MAIDEN HOLDINGS, LTD.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(in thousands of U.S. dollars, except share and per share data)

## 1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements include the accounts of Maiden Holdings, Ltd. and its subsidiaries (the "Company" or "Maiden") and have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP" or "U.S. GAAP") for interim financial statements and with the instructions to Form 10-Q and Article 10 of Regulation S-X as promulgated by the U.S. Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. All significant inter-company transactions and accounts have been eliminated.

These interim unaudited Condensed Consolidated Financial Statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim period and all such adjustments are of a normal recurring nature. The results of operations for the interim period are not necessarily indicative, if annualized, of those to be expected for the full year. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

These unaudited Condensed Consolidated Financial Statements, including these notes, should be read in conjunction with the Company's audited Consolidated Financial Statements, and related notes thereto, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Certain reclassifications have been made for 2015 to conform to the 2016 presentation and have no impact on net income and total equity previously reported.

## 2. Significant Accounting Policies

There have been no material changes to our significant accounting policies as described in our Annual Report on Form 10-K for the year ended December 31, 2015 with the exception of the following:

### Transition related to Accounting Standards Update ("ASU") No. 2015-03: Simplifying the Presentation of Debt Issuance Costs

Effective January 1, 2016, the Company adopted the new guidance under ASU 2015-03 which requires that debt issuance costs be presented as a direct deduction from the related debt liability rather than as an asset in the balance sheet. The amortization of such costs is reported as an interest expense. The Company applied this new guidance retrospectively to all prior periods presented. The adoption of this new guidance reduced the December 31, 2015 audited consolidated total assets and total liabilities by \$10,067, respectively, representing the amount of unamortized issuance costs related to our Senior Notes which was previously presented as part of other assets. There was no impact on the net income, related per-share amounts or the retained earnings for the periods affected by the adoption of this guidance.

### Recently Issued Accounting Standards Not Yet Adopted

### Disclosures about Short-Duration Contracts

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-09 which is aimed at providing users of financial statements with more transparent information about an insurance entity's initial claim estimates and subsequent adjustments to those estimates, methodologies and judgments in estimating claims, and the timing, frequency and severity of claims. The new disclosures are required for short-duration insurance contracts issued by insurers. For public business entities, this guidance will be effective for annual periods beginning after December 15, 2015, and interim periods within annual periods beginning after December 15, 2016. Early adoption is permitted and should be applied retrospectively by providing comparative disclosures for each period presented. As this guidance is disclosure-related only, the adoption of this guidance is not expected to have a material impact on the Company's statements of operations and financial position.

#### Recognition and Measurement of Financial Assets and Financial Liabilities

In January 2016, the FASB issued ASU 2016-01 that will change how entities measure certain equity investments and present changes in the fair value of financial liabilities measured under the fair value option that are attributable to their own credit. The new guidance also changes certain disclosure requirements and other aspects of current U.S. GAAP. It does not change the guidance for classifying and measuring investments in debt securities and loans. Under the new guidance, entities will have to measure many equity investments at fair value and recognize any changes in fair value in net income unless the investments qualify for the new practicability exception. This includes investments in partnerships, unincorporated joint ventures and limited liability companies that do not result in consolidation and are not accounted for under the equity method. Entities will no longer be able to recognize unrealized holding gains and losses on equity securities they classify today as available for sale ("AFS") in AOCI. They also will no longer be able to use the cost method of accounting for equity securities that do not have readily determinable fair values. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those fiscal years. The Company is evaluating the impact of this new guidance on its consolidated results of operations and financial condition.

MAIDEN HOLDINGS, LTD.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(in thousands of U.S. dollars, except share and per share data)

2. Significant Accounting Policies (continued)

Accounting for Leases

In February 2016, the FASB issued final Accounting Standards Codification ("ASC") 842 guidance that requires lessees to put most leases on their balance sheets but recognize expenses on their income statement in a manner similar to today's accounting. The guidance also eliminates today's real-estate-specific provisions for all entities. All entities classify leases to determine how to recognize lease-related revenue and expense. The U.S. GAAP standard is effective for public business entities and certain not-for-profit entities and employee benefit plans for annual periods beginning after December 15, 2018, and interim periods within those years. Early adoption is permitted for all entities. The Company is evaluating the impact of this new guidance on its consolidated results of operations and financial condition.

Improvements to Employee Share-Based Payment Accounting

In March 2016, the FASB issued ASU 2016-09 guidance that outlines changes for certain aspects of share-based payments to employees, such as accounting for forfeitures, which applies to the Company. Under the new guidance, the entities can elect to either estimate the number of awards that are expected to vest or account for forfeitures when they occur. The guidance is effective for public business entities for fiscal year beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted for all entities, in any annual or interim period for which financial statements haven't been issued or made available for issuance, but all of the guidance must be adopted in the same period. The Company is evaluating the impact of this new guidance on its consolidated results of operations and financial condition.

3. Segment Reporting

The Company currently has two reportable segments: Diversified Reinsurance and AmTrust Reinsurance. Our Diversified Reinsurance segment consists of a portfolio of predominantly property and casualty reinsurance business focusing on regional and specialty property and casualty insurance companies located, primarily in the U.S. and Europe. Our AmTrust Reinsurance segment includes all business ceded to Maiden Reinsurance Ltd. ("Maiden Bermuda") from AmTrust Financial Services, Inc. ("AmTrust"), primarily the AmTrust Quota Share and the European Hospital Liability Quota Share. Please refer to "Note 6. Related Party Transactions" for additional information. In addition to our reportable segments, the results of operations of the former NGHC Quota Share segment and the remnants of the U.S. excess and surplus business have been included in the "Other" category.

The Company evaluates segment performance based on segment profit separately from the results of our investment portfolio. General and administrative expenses are allocated to the segments on an actual basis except salaries and benefits where management's judgment is applied. The Company does not allocate general corporate expenses to the segments. In determining total assets by reportable segment, the Company identifies those assets that are attributable to a particular segment such as reinsurance balances receivable, reinsurance recoverable on unpaid losses, deferred commission and other acquisition expenses, loans, goodwill and intangible assets, restricted cash and cash equivalents and investments and prepaid reinsurance premiums. All remaining assets are allocated to Corporate.

The following tables summarize our reporting segment's underwriting results and the reconciliation of our reportable segments and Other category's underwriting results to our consolidated net income:

General and administrative expense ratio <sup>(3)</sup>	4.7	% 0.2	%	2.8	%
Combined ratio <sup>(4)</sup>	101.1	% 94.6	%	98.2	%

(1) Calculated by dividing net loss and LAE by net premiums earned and other insurance revenue.

(2) Calculated by dividing commission and other acquisition expenses by net premiums earned and other insurance revenue.

(3) Calculated by dividing general and

administrative  
expenses by  
net premiums  
earned and  
other  
insurance  
revenue.

(4) Calculated  
by adding  
together the  
net loss and  
LAE ratio,  
commission  
and other  
acquisition  
expense ratio  
and general  
and  
administrative  
expense ratio.

The following tables summarize the total assets of our reportable segments including the reconciliation to our consolidated assets at March 31, 2016 and December 31, 2015:

Corporate bonds	607,843	3,458	(12,326 )	598,975
Total HTM fixed maturities	607,843	3,458	(12,326 )	598,975
Other investments	10,816	1,091	(95 )	11,812
Total investments	\$4,181,523	\$ 62,664	\$(125,312)	\$4,118,875

During the third quarter of 2015, we designated fixed maturities with a total fair value of \$608,722 as HTM reflecting our intent to hold these securities to maturity. The net unrealized holding gain of \$244 at the designation date continues to be reported in the carrying value of the HTM securities and is amortized through Other Comprehensive Income over the remaining life of the securities using the effective interest method in a manner consistent with the amortization of any premium or discount.

The contractual maturities of our fixed maturities are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or repay obligations with or without prepayment penalties.

## MAIDEN HOLDINGS, LTD.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(in thousands of U.S. dollars, except share and per share data)

## 4. Investments (continued)

As of December 31, 2015, there were approximately 270 securities in an unrealized loss position with a fair value of \$1,891,480 and unrealized losses of \$125,312. Of these securities, there are 93 securities that have been in an unrealized loss position for 12 months or greater with a fair value of \$592,418 and unrealized losses of \$78,282.

## Other-Than-Temporary Impairments ("OTTI")

The Company performs quarterly reviews of its investment portfolio in order to determine whether declines in fair value below the amortized cost basis were considered other-than-temporary in accordance with applicable guidance. At March 31, 2016, we have determined that the unrealized losses on fixed maturities were primarily due to widening of credit spreads since their date of purchase. Because we do not intend to sell these securities and it is not more likely than not that we will be required to do so until a recovery of fair value to amortized cost, we currently believe it is probable that we will collect all amounts due according to their respective contractual terms. Therefore, we do not consider these fixed maturities to be other-than-temporarily impaired at March 31, 2016. For the three months ended March 31, 2016 and 2015, the Company recognized no OTTI.

The following summarizes the credit ratings of our fixed maturities:

Ratings* as of March 31, 2016	Amortized cost	Fair value	% of Total fair value	
Fixed maturities				
U.S. treasury bonds	\$5,715	\$6,053	0.1	%

## (b) Other Investments

The table below shows our portfolio of other investments:

	March 31, 2016		December 31, 2015	
	Fair value	% of Total fair value	Fair value	% of Total fair value
Investment in quoted equity	\$6,300	48.2 %	\$4,905	41.5 %
Investments in limited partnerships	5,765	44.1 %	5,907	50.0 %
Other	1,000	7.7 %	1,000	8.5 %
Total other investments	\$13,065	100.0%	\$11,812	100.0%

The Company has an unfunded commitment on its investments in limited partnerships of approximately \$593 at March 31, 2016.

## (c) Realized Gains on Investment

Realized gains or losses on the sale of investments are determined on the basis of the first in first out cost method. The following provides an analysis of net realized gains on investment included in the unaudited Condensed Consolidated Statements of Income:

For the Three Months Ended March 31, 2016	Gross gains	Gross losses	Net
AFS fixed maturities	\$3,093	\$(879)	\$2,214
Other investments	63	—	63
Net realized gains on investment	\$3,156	\$(879)	\$2,277
For the Three Months Ended March 31, 2015	Gross gains	Gross losses	Net
AFS fixed maturities	\$845	\$—	—\$845
Other investments	24	—	24
Net realized gains on investment	\$869	\$—	—\$869

Proceeds from sales of AFS fixed maturities were \$67,837 for the three months ended March 31, 2016 (March 31, 2015 - \$56,639). Net unrealized gains were as follows:

	March 31, 2016	December 31, 2015
Fixed maturities	\$47,564	\$(55,024)
Other investments	2,446	996
Total net unrealized gain (loss)	50,010	(54,028)
Deferred income tax expense	(122)	(84)
Net unrealized gains, net of deferred income tax	\$49,888	\$(54,112)

Change in net unrealized gains, net of deferred income tax \$104,000

(d) Restricted Cash and Cash Equivalents and Investments

We are required to maintain assets to serve as collateral for our reinsurance liabilities under various reinsurance agreements. We also utilize trust accounts to collateralize business with our reinsurance counterparties. These trust accounts generally take the place of letter of credit requirements. The assets in trust as collateral are primarily cash and highly rated fixed maturity securities. The fair value of our restricted assets was as follows:

## 5. Fair Value of Financial Instruments

## (a) Fair Values of Financial Instruments

FASB ASC Topic 820, "Fair Value Measurements and Disclosures" ("ASC 820") defines fair value as the price that would be received upon the sale of an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between open market participants at the measurement date. Additionally, ASC 820 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 — Valuations based on unadjusted quoted market prices for identical assets or liabilities that we have the ability to access. Valuation adjustments and block discounts are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment. Examples of assets and liabilities utilizing Level 1 inputs include: exchange-traded equity securities and U.S. Treasury bonds;

Level 2 — Valuations based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, or valuations based on models where the significant inputs are observable (e.g. interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data. Examples of assets and liabilities utilizing Level 2 inputs include: U.S. government-sponsored agency securities; non-U.S. government and supranational obligations; commercial mortgage-backed securities ("CMBS"); collateralized loan obligations ("CLO"); corporate and municipal bonds; and

Level 3 — Valuations based on models where significant inputs are not observable. The unobservable inputs reflect our own assumptions about assumptions that market participants would use. Examples of assets and liabilities utilizing Level 3 inputs include: insurance and reinsurance derivative contracts; and hedge and credit funds with partial

transparency.

