Board Committees

Compensation, Governance and Nominating Committee

The Compensation, Governance and Nominating Committee discharges the Board's responsibilities relating to compensation of the Corporation's directors and officers, oversees and monitors the Corporation's management in the interest and for the benefit of the stockholders and assists the Board by identifying and recommending individuals qualified to become directors. The Compensation, Governance and Nominating Committee has overall responsibility for approving and evaluating the director and officer compensation plans, policies and programs of the Corporation, and may form and delegate authority to subcommittees when it determines that such action is appropriate.

Committee Membership and Independence

The members of the Compensation, Governance and Nominating Committee as of the date of this Information Statement are Robert van Schoonenberg (Chair), Alexander Lee and Jon Bengtson, each of whom is independent under NASDAQ's listing standards. The Compensation, Governance and Nominating Committee met six times during 2010, two times in person and four times by telephone. The Corporation has not yet made a determination as to who the members of the Compensation, Governance and Nominating Committee will be at the closing of the Common Share Issuance. However, it is anticipated that the members of such committee will all be Canon Nominees.

The charter governing operations of the Compensation, Governance and Nominating Committee was adopted in April 2004 and updated in February 2007, and is available at the Corporation's website at www.altairnano.com under "Investors" - "Governance." This charter will be amended as of the closing of the Common Share Issuance in order to eliminate any requirement that the committee members be independent, as long as the Corporation is a "Controlled Company" under NASDAQ Rule 5615 (c)(1).

Nomination of Directors

The purpose of the Compensation, Governance and Nominating Committee related to nomination of directors and corporate governance matters is (i) to recommend to the Board the slate of director nominees for election to the Corporation's Board, individuals to fill Board vacancies occurring between annual meetings of stockholders, and individuals for nomination as members of the standing committees of the Board, and (ii) to develop and recommend to the Board a set of corporate governance principles applicable to the Corporation.

In identifying nominees for directors, the Compensation, Governance and Nominating Committee takes into consideration such factors as it deems appropriate. These factors may include judgment, skill, diversity, experience with businesses and other organizations of comparable size, relationship of work experience and education to the current and proposed lines of business of the Corporation, the interplay of the candidate's experience with the experience of other Board members, the extent to which the candidate would be a desirable addition to the Board and any committees of the Board, and the extent to which the candidate satisfies any objective requirements (such as residence, independence or expertise requirements) applicable to the Board or any committees of the Board. The Compensation, Governance and Nominating Committee considers candidates submitted by shareholders in accordance with the policies set forth in the most recent proxy statement delivered to shareholders and may, but is not required to, consider candidates proposed by management.

Board Diversity

In identifying nominees, the Compensation, Governance and Nominating Committee does not have a formal policy regarding the consideration of gender, race, sexual preference, religion and other traits typically associated with the term “diversity.” The Compensation, Governance and Nominating Committee considers it important that the Board be composed of directors with a diverse range of experience, areas of expertise and skills, but has not adopted any formal policy.

Audit Committee

The Audit Committee operates pursuant to a written charter adopted by the Board, a copy of which may be found on the Corporation’s website at www.altairnano.com under the heading “Investors.” A copy may also be obtained free of charge by mailing a request in writing to: Secretary, Altair Nanotechnologies Inc., 204 Edison Way, Reno, Nevada 89502, U.S.A.

Currently, the Audit Committee is comprised solely of non-employee directors, each of whom has been determined by the Board to be independent under the requirements of the NASDAQ listing standards and National Instrument 52-110 of the Canadian Securities Administrators (“NI 52-110”). From January 2010 through May 23, 2010 the Audit Committee was comprised of Robert van Schoonenberg (Chair), Jon Bengtson, George Hartman and Pierre Lortie. Since May 24, 2010 the Audit Committee is comprised of Jon Bengtson (Chair), Robert van Schoonenberg, George Hartman and Pierre Lortie. The Audit Committee held one meeting in person and four meetings via conference call during the fiscal year ended December 31, 2010. The members of the Audit Committee were in attendance at each meeting except that Mr. Lortie was unable to attend one meeting.

Following the closing of the Common Share Issuance, Pierre Lortie, Alexander Lee and Sean Shao are expected to be members of the Audit Committee.

The Board has determined in its business judgment that each current and each proposed member of the Audit Committee satisfies the requirements with respect to audit committee members set forth in NASDAQ Rule 5605(c)(2)(A) and applicable Canadian securities laws; and the Board has determined that, on the current Audit Committee, Jon Bengtson and, of the proposed Audit Committee members, Sean Shao is an “audit committee financial expert” as such term is defined in Item 407(d)(5)(ii) of Regulation S-K promulgated under the Securities Act, is independent under NASDAQ Rule 5605(a)(2) and Rule 10A-3(b)(1)(ii) promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) and is, as a result of his past employment experience in finance or accounting, requisite professional certification in accounting or other comparable experience or background, sophisticated with respect to financial matters.

