31, 2013, in the event of a qualifying termination Mr. Stephenson would be entitled to cash payments totaling \$4,887,500, Mr. Anquillare would be entitled to cash payments totaling \$2,325,000, Mr. Thompson would be entitled to cash payments totaling \$2,190,000, Mr. McCarthy would be entitled to cash payments totaling \$1,772,250, and Mr. Rotella would be entitled to cash payments totaling \$1,729,750.

The 2009 Equity Incentive Plan and the 2013 Equity Incentive Plan (together, the Incentive Plans) both provide that the Compensation Committee will determine and set forth in each award agreement whether any awards granted in such award agreement will continue to be exercisable, continue to vest or be earned and the terms of such exercise, vesting or earning, on and after the date that a participant ceases to be

employed by or to provide services to us (including as a director), whether by reason of death, disability, voluntary or involuntary termination of employment or services, or otherwise. The award agreements with respect to currently outstanding options and restricted stock held by the NEOs under the Incentive Plans provide that in the event of the NEO s

death, disability (as defined under the Incentive Plans), retirement (as defined under the Incentive Plans), or termination of employment for good reason or without cause (each as defined under the Incentive Plans) within two years following a change in control (as defined under the Incentive Plans), the options will become immediately exercisable with respect to the number of unexercised shares covered by the option and the unvested shares of restricted stock will become fully vested. Based on the closing price of our Class A common stock on December 31, 2013, the number of options that would become vested for our NEOs, minus the exercise price of those options, and the number of unvested restricted stock shares that would become vested for our NEOs, in the event of a qualifying termination on December 31, 2013, the acceleration of option and restricted stock vesting would have a value of \$8,953,555 for Mr. Stephenson, \$4,734,502 for Mr. Anquillare, \$3,674,958 for Mr. Thompson, \$3,061,545 for Mr. McCarthy and \$2,038,070 for Mr. Rotella.

In connection with Mr. Coyne's retirement from his position as our Chief Executive Officer as of April 1, 2013, Mr. Coyne received the following: (1) an equity award in the form of deferred stock units with a value of \$1,250,007 and a cash incentive award under our STI program of \$750,000, each in respect of Mr. Coyne's partial year service as our Chief Executive Officer during 2013, (2) a cash payment of \$31,731 for unused vacation time, (3) a payout under the Top Hat Plan of \$1,560,965 pursuant to the terms thereof, and (4) a payout under the Supplemental Plan of \$3,084,431 pursuant to the terms thereof. Furthermore, all unvested stock options and restricted stock awards held by Mr. Coyne on his retirement date immediately vested pursuant to the terms of the applicable award agreements.

(4) On October 6, 2009, the date of our initial public offering, the Option Plan was terminated and no new equity awards can be granted under this plan. On May 15, 2013, the 2009 Equity Incentive Plan was terminated and no new equity awards can be granted under this plan.

The Option Plan

During 1996, the Company adopted the Option Plan. The Option Plan provided for the granting of options to key employees and non-employee directors of the Company. On October 6, 2009, the date of our initial public offering, the Option Plan was terminated and no new equity awards can be granted under this plan. The material features of the Option Plan are summarized below. The following description does not purport to be complete and is qualified in its entirety by reference to the plan document, which has been included as an exhibit to our Annual Reports on the Form 10-K.

Eligibility. Key employees (as defined in the Option Plan) and non-employee directors (as defined in the Option Plan) (each, a participant) of the Company were eligible for offers and awards (in each case, as defined in the Option Plan).

Administration. The Option Plan was administered by the committee having authority delegated by the Board to establish compensation arrangements relating to the Company.

Forms of Awards. The committee could from time to time make such awards (including, without limitation, an award or grant of an option or grant of restricted stock, or any combination thereof) and/or offers to purchase common stock under the Option Plan in such form and having such terms, conditions and limitations as the committee may determine consistent with the terms of the Option Plan. Awards and/or offers could have been granted singly, in combination or in tandem. Currently, there are only option awards outstanding under the Option Plan.

Options. Options are rights to purchase shares of the Company common stock at a price and during a period determined by the committee. The exercise price of an option was determined by the Board at the time of grant of such option and the term of an option generally could not exceed 10 years.

