Diamond Offshore 401(k) Plan

Houston, Texas

We have audited the accompanying statements of net assets available for benefits of the Diamond Offshore 401(k) Plan (the Plan) as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of Plan management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying schedule of assets held at end of year has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is presented for the purpose of additional analysis and is not a required part of the financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of Plan management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedules, we evaluated whether the supplementary information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedules is fairly stated in all material respects in relation to the financial statements as a whole.

Diamond Offshore 401(k) Plan

Notes to Financial Statements

December 31, 2015 and 2014

1. Description of Plan

The Diamond Offshore 401(k) Plan, or the Plan, was established effective July 1, 1989. Diamond Offshore Management Company, which we refer to as we, us or our, is the Plan's sponsor and a wholly-owned subsidiary of Diamond Offshore Drilling, Inc., or Diamond Offshore. The adoption of the Plan in its entirety is intended to comply with the provisions of Sections 401(a), 401(k) and 401(m) of the Internal Revenue Code of 1986, as amended, or the IRC, and applicable regulations thereunder. The Plan is intended to qualify as a profit-sharing plan in accordance with the requirement of Section 401(a) (27) of the IRC.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General The Plan is a defined contribution retirement plan for our U.S. employees and other subsidiaries of Diamond Offshore Drilling, Inc., collectively, the Participating Employers, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, or ERISA, and the IRC.

Administration The Plan is administered through an administrative and investment committee appointed by our Board of Directors, or Board. Fidelity Management Trust Company, or Fidelity, is the Plan's trustee.

Revenue Credits Portfolio advisory services and other fees are charged to Participants' accounts by Fidelity. Expenses may be allocated among all participants' accounts or, charged to individual accounts for expenses directly related to a participant. Participants' accounts may also be allocated with revenue credits which are calculated and distributed by Fidelity on a quarterly basis. Revenue credits occur when the recordkeeping revenue received by Fidelity in connection with plan services exceeds agreed upon compensation paid to Fidelity. For the year ended December 31, 2015, participant expenses were more than offset by revenue allocations resulting in a net credit to the Plan of \$25,506.

Participants Employees of the Participating Employers become participants of the Plan on the first enrollment date following their hire date, as defined in the Plan and subsequent amendments.

Contributions

Employee contributions/deferrals Each year, participants may make voluntary pre-tax or Roth contributions of 1% to 50% of his or her qualified annual compensation, as defined by the Plan. Participants may also make voluntary after-tax contributions in an amount which, when added to the participant's before-tax and/or Roth contributions, does not exceed 50% of his or her qualified annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Catch-up contributions are subject to employer matching contributions in certain circumstances. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their

contributions into various investment options offered by the Plan. Contributions are subject to certain federally mandated limitations.

Employer matching contributions The Participating Employers also make matching contributions equal to 100% of the first 6% of each contributing employee's qualified annual compensation on a before-tax and/or Roth elective deferral basis. The employer matching contribution is intended to satisfy a safe harbor contribution formula permitted by Internal Revenue Service (IRS) regulations. By making the safe harbor matching contribution, the Plan will automatically satisfy the nondiscrimination requirements that otherwise would apply to 401(k) contributions made by the Plan. Employer contributions to the Plan are invested based on the participant's investment election. If a participant fails to make a designation, his or her contributions shall be invested in the Plan's default investments in a life-cycle fund with the target retirement date nearest to age 65. Life-cycle funds are designed for target retirement dates between 2005 and 2055 at five year intervals, and the mix of investments in each fund changes over time becoming more conservative as the target retirement date approaches.

Table of Contents

Profit sharing contributions A profit sharing contribution, determined annually by our Board, may be made at our discretion to all participants without regard to employee contributions to the Plan. During 2015, the Board resolved that Participating Employers would cease making discretionary profit sharing contributions under the Plan with respect to compensation earned by Plan participants on or after May 1, 2015. During the four months ended April 30, 2015, we made discretionary profit sharing contributions to the Plan totaling \$5.4 million.

Investment Funds The Plan is intended to be a plan described in Section 404(c) of ERISA and as a result it offers participants a variety of investment options. These options include mutual funds, the Fidelity Treasury Only Money Market Fund, the Fidelity Managed Income Portfolio II, or the MIP II Fund, and Diamond Offshore Drilling, Inc. Common Stock, or DO Common Stock. Investment elections to DO Common Stock are limited to no more than 25% of a participant's total election. We periodically review the options available through the Plan to continue to help participants meet their financial goals and investment objectives.