The Audit Committee’s responsibility is to assist the Board in its oversight of (a) the quality and integrity of the Corporation’s financial reports, (b) the independence and qualifications of the Corporation’s independent auditor, and (c) the compliance by the Corporation with legal and regulatory requirements. Management of the Corporation has the responsibility for the Corporation’s financial statements as well as the Corporation’s financial reporting process, principles and internal controls. The Corporation’s independent public accounting firm is responsible for performing an audit of the Corporation’s financial statements and expressing an opinion as to the conformity of such financial statements with accounting principles generally accepted in the United States of America.

The change in our Board at the closing of the Common Share Issuance will not affect the Audit Committee’s role and operations. The charter of the Audit Committee will be amended at Closing in order to eliminate the existing cap on the number of audit committees of other companies on which its members can serve.

Board Leadership Structure and Role in Risk Oversight

The Board believes that different people should hold the positions of chairman of the Board and CEO to aid in the Board's oversight of management. Mr. Lortie currently serves as the Chairman of our Board of Directors in a non-executive capacity. As the Chairman of the Board of Directors, Mr. Lortie has a number of responsibilities, which include setting board meeting agendas in collaboration with the CEO, presiding at Board meetings, executive sessions and the annual stockholders' meeting, assigning tasks to the appropriate committees, and ensuring that information flows openly between management and the Board. The Board believes its administration of its risk oversight function has not affected the Board's leadership structure.

At the closing of Common Share Issuance, the new Board will meet to conduct its business. There is no guarantee that Mr. Lortie will continue as the Chairman of the Board, as a new individual will be selected at that time.

The Board is actively involved in assessing and managing risks that could affect the Corporation. The Board's mandate calls for the Board to periodically assess the processes utilized by management with respect to risk assessment and risk management, including identification by management of the principal risks of the Corporation's business, and the implementation by management of appropriate systems to deal with such risks. The Board fulfills these responsibilities either directly, through delegation to committees of the Board, or, as appropriate, through delegation to individual directors.

When the Board determines to delegate any risk management oversight responsibilities, typically such delegation is made to the standing committees of the Board. The Audit Committee would typically be tasked with oversight of risks to the Corporation such as those relating to the quality and integrity of the Corporation's financial reports, the independence and qualifications of the Corporation's independent auditor and inquiries regarding allegations of ethical, financial and legal issues. The Compensation, Governance and Nominating Committee would typically be tasked with overseeing risks such as relating to employment policies, the Corporation's compensation and benefits systems, the identification and recommendation of individuals qualified to become directors, management of the Corporation and succession planning. Each of these committees satisfies its oversight responsibilities through regular reports from officers of the Corporation responsible for each of these risk areas, regular meetings to discuss and analyze such risks, and, when necessary, consultation with outside advisors.

Following the Closing the Corporation will be a "Controlled Company" under NASDAQ Rule 5615(c). As a result, the Corporation is exempt from, and will no longer comply with, the majority independent board requirement, as set forth in NASDAQ Rule 5615(b).

Transactions with Related Persons

Share Subscription Agreement

The Corporation entered into the Share Subscription Agreement with Canon on September 20, 2010 with respect to the Common Share Issuance. Pursuant to the terms of the Share Subscription Agreement, Canon has agreed to acquire the number of common shares such that immediately following Closing it will own 51% of the Corporation's outstanding common shares on a fully diluted basis. The purchase price will be approximately \$1.5528 per share. Based upon the number of common shares and the rights to acquire common shares outstanding as of December 31, 2010, we estimate that the number of shares to be purchased will be 31,523,017, at an aggregate purchase price of \$48,948,799.16. Mr Yincang Wei, one of the director nominees, is the sole shareholder and the Chairman of Canon. Simultaneous to their execution of the Share Subscription Agreement, the Corporation and Canon also entered into an Investor Rights Agreement, pursuant to which the Corporation has granted certain rights to Canon, including (i) rights to proportional representation on the Board of Directors, (ii) the right to cause the Corporation to file a shelf registration statement two years after closing, together with certain demand and piggy-back registration rights, (iii) certain indemnification rights related to the registration rights, and (iv) an option to purchase common shares of the Corporation at market price in an amount sufficient to maintain proportionate ownership in connection with future dilutive issuances.

