Gross margin was 20.5% in 3Q18, compared to 24.5% (19.7%, excluding technology licensing revenue) in 2Q18 and 23.0% in 3Q17.

Set out below is a copy of the full text of the press release by the Company and its subsidiaries (the “Group”) on November 7, 2018, in relation to its unaudited results for the three months ended September 30, 2018.

All currency figures stated in this report are in US Dollars unless stated otherwise.

The consolidated financial information is prepared in accordance with International Financial Reporting Standards (“IFRS”) and is presented in accordance with IFRS unless otherwise stated below.

Shanghai, China – November 7, 2018. Semiconductor Manufacturing International Corporation (NYSE: SMI; SEHK: 981) (“SMIC”, the “Company” or “our”), one of the leading semiconductor foundries in the world, today announced its consolidated results of operations for the three months ended September 30, 2018.

Fourth Quarter 2018 Guidance:

The following statements are forward looking statements based on current expectations and involved risks and uncertainties, some of which are set forth under “Safe Harbor Statements” below. The Company expects:

Revenue to decrease by 7% to 9% QoQ.

Gross margin to range from 15% to 17%.

Non-GAAP operating expenses, excluding the effect of employee bonus accrual, government funding, impairment loss of machinery and equipment, gain or loss on the disposal of machinery and equipment and gain from the disposal of living quarters, to range from \$226 million to \$230 million.

Non-controlling interests of our majority-owned subsidiaries to range from positive \$20 million to positive \$22 million (losses to be borne by non-controlling interests).

Dr. Zhao Haijun and Dr. Liang Mong Song, SMIC’s Co-Chief Executive Officers commented, “With the support of our customers and the efforts of our colleagues, our third quarter performance was in line with guidance. When excluding revenue from technology licensing, revenue from our China region continued to grow 40% year over year, and 5% quarter over quarter. Wireless communications, power management and fingerprint IC applications were the major growth drivers. Looking at the full year, our annual revenue target remains unchanged.

Looking at the fourth quarter, although the industry has entered a period of seasonal adjustment, we continue to carry out customer engagement and verification on our advanced technology platforms, so as to gather strength for future growth.

Throughout this year, many changes have taken place both in the industry and market. At present, the most important task for SMIC is to seize the opportunities in the market and in new applications, and actively enhance the quality of products and customer service. In terms of technology research and development, we will continue to put in our utmost effort to focus on the planning and development of mainstream and advanced technology platforms, and maintain long-term and stable partnership with our customers. As China’s preferred foundry partner, we believe that together with our customers, employees and shareholders, we will benefit from the growth opportunities of China’s IC market.”

## Safe Harbor Statements

(Under the Private Securities Litigation Reform Act of 1995)

This press release contains, in addition to historical information, "forward-looking statements" within the meaning of the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements, including statements under “Fourth Quarter 2018 Guidance”, “Capex Summary” and the statements contained in the quotes of our Co-Chief Executive Officers are based on SMIC's current assumptions, expectations and projections about future events. SMIC uses words like "believe," "anticipate," "intend," "estimate," "expect," "project," "target" and similar expressions to identify forward looking statements, although not all forward-looking statements contain these words. These forward-looking statements are necessarily estimates reflecting the best judgment of SMIC's senior management and involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC's actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with cyclicity and market conditions in the semiconductor industry, intense competition in the semiconductor industry, SMIC's reliance on a small number of customers, timely wafer acceptance by SMIC's customers, timely introduction of new technologies, SMIC's ability to ramp new products into volume, supply and demand for semiconductor foundry services, industry overcapacity, shortages in equipment, components and raw materials, availability of manufacturing capacity, financial stability in end markets, orders or judgments from pending litigation, intensive intellectual property litigation in semiconductor industry, general economic conditions and fluctuations in currency exchange rates.

