PART I

Item 1. Description of Business

Bold Energy Inc. (Bold Energy , we , the Company) was incorporated in the State of Nevada as a for-profit company on June 27, 2008 and established a fiscal year end of July 31. We are a development stage company that intends to develop a wide range loyalty program based on Global Club points awarded for all purchases made in associated establishments. These points will be exchangeable by products, trips or discounts. We intend to be partners with all kinds of retailers, so the cardholders will be able to collect points on their every day expenses, such as in grocery shops, gas stations, restaurants, electronic stores, travel agencies, etc.

Our strategy is to recruit a large number of retail outlets as participating Global Club partners. We plan to do this by having our sales representatives negotiate membership deals with many large retail outlets and chains across North America. We also plan to advertise Global Club to retail outlets in various trade magazines as part of our sales campaign. Our planned website will also play a central role in recruiting customers.

The Company has not been involved in any bankruptcy, receivership or similar proceedings since its incorporation nor has it been involved in any reclassification, merger or consolidation. We have no plans to change our business activities.

General

Global Club is a new concept of loyalty program. The concept is simple: on every purchase it will be awarded points to be printed on a card. These points can be exchanged by products such as video-games, gift cards, trips, etc. according to the number of points on the card: more points, better prize. We intend to be partners with all kind of retailers, so the cardholders will be able to collect points on their every day expenses, such as in grocery shops, gas stations, restaurants, electronic stores, travel agencies, etc.

We intend to begin our revenue-operating activities by purchasing few samples of the RW Terminal and some PET cards in order to develop and test our system. Then, we plan to hire hi-tech consultants to develop the software to run the systems. Once our system is operational, we expect to start our marketing efforts. We will develop our website www.globalclubloyalty.com, and contact possible partners.

Readwriter Terminal - RWT

We intend to import this equipment from a specialized company from Japan according to our design specifications. We expect to install terminals in each venue included on the Global Club. The terminal would be used to recognize the card and print the points on it after each of the cardholder's transactions.

PET Card

An important part of the program will be a recyclable PET card, similar in size to a debit/credit PVC card, but thinner (0.22mm). The card will be color printed by applying special UV (ultra-violet) inks in thin (less than 0.04 mm) coats with our logo and a serial number on the face and product information on the obverse side. The obverse side of the card will also contain a magnetic layer upon which the information (data) of the customer and his accumulated points will be recorded by a specialized device, called Readwriter Terminal. The points will be printed thermally in a way that the magnetic reader head of the terminal will read the information recorded on it. We could also use face side of card for advertising and product promotions.

The estimated cost price is US\$0.80 per unit.

At the present time, we have not made any arrangements to raise additional cash. We will need additional cash and if we are unable to raise it, we will either suspend marketing operations until we do raise the cash necessary to continue our business plan, or we cease operations entirely.

If we are unable to complete any phase of our business plan or marketing efforts because we don't have enough money, we will cease our development and/or marketing activities until we raise money. Attempting to raise capital after failing in any phase of our business plan would be difficult. As such, if we cannot secure additional funds we will have to cease operations and investors will lose their entire investment.

Plan of Operation

Our plan of operation is based on the accomplishment of the following milestones over the 12 month period planned for in our prospectus:

1.

We plan to begin our activities by purchasing few samples of the RW Terminal from a Japanese company who specializes in the manufacture of this product and some PET cards in order to develop and test our system. We expect to complete this stage within 90 days after raising enough capital to implement our plan of operations.

2.

After receiving the RW Terminals and PET cards we plan to hire hi-tech consultants to develop the software to run the systems. We intend to use the terminals and cards acquired prior to this stage to run the system and make the necessary arrangements on the software. We expect to finish this stage within 300 days after raising enough capital to implement our plan of operations.

3.

Once our system is operational, we expect to start our marketing efforts. We will develop our website www.globalclubloyalty.com, and contact malls, grocery stores and gas stations to be our partners. We intend to devote about 60 days to this period and be fully operational within 360 days after raising enough capital to implement our plan of operations.