In addition, the Corporation, Altairnano, Inc., an indirect subsidiary of the Corporation, and Zhuhai Yintong Energy Company Ltd. ("YTE") entered into a Conditional Supply and Technology Licensing Agreement (the "Supply

Agreement”) on September 20, 2010. Pursuant to the Supply Agreement, YTE has agreed to purchase nLTO, 11 Ahr battery cells and a 1 megawatt ALTI-ESS system from the Corporation for an aggregate purchase price of \$6.6 million for delivery in 2010 and 2011. The purchases are subject to certain terms and conditions set forth in the Supply Agreement, including the right of YTE to cancel its orders for nLTO if the Share Subscription Agreement terminates under certain circumstances and the conditioning of the purchase of the battery cells and ALTI-ESS upon availability of the products for shipping and the closing of the Common Share Issuance. The Supply Agreement also includes an agreement by the Corporation to license its nLTO manufacturing technology at no cost to the owner of a manufacturing facility in China, as long as the Corporation owns a majority of the owner of such facility. In addition, under the Supply Agreement, the Corporation grants to YTE a license to use the Corporation’s battery technology to manufacture batteries during a term commencing on the effective date of the Supply Agreement and continuing as long as YTE purchases at least 60 tons of nLTO annually. The battery technology license is exclusive in China (including Taiwan, Hong Kong and Macau) as long as YTE purchases at least 1,000 tons of nLTO per year after 2010 and is non-exclusive in the remainder of Asia (excluding the Middle East), Australia and New Zealand. YTE is an indirect majority-owned and the primary operating subsidiary of Canon. Mr Yincang Wei and Mr Guohua Sun, each a director nominee, is the Chairman and a Director of YTE, respectively.

Voting Agreements

In connection with the Share Subscription Agreement, Canon entered into Voting Agreements (the "Voting Agreements") with the directors and executive officers of the Corporation and with Al Yousuf LLC, the largest single shareholder of the Corporation. In the Voting Agreements, Altair's executive officers and directors, and Al Yousuf LLC, have agreed to vote all of the Corporation's common shares owned by such person to approve the Common Share Issuance. Each of them has also agreed to not vote any such shares in favor of, or consent to, and to vote against and not consent to, the approval of any (i) Acquisition Proposal (as defined below), (ii) reorganization, recapitalization, liquidation or winding-up of the Corporation or any other extraordinary transaction involving the Corporation, (iii) corporate actions that would frustrate the purposes, or prevent or delay the consummation of the transactions contemplated by the Share Subscription Agreement, or (iv) other matters relating to, or in connection with, any of the foregoing. The Corporation's executive officers and directors, and Al Yousuf LLC, have also granted to Canon an irrevocable proxy appointing Canon as attorney-in-fact and proxy, with full power of substitution, for and in such shareholder's name, to vote, express consent or dissent, or otherwise to utilize such voting power in the manner described in the preceding paragraph, as Canon deems appropriate. Each shareholder revokes any and all previous proxies granted with respect to their shares.

The Voting Agreements terminate upon (a) the earlier of (i) the termination of the Share Subscription Agreement, or (ii) the Closing, or (b) at any time upon written notice by Canon to such executive officer or director. In addition to the termination triggers described in the preceding sentence, the Voting Agreement entered into by Al Yousuf LLC will also terminate if the transactions contemplated by the Share Subscription Agreement have not occurred by January 31, 2011. So long as the Voting Agreements are effective, the officers and directors of the Corporation, and Al Yousuf LLC, have agreed not to grant any proxy or power of attorney or enter into any voting trust or other agreement or arrangement with respect to the voting of any shares, or to acquire, sell, assign, transfer, pledge, encumber, or otherwise dispose of, or enter into any contract, option or other arrangement or understanding with respect to the direct or indirect acquisition or sale, assignment, transfer, pledge, encumbrance or other disposition of, any shares.

An "Acquisition Proposal" is defined as, other than the transactions contemplated by the Share Subscription Agreement, any offer, proposal or inquiry relating to, or any third party indication of interest in:

any acquisition or purchase, direct or indirect, of 15% or more of the Corporation's consolidated assets or 15% or more of any class of equity or voting securities of the Corporation or any of its subsidiaries whose assets, individually or in the aggregate, constitute 15% or more of the Corporation's consolidated assets,

any tender offer (including a self-tender offer) or exchange offer that, if consummated, would result in such third party's beneficially owning 15% or more of any class of equity or voting securities of the Corporation or any of its subsidiaries whose assets, individually or in the aggregate, constitute 15% or more of the Corporation's consolidated assets,

a merger, consolidation, share exchange, business combination, sale of substantially all the assets, reorganization, recapitalization, liquidation, dissolution or other similar transaction involving the Corporation or any of its subsidiaries whose assets, individually or in the aggregate, constitute 15% or more of the Corporation's consolidated assets, or

any other transaction or series of transactions for financing or investment in the Corporation that could reasonably be expected to impede, interfere with, prevent or materially delay the transactions contemplated by the Share Subscription Agreement or that could reasonably be expected to dilute materially the benefits to Canon of the transactions contemplated thereby.