The availability of observable inputs can vary from financial instrument to financial instrument and is affected by a wide variety of factors, including, for example, the type of financial instrument, whether the financial instrument is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires significantly more judgment. Accordingly, the degree of judgment exercised by management in determining fair value is greatest for instruments categorized in Level 3. We use prices and inputs that are current at the measurement date. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified between levels.

For investments that have quoted market prices in active markets, the Company uses the quoted market prices as fair value and includes these prices in the amounts disclosed in the Level 1 hierarchy. The Company receives the quoted market prices from a third party nationally recognized pricing service provider ("the Pricing Service"). When quoted market prices are unavailable, the Company utilizes the Pricing Service to determine an estimate of fair value. The fair value estimates are included in the Level 2

MAIDEN HOLDINGS, LTD.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(in thousands of U.S. dollars, except share and per share data)

#### 5. Fair Value of Financial Instruments (continued)

hierarchy. The Company will challenge any prices for its investments which are considered not to be representation of fair value. If quoted market prices and an estimate from the Pricing Service are unavailable, the Company produces an estimate of fair value based on dealer quotations for recent activity in positions with the same or similar characteristics to that being valued or through consensus pricing of a pricing service. The Company determines whether the fair value estimate is in the Level 2 or Level 3 hierarchy depending on the level of observable inputs available when estimating the fair value. The Company bases its estimates of fair values for assets on the bid price as it represents what a third party market participant would be willing to pay in an orderly transaction.

ASC 825, "Disclosure About Fair Value of Financial Instruments", requires all entities to disclose the fair value of their financial instruments, both assets and liabilities recognized and not recognized in the balance sheet, for which it is practicable to estimate fair value.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held at March 31, 2016.

U.S. government and U.S. government agencies — Bonds issued by the U.S. Treasury, the Federal Home Loan Bank, the Federal Home Loan Mortgage Corporation, Government National Mortgage Association and the Federal National Mortgage Association. The fair values of U.S. treasury bonds are based on quoted market prices in active markets, and are included in the Level 1 fair value hierarchy. We believe the market for U.S. treasury bonds is an actively traded market given the high level of daily trading volume. The fair values of U.S. government agency bonds are determined using the spread above the risk-free yield curve. As the yields for the risk-free yield curve and the spreads for these securities are observable market inputs, the fair values of U.S. government agency bonds are included in the Level 2 fair value hierarchy.

Non-U.S. government and supranational bonds — These securities are generally priced by independent pricing services. The Pricing Service may use current market trades for securities with similar quality, maturity and coupon. If no such trades are available, the Pricing Service typically uses analytical models which may incorporate spreads, interest rate data and market/sector news. As the significant inputs used to price non-U.S. government and supranational bonds are observable market inputs, the fair values of non-U.S. government and supranational bonds are included in the Level 2 fair value hierarchy.

Asset-backed securities — These securities comprise CMBS and CLO originated by a variety of financial institutions that on acquisition are rated BBB-/Baa3 or higher. These securities are priced by independent pricing services and brokers. The pricing provider applies dealer quotes and other available trade information, prepayment speeds, yield curves and credit spreads to the valuation. As the significant inputs used to price the CMBS and CLO are observable market inputs, the fair value of the CMBS and CLO is included in the Level 2 fair value hierarchy.

Corporate bonds — Bonds issued by corporations that on acquisition are rated BBB-/Baa3 or higher. These securities are generally priced by independent pricing services. The spreads are sourced from broker/dealers, trade prices and the new issue market. Where pricing is unavailable from pricing services, we obtain non-binding quotes from broker-dealers. As the significant inputs used to price corporate bonds are observable market inputs, the fair values of corporate bonds are included in the Level 2 fair value hierarchy.

Municipal bonds — Bonds issued by U.S. state and municipality entities or agencies. The fair values of municipal bonds are generally priced by independent pricing services. The pricing services typically use spreads obtained from broker-dealers, trade prices and the new issue market. As the significant inputs used to price the municipal bonds are observable market inputs, municipal bonds are classified within Level 2.

Other investments — Includes both quoted and unquoted investments. The fair value of our quoted equity investment is obtained from the Pricing Service and is classified within Level 1. Unquoted other investments comprise investments in limited partnerships and an investment in preference shares of a start-up insurance producer. The fair values of the limited partnerships are determined by the fund manager based on recent filings, operating results, balance sheet stability, growth and other business and market sector fundamentals, and as such, the fair values are included in the Level 3 fair value hierarchy. The fair value of the investment in preference shares of a start-up insurance producer was determined using recent private market transactions and as such, the fair value is included in the Level 3 fair value hierarchy.

Reinsurance balances receivable — The carrying values reported in the accompanying condensed consolidated balance sheets for these financial instruments approximate their fair value due to short term nature of the assets.

Loan to related party — The carrying value reported in the accompanying condensed consolidated balance sheets for this financial instrument approximates its fair value.

Senior notes — The amount reported in the accompanying condensed consolidated balance sheets for these financial instruments represents the carrying value of the notes. The fair values are based on quoted prices of identical instruments in inactive markets and as such, are included in the Level 2 hierarchy.

## 5. Fair Value of Financial Instruments (continued)

## (b) Fair Value Hierarchy

The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in ASC 820. The framework is based on the inputs used in valuation and gives the highest priority to quoted prices in active markets and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the ASC 820 hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company's significant market assumptions. We classified our financial instruments measured at fair value on a recurring basis in the following valuation hierarchy:

March 31, 2016	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
AFS fixed maturities				
U.S. treasury bonds	\$6,053	\$—	\$ —	\$6,053

The Company utilized a Pricing Service to estimate fair value measurements for approximately 99.9% of its fixed maturities at March 31, 2016 and December 31, 2015, respectively. The Pricing Service utilizes market quotations for fixed maturity securities that have quoted market prices in active markets. Since fixed maturities other than U.S. treasury bonds generally do not trade on a daily basis, the Pricing Service prepares estimates of fair value measurements using relevant market data, benchmark curves, sector groupings and matrix pricing and these have been classified as Level 2. At March 31, 2016 and December 31, 2015, 0.1% of the fixed maturities are valued using the market approach. At those dates, a total of two securities, or approximately \$4,711 and \$4,943, respectively, of Level 2 fixed maturities, were priced using a quotation from a broker and/or custodian as opposed to the

## 6. Related Party Transactions

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

As of March 31, 2016, the Founding Shareholders of the Company are Michael Karfunkel, George Karfunkel and Barry Zyskind. The Founding Shareholders including Leah Karfunkel (wife of Michael Karfunkel) own or control approximately 20.3% of the outstanding shares of the Company. Michael Karfunkel is the non-executive chairman of the board of AmTrust, George Karfunkel is a director of AmTrust, and Barry Zyskind is the president, CEO and director of AmTrust. The Founding Shareholders, including Leah Karfunkel, own or control approximately 47.9% of the outstanding shares of AmTrust. AmTrust owns 11.6% of the issued and outstanding shares of National General Holdings Corporation ("NGHC") common stock, and Michael Karfunkel individually and the Michael Karfunkel 2005 Family Trust (which is controlled by Leah Karfunkel) own a combined 43.1% of the outstanding common shares of NGHC. Michael Karfunkel is the chairman and CEO of NGHC, and Barry Zyskind is a director of NGHC.

Michael Karfunkel passed away on April 27, 2016, thus the shares previously held by him are now held by his estate.

## 6. Related Party Transactions (continued)

### AmTrust

The following describes transactions between the Company and AmTrust.

#### AmTrust Quota Share Reinsurance Agreement

Effective July 1, 2007, the Company and AmTrust entered into a master agreement, as amended (the "Master Agreement"), by which they caused Maiden Bermuda, a wholly owned subsidiary of the Company, and AmTrust's Bermuda reinsurance subsidiary, AmTrust International Insurance, Ltd. ("AII"), to enter into a quota share reinsurance agreement (the "Reinsurance Agreement") by which (a) AII retrocedes to Maiden Bermuda an amount equal to 40% of the premium written by subsidiaries of AmTrust, net of the cost of unaffiliated inuring reinsurance (and in the case of AmTrust's U.K. insurance subsidiary, AmTrust Europe Limited ("AEL"), net of commissions) and 40% of losses and (b) AII transferred to Maiden Bermuda 40% of the AmTrust subsidiaries' unearned premiums, effective July 1, 2007, with respect to the current lines of business. The Master Agreement further provided that AII receives a ceding commission of 31% of ceded written premiums.

On June 11, 2008, Maiden Bermuda and AII amended the Reinsurance Agreement to add Retail Commercial Package Business to the Covered Business. AII receives a ceding commission of 34.375% on Retail Commercial Package Business.

Effective March 7, 2013, Maiden Bermuda and AII amended the Reinsurance Agreement extending the term of the agreement to June 30, 2016. The agreement automatically renews for successive three-year periods thereafter unless AII or Maiden Bermuda elects to so terminate the Reinsurance Agreement by giving written notice to the other party not less than nine months prior to the expiration of any successive three-year period. As no written notice was given by either party, the term of the agreement has been extended to June 30, 2019. Either party is entitled to terminate on thirty days' notice or less upon the occurrence of certain early termination events, which include a default in payment, insolvency, change in control of AII or Maiden Bermuda, run-off, or a reduction of 50% or more of the shareholders' equity of Maiden Bermuda or the combined shareholders' equity of AII and the AmTrust subsidiaries.

In 2015, Maiden Bermuda and AII entered into an agreement to commute certain liabilities as of December 31, 2015. The commuted reserve value of \$107,000, represents full and final settlement of all liabilities related to this business and as a result of this agreement, this business will be excluded prospectively.

Additionally, for the Specialty Program portion of Covered Business only, AII will be responsible for ultimate net loss otherwise recoverable from Maiden Bermuda to the extent that the loss ratio to Maiden Bermuda, which shall be determined on an inception to date basis from July 1, 2007 through the date of calculation, is between 81.5% and 95%. Above and below the defined corridor, Maiden Bermuda will continue to reinsure losses at its proportional 40% share per the Reinsurance Agreement.

#### AmTrust European Hospital Liability Quota Share Agreement ("European Hospital Liability Quota Share")

Effective April 1, 2011, Maiden Bermuda, entered into a quota share reinsurance contract with AEL and AmTrust International Underwriters Limited ("AIUL"), both wholly owned subsidiaries of AmTrust. Pursuant to the terms of the contract, Maiden Bermuda assumed 40% of the premiums and losses related to policies classified as European

Hospital Liability, including associated liability coverages and policies covering physician defense costs, written or renewed on or after April 1, 2011. The contract also covers policies written or renewed on or before March 31, 2011, but only with respect to losses that occur, accrue or arise on or after April 1, 2011. The maximum limit of liability attaching shall be €5,000 (€10,000 effective January 1, 2012) or currency equivalent (on a 100% basis) per original claim for any one original policy. Maiden Bermuda will pay a ceding commission of 5%. The agreement has been renewed through March 31, 2017 and can be terminated at any April 1 by either party on four months notice.

The Company recorded approximately \$141,051 of ceding commission expense for the three months ended March 31, 2016, (March 31, 2015 - \$117,202) as a result of both these quota share arrangements with AmTrust.

#### Other Reinsurance Agreements

Effective September 1, 2010, the Company, through a subsidiary, entered into a quota share reinsurance agreement with Technology Insurance Company, Inc. ("Technology"), a subsidiary of AmTrust. Under the agreement, we ceded (a) 90% of its gross liability written under the Open Lending Program ("OPL") and (b) 100% of its surplus lines general liability business under the Naxos Avondale Specialty Casualty Program ("NAXS"). Our involvement is limited to certain states where Technology was not fully licensed. The agreement also provides that we receive a ceding commission of 5% of ceded written premiums.

The OPL program was terminated on December 31, 2011, on a run-off basis, and the NAXS program was terminated on October 31, 2012. We recorded \$7 of ceded premiums and \$1 ceding commission income for the three months ended March 31, 2016, (March 31, 2015 - \$24 of premiums ceded and \$1 of ceding commission income).