We plan on charging a monthly rental fee that will include the maintenance of the equipment. The Company also plans to generate revenue charging about US\$0.01 for each issued point and selling the face part of the cards for advertisement. The consumer will not pay anything extra for the points; they will be already included on the final price of the product. We may also sell some special PET cards for collection.

The Company has raised \$15,750 in cash to initiate its business plan through the sale of its common stock. The amount raised from our stock offering is insufficient and we will need additional cash to continue to implement our business plan. If we are unable to raise it, we will either suspend marketing operations until we do raise the cash, or cease operations entirely. Other than as described in this paragraph, we have no other financing plans.

If we are unable to complete any aspect of our development or marketing efforts because we don't have enough money, we will cease our development and/or marketing operations until we raise money. Attempting to raise capital after failing in any phase of our business plan would be difficult. As such, if we cannot secure additional proceeds we will have to cease operations and investors would lose their entire investment.

Management does not plan to hire additional employees at this time. Our President will be responsible for the initial product sourcing. We intend to hire sales representatives initially on a commission only basis to keep administrative overhead to a minimum. We will use third party web designers to build and maintain our website.

We do not expect to be purchasing or selling plant or significant equipment during the next twelve months.

Research and Development

We have not spent any amounts on research and development activities during the year ended July 31, 2011. We anticipate that we will not incur any expenses on research and development over the next 12 months. Our planned expenditures on our operations or a business combination are summarized under the section of this annual report entitled "Management's Discussion and Analysis of Financial Position and Results of Operations".

Employees and Employment Agreements

At present, we have no employees other than our officer and director. Eden Clark currently devotes 10-15 hours a week to our business. We presently do not have pension, health, annuity, insurance, stock options, profit sharing or similar benefit plans; however, we may adopt such plans in the future. There are presently no personal benefits available to any officers, directors or employees.

Item 1A. Risk Factors

Not applicable to smaller reporting companies.

Item 2. Description of Property

We do not own any real estate or other properties. The Company's office is located at 112 North Curry Street, Carson City, Nevada, 89703.

Item 3. Legal Proceedings

We are currently unaware of any legal matters pending or threatened against us.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Market for Common Equity, Related Stockholder Matters and Small Business Issuer Purchases of Equity Securities

Market Information

There is a limited public market for our common shares. Our common shares are quoted on the OTC Bulletin Board under the symbol BOLD.OB . Trading in stocks quoted on the OTC Bulletin Board is often thin and is characterized by wide fluctuations in trading prices due to many factors that may be unrelated to a company's operations or business prospects. We cannot assure you that there will be a market in the future for our common stock.

OTC Bulletin Board securities are not listed or traded on the floor of an organized national or regional stock exchange. Instead, OTC Bulletin Board securities transactions are conducted through a telephone and computer network connecting dealers in stocks. OTC Bulletin Board issuers are traditionally smaller companies that do not meet the financial and other listing requirements of a regional or national stock exchange.

The following table sets forth the high and low closing prices quoted on the Over the Counter Bulletin Board for the last two fiscal years, without retail mark-up, mark-down or commission and may not be reflective of actual transactions:

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and related notes included elsewhere in this report.

This interim report contains forward looking statements relating to our Company's future economic performance, plans and objectives of management for future operations, projections of revenue mix and other financial items that are based on the beliefs of, as well as assumptions made by and information currently known to, our management. The words "expects , intends , believes , anticipates , may , could , should" and similar expressions and variations are intended to identify forward-looking statements. The cautionary statements set forth in this section are intended to emphasize that actual results may differ materially from those contained in any forward looking statement.

Our auditor's report on our July 31, 2011 financial statements expresses an opinion that substantial doubt exists as to whether we can continue as an ongoing business. Since our officer and director may be unwilling or unable to loan or advance us additional capital, we believe that if we do not raise additional capital over the next 12 months, we may be required to suspend or cease the implementation of our business plans. See July 31, 2011 Audited Financial Statements Report of Independent Registered Public Accounting Firm.

