The earnings per share were RMB0.08 and net asset value per share (excluding non-controlling interests) was RMB3.71.

Please refer to the unaudited financial information below for details of the operating results.

BUSINESS REVIEW FOR THE FIRST HALF OF THE YEAR

During the first half of 2011, the Company overcame the adverse effects arising from high fuel prices, tight money supply and downward movement of the capital market. The Company actively addressed the changes in the operating environment focusing on enhancing economic

efficiency. As a result, the Company achieved new developments in various aspects including production safety, cost control, energy saving and environment protection and capital operation.

1. Power Generation

During the first half of this year, the Company's power plants within China achieved a total power generation of 152.404 billion kWh on consolidated basis, representing an increase of 28.25% over the same period of last year. The increase in power generation of the Company was mainly attributable to the following reasons: The Company has grasped the continued growth trend of the national economy in 2011 and the favourable conditions of a relatively strong national power demand, expanding various marketing channels and increasing effective power generation. At the same time, the market share of the Company increased as a number of new generating units commenced power generation since the second half of 2010, and the acquisition of Diandong Energy Company and Zhanhua Cogeneration was completed.

During the first half of 2011, the total power generation of Tuas Power Ltd. in Singapore accounted for a market share of 26.7%, representing an increase of 2.2 percentage point compared to that in the same period of last year.

2. Cost Control

During the first half of 2011, the Company's coal purchase cost increased as the market purchase price remained at a high level which was significantly higher than that in the same period of last year. The Company adopted various measures including optimizing the purchase structure, increasing the purchase volume of economical coal and rationalizing inventories arrangements, with an aim of reducing average coal purchase prices.

3. Energy Saving and Environmental Protection

The Company attaches great importance to energy saving and environmental protection work. During the "Eleventh Five-year Plan" period, all coal-fired generating units of the Company are equipped with desulphurization facilities and over 30% of the capacity of coal-fired generating units is equipped with denitrification facilities. Moreover, the Company has strengthened the operation and maintenance of the desulphurization facilities of coal-fired generating units so as to increase the operating efficiency and commissioning rate of the facilities.

4. Project Development and Construction

During the first half of 2011, the Jiangsu Jinling CCGT co-generation project, Liaoning Changtu Taiping Wind Power Plant project and Yunnan Laochang Mining Area Bailongshan Coal Mine No.2 Shaft project of the Company obtained approval.

Liaoning Wafangdian Zhaotun Wind Power Plant (48 MW) commenced operation on 18 June 2011. To date, the controlling generation capacity and the equity-based generation capacity of the Company are 54,499 MW and 51,032.5 MW respectively.

5. Capital Operation

On 29 June 2011, the Company entered into an agreement relating to the transfer of the equity interest in Huaneng Jilin Biological Power Generation Co., Ltd. with Huaneng Jilin Power Generation Co., Ltd. (“Huaneng Jilin Company”) and China Huaneng Group Company (“Huaneng Group”), pursuant to which the Company will transfer its interest in Huaneng Jilin Biological Power Generation Co., Ltd. (“Jilin Biological Company”) to Huaneng Jilin Company and Huaneng Jilin Company will pay a consideration of RMB106,303,200 to the Company. At the same time, the energy saving and emission reduction capital in the central state-owned capital operating budget in the sum of RMB71,350,000 originally appropriated by Huaneng Group to Jilin Biological Company through the Company will no longer be treated as capital injected by the Company. Huaneng Group and Huaneng Jilin Company will enter into a separate agreement on the special fund treatment issue.

PROSPECTS FOR THE SECOND HALF OF THE YEAR

Currently the overall economic situation of China is good and the economy is being developed following the macroeconomic control policy. The government will continue to maintain the continuity and stability of the macroeconomic policy and continuously enhance the pertinence and flexibility of the policy.

Regarding the power market, national power demand maintained a relatively rapid growth trend due to the steady and relatively fast development of the national economy. The estimated national annual power generation is expected to increase more than 12%. Most of the Company’s power plants are located along riverside or seaside in southeast China, where the

power market condition is better than that of the nationwide level as a whole. In addition to the completion of the planned power generation for domestic units of 315 billion kWh set out at the beginning of this year, the Company strives to enable the annual power generation utilization hours of coal-fired generation units to exceed the average levels of the places where the coal-fired generating units are located. However, during the second half of the year, the power market faces certain uncertainties. Following the further realization of the effect of monetary tightening structure adjustment and the continuous commencement of operation of new generating units, power supply capability will be further enhanced and the tense power supply and demand situation will be further eased, and the growth rate of power generation will slow down gradually. At the same time, the Company will comply with the higher requirement in future development projects after the government's restructuring of the energy sector and vigorous promotion of clean energy and renewable energy development.

Regarding the coal market, the National Development and Reform Commission strengthened supervision on the fulfillment rates and price settlement of key coal supply contracts of certain coal suppliers. The Company will actively implement and continuously strive to obtain the support of State policies in order to increase the overall profitability. During the second half of the year, the coal demand and supply tend to balance generally, and coal prices will remain at high levels. The Company will formulate purchase strategy and optimize purchase structure according to market changes; continue to strengthen cooperation with large State-owned coal enterprises and broaden major supply channels; strengthen economical coal purchase; capitalize on the function of two resources in the international and domestic markets; actively explore new channels to obtain coal resources and strive to control fuel costs.

Regarding energy saving and environmental protection, the Company always strictly complies with the State's policies and regulations on energy saving and environmental protection. The Company applies advanced technologies to new generating units to develop advanced, large capacity and effective coal-fired generating units and effective cogenerating units, strives to increase the ratio of clean energy including wind power and hydropower, expedites the denitrification renovation of coal-fired generating units and strengthens the operation management of the environmental protection facilities of existing generating units, so as to effectively reduce pollutant emission and control costs on energy saving and environmental protection.

Regarding the capital market, the monetary policy of the government has changed from "moderately loose" to "stable". During the year, the Central Bank raised the deposit reserve ratio six times successively and raised the loan interest rate three times. Large banks also

further strengthened risk control and enterprise financing difficulty and financing costs further increased.

During the second half of the year, the Company will fully leverage its own advantages in terms of resources, scale, geographical coverage and costs. It will actively exploit new space for development, strengthen marketing work, strive to exceed the annual power generation target, strictly control costs and enhance the Company's profitability.

