JOHN B. SANFILIPPO & SON, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in thousands, except where noted and per share data)

Note 1 Basis of Presentation and Description of Business

As used herein, unless the context otherwise indicates, the terms we, us, our or Company collectively refer to John Sanfilippo & Son, Inc. and our wholly-owned subsidiary, JBSS Ventures, LLC. Our fiscal year ends on the final Thursday of June each year, and typically consists of fifty-two weeks (four thirteen-week quarters). Additional information on the comparability of the periods presented is as follows:

References herein to fiscal 2018 and fiscal 2017 are to the fiscal year ending June 28, 2018 and the fiscal year ended June 29, 2017, respectively.

References herein to the second quarter of fiscal 2018 and fiscal 2017 are to the quarters ended December 28, 2017 and December 29, 2016, respectively.

References herein to the first half or first twenty-six weeks of fiscal 2018 and fiscal 2017 are to the twenty-six weeks ended December 28, 2017 and December 29, 2016, respectively.

We are one of the leading processors and distributors of peanuts, pecans, cashews, walnuts, almonds, and other nuts in the United States. These nuts are sold under a variety of private brands and under the *Fisher*, *Orchard Valley Harvest*, *Squirrel Brand*, *Southern Style Nuts*, and *Sunshine Country* brand names. We also market and distribute, and in most cases, manufacture or process, a diverse product line of food and snack products, including peanut butter, almond butter, cashew butter, candy and confections, snacks and trail mixes, snack bites, sunflower kernels, dried fruit, corn snacks, sesame sticks and other sesame snack products under private brands and brand names. Our products are sold through three primary distribution channels to significant buyers of nuts, including food retailers in the consumer channel, commercial ingredient users and contract packaging customers.

The accompanying unaudited financial statements fairly present the consolidated statements of comprehensive income, consolidated balance sheets and consolidated statements of cash flows, and reflect all adjustments, consisting only of normal recurring adjustments which are necessary for the fair statement of the results of the interim periods. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses.

The interim results of operations are not necessarily indicative of the results to be expected for a full year. The balance sheet data as of June 29, 2017 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America (GAAP). Accordingly, these unaudited financial statements and related notes should be read in conjunction with the audited consolidated financial statements and notes thereto included in our 2017 Annual Report on Form 10-K for the fiscal year ended June 29, 2017.

Note 2 Inventories

Inventories consist of the following:

	December 28, 2017	June 29, 2017	December 29, 2016
Raw material and supplies	\$ 80,867	\$ 79,609	\$ 107,735
Work-in-process and finished goods	87,985	102,811	74,918
Total	\$ 168,852	\$ 182,420	\$ 182,653

Table of Contents**Note 3 Acquisition of Squirrel Brand L.P.**

On November 30, 2017, we acquired certain assets and assumed certain liabilities (the Acquisition) of Squirrel Brand L.P. (Squirrel Brand) for a purchase price of \$31,500, subject to a working capital adjustment. After giving effect to the initial working capital adjustment, the purchase price was \$33,409, of which \$21,909 was paid in cash and \$11,500 was financed by the seller through a three-year unsecured promissory note (the Promissory Note). The final working capital adjustment, if any, will be completed in our upcoming third quarter of fiscal 2018. The cash portion of the acquisition price was funded from our credit facility. The Promissory Note bears interest at 5.5% per annum and is payable in equal monthly principal payments of \$319, plus interest, beginning in January 2018. The Promissory Note can be prepaid without penalty.

The Squirrel Brand business is one of the nation's leading suppliers of indulgent and premium roasted nuts and snack mixes under its *Squirrel Brand* and *Southern Style Nuts* brands. Prior to the Acquisition, Squirrel Brand was a customer in our Contract Packaging sales channel for fourteen years. The Acquisition has been accounted for as a business combination in accordance with ASC Topic 805, Business Combinations. As a result of the Acquisition, we expanded our customer base and branded product portfolio, as well as increased our customer reach, especially into alternative distribution channels.

The total purchase price of \$33,409 has been allocated on a preliminary basis to the fair values of the assets acquired and liabilities assumed as follows:

Accounts receivable	\$ 2,446
Inventories	1,957
Other assets	75
Identifiable intangible assets:	
Customer relationships	10,500
Brand names	8,900
Non-compete agreement	270
Goodwill	9,638
Accounts payable and accrued expenses	(377)
Total Purchase Price	\$ 33,409

The customer relationship assets represent the value of the long-term strategic relationship the Squirrel Brand business has with its significant customers, which we are amortizing over a weighted-average life of 7.5 years. The assets were valued using an income approach, specifically the multi-period excess earnings method, which identifies an estimated stream of revenues and expenses for a particular group of assets from which deductions of portions of the projected economic benefits, attributable to assets other than the subject asset (contributory assets), are deducted in order to isolate the prospective earnings of the subject asset. This value is considered a level 3 measurement under the GAAP fair value hierarchy.

The brand name assets represent the value of the established *Squirrel Brand* and *Southern Style Nuts* names. We applied the income approach through a relief from royalty method analysis to determine the preliminary fair value of the brand name assets. We are amortizing the brand name assets over a weighted-average life of 13.8 years.

Goodwill, which is expected to be deductible for taxes, arises from intangible assets that do not qualify for separate recognition and expected synergies from combining the operations of Squirrel Brand with the Company. There were no material contingencies recognized or unrecognized associated with the acquired business.

The purchase price allocation, especially amounts allocated to goodwill and intangible assets are based on preliminary valuations and are subject to final adjustments to reflect the final net working capital adjustment and valuations.

Table of Contents

The following reflects the unaudited pro forma results of operations of the Company as if the Acquisition had taken place at the beginning of fiscal 2017. This pro forma information does not purport to represent what the Company's actual results would have been if the Acquisition had occurred as of the date indicated or what such results would be for any future periods.

	Year-Ended June 29, 2017	Twenty-six weeks ended December 28, 2017
Pro forma net sales	\$ 863,267	\$ 479,054
Pro forma net income	36,723	18,762
Pro forma diluted earnings per share	\$ 3.22	\$ 1.64

These unaudited pro forma results have been calculated after applying our accounting policies and adjusting the results of the Squirrel Brand business to reflect elimination of transaction costs and to record additional amortization and interest expense that would have been charged, assuming the fair value adjustment to intangible assets since July 1, 2016, net of related income taxes in respect of pro forma net income and diluted earnings per share performance. Transaction costs of \$500, already recorded in Administrative expenses, are excluded from the pro forma net income for the twenty-six weeks ended December 28, 2017 stated above.

Net sales of \$3,976 resulting from the Acquisition are included in our consolidated financial results as of December 28, 2017 since the Acquisition closed on November 30, 2017.

Since the Acquisition, we continue to operate in a single reportable operating segment that consists of selling various nut and nut-related products through three sales distribution channels.