MAIDEN HOLDINGS, LTD.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(in thousands of U.S. dollars, except share and per share data)

6. Related Party Transactions (continued)

Effective April 1, 2012, the Company, through a subsidiary, entered into a reinsurance agreement with AmTrust's wholly owned subsidiary, AmTrust North America, Inc. ("AmTrust NA"). We indemnify AmTrust NA, on an excess of loss basis, as a result of losses occurring on AmTrust NA's new and renewal policies relating to the lines of business classified as Automobile Liability by AmTrust NA in its annual statement utilizing the specific underwriting guidelines defined in the reinsurance agreement. AmTrust NA shall retain the first \$1,000 of loss, per any one policy or per any one loss occurrence. This agreement has a term of one year and automatically renews annually unless terminated pursuant to the terms of the agreement. Under this agreement, for the three months ended March 31, 2016, the Company recorded approximately \$192 net premiums earned and \$51 of commission expense, respectively, (March 31, 2015 - \$156 net premiums earned and \$37 commission expense).

Collateral provided to AmTrust

a) AmTrust Quota Share Reinsurance Agreement

In order to provide AmTrust's U.S. insurance subsidiaries with credit for reinsurance on their statutory financial statements, AII, as the direct reinsurer of the AmTrust's insurance subsidiaries, has established trust accounts ("Trust Accounts") for their benefit. Maiden Bermuda has agreed to provide appropriate collateral to secure its proportional share under the Reinsurance Agreement of AII's obligations to the AmTrust subsidiaries to whom AII is required to provide collateral. This collateral may be in the form of (a) assets loaned by Maiden Bermuda to AII for deposit into the Trust Accounts, pursuant to a loan agreement between those parties, (b) assets transferred by Maiden Bermuda for deposit into the Trust Accounts, (c) a letter of credit obtained by Maiden Bermuda and delivered to an AmTrust subsidiary on AII's behalf, or (d) premiums withheld by an AmTrust subsidiary at Maiden Bermuda's request in lieu of remitting such premiums to AII. Maiden Bermuda may provide any or a combination of these forms of collateral, provided that the aggregate value thereof equals Maiden Bermuda's proportionate share of its obligations under the Reinsurance Agreement with AII.

Maiden Bermuda satisfied its collateral requirements under the Reinsurance Agreement with AII as follows:

- by lending funds in the amount of \$167,975 at March 31, 2016 and December 31, 2015 pursuant to a loan agreement entered into between those parties. This loan was assigned to AmTrust effective December 31, 2014 and is carried at cost. Interest is payable at a rate equivalent to the one-month LIBOR plus 90 basis points per annum; and
- effective December 1, 2008, the Company entered into a Reinsurer Trust Assets Collateral agreement to provide to AII sufficient collateral to secure its proportional share of AII's obligations to the U.S. AmTrust subsidiaries. The amount of the collateral, at March 31, 2016, was approximately \$2,397,086 (December 31, 2015 - \$2,256,383) and the accrued interest was \$16,745 (December 31, 2015 - \$15,448). Please refer to "Note 4. (d) Investments" for additional information.

b) European Hospital Liability Quota Share

AEL requested that Maiden Bermuda provide collateral to secure its proportional share under the European Hospital Liability Quota Share agreement. Please refer to "Note 4. (d) Investments" for additional information.

#### Brokerage Agreement

Effective July 1, 2007, the Company entered into a reinsurance brokerage agreement with AII Reinsurance Broker Ltd. ("AIIB"), a wholly owned subsidiary of AmTrust. Pursuant to the brokerage agreement, AIIB provides brokerage services relating to the Reinsurance Agreement and, the European Hospital Liability Quota Share agreement for a fee equal to 1.25% of the premium assumed. The brokerage fee is payable in consideration of AIIB's brokerage services. AIIB is not the Company's exclusive broker. The agreement may be terminated upon 30 days written notice by either party. Maiden Bermuda recorded approximately \$5,788 of reinsurance brokerage expense for the three months ended March 31, 2016 (March 31, 2015 - \$4,880) and deferred reinsurance brokerage of \$14,556 at March 31, 2016 (December 31, 2015 - \$13,464) as a result of this agreement.

#### Asset Management Agreement

Effective July 1, 2007, the Company entered into an asset management agreement with AII Insurance Management Limited ("AIIM"), a wholly owned subsidiary of AmTrust, pursuant to which AIIM has agreed to provide investment management services to the Company. AIIM provides investment management services for a quarterly fee of 0.0375% if the average value of the account for the previous calendar quarter is greater than \$1 billion. The agreement may be terminated upon 30 days written notice by either party. The Company recorded approximately \$1,645 of investment management fees for the three months ended March 31, 2016 (March 31, 2015 - \$1,431) as a result of this agreement.

#### Other

The Company entered into time sharing agreements for the lease of aircraft owned by AmTrust Underwriters, Inc. ("AUI"), a wholly owned subsidiary of AmTrust, and by AmTrust on March 1, 2011 and November 5, 2014, respectively.

## MAIDEN HOLDINGS, LTD.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(in thousands of U.S. dollars, except share and per share data)

## 6. Related Party Transactions (continued)

The agreements automatically renew for successive one-year terms unless terminated in accordance with the provisions of the agreements. Pursuant to the agreements, the Company will reimburse AUI and AmTrust for actual expenses incurred as allowed by Federal Aviation Regulations. For the three months ended March 31, 2016, the Company recorded an expense of \$22 (March 31, 2015 - \$24) for the use of the aircraft.

## NGHC

The following describes transactions between the Company and NGHC and its subsidiaries:

## NGHC Quota Share Reinsurance Agreement ("NGHC Quota Share")

Maiden Bermuda, effective March 1, 2010, had a 50% participation in the NGHC Quota Share, by which it received 25% of net premiums of the personal lines automobile business and assumed 25% of the related net losses. On August 1, 2013, the Company and NGHC mutually agreed the termination of the NGHC Quota Share on a run-off basis effective on that date. Consequently, Maiden Bermuda recorded no ceding commission expense for the three months ended March 31, 2016 and 2015 as a result of this transaction.

## Other

Effective April 1, 2015, Maiden US renewed the Medical Excess of Loss reinsurance agreement with wholly owned subsidiaries of NGHC, Distributors Insurance Company PCC, AIBD Insurance Company IC and Professional Services Captive Corporation IC. Pursuant to this agreement, Maiden US indemnified on an excess of loss basis, for the amounts of net loss, paid from April 1, 2015 through March 31, 2016. Maiden US was liable for 100% of the net loss for each covered person per agreement year in excess of the \$1,175 retention (each covered person per agreement year). Maiden US' liability did not exceed \$8,825 per covered person per agreement year. In addition, Maiden US continued to indemnify extra contractual obligations with a maximum liability of \$2,000. This agreement terminated on March 31, 2016 and Maiden US was relieved of all liability hereunder for losses incurred or paid subsequent to such termination date.

Under these agreements, Maiden US recorded approximately \$149 of premiums earned for the three months ended March 31, 2016 (March 31, 2015 - \$87).

## 7. Earnings per Common Share

The following is a summary of the elements used in calculating basic and diluted earnings per common share:

For the Three Months Ended March 31,	2016	2015
Numerator:		
Net income attributable to Maiden shareholders	\$ 36,893	\$ 38,489
Dividends on preference shares - Series A	(3,094 )	(3,094 )
Dividends on convertible preference shares - Series B	(2,990 )	(2,990 )
Dividends on preference shares - Series C	(3,593 )	—
Amount allocated to participating common shareholders <sup>(1)</sup>	(16 )	(26 )
Numerator for basic EPS - net income allocated to Maiden common shareholders	\$ 27,200	\$ 32,379
Potentially dilutive securities		

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

Dividends on convertible preference shares- Series B	2,990	2,990
Numerator for diluted EPS - net income allocated to Maiden common shareholders after assumed conversion	\$ 30,190	\$ 35,369
Denominator:		
Weighted average number of common shares outstanding – basic	73,871,277	73,084,412
Potentially dilutive securities:		
Share options and restricted share units	1,051,458	1,427,725
Convertible preference shares <sup>(2)</sup>	10,876,642	10,751,648
Adjusted weighted average number of common shares and assumed conversions – diluted	85,799,377	85,263,785
Basic earnings per share attributable to Maiden common shareholders:	\$ 0.37	\$ 0.44
Diluted earnings per share attributable to Maiden common shareholders:	\$ 0.35	\$ 0.41

9. Commitments and Contingencies

There are no material changes from the commitments and contingencies previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Dividends Declared

On February 15, 2016, the Company's Board of Directors authorized the following quarterly dividend:

	Dividend	Payable on:	Record date:
	per		
	Share		
Common shares	\$ 0.14	April 15, 2016	April 1, 2016

Legal Proceedings

Except as noted below, the Company is not a party to any material legal proceedings. From time to time, the Company is subject to routine legal proceedings, including arbitrations, arising in the ordinary course of business. These legal proceedings generally relate to claims asserted by or against the Company in the ordinary course of insurance or reinsurance operations. Based on the Company's opinion, the eventual outcome of these legal proceedings is not expected to have a material adverse effect on its financial condition or results of operations.

In April 2009, the Company learned that Bentzion S. Turin, the former Chief Operating Officer, General Counsel and Secretary of Maiden Holdings and Maiden Bermuda, sent a letter to the U.S. Department of Labor claiming that his employment with the Company was terminated in retaliation for corporate whistle blowing in violation of the whistle blower protection provisions of the Sarbanes-Oxley Act of 2002. Mr. Turin alleged concerns regarding corporate governance with respect to negotiation of the terms of the Trust Preferred Securities Offering and seeks reinstatement as Chief Operating Officer, General Counsel and Secretary of Maiden Holdings and Maiden Bermuda, back pay and legal fees incurred. On December 31, 2009, the U.S. Secretary of Labor found no reasonable cause for Mr. Turin's claim and dismissed the complaint in its entirety. Mr. Turin objected to the Secretary's findings and requested a hearing before an administrative law judge in the U.S. Department of Labor. The Company moved to dismiss Mr. Turin's complaint, and its motion was granted by the Administrative Law Judge on June 30, 2011.

On July 13, 2011, Mr. Turin filed a petition for review of the Administrative Law Judge's decision with the Administrative Review Board in the U.S. Department of Labor. The Company filed its brief in opposition to the petition for review on October 19, 2011. On March 29, 2013, the Administrative Review Board reversed the dismissal of the complaint on procedural grounds, and remanded the case to the administrative law judge. The administrative hearing began in September 2014, and we expect it to conclude in 2016. The Company believes that it had ample reason for terminating such employment for good and sufficient legal cause, and the Company believes that the claim is without merit and is vigorously defending this claim.

10. Subsequent Events

On May 4, 2016, the Company's Board of Directors authorized the following quarterly dividends:

	Dividend	Payable on:	Record date:
	per Share		

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

Common shares	\$0.14	July 15, 2016	July 1, 2016

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited Condensed Consolidated Financial Statements and related notes included elsewhere in this Quarterly Report on Form 10-Q (this "Form 10-Q" or this "Report"). References in this Form 10-Q to the terms "we", "us", "our", "the Company" or other similar terms mean the consolidated operations of Maiden Holdings, Ltd. and its subsidiaries, unless the context requires otherwise. References in this Form 10-Q to the term "Maiden Holdings" means Maiden Holdings, Ltd. only. Amounts in tables may not reconcile due to rounding differences. Certain reclassifications have been made for 2015 to conform to the 2016 presentation and have no impact on net income and total equity previously reported.

### Note on Forward-Looking Statements

This Quarterly Report on Form 10-Q includes projections concerning financial information and statements concerning future economic performance and events, plans and objectives relating to management, operations, products and services, and assumptions underlying these projections and statements. These projections and statements are forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995 and are not historical facts but instead represent only our belief regarding future events, many of which, by their nature, are inherently uncertain and outside our control. These projections and statements may address, among other things, our strategy for growth, product development, financial results and reserves. Our actual results and financial condition may differ, possibly materially, from these projections and statements and therefore you should not place undue reliance on them. Factors that could cause our actual results and financial condition to differ, possibly materially, from those in the specific projections and statements are discussed throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations and in "Risk Factors" in Item 1A of Part I of our Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") on March 1, 2016. The projections and statements in this Report speak only as of the date of this Report and we undertake no obligation to update or revise any forward-looking statement that may be made from time to time, whether as a result of new information, future developments or otherwise, except as required by law.