In addition to the information contained in this press release, you should also consider the information contained in our other filings with the SEC, including our annual report on Form 20-F filed with the SEC on April 27, 2018, especially in the "Risk Factors" section and such other documents that we may file with the SEC or The Hong Kong Stock Exchange Limited ("SEHK") from time to time, including current reports on Form 6-K. Other unknown or unpredictable factors also could have material adverse effects on our future results, performance or achievements. In light of these risks, uncertainties, assumptions and factors, the forward-looking events discussed in this press release may not occur. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date stated or, if no date is stated, as of the date of this press release. Except as may be required by law, SMIC undertakes no obligation and does not intend to update any forward-looking statement, whether as a result of new information, future events or otherwise.

#### About Non-Generally Accepted Accounting Principles (“non-GAAP”) Financial Measures

To supplement SMIC’s consolidated financial results presented in accordance with IFRS, SMIC uses in this press release non-GAAP measures of operating results that are adjusted to exclude finance cost, depreciation and amortization, income tax benefits and expenses, the effect of employee bonus accrual, government funding, impairment loss of machinery and equipment, gain or loss on the disposal of machinery and equipment and gain from the disposal of living quarters. This earnings release also includes fourth quarter 2018 guidance for non-GAAP operating expenses. The presentation of non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with IFRS. This earnings release includes EBITDA, EBITDA margin and non-GAAP operating expenses which consist of total operating expenses as adjusted to exclude the effect of employee bonus accrual, government funding, impairment loss of machinery and equipment, gain or loss on the disposal of machinery and equipment and gain from the disposal of living quarters. These non-GAAP financial measures are not calculated or presented in accordance with, and are not alternatives or substitutes for financial measures prepared in accordance with IFRS, and should be read only in conjunction with the Group’s financial measures prepared in accordance with IFRS. The Group’s non-GAAP financial measures may be different from similarly-titled non-GAAP financial measures used by other companies.

SMIC believes that use of these non-GAAP financial measures facilitates investors’ and management’s comparisons to SMIC’s historical performance. The Group’s management regularly uses these non-GAAP financial measures to understand, manage and evaluate the Group’s business and make financial and operational decisions.

The accompanying table has more information and reconciliations of each non-GAAP financial measure to its most directly comparable GAAP financial measure. A reconciliation of non-GAAP guidance measures to corresponding GAAP measures is not available on a forward-looking basis because the effect of these adjustment items excluded for the purpose of non-GAAP operating expenses guidance are subject to some unpredictable conditions that cannot be estimated with reasonable certainty.

Other operating income	(29,234)	(5,420)	439.4%	(7,947)	267.9%

R&D expenses increased by \$5.8 million QoQ to \$153.0 million in 3Q18, compared to \$147.2 million in 2Q18. Excluding the funding of R&D contracts from the government, R&D expenses increased by \$6.1 million QoQ to \$172.3 million in 3Q18. The change was mainly due to higher level of R&D activities in 3Q18. Funding of R&D contracts from the government was \$19.3 million in 3Q18, compared to \$19.0 million in 2Q18.

The increase in other operating income was mainly due to 1) an increase in government funding received in 3Q18 and 2) higher gain on the disposal of equipment and living quarters in 3Q18.

## Other Income (Expense), Net

Amounts in US\$ thousands	3Q18	2Q18	QoQ	3Q17	YoY
Other income (expense), net	17,843	14,955	19.3%	7,290	144.8%

Share of (loss) gain of investment accounted for using equity method	(1,616)	(1,905)	-15.2%	1,181	-

The finance costs in 3Q18 were covered by the interest subsidies received from the government. Foreign exchange gains or losses were mainly due to the net impact of cash flow hedging and the depreciation of RMB against USD in 3Q18. Foreign monetary assets mainly consist of cash and cash equivalent and trade and other receivables in RMB. Foreign monetary liabilities mainly consist of borrowings, medium-term notes and trade and other payables in RMB.

## Capex Summary

Capital expenditures were \$527.8 million in 3Q18, compared to \$558.7 million in 2Q18.