Note 4 Goodwill and Intangible Assets

Identifiable intangible assets that are subject to amortization, which resulted entirely from the Acquisition, are based on our preliminary purchase price allocation and consist of the following at December 28, 2017:

	December 28, 2017	Weighted-average amortization period (years)
Customer relationships	\$ 10,500	7.5
Brand names	8,900	13.8
Non-compete agreement	270	5.0
	19,670	11.3
Less accumulated amortization:		
Customer relationships	(267)	
Brand names	(58)	
Non-compete agreement	(4)	
	(329)	

Net intangible assets	\$ 19,341
-----------------------	-----------

Gross intangible assets of \$18,690 from previous acquisitions were fully amortized as of June 29, 2017.

Customer relationships are being amortized on an accelerated basis. The brand names consist of the *Squirrel Brand* and *Southern Style Nuts* brand names.

Total amortization expense related to intangible assets, which is a component of Administrative expense, was \$329 for the quarter and twenty-six weeks ended December 28, 2017. Amortization expense for the remainder of fiscal 2018, based on our preliminary purchase price allocation, is expected to be approximately \$1,685 and expected amortization expense the next five fiscal years is as follows:

Table of Contents

Fiscal year ending	
June 27, 2019	\$ 3,028
June 25, 2020	2,500
June 24, 2021	2,162
June 30, 2022	1,894
June 29, 2023	1,659

Our net goodwill of \$9,638 relates entirely to the Acquisition. The changes in the carrying amount of goodwill during the twenty-six weeks ended December 28, 2017 are as follows:

Net balance at June 29, 2017	\$
Goodwill acquired during the period	9,638
Net balance at December 28, 2017	\$ 9,638

The Company will perform a goodwill impairment test annually during the fourth quarter of its fiscal year and more frequently if events or circumstances indicate that impairment may have occurred. Such events or circumstances may, among others, include significant adverse changes in the general business climate.

Note 5 Credit Facility

On July 7, 2017, we entered into the Eighth Amendment to our Credit Facility which eliminated the quarterly restriction on cash dividends and distributions and allows the Company to, without obtaining lender consent, make up to four cash dividends or distributions on our stock per fiscal year, or purchase, acquire, redeem or retire stock in any fiscal year, in an amount not to exceed \$60,000 in the aggregate per fiscal year, as long as no default or event of default exists and the excess availability under the Credit Facility remains over \$30,000 immediately before and after giving effect to any such dividend, distribution, purchase or redemption.

On November 29, 2017, we entered into the Consent and Ninth Amendment to our Credit Agreement (the Ninth Amendment). The Ninth Amendment provides lender consent for us to incur unsecured debt (in particular, the Promissory Note) in connection with our acquisition of the Squirrel Brand business, and for: (i) the incurrence of unsecured debt in connection with the Acquisition and (ii) the Acquisition to constitute a Permitted Acquisition under the terms of the Credit Agreement. The Ninth Amendment also modified our collateral reporting requirements.

At December 28, 2017, we had \$83,825 of available credit under the Credit Facility which reflects borrowings of \$30,000 and reduced availability as a result of \$3,675 in outstanding letters of credit. As of December 28, 2017, we were in compliance with all covenants under the Credit Facility and Mortgage Facility.

Note 6 Earnings Per Common Share

The following table presents the reconciliation of the weighted average shares outstanding used in computing basic and diluted earnings per share:

For the Quarter Ended For the Twenty-six Weeks Ended

	December 28, 2017	December 29, 2016	December 28, 2017	December 29, 2016
Weighted average number of shares outstanding basic	11,375,512	11,304,617	11,363,409	11,285,417
Effect of dilutive securities:				
Stock options and restricted stock units	50,786	69,200	70,824	91,539
Weighted average number of shares outstanding diluted	11,426,298	11,373,817	11,434,233	11,376,956

Table of Contents

There were no anti-dilutive awards excluded from the computation of diluted earnings per share for the current quarter and twenty-six week periods presented.

Note 7 Stock-Based Compensation Plans

During the second quarter of fiscal 2018, there were 60,582 restricted stock units (RSUs) awarded to employees and non-employee members of the Board of Directors. The vesting period is generally three years for awards to employees and one year for awards to non-employee directors.

Stock option activity was insignificant during the first half of fiscal 2018.

The following is a summary of RSU activity for the first half of fiscal 2018:

Restricted Stock Units	Shares	Weighted Average Grant Date Fair Value
Outstanding at June 29, 2017	201,858	\$ 40.36
Activity:		
Granted	60,582	54.41
Vested	(55,956)	38.24
Forfeited	(11,038)	33.59
Outstanding at December 28, 2017	195,446	\$ 45.70

At December 28, 2017, there are 60,490 RSUs outstanding that are vested but deferred.

The following table summarizes compensation expense charged to earnings for all equity compensation plans for the periods presented:

	For the Quarter Ended		For the Twenty-six Weeks Ended	
	December 28, 2017	December 29, 2016	December 28, 2017	December 29, 2016
Stock-based compensation expense	\$ 891	\$ 878	\$ 1,429	\$ 1,428

As of December 28, 2017, there was \$4,875 of total unrecognized compensation expense related to non-vested RSUs granted under our stock-based compensation plans. We expect to recognize that cost over a weighted average period of 1.9 years.

Note 8 Dividends

On July 11, 2017, our Board of Directors, after considering the financial position of our Company and other factors, declared a special cash dividend of \$2.00 per share and a regular annual cash dividend of \$0.50 per share on all issued and outstanding shares of Common Stock and Class A Stock of the Company (the July 2017 Dividends). The July

2017 Dividends of approximately \$28,370 were paid on August 15, 2017 to stockholders of record as of the close of business on August 2, 2017.

Table of Contents**Note 9 Retirement Plan**

The Supplemental Employee Retirement Plan is an unfunded, non-qualified deferred compensation plan that will provide eligible participants with monthly benefits upon retirement, disability or death, subject to certain conditions. The monthly benefit is based upon each participant's earnings and his or her number of years of service. The components of net periodic benefit cost are as follows:

	For the Quarter Ended		For the Twenty-six Weeks Ended	
	December 28, 2017	December 29, 2016	December 28, 2017	December 29, 2016
Service cost	\$ 152	\$ 158	\$ 304	\$ 316
Interest cost	212	202	425	405
Amortization of prior service cost	240	240	479	479
Amortization of loss	41	91	81	182
Net periodic benefit cost	\$ 645	\$ 691	\$ 1,289	\$ 1,382

The components of net periodic benefit cost other than the service cost component are included in the line item "Other expense" in the Consolidated Statements of Comprehensive Income.

Note 10 Accumulated Other Comprehensive Loss

The table below sets forth the changes to accumulated other comprehensive loss (AOCL) for the twenty-six weeks ended December 28, 2017 and December 29, 2016. These changes are all related to our defined benefit pension plan.

Changes to AOCL ^(a)	For the Twenty-six Weeks Ended	
	December 28, 2017	December 29, 2016
Balance at beginning of period	\$ (4,404)	\$ (6,425)
Other comprehensive income before reclassifications		
Amounts reclassified from accumulated other comprehensive loss	560	661
Tax effect	(219)	(251)
Net current-period other comprehensive income	341	410
Balance at end of period	\$ (4,063)	\$ (6,015)

(a) Amounts in parenthesis indicate debits/expense.