### Overview

We are a Bermuda-based holding company formed in June 2007 primarily focused on serving the needs of regional and specialty insurers in the U.S. and Europe by providing innovative reinsurance and capital solutions designed to support their capital needs. We specialize in reinsurance solutions that optimize financing by providing coverage within the more predictable and actuarially credible lower layers of coverage and/or reinsuring risks that are believed to be lower hazard, more predictable and generally not susceptible to significant claims from natural catastrophes. Our tailored solutions include a variety of value added services focused on helping our clients grow and prosper.

We have operations in Bermuda and the United States which provide reinsurance through our wholly owned subsidiaries, Maiden Reinsurance Ltd. ("Maiden Bermuda") and Maiden Reinsurance North America, Inc. ("Maiden US"). Maiden Life Försäkrings AB ("Maiden LF") is a life insurer organized in Sweden and writes credit life insurance on a primary basis in support of Maiden Global Holdings, Ltd.'s ("Maiden Global") business development efforts.

Our business consists of two reportable segments: Diversified Reinsurance and AmTrust Reinsurance.

The market conditions in which we operate have historically been cyclical, experiencing periods of price erosion followed by rate strengthening as a result of catastrophes or other significant losses that affect the overall capacity of

the industry to provide coverage. During the periods covered by this report, the global reinsurance market has continued to be characterized by significant competition in most lines of business. The influx of new capital from sources not considered traditional investors in the reinsurance industry continues, primarily in the property catastrophe segment of the reinsurance market, which is further enhancing overall industry competitive conditions.

While the business we write as part of our business model remains somewhat more insulated from these competitive conditions, we continue to experience residual pricing pressures as a result of these broader industry conditions. As market conditions evolve, we continue to maintain our adherence to disciplined underwriting by declining business when pricing, terms and conditions do not meet our underwriting and pricing standards. We believe that we are well positioned to take advantage of market conditions should the pricing environment become more favorable.

Since our founding in 2007, we have entered into a series of significant strategic and capital transactions that have transformed the scope and scale of our business while maintaining our low volatility, non-catastrophe risk profile. These transactions have supported the growth in our gross premiums written to in excess of \$2.6 billion in 2015 while significantly enhancing our total capital resources. Total capital resources are approximately \$1.8 billion at March 31, 2016.

Please refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations" section included under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015 for further information.

Operating earnings, operating earnings per common share and annualized operating return on average common (1) shareholders' equity are non-GAAP financial measures. See "Key Financial Measures" for additional information and a reconciliation to the nearest GAAP financial measure (net income).

(2) Please refer to "Note 7. Earnings per Common Share" of the Notes to Condensed Consolidated Financial Statements for the calculation of basic and diluted earnings per common share.

Underwriting income is calculated as net premiums earned plus other insurance revenue less net loss and loss (3) adjustment expenses ("LAE"), commission and other acquisition expenses and general and administrative expenses directly related to underwriting activities.

(4) Calculated by adding together the net loss and LAE ratio, commission and other acquisition expense ratio and general and administrative expense ratio.

(5) Total investments and cash and cash equivalents includes both restricted and unrestricted.

(6) Total capital resources is the sum of the Company's principal amount of debt and Maiden shareholders' equity. See "Key Financial Measures" for additional information.

(7) Book value per common share is calculated using common shareholders' equity (shareholders' equity excluding the aggregate liquidation value of our preference shares) divided by the number of common shares outstanding.

(8) Diluted book value per common share is calculated by dividing common shareholders' equity, adjusted for assumed proceeds from the exercise of dilutive options, by the number of outstanding common shares plus dilutive options and restricted share units (assuming exercise of all dilutive stock based awards). The Mandatory Convertible Preference Shares - Series B are excluded at March 31, 2016 and December 31, 2015, as they are anti-dilutive.

#### Key Financial Measures

In addition to the Consolidated Balance Sheets and Consolidated Statements of Income and Comprehensive Income, management uses certain key financial measures, some of which are non-GAAP measures, to evaluate its financial performance and the overall growth in value generated for the Company's common shareholders. Management believes that these measures, which may be defined differently by other companies, better explain the Company's results in a manner that allows for a more complete understanding of the underlying trends in the Company's business. The non-GAAP measures should not be viewed as a substitute for those determined in accordance with U.S. GAAP. These key financial measures are:

Operating Earnings and Operating Earnings per Common Share: Management believes that the use of operating earnings and diluted operating earnings per share enables investors and other users of the Company's financial information to analyze its performance in a manner similar to how Management analyzes performance. Management also believes that these measures follow industry practice and, therefore, allow the users of financial information to compare the Company's performance with its industry peer group, and that the equity analysts and certain rating agencies which follow the Company, and the insurance industry as a whole, generally exclude these items from their analyses for the same reasons. Operating earnings should not be viewed as a substitute for U.S. GAAP net income.

Operating earnings is a performance measure used by management as these measures focus on the the underlying fundamentals of the Company's operations by excluding, on a recurring basis: (1) net realized gains or losses on investment; (2) foreign exchange and other gains or losses; (3) amortization of intangible assets and non-cash deferred tax expenses; and (4) loss and related activity from our run-off operations comprised of our former segment NGHC

Quota Share and our divested U.S. E&S business. We exclude net realized gains or losses on investment and foreign exchange and other gains or losses as we believe these are influenced by market opportunities and other factors. We do not believe amortization of intangible assets and loss and related activity from our run-off operations are representative of our ongoing business. We believe all of these amounts are largely independent of our business and underwriting process and including them distorts the analysis of trends in our operations.

Operating earnings and diluted operating earnings per common share can be reconciled to the nearest U.S. GAAP financial measure as follows:

28

---

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

For the Three Months Ended March 31,	2016		2015	
	(\$ in Millions except per share data)			
Net income attributable to Maiden common shareholders	\$	27.2		\$ 32.4
Add (subtract):				
Net realized gains on investment	(2.3	)	(0.9	)
Foreign exchange and other gains	(0.3	)	(7.8	)
Amortization of intangible assets and non-cash deferred tax expense	0.9		1.0	
Divested E&S business and NGHC run-off	2.8		1.9	
Net operating earnings attributable to Maiden common shareholders	\$	28.3		\$ 26.6
Diluted earnings per share attributable to Maiden common shareholders	\$	0.35		\$ 0.41
Add (subtract):				
Net realized gains on investment	(0.02	)	(0.01	)
Foreign exchange and other gains	—		(0.09	)
Amortization of intangible assets and non-cash deferred tax expense	0.01		0.01	
Divested E&S business and NGHC run-off	0.03		0.03	
Diluted operating earnings per common share	\$	0.37		\$ 0.35

Operating Return on Average Common Equity ("Operating ROACE"): Management uses Operating ROACE as a measure of profitability that focuses on the return attributable to Maiden common shareholders. It is calculated using operating earnings attributable to common shareholders (as calculated above) divided by average Maiden common shareholders' equity. Management has set a long-term target of Operating ROACE at 15%, on average, which management believes provides an attractive return to our common shareholders for the risk they are assuming from

investing in our business.

Operating ROACE for the three months ended March 31, 2016 and 2015 was computed as follows:

For the Three Months Ended March 31,	2016	2015
	(\$ in Millions)	
Net operating earnings attributable to Maiden common shareholders	\$28.3	\$26.6
Opening common shareholders' equity	\$867.8	\$925.7
Ending common shareholders' equity	\$979.0	\$962.1
Average common shareholders' equity	\$923.4	\$943.9
Operating ROACE	12.3 %	11.4 %

Book Value per Common Share and Diluted Book Value per Common Share: Management uses growth in both of these metrics as a prime measure of the value we are generating for our common shareholders, as management believes that growth in each metric ultimately results in growth in the Company's common share price. These metrics are impacted by the Company's net income and external factors, such as interest rates, which can drive changes in unrealized gains or losses on our investment portfolio. At March 31, 2016, the book value per common share and diluted book value per common share increased by 12.4% and 12.3% respectively, compared to December 31, 2015 (see "Liquidity and Capital Resources - Investments" on page 38 for further information). Book value per common share and diluted book value per common share at March 31, 2016 and December 31, 2015 was computed as follows:

	March 31, 2016	December 31, 2015
	(\$ in Millions except per share data)	
Ending common shareholders' equity	\$979.0	\$ 867.8
Proceeds from assumed conversion of dilutive options	13.1	13.4
Numerator for diluted book value per common share calculation	\$992.1	\$ 881.2
Common shares outstanding	73,992,275	72,140,140
Shares issued from assumed conversion of dilutive options and restricted share units	2,079,281	2,166,545
Denominator for diluted book value per common share calculation	76,071,556	74,306,685
Book value per common share	\$13.23	\$ 11.77
Diluted book value per common share	\$13.04	\$ 11.61

Ratio of Debt to Total Capital Resources: Management uses this measure to monitor the financial leverage of the Company. This measure is calculated using the total principal amount of debt divided by the the sum of total capital resources. The ratio of Debt to Total Capital Resources at March 31, 2016 and December 31, 2015 was computed as follows:

	March 31, 2016	December 31, 2015
	(\$ in Millions)	
Senior notes	\$360.0	\$ 360.0
Maiden shareholders' equity	1,459.0	1,347.8
Total capital resources	\$1,819.0	\$ 1,707.8
Ratio of debt to total capital resources	19.8 %	21.1 %

#### Certain Operating Measures and Relevant Factors

Refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations" section included under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015 for a general discussion on "Certain Operating Measures" utilized by the Company and the "Relevant Factors" associated with these Certain Operating Measures.

#### Critical Accounting Policies and Estimates

The Company's critical accounting policies and estimates are discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" section included under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 1, 2016. The critical accounting policies and estimates should be read in conjunction with "Part I, Item 1 - Notes to Condensed Consolidated Financial Statements (unaudited) Note 2. Significant Accounting Policies" included in this Form 10Q and "Notes to Consolidated Financial Statements Note 2. Significant Accounting Policies" included in the audited Consolidated Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC. There have been no material changes in the application of our critical accounting estimates subsequent to that report.

## Results of Operations

## Selected unaudited Condensed Consolidated Statements of Income data:

For the Three Months Ended March 31,	2016	2015
	(\$ in Millions)	
Gross premiums written	\$864.1	\$834.3
Net premiums written	\$792.8	\$797.0
Net premiums earned	\$616.0	\$577.3
Other insurance revenue	4.8	5.0
Net loss and loss adjustment expense	(403.6 )	(377.4 )
Commission and other acquisition expenses	(195.1 )	(178.3 )
General and administrative expenses	(9.2 )	(10.1 )
Underwriting income	12.9	16.5
Other general and administrative expenses	(6.3 )	(6.1 )
Net investment income	36.3	28.3
Net realized gains on investments	2.3	0.9
Amortization of intangible assets	(0.6 )	(0.7 )
Foreign exchange and other gains	0.3	7.8
Interest and amortization expenses	(7.3 )	(7.3 )
Income tax expense	(0.8 )	(0.8 )
Net Income	36.8	38.6
Loss (income) attributable to noncontrolling interest	0.1	(0.1 )
Dividends on preference shares	(9.7 )	(6.1 )
Net income attributable to Maiden common shareholders	\$27.2	\$32.4
Ratios		
Net loss and LAE ratio <sup>(1)</sup>	65.0	% 64.8 %
Commission and other acquisition expense ratio <sup>(2)</sup>	31.4	% 30.6 %
General and administrative expense ratio <sup>(3)</sup>	2.5	% 2.8 %
Expense ratio <sup>(4)</sup>	33.9	% 33.4 %
Combined ratio <sup>(5)</sup>	98.9	% 98.2 %

(1) Calculated by dividing net loss and LAE by net premiums earned and other insurance revenue.

(2) Calculated by dividing commission and other acquisition expenses by net premiums earned and other

insurance  
revenue.

(3) Calculated  
by dividing  
general and  
administrative  
expenses by  
net premiums  
earned and  
other  
insurance  
revenue.