The major tasks of the Company for the second half of 2011 include:

1. to strengthen safe production and management and ensure the safe, stable and economical operation of its generating units;
 2. to strengthen the sales force and strive to exceed the annual power generation on the basis of ensuring maximization of the benefits of power generation;
 3. to improve fuel management work and make every effort to ensure a safe, stable and effective fuel supply; and to raise the key contract fulfillment rate, strengthen blending and mixed burning and effectively control fuel purchase costs;
 4. to strengthen the management of energy consumption indicators, actively promote refined management of energy consumption indicators and optimized operation of generating units and further raise the level of energy consumption indicators; and to strengthen emissions reduction and continuously enhance the commissioning rate and overall efficiency of the environmental protection facilities;
 5. to actively cope with the severe financing environment and strive to explore financing channels in order to ensure capital sufficiency for the operation and development of the Company; and to further optimize the debt structure and control financial risks.
 6. to actively push forward preliminary work of projects; to further optimize power structure and adjust deployment by making use of the "Twelfth Five-year Plan" of power development; and to strengthen infrastructure management and ensure the safe, stable and economical operation of new generating units in order to attain the requirements for energy saving and environmental friendly generating units.

MANAGEMENT'S DISCUSSION AND ANALYSIS (PREPARED UNDER IFRS)

I. COMPARISON AND ANALYSIS OF OPERATING RESULTS

During first half of 2011, the Company completed its acquisitions of Diandong Energy, Diandong Yuwang, Luoyuanwan Harbor, Luoyuanwan Pier, Ludao Pier and Suzihe Hydropower. These six entities are included in consolidation scope of the Company since then.

Comparison of operating results between the first half of 2011 and 2010.

Summary

According to the Company's preliminary statistics, for the six months ended 30 June 2011, the Company and its subsidiaries' total domestic power generation on a consolidated basis amounted to 152.404 billion kWh, representing an increase of 28.25% over the same period in 2010, and total electricity sold amounted to 143.718 billion kWh, representing an increase of 28.30% over the same period in 2010.

The increase in the Company and its subsidiaries' power generation was mainly due to the following reasons:

The Company seized the growth trend of the national economy in 2011 and the favorable conditions for substantial increase in power demand, expanded various marketing channels and increased power generation;

Since the second half of 2010, the Company's market share has increased, with new generation units being put into production and completion of the acquisitions of Diandong Energy and Zhanhua Cogeneration.

The power generation/electricity sold of each of the Company and its subsidiaries' domestic power plants in the first half year of 2011 are listed below (in billion kWh):

The figures relating to the power generation of Zhanhua Cogeneration, Diandong Energy and Yuwang Energy for the first half of 2010 are included for reference only and were not accounted for in the Company's total power generation for the first half of 2010.

For the first half of 2011, the accumulated power generation of Tuas Power Ltd. in Singapore accounted for a market share of 26.7%, representing an increase of 2.2 percentage points compared to 24.50% for the same period of last year.

The Company experienced a 31.11% increase in operating revenue during the first half of 2011 from the same period of last year contributed by the significant increase in power generation. The operating costs of the Company for the first half of 2011 increased by 32.46% from the same period of last year due to the increase in fuel prices and power generation as well as the expansion of operating scale of the Company. As a whole, the net profit attributable to shareholders of the Company for the first half of 2011 was RMB1.131 billion, representing a 41.48% decrease from RMB1.932 billion for the same period of last year. The decrease of net profit was mainly attributable to the increase in fuel prices and increase of interest rate of RMB borrowings.

1. Operating revenue and tax & levies on operations

Operating revenue mainly represents revenue received from power sold. For the six months ended 30 June 2011, the consolidated operating revenue of the Company and its subsidiaries amounted to RMB64.054 billion, representing a 31.11% increase over RMB48.854 billion for the same period of last year.

The increase in operating revenue is mainly attributable to the increase in power generation. New generation units contributed RMB6.516 billion to the increase and the Singapore operations achieved an increase by RMB2.951 billion in operating revenue.

Tax and levies on operations mainly consist of value-added tax surcharges. According to relevant administrative regulations, such surcharges include the City Construction Tax and Education Surcharge calculated at prescribed percentage on the amount of the value-added tax paid. These surcharges also applied to direct foreign investment entities that have been approved by the government since December 2010, certain power plants of the Company are subject to these surcharges since then. For the six months ended 30 June 2011, the tax and levies on operations increased to RMB0.218 billion, by RMB0.156 billion from

RMB62.0 million for the same period of last year.

2. Operating expenses

For the six months ended 30 June 2011, total operating expenses of the Company and its subsidiaries increased by 32.46% to RMB59.045 billion from RMB44.577 billion for the same period of last year.

The increase was mainly attributable to the increase in fuel prices and power generation as well as the expansion of operating scale of the Company. The operations of new generation units contributed to an increase of consolidated operating expenses of RMB6.258 billion while the operating expenses of Singapore operations increased by RMB2.328 billion.

2.1 Fuel cost

Fuel cost represented the largest portion of the operating expenses of the Company and its subsidiaries, which increased by 35.08% to RMB42.885 billion for the first half of 2011 from RMB31.749 billion for the same period of last year. The increase in fuel cost was primarily due to the increase in fuel prices and power generation as well as the expansion of operating scale of the Company. Operations of new generation units accounted for RMB4.944 billion of the increase in fuel cost, while Singapore operations had an increase by RMB0.794 billion in fuel cost.

2.2 Depreciation

Depreciation expenses of the Company and its subsidiaries have increased by 11.55% to RMB5.830 billion for the first half of 2011 from RMB5.226 billion for the same period of last year. The increase of depreciation expenses was mainly due to the expansion of operating scale of the Company.

2.3 Labor

Labor costs include salary, contributions payable to relevant state authorities for employees' housing fund, medical insurance, pension and unemployment insurance as well as training costs, etc. Labor costs of the Company and its subsidiaries amounted to RMB2.077 billion for the first half of 2011, representing an increase of

RMB0.258 billion from RMB1.819 billion for the same period of last year, which are primarily due to the Company's expansion and the increase in labor costs of new generation units.

2.4

Other operating expenses (including purchase of electricity and service fees paid to Huaneng International Power Development Corporation ("HIPDC"))

Other operating expenses (including purchase of electricity and the services fees paid to HIPDC) of the Company and its subsidiaries amounted to RMB7.109 billion for the first half of 2011, representing an increase of RMB2.287 billion from RMB4.822 billion for the first half of 2010. The increase was mainly attributable to the operations of new generation units and the purchase of electricity by Tuas Power Ltd., which accounted for the increase of RMB0.263 billion and RMB1.426 billion, respectively. Increase in the costs of purchase of electricity was mainly caused by the increase in the volume and the unit price of electricity purchased.