Table of Contents

The reclassifications out of AOCL for the quarter and twenty-six weeks ended December 28, 2017 and December 29, 2016 were as follows:

	For the Quarter Ended				Affected line item in the Consolidated Statements of Comprehensive Income
	December 28, 2017	December 29, 2016	December 28, 2017	December 29, 2016	
Reclassifications from AOCL to earnings^(b)					
Amortization of defined benefit pension items:					
Unrecognized prior service cost	\$ (240)	\$ (240)	\$ (479)	\$ (479)	Other expense
Unrecognized net loss	(41)	(91)	(81)	(182)	Other expense
Total before tax	(281)	(331)	(560)	(661)	
Tax effect	111	126	219	251	Income tax expense
Amortization of defined pension items, net of tax	\$ (170)	\$ (205)	\$ (341)	\$ (410)	

(b) Amounts in parenthesis indicate debits to expense. See Note 9 Retirement Plan above for additional details.

Note 11 Income Taxes

Income tax expense as a percent of pre-tax income (the Effective Tax Rate) for the quarter ended December 28, 2017 was 39.0% compared to an Effective Tax Rate of 31.6% for the quarter ended December 29, 2016. The Effective Tax Rate for the twenty-six weeks ended December 28, 2017 was 35.4% compared to an Effective Tax Rate of 32.9% for the twenty-six weeks ended December 29, 2016. The increase in the Effective Tax Rate for the quarter and six months ended December 28, 2017 was primarily related to the re-measurement of our net deferred tax assets incorporating the new federal income tax rate.

H.R.1, originally known as the Tax Cuts and Jobs Act of 2017, was enacted on December 22, 2017, and includes, among other items, a reduction in the federal corporate income tax rate from 35% to 21%, which will have a material favorable impact on our effective income tax rate and cash income taxes paid going forward. Because we have a June fiscal year-end, the lower corporate income tax rate will be phased in during the 2018 calendar year, resulting in a U.S. statutory federal rate of approximately 28% for our fiscal year ending June 28, 2018, and 21% for subsequent fiscal years. Our net deferred tax asset balances are recorded at the tax rate expected to be in effect during the period in which the related temporary differences reverse. Therefore, this reduction in the corporate federal income tax rate required a non-cash reduction of our net deferred tax asset balances and a corresponding increase in income tax expense of \$2,408 during the quarter and twenty-six weeks ended December 28, 2017. We scheduled out the expected reversal of temporary differences, including anticipated changes in our pension accrual and fixed asset acquisitions for the next six months, which required the use of reasonable estimates. Actual results could differ from those estimates, and thus further adjustment of our deferred tax asset balances are possible.

Windfall tax benefits related to the excess tax deduction of share-based compensation of \$332 and \$446 for the quarter and twenty-six weeks ended December 28, 2017 partially offset the impact of the reduction of the corporate tax rate.

Note 12 Commitments and Contingent Liabilities

We are currently a party to various legal proceedings in the ordinary course of business. While management presently believes that the ultimate outcomes of these proceedings, individually and in the aggregate, will not materially affect our Company's financial position, results of operations or cash flows, legal proceedings are subject to inherent uncertainties, and unfavorable outcomes could occur. Unfavorable outcomes could include substantial monetary damages in excess of any appropriate accruals which management has established. Were such unfavorable final outcomes to occur, there exists the possibility of a material adverse effect on our financial position, results of operations and cash flows.

Table of Contents

We are subject to a class-action complaint for an employment related matter. Mediation for this matter occurred in fiscal 2017. In August 2017, we agreed in principle to a \$1,200 settlement for which we were fully reserved at June 29, 2017. The non-monetary components of the settlement are still being finalized.

Note 13 Fair Value of Financial Instruments

Authoritative guidance issued by the Financial Accounting Standards Board (FASB) defines fair value as the price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The guidance establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels:

- Level 1 Quoted prices in active markets that are accessible at the measurement date for identical assets and liabilities.
- Level 2 Observable inputs other than quoted prices in active markets. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3 Unobservable inputs for which there is little or no market data available.
- The carrying values of cash, trade accounts receivable and accounts payable approximate their fair values at each balance sheet date because of the short-term maturities and nature of these balances.

The carrying value of our revolving credit facility borrowings approximates fair value at each balance sheet date because interest rates on this instrument approximate current market rates (Level 2 criteria), the short-term maturity and nature of this balance. In addition, there has been no significant change in our inherent credit risk.

The following table summarizes the carrying value and fair value estimate of our current and long-term debt, excluding unamortized debt issuance costs:

	December 28, 2017	June 29, 2017	December 29, 2016
Carrying value of long-term debt:	\$ 38,256	\$ 28,808	\$ 30,532
Fair value of long-term debt:	38,584	29,316	31,124

The estimated fair value of our long-term debt was determined using a market approach based upon Level 2 observable inputs, which estimates fair value based on interest rates currently offered on loans with similar terms to borrowers of similar credit quality or broker quotes. In addition, there have been no significant changes in the underlying assets securing our long-term debt.

Note 14 Related Party Transaction

In connection with the Acquisition on November 30, 2017, we incurred \$11,500 of unsecured debt to the principal owner and seller of the Squirrel Brand business, who was subsequently appointed as an executive officer of the Company. The interest rate on the Promissory Note is 5.5% per annum and the outstanding balance at December 28, 2017 was \$11,181. Interest paid on the Promissory Note during the second quarter of fiscal 2018 was immaterial.

Table of Contents**Note 15 Recent Accounting Pronouncements**

The following recent accounting pronouncements have been adopted in the current fiscal year:

In March 2017, the FASB issued ASU No. 2017-07 *Compensation Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. The amendments in this update require the service cost component of pension expense to be disaggregated from the other components of net periodic benefit cost and be presented in the same line items as other employee compensation costs. All other components of net periodic benefit cost (interest cost, amortization of prior service cost and amortization of unrecognized loss) must be presented in the income statement separately from the service cost component and outside a subtotal of income from operations. The amendments in this update also allow only the service cost component to be eligible for capitalization when applicable (for example, as a cost of internally manufactured inventory or a self-constructed asset). This update is effective for public business entities for annual periods beginning after December 15, 2017, including interim periods within those annual periods. Early adoption is permitted as long as it is early adopted in the first interim period of an annual year and financial statements have not been issued or made available for issuance prior to adoption. The amendments in this update should be applied using a retrospective transition method, however, a practical expedient is offered with regard to the prior comparative periods. The Company adopted ASU 2017-07 in the first quarter of fiscal 2018. Service cost continues to be presented as a component of Administrative expense while the remaining components of net periodic benefit cost (interest cost, amortization of prior service cost and amortization of unrecognized loss) are now presented below the caption Other expense on the Consolidated Statements of Comprehensive Income. Adoption of this update required a reclassification of \$533 and \$1,066 in the prior year second quarter and twenty-six week period, respectively, from Administrative expense to Other expense.

In October 2016, the FASB issued ASU No. 2016-17 *Consolidation (Topic 810): Interests Held Through Related Parties That Are Under Common Control*. This update amends ASU 2015-02 and affects reporting entities that are required to evaluate whether they should consolidate a variable interest entity in certain situations involving entities under common control. ASU 2016-17 is effective for the Company in fiscal 2018 and requires retrospective application. The adoption of ASU 2016-17 did not have any impact to the Consolidated Financial Statements.