(4) Calculated  
by adding  
together the  
commission  
and other  
acquisition  
expense ratio  
and general  
and  
administrative  
expense ratio.

(5) Calculated  
by adding  
together the  
net loss and  
LAE ratio and  
expense ratio.

#### Net Income

Net income for the three months ended March 31, 2016 was \$36.8 million compared to \$38.6 million for the same period in 2015.

The decrease in net income for the three months ended March 31, 2016 compared to the same period in 2015 was due to lower underwriting income and foreign exchange gains partially offset by higher investment income (including realized investment gains). Underwriting income was impacted by 1) a reduction in the net premium earned in our Diversified Reinsurance segment following a change in the business mix; 2) adverse loss development in our Diversified segment and the E&S component of our Other category (which is not a reportable segment); 3) higher initial booking ratio in our AmTrust Reinsurance segment ; and 4) increases in the commission and acquisition expenses, due to changes in the business mix, in both our reportable segments.

The following is a summary of the results of our operations for the three months ended March 31, 2016, compared to the same period in 2015:

## Net Premiums Written

Net premiums written decreased by \$4.2 million, or 0.5%, for the three months ended March 31, 2016 compared to the same period in 2015. The decrease in net premiums written for the three months ended March 31, 2016, compared to the same period in 2015, was due to 1) the increase in premiums retroceded to a highly rated global insurer in both our reportable segments; and to a lesser extent 2) adverse impact on our non-U.S. dollar denominated business due to the continued strengthening of the U.S. dollar in both reportable segments.

The table below compares net premiums written by our reportable segments, reconciled to the total consolidated net premiums written:

For the Three Months Ended March 31,	2016		2015		Change in	
	Total	% of Total	Total	% of Total	\$	%
	(\$ in Millions)		(\$ in Millions)		(\$ in Millions)	
Diversified Reinsurance	\$286.1	36.1 %	\$294.2	36.9 %	\$(8.1)	(2.7)%
AmTrust Reinsurance	506.7	63.9 %	502.8	63.1 %	3.9	0.8 %
Total reportable segments	\$792.8	100.0%	\$797.0	100.0%	\$(4.2)	(0.5)%

The increase in net premiums written in our AmTrust Reinsurance segment, for the three months ended March 31, 2016, compared to the same period in 2015, reflects AmTrust Financial Services, Inc.'s ("AmTrust") continued expansion through a combination of acquisitions and ongoing organic growth offset by a combination of an unfavorable impact from foreign exchange movements and by an increase in premiums retroceded to a global insurer. Please refer to the analysis of our AmTrust Reinsurance segment on page 35 for further details.

Net premiums written in our Diversified Reinsurance segment decreased by \$8.1 million or 2.7% during the three months ended March 31, 2016 compared to the same period in 2015. These reductions were due to an increase in premiums ceded to a global insurer which is offsetting the growth experienced by our U.S. operations in gross premiums written. Please refer to the analysis of our Diversified Reinsurance segment on page 34 for further details.

## Net Premiums Earned

Net premiums earned increased by \$38.7 million or 6.7%, for the three months ended March 31, 2016, compared to the same period in 2015. The increase in net premiums earned was primarily the result of strong growth in our AmTrust Reinsurance segment offset by a reduction in the earned premiums in our Diversified Reinsurance segment following a change in the mix of business.

The table below compares net premiums earned by our reportable segments, reconciled to the total consolidated net premiums earned:

For the Three Months Ended March 31,	2016		2015		Change in	
	Total	% of Total	Total	% of Total	\$	%
	(\$ in Millions)		(\$ in Millions)		(\$ in Millions)	
Diversified Reinsurance	\$172.3	28.0 %	\$192.7	33.3 %	\$(20.4)	(10.6)%
AmTrust Reinsurance	443.7	72.0 %	384.6	66.7 %	59.1	15.4 %
Total reportable segments	\$616.0	100.0%	\$577.3	100.0%	\$38.7	6.7 %

The increase in net premiums earned in the AmTrust Reinsurance segment, for the three months ended March 31, 2016, compared to the same period in 2015, reflects AmTrust's continued expansion through a combination of acquisition activity and ongoing organic growth slightly offset by an unfavorable impact from foreign exchange movements. Please refer to the analysis of our AmTrust Reinsurance segment on page 35 for further discussion.

Net premiums earned in our Diversified Reinsurance segment decreased by \$20.4 million or 10.6% during the three months ended March 31, 2016, compared to the same period in 2015, primarily due a change in the business mix along with the reasons outlined in the Net Premiums Written section above. Please refer to the analysis of our Diversified Reinsurance segment on page 34 for further discussion.

#### Other Insurance Revenue

All of our Other Insurance Revenue is produced by our Diversified Reinsurance segment. Please refer to page 34 for further discussion.

### Net Investment Income and Net Realized Gains on Investment

Net Investment Income - Net investment income increased by \$8.0 million or 28.5%, for the three months ended March 31, 2016, compared to the same period in 2015.

For the three months ended March 31, 2016, average investable assets grew by 16.1% compared to the same period in 2015. The primary cause for this growth was the 23.8% increase in average fixed income securities held, combined with the decrease of 45.5% in average cash balances, for the three months ended March 31, 2016 compared to the same period in 2015. This growth in fixed income securities gives rise to the increase in average book yield of 30 basis points. The Company periodically maintains elevated levels of cash and cash equivalents which can impact book yields, due to timing of certain operating cash flows and periods of interest rate volatility.

The following table details the Company's average investable assets and average book yield:

For the Three Months Ended March 31,	2016	2015	
	(\$ in Millions)		
Average investable assets <sup>(1)</sup>	\$4,692.8	\$4,043.3	
Average book yield <sup>(2)</sup>	3.1	% 2.8	%

<sup>(1)</sup>The average of the sum of the cost or amortized cost of the Company's investments, cash and cash equivalents (including restricted cash), loan to related party and due to broker at the end of each quarter during the last three months.

<sup>(2)</sup>Annualized ratio of net investment income over average investable assets.

Net Realized Gains on Investment - Net realized gains on investment were \$2.3 million for the three months ended March 31, 2016, compared to \$0.9 million for the same period in 2015, respectively.

### Net Loss and Loss Adjustment Expenses

Net loss and LAE increased by \$26.2 million or 6.9%, for the three months ended March 31, 2016 compared to the same period in 2015. This net increase reflects the continued growth of the business in our AmTrust Reinsurance segment combined with unfavorable results experienced in both reportable segments.

The net loss and LAE ratios were 65.0% for the three months ended March 31, 2016 compared to 64.8% for the same period in 2015. The impact on the net loss and LAE ratios should be considered in conjunction with the commission and other acquisition expense ratio as changes to either ratio arise primarily due to changes in the mix of business and the impact of the increase in the commission and other acquisition expense rates on pro-rata contracts with loss sensitive features.

### Commission and Other Acquisition Expenses

Commission and other acquisition expenses increased by \$16.8 million or 9.4%, for the three months ended March 31, 2016, compared to the same period in 2015. The commission and other acquisition expense ratio increased to 31.4% for the three months ended March 31, 2016 compared to 30.6% for the same period in 2015. Please refer to the reasons for the changes in the combined ratio discussed in the Net Loss and Loss Adjustment Expenses section above.

### General and Administrative Expenses

## Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

General and administrative expenses include expenses which are segregated for analytical purposes as a component of underwriting income and comprise:

For the Three Months Ended March 31,	2016	2015
	(\$ in Millions)	
General and administrative expenses – segments	\$9.2	\$10.1
General and administrative expenses – corporate	6.3	6.1
Total general and administrative expenses	\$15.5	\$16.2
General and administrative expense ratio	2.5 %	2.8 %

Total general and administrative expenses decreased by \$0.7 million or 4.3%, for the three months ended March 31, 2016, compared to the same period in 2015.

### Interest and Amortization Expenses

The interest and amortization expenses related to our Senior Notes remained unchanged at \$7.3 million during the three months ended March 31, 2016 compared to the same period in 2015. The weighted average effective interest rate for the Company's debt was 8.25% for the three months ended March 31, 2016 and 2015, respectively. Refer to "Notes to Consolidated Financial Statements

Note 7. Long Term Debt" included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 for a discussion of the Company's Senior Notes.

#### Income Tax Expense

The Company recorded an income tax expense of \$0.8 million for the three months ended March 31, 2016 and 2015, respectively. These amounts relate to income tax on the earnings of our international subsidiaries and state taxes incurred by our U.S. subsidiaries. The effective rate of income tax was 2.1% for the three months ended March 31, 2016, compared to 2.0% for the same period in 2015.

#### Underwriting Results by Reportable Segment

##### Diversified Reinsurance Segment

The underwriting results and associated underwriting ratios for the Diversified Reinsurance reportable segment were as follows:

For the Three Months Ended March 31,	2016	2015		
	(\$ in Millions)			
Gross premiums written	\$315.8	\$305.3		
Net premiums written	\$286.1	\$294.2		
Net premiums earned	\$172.3	\$192.7		
Other insurance revenue	4.8	5.0		
Net loss and LAE	(119.1 )	(132.4 )		
Commission and other acquisition expenses	(54.5 )	(58.2 )		
General and administrative expenses	(8.6 )	(9.3 )		
Underwriting loss	\$(5.1 )	\$(2.2 )		
Ratios				
Net loss and LAE ratio	67.2	% 67.0	%	
Commission and other acquisition expense ratio	30.8	% 29.4	%	
General and administrative expense ratio	4.9	% 4.7	%	
Expense ratio	35.7	% 34.1	%	
Combined ratio	102.9	% 101.1	%	

The combined ratio for the three months ended March 31, 2016 increased to 102.9% compared to 101.1% for the same period in 2015 primarily due to increased loss activity in U.S. excess of loss commercial auto liability reinsurance contracts.

Premiums - Gross premiums written increased by \$10.5 million or 3.4%, for the three months ended March 31, 2016, compared to the same period in 2015. The increase was due to 1) higher premiums written by Maiden US, following a highly successful rate of retention of existing clients; and 2) higher premiums written by Maiden Bermuda, as a result of new treaty contracts entered into during the first quarter of 2016.

Net premiums written decreased by \$8.1 million or 2.7%, for the three months ended March 31, 2016 compared to the same period in 2015. The decrease in net premiums written for the three months ended March 31, 2016 compared to the same period in 2015 reflects the increase in the premiums retroceded to a highly rated global insurer offset by the reasons outlined above in the discussion on gross premiums written for this segment. The table below illustrates net premiums written by line of business in this segment:

For the Three Months Ended March 31,	2016		2015		Change in	
	Total	% of Total	Total	% of Total	\$	%

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

Net Premiums Written	(\$ in Millions)	(\$ in Millions)	(\$ in Millions)
Property	\$61.9 21.6 %	\$68.5 23.3 %	\$(6.6) (9.7 )%
Casualty	155.3 54.3 %	171.5 58.3 %	(16.2) (9.5 )%
Accident and Health	39.5 13.8 %	30.1 10.2 %	9.4 31.4 %
International	29.4 10.3 %	24.1 8.2 %	5.3 22.3 %
Total Diversified Reinsurance	\$286.1 100.0%	\$294.2 100.0%	\$(8.1) (2.7 )%

Net premiums earned decreased by \$20.4 million or 10.6%, for the three months ended March 31, 2016 compared to the same period in 2015. The following table shows net premiums earned by line of business:

For the Three Months Ended March 31,	2016		2015		Change in	
	Total	% of Total	Total	% of Total	\$	%
Net Premiums Earned	(\$ in Millions)		(\$ in Millions)		(\$ in Millions)	
Property	\$32.7	19.0 %	\$40.6	21.1 %	\$(7.9 )	(19.5)%
Casualty	100.2	58.2 %	119.0	61.7 %	(18.8 )	(15.8)%
Accident and Health	17.8	10.3 %	12.2	6.3 %	5.6	45.9 %
International	21.6	12.5 %	20.9	10.9 %	0.7	3.1 %
Total Diversified Reinsurance	\$172.3	100.0%	\$192.7	100.0%	\$(20.4)	(10.6)%

Within the Diversified Reinsurance reportable segment, the business underwritten by both Maiden US and our non-U.S. operations experienced a decrease in net premiums earned due to changes in the business mix for the three months ended March 31, 2016 compared to 2015 while also being adversely impacted by the strengthening of the U.S. dollar.