Termination of Employment/Change in Control. If a participant's employment terminated due to death, disability or retirement (for service-vesting options only) or if within two years following a change in control (as defined in the applicable award agreement), the participant's employment terminated without cause or for good reason, all unexercisable options would have become immediately exercisable and would have remained exercisable for 12 months following the date of such termination. If a participant's employment terminated for any other reason, all unexercisable options would have been terminated and all exercisable options would have remained exercisable for 90 days. Upon termination of a participant's employment for any reason, including death, disability or retirement, restricted shares that remained subject to restrictions would have been forfeited.

Stock Adjustments. In the event of any merger, consolidation, stock or other non-cash dividend, extraordinary cash dividend, split-up, spin-off, combination or exchange of shares, reorganization or recapitalization or change in capitalization, or any other similar corporate event, the committee could make such adjustments in (i) the aggregate number of shares under the Option Plan and the number of shares that may be made subject to awards to any individual participant, (ii) the number and kind of shares that are subject to any option and the exercise price per share without any change in the aggregate exercise price to be paid upon exercise of the option, and (iii) the number and kind of shares of outstanding restricted stock, as the committee would deem appropriate in the circumstances.

Amendment and Termination. The Board had the power to amend the Option Plan, award agreement(s), offer agreement(s) and/or promissory notes, provided, however, that such amendment(s) could not impair the rights of a participant without the consent of such participant, except to the extent, if any, provided in the Option Plan, the award agreement, the offer agreement and/or promissory note. The Board could suspend or terminate the Option Plan at any time, but no such suspension or termination could affect awards or offers then in effect.

In 2013, we received fees from Arch Capital Group Limited of \$2,798,712 and Validus Holdings, Ltd. of \$130,000. Constantine P. In 2013, in connection with our purchase of insurance coverage we also paid fees to Brown & Brown, Inc. of \$927,640, and CNA Financial Corporation of \$283,345. J. ESOP

We established an ESOP funded with intercompany debt that includes 401(k), ESOP and profit sharing components to provide employees with equity participation. The trustee of the ESOP is GreatBanc Trust Company. The ESOP owns greater than five percent of our Class A common stock. We make quarterly cash contributions to the ESOP equal to the debt service requirements. As the debt is repaid, shares are released to the ESOP to fund 401(k) matching and profit sharing contributions and the remainder is allocated annually to ESOP accounts of active employees in proportion to their eligible compensation in relation to total participant eligible compensation. On October 6, 2009 we made an accelerated cash contribution to permit the ESOP to prepay a portion of the indebtedness, resulting in an accelerated allocation of shares to active eligible employees. The amount of our ESOP costs recognized for the year ended December 31, 2013 was \$14.9 million.

Voting rights with respect to shares of our Class A common stock owned by the ESOP are exercised by the trustee of the ESOP. The trustee is required to vote shares allocated to an ESOP participant's account as directed by the ESOP participant for all matters submitted to a vote of our Class A shareholders. Shares of stock not allocated to a participant's account may be voted in accordance with the discretion of the Trustee in the best interest of ESOP participants.

Statement of Policy Regarding Transactions with Related Persons

Our Board of Directors has adopted a written statement of policy regarding transactions with related persons. Our related person policy requires that a related person (as defined as in paragraph (a) of Item 404 of Regulation S-K) must promptly disclose to the corporate secretary any related person transaction (defined as any transaction that is reportable by us under Item 404(a) of Regulation S-K in which we were or are to be a participant and the amount involved exceeds \$120,000 and in which any related person had or will have a direct or indirect material interest) and all material facts with respect thereto. The corporate secretary will then promptly communicate that information to the Board of Directors or the designated Board committee. No related person transaction will be consummated without the approval or ratification of the Board of Directors or any committee of the Board of Directors consisting exclusively of disinterested directors. The Board of Directors has designated the Nominating and Corporate Governance Committee to approve any related person transaction. It is our policy that directors interested in a related person transaction will recuse themselves from any vote of a related person transaction in which they have an interest. In reviewing the transaction in question, the Nominating and Corporate Governance Committee will consider all relevant facts and circumstances, including without limitation, the commercial reasonableness of the terms, the benefit and perceived benefit, or lack thereof, to the Company, opportunity costs of alternate transactions, the materiality and character of the related person's direct or indirect interest and the actual or apparent conflict of interest of the related person. No related person transaction will be approved or ratified unless, upon consideration of all relevant information, the transaction is in, or not inconsistent with, the best interests of the Company and its shareholders.