3. Financial expenses

The consolidated net financial expenses of the Company and its subsidiaries for the first half of 2011 amounted to RMB3.687 billion, representing an increase of RMB1.378 billion from RMB2.309 billion for the same period of last year. The increase was primarily attributable to the increased interest rate of RMB borrowings, expensing instead of capitalizing interest upon commercial operation of new generation units and the Company's expansion, among which, the operations of new generating units and Singapore operations contributed RMB0.612 billion and RMB0.256 billion respectively.

4. Share of profit of associates/ jointly control entities

The share of profit of associates/jointly control entities of the Company and its subsidiaries for the first half of 2011 was RMB346 million, representing a decrease of RMB32 million from RMB378 million for the same period of last year.

5. Income tax expenses

For the first half of 2011, the Company and its subsidiaries recorded a consolidated income tax expense of RMB500 million, representing an increase of RMB78 million from RMB422 million for the same period of last year. The increase in weighted average

effective tax rate was primarily attributable to increased losses of certain power plants. The income tax expense of Singapore operations increased by RMB860 million.

6. Net profit attributable to equity holders of the Company (excluding non-controlling interests)

The net profit attributable to equity holders of the Company amounted to RMB1.131 billion for the first half of 2011, representing a decrease of 41.48% from RMB1.932 billion for the same period of last year, which was mainly attributable to the increase of fuel prices and the increase of interest rate of RMB borrowings.

7. Comparison of financial positions

As at 30 June 2011, total assets of the Company and its subsidiaries amounted to RMB255.974 billion, representing an increase of 12.30% from RMB227.938 billion as at 31 December 2010.

As at 30 June 2011, total assets of Singapore operations amounted to RMB30.227 billion, representing an increase of 7.96% from RMB27.998 billion as at 31 December 2010.

The capital expenditure for infrastructure construction and renovation projects of the Company and its subsidiaries for the first half of 2011 amounted to RMB6.348 billion, which was mainly financed by internal funding, debt and equity financing and cash flows generated from operating activities.

8. Major financial position ratios

Calculation formula of the financial ratios:

Ratio of liabilities and shareholders' equity = balance of liabilities as at period end / balance of shareholders' equity (excluding non-controlling interests) as at period end

Current ratio = balance of the current assets as at period end / balance of current liabilities as at period end

Quick ratio = (balance of current assets as at period end - net amounts of inventories as at period end) / balance of current liabilities as at period end

Multiples of interest earned = (profit before income tax expenses + interest expenses) / interest expenditure (inclusive capitalized interest)

Item	The Company and its subsidiaries	
	As at 30 June 2011	As at 31 December 2010
Ratio of liabilities and shareholders' equity	3.75	3.08
Current ratio	0.39	0.38
Quick ratio	0.31	0.32
	For the six months ended 30 June 2011	For the six months ended 30 June 2010
Multiples of interest earned	1.30	1.68

The ratio of liabilities and shareholders' equity increase slightly compared to the beginning of the year, which was mainly attributable to incorporation of power and coal mining operations of Diandong into the consolidated scope of the Company and the increase in loans rose for construction. The current ratio and quick ratio remain at the same level as the beginning of this year.

The multiples of interest earned decreased, which was mainly attributable to the increase of interest expenditure for the first half of 2011.

As of 30 June 2011, the Company and its subsidiaries have a negative working capital balance of RMB61.785 billion. Based on the successful financing history of the Company, the undrawn banking facilities available to the Company and its good credit rating, the Company believes that it will be able to meet its liabilities as and when they fall due and secure the funds required for operations. In addition, the Company continued to make use of its favorable credit rating and minimized interest expense by drawing short-term borrowings which bore relatively lower interest rate.

II. LIQUIDITY AND CASH RESOURCES

1.	Liquidity		
	For the six months end 30 June 2011 (RMB in billion)	For the six months ended 30 June 2010 (RMB in billion)	Change (%)

Cash and cash equivalent, beginning of period	9.426	5.227	80.33%
Cash and cash equivalent as at the end of the period	11.801	5.804	103.33%

The net cash provided by operating activities amounted to RMB9.298 billion for the first half of 2011, which was almost the same with that for the same period of last year.

Net cash used in investing activities amounted to RMB8.300 billion, mainly consisted of capital expenditures for construction and payment for considerations of business combination.

The main financing activities of the Company were repayments of loans and redemption of short-term bonds, as well as new project financing activities. During the first half of 2011, the Company repaid loans of RMB35.845 billion and redeemed short-term bonds of RMB5.00 billion, drawdown new loans of RMB43.848 billion, and issued short-term bonds of RMB4.980 billion.

As at 30 June 2011, cash and cash equivalents of the Company and its subsidiaries denominated in RMB, Singapore dollar, U.S. dollar, Hong Kong dollar and Japanese Yen measured at RMB equivalent were RMB7.024 billion, RMB1.645 billion, RMB1.157 billion, RMB1.969 billion and RMB0.006 billion, respectively.

2. Capital expenditure and cash resources

2.1

Capital expenditure on acquisitions

On 31 December 2009, the Company entered into an Equity Transfer Contract with Shandong Electronic Power Corporation (“Shandong Power”) and Shandong Luneng Development Group Co., Ltd. (“Luneng Development”), in accordance with which, the Company agreed to acquire 100% equity interest in the registered capital of Diandong Energy, 100% equity interest in the registered capital of Diandong Yuwang, 100% equity interest in the registered capital of Zhanhua Cogeneration, 100% equity interest in the registered capital of Jilin Biological Power, 60.25% equity interest in the registered capital of Luoyuanwan Harbour, 58.3% equity interest in the registered capital of Luoyuanwan Pier, 73.46% equity interest in the registered capital of Ludao Pier, 100% equity interest in the registered capital of Luneng Jiaonan Port, 53% equity interest in the registered capital of Luneng Sea Transportation, and development rights with respect to the preliminary stage projects (including Rizhao Lanshan 4×660 MW coal-fired project and Luoyuanwan 2×660 MW coal-fired project), all of which were owned by Shandong Power, and 39.75% equity interest in the registered capital of Luoyuanwan Harbour owned by Luneng Development. The aggregate consideration for the abovementioned acquisitions of equity interests is RMB8.625 billion. As of 30 June 2011, the Company has paid RMB6.885 billion.

Following the completion of acquisition of Zhanhua Cogeneration, Luneng Jiaonan Harbor, Luneng Shipping and Jilin Biochemical Power by the end of 2010, the Company has completed its acquisition of the other five entities in the first half year of 2011.