In July 2015, the FASB issued ASU No. 2015-11 *Inventory (Topic 330): Simplifying the Measurement of Inventory*. This update applies to inventory measured using first-in, first-out or average cost and requires inventory be measured at the lower of cost and net realizable value. Net realizable value is defined as estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. When evidence exists that the net realizable value of inventory is lower than its cost, the difference shall be recognized as a loss in earnings in the period in which it occurs. That loss may be required, for example, due to damage, physical deterioration, obsolescence, changes in price levels, or other causes. This update became effective for the Company beginning in fiscal year 2018 with prospective application required. The adoption of ASU 2015-11 did not have any impact to the consolidated financial statements.

The following recent accounting pronouncements have not yet been adopted:

In January 2017, the FASB issued ASC Update No. 2017-04 *Intangibles Goodwill and Other Topics (Topic 350): Simplifying the Test for Goodwill Impairment*. The purpose of this update is to reduce the cost and complexity of evaluating goodwill for impairment. It eliminates the need for entities to calculate the impaired fair value of goodwill by assigning the fair value of a reporting unit to all of its assets and liabilities as if that reporting unit had been acquired in a business combination, commonly referred to as Step 2. Under this amendment, an entity will perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An impairment

charge is recognized for the amount by which the carrying value exceeds the reporting unit's fair value. This update is effective beginning in fiscal 2021. We do not expect this update to have a material impact on our Consolidated Financial Statements.

In February 2016, the FASB issued ASU No. 2016-02 *Leases (Topic 842)*. The primary goal of this update is to require the lessee to recognize all lease commitments, both operating and finance, by initially recording a lease asset and liability on the balance sheet at the lease commencement date. Additionally, enhanced qualitative and quantitative disclosures will be required. ASU No. 2016-02 is effective for public business entities for annual periods, including interim periods within those annual periods, beginning after December 15, 2018. This new guidance will be effective for the Company beginning in fiscal year 2020. This guidance must be adopted using a modified retrospective approach and early adoption is permitted. The Company expects this new guidance to have a significant impact on its total assets and total liabilities, and lead to increased financial statement disclosures.

Table of Contents

In May 2014, the FASB issued ASU No. 2014-09 *Revenue from Contracts with Customers (Topic 606)* and created a new ASC Topic 606, *Revenue from Contracts with Customers*, and added ASC Subtopic 340-40, *Other Assets and Deferred Costs - Contracts with Customers*. The guidance in this update supersedes the revenue recognition requirements in ASC Topic 605, *Revenue Recognition*, and most industry-specific guidance throughout the industry topics of the codification. Under the new guidance, an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Several other amendments have been subsequently released, each of which provide additional narrow scope clarifications or improvements. In August 2015, the FASB issued ASU No. 2015-14 *Revenue from Contracts with Customers, Deferral of the Effective Date* which deferred the effective date of ASU 2014-09 for one year. Consequently, this new revenue recognition guidance will be effective for the Company beginning in fiscal year 2019, which is our anticipated adoption date. We have completed our initial analysis of this accounting standard update which included a review of all material customer contracts and currently do not anticipate any material changes to our revenue recognition compared to current GAAP. We are currently evaluating the method of adoption.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

OVERVIEW

The following discussion and analysis should be read in conjunction with the unaudited Consolidated Financial Statements and the Notes to Consolidated Financial Statements.

Our fiscal year ends on the final Thursday of June each year, and typically consists of fifty-two weeks (four thirteen-week quarters). Additional information on the comparability of the periods presented is as follows:

References herein to fiscal 2018 and fiscal 2017 are to the fiscal year ending June 28, 2018 and the fiscal year ended June 29, 2017, respectively.

References herein to the second quarter of fiscal 2018 and fiscal 2017 are to the quarters ended December 28, 2017 and December 29, 2016, respectively.

References herein to the first half or first twenty-six weeks of fiscal 2018 and fiscal 2017 are to the twenty-six weeks ended December 28, 2017 and December 29, 2016, respectively.

As used herein, unless the context otherwise indicates, the terms *we*, *us*, *our* or *Company* collectively refer to John Sanfilippo & Son, Inc. and our wholly-owned subsidiary, JBSS Ventures, LLC. Our Company's Credit Facility and Mortgage Facility, as defined below, are sometimes collectively referred to as *our financing arrangements*.

We are one of the leading processors and distributors of peanuts, pecans, cashews, walnuts, almonds and other nuts in the United States. These nuts are sold under a variety of private brands and under the *Fisher*, *Orchard Valley Harvest*, *Squirrel Brand*, *Southern Style Nuts*, and *Sunshine Country* brand names. We also market and distribute, and in most cases, manufacture or process, a diverse product line of food and snack products, including peanut butter, almond butter, cashew butter, candy and confections, snacks and trail mixes, snack bites, sunflower kernels, dried fruit, corn snacks, sesame sticks and other sesame snack products under private brands and brand names. We distribute our products in the consumer, commercial ingredients and contract packaging distribution channels.

The Company's long-term objective to drive profitable growth, as identified in our strategic plan (the *Strategic Plan*), includes growing *Fisher*, *Orchard Valley Harvest*, *Squirrel Brand* and *Southern Style Nuts* into leading nut brands by focusing on consumers demanding quality nuts in the snacking, recipe and produce categories, providing integrated nut solutions to grow non-branded business at existing key customers in each distribution channel and increasing our consumer reach efforts, including by expanding our product offerings into alternative distribution channels. We executed on our Strategic Plan in the second quarter of fiscal 2018 by completing the strategic acquisition of Squirrel Brand, L.P. (*Squirrel Brand*), a former contract packaging customer. In addition, we managed to grow our *Fisher* recipe nut sales volume in the quarter by focusing on our promotional activity and expanding distribution, despite a major *Fisher* recipe nut customer transitioning to a private label program for certain package types during the quarter.

We face a number of challenges in the future which include, among others, volatile commodity costs for certain tree nuts, especially cashews, and intensified competition for market share from both private brand and name brand products. We also face changing industry trends resulting in retail consolidation and Internet price competition for nut and nut related products, as well as significant risks associated with increasing use of fixed price arrangements with

certain of our customers. We will continue to focus on seeking profitable business opportunities to further utilize our additional production capacity at our primary manufacturing, processing and distribution facility located in Elgin, Illinois (the Elgin Site). We expect to maintain our recent level of promotional and advertising activity for our *Fisher* and *Orchard Valley Harvest* brands. We continue to see significant domestic sales and volume growth in our *Orchard Valley Harvest* brand and expect to continue to focus on this portion of our branded business. We will continue to face the ongoing challenges specific to our business, such as food safety and regulatory issues and the maintenance and growth of our customer base. See the information referenced in Part II, Item 1A Risk Factors of this report for additional information about our risks, challenges and uncertainties.

Table of Contents

QUARTERLY HIGHLIGHTS

Our net sales of \$259.1 million for the second quarter of fiscal 2018 increased 3.9% from our net sales of \$249.4 million for the second quarter of fiscal 2017. Net sales for the first twenty-six weeks of fiscal 2018 increased by \$2.2 million, or 0.5%, to \$473.9 million from net sales of \$471.7 million for the first twenty-six weeks of fiscal 2017.