The planned 2018 capital expenditures for foundry operations decreased from approximately \$2.3 billion to approximately \$2.0 billion, of which approximately \$1.2 billion are expected to be spent for the expansion of capacity in our majority-owned Beijing 300mm fab, Tianjin 200mm fab and Shanghai 300mm fab and approximately \$0.3 billion is mainly expected to be used for R&D equipment.

The planned 2018 capital expenditures for non-foundry operations are approximately \$110.3 million, mainly for the construction of employee's living quarters.

## Note:

(1) Non-GAAP operating expenses are defined as operating expenses adjusted to exclude the effect of employee bonus accrual, government funding, impairment loss of machinery and equipment, gain or loss on the disposal of machinery and equipment and gain from the disposal of living quarters. SMIC reviews non-GAAP operating expenses together with operating expenses to understand, manage and evaluate its business and make financial and operational decisions. The Group also believes it is useful supplemental information for investors and analysts to assess its operating performance. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact our net profit for the period. In addition, because non-GAAP financial measures are not calculated in the same manner by all companies, they may not be comparable to other similarly titled measures used by other companies. In light of the foregoing limitations, you should not consider the non-GAAP operating expenses in isolation from or as an alternative to operating expenses prepared in accordance with IFRS.

The following table sets forth the reconciliation of the non-GAAP operating expenses to its most directly comparable financial measure presented in accordance with IFRS, for the periods indicated.

	For the three months ended		
	September 30, 2018 (Unaudited)	June 30, 2018 (Unaudited)	September 30, 2017 (Unaudited)
Operating expenses	(180,371)	(198,697)	(154,592)
Employee bonus accrued	1,166	2,916	-
Government funding	(39,422)	(21,162)	(28,459)
Accrual of impairment loss of machinery and equipment	-	443	-
(Gain) loss on the disposal of machinery and equipment	(8,210)	890	(4,972)
Gain from the disposal of living quarters	(751)	(1,701)	(1,074)
Non-GAAP operating expenses	(227,588)	(217,311)	(189,097)

(2) EBITDA is defined as profit for the period excluding the impact of the finance cost, depreciation and amortization, and income tax benefit and expense. EBITDA margin is defined as EBITDA divided by revenue. SMIC uses EBITDA margin as a measure of operating performance; for planning purposes, including the preparation of the Group's annual operating budget; to allocate resources to enhance the financial performance of the Group's business; to evaluate the effectiveness of the Group's business strategies; and in communications with SMIC's board of directors concerning the Group's financial performance. Although EBITDA is widely used by investors to measure a company's operating performance without regard to items, such as net finance cost, income tax benefit and expense and depreciation and amortization that can vary substantially from company to company depending upon their respective financing structures and accounting policies, the book values of their assets, their

capital structures and the methods by which their assets were acquired, EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of the Group's results of operations as reported under IFRS. Some of these limitations are: it does not reflect the Group's capital expenditures or future requirements for capital expenditures or other contractual commitments; it does not reflect changes in, or cash requirements for, the Group's working capital needs; it does not reflect finance cost; it does not reflect cash requirements for income taxes; that, although depreciation and amortization are non-cash charges, the assets being depreciated or amortized will often have to be replaced in the future, and these measures do not reflect any cash requirements for these replacements; and that other companies in SMIC's industry may calculate these measures differently than SMIC does, limiting their usefulness as comparative measures.

CONDENSED CONSOLIDATED STATEMENT OF CASH FLOWS

(In US\$ thousands)

Note:

(1) In July 2018, there were four arrangements in consideration of US\$306.8 million entered into by the Group with Xinhe Leasing (Tianjin) Co., Ltd. (a wholly-owned subsidiary of Sino IC Leasing) in the form of a sale and leaseback transaction with a repurchase option. A batch of production equipment of the Group was sold and leased back under the arrangements. As the repurchase prices were set at the expected fair value and the Group is not reasonably certain that it will exercise the repurchase options, the above transactions were accounted as gain of US\$7.4 million from the disposal of property, plant and equipment followed with an operating lease.