2.2 Capital expenditures for construction and renovation projects

The capital expenditures for construction and renovation projects for the first half of 2011 amounted to RMB6.348 billion, including RMB682 million for Beijing Cogeneration, RMB671 million for Zuoquan Power plant, RMB530 million for Haimen project, RMB336 million for Jiuquan Wind Power, RMB311 million for Yueyang expansion project, RMB253 million for Qinbei expansion project, RMB178 million for Qidong Wind Power, RMB173 million for Diandong Yuwang, RMB131 million for Shanghai generation project, RMB124 million for Jinling Coal-fired project, and RMB121 million for Xiangqi Hydropower. Expenditures on construction for Singapore operations and other domestic power plants amounted to RMB908 million and RMB1.059 billion, respectively, and expenditures on renovation amounted to RMB871 million.

The Company financed most of the capital expenditures above through internal funding, debts and equity financing and cash from operating activities.

The Company expects to incur significant capital expenditures in the next few years. During the course, the Company will actively improve the project planning process on a commercially viable basis. The Company will also actively develop new projects to pave the way for its long-term development. The Company expects to finance the above capital expenditures through internal funding, debts and equity financing and cash flows from operating activities.

2.3 Cash resources and anticipated financing costs

The Company expects to finance its capital expenditures and acquisition costs primarily from internal funds, debt and equity financing, and cash flows from operating activities.

Good credit status gives the Company strong financing capabilities. As at 30 June 2011, the Company and its subsidiaries had available borrowing facilities

from banks of over RMB90 billion.

Upon approval by the general meeting of shareholders, on 12 January 2011, the Company issued unsecured short-term bonds amounting to RMB5 billion bearing coupon rate of 3.95% per annum. These bonds are denominated in RMB, issued at par and have a term of 365 days. The effective interest rate on these bonds is 4.37% per annum.

As of 30 June 2011, total interest-bearing debts of the Company and its subsidiaries amounted to approximately RMB164.773 billion, including current portion of approximately RMB74.005 billion (including short-term loan and short-term bonds). These debts included borrowings denominated in U.S. dollar of approximately US\$860 million, Singapore dollar of approximately S\$3.044 billion, and Euro of approximately €91 million. The current portions of foreign currency denominated borrowings were US\$135 million, S\$74 million, and €9 million respectively. Besides the debts denominated in RMB, the remaining interest-bearing debts included approximately RMB1.388 billion of fixed-rate borrowings with average interest rate of 3.72%, representing 6.2% of total interest-bearing debts excluding borrowings denominated in RMB, and approximately RMB20.987 billion floating-rate borrowings with average interest rate of benchmark rate plus 1.48%, representing 93.8% of total interest-bearing debts excluding borrowings denominated in RMB.

As of 30 June 2011, SinoSing Power and its subsidiaries borrowed long-term loans at floating-rate from banks denominated in Singapore dollar, in a total amount equivalent to RMB15.924 billion, with annual interest rates ranged from 1.94% to 4.25%, and borrowed short-term loans in a total amount equivalent to RMB39 million, with the interest rate at 1.36% per annum.

As at 30 June 2011, in accordance with original loan agreements, floating-rate loans of the Company and its subsidiaries included balances of US\$776 million (with interest rate ranged from $\text{libor}+0.075\%$ to $\text{libor}+1\%$), and S\$3.036 billion (with interest rate of $\text{sibor}+1.65\%$ or DBS prime rate).

2.4 Other financing requirements

The objective of the Company is to bring long-term, stable and growing returns

to the shareholders. In line with this objective, the Company follows a proactive, stable and balanced dividend policy. On 17 May 2011, the Company declared a cash dividend of RMB0.20 per ordinary share (tax included), with total dividends payable amounting to approximately RMB2.807 billion recorded, as approved at its shareholders' general meeting for the year 2010, which has been fully paid off by the Company by the end of the first half of 2011.

2.5 Maturity of long-term loans

III. PERFORMANCE AND PROSPECTS OF SIGNIFICANT INVESTMENTS

On 22 April 2003, the Company paid RMB2.390 billion to acquire 25% equity interest in Shenzhen Energy Group. In December 2007, the Company acquired 200 million shares of the subsidiary of Shenzhen Energy Group, Shenzhen Energy. In addition, Shenzhen Energy acquired most of the assets of Shenzhen Energy Group by issuing and placing new shares and Shenzhen Energy Group will be liquidated when appropriate. Upon its liquidation, the Company will hold a total of 25.01% direct equity interest in Shenzhen Energy. This investment brought the Company a share of profit of RMB187 million for the first half of 2011 under the International Financial Reporting Standards. The Company expects this investment will provide reasonable investment returns to the Company in the future.

As at 31 December 2006, the Company directly held 60% equity interest in Sichuan Hydropower. In January 2007, Huaneng Group increased its capital investment in Sichuan Hydropower by RMB615 million which resulted the decrease of the Company's equity interest in Sichuan Hydropower to 49%. Huaneng Group became the controlling shareholder of Sichuan Hydropower. This investment brought a share of profit of RMB133 million for the first half year of 2011 under the International Financial Reporting

Standards. The Company expects this investment will provide reasonable investment returns to the Company in the future.

IV. EMPLOYEE BENEFIT POLICIES

As of 30 June 2011, the Company and its subsidiaries had 33,459 employees. During this reporting period, there was no significant change with respect to remuneration policies and training programs of the Company.

V. GUARANTEES ON LOANS AND RESTRICTED ASSETS

As of 30 June 2011, the Company provided guarantees for the long-term loans of SinoSing Power, a wholly-owned subsidiary of the Company, amounted to approximately RMB15.889 billion.

As of 30 June 2011, the details of secured loans of the Company and its subsidiaries are as follows:

1. For the first half of 2011, the Company and its subsidiaries pledged part of its receivables against short-term loans. As at 30 June 2011, the balance of relevant short-term loans was RMB2.942 billion and the book value of receivables pledged was RMB3.152 billion.

As at 30 June 2011, restricted bank deposits amounted to RMB0.159 billion, which were mainly deposits for letters of credits.

The Company had no material contingent liabilities as of 30 June 2011.

VI. RISK FACTORS

Financial Risks

- i) Interest rate risk

Domestic operations: the interest bearing debts denominated in RMB accounted for over 90% of the Company's total interest bearing debts. Hence, the change of RMB interest rates will directly affect the Company's borrowing costs. The interest bearing debts denominated in foreign currencies accounted for less than 10% of the Company's total interest bearing debts, and approximately half of such debts are floating rate borrowings. The Company has entered into an interest rate swap agreement to hedge against its exposures to interest rate risk of approximately half of the debts with floating interest rates, and thus, the fluctuation of the interest rates on foreign currencies borrowings is expected to have minimal impact on the Company.