Waiver and Rights Agreement

The Corporation entered into a Waiver and Rights Agreement with Al Yousuf LLC on September 20, 2010. Under the Waiver and Rights Agreement, Al Yousuf LLC has waived its right of first offer with respect to the Common Share Issuance. Al Yousuf LLC has also agreed that, with respect to any underwritten demand registration under its pre-existing registration rights agreement with the Corporation, to the extent Canon exercises piggyback registration rights under the Investor Rights Agreement and there is an underwriter cutback, Canon and Al Yousuf LLC will participate on a pro rata basis proportionate to their share ownership.

The Corporation has agreed that, following the closing of the Common Share Issuance, Al Yousuf LLC will have the right to designate one director until such time as Al Yousuf LLC holds less than 5% of the Corporation's outstanding common shares on a fully-diluted basis. During the period the Corporation has only nine directors, the parties agree that the director appointed by Al Yousuf LLC will be one of the independent directors of the Corporation and serve as a member of the audit committee of the Board.

The Corporation has further agreed that, at its next annual shareholder meeting following the closing of the transactions contemplated by the Share Subscription Agreement or if the Board decided to call a special shareholder meeting, at such shareholder meeting, it will propose to amend its articles to increase the size of the Board to no less than eleven directors and to nominate two new directors to the Board, one of whom to be designated by Canon and the other to be an independent director nominated by the Board pursuant to Altair's then-existing director nomination practice. Canon and Al Yousuf LLC have agreed to vote their common shares in favor of such proposal and the election of the two new directors.

Under the Waiver and Rights Agreement, the parties have agreed that, upon closing of the Common Share Issuance, the lock up provisions applicable to the shares Al Yousuf LLC acquired from the Corporation will terminate. Also, Al Yousuf LLC may elect to first offer to Canon the right to purchase such shares from Al Yousuf LLC in connection with any proposed sale of shares by Al Yousuf LLC.

Policies for Review, Approval or Ratification of Related Party Transactions

The Corporation's Audit Committee has the authority and responsibility to review and approve any proposed transactions between the Corporation (including its subsidiaries) and any person that is an officer, key employee, director or affiliate of the Corporation (or any subsidiary), other than transactions related to the employment and compensation of such persons, which are reviewed and approved by the Compensation, Governance and Nominating Committee. Such policies are set forth in the respective charters of the Audit Committee and the Compensation, Governance and Nominating Committee.

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

Compensation Discussion and Analysis

Pursuant to Item 402(b) of Regulation S-K promulgated under the United States Securities Act of 1933, as amended (the "Securities Act"), the following discussion is meant to provide an overview of the material elements of the Corporation's compensation policy (the "Compensation Policy"). The following discussion is meant to be a principle-based discussion of the Corporation's compensation policies and provide context to the tables that follow. Specific reference to disclosures in the compensation tables will be discussed in narrative descriptions following the respective compensation tables.

The Corporation recently implemented a consolidation (or reverse split) of its common shares, in which every four (4) outstanding common shares were consolidated into one (1) common share, as of 11:59 p.m. on November 15, 2010 (the "Consolidation"), subject to rounding up of fractional shares. Share and per-share numbers throughout this Compensation Discussion and Analysis have been adjusted to give effect to the Consolidation.

Compensation Philosophy

The objectives of our executive officer compensation policy are to attract and retain talented and dedicated executives, to tie compensation to the achievement of specified short-term and long-term performance objectives, and to align executives' incentives with the creation of shareholder value. The Compensation, Governance and Nominating

Committee approves and annually evaluates the Corporation's compensation policies applicable to, and the performance of, the Corporation's executive officers, including the named executive officers.

The following objectives guide compensation decisions:

- Provide a competitive total compensation package that enables the Corporation to attract and retain key executive talent;
 - Ensure that compensation policies and practices are consistent with effective risk management;
- Align key elements of compensation with the Corporation's annual and long-term business strategies and objectives; and
- Provide a mix of base compensation and performance-based compensation that directly links executive rewards to the performance of the Corporation and shareholder return.

Elements of Executive Compensation

The principal components of compensation for the Corporation's named executive officers are as follows:

- Base salary;
- Annual incentive bonus; and
- Long-term equity-based incentives, primarily stock options.

Named executive officers are entitled to benefits generally available to all full-time salaried employees of the Corporation. These benefits include up to 5 weeks per-year of paid time off for medical and vacation leave, subsidized group health plan coverage offered to all salaried employees of the Corporation, and eligibility to participate in the Corporation's 401(k) Profit Sharing Plan (the "401(k) Plan"), matching contributions under the 401(k) Plan in an amount up to the greater of 50% of the first \$2,500 contributed or 3% of the employee's base salary. As explained in "Termination and Change of Control Agreements" below, certain named executive officers may be entitled to severance payments in connection with a change of control or termination of their employment. Other than as described above, the named executive officers are not provided with special benefits or perquisites such as company cars, enhanced medical plans or dental plans.