ITEM 2 APPROVAL OF THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS ON AN ADVISORY, NON-BINDING BASIS

At the 2011 Annual Meeting of Shareholders, we conducted an advisory, non-binding vote regarding the frequency with which we would seek approval of the compensation of our named executive officers. At such meeting, shareholders expressed their preference for an annual vote on executive compensation on an advisory, non-binding basis and, consistent with this preference, the Board of Directors determined that we will conduct such a vote on an annual basis. Accordingly, and pursuant to Section 14A of the Securities Exchange Act of 1934, we are providing our shareholders with the opportunity to approve the compensation of our named executive officers for 2013 as disclosed in this Proxy Statement on an advisory, non-binding basis (say-on-pay) through the following resolution:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed in the Company's Proxy Statement for the 2014 Annual Meeting of Shareholders pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.

Because your vote is advisory, it will not be binding on the Board of Directors and will not overrule any decision by the Board of Directors or require the Board of Directors to take any action. However, the Board of Directors and the Compensation Committee will take into account the outcome of the say-on-pay vote when considering future executive compensation decisions for named executive officers.

The Compensation Committee believes that the Company's compensation programs and policies and the compensation decisions for 2013 described in this Proxy Statement, including the Compensation Discussion and Analysis, appropriately reward our named executive officers for their and the Company's performance and will assist the Company in retaining our senior leadership team. You are strongly encouraged to read the full details of our executive compensation programs and policies under the section titled **Executive Compensation** above.

Our Board unanimously recommends a vote FOR the approval of the compensation of the Company's named executive officers as disclosed in this Proxy Statement. Proxies solicited by the Board will be voted FOR this resolution unless otherwise instructed. Broker non-votes will not be counted in determining the results of the vote.

Table of Contents**ITEM 3 RATIFICATION OF THE APPOINTMENT OF VERISK'S INDEPENDENT AUDITOR**

The Audit Committee appointed Deloitte & Touche LLP (Deloitte & Touche) as independent auditors for 2014 and presents this selection to the shareholders for ratification. Deloitte & Touche will audit our consolidated financial statements for 2014 and perform other permissible, preapproved services.

A Deloitte & Touche representative will attend the annual meeting to respond to your questions and will have the opportunity to make a statement. If shareholders do not ratify the appointment, the Audit Committee will reconsider it, but at all times the Audit Committee is responsible for the appointment of our independent auditor.

Our Board unanimously recommends a vote FOR the ratification of Deloitte & Touche's appointment as our independent auditor. Proxies solicited by the Board will be voted FOR this ratification unless otherwise instructed.

Independent Auditor's Fees. The following table summarizes the aggregate fees (including related expenses; in thousands) billed in 2013 and 2012 for professional services provided by Deloitte & Touche.

Audit-related fees(2)	43	202
Tax fees(3)	897	422
Total	\$ 2,836	\$ 2,142

(1) Audit fees consisted of fees billed for audits of our consolidated financial statements included in our Annual Reports on Form 10-K and in our Registration Statements on Form S-8, reviews of the interim condensed consolidated financial statements included in our quarterly reports on Form 10-Q, and other regulatory audits.

(2) Audit-related fees consisted of fees billed for employee benefit plan audits, as well as amounts incurred in conjunction with comfort letters to underwriters related to our public debt offering in 2012.

(3) Includes tax compliance and other tax services not related to the audit.

Preapproval Policy of the Audit Committee of Services Performed by Independent Auditors

The Audit Committee has implemented preapproval policies and procedures related to the provision of audit and nonaudit services by the independent auditors to ensure that the services do not impair the auditor's independence. Under these procedures, the Audit Committee preapproves both the type of services to be provided by the independent auditors and the estimated fees related to those services. During the preapproval process, the Audit Committee considers the impact of the types of services and the related fees on the independence of the auditor. Even if a service has received general preapproval, if it involves a fee in excess of \$350,000 or relates to tax planning and advice, it requires a separate preapproval, which may be delegated to the Chairman of the Audit Committee so long as the entire Audit Committee is informed at its next meeting. The services and fees must be deemed compatible with the maintenance of the auditor's independence, including compliance with SEC and NASDAQ rules and regulations. In accordance with this preapproval policy, all audit and nonaudit services were preapproved by the Audit Committee in 2013.