Plan participants, at their sole discretion, may transfer amounts between the various investment options, including DO Common Stock. Transfers that would cause the value of the DO Common Stock account to exceed 25% of the value of the Plan participant's account are disregarded and such amounts remain invested in the investment fund from which the transfer was initiated.

Participant Accounts Individual accounts are maintained for each Plan participant. Each participant's account is credited with the Participating Employers' and the participant's contributions, as well as an allocation of the Plan's earnings, and charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Individual participant accounts invested in the MIP II Fund are maintained on a unit value basis as of December 31, 2015. Participants do not have beneficial ownership in specific underlying securities or other assets in the funds, but have an interest therein represented by units valued as of the last business day of the period. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participant's accounts are charged or credited with the number of units properly attributable to each participant.

Vesting Each participant has, at all times, a fully vested and non-forfeitable interest in his or her contributions, earnings and employer contributions made by the Participating Employers (including all employer profit sharing contributions for years prior to January 1, 2007). Employer profit sharing contributions for years beginning on or after January 1, 2007 are fully vested after the lapse of three years from the participant's original hire date. The Plan provides for full vesting of benefits for all Plan participants whose employment is terminated due to a reduction-in-force on or after October 1, 2014.

Forfeitures Forfeitures resulting from the separation of service of participants not fully vested in the Plan can be applied first to reduce direct administrative expenses charged to the Plan, if any, for the year, and next, to reduce the Participating Employers' contributions to the Plan. During 2015, we used \$162,000 from the forfeiture account to reduce the funding of our profit sharing contributions during the four months ended April 30, 2015. As of December 31, 2015 and 2014, forfeiture balances available to reduce future contributions to the Plan and any related earned investment income were \$73,140 and \$67,543, respectively.

Notes receivable from participants Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the

participant's account and bear interest at rates commensurate with local prevailing rates as determined by Plan management, and varying maturity dates, typically not exceeding five years. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits Upon separation of service, each participant may elect to receive their entire account balance in a single lump-sum cash payment, leave their account invested in the Plan or choose a direct rollover to an eligible retirement plan. To the extent the participant's accounts are invested in DO Common Stock, the participant may elect payment in whole shares of such stock with any fractional shares paid in cash or a lump-sum cash payment. A participant's account with a vested interest of \$1,000 or less is automatically distributed in a lump-sum cash payment.

Table of Contents

Plan Termination Although we do not expect to do so, we have the right under the Plan to discontinue contributions by the Participating Employers at any time and to terminate the Plan subject to the provisions of ERISA. Upon our termination of the Plan, participants would become 100% vested in their accounts and the trustee will distribute to each participant the amounts credited to his or her account.

During 2014 and 2015, we incurred a significant reduction-in-force, which triggered a partial Plan termination. In accordance with IRS guidance and pursuant to a Plan amendment, effective October 1, 2014, all active participants of the Plan whose employment is terminated as a result of a reduction-in-force will be fully vested in all contributions under the Plan, including any profit sharing contributions by the Participating Employers.

2. Summary of Significant Accounting Policies

Basis of Accounting The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America, or GAAP.

Use of Estimates The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

Investment Valuation and Income Recognition The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded at the ex-dividend date, and interest is recorded as earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. If a participant ceases to make loan repayments, such loans are considered delinquent loans, or delinquent participant notes receivable, as specified in the Plan. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits Benefit payments are recorded when paid.

Expenses Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan's sponsor, as provided in the plan document. Expenses that are paid by the Plan's sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of the fair value of investments.

New Accounting Pronouncements/Accounting Changes

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Disclosure for Investments in Certain Entities that Calculate Net Asset Value (NAV) per Share (or its Equivalent). The ASU impacts reporting entities that measure an investment's fair value using the net asset value per share (or an equivalent) practical expedient. The amendments in ASU No. 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make

Table of Contents

certain disclosures for all investments eligible to be assessed at fair value with the net asset value per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has elected to measure using the practical expedient. The new guidance is effective for public entities with reporting periods beginning after December 15, 2015, with early adoption permitted. We are currently evaluating the provisions of ASU 2015-07 but do not anticipate this update will have a material impact on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures and (Part III) Measurement Date Practical Expedient, or ASU 2015-12. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures and designate contract value as the only required measurement. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also requires plans to disaggregate investments measured using fair value only by general type. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. We have elected to early adopt Parts I and II of ASU 2015-12 and have retroactively applied the various presentation and disclosure requirements with respect to our benefit responsive investment contract, as well as, certain disclosures regarding investments carried at fair value to all periods presented in the Statements of Net Assets Available for Benefits. The provisions of Part III are not applicable to the Plan. Our early adoption of the provisions of Part I and Part II of ASU 2015-12 did not have a material impact on the Plan's financial statements.