Other Insurance Revenue - Other insurance revenue decreased by \$0.2 million, or 3.1%, for the three months ended March 31, 2016, compared to the same period in 2015. This net decrease is mainly due to adverse impact on our non-U.S. dollar denominated business due to the slight strengthening of the U.S. dollar, during the three months ended March 31, 2016 compared to the foreign currency exchange rates for the same period in 2015.

Net Loss and loss adjustment expense - Net loss and LAE decreased by \$13.3 million, or 10.1% for the three months ended March 31, 2016 compared to the same periods in 2015.

Net loss and LAE ratios were 67.2% for the three months ended March 31, 2016 compared to 67.0% in the same period in 2015. The impact on the net loss and LAE ratios should be considered in conjunction with the commission and other acquisition expense ratio as changes to either ratio arise primarily due to changes in the mix of business and the impact of the increase in the commission and other acquisition expense rates on pro-rata contracts with loss sensitive features. As a result of these factors, combined with adverse development from the excess commercial auto liability and to a lesser extent weather related losses, the combined ratio (excluding the general and administrative expense ratio) increased by 1.6 points for the three months ended March 31, 2016 compared to the same period in 2015.

Commission and Other Acquisition Expenses - Commission and other acquisition expenses decreased by \$3.7 million, or 6.3%, for the three months ended March 31, 2016 compared to the same period in 2015. The commission and other acquisition expense ratios increased to 30.8% for the three months ended March 31, 2016 compared to 29.4% for the same period in 2015. Please refer to the reasons for the changes in the combined ratio discussed in the Net Loss and Loss Adjustment Expenses section above.

General and Administrative Expenses - General and administrative expenses decreased by \$0.7 million, or 7.7%, for the three months ended March 31, 2016 compared to the same period in 2015. The general and administrative expense ratio increased to 4.9% for the three months ended March 31, 2016 from 4.7% for the same period in 2015.

#### AmTrust Reinsurance Segment

The AmTrust Reinsurance segment reported continuing profitable growth for the three months ended March 31, 2016 compared to the same period in 2015. This profitable growth was partially offset by a modest increase in the

combined ratio to 95.3% for the three months ended March 31, 2016. This increase was largely due to changes in the mix of business combined with higher initial booking ratios on certain components within our AmTrust Reinsurance segment.

The table below details the underwriting results and associated ratios for the AmTrust Reinsurance segment:

35

---

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

For the Three Months Ended March 31,	2016	2015
	(\$ in Millions)	
Gross premiums written	\$548.3	\$528.9
Net premiums written	\$506.7	\$502.8
Net premiums earned	\$443.7	\$384.6
Net loss and LAE	(281.7 )	(243.1 )
Commission and other acquisition expenses	(140.6 )	(120.1 )
General and administrative expenses	(0.6 )	(0.7 )
Underwriting income	\$20.8	\$20.7
Ratios		
Net loss and LAE ratio	63.5	% 63.2 %
Commission and other acquisition expense ratio	31.7	% 31.2 %
General and administrative expense ratio	0.1	% 0.2 %
Expense ratio	31.8	% 31.4 %
Combined ratio	95.3	% 94.6 %

Premiums - Gross premiums written increased by \$19.4 million, or 3.7%, for the three months ended March 31, 2016 compared to the same period in 2015. This increase reflects the continued ongoing growth in its U.S. workers' compensation business offset by a reduction in the specialty program business.

The table below details net premiums written by line of business in this segment:

For the Three Months Ended March 31,	2016		2015		Change in	
	Total	% of Total	Total	% of Total	\$	%
Net Premiums Written	(\$ in Millions)		(\$ in Millions)		(\$ in Millions)	
Small Commercial Business	\$362.5	71.5 %	\$323.2	64.3 %	\$39.3	12.2 %
Specialty Program	76.8	15.2 %	74.6	14.8 %	2.2	3.0 %
Specialty Risk and Extended Warranty	67.4	13.3 %	105.0	20.9 %	(37.6 )	(35.8)%
Total AmTrust Reinsurance	\$506.7	100.0%	\$502.8	100.0%	\$3.9	0.8 %

Net premiums earned increased by \$59.1 million or 15.4%, for the three months ended March 31, 2016, compared to the same period in 2015. The increase is primarily due to AmTrust's continued growth through a combination of acquisitions and ongoing organic expansion.

The table below details net premiums earned by line of business:

For the Three Months Ended March 31,	2016		2015		Change in	
	Total	% of Total	Total	% of Total	\$	%
Net Premiums Earned	(\$ in Millions)		(\$ in Millions)		(\$ in Millions)	
Small Commercial Business	\$264.5	59.6 %	\$225.0	58.5 %	\$39.5	17.6 %
Specialty Program	84.2	19.0 %	57.0	14.8 %	27.2	47.7 %
Specialty Risk and Extended Warranty	95.0	21.4 %	102.6	26.7 %	(7.6 )	(7.4)%
Total AmTrust Reinsurance	\$443.7	100.0%	\$384.6	100.0%	\$59.1	15.4 %

Net Loss and loss adjustment expense - Net loss and LAE increased by \$38.6 million or 15.9%, for the three months ended March 31, 2016 compared to the same period in 2015. Net loss and LAE ratios were 63.5% for the three months ended March 31, 2016, compared to 63.2% in the same period in 2015. The increase in the loss ratio reflects the higher initial booking ratios on certain components of our AmTrust reinsurance segment and change in the

business mix.

Commission and Other Acquisition Expenses - Commission and other acquisition expenses increased by \$20.5 million or 17.0%, for the three months ended March 31, 2016, compared to the same period in 2015. The commission and other acquisition expense ratio increased to 31.7% for the three months ended March 31, 2016 compared to 31.2% for the same period in 2015. The

36

---

increase in the ratio reflect the higher proportion of net premiums earned from the Reinsurance Agreement, which has a higher commission rate than the European Hospital Liability Quota Share, compared to the same period in 2015.

General and Administrative Expenses - General and administrative expenses decreased to \$0.6 million for the three months ended March 31, 2016 compared to \$0.7 million for the same period in 2015. The general and administrative expense ratio decreased to 0.1% for the three months ended March 31, 2016 compared to 0.2% for the same period in 2015.

## Liquidity and Capital Resources

### Liquidity

Maiden Holdings is a holding company and transacts no business of its own. We therefore rely on cash flows in the form of dividends, advances and loans and other permitted distributions from our subsidiary companies to make dividend payments on our common and preference shares.

The jurisdictions in which our operating subsidiaries are licensed to write business impose regulations requiring companies to maintain or meet statutory solvency and liquidity requirements. Some jurisdictions also place restrictions on the declaration and payment of dividends and other distributions.

The regulatory and liquidity requirements of the Company's operating segments are discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" section included under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 1, 2016.

Our sources of funds primarily consist of premiums received (net of commissions), investment income, net proceeds from capital raising activities, which may include the issuance of debt, common and preference shares, and proceeds from sales and redemption of investments. Cash is used primarily to pay loss and LAE, general and administrative expenses, interest expense and dividends, with the remainder in excess of our operating requirements, made available to our investment managers for investment in accordance with our investment policy. The table below summarizes the cash flows provided by (used in) operating, investing and financing activities:

For the Three Months Ended March 31,	2016	2015
	(\$ in Millions)	
Operating activities	\$9.0	\$170.4
Investing activities	3.1	(93.5 )
Financing activities	(20.1)	(14.9 )
Effect of exchange rate changes on foreign currency cash	3.6	(2.0 )
Total (decrease) increase in cash and cash equivalents	\$(4.4)	\$60.0

### Cash Flows - Operating Activities

Cash flows from operations for the three months ended March 31, 2016 were \$9.0 million compared to \$170.4 million for the same period in 2015, a 94.7% decrease. This decrease in cash flows from operations arises primarily due to the settlement of the \$107.0 million commutation with AmTrust. In addition, the Company's assets grew by \$416.1 million or 7.3%, at March 31, 2016 compared to December 31, 2015. The increase in assets was largely due to the growth in gross premiums written in both our Diversified Reinsurance and AmTrust Reinsurance segments. Cash flows associated with the AmTrust Reinsurance segment's growth typically lag by at least one calendar quarter, and the Company anticipates seeing further cash flow benefits from that growth in the remainder of 2016.

### Cash Flows - Investing Activities

Cash flows from investing activities consist primarily of proceeds from sales and maturities of investments and payments for investments acquired. Net cash provided by investing activities was \$3.1 million for the three months ended March 31, 2016 compared to net cash used of \$93.5 million for the same period in 2015. The Company continues to deploy available cash for longer-term investments as investment conditions permit. Purchases of fixed maturity securities exceeded proceeds from the sales, maturities and calls by \$94.7 million for the three months ended March 31, 2016. In addition there was a decrease in restricted cash and cash equivalents of \$97.7 million, net return of capital from our other investments of \$0.3 million and net outflow in other items of \$0.2 million for the three months ended March 31, 2016.

#### Cash Flows - Financing Activities

Cash flows used in financing activities were \$20.1 million for the three months ended March 31, 2016, compared to \$14.9 million for the same period in 2015. The increase in net cash outflow for the three months ended March 31, 2016 compared to the same period in 2015 was due to the increase in the dividends paid to both common shareholders and preference shareholders of \$0.8 million and \$3.6 million, respectively, representing the increase in the dividend per common share from \$0.13 to \$0.14 and the initial dividend on the Series C Preference shares of \$3.6 million following issuance on November 25, 2015.

## Restrictions, Collateral and Specific Requirements

The Company's restrictions, collateral and specific requirements are discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations" section included under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 1, 2016.

At March 31, 2016 and December 31, 2015, cash and cash equivalents and fixed maturity investments used as collateral were \$3.8 billion and \$3.7 billion, respectively. This collateral represents 85.8% and 84.3% of the fair value of our total fixed maturity investments and restricted cash and cash equivalents at March 31, 2016 and December 31, 2015, respectively. The increase was primarily attributable to the increase in assets provided as collateral for the AmTrust Reinsurance segment reflecting continued growth.

## Investments

The investment of our funds is designed to ensure safety of principal while generating current income. Accordingly, our funds are invested in liquid, investment-grade fixed income securities and are designated as either available -for-sale ("AFS") or held-to-maturity ("HTM").

The value of the Company's AFS fixed maturity investments increased by \$197.5 million or 5.6% at March 31, 2016 compared to December 31, 2015. The net increase in the fair value of our AFS fixed maturity investments is a combination of 1) net purchases of \$203.0 million, comprising of primarily investment grade corporate bonds; offset by 2) maturities and calls totaling \$106.1 million; and 3) net unrealized gains and amortization of \$100.6 million.

During the three months ended March 31, 2016, the yield on the 10-year U.S. Treasury bond decreased by 49 basis points to 1.78%. The 10-year U.S. Treasury is the key risk-free determinant in the fair value of many of the securities in our AFS portfolio. The decrease in interest rates for the three months ended March 31, 2016 reflects slower than expected global economic growth, various conflicting economic indicators, combined with equity market volatility and increased global geopolitical uncertainties.

The increase in unrealized gain/loss in our AFS fixed maturity portfolio was \$103.0 million, primarily due to the decrease in interest rates and the recovery of market values of corporate bonds. This gain also includes unrealized foreign exchange gains of \$15.7 million arising on our non-U.S. dollar denominated investment portfolio, primarily on our euro-denominated investments, following the strengthening of the euro at the period end March 31, 2016, relative to the U.S. dollar. These declines were substantially offset by increases in our non-U.S. dollar net liabilities which are reflected in the movement in our cumulative translation adjustment, which is also a component of AOCI, in our shareholders equity. See "Liquidity and Capital Resources - Capital Resources" on page 43 for further information.

At March 31, 2016, we consider the levels of cash and cash equivalents we are holding to be within our targeted ranges. However, during periods when interest rates experience greater volatility, we have periodically maintained more cash and cash equivalents in order to better assess current market conditions and opportunities within our defined risk appetite, and may do so in future periods.

In order to limit our exposure to unexpected interest rate increases which would reduce the value of our fixed income securities and reduce our shareholders' equity, we attempt to maintain the duration of our fixed maturity investment portfolio combined with our cash and cash equivalents, both restricted and unrestricted, within a reasonable range of the duration of our loss reserves.