Determination of Compensation

In order to evaluate the competitiveness and appropriateness of the Corporation's total compensation and mix of compensation for executive officers, the Compensation, Governance and Nominating Committee reviews data on the base salary, annual incentive bonus and equity-based incentive compensation for various executive positions, as well as the mix of compensation components, of executive officers of a benchmark group of fifteen companies in the alternative energy business sector of reporting public companies with annual revenues of less than \$100 million and with a market capitalization of less than \$850 million. Equilar, an independent company, produces all compensation reports.

In addition to the benchmark company information, in determining the amount of and mix of compensation, the Compensation, Governance and Nominating Committee considers evaluations of the Chief Executive Officer by each of the directors of the Corporation and each of his direct report executives, the recommendations of the Chief Executive Officer and Vice President of Human Resources with respect to officers other than the Chief Executive Officer, the performance of each executive officer against pre-determined business goals and objectives and the potential role of each executive in the strategic plan of the Corporation. Subject to adjustment upward or downward based upon the various evaluations, the Compensation, Governance and Nominating Committee generally targets base compensation and equity-based incentive awards near the median of the benchmark group and targets annual incentive bonus near the 75th percentile of the benchmark group detailed below:

Active Power

Plug Power

Ballard Power Systems	Quantum Fuel Systems Technology
Beacon Power	Raser Technologies
C&D Technologies	Satcon Technology
Capstone Turbine	Ultralife
Comverge	UQM Technologies
Ener1	Valence Technology
Maxwell Technologies	

Mix of Compensation

The Compensation, Governance and Nominating Committee believes that a significant percentage of the annual compensation of the named executive officers should be at-risk. During 2010, between approximately 39% and 52% of the named executive officers' potential annual compensation was dependent upon the achievement of corporate goals. In addition, stock options granted to the Corporation's named executive officers for retention and incentive purposes generally vest over a period of four years.

The percentage of compensation at risk increases as the level of position increases, with the top figure in the range set forth above being that of the Corporation's Chief Executive Officer. This provides additional upside potential and downside risk for senior positions, recognizing that these roles have greater influence on the Corporation's performance.

Base Salary

Base salaries for the named executive officers are established based on the scope of their responsibilities, their skills and their historical and potential contributions to the Corporation, as well as the compensation paid by benchmarked companies for similar positions. Generally, base salaries are targeted near the median of the range of salaries for executives in similar positions with similar responsibilities at benchmark companies, in line with our compensation philosophy. Base salaries are reviewed annually, and adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, performance and experience.

The base salaries of the named executive officers for 2010 and as of the date of this Information Statement are as follows:

Name	2010 Base Salary (\$)
Terry M. Copeland, President, Chief Executive Officer	325,000
John C. Fallini, Chief Financial Officer	230,006
Bruce J. Sabacky, Vice President & Chief Technology Officer	225,000
Daniel Voelker, Vice President Engineering and Operations	205,000
Stephen Balogh, Vice President Human Resources	193,800

No adjustments were made to base salaries of the named executive officers during 2010 or, to date, during 2011.

Annual Incentive Bonus

The annual incentive bonus is intended to compensate executives for achieving corporate goals. One hundred percent of each named executive officer's annual incentive bonus is contingent upon the Corporation achieving pre-determined financial and operational goals.

Decisions with respect to annual incentive bonus are made after the end of each fiscal year. At the beginning of each year, the Compensation, Governance and Nominating Committee sets annual performance goals, a target and maximum incentive bonus amount, and a formula for determining the amount, if any, of the bonus each executive officer is entitled to receive. Annual incentive bonuses are paid 60% in cash and 40% in common shares. For purposes of determining the number of common shares an employee is issued as part of a stock bonus, the Corporation uses the volume weighted average market value of the Corporation's common shares for the applicable fiscal year. The Compensation, Governance and Nominating Committee reserves the right to award annual incentive

bonuses above or below formula-determined amounts as it deems appropriate.

Targets and Results for 2010.

During 2010, each named executive officer was eligible for target annual incentive bonuses ranging from 60% to 80% of his base salary, depending on his position. Of these amounts, 100% was tied to the achievement of corporate goals as follows: a total revenue goal of \$13 million (40% weighting), order backlog of \$44.5 million (30% weighting), current assets at year end, less short-term investments in available for sale securities, \$16.9 million (25% weighting) and a safety OSHA incidence rate of 2.65 (5% weighting), all in line with the Corporation's board-approved budget. The Compensation, Governance and Nominating Committee reserved the discretion to award, or to deny, annual incentive bonuses whether or not performance targets were achieved, as it deemed appropriate. Decisions with respect to incentive bonuses for 2010 will be made at a meeting of the Compensation, Governance and Nominating Committee based upon year-end information to be held during the first quarter of 2011.