Sales volume, measured as pounds sold to customers, increased 0.7 million pounds, or 0.9% in the second quarter of fiscal 2018, compared to the second quarter of fiscal 2017. Sales volume for the first twenty-six weeks of fiscal 2018 was relatively unchanged compared to the first twenty-six weeks of fiscal 2017.

Gross profit decreased by \$5.5 million, and our gross profit margin, as a percentage of net sales, decreased to 14.6% for the second quarter of fiscal 2018 compared to 17.4% for the second quarter of fiscal 2017. Gross profit decreased by \$7.1 million and our gross profit margin decreased to 15.3% from 16.9% for the first twenty-six weeks of fiscal 2018 compared to the first twenty-six weeks of fiscal 2017.

Total operating expenses for the second quarter of fiscal 2018 increased by \$0.5 million, or 2.2%, compared to the second quarter of fiscal 2017. As a percentage of net sales, total operating expenses in the second quarter of fiscal 2018 decreased to 9.1% from 9.3% for the second quarter of fiscal 2017. For the first half of fiscal 2018, total operating expenses decreased by \$1.4 million, to 8.7% of net sales compared to 9.0% for the first half of fiscal 2017.

The total value of inventories on hand at the end of the second quarter of fiscal 2018 decreased by \$13.8 million, or 7.6%, in comparison to the total value of inventories on hand at the end of the second quarter of fiscal 2017.

On November 30, 2017 we completed the acquisition of the Squirrel Brand business for a purchase price of \$33.4 million (the Acquisition). Squirrel Brand is one of the nation's leading suppliers of indulgent and premium roasted nuts and snack mixes under its *Squirrel Brand* and *Southern Style Nuts* brands. Prior to the Acquisition, Squirrel Brand was a customer in our Contract Packaging sales channel for fourteen years. Through this Acquisition, we increased our customer base and branded portfolio as part of our goal of expanding into alternative distribution channels.

We have seen acquisition costs for walnuts, peanuts and cashews increase in the 2017 crop year (which falls into our current 2018 fiscal year). We completed procurement of inshell walnuts during the first half of fiscal 2018. During the third quarter, we will determine the final prices to be paid to the walnut growers based upon current market prices and other factors such as crop size and export demand. We have estimated the liability to our walnut growers and our walnut inventory costs using currently available information. Any difference between our estimated liability and the actual final liability will be determined during the third quarter of fiscal 2018 and will be recognized in our financial results at that time.

Table of Contents**RESULTS OF OPERATIONS****Net Sales**

Our net sales increased 3.9% to \$259.1 million in the second quarter of fiscal 2018 compared to net sales of \$249.4 million for the second quarter of fiscal 2017. The increase in net sales was primarily due to increased sales of snack and trail mix products in our consumer distribution channel combined with a 2.9% increase in the weighted average sales price per pound. Sales volume, which is defined as pounds sold to customers, increased approximately 0.9% in the quarterly comparison.

For the first twenty-six weeks of fiscal 2018 our net sales were \$473.9 million, an increase of \$2.2 million, or 0.5%, compared to the same period of fiscal 2017. The increase in net sales was primarily due to a slight increase in sales volume.

The following table summarizes sales by product type as a percentage of total gross sales. The information is based upon gross sales, rather than net sales, because certain adjustments, such as promotional discounts, are not allocable to product type.

Product Type	For the Quarter Ended		For the Twenty-six Weeks Ended	
	December 28, 2017	December 29, 2016	December 28, 2017	December 29, 2016
Peanuts	13.0%	13.9%	14.3%	14.2%
Pecans	20.5	22.5	17.4	19.0
Cashews & Mixed Nuts	26.0	23.1	25.4	23.3
Walnuts	9.8	9.6	9.2	9.2
Almonds	12.5	14.1	13.8	16.4
Trail & Snack Mixes	12.9	12.2	14.6	13.0
Other	5.3	4.6	5.3	4.9
Total	100.0%	100.0%	100.0%	100.0%

The following table shows a comparison of net sales by distribution channel (dollars in thousands):

Distribution Channel	For the Quarter Ended			Percent Change
	December 28, 2017	December 29, 2016	Change	
Consumer ⁽¹⁾	\$ 181,533	\$ 168,778	\$ 12,755	7.6%
Commercial Ingredients	35,578	40,325	(4,747)	(11.8)
Contract Packaging	42,007	40,272	1,735	4.3
Total	\$ 259,118	\$ 249,375	\$ 9,743	3.9%

- (1) Sales of branded products were approximately 45% and 47% of total consumer sales during the second quarter of fiscal 2018 and fiscal 2017, respectively. *Fisher* branded products were approximately 84% and 89% of branded sales during the second quarter of fiscal 2018 and fiscal 2017, respectively, with branded produce products accounting for most of the remaining branded product sales.

Table of Contents

The following table shows a comparison of net sales by distribution channel (dollars in thousands):

Distribution Channel	For the Twenty-six Weeks Ended			Percent Change
	December 28, 2017	December 29, 2016	Change	
Consumer ⁽¹⁾	\$ 317,501	\$ 303,945	\$ 13,556	4.5%
Commercial Ingredients	71,987	91,045	(19,058)	(20.9)
Contract Packaging	84,421	76,678	7,743	10.1
Total	\$ 473,909	\$ 471,668	\$ 2,241	0.5%

(1) Sales of branded products were approximately 42% and 43% of total consumer sales during the first twenty-six weeks of fiscal 2018 and fiscal 2017, respectively. *Fisher* branded products were approximately 83% and 87% of branded sales during the first twenty-six weeks of fiscal 2018 and fiscal 2017, respectively, with branded produce products accounting for most of the remaining branded product sales.

Net sales in the consumer distribution channel increased by 7.6% in dollars and 6.6% in sales volume in the second quarter of fiscal 2018 compared to the second quarter of fiscal 2017. The sales volume increase was driven by increased sales of private brand and *Orchard Valley Harvest* trail mixes. Sales volume for *Fisher* recipe nuts increased 3.4% due to distribution gains with new and existing customers, increased promotional activity, and a product line extension for raw peanuts. A 55.6% increase in sales volume of *Orchard Valley Harvest* produce products was driven by new item introductions and distribution gains at new and existing customers. Sales volume for *Fisher* snack nuts decreased 2.8% mainly from lower promotional activity.

In the first twenty-six weeks of fiscal 2018, net sales in the consumer distribution channel increased by 4.5% in dollars and increased 4.4% in sales volume, compared to the same period of fiscal 2017. The sales volume increase was driven by increased sales of private brand and *Orchard Valley Harvest* trail mixes.

Net sales in the commercial ingredients distribution channel decreased by 11.8% in dollars and 14.5% in sales volume in the second quarter of fiscal 2018 compared to the second quarter of fiscal 2017. In the first twenty-six weeks of fiscal 2018, net sales in the commercial ingredients distribution channel decreased by 20.9% in dollars and 15.8% in sales volume compared to the same period of fiscal 2017. The sales volume decrease for both the quarterly and twenty-six week period was primarily due to the loss of a bulk almond butter customer that occurred in the latter part of the fiscal 2017 second quarter.