Management believes the amount of cash on hand and in the bank of Bold Energy will not satisfy our cash requirements for the next twelve months or until such time that additional proceeds are raised. We plan to satisfy our future cash requirements - primarily the working capital required for the development of our course guides and marketing campaign and to offset legal and accounting fees - by additional equity financing. This will likely be in the form of private placements of common stock.

Management believes that if subsequent private placements are successful, we will be able to generate sales revenue within the following twelve months thereof. However, additional equity financing may not be available to us on acceptable terms or at all, and thus we could fail to satisfy our future cash requirements.

If Bold Energy is unsuccessful in raising the additional proceeds through a private placement offering it will then have to seek additional funds through debt financing, which would be highly difficult for a new development stage company to secure. Therefore, the company is highly dependent upon the success of the anticipated private placement offering and failure thereof would result in Bold Energy having to seek capital from other sources such as debt financing, which may not even be available to the company. However, if such financing were available, because Bold Energy is a development stage company with no operations to date, it would likely have to pay additional costs associated with high risk loans and be subject to an above market interest rate. At such time these funds are required, management would evaluate the terms of such debt financing and determine whether the business could sustain operations and growth and manage the debt load. If Bold Energy cannot raise additional proceeds via a private placement of its common stock or secure debt financing it would be required to cease business operations. As a result, investors in Bold Energy common stock would lose all of their investment.

The development and marketing of our products will start over the next 12 months. Bold Energy does not anticipate obtaining any further products or services.

Results of Operations

We did not generate any revenues for the fiscal year ended July 31, 2011, as well as no revenues for the fiscal year ended July 31, 2010. We incurred operating expenses of \$47,486 and \$43,096, respectively, for fiscal years ended July 31, 2011 and July 31, 2010.

Our comprehensive net loss for the fiscal year ended July 31, 2011 was \$7,771,913, compared to \$38,669 for the fiscal year ended July 31, 2010. Since the date of inception, we have incurred a comprehensive net loss of \$7,826,106. We do not currently have sufficient capital to fund our estimated expenditures for the fiscal year and intend to fund the expenditures through equity and/or debt financing. There can be no assurance that financing will be available to us on acceptable terms, if at all.

Liquidity and Capital Resources

At July 31, 2011, we had \$4,413 in cash in the bank.

Our accounts payable at July 31, 2011 was \$7,491.

Our stockholders' deficit was (\$40,568) at July 31, 2011, as compared to (\$33,655) at July 31, 2010.

In the next 12 months, we do not intend to spend any substantial funds on research and development and do not intend to purchase any major equipment.

We do not anticipate any material commitments for capital expenditures in the near term. While we continue to work towards 100% capacity, we feel that current cash on hand is insufficient to satisfy cash requirements. If we are unable to continue to develop and implement a profitable business plan, we will be required to seek additional avenues to

obtain funds necessary to sustain operations, including equity and/or debt financing. There can be no assurance that financing will be available to us on acceptable terms, if at all.

Given that we have not achieved significant profitable operations to date, our cash requirements are subject to numerous contingencies and risk factors beyond our control, including operational and development risks, competition from well-funded competitors and our ability to manage growth. We can offer no assurance that we will generate cash flow sufficient to achieve profitable operations or that our expenses will not exceed our projections. If our expenses exceed estimates, we will require additional monies during the next twelve months.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies

Management's discussion and analysis of our financial condition and results of operations are based on the financial statements, which are prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of such financial statements requires Management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. On an ongoing basis, Management will evaluate its estimates and will base its estimates on historical experience, as well as on various other assumptions in light of the circumstances surrounding the estimate, and the results will form the basis in making judgments about the carrying values of our assets and liabilities that are not readily apparent from other sources. It should be noted, however, that actual results could materially differ from the amount derived from Management's estimates under different assumptions or conditions.

Loss per share is computed using the weighted average number of common stock outstanding during the period.