Name	Minimum/Target Incentive Bonus Opportunity (payout as a % of base salary)	Maximum Incentive Bonus Opportunity (payout as a % of base salary)
Terry M. Copeland, President, Chief Executive Officer	80	120
John C. Fallini, Chief Financial Officer	60	90
Bruce J. Sabacky, Vice President & Chief Technology Officer	60	90
Stephen Balogh, Vice President Human Resources	60	90
Daniel Voelker, Vice President Engineering and Operations	60	90

Bonuses, if any, will be paid 60% in cash and 40% in common shares for each named executive officer.

Targets for 2011 Results.

Target annual incentive bonuses for each named executive officer have not been determined.

Long-Term Equity-Based Incentives

The Corporation's 2005 Stock Incentive Plan (Amended and Restated) (the "2005 Plan") was adopted at the Corporation's Annual Meeting of Shareholders in May 2005 and amended and restated in 2007 to increase the number of eligible shares. Under the 2005 Stock Plan, the Corporation is authorized to issue equity-based awards, including stock options, stock bonuses, restricted stock, stock appreciation rights, and performance-based awards, with respect of up to 2,250,000 common shares (adjusted for the Consolidation). Each of the Compensation, Governance and Nominating Committee and the Board has joint authority to grant awards under the 2005 Plan.

The Corporation had previously authorized its 1998 Stock Option Plan (the "1998 Plan"), under which an aggregate of 45,375 awards continue to be outstanding as of December 31, 2010 (adjusted for the Consolidation); however, awards can no longer be granted under this plan.

The Corporation's long-term equity-based incentive program is focused on rewarding performance that enhances shareholder value. The program involves the periodic grant of options to purchase common shares in order to provide executive officers with the opportunity to purchase an equity interest in the Corporation and to share in the appreciation of the value of the Corporation's common shares.

The Compensation, Governance and Nominating Committee periodically considers whether or not to grant additional stock options in order to maintain the overall competitiveness of the Corporation's compensation package for each named executive officer and to ensure that executives, particularly executives whose other stock options have vested and/or been exercised, have an incentive to remain with the Corporation long term and to increase shareholder value. Factors weighed in determining whether to make, and the amount of, these grants include the above-described review of benchmark compensation data and assessment of past performance, retention considerations, information regarding each named executive officer's existing equity and stock option ownership, potential shareholder dilution and the expense to the Corporation pursuant to Accounting Standards Codification Topic 718 of the Financial Accounting Standards Board ("FASB ASC Topic 718"). Such options generally have an exercise price equal to the market price on the date of grant or the market price on the date of grant plus a premium over that price, a ten-year term and vest over a four-year term.

In addition, from time to time stock option grants are made to newly hired employees based on their level of responsibility and competitive practices.

Annual Grants.

Terry Copeland was awarded an annual grant of options to purchase 100,000 common shares at an exercise price of \$4.40 on January 15, 2010 (adjusted to give effect to the Consolidation). All options have a ten-year term and vest 25% per year on the anniversary date of the respective grant.

The other named executive officers were granted annual stock options to purchase an aggregate of 100,000 common shares at an exercise price of \$4.40 per share on January 15, 2010 (adjusted to give effect to the Consolidation). The individual annual stock option grants are: Stephen Balogh (22,500 shares); John Fallini (27,500 shares); Bruce Sabacky (22,500 shares), and Daniel Voelker (27,500 shares) (all adjusted to give effect to the Consolidation). The options have a ten-year term and vest 25% annually over a four-year period.

In connection with a promotion, Daniel Voelker was issued stock options to purchase an aggregate of 12,500 common shares at an exercise price of \$4.40 per share on June 15, 2010 (adjusted to give effect to the Consolidation). The options have a ten-year term and vest 25% annually over a four-year period.

As a matter of best practice, we will continue to monitor our compensation program to ensure that it continues to align the interests of our executives with those of our long-term stockholders while avoiding unnecessary or excessive risk.

Compensation Adjustments

The Corporation may increase or, subject to contractual or other restrictions decrease an executive's overall compensation at any time during any fiscal year after considering several factors, including level and scope of responsibilities, contribution to overall corporate performance and achievement of personal goals and objectives.

The Compensation, Nominating and Corporate Governance Committee determined that it was appropriate to review and adopt certain compensation practices that discourage unnecessary or excessive risk taking, such as a recoupment or "clawback" policy. In February 2010, our Compensation, Nominating and Corporate Governance Committee approved a recoupment policy under which our Compensation Committee has the sole and absolute authority, to the full extent permitted by applicable law, to require that each executive officer agree to reimburse the Corporation for all or any portion of any annual incentive bonus if:

- (1) the payment was predicated upon the achievement of certain financial results that were subsequently the subject of a material financial restatement,
- (2) in the view of our Compensation, Governance and Nominating Committee, the executive engaged in fraud or misconduct that caused or partially caused the need for a material financial restatement by us, and
- (3) a lower payment would have occurred based upon the restated financial results.