Overseas operations: the interest bearing debts for the Singapore operations were all denominated in Singapore dollar and bear floating interest rates. The Company has entered into a series of interest rate swap agreements to hedge against its exposures to interest rate risk of approximately half of these debts, and given the prevailing lower level of the interest rates of Singapore dollar borrowings, the recent fluctuation of interest rates of Singapore dollar borrowings is not expected to have material adverse effect on the Company.

- ii) Exchange rate risk

Domestic operations: the interest bearing debts denominated in foreign currencies account for less than 10% of the Company's total debts, mainly denominated in US dollar. Given the steadily upward trend of the exchange rate of RMB to US dollar, the recent fluctuation of exchange rates is not expected to have material adverse effect on the Company.

Overseas operations: the imported fuels by Tuas Power, a subsidiary of SinoSing Power, were settled in US dollar. Considering the fluctuation of the exchange rate of Singapore dollar to US dollar, Tuas Power has entered into forward exchange contracts to hedge against its exposure to potential exchange risks.

The Company will keep a close watch on the fluctuations of exchange rate and interest rate markets and prudently assess the currency and interest rate risks. Combining the current development of overall power generation industry and the growth of the Company, the Company will make continuous effort to not only meet cash requirements for daily operations, constructions and acquisitions, but also establish an optimal capital structure to minimize the cost of capital and manage financial risks through effective financial management activities, thus maintaining sustainable and stable returns to the shareholders.

SHARE CAPITAL STRUCTURE

As at 30 June 2011, total issued share capital of the Company amounted to 14,055,383,440 shares, of which 10,500,000,000 shares were domestic shares, representing 74.70% of the total issued share capital of the Company, and 3,555,383,440 shares were foreign shares, representing 25.30% of the total issued share capital of the Company. In respect of domestic shares, Huaneng International Power Development Corporation ("HIPDC") owned a total of 5,066,662,118 shares, representing 36.05% of the total issued share capital of the Company, while China Huaneng Group held 1,568,001,203 shares, representing 11.16% of the total issued share capital of the Company. Other domestic shareholders held a total of 3,865,336,679 shares, representing 27.49% of the total issued share capital of the Company.

CORPORATE GOVERNANCE

The Company has been stressing the importance of corporate governance through ongoing promoting innovation on the Company's management system and strengthening the establishment of the Company's system. It strives to enhance the transparency of the Company's corporate governance and to enhance the level of quality corporate governance on

an ongoing basis. The Company insists on adopting the principle of “maximizing the benefits of the Company and of all shareholders” as the starting point and treats all shareholders fairly to strive for the generation of long-term, stable and growing returns for shareholders.

(a) Code of Corporate Governance

In recent years, the Company adopted the following measures in order to strengthen corporate governance and enhance the Company’s operation quality:

(1) Enhancing and improving corporate governance

In addition to complying with the provisions of the applicable laws, as a public company listed in three markets both domestically and internationally, the Company is subject to the regulations of the securities regulatory authorities of the three listing places and the supervision of investors at-large. Accordingly, our fundamental principles are to adopt a corporate governance structure that balances and coordinates the decision-making powers, supervisory powers and operating powers, to act with honesty and integrity, and to comply with the law and operate in accordance with the law.

Over the past years, the Company’s Board has formulated and implemented the Rules and Procedures of the Board of Directors Meetings; the Rules and Procedures of the Supervisory Committee Meetings; the Detailed Rules on the Work of the General Manager; the Detailed Rules on the Work of the Strategy Committee of the Board of Directors; the Detailed Rules on the Work of the Audit Committee of the Board of Directors; the Detailed Rules on the Work of the Nomination Committee of the Board of Directors; the Detailed Rules on the Work of the Remuneration and Appraisal Committee of the Board of Directors; the System on Work of Independent Directors, the System on Work of Independent Directors on the annual report and the Work Regulations on Annual Report for the Audit Committee, and amended the Articles of Association according to the applicable laws and the Company’s development need.

(2) Enhancing and improving the information disclosure system

The Company stresses on the importance of external information disclosure. The Company has established the Information Disclosure Committee which comprises the Vice President, the Chief Accountant, managers of each functional department, and is

responsible for examining the Company's regular reports. The Company has implemented the system of holding regular information disclosure meetings every Mondays chaired by the Vice President and the Chief Accountant who will report on the Company's important matters of the week, thereby warranting the Company's performance of the relevant information disclosure obligations. The Company has successively formulated and implemented the relevant information disclosure system, and has made timely amendments thereto according to regulatory requirements. The current systems which have been implemented include the Measures on Information Disclosure Management, the Measures on Investor Relations Management, the Detailed Rules on the Work of the Information Disclosure Committee, the Measures on Work Management of Securities Finance and Capital Operation, Rules of Procedures for the Shareholders' Meetings and the Rules on the Management of the Shares held by the Directors, Supervisors and Senior Management of Huaneng Power International, Inc. and other regulations. For purposes of further strengthening the management of insider information and confidentiality of the Company and to uphold the open, fair and equal principles in information disclosure, the Company has promulgated and implemented the Management Measures of Insider Information in October 2010 to further enhance the regulation of the Company's operation and corporate governance standards, prevent insider dealing activities and protect the lawful interests of the investors. In April 2011, pursuant to the China Securities Regulatory Commission in Beijing and the securities regulatory requirements of the places in which the shares of the Company are listed and in combination with the Company's actual circumstances, the Company had formulated the Management Measure for pursuing Responsibilities regarding Material Errors in Information Disclosure of Annual Report, in order to further regulate and enhance the quality and transparency in information disclosure of the Company's annual report.

Relevant departments of the Company compiled answers (and subsequent updates) to questions regarding the hot topics of market concerns, and the Company's production, operation and operating results in a timely manner. The replies shall become the basis of external communication after being approved by the Company's management and the authorized representatives of the Information Disclosure Committee. Also, the Company engages professional personnel to conduct specialised training for the staff of the Company who are responsible for information disclosure on an irregular basis in order to continuously enhance their level of professionalism.