Net sales in the contract packaging distribution channel increased by 4.3% in dollars and declined 1.9% in sales volume in the second quarter of fiscal 2018 compared to the second quarter of fiscal 2017. The sales volume decrease was mainly due to our acquisition of the Squirrel Brand business at the end of November 2017. Squirrel Brand sales volume for December in the current quarter was included in the consumer and commercial ingredients channels, while Squirrel Brand sales volume for December in the fiscal 2017 second quarter was included in the contract packaging distribution channel because Squirrel Brand was a contract packaging customer during the second quarter of fiscal 2017.

In the first twenty-six weeks of fiscal 2018, net sales in the contract packaging distribution channel increased by 10.1% in dollars and 5.7% in sales volume compared to the first twenty-six weeks of fiscal 2017. Increased sales to an

existing customer from new item introductions during the first twenty-six weeks of fiscal 2018 drove the increase in sales volume.

Gross Profit

Gross profit decreased by \$5.5 million, or 12.7%, to \$37.9 million for the second quarter of fiscal 2018 compared to the second quarter of fiscal 2017. Our gross profit margin, as a percentage of net sales, decreased to 14.6% for the second quarter of fiscal 2018 compared to 17.4% for the second quarter of fiscal 2017. The decreases in gross profit and gross profit margin were mainly due to increased commodity acquisition costs for walnuts and pecans. We could not raise walnut and pecan selling prices to cover these acquisition cost increases due to prior holiday promotional pricing commitments that we made primarily to support new *Fisher* recipe nut distribution.

Table of Contents

Gross profit decreased by \$7.1 million, or 8.9%, to \$72.7 million for the first twenty-six weeks of fiscal 2018 compared to the first twenty-six weeks of fiscal 2017. Our gross profit margin decreased to 15.3% for the first twenty-six weeks of fiscal 2018 compared to 16.9% for the first twenty-six weeks of fiscal 2017. The decreases in gross profit and gross profit margin in the year to date comparison occurred primarily for the same reasons cited in the quarterly comparison.

Operating Expenses

Total operating expenses for the second quarter of fiscal 2018 increased by \$0.5 million, or 2.2%, to \$23.6 million. Operating expenses for the second quarter of fiscal 2018 decreased to 9.1% of net sales from 9.3% of net sales for the second quarter of fiscal 2017.

Selling expenses for the second quarter of fiscal 2018 were \$15.8 million, an increase of \$0.5 million, or 3.1%, from the second quarter of fiscal 2017. The increase was driven primarily by a \$0.5 million increase in compensation related expenses and a \$0.4 million increase in freight expense. These expenses were partially offset by a \$0.7 million decrease in incentive compensation expense in the current quarter.

Administrative expenses for the second quarter of fiscal 2018 were \$7.8 million compared to \$7.7 million for the second quarter of fiscal 2017. A \$1.5 million decrease in compensation-related expenses, primarily incentive compensation expense, was offset by a \$0.6 million increase of transaction and legal expenses, primarily due to the Acquisition, and an increase of \$0.4 million of personnel expense. The current quarter also included \$0.3 million of amortization expense associated with the Acquisition.

Total operating expenses for the first twenty-six weeks of fiscal 2018 decreased by \$1.4 million, or 3.2%, to \$41.1 million. Operating expenses decreased to 8.7% of net sales for the first half of fiscal 2018 compared to 9.0% of net sales for the first half of fiscal 2017.

Selling expenses for the first twenty-six weeks of fiscal 2018 were \$26.8 million, an increase of \$0.1 million, or 0.6%, from the amount recorded for the first twenty-six weeks of fiscal 2017.

Administrative expenses for the first twenty-six weeks of fiscal 2018 were \$14.3 million, a decrease of \$1.5 million, or 9.5%, compared to the same period of fiscal 2017. The decrease in administrative expenses was due to a \$2.1 million decrease in incentive compensation expense, partially offset by a \$0.5 million increase of transaction expenses related to the Acquisition. The current year-to-date expenses also include \$0.3 million of amortization expense associated with the Acquisition.

Income from Operations

Due to the factors discussed above, income from operations was \$14.2 million, or 5.5% of net sales, for the second quarter of fiscal 2018 compared to \$20.3 million, or 8.1% of net sales, for the second quarter of fiscal 2017.

Due to the factors discussed above, income from operations was \$31.6 million, or 6.7% of net sales, for the first twenty-six weeks of fiscal 2018 compared to \$37.4 million, or 7.9% of net sales, for the first twenty-six weeks of fiscal 2017.

Interest Expense

Interest expense was \$0.8 million for the second quarter of fiscal 2018 compared to \$0.6 million in the second quarter of fiscal 2017. Interest expense for the first two quarters of fiscal 2018 was \$1.6 million compared to \$1.2 million for the first two quarters of fiscal 2017. The increase in interest expense for both the quarterly and twenty-six week comparison was due primarily to higher debt levels, which were mainly driven by the Acquisition.

Rental and Miscellaneous Expense, Net

Net rental and miscellaneous expense was \$0.2 million for the second quarter of fiscal 2018 compared to \$0.3 million for the second quarter of fiscal 2017. Net rental and miscellaneous expense was \$0.9 million for the first twenty-six weeks of fiscal 2018 compared to \$0.7 million for the first twenty-six weeks of fiscal 2017.

Table of Contents***Other Expense***

Other expense consists of pension related expenses other than the service cost component and was \$0.5 million for the second quarter of both fiscal 2018 and fiscal 2017. Other expense was \$1.0 million and \$1.1 million for the first twenty-six weeks of fiscal 2018 and 2017, respectively.

Income Tax Expense

Income tax expense was \$5.0 million, or 39.0% of income before income taxes (the Effective Tax Rate), for the second quarter of fiscal 2018 compared to \$6.0 million, or 31.6% of income before income taxes, for the second quarter of fiscal 2017. For the first twenty-six weeks of fiscal 2018, income tax expense was \$10.0 million, or 35.4% of income before income taxes, compared to \$11.3 million, or 32.9% of income before income taxes, for the comparable period last year. The net increase in the Effective Tax Rate for the quarterly and twenty-six week comparison was due to a \$2.4 million non-cash charge to income tax expense to reduce our deferred tax assets due to the Tax Cuts and Jobs Act of 2017, which lowered the corporate income tax rate to twenty one percent, effective January 1, 2018.

Net Income

Net income was \$7.8 million, or \$0.68 per common share basic and diluted, for the second quarter of fiscal 2018, compared to \$12.9 million, or \$1.14 per common share basic and \$1.13 per common share diluted, for the second quarter of fiscal 2017.

Net income was \$18.2 million, or \$1.60 per common share basic and \$1.59 per share diluted, for the first twenty-six weeks of fiscal 2018, compared to net income of \$23.1 million, or \$2.04 per common share basic and \$2.03 per share diluted, for the first twenty-six weeks of fiscal 2017.