At March 31, 2016 and December 31, 2015, these respective durations in years were as follows:

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

	March 31, 2016	December 31, 2015
Fixed maturities and cash and cash equivalents	4.5	4.7
Reserve for loss and LAE	4.2	4.4

The decrease of 0.2 years in the weighted average duration of our fixed maturity investment portfolio arises predominantly due to purchase of corporate bonds during the period with a lower duration than the fixed maturity investment portfolio at December 31, 2015 combined with the increase in the duration of our U.S. agency bonds – mortgage-backed securities ("MBS") portfolio reflecting the impact of the volatility in interest rates on paydowns.

The differential in duration between these assets and liabilities may fluctuate over time and in the case of fixed maturities, is affected by factors such as market conditions, changes in asset mix and prepayment speeds in the case of both our Agency MBS and commercial mortgage-backed securities ("CMBS").

The average yield and average duration of our fixed maturities, by asset class, and our cash and cash equivalents (restricted and unrestricted) are as follows:

38

Asset-backed securities	177.5	—	165.8	—
Total fixed maturities	\$3,705.6	\$ 607.2	\$3,508.1	\$ 607.8

Substantially all of the Company's U.S. agency bond holdings are mortgage-backed. Additional details on the MBS component of our U.S. agency bonds portfolio are as follows:

	March 31, 2016		December 31, 2015	
	Fair Value (\$ in Millions)	% of Total	Fair Value (\$ in Millions)	% of Total
U.S. agency bonds - mortgage-backed:				
Residential mortgage-backed (RMBS)				
GNMA – fixed rate	\$184.8	12.1 %	\$139.5	9.3 %
FNMA – fixed rate	774.8	50.7 %	791.7	52.7 %
FNMA – variable rate	20.9	1.4 %	22.1	1.5 %
FHLMC – fixed rate	505.6	33.1 %	517.3	34.5 %
FHLMC – variable rate	6.1	0.4 %	6.4	0.4 %
Total U.S. agency bonds - mortgage-backed	1,492.2	97.7 %	1,477.0	98.4 %
Non-MBS fixed rate U.S. agency bonds	34.5	2.3 %	24.3	1.6 %
Total U.S. agency bonds	\$1,526.7	100.0 %	\$1,501.3	100.0 %

The following summarizes changes in fair value associated with our U.S. agency bonds - mortgage-backed portfolio:

For the Three Months Ended March 31,	2016	2015
	(\$ in Millions)	
U.S. agency bonds - mortgage-backed:		
Beginning balance	\$1,477.0	\$1,322.4
Purchases	49.8	—
Sales and paydowns	(59.3 )	(161.5 )
Net realized gains on sales – included in net income	0.1	0.1
Change in net unrealized gains – included in other comprehensive income	25.7	12.7
Amortization of bond premium and discount	(1.1 )	(1.1 )
Ending balance	\$1,492.2	\$1,172.6

Our total Agency MBS portfolio represents 35.4% of our fixed maturity investments at March 31, 2016. Given the relative size of this portfolio to our total investments, if faster prepayment patterns were to occur over an extended period of time, this could potentially limit the growth in our investment income in certain circumstances, or even potentially reducing the total amount of investment income we earn.

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

At March 31, 2016 and December 31, 2015, 96.7% and 97.5%, respectively, of our fixed maturity investments consisted of investment grade securities. We define a security as being below investment grade if it has an Standard & Poor's ("S&P") credit rating of BB+, or equivalent, or less. See "Part I, Item I - Notes to Condensed Consolidated Financial Statements (unaudited) Note 4. Investments" for additional information on the credit rating of our fixed income portfolio.

The security holdings by sector and financial strength rating by S&P of our corporate bond holdings (AFS and HTM) are as follows:

March 31, 2016	Ratings*					Fair Value/Amortized cost	% of Corporate bonds portfolio

(1) Securities with the notation FLT are floating rate securities.

We own the following securities not denominated in U.S. dollars:

	March 31, 2016		December 31, 2015	
	Fair Value (\$ in Millions)	% of Total	Fair Value (\$ in Millions)	% of Total
Non-U.S. dollar denominated corporate bonds	\$337.6	91.2 %	\$323.3	91.6 %
Non-U.S. government and supranational bonds	32.5	8.8 %	30.5	8.4 %
Total non-U.S. dollar AFS fixed maturities	\$370.1	100.0 %	\$353.8	100.0 %

These non-U.S. dollar fixed maturities were invested in the following currencies:

	March 31, 2016		December 31, 2015	
	Fair Value (\$ in Millions)	% of Total	Fair Value (\$ in Millions)	% of Total
Euro	\$314.0	84.8 %	\$299.3	84.8 %
British Pound	41.2	11.1 %	41.4	11.7 %
Swedish Krona	6.4	1.8 %	5.8	1.7 %
Australian Dollar	4.2	1.1 %	4.0	1.1 %
All other	4.3	1.2 %	3.3	0.7 %
Total non-U.S. dollar AFS fixed maturities	\$370.1	100.0 %	\$353.8	100.0 %

The net increase in non-U.S. denominated fixed maturities is primarily due to the strengthening of the euro versus the U.S. dollar at March 31, 2016. We do not have any government and government related obligations of Greece,

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

Ireland, Italy, Portugal and Spain at March 31, 2016 and December 31, 2015. At both March 31, 2016 and December 31, 2015, 100.0% of the Company's non-U.S. government and supranational issuers were rated A+ or higher by S&P, respectively.

For our non-U.S. dollar denominated corporate bonds, the following summarizes the composition of the fair value of our fixed maturity investments at the dates indicated by ratings:

Ratings*	March 31, 2016		December 31, 2015	
	Fair Value (\$ in Millions)	% of Total	Fair Value (\$ in Millions)	% of Total
AAA	\$34.8	10.3 %	\$32.8	10.1 %
AA+, AA, AA-	23.7	7.0 %	17.3	5.4 %

BB+ or lower	7.8	2.3 %	6.0	1.8 %
Total non-U.S. dollar denominated corporate bonds	\$337.6	100.0 %	\$323.3	100.0 %

\*Based on S&P, or equivalent, ratings

The Company does not employ any credit default protection against any of the fixed maturities held in non-U.S. denominated currencies.

#### Other Changes in Financial Position

The following summarizes other changes in our financial position:

	March 31, 2016	December 31, 2015	Change	
	(\$ in Millions)		%	
Reinsurance balances receivable, net	\$598.3	\$ 377.3	\$221.0	58.6 %
Reserve for loss and LAE	2,572.4	2,510.1	62.3	2.5 %
Unearned premiums	1,571.4	1,354.6	216.8	16.0 %

The reinsurance balances receivable, net increased by \$221.0 million, or 58.6%, primarily due to the continued growth of our AmTrust Reinsurance segment during the first quarter of 2016 compared to the fourth quarter of 2015 which was lowered by the commutation agreement with AmTrust of \$107.0 million. The reserve for net loss and LAE increased following the continued growth in our AmTrust Reinsurance segment combined with adverse loss development experienced in our Diversified segment and our divested U.S. E&S business. The unearned premiums also increased following the continued growth in our AmTrust Reinsurance segment combined with the impact of greater number of renewals in the first quarter relative to renewals in the fourth quarter.

#### Capital Resources

Refer to the "Liquidity and Capital Resources" section included under Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015 for a general discussion of our shareholders' equity and capital resources.

Capital resources consist of funds deployed or available to be deployed in support of our business operations. Our total capital resources were \$1,819.0 million at March 31, 2016, a net increase of \$111.2 million, or 6.5%, from December 31, 2015.

The movement in total capital resources is as follows:

Edgar Filing: Maiden Holdings, Ltd. - Form 10-Q

	March 31, 2016	December 31, 2015	Change	Change	
	(\$ in Millions)				%
Preference shares	\$480.0	\$480.0	\$—	—	%
Common shareholders' equity	979.0	867.8	111.2	12.8	%
Total Maiden shareholders' equity	1,459.0	1,347.8	111.2	8.3	%
Senior notes	360.0	360.0	—	—	%
Total capital resources	\$1,819.0	\$1,707.8	\$111.2	6.5	%

The major factors contributing to the net increase in capital resources were as follows:

## Maiden shareholders' equity

Maiden shareholders' equity at March 31, 2016 increased by \$111.2 million, or 8.3%, compared to December 31, 2015 primarily due to:

increase in AOCI of \$93.2 million. This increase arose due to: 1) increase of \$104.0 million which arose from the net increase in our U.S. dollar denominated investment portfolio of \$80.4 million relating to market price movements and the increase in our non-U.S. dollar denominated investment portfolio of \$23.6 million. The increase in our non-U.S. dollar denominated investment portfolio was \$15.7 million as a result of the strengthening of the euro, relative to U.S. dollar at March 31, 2016, and \$7.9 million as a result of market price movements during the three months ended March 31, 2016. See "Liquidity and Capital Resources - Investments" on page 38 for further information; offset by 2) decrease in the cumulative translation adjustment of \$10.8 million due to the effect of the depreciation of the U.S. dollar relative to the original currencies on our non-U.S. dollar net liabilities (excluding non- U.S. dollar denominated AFS fixed maturities);

net income attributable to Maiden shareholders of \$36.9 million. See "Results of Operations - Net Income" on page 31 for a discussion of the Company's net income for the three months ended March 31, 2016; and

increase in additional paid in capital of \$1.6 million resulting from share-based transactions.

These increases were offset by the following:

dividends declared of \$20.0 million on the Company's common and preference shares during the three months ended March 31, 2016; and

increase in shares repurchased for treasury of \$0.5 million which represents withholdings from employees surrendered in respect of tax obligations on the vesting of restricted shares and performance based shares.

On July 24, 2014, the Company's Board of Directors has approved the repurchase of up to \$75.0 million of the Company's common shares from time to time at market prices. No share repurchases have taken place to date under this plan.

## Senior Notes

There were no changes in the Company's Senior Notes at March 31, 2016 compared to December 31, 2015 and the Company did not enter into any short-term borrowing arrangements during the three months ended March 31, 2016. Refer to "Notes to Consolidated Financial Statements Note 7. Long Term Debt" included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 for a discussion of the Company's Senior Notes.

We have, and expect to continue, to fund a portion of our capital requirements through issuances of senior securities, including secured, unsecured and convertible debt securities, or issuances of common or preference shares. For flexibility, we have a current universal shelf registration statement that allows for the public offering and sale of our debt securities, common shares, preference shares and warrants to purchase such securities. The issuance of debt or equity securities will depend on future market conditions, funding needs and other factors and there can be no assurance that any such issuance will occur or be successful.

## Financial Strength Ratings

Our principal operating subsidiaries are rated "A-" (Excellent) with a positive outlook by A.M. Best Company ("A.M. Best"), which rating is the fourth highest of sixteen rating levels, and "BBB+" (Good) with a stable outlook by Standard & Poor's ("S&P"), which is the eighth highest of twenty-two rating levels. There are no other changes to the financial strength ratings from the "Financial Strength Ratings" as previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

#### Aggregate Contractual Obligations

In the normal course of its business, the Company is a party to a variety of contractual obligations as summarized in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. These contractual obligations are considered by the Company when assessing its liquidity requirements and the Company is confident in its ability to meet all of its obligations. At March 31, 2016, there are no material changes in the Company's contractual obligations as disclosed in the Company's table of contractual obligations included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

#### Currency and Foreign Exchange

We conduct business in a variety of foreign (non-U.S.) currencies, the principal exposures being the euro, the British pound, the Australian dollar, the Canadian dollar and the Swedish krona. Assets and liabilities denominated in foreign currencies are exposed to changes in currency exchange rates. Our reporting currency is the U.S. dollar, and exchange rate fluctuations relative to the U.S. dollar may materially impact our results and financial position. Our principal exposure to foreign currency risk is our obligation to settle claims in foreign currencies. In addition, in order to minimize this risk we maintain and expect to continue to maintain a portion of our investment portfolio in investments denominated in currencies other than the U.S. dollar. We may employ

various strategies (including hedging) to manage our exposure to foreign currency exchange risk. To the extent that these exposures are not fully hedged or the hedges are ineffective, our results of operations or equity may be reduced by fluctuations in foreign currency exchange rates which could materially adversely affect our financial condition and results of operations. At March 31, 2016, no such hedges or hedging strategies were in force or had been entered into.