- (3) Regulating financial management system, strengthening internal control

The credibility of a listed company, to a large extent, relates to the quality of the preparation of financial statements and a regulated operation of financial activities. In order to regulate its financial management, the Company has completed a large amount of specific and detailed work, including:

1. In order to strictly implement the accounting rules, accounting standards and accounting systems, to strengthen accounting and accounts supervision, and to truthfully and fairly reflect the financial position, operating results and cash flow, the Company has compiled the Measures on Accounting, the Measures on Construction Accounting, the Guidelines on Infrastructure Construction Accounting and Auditing, the Measures on Fixed Assets Management, Lists of Fixed Assets and the Measures on Cost Management. The Company's Board, the Supervisory Committee and the Audit Committee have examined the Company's financial reports on a regular basis and the Company has fulfilled the requirements of making the Chairman, the President and the Chief Accountant responsible for the truthfulness and completeness of the financial reports.
2. In order to safeguard the independence of the listed company, the Company maintained the separation of personnel in organizational structure and specifically established the relevant institutions responsible for the entrusted business so that the Company may realize the complete separation of the listed company and the controlling shareholder in terms of personnel, assets and finances according to the laws and regulations of the State and the requirements of regulatory rules.
3. Since 2003, the Company has initiated internal control system construction work in order to establish a sound internal control system for the Company, to achieve an efficient operating effect for ensuring the reliability of financial reports, and to effectively enhance the capability of risk prevention. For the past eight years, the Company has established an internal control system construction strategic plan and highlighted the targets for internal control system construction. By promoting the internal control, the Company's development capability, competitive edges and risk resistance ability have been further enhanced. The Company has realised its strategic targets, established a system for internal control and reinforced the work requirements for internal control systems for the

corporate level, the branch level and the power plants level. On the basis of compliance with the relevant domestic and international regulatory requirements, the Company has established an internal control procedure that was consistent with the management features of the Company, and has designed and promulgated the internal control handbook which was identified as having the highest authority to govern the Company's internal management issues. The Company has insisted on organising various self-assessments on internal control every year, discovering control deficiencies and implementing rectifications in time. The Company also held all-rounded internal publicity and training on the philosophy and knowledge for internal control.

After due assessment, the management of the company considers that the internal control system of the company is sound and the implementation of which is effective.

The Company was among the first batch of US listed PRC enterprises which had satisfied the requirement on internal control in the financial reports under section 404 of the Sarbanes — Oxley Act. So far, the external auditors had issued the auditor's report on the Company's internal control for five successive years without any qualification opinion. The Company has been implementating the internal control work standardization for establishing a long-term internal control system.

4. In regard to fund management, the Company has formulated a number of management measures including the Measures on Financial Management, the Measures on the Management of the Income and Expenditure of the Funds, the Measures on the Assessment of Management of Receipt and Payment of Funds, the Measures on the Management of Bills of Exchange, the Measures on Management of Fund Raising, Rules on the Management of Transactions Involving Financial Derivatives, the Measures on the Management of Provision of Security to Third Parties and the Measures for Regulating Fund Transfers with the Connected Parties. The Company's Articles of Association also set out provisions relating to loans, guarantees and investment. In the annual reports of the Company over the previous years, the Company has engaged certified accountants to conduct auditing on the use of funds by the controlling shareholders and other related parties, and issue specific statements according to the requirements of the CSRC and the Shanghai Stock Exchange for
-

confirmation that there has not been any violation of rules relating to the use of funds. Moreover, the Company also conducted checking and clearing with related parties on a quarterly basis in relation to the operational fund transfers in order to ensure the safety of funds. At the same time, the Company has reported the fund use position each quarter to the Beijing Securities Regulatory Bureau and urged itself to comply with the relevant requirements at any time.

The above systems and measures have formed a sound management framework for our production and operation, ensuring an on-going standardization of operations of the Company and a gradual enhancement of corporate management quality.

(b) Securities Transactions by Directors

As the Company is listed on three jurisdictions, the Company has strictly complied with the relevant binding clauses on securities transactions by directors imposed by the regulatory authorities of the US, Hong Kong and China and we insist on the principle of complying with the strictest clause, which is, implementing the strictest clause among three places. We have adopted a set of standards not less exacting than the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 to the Hong Kong Listing Rules as the model code for securities dealings by directors of the Company, namely, Management Rules regarding the Company's Securities Information and Trading. The Company has also formulated and implemented the Management Rules in respect of the Shares of the Company held by the Directors, Supervisors and Senior Management of Huaneng Power International, Inc. The model codes for the trading of securities by the Company's directors include: trading the Company's shares strictly in accordance with the stipulations under the Companies Law and relevant regulations, prohibiting those who are in possession of securities transaction insider information using insider information in securities trading; and setting out detailed rules for those who are in possession of insider information. Following a specific enquiry on all the directors and senior management of the Company, all the directors and senior management currently do not hold any shares in the Company and there is no material contract in which the directors and senior management directly or indirectly have material interests.

(c) Board of Directors

C. NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION
(Amounts expressed in thousands of RMB unless otherwise stated)

1. BASIS OF PREPARATION

This unaudited condensed consolidated interim financial information for the six months ended 30 June 2011 have been prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting. This unaudited condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2010, which have been prepared in accordance with International Financial Reporting Standards (IFRS) promulgated by the International Accounting Standards Board (the IASB).

As at and for the six months ended 30 June 2011, a portion of the Company and its subsidiaries' funding requirements for capital expenditures were partially satisfied by short-term financing. Consequently, as at 30 June 2011, the Company and its subsidiaries have a negative working capital balance of approximately Renminbi Yuan (RMB) 61.78 billion. Taking into consideration of the expected operating cash flows of the Company and its subsidiaries and the undrawn available banking facilities, the Company and its subsidiaries will refinance and / or restructure certain short-term borrowings into long-term borrowings and also consider alternative sources of financing, where applicable. Therefore, the directors of the Company are of the opinion that the Company and its subsidiaries will be able to meet their liabilities as and when they fall due within the next twelve months and have prepared this unaudited condensed consolidated interim financial information on a going concern basis.

2. PRINCIPAL ACCOUNTING POLICIES

Except as described below, the principal accounting policies adopted are consistent with those applied in the annual financial statements for the year ended 31 December 2010 described in those annual financial statements.

The Company and its subsidiaries have adopted the following amendments to standards in 2011.