Diluted loss per share is computed using the weighted average number of common and potentially dilutive common stock outstanding during the period reported. Our Management does not believe that any recently issued, but not yet effective accounting standards if currently adopted, would have a material effect on the our current financial statements.

Because we are a small, development stage company, with only one director, we have not yet appointed an audit committee or any other committee of our Board of Directors.

(A Development Stage Enterprise)
NOTES TO THE AUDITED FINANCIAL STATEMENTS

NOTE 1 NATURE OF OPERATIONS AND BASIS OF PRESENTATION

The Company was incorporated in the State of Nevada as a for-profit Company on June 27, 2008 and established a fiscal year end of July 31. It is a development-stage Company that intends to develop a wide range loyalty program based on "Global Club points" awarded for all purchases made in associated establishments. These points will be exchangeable for products, trips or discounts. The Company is currently in the development stage as defined under FASB ASC 915-10, "Development Stage Entities". All activities of the Company to date relate to its organization, initial funding and share issuances.

On November 10, 2009, a change in control occurred when the Company received a resignation notice from Orlando J. Narita from all of his positions with the Company, including President, CEO, Principal Executive Officer, Treasurer, CFO, Principal Accounting Officer, Secretary, and Director.

On November 30, 2009, the Company appointed Eden Clark as its new President, CEO, Principal Executive Officer, Treasurer, CFO, Principal Accounting Officer, Secretary, Treasurer and as Director.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Going concern

The Company's financial statements are prepared in accordance with generally accepted accounting principles applicable to a going concern. This contemplates the realization of assets and the liquidation of liabilities in the normal course of business. Currently, the Company has does not have material assets, nor does it have operations or a source of revenue sufficient to cover its operation costs and allow it to continue as a going concern. The Company has an accumulated deficit since inception of \$7,826,106. The Company will be dependent upon the raising of additional capital through placement of our common stock in order to implement its business plan, or merge with an operating company. There can be no assurance that the Company will be successful in either situation in order to continue as a going concern. The Company is funding its initial operations by way of issuing Founder's shares. These financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or the amounts of and classification of liabilities that might be necessary in the event the company cannot continue in existence. Accordingly, these factors raise substantial doubt as to the Company's ability to continue as a going concern.

The officers and directors have committed to advancing certain operating costs of the Company, including legal, audit, transfer agency and edgarizing costs

Basis of Presentation

The financial statements present the balance sheet, statements of operations, stockholders' equity (deficit) and cash flows of the Company. These financial statements are presented in United States dollars and have been prepared in accordance with accounting principles generally accepted in the United States.

Cash and Cash Equivalents

For the purposes of the statements of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalent.

Use of Estimates and Assumptions

Preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Company follows the liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

Net Loss per Share

Basic loss per share includes no dilution and is computed by dividing loss available to common stockholders by the weighted average number of common shares outstanding for the period. Dilutive loss per share reflects the potential dilution of securities that could share in the losses of the Company. Because the Company does not have any potentially dilutive securities, the accompanying presentation is only of basic loss per share.

Recent Accounting Pronouncements

The company has evaluated all the recent accounting pronouncements and believes that none of them will have a material effect on the company's financial statement.

Stock-based Compensation

The Company has not adopted a stock option plan and has not granted any stock options. We issued 48,388 shares @\$0.31 per share to Ms. Eden Clark as compensation for services rendered.

Fair Value of Financial Instruments

The Company has determined the estimated fair value of financial instruments using available market information and appropriate valuation methodologies. The fair value of financial instruments classified as current assets or liabilities approximate their carrying value due to the short-term maturity of the instruments.

On April 6, 2010, the Company issued an aggregate of 200,000 common shares to various stockholders at \$0.025 per share for \$5,000.

On July 15, 2010, various stockholders requested that the Company cancel 1,250 common shares.

On March 31, 2011, the Company effected a 1 for 25 reverse split of the Company's issued and outstanding common stock.