LIQUIDITY AND CAPITAL RESOURCES***General***

The primary uses of cash are to fund our current operations, fulfill contractual obligations, pursue our Strategic Plan through growing our branded and private label nut programs and repay indebtedness. Also, various uncertainties could result in additional uses of cash. The primary sources of cash are results of operations and availability under our Credit Agreement, dated February 7, 2008 and subsequently amended most recently in November 2017 (as amended, the Credit Facility), that provides a revolving loan commitment and letter of credit subfacility. We anticipate that expected net cash flow generated from operations and amounts available pursuant to the Credit Facility will be sufficient to fund our operations for the next twelve months. Our available credit under our Credit Facility has allowed us to devote more funds to promote our products (especially our *Fisher* and *Orchard Valley Harvest* brands), consummate strategic business acquisitions such as the recent acquisition of Squirrel Brand, reinvest in the Company through capital expenditures, develop new products, pay a special cash dividend the past six years and explore other growth strategies outlined in our Strategic Plan.

Cash flows from operating activities have historically been driven by net income but are also significantly influenced by inventory requirements, which can change based upon fluctuations in both quantities and market prices of the various nuts and nut products we buy and sell. Current market trends in nut prices and crop estimates also impact nut procurement.

The following table sets forth certain cash flow information for the first half of fiscal 2018 and 2017, respectively (dollars in thousands):

	December 28, 2017	December 29, 2016	\$ Change
Operating activities	\$ 58,431	\$ 62,430	\$ (3,999)
Investing activities	(28,803)	(6,624)	(22,179)
Financing activities	(28,531)	(55,995)	27,464
Net increase (decrease) in cash	\$ 1,097	\$ (189)	\$ 1,286

Table of Contents

Operating Activities Net cash provided by operating activities was \$58.4 million for the first twenty-six weeks of fiscal 2018 compared to \$62.4 million for the comparative period of fiscal 2017. The net decrease in operating cash flow was primarily due to a \$4.9 million reduction in net income.

Total inventories were \$168.9 million at December 28, 2017, a decrease of \$13.6 million, or 7.4%, from the inventory balance at June 29, 2017, and a decrease of \$13.8 million, or 7.6%, from the inventory balance at December 29, 2016. The decrease at December 28, 2017 compared to June 29, 2017 was primarily due to lower quantities of pecans on hand at a lower acquisition cost, partially offset by higher quantities of walnuts on hand at a higher acquisition cost. The decrease in inventories at December 28, 2017 compared to December 29, 2016 was primarily due to lower quantities of pecans on hand combined with lower pecan acquisition costs, partially offset by higher quantities of almonds and finished goods on hand.

Raw nut and dried fruit input stocks, some of which are classified as work in process, decreased by 11.3 million pounds, or 16.6%, at December 28, 2017 compared to December 29, 2016. The weighted average cost per pound of raw nut input stocks on hand at the end of the second quarter of fiscal 2018 decreased 3.4% compared to the end of the second quarter of fiscal 2017 primarily due to lower quantities of pecans at lower acquisition costs than the prior year.

Investing Activities Cash used in investing activities was \$28.8 million during the first twenty-six weeks of fiscal 2018 compared to \$6.6 million for the same period last year. The \$22.2 million increase in cash used in investing activities was due to payment of the cash portion of the purchase price for the Squirrel Brand acquisition which was \$21.9 million. Cash spent for capital expenditures during the first twenty-six weeks of fiscal 2018 was \$0.3 million more than the same period last year. We expect total capital expenditures for new equipment, facility upgrades, and food safety enhancements for fiscal 2018 to be approximately \$14.0 million. Absent any material acquisitions or other significant investments, we believe that cash on hand, combined with cash provided by operations and borrowings available under the Credit Facility, will be sufficient to meet the cash requirements for planned capital expenditures.

Financing Activities Cash used by financing activities was \$28.5 million during the first twenty-six weeks of fiscal 2018 compared to \$56.0 million for the same period last year. We paid \$28.4 million of dividends in the first half of fiscal 2018 compared to \$56.5 million during the same period last year.

Real Estate Matters

In August 2008, we completed the consolidation of our Chicago-based facilities into the Elgin Site. The Elgin Site includes both an office building and a warehouse. We are currently attempting to find additional tenants for the available space in the office building at the Elgin Site. Until additional tenant(s) are found, we will not receive the benefit of rental income associated with such space. Approximately 62% of the rentable area in the office building is currently vacant, of which approximately 29% has not been built-out. There can be no assurance that we will be able to lease the unoccupied space and further capital expenditures may be necessary to lease the remaining space.

Table of Contents***Financing Arrangements***

On February 7, 2008, we entered into the Credit Facility with a bank group (the *Bank Lenders*) providing a \$117.5 million revolving loan commitment and letter of credit subfacility. Also on February 7, 2008, we entered into a Loan Agreement with an insurance company (the *Mortgage Lender*) providing us with two term loans, one in the amount of \$36.0 million (*Tranche A*) and the other in the amount of \$9.0 million (*Tranche B*), for an aggregate amount of \$45.0 million (the *Mortgage Facility*).

On November 29, 2017, we entered into the Consent and Ninth Amendment to our Credit Agreement which provided lender consent to incur unsecured debt in connection with our acquisition of the assets of the Squirrel Brand business, and for the acquisition of the Squirrel Brand business to constitute a *Permitted Acquisition* under the terms of the Credit Facility. The Ninth Amendment also modified our collateral reporting requirements.

The Credit Facility, as most recently amended in November 2017, is secured by substantially all of our assets other than machinery and equipment, real property, and fixtures and matures on July 7, 2021. The Mortgage Facility is secured by mortgages on essentially all of our owned real property located in Elgin, Illinois, Gustine, California and Garysburg, North Carolina (the *Encumbered Properties*).

Credit Facility

At our election, borrowings under the Credit Facility currently accrue interest at either (i) a rate determined pursuant to the administrative agent's prime rate plus an applicable margin determined by reference to the amount of loans which may be advanced under the borrowing base calculation, ranging from 0.25% to 0.75% or (ii) a rate based upon the London interbank offered rate (*LIBOR*) plus an applicable margin based upon the borrowing base calculation, ranging from 1.25% to 1.75%.

At December 28, 2017, the weighted average interest rate for the Credit Facility was 3.00%. The terms of the Credit Facility contain covenants that, among other things, require us to restrict investments, indebtedness, acquisitions and certain sales of assets and limit annual cash dividends or distributions, transactions with affiliates, redemptions of capital stock and prepayment of indebtedness (if such prepayment, among other things, is of a subordinate debt). If loan availability under the borrowing base calculation falls below \$25.0 million, we will be required to maintain a specified fixed charge coverage ratio, tested on a monthly basis, until loan availability equals or exceeds \$25.0 million for three consecutive months. All cash received from customers is required to be applied against the Credit Facility. The Bank Lenders have the option to accelerate and demand immediate repayment of our obligations under the Credit Facility in the event of default on the payments required under the Credit Facility, a change in control in the ownership of the Company, non-compliance with the financial covenant or upon the occurrence of other defaults by us under the Credit Facility (including a default under the Mortgage Facility). As of December 28, 2017, we were in compliance with all covenants under the Credit Facility and we currently expect to be in compliance with the financial covenant in the Credit Facility for the foreseeable future. At December 28, 2017, we had \$83.8 million of available credit under the Credit Facility. If this entire amount were borrowed at December 28, 2017, we would still be in compliance with all restrictive covenants under the Credit Facility.