In each such instance, we will, to the extent practicable and allowable under applicable laws, require reimbursement of any bonus in the amount by which the executive's annual bonus for the relevant period exceeded the lower payment that would have been made based on the restated financial results, provided that we will not seek to recover bonuses paid more than one year prior to the date the need for such material financial restatement is determined.

Termination and Change-of-Control Agreements

Severance Provisions in Employment Agreements. The employment agreements of all of the named executive officers provide for termination and change of control benefits as follows:

19

If the officer's employment is terminated by the officer for good reason, which includes, among other things, (a) the Corporation requiring the officer to relocate his place of employment without the officer's consent, or (b) a material adverse change in the officer's title, position, and/or duties 90 days before or within one year after a change of control, the officer is entitled to a severance benefit equal to his base salary and health benefits for one year. This one-year base salary severance benefit will be extended to 16 months if either the officer was required to relocate more than 50 miles in order to commence employment and the termination occurs within two years of commencement of employment, or the officer later consents to a relocation of his employment and the termination occurs within two years of such voluntary relocation.

If the officer's employment is terminated by the Corporation without cause, the officer is entitled to a severance benefit equal to his base salary for one year, health benefits for 18 months, and a lump sum bonus payment equal to the product of (a) 60% of his base salary paid for the year in which his termination occurred, multiplied by (b) a fraction, the numerator of which is the number of days that have elapsed during the then-current calendar year and the denominator of which is 365. The one-year base salary severance benefit will be extended to 16 months if either the officer was required to relocate more than 50 miles in order to commence employment and the termination occurs within two years of commencement of employment, or the officer later consents to a relocation of his employment and the termination occurs within two-years of such voluntary relocation.

The officer is not entitled to any severance if his employment is terminated at any time by the Corporation with cause or by the officer without good reason.

Dr. Copeland's current base salary is \$325,000 per year; Mr. Fallini's current base salary is \$230,006 per year; Mr. Voelker's current base salary is \$205,000 per year; Mr. Balogh's current base salary is \$193,800 per year; and Mr. Sabacky's current base salary is \$225,000 per year.

Acceleration of Vesting of Options. The employment agreements of each of the named executive officers require that all options and other equity awards granted to the named executive officer provide that the award immediately vests as of the effective date of a "Change of Control Event". A "Change of Control Event" is defined in the agreement to mean (a) any capital reorganization, reclassification of the capital stock of the Corporation, consolidation or merger of the Corporation with another corporation in which the Corporation is not the survivor (other than a transaction effective solely for the purpose of changing the jurisdiction of incorporation of the Corporation), (b) the sale, transfer or other disposition of all or substantially all of the Corporation's assets to another entity, (c) the acquisition by a single person (or two or more persons acting as a group, as a group is defined for purposes of Section 13(d)(3) under the Securities Exchange Act of 1934, as amended) of more than 40% of the outstanding common shares. We believe that the closing of the Common Share Issuance will qualify as a Change of Control Event under these agreements.

The following table provides information relating to the number of options that are unvested as of December 31, 2010 that would vest immediately for each named executive officer if a change in control event were to have occurred as of December 31, 2010:

Name	Number of Securities Underlying Unvested Options that Would Vest Upon a Change of Control Event

Explanation of Change of Control Policies. The Compensation, Governance and Nominating Committee believes that providing a reasonable severance arrangement tied to termination without cause is essential to attracting and retaining talented executive officers. In addition, the Compensation, Governance and Nominating Committee believes that the severance arrangements provided to certain of its named executive officers serve the best interests of the Corporation and its shareholders by ensuring that, if a hostile or friendly change of control is under consideration, its executives will feel secure enough about their post-transaction financial future that they will advise the Board about the potential transaction without consideration, or with lessened consideration, of any adverse effect of the transaction on their future employment and compensation. The Compensation, Governance and Nominating Committee believes that its inclusion of a “double trigger,” i.e. both a change of control and a subsequent termination or adverse action, is appropriate with respect to severance payments because it reasonably balances the needs of the executive and of the Corporation. The provision protects the executive if his status is changed following a change of control but protects the Corporation and its successors because it does not provide for severance payments if the Corporation or successor permits the employee to remain in the same position in the same place. The Corporation has no other severance agreements in place with its named executive officers.

Stock Ownership Guidelines

Our stock ownership guidelines (effective January 1, 2010) are designed to encourage our named executive officers and non-employee directors to achieve and maintain an equity stake in the Corporation and more closely align his or her interests with those of our stockholders.

Upon recommendation of the Compensation, Governance and Nominating Committee, the Board has adopted stock ownership guidelines for directors. Under these guidelines, non-employee directors are required to own, within one year of becoming a director, a number of common shares equal to at least 5,000 shares (adjusted to give effect to the Consolidation). Shares counted towards this guideline include any shares held by the director directly or through a broker, including shares vested under restricted stock grants.