Edgar Filing: BOLD ENERGY INC. - Form 10-K

On May 12, 2011 the company issued an aggregate of 25,000,000 common shares to various stockholders @ \$0.31 per share. The shares were issued as repayment of \$25,000 of principal due to the stockholders and \$7,725,000 as finance cost. The accrued interest to date was forgiven by the lenders.

In addition on May 12, 2011, the company issued 48,388 shares @\$0.31 per share to Ms. Eden Clark as compensation for services rendered.

As of July 31, 2011, there are a total of 27,053,138 shares of common stock outstanding.

As of July 31, 2011, the Company has not granted any stock options

All references in these financial statements to number of common shares, price per share and weighted number of common shares outstanding prior to 1 for 25 reverse stock split on March 31, 2011 have been adjusted to reflect this stock split on a retroactive basis, unless otherwise noted.

NOTE 4 - LOAN PAYABLE - RELATED PARTY LOANS

As of July 31, 2011 the Company received advances from a Director in the amount of \$34,367, respectively, to pay for general operating expenses. The amounts due to the related party are unsecured and non-interest bearing with no set terms of repayment.

On November 26, 2009, the former director forgave a loan in the amount of \$4,788, which was owed to him from the Company.

NOTE 5 - LOANS

On May 12, 2011 the company issued 25,000,000 common shares at \$0.31 per share in repayment of \$25,000 of the total \$30,000 loans from Colorado Ltd and Olive Ltd. The accrued interest to date was forgiven by the lenders.

Edgar Filing: BOLD ENERGY INC. - Form 10-K

A reconciliation of the expected income tax expense, computed by applying a 35% U.S. Federal corporate income tax rate to income before taxes to income tax expense is as follows:

	2011	2010
	-----	-----
Expected income tax expense	\$ (2,720,170)	\$ (18,968)
Share-based payments	2,709,000	-
Change in valuation allowance	11,170	18,968
	-----	-----
	\$ --	\$ --
	=====	=====

At July 31, 2011 and 2010, the Company had available a net-operating loss carry-forward for Federal tax purposes of approximately \$86,106 and \$54,193, respectively, which may be applied against future taxable income, if any, at various times through 2028. Certain significant changes in ownership of the Company may restrict the future utilization of these tax loss carry-forwards.

At July 31, 2011 and 2010, the Company has a deferred tax asset of \$11,170 and 18,968 representing the benefit of its net operating loss carry-forward. The Company has not recognized the tax benefit because realization of the tax benefit is uncertain and thus a valuation allowance has been fully provided against the deferred tax asset.

Reconciliation between the statutory rate and the effective tax rate is as follows at July 31:

NOTE 7 SUBSEQUENT EVENTS

During the period April 27, 2012 Company issued 30,000,000 shares to the President and Secretary for the services provided from February 1, 2012 to July 31, 2012.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

Our auditors are De Joya Griffith & Company, LLC, Certified Public Accountants & Consultants, operating from their offices in Henderson, NV. There have not been any changes in or disagreements with our accountants on accounting, financial disclosure or any other matter.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Company management, including our chief executive officer and chief financial officer, have evaluated our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act) as of the end of the period covered by this Form 10-K. Based on that evaluation, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures are effective to ensure that the information we are required to disclose in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time period specified in Securities and Exchange Commission rules and forms. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including cost limitations, the possibility of human error, judgments and assumptions regarding the likelihood of future events, and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Changes in Internal Controls over Financial Reporting

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or 15d-15 promulgated under the Exchange Act that occurred during the last fiscal quarter of the fiscal year ended July 31, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Management is aware that there is a lack of segregation of duties at our company due to the limited number of employees dealing with general administrative and financial matters. At this time management believes that, given the individuals involved and the control procedures in place, the risks associated with such lack of segregation are insignificant, and that the potential benefits of adding additional employees to segregate duties more clearly do not justify the associated added expense. Management will continue to evaluate this segregation of duties. In addition, management is aware that many of our currently existing internal controls are undocumented. Our management will be working to document such internal controls over the coming year.