- IAS 24 (revised), 'Related party disclosures', issued in November 2009. It supersedes IAS 24, 'Related party disclosures', issued in 2003. IAS 24 (revised) is mandatory for annual periods beginning on or after 1 January 2011. The revised standard clarifies and simplifies the definition of a related party and removes the requirement for government-related enterprises to disclose details of all transactions with the government and other government-related enterprises. The Company and its subsidiaries has earlier adopted the partial exemption of disclosure requirements for transactions with government-related enterprises on 1 January 2010 and apply the remaining requirements of this standard from 1 January 2011 onwards. The adoption of the remaining requirements results in additional disclosures on transactions and balances with associates/jointly controlled entities of Huaneng Group and its subsidiaries. This did not result in any material impact on the unaudited condensed consolidated interim financial information as there was no material transactions with associates/jointly controlled entities of Huaneng Group and its subsidiaries for the six months ended 30 June 2011. The Company and its subsidiaries will disclose the commitments balance with related parties in the upcoming annual financial statements.
- Amendments to IFRS 7, 'Financial instruments: disclosures'. The amendments were as a result of the May 2010 Improvements to IFRSs (the 'May 2010 Improvements') (effective for financial year beginning 1 January 2011). The May 2010 Improvements clarified certain quantitative disclosures and removed the disclosure requirements on financial assets with renegotiated terms. The Company and its subsidiaries adopt the May 2010 Improvement on IFRS 7 on 1 January 2011. These amendments have no material impact on the unaudited condensed consolidated interim financial information.

- Amendments to IAS 34 'Interim financial reporting' is effective for annual periods beginning on or after 1 January 2011. It emphasizes the existing disclosure principles in IAS 34 and adds further guidance to illustrate how to apply these principles. Greater emphasis has been placed on the disclosure principles for significant events and transactions. Additional requirements cover disclosure of changes to fair value measurement (if significant), and the need to update relevant information from the most recent annual report. These amendments did not result in any material impact on the unaudited condensed consolidated interim financial information.

3. REVENUE AND SEGMENT INFORMATION

Revenues recognized during the period are as follows:

	For the six months ended 30 June	
	2011	2010
Sales of power and heat	63,004,353	48,296,467
Sales of coal	433,973	343,096
Port and transportation service	198,988	104,440
Others	416,832	109,856
 Total	 64,054,146	 48,853,859

Directors and certain senior management of the Company perform the function as chief operating decision makers (collectively referred to as the "senior management"). The senior management reviews the internal reporting of the Company and its subsidiaries in order to assess performance and allocate resources. The Company has determined the operating segments based on these reports. For the six months ended 30 June 2010, the operating segments of the Company were grouped into power segment and all other segments. Considering the developments of Singapore

operations in late 2010, including the commencement of construction of a new generator, the Company expected a continuous increase in significance of the Singapore operations. Hence, the internal reporting was restructured and the Company grouped operating segments into PRC power segment, Singapore segment and all other segments (mainly including port and transportation operations). Therefore, comparative figures for the six months ended 30 June 2010 were restated.

Senior management assesses the performance of the operating segments based on a measure of profit before income tax expense under China Accounting Standard for Business Enterprises (OPRC GAAP) in related periods excluding dividend income received from available-for-sale financial assets and operating results of those centrally managed and resource allocation functions in headquarters. Other information provided, except as noted below, to the senior management of the Company is measured under PRC GAAP.

Segment assets exclude prepaid income tax, deferred income tax assets, available-for-sale financial assets and assets related to those centrally managed and resource allocation functions in headquarters that are not attributable to any operating segment (Ocorporate assetsO). Segment liabilities exclude current income tax liabilities, deferred income tax liabilities and liabilities related to those centrally managed and resource allocation functions in headquarters that are not attributable to any operating segment (Ocorporate liabilitiesO). These are part of the reconciliation to total balance sheet assets and liabilities.

All sales among the operating segments were performed at market price or close to market price, and have been eliminated as internal transactions when preparing the unaudited condensed consolidated interim financial information.

12. INCOME TAX EXPENSE

No Hong Kong profits tax was provided for the six months ended 30 June 2011 (for the six months ended 30 June 2010: nil) as the Company and its subsidiaries had no estimated assessable profits arising in or deriving from Hong Kong.

Income tax expense of the Company and its subsidiaries has been provided on the estimated assessable profits for the period at their prevailing rates of taxation.

Upon the effective of the Corporate Income Tax Law of the People's Republic of China on 1 January 2008, domestic subsidiaries with original applicable tax rate of 33% apply income tax rate of 25% from 1 January 2008 onwards. Domestic entities of the Company and its subsidiaries which originally enjoyed preferential tax treatments will transit to 25% gradually from 1 January 2008 onwards. Pursuant to Guo Fa [2007] 39 document, starting from 1 January 2008, entities which originally enjoyed two-year tax exemption and three-year 50% reduction tax treatments, continue to follow the original tax laws, administrative regulations and relevant documents until respective expiration dates. However, those not being entitled to preferential tax treatment as a result of tax losses, the preferential period started from 2008 onwards.

For the six months ended 30 June 2011, the income tax rate applicable to Singapore subsidiaries is 17% (for the six months ended 30 June 2010: 17%).

For the six months ended 30 June 2011, the weighted average effective tax rate applicable to the Company and its subsidiaries is approximately 31.06% (for the six months ended 30 June 2010: 17.75%). The increase in weighted average effective tax rate was primarily attributable to decrease in tax credit relating to purchases of domestically manufactured equipment and tax losses of certain subsidiaries with no deferred income tax assets recognized.

13. EARNINGS PER SHARE

The basic earnings per share is calculated by dividing the consolidated net profit attributable to the equity holders of the Company by the weighted average number of the Company's outstanding ordinary shares during the period:

	For the six months ended 30 June	
	2011	2010
Consolidated net profit attributable to equity holders of the Company	1,130,892	1,932,463
Weighted average number of the Company's outstanding ordinary shares ('000)	14,055,383	12,055,383
Basic earnings per share (RMB)	0.08	0.16

There was no dilutive effect on earnings per share since the Company had no dilutive potential ordinary shares for the six months ended 30 June 2011 and 2010.

14. MATERIAL BUSINESS COMBINATIONS

In January 2011, the Company acquired 100% equity interest of Yunnan Diandong Yuwang Energy Limited Company (ÒDiandong Yuwang EnergyÓ), 100% equity interest of Yunnan Diandong Energy Limited Company (ÒYunnan Diandong EnergyÓ), 58.30% equity interest of Fuzhou Port Luoyuanwan Pier Limited Liability Company (ÒLuoyuanwan PierÓ), 60.25% equity interest of Fujian Luoyuanwan Harbour and 73.46% equity interest of Luoyuan Luneng Ludao Pier Limited Liability Company (ÒLudao PierÓ) from Shandong Power, and 39.75% equity interest of Fujian Luoyuanwan Harbour from Shandong Luneng Development Group Company Limited (ÒLuneng DevelopmentÓ). Both Shandong Power and Luneng Development are government-related enterprises.

The aggregate cash considerations of the above acquisitions amounted to RMB 7,465.13 million.

In addition, the Company also acquired the remaining 26.54% equity interest of Ludao Pier from the non-controlling shareholders at a consideration of RMB 65 million in January 2011.