The Board also has adopted, on recommendation of the Compensation, Governance and Nominating Committee, stock ownership guidelines applicable to the Corporation’s executive officers. Under these guidelines, the Corporation’s Chief Executive Officer is expected to hold an investment level of at least 6,250 common shares and other executive officers are expected to hold at least 3,750 common shares (all adjusted to give effect to the Consolidation). Executives are expected to comply with these guidelines within three years.

In addition, the guidelines include retention requirements for stock option exercises under which executives must retain certain common shares acquired upon exercise of a stock option. Executive officers who do not yet satisfy the ownership guidelines must retain 50% of the shares acquired on exercise remaining after the sale of shares sufficient to cover the exercise price of the option and taxes.

An annual review will be conducted by the Compensation, Governance and Nominating Committee to assess compliance with the guidelines and to review the guideline policy.

Role of Executive Officers in Determining Executive Pay

The Compensation, Governance and Nominating Committee makes all decisions with respect to base compensation, annual incentive compensation and the award of stock options to the executive officers of the Corporation, including all named executive officers. Such authority may not be delegated to another person other than, as appropriate, the entire Board.

At the end of each fiscal year, the Corporation's Vice President of Human Resources and Chief Executive Officer are responsible for evaluating the performance of each named executive officer (and other officers) against corporate and individual performance objectives and for submitting a report to the Compensation, Governance and Nominating Committee detailing the results of their evaluations. In connection with this report, each of the Vice President of Human Resources and Chief Executive Officer make recommendations to the Compensation, Governance and Nominating Committee with respect to compensation matters related to the prior year, including employee-specific recommendations but not with respect to himself. In addition, each of the two officers makes recommendations to the Compensation, Governance and Nominating Committee with respect to compensation matters related to the upcoming year, including employee-specific recommendations (but not with respect to himself) and strategic and design recommendations. The Compensation, Governance and Nominating Committee considers these recommendations, and the report of these officers, among other factors by the Compensation, Governance and Nominating Committee as it makes prior-year and coming-year compensation decisions.

Compensation Consultant

The Compensation, Governance and Nominating Committee retains Radford, an AON Consulting Corporation (“Radford”) to provide ongoing advice and information regarding design and implementation of the Corporation’s executive compensation programs. Radford also provides information and updates to the Compensation, Governance and Nominating Committee about regulatory and other technical developments that may affect the Corporation’s executive compensation programs. In addition, Radford provides the Committee with competitive market information, analyses and trends on base salary, short-term incentives and long-term incentives.

The Compensation, Nominating & Governance Committee believes that Radford provides candid, direct and objective advice to the Committee, which is not influenced by any other services provided by Radford. To ensure independence:

- the Compensation, Nominating & Governance Committee directly hired and has the authority to terminate Radford;
 - Radford is engaged by and reports directly to the committee chair;
- Radford has direct access to all members of the Compensation, Nominating & Governance Committee during and between meetings; and
- interactions between Radford and management generally are limited to discussions on behalf of the Compensation, Nominating & Governance Committee and information presented to the committee for approval.

Neither Radford, nor any of its affiliates, provides any other services to the Corporation.

Tax and Accounting Considerations

Accounting Treatment

The Corporation previously adopted Standard of Financial Accounting Standards No. 123(R), Share-Based Payment (as well as its successor, Accounting Standards Codification Topic 718 of the Financial Accounting Standards Board), which requires companies to expense the costs of stock-based compensation in their financial statements. Accordingly, the Corporation began recording stock-based compensation expense in the income statement in 2006. The fair value of each award is estimated on the date of grant, using the Black-Scholes option-pricing model. Once the fair value of each award is determined, it is expensed in the income statement over the vesting period.

Deductibility of Executive Compensation

Section 162(m) of the United States Internal Revenue Code of 1986, as amended (the “Code”), imposes a \$1 million annual limit on the amount that a public company may deduct for compensation paid during a tax year to the Corporation’s Chief Executive Officer or to any of the Corporation’s four other most highly compensated executive officers who are still employed at the end of the tax year. The limit does not apply to compensation that meets the requirements of Code Section 162(m) for “qualified performance-based” compensation (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the Corporation’s shareholders).

The Compensation, Governance and Nominating Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation, Governance and Nominating Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. Stock option grants in 2009 and 2010 were intended to constitute “qualified performance-based compensation” under Section 162(m); however, the

Corporation's 2010 annual performance bonus would not have been, and the Corporation's 2011 annual performance bonus will not be, "qualified performance-based compensation" because the Corporation does not have shareholder-approved performance criteria for its cash incentive plan. In 2010, none of the named executive officers, received base pay, annual bonus and other compensation in an amount in excess of the \$1 million deduction limit.

Executive Compensation

The Corporation has implemented the Consolidation. Share and per-share numbers throughout this Executive Compensation section have been adjusted to give effect to the Consolidation.