Reclassifications Certain reclassifications have been made to the 2014 financial statements to conform to the 2015 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

3. Stable Value Fund

During 2015 and 2014, the Plan held an interest in the MIP II Fund. The MIP II Fund is a common/collective trust fund sponsored by Fidelity and is considered to be a stable value fund with underlying investments in investment contracts that carry a "benefit responsiveness" feature, which among other things, guarantees that participant-initiated withdrawals from the fund will be covered at contract value. The MIP II Fund may invest in fixed interest insurance investment contracts (or wrap contracts), money market funds, corporate and governmental bonds, mortgage-backed securities, bond funds, and other fixed income securities. A wrap contract is an agreement by another party, such as a bank or insurance company to make payments to the MIP II Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted. The Plan is required to provide a one (1) year redemption notice to liquidate its entire share in the MIP II Fund.

The MIP II Fund imposes certain restrictions on the Plan, and the MIP II Fund itself may be subject to circumstances that impact its ability to transact at contract value. However, Plan management believes that the occurrence of events that would cause the MIP II Fund to transact at less than contract value is not probable.

4. Fair Value Measurements

The Plan's investments are stated at fair value using a fair value hierarchy prescribed by GAAP that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. There are three levels of input that may be used to measure fair value:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 1 investments include investments in money market, mutual funds and DO Common Stock.

Table of Contents

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 2 investments include the MIP II Fund, a stable value fund.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. At December 31, 2015 and 2014, the Plan did not hold any Level 3 investments.

The following is a description of the valuation methodologies used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds Shares of mutual funds, which are registered securities, are valued at quoted market prices, representing the net asset value, or NAV of shares held by the Plan at year end. The mutual funds held by the Plan are deemed to be actively traded.

DO Common Stock Shares of publicly traded common stock of Diamond Offshore are valued based on quoted market prices.

Stable Value Fund The MIP II Fund is a common/collective trust fund valued using the NAV of the fund, which is based on the fair value of the underlying net assets, some of which are traded in active markets and have quoted market prices, while others may be valued by reference to securities with similar characteristics that are traded in active markets, or by using a discounted cash flow model. The NAV, as provided by the trustee, is used to estimate fair value.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

	2015	2014
Level 1:		
Money market funds	\$ 8,476,681	\$ 7,910,635
Mutual funds	371,680,415	429,386,506
DO Common Stock	9,649,034	13,330,382
	389,806,130	450,627,523
Level 2:		
Stable Value Fund	84,917,728	99,056,788

Investments at fair value	\$ 474,723,858	\$ 549,684,311
---------------------------	----------------	----------------

Table of Contents**5. Plan Tax Status**

The Internal Revenue Service has determined and informed us by a letter dated October 7, 2015 that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Related-Party Transactions

Certain Plan investments are shares of mutual funds and a stable value fund managed by the trustee of the Plan. The DO Common Stock investment option invests in the common stock of Diamond Offshore. Transactions with the trustee, the Participating Employers and Diamond Offshore qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

At December 31, 2015 and 2014, the Plan held 457,130 and 363,103 shares, respectively, of common stock of Diamond Offshore, with a cost basis of \$21,670,512 and \$21,571,832, respectively. During the year ended December 31, 2015 the Plan recorded dividend income of \$212,995.

7. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the value of investment securities will occur in the near term and that some changes could materially affect participant account balances and the assets reported in the statement of net assets available for benefits.

8. Reconciliation of Financial Statements to Form 5500

A reconciliation of net assets available for benefits per the financial statements to the total net assets per the Form 5500 as of December 31, 2015 and 2014, and the increase in net assets per the financial statements to the net income per the Form 5500 for the year ended December 31, 2015, is as follows:

	2015	2014
Net assets available for benefits per the financial statements	\$ 490,373,407	\$ 569,370,686
		1,446,493

Adjustment from contract value to fair value for fully benefit-responsive stable value fund

Total net assets per Form 5500	\$ 490,373,407	\$ 570,817,179
Decrease in net assets per the financial statements	\$ (78,997,279)	
Adjustment from contract value to fair value for fully benefit-responsive stable value fund December 31, 2014	(1,446,493)	
Net income per Form 5500	\$ (80,443,772)