The acquisition reflects the Company's implementation of its development strategy which focuses on both green-field development and acquisition. Upon completion of the acquisitions above, the Company also further strengthened its coastal port operations and expanded the geographical coverage to Yunnan Province.

Fair value of total consideration transferred is as follows:

Purchase consideration:	
— Cash consideration	7,530,127

Acquisition-related costs (included in the profit or loss for the year ended 31 December 2010)	5,712

* The Mining rights are related to coal mining operations of Diandong Yuwang Energy and Yunnan Diandong Energy. As the coal mines are still under construction, no amortization was provided for the six months ended 30 June 2011.

Goodwill arising from the acquisitions is attributable to the economies of scale and significant synergies expected to arise after the acquisitions of the Company on the equity interests in the subsidiaries stated above. None of the goodwill recognized is expected to be deductible for income tax expense purposes.

The fair value of receivables and other assets includes accounts receivables and other receivables of RMB668 million and RMB447 million, respectively. The gross contractual amounts of accounts receivables and other receivables are RMB671 million and RMB448 million, respectively. Management estimated accounts receivables of RMB668 million and other receivables of RMB447 million to be collectible.

The revenue included in the unaudited condensed consolidated interim statement of comprehensive income since acquisition dates contributed by acquisitions above was RMB2,697.00 million. These acquisitions above also contributed loss of RMB225.85 million over the same periods.

4. IMPACT OF ADJUSTMENTS FOR INTERNATIONAL FINANCIAL REPORTING STANDARDS (ÏIFRSÓ) ON NET PROFIT (UNAUDITED)

The financial statements, which are prepared by the Company and its subsidiaries in conformity with the Accounting Standards for Business Enterprises (ÏPRC GAAPÓ), differ in certain respects from that of IFRS. Major impact of adjustments for IFRS, on the consolidated net profit of the Company are summarized as follows:

	Net profit	
	For the six months ended	
	2011	2010
	RMB'000	RMB'000
Consolidated net profit attributable to shareholders of the Company under PRC GAAP	1,178,724	2,025,964
Impact of IFRS adjustments:		
Amortization of the difference in the recognition of housing benefits of the previous years (a)	(1,552)	(11,379)
Difference on depreciation related to borrowing costs capitalized in previous years (b)	(15,003)	(14,846)
Difference in depreciation and amortization of assets acquired in business combinations under common control (c)	(146,997)	(208,850)
Others	35,220	26,491
Applicable deferred income tax impact of the GAAP differences above (d)	30,648	36,831
Profit attributable to minority interests on the adjustments above	49,852	78,252
Profit attributable to equity holders of the Company under IFRS	1,130,892	1,932,463

(a) Amortization of the difference in the recognition of housing benefits of the previous years

The Company and its subsidiaries once provided staff quarters to the employees of the Company and its subsidiaries and sold such staff quarters to the employees of the Company and its subsidiaries at preferential prices set by the local housing reform office. Difference between cost of the staff quarters and proceeds from the employees represented the housing losses, and was borne by the Company and its subsidiaries.

Under Previous Accounting Standards and Accounting System (Previous PRC GAAP), in accordance with the relevant regulations issued by the Ministry of Finance, such housing losses incurred by the Company and its subsidiaries are fully charged to non-operating expenses in previous years. Under IFRS, such housing losses incurred by the Company and its subsidiaries are recognized on a straight-line basis over the estimated remaining average service lives of the employees.

- (b) Difference on depreciation related to borrowing costs capitalized in previous years

In previous years, under Previous PRC GAAP, the scope of capitalization of borrowing costs was limited to specific borrowings, and thus, borrowing costs arising from general borrowings were not capitalized. In accordance with IFRS, the Company and its subsidiaries capitalized borrowing on general borrowing used for the purpose of obtaining qualifying assets in addition to the capitalization of borrowing costs on specific borrowings. From 1 January 2007 onwards, the Company and its subsidiaries adopted PRC GAAP No. 17 prospectively, the current adjustments represent the related depreciation on capitalized borrowing costs included in the cost of related assets under IFRS in previous years.

- (c) Differences in accounting treatment on business combinations under common control in previous years

Huaneng Group is the parent company of HIPDC, which in turn is also the ultimate parent of the Company. The Company carried out a series of acquisitions from Huaneng Group and HIPDC in previous years. As the

acquired power companies and plants and the Company were under common control of Huaneng Group before and after the acquisitions, such acquisitions are regarded as business combinations under common control.

In accordance with PRC GAAP, under common control business combination, the assets and liabilities acquired in business combinations are measured at the carrying amounts of the acquirees on the acquisition date. The difference between carrying amounts of the net assets acquired and the consideration paid is adjusted to equity account of the acquirer. The operating results for all periods presented are retrospectively restated as if the current structure and operations resulting from the acquisition had been in existence since the beginning of the earliest year presented, with financial data of previously separate entities consolidated. The cash consideration paid by the Company is treated as an equity transaction in the year of acquisition.

For the business combination occurred prior to 1 January 2007, in accordance with Previous PRC GAAP, when equity interests acquired is less than 100%, the assets and liabilities of the acquirees are measured at their carrying amounts. The excess of consideration over the proportionate share of the carrying amounts of the net assets acquired was recorded as equity investment difference and amortized on a straight-line basis for not more than 10 years. When acquiring the entire equity, the entire assets and liabilities are accounted for in a method similar to purchase accounting. Goodwill arising from such transactions is amortized over the estimated useful lives on a straight-line basis. On 1 January 2007, in accordance with PRC GAAP, the unamortized equity investment differences and goodwill arising from business combinations under common control were written off against undistributed profits.

Under IFRS, the Company and its subsidiaries adopted the purchase method to account for the acquisitions above. The assets and liabilities acquired in acquisitions were recorded at fair value by the acquirer. The excess of acquisition cost over the proportionate share of fair value of net identifiable assets acquired was recorded as goodwill. Goodwill is not amortized but is tested annually for impairment and carried at cost less accumulated impairment losses. The operating results of the acquirees are consolidated in the operating results of the Company and its subsidiaries from the acquisition dates onwards.

As mentioned above, the differences in accounting treatment under PRC GAAP and IFRS on business combinations under common control affect both equity and profit. Meanwhile, due to different measurement basis of the assets acquired, depreciation and amortization in the period subsequent to the acquisition will be affected which will also affect the equity and profit or loss upon subsequent disposals of such investments. Such differences could be gradually eliminated with the depreciation, amortization and disposal of assets.

(d) Deferred income tax impact on GAAP differences

This represents related deferred income tax impact on the GAAP differences above where applicable.