Mortgage Facility

The Mortgage Facility matures on March 1, 2023. Tranche A under the Mortgage Facility currently accrues interest at a fixed interest rate of 7.63% per annum, payable monthly. Monthly principal payments in the amount of \$0.2 million commenced on June 1, 2008. Tranche B under the Mortgage Facility currently accrues interest, as reset on March 1, 2016, at a floating rate of the greater of (i) one month LIBOR plus 3.50% per annum or (ii) 4.25%, payable monthly

(the Floating Rate). Monthly principal payments in the amount of \$0.1 million commenced on June 1, 2008.

Table of Contents

In January 2018 we locked the interest rates for both Tranche A and Tranche B at 4.25% beginning March 1, 2018 through March 1, 2023.

The terms of the Mortgage Facility contain covenants that require us to maintain a specified net worth of \$110.0 million and maintain the Encumbered Properties. The Mortgage Lender is entitled to require immediate repayment of our obligations under the Mortgage Facility in the event we default in the payments required under the Mortgage Facility, non-compliance with the covenants or upon the occurrence of certain other defaults by us under the Mortgage Facility. As of December 28, 2017, we were in compliance with all covenants under the Mortgage Facility.

Selma Property

In September 2006, we sold our Selma, Texas properties (the Selma Properties) to two related party partnerships for \$14.3 million and are leasing them back. The selling price was determined by an independent appraiser to be the fair market value which also approximated our carrying value. The lease for the Selma Properties has a ten-year term at a fair market value rent with three five-year renewal options. In September 2015, we exercised two of the five-year renewal options which extended the lease term to September 2026. The lease extension also reduced the monthly lease payment on the Selma Properties, beginning in September 2016, to reflect then current market conditions. One five-year renewal option remains. Also, we have an option to purchase the Selma Properties from the owner at 95% (100% in certain circumstances) of the then fair market value, but not less than the original \$14.3 million purchase price. The provisions of the arrangement are not eligible for sale-leaseback accounting and the \$14.3 million was recorded as a debt obligation. No gain or loss was recorded on the Selma Properties transaction. As of December 28, 2017, \$10.8 million of the debt obligation was outstanding.

Squirrel Brand Seller-Financed Note

In November 2017 we completed the Squirrel Brand acquisition. The acquisition was financed by a combination of cash (drawn under the Credit Facility) and a three-year seller-financed note for \$11.5 million (Promissory Note). The Promissory Note is unsecured, bears interest at 5.5% per annum and is payable in equal monthly principal payments of \$0.3 million, plus interest, beginning in January 2018. Upon an event of default, as defined in the Promissory Note, the interest rate increases to 7.5% until such event of default is cured. We have the ability to pre-pay the Promissory Note at any time during the three-year period without penalty. At December 28, 2017, the principal amount of \$11.2 million of the Promissory Note was outstanding.

Critical Accounting Policies and Estimates

For information regarding our Critical Accounting Policies and Estimates, see the Critical Accounting Policies and Estimates section of Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in our Form 10-K for the fiscal year ended June 29, 2017.

Recent Accounting Pronouncements

Refer to Note 15 Recent Accounting Pronouncements of the Notes to Consolidated Financial Statements, contained in Part I, Item 1 of this form 10-Q, for a discussion of recently issued and adopted accounting pronouncements.

Table of Contents**FORWARD LOOKING STATEMENTS**

Some of the statements in this report are forward-looking (including statements concerning our expectations regarding market risk and the impact of the purchasing decisions of major customers). These forward-looking statements may be generally identified by the use of forward-looking words and phrases such as will, intends, may, believes, anticipates, should and expects and are based on the Company's current expectations or beliefs concerning future events and involve risks and uncertainties. Consequently, the Company's actual results could differ materially. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements, whether as a result of new information, future events or other factors that affect the subject of these statements, except where expressly required to do so by law. Among the factors that could cause results to differ materially from current expectations are: (i) the risks associated with our vertically integrated model with respect to pecans, peanuts and walnuts; (ii) sales activity for the Company's products, such as a decline in sales (of branded products, private label products or otherwise) to one or more key customers, a change in product mix to lower price products, a decline in sales of private brand products or changing consumer preferences, including a shift from higher margin products to lower margin products; (iii) changes in the availability and costs of raw materials and the impact of fixed price commitments with customers; (iv) the ability to pass on price increases to customers if commodity costs rise and the potential for a negative impact on demand for, and sales of, our products from price increases; (v) the ability to measure and estimate bulk inventory, fluctuations in the value and quantity of the Company's nut inventories due to fluctuations in the market prices of nuts and bulk inventory estimation adjustments, respectively; (vi) the Company's ability to appropriately respond to, or lessen the negative impact of, competitive and pricing pressures; (vii) losses associated with product recalls, product contamination, food labeling or other food safety issues, or the potential for lost sales or product liability if customers lose confidence in the safety of the Company's products or in nuts or nut products in general, or are harmed as a result of using the Company's products; (viii) the ability of the Company to control expenses, such as compensation, medical and administrative expense; (ix) the potential negative impact of government regulations and laws and regulations pertaining to food safety, such as the Food Safety Modernization Act; (x) uncertainty in economic conditions, including the potential for economic downturn; (xi) the timing and occurrence (or nonoccurrence) of other transactions and events which may be subject to circumstances beyond the Company's control; (xii) the adverse effect of labor unrest or disputes, litigation and/or legal settlements, including potential unfavorable outcomes exceeding any amounts accrued; (xiii) losses due to significant disruptions at any of our production or processing facilities; (xiv) the inability to implement our Strategic Plan, including growing our branded and private brand product sales and expanding into alternative sales channels; (xv) technology disruptions or failures; (xvi) the inability to protect the Company's brand value, intellectual property or avoid intellectual property disputes; (xvii) the Company's ability to manage successfully the price gap between its private brand products and those of its branded competitors; and (xviii) potential increased industry-specific regulation pending the U.S. Food and Drug Administration assessment of the risk of Salmonella contamination associated with tree nuts.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material change in our assessment of our sensitivity to market risk since our presentation set forth in Part I Item 7A Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the fiscal year ended June 29, 2017.

Item 4. Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of December 28, 2017. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of December 28, 2017, the Company's disclosure controls and procedures were effective.

In connection with the evaluation by our management, including our Chief Executive Officer and Chief Financial Officer, there were no changes in our internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during the quarter ended December 28, 2017 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

For a discussion of legal proceedings, see Note 12 Commitments and Contingent Liabilities in Part I, Item 1 of this Form 10-Q.

Item 1A. Risk Factors

In addition to the other information set forth in this report on Form 10-Q, you should also consider the factors, risks and uncertainties which could materially affect our Company's business, financial condition or future results as discussed in Part I, Item 1A Risk Factors of our Annual Report on Form 10-K for the fiscal year ended June 29, 2017. There were no significant changes to the risk factors identified on the Form 10-K for the fiscal year ended June 29, 2017 during the second quarter of fiscal 2018.

See Part I, Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources in this Form 10-Q, and see Part II, Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources in the Company's Annual Report on Form 10-K for the fiscal year ended June 29, 2017.