Assets and liabilities of subsidiaries and divisions whose functional currency is not the U.S. dollar are translated at the prevailing exchange rates at each balance sheet date. Revenues and expenses are translated at average exchange rates during the period. The net effect of the translation adjustments is included in AOCI, net of applicable deferred income tax. Monetary assets and liabilities, such as premiums receivable and the reserve for losses and LAE, denominated in foreign currencies are revalued at the exchange rate in effect at the balance sheet date with the resulting foreign exchange gains and losses included in net income. Accounts that are classified as non-monetary, such as deferred acquisition costs and the unearned premium reserves, are not revalued. In the case of foreign currency denominated fixed maturity securities which are classified as AFS, the change in exchange rates between the local currency in which the investments are denominated and the Company's functional currency at each balance sheet date is included in unrealized appreciation or decline in value of securities, a component of AOCI, net of applicable deferred income tax.

We recorded net foreign exchange gains of \$0.3 million and \$7.8 million for the three months ended March 31, 2016 and 2015, respectively. The decrease during the three months ended March 31, 2016 compared to the same period last year was primarily due to movements in the U.S. dollar exchange rates versus the euro and the British pound.

#### Effects of Inflation

The effects of inflation are considered implicitly in pricing and estimating reserves for loss and LAE. The effects of inflation could cause the severity of claims to rise in the future. To the extent inflation is greater than anticipated in the pricing of our business and to the extent unanticipated inflation causes these costs, particularly medical treatments and litigation costs, to increase above reserves established for these claims, the Company will be required to increase the reserve for loss and LAE with a corresponding reduction in its earnings in the period in which the deficiency is identified. The actual effects of inflation on the results of operations of the Company cannot be accurately known until claims are ultimately settled.

#### Off-Balance Sheet Arrangements

At March 31, 2016, we did not have any off-balance sheet arrangements as defined by Item 303(a)(4) of Regulation S-K.

#### Recent Accounting Pronouncements

See "Part I, Item 1 - Notes to Condensed Consolidated Financial Statements (unaudited) Note 2. Significant Accounting Policies" for a discussion on recently issued accounting pronouncements not yet adopted.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk.

##### Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk that we will incur losses on our investments due to adverse changes in market rates and prices. Market risk is directly influenced by the volatility and liquidity in the market in which the related underlying assets are invested. We believe that we are principally exposed to three types of market risk: changes in interest rates; changes in credit quality of issuers of investment securities and reinsurers; and foreign currency risk.

## Interest Rate Risk

Interest rate risk is the risk that we may incur economic losses due to adverse changes in interest rates. The primary market risk to the investment portfolio is interest rate risk associated with investments in AFS fixed maturity securities. Fluctuations in interest rates have a direct impact on the market valuation of these securities. At March 31, 2016, we had AFS fixed maturity securities with a fair value of \$3.7 billion that are subject to interest rate risk.

The table below summarizes the interest rate risk associated with our AFS fixed maturity securities by illustrating the sensitivity of the fair value and carrying value of our fixed maturity securities at March 31, 2016 to selected hypothetical changes in interest rates, and the associated impact on our shareholders' equity. Temporary changes in the fair value of our fixed maturity securities that are held as AFS do impact the carrying value of these securities and are reported in our shareholders' equity as a component of other comprehensive income. The selected scenarios in the table below are not predictions of future events, but rather are intended to illustrate the effect such events may have on the fair value and carrying value of our fixed maturity securities and on our shareholders' equity at March 31, 2016:

45

---

Hypothetical Change in Interest Rates	Fair Value	Hypothetical		
		Estimated Change in Fair Value	% (Decrease)	Increase in Shareholders' Equity
	(\$ in Millions)			
200 basis point increase	\$3,388.4	\$(317.2)	(21.7)	%
100 basis point increase	3,541.8	(163.8)	(11.2)	%
No change	3,705.6	—	—	%
100 basis point decrease	3,876.2	170.6	11.7	%
200 basis point decrease	4,042.8	337.2	23.1	%

The interest rate sensitivity on the \$168.0 million loan to related party, which carries an interest rate of one month LIBOR plus 90 basis points, is that increases of 100 and 200 basis points in LIBOR would increase our earnings and cash flows by \$1.7 million and \$3.4 million, respectively, on an annual basis, but would not affect the carrying value of the loan.

#### Counterparty Credit Risk

The concentrations of the Company's counterparty credit risk exposures at March 31, 2016 have not changed materially compared to December 31, 2015. The Company has exposure to credit risk primarily as a holder of fixed maturity securities. The Company controls this exposure by emphasizing investment grade credit quality in our security purchases. The Company believes this high quality concentration reduces its exposure to credit risk on fixed income securities to an acceptable level. The table below summarizes the Company's fixed maturity investments by major rating category:

	March 31, 2016		December 31, 2015	
Ratings*		%		%
AA+ or better	41.1	%	42.3	%
AA, AA-, A+, A, A-	33.3	%	29.9	%
BBB+, BBB, BBB-	22.3	%	25.4	%
BB+ or lower	3.3	%	2.4	%
	100.0	%	100.0	%

\* Ratings as assigned by S&P

At March 31, 2016, the Company is not exposed to any significant credit concentration risk on its investments, excluding securities issued by the U.S. government which are rated AA+ by S&P (see "Liquidity and Capital Resources - Investments" on page 38), with the single largest corporate issuer and the top 10 corporate issuers accounting for only 0.9% and 5.5% of the Company's total fixed income securities fair value, respectively.

The Company is exposed to credit risk for business written through brokers if any of the Company's brokers are unable to fulfill their contractual obligations with respect to payments to the Company. In addition, in some jurisdictions, if the broker fails to make payments to the insured under the Company's policy, the Company might remain liable to the insured for the deficiency. The Company's exposure to such credit risk is somewhat mitigated in certain jurisdictions by contractual terms. See "Business and Risk Factors" in Item 1 and 1A of Part I of the Annual Report on Form 10-K filed on March 1, 2016, respectively, for detailed information on three brokers that accounted for approximately 36.9% of the Company's gross premiums written in the Diversified Reinsurance segment for the year ended December 31, 2015.

The Company is also exposed to credit risk on reinsurance balances receivable and reinsurance recoverable on paid and unpaid losses. We are also subject to the credit risk that AmTrust International Insurance, Ltd. and/or AmTrust will fail to perform their obligations to pay interest on and repay principal of amounts loaned to AmTrust. Reinsurance balances receivable from the Company's clients at March 31, 2016 were \$598.3 million, including balances both currently due and accrued. The Company believes that credit risk related to these balances is mitigated by several factors, including but not limited to, credit checks performed as part of the underwriting process and monitoring of aged receivable balances.

In addition, as the vast majority of its reinsurance agreements give the Company the contractual right to offset reinsurance balances receivable from clients, and the loan to related party in the case of AmTrust, against losses payable to them, the Company believes that the credit risk in this area is substantially reduced. Provisions are made for amounts considered potentially uncollectible. There was no allowance for uncollectible reinsurance balances receivable at March 31, 2016.

The Company requires its reinsurers to have adequate financial strength. The Company evaluates the financial condition of its reinsurers and monitors its concentration of credit risk on an ongoing basis. Provisions are made for amounts considered potentially uncollectible. The balance of reinsurance recoverable on unpaid losses was \$83.5 million at March 31, 2016 compared

to \$71.2 million at the end of December 31, 2015. Of these reinsurance recoverables, at March 31, 2016, \$18.4 million or 22.1%, compared to \$35.0 million or 49.2%, at December 31, 2015 relates to reinsurance claims from Superstorm Sandy.

The table below summarizes the credit ratings by A.M. Best of the Company's exposure to reinsurance counterparties:

	March 31, December 31,			
	2016	%	2015	%
A or better	97.9	%	99.1	%
B++ or lower	2.1	%	0.9	%
	100.0	%	100.0	%

In respect of our exposure to counterparties with A.M. Best ratings of BB+ or lower, in certain circumstances, the Company requests collateral in the form of a letter of credit or funds withheld. At March 31, 2016, 83.5% (December 31, 2015 - 69.4%) of such reinsurance recoverables were collateralized.

#### Foreign Currency Risk

The Company is generally able to match foreign currency denominated assets against its net reinsurance liabilities both by currency and duration to protect the Company against foreign exchange and interest rate risks. However, a natural offset does not exist for all currencies. For the three months ended March 31, 2016, \$60.7 million or 7.7%, of our net premiums written and \$283.4 million or 11.0%, of our reserve for loss and LAE were transacted in euro.

Refer to the "Quantitative and Qualitative Disclosures about Market Risk" section included under Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2015 for a general overview on the uncertain economic issues relating to the euro that may impact our ability to conduct normal business operations in its participating countries.

We may employ various strategies to manage our exposure to foreign currency exchange risk. To the extent that these exposures are not fully hedged or the hedges are ineffective, our results of operations or equity may be reduced by fluctuations in foreign currency exchange rates and could materially adversely affect our financial condition and results of operations. At March 31, 2016, no hedging instruments have been entered into.

Our principal foreign currency exposure is to the euro and British pound, however, assuming all other variables remain constant and disregarding any tax effects, a strengthening (weakening) of the U.S. dollar exchange rate of 10% or 20% relative to the non-U.S. currencies held by the Company would result in a decrease (increase) in the Company's net assets of \$9.7 million and \$19.3 million, respectively.

#### Item 4. Controls and Procedures

Our management, with the participation and under the supervision of our Chief Executive Officer and Chief Financial Officer, have evaluated the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by SEC rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow for timely decisions regarding required disclosures. Our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, such disclosure controls and procedures were effective. Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all error and all fraud. A control system, no matter how well conceived and operated, can

provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide an absolute assurance that all control issues and instances of fraud, if any, within our Company have been detected.

During the most recent fiscal quarter, there were no changes in the Company's internal controls over financial reporting (as defined in Exchange Act Rule 13a-15(f) and 15d-15(f)) that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II - OTHER INFORMATION

## Item 1. Legal Proceedings

There are no material changes from the legal proceedings previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

## Item 1A. Risk Factors

There are no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015.

## Item 2. Unregistered Sales of Equity and Use of Proceeds

Items 2(a) and (b) are not applicable.

## 2. (c) Share Repurchases

The table below details the repurchases that were made during the three months ended March 31, 2016, which represent withholdings from employees in respect of tax obligations on the vesting of restricted shares:

For the Three Months Ended March 31, 2016	Total number of shares repurchased*	Average price paid per share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs(a)	Dollar amount still available under trading plan (\$ in Millions)
January 1, 2016 - January 31, 2016	3,351	\$ 14.91	—	\$ 75.0
February 1, 2016 - February 28, 2016	11,438	13.18	—	75.0
March 1, 2016 - March 31, 2016	20,469	13.16	—	75.0
<b>Total</b>	<b>35,258</b>	<b>13.33</b>	<b>—</b>	<b>75.0</b>

\* From time to time, we purchase shares in connection with the vesting of restricted stock awards granted to our employees under our 2007 Share Incentive Plan. The purchase of these shares is separately authorized and is not part of our Board-authorized share repurchase program, described below.

On July 24, 2014, the Company's Board of Directors approved the repurchase of up to \$75.0 million of the Company's common shares from time to time at market prices. No share repurchases have taken place to date under this plan.

Subsequent to the three months ended March 31, 2016 and through the period ended May 9, 2016, the Company did not repurchase any additional common shares.

## Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Executive Ownership and Sales. From time to time, some of the Company's executives may determine that it is advisable to diversify their investments for personal financial planning reasons, or may seek liquidity for other reasons, and may sell common shares of the Company in the open market, in private transactions or to the Company. To effect such sales, some of the Company's executives have entered into, and may in the future enter into, trading plans designed to comply with the Company's Insider Trading and Outside Investments Policy and the provisions of Rule 10b5-1 under the Securities Exchange Act of 1934. The trading plans will not reduce any of the executives' ownership of the Company's shares below the applicable executive stock ownership guidelines. The Company does not undertake any obligation to report Rule 10b5-1 plans that may be adopted by any employee or director of the Company in the future, or to report any modifications or termination of any publicly announced plan.