AUDIT COMMITTEE REPORT

The Audit Committee operates under a written charter adopted by the Board. The charter is available on our website at the Corporate Governance link under the Investors link at www.verisk.com. The Audit Committee is responsible for the oversight of the integrity of the Company's consolidated financial statements, the Company's system of internal control over financial reporting, the Company's risk management, the qualifications and independence of the Company's independent registered public accounting firm (independent auditor), the performance of the Company's internal auditor and independent auditor and the Company's com-

pliance with legal and regulatory requirements. The Audit Committee has the sole authority and responsibility to appoint, compensate, evaluate and, when appropriate, replace the Company's independent auditor. In making such determinations, the Audit Committee considers, among other things, the recommendations of management of the Company. The Board has determined that all of the Audit Committee's members are independent under the applicable independence standards of the NASDAQ listing rules and the Exchange Act.

The Audit Committee serves in an oversight capacity and is not part of the Company's managerial or operational decision-making process. Management is responsible for the financial reporting process, including the system of internal controls, and the preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States. The Company's independent auditor, Deloitte & Touche, is responsible for auditing those financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the United States and expressing an opinion on the effectiveness of the Company's internal control over financial reporting. The Audit Committee's responsibility is to oversee the financial reporting process and the Company's internal control over financial reporting. The Audit Committee relies, without independent verification, on the information provided to us and on the representations made by management, the internal auditor and the independent auditor.

The Audit Committee held five meetings during 2013, and has met in 2014 to discuss the Company's financial statements for the year ended December 31, 2013. With respect to the year ended December 31, 2013, the Audit Committee, among other things:

reviewed and discussed the Company's quarterly earnings releases;

reviewed and discussed (i) the quarterly unaudited consolidated financial statements and related notes and (ii) the audited consolidated financial statements and related notes for the year ended December 31, 2013 with management and Deloitte & Touche;

reviewed and discussed the annual plan and scope of work of the independent auditor;

reviewed and discussed the annual plan and scope of work of the internal auditor and summaries of significant reports to management by the internal auditor;

met with Deloitte & Touche, the internal auditor, the General Counsel and Company management in executive sessions;

reviewed and discussed certain critical accounting policies; and

reviewed business and financial market conditions, including an assessment of risks posed to the Company's operations and financial condition.

The Audit Committee discussed with Deloitte & Touche matters that independent registered public accounting firms must discuss with audit committees under generally accepted auditing standards and standards of the Public Company Accounting Oversight Board, including, among other things, matters related to the conduct of the audit of the Company's consolidated financial statements and the matters required to be discussed by Public Company Accounting Oversight Board AU 380 (Communications with Audit Committees). These reviews included discussions with management and the independent auditor of the quality (not merely the acceptability) of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the disclosures in the Company's consolidated financial statements, including the disclosures relating to critical accounting policies.

Deloitte & Touche also provided to the Audit Committee the written disclosures and the letter required by applicable requirements of PCAOB Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence, regarding its communications with the Audit Committee concerning independence, and represented that it is independent from the Company. The Audit Committee discussed with Deloitte & Touche their independence from the Company and considered if services they provided to the Company beyond those rendered in connection with their audit of the Company's consolidated financial statements, and reviews of the Company's interim condensed consolidated

financial statements included in its Quarterly Reports on Form 10-Q compromise independence.

Table of Contents

During 2013, the Audit Committee received regular updates on the amount of fees and scope of audit and audit-related services provided. In addition, the Audit Committee reviewed and approved audit and non-audit services provided by Deloitte & Touche pursuant to the preapproval policies and procedures related to the provision of audit and non-audit services by the independent auditors as described above under Preapproval Policy of the Audit Committee of Services Performed by Independent Auditors .

Based on the Audit Committee s review and these meetings, discussions and reports discussed above, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee charter, the Audit Committee recommended to the Board that the Company s audited consolidated financial statements for the year ended December 31, 2013 be included in the Company s Annual Report on Form 10-K. The Audit Committee also appointed Deloitte & Touche as the Company s independent auditor for 2014 and are presenting the appointment to the shareholders for ratification.
